# 199/299/398/399 (Faculty of Arts & Science Programs)

## First-Year Seminars: 199H1/Y1 Courses

Director: Pamela Klassen, Vice-Dean Undergraduate  
[deb.shaw@utoronto.ca](mailto:deb.shaw@utoronto.ca) (416-978-0359)

The 199Y1 and 199H1 seminars are designed to provide entering Arts & Science (St. George) degree undergraduates with the opportunity to work closely with an instructor in a class of no more than twenty-four students. Each Seminar focuses on specific disciplinary or interdisciplinary issues, questions or controversies of particular interest to the instructor, and introduces the students to the excitement of discovery inherent in academic work at the University of Toronto. In addition, students are encouraged to develop their ability to think analytically and to express ideas and logical arguments clearly and coherently, both orally and in writing.

These interactive seminars are not designed as introductory surveys to a discipline or program. Rather, they are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Thus, students are encouraged to experience material and methods that are outside the area in which they will eventually concentrate in order to benefit fully from the diversity of the Faculty of Arts & Science.

Each 199Y1 and 199H1 seminar has a generic designator, which corresponds to the Breadth Category the course can fulfill: CCR199 (Creative and Cultural Representations), TBB199 (Thought, Belief, and Behaviour), SII199 (Society and Its Institutions), LTE199 (Living Things and Their Environment), PMU199 (The Physical and Mathematical Universes), or XBC199 (Y course that counts as half in each of two breadth categories).

The 199Y1 and 199H1 seminars count for degree credit in the same way as any other course, but do not count towards a program. First-Year Seminars can be used to satisfy the Breadth Requirement; for details, see the Degree Requirements section of this Calendar).

For a complete listing of the 199Y1 and 199H1 courses, see: <http://www.artsci.utoronto.ca/current/course/fyh-1/fyh>.

NOTE: 198H1 may be used to allow enrolment in two 199H1 seminars in the same session in the same Breadth Category. Students may enrol in ONLY one 199Y1 OR two 199H1 courses.

## Research Opportunity Program: 299Y1 Courses

Director: Pamela Klassen, Vice-Dean Undergraduate  
[deb.shaw@utoronto.ca](mailto:deb.shaw@utoronto.ca) (416-978-0359)

The Research Opportunity Program (ROP) provides an opportunity for Arts & Science (St. George) degree students in their second and third year (i.e., after completing at least 4 but not more than 14 credits) to earn one course credit by participating in a faculty member's research project. Each 299Y1/399Y1 course has a program-specific designator, such as ANT, CLA, CSB, VIC, etc. Not all departments or programs will necessarily participate in the ROP each year.

Descriptions of ROP projects are available on the Faculty's web site mid-February. Students wishing to participate should email online ROP Application forms to [deb.shaw@utoronto.ca](mailto:deb.shaw@utoronto.ca) by the due date indicated on the website.

Students can apply to a maximum of three ROPs in total, but can accept only one 299Y1 project and one 399Y1 project the following year. Students may not participate in a 299Y1 and a 39Y1 in the same Academic year. Students are informed in mid-April whether they have been accepted. Successful applicants are registered by the ROP office. Regular tuition fees apply.

Students are expected to keep a journal recording meetings, progress, and what was learned about the project in particular and the nature of research in general.

## Research Excursions: 398H0/399Y0 Courses

Directors:  
Pamela Klassen, Vice-Dean Undergraduate  
Mary-Priscilla Stevens, Director, International Programs and Partnerships  
[deb.shaw@utoronto.ca](mailto:deb.shaw@utoronto.ca) (416-978-0359)

The 398 Research Excursions provides an opportunity for Arts & Science (St. George) degree students in their third year (i.e., after completing at least 9 but not more than 14 credits) to participate in a practical or experiential activity under the supervision of a faculty member. The practical, experiential component can take the form of research/learning in archives, laboratories, libraries, or in a field camp, etc.—but not in a classroom at another university (that is covered by the Faculty's summer abroad and exchange programs). The projects run within the May-August period, when both Faculty and students would be able to make the time commitments necessary. Regular tuition fees apply.

Pilot Project: To accommodate both the needs of the students and the supervisor, for 2017-18 REPs will allow students with up to 16 FCE (fourth year) to participate. However, REPs must include a majority of students having between 9 and 14 FCE. Students must meet all criteria listed above and be approved for participation by Deborah Shaw in the REP office.

Each 398H0/Y0 has a program-specific designator, such as ANT, CLA, CSB, VIC, etc., and would be eligible to count towards program completion if the program sponsor (Chair or Director) so chooses. A limited number of 398H0/Y0 courses are available each year. Faculty supervisors propose the projects and choose the students who apply.

Students must also attend a Safety Abroad workshop through the Safety Abroad Office. Descriptions of the projects are available on the Faculty's web site in early February.

Applications are available online and must be emailed to the supervising instructor by late February. Students are informed in mid-March whether they have been accepted. Successful applicants are registered by the 399 office.

# Academic Bridging Program

## Faculty List

### Director

T. Socknat, MA, Ph D

### Associate Professors, Teaching Stream

W. B. MacDonald, BA, MA

T. Moritz, MA, Ph D

J. B. Rose BA, MA

## Introduction

The Academic Bridging Program allows individuals, who have been away from formal education for some time and are at least 19 years of age, to pursue degree studies at the University of Toronto. The courses in the program are designed to help ease the transition into first-year university courses in Humanities and Social Sciences after time away from prior education.

Courses feature study skills, essay writing skills, library research skills and the methodology of the specific academic discipline involved. Students are admitted by Woodsworth College to one of four Academic Bridging Program courses: WDW101Y1 (Canadian History), WDW102Y1 (Contemporary Canada), WDW103Y1 (Introduction to the Study of Literature) and WDW104Y1 (Introduction to Environmental Studies). Both part-time and full-time options are available to students.

Students who successfully complete the Academic Bridging Program, earning a grade of 63% or above, are admitted to the Faculty of Arts and Science, at the University of Toronto, with at least one full credit towards their degree for those who complete the part-time Academic Bridging Program. Students who complete the full-time program may transfer up to two full credits towards their degree.

### Program Learning Objectives

#### Develop Academic Skills:

- students learn clear, mature and reflective spoken and written communication
- students learn critical analytical reading, thinking and writing
- students learn basic information literacy and good academic work habits and study skills

#### Understand University Culture:

- students learn appropriate classroom protocol
- students learn to use classroom technology
- students learn to access university resources

#### Enhance Life Skills:

- students learn to assess their personal and academic strengths and weaknesses, and readiness for university
- students learn to develop an appreciation of lifelong learning in and out of the classroom
- students learn to think and act independently and responsibly

The program is offered in the Fall, Winter and Summer sessions. To find out more about the program please contact the Academic Bridging Program office.

## Academic Bridging Program Courses

### WDW101Y1 - Canadian History (formerly JWH100Y1)

Hours: 72L

This introductory, foundational course is a survey of Canada's political, social, and economic history with special attention to its evolution as a diverse, multicultural nation from European roots. Other themes focus on Canada's native peoples, regionalism, immigration/migration issues, and Canada's role on the international stage, especially relations with Britain and the United States. Not eligible for CR/NCR option.

**Exclusion:** JWH100Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

### WDW102Y1 - Contemporary Canada (formerly JWU100Y1)

Hours: 72L

This interdisciplinary, foundational course provides an introduction to contemporary Canadian society. The course includes the study of geography, politics, literature and culture through a historical framework of the twentieth century. It also emphasizes particular themes including aboriginal issues, Quebec nationalism, gender/women's issues and immigration/multiculturalism. Not eligible for CR/NCR option.

**Exclusion:** JWU100Y1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## **WDW103Y1 - Introduction to the Study of Literature (formerly ENG185Y1)**

**Hours:** 72L

This discipline based, writing intensive course introduces essential rhetorical and critical skills, focusing on how to recognize major literary forms and how to read and analyze outstanding classic and contemporary literary works of drama, poetry and fiction. Not eligible for CR/NCR option.

**Exclusion:** ENG185Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **WDW104Y1 - Introduction to Environmental Studies**

**Hours:** 72L

This interdisciplinary course introduces the major issues regarding the sustainability of the global environment in the face of human development by integrating humanities and social science with the fundamental concept of environmental science. It examines major environmental problems, such as rapid climate change and land degradation as well as the role and impact of government, economics, and ethics on environmental issues.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

# Actuarial Science

## Faculty List

### Professors Emeriti

D.F. Andrews, M Sc, Ph D  
D.A.S. Fraser, BA, Ph D, FRSC  
I. Guttman, MA, Ph D  
P. McDunnough, M Sc, Ph D  
M.S. Srivastava, M Sc, Ph D  
A.M. Vukov, MA, ASA

### Professor and Chair of the Department

J. Stafford, M Sc, Ph D

### Professor and Associate Chair, Graduate Studies

F. Yao, B Sc, M Sc, Ph D

### Assistant Professor, Teaching Stream and Associate Chair Undergraduate Studies

V. Zhang, B Sc, M Sc, FSA, ACIA, Actuarial Science

### Associate Professor, Teaching Stream and Associate Chair, Undergraduate Studies

A. Gibbs, B. Math, B Ed, M Sc, Ph D, Statistics

### University Professor

N.M. Reid, M Sc, Ph D, FRSC, OC

### Professors

S. Broverman, B Sc, M Sc, Ph D, ASA  
R. Craiu, B Sc, Ph D  
M.J. Evans, MA, Ph D (UTSC)  
A. Feuerverger, B Sc, Ph D  
S. Jaimungal, B Sc, M Sc, Ph D  
K. Knight, M Sc, Ph D  
X.S. Lin, M Sc, Ph D, ASA  
R. Neal, B Sc, Ph D  
J. Quastel, MS, Ph D  
J.S. Rosenthal, MA, Ph D  
L. Sun, B Sc, Ph D  
B. Virag, Ph D (UTSC)

### Associate Professors

A. Badescu, B Sc, M Sc, Ph D  
D. Brenner M Sc, Ph D  
L.J. Brunner, MA, Ph D (UTM)  
Z. Zhou, B Sc, Ph D

### Assistant Professors

D. Kong, Ph D (UTM)  
D. Roy, B Sc, M Sc, Ph D (UTSC)

### Associate Professor, Teaching Stream

B. White, Ph D

### Assistant Professors, Teaching Stream

N. Taback, B Sc, M Sc, Ph D

## Introduction

Actuarial Science is based upon the application of mathematical techniques to reduce the impact of such hazards as loss of income through death, disability, or retirement, or loss of property through

fire, accident, or theft. Actuaries are the chief architects of life, health, and property insurance plans, and pension plans, and bear the major responsibility for their financial soundness. By using concepts from the areas of probability and finance, actuaries model, forecast and value the costs of benefits that will be provided to the participants in such plans. Methods developed for modeling insurance risk can also be applied to modeling investment risk, and actuaries apply their expertise to the valuation of sophisticated investment vehicles such as options on equities, bonds and other investment derivatives. ACT230H1 and ACT240H1, though somewhat technical, are courses of interest to a wide audience, since almost every student will from time to time be either a saver or a borrower, and will be covered by insurance and pension plans. Other actuarial courses deal with more specialized topics, and are generally taken by students with a more serious interest in the field or who want to pursue a career as an actuary. Professional accreditation as an actuary is obtained via the Canadian Institute of Actuaries by passing a series of examinations set by the Society of Actuaries or the Casualty Actuarial Society. University of Toronto's Actuarial Science program is accredited by the Canadian Institute of Actuaries and some professional requirements can be satisfied through courses in the actuarial program. For more information about actuarial studies and careers, contact Professor Broverman or Professor Lin.

## Actuarial Science Programs

### Actuarial Science Specialist (Science Program)

#### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol. **Courses required in either the major or specialist programs in actuarial science may not be taken as CR/NCR.**

In order to enrol into the Actuarial Science Specialist program, the following courses must be completed: MAT137Y1 with a final mark of at least 65%, and ECO101H1 + ECO102H1 both with a final mark of at least 70%, and ACT240H1 and ACT245H1 and ACT247H1 with a final mark of at least 70% in each course. Students will usually enrol into the Actuarial Science Major program after completion of MAT137Y1 and ECO101H1 + ECO102H1, and then they will enrol into the Specialist program after the completion of ACT240H1, ACT245H2 and ACT247H1. Once these requirements are met by a student, the student will be eligible to enroll in the Actuarial Science Specialist Program. **Note that the Mathematics Department enforces MAT223H/MAT240H as a prerequisite for MAT237Y.**

#### Completion Requirements:

(12.5 courses)

This program is designed to prepare a student for professional work as an actuary, and more generally in the financial risk management industry.

**First Year:**

1. ECO101H1 (70%), ECO102H1 (70%)
2. MAT137Y1 (65%)/MAT157Y1
3. MAT223H1/MAT240H1 (should be taken in first year, enforced as a prereq for MAT237Y)
4. CSC108H1/CSC120H1/CSC121H1/CSC148H1

STA130H1 is strongly recommended.

**Second Year:**

1. ACT240H1 (70%), ACT245H1 (70%), ACT247H1 (70%)
2. MAT237Y1/MAT257Y1
3. STA257H1, STA261H1
4. MGT201H1

**Higher Years:**

ACT348H1, ACT349H1, ACT370H1, ACT451H1, ACT452H1, ACT455H1, ACT460H1, ACT466H1, STA302H1, STA347H1, STA457H1

**NOTES:**

In order to enroll in ANY 300- or 400-level ACT course, the minimum grade of C must be obtained in each of ACT240H1, ACT245H1 and ACT247H1. **The enrolment requirements and the prerequisites for all ACT courses will be strictly enforced.**

Students who have an interest in pursuing studies in mathematical finance should consider taking MAT244H1, MAT336H1/MAT337H1 and APM346H1. Students in the Actuarial Science Specialist Program who have successfully completed ACT348H1 and ACT349H1 may request to enroll in the following RSM courses (provided the appropriate prerequisites and corequisites are met): RSM430H1, 433H1, 437H1. MAT246H1 is recommended (not required) for students in the Actuarial Science Specialist Program.

## Actuarial Science Major (Science Program)

**Enrolment Requirements:**

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol. **Courses required in either the major or specialist programs in actuarial science may not be taken as CR/NCR.**

Required courses: MAT137Y1 with a final mark of at least 65% and ECO101H1 + ECO102H1, both with a final mark of at least 70%.

**Note that the Mathematics Department enforces MAT223H/240H as a prerequisite for MAT237Y.**

**Completion Requirements:**

(8.5 courses or their equivalent, including at least two full-course equivalents at the 300+-level, of which at least one is at the 400 level)

**First Year:**

1. MAT137Y1 (65%)/MAT157Y1
2. ECO101H1 (70%), ECO102H1 (70%)
3. MAT223H1/MAT240H1 (should be taken in first year, enforced prerequisite for MAT237Y)

STA130H1 is strongly recommended.

**Higher Years:**

1. MGT201H1
2. ACT240H1, ACT245H1, ACT247H1, ACT348H1, ACT370H1
3. MAT237Y1/MAT257Y1
4. STA257H1, STA261H1
- 5 Two of: ACT349H1, ACT371H1, ACT372H1, ACT451H1, ACT452H1, ACT455H1, ACT460H1, ACT466H1, ACT470H1, ACT473H1, ACT475H1, STA302H1, STA347H1, STA457H1

**NOTES:**

In order to enroll in ANY 300- or 400-level ACT course, the minimum grade of C must be obtained in each of ACT240H1, ACT245H1 and ACT247H1. **The enrolment requirements and the prerequisites for all ACT courses will be strictly enforced.**

Students who have an interest in pursuing studies in mathematical finance should consider taking MAT244H1, MAT336H1/MAT337H1 and APM346H1.

## Actuarial Science Courses

### ACT230H1 - Mathematics of Finance for Non-Actuaries

**Hours:** 24L/12T

Introduction to financial mathematics, interest measurement, present value calculation, annuity valuation, loan amortization, consumer financing arrangements, bond valuation. The course is aimed at a general audience who will not be continuing in the actuarial science program.

**Prerequisite:** First-year Calculus

**Exclusion:** ACT240H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT240H1 - Mathematics of Investment & Credit

**Hours:** 24L/12T

Interest, discount and present values, as applied to determine prices and values of annuities, mortgages, bonds, equities; loan repayment schedules and consumer finance payments in general; yield rates on investments given the costs on investments.

**Prerequisite:** MAT137Y1 (minimum grade 65%)/MAT157Y1

**Exclusion:** ACT230H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT245H1 - Financial Principles for Actuarial Science I

**Hours:** 24L/12T

Term structure of interest rates, cashflow duration, convexity and immunization, forward and futures contracts, interest rate swaps, introduction to investment derivatives and hedging strategies.

**Prerequisite:** ACT240H1, MAT137Y1 (minimum grade 65%)/MAT157Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT247H1 - Introductory Life Contingencies

**Hours:** 36L

Probability theory applied to survival and to costs and risks of life assurances, life annuities, and pensions; analysis of survival distributions; international actuarial notation.

**Prerequisite:** ACT240H1; MAT137Y1 (minimum grade 65%)/MAT157Y1; STA257H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT348H1 - Advanced Life Contingencies

**Hours:** 36L

Determination of benefit premium and benefit reserves for life insurance and annuities; analysis of insurance loss random variables; theory of life contingencies for multiple lives.

**Prerequisite:** ACT240H1 (minimum grade C); ACT245H1 (minimum grade C); ACT247H1 (minimum grade C); (STA257H1, STA261H1); MAT237Y1/MAT257Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT349H1 - Corporate Finance for Actuarial Science

**Hours:** 24L/12T

Actuarial applications of financial mathematics and economics.

**Prerequisite:** ACT240H1 (minimum grade C); ACT245H1 (minimum grade C); ACT247H1 (minimum grade C); (STA257H1, STA261H1); MAT237Y1/MAT257Y1

**Exclusion:** ECO358H1, ECO359H1, RSM332H1, RSM333H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT370H1 - Financial Principles for Actuarial Science II

**Hours:** 36L

Mathematical theory of financial derivatives, discrete and continuous option pricing models, hedging strategies and exotic option valuation.

**Prerequisite:** ACT240H1 (minimum grade C); ACT245H1 (minimum grade C); ACT247H1 (minimum grade C); (STA257H1, STA261H1); MAT237Y1/MAT257Y1

**Exclusion:** RSM435H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT371H1 - Basic Reserving Methods For P&C Insurance

**Hours:** 24L/12T

Topics covered include reserving data and triangles, diagnoses methods that range from triangle of ratios of paid claims to reported claims to triangle of reported claim ratios. The syllabus also includes projection techniques.

**Prerequisite:** ACT240H1, STA257H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT372H1 - Basic Ratemaking Methods For P&C Insurance

**Hours:** 24L/12T

This course covers the basic ratemaking methods for P&C insurance. It assumes that students are familiar with traditional reserving diagnoses and projection methods. The syllabus would introduce concepts related to earning of exposures, on-level factors, catastrophe loading, large loss loading and credibility.

**Prerequisite:** ACT371H1

**Distribution Requirements:** Science

## ACT398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT451H1 - Loss Models

**Hours:** 36L

Loss models policy adjustments, frequency and severity models, compound distributions.

**Prerequisite:** STA261H1, ACT348H1, STA347H1 (ACT348H1, STA347H1 can be corequisite with permission of instructor)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT452H1 - Loss Models II

**Hours:** 36L

Estimation of Loss and Survival Models using complete, censored and truncated data. Product-Limit estimation, empirical estimation, moment and percentile estimation, maximum likelihood estimation and simulation models.

**Prerequisite:** ACT348H1, ACT451H1; STA261H1, STA347H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT455H1 - Advanced Topics in Actuarial Science

**Hours:** 36L

Advanced life contingencies, multiple decrement theory, insurance policy expenses, multi-state transition models, Poisson processes.

**Prerequisite:** ACT348H1; STA347H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT460H1 - Stochastic Methods for Actuarial Science

**Hours:** 36L

Applications of the lognormal distribution, Brownian motion, geometric Brownian motion, martingales, Itos lemma, stochastic differential equations, interest rate models, the Black-Scholes model, volatility, value at risk, conditional tail expectation.

**Prerequisite:** STA347H1 (required)/ ACT370H1 strongly recommended

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT466H1 - Credibility and Simulation

**Hours:** 36L

Limited fluctuation credibility, Bayesian estimation, Buhlmann credibility, non-parametric credibility methods, inverse transformation simulation method, specialized simulation methods for the normal and lognormal distributions, Monte Carlo methods, the bootstrap method.

**Prerequisite:** ACT451H1; STA261H1, STA347H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT470H1 - Advanced Pension Mathematics

**Hours:** 36L

Topics in pension mathematics; funding methods for pension plans. (Offered in alternate years)

**Prerequisite:** ACT348H1 or permission of instructor

**Corequisite:** ACT455H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT471H1 - Topics in Casualty Actuarial Science

**Hours:** 36L

Topic for 2016-2017: Advanced Ratemaking Methods for P&C Insurance

This course will cover advanced ratemaking methods for P&C insurance. It includes topics such as commercial insurance pricing, catastrophic pricing, reinsurance pricing and GLM applications to P&C insurance.

(Offered in alternate years)

**Prerequisite:** permission of instructor

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT473H1 - Issues In Actuarial Practice

**Hours:** 24L/24T

Case study approach to current issues in life insurance, pension consulting and casualty actuarial practice. The focus of the course will be on communication and presentation. This course is Pass/Fail. Not eligible for Credit/No Credit. The course is open to students in the specialist program in actuarial science. Students in the major program in actuarial science can enrol into the course with permission of the department.

**Prerequisite:** ACT348H1, ACT349H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ACT475H1 - Insurance Products and Regulation with AXIS

**Hours:** 36L

Examine key types of insurance products and their pricing and valuation. Review representative developments in insurance regulations in US, Europe and Canada. Demonstrate case studies using leading actuarial application AXIS.

**Prerequisite:** ACT240H1, ACT245H1, ACT247H1, ACT348H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## **ACT496H1 - Readings in Actuarial Science**

**Hours:** TBA

Independent study under the direction of a faculty member. Persons wishing to take this course must have the permission of the Undergraduate Secretary and of the prospective supervisor. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## **ACT497H1 - Readings in Actuarial Science**

**Hours:** TBA

Independent study under the direction of a faculty member. Persons wishing to take this course must have the permission of the Undergraduate Secretary and of the prospective supervisor. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## **ACT498Y1 - Readings in Actuarial Science**

**Hours:** TBA

Independent study under the direction of a faculty member. Persons wishing to take this course must have the permission of the Undergraduate Secretary and of the prospective supervisor. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## **ACT499Y1 - Readings in Actuarial Science**

**Hours:** TBA

Independent study under the direction of a faculty member. Persons wishing to take this course must have the permission of the Undergraduate Secretary and of the prospective supervisor. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

# American Studies

## Faculty List

### Professor and Interim Director (until June 30, 2018)

Robert Vipond

### Lecturer

Alexandra Rahr, Ph.D.

## Introduction

The American Studies Program is designed to provide students with a broad, yet deep, education about the United States. To ensure breadth, students are required to take two interdisciplinary core courses that range widely both with respect to the themes covered and disciplinary perspectives applied. As well, the Program offers a wide selection of courses from participating departments and programs in the Faculty, giving students broad exposure to fundamental themes of American life. To ensure depth, the American Studies Program relies heavily on upper level courses, including its own capstone seminars at the 400-level.

## American Studies Programs

### American Studies Major (Arts Program)

#### Completion Requirements:

##### 7.0 full courses or equivalent (FCEs), specified as follows:

1. 1.0 FCE from the 200-level gateway courses in English (ENG250Y1), History (HIS271Y1), Geography (GGR240H1 AND GGR254H1), or Political Science (POL203Y1).
2. USA200H1 and USA300H1 (total of 1.0 FCE).
3. 1.0 FCE from at least three disciplinary/thematic clusters, categorized as follows (3.0 FCEs): a) Politics and Economics b) Society (Aboriginal Studies, Anthropology, East Asian Studies, Geography) c) Culture (Cinema Studies, English, Music, Religion) d) History
4. 0.5 FCE in Breadth Requirement Category 5: The Physical or Mathematical Universe, or another half course approved by the CSUS Program Director, to fulfill the Quantitative Reasoning competency requirement of the program.
5. Additional eligible courses from the Recommended Courses listed on the Centre for the Study of the United States website (<http://munkschool.utoronto.ca/csus/undergraduate-program>) to a total of 7.0 FCEs, including requirement #4 above.
6. At least 2.0 FCEs of the student's 7.0 FCEs must be at the 300-level or above.

7. At least 1.5 FCEs of the student's program must be in American Studies (USA prefix courses), at the 300- or 400-level.

#### Recommended Sequence of Courses:

##### First Year:

Students are encouraged to take any pre-requisites for the 200-level gateway course required, and/or enroll directly in USA200H1 as a first year student. Of the required second-year disciplinary survey courses, only one POL203Y1 has a pre-requisite; students interested in politics, therefore, should take one full POL course, a pre-requisite for POL203Y1. Other recommended courses at the first year level include: HIS106Y1 Natives, Settlers, and Slaves: Colonizing the Americas, 1492-1804.

##### Second Year:

USA200H1 Introduction to American Studies HIS271Y1 American History Since 1607 (or) ENG250Y1 American Literature (or) GGR240H1 AND GGR254H1 Geographies of Colonialism in North America / Geography USA (or) POL203Y1 U.S. Government and Politics

##### Second, Third, and Fourth Years:

USA300H1, plus other eligible courses, to a total of 7.0 FCEs. At least 2.0 of these courses must be at the 300-level or above. At least 1.5 of these courses must be in American Studies (USA prefix courses) at the 300- or 400-level. Courses must be chosen in a way that satisfies the disciplinary/thematic variety described above, plus 0.5 FCE in Breadth Requirement Category 5, or another half course approved by the CSUS Program Director, to fulfill the Quantitative Reasoning competency requirement of the program.

NOTE: Other 300+ series courses with 50% or more American content may be allowed; students should seek early approval of program credit for such courses from the CSUS Director.

### American Studies Minor (Arts Program)

#### Completion Requirements:

(4 full courses or their equivalent, including at least one 300+ series course in at least two disciplines)

##### Second year:

1. 1.0 FCE of the following 200-level gateway survey courses in English (ENG250Y1), History (HIS271Y1), Geography (GGR240H1 and GGR254H1), or Political Science (POL203Y1).

##### Third year:

2. Students must take USA300H1 (0.5 FCE).

##### Second, third, and fourth years:

3. 2.5 courses from the eligible courses listed below to total 4.0 FCEs.

NOTE: Other 300+ series courses with American content may be allowed; students should seek early approval of program credit for such courses.

To see our full list of American Studies courses offered in 2017-2018, please go to our website at the Centre for the Study of the United States, at the Munk School of Global Affairs here: <http://munkschool.utoronto.ca/csus/undergraduate-program/>

Courses eligible for program credit include those appearing below. Please note that some of these courses have pre-requisites; in all cases, and for updates on courses being offered, check individual department/program websites. Other 300+ series courses with American content may be allowed; students should seek early approval of program credit for such courses.

## American Studies Courses

### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

To see our full list of American Studies courses offered in 2017-2018, please go to our website at the Centre for the Study of the United States, at the Munk School of Global Affairs here: <http://munkschool.utoronto.ca/csus/undergraduate-program>

## American Studies Courses

### USA200H1 - Introduction to American Studies

**Hours:** 24L

An interdisciplinary introduction to the study of the United States and to the field of American Studies. Drawing from a variety of source materials ranging from political and literary to visual culture and material artifacts, this course examines the politics, history and culture of the U.S. A major emphasis will be learning to analyze primary sources.

**Distribution Requirements:** Humanities; Social Science  
**Breadth Requirements:** Society and its Institutions (3)

### USA300H1 - Theories and Methods in American Studies (formerly USA300Y1)

**Hours:** 24L

This course, required for majors and minors but open to all who have met the pre-requisites, explores a range of approaches to the field of American Studies. Students will be introduced to some of the many 'theories and methods' that have animated the field of American Studies, including historical methods; formal analysis of visual and literary texts; and key concepts, such as commodity chain analysis; 'race', 'commodity', 'gender', 'diaspora', and 'affect'.

**Prerequisite:** HIS271Y1/ENG250Y1/POL203Y1/GGR240H1/GGR254H1

**Exclusion:** USA300Y1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

### USA310H1 - Approaches to American Studies

**Hours:** 24L

An in-depth, interdisciplinary examination of a specific question concerning U.S. history, politics, and/or culture. Focus varies depending on instructor. Major emphases include reading critically and the initial steps of conducting original research.

**Prerequisite:** At least two half courses (1.0 FCE) from the American Studies list or USA300H1

**Distribution Requirements:** Humanities; Social Science

### USA311H1 - Approaches to American Studies

**Hours:** 24L

An in-depth, interdisciplinary examination of a specific question concerning U.S. history, politics, and/or culture. Focus varies depending on instructor. Major emphases include reading critically and the initial steps of conducting original research.

**Prerequisite:** At least two half courses (1.0 FCE) from the American Studies list of eligible courses or USA300H1.

**Distribution Requirements:** Humanities; Social Science

## USA312H1 - Approaches to American Studies

**Hours:** 24L

An in-depth, interdisciplinary examination of a specific question concerning U.S. history, politics, and/or culture. Focus varies depending on instructor. Major emphases include reading critically and the initial steps of conducting original research.

**Prerequisite:** At least two half courses (1.0 FCE) from the American Studies list of eligible courses or USA300H1.

**Distribution Requirements:** Humanities; Social Science

## USA313H1 - Approaches to American Studies

**Hours:** 24L

An in-depth, interdisciplinary examination of a specific question concerning U.S. history, politics, and/or culture. Focus varies depending on instructor. Major emphases include reading critically and the initial steps of conducting original research.

**Prerequisite:** At least two half courses (1.0 FCE) from the American Studies list of eligible courses or USA300H1.

**Distribution Requirements:** Humanities; Social Science

## USA400H1 - Topics in American Studies

**Hours:** 24S

In-depth examination of specific themes relating to American Studies.

**Prerequisite:** At least two courses from the American Studies list

**Distribution Requirements:** Humanities; Social Science

## USA401H1 - Topics in American Studies

**Hours:** 24S

In-depth examination of specific themes relating to American Studies.

**Prerequisite:** At least two courses from the American Studies list

**Distribution Requirements:** Humanities; Social Science

## USA402H1 - Topics in American Studies

**Hours:** 24S

In-depth examination of specific themes relating to American Studies.

**Prerequisite:** At least two courses from the American Studies list

**Distribution Requirements:** Humanities; Social Science

## USA403H1 - Topics in American Studies

**Hours:** 24S

In-depth examination of specific themes relating to American Studies.

**Prerequisite:** At least two courses from the American Studies list

**Distribution Requirements:** Humanities; Social Science

## USA494H1 - Independent Studies

**Hours:** TBA

Independent Studies. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities; Social Science

## USA495Y1 - Independent Studies

**Hours:** TBA

Independent Studies. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities; Social Science

# Anatomy

## Faculty List

### Professor and Chair of the Division

C. Morshead, PhD

### Professors Emerita

P.A. Stewart, PhD

I.M. Taylor, MD

M.J. Wiley, MSc, PhD

### Professor

A.M. Agur, MSc, PhD

### Associate Professor

P. Koeberle, PhD

H.S. Sun, MD, MSc, PhD

### Associate Professors, Teaching Stream

B. A. Ballyk, B.Sc.H, M.Sc. Ph.D.

J. LaPrade, Ph.D.

### Assistant Professor

M. Faiz, MSc, PhD

### Assistant Professor, Teaching Stream

D. Bentley, R Kin, PhD

## Anatomy Courses

### ANA300Y1 - Human Anatomy and Histology

**Hours:** 86L/18P

Structure of the human body and its relationship to function. Basic Human Histology, Gross Anatomy, and Neuroanatomy. Some content is delivered using online modules.

**Prerequisite:** BIO130H1

**Exclusion:** ANA126Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### ANA301H1 - Human Embryology

**Hours:** 48L

Human embryology from fertilization to the end of the fetal period. Current concepts in mammalian morphogenesis applied to the development of the various organ systems; etiologies and pathogenesis of some of the more common human congenital abnormalities.

**Prerequisite:** BIO130H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### ANA400H1 - Anatomy Dissection

**Hours:** 24P/24S

A focussed series of Anatomical dissections will be made and the surgical implications of the findings will be the subject of seminars. Attitudes to dissection of the human body, complications of surgery and other relevant issues will be discussed.

**Prerequisite:** ANA300Y1 and permission of department. Normally a "B+" standing will be required

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### ANA498Y1 - Project in Anatomy

**Hours:** TBA

A research project in Histology, Cellular or Molecular Biology, Developmental Biology, Neuroanatomy or Gross Anatomy. Not eligible for CR/NCR option.

**Prerequisite:** Permission of a professor to supervise the project

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

A. K. Patton, MA, Ph D

## Introduction

Anthropology examines the complexity and diversity of human experience, past and present, through evolutionary, archaeological, social, cultural, and linguistic perspectives. As such, Anthropology is a truly interdisciplinary venture that spans the natural sciences, social sciences, and humanities. This broad mandate has led to the division of the discipline into three broad areas of research: Archaeology; Evolutionary Anthropology; and the study of Society, Culture and Language.

Archaeologists study the material remains of the human past. Archaeological methods range widely, from the study of artifacts to the analysis of plant and animal remains, and Archaeological research covers a vast expanse of time from the earliest stone tools to the complex record left by modern industrial society. Archaeologists also grapple with a range of theoretical issues including material culture, culture change, identity, and ritual. Many archaeologists today also work in collaboration with local communities and engage with the questions of archaeological ethics.

Evolutionary Anthropology is the study of the biological diversity of humans, the history of this diversity, and the biological relationships between humans and non-human primates. Major foci in Evolutionary Anthropology include Human Biology, the study of modern humans; Osteology, the study of the human skeleton; Paleoanthropology, the study of human evolution; and Primatology, the study of non-human primates. Evolutionary anthropologists integrate biological and social variables in their explanations of the effects of evolution on humans and other primates.

At the core of the study of Society, Culture and Language is the question of how we humans organize our lives together, and why we do so in such vastly different ways. The orientation is global and contemporary. We explore social relations: relations between kin and neighbours, between genders and generations, between ethnic groups and nations, between rich and poor, between people and the natural environment that sustains them, and between people and their gods. We also explore the production and communication of meanings through rituals, images, memories, symbols and linguistic codes. Topics include environment, power, ideology, identity, subjectivity, media, sexuality, ethics, affect, activism, health, cities, work and international development.

A training in anthropology prepares students to think clearly and critically; to engage with a wide range of perspectives, experiences, and world views; and to reach ethically sound decisions. Programs available within the Department of Anthropology provide excellent preparation for careers in business, or public service and the non-profit sector, especially in areas where international and human diversity issues are important. Courses in anthropology provide a unique grounding and can be fruitfully combined with courses in a wide variety of other disciplines in the sciences, social sciences, and humanities. Undergraduate Program Administrator/Student Counsellor: Anthropology Building, 19 Russell Street, Room 258 (416-978-6414).

## Anthropology Programs

### Anthropology Specialist (Society, Culture, and Language) (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

Courses for admission: [ANT207H1](#) with a final mark of at least 70%.

#### Completion Requirements:

(10 full courses or their equivalent, including at least 2 FCE at the 400 level)

First and/or Second Year

1. [ANT204H1](#) and [ANT207H1](#)

Upper years

2. [ANT370H1](#) and [ANT380H1](#)
3. 6 FCE from Group C including at least 0.5 FCE course from Subgroup C(i)
4. [ANT475H1](#) and an additional 1.5 FCE at the 400-level

Note: Students who enrolled in the Specialist in Anthropology (Social/Cultural) in 2009-10 or 2010-11 and who did not take [ANT210H1](#) are strongly encouraged to take [ANT380H1](#), but may instead take an additional half course from Group C

### Anthropology Major (Society, Culture, and Language) (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

Courses for admission: [ANT100Y1](#) with a final mark of at least 67% or [ANT207H1](#) with a final mark of at least 70%.

#### Completion Requirements:

(6.5 full courses or their equivalent including at least 2.0 FCE at the 300+ level and at least 1 FCE at the 400 level)

First and/or Second Year

1. [ANT207H1](#)
2. [ANT204H1](#) or [ANT253H1](#)

Upper years

3. [ANT370H1](#) or [ANT425H1](#)
4. Five additional FCE from Group C including at least 1 FCE at the 400 level. Students who want to focus more specifically on the role of language in culture and society should take [ANT253H1](#), [ANT425H1](#), and courses in the C (ii) Subgroup

### Anthropology Major (General) (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

Courses for admission: [ANT100Y1](#) with a final mark of at least 67% or [ANT200Y1](#) or [ANT203Y1](#) or [ANT204H1](#) or [ANT207H1](#) with a final mark of at least 70%.

#### Completion Requirements:

Major program:

(6.5 full courses or their equivalent)

First and/or Second Year

1. [ANT100Y1](#)
2. [ANT207H1](#)
3. 1.0 FCE from [ANT200Y1](#), [ANT203Y1](#)
4. 0.5 from [ANT204H1](#), [ANT208H1](#), [ANT253H1](#)

Upper years

5. 2.5 FCE at the 300+-level from either Group A or Group B or Group C, including at least 0.5 FCE at the 400-level. 6. 1.0 additional FCE from a Group other than that used to meet requirement #5

### Anthropology Minor (General) (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

Courses for admission: [ANT100Y1](#) with a final mark of at least 67% or [ANT200Y1](#) or [ANT203Y1](#) or [ANT204H1](#) or [ANT207H1](#) with a final mark of at least 70%.

#### Completion Requirements:

Minor program:

(4 full courses or their equivalent including at least one 300-level course; excluding [ANT497Y](#)/[ANT498H](#)/ [ANT499H](#))

First and/or Second Year

1. [ANT100Y1](#)
2. 2 FCEs from [ANT200Y1](#), [ANT203Y1](#), [ANT204H1](#), [ANT207H1](#), [ANT208H1](#), [ANT253H1](#)

Upper years

3. One full course equivalent at the 300+ level from either Group A or Group B or Group C

## Anthropology Major (Evolutionary) (Science Program)

#### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

Courses for admission: [ANT100Y1](#) with a final mark of at least 67% or [ANT203Y1](#) with a final mark of at least 70%.

#### Completion Requirements:

(7.5 full courses or their equivalent, including at least 2 FCE at the 300+ level, 0.5 FCE of which must be at the 400-level)

First Year and/or Second Year:

1. [BIO120H1](#)
2. [ANT100Y1](#) or [BIO220H1](#). If [BIO220H1](#) is taken, students must take an additional 0.5 FCE in ANT
3. [ANT203Y1](#)

Upper Years:

4. 2.0 FCE from [ANT208H1](#), [ANT333Y1](#), [ANT334H1](#), [ANT335Y1](#), [ANT336H1](#)
5. 2.5 additional FCE from: Group B and/or [ANT406H1](#), [ANT415Y1](#), [ARH312Y1](#)
6. 0.5 FCE at the 400-level from Group B

## Environmental Anthropology Minor (Arts Program)

#### Completion Requirements:

A program focused on understanding the diverse nature of interactions between humans and their environments, both in the past and in modern global society. Consult the Undergraduate Office, Department of Anthropology (416-978-6414).

(4 full courses or their equivalent; must include at least one full-course equivalent at the 300+-level)

1. [ANT100Y1](#)/[ENV221H1](#), [ENV222H1](#)/[GGR222H1](#)/[ENV222Y1](#)/[GGR222Y1](#)
2. [ANT200Y1](#)/ ([ANT204H1](#) + [ANT207H1](#)/0.5 300 level Social Anthropology course)
3. Two FCE's from: [ANT315H1](#), [ANT336H1](#), [ANT346H1](#), [ANT351H1](#), [ANT364H1](#), [ANT366H1](#), [ANT368H1](#), [ANT371H1](#), [ANT374H1](#), [ANT376H1](#), [ANT409H1](#), [ANT410H1](#), [ANT415Y1](#), [ANT420H1](#), [ANT430H1](#), [ANT450H1](#), [INS250H1](#), [INS402H1](#)

## Course Groups

### A: Archaeology

- [ANT200Y1](#) Introduction to Archaeology
- [ANT299Y1](#) Research Opportunity Program
- [ANT311Y1](#) Archaeological Fieldwork
- [ANT314H1](#) Archaeology of the Pacific Northwest
- [ANT315H1](#) Arctic Archaeology
- [ANT316H1](#) Ancient Cultures of Mesoamerica
- [ANT317H1](#) Archaeology of Eastern North America
- [ANT318H1](#) The Preindustrial City and Urban Social Theory
- [ANT319Y1](#) Archaeology of North America (formerly [ANT310Y1](#))
- [ANT320H1](#) Ancient Cultures of the Andes
- [ANT372H1](#) Cultural Property
- [ANT390H1](#) Special Topics in Anthropology
- Note: [ANT390H1](#) may be placed in either Group A or B or C depending on the topic which will vary from year to year
- [ANT406H1](#) Lithic Analysis
- [ANT407H1](#) Inka and Aztec States
- [ANT409H1](#) Landscape Archaeology
- [ANT410H1](#) Hunter-Gatherers Past & Present
- [ANT411H1](#) Advanced Archaeological Theory
- [ANT412H1](#) Historical Archaeology
- [ANT415Y1](#) Laboratory in Faunal Archaeo-Osteology
- [ANT416H1](#) Archaeology of Ritual and Identity
- [ANT419H1](#) Current Debates in Palaeolithic Archaeology
- [ANT420H1](#) Archaeology of Inequality
- [ANT437H1](#) Introduction to Virtual Anthropology
- [ANT491Y1](#) Internship in Anthropology
- [ANT491H1](#) Internship in Anthropology
- [ANT497Y1](#) Independent Research
- [ANT498H1](#) Independent Research
- [ANT499H1](#) Independent Research
- [ARH305H1](#) Archaeological Interpretation
- [ARH306Y1](#) Archaeological Field Methods
- [ARH309H1](#) Archaeology, Ethics, and the Public
- [ARH312Y1](#) Archaeological Laboratory
- [ARH360H1](#) Prehistory of the Near East (formerly [ANT360Y1](#))
- [ARH361H1](#) Field Archaeology
- [ARH361Y1](#) Field Archaeology
- [ARH482H1](#) Special Topics in Archaeology
- [ARH494H1](#) Topics in Emerging Scholarship (Archaeology)
- [ARH495H1](#) Archaeology Research Practicum
- [VIC225Y1](#) A History of the World in Objects

## B: Evolutionary

- [ANT203Y1 The Nature of Humans](#)
- [ANT208H1 Medical Anthropology: an Evolutionary Perspective on Human Health](#)
- [ANT299Y1 Research Opportunity Program](#)
- [ANT330Y1 Paleoanthropology Field School](#)
- [ANT333Y1 Living Primate Adaptations](#)
- [ANT334H1 Human Skeletal Biology \(formerly ANT334Y1\)](#)
- [ANT335Y1 Human Evolution](#)
- [ANT336H1 Evolutionary Anthropology Theory](#)
- [ANT338H1 Molecular Anthropology and Human Evolution](#)
- [ANT371H1 Human Nutritional Ecology \(formerly ANT471H1\)](#)
- [ANT390H1 Special Topics in Anthropology](#)
- Note: ANT390H1 may be placed in either Group A or B or C depending on the topic which will vary from year to year.
- [ANT430H1 Primate Conservation Biology](#)
- [ANT432H1 The Evolving Human Skull](#)
- [ANT434H1 Health, Diet & Disease in the Past](#)
- [ANT435H1 Anthropology of Childhood and Childcare](#)
- [ANT436H1 Primate Ecology & Social Behavior](#)
- [ANT437H1 Introduction to Virtual Anthropology](#)
- [ANT438H1 Topics in Emerging Scholarship \(Evolutionary Anthropology\)](#)
- [ANT481H1 Special Topics in Evolutionary Anthropology](#)
- [ANT491Y1 Internship in Anthropology](#)
- [ANT491H1 Internship in Anthropology](#)
- [ANT497Y1 Independent Research](#)
- [ANT498H1 Independent Research](#)
- [ANT499H1 Independent Research](#)
- [HAI453H1 AIDS: A Global Perspective](#)

## C: Society, Culture, and Language

- [ANT204H1 Anthropology of the Contemporary World \(formerly ANT204Y1\)](#)
- [ANT207H1 Core Concepts in Social and Cultural Anthropology](#)
- [ANT208H1 Medical Anthropology: an Evolutionary Perspective on Human Health](#)
- [ANT299Y1 Research Opportunity Program](#)
- [ANT322H1 Anthropology of Youth Culture](#)
- [ANT324H1 Tourism & Globalization \(formerly ANT443H1\)](#)
- [ANT343H1 Social Anthropology of Gender \(formerly ANT343Y1\)](#)
- [ANT345H1 Global Health: Anthropological Perspectives](#)
- [ANT346H1 Anthropology of Food](#)
- [ANT347H1 Metropolis: Global Cities](#)
- [ANT348H1 Medical Anthropology: Social- Cultural Perspectives \(formerly ANT348Y1\)](#)
- [ANT349H1 Anthropology and New Technologies \(formerly ANT442H1\)](#)
- [ANT351H1 Contested Environments](#)
- [ANT356H1 Anthropology of Religion](#)
- [ANT358H1 Medical Anthropology and Social Justice](#)
- [ANT362H1 Sports and Play](#)
- [ANT364H1 Environment & Globalization \(formerly ANT364Y1\)](#)
- [ANT366H1 Anthropology of Activism and Social Justice \(formerly ANT366Y1\)](#)

- [ANT368H1 Nature Culture Human](#)
- [ANT370H1 Introduction to Social Anthropological Theory](#)
- [ANT371H1 Human Nutritional Ecology \(formerly ANT471H1\)](#)
- [ANT372H1 Cultural Property](#)
- [ANT374H1 Rethinking Development, or the Improvement of the World](#)
- [ANT376H1 Anthropology of Animals](#)
- [ANT378H1 Gift, Money, and Finance](#)
- [ANT380H1 Craft of Social/Cultural Anthropology \(formerly ANT210H1\)](#)
- [ANT384H1 Special Topics in Society, Culture and Language](#)
- [ANT386H1 Global Catholicism: Anthropological Approaches](#)
- [ANT388H1 Anthropologists and Indigenous Peoples in North America](#)
- [ANT390H1 Special Topics in Anthropology](#)
- Note: ANT390H1 may be placed in either Group A or B or C depending on the topic which will vary from year to year
- [ANT426H1 Western Views of the Non-West](#)
- [ANT435H1 Anthropology of Childhood and Childcare](#)
- [ANT440H1 Society in Transition](#)
- [ANT441H1 Love, Sex, and Marriage](#)
- [ANT445H1 Science as Culture and Practice](#)
- [ANT447H1 Ethnographic Practicum: Metropolis](#)
- [ANT449H1 Ethnographic Practicum: Infrastructures](#)
- [ANT450H1 Nature, Culture and the City](#)
- [ANT451H1 History of Anthropological Thought: The Search for Human Universals](#)
- [ANT452H1 Anthropology & Human Rights](#)

- [JAH391H1 Topics in Anthropology and History](#)
- [JNH350H1 AIDS : Challenges and Successes \(formerly NEW350H1\)](#)
- [NEW250Y1 Africa in the 21st Century: Challenges and Opportunities](#)
- [NMC356H1 Anthropology of Islam](#)
- [VIC225Y1 A History of the World in Objects](#)

## Subgroup C (i): (Society, Culture and Language-Area)

- [ANT327H1 ""Diversity": Critical/Comparative Studies of Indigeneity, Multiculturalism and \(Settler\) Colonialism"](#)
- [ANT340H1 Anthropology of Latin America](#)
- [ANT341H1 China in Transition \(formerly ANT341Y1\)](#)
- [ANT458H1 Settler-Colonialism and Indigenous Health in Canada](#)
- [ANT468H1 Ethnography of the Papua New Guinea Highlands](#)
- [ANT472H1 Japan in Global Context: Anthropological Perspectives \(formerly ANT354Y1 and ANT354H1\)](#)
- [ANT477H1 Transnational Korea in and outside the Peninsula \(formerly ANT377H1\)](#)
- [NEW316H1 Caribbean Religions](#)
- [NMC241H1 Anthropology of the Middle East](#)

## Subgroup C (ii): (Society, Culture and Language – Linguistic)

- [ANT253H1 Language & Society](#)
- [ANT329H1 Language & Power Structure \(formerly ANT329Y1\)](#)
- [ANT425H1 Language in Anthropological Thought \(formerly ANT325H1\)](#)
- [ANT427H1 Language, Ideology, & Political Economy](#)
- [ANT483H1 Special Topics in Linguistic Anthropology](#)
- [ANT497Y1 Independent Research](#)
- [ANT498H1 Independent Research](#)
- [ANT499H1 Independent Research](#)
- [JAL328H1 Writing Systems](#)
- [JAL353H1 Conversational Structures](#)
- [JAL355H1 Language and Gender](#)
- [JAL401H1 Field Linguistics](#)
- [SLA380H1 Language, Politics, Identity](#)

## Anthropology Courses

### ANT100Y1 - Introduction to Anthropology

**Hours:** 48L/12T

Society and culture from various anthropological perspectives: socio-cultural, evolutionary, archaeological, and linguistic.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Living Things and Their Environment (4); Society and its Institutions (3)

### ANT200Y1 - Introduction to Archaeology

**Hours:** 48L/24T

How did art and technology develop in the course of human evolution? What led to the development of agriculture and settled village life? How did social inequality and urbanism emerge? This course takes a global perspective to explore the archaeological evidence that sheds light on these questions and other aspects of prehistory and early history. Students will engage with the challenges posed by new discoveries and also with recent developments in archaeological method and theory. The goal of the course is to involve students with the current state of archaeological research and some of the major issues archaeologists work to address.

**Recommended Preparation:** ANT100Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### ANT203Y1 - The Nature of Humans

**Hours:** 48L/24P

This course examines where humans fit in the fabric of the natural world. It explores the history of ideas about humans in nature, humans as primates, the story of human evolution and modern human physical and genetic diversity.

**Recommended Preparation:** ANT100Y1/BIO120H1, BIO220H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### ANT204H1 - Anthropology of the Contemporary World (formerly ANT204Y1)

**Hours:** 24L/12T

A course focused on recent anthropological scholarship that seeks to understand and explain the transformation of contemporary societies and cultures. Topics may include some of the following: new patterns of global inequality, war and neo-colonialism, health and globalization, social justice and indigeneity, religious fundamentalism, gender inequalities, biotechnologies and society etc.

**Exclusion:** ANT204Y1

**Recommended Preparation:** ANT100Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT207H1 - Core Concepts in Social and Cultural Anthropology

**Hours:** 24L/12T

Society, culture, kinship, exchange, community, identity, politics, belief: these and other core concepts are explored in this course, which lays the foundation for advanced courses in social and cultural anthropology.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT208H1 - Medical Anthropology: an Evolutionary Perspective on Human Health

**Hours:** 36L/10T

Introduction to applied evolutionary medical anthropology. It explores evidence for the evolution of human vulnerability to disease across the life cycle (conception to death) and implications for health of contemporary populations in gendered cross-cultural perspective.

**Recommended Preparation:** ANT100Y1/BIO120H1

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT253H1 - Language & Society

**Hours:** 24L

This course introduces linguistic analysis with a view towards its application to the study of the relation between culture and social structure. The interplay of pronunciation, grammar, semantics, and discourse with rituals, ideologies, and constructions of social meaning and worldview are discussed in tandem with the traditional branches of linguistic analysis: phonology, morphology, grammar, syntax, and semantics. The objective of the course is to provide a broad framework for understanding the role of language in society.

**Exclusion:** JAL253H1

**Recommended Preparation:** ANT100Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ANT299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## ARH305H1 - Archaeological Interpretation

**Hours:** 24L

Transforming archaeological results into statements about people and their life ways. Covers basic archaeological theory, including research design, sampling, stratigraphy, seriation, formation and testing or evaluation of hypotheses, regional analyses. Introduces some of the major schools of archaeological theory, including New Archaeology and Post-Processual Archaeology.

**Prerequisite:** ANT200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ARH306Y1 - Archaeological Field Methods

**Hours:** 12L/61P

Intensive instruction in archaeological field methods and acquisition of field skills, including archaeological search and survey, site mapping, laying out excavation grids, use of theodolites, total station, and GPS, stratigraphic excavation, stratigraphy, field recording, screening sediment, Ontario license and reporting requirements. Normally this course would take place on campus in the summer. This course has a mandatory Lab Materials Fee of \$25 to cover non-reusable materials. The fee will be included on the student's ACORN invoice.

**Prerequisite:** ANT200Y1 or (NMC260H1 and NMC262H1) or NMC261Y0

**Distribution Requirements:** Social Science

## ARH309H1 - Archaeology, Ethics, and the Public

**Hours:** 24L

An analysis of ethics in contemporary archaeology that covers reburial and repatriation, interpretation of the archaeological record in the context of historically oppressed groups, ethnic minorities, and non-western societies, the ethics of collecting and managing cultural property, relationships with the media, the debates surrounding looting, and other issues.

**Prerequisite:** ANT200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT311Y0 - Archaeological Fieldwork

**Hours:** TBA

NULL

## ANT311Y1 - Archaeological Fieldwork

**Hours:** TBA

Practical field training through six weeks of excavation on an archaeological site. Basic principles of artifact handling and classification. (Offered only in Summer Session) Not eligible for CR/NCR option.

**Prerequisite:** ANT200Y1

**Distribution Requirements:** Social Science

## ARH312Y1 - Archaeological Laboratory

**Hours:** 28L/44P

Techniques for making archaeological data meaningful after excavation or survey. Archaeological measurements, compilation of data, database design, archaeological systematics, and sampling theory in the context of lithics, pottery, floral, faunal and other archaeological remains.

**Prerequisite:** ANT200Y1 and a half statistics course (e.g. GGR270H1\*, STA220H1, STA221H1, STA257H1, STA261H1, ANTC35H3\*\*). Note: \*Geography Pre- or co-requisites waived for Anthropology and Archaeology students; \*\* to be taken at the Scarborough Campus

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ANT314H1 - Archaeology of the Pacific Northwest

**Hours:** 24L

An archaeological survey of the human prehistory of northwestern North America from the late Pleistocene to the time of early European contact. Geographical coverage will include the Northwest Coast, California, and the Intermontane Plateau.

**Prerequisite:** ANT200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT315H1 - Arctic Archaeology

**Hours:** 24L

Archaeology and ethnohistory of Arctic cultures. Emphasis is on variation in social organization, settlement pattern, economy, ideology, and interaction with the expanding European world-system.

**Prerequisite:** ANT200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT316H1 - Ancient Cultures of Mesoamerica

**Hours:** 24L

This course provides an introduction to the cultures of Mesoamerica, from the first arrival of indigenous peoples to the appearance of the Spaniards in the sixteenth century. Students will become acquainted with cultures including Olmec, Zapotec, Teotihuacan, Maya, and Aztec, while also considering issues of method and evidence.

**Prerequisite:** ANT200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT317H1 - Archaeology of Eastern North America

**Hours:** 24L

This course examines the precontact and early contact period culture history of eastern North America, including Ontario, through archaeological evidence. Topics covered include the earliest peopling of the region at the end of the Ice Age, diversity of hunter-gatherer societies, introduction of agriculture, and the development of the dynamic First Nations societies who eventually met and interacted with Europeans.

**Prerequisite:** ANT200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT318H1 - The Preindustrial City and Urban Social Theory**

**Hours:** 24L

This course offers a comparative examination of the rise and organization of ancient cities through a detailed investigation of urban social theory. We will explore competing anthropological interpretations of urban process while probing the political, ideological, and economic structures of the world's earliest cities. Students will have the opportunity to consider a broad range of subjects, including mechanisms of city genesis; urban-rural relations; the intersections of city and state; and historical variation in urban landscapes, ideologies, and political economies.

**Prerequisite:** ANT200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT319Y1 - Archaeology of North America (formerly ANT310Y1)**

**Hours:** 48L

This course examines human prehistory in North America, North of Mexico, from the time of earliest occupation to European contact. Special topics include Paleoindian and Archaic adaptations, the rise of complex hunter-gatherers, origins of farming and the evolution of complex chiefdoms.

**Prerequisite:** ANT200Y1

**Exclusion:** ANT309H1, ANT310Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT320H1 - Ancient Cultures of the Andes**

**Hours:** 24L

This class offers intensive study of the archaeology and culture history of the Andean region prior to the Spanish conquest. The complexity and distinctiveness of Andean social organization, political institutions, religious ideologies, and economic practices have long fascinated anthropologists. Ultimately, the course will explore Andean cultures over a 10,000 year period, highlighting key debates, current research projects, and innovative theoretical approaches shaping contemporary archaeological scholarship in South America and beyond.

**Prerequisite:** ANT100Y1 or ANT200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT322H1 - Anthropology of Youth Culture**

**Hours:** 24L

This course will present various perspectives on the nature and dynamics of youth culture. It will discuss the research accumulated over the past quarter century on youth lifestyles, from fashion and music to the formation and spread of slang. It will also look at the various critical and controversial aspects of adolescence in contemporary culture.

**Prerequisite:** ANT204H1 or ANT207H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT324H1 - Tourism & Globalization (formerly ANT443H1)**

**Hours:** 24L

The course uses tourism as a lens to examine global connections. Particular focus will be on the politics of cultural encounters. Drawing examples from diverse ethnographic materials, the course explores how different visions of the world come into contact, negotiated and transformed, and how tourist encounters shape peoples everyday lives.

**Prerequisite:** ANT204H1 or ANT207H1

**Exclusion:** ANT443H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT327H1 - "'Diversity': Critical/Comparative Studies of Indigeneity, Multiculturalism and (Settler) Colonialism"**

**Hours:** 24L

How do societies understand and manage their own diversity? This course unites critical studies of multiculturalism and settler colonialism to study Canada, Australia, New Zealand, and the U.S., also examining strategies in other sites for managing diversity which are framed differently (e.g. superdiversity (Europe), co-existence (Japan), multiracialism (Hawaii), mestizaje (Mexico)).

**Prerequisite:** ANT204H1 or ANT253H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JAL328H1 - Writing Systems

**Hours:** 24L

Introduction to writing systems; their historical development, their relationship to language, and their role in culture and society. (Given by the Departments of Anthropology and Linguistics) (Not offered every year)

**Prerequisite:** ANT100Y1/LIN101H1/LIN200H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ANT329H1 - Language & Power Structure (formerly ANT329Y1)

**Hours:** 24L/4T

The role of language and symbolism in the representation and manipulation of ideology and power structure. Case materials drawn from the study of verbal arts, gender, law, advertising, and politics with a focus on North America.

**Prerequisite:** ANT204H1 or ANT207H1 or ANT253H1 or VIC223Y1 or one of 200+ series H1 course in SOC or POL or LIN or Women's Studies

**Exclusion:** ANT329Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ANT330Y1 - Paleoanthropology Field School

**Hours:** 24L/78P

This course provides background in the practical and theoretical aspects of fieldwork in Paleoanthropology. Students are trained in the treatment and analysis of fossil vertebrates, plant macro- and micro-fossils and sediments. Excursions to paleoanthropological localities of Homo erectus and Homo sapiens, and excavation at a hominoid site. (Joint undergraduate-graduate) Not eligible for CR/NCR option.

**Prerequisite:** ANT203Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT333Y1 - Living Primate Adaptations

**Hours:** 48L/24P

A survey of living primates, this lab-oriented course describes and compares the diverse behavioural and anatomical adaptations that are characteristic to this order of mammals. The understanding of the biological diversity and evolutionary history of primates is important for further understanding of human adaptation and evolution.

**Prerequisite:** ANT203Y1

**Exclusion:** ANT333H1

**Recommended Preparation:** ANT334H1; BIO120H1, BIO220H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT334H1 - Human Skeletal Biology (formerly ANT334Y1)

**Hours:** 24L/24P

Exploration of the development and maintenance of the human skeleton and dentition, with emphasis on application to archaeological, forensic and biomedical sciences.

**Prerequisite:** ANT203Y1

**Exclusion:** ANT334Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT335Y1 - Human Evolution

**Hours:** 24L/36P

This course takes the student on a survey of human evolution from our ape ancestors to modern humans. Students will learn to identify skulls, teeth and limb bones, explore hundreds of casts, and learn how researchers understand human origins and trends in the development of human anatomy and behavior.

**Prerequisite:** ANT203Y1

**Exclusion:** ANT429H1, ANT332H5, ANT333H5, ANT434H5, ANTC17H3

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT336H1 - Evolutionary Anthropology Theory

Hours: 24L

This course will explore the foundational and leading concepts in evolutionary anthropology. Historically important readings and current concepts will be presented and discussed in the context of research, especially in areas of human population biology, ecology and the evolution of *Homo sapiens*. Topics will include behavioral ecology and life history theory, as well as a critique of the adaptationist program.

**Prerequisite:** ANT203Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT338H1 - Molecular Anthropology and Human Evolution

Hours: 24L/12P

Molecular anthropology is an interdisciplinary field combining biology, genetics, evolution and anthropology. In this class, we will explore the use of DNA for the study of past migrations and admixture patterns, the evolution of pathogens, plant and animal domestication and especially the relationships between recent and archaic humans.

**Prerequisite:** ANT203Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT340H1 - Anthropology of Latin America

Hours: 24L

Provides a framework for understanding current anthropological issues in the different geo-political regions of Latin America. Special attention will be paid to historical/conceptual development of the discipline in the region, and the course will introduce a debate about the death and resurgence of area studies.

**Prerequisite:** ANT207H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT341H1 - China in Transition (formerly ANT341Y1)

Hours: 24L

This course offers a general introduction to transformations in modern and contemporary China from an anthropological perspective. This course covers major aspects of Chinese culture, history, and society in a global context.

**Prerequisite:** ANT207H1

**Exclusion:** ANT341Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT343H1 - Social Anthropology of Gender (formerly ANT343Y1)

Hours: 24L

Social anthropological perspectives on variations in gender roles and systems. Examines, through comparison of ethnography, the relationship of gender to social organization, economic and political processes, belief systems and social change.

**Prerequisite:** ANT207H1

**Exclusion:** ANT343Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT345H1 - Global Health: Anthropological Perspectives

Hours: 24L

This course examines medical anthropologies contributions to, and critiques of, global health policies and programs. Topics covered include: colonialism and health, the political ecology of disease, indigenous constructions of illness and healing, medical pluralism, the politics of primary health care, population policies, reproductive health, and AIDS.

**Prerequisite:** ANT207H1 or permission of the instructor

**Recommended Preparation:** ANT348H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT346H1 - Anthropology of Food

**Hours:** 24L

Social anthropological perspective on the nature and meaning of food production, culinary cultures, industrial food, food as metaphor, and famine and hunger.

**Prerequisite:** ANT204H1 or ANT207H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT347H1 - Metropolis: Global Cities

**Hours:** 24L

The role of culture, cultural diversity, space and performance in urban institutions and settings. The cultural context and consequence of urbanization.

**Prerequisite:** ANT207H1

**Exclusion:** ANT347Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT348H1 - Medical Anthropology: Social-Cultural Perspectives (formerly ANT348Y1)

**Hours:** 24L/5T

This course provides an advanced introduction to medical anthropology as a sub-field of social-cultural anthropology. Students will learn about a range of approaches and concepts useful for analysing health and illness as social, cultural, political and historical phenomena: illness narratives and experience, subjectivities, medical pluralism, bio-power, and structural violence. Topics will include inequities in health, the relationship between medical anthropology and global health, medical humanitarianism, and the role of medical anthropologists in activism and advocacy.

**Prerequisite:** ANT204H1 or ANT207H1 or permission of the instructor

**Exclusion:** ANT348Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT349H1 - Anthropology and New Technologies (formerly ANT442H1)

**Hours:** 24L

This course explores the relationship between technology and culture through a focus on new media and technological infrastructures. Anticipating a future of driverless cars and big data, we examine how social theorists, cultural critics and ethnographers have sought to understand the socio-cultural dimensions of earlier waves of rapid technological change.

**Prerequisite:** ANT207H1

**Exclusion:** ANT442H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## ANT351H1 - Contested Environments

**Hours:** 24L

This course utilizes a social movements perspective to examine the various kinds of conflicts emerging over environment, including disputes over food, animal rights, parks, wilderness, energy, and water. Building on the anthropological literature on landscape and political ecology, this course explores the various ways in which social movement constituencies are responding to and engaging with the uncertain and uneven nature of environmental change.

**Prerequisite:** ANT204H1 or ANT207H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JAL353H1 - Conversational Structures

**Hours:** 36L

An introduction to the detailed observation of ordinary conversational interaction, and to some of the main ways in which such interaction is organized. The focus is on developing the capacity to discern orderliness in the details of everyday interaction, and beginning independent research in this area. (Given by the Departments of Anthropology and Linguistics)

**Prerequisite:** LIN101H1, LIN102H1/LIN200H1/ANT253H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JAL355H1 - Language and Gender

**Hours:** 24L

An introduction to some of the principal questions of feminist theory, as viewed from sociolinguistics. Topics include: socialization into gendered discourse patterns, cultural and ethnic differences in gendered interactions; the role of language and gender in legal, medical and labour settings; multilingualism, migration, imperialism and nationalism; sexuality, desire and queer linguistics, language, gender and globalization.

**Prerequisite:** One FCE at the 200-level in LIN/ANT/JAL/SOC/WGS  
**Recommended Preparation:** ANT204H1/ANT253H1/SOC200H1/SOC214H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT356H1 - Anthropology of Religion

**Hours:** 24L

This course introduces anthropological definitions of religion; debates on rituals and rites of passage; rationality, religion and modernity; belief and body; religion and the media. It also engages with studies in the anthropology of popular and transnational religion, and the politics of religious movements.

**Prerequisite:** ANT207H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ANT358H1 - Medical Anthropology and Social Justice

**Hours:** 24L

It is widely acknowledged that sharp disparities in disease burden and access to medical care characterize global patterns in health. These disparities affect the life chances of much of the world's population, based on class position, gender, and geographical region.

**Prerequisite:** ANT204H1 or ANT207H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ARH360H1 - Prehistory of the Near East (formerly ANT360Y1)

**Hours:** 24L

From earliest times through the rise of complex hunter-gatherers, and the food producing revolution to politically complex societies in Southwest Asia.

**Prerequisite:** ANT200Y1 or NMC260H1 and NMC262H1

**Exclusion:** ARH360Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ARH361H1 - Field Archaeology

**Hours:** TBA

Opportunity for students participating in non-degree credit archaeological digs to submit reports, field notes and term papers for degree credit. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Undergraduate Co-ordinator and Supervisor

**Distribution Requirements:** Social Science

## ANT362H1 - Sports and Play

**Hours:** 24L

We tend to think of sports as unserious. This course shows that much serious cultural work is conducted through sports, but also that sports are indeed not always serious. This anthropology of sports engages with sports as both work and play, considering issues like gender, bodies, competition, and pleasure.

**Prerequisite:** ANT204H1 or ANT207H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## **ANT364H1 - Environment & Globalization (formerly ANT364Y1)**

**Hours:** 24L

This course will examine the relationships between humans and the environment in the context of contemporary efforts to develop within or in opposition to the political economy of neoliberal globalization. We will critically examine the discourses of progress and environment within a broader theoretical inquiry of structure/agency and power.

**Prerequisite:** ANT204H1 or ANT207H1

**Exclusion:** ANT364Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT366H1 - Anthropology of Activism and Social Justice (formerly ANT366Y1)**

**Hours:** 24L

Explores how anthropologists have traditionally studied social movements and how new social movements have challenged anthropologists to rethink some of their ethnographic methods and approaches. Some specific movements covered include those related to indigenous rights, environmentalism, refugees, gay and lesbian issues, biotechnology, new religions, and globalization.

**Prerequisite:** ANT207H1

**Exclusion:** ANT366Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT368H1 - Nature Culture Human**

**Hours:** 24L

What is "nature" and how does it relate to the way in which "culture" is conceptualized? How do race, class, gender, sexuality and ability structure our experiences of both nature and ourselves as human beings? This course explores these questions through engagements with a variety of texts.

**Prerequisite:** ANT204H1

**Exclusion:** ANT110H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **ANT370H1 - Introduction to Social Anthropological Theory**

**Hours:** 24P

An in-depth critical review of foundational ideas in the development of the practice of Anthropology. Topics may include questioning fieldwork, origins and legacies of functionalism, cultural materialism, politics of culture, power and political economy, globalization and post modernism, gender and post-structuralism.

**Prerequisite:** ANT207H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT371H1 - Human Nutritional Ecology (formerly ANT471H1)**

**Hours:** 24L

A detailed review of human dietary adaptations, subsistence strategies and the suite of cognitive, cultural and life history traits that make humans so adaptable. Focus is on the relevance of the past to understanding the modern world food system and finding solutions to contemporary problems in population, food, and health.

**Prerequisite:** ANT203Y1 or ANT207H1 or ANT208H1

**Exclusion:** ANT471H1

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT372H1 - Cultural Property**

**Hours:** 24L

This course explores the relationship between cultural property and everyday life through the themes of movement, ownership and value. Case studies, current events and debates help students understand how heritage is informed by the multiple values of cultural property. This course addresses issues of cultural property and heritage in the contemporary world that are relevant to all subfields of anthropology.

**Prerequisite:** ANT100Y1 or ANT200Y1 or ANT204H1 or ANT207H1 or ANT253H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT374H1 - Rethinking Development, or the Improvement of the World**

**Hours:** 36L

Development, or deliberate intervention to improve the lives of people deemed to be lacking, or left behind, has shaped the modern world for at least a century. Drawing on historical and ethnographic studies, this course examines the trajectory of development as a concept and practice, and traces its effects.

**Prerequisite:** ANT207H1 or permission of the instructor  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **ANT376H1 - Anthropology of Animals**

**Hours:** 24L

The relationship between humans and other animals is one of the most hotly debated topics of our times. Through key classic and contemporary writings, this course introduces students to the interdisciplinary field of animal studies, and explores how anthropologists and other theorists have critically engaged in debates about animal and human distinctions.

**Prerequisite:** ANT204H1 or ANT207H1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **ANT378H1 - Gift, Money, and Finance**

**Hours:** 24L

This course introduces dialogue between anthropological literature and other disciplinary studies in regards to the economy and culture of gift and money transaction as a key aspect of human society. Studying the history of gift and money economy from agricultural societies and diverse developments of finance market culture in recent era through various perspectives (e.g., ethnographic, sociological, politico-economic, and historical views), this course aims to train students developing a critical understanding of capitalism.

**Prerequisite:** ANT204H1 or ANT207H1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **ANT380H1 - Craft of Social/Cultural Anthropology (formerly ANT210H1)**

**Hours:** 36S

This course introduces students to the skills they need to conduct ethnographic research, in particular, participant observation, in-depth interview, as well as writing fieldnotes and research proposals. The emphasis is on interactive, workshop-style small group learning.

**Prerequisite:** ANT207H1  
**Exclusion:** ANT210H1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **ANT384H1 - Special Topics in Society, Culture and Language**

**Hours:** 24L

This lecture-format course focuses on a relatively broad topic in socio-cultural and/or linguistic anthropology. Topics change from year to year. For the 2015-16 academic year, the title of this course is "Nature, Culture, Human".

**Prerequisite:** ANT207H1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **ANT386H1 - Global Catholicism: Anthropological Approaches**

**Hours:** 24L

This is a course on material religion and mediation, kingdom and kinship, gender symbolisms and devotions, ecologies of selves and the histories of senses that infuse Catholicism. It challenges us to think about the importance of Catholicism as a global phenomenon expressed through socio-political and cultural practices of the everyday life.

**Prerequisite:** ANT204H1 or ANT207H1 or SMC103Y1 or RLG212H1 or RLG203H1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ANT388H1 - Anthropologists and Indigenous Peoples in North America

**Hours:** 24L

Indigenous scholars (including anthropologists), intellectuals and activists have publicly challenged the ethical and political implications of anthropological research in, on and with Indigenous nations and communities. This course takes such critiques as jumping-off points from which to explore historical and contemporary relations between anthropologists and Indigenous peoples in North America.

**Prerequisite:** ANT200Y1 or ANT203Y1 or ANT204H1 or ANT207H1 or ANT208H1 or ANT253H1

**Recommended Preparation:** ABS201Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT390H1 - Special Topics in Anthropology

**Hours:** 24L

This lecture-format course focuses on a relatively broad topic in anthropology. Topics change from year to year. See Anthropology website for more details.

**Prerequisite:** 9.0 FCEs. Further prerequisites vary from year to year, consult the department.

**Distribution Requirements:** Social Science

**Note:** ANT390H1 may be placed in either Group A or B or C depending on the topic which will vary from year to year.

## JAH391H1 - Topics in Anthropology and History

**Hours:** 24S

Anthropological and Historical perspectives on topics that vary from year to year.

**Recommended Preparation:** ANT204H1 or a course in European History

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JAH391Y0 - Topics in Anthropology and History

**Hours:** 48S

Anthropological and Historical perspectives on topics that vary from year to year.

**Recommended Preparation:** ANT207H1 or a course in European History

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## ANT395Y0 - Special Topics in Anthropology

**Hours:** 48S

Studies in anthropology taken abroad. Areas of concentration vary depending on the instructor and year offered.

**Recommended Preparation:** ANT100Y1 or ANT200Y1 or ANT203Y1 or ANT204H1 or ANT207H1

**Distribution Requirements:** Social Science

## ANT396Y0 - Special Topics in Anthropology

**Hours:** 48S

Studies in anthropology taken abroad. Areas of concentration vary depending on the instructor and year offered.

**Recommended Preparation:** ANT100Y1 or ANT200Y1 or ANT203Y1 or ANT204H1 or ANT207H1

**Distribution Requirements:** Social Science

## ANT398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## ANT399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## JAL401H1 - Field Linguistics

**Hours:** 48P

Practice in language analysis based on elicited data from a native speaker of a foreign language, emphasizing procedures and techniques. (Given by the Departments of Anthropology and Linguistics)

**Prerequisite:** Completion of LIN322H1 and LIN331H1 or permission of the instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ANT406H1 - Lithic Analysis

**Hours:** 24L/12P

Core reduction strategies, replication, experimental archaeology, use-wear, design approaches, ground stone, inferring behaviour from lithic artifacts.

**Prerequisite:** ANT200Y1 and ARH312Y1 and ARH305H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ANT407H1 - Inka and Aztec States

**Hours:** 24L

This course provides a comparative study of the emergence, organization, and transformation of the two historically-documented states of the native Americas: the Inka and the Aztec. Students will have the opportunity to analyze ethnohistorical and archaeological data in order to critically evaluate models of the pre-industrial state while gauging the anthropological significance of either convergence or particularity in the historical development of centralized political formations.

**Prerequisite:** ANT200Y1 and ARH305H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT409H1 - Landscape Archaeology

**Hours:** 24L/12P

Archaeological survey, spatial analysis of archaeological evidence over landscapes and territories, and ways archaeologists attempt to interpret landscapes, regional settlement systems, agricultural land use, regional exchange and communication, and past people's perceptions of or ideas about landscape.

**Prerequisite:** ARH305H1

**Recommended Preparation:** GGR270H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT410H1 - Hunter-Gatherers Past & Present

**Hours:** 24S

Examines the diversity of recent hunter-gatherer societies, as a source of analogues for understanding the archaeological record of past foraging peoples.

**Prerequisite:** ARH305H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT411H1 - Advanced Archaeological Theory

**Hours:** 24S

Seminar in the critical examination of major schools of archaeological thought.

**Prerequisite:** ARH305H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ANT412H1 - Historical Archaeology

**Hours:** 16L/8P

Introduces the problems, methods and some of the material culture of colonial and industrial archaeology with emphasis on Canada and colonial America. Covers the use of documentary evidence, maps, architecture, and a variety of artifact classes.

**Prerequisite:** ANT200Y1 or HIS374H1 or HIS384H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT415Y1 - Laboratory in Faunal Archaeo-Osteology

**Hours:** 48P/48S

Examination and interpretation of faunal material from archaeological sites as evidence for culture.

**Prerequisite:** ARH312Y1

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** Living Things and Their Environment (4); The Physical and Mathematical Universes (5)

## ANT416H1 - Archaeology of Ritual and Identity

**Hours:** 24L

This course offers a comparative survey of archaeological approaches to ritual practice as it relates to identity politics, personhood, and the negotiation of power relations in past societies. An important goal of the seminar is to introduce students to social theories on the inherent materiality of ritual performance, whether orchestrated in everyday practice or in elaborate religious and political spectacles.

**Prerequisite:** Completion of a minimum of 12.0 FCEs

**Recommended Preparation:** ANT200Y1, ARH305H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ANT419H1 - Current Debates in Palaeolithic Archaeology

**Hours:** 24S

Current research in Palaeolithic Archaeology reflecting emerging issues.

**Prerequisite:** ANT200Y1 or ANT203Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT420H1 - Archaeology of Inequality

**Hours:** 24L

How social complexity is manifested in the archaeological record. Origins and evolution of prehistoric complex societies, from small-scale chiefdoms to large-scale states.

**Prerequisite:** ANT200Y1 and ARH305H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT425H1 - Language in Anthropological Thought (formerly ANT325H1)

**Hours:** 24L

How ideas about language fit into the overall views of humankind as expressed by selected anthropologists, linguists, sociologists, and philosophers.

**Prerequisite:** ANT204H1 or ANT207H1 or ANT253H1 and 0.5 300+ level course from Group C

**Exclusion:** ANT425Y1; ANT325H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ANT426H1 - Western Views of the Non-West

**Hours:** 24S

The history and present of western concepts and images about the 'Other', in anthropological and other scholarship and in popular culture. The focus is on representations of Muslims and Jews.

**Prerequisite:** ANT370H1 or ANT329H1 or any 300-level course in NMC or in Jewish Studies

**Distribution Requirements:** Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## ANT427H1 - Language, Ideology, & Political Economy

**Hours:** 24S

Theoretical and empirical studies on the role of language in the reproduction and transformation of ideology, hegemony and political economy. Topics may include language & colonialism, imperialism, globalization, nationalism, racism, sexism, bureaucratic interactions, environmentalism, migration, gentrification. Compares and contrasts critical discourse analytic and linguistic anthropological approaches to method and politics.

**Prerequisite:** ANT253H1

**Recommended Preparation:** ANT329H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT430H1 - Primate Conservation Biology

**Hours:** 24L

The focus of this course is on the science of primate conservation biology in an anthropological context. Topics will include primate biodiversity and biogeography, human impacts, and conservation strategies/policies. The effects of cultural and political considerations on primate conservation will also be discussed.

**Prerequisite:** ANT203Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT432H1 - The Evolving Human Skull

**Hours:** 12L/24P

The comparative and functional anatomy of the human skull from an evolutionary perspective. Foci include cranial anatomy, the face, mastication, diet, brains and cognition. Includes an extensive lab component using a large collection of primate skeletons and fossil human casts.

**Prerequisite:** ANT335Y1

**Exclusion:** ANT326Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT434H1 - Health, Diet & Disease in the Past

**Hours:** 24L/12P

Advanced exploration of the life histories of past populations, through the application of palaeodietary analyses, palaeopathology and other appropriate research methods.

**Prerequisite:** ANT334H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT435H1 - Anthropology of Childhood and Childcare

**Hours:** 24L

A detailed review of the classic and recently emerging literature on the anthropology of children, childhood, and childcare. Focus is on theories for evolution of human parenting adaptations, challenges in research methodology and implications for contemporary research, practice and policy in the area of care and nutrition of infants and children.

**Prerequisite:** ANT203Y1

**Distribution Requirements:** Social Science; Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT436H1 - Primate Ecology & Social Behavior

**Hours:** 24L

This course will provide an overview of the ecology and social behavior of extant nonhuman primates. Topics will include socioecology, conservation biology, biogeography, aggression and affiliation, community ecology, communication, and socio-sexual behavior. There will also be extensive discussions of methods used in collecting data on primates in the field.

**Prerequisite:** ANT203Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT437H1 - Introduction to Virtual Anthropology

**Hours:** 18L/24P

Virtual anthropology is a set of new methods that allow us to digitize objects, analyze, reconstruct and share them digitally, and bring them back into the real world. After a theoretical introduction, students will use surface scanners, photogrammetric software and 3D printers to digitize and study archaeological and anthropological specimens.

**Prerequisite:** ANT334H1 and/or ARH312Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ANT438H1 - Topics in Emerging Scholarship (Evolutionary Anthropology)

**Hours:** 24S

Taught by an advanced PhD student or postdoctoral fellow, and based on his or her doctoral research and area of expertise, this course presents a unique opportunity to explore intensively a particular Evolutionary Anthropology topic in-depth. Topics vary from year to year.

**Prerequisite:** ANT203Y1 and 0.5 FCE 300+ Group B (Evolutionary) course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ANT440H1 - Society in Transition

**Hours:** 36S

Modernity, globalization, and neoliberalism have emerged as three distinct, yet connected, concepts in anthropological studies of social, cultural, political and economic changes around the world. This course critically examines the various meanings of these three concepts, and tests their usefulness as analytical tools to think productively about societies in transition in specific historical and ethnographic contexts. Topical focus varies by year, and may include the changing character of work and welfare, property and markets, country and city, media and mobilization, and others. Check the course outline for details.

**Prerequisite:** ANT207H1 and ANT370H1 or permission of the instructor

**Exclusion:** ANT440Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT441H1 - Love, Sex, and Marriage

**Hours:** 24S

Beginning with anthropologists' early work on kinship, and ending with recent analyses of sex work and the globalization of ideologies of romantic love and companionate marriage, this course will investigate how emotional and sexual relationships are produced, used, conceptualized, and experienced both within particular societies and transnationally.

**Prerequisite:** ANT207H1 and ANT343H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT445H1 - Science as Culture and Practice

**Hours:** 24S

This course examines science and technology from an anthropological perspective. Throughout the course, in addition to introducing major concepts of science studies, we will examine multiple concrete things, like computers as cultural artifacts, connected to wider social, political, economic, ideological, and cultural contexts.

**Prerequisite:** ANT207H1

**Recommended Preparation:** one science course

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT447H1 - Ethnographic Practicum: Metropolis

**Hours:** 24S

Drawing on a wide range of urban ethnography, we investigate how theories of contemporary urban transformation can be used to develop insights into the myriad social and cultural changes now underway in the city of Toronto. Students will design and conduct a field research project in a Toronto neighbourhood.

**Prerequisite:** ANT207H1 and ANT347H1

**Recommended Preparation:** ANT380H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT449H1 - Ethnographic Practicum: Infrastructures

**Hours:** 24S

From sewer systems to social media, infrastructures help to structure social relations and cultural experience. This course examines ethnographic approaches to the study of infrastructures. Course topics range from year to year, and could include how the landscape of new media infrastructures is changing our lives, the way water is channelled in Toronto, or debates about how to accommodate public transportation, cars, cyclists and pedestrians on city streets around the world. Students will design and conduct a field research project.

**Prerequisite:** ANT207H1 and ANT349H1

**Recommended Preparation:** ANT380H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT450H1 - Nature, Culture and the City

Hours: 24S

As of 2007, for the first time in human history, more than half the world's peoples lived in cities. It is estimated that by 2030 over 60% will be urban-dwellers. This demographic shift suggests that for many (if not most) people, their primary encounter with "nature" will be urban based. This course explores the idea of "urban-nature" by 1) focusing on the ways in which various theorists have challenged traditional ways of viewing both "the city" and "nature" and 2) encouraging students to develop their own critical perspectives through ethnographic engagements with the city of Toronto.

**Prerequisite:** ANT204H1 or ANT207H1 and a 300-level course or above in Society, Culture and Language

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT451H1 - History of Anthropological Thought: The Search for Human Universals

Hours: 24S

This course concentrates on original late 19th Century to mid-20th Century works by Lewis Henry Morgan, Emile Durkheim, Arnold van Gennep, Marcel Mauss, Claude Lévi-Strauss and others who tried to establish universal principles of social and cultural life as classificatory kinship, sacred and profane, rites of passage, reciprocity, and structuralism.

**Prerequisite:** ANT207H1 and at least one full course equivalent in Society, Culture and Language

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT452H1 - Anthropology & Human Rights

Hours: 24S

The concept of human rights in its universal claims raises fundamental questions for anthropology as it challenges a central value of the discipline: cultural relativism. Students are asked to consider epistemological and theoretical questions and case studies (e.g. claims of rights by ethnic collectivities).

**Prerequisite:** ANT204H1 or ANT207H1 or PCJ260Y1 or PCJ360H1, and one 300 level course in Society, Culture and Language

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## HAJ453H1 - AIDS: A Global Perspective

Hours: 6L/18S

Seminars explore the global AIDS crisis, adopting the medical-anthropological perspective of Paul Farmer's *Infections and Inequalities*. Varying epidemiological profiles of AIDS are placed in broader social, cultural, and political-economic frameworks. The impact of globalization and structural inequality on local cultures and lifestyles provides an essential backdrop to the discussions.

**Prerequisite:** 14 FCE complete, AND either (HMB302H1/ HMB303H1/ HMB322H1/ HMB323H1/ HMB342H1) OR (0.5 FCE from a ANT300+ level course from Group B- Evolutionary)

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT456H1 - Queer Ethnography

Hours: 24L

This course explores, first, how and where forms of desire and sexual practice have become sites of anthropological inquiry and exemplars of particular cultural logics. Tracing, then, the transnational turn in the anthropology of sexuality, the course engages important debates about culture, locality, and globalization. By focusing on the transnational movement of desires, practices, and pleasures through activism, mass media, and tourism, the course asks how sex is global and how globalization is thoroughly sexed. Course material will stress, but not be limited to, forms of same-sex or otherwise queer sexualities.

**Prerequisite:** ANT207H1 and any 300-level course in Society, Culture and Language

**Exclusion:** ANT343H1/ANT343Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT457H1 - Anthropology of Material Culture

Hours: 24L

The course addresses the cultural and social significance of material culture in specific cultural settings, and the role that artifacts have played in the history of anthropological thought from early typological displays to the most recent developments of material culture studies.

**Prerequisite:** ANT200Y1 or ANT207H1 and a minimum of 12 FCEs

**Distribution Requirements:** Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## ANT458H1 - Settler-Colonialism and Indigenous Health in Canada

**Hours:** 24S

This course draws on anthropological and historical literatures to explore the relationship between the health of Indigenous people and Canadian settler-colonialism. In conceptualising this relationship, we focus on critical analysis of the role of biomedical health-care systems in settler-colonial governmentality, and how history is understood in discourses on Indigenous health.

**Prerequisite:** ANT345H1 or ANT348H1 or ANT358H1, or ANT460H1 or ABS350H1 or JFP450H1 or PHM450H1 or permission of the instructor

**Recommended Preparation:** It is recommended that students have completed 300-level undergraduate courses in both medical anthropology, and anthropology of Indigenous issues or Indigenous health

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT460H1 - Global Perspectives on Womens Health

**Hours:** 24S

This fourth-year seminar examines how female gender shapes health and illness. Using case studies of sexual health, fertility and its management, substance use/abuse, mental health, and occupational/labor health risks, the course investigates the material, political, and socio-cultural factors that can put women at risk for a range of illness conditions.

**Prerequisite:** ANT343H1 or ANT348H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT462H1 - Anthropology of Affect

**Hours:** 24S

This course examines how anthropologists have studied the way that people hope, imagine, love, and despise. Ethnography of the intimate realms of affect raises important questions about knowledge production and methodology as well as offering insight into how people come to act upon the world and what the human consequences of such action are. The course will also examine how the intimate is socially produced and harnessed in the service of politics and culture. Topics will include grief and its lack; dreams and activism; love and social change; memory and imperialism; sexuality and care; and violence and hope.

**Prerequisite:** ANT207H1 and any 300-level course in Society, Culture and Language

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ANT468H1 - Ethnography of the Papua New Guinea Highlands

**Hours:** 24S

Since "first contact" in the mid-20th Century, Highlands ethnographies have played a central role in debates about kinship, systems of exchange and relations between the sexes in small scale societies. The course examines traditional warfare, sorcery, rites of passage, myths and ideologies of conception and the person.

**Prerequisite:** ANT207H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT472H1 - Japan in Global Context: Anthropological Perspectives (formerly ANT354Y1 and ANT354H1)

**Hours:** 24L

This course examines how what we know as Japan and its culture has been constructed through global interactions. Topics include gender and sexuality, race and ethnicity, social and family life, work and leisure, and Japanese identity amid changing global power relations.

**Prerequisite:** ANT204H1 or ANT207H1

**Exclusion:** ANT354Y1; ANT354H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT473H1 - Ethnographic Practicum: The University

**Hours:** 36S

Students carry out original ethnographic research projects on some aspect of life in the University of Toronto: its students, staff and faculty; its hierarchies and habits; and the everyday practices in classrooms, labs, dining halls, offices, clubs, and residence corridors. Class time is used for collective brainstorming, feedback and analysis.

**Prerequisite:** ANT380H1 or permission of the instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT474H1 - Ethnographies of HIV/AIDS: Risk, Vulnerability, and Care**

**Hours:** 24S

This course examines HIV/AIDS globally and ethnographically focusing on how gendered political economies create HIV vulnerability; the experiences of sexual minorities; how religious institutions shape practices of social care and exclusion; and anthropological critiques of HIV awareness campaigns and counseling as sites of governmentality.

**Prerequisite:** ANT207H1 and ANT348H1 or ANT345H1 or ANT358H1 or ANT343H1

**Recommended Preparation:** ANT343H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT475H1 - Reading Ethnography**

**Hours:** 24P

Students read several full-length ethnographies, both classical and contemporary, and debate what makes for sound ethnographic research and writing, as well as what ethnography is and "should" be as a genre of writing and representation.

**Prerequisite:** ANT207H1 and ANT370H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT476H1 - Body, Self and Sociality**

**Hours:** 36S

This seminar class examines 'the body' as a historically and culturally contingent category, the material site and means of practice, and a foundation point for identity and self-fashioning. We consider the relevance of cultural meanings to biomedical practices, the centrality of the body to consumer techno-society, and the body's role as a locus of experience, political inscription, and struggle.

**Prerequisite:** ANT370H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **ANT477H1 - Transnational Korea in and outside the Peninsula (formerly ANT377H1)**

**Hours:** 24S

This course addresses reading ethnography as a tool to understand compressed and complex modernity such as Korean societies, both in and outside of the Korean peninsula. In particular, this course aims to develop students critical thinking on class, ethnicity, gender, family, and migration in Korea and diasporic societies of Koreans in Canada, China, Japan, and US.

**Prerequisite:** ANT207H1 and at least one 300+ course in social sciences and humanities

**Exclusion:** ANT377H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ANT480H1 - Special Topics in Anthropological Research**

**Hours:** 24S

Unique opportunity to explore a particular anthropological topic in-depth. Topics vary from year to year.

**Prerequisite:** Any 200 level Anthropology course and 1.0 FCE at the 300+ level

**Distribution Requirements:** Social Science

## **ANT481H1 - Special Topics in Evolutionary Anthropology**

**Hours:** 24S

Unique opportunity to explore in-depth a particular topic in Evolutionary Anthropology. Topics vary from year to year.

**Prerequisite:** ANT203Y1 and 0.5 FCE 300+ Group B (Evolutionary) course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **ARH482H1 - Special Topics in Archaeology**

**Hours:** 24S

Unique opportunity to explore a particular archaeological topic in-depth. Topics vary from year to year.

**Prerequisite:** ARH305H1

**Distribution Requirements:** Social Science

## ANT483H1 - Special Topics in Linguistic Anthropology

**Hours:** 24S

This course will focus on an advanced topic in Linguistic Anthropology. Topic will vary from year- to-year.

**Prerequisite:** ANT253H1 and 1.0 FCE 300 level Group C (Society, Culture and Language) course

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ANT484H1 - Special Topics in Social Cultural Anthropology

**Hours:** 24S

Unique opportunity to explore a particular Social Cultural Anthropology topic in-depth. Topics vary from year to year.

**Prerequisite:** ANT207H1 and 1 FCE 300 level Group C (Society, Culture and Language) course

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT485H1 - Topics in Emerging Scholarship (Society, Culture and Language)

**Hours:** 24S

Taught by an advanced PhD student or postdoctoral fellow, and based on his or her doctoral research and area of expertise, this course presents a unique opportunity to explore intensively a particular Socio-cultural or Linguistic Anthropology topic in-depth. Topics vary from year to year.

**Prerequisite:** ANT207H1 and 1 FCE 300+ Group C (Society, Culture and Language) course

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT486H1 - Special Topics: Socio-Cultural Research Seminar

**Hours:** 24S

Unique opportunity to explore a particular Social Cultural Anthropology topic in-depth. Topics vary from year to year.

**Prerequisite:** ANT207H1 and 1 FCE 300+ Group C (Society, Culture and Language) course

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT490Y1 - Field Course in Social and Cultural Anthropology

**Hours:** 24L/52P

An instructor-supervised experiential study project in social and cultural anthropology. Course takes place in an off-campus setting. Not eligible for CR/NCR option.

**Prerequisite:** ANT204H1 or ANT207H1 and two additional Society, Culture and Language courses

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT491H1 - Internship in Anthropology

**Hours:** 24P

This course is an opportunity to apply acquired knowledge in anthropology or archeology in a work placement environment. Opportunities may include local community organizations, international development organizations, museum or heritage projects, or media production projects. Only internships that require knowledge and skills in anthropology and/or archeology will be considered. Student must fulfill responsibilities of the internship as well as complete a final research paper. If qualified, the student's internship supervisor will mark the final paper for the course; if not, an appropriate academic supervisor will be assigned from within the Dept. of Anthropology. Not eligible for CR/NCR option.

**Prerequisite:** Fourth year; major or specialist in a program in Anthropology; 3.0 FCEs in Anthropology

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ANT491Y1 - Internship in Anthropology

**Hours:** 48P

This course is an opportunity to apply acquired knowledge in anthropology or archeology in a work placement environment. Opportunities may include local community organizations, international development organizations, museum or heritage projects, or media production projects. Only internships that require knowledge and skills in anthropology and/or archeology will be considered. Student must fulfill responsibilities of the internship as well as complete a final research paper. If qualified, the student's internship supervisor will mark the final paper for the course; if not, an appropriate academic supervisor will be assigned from within the Dept. of Anthropology. Not eligible for CR/NCR option.

**Prerequisite:** Fourth year; major or specialist in a program in Anthropology; 3.0 FCEs in Anthropology

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ARH494H1 - Topics in Emerging Scholarship (Archaeology)**

**Hours:** 24S

Taught by an advanced PhD student or postdoctoral fellow, and based on his or her doctoral research and area of expertise, this course presents a unique opportunity to explore intensively a particular Archaeology topic in-depth. Topics vary from year to year.

**Prerequisite:** ARH305H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ARH495H1 - Archaeology Research Practicum**

**Hours:** TBA

Laboratory or practical research on an archaeological project that emphasizes methods and research design in archaeology. Students must obtain the consent of a Supervisor before enrolling. Students are required to give an oral presentation of research results to an open meeting of the Archaeology Centre at the conclusion of the course. Application must be made to the Anthropology Department. Not eligible for CR/NCR option.

**Prerequisite:** A minimum of 14 credits, permission of Supervisor and Undergraduate Coordinator.

**Exclusion:** ANT497Y1

**Recommended Preparation:** ARH305H1, ARH312Y1

**Distribution Requirements:** Social Science

## **ANT497Y1 - Independent Research**

**Hours:** TBA

Supervised independent research on a topic agreed on by the student and supervisor before enrolment in the course. Open in exceptional circumstances to advanced students with a strong background in Anthropology. Course Supervisor must be a member of the Anthropology faculty. Application for enrolment should be made to the Department in the preceding term. A maximum of one year of Independent Research courses is allowed per program. Not eligible for CR/NCR option.

**Prerequisite:** A minimum of 10 credits, permission of Supervisor and Undergraduate Coordinator.

**Distribution Requirements:** Social Science

## **ANT498H1 - Independent Research**

**Hours:** TBA

Supervised independent research on a topic agreed on by the student and supervisor before enrolment in the course. Open in exceptional circumstances to advanced students with a strong background in Anthropology. Course Supervisor must be a member of the Anthropology faculty. Application for enrolment should be made to the Department in the preceding term. A maximum of one year of Independent Research courses is allowed per program. Not eligible for CR/NCR option.

**Prerequisite:** A minimum of 10 credits, permission of Supervisor and Undergraduate Coordinator.

**Distribution Requirements:** Social Science

## **ANT499H1 - Independent Research**

**Hours:** TBA

Supervised independent research on a topic agreed on by the student and supervisor before enrolment in the course. Open in exceptional circumstances to advanced students with a strong background in Anthropology. Course Supervisor must be a member of the Anthropology faculty. Application for enrolment should be made to the Department in the preceding term. A maximum of one year of Independent Research courses is allowed per program. Not eligible for CR/NCR option.

**Prerequisite:** A minimum of 10 credits, permission of Supervisor and Undergraduate Coordinator.

**Distribution Requirements:** Social Science

# Archaeology

The Archaeology Program focuses on the study of past human societies primarily through their material remains, or “material culture.” Archaeologists explore the nature of and changes in past cultures around the world through survey, excavation and analyses of stone tools, pottery, bones, plant remains, architecture and other cultural residues. Some of the major research foci of archaeologists are the behaviour and adaptations of early hominins, diversity of hunter-gatherer societies, origins of agriculture, pastoralism, urbanism and politically complex states, the workings of ancient exchange systems, and the development of class-based and gender-based political and economic inequalities in complex societies. Working archaeologists often specialize geographically, chronologically or thematically. Classical archaeologists, for example, specialize in the cultures of the ancient Greco-Roman world, while palaeoethnobotanists explore ways that botanical residues of ancient and prehistoric cultures can inform us about their economies and social systems. The specialist, major and minor programs allow students to explore archaeology in an interdisciplinary setting.

Students in the specialist or major program should consult the program coordinator or faculty members in their intended areas of specialization for advice on the selection of courses. Those intending to go on to graduate studies in departments such as Classics, East Asian Studies, Fine Art History or Near and Middle Eastern Civilizations should pay particular attention to language requirements at the graduate level.

The Archaeology Specialist (Arts program) is designed for students who would like to concentrate in archaeology while drawing on the teaching resources of diverse departments. See details below. Students interested in pursuing graduate studies should combine it with study of the ancient and modern languages relevant to their primary area of interest.

The Archaeology Major (Arts program) is designed for students who would like to pursue their interests in archaeology in conjunction with a Major in another field, such as Art, Classics, Earth Science, History, or Near and Middle Eastern Civilizations. See details below.

The Archaeology Minor (Arts program) allows students to sample archaeology while pursuing their main interest in another discipline. See details below.

For all these programs, students are encouraged to seek counselling and information from the Anthropology Undergraduate Administrator/Student Counsellor, Anthropology (416-978-6414).

Careers in archaeology usually require graduate training, although some aspects of archaeology in the public sector can be pursued with an undergraduate degree. Students completing our program have also successfully pursued careers in teaching, tourism, and cultural resource management.

## Archaeology Programs

### Archaeology Specialist (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

Courses for admission: [ANT200Y1](#) with a final mark of at least 70%.

#### Completion Requirements:

(11 full courses or their equivalent, including at least 4 FCE at the 300+ level and 1 FCE at the 400 level)

First Year:

1. [ANT200Y1](#)
2. Statistical Requirement: [GGR270H1](#) (Geography pre- or co-requisites waived for Archaeology and Anthropology students); or 0.5 FCE from [STA220H1](#), [STA221H1](#), [STA247H1](#), [STA248H1](#), [STA255H1](#), [STA257H1](#), [STA261H1](#), or [ANTC35H3](#) (at UTSC)
3. [ANT100Y1](#) or [CLA160H1](#). If [CLA160H1](#) is taken, students must take an additional 0.5 FCE from the following: [CLA230H1](#), [CLA231H1](#), [CLA232H1](#), [CLA233H1](#); [FAH206H1](#), [FAH207H1](#); [GGR100H1](#), [GGR101H1](#); [NMC260H1](#), [NMC262H1](#)

Upper Years:

4. [ARH305H1](#), [ARH309H1](#), [ARH312Y1](#), [ANT411H1](#)
5. Field Requirement: [ANT311Y1](#) or [ARH306Y1](#) or [NMC261Y0](#) or [ARH361Y1](#) or [ARH361H1](#) or [ANT418H5](#) (at UTM). If [ARH361H1](#) or [ANT418H5](#) is taken, students must take an additional 0.5 FCE from [ANT](#).
6. 5.0 FCE from Groups A and B, of which 2.0 FCE must be from Group A and 2.0 FCE must be from Group B and 1.0 FCE from either group

Note that students may substitute [ARH495H1](#) (Research Practicum) for 0.5 FCE of this requirement (assignment to Group A or B to be determined by Undergraduate Coordinator).

### Archaeology Major (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

Courses for admission: [ANT100Y1](#) with a final mark of at least 67% or [ANT200Y1](#) with a final mark of at least 70%.

#### Completion Requirements:

(7 full courses or their equivalent, including at least 2 FCE at the 300+ level and 0.5 FCE at the 400-level)

First Year:

1. [ANT200Y1](#)
2. [ANT100Y1](#) or [CLA160H1](#). If [CLA160H1](#) is taken, students must take an additional 0.5 FCE from the following: [CLA230H1](#), [CLA231H1](#), [CLA232H1](#), [CLA233H1](#); [FAH206H1](#), [FAH207H1](#); [GGR100H1](#), [GGR101H1](#); [NMC260H1](#), [NMC262H1](#)

Upper Years:

3. [ARH305H1](#) and [ARH309H1](#)
4. 1 FCE from: [ARH306Y1](#), [ARH312Y1](#), [ARH361Y1](#), [ARH361H1](#), [ANT311Y1](#), [NMC261Y0](#), [NMC369Y1](#), [NMC465H1](#), [NMC466H1](#)
5. 2.5 FCE from: Group A
6. 0.5 FCE from: Group B

## Archaeology Minor (Arts Program)

### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol. Courses for admission: [ANT200Y1](#) with a final mark of at least 70%.

### Completion Requirements:

(4 full course equivalents, including at least 1 FCE at the 300- or 400-levels)

1. [ANT200Y1](#)
2. [ARH305H1](#) and [ARH309H1](#)
3. 1.5 FCE from Group A
4. 0.5 FCE from Group B

If [ARH312Y](#) is completed, it will be considered a Group A course.

## Course Groups

### Group A Theoretical and Methods 1: Theoretical

- [ANT370H1](#) Introduction to Social Anthropological Theory
- [ANT372H1](#) Cultural Property
- [ANT409H1](#) Landscape Archaeology
- [ANT410H1](#) Hunter-Gatherers Past & Present
- [ANT411H1](#) Advanced Archaeological Theory
- [ANT416H1](#) Archaeology of Ritual and Identity
- [ANT420H1](#) Archaeology of Inequality
- [VIC225Y1](#) A History of the World in Objects

### Group A Theoretical and Methods 2: Archaeometry

- [CHM317H1](#) Introduction to Instrumental Methods of Analysis
- [CHM414H1](#) Biosensors and Chemical Sensors
- [CHM416H1](#) Separation Science
- [GGR337H1](#) Environmental Remote Sensing
- [JGA305H1](#) Environmental and Archaeological Geophysics

- [NMC369Y1](#) Archaeological Materials and Industries

### Group A Theoretical and Methods 3: Ceramic and Lithic Analysis

- [ANT406H1](#) Lithic Analysis
- [NMC369Y1](#) Archaeological Materials and Industries
- [NMC462Y1](#) Polarized-light Microscopy in Archaeology
- [NMC465H1](#) Ceramic Analysis
- [NMC466H1](#) Near Eastern Ceramics
- [NMC469Y1](#) Mediaeval Middle Eastern Ceramics

### Group A Theoretical and Methods 4: Geoarchaeology

- [ANT409H1](#) Landscape Archaeology
- [GGR272H1](#) Geographic Information and Mapping I
- [GGR273H1](#) Geographic Information and Mapping II
- [GGR301H1](#) Fluvial Geomorphology
- [GGR337H1](#) Environmental Remote Sensing
- [GGR373H1](#) Advanced Geographic Information Systems
- [GGR390H1](#) Field Methods
- [GGR413H1](#) Watershed Hydroecology
- [ESS330H1](#) Introduction to Geologic Field Methods
- [ESS331H1](#) Sedimentation and Stratigraphy
- [JGA305H1](#) Environmental and Archaeological Geophysics

### Group A Theoretical and Methods 5: Osteoarchaeology and Zooarchaeology

- [ANT334H1](#) Human Skeletal Biology (formerly [ANT334Y1](#))
- [ANT335Y1](#) Human Evolution
- [ANT338H1](#) Molecular Anthropology and Human Evolution
- [ANT415Y1](#) Laboratory in Faunal Archaeo-Osteology
- [ANT432H1](#) The Evolving Human Skull
- [ANT434H1](#) Health, Diet & Disease in the Past
- [EEB318H1](#) Principles of Evolution
- [EEB323H1](#) Evolutionary Genetics
- [EEB324H1](#) Evolutionary Ecology

### Group A Theoretical and Methods 6: Paleoethnobotany

- [EEB330H1](#) Systematic Botany
- [EEB340H1](#) Comparative Plant Morphology
- [GGR305H1](#) Biogeography
- [GGR390H1](#) Field Methods
- [JGE331H1](#) Resource and Environmental Theory (formerly [GGR331H1](#))

### Group A Theoretical and Methods 7: Urbanism and Settlement

- [ANT318H1](#) The Preindustrial City and Urban Social Theory

## Group B: Area Courses and Cultural History

### 1: Classical and Aegean Archaeology

- [CLA230H1 Introduction to Greek History](#)
- [CLA231H1 Introduction to Roman History](#)
- [CLA232H1 Introduction to Greek Society and Culture](#)
- [CLA233H1 Introduction to Roman Society and Culture](#)
- [CLA362H1 Early Greece](#)
- [CLA363H1 Archaic and Classical Greece](#)
- [CLA364H1 The Hellenistic World](#)
- [CLA366H1 Topics in the Study of Greek History](#)
- [CLA367H1 The Roman Republic](#)
- [CLA368H1 Augustus and the Julio-Claudians](#)
- [CLA369H1 The Roman Empire](#)
- [CLA371H1 Topics in the Study of Roman History](#)
- [CLA389H1 Classical Spaces: Sites and Monuments](#)
- [CLA392H1 Topics in the study of Classical Culture and Society](#)
- [CLA403H1 Advanced Seminar in Roman Civilization](#)
- [FAH206H1 Prehistoric Aegean and East Mediterranean Art and Archaeology](#)
- [FAH207H1 Greek and Roman Art and Archaeology](#)
- [FAH303H1 Emergence of Greek Civilisation](#)
- [FAH309H1 City of Rome](#)
- [FAH401H1 Aegean Wall Paintings](#)
- [FAH407H1 Studies in Roman Painting and Sculpture](#)
- [FAH486H1 Case Studies at the Royal Ontario Museum](#)
- [HIS320H1 Barbarian Invasions and the Fall of the Roman Empire](#)

## Group B: Area Courses and Cultural History

### 2: Egyptian Archaeology

- [JAL328H1 Writing Systems](#)
- [NMC343H1 History of Ancient Egypt I: Predynastic Period to Middle Kingdom](#)
- [NMC344H1 History of Ancient Egypt II: Second Intermediate Period to Greco-Roman Period](#)
- [NMC362Y1 Ancient Egyptian Sites](#)
- [NMC368H1 Coptic Art & Archaeology](#)
- [NMC382Y1 Mummies, Myth and Magic: The Religion of Ancient Egypt](#)
- [NMC461Y1](#)
- [NMC467H1 Seminar in Egyptian Archaeology I](#)
- [NMC468H1 Seminar in Egyptian Archaeology II](#)

## Group B: Area Courses and Cultural History

### 3: European and Celtic Archaeology

- [FAH318H1 Monastic Art and Architecture](#)
- [FAH327H1 Secular Art and Architecture of the Middle Ages](#)
- [FAH328H1 Gothic Cathedral \(formerly FAH369H1\)](#)
- [FAH420H1 Studies in Western Medieval Art and Architecture](#)
- [FAH421H1 Studies in Medieval Cities](#)
- [HIS321H1 Dark Age Europe, 7th 10th Centuries](#)
- [HIS323H1 Rites of Passage and Daily Life in the Middle Ages \(formerly HIS323Y1\)](#)
- [HIS336H1 Medieval Spain](#)

- [HIS357Y1 A Social History of Renaissance Europe \(formerly HIS357H1\)](#)
- [HIS362H1 The Hansa: The World of Merchants](#)
- [HIS403H1 Jews and Christians in Medieval and Renaissance Europe \(formerly HIS403Y1\)](#)
- [HIS412Y1 Crusades, Conversions and Colonialization in the Medieval Baltic \(formerly HIS412H1\)](#)
- [HIS424H1 Violence in Medieval Society \(formerly HIS424Y1\)](#)
- [HIS432H1 Topics in Medieval History](#)
- [SMC344Y1 Celtic Archaeology](#)
- [SMC337H1 Early Celtic History 450-1000](#)
- [SMC338H1 The Celtic Nations in the Later Middle Ages 1000-1550](#)

## Group B: Area Courses and Cultural History

### 4: Historical Archaeology

- [ANT412H1 Historical Archaeology](#)
- [FAH376H1 Canadian Architecture: A Survey](#)
- [GGR240H1 Geographies of Colonialism in North America](#)
- [GGR241H1 Geographies of Urban Social Exclusion](#)
- [GGR336H1 Urban Historical Geography of North America](#)
- [GGR421H1 Histories of Geographical Thought](#)
- [HIS369H1 Aboriginal Peoples of the Great Lakes from 1500 to 1830](#)
- [HIS374H1 American Consumerism - The Beginnings](#)
- [HIS384H1](#)

## Group B: Area Courses and Cultural History

### 5: Islamic Archaeology

- [HIS303H1 The Mediterranean, 600-1300: Crusade, Colonialism, Diaspora](#)
- [NMC348Y1 Iran and Islam](#)
- [NMC365Y1 Archaeology of the Islamic World](#)
- [NMC366Y1 Archaeology from Alexander to Muhammad](#)
- [NMC374H1 History of Islamic Egypt](#)
- [NMC376H1 History of Islamic Spain and North Africa \(640-1492\)](#)
- [NMC393H1 Early Islamic Art & Architectures](#)
- [NMC394H1 Persianate Art & Architecture](#)
- [NMC396Y1 The Islamic City](#)

## Group B: Area Courses and Cultural History

### 6: Near Eastern Archaeology

- [JAL328H1 Writing Systems](#)
- [NMC346H1 Ancient Mesopotamia I: Sumerians and Akkadians](#)
- [NMC347H1 Ancient Mesopotamia II: Assyrians and Babylonians](#)
- [NMC360H1 Archaeology of the Biblical World I: The Bronze Age](#)
- [NMC361H1 The Archaeology of the Biblical World II: The Iron Age](#)
- [NMC363H1 Ancient Iraq](#)
- [NMC364H1 The Art and Archaeology of Syria](#)
- [NMC370H1 Ancient Israel](#)
- [NMC461Y1](#)

- [NMC466H1 Near Eastern Ceramics](#)

## Group B: Area Courses and Cultural History 7: North and South American Prehistory

- [ANT314H1 Archaeology of the Pacific Northwest](#)
- [ANT315H1 Arctic Archaeology](#)
- [ANT316H1 Ancient Cultures of Mesoamerica](#)
- [ANT317H1 Archaeology of Eastern North America](#)

- [ANT320H1 Ancient Cultures of the Andes](#)
- [ANT407H1 Inka and Aztec States](#)
- [HIS369H1 Aboriginal Peoples of the Great Lakes from 1500 to 1830](#)

## Group B: Area Courses and Cultural History 8: Old World Prehistory

- [ANT419H1 Current Debates in Palaeolithic Archaeology](#)
- [ARH360H1 Prehistory of the Near East \(formerly ANT360Y1\)](#)

## Group B: Area Courses and Cultural History 9: East Asian Archaeology

- [EAS406Y1 Thinking about Things: Material Culture in East Asia](#)
- [EAS412H1 Technology and Material Cultures of Ancient China](#)
- [EAS438H1 Architecture in Premodern China](#)

## Archaeology Courses

### ARH305H1 - Archaeological Interpretation

**Hours:** 24L

Transforming archaeological results into statements about people and their life ways. Covers basic archaeological theory, including research design, sampling, stratigraphy, seriation, formation and testing or evaluation of hypotheses, regional analyses. Introduces some of the major schools of archaeological theory, including New Archaeology and Post-Processual Archaeology.

**Prerequisite:** ANT200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### JGA305H1 - Environmental and Archaeological Geophysics

**Hours:** 24L/12P

Application of near-surface geophysical methods to investigate environmental and archaeological sites; in particular magnetometry, resistivity, ground-probing radar, and seismic surveys. Course will cover background on the various methods, and allow students to run field surveys and present on case studies.

**Prerequisite:** ESS241H1 or ANT200Y1 or GGR201H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

### ARH306Y1 - Archaeological Field Methods

**Hours:** 12L/61P

Intensive instruction in archaeological field methods and acquisition of field skills, including archaeological search and survey, site mapping, laying out excavation grids, use of theodolites, total station, and GPS, stratigraphic excavation, stratigraphy, field recording, screening sediment, Ontario license and reporting requirements. Normally this course would take place on campus in the summer. This course has a mandatory Lab Materials Fee of \$25 to cover non-reusable materials. The fee will be included on the student's ACORN invoice.

**Prerequisite:** ANT200Y1 or (NMC260H1 and NMC262H1) or NMC261Y0

**Distribution Requirements:** Social Science

### ARH309H1 - Archaeology, Ethics, and the Public

**Hours:** 24L

An analysis of ethics in contemporary archaeology that covers reburial and repatriation, interpretation of the archaeological record in the context of historically oppressed groups, ethnic minorities, and non-western societies, the ethics of collecting and managing cultural property, relationships with the media, the debates surrounding looting, and other issues.

**Prerequisite:** ANT200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ARH312Y1 - Archaeological Laboratory

**Hours:** 28L/44P

Techniques for making archaeological data meaningful after excavation or survey. Archaeological measurements, compilation of data, database design, archaeological systematics, and sampling theory in the context of lithics, pottery, floral, faunal and other archaeological remains.

**Prerequisite:** ANT200Y1 and a half statistics course (e.g. GGR270H1\*, STA220H1, STA221H1, STA257H1, STA261H1, ANTC35H3\*\*). Note: \*Geography Pre- or co-requisites waived for Anthropology and Archaeology students; \*\* to be taken at the Scarborough Campus

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ARH360H1 - Prehistory of the Near East (formerly ANT360Y1)

**Hours:** 24L

From earliest times through the rise of complex hunter-gatherers, and the food producing revolution to politically complex societies in Southwest Asia.

**Prerequisite:** ANT200Y1 or NMC260H1 and NMC262H1

**Exclusion:** ARH360Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ARH361H1 - Field Archaeology

**Hours:** TBA

Opportunity for students participating in non-degree credit archaeological digs to submit reports, field notes and term papers for degree credit. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Undergraduate Co-ordinator and Supervisor

**Distribution Requirements:** Social Science

## ARH361Y1 - Field Archaeology

**Hours:** TBA

Opportunity for students participating in non-degree credit archaeological digs to submit reports, field notes and term papers for degree credit. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Undergraduate Co-ordinator and Supervisor

**Distribution Requirements:** Social Science

## ARH398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## ARH399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## ARH482H1 - Special Topics in Archaeology

**Hours:** 24S

Unique opportunity to explore a particular archaeological topic in-depth. Topics vary from year to year.

**Prerequisite:** ARH305H1

**Distribution Requirements:** Social Science

## **ARH494H1 - Topics in Emerging Scholarship (Archaeology)**

**Hours:** 24S

Taught by an advanced PhD student or postdoctoral fellow, and based on his or her doctoral research and area of expertise, this course presents a unique opportunity to explore intensively a particular Archaeology topic in-depth. Topics vary from year to year.

**Prerequisite:** ARH305H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **ARH495H1 - Archaeology Research Practicum**

**Hours:** TBA

Laboratory or practical research on an archaeological project that emphasizes methods and research design in archaeology. Students must obtain the consent of a Supervisor before enrolling. Students are required to give an oral presentation of research results to an open meeting of the Archaeology Centre at the conclusion of the course. Application must be made to the Anthropology Department. Not eligible for CR/NCR option.

**Prerequisite:** A minimum of 14 credits, permission of Supervisor and Undergraduate Coordinator.

**Exclusion:** ANT497Y1

**Recommended Preparation:** ARH305H1, ARH312Y1

**Distribution Requirements:** Social Science

# Architecture and Visual Studies

A Program of the Faculty of Arts & Science and the John H. Daniels Faculty of Architecture, Landscape, and Design

The Architectural Studies Major programs were transferred from the Faculty of Arts & Science to the John H. Daniels Faculty of Architecture, Landscape, and Design effective September 1, 2012. Students interested in pursuing the Major programs may apply for admission to the Daniels Faculty. For information regarding the Architectural Studies programs and courses, please visit the Daniels website: [www.daniels.utoronto.ca](http://www.daniels.utoronto.ca).

The Visual Studies Specialist and Major programs were transferred from the Faculty of Arts & Science to the John H. Daniels Faculty of Architecture, Landscape, and Design effective September 1, 2014. Students interested in pursuing the Visual Studies Specialist or Major program may apply for admission to the Daniels Faculty ([www.daniels.utoronto.ca](http://www.daniels.utoronto.ca)).

If you have any questions about the Architectural Studies or Visual Studies programs, please contact the Daniels Faculty Registrar's Office at [registrar@daniels.utoronto.ca](mailto:registrar@daniels.utoronto.ca).

The Visual Studies Minor is a Faculty of Arts & Science program. Requirements are listed below.

## Architecture and Visual Studies Programs

### Visual Studies Minor (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program that can only accommodate a limited number of students. Eligibility will be based on a student's mark(s) in the required course(s). The precise mark thresholds outlined below are an estimate of what will be required in the coming program admission cycle. Achieving those mark(s) does not necessarily guarantee admission to the program in any given year.

Required courses: completion of at least four full course equivalents including [VIS120H1/JAV120H1](#) and [VIS130H1/JAV130H1](#) and an average of at least a B in each of [VIS120H1/JAV120H1](#) and [VIS130H1/JAV130H1](#).

#### Completion Requirements:

Program requirements

(No more than four Visual Studies full courses or their equivalent, including at least one full 300-level course or its equivalent.)

Note:

No more than 4 full courses may be taken in a Minor program

1. [VIS120H1/JAV120H1](#) and [VIS130H1/JAV130H1](#)

2. Six half-courses in VIS

3. Note: VIS minors are not permitted to take VIS401 and VIS402, or any Independent VIS courses

## Visual Studies Programs

The Visual Studies Specialist and Major programs were transferred from the Faculty of Arts & Science to the John H. Daniels Faculty of Architecture, Landscape, and Design effective September 1, 2014. Students interested in pursuing the Visual Studies Specialist or Major program may apply for admission to the Daniels Faculty ([www.daniels.utoronto.ca](http://www.daniels.utoronto.ca)).

For Arts & Science students enrolled in the program before September 2014, please refer to the relevant Calendar below for program information.

Enrolled in 2014: [2014-15 Calendar](#)

Enrolled in 2013: [2013-14 Calendar](#)

Enrolled in 2012: [2012-13 Calendar](#)

Enrolled in 2011 or before: select the relevant archived Calendar on the [home page](#) of this Calendar

## Architecture Programs

The Architectural Studies Major programs were transferred from the Faculty of Arts & Science to the John H. Daniels Faculty of Architecture, Landscape, and Design effective September 1, 2012. Students interested in pursuing the Major programs may apply for admission to the Daniels Faculty. For information regarding the Architectural Studies programs and courses, please visit the Daniels website: [www.daniels.utoronto.ca](http://www.daniels.utoronto.ca).

For Arts & Science students enrolled in the program before September 2012, please refer to the relevant Calendar below for program information.

Enrolled in 2012: [2012-13 Calendar](#)

Enrolled in 2011: [2011-12 Calendar](#)

Enrolled in 2010 or before: select the relevant archived Calendar on the [home page](#) of this Calendar

## Architecture and Visual Studies Courses

Architecture and Visual Studies course descriptions can be found on the Daniels website at [www.daniels.utoronto.ca](http://www.daniels.utoronto.ca). Elective courses are available for Arts & Science students.

If you have any questions about the Architecture or Visual Studies courses please contact the Daniels Faculty Registrar's Office at [registrar@daniels.utoronto.ca](mailto:registrar@daniels.utoronto.ca).

# Astronomy and Astrophysics

## Faculty List

### Professors Emeriti

C.T. Bolton, MSc, PhD  
C.M. Clement, BSc, MA, PhD  
M.J. Clement, MSc, PhD  
C.C. Dyer, MSc, PhD (University of Toronto Scarborough)  
J.D. Fernie, MSc, PhD, FRSC  
R.F. Garrison, BA, PhD  
P.P. Kronberg, MSc, PhD, DSc  
S.W. Mochnacki, MSc, PhD  
J.R. Percy, BSc, MA, PhD (University of Toronto Mississauga)  
S.M. Rucinski, MSc, PhD  
E. R. Seaquist, MA, PhD

### Professor and Chair

R.G. Carlberg, MSc, PhD, FRSC

### Associate Chair, Graduate Studies

C.D. Matzner, BA, MA, PhD

### Associate Chair, Undergraduate Studies

D.-S. Moon, PhD

### University Professor

J.R. Bond, OC, MS, PhD, FRSC, FRS \*

### Professors

R. Abraham, BSc, DPhil  
P. Artymowicz, MSc, PhD (University of Toronto Scarborough) \*  
B. Gaensler, BSc DPhil, FAA (Director, Dunlap Institute)  
J.B. Lester, MS, PhD (University of Toronto Mississauga) \*  
P.G. Martin, MSc, PhD, FRSC \*  
N.W. Murray, BSc, PhD \*  
C.B. Netterfield, BSc, PhD \*  
A.C. Thompson, BSc, PhD \*  
M.H. van Kerkwijk, MA, PhD  
H.K.C. Yee, BAsC, PhD, FRSC

### Associate Professors

C.D. Matzner, BA, MA, PhD  
K. Menou, DEA, PhD (University of Toronto Scarborough)  
U.-L. Pen, MSc, PhD \*  
M. Reid, MSc, PhD \*  
Y. Wu, PhD

### Assistant Professors

J. Bovy, MA, PhD  
R. Hlozek, BSc (Hon), MSc, DPhil \*  
J. P. Lowman, MSc, PhD (University of Toronto Scarborough)  
H. Neilson, BSc, PhD  
H. Pfeiffer, PhD \*  
H. Rein, BA, PhD  
S. Sivanandam, BSc (Hon), MSc, PhD \*  
K. Vanderlinde, BSc, PhD \*  
D. Valencia, BAsC, MA, PhD (University of Toronto Scarborough)

### Status Only Faculty

J. J. Dubinski, BSc, MSc, PhD (Associate Professor)

R. Jayawardhana, BS, AM, PhD

\* Cross-appointed

## Introduction

Astronomy explores the universe beyond the earth and attempts to understand the physical processes that describe its contents. Essentially all civilizations have developed astronomy to some degree, with records extending back to the Babylonians. The modern development of astronomy began with Galileo turning a telescope to the sky and the heliocentric model of the solar system. Astronomy and astrophysics have undergone a revolution in the past fifty years as telescopes ranging from the radio to the gamma ray have discovered the relic radiation from the Big Bang, stars and galaxies that were forming not long after, ultradense neutron stars and black holes, as well as planets around other stars. Astronomy as a discipline is a distinctive integration of many of the sciences. At the introductory level it is used to provide a non-technical overview of the scientific approach to questions and our current understanding. At the more advanced level a quantitative physical understanding of astrophysical systems is developed. A graduate in astronomy has a wide grounding in modern physical science which is important for a wide range of roles in society.

Several courses are offered to suit persons of diverse backgrounds and depths of interest. Two beginning courses ([AST101H1](#), [AST201H1](#)) require no special knowledge of mathematics or other sciences and are best suited to students taking non-science programs. These courses develop an understanding of the universe in a qualitative way and in terms of natural laws familiar to us on Earth. [AST121H1](#) is an introductory astronomy course for all science students, while [AST210H1](#) is intended for science students who do not intend to pursue an astronomy program. [AST251H1](#) is best suited to life science students.

The remaining courses are designed for physical sciences and astronomy program students. For all Astronomy & Astrophysics programs, the first astronomy courses normally start in the second year, as they require the mathematical and physical grounding provided in the first year. In third year, after further physics and mathematics, follow more advanced theoretical study as well as a lab course that includes the use of the campus telescopes. For the major program, this is complemented by electives in more advanced mathematics, physics or numerical methods, as well as an introduction to astrophysical research. For the Astronomy & Physics specialist program, intensive training in all aspects of physics is added, allowing supervised, forefront research in fourth year, and preparing for a career in (astro)physical research via graduate studies or otherwise.

The Department works closely with two related academic units, the Canadian Institute for Theoretical Astrophysics (CITA) and the Dunlap Institute for Astronomy and Astrophysics (DI). With a national mandate, CITA fosters research in theoretical aspects of the discipline, including the exploitation of high performance computers in house and in SciNet. Complementary to this, a focus of DI is on the design and development of astronomical instrumentation. Undergraduate students will find diverse research opportunities through the Department and these two cognate units.

# Astronomy and Astrophysics Programs

## Astronomy & Physics Specialist (Science Program)

### Enrolment Requirements:

Astronomy & Astrophysics programs have unlimited enrolment and no specific admission requirements. All students who have completed at least 4.0 courses are eligible to enrol.

### Completion Requirements:

The Astronomy & Physics Specialist program combines rigorous training in the full spectrum of core physics subfields with their application in astronomy. Lecture courses are complemented by practical courses, and the program culminates in a supervised research project, where all the skills learned are used, and which is intended to be published.

(14 full courses or their equivalent, including at least 4 at the 300+ level, and at least 1 at the 400 level)

#### First Year:

MAT137Y1/MAT157Y1, MAT223H1/MAT240H1; PHY151H1, PHY152H1

#### Second Year:

AST221H1, AST222H1; MAT237Y1/MAT257Y1/MAT235Y1, MAT244H1/MAT267H1; PHY250H1, PHY252H1, PHY256H1 (MAT237Y1, MAT244H1 recommended)

#### Third Year:

1. APM346H1; AST320H1, AST325H1/AST326Y1; PHY224H1, PHY254H1, PHY354H1, PHY356H1  
2. One of MAT224H1, MAT327H1, MAT334H1, MAT363H1, STA257H1

#### Fourth Year:

1. AST425Y1; PHY350H1, PHY450H1  
2. One half course from PHY324H1, PHY357H1, PHY358H1, PHY385H1, PHY407H1, PHY408H1, PHY483H1, JPE395H1  
3. One half course from AST430H1, PHY454H1, PHY456H1, PHY460H1, PHY483H1, PHY484H1, PHY495H1  
4. HPS200H1/JPH441H1, or another course with a significant emphasis on Social and Ethical Responsibility approved by the Undergraduate Chair.

#### Notes:

1. Second-year students who wish to keep open the option of pursuing a physics specialist degree should consider taking PHY254H1 in 2nd year.  
2. Third-year students are invited and fourth-year students are expected to attend the weekly departmental colloquia and G2000 talks.

## Astronomy & Astrophysics Major (Science Program)

### Enrolment Requirements:

Astronomy & Astrophysics programs have unlimited enrolment and no specific admission requirements. All students who have completed at least 4.0 courses are eligible to enrol.

### Completion Requirements:

This program is appropriate for students interested in a more flexible and diverse undergraduate program. It may be tailored to be a natural counterpart to a second major in Mathematics, Physics or Computer Science; students should consult the undergraduate chairs of Astronomy & Astrophysics and the respective departments for advice on course selection.

(8 full courses or their equivalent, including at least 2 at the 300+ level, and at least 0.5 at the 400 level)

#### First Year:

(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1; (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

#### Second Year:

1. AST221H1, AST222H1; MAT235Y1/MAT237Y1; PHY252H1  
2. One of PHY224H1, PHY250H1, PHY254H1, PHY256H1

#### Third Year:

AST320H1, AST325H1/AST326Y1

#### Third or fourth year:

1. HPS200H1/JPH441H1, or another course with a significant emphasis on Social and Ethical Responsibility approved by the Undergraduate Chair.  
2. At least one of: CSC336H1, CSC350H1, CSC351H1, CSC456H1; ECE385H1; PHY350H1, PHY354H1, PHY356H1, PHY357H1, PHY358H1, PHY385H1, PHY407H1/PHY408H1, PHY450H1, JPE395H1  
3. Any other APM/AST/CTA/CSC/MAT/PHY/STA at the 300+ level to make up the total of 8 full-course equivalents.

#### Fourth Year:

AST424H1

#### Notes:

1. The Astronomy & Astrophysics Major program is not designed primarily for students intending to pursue graduate studies in Astronomy & Astrophysics. Such students should consider the Astronomy & Physics Specialist program, or consult the Undergraduate Chair about their course selections.  
2. Students interested in pursuing a research project in fourth year (AST425Y1) should consult the undergraduate chair.  
3. Third-year students are invited and fourth-year students are expected to attend the weekly departmental colloquia and G2000 talks.

## Astronomy & Astrophysics Minor (Science Program)

### Enrolment Requirements:

Astronomy & Astrophysics programs have unlimited enrolment and no specific admission requirements. All students who have completed at least 4.0 courses are eligible to enrol.

### Completion Requirements:

A program designed for students looking to add breadth to a program in another, perhaps unrelated discipline.

(4 full courses or their equivalent)

1. AST221H1, AST222H1, AST320H1, AST325H1/AST326Y1
2. (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)
3. PHY252H1 and one of PHY224H1, PHY250H1, PHY254H1, PHY256H1

### Notes:

1. PHY131H1, PHY132H1 and PHY151H1, PHY152H1 require (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1 and PHY252H1 requires MAT235Y1/MAT237Y1/MAT257Y1.
2. Faculty of Applied Science & Engineering equivalents to the physics courses can be substituted. Please consult the Undergraduate Chair.

## Regarding Astronomy and Astrophysics Courses

### First Year Seminars

The PMU199Y1 and PMU199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Astronomy and Astrophysics Courses

### AST101H1 - The Sun and Its Neighbours

**Hours:** 24L/12T

Our place in the Universe. Phenomena we see in the sky. What we know about the Sun, the planets and comets, and the formation of the solar system - and how we know it. What makes planets suitable for life. Finding out about the nearest stars and their planets. This course is intended for students with no science or engineering background.

**Exclusion:** AST121H1, AST221H1. Also excluded are CIV100H1, CIV102H1, any 100- or higher-series CHM/PHY courses taken previously or concurrently (with the exception of PHY100H1, PHY202H1, PHY205H1, CHM101H1)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

### AST121H1 - Origin and Evolution of the Universe

**Hours:** 24L

The origin of the Universe and all that it contains, from the chemical elements, stars and galaxies, and life. The course is intended for students who are enrolling in science and engineering courses.

**Prerequisite:** SPH4U Physics; MCB4U Calculus

**Exclusion:** AST101H1, AST201H1, AST210H1. Also excluded are AST221H1, AST222H1 if taken previously or concurrently

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## AST201H1 - Stars and Galaxies

**Hours:** 24L/12T

What we know about the properties and life cycles of stars, of galaxies, and of the Universe itself - and how we know it. How astronomers develop methods for understanding phenomena that span such vast ranges in distance and time. This course is intended for students with no science or engineering background.

**Exclusion:** AST121H1, AST210H1, AST221H1, AST222H1. Also excluded are CIV100H1, CIV101H1, CIV102H1 and any 100- or higher-series CHM or PHY courses taken previously or concurrently (with the exception of PHY100H1, PHY202H1, PHY205H1, CHM101H1)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## AST210H1 - Great Moments in Astronomy

**Hours:** 24L

From the Copernican Revolution to twentieth century astrophysics. Emphasis is placed on the process of discovery which has led to major advances in knowledge about the Universe. The course includes an outline of some of the most significant puzzles of our day and an examination of the potential for new revolutions in our knowledge. This course is best suited to science students.

**Exclusion:** AST101H1, AST121H1, AST201H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## AST221H1 - Stars and Planets

**Hours:** 36L

The (astro)physics of stars and planets, their observed variety, their structure, formation and evolution. Introduction to telescopes and instrumentation.

**Prerequisite:** PHY132H1/PHY152H1/PHY180H1

**Exclusion:** AST101H1/AST201H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## AST222H1 - Galaxies and Cosmology

**Hours:** 36L

The (astro)physics of stellar systems, galaxies, and the Universe, their structure, formation, and evolution.

**Prerequisite:** AST221H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## AST251H1 - Life on Other Worlds

**Hours:** 24L

Scholarly discussion of the probability that there are planets with life elsewhere in the universe, from the perspective of current ideas concerning the origin and evolution of the universe, the solar system and life. Search techniques and possibilities for interstellar travel and space colonies are discussed. Intended for life sciences students.

**Exclusion:** AST221H1/AST222H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## AST299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## AST320H1 - Introduction to Astrophysics

**Hours:** 24L

The formation, equilibrium and evolution of structure on all astronomical scales from the largest to the smallest: universe, clusters of galaxies, galaxies, clusters of stars, gas clouds and stars.

**Prerequisite:** PHY252H1/PHY294H1; AST221H1, AST222H1 (or equivalent AST readings; consult the instructor)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## AST325H1 - Introduction to Practical Astronomy

**Hours:** 39P

Through experiment and observation, develop the core skills to collect, reduce, and interpret astronomical data. Develop understanding and usage of telescopes, instruments, and detectors; reduction and analysis methods; simulations and model fitting; data and error analysis.

**Prerequisite:** AST221H1, AST222H1 (or equivalent readings, consult the instructor)

**Exclusion:** AST326Y1

**Recommended Preparation:** basic programming/scripting, numerical techniques (e.g., through CSC108H1/CSC148H1, CSC260H1).

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## AST326Y1 - Practical Astronomy

**Hours:** 78P

Through experiment and observation, develop the core skills to collect, reduce, and interpret astronomical data. Develop understanding and usage of telescopes, instruments, and detectors; reduction and analysis methods; simulations and model fitting; data and error analysis. This course is an expanded version of AST325H1 that gives a wider exposure to practical astronomy.

**Prerequisite:** AST221H1, AST222H1 (or equivalent readings, consult the instructor)

**Exclusion:** AST325H1

**Recommended Preparation:** basic programming/scripting, numerical techniques (e.g., through CSC108H1/CSC148H1, CSC260H1)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## AST398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## AST399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## AST424H1 - Introduction to Astrophysical Research

**Hours:** 24L

A literature study that develops methods and skills applicable to research in the physical sciences, with an emphasis on communication, including writing proposals and reports, and delivering presentations. This course is intended for students in the final year of the Astronomy & Astrophysics Major. Students are required to attend the weekly departmental colloquia and G2000 talks. Not eligible for CR/NCR option.

**Prerequisite:** AST320H1

**Exclusion:** AST425Y1

**Recommended Preparation:** AST325H1/AST326Y1

**Distribution Requirements:** Science

## AST425Y1 - Research Topic in Astronomy

**Hours:** TBA

A research project done in consultation with an individual staff member in the Department leading to a detailed written report and oral presentation. This course is intended for students in the final year of the Astronomy and Physics specialist program. Students must enrol with the Undergraduate Secretary of the Department. Not eligible for CR/NCR option.

**Prerequisite:** AST320H1 and two of AST325H1/AST326Y1, PHY324H1, PHY350H1, PHY354H1, PHY356H1, PHY357H1, PHY358H1, PHY407H1/PHY408H1, PHY450H1, JPE395H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## **AST430H1 - Supervised Study in Astronomy & Astrophysics**

**Hours:** TBA

An individual study program chosen by the student with the advice of, and under the direction of, a staff member. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in Astronomy program courses  
Permission of the Undergraduate Chair and the prospective adviser

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes  
(5)

## **AST431H1 - Supervised Study in Astronomy & Astrophysics**

**Hours:** TBA

An individual study program chosen by the student with the advice of, and under the direction of, a staff member. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in Astronomy program courses  
Permission of the Undergraduate Chair and the prospective adviser

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes  
(5)

## **AST431Y1 - Supervised Study in Astronomy & Astrophysics**

**Hours:** TBA

An individual study program chosen by the student with the advice of, and under the direction of, a staff member. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in Astronomy program courses  
Permission of the Undergraduate Chair and the prospective adviser

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes  
(5)

# Biochemistry

## Faculty List

### University Professors Emeriti

D.H. MacLennan, BA, M Sc, Ph D, FRSC, O.C.  
M.A. Packham, BA, Ph D, FRSC

### Professors Emeriti

R.A. Anwar, M Sc, Ph D  
R.R. Baker, B Sc, Ph D  
A. Bennick, M Sc D, Ph D  
N. Camerman, B Sc, Ph D  
G.E. Connell, BA, Ph D, FRSC, O.C.  
J.W. Gurd, BA, Ph D  
T. Hofmann, Dip Chem, D Sc Tech  
C.J. Ingles, B Sc, Ph D  
D.E. Isenman, B Sc, Ph D  
A.O. Jorgensen, Ph D  
V.K. Kalnins, M Sc, Ph D  
B.G. Lane, BA, Ph D  
H.G. Lawford, B Sc, Ph D  
A. Marks, MD, Ph D  
L.A. Moran, B Sc, Ph D  
R.K. Murray, MB, Ch B, MS, Ph D  
R.H. Painter, B Sc, Ph D (T)  
D.E. Pulleyblank, B Sc, Ph D  
B.H. Robinson, B Sc, Ph D  
B. Sarkar, M Phar  
H. Schachter, BA, MD, Ph D, FRSC  
J.M. Segall, B Sc, Ph D  
C.H. Siu, BA, Ph D  
D.O. Tinker, B Sc, Ph D  
D.B. Williams, M Sc, Ph D  
G.R. Williams, B Sc, Ph D, D Sc (S), FRSC  
S. Wodak, L.C. Ph D

### Professor and Chair of the Department

J.R. Nodwell, B Sc, Ph D

### Professors

K. Adeli, B Sc, M Sc, Ph D  
D.W. Andrews, B Sc, Ph D  
L. Attisano, B Sc, Ph D  
D. Bazett-Jones, M Sc, Ph D  
C.E. Bear, M Sc, Ph D  
G.W. Brown, B Sc, Ph D  
A. Chakrabarty, B Sc, Ph D  
H.S. Chan, B Sc, Ph D  
D.M. Clarke, B Sc, Ph D  
A.R. Davidson, B Sc, Ph D  
C.M. Deber, B Sc, Ph D, FRSC  
O.P. Ernst, Dipl-Chem, Dr rer nat  
J. Forman-Kay, B Sc, Ph D  
S. Grinstein, B Sc, Ph D, FRSC  
W. Houry, B Sc, Ph D  
P.L. Howell, B Sc, Ph D  
A. Kapus, Ph D, MD  
L. Kay, B Sc, Ph D, FRSC, FRS  
F.W. Keeley, B Sc, Ph D  
S.O. Kelley, BA, Ph D  
A. Klip, M Sc, Ph D, FRSC  
P.N. Lewis, B Sc, Ph D  
C.A. Lingwood, B Sc, Ph D  
M. Ohh, Ph D, PDF  
E.F. Pai, Dipl-Chem, Dr rer nat  
G. Privé, B Sc, Ph D  
S. Prosser, B Sc, M Sc, D Phil  
M.L. Rand, B Sc, Ph D

R.A.F. Reithmeier, B Sc, Ph D  
J. Rini, B Sc, Ph D  
D. Rotin, B Sc, Ph D  
J. Rubinstein, B Sc, Ph D  
C.J. Schuurmans, B Sc, M Sc, Ph D  
F. Sicheri, B Sc, Ph D, FRSC  
I. Stagljar, B Sc Dipl-Mol Biol, Ph D  
W. Trimble, B Sc, Ph D, FRSC  
C.M. Yip, BA Sc, Ph D  
D.B. Zamble, B Sc, Ph D, PDF

### Associate Professors

S. Angers, B Sc, Ph D  
C. Enenkel, Dipl-Chem, Dr rer nat  
J.R. Glover, B Sc, Ph D  
W. Kahr, MD, Ph D, FRCPC  
A. McQuibban, B Sc, M Sc, Ph D  
T. F. Moraes, B Sc, M Sc, Ph D  
A. Muise, B Sc, MD, Ph D  
A. F. Palazzo, B Sc, Ph D  
J. Parkinson, B Sc, Ph D  
R. Pomès, B Eng, Ph DD  
R. Screatton, B Sc, Ph D  
S. Sharpe, B Sc, Ph D  
C.A. Smibert, B Sc, Ph D  
B. Steipe, MD, Ph D  
A.R. Wilde, B Sc, Ph D

### Associate Professors, Teaching Stream

S. Andreopoulos, B Sc, M Sc, Ph D  
A. Khan-Trottier, B Sc, Ph D  
S. Patterson, B Sc, Ph D

### Assistant Professors

A. W. Ensminger, B Sc, Ph D, PDF  
G.D. Fairn, B Sc, Ph D, PDF  
P. Gilbert, B Sc, Ph D, PDF  
J-P Julien, B Sc, Ph D  
P.K. Kim, B Sc, Ph D  
W. Lee, MD, Ph D, PDF  
M. Lemaire, MD, Ph D  
K. Maxwell, B Sc, Ph D, PDF  
J.T. Maynes, B Sc, MD, Ph D  
R.A. Melnyk, B Sc, Ph D  
V. Mennella, Ph D, PDF  
J. Watts, B Sc, Ph D, PDF  
H. Wyatt, B Sc, Ph D

### Lecturer

N. Lee, B Sc, M Sc, Ph D

## Introduction

Biochemistry is the study of the chemistry of living organisms. Biochemists seek a molecular explanation of life by attempting to understand its underlying principles. Biochemistry is concerned with the relevance of a molecule to an organism and the correlations between its structure and its function. Modern biochemistry grew out of the application of chemical techniques to biological problems and is the foundation of biological science and medicine. In many ways it combines biology and chemistry but the subject now covers such a broad range of activity that it is difficult to draw a neat border around biochemistry. Some of the most exciting areas of current biochemistry research include:

- structural biology

- enzyme mechanisms
- signal transduction and regulation
- biotechnology
- molecular cell biology
- gene expression and development
- metabolic diseases
- proteomics and bioinformatics
- molecular evolution
- protein folding
- membranes and transport

The Biochemistry Specialist Program is academically oriented and designed to provide students with a fundamental understanding of the theoretical and practical aspects of the discipline. The program offers training in problem solving specifically using a molecular approach. Biochemistry specialists will gain experience in critical thinking and the skills required to evaluate scientific rationale. The Biochemistry Major Program offers students fundamental training in the science and gives each student in the program the chance to combine Biochemistry with another relevant Major Program. This may be within the Life Sciences or Basic Sciences, or may be within the arts. For example, the combination of Biochemistry with Economics or with English could provide students with training relevant to the fields of investment within biotechnology or scientific journalism. Students who excel within the Biochemistry Major Program may be offered the chance to enter the Specialist Program at the third year. Frequently students who have completed a B.Sc. in the Specialist Program continue their studies in graduate programs in Biochemistry and other Life Sciences. Graduates from either the Specialist or Major Programs may find employment in research and teaching. Employers include universities and colleges, government laboratories, clinical biochemistry laboratories, forensic laboratories, pharmaceutical companies, biotechnology companies, and many other industries. Skills learned in the Biochemistry Specialist and Major Programs are also helpful in other areas such as marketing, finance, and law. Some biochemistry graduates continue their studies in medicine, dentistry or other health related programs.

Students considering choosing either the BCH Specialist or BCH Major program are encouraged to attend program information sessions held by the department in October and March. Please note that the Specialist program is the accepted route to graduate studies in Biochemistry and to careers in research.

Undergraduate Coordinator Dr. S. Andreopoulos, [undergrad.coordinator.biochem@utoronto.ca](mailto:undergrad.coordinator.biochem@utoronto.ca)

Undergraduate Administrator Jennifer Haughton, [jennifer.haughton@utoronto.ca](mailto:jennifer.haughton@utoronto.ca)

For courses with enrolment restrictions, please contact Jennifer Haughton, [jennifer.haughton@utoronto.ca](mailto:jennifer.haughton@utoronto.ca)

## Biochemistry Programs

### Biochemistry Specialist (Science Program)

#### Enrolment Requirements:

This is a limited enrolment program that can only accommodate a limited number of students. Eligibility will be competitive and based on a student's marks in the 3.0 required first-year courses:

#### First Year

(BIO120H1, BIO130H1); (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1 with an average of at least 70% in these 3.0 full-course equivalents (FCEs) and a final mark of at least 60% in each course.

While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = mid 80s; average = mid 80s.

Achieving these estimated marks does not guarantee admission to the program in any given year.

Note: Students must apply to this program on the Arts & Science Faculty Registrar's Office website (see the [Program Enrolment web site](#) for instructions).

See the departmental web site at [www.biochemistry.utoronto.ca](http://www.biochemistry.utoronto.ca) for more information.

#### Completion Requirements:

(14 full courses or their equivalent, including at least five 400-series courses)

First Year: (BIO120H1, BIO130H1); (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; and (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

First or Second Year: (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

[PHY131H1, PHY132H1 recommended]

Second Year:

BCH242Y1; BIO230H1/BIO255H1; STA220H1; CHM247H1/CHM249H1; BIO260H1/HMB265H1\*

\*Alternatively BIO260H1 may be taken in third year (due to timetable conflicts BIO260H1 may not be taken in 2nd year)

Third Year: BCH340H1; (BCH377H1, BCH378H1); MGY311Y1

Fourth Year:

1. BCH478H1

2. Four half courses from the following list, including at least two BCH courses: BCH422H1/ BCH425H1/ BCH426H1/ BCH428H1/ BCH440H1/ BCH441H1/ BCH444H1/ BCH445H1/ BCH446H1/ BCH448H1/ BCH449H1/ BCH479H1/ BCB420H1/ CHM447H1/ MGY420H1/ MGY425H1/ MGY428H1/ MGY450H1/ MGY470H1

3. BCH372Y1/BCH374Y1/BCH472Y1/BCH473Y1: One full credit from these optional research project courses may be taken for the Specialist program\*\*.

Over the course of the Specialist program, additional credits (to bring the program total to 14 full courses or their equivalent) from the following list: BCH350H1/BIO220H1/CHM217H1 (Analytical Chemistry)/CHM220H1\*\*\* (Physical Chemistry for Life Sciences)/CHM223H1 (Physical Chemistry II)/CSC108H1/ CSC148H1 (Introductory Computer Science, only one CSC course can be chosen)/MAT235Y1/MAT237Y1 (Calculus II)/STA221H1/ any suitable 300-level course from CHM/CSB/EEB/HMB/IMM/LMP/MGY/PCL/PSL (departmental approval required)

\*\* Additional BCH research project courses can be taken as part of the 20 full credits needed for your degree.

\*\*\*CHM220H1 is highly recommended for students who are interested in pursuing studies in the physical aspects of biochemistry such as structural biology and molecular biophysics.

## Bioinformatics and Computational Biology Specialist (Science Program)

### Completion Requirements:

The genomic and post-genomic era brings opportunities for new insight into all aspects of biology and medicine, based on the computational analysis of very large datasets in a biological context. The Bioinformatics and Computational Biology Program is an interdepartmental, interdisciplinary Program of Study that balances computer-science and life-science courses towards that goal. As a Specialist Program it is designed to prepare students for graduate studies in the field.

The Program is formally administered by the Department of Biochemistry and co-sponsored by the Departments of Cell and Systems Biology, Computer Science, Ecology and Evolutionary Biology, and Molecular Genetics; all sponsoring Departments have clear trajectories to extend the Program into graduate studies in the respective Department.

This program has unlimited enrolment and no specific admission requirements. All students who have completed at least 4.0 courses are eligible to enrol.

However students are advised that the very rigorous courses that are part of the Program, the very limited overlap in course material between the theory-centric and the biology-centric courses, and the different academic cultures in the life- and computer sciences, make this Program suitable only for the academically strongest and most highly motivated students on campus. As a rule of thumb, students who expect to do well should be able to regularly perform at the top 20% level in their classes.

You should seek advice from both the Program Director and the Department of Computer Science on how to distribute your courses.

For additional information, please refer to <http://biochemistry.utoronto.ca/bcb>

Specialist program:  
(12.5 full courses or their equivalent)

First or second year

The following courses are common prerequisites for required courses in the Program.  
(5 credits total):

(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1; (CSC108H1, CSC148H1); (CSC165H1, CSC236H1)/CSC240H1 (1); CSC263H1/ CSC265H1; (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; BIO130H1/BIO150Y1.

Upper years:

The following courses are Program requirements (7.5 credits total):

STA247H1/STA255H1/STA257H1; CSC207H1; CSC209H1; CSC373H1; BIO230H1/BIO250Y1/(BIO240H1, BIO241H1)/BIO255H1/BIO255Y1; BIO260H1/HMB265H1; (BCH210H1, (BCH311H1/MGY311Y1))/BCH242Y1; BCH441H1/ CSB472H1; BCB330Y1; BCB410H1; BCB420H1; BCB430Y1.

Course substitutions are possible with written permission of the Program Director. Note that the requirements for a co-sponsoring Department's major can normally be fulfilled with 0.5 to 3.5 additional credits. All Major programs in the co-sponsoring life science departments require BIO120H1, however it is not formally a part of this Specialist Program's requirements.

(1)The "missing" half-credit of the substitution does not have to be replaced. For details, please refer to the Computer Science Program instructions in this Calendar.

## Biochemistry Major (Science Program)

### Enrolment Requirements:

This is a limited enrolment program that can only accommodate a limited number of students. Eligibility will be competitive and based on a student's marks in the 3.0 required first-year courses:

First Year

(BIO120H1, BIO130H1); (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; (MAT135H1, MAT136H1)/MAT137Y1/ MAT157Y1 with an average of at least 70% in these 3.0 full-course equivalents (FCEs) and a final mark of at least 60% in each course.

While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = high 70s; average = high 70s.

Achieving these estimated marks does not guarantee admission to the program in any given year.

Note: Students must apply to this program on the Arts & Science Faculty Registrar's Office website (see the [Program Enrolment web site](#) for instructions).

For more information, refer to the Biochemistry website at: [www.biochemistry.utoronto.ca](http://www.biochemistry.utoronto.ca)

#### Completion Requirements:

8 full courses or their equivalent, including two 400-series half-year courses as noted below.

First Year: [\(BIO120H1, BIO130H1\)](#); [\(CHM135H1, CHM136H1\)](#)/[\(CHM138H1, CHM139H1\)](#)/[CHM151Y1](#); [\(MAT135H1, MAT136H1\)](#)/[MAT137Y1](#)/[MAT157Y1](#)

Second Year: [BCH210H1](#); [BIO230H1](#)/[BIO255H1](#); [CHM247H1](#)/[CHM249H1](#)

Third Year:

1. [BCH311H1](#)

2. [BCH370H1](#)

3. 1.5 full-course equivalents from the following list: [BIO220H1](#)/[BIO260H1](#)/[CHM217H1](#)/[CHM220H1](#)/[HMB265H1](#)/[BCH340H1](#)/ANY 300-level course(s) in CHM/CSB/EEB/HMB/IMM/LMP/MGY/PCL/PSL (departmental approval required). Note: Field courses may not be used to fulfill the 1.5 FCEs.

Fourth Year: Two of: [BCH422H1](#)/[BCH425H1](#)/[BCH426H1](#)/[BCH428H1](#)/[BCH440H1](#)/[BCH441H1](#)/[BCH444H1](#)/[BCH445H1](#)/[BCH446H1](#)/[BCH448H1](#)/[BCH449H1](#)/[CHM447H1](#)

## Biochemistry Courses

### BCH210H1 - Biochemistry I: Proteins, Lipids and Metabolism

**Hours:** 36L/24T

Proteins, enzymes, membranes and the metabolism of carbohydrates and lipids. This course is intended for students who are NOT taking BCH242Y1 as part of their program.

**Prerequisite:** Successful completion of (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1 NOTE: CHM1\*\* WITH COURSE EXCLUSION TO CHM135H1 AND CHM136H1 meet the Prerequisite requirement for BCH210H1. SC11\*\* DOES NOT COUNT as a Prerequisite. CHM110H5 & CHM120H5 (UTM) are equivalent to CHM135H1 ONLY. CHMA10H3 & CHMA11H3 (UTSC) are equivalent to CHM135H1 ONLY. CHMB41H3/CHMB42H3 (UTSC) are equivalent to CHM136H1 ONLY. CHM242H5 (UTM) is equivalent to CHM136H1 ONLY. Students with a SDF in CHM135H1/CHM136H1/CHM138H1/CHM139H1 are not permitted to enrol in BCH210H1 until a final passing grade (50%) appears on the transcript.

**Exclusion:** BCH242Y1, [CHM361H5(UTM) and CHM362H5(UTM)], [BIOC12H3(UTSC) and BIOC13H3(UTSC)]

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

### BCH242Y1 - Introduction to Biochemistry

**Hours:** 64L/12T/14P

An introductory course that will serve as the foundation for BCH courses taken in Third and Fourth years by students specializing in biochemistry and related specialist programs. The major topics include protein structure, enzyme mechanisms, cellular and molecular biology, lipid and membrane structure and function, and carbohydrate, lipid, and amino acid metabolism and bioenergetics. Please note that there are five laboratories accompanying this course.

**Prerequisite:** (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1

**Exclusion:** BCH210H1 and BCH311H1, [CHM361H5(UTM) and CHM362H5(UTM)], [BIOC12H3 (UTSC) and BIOC13H3 (UTSC)]

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4); The Physical and Mathematical Universes (5)

## BCH299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop> Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## BCH311H1 - Biochemistry II: Nucleic Acids and Biological Information Flow

**Hours:** 24L/12T

Nucleic acids and flow of information in biological systems. Information storage and transmission by nucleic acids, as well as new molecular technologies will be discussed. Registration in one of the tutorial sessions is mandatory. Note: Students that have a SDF in BCH210H1 are not permitted to enrol in BCH311H1 until a final passing grade (50%) appears on the transcript. BCH2\*\* WITH COURSE EXCLUSION TO BCH210H1 meets the prerequisite requirement for BCH311H1.

**Prerequisite:** BCH210H1/(BIOC12H3 and BIOC13H3 [UTSC])

**Exclusion:** MGY311Y1, PSL350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCB330Y1 - Special Project in Bioinformatics and Computational Biology

**Hours:** TBA

An opportunity for specialized individual research in bioinformatics and computational biology by arrangement with the course coordinator and a supervisor. Significant background in both life science and computer science courses is required. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the course coordinator.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## BCH340H1 - Proteins: from Structure to Proteomics

**Hours:** 24L/6T

Proteins are the main functional units in the cell and are part of almost every biochemical process. They catalyze many metabolic reactions and also play central roles in signaling pathways. Some proteins have crucial structural and mechanical functions. In this course, a detailed overview of protein structure, stability, folding, and protein-ligand interactions will be given with strong emphasis on discussing the basic principles in the field. Biophysical, theoretical, and proteomic methods used to study protein stability and folding and protein-ligand interactions will be presented. Protein misfolding diseases will also be discussed. The course will offer a solid basis in protein biochemistry. It is recommended for those interested in pursuing graduate studies or professional degrees in health or medicine.

**Prerequisite:** BCH210H1/BCH242Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH350H1 - Antibiotics and Antibiotic Targets

**Hours:** 24L/12T

This course will cover the action of the biochemical targets of the existing antibiotics (nucleotide-, RNA-, DNA-, protein- and cell wall synthesis, the manner in which these pathways are inhibited in antimicrobial therapy and the biochemical basis of antibiotic resistance. The biochemistry and origin of naturally occurring and synthetic antibiotics will be introduced. (Enrolment limited.)

**Prerequisite:** BCH242Y1/(BCH210H1, BCH311H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH370H1 - Laboratory Course in Biochemical Techniques

**Hours:** 6L/42P

This course reinforces theoretical principles through experiments that encompass pH and buffers, spectrophotometry, chromatography, protein electrophoresis, enzyme kinetics and DNA isolation and analysis. Intended for students who are not proceeding further in biochemistry. It is highly recommended that students take this course in their third year as space is limited and priority will go to third-year students. cGPA of 2.5 is required for non-Biochemistry Majors and Specialists. This course will be offered in the FALL & WINTER terms. No enrolment will be permitted after the start of class. (Enrolment limited.)

**Prerequisite:** BCH210H1

**Exclusion:** BCH377H1, CHM379H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH372Y1 - Summer Research in Biochemistry

**Hours:** 144P

Real-world opportunity to apply theoretical knowledge and hone technical skills through full-time research in an active research laboratory for students who have completed second year. Students are responsible for arranging for supervision by a Department of Biochemistry faculty member in advance of the academic year-end. Participants must have a minimum cGPA of 3.0 and the approval of the course coordinator. Not eligible for CR/NCR option.

**Prerequisite:** BCH242Y1, and permission of Department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH374Y1 - Research Project in Biochemistry

**Hours:** 12T/144P

(formerly BCH373H1, BCH375H1)

This course provides an opportunity to perform specialized research in biochemistry under the direct supervision of Biochemistry Department Faculty. A cGPA of 3.3 is required for students in Major programs and a cGPA of 3.0 is required for students in Specialist programs. Not eligible for CR/NCR option.

**Prerequisite:** For Specialist: BCH242Y1; BIO230H1; CHM247H1/CHM249H1, and permission of the Department. For Major: BCH210H1; BIO230H1; CHM247H1/CHM249H1, and permission of the Department.

**Exclusion:** BCH373H1, BCH375H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH377H1 - Biochemistry Laboratory I

**Hours:** 12L/48P

An introduction to fundamental laboratory techniques in modern biochemistry. Experiments illustrate and develop the concepts described in lecture courses and serve as a foundation for more advanced training in biochemistry laboratory courses. Enrollment in this course is generally restricted to students enrolled in the Biochemistry, Immunology, and Molecular Genetics & Microbiology (Genetics Stream) Specialist programs.

**Prerequisite:** BCH242Y1

**Exclusion:** BCH370H1, CHM379H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH378H1 - Biochemistry Laboratory II

**Hours:** 12L/48P

This course builds upon the fundamental laboratory techniques acquired in [BCH377H1](#). Students gain hands-on experience in experimental design and data analysis, exploring numerous modern and classic biochemistry and molecular biology experimental techniques used in research laboratories. Enrollment in this course is generally restricted to students enrolled in the Biochemistry Specialist program.

**Prerequisite:** BCH377H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCB410H1 - Applied Bioinformatics

**Hours:** 24L

Practical introduction to concepts, standards and tools for the implementation of strategies in bioinformatics and computational biology. Student led discussions plus a strong component of hands-on exercises.

**Prerequisite:** BCH311H1/MGY311Y1; (CSC324H1/CSC373H1/CSC375H1) or permission of the course coordinator

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## BCB420H1 - Computational Systems Biology

**Hours:** 24L

Current approaches to using the computer for analyzing and modeling biology as integrated molecular systems. Lectures plus hands-on practical exercises. The course extends and complements an introductory Bioinformatics course, such as BCH441H1.

**Prerequisite:** BCH441H1/CSB472H1 or permission of the course coordinator

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## BCH422H1 - Membrane Proteins: Structure, and Function

Hours: 24L

Structural features of membrane proteins, their biogenesis and methods of analysis. Function of membrane proteins as transporters, channels, pumps and receptors. Molecular aspects of disease processes linked to membrane proteins.

**Prerequisite:** BCH210H1/BCH242Y1; BCH311H1/ MGY311Y1/ PSL350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH425H1 - Structural Biology: Principles and Practice

Hours: 24L

Theory of modern biophysical techniques as applied to the study of the structure and function of macromolecules; emphasis on X-ray crystallography, electron cryomicroscopy, NMR spectroscopy, and other spectroscopic methods.

**Prerequisite:** BCH210H1/BCH242Y1. This is a problem-solving course and will require use of skills from introductory physics, math, and/or chemistry courses.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH426H1 - Regulation of Signalling Pathways

Hours: 24L

A variety of questions relating to signal transduction are investigated. How is calcium regulated in the cell and how does calcium regulate cell function? How are extracellular signals such as morphogens, growth factors or insulin, received and transmitted by intracellular proteins including kinases and phosphatases to control cellular proliferation and differentiation?

**Prerequisite:** BCH210H1/BCH242Y1; BCH311H1/MGY311Y1/ PSL350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH427H1 - Advanced Molecular Biophysics

Hours: 24L

(This course is not offered for the 2017 - 2018 Academic Year)

This course provides a focused study of concepts in thermodynamics, statistical mechanics and quantum mechanics through examples dealing with important current problems in molecular biophysics. Concepts in thermodynamics and statistical mechanics will be surveyed through applications to protein folding, while principles of quantum mechanics will be emphasized through a study of nuclear magnetic resonance spectroscopy.

**Prerequisite:** CHM326H1/CHM338H1/PHY356H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH428H1 - Genomics of microbial communities in human health and beyond

Hours: 24L/12P

There is a growing appreciation that microbes do not operate in isolation but form parts of larger populations and communities (microbiomes) with unique considerations for human health. This course will cover how genomics can be applied to analyze microbial communities and the transformative discoveries that continue to result.

**Prerequisite:** BCH210H1/BCH242Y1; BCH311H1/MGY311Y1/ CSB349H1; MGY377H1/MGY360H1/BCH350H1.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCB430Y1 - Advanced Special Project in Bioinformatics and Computational Biology

Hours: TBA

An opportunity for advanced specialized individual research in bioinformatics and computational biology by arrangement with the course coordinator and a supervisor. Significant background in both life science and computer science courses is required. BCB430Y1 is a recommended preparation for this course however students should not normally conduct their project in the same laboratory or continue their previous project. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the course coordinator

**Recommended Preparation:** BCB330Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## BCH440H1 - Protein Biosynthesis

Hours: 24L

"The life of proteins: from birth to death". This course is presented as eight themes. 1. Structure, assembly, and evolution of the ribosome. 2. mRNA synthesis, maturation, and localization. 3. Mechanisms and regulation of translation initiation. 4. Fidelity during translation elongation. 5. Translation termination and translation-mediated mRNA decay. 6. Nascent protein folding and molecular chaperones. 7. Protein aging, misfolding and disease. 8. Protein degradation via the ubiquitin proteasome system and autophagy. In addition to the lectures, students will work in groups during tutorial sessions to interpret a recent paper related to one of the eight themes to be formally presented during regular class hours.

**Prerequisite:** BCH210H1/BCH242Y1; BCH311H1/MGY311Y1/PSL350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH441H1 - Bioinformatics

Hours: 24L/12T

This course is an introduction to computational methods and internet resources in modern biochemistry and molecular biology. The main topics include: sequence and genome databases, sequence alignment and homology search, use and interpretation of molecular structure, and phylogenetic analysis. Assignments focus on hands-on competence building with web-based bioinformatics tools and databases, downloadable software including a molecular viewer and a multiple sequence alignment editor, and the statistics workbench and programming language "R". For syllabus details see: [www.biochemistry.utoronto.ca/undergraduates/courses/BCH441H/](http://www.biochemistry.utoronto.ca/undergraduates/courses/BCH441H/)

Note BCH420H1 extends this syllabus to computational topics of systems biology.

**Prerequisite:** BCH210H1/BCH242Y1; BCH311H1/MGY311Y1/PSL350H1 or special permission of the course coordinator

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## BCH444H1 - Protein Trafficking in the Secretory & Endocytic Pathways

Hours: 24L

This course examines the molecular details of the secretory and endocytic pathways in the cell. Some of the specific topics covered will include protein translocation into the ER, chaperones and protein folding in the ER, retrotranslocation and protein degradation, the Unfolded Protein Response (UPR), vesicle biogenesis and ER-Golgi transport, regulated secretion, basic concepts in endocytosis and protein sorting in polarized cells. Emphasis is placed on current experimental approaches. A good understanding of basic biochemical methods is an asset. Participants must have a minimum cGPA of 2.8.

**Prerequisite:** BCH210H1/BCH242Y1; BCH311H1/MGY311Y1/PSL350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH445H1 - Organelles in Cell Function and Death

Hours: 24L

Advanced principles and concepts of cell biology are covered including the structure, biogenesis, and dynamic behavior of cell organelles. The specific contributions to the life and death of the cell are highlighted. Signaling events that integrate cellular communication are discussed. Specifically, the interplay between the Endoplasmic Reticulum, Peroxisomes and Mitochondria is highlighted. Mitochondrial biogenesis and membrane dynamics as they relate to apoptosis and cellular signaling/integration are presented as they relate to human disease. State-of-the-art imaging techniques and the contributions of cell biology to modern day advances in medicine are also presented.

**Prerequisite:** BCH210H1/BCH242Y1; BIO230H1/BIO255H1; BCH311H1/MGY311Y1/PSL350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH446H1 - Membrane Dynamics of the Cell Surface

**Hours:** 24L

This course covers the principles and concepts related to molecular cell biology of the cell surface in multicellular organisms. Topics include: cytoskeleton and organization of membrane dynamics; cell-cell and cell-matrix interactions and signaling; cell migration and adhesion; maintenance of cell polarity; turnover and renewal of membrane by vesicular trafficking; structure and function of primary cilia, cytonemes and tunneling nanotubes; ectosomes and non-canonical secretion pathways; viral uptake by macropinocytosis and engulfment by phagocytosis. Note: cGPA of 2.5 is required for non-Biochemistry Majors and Specialists. (Enrolment limited.)

**Prerequisite:** BCH210H1/BCH242Y1; BCH311H1/MGY311Y1/PSL350H1, and permission of department.

**Exclusion:** CSB331H1, CSB428H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH448H1 - Structure and Function of the Nucleus

**Hours:** 24L

This course examines the structure and function of the cell nucleus and the genome through the lens of biochemistry, molecular biology, cell biology and evolution. A focus is placed on the major scientific developments that shaped our current understanding. Topics that will be covered are eukaryogenesis, junk DNA, the structure of DNA and chromatin, the transfer of information between genotype and phenotype, the filtering of information found in the genome into biologically relevant molecules such as mRNA, the processing and export of these products from the nucleus into the cytoplasm, and the translation of mRNA into protein. We will also investigate how various organelles, such as the endoplasmic reticulum and mitochondria, played a role in the evolution of the nucleus. Finally we will investigate how biological information is partitioned during mitosis.

**Prerequisite:** BCH210H1/BCH242Y1; BCH311H1/MGY311Y1/PSL350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH449H1 - Medical Biochemistry

**Hours:** 24L/12T

(This course is not offered for the 2017 - 2018 Academic Year)

This course will apply core biochemical principles to explain the pathogenesis of emerging diseases at the molecular level and describe advanced biochemical technologies used to understand and treat these illnesses. Students will be exposed to how biochemical principles influence medical diagnoses, therapy and the development of new drugs.

**Prerequisite:** BCH242Y1/(BCH210H1, BCH311H1), BIO230H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH472Y1 - Advanced Summer Research Project in Biochemistry

**Hours:** 144P

Real-world opportunity to apply theoretical knowledge and hone technical skills through full-time research in an active research laboratory for students who have completed third year. Students are responsible for arranging for supervision by a Department of Biochemistry faculty member in advance of the academic year-end. Participants must have a minimum cGPA of 3.0 and the approval of the course coordinator. Not eligible for CR/NCR option.

**Prerequisite:** BCH340H1; BCH377H1; BCH378H1; and permission of Department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BCH473Y1 - Advanced Research Project in Biochemistry

**Hours:** 144P

This course provides opportunities to pursue an original individual research project in a particular area of biochemistry, under the direct supervision of a Biochemistry Department faculty member. A cGPA of 3.3 is required for students in Major programs and a cGPA of 3.0 is required for students in Specialist programs. Not eligible for CR/NCR option.

**Prerequisite:** Specialist BCH340H1; BCH377H1; BCH378H1; MGY311Y1; and permission of Department. Major BCH370H1; BCH311H1; and permission of Department.

**Corequisite:** BCH478H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **BCH478H1 - Advanced Biochemistry Laboratory**

**Hours:** 24L/84P

Experiments extend students' technical abilities as well as their knowledge and application of practical theory. This course is designed as an advanced successor in a progression of biochemistry laboratory experiences in BCH242Y1, BCH377H1 and BCH378H1 that will equip students with a spectrum of practical abilities that are of vital importance in scientific research.

**Prerequisite:** BCH340H1;BCH377H1;BCH378H1/(CHM361H5 [UTM] + CHM362H5 [UTM]) + CHM371H5 [UTM]; MGY311Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **BCH479H1 - Advanced Seminar in Biochemistry**

**Hours:** 24S

This seminar course will foster close interactions between students and Faculty and encourage in depth discussion not only of results but the ways the results were presented and the rationales for experimental design. Critical thinking skills will be developed, as will presentation skills, as students become presenters of results and take on the role of scientist presenting and analyzing new findings. Writing skills will be developed through an essay assignment. Students within the audience will also have access to the experimental papers and be encouraged to pose thoughtful questions about research and the ways that research can be communicated within the scientific community. Thus the new seminar course will foster an appreciation of scientific writing and give students a venue to develop their communication skills. The goal of the seminar course is to improve both the written and oral scientific communication skills of our Specialist students, as well as to increase their knowledge of key papers in Biochemistry.

**Prerequisite:** BCH340H1;BCH377H1;BCH378H1; and permission of Department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# Biology

Given by Members of the Departments of Cell & Systems Biology and Ecology & Evolutionary Biology

Students are advised to consult courses listed by these Departments.

Biology is the scientific study of life. At no time in history has biology been more visible and important to human life and the future of our planet. The study of biology has vast applications: in understanding one's own body, in grappling with the ethical questions that face humanity and in understanding the interdependent web of living organisms on the planet. The biological sciences are experiencing a revolution. Important discoveries occur weekly as scientists and their students around the world develop and use new techniques, theories, and approaches.

The University of Toronto has many faculty members conducting research and teaching courses in the biological sciences. Within the Faculty of Arts and Science, St. George campus, there is no single biology department; members of the departments of Cell & Systems Biology and Ecology & Evolutionary Biology teach biology courses across this broad spectrum. Each of these departments offers its own programs and courses, and jointly offers the Biology programs and, with Molecular Genetics, the Genome Biology Major program. Courses are available in the broad subject areas of cell and molecular biology, developmental biology, ecology, evolutionary biology, genetics, physiology, and genome biology. Students should consult the Cell & Systems Biology and Ecology & Evolutionary Biology entries in this Calendar.

Because many areas of biology draw on mathematics and the physical sciences, background preparation in calculus and chemistry from high school is required for students pursuing some programs in biology and recommended for others.

Students entering their first year in the life sciences take BIO120H1 and BIO130H1. These courses are taken by students who have successfully completed Grade 12 Biology (or an equivalent course); BIO130H1 also requires students to have successfully completed Grade 12 Chemistry (or an equivalent course). One or both of these half courses is a prerequisite for almost all further courses in the life sciences.

Students in the **Biology Specialist** and **Biology Major** programs obtain a foundation in the core areas of cell and molecular biology, ecology, evolutionary biology, physiology and genetics; as well as in calculus, chemistry and statistics (Specialist), or chemistry (Major). In the upper years, students take advanced courses in these areas, and can also include courses in the biological sciences offered by other units. In their final year, students take at least one full-year or two half-year (Specialist) or one half-year (Major) advanced integrative, inquiry-based course in the biological sciences offered by the departments of Cell & Systems Biology and Ecology & Evolutionary Biology, including seminar, independent research project, and field courses. Students who wish to focus on either plant and microbial biology or animal biology can take courses within these programs that concentrate in these subject areas. The **Biology Minor** program offer students an introduction to cell and molecular biology, ecology, evolutionary biology, and physiology. The **Biology Minor (joint with NUS)** program is offered jointly with the National University of Singapore: students complete 2.0 FCEs at the University of Toronto and 2.0 FCEs on exchange in Singapore.

Genomics, the study of the structure, function and evolution of the genome, is among the newest and most rapidly growing fields of both basic and applied science, and nearly all of the more traditional

disciplines in biology are being revolutionized by genomic tools. The growing flood of data on the DNA, RNA, and protein sequences of organisms provides unprecedented opportunities to address fundamental biological questions such as the causes of disease, the genetic basis of development, the extent and causes of adaptive evolution, and the nature of gene regulation. Genome biology is a highly interdisciplinary field, encompassing concepts and practices from such diverse fields as cell and molecular biology, evolutionary genetics, and computer science. Students in the **Genome Biology Major** program will receive a uniquely broad training in these concepts and practices, with a key focus on conceptual training in molecular biology, bioinformatics and evolutionary genetics, and practical training in both computational and wet-lab genomics research. A key focus of the program is to train biologists in the breadth of knowledge and skills required to understand, generate, and use results from genomics. The Genome Biology Major program begins with a core set of courses providing a foundation in biology in the first and second years of study. In the upper years, the departments of Cell & Systems Biology, Ecology & Evolutionary Biology, and Molecular Genetics offer a range of courses that cover various aspects of genomics. These include advanced lecture, seminar, and laboratory courses in addition to research project courses that take students into active labs to pursue their own research. A critical requirement of this program is a practical laboratory component that provides hands-on experience with the collection and/or analysis of genomic datasets.

The diverse course offerings in the Biology and Genome Biology programs allows students to customize their educational experience to match their personal interests.

## Biology Programs

### Biology Specialist (Science Program)

#### Completion Requirements:

The Biology Specialist, Major, and Minor programs are administered through the Department of Ecology & Evolutionary Biology. Contact: [undergrad.eeb@utoronto.ca](mailto:undergrad.eeb@utoronto.ca)

(12 FCEs including at least 1.0 FCE at the 400 series)

First Year (3.0 FCEs): BIO120H1; BIO130H1; CHM135H1, CHM136H1/CHM151Y1; (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

Higher Years:

1. 2.5 FCEs: BIO220H1; BIO230H1/BIO255H1; BIO251H1; BIO270H1/PSL300H1; BIO260H1/HMB265H1

2. 0.5 FCE statistics from: EEB225H1, PSY201H1, STA220H1, STA257H1, GGR270H1, STA288H1

3. 0.5 FCE from chemistry, physics or statistics: CHM220H1, CHM247H1/CHM249H1; PHY131H1, PHY151H1; PSY202H1; STA221H1, STA255H1, STA261H1

4. 1.5 FCE at the 200+ series from: BCH; BIO; CJH332H1; CSB (excluding CSB200Y1, CSB201H1, CSB202H1); EEB (excluding EEB202H1, EEB206H1, EEB208H1, EEB214H1, EEB215H1);

EHJ352H1; ENV234H1; ENV334H1; ENV432H1; IMM250H1;  
JHE353H1; JHE355H1; MGY200H1; MGY277H1; NFS284H1;  
PSY397H1; PSY497H1

5. 0.5 FCE at 300+ series in **plant or microbial biology** from:  
CSB340H1, CSB350H1, CSB351Y1, CSB353H1, CSB450H1,  
CSB452H1, CSB459H1, CSB460H1, CSB475H1; EEB328H1,  
EEB330H1, EEB331H1, EEB340H1, EEB403H0, EEB403H1,  
EEB405H0, EEB405H1, EEB428H1, EEB440H1

6. 0.5 FCE at 300+ series in **animal biology** from: CJH332H1;  
CSB325H1, CSB327H1, CSB328H1, CSB330H1, CSB331H1,  
CSB332H1, CSB343H1, CSB345H1, CSB346H1, CSB426H1,  
CSB428H1, CSB429H1, CSB430H1, CSB431H1, CSB432H1,  
CSB435H1, CSB445H1, CSB447H1, CSB483H1; EEB322H1,  
EEB380H1, EEB382H1, EEB384H1, EEB386H1, EEB388H1,  
EEB390H1, EEB440H1; EHJ352H1

NOTE: BIO270H1 and BIO271H1 are prerequisites for 300+ series  
CSB courses in physiology.

7. 2.0 FCEs at 300+ series (at least 1.0 FCE must be from Group 1)  
from:

Group 1: CJH332H1; CSB; EEB; EHJ352H1; ENV334H1,  
ENV432H1; JHE353H1, JHE355H1; NUS; PSY397H1, PSY497H1  
Group 2: ANA; ANT333Y1, ANT338H1, ANT430H1, ANT436H1;  
BCH; HMB; IMM; NFS; MGY; PCL; PSL

8. 1.0 FCE at 400-series from: CSB; EEB

NOTE: Students who wish to focus on either **plant or microbial  
biology**, or **animal biology** should take courses in 7. and 8. that  
concentrate in these subject areas as listed in 5. and 6.,  
respectively. BIO271H1/PSL301H1 is highly recommended for  
students concentrating in animal biology and is a prerequisite for  
300+ series CSB courses in physiology.

## Biology Major (Science Program)

### Completion Requirements:

The Biology Specialist, Major, and Minor programs are administered  
through the Department of Ecology & Evolutionary Biology. Contact:  
[undergrad.eeb@utoronto.ca](mailto:undergrad.eeb@utoronto.ca)

(8 FCEs including at least 1.5 FCEs at the 300+ series and 0.5 FCE  
at the 400 series)

First Year (2.0 FCEs): BIO120H1; BIO130H1; CHM135H1,  
CHM136H1/CHM151Y1

Higher Years:

1. 2.5 FCEs: BIO220H1; BIO230H1/BIO255H1; BIO251H1;  
BIO270H1/PSL300H1; BIO260H1/HMB265H1

2. 1.5 FCE from: BCH; BIO; CJH332H1; CSB (excluding CSB200Y1,  
CSB201H1, CSB202H1); EEB (excluding EEB202H1, EEB206H1,  
EEB208H1, EEB214H1, EEB215H1); EHJ352H1; ENV234H1,  
ENV334H1; IMM250H1; JHE353H1, JHE355H1; MGY200H1,  
MGY277H1; NFS284H1; PSY397H1, PSY497H1

3. 1.5 FCEs at 300+ series from: ANA; ANT333Y1, ANT338H1,  
ANT430H1, ANT436H1; BCH; CJH332H1; CSB; EEB; EHJ352H1;  
ENV334H1; HMB; IMM; JHE353H1, JHE355H1; MGY; NUS; PCL;  
PSL; PSY397H1, PSY497H1

4. 0.5 FCE at 400-series from: CSB; EEB

NOTE: Students who wish to focus on either **plant or microbial  
biology**, or **animal biology** should take courses in 2., 3., and 4. that  
concentrate in these subject areas (as listed below).

CSB and EEB courses in **plant or microbial biology**: CSB340H1,  
CSB350H1, CSB351Y1, CSB353H1, CSB450H1, CSB452H1,  
CSB459H1, CSB460H1, CSB475H1; EEB268H1, EEB328H1,  
EEB330H1, EEB331H1, EEB340H1, EEB405H0, EEB405H1,  
EEB428H1, EEB440H1

CSB and EEB courses in **animal biology**: BIO271H1/PSL301H1;  
CJH332H1; CSB325H1, CSB327H1, CSB328H1, CSB330H1,  
CSB331H1, CSB343H1, CSB345H1, CSB346H1, CSB426H1,  
CSB428H1, CSB429H1, CSB430H1, CSB431H1, CSB432H1,  
CSB435H1, CSB445H1, CSB447H1, CSB483H1; EEB263H1,  
EEB266H1, EEB267H1, EEB322H1, EEB380H1, EEB382H1,  
EEB384H1, EEB386H1, EEB388H1, EEB390H1, EEB440H1;  
EHJ352H1. (BIO271H1/PSL301H1 is highly recommended for  
students concentrating in animal biology and is a prerequisite for  
300+ series CSB courses in physiology.)

## Genome Biology Major (Science Program)

### Completion Requirements:

This program is a joint program of the departments of Cell &  
Systems Biology, Ecology & Evolutionary Biology, and Molecular  
Genetics. It is administered through the Department of Cell &  
Systems Biology.

(8 full courses or their equivalent)

First year: BIO120H1, BIO130H1; (CHM135H1,  
CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; (MAT135H1,  
MAT136H1)/MAT137Y1/MAT157Y1

Higher years:

1. BIO220H1, BIO230H1/BIO255H1; BIO260H1/HMB265H1;  
EEB225H1/STA220H1  
2. Genomics fundamentals: BCH311H1/CSB349H1/MGY311Y1,  
CSB352H1; EEB323H1  
3. 0.5 FCE laboratory course from: CSB472H1, CSB474H1;  
EEB460H1  
4. 1.0 FCE genomics elective from: CSB330H1, CSB350H1,  
CSB397Y0, CSB427H1, CSB435H1, CSB450H1, CSB473H1,  
CSB490H1, CSB491H1, CSB497H1/CSB498Y1/CSB499Y1;  
EEB362H1, EEB459H1, EEB497H1/EEB498Y1/EEB499Y1;  
EHJ352H1; MGY350H1, MGY360H1, MGY428H1, MGY470H1,  
MGY480Y1

NOTE: Students taking CSB397Y0, CSB490H1, CSB491H1,  
CSB497H1/CSB498Y1/CSB499Y1, EEB497H1/EEB498Y1/  
EEB499Y1 or MGY480Y1 are encouraged to conduct a genomics-  
related research project.

## Biology Minor (Science Program)

### Completion Requirements:

The Biology Specialist, Major, and Minor programs are administered  
through the Department of Ecology & Evolutionary Biology. Contact:  
[undergrad.eeb@utoronto.ca](mailto:undergrad.eeb@utoronto.ca)

4 FCEs

First Year (1.0 FCE): [BIO120H1](#); [BIO130H1](#)

Higher Years:

1. 1.0 FCE from: [BIO220H1](#); [BIO230H1](#)/[BIO255H1](#); [BIO251H1](#); [BIO270H1](#)/[PSL300H1](#); [BIO271H1](#)/[PSL301H1](#); [BIO260H1](#)/[HMB265H1](#)

2. 2.0 FCEs (1.0 FCE must be at the 300+ series) from: [BIO](#); [CJH332H1](#); [CSB](#) (excluding [CSB200Y1](#), [CSB201H1](#), [CSB202H1](#)); [EEB](#) (excluding [EEB202H1](#), [EEB204H1](#), [EEB206H1](#), [EEB214H1](#), [EEB215H1](#)); [EHJ352H1](#); [ENV234H1](#), [ENV334H1](#), [ENV432H1](#); [HMB265H1](#); [JHE353H1](#), [JHE355H1](#); [MGY200H1](#), [MGY277H1](#); [NUS](#); [PSY397H1](#), [PSY497H1](#)

## Biology Minor (Jointly Offered With National University Of Singapore) (Science Program)

### Enrolment Requirements:

This Type 3 minor program represents a unique opportunity to study biology in a different cultural environment. For more information, contact the Centre for International Experience ([cie.utoronto.ca](mailto:cie.utoronto.ca)).

### Completion Requirements:

(4 full courses or their equivalent)

First Year (1.0 FCE): [BIO120H1](#)">[BIO120H1](#); [BIO130H1](#)">[BIO130H1](#)

Higher Years:

1. 1.0 FCE from: [BIO220H1](#)">[BIO220H1](#); [BIO230H1](#)">[BIO230H1](#)/[BIO255H1](#)">[BIO255H1](#); [BIO251H1](#)">[BIO251H1](#); [BIO270H1](#)">[BIO270H1](#)/[PSL300H1](#)">[PSL300H1](#); [BIO271H1](#)">[BIO271H1](#)/[PSL301H1](#)">[PSL301H1](#); [BIO260H1](#)">[BIO260H1](#)/[HMB265H1](#)">[HMB265H1](#); [ENV234H1](#)">[ENV234H1](#)

2. 2.0 FCEs: any available LSM courses at the National University of Singapore for which you have the appropriate equivalent U of T course prerequisite and for which space is available (note: 1.0 FCE at NUS must be at the 3000 or 4000 level). You enrol through the NUS generic courses at U of T: [NUS301H0](#)">[NUS301H0](#), [NUS302H0](#)">[NUS302H0](#), etc. For a list of LSM courses see: <http://www.lifesciences.nus.edu.sg/lsm.html>. To discuss exclusions and prerequisites contact the EEB Undergraduate Office.

- [BIO270H1](#), Animal Physiology I: see [Cell & Systems Biology](#)
- [BIO271H1](#), Animal Physiology II: see [Cell & Systems Biology](#)

## Biology Courses

### NUS301H0 - Life Science Course A

Hours: TBA

A 3000-level Life Sciences (LSM) course offered at the National University of Singapore. For course offerings see: [www.lifesciences.nus.edu.sg/lsm.html](http://www.lifesciences.nus.edu.sg/lsm.html) Prerequisites and Exclusions: see the EEB website ([www.eeb.utoronto.ca/Learning/programs.htm](http://www.eeb.utoronto.ca/Learning/programs.htm))

**Prerequisite:** [BIO120H1](#), [BIO130H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### NUS302H0 - Life Science Course B

Hours: TBA

A 3000-level Life Sciences (LSM) course offered at the National University of Singapore. For course offerings see: [www.lifesciences.nus.edu.sg/lsm.html](http://www.lifesciences.nus.edu.sg/lsm.html) Prerequisites and Exclusions: see the EEB website ([www.eeb.utoronto.ca/Learning/programs.htm](http://www.eeb.utoronto.ca/Learning/programs.htm))

**Prerequisite:** [BIO120H1](#), [BIO130H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NUS303H0 - Life Science Course C

**Hours:** TBA

A 3000-level Life Sciences (LSM) course offered at the National University of Singapore. For course offerings see: [www.lifesciences.nus.edu.sg/lsm.html](http://www.lifesciences.nus.edu.sg/lsm.html) Prerequisites and Exclusions: see the EEB website ([www.eeb.utoronto.ca/Learning/programs.htm](http://www.eeb.utoronto.ca/Learning/programs.htm))

**Prerequisite:** BIO120H1, BIO130H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NUS304H0 - Life Science Course D

**Hours:** TBA

A 3000-level Life Sciences (LSM) course offered at the National University of Singapore. For course offerings see: [www.lifesciences.nus.edu.sg/lsm.html](http://www.lifesciences.nus.edu.sg/lsm.html) Prerequisites and Exclusions: see the EEB website ([www.eeb.utoronto.ca/Learning/programs.htm](http://www.eeb.utoronto.ca/Learning/programs.htm))

**Prerequisite:** BIO120H1, BIO130H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NUS401H0 - Life Science Course E

**Hours:** TBA

A 4000-level Life Sciences (LSM) course offered at the National University of Singapore. For course offerings see: [www.lifesciences.nus.edu.sg/lsm.html](http://www.lifesciences.nus.edu.sg/lsm.html) Prerequisites and Exclusions: see the EEB website ([www.eeb.utoronto.ca/Learning/programs.htm](http://www.eeb.utoronto.ca/Learning/programs.htm))

**Prerequisite:** BIO120H1, BIO130H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NUS402H0 - Life Science Course F

**Hours:** TBA

A 4000-level Life Sciences (LSM) course offered at the National University of Singapore. For course offerings see: [www.lifesciences.nus.edu.sg/lsm.html](http://www.lifesciences.nus.edu.sg/lsm.html) Prerequisites and Exclusions: see the EEB website ([www.eeb.utoronto.ca/Learning/programs.htm](http://www.eeb.utoronto.ca/Learning/programs.htm))

**Prerequisite:** BIO120H1, BIO130H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# Canadian Institute for Theoretical Astrophysics

## Faculty List

### Professor and Director

U.-L. Pen, MSc, PhD

### Associate Director

H. Pfeiffer, BSc, PhD

### University Professor

J.R. Bond, OC, MS, PhD, FRSC, FRS

### Professors

N.W. Murray, BSc, PhD

P.G. Martin, MSc, PhD, FRSC

A.C. Thompson, BSc, PhD

## Introduction

The Canadian Institute for Theoretical Astrophysics (CITA) is an incorporated national institute hosted by the University of Toronto, conducting research covering all of modern astrophysical theory and analysis during this remarkable age of cosmic discovery. CITA has firmly established itself as one of the top five places in the world for such research; despite its small size CITA has had a large impact on the world-wide astrophysics community. Research at CITA is carried out by about 20 research fellows, 30 graduate students, and a limited number of undergraduate students, all supervised by full-time faculty members.

Where do elements, planets, solar systems, stars, galaxies, the Universe, and life, come from? Questions like these fascinate everyone. Theorists at CITA analyze, interpret, and explain the astronomical observations that illuminate such questions, using laboratory-tested physical laws, or as recently seen, new physical laws that the observations require but which laboratory experiments have not been able, so far, to detect. The observational data are supplied by the recent and ongoing explosion in astronomical hardware, including current observatories like the 10-meter class Keck telescope, ALMA, the Hubble space telescope, x-ray, infrared, and ultra-violet space telescopes, and a host of others.

CITA courses are designed for students interested in doing undergraduate research in theoretical astrophysics, and are appropriate for computer science, engineering science, physical sciences and astronomy program students.

CITA works closely with two related academic units, the Department of Astronomy and Astrophysics (DAA) and the Dunlap Institute for Astronomy and Astrophysics (Dunlap). The DAA is engaged in a broad range of research, with an emphasis on observational astronomy. A main focus of Dunlap is on the design and development of astronomical instrumentation. Undergraduate students will find diverse research opportunities through CITA and these two cognate units.

## Canadian Institute for Theoretical Astrophysics Courses

### CTA200H1 - Computational Astrophysics

**Hours:** 24L/12T

Research in theoretical astrophysics encompasses cosmology, galaxy formation and black holes. This course introduces students to modern computational techniques using large scale parallel numerical simulations, carried out at CITA and SciNet. This is an intensive two-week course taught in May.

**Prerequisite:** MAT135Y1/MAT137Y1/MAT157Y1; (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1) or their equivalent.

**Recommended Preparation:** Physical science, mathematics and computation, or engineering

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

### CTA299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Prerequisite:** MAT135Y1/MAT137Y1/MAT157Y1; (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1) or their equivalent

**Recommended Preparation:** Physical science, mathematics and computation, or engineering

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

### CTA395Y0 - Research Topic

**Hours:** TBA

Course credit for research under the supervision of a faculty member. Not eligible for CR/NCR option.

**Prerequisite:** Completed at least 8.5 FCEs and no more than 14.0 FCEs including courses in AST, CTA200H1, or permission

**Distribution Requirements:** Science

## CTA396Y0 - Research Topic Abroad

**Hours:** TBA

Course credit for research or field studies abroad under the supervision of a faculty member. Not eligible for CR/NCR option.

**Prerequisite:** At least 8.5 FCEs and no more than 14.0 FCEs including courses in AST, CTA200H1, or permission of the instructor

**Recommended Preparation:** Physical science, mathematics and computation, or engineering

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CTA495Y1 - Independent Topics in Astrophysics

**Hours:** TBA

A research project done in consultation with an individual staff member in the Institute leading to a detailed written report and oral presentation. This course is intended primarily for students in the final year of the Astronomy and Physics specialist program, although it is available to students in Engineering Science, Computer Science, or Mathematics. Students must enroll with the Undergraduate Secretary, Prof. Pen. Not eligible for CR/NCR option.

**Prerequisite:** 1 FCE from PHY324H1, PHY350H1, PHY354H1, PHY356H1, PHY357H1, PHY358H1, PHY395H1, PHY404H1, PHY408H1, AST325H1/AST326Y1, or similar courses in Engineering Science or Mathematics.

**Recommended Preparation:** Physical science, mathematics and computation, or engineering

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

S. Lumba, B Sc, Ph D  
J. Mitchell, BA, Ph D  
S. Pesiajovich, B Sc, Ph D  
S.V. Plotnikov, M Sc, Ph D  
A.L. Saltzman, B Sc, Ph D

### Associate Professor, Teaching Stream

M. Neumann, M Sc, Ph D

### Assistant Professor, Teaching Stream

C. Garside, M Sc, PhD

## Introduction

The study of life, biology, has been transformed in recent decades by powerful new ways of asking fundamental questions about how living organisms work. In particular, molecular approaches are revealing both the incredible complexity of organization at the cellular level, and the underlying principles drawn from chemistry, physics and information science that will eventually enable us to understand that complexity.

The Department of Cell and Systems Biology brings together biologists who study life at the level of molecules to functioning individual organisms. Our undergraduate programs reflect this diversity and research strength. Since cells are the basic units of life, it is important to understand how molecular mechanisms control cells and how cells organize the developmental and physiological processes of whole organisms. These relationships encompass molecular biology, cell biology, developmental biology, genetics and physiology. These relationships are also complex, requiring studies of dynamic molecular and cellular networks: systems biology. One core component of systems biology is the integration of large datasets arising from the genomics revolution. Computer modeling and bioinformatics are integrated with biochemical and microscopy studies to understand genomes, transcriptomes, proteomes and metabolomes of the cell and organism.

The Department of Cell and Systems Biology offers two core programs: Animal Physiology (Major) and Cell & Molecular Biology (Major and Specialist). Cell & Molecular Biology Major and Specialist students also have the option of pursuing one Disciplinary Focus in either Molecular Networks of the Cell, Stem Cells and Developmental Biology, or Plant Genomics and Biotechnology.

We also contribute to multi-Department programs (Bioinformatics & Computational Biology, Biology, and Genome Biology).

Student Counseling and Enquiries:

Associate Chair (Undergraduate): Professor T. Harris (416-946-0873).

Contact the Undergraduate Office, Room 424 in the Ramsay Wright Laboratories (416-978-3477) and consult the departmental web site, [www.csb.utoronto.ca](http://www.csb.utoronto.ca).

## Cell and Systems Biology Programs

### Animal Physiology Major (Science Program)

#### Description:

Students learn to compare and contrast the physiological systems of different animal species, or of a single species under difference

environmental conditions. This experimental science strives to understand how physiological systems allow animals to adapt to their individual and ever-changing environments. Through a systems-level approach, from molecules to organisms, students gain an understanding of how emergent properties arise when physiological components operate as a whole.

After foundational courses in first and second year, students participate in advanced lecture, seminar and laboratory courses, and are encouraged to apply for research project courses in the laboratories of the Department. Course offerings include neurophysiology, respiratory physiology, endocrinology, sleep physiology and comparative cellular physiology.

#### Completion Requirements:

(8 full courses or their equivalent)

First Year: BIO120H1, BIO130H1; (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; JMB170Y1/(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1/(PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

Higher Years:

1. (BIO220H1, BIO230H1/BIO255H1)
2. BIO270H1, BIO271H1
3. CSB325H1
4. 0.5 FCE from: CJH332H1; CSB332H1, CSB343H1, CSB346H1
5. 1.5 FCEs (at least 0.5 FCE must be at the 300+level) from: BCH210H1; BIO260H1/HMB265H1; CJH332H1; CSB299Y1, CSB327H1, CSB329H1, CSB330H1, CSB331H1, CSB332H1, CSB343H1, CSB345H1, CSB346H1, CSB348H1, CSB352H1, CSB397Y0, EEB263H1; PSY397H1; STA220H1
6. 0.5 FCE at the 400-level from CSB426H1, CSB432H1, CSB443H1, CSB445H1, CSB447H1, CSB492H1, CSB497H1, CSB498Y1, CSB499Y1; HMB430H1, HMB472H1, HMB496Y1, HMB499Y1; PSL432H1, PSL452H1

## Cell & Molecular Biology Specialist (Science Program)

#### Description:

Students learn how genes and proteins organize cells for cellular activities, multicellular development, and cellular interactions with the environment. Students also learn how cell and molecular biology research is conducted, and receive training in advanced techniques of the field. Cell and molecular biology research is one the most demanding fields in science. Students gain an understanding of the field, and leave the program equipped to tackle fundamental scientific questions.

After foundational courses in first and second year, students participate in advanced lecture, seminar and laboratory courses, and are encouraged to apply for research project courses in the laboratories of the Department. Course offerings include gene expression, cell biology, developmental biology, plant development, plant-microbe interactions, plant signaling, neurogenesis, tissue morphogenesis, stem cell biology, genomics and proteomics.

#### Enrolment Requirements:

This is a limited enrolment program that can only accommodate a limited number of students. Admission will be determined with a minimum grade of 70% in BIO130H1. If the student does not achieve 70% in BIO130H1, admission can be determined with a minimum grade of 70% in BIO230H1. Achieving these marks does not necessarily guarantee admission to the program in any given

year. Enrolment also requires the completion of four courses, including BIO120H1, BIO130H1; (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; JMB170Y1/(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1.

#### Completion Requirements:

(12.5 full courses or their equivalent, including at least one 400-series course)

First Year:

BIO120H1, BIO130H1; (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; JMB170Y1/(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1.

Higher Years:

1. (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)
2. (BIO220H1, BIO230H1/BIO255H1), (BIO270H1, BIO271H1), BIO260H1/HMB265H1; BCH210H1
3. CSB330H1/CSB350H1/CSB352H1, CSB349H1
4. 1.0 FCE from: CJH332H1, CSB327H1, CSB328H1, CSB329H1, CSB331H1, CSB340H1, CSB353H1
5. 1.0 FCE from: BCH422H1, BCH426H1, BCH444H1, BCH445H1, CSB427H1, CSB428H1, CSB429H1, CSB430H1, CSB431H1, CSB435H1, CSB450H1, CSB452H1, CSB458H1, CSB459H1, CSB460H1, CSB472H1, CSB473H1, CSB474H1, CSB475H1, CSB483H1
6. 2.5 FCEs from: BCH422H1, BCH426H1, BCH440H1, BCH441H1, BCH444H1, BCH445H1, CJH332H1, CSB299Y1, CSB327H1, CSB328H1, CSB329H1, CSB330H1, CSB331H1, CSB340H1, CSB350H1, CSB351Y1, CSB352H1, CSB353H1, CSB397Y0, CSB427H1, CSB428H1, CSB429H1, CSB430H1, CSB431H1, CSB435H1, CSB447H1, CSB450H1, CSB452H1, CSB458H1, CSB459H1, CSB460H1, CSB472H1, CSB473H1, CSB474H1, CSB475H1, CSB483H1, CSB490H1, CSB491H1, CSB492H1, CSB497H1, CSB498Y1, CSB499Y1, HMB496Y1/HMB499Y1, MGY480Y1

NOTE: No more than 0.5 FCE in BCH can be used towards requirements 5. and 6.

The Cell & Molecular Biology Specialist Program has the additional option of a Disciplinary Focus.

## Focus in Molecular Networks of the Cell (Specialist)

#### Description:

Starting in 2nd year, this focus organizes a restricted number of high-achieving Cell and Molecular Biology Specialist students with an interest in Molecular Networks of the Cell. Focus students are required to complete a subset of related program courses and to participate in a learning community for the focus.

#### Enrolment Requirements:

Once you have been approved for and have enrolled in the Cell and Molecular Biology Specialist program, you have the option to apply for entry into a focus. The focuses have a limited enrolment and can only accommodate a restricted number of students with a particular interest in the topic of the focus. **Students can only apply for one focus.** Admission will be determined with a minimum grade of 80% in BIO130H1. If the student does not achieve 80% in BIO130H1, admission can be determined with a minimum grade of 80% in BIO230H1. In addition, students must submit a 300-word statement of interest regarding the topic of the focus. Statement submission instructions are at <http://csb.utoronto.ca/undergraduate-studies/undergraduate-programs/>. Achieving these requirements

does not necessarily guarantee admission to the focus in any given year.

Students in a focus complete the requirements of First Year, the requirements 1.-3. of Higher Years, as well as requirements 4.-7 specific to each focus.

Each year students are enrolled in a focus, they must also be an active participant in the faculty-led learning community for their focus (requirement 7.). The learning community appears as a non-credit course recognized on the co-curricular record. Students who fail to contribute to the faculty-led learning community will be removed from the focus.

#### Completion Requirements:

This Focus is part of the Cell and Molecular Biology Specialist and begins with the requirements of First Year and of lines 1-3 of Higher Years of the Cell and Molecular Biology Specialist Program.

4. 1.0 FCE from: CJH332H1, CSB327H1, CSB331H1, CSB353H1
5. 1.0 FCE from: CSB427H1, CSB428H1, CSB429H1, CSB435H1, CSB458H1, CSB459H1, CSB460H1, CSB475H1
6. 2.5 FCEs from: BCH422H1, BCH426H1, BCH440H1, BCH441H1, BCH444H1, BCH445H1, CJH332H1, CSB299Y1, CSB327H1, CSB328H1, CSB329H1, CSB330H1, CSB331H1, CSB340H1, CSB350H1, CSB351Y1, CSB352H1, CSB353H1, CSB397Y0, CSB428H1, CSB431H1, CSB435H1, CSB447H1, CSB450H1, CSB452H1, CSB458H1, CSB459H1, CSB460H1, CSB472H1, CSB473H1, CSB474H1, CSB475H1, CSB483H1, CSB490H1, CSB491H1, CSB492H1, CSB497H1, CSB498Y1, CSB499Y1. No more than 0.5 FCE in BCH can be used towards this requirement.
7. Molecular Network Learning Community (each year of focus enrolment)

## Focus in Plant Genomics and Biotechnology (Specialist)

#### Description:

Starting in 2nd year, this focus organizes a restricted number of high-achieving Cell and Molecular Biology Specialist students with an interest in Plant Genomics and Biotechnology. Focus students are required to complete a subset of related program courses and to participate in a learning community for the focus.

#### Enrolment Requirements:

Once you have been approved for and have enrolled in the Cell and Molecular Biology Specialist program, you have the option to apply for entry into a focus. The focuses have a limited enrolment and can only accommodate a restricted number of students with a particular interest in the topic of the focus. **Students can only apply for one focus.** Admission will be determined with a minimum grade of 80% in BIO130H1. If the student does not achieve 80% in BIO130H1, admission can be determined with a minimum grade of 80% in BIO230H1. In addition, students must submit a 300-word statement of interest regarding the topic of the focus. Statement submission instructions are at <http://csb.utoronto.ca/undergraduate-studies/undergraduate-programs/>. Achieving these requirements does not necessarily guarantee admission to the focus in any given year.

Students in a focus complete the requirements of First Year, the requirements 1.-3. of Higher Years, as well as requirements 4.-7 specific to each focus.

Each year students are enrolled in a focus, they must also be an active participant in the faculty-led learning community for their focus (requirement 7.). The learning community appears as a non-credit course recognized on the co-curricular record. Students who fail to contribute to the faculty-led learning community will be removed from the focus.

#### Completion Requirements:

This Focus is part of the Cell and Molecular Biology Specialist and begins with the requirements of First Year and of lines 1-3 of Higher Years of the Cell and Molecular Biology Specialist Program.

4. 1.0 FCE from: CSB340H1, CSB350H1, CSB352H1, CSB353H1
5. 1.0 FCE from: CSB435H1, CSB450H1, CSB452H1, CSB459H1, CSB460H1, CSB472H1, CSB473H1, CSB474H1, CSB475H1
6. 2.5 FCEs from: BCH422H1, BCH426H1, BCH440H1, BCH441H1, BCH444H1, BCH445H1, CSB299Y1, CSB328H1, CSB329H1, CSB330H1, CSB331H1, CSB340H1, CSB350H1, CSB351Y1, CSB352H1, CSB353H1, CSB397Y0, CSB428H1, CSB431H1, CSB435H1, CSB450H1, CSB452H1, CSB458H1, CSB459H1, CSB460H1, CSB472H1, CSB473H1, CSB474H1, CSB475H1, CSB483H1, CSB490H1, CSB491H1, CSB492H1, CSB497H1, CSB498Y1, CSB499Y1. No more than 0.5 FCE in BCH can be used towards this requirement.
7. Plant Biotech Learning Community (each year of focus enrolment)

## Focus in Stem Cells and Developmental Biology (Specialist)

#### Description:

Starting in 2nd year, this focus organizes a restricted number of high-achieving Cell and Molecular Biology Specialist students with an interest in Molecular Networks of the Cell. Focus students are required to complete a subset of related program courses and to participate in a learning community for the focus.

#### Enrolment Requirements:

Once you have been approved for and have enrolled in the Cell and Molecular Biology Specialist program, you have the option to apply for entry into a focus. The focuses have a limited enrolment and can only accommodate a restricted number of students with a particular interest in the topic of the focus. **Students can only apply for one focus.** Admission will be determined with a minimum grade of 80% in BIO130H1. If the student does not achieve 80% in BIO130H1, admission can be determined with a minimum grade of 80% in BIO230H1. In addition, students must submit a 300-word statement of interest regarding the topic of the focus. Statement submission instructions are at <http://csb.utoronto.ca/undergraduate-studies/undergraduate-programs/>. Achieving these requirements does not necessarily guarantee admission to the focus in any given year.

Students in a focus complete the requirements of First Year, the requirements 1.-3. of Higher Years, as well as requirements 4.-7 specific to each focus.

Each year students are enrolled in a focus, they must also be an active participant in the faculty-led learning community for their focus (requirement 7.). The learning community appears as a non-credit course recognized on the co-curricular record. Students who fail to contribute to the faculty-led learning community will be removed from the focus.

## Completion Requirements:

This Focus is part of the Cell and Molecular Biology Specialist and begins with the requirements of First Year and of lines 1-3 of Higher Years of the Cell and Molecular Biology Specialist Program.

4. 1.0 FCE from: CSB328H1, CSB329H1, CSB340H1
5. 1.0 FCE from: CSB427H1, CSB429H1, CSB430H1, CSB431H1, CSB483H1
6. 2.5 FCEs from: BCH422H1, BCH426H1, BCH440H1, BCH441H1, BCH444H1, BCH445H1, CSB299Y1, CSB327H1, CSB328H1, CSB329H1, CSB330H1, CSB331H1, CSB340H1, CSB350H1, CSB352H1, CSB397Y0, CSB427H1, CSB428H1, CSB429H1, CSB430H1, CSB431H1, CSB435H1, CSB450H1, CSB458H1, CSB460H1, CSB472H1, CSB473H1, CSB474H1, CSB483H1, CSB490H1, CSB491H1, CSB492H1, CSB497H1, CSB498Y1, CSB499Y1. No more than 0.5 FCE in BCH can be used towards this requirement.
7. Multicellularity Learning Community (each year of focus enrolment)

## Cell & Molecular Biology Major (Science Program)

### Description:

Students learn how genes and proteins organize cells for cellular activities, multicellular development, and cellular interactions with the environment. Students also learn how cell and molecular biology research is conducted, and receive training in advanced techniques of the field. Cell and molecular biology research is one the most demanding fields in science. Students gain an understanding of the field, and leave the program equipped to tackle fundamental scientific questions.

After foundational courses in first and second year, students participate in advanced lecture, seminar and laboratory courses, and are encouraged to apply for research project courses in the laboratories of the Department. Course offerings include gene expression, cell biology, developmental biology, plant development, plant-microbe interactions, plant signaling, neurogenesis, tissue morphogenesis, stem cell biology, genomics and proteomics.

### Completion Requirements:

(8 full courses or their equivalent)

- First Year: BIO120H1, BIO130H1; (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; JMB170Y1/MAT135H1, MAT136H1/MAT137Y1/MAT157Y1/(PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)
- Higher Years:
1. (BIO220H1, BIO230H1/BIO255H1)
  2. BIO260H1/HMB265H1; BCH210H1
  3. CSB349H1
  4. 1.0 FCE from: CSB327H1, CSB328H1, CSB329H1, CSB331H1, CSB340H1, CSB353H1
  5. 1.5 FCEs (at least 0.5 FCE at the 400-level) from: BCH422H1, BCH426H1, BCH440H1, BCH441H1, BCH444H1, BCH445H1, CJH332H1, CSB299Y1, CSB327H1, CSB328H1, CSB329H1, CSB330H1, CSB331H1, CSB340H1, CSB350H1, CSB351Y1, CSB352H1, CSB353H1, CSB397Y0, CSB427H1, CSB428H1, CSB429H1, CSB430H1, CSB431H1, CSB435H1, CSB447H1, CSB450H1, CSB452H1, CSB458H1, CSB459H1, CSB460H1, CSB472H1, CSB473H1, CSB474H1, CSB475H1, CSB483H1, CSB490H1, CSB491H1, CSB492H1, CSB497H1, CSB498Y1, CSB499Y1, HMB496Y1/HMB499Y1, MGY480Y1. No more than 0.5 FCE in BCH can be used towards this requirement.

The Cell & Molecular Biology Major Program has the additional option of a Disciplinary Focus.

## Focus in Molecular Networks of the Cell (Major)

### Description:

Starting in 2nd year, this focus organizes a restricted number of high-achieving Cell and Molecular Biology Major students with an interest in Molecular Networks of the Cell. Focus students are required to complete a subset of related program courses and to participate in a learning community for the focus.

### Enrolment Requirements:

Once you have enrolled in the Cell and Molecular Biology Major program, you have the option to apply for entry into a focus. The focuses have a limited enrolment and can only accommodate a restricted number of students with a particular interest in the topic of the focus. **Students can only apply for one focus.** Admission will be determined with a minimum grade of 80% in BIO130H1. If the student does not achieve 80% in BIO130H1, admission can be determined with a minimum grade of 80% in BIO230H1. In addition, students must submit a 300-word statement of interest regarding the topic of the focus. Statement submission instructions are at <http://csb.utoronto.ca/undergraduate-studies/undergraduate-programs/>. Achieving these requirements does not necessarily guarantee admission to the focus in any given year.

Students in a focus complete the requirements of First Year, the requirements 1.-3. of Higher Years, as well as requirements 4.-7. specific to each focus.

Each year students are enrolled in a focus, they must also be an active participant in the faculty-led learning community for their focus (requirement 7.). The learning community appears as a non-credit course recognized on the co-curricular record. Students who fail to contribute to the faculty-led learning community will be removed from the focus.

### Completion Requirements:

This Focus is part of the Cell and Molecular Biology Major and begins with the requirements of First Year and of lines 1-3 of Higher Years of the Cell and Molecular Biology Major Program.

4. 1.0 FCE from: CJH332H1, CSB327H1, CSB331H1, CSB353H1
5. 0.5 FCE from: CSB427H1, CSB428H1, CSB429H1, CSB435H1, CSB458H1, CSB459H1, CSB460H1, CSB475H1
6. 1.0 FCE from: BCH422H1, BCH426H1, BCH444H1, BCH445H1, CJH332H1, CSB299Y1, CSB327H1, CSB330H1, CSB331H1, CSB353H1, CSB397Y0, CSB427H1, CSB428H1, CSB429H1, CSB435H1, CSB450H1, CSB452H1, CSB458H1, CSB459H1, CSB460H1, CSB475H1, CSB490H1, CSB491H1, CSB497H1, CSB498Y1, CSB499Y1. No more than 0.5 FCE in BCH can be used towards this requirement.
7. Molecular Network Learning Community (each year of focus enrolment)

## Focus in Plant Genomics and Biotechnology (Major)

### Description:

Starting in 2nd year, this focus organizes a restricted number of high-achieving Cell and Molecular Biology Major students with an interest in Plant Genomics and Biotechnology. Focus students are required to complete a subset of related program courses and to participate in a learning community for the focus.

### Enrolment Requirements:

Once you have enrolled in the Cell and Molecular Biology Major program, you have the option to apply for entry into a focus. The focuses have a limited enrolment and can only accommodate a restricted number of students with a particular interest in the topic of the focus. **Students can only apply for one focus.** Admission will be determined with a minimum grade of 80% in [BIO130H1](#). If the student does not achieve 80% in [BIO130H1](#), admission can be determined with a minimum grade of 80% in [BIO230H1](#). In addition, students must submit a 300-word statement of interest regarding the topic of the focus. Statement submission instructions are at <http://csb.utoronto.ca/undergraduate-studies/undergraduate-programs/>. Achieving these requirements does not necessarily guarantee admission to the focus in any given year.

Students in a focus complete the requirements of First Year, the requirements 1.-3. of Higher Years, as well as requirements 4.-7 specific to each focus.

Each year students are enrolled in a focus, they must also be an active participant in the faculty-led learning community for their focus (requirement 7.). The learning community appears as a non-credit course recognized on the co-curricular record. Students who fail to contribute to the faculty-led learning community will be removed from the focus.

### Completion Requirements:

This Focus is part of the Cell and Molecular Biology Major and begins with the requirements of First Year and of lines 1-3 of Higher Years of the Cell and Molecular Biology Major Program.

4. 1.0 FCE from: [CSB340H1](#), [CSB350H1/CSB352H1](#), [CSB353H1](#)
5. 0.5 FCE from: [CSB435H1](#), [CSB450H1](#), [CSB452H1](#), [CSB459H1](#), [CSB460H1](#), [CSB472H1](#), [CSB473H1](#), [CSB474H1](#), [CSB475H1](#)
6. 1.0 FCE from: [CSB299Y1](#), [CSB330H1](#), [CSB340H1](#), [CSB350H1](#), [CSB351Y1](#), [CSB352H1](#), [CSB353H1](#), [CSB397Y0](#), [CSB435H1](#), [CSB450H1](#), [CSB452H1](#), [CSB459H1](#), [CSB460H1](#), [CSB472H1](#), [CSB473H1](#), [CSB474H1](#), [CSB475H1](#), [CSB490H1](#), [CSB491H1](#), [CSB497H1](#), [CSB498Y1](#), [CSB499Y1](#).
7. Plant Biotech Learning Community (each year of focus enrolment)

## Focus in Stem Cells and Developmental Biology (Major)

### Description:

Starting in 2nd year, this focus organizes a restricted number of high-achieving Cell and Molecular Biology Major students with an interest in Stem Cells and Developmental Biology. Focus students are required to complete a subset of related program courses and to participate in a learning community for the focus.

### Enrolment Requirements:

Once you have enrolled in the Cell and Molecular Biology Major program, you have the option to apply for entry into a focus. The focuses have a limited enrolment and can only accommodate a restricted number of students with a particular interest in the topic of the focus. **Students can only apply for one focus.** Admission will be determined with a minimum grade of 80% in [BIO130H1](#). If the student does not achieve 80% in [BIO130H1](#), admission can be determined with a minimum grade of 80% in [BIO230H1](#). In addition, students must submit a 300-word statement of interest regarding the topic of the focus. Statement submission instructions are at <http://csb.utoronto.ca/undergraduate-studies/undergraduate-programs/>. Achieving these requirements does not necessarily guarantee admission to the focus in any given year.

Students in a focus complete the requirements of First Year, the requirements 1.-3. of Higher Years, as well as requirements 4.-7 specific to each focus.

Each year students are enrolled in a focus, they must also be an active participant in the faculty-led learning community for their focus (requirement 7.). The learning community appears as a non-credit course recognized on the co-curricular record. Students who fail to contribute to the faculty-led learning community will be removed from the focus.

### Completion Requirements:

This Focus is part of the Cell and Molecular Biology Major and begins with the requirements of First Year and of lines 1-3 of Higher Years of the Cell and Molecular Biology Major Program.

4. 1.0 FCE from: [CSB328H1](#), [CSB329H1](#), [CSB340H1](#)
5. 0.5 FCE from: [CSB427H1](#), [CSB429H1](#), [CSB430H1](#), [CSB431H1](#), [CSB483H1](#)
6. 1.0 FCE from: [CSB299Y1](#), [CSB328H1](#), [CSB329H1](#), [CSB340H1](#), [CSB397Y0](#), [CSB427H1](#), [CSB429H1](#), [CSB430H1](#), [CSB431H1](#), [CSB483H1](#), [CSB497H1](#), [CSB498Y1](#), [CSB499Y1](#).
7. Multicellularity Learning Community (each year of focus enrolment)

## Developmental Biology Specialist (Science Program)

### Enrolment Requirements:

Admissions to this program have been suspended, effective May 8, 2017.

This is a limited enrolment program that can only accommodate a limited number of students. Admission will be determined with a minimum grade of 70% in [BIO130H1](#). If the student does not achieve 70% in [BIO130H1](#), admission can be determined with a minimum grade of 70% in [BIO230H1](#). Achieving these marks does not necessarily guarantee admission to the program in any given year. Enrolment also requires the completion of four courses, including [BIO120H1](#), [BIO130H1](#); ([CHM135H1](#), [CHM136H1](#))/([CHM138H1](#), [CHM139H1](#))/([CHM151Y1](#); [JMB170Y1](#))/([MAT135H1](#), [MAT136H1](#))/[MAT137Y1](#)/MAT157Y1.

### Completion Requirements:

(12.5 full courses or their equivalent, including at least one 400-series course)

Students who have taken BIO150Y1, do not take BIO120H1 and BIO220H1 in this program. Students who have taken BIO240H1 and BIO241H1, do not take BIO130H1 and BIO230H1 in this program.

First Year:

BIO120H1, BIO130H1; (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; JMB170Y1/(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

Higher Years:

1. BCH210H1; (BIO220H1, BIO230H1/BIO255H1), BIO260H1; CHM220H1/CHM247H1/CHM249H1
2. 1.0 FCE from BIO251H1, BIO270H1, BIO271H1
3. CSB349H1
4. CSB328H1, CSB340H1
5. 3.5 (or 2.5\*) courses from: ANA300Y1, ANA301H1; BCH340H1, BCH370H1, BCH425H1, BCH426H1; CSB327H1, CSB329H1, CSB330H1, CSB331H1, CSB350H1, CSB352H1, CSB397Y0, CSB427H1, CSB435H1, CSB450H1, CSB459H1, CSB460H1, CSB472H1, CSB473H1, CSB474H1, CSB475H1, CSB492H1; EEB340H1, EEB460H1; IMM340H1, IMM350H1, IMM428H1; IMM429H1; MGY425H1, MGY428H1, MGY451H1, MGY452H1, MGY470H1; PSL304H1, PSL305H1, PSL420H1, PSL470H1
6. 1.0 (or 2.0\*) courses from CSB428H1, CSB429H1, CSB430H1, CSB431H1, CSB458H1, CSB483H1, CSB497H1, CSB498Y1, CSB499Y1; HMB496Y1/HMB499Y1; MGY480Y1

\* Requirements 5. and 6. must include a total of at least 4.5 full courses

**Biology:** see Biology  
**Bioinformatics and Computational Biology:**  
see Biochemistry  
**Genome Biology:** see Biology

## Lab Materials Fee

Some courses in this department have a mandatory Lab Materials Fee to cover non-reusable materials. The fee for each such course is given below in the course description, and will be included on the student's invoice on ACORN.

## First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

# Cell and Systems Biology Courses

## BIO130H1 - Molecular and Cell Biology

**Hours:** 36L/15P

One of the goals of modern biology is to understand how the basic building blocks of life give rise to biological form and function. This course provides students with a common lexicon to understand the key principles and concepts in molecular and cell biology, with a focus on how the building blocks of life lead to functioning cells. (Lab Materials Fee: \$10). Lab coat and safety glasses are required for use in laboratories; students are responsible for purchasing these items (approximate cost is \$25).

**Prerequisite:** SBI4U and SCH4U (Grade 12 University Preparation Biology and Chemistry) or permission of department. Please contact [bio130@utoronto.ca](mailto:bio130@utoronto.ca) for more information.

**Exclusion:** BIO240H1, BIO241H1, BIO250Y1, BIO255Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB201H1 - Molecular Biology, Biotechnology and You

**Hours:** 24L/12T

An online course intended to provide non-science students with an understanding of basic concepts in molecular biology and genetics, with particular emphasis on humans. Students will work online in groups on problem sets. The course will end with an introduction to biotechnology, including an opportunity for students to use their new knowledge to explore a real, multi-dimensional problem (e.g., cancer). Lectures will be delivered via the web and mandatory tutorials will require live webinar participation. The final exam will require attendance on the St. George campus. This course does not count towards CSB programs.

**Exclusion:** BIO130H1, BIO230H1, BIO240H1, BIO250Y1, BIO255H1, BIO255Y1, CSB200Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB202H1 - Further Exploration in Biotechnology

**Hours:** 24L/12T

Provides non-science students with an additional opportunity to explore biotechnology and its applications in agriculture, the environment, and human health including: drug discovery, aging, and vaccines. Most lectures are viewed online before class and students work in groups during class on problem sets and case studies designed to stimulate further learning, enhance evidence-based reasoning, and promote reflection on the role of biotechnology in society. This course does not count towards CSB programs. CSB201H1 is not a prerequisite for this course.

**Exclusion:** BIO230H1, BIO240H1, BIO241H1, BIO250Y1, BIO255H1, BIO255Y1, CSB200Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BIO230H1 - From Genes to Organisms

**Hours:** 36L/15P

The genome is the "book of life," providing instructions to construct an organism. This course introduces genome biology and explores how the building blocks of life are networked into functioning organisms. We will investigate how cells perceive internal and external cues, how gene expression is shaped by this perception, and how these events give rise to tissues, organs, and whole organisms. (Lab Materials Fee: \$20). Lab coat and safety glasses are required for use in laboratories; students are responsible for purchasing these items (approximate cost is \$25).

**Prerequisite:** BIO130H1, (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1

**Exclusion:** BIO240H1, BIO241H1, BIO250Y1, BIO255H1, BIO255Y1. Students who have only completed one of BIO240H1 or BIO241H1 can take BIO230H1 for credit.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BIO255H1 - Cell and Molecular Biology with Advanced Laboratory

**Hours:** 36L/33P

The genome is the "book of life," providing instructions to construct an organism. This course introduces genome biology and explores how the building blocks of life are networked into functioning organisms. We will investigate how cells perceive internal and external cues, how gene expression is shaped by this perception, and how these events give rise to tissues, organs, and whole organisms. The Enhanced Laboratory provides the opportunity for greater laboratory skill development in modern investigative techniques and is intended for students interested in conducting their own laboratory research. (Lab Materials Fee: \$50).

**Prerequisite:** BIO130H1, (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1, cGPA 3.0

**Exclusion:** BIO230H1, BIO240H1, BIO241H1, BIO250Y1, BIO255Y1

**Recommended Preparation:** BCH210H1 (taken concurrently or previously)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BIO260H1 - Concepts in Genetics

**Hours:** 48L/12T

This is a problem based course which discusses classical, molecular, developmental, and population genetics and genomics with emphasis on model organisms for genetic analysis.

**Prerequisite:** BIO230H1/BIO240H1/BIO255H1

**Exclusion:** HMB265H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BIO270H1 - Animal Physiology I

**Hours:** 24L/8P

The main ideas of physiology and the contribution of experimentation to our understanding of life processes. Uses examples from throughout the animal kingdom, and includes the physiology of homeostasis and the endocrine system. Accompanying laboratories reinforce the concepts introduced in lecture and teach relevant techniques. (Lab Materials Fee: \$10).

**Prerequisite:** BIO130H1/BIO150Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BIO271H1 - Animal Physiology II

**Hours:** 24L/8P

The main ideas of physiology and the contribution of experimentation to our understanding of life processes. Uses examples from throughout the animal kingdom, and includes the physiology of the nervous and cardiorespiratory systems. Accompanying laboratories reinforce the concepts introduced in lecture and teach relevant techniques. (Lab Materials Fee: \$10).

**Prerequisite:** BIO270H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## CSB325H1 - Endocrine Physiology

**Hours:** 24L/9T

The regulation of physiological processes by hormones and other signalling molecules in non-human chordates. An integrated genes-to-environment approach is used to examine aspects of hormonal evolution, physiological information flow, behaviour and neuroendocrinology, and xenobiotic endocrine disruptors. Students will have the opportunity to research areas of their own interest via group interaction in a series of tutorial sessions.

**Prerequisite:** BIO270H1, BIO271H1

**Recommended Preparation:** EEB266H1, EEB267H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB327H1 - Extracellular Matrix Dynamics and Associated Pathologies

**Hours:** 36L

Examines the expression, structure and function of the four major classes of ECM macromolecules: collagen, proteoglycans, non-collagenous structural proteins and glycoproteins. In addition to forming elaborate networks that give tissues and organs their unique architectural design and biomechanical properties, ECM molecules act as potent regulators of all cellular activities. Emphasis is placed on the morphoregulatory contribution(s) of ECM molecules to normal and pathological development.

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB328H1 - Developmental Biology

**Hours:** 24L/24P

Basic concepts in developmental biology. Early development of invertebrates and vertebrates will be discussed with emphasis on experimental and molecular analysis of developmental mechanisms. Tutorials focus on the experimental analysis of embryonic development and regeneration, and discuss primary literature of selected topics in developmental biology. (Lab Materials Fee: \$25).

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1, BIO260H1/HMB265H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB329H1 - Stem Cell Biology: Developmental Models and Cell-based Therapeutics

**Hours:** 24L

Stem cells provide the basis for cellular diversity in multicellular organisms and have enormous therapeutic potential in regenerative medicine. The course will introduce students to the differences and similarities between stem cells from different organisms, their roles throughout development and therapeutic potentials.

**Prerequisite:** BIO230H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB330H1 - Techniques in Molecular and Cell Biology

**Hours:** 8L/52P

Laboratory course on molecular and cell biology research techniques used to study genes and proteins. Topics include plasmid cloning, PCR, bioinformatics, gene expression analyses, protein-protein interactions, and protein subcellular localization. (Lab Materials Fee: \$50).

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1, BIO260H1/HMB265H1

**Recommended Preparation:** BCH311H1/CSB349H1/MGY311Y1 taken concurrently

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB331H1 - Advanced Cell Biology I: Cellular Dynamics During Development

**Hours:** 36L

The development of multicellular organisms is dependent on complex cell-cell and cell-matrix dynamics. The course examines the molecules and mechanisms involved and how they act in concert to regulate distinct developmental and physiological events. Emphasis is placed on the experimental approaches and technology used to study the molecular interactions and dynamics that alter structure-function relationships in cells and organisms.

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CJH332H1 - Neurobiology of the Synapse (Formerly CSB332H1)

**Hours:** 24L

Examination of all aspects of the synapse in both the peripheral and central nervous systems of invertebrates and vertebrates. Topics include: synapse formation, synaptic transmission, synaptic plasticity, learning and memory, and neurological disorders.

**Prerequisite:** BIO271H1/PSL300H1

**Exclusion:** CSB332H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB340H1 - Plant Development

**Hours:** 24L

Plant developmental genetics at the molecular, cellular and organismal level, generation and use of genomic resources in plant model organisms. Questions address the genetic dissection of plant embryo and meristem development, plant stem cell specification and tissue patterning. Genomic approaches applicable to plant biotechnology are also covered.

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1, BIO260H1/(HMB265H1 with a minimum grade of 73%)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB343H1 - Animal Energetics

**Hours:** 24L

Animal structure and function, at all levels from molecule to whole animal, are dependent on energy. This course describes how the supply, consumption, transformation, exchange and storage of energy can facilitate, constrain and limit animal function. Emphasis is placed on systems level physiological function and whole animal performance.

**Prerequisite:** (BIO270H1, BIO271H1)/(PSL300H1, PSL301H1)

**Recommended Preparation:** BCH210H1/BCH242Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB345H1 - Introductory Biology of Sleep

**Hours:** 24L

An introduction to the regulation of sleep-wake states and the functions of sleep - why and how animals sleep. Integrates all levels of biological organization, including molecular biology, cell biology, systems physiology, control theory, behaviour and evolution, with comparisons across phyla.

**Prerequisite:** (BIO270H1, BIO271H1)/(PSL300H1, PSL301H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB346H1 - Neurobiology of Respiration

**Hours:** 24L/12T

Integrated control of cardio-respiratory physiology and metabolism in mammals. Topics include exercise, diving, sleep and hibernation.

**Prerequisite:** (BIO270H1, BIO271H1)/(PSL300H1, PSL301H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB348H1 - Laboratory in Comparative Animal Physiology

**Hours:** 12L/36P

Experimental approaches to understanding the regulation of physiological functions in vertebrates and invertebrates. Emphasis will be directed towards examining the fundamental characteristics humans share with all animal life and also the physiological adaptations that have permitted species to exploit alternative environmental niches. (Lab Materials Fee: \$50)

**Prerequisite:** BIO270H1, BIO271H1

**Exclusion:** PSL372H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB349H1 - Eukaryotic Gene Expression

**Hours:** 30L/18T

Genome structure and the regulation of gene expression in eukaryotic cells. Topics include gene duplication, repetitive DNA, transcription, gene silencing and regulation, expression profiling, and nuclear reprogramming. Tutorials emphasize problem based learning exercises that relate to recent advances in the broad field of eukaryotic gene expression.

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1, BIO260H1/HMB265H1

**Exclusion:** MGY311Y1, MGY420H1

**Recommended Preparation:** BCH210H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB350H1 - Laboratory in Molecular Plant Biology

**Hours:** 24L/36P

Laboratory methods used in plant molecular biology research. Topics include vector construction, plant transformations, PCR, DNA blots, high-throughput screens, genetic mapping, and bioinformatic analyses. (Lab Materials Fee: \$50). Lab coat and safety glasses are required for use in laboratories; students are responsible for purchasing these items (approximate cost is \$25).

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1

**Recommended Preparation:** BIO251H1 or higher level plant biology course; BCH311H1/CSB349H1/MGY311Y1 concurrently

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB351Y1 - Introductory Virology

**Hours:** 48L/48T

An introduction to basic and medical virology. What you should know about viruses and the diseases they cause. Tutorials are optional.

**Prerequisite:** BIO230H1/BIO240H1/BIO241H1/BIO255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB352H1 - Bioinformatic Methods

**Hours:** 6L/18P

Use of available programs for analyzing biological data. This is an introductory course with a strong emphasis on hands-on methods. Some theory is introduced, but the main focus is on using extant bioinformatics tools to analyze data and generate biological hypotheses.

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1, BIO260H1/HMB265H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB353H1 - Plant-Microorganism Interactions and Plant Immunity

**Hours:** 24L

Plants have co-evolved with microbes ever since their first appearance on land, resulting in sophisticated strategies of pathogenicity, symbiosis, commensalisms and mutualism. This course presents an overview of these strategies with examples of bacteria, fungi, oomycetes and viruses that have evolved intimate associations with plants, and discusses plant immune systems.

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1

**Exclusion:** CSB452H1

**Recommended Preparation:** BIO251H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB397Y0 - Research Abroad in Cell & Systems Biology

**Hours:** TBA

An independent research project conducted in a cell biology, developmental biology, plant biology, neurophysiology, or systems biology research lab in an approved partner university. The laboratory research is supervised by a faculty member at the partner institution. Not eligible for CR/NCR option.

**Prerequisite:** BIO230H1/BIO255H1/BIO271H1 with a minimum grade of 73%; permission of the CSB Undergraduate Associate Chair

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## CSB426H1 - Physiology of Stress and Reproduction

**Hours:** 12L/24S

Students will gain an integrated understanding of how organismal and cellular stress affects the process of reproduction. The focus will be primarily on chordates and will examine genetic, cellular, organismal, behavioural, and social levels of interaction.

**Prerequisite:** Minimum grade of 73% in CSB325H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB427H1 - Drosophila as a Model in Cancer Research

**Hours:** 12L/12T/12S

Use of the genetic model organism *Drosophila* in biomedical research with specific emphasis on cancer research. Students will read, discuss and present classical papers and current literature in the field to enhance their ability to critically evaluate the primary scientific literature.

**Prerequisite:** BIO260H1/HMB265H1, two of CSB328H1/CSB331H1/CSB349H1/MGY350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB428H1 - Advanced Cell Biology II: Cell Polarity and Cytoskeletal Dynamics

**Hours:** 12L/12T/12S

This advanced course covers cell polarity and cytoskeletal dynamics emphasizing current literature. For each topic, the course examines (1) the proteins involved, (2) their interactions and regulation, and (3) how they organize specific cellular structures. The coordination of these complexes required for orchestrating complex cellular processes are addressed.

**Prerequisite:** Minimum grade of 73% in BCH311H1/CSB349H1/MGY311Y1, minimum grade of 73% in CSB328H1/CSB331H1/CSB340H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB429H1 - Germ Cell Biology

**Hours:** 12L/12T/12S

This course will discuss the genetic and cell biological aspects of the development of gametes, gonads, and sex related traits in animals, including invertebrates and vertebrates. The course consists of lectures and student seminars, and is based on the discussion of primary scientific literature. Not recommended for students with fewer than 14 FCE's.

**Prerequisite:** Minimum grade of 77% in CSB328H1/CSB340H1/CSB349H1/MGY311Y1/MGY312H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB430H1 - Neurogenesis

**Hours:** 24L/12T

An examination of the molecular and cellular basis of neurogenesis in development and adult nervous systems. Experimental evidence from recent studies in selected invertebrate and vertebrate model systems will be discussed. Topics include neural stem cells, regional specialization of neurogenesis, neuronal and glial differentiation, extrinsic regulation of neurogenesis, adult neurogenesis, and the evolution of neurogenesis. Students are expected to have a basic knowledge of molecular genetics, developmental biology and/or neuroanatomy. Lectures will be complemented by student directed seminars that focus on specialized research studies published in leading scientific journals.

**Prerequisite:** BIO260H1/HMB265H1, CSB328H1/CSB349H1/(HMB200H1, HMB320H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB431H1 - Evolution and Development: Gastrulation

**Hours:** 12L/12T/12S

Gastrulation is used to examine the molecular and cellular mechanisms of a major morphogenetic process and its evolutionary modifications. This course includes small group discussions and presentations. Controversial issues presented in the lectures are debated.

**Prerequisite:** CSB328H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB432H1 - Advanced Topics in Cellular Neurophysiology

**Hours:** 12L/24S

This course examines cellular neurophysiological processes in the developing and mature nervous systems with a focus on: (1) understanding modern techniques used in neurophysiological research; and (2) interpreting the results from neurophysiological peer-reviewed manuscripts. This course is interactive and requires students to contribute actively during lectures and seminars, including conducting a group presentation.

**Prerequisite:** CJH332H1/CSB332H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB435H1 - Regulatory Networks and Systems in Molecular Biology

**Hours:** 24L

This course will expose students to several of the best-understood regulatory networks in molecular biology, as well as recent technological and methodological developments. Emphasis is on the mechanistic basis for these systems, methods and models for quantitative analysis of regulatory networks and the biological logic they encode.

**Prerequisite:** BCH311H1/CSB349H1/MGY311Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB443H1 - Homeostasis

**Hours:** 6L/30S

This integrative physiology course focuses on active and passive mechanisms maintaining cellular and organismal function. Students debate current research and controversies in homeostasis, allostasis and performance. Emphasis is on critical evaluation of concepts, assumptions, data and interpretations. This course is interactive, and students are expected to contribute to class activities.

**Prerequisite:** CJH332H1/CSB325H1/CSB332H1/CSB343H1/CSB346H1 or permission of instructor

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB445H1 - Topics in Sleep Research

**Hours:** 6L/30S

Covers theories on the biological function of sleep-wake states. By means of in-depth study of primary research papers, the course focuses on sleep-related function at all levels of biological organization - from molecular biology through systems physiology to behaviour and evolutionary ecology. This course emphasizes student participation in seminar discussion and debates.

**Prerequisite:** (BIO270H1, BIO271H1)/(PSL300H1, PSL301H1)

**Recommended Preparation:** CJH332H1/CSB332H1/CSB345H1/PSY397H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB447H1 - Living Without Oxygen: Microbes to Mammals

**Hours:** 18L/18S

In-depth examination of the unique cellular adaptations of different organisms and tissues to survival in low oxygen environments. Cellular, physiological and biochemical strategies, and systemic and whole organism responses will be investigated to uncover broad-ranging common strategies employed by diverse organisms to live without oxygen and in other stressful environments.

**Prerequisite:** (BIO270H1, BIO271H1)/(PSL300H1, PSL301H1)

**Exclusion:** CSB347H1, NUS348H0

**Recommended Preparation:** BCH210H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB450H1 - Proteomics in Systems Biology

**Hours:** 24L

A discussion on current proteomic approaches to understand biological processes. The role of mass spectrometry, gel electrophoresis, protein-protein interaction and structural biology in understanding how proteins function in pathways and interaction networks will be discussed.

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1, BCH210H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB452H1 - Molecular Plant-Microorganism Interactions

**Hours:** 24L

This course explores the molecular strategies that microbes and plants have evolved to live with each other. The variety of strategies will be summarized with emphasis on the molecular mechanisms of pathogenic relationships.

**Prerequisite:** BCH311H1/CSB349H1/MGY311Y1

**Recommended Preparation:** CSB353H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB458H1 - Epigenetics

**Hours:** 36S

A seminar course exploring non-Mendelian phenomena in plants, fungi and animals that reveal aspects of genome organization and regulation that may provide insight into genome function and evolution.

**Prerequisite:** BIO260H1/HMB265H1, CSB349H1/MGY311Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB459H1 - Plant Molecular Biology and Biotechnology

**Hours:** 24L

This course introduces students to major features of gene expression and signal transduction in plants. Topics include strategies for generating transgenic plants and regulating gene expression, as well as the importance of signal transduction in plant growth and survival. How plants sense and respond at the molecular level to environmental stresses such as drought, salinity, cold and disease will be discussed. The application of this basic scientific information in biotechnological strategies for improving agronomic traits will also be addressed.

**Prerequisite:** BCH311H1/CSB349H1/MGY311Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB460H1 - Plant Signal Transduction

**Hours:** 24L

Plant development, ecological adaptation and crop plant productivity depend on the sophisticated potential of plants to sense and compute signals to regulate their responses. An arsenal of genetic and genomic tools is employed to elucidate these plant signal transduction pathways. Examples from the original literature will be used to introduce general concepts of plant signal transduction, molecular biology and genomics and their application in understanding and influencing plant growth and development.

**Prerequisite:** BCH311H1/CSB349H1/MGY311Y1 or permission of instructor

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB472H1 - Computational Genomics and Bioinformatics

**Hours:** 24L/12T

Computational analyses of DNA and RNA expression data. Understanding biological databases, sequence alignment, sequence annotation, gene prediction, computational analysis of function, motif analysis, phylogenetic analysis, and gene expression profiling analysis. Applied, theoretical and statistical issues will be addressed.

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1

**Recommended Preparation:** BIO260H1/HMB265H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB473H1 - Chemical Genomics

**Hours:** 24L

This course surveys the field of Chemical Genomics, focusing on the analysis of biological problems using chemical approaches. Topics covered include chemical genetics, combinatorial chemistry and combinatorial strategies in molecular biology. Examines both the underlying biological and chemical concepts; however, the focus is primarily biological.

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1, BIO260H1/HMB265H1, CHM247H1/CHM249H1/any 300+ CHM course

**Recommended Preparation:** BCH210H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB474H1 - Methods in Genomics and Proteomics

**Hours:** 48P

This is a hands-on, laboratory based course offered through the Centre for the Analysis of Genome Evolution and Function (CAGEF). It will teach students how to produce and analyze data that are central to the fields of genomics and proteomics. Techniques taught include DNA and RNA extraction, PCR, DNA sequencing, quantitative PCR, transcript profiling using microarrays, 2D-gel proteome analysis, and associated bioinformatics analyses. (Lab Materials Fee: \$50). A lab coat is required for use in laboratories; students are responsible for purchasing this (approximate cost is \$16).

**Prerequisite:** BIO260H1/HMB265H1, BIO255H1/CSB330H1/CSB350H1 or by permission of the instructor

**Recommended Preparation:** BCH311H1/CSB349H1/MGY311Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB475H1 - Plant Metabolomics

**Hours:** 24L

This course introduces students to major features of plant metabolism. The content covers plant physiology, natural product chemistry, genetics, molecular biology, and genomics. Topics also include strategies for designing how we modulate metabolic pathways and how we utilize plants for biotechnology through metabolic engineering.

**Prerequisite:** BCH311H1/CSB349H1/MGY311Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB483H1 - Seminar in Development

**Hours:** 24S

Seminars analyzing major concepts in developmental biology from quantitative, physics-based and molecular perspectives.

**Prerequisite:** CSB328H1/CSB340H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB490H1 - Team-Based Learning: Current Topics in Cell and Molecular Biology

**Hours:** 8L/16S

A team-based learning course with emphasis on questions in the fields of protein biochemistry, synthetic biology, and the evolution of proteins and networks of protein-protein interactions. Lectures and seminars will focus on current research topics within these fields and will provide the background knowledge for students to work in teams to explore the primary research literature, and for each team to develop a formal research proposal. For details on this year's content, please go to [www.csb.utoronto.ca/undergraduate/courses/400](http://www.csb.utoronto.ca/undergraduate/courses/400).

**Prerequisite:** BIO260H1/HMB265H1, CSB330H1/CSB349H1/CSB352H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB491H1 - Team-Based Research: Research in Cell and Molecular Biology

**Hours:** TBA

CSB491H1 will build on the team-based learning approaches learned in CSB490H1 to develop the laboratory and team-work skills needed to succeed in the workplace, particularly the multi-disciplinary environment that characterizes modern biological research. CSB491H1 is a team-based research course with emphasis on questions in the fields of protein biochemistry, enzymology, structural biology, metabolic engineering and protein-protein interaction. Students will form semester-long laboratory research teams to evaluate hypotheses that were developed into a research proposal in CSB490H1.

**Prerequisite:** CSB490H1 with a minimum grade of 77% and approval of the instructor

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB492H1 - Advanced Topics in Cell and Systems Biology

**Hours:** 24L

This advanced course covers topics in cell and systems biology at all levels of biological organization. Students learn about the wide array of state-of-the-art molecular, genomic, proteomic, cell biological, imaging, physiological and computational tools and methods that researchers use to study the behaviour of cells.

**Prerequisite:** CSB325H1/CSB349H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB497H1 - Independent Research in Cell and Systems Biology I

**Hours:** TBA

An original research project (a literature review alone is not sufficient) requiring the prior consent of a member of the Department to supervise the project. The topic is to be mutually agreed upon by the student and supervisor. They must arrange the time, place, and provision of any materials and submit to the Undergraduate Office a signed form of agreement outlining details prior to being enrolled. In the Fall or Winter sessions, a commitment of 8-10 hours per week is expected for research and related course activities. In the Summer Session, the number of hours doubles (16-20 per week) as the length of the term is halved. Many students spend more than this amount of time as they become immersed in their project. This course is normally open only to fourth year students with adequate background in Cell and Systems Biology. Course requirements include a final report, and either an oral presentation (Summer and Fall sessions) or a poster presentation (Winter session). Monthly workshops are scheduled and highly recommended. Details for enrollment are available at <http://csb.utoronto.ca/undergraduate-studies/undergraduate-courses/under...> (Lab Materials Fee: \$25). Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CSB498Y1 - Independent Research in Cell and Systems Biology I

**Hours:** TBA

An original research project (a literature review alone is not sufficient) requiring the prior consent of a member of the Department to supervise the project. The topic is to be mutually agreed upon by the student and supervisor. They must arrange the time, place, and provision of any materials and submit to the Undergraduate Office a signed form of agreement outlining details prior to being enrolled. In the Fall/Winter session, a commitment of 8-10 hours per week is expected for research and related course activities. In the Summer session, the number of hours doubles (16-20 per week) as the length of the term is halved. This course is normally open only to fourth year students with adequate background in Cell and Systems Biology. Course requirements include a final report and either an oral presentation (Summer session) or a poster presentation (Fall/Winter session). Monthly workshops are scheduled and highly recommended. Details for enrollment are available at <http://csb.utoronto.ca/undergraduate-studies/undergraduate-courses/under...> (Lab Materials Fee: \$50). Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **CSB499Y1 - Independent Research in Cell and Systems Biology II**

**Hours:** TBA

Allows students to do a second independent project. Operates in the same manner as CSB497H1/CSB498Y1. (Lab Materials Fee: \$50). Not eligible for CR/NCR option.

**Prerequisite:** CSB497H1/CSB498Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# Centre for Medieval Studies

## Faculty List

### Professor and Director

S. Akbari, BA, MA, MPH, PhD

## Introduction

The Centre for Medieval Studies provides a course in the thousand-year period from the Fall of Rome to the Fall of Constantinople, and beyond. Students can expect to cross the disciplinary boundaries of history, art, literature, philosophy, religion, and history of science, focusing not only on Europe but on the broader Mediterranean and North Sea regions. The course opens up the Centre for the first time to undergraduate students and provides a valuable humanities breadth experience for students who want to experience the culture, poetry, and art of the Middle Ages, as well as medieval music and drama performance and manuscript studies.

## Centre for Medieval Studies Courses

### MST201H1 - Getting Medieval: Language and Literature

**Hours:** 24L/12T

Introduction to the sound, sight, and touch of the distant past, telling the story of the Middle Ages through objects from animal skin parchment to enameled icon. Lectures are complemented by hands-on learning in weekly tutorials featuring text- and narrative-oriented digital methods, along with medieval drama and music performance.

**Exclusion:** MST200Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### MST202H1 - Getting Medieval: Place and Space

**Hours:** 24L/12T

From world maps to tales of pilgrimage, trade, and exploration, from imagined other worlds to historical cityscapes, this course tells the story of the Middle Ages through the places and spaces that defined medieval culture. Lectures are complemented by hands-on learning in weekly tutorials featuring network visualization and digital mapping.

**Exclusion:** MST200Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### MST400Y1 - Languages and Methods for Medieval Studies

**Hours:** TBA

Undergraduate students may enrol with permission of the Instructor.

**Prerequisite:** Previous training in Latin is required.

### MST404H1 - Languages in Medieval Studies: Palaeography I

**Hours:** 24L/12T

The course is designed as a practicum in the transcription of scripts from the late Roman Empire to the twelfth century. The goal is to offer students the opportunity to participate in a graduate course in manuscript studies where comparable offerings at the undergraduate level are unavailable.

**Prerequisite:** Level One Latin pass; permission of the instructor; at least 8 FCEs

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **MST405H1 - Languages in Medieval Studies: Palaeography II**

**Hours:** 24L/12T

Study of Latin Scripts from 1200 to 1600, with attention to background of Gothic writing, physical characteristics of manuscripts, library practices and bibliographical resources. The goal is to offer students the opportunity to participate in a graduate course in manuscript studies where comparable offerings at the undergraduate level are unavailable.

**Prerequisite:** Level One Latin pass; permission of the instructor; at least 8 FCEs

**Breadth Requirements:** Creative and Cultural Representations (1)

## **MST410H1 - Languages for Medieval Studies: Old Norse**

**Hours:** 24L

Introduction to Old Norse language and literature, focusing on basic instruction in Old Norse grammar and short readings from poetic and prose texts. The goal is to offer students the opportunity to participate in a graduate course in medieval languages where comparable offerings at the undergraduate level are unavailable.

**Prerequisite:** Permission of the instructor; at least 8 FCEs

**Recommended Preparation:** Previous language study

**Breadth Requirements:** Creative and Cultural Representations (1)

# Chemistry

## Faculty List

### University Professor Emeritus

J.B. Jones, B Sc, Ph D, D Phil, FRSC, FCIC

### Professors Emeriti

I.G. Csizmadia, Dip Eng, M Sc, Ph D  
A.G. Harrison, M Sc, Ph D, FCIC  
R.A. McClelland, B Sc, Ph D, FRSC (University of Toronto Scarborough)  
S. McLean, B Sc, Ph D, FCIC  
M. Menzinger, Dip Eng, M Sc, Ph D (SM)  
W.F. Reynolds, M Sc, Ph D  
E.A. Robinson, B Sc, Ph D, D Sc (University of Toronto Mississauga)  
I.W.J. Still, B Sc, Ph D, D Sc (University of Toronto Mississauga)  
T.T. Tidwell, B Sc, AM, Ph D, FRSC (University of Toronto Scarborough)  
J.P. Valteau, MA, Ph D (I)  
S.G. Whittington, MA, Ph D (T)

### Senior Lecturers Emeriti

S. Skonieczny, D Sc, Ph D  
H. O. Ohorodnyk, M Sc

### Professor and Chair of the Department

R.A. Batey, BA, Ph D

### Associate Professor and Associate Chair (Graduate)

J.G. Murphy, B Sc, Ph D

### Associate Professor and Associate Chair (Undergraduate)

R.A. Jockusch, BA, Ph D

### University Professors

P.W. Brumer, B Sc, Ph D, FRSC  
E. Kumacheva, M Sc, Ph D, FRSC  
M. Lautens, B Sc, Ph D, OC, FCIC, FRSC (T)  
R.J.D. Miller, B Sc, Ph D, FRSC, FCIC  
G.A. Ozin, B Sc, D Phil, FRSC, FCIC  
J.C. Polanyi, M Sc, Ph D, D Sc, FRS, FRSC, FRSEd  
M.A. Winnik, BA, Ph D, FRSC, FCIC

### Professors

J.P. Abbatt, B Sc, Ph D, FRSC  
J. Chin, M Sc, Ph D  
D.J. Donaldson, B Sc, Ph D (University of Toronto Scarborough)  
M.C. Goh, BS, Ph D (U)  
P. Gunning, B Sc, Ph D (University of Toronto Mississauga)  
R.E. Kapral, B Sc, Ph D, FRSC  
R.H. Kluger, AM, Ph D, FCIC, FRSC  
H.B. Kraatz, Ph D (University of Toronto Scarborough)  
U.J. Krull, B Sc, Ph D, FCIC (University of Toronto Mississauga)  
S.A. Mabury, BS, Ph D (U), FRSC  
P.M. Macdonald, M Sc, Ph D (University of Toronto Mississauga)  
R.H. Morris, B Sc, Ph D, FRSC, FCIC  
M. Nitz, B Sc, Ph D  
R.S. Prosser, M Sc, Ph D (University of Toronto Mississauga)  
J.M. Schofield, BA, Ph D  
A.J. Simpson, B Sc, Ph D (University of Toronto Scarborough)  
M.J. Simpson, B Sc, Ph D (University of Toronto Scarborough)  
D.W. Stephan, B Sc, Ph D, FCIC, FRSC, FRSC(UK), FRS  
M. Thompson, B Sc, Ph D, D Sc, FRSC, FCIC  
G. Walker, BA, Ph D  
F. Wania, B Sc, Ph D (University of Toronto Scarborough)

A. Wheeler, B Sc, Ph D  
G.A. Woolley, B Sc, Ph D  
A. Yudin, BS, Ph D  
D.B. Zamble, B Sc, Ph D

### Associate Professors

A. Dhirani, M Sc, Ph D  
U. Fekl, M Sc, Ph D (University of Toronto Mississauga)  
S.J. Fraser, BA, Ph D (University of Toronto Scarborough)  
V. Kanelis, B Sc, Ph D (University of Toronto Mississauga)  
K. Kerman, M Sc, Ph D (University of Toronto Scarborough)  
D.R. McMillen, MA Sc, Ph D (University of Toronto Mississauga)  
D.S. Seferos, B Sc, Ph D  
D. Segal, B Sc, Ph D  
J.A. Shin, AB, Ph D (University of Toronto Mississauga)  
D. Song, B Sc, Ph D  
M.S. Taylor, B Sc, Ph D  
X. Zhang, M Sc, Ph D (University of Toronto Scarborough)

### Assistant Professors

A.F. Izmaylov, M Sc, Ph D (University of Toronto Scarborough)  
H. Peng, B Sc, Ph D  
S. Rousseaux, B Sc, Ph D  
R. Sullan, B Sc, Ph D (University of Toronto Scarborough)  
M. Wilson, M Sc, Ph D

### Associate Professors, Teaching Stream

C.S. Browning, M Sc, Ph D (SM)  
S. Dalili, M Sc, Ph D, (University of Toronto Scarborough)  
A.P. Dicks, B Sc, Ph D (SM)  
A. Hadzovic, Ph D. (University of Toronto Scarborough)  
C.M. Kutas, B Sc, MA, Ph D  
D. F. McIntosh, B Sc, Ph D  
L. Mikhaylichenko, M Sc, Ph D, (University of Toronto Scarborough)  
P.A.E. Piuino, M Sc, Ph D, (University of Toronto Mississauga)  
J. C. Poë, ARCS, M Sc, DIC, FCIC (University of Toronto Mississauga)  
W. Restivo, B Sc, (University of Toronto Scarborough)  
E. Sauer, B Sc, Ph D, (University of Toronto Scarborough)  
D.C. Stone, B Sc, Ph D

### Assistant Professors, Teaching Stream

J. D'eon, B Sc, Ph D  
B. Morra, B Sc, Ph D

### Lecturers

K. Quinlan, B Sc, Ph D  
M. Staikova, M Sc, Ph D  
J. Strautmanis, Ph D (University of Toronto Mississauga)

## Introduction

Chemistry is a challenging intellectual pursuit and a dominant force in shaping our civilization. Chemistry places strong emphasis on an understanding of the structures and properties of individual atoms and molecules, and on using this understanding to interpret and predict the behaviour of matter. Many of the concepts of physics, and the methods of mathematics, are basic to chemistry. Chemistry is of fundamental importance to many other subjects including astrophysics, biological sciences, environmental science, geology, materials science, and medical sciences. These and other aspects of the subject are reflected in the courses offered, and the programs recommended by the Department.

The Department has made extensive changes to its course and program offerings in the last few years. These changes included a revision of first year courses, substantial modifications to later-year courses, and the introduction of updated specialist programs in Biological Chemistry, Materials Chemistry, Environmental

Chemistry, and Synthetic & Catalytic Chemistry. Opportunity also exists to undertake a Nanoscience minor in collaboration with the National University of Singapore.

Students can choose between two first year options according to their intended area of specialization.

CHM151Y1 is the course that is strongly recommended for students who will be following one of the specialist programs involving chemistry, including Biological Chemistry and Environmental Chemistry or who will be including a substantial amount of chemistry in their degree (such as those following a chemistry major program). CHM151Y1 features a unique Course Community which significantly supports and enhances the student learning experience.

The combination of CHM135H1 and CHM136H1 is recommended for students who intend to take programs in the Life or Health Sciences that do not require a large amount of chemistry.

The outlines of these first year courses, together with those for later-year offerings, are shown in this Calendar. More detailed information is available from the Department, and is posted at [www.chem.utoronto.ca/undergrad/courseinfo.php](http://www.chem.utoronto.ca/undergrad/courseinfo.php).

Incoming first year students may find more information about the first year chemistry courses at [http://www.chem.utoronto.ca/undergrad/incoming\\_students.php](http://www.chem.utoronto.ca/undergrad/incoming_students.php). The self-assessment test can be a useful tool to measure their understanding of fundamental chemistry concepts from high school.

Students who are following programs that contain a substantial number of chemistry courses are strongly advised to take courses in the proper year (i.e. 200-series in second year, etc.). Following the correct sequence will enhance the level and balance of preparation for all later year courses, and timetable conflicts will be avoided.

Students whose current programs may be affected by the introduction of new or revised chemistry courses are advised to consult the Department at the earliest possible opportunity.

Students requiring more information about Chemistry programs and courses are invited to visit or phone the Undergraduate Office, Lash Miller Chemical Laboratories, Room 151 (416-978-6033).

## Lab Materials Fee

Some courses in this department have a mandatory Lab Materials Fee to cover non-reusable materials. The fee for each such course is given below in the course description, and will be included on the student's invoice on ACORN.

## First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Chemistry Programs

### Biological Chemistry Specialist (Science Program)

#### Completion Requirements:

Consult Professor G. A. Woolley, Department of Chemistry.

Biological Chemistry examines Nature at the molecular level by using a combination of synthetic, inorganic, analytical and physical chemistry as well as the tools of molecular biology and biochemistry. This program provides the setting to understand the chemical reactions and interactions that occur in biological processes, as well as how chemical strategies can be used to control these systems. This program includes sufficient flexibility to allow focus in areas such as bioinorganic, bioorganic, biophysical or medicinal chemistry. Students graduating from this program will be prepared for career paths in the biotechnology, biomedical and pharmaceutical sectors, as well as for research and teaching in related areas of chemistry and biology. This program is accredited by the Canadian Society for Chemistry.

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required courses will be eligible to enrol. Consult the Arts & Science Program Enrolment web site at <http://www.artsci.utoronto.ca/current/programfor details>.

Courses for admission: CHM135H1/CHM139H1 and CHM136H1/CHM138H1 or CHM151Y1 with a minimum mark of 63%.

(14 full courses or their equivalent, including at least three 400-series courses)

First Year: BIO120H1, BIO130H1; CHM151Y1 (strongly recommended)/(CHM135H1/CHM139H1, CHM136H1/CHM138H1); (MAT135H1, MAT136H1)/ MAT137Y1

First or Second Year: (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

Second and Higher Years:

1. BCH210H1; BIO230H1/BIO250Y1; CHM217H1, (CHM220H1/CHM222H1, CHM221H1/CHM223H1)/CHM225Y1, CHM238Y1, (CHM249H1 strongly recommended)/CHM247H1
2. CHM347H1, CHM348H1, CHM379H1.
3. At least 1.0 credit from the following: CHM317H1, CHM327H1, CHM338H1, CHM343H1, CHM410H1, CHM499Y1
4. Further 300/400-series courses in BCH or CHM, including CHM437H1, CHM447H1, and CHM479H1 to make a total of 14 full courses. CSB450H1 is also acceptable.

### Chemical Physics Specialist (Science Program)

#### Enrolment Requirements:

CHM135H1/CHM139H1 and CHM136H1/CHM138H1 or CHM151Y1 with a minimum mark of 63%

## Completion Requirements:

Consult Professor J. Schofield, Department of Chemistry.

Chemical Physics aims to explain structure and dynamics of molecular and bulk systems in terms of atomic and molecular interactions. Sub-disciplines and specialized topics include reaction dynamics, spectroscopy, optical control of molecular processes, nanoscale science, surface chemistry, theoretical and experimental studies of soft systems (polymers, liquids, biological systems), quantum control and quantum information sciences. The Chemical Physics program will provide students with a solid grounding in physical chemistry, and will prepare students for careers in experimental and theoretical physical sciences, in academia or in research development for companies.

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required courses will be eligible to enrol. Consult the Arts & Science Program Enrolment web site at <http://www.artsci.utoronto.ca/current/programfor> details.

Courses for admission: CHM135H1/CHM139H1 and CHM136H1/CHM138H1 or CHM151Y1 with a minimum mark of 63%.

(14 full courses or their equivalent, including at least 1.5 400-series courses)

First Year: (CHM151Y1 strongly recommended)/(CHM135H1/CHM139H1, CHM136H1/CHM138H1), (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1; (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

Higher Years:

1. APM346H1; (CHM222H1, CHM223H1)/CHM225Y1, CHM326H1, CHM327H1, CHM328H1; MAT223H1/MAT240H1, MAT235Y1/MAT237Y1, MAT244H1, MAT334H1; PHY250H1, PHY254H1, PHY354H1, PHY350H1; CHM423H1/PHY356H1
2. Two full course equivalents from CHM217H1, CHM238Y1, (CHM249H1 strongly recommended)/CHM247H1, CHM310H1, CHM317H1, CHM338H1, CHM348H1, CHM415H1
3. Further 400-series half-courses in CHM/PHY to make a total of 14 full courses

## Chemistry Specialist (Science Program)

### Completion Requirements:

Consult Associate Chair, Undergraduate Studies, Department of Chemistry.

The Chemistry Specialist Program provides a broad coverage of the core areas of chemistry together with appropriate courses in mathematics and physics during the first three years, and allows students to follow a particular area of interest or a more general program in fourth year. The program is suitable for professional work in any area of chemistry and for entry into graduate school to continue work in any of the sub-fields of chemistry, provided that appropriate options are chosen in fourth year. This program is accredited by the Canadian Society for Chemistry.

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required courses will be eligible to enrol. Consult the Arts & Science Program Enrolment web site at <http://www.artsci.utoronto.ca/current/programfor> details.

Courses for admission: CHM135H1/CHM139H1 and CHM136H1/CHM138H1 or CHM151Y1 with a minimum mark of 63%.

(14 full courses or their equivalent, including at least three 400-series courses)

First Year: (CHM151Y1 strongly recommended)/(CHM135H1/CHM139H1, CHM136H1/CHM138H1); (MAT135H1, MAT136H1)/MAT137Y1; (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

Second Year: CHM217H1, (CHM220H1/CHM222H1, CHM221H1/CHM223H1)/CHM225Y1, CHM238Y1, CHM249H1; MAT235Y1/MAT237Y1

Third and Fourth Years:

1. BCH210H1, CHM326H1/CHM328H1, CHM327H1
2. Further 300/400-level full course equivalents in CHM/MAT/another science, including at least three of CHM317H1, CHM338H1, CHM343H1, CHM379H1, CHM410H1, CHM499Y1 and at least three 400-level CHM full course equivalents to make a total of 14 full courses.

## Environmental Chemistry Specialist (Science Program)

### Completion Requirements:

Consult Professor J. Murphy, Department of Chemistry (416-946-0260 or [jmurphy@chem.utoronto.ca](mailto:jmurphy@chem.utoronto.ca))

Jointly sponsored by the School of the Environment and the Department of Chemistry, this program focuses on analytical theory, instrumentation and methodological aspects of organic and inorganic contaminants in soil, water, air and biological tissues.

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required courses will be eligible to enrol. Consult the Arts & Science Program Enrolment web site at <http://www.artsci.utoronto.ca/current/programfor> details.

Courses for admission: CHM135H1/CHM139H1 and CHM136H1/CHM138H1 or CHM151Y1 with a minimum mark of 63%.

(14 full courses or their equivalent, including at least one 400-series course)

First Year: (BIO120H1, BIO130H1/BIO220H1); CHM151Y1 (strongly recommended)/(CHM135H1/CHM139H1, CHM136H1/CHM138H1); (MAT135H1, MAT136H1)/MAT137Y1

First or Second Year: (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

Second and Higher Years:

1. CHM217H1, (CHM220H1/CHM222H1, CHM221H1/CHM223H1)/CHM225Y1, CHM238Y1, CHM247H1/CHM249H1; (CHM210H1, GGR203H1/GGR314H1); STA220H1/GGR270H1
2. CHM310H1, CHM410H1, CHM415H1; ENV234H1, (ENV221H1, ENV222H1), ENV334H1/ENV341H1/ENV346H1
3. One additional FCE from 300/400-series CHM courses
4. ENV421H1/CHM499Y1/CHM398H0 (in areas relevant to the program with prior approval by the Department).
5. Further courses from any 300/400 series courses with DR=SCI, BR=4 or BR=5 such that the total FCE for the specialist is 14.

## Synthetic & Catalytic Chemistry Specialist (Science Program)

### Completion Requirements:

Consult Professor. R. Batey, Department of Chemistry.

This program focuses on the fundamentals and practical aspects of modern synthetic organic and inorganic chemistry, and the understanding and applications of catalytic reactions. Students will become exposed to extensive green chemistry approaches from both experimental and theoretical perspectives. The program provides preparation for career paths as synthetic / discovery chemists, in the pharmaceutical, biotechnology, biomedical, crop protection, materials and related sectors, or for academic research and teaching positions. This program is accredited by the Canadian Society for Chemistry.

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required courses will be eligible to enrol. Consult the Arts & Science Program Enrolment web site at <http://www.artsci.utoronto.ca/current/program> for details.

Courses for admission: CHM135H1/CHM139H1 and CHM136H1/CHM138H1 or CHM151Y1 with a minimum mark of 63%.

(14 full courses or their equivalent)

First Year: (CHM151Y1 strongly recommended)/(CHM135H1/CHM139H1, CHM136H1/CHM138H1); (MAT135H1, MAT136H1)/MAT137Y1; (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

Second and Higher Years:

1. BCH210H1, CHM217H1, (CHM220H1/CHM222H1, CHM221H1/CHM223H1)/CHM225Y1, CHM238Y1, (CHM249H1 strongly recommended)/CHM247H1; MAT235Y1/MAT237Y1
2. CHM317H1, CHM338H1, CHM342H1, CHM343H1, CHM347H1, CHM348H1.
3. CHM432H1, CHM440H1, CHM441H1, CHM443H1.
4. CHM499Y1 and/or CHM398H0 in areas relevant to the program with prior approval by the Department.
5. Further 300/400-series courses in CHM, including CHM325H1, CHM328H1, CHM379H1, CHM416H1, CHM434H1, CHM437H1, CHM447H1 and CHM479H1 to make a total of 14 full courses.

## Chemistry Major (Science Program)

### Completion Requirements:

Consult Associate Chair, Undergraduate Studies, Department of Chemistry.

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required courses will be eligible to enrol. Consult the Arts & Science Program Enrolment web site at <http://www.artsci.utoronto.ca/current/program> for details.

Courses for admission: CHM135H1/CHM139H1 and CHM136H1/CHM138H1 or CHM151Y1 with a minimum mark of 63%.

(8 full courses or their equivalent, including at least one CHM half course equivalent at the 400-level)

First Year: (CHM151Y1 strongly recommended)/(CHM135H1/CHM139H1, CHM136H1/CHM138H1); (MAT135H1, MAT136H1)/MAT137Y1

Second Year: At least two of CHM217H1, CHM220H1/CHM222H1/CHM225Y1, CHM238Y1, (CHM249H1 strongly recommended)/CHM247H1

Third Year: At least two of CHM317H1, CHM327H1, CHM338H1, CHM343H1, CHM348H1, CHM379H1

Fourth Year: Further 200/300/400-level CHM courses to make a total of seven CHM full course equivalents (CHM299Y1, CHM396Y0, CHM397H0, CHM398H0, CHM398Y0, CHM399Y1 excluded)

## Chemistry Minor (Science Program)

### Completion Requirements:

Consult Associate Chair, Undergraduate Studies, Department of Chemistry.

(4 full courses or their equivalent, including at least one CHM full-course equivalent at the 300+ level)

First Year: CHM151Y1/CHM135H1/CHM139H1, CHM136H1/CHM138H1)

Second Year: At least one of CHM217H1, CHM220H1/CHM222H1/CHM225Y1, CHM238Y1, (CHM249H1 strongly recommended)/CHM247H1

Third Year: At least one of CHM317H1, CHM327H1, CHM338H1, CHM343H1, CHM348H1, CHM379H1

Fourth Year: Further 200/300/400-level CHM courses to make a total of four CHM full course equivalents (CHM299Y1, CHM396Y0, CHM397H0, CHM398H0, CHM398Y0, CHM399Y1 excluded)

## Environmental Chemistry Minor (Science Program)

### Completion Requirements:

Consult Professor J. Murphy, Department of Chemistry

Environmental chemistry is the study of the chemical impacts of humankind's activities on the soil, air, and water. This minor provides a balanced fundamental background in chemistry as well as an introduction to the major issues associated with environmental chemistry.

(4 full courses or their equivalent; must include at least one full-course equivalent at the 300+ level)

1. (CHM135H1/CHM139H1, CHM136H1/CHM138H1)/CHM151Y1
2. One full course equivalent from CHM217H1, CHM220H1/CHM222H1/CHM225Y1, CHM238Y1, CHM247H1/CHM249H1
3. CHM210H1
4. CHM310H1, and any two of CHM317H1, CHM410H1, CHM415H1

## Nanoscience Minor (offered jointly with the National University of Singapore) (Science Program)

### Completion Requirements:

This Type 3 minor program represents a unique opportunity to study chemistry and physics in a different cultural environment. For more information, contact the Undergraduate Office (LM 151, 416-978-6033, [undergrd@chem.utoronto.ca](mailto:undergrd@chem.utoronto.ca)), and the Centre for International Experience (CIE, [www.cie.utoronto.ca](http://www.cie.utoronto.ca)).

(4 full courses or their equivalent, including at least one CHM full-course equivalent at the 300+ level)

1. CHM151Y1/CHM135H1/CHM139H1, (PHY151H1, PHY152H1)/(PHY131H1, PHY132H1)
2. NUS227H0, NUS228H0, NUS328H0, NUS398H0\*
3. Further CHM courses to make a total of four full course equivalents

\*NUS courses must be taken at the National University of Singapore during either the Winter session of second year studies or the Winter session of third year studies.

## Chemistry Courses

### CHM101H1 - The Chemistry and Biology of Organic Molecules: Sex, Drugs and Rock and Roll!

Hours: 30L/6T

An introduction to chemistry and chemical principles for non-scientists, with a focus on the chemistry and biology of organic molecules. The myriad roles these compounds play in our lives are discussed, including their use of pheromones, medicines and weapons, and their effect on colour, taste and smell.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

### CHM135H1 - Chemistry: Physical Properties (Formerly CHM139H1)

Hours: 36L/12T/18P

CHM135H1 and CHM136H1 may be taken in either order, but not in the same session.

Structure of matter, gases, liquids and solids; phase equilibria and phase diagrams; colligative properties; chemical equilibria; electrolyte solutions and electrochemistry; reaction kinetics; introduction to thermodynamics. Recommended for students in life and health science programs that involve a small amount of chemistry. (Lab Materials Fee: \$25).

**Prerequisite:** Chemistry SCH4U, Mathematics MHF4U + MCV4U

**Corequisite:** (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1 recommended, but may be required prerequisite in 2nd year Chemistry courses; PHY131H1, PHY132H1)/(PHY151H1, PHY152H1) recommended

**Exclusion:** CHM139H1, CHM151Y1, CHMA11H3, CHM140Y5, CHM110H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM136H1 - Introductory Organic Chemistry I (Formerly CHM138H1)

**Hours:** 36L/12T/18P

CHM135H1 and CHM136H1 may be taken in either order, but not in the same session.

An introduction to principles of structure and their relation to reactivity of organic molecules: molecular structure, stereochemistry, functional groups, and reactions. Recommended for students in life and health science programs that involve a small amount of chemistry. (Lab Materials Fee: \$25).

**Prerequisite:** Chemistry SCH4U, Mathematics MHF4U + MCV4U  
**Corequisite:** MAT135H1/MAT137Y1/MAT157Y1 recommended, but may be required prerequisite in 2nd year Chemistry courses;(PHY131H1, PHY132H1)/(PHY151H1, PHY152H1) recommended

**Exclusion:** CHM138H1, CHM151Y1, CHM242H5, CHMB41H3

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM151Y1 - Chemistry: The Molecular Science

**Hours:** 72L/24T/35P

An introduction to the major areas of modern chemistry, including organic and biological chemistry; physical chemistry and chemical physics; and inorganic/materials chemistry. The course is intended for students who will be following one of the chemistry specialist programs (including Biological Chemistry and Environmental Chemistry) or who will be including a substantial amount of chemistry in their degree (such as those following a chemistry major program). The combination of CHM151Y1 and CHM249H1 serves as a full year introductory course in organic chemistry with laboratory. (Lab Materials Fee: \$50).

Note: CHM151Y1 has a unique Course Community where the undergraduate experience in chemistry is greatly enhanced through a series of workshops, research seminars, tours, outreach opportunities and social activities. Two hour biweekly Course Community meetings, during laboratory class hours will alternate weeks with the CHM151Y1 lab classes. The lab time is reserved for CHM151Y1 activities every week of each semester.

**Prerequisite:** Chemistry SCH4U, Mathematics MHF4U + MCV4U; Physics SPH4U recommended

**Corequisite:** PHY131H1, PHY132H1)/(PHY151H1, PHY152H1) recommended, but may be required prerequisites in 2nd year chemistry courses; (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Exclusion:** CHM135H1, CHM136H1, CHM138H1, CHM139H1, CHMA10H3, CHMA11H3, CHMB41H3, CHM110H5, CHM120H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM209H1 - Chemistry of Molecular Gastronomy

**Hours:** 24L

Examines the fundamental chemical and physical processes that occur during the manipulation of edible molecules, and the resulting molecular transformations that produce different tastes and textures. Concepts will be considered through the lens of the modern practices of molecular gastronomy. This course is designed for students in humanities or social science programs.

**Exclusion:** CHM135H1/CHM136H1/CHM138H1/CHM139H1/CHM151Y1

**Recommended Preparation:** SCH4U

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM210H1 - Chemistry of Environmental Change

**Hours:** 24L/12T

Examines the fundamental chemical processes of the Earth's natural environment, and changes induced by human activity. Topics relate to the atmosphere: urban air pollution, stratospheric ozone depletion, acid rain; the hydrosphere: water resources and pollution, wastewater analysis; biogeochemistry and inorganic metals in the environment.

**Prerequisite:** CHM135H1/CHM139H1/CHM151Y1,(MAT135H1,MAT136H1)/MAT137Y1

**Exclusion:** ENV235Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM217H1 - Introduction to Analytical Chemistry

**Hours:** 30L/6T/48P

Introduction to the science of chemical measurement, from sampling through analysis to the interpretation of results, including how water, food products, pharmaceuticals, and dietary supplements are analysed for content, quality, and potential contaminants. Also how to interpret experimental measurements, compare results and procedures, and calibrate analytical instrumentation. Through closely integrated lectures, laboratories, and tutorials, this highly practical course introduces a variety of analytical techniques including volumetric methods, potentiometry, uv/visible and infrared spectrophotometry, flame atomic absorption spectrometry, and chromatography. Additional information can be found at <http://www.chem.utoronto.ca/coursenotes/CHM217/>. (Lab Materials Fee: \$25).

**Prerequisite:** (CHM135H1/CHM139H1, CHM136H1/CHM138H1)/CHM151Y1 with a minimum grade of 63%; (MAT135H1, MAT136H1)/MAT137Y1

**Exclusion:** CHM211H5, CHMB16H3

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM220H1 - Physical Chemistry for Life Sciences

**Hours:** 36L/12T

Introduction to thermodynamics; kinetics; phase equilibrium, properties of mixtures, chemical equilibrium, electrochemistry; introduction to quantum mechanics and spectroscopy. This course is recommended for students in life and health science programs that involve a small amount of chemistry. Students enrolled in any chemistry specialist program (including Biological Chemistry and Environmental Chemistry) or who will be including a substantial amount of chemistry in their degree (such as those following a chemistry major program), are strongly encouraged to take CHM222H1 and CHM223H1.

**Prerequisite:** (CHM135H1/CHM139H1, CHM136H1/CHM138H1)/CHM151Y1; (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Corequisite:** Recommended co-requisite: MAT235Y1/MAT237Y1

**Exclusion:** CHM225Y1/CHM222H1, CHMB20H3, JCP221H5/CHM221H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM222H1 - Introduction to Physical Chemistry (formerly CHM225Y1)

**Hours:** 24L/12T

Topics: introductory thermodynamics, first and second law and applications; chemical equilibrium; chemical kinetics; introductory quantum mechanics; spectroscopy. The course is intended for students who will be following one of the chemistry specialist programs (including Biological Chemistry and Environmental Chemistry) or who will be including a substantial amount of chemistry in their degree (such as those following a chemistry major program).

**Prerequisite:** [(CHM135H1/CHM139H1, CHM136H1/CHM138H1)/CHM151Y1 with a minimum grade of 63%], (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1, (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

**Corequisite:** MAT235Y1/MAT237Y1

**Exclusion:** CHM220H1/CHM225Y1, CHMB20H3, CHMB21H3, CHM221H5, JCP221H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM223H1 - Physical Chemistry: The Molecular Viewpoint (formerly CHM221H1)

**Hours:** 24L/12T

A continuation of CHM220H1 or CHM222H1 for students wishing to take some additional material in Physical Chemistry. The course covers topics in quantum mechanics and spectroscopy as well as an introduction to reaction kinetics.

**Prerequisite:** CHM220H1 with a minimum grade of B, or CHM222H1

**Corequisite:** MAT235Y1/MAT237Y1 recommended, but may be required pre-requisite in 3rd year Chemistry courses

**Exclusion:** CHM225Y1/CHM221H1, CHMB21H3

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## NUS227H0 - Science at the Nanoscale

**Hours:** 48L/12T

Students are introduced to fundamental principles of physics and chemistry important to the nanoscale. Some basic physical tools that can be used to explore structures at this length scale are discussed. Linkages between the fundamental sciences and practical applications in nanotechnology are also made.

**Prerequisite:** CHM135H1/CHM139H1/CHM151Y1; (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## NUS228H0 - Principles of Spectroscopy

**Hours:** 36L/12T/39P

Topics discussed include microwave spectroscopy, infrared spectroscopy, Raman spectroscopy, electronic spectroscopy, electron and nuclear spin resonance spectroscopy. The fundamental principles such as energy quantization, rigid rotors and harmonic oscillators are discussed, the techniques and instrumentation are studied, and the practical applications are emphasized.

**Prerequisite:** CHM135H1/CHM139H1/CHM151Y1; (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM238Y1 - Introduction to Inorganic Chemistry

**Hours:** 48L/10T/44P

The first part (with CHM338H1) of a two-year sequence in Inorganic Chemistry, designed to illustrate and systematize the rich variety of structures, physical properties and reactions of compounds of the elements across and down the Periodic Table. Introduction to structure, symmetry and bonding of molecules and lattices; acid-base and redox reactions; d-metal complexes; chemistry of elements of the s and p blocks; inorganic materials and solid state chemistry with applications in advanced technologies. (Lab Materials Fee: \$50).

**Prerequisite:** CHM151Y1/(CHM135H1/CHM139H1, CHM136H1/CHM138H1) with a minimum grade of 63%

**Exclusion:** CHM231H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM247H1 - Introductory Organic Chemistry II

**Hours:** 36L/12T/22P

Reactions of organic compounds. Principles of mechanism, synthesis, and spectroscopy, continuing from CHM138H1. This course is recommended for students in life and health science programs that involve a small amount of chemistry. Students enrolled in any chemistry specialist program (including Biological Chemistry and Environmental Chemistry) or who will be including a substantial amount of chemistry in their degree (such as those following a chemistry major program) are strongly encouraged to take CHM249H1. (Lab Materials Fee: \$25).

**Prerequisite:** (CHM135H1/CHM139H1, CHM136H1/CHM138H1)/CHM151Y1

**Exclusion:** CHM249H1, CHM243H5, CHMB42H3

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM249H1 - Organic Chemistry

**Hours:** 36L/50P

An introductory course in organic chemistry, based around the themes of structure, bonding, reaction mechanism and synthesis. Reactions are discussed with a view to understanding mechanism and how they are useful in the multi-step synthesis of medicinally and industrially important compounds. An introduction to the spectroscopy of organic molecules is also given, as well as discussion of topics relating to the biological behaviour of organic molecules and medicinal chemistry. Students are also introduced to green chemistry approaches from an experimental perspective. This course continues from CHM151Y1 or CHM138H1 and is designed for students enrolled in any chemistry specialist or major program. This course is highly recommended for students in the Biological Chemistry Specialist program. (Lab Materials Fee: \$25).

**Prerequisite:** CHM151Y1/(CHM135H1/CHM139H1, CHM136H1/CHM138H1) with a minimum grade of 63%

**Exclusion:** CHM247H1, CHM243H5, CHMB42H3

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## JSC301H1 - Principles and Practices in Science Education

**Hours:** 24L

Fundamental principles and practices in education and public outreach in the sciences, mathematics, and engineering, including education research, curriculum, teaching, and assessment. Students will learn and apply effective strategies which engage and educate learners at the K-16 and public level. The course assignments include a project and/or placement experience.

**Prerequisite:** At least 8.0 credits, and enrolment in a science, mathematics, or engineering program

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CHM310H1 - Environmental Chemistry

**Hours:** 24L

This course considers carbon-containing molecules in the environment from a variety of perspectives: the carbon cycle, climate change and ocean acidification; fossil fuels and alternative energy sources; and the partitioning and degradation pathways of organic chemicals.

**Prerequisite:** (CHM135H1/CHM139H1, CHM136H1/CHM138H1)/CHM151Y1, (MAT135H1, MAT136H1)/MAT137Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM317H1 - Introduction to Instrumental Methods of Analysis

**Hours:** 24L/48P

Scope of instrumental analytical chemistry; Fourier transform IR absorption spectroscopy; molecular luminescence; emission spectroscopy; mass spectrometry; sensors; gas and high performance liquid chromatography; instrument design principles and applications in industry and the environment. (Lab Materials Fee: \$25).

**Prerequisite:** CHM217H1 with a minimum grade of 63%; (MAT135H1, MAT136H1)/MAT137Y1

**Exclusion:** CHM391H5, CHMC11H3, CHMC16H3

**Recommended Preparation:** (CHM220H1/CHM222H1, CHM221H1/CHM223H1)/CHM225Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM325H1 - Introduction to Inorganic and Polymer Materials Chemistry

**Hours:** 24L

Fashioned to illustrate how inorganic and polymer materials chemistry can be rationally used to synthesize superconductors, metals, semiconductors, ceramics, elastomers, thermoplastics, thermosets and polymer liquid crystals, with properties that can be tailored for applications in a range of advanced technologies. Coverage is fairly broad and is organized to crosscut many aspects of the field.

**Prerequisite:** CHM220H1/CHM222H1/CHM2225Y, CHM238Y1, CHM247H1/CHM249H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM326H1 - Introductory Quantum Mechanics and Spectroscopy

**Hours:** 24L

This course introduces the postulates of quantum mechanics to develop the fundamental framework of quantum theory. A number of exactly soluble problems are treated in detail as examples. Perturbation theory is introduced in the context of understanding many body problems. Various applications to chemical bonding and molecular spectroscopy are covered in detail.

**Prerequisite:** (CHM220H1/CHM222H1, CHM221H1/CHM223H1)/CHM225Y1, MAT235Y1/MAT237Y1

**Exclusion:** JCP321H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM327H1 - Experimental Physical Chemistry

**Hours:** 12L/48P

Students are exposed to experiments to help them experience modern physical chemistry. Labs designed to illustrate physical chemistry principles and practical techniques as well as their real world state of the art applications. The course also involves some lecture material to broaden the laboratory experience. (Lab Materials Fee: \$25).

**Prerequisite:** (CHM220H1/CHM222H1, CHM221H1/CHM223H1)/CHM225Y1 with a minimum grade of 63%

**Corequisite:** Recommended: CHM326H1 or CHM328H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM328H1 - Modern Physical Chemistry

**Hours:** 24L

This course explores the microscopic description of macroscopic phenomena in chemistry. Statistical mechanics is introduced as the bridge between the microscopic and macroscopic views, and applied to a variety of chemical problems including reaction dynamics. More advanced topics in thermodynamics are introduced and discussed as required.

**Prerequisite:** (CHM220H1/CHM222H1, CHM221H1/CHM223H1)/CHM225Y1, MAT235Y1/MAT237Y1

**Exclusion:** JCP322H5, CHMC20H3

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## NUS328H0 - Nanochemistry

**Hours:** 48L/12T

The synthesis, characterisation and application of nanostructures using chemical routes, incorporating various concepts from colloidal chemistry, supramolecular chemistry, polymer chemistry and electrochemistry. Applications of nanostructures such as quantum dots, nanoparticles, nanorods and nanowires in the areas of biosensors, bioimaging, LEDs and photonic crystals are highlighted.

**Corequisite:** NUS227H0

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM338H1 - Intermediate Inorganic Chemistry

**Hours:** 24L/54P

Further study of the structures, physical properties and reactions of compounds and transition metals. Introductions to spectroscopy and structural analysis, reaction mechanisms, d- block organometallic compounds, catalysis, and bioinorganic chemistry. The weekly laboratory demonstrates aspects of transition metal chemistry. (Lab Materials Fee: \$25).

**Prerequisite:** CHM238Y1 with a minimum grade of 63%

**Exclusion:** CHM331H5

**Recommended Preparation:** CHM217H1, CHM247H1/CHM249H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM342H1 - Modern Organic Synthesis

**Hours:** 24L

An overview of the preparation of various classes of organic compounds. Strategies and tactics of synthetic organic chemistry using examples from natural products and pharmaceuticals. C-C bond formation, functional group reactivity, structure, stereochemistry and selectivity.

**Prerequisite:** CHM247H1/CHM249H1

**Exclusion:** CHM345H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM343H1 - Organic Synthesis Techniques

**Hours:** 24L/54P

This laboratory course showcases modern organic synthesis techniques and introduces chemical research principles. It provides excellent preparation for a CHM499Y1 project in organic chemistry. Associated lectures teach theory and problem-solving approaches from a practical perspective and through industrial case studies. Green chemistry decision-making is a central theme of both the lecture and laboratory components. (Lab Materials Fee: \$25).

**Prerequisite:** CHM247H1/CHM249H1 with a minimum grade of 63%

**Exclusion:** CHM393H5

**Recommended Preparation:** CHM342H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM347H1 - Organic Chemistry of Biological Compounds

**Hours:** 24L/12T

An organic chemical approach to the structure and reactions of major classes of biological molecules: carbohydrates, amino acids, peptides and proteins, phosphates, lipids, heterocycles, vitamins, nucleotides and polynucleotides. This is achieved through studies of advanced stereochemistry, chemical modification, reactions and synthesis. In addition to lectures and reading from texts, there will be opportunities for independent written assignments on several of the topics.

**Prerequisite:** CHM247H1/CHM249H1

**Exclusion:** CHM347H5, CHMC47H3

**Recommended Preparation:** CHM217H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM348H1 - Organic Reaction Mechanisms

**Hours:** 24L/26P

Principles and methods of analyzing and predicting organic chemical reactivity: advanced stereochemistry, conformational analysis, molecular orbitals, reaction kinetics, isotope effects, linear free energy relationships, orbital transformations, systematization of mechanisms. The laboratory section is used to illustrate the operation of the principles, including examples of data acquisition for mechanistic analysis and theoretical computations. Regular original reports on methods and outcomes are an important part of the laboratory. (Lab Materials Fee: \$25).

**Prerequisite:** CHM247H1/CHM249H1 with a minimum grade of 63%

**Exclusion:** CHM341H5, CHMC41H3

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM379H1 - Biomolecular Chemistry

**Hours:** 24L/48P

This course provides an opportunity to learn core techniques in biological chemistry in a small group laboratory setting. It provides excellent preparation for a CHM499Y1 project in biological chemistry or related areas. Lectures will discuss the theory behind the techniques and highlight how they are used in modern biological chemistry research and practice. Note: CHM379H1 can be used as the biochemistry lab requirement for students completing double majors in chemistry and biochemistry. (Lab Materials Fee: \$25).

**Prerequisite:** (CHM247H1/CHM249H1 with a minimum grade of 63%), CHM347H1, BCH210H1

**Exclusion:** BCH370H1, CHM371H5

**Recommended Preparation:** CHM217H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM396Y0 - Research Topic Abroad

**Hours:** TBA

Course credit for research or field studies abroad under the supervision of a faculty member. Not eligible for CR/NCR option.

**Prerequisite:** At least 8.5 FCEs and no more than 14.0 FCEs including at least 1.5 FCEs in 2nd Year chemistry courses, or permission of the instructor.

**Recommended Preparation:** CHM299Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM397H0 - Research Abroad in Chemistry

**Hours:** TBA

Independent research project in Chemistry under the supervision by a faculty member in an approved partner institution. This unique opportunity to conduct a lab-based research project is open to students in any Chemistry programs. Not eligible for CR/NCR option.

**Prerequisite:** Any CHM 300-level courses with lab; permission of the Department

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## NUS398H0 - Nanoscience Research

**Hours:** 130P

An experimental or theoretical research problem in nanoscience under the supervision of a faculty member. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## CHM399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## CHM399Y1 - Research Excursions

**Hours:** TBA

NULL

## CHM410H1 - Analytical Environmental Chemistry

**Hours:** 24L/44P

An analytical theory, instrumental, and methodology course focused on the measurement of pollutants in soil, water, air, and biological tissues and the determination of physical/chemical properties including vapour pressure, degradation rates, partitioning. Lab experiments involve application of theory. (Lab Materials Fee: \$25).

**Prerequisite:** CHM217H1, CHM210H1/CHM310H1

**Recommended Preparation:** CHM317H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM414H1 - Biosensors and Chemical Sensors

**Hours:** 24L

The development, design, and operation of biosensors and chemical sensors, including: biosensor technology, transducer theory and operation, device design and fabrication, surface modification and methods of surface analysis, flow injection analysis and chemometrics.

**Prerequisite:** CHM217H1/CHM220H1/CHM222H1/CHM225Y1

**Recommended Preparation:** CHM317H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM415H1 - Topics in Atmospheric Chemistry

**Hours:** 24L

This course builds upon the introductory understanding of atmospheric chemistry provided in CHM210H. In particular, modern research topics in the field are discussed, such as aerosol chemistry and formation mechanisms, tropospheric organic chemistry, the chemistry of climate including cloud formation and geoengineering, biosphere-atmosphere interactions, the chemistry of remote environments. Reading is from the scientific literature; class discussion is emphasized.

**Prerequisite:** (CHM220H1/CHM222H1/CHM225Y1), CHM210H1

**Recommended Preparation:** (PHY131H1,

PHY132H1)/(PHY151H1, PHY152H1)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM416H1 - Separation Science

**Hours:** 24L

Principles of separation in analytical chemistry. Fractionation processes and solvent extractions; theory of chromatography, retention time, column efficiency and resolution. Principles of gas-liquid chromatography; instrumentation for gas chromatography. High performance liquid chromatography - practice and equipment design. Ion exchange, size-exclusion and affinity chromatography. Electrophoretic techniques.

**Prerequisite:** CHM317H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM417H1 - Laboratory Instrumentation

**Hours:** 24L/10P

This course provides an introduction to building and using optics- and electronics-based instrumentation for laboratory research, as well as for implementing custom software control. Lecture topics include passive electronic components, diodes and transistors, operational amplifiers, light sources and detectors, reflectors, refractors, polarizers, and diffractors, LabView programming and many others. Lectures are supplemented by laboratories in which students work in teams to build fluorescent detection systems for chromatography over the course of several weeks. (Lab Materials Fee: \$25).

**Recommended Preparation:** CHM317H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM423H1 - Applications of Quantum Mechanics

**Hours:** 24L

Applications of time independent and time dependent perturbation theory to atomic and molecular problems, selection of topics from WKB approximation and the classical limit; the interaction of light with matter; elementary atomic scattering theory; molecular bonding.

**Prerequisite:** CHM326H1

**Recommended Preparation:** MAT223H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM426H1 - Polymer Chemistry

**Hours:** 24L/12T

Scope of polymer chemistry. Classification of polymers. Synthesis and characterization. Polymers in solution. Thermodynamics of polymer solutions and blends, Flory-Huggins theory. Polymers in the solid state. Crystalline and amorphous polymers. Glass transition and melting temperature. Mechanical properties. Polymers as advanced materials.

**Prerequisite:** CHM220H1/CHM222H1/CHM225Y1, CHM247H1/CHM249H1

**Recommended Preparation:** CHM325H1

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM427H1 - Statistical Mechanics

**Hours:** 24L

Ensemble theory in statistical mechanics. Applications, including imperfect gases and liquid theories. Introduction to non-equilibrium problems.

**Prerequisite:** CHM326H1, CHM328H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM432H1 - Organometallic Chemistry and Catalysis

**Hours:** 24L

Structure, bonding, and reactions of organometallic compounds, with emphasis on basic mechanisms, and industrial processes. Addition, metalation, elimination, important catalytic cycles, electrophilic, and nucleophilic reactions are considered on a mechanistic basis. Topics on modern organometallic chemistry and catalysis are covered.

**Prerequisite:** CHM338H1

**Recommended Preparation:** CHM348H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM434H1 - Advanced Materials Chemistry

**Hours:** 24L

A comprehensive investigation of synthetic methods for preparing diverse classes of inorganic materials with properties intentionally tailored for a particular use. Begins with a primer on solid-state materials and electronic band description of solids followed by a survey of archetypical solids that have had a dramatic influence on the materials world, some new developments in materials chemistry and a look at perceived future developments in materials research and technology. Strategies for synthesizing many different classes of materials with intentionally designed structures and compositions, textures and morphologies are then explored in detail emphasizing how to control the relations between structure and property of materials and ultimately function and utility. A number of contemporary issues in materials research are critically evaluated to appreciate recent highlights in the field of materials chemistry - an emerging sub-discipline of chemistry.

**Prerequisite:** CHM325H1, CHM338H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM437H1 - Bioinorganic Chemistry

**Hours:** 24L

This course examines the use of metals in biology. Topics include naturally occurring and medicinal ligands; transport, uptake and control of concentration of metal ions; and physical methods of characterization of metal binding sites. The roles of metal ions in nature are discussed, including as structural and signaling elements in proteins, nucleic acids and DNA-binding complexes and proteins; as Lewis-acid centres in enzymes; as carriers of electrons, atoms and groups in redox proteins and enzymes; and as sources of biomaterials; as radiopharmaceuticals.

**Prerequisite:** CHM238Y1

**Exclusion:** CHM333H5, CHMD69H3

**Recommended Preparation:** CHM338H1 (strongly recommended), CHM347H1/CHM379H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM440H1 - The Synthesis of Modern Pharmaceutical Agents

**Hours:** 24L

This course provides an overview of reactions and synthetic strategies that are being used at different stages of the drug development process. Using representative examples from the literature, we will concentrate on synthesis of complex heterocyclic compounds.

**Prerequisite:** CHM342H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM441H1 - Spectroscopic Analysis in Organic Chemistry

**Hours:** 24L/20P

Structure and stereochemistry determination using modern spectroscopic techniques. Several techniques are discussed but particular emphasis is given to NMR (<sup>1</sup>H and <sup>13</sup>C NMR) and mass spectrometry. The approach taken emphasizes applications of these spectroscopic methods to organic problems. Students are trained to run their own spectra (IR, UV, NMR, GC-MS). (Lab Materials Fee: \$25).

**Prerequisite:** CHM249H1, CHM343H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM443H1 - Physical Organic Chemistry

**Hours:** 24L

Noncovalent binding forces, solutions, and molecular recognition. Electronic structure theory and computational techniques. Reaction mechanisms: experimental probes and reactive intermediates, including carbenes and radicals. Photophysics and photochemistry of organic compounds.

**Prerequisite:** CHM220H1/CHM222H1/CHM225Y1, CHM348H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM446H1 - Organic Materials Chemistry

**Hours:** 24L

This course covers design, synthesis, characterization and application of organic materials. Emphasis is placed on classic examples of organic materials including semiconducting polymers, molecular devices, self-assembled systems, and bioconjugates, as well as recent advances from the literature.

**Prerequisite:** CHM247H1/CHM249H1, CHM220H1/CHM222H1/CHM225Y1

**Recommended Preparation:** CHM325H1, CHM342H1/CHM343H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM447H1 - Bio-organic Chemistry

**Hours:** 24L

Mechanisms in biochemical systems: Examples of biological catalysis are considered in terms of chemical mechanisms and their extensions, overcoming barriers catalytic groups in active sites, stereochemical applications, energy transfer, kinetic patterns, inhibitors, drug design, cofactors, ribozymes, proteosomes. Related current issues are noted and discussed. The format includes lectures integrated with in-class discussions.

**Prerequisite:** CHM347H1, CHM348H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM479H1 - Biological Chemistry

**Hours:** 24L

An in depth examination of biological systems at the molecular level. Several complex, multi-component molecular machines with a central role in life will be examined. For each system studied, the focus will be on understanding the chemical mechanisms that underlie the biological activities, and how these processes fit into a cellular context.

**Prerequisite:** BCH210H1/BCH242Y1, CHM347H1, CHM348H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CHM499Y1 - Introduction to Chemistry Research

**Hours:** 240P

An experimental or theoretical research problem under the supervision of a faculty member in the Department of Chemistry. Applications for enrolment should be made to the Department in the preceding Winter Session with the deadline being the Friday before Reading Week. Application form is available at [http://www.chem.utoronto.ca/~undergrd/Application\\_Form.pdf](http://www.chem.utoronto.ca/~undergrd/Application_Form.pdf). Students are notified with the results of their application by the last week of March. Only students being offered admission are required to contact chemistry faculty for available research projects and supervision. Projects are in the areas of environmental, analytical, physical, inorganic, materials, polymer, organic and biological chemistry. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the department. Minimum CGPA of 3.0. Research positions are limited. Students with strong background on courses in the sub-discipline of research interest will be given preference.

**Exclusion:** CHM489Y5, CHMD90Y3, MSE498Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## Faculty List

### Professor Emerita

E.K. Armatage, Ph D

### Professor

C. Keil, Ph D

### Associate Professors

C. Columpar, Ph D

A. Fenner, Ph D

N. Sammond, Ph D

### Associate Professors, Teaching Stream

K. Banning, MA

B.W. Testa, MA

### Assistant Professors

J. Cahill, Ph D

B. Jacobson, Ph D

S.C. Richmond, Ph D

S. Saljoughi, Ph D

A. Zambenedetti, Ph D

## Introduction

At the dawn of the twentieth century cinema emerged as a new mass entertainment, a source of information, and a product of economic and social power. Cinema adapted to and absorbed novel technologies, such as sound, color, 3-D, and, later, digital techniques at a rapid pace. As shifting political and economic forces came into play, cinema continued to assume a key role in moving-image culture. During its history, cinema has absorbed seismic shocks in ideas and ideologies, and responded to the shifting politics of race, gender, class, and sexuality that have defined modern society. Now, in the early years of the twenty-first century, an evolving mediascape driven by digital technologies offers exciting opportunities to assess the ever-changing role of cinema across global cultures.

Because of its status as a major art form and a vital social practice, cinema has assumed a crucial place within the university. The Cinema Studies Institute has, over four decades, developed into a major area of academic research, study, and teaching at the University of Toronto and has contributed in pivotal ways to the development of the discipline both in Canada and internationally.

Cinema Studies offers courses that reflect the diversity of cinematic experience: film analysis, history, social practice, and theory are at the core of the program. Other topics also receive emphasis, including distinct types of film (such as documentary, animation, and the avant-garde), film genres, media cultures, and new media forms. Our courses explore the global dimension of cinema, investigating national and transnational cinema. They raise issues of how race, class, and gender operate in moving image culture. Cinema Studies offers a range of research methods, scholarly frameworks, and learning opportunities; all are designed to develop students' abilities to understand cinema within a wide range of contexts - critical, economic, cultural, technological, and aesthetic. Graduates of the Cinema Studies Institute achieve learning outcomes that include a strong historical and theoretical foundation coupled with advanced analytical and critical skills. Our graduates are well-equipped to apply their knowledge to a variety of media-related careers and avocations. They have become arts and entertainment journalists,

film programmers, and image archivists, and have found a diversity of positions within the film, television, and new media sectors. Cinema Studies does not offer courses in filmmaking, but numerous graduates have successfully pursued professional work in different facets of film and media production.

Since its inception, Cinema Studies has had its administration, teaching, and research home at Innis College, which also houses its faculty. Innis offers specially-equipped facilities and a cordial and intimate setting for cinema students. For more information about Innis College, go to [innis.utoronto.ca](http://innis.utoronto.ca).

Enquiries: Undergraduate Program Assistant, Room 232AE, Innis College (416-978-8571), [cinema.studies@utoronto.ca](mailto:cinema.studies@utoronto.ca), or the Cinema Studies website, [cinema.utoronto.ca](http://cinema.utoronto.ca).

## Cinema Studies Institute Programs

### Cinema Studies Specialist (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program that can only accommodate a limited number of students. Enrolment in the Cinema Studies programs requires completion of [CIN105Y1 'Introduction to Film Study'](#), and three additional full-course equivalents. Admission will be determined by a student's mark in [CIN105Y1](#). It is expected that a final mark of at least 70% be required for admission in the coming cycle. Students can be considered for admission if they do not meet the minimum grade requirement in [CIN105Y1](#) by achieving a minimum grade of 70% in [CIN201Y1](#).

Meeting these minimum requirements may not guarantee admission.

**Note:** All Cinema Studies programs are Type2L (limited enrolment) programs. See the [Program Enrolment web site](#) for instructions.

#### Completion Requirements:

(10 full courses or their equivalent (FCEs), at least 8.0 of which must have a CIN designator)

First Year:

[CIN105Y1](#)

Second Year:

[CIN201Y1](#)

Third Year:

[CIN301Y1](#)

Second, Third and Fourth Year:

[CIN230H1](#) or 0.5 FCE from Breadth Category 5; in addition at least 5.5 FCEs from Groups B through G, of which 3.0 FCEs must be at the 300/400 level

Fourth Year:

1.0 FCE from the following: [CIN410H1](#), [CIN411H1](#), [CIN412H1](#), [CIN420H1](#), [CIN430H1](#), [CIN431H1](#), [CIN432H1](#), [CIN440H1](#), [CIN450H1](#), [CIN451H1](#), [CIN452H1](#), [CIN460H1](#), [CIN470H1](#), [CIN471H1](#), [CIN472H1](#), [CIN480H1](#)

Students must complete [CIN105Y1](#), [CIN201Y1](#) and [CIN301Y1](#) before taking any fourth-year courses.

## Cinema Studies Major (Arts Program)

### Enrolment Requirements:

This is a limited enrolment program that can only accommodate a limited number of students. Enrolment in the Cinema Studies programs requires completion of [CIN105Y1 'Introduction to Film Study'](#), and three additional full-course equivalents. Admission will be determined by a student's mark in [CIN105Y1](#). It is expected that a final mark of at least 70% be required for admission in the coming cycle. Students can be considered for admission if they do not meet the minimum grade requirement in [CIN105Y1](#) by achieving a minimum grade of 70% in [CIN201Y1](#).

Meeting these minimum requirements may not guarantee admission.

**Note:** All Cinema Studies programs are Type2L (limited enrolment) programs. See the [Program Enrolment web site](#) for instructions.

### Completion Requirements:

(7 full courses or their equivalent (FCEs), at least 5.5 of which must have a CIN designator)

First Year:

[CIN105Y1](#)

Second Year:

[CIN201Y1](#)

Third Year:

[CIN301Y1](#)

Second, Third and Fourth Year:

[CIN230H1](#) or 0.5 FCE from Breadth Category 5; in addition at least 3.0 FCEs from Groups B through G, of which 2.0 FCEs must beat the 300/400 level

Fourth Year:

0.5 FCE from the following: [CIN410H1](#), [CIN411H1](#), [CIN412H1](#), [CIN420H1](#), [CIN430H1](#), [CIN431H1](#), [CIN432H1](#), [CIN440H1](#), [CIN450H1](#), [CIN451H1](#), [CIN452H1](#), [CIN460H1](#), [CIN470H1](#), [CIN471H1](#), [CIN472H1](#), [CIN480H1](#)

Students must complete [CIN105Y1](#), [CIN201Y1](#) and [CIN301Y1](#) before taking any fourth-year courses.

## Cinema Studies Minor (Arts Program)

### Enrolment Requirements:

This is a limited enrolment program that can only accommodate a limited number of students. Enrolment in the Cinema Studies programs requires completion of [CIN105Y1 'Introduction to Film Study'](#), and three additional full-course equivalents. Admission will be determined by a student's mark in [CIN105Y1](#). It is expected that a final mark of at least 70% be required for admission in the coming cycle. Students can be considered for admission if they do not meet the minimum grade requirement in [CIN105Y1](#) by achieving a minimum grade of 70% in [CIN201Y1](#).

Meeting these minimum requirements may not guarantee admission.

**Note:** All Cinema Studies programs are Type2L (limited enrolment) programs. See the [Program Enrolment web site](#) for instructions.

### Completion Requirements:

(4 full courses or their equivalent (FCEs), at least 3.0 of which must have a CIN designator)

First Year:

[CIN105Y1](#)

Second Year:

[CIN201Y1](#)

Second, Third and Fourth Year:

2.0 FCEs from Groups A through G, of which 1.0 FCE must be at the 300/400 level

Students must complete [CIN105Y1](#), [CIN201Y1](#) and [CIN301Y1](#) before taking any fourth-year courses.

## Course Groups

### Group A: Foundations

- [CIN105Y1 Introduction to Film Study \(formerly INI115Y1\)](#)
- [CIN201Y1 Film Cultures I: Art and Industry](#)
- [CIN301Y1 Film Cultures II: Politics and Global Media](#)

### Group B: Genre and Modes

- [CIN210H1 Horror Film \(formerly INI226H1\)](#)
- [CIN211H1 Science Fiction Film \(formerly INI227H1\)](#)
- [CIN212H1 Cinema and Sensation I: Action/Spectacle \(formerly INI222H1\)](#)
- [CIN213H1 Cinema and Sensation II: Sex \(formerly INI223H1\)](#)
- [CIN310Y1 Avant-Garde and Experimental Film \(formerly INI322Y1\)](#)
- [CIN312Y1 Documentary Film \(formerly INI325Y1\)](#)
- [CIN314Y1 Genre, Narrative and Narration in Film \(formerly INI329Y1\)](#)
- [CIN320H1 Special Topics in Genre and Modes \(formerly INI396H1\)](#)
- [CIN322H1 Cult Cinema](#)
- [CIN410H1 Advanced Study in Genre and Modes \(formerly INI460H1\)](#)
- [CIN411H1 Advanced Study in Genre and Modes \(formerly INI461H1\)](#)
- [CIN412H1 Advanced Study in Genre and Modes \(formerly INI462H1\)](#)
- [CIN420H1 Advanced Studies in Cinema \(formerly INI482H1\)](#)

### Group C: Social and Cultural Practices

- [CIN230H1 The Business of Film \(formerly INI228H1\)](#)
- [CIN240H1 Special Topics in Cinema Studies](#)
- [CIN330Y1 Feminist Approaches to Cinema \(formerly INI323Y1\)](#)
- [CIN332Y1 Screening Race \(formerly INI327Y1\)](#)
- [CIN334H1 The Origins of the Animation Industry, 1900-1950: A Technosocial History \(formerly INI383H1\)](#)
- [CIN335H1 American Animation after 1950](#)

- [CIN340H1 Special Topics in Cinema as Social and Cultural Practice \(formerly INI397H1\)](#)
- [CIN349H1 Screenwriting \(formerly INI388H1\)](#)
- [CIN430H1 Advanced Study in Cinema as Social and Cultural Practice \(formerly INI463H1\)](#)
- [CIN431H1 Advanced Study in Cinema as Social and Cultural Practice \(formerly INI464H1\)](#)
- [CIN432H1 Advanced Study in Cinema as Social and Cultural Practice \(formerly INI465H1\)](#)
- [CIN440H1 Advanced Studies in Cinema \(formerly INI483H1\)](#)

## Group D: Theory and Criticism

- [CIN250Y1 Directors: Four Studies in Film Authorship](#)
- [CIN260H1 Selected Topics in Cinema Studies](#)
- [CIN352H1 Issues in Film Authorship I](#)
- [CIN353H1 Issues in Film Authorship II \(formerly INI375H1\)](#)
- [CIN360H1 Special Topics in Theory and Criticism](#)
- [CIN362H1 Animals and Cinema](#)
- [CIN363H1 Ecocinema: The Nature of Film](#)
- [CIN369H1 Critical Writing on Film \(formerly INI384H1\)](#)
- [CIN450H1 Advanced Study in Theory and Criticism \(formerly INI466H1\)](#)
- [CIN451H1 Advanced Study in Theory and Criticism](#)
- [CIN452H1 Advanced Study in Theory and Criticism \(formerly INI468H1\)](#)
- [CIN460H1 Advanced Studies in Cinema](#)

## Group E: History and Nation

- [CIN270Y1 American Popular Film Since 1970 \(formerly INI225Y1\)](#)
- [CIN370H1 Canadian Cinemas \(formerly INI385H1\)](#)
- [CIN372Y1 Contemporary World Cinema \(formerly INI380Y1\)](#)
- [CIN374Y1 American Filmmaking in the Studio Era \(formerly INI324Y1\)](#)
- [CIN376Y1 Chinese Cinemas \(formerly INI390Y1\)](#)
- [CIN378H1 Aspects of a National Cinema \(formerly INI381H1\)](#)
- [CIN379H1 Hungarian Cinema \(formerly INI378H1\)](#)
- [CIN380H1 Special Topics in History and Nation \(formerly INI395H1\)](#)
- [CIN389H1 The Logics of Canadian Television \(formerly INI387H1\)](#)
- [CIN470H1 Advanced Study in History and Nation \(formerly INI469H1\)](#)
- [CIN471H1 Advanced Study in History and Nation \(formerly INI470H1\)](#)
- [CIN472H1 Advanced Study in History and Nation \(formerly INI471H1\)](#)
- [CIN480H1 Advanced Studies in Cinema \(formerly INI485H1\)](#)

## Group F: Independent Studies

- [CIN490Y1 Independent Studies in Cinema \(formerly INI476Y1\)](#)
- [CIN491H1 Independent Studies in Cinema \(formerly INI477H1\)](#)

- [CIN492H1 Independent Studies in Cinema \(formerly INI478H1\)](#)

## Group G: Cross-Listed

- [EAS242H1 Japanese Cinemas I: Film Form and the Problems of Modernity](#)
- [EAS243H1 Japanese Cinemas II: Film Form and the Problems of Modernity](#)
- [EAS431H1 Advanced Topics in Japanese Cinema](#)
- [FCS310Y1 French Cinema](#)
- [FCS392H1 Special Topics in French Cultural Studies II](#)
- [FIN250H1 Finnish Cinema](#)
- [FIN260H1 Scandinavian Cinema](#)
- [GER250H1 Topics in German Film History \(E\)](#)
- [HIS335H1 Soviet Cultural History](#)
- [HIS345H1 History and Film](#)
- [HIS459H1 Soviet History and Film, 1921-1946](#)
- [HIS460H1 Soviet History and Film, 1941-1991](#)
- [HIS467H1 French Colonial Indochina: History, Cultures, Texts, Film \(formerly HIS467Y1\)](#)
- [ITA240Y1 History of Italian Cinema](#)
- [ITA340H1 Italian Neorealist Cinema](#)
- [ITA341H1 Gender and Genre in Italian Cinema](#)
- [ITA347H1](#)
- [SLA226H1 Film and Ethics: Polish Cinema](#)
- [SLA234H1 Russian and Soviet Cinema](#)
- [SLA333H1 Animated Film in Europe \(formerly SLA233H1\)](#)
- [SMC355H1 Contemporary Celtic Cinema](#)
- [SPA375H1 Latin American Cinema](#)
- [JSU325H1 Queerly Canadian \(formerly UNI325H1\)](#)

## Regarding Cinema Studies Institute Courses

### First-Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than 24 students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

# Cinema Studies Institute Courses

## CIN105Y1 - Introduction to Film Study

**Hours:** 24L/24T/72P

Introduction to film form (including style and narration), different types of films, and popular approaches to the study of cinema. Topics include: narrative cinema, documentary, *avant-garde*, genre, authorship, ideology, and representation.

**Exclusion:** INI115Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN201Y1 - Film Cultures I: Art and Industry

**Hours:** 24L/24T/72P

Examines the practices, theories, and debates surrounding the emergence of cinema through to the development of studio system filmmaking in the first half of the 20th Century. Topics include: film's relation to the other arts, formalist and realist traditions, technological innovations, audiences and reception, and cultural industries.

**Prerequisite:** CIN105Y1

**Exclusion:** INI212Y1, INI215Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Thought, Belief and Behaviour (2)

## CIN210H1 - Horror Film

**Hours:** 12L/12T/36P

Horror film as a genre, focusing on three types of international horror: the un-dead, body horror, and the supernatural. The genre's popular appeal, affective power, unique means of producing pleasure, and current global resurgence will be emphasized. Topics include: the aesthetics of gore and violence, technologies of fear, J-Horror, new French extremity, cult fandom and paracinema, and media convergence.

**Exclusion:** INI226H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN211H1 - Science Fiction Film

**Hours:** 12T/36P

This course is the study of science fiction films in their cultural and political contexts and the genre's narrative and conceptual components. The goal of the course is to familiarize students with science fiction films as popular genre texts, emphasizing the period between 1950 and the present.

**Exclusion:** INI227H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN212H1 - Cinema and Sensation I: Action/Spectacle

**Hours:** 12L/12T/36P

Action movies cement the dominance of commercial cinema, and they largely define the contemporary era of the blockbuster and CGI effects. This course examines the narrative modes and the extremes that action scenes reach, and it explores the commercial and social function of the genre. The course also traces Action's historic reach and global diversity to include its significant precursors and transnational forms that Action cinema takes on.

**Exclusion:** INI222H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN213H1 - Cinema and Sensation II: Sex

**Hours:** 12L/12T/36P

Erotic images and sounds have long featured in filmic pleasure and, for just as long, excited controversy. This course examines how sex is articulated on screen and how its regulation suggests broader themes and ideas. Topics include: obscenity laws and the history of film censorship, the eroticized aspects of conventional movies, art cinema, and "adult" erotic films.

**Exclusion:** INI223H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN230H1 - The Business of Film

**Hours:** 36L/12T

Examines cinema as a commercial enterprise, emphasizing production, distribution, and exhibition and the political economy of North American film culture.

This is a Breadth Category 3 course but has been specially-designed to fulfill the Quantitative Reasoning requirement for Cinema Studies Specialists and Majors.

**Exclusion:** INI228H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CIN240H1 - Special Topics in Cinema Studies

**Hours:** 12L/12T/36P

Course on special topics in Cinema Studies. Topics vary each year.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CIN250Y1 - Directors: Four Studies in Film Authorship

**Hours:** 48L/48P

This course takes four selected directors' films and examines them analytically and interpretively. The purpose of the course is to apply and test the *auteur* theory in the context of concepts of film style and film conventions.

**Prerequisite:** CIN105Y1

**Exclusion:** INI224Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN260H1 - Selected Topics in Cinema Studies

**Hours:** 12L/12T/36P

Course on selected topics in Cinema Studies. Past topics include: "New Media."

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN270Y1 - American Popular Film Since 1970

**Hours:** 48L/24T/48P

The examination of popular American cinema through its social, political, and commercial practices, and through the study of selected popular films from the 1970s to the present.

**Exclusion:** INI225Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## CIN301Y1 - Film Cultures II: Politics and Global Media

**Hours:** 24L/24T/72S

Examines film theory and practice from the 1950s onward, and the impact of media change on earlier film cultures and aesthetics. Topics include: New Wave cinemas, the politicization of theory, spectatorship, counter-cinemas, transnational film and "Global Hollywood", and media theory from the analog to the digital.

**Prerequisite:** CIN105Y1, CIN201Y1

**Exclusion:** INI214Y1, INI314Y1, INI315Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Thought, Belief and Behaviour (2)

## CIN310Y1 - Avant-Garde and Experimental Film

**Hours:** 48L/72P

Avant-garde films, both canonical and marginal, are examined mainly in the context of modern art and poetry from the 1920s through the 1990s. Films include works from Europe, North America, and Japan. Art contexts range from Cubism, Dada, and Surrealism in the 1920s to Neo-Dada, Abstract Expressionism, Pop, and Postmodernism.

**Prerequisite:** CIN105Y1

**Exclusion:** INI322Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN312Y1 - Documentary Film

**Hours:** 48L/48P

Critical and historical survey of documentary practice, including cinema vérité, ethnographic experiments, and various hybridforms, with emphasis on the rhetorical, aesthetic, and political dimensions of the "art of record." Topics include: the filmmaker/subject/audience nexus; historiography, hagiography, and performance; and how emerging technology and new media platforms, evinced in the rise of documentary-based webdocs, i-docs, and webgames, affect the actual production and style of linear documentary, as well as impact earlier models of documentary exhibition, distribution, and viewer engagement alike.

**Prerequisite:** CIN105Y1

**Exclusion:** INI325Y1

**Recommended Preparation:** CIN201Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## CIN314Y1 - Genre, Narrative and Narration in Film

**Hours:** 48L/72P

Study of theoretical-analytical models of film genres, narrative form, and narration. Structuralist, cognitive-neoformalist, and historiographical approaches will be developed. Genres to be studied include: Westerns, musicals, crime films, biography films, gothic and fantastic films, and art cinema.

**Prerequisite:** CIN105Y1

**Exclusion:** INI329Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Thought, Belief and Behaviour (2)

## CIN320H1 - Special Topics in Genre and Modes

**Hours:** 24L/24P

Courses in special topics designed for Specialists and Majors in Cinema Studies. Past topics include: "Contemporary Screen Comedy," and "Eco-cinema: The Nature of Film."

**Prerequisite:** CIN105Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN322H1 - Cult Cinema

**Hours:** 24L/24P

This course examines "cult" and "exploitation" cinema. It examines the growing popularity of cult/exploitation films as an emerging cinematic subculture that valorizes disreputable or "trash" cinema. A number of sub-genres within exploitation film, including teen films, educational/instructional films, sexploitation, and Blaxploitation, will be explored. The social politics of appropriating texts through ironic reading strategies will also be considered.

**Prerequisite:** CIN105Y1

**Exclusion:** INI396H1F (2011), CIN320H1F (20145), CIN320H1S (2016)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN330Y1 - Feminist Approaches to Cinema

**Hours:** 48L/48P

Gender politics of feminist film culture since the 1970s. Topics include: apparatus theory and its legacy, models of spectatorship, feminist historiography, the cinematic (re)production of identity, the relationship between social movements and cinema, "postfeminism."

**Prerequisite:** CIN105Y1/ permission of instructor

**Exclusion:** INI323Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Thought, Belief and Behaviour (2)

## CIN332Y1 - Screening Race

**Hours:** 48L/48P

How race functions in cinema. Topics include: the foundational role of racial inscription and its expansion beyond the black/white paradigm, visual ethnography, 'the primitive,' and Orientalism, aboriginal media, the 'Black Atlantic' and Diaspora, Banlieu and exilic film practice and theory, border aesthetics, race and urban space, 'post-race', and the evolving racial imaginary.

**Prerequisite:** CIN105Y1, CIN201Y1

**Exclusion:** INI327Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Thought, Belief and Behaviour (2)

## **CIN334H1 - The Origins of the Animation Industry, 1900-1950: A Technosocial History (formerly INI383H1)**

**Hours:** 24L/36P

An introduction to early animation, considering its vaudeville roots, industrialization, emerging aesthetics, and representational tropes. Examination of the early corpus of animation from 1900-1950, and in-depth study of the artistic, social, and cultural milieux from which animation derived.

**Prerequisite:** CIN105Y1, CIN201Y1

**Exclusion:** INI383H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **CIN335H1 - American Animation after 1950**

**Hours:** 24L/36P

This course examines the second fifty years of animation, first by marking Disney's shifting fortunes, then broadening the scope to take in its competitors here and abroad. The global nature of postwar animation has been an odd amalgam of competition and cooperation, of private and public funding, and of film, television, and eventually webcasting, and we will explore some of the changes the form has gone through in the past fifty years or so. Since this is a study of art and of commerce, and of high and low culture, we will view our limited history through the lenses of aesthetics, cultural practices, business decisions, and sometimes political struggle.

**Prerequisite:** CIN105Y1, CIN201Y1

**Exclusion:** INI396H1S (2013), CIN320H1S (2014)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **CIN340H1 - Special Topics in Cinema as Social and Cultural Practice**

**Hours:** 24L/24P

Courses in special topics designed for Specialists and Majors in Cinema Studies. Past topics include: "History of Cinematography," and "Everyday Life in the Digital Age."

**Prerequisite:** CIN105Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **CIN349H1 - Screenwriting**

**Hours:** 24S

Students will develop screenwriting skills under the guidance of a renowned screenwriter-in-residence through a combination of writing workshops and individual consultations. Like the course, the appointment of the Universal Screenwriter-in-Residence occurs biannually.

**Prerequisite:** CIN105Y1, CIN201Y1, and two additional Cinema Studies full-course equivalents

**Exclusion:** INI388H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **CIN352H1 - Issues in Film Authorship I**

**Hours:** 24L/24P

Advanced study of issues in film authorship through intensive examination of one or more major filmmakers.

**Prerequisite:** CIN105Y1

**Exclusion:** INI374H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **CIN353H1 - Issues in Film Authorship II**

**Hours:** 24L/24P

Advanced study of issues in film authorship through intensive examination of one or more major filmmakers.

**Prerequisite:** CIN105Y1

**Exclusion:** INI375H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **CIN360H1 - Special Topics in Theory and Criticism**

**Hours:** 24L/24P

Courses in special topics designed for Specialists and Majors in Cinema Studies. Past topics include: "Cinema and Intermediality."

**Prerequisite:** CIN105Y1, CIN201Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CIN362H1 - Animals and Cinema

**Hours:** 24L/24P

This course explores cinema's century-long fascination with animals. Its investigations are organized around three central questions. First, what does cinema teach us about animals (why and how we look at animals on film, how we represent and understand animals through film, and what lessons we hope to gain from animals on film)? Second, what do animal films reveal or teach us about the cinema? Third, what are the aesthetic, theoretical, and ethical stakes of such encounters between animals and cinema?

**Prerequisite:** CIN105Y1, CIN201Y1

**Exclusion:** INI398H1F (2011), CIN360H1F (2013), CIN340H1S (2016)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CIN363H1 - Ecocinema: The Nature of Film

**Hours:** 2L/2P

This course takes a broad approach to the growing field - sometimes termed "ecocinema" or "film ecology" - devoted to cinemas relationship to the natural environment. We will consider that relationship through a combination of historical, textual, and theoretical analysis.

**Prerequisite:** CIN105Y1, CIN201Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN369H1 - Critical Writing on Film

**Hours:** 48L

The practice of film criticism: studies of examples of journalistic and scholarly critical writing, practical sessions of process writing, and collaborative editing. Course includes regular film screenings.

**Prerequisite:** CIN105Y1 and one additional Cinema Studies full-course equivalent/ permission of the instructor

**Exclusion:** INI384H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN370H1 - Canadian Cinemas

**Hours:** 24L/24P

History and diversity of Canadian and Québécois cinemas. Analyses of film and critical frameworks examine how co-productions, multiculturalism, and post-national arguments are re-shaping the production and reception contexts of national cinema. Annual emphasis will be placed on one of the following topics: the emergence of the feature film, Québécois cinema, documentary, or experimental cinema.

**Prerequisite:** CIN105Y1

**Exclusion:** FCS391H1, INI385Y1, INI385H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN372Y1 - Contemporary World Cinema

**Hours:** 48L/72P

Major contemporary developments beyond Hollywood and European filmmaking, examining a select number of national/regional cinemas: Africa, Korea, Iran, India (Hindi cinema), and Latin America. Topics include: transnationalism, indigenization of generic and stylistic conventions, cultural contexts, distribution networks, film festivals, and reception within a global economy.

**Prerequisite:** CIN105Y1

**Exclusion:** INI380Y1

**Recommended Preparation:** CIN201Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## CIN374Y1 - American Filmmaking in the Studio Era

**Hours:** 24L/24T/72P

Industrial, economic, ideological, and aesthetic dimensions of the American studio era.

**Prerequisite:** CIN105Y1

**Exclusion:** INI324Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## CIN376Y1 - Chinese Cinemas

**Hours:** 48L/72P

Examination of Chinese films in their three post-World War II production centres: The People's Republic of China, Taiwan, and Hong Kong. Commercial, political, and aesthetic trends; international reception; major *auteurs* and genres. Directors include Tsui Hark, Chen Kaige, Zang Yimou, Edward Yang, John Woo, and Wong Kar-Wai.

**Prerequisite:** CIN105Y1

**Exclusion:** INI390Y1

**Recommended Preparation:** CIN201Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## CIN378H1 - Aspects of a National Cinema

**Hours:** 24L/24P

In-depth treatment of a national cinema. Past courses include: "British Cinema," "Australian and New Zealand Cinema," and "The Other Europe."

**Prerequisite:** CIN105Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN378Y0 - Aspects of a National Cinema

**Hours:** TBA

This course offers a critical study of British film cultures, with an emphasis on British film genres, movements and cycles from the 1960s to the present day. Earlier representative works, to include the British documentary movement, will provide a foundation for a comparative study of contemporary British cinema. Major and minor film cultures will be studied in their institutional, social, and cultural contexts to include: the long standing tradition of British realism; the Free Cinema Movement; the New Wave; Swinging London; Thatcherite cinema, including its heritage, art cinema, Brit-grit and Black British iterations; in addition to the recent lad boy underclass cycle that reconfigures the traditional conceptualization of British cinema as strictly oppositional realism or tinsel. Debates pertinent to the way in which British films and relate to a shifting sense of national identity, towards examining the Englishness of British national cinema, will be highlighted.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN379H1 - Hungarian Cinema

**Hours:** 24L/24P

Examines historical trends, influential filmmakers, and social and cultural factors influencing the development of Hungarian cinema, assessing its impact within the context of Eastern Europe and internationally.

**Prerequisite:** CIN105Y1/ permission of instructor

**Exclusion:** INI381H1/F (2010) Aspects of a National Cinema: Hungarian Cinema, INI378H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN380H1 - Special Topics in History and Nation

**Hours:** 24P/24S

Courses in special topics designed for Specialists and Majors in Cinema Studies.

**Prerequisite:** CIN105Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN389H1 - The Logics of Canadian Television

**Hours:** 24L/24P

An overview and analysis of Canadian television's history, its current role within the so-called "multi-channel universe," and its future prospects within evolving delivery systems and changing consumption patterns. Topics include: the CBC as official public broadcaster, the future of domestic production, the prospect for niche carriers, and the impact of the internet.

**Prerequisite:** CIN105Y1/ SMC291Y1/ permission of instructor

**Exclusion:** INI387H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN410H1 - Advanced Study in Genre and Modes

Hours: 24P/24S

See course description for CIN412H1 listed below.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN411H1 - Advanced Study in Genre and Modes

Hours: 24P/24S

See course description for CIN412H1 listed below.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN412H1 - Advanced Study in Genre and Modes

Hours: 24P/24S

Consideration of the status of a selected film genre or mode from historical and theoretical perspectives. Past seminars include: "Film Comedy", "Melodrama", "Film Noir", "The End in Cinema", and "The Musical".

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN420H1 - Advanced Studies in Cinema (formerly INI482H1)

Hours: 24P/24S

Seminars in special topics designed for advanced Specialist and Major students in Cinema Studies.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN430H1 - Advanced Study in Cinema as Social and Cultural Practice

Hours: 24P/24S

See course description for CIN432H1 listed below.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN431H1 - Advanced Study in Cinema as Social and Cultural Practice

Hours: 24P/24S

See course description for CIN432H1 listed below.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN432H1 - Advanced Study in Cinema as Social and Cultural Practice

Hours: 24P/24S

Consideration of cinema and its social relations. Past seminars include: "American Independent Film", "Children in the Movies", "Sub-Saharan African Cinema", "International Film Festivals", "Interactive Documentary", "Graphic!", "The Revolution Will/Will Not Be Televised", "Social Problem Films," and "Programming and Curation."

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN440H1 - Advanced Studies in Cinema

Hours: 24P/24S

Seminars in special topics designed for advanced Specialist and Major students in Cinema Studies. Past seminars include: "Experiential Learning."

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN450H1 - Advanced Study in Theory and Criticism

Hours: 24P/24S

See course description for CIN452H1 listed below.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN451H1 - Advanced Study in Theory and Criticism

Hours: 24P/24S

See course description for CIN452H1 listed below.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN452H1 - Advanced Study in Theory and Criticism

Hours: 24P/24S

Advanced study of select approaches to film theory and criticism. Past seminars include: "Corporeality and the Cinema", "The Cinematic City: Urban Spaces in Film", "Sound and Music in Film", "Expanded Cinema", "Digital Cinema", and "Cinema and Architecture: Scenes, Screens, Studios."

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN460H1 - Advanced Studies in Cinema

Hours: 24P/24S

Seminars in special topics designed for advanced Specialist and Major students in Cinema Studies.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN470H1 - Advanced Study in History and Nation

Hours: 24P/24S

See course description for CIN472H1 listed below.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN471H1 - Advanced Study in History and Nation

Hours: 24P/24S

See course description for CIN472H1 listed below.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN472H1 - Advanced Study in History and Nation

Hours: 24P/24S

Seminars in historiography and questions of national cinema. Past seminars include: "Film Historiography", "Early Cinema", "Reviewing Hollywood Classicism", "Women Pioneers", "Local Film Cultures: Toronto Sites and Scenes", and "Debating Transnational Cinema."

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN480H1 - Advanced Studies in Cinema

Hours: 24P/24S

Seminars in special topics designed for advanced Specialist and Major students in Cinema Studies.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN490Y1 - Independent Studies in Cinema

**Hours:** TBA

See course description for CIN492H1 listed below. Not eligible for CR/NCR option.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN491H1 - Independent Studies in Cinema

**Hours:** TBA

See course description for CIN492H1 listed below. Not eligible for CR/NCR option.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CIN492H1 - Independent Studies in Cinema

**Hours:** TBA

Independent research projects devised by students and supervised by Cinema Studies faculty. Open to advanced Specialist and Major students in the Program. Submit applications to the Undergraduate Program Office: Fall 2016 courses, June 1/ Winter 2017 courses, November 1/ Summer 2017 courses, April 1. Not eligible for CR/NCR option.

**Prerequisite:** At least ten full-course equivalents, including CIN105Y1, CIN201Y1, CIN301Y1/ permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Faculty List

### University Professor Emeritus

B.C. Inwood, MA, Ph D, FRSC

### Professors Emeriti

T.D. Barnes, MA, D Phil, FRSC  
R.L. Beck, AM, Ph D (University of Toronto Mississauga)  
A. Dalzell, B Litt, MA  
J.N. Grant, MA, Ph D  
Rev. M.O. Lee, MA, Ph D  
C.J. McDonough, MA, Ph D  
W.E. McLeod, AM, Ph D  
D.P. de Montmollin, D ès L  
J.M. Rist, MA, FRSC  
T.M. Robinson, B Litt, D Litt  
J.S. Traill, AM, Ph D

### Associate Professors Emeriti

H.J. Mason, AM, Ph D  
C. I. Rubincam BA, Ph D (University of Toronto Mississauga)

### Professor and Chair of the Department

A. M. Keith, MA, Ph D, FRSC

### Associate Professor, Graduate Coordinator, and Associate Chair

J. Welsh, MA, Ph D

### Associate Professor, Undergraduate Coordinator, and Associate Chair

E. Lytle, BA, Ph D

### University Professor

E.J. Weinrib, AM, Ph D, FRSC (Cecil A. Wright Professor of Law)

### Professors

R. Barney, BA, Ph D  
P. Bing, Ph D  
C. F. M. Bruun, MA, Ph D  
J.S. Burgess, MA, Ph D  
M.J. Dewar, MA, D Phil  
E. Gunderson, MA, Ph D  
J.C. Magee, MA, Ph D  
M. Revermann, MA, D Phil (University of Toronto Mississauga)  
V. Wohl, MA, Ph D

### Associate Professors

B. W. Akrigg, MA, Ph D  
A.E. Bendlin, MA, D Phil (University of Toronto Mississauga)  
K. Blouin, MA, Ph D (University of Toronto Scarborough)  
R. Hörschele, MA, Ph D

### Assistant Professors

S. Bernard, Ph D  
B. Chrubasik, D Phil (University of Toronto Mississauga)  
C. Fulton, Ph D (University of Toronto Mississauga)  
K. Wilkinson, Ph D

## Introduction

Classics is the study of the civilizations of ancient Greece and Rome. This includes their literature, religion, mythology, history, philosophy and art, and also their physical settings, their interactions with surrounding societies, and their influence on later cultures to the present day. The scope of the discipline is vast both in space (not just the territories of the modern states of Greece and Italy but most of western Europe, the Middle East and North Africa) and time (a period of at least two thousand years, from the start of the Bronze Age in Europe in the second millennium B.C. to the dawn of the Middle Ages). Classics at the University of Toronto is not just looking at the past but engaging with issues of compelling and enduring relevance, including: gender and sexuality; the nature of freedom and the basis of political power and legitimacy; how relationships should and do work between parents and children; whether democracy is compatible with imperialism; what it means to be in love; how people cope with the fear of death; and when, if ever, it is right to go to war.

The Department of Classics welcomes students of all academic backgrounds who wish to take courses in the field but do not wish to specialize in Classical Studies. Even without knowing Greek or Latin, students can profitably study Greek and Roman history or Greek and Latin literature in translation - two areas combined under the designation CLA (for Classical Civilization courses) below. Similarly, the Major and Minor Programs in Classical Civilization presuppose no knowledge of the classical languages.

Advanced work in Greek and Latin does require study of the basic language courses in sequence. These are listed below under the designations GRK (for Greek courses) and LAT (for Latin courses). The Department of Classics publishes an undergraduate handbook which may be obtained from the departmental office and is published on the internet; this and other information about the Department is available at:

<http://classics.utoronto.ca/>.

Undergraduate Coordinator: Eph Lytle

125 Queens Park, room 110 ([undergrad.classics@utoronto.ca](mailto:undergrad.classics@utoronto.ca); 416-978-4848)

## Classics Programs

### Classical Civilization Major (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

Required courses: 2 CLA half-courses with a final mark of at least 65% in each. (CLA160H1 is recommended, but not required)

### Completion Requirements:

There are no specific requirements for first year. Students are recommended to take CLA160H1 and at least one other CLA course at the 200 level.

7.0 FCEs

1. CLA160H1
2. CLA260H1
3. CLA402H1/CLA403H1
4. 5.5 additional FCEs in CLA, including 2.0 FCEs at the 300+ level

Substitutions:

1. Up to 3.0 FCEs from approved courses involving the ancient Greek and Roman civilizations taught by other departments, notably Art (e.g., FAH206H1, FAH207H1, FAH300H1-FAH313H1) and Philosophy (e.g., PHL200Y1, PHL301H1-PHL304H1), may be substituted for the 5.5 CLA courses listed under 4. above.
2. Up to 2.0 FCEs in GRK or LAT may be substituted for the 5.5 CLA courses listed under 4. above.

## Classics (Greek and Latin) Major (Arts Program)

### Completion Requirements:

There are no specific requirements for first year. Students are recommended to take CLA160H1, and in addition GRK101H1 and GRK102H1, and/or LAT101H1 and LAT102H1.

(7 FCEs)

1. CLA160H1, CLA260H1
- 2.6 FCEs of GRK/LAT courses, including:

- at least 2 FCEs in each of GRK and LAT
- GRK430H1/LAT430H1
- one additional half-course at 400-level in either GRK or LAT

## Greek Major (Arts Program)

### Completion Requirements:

There are no specific requirements for first year. Students are recommended to take CLA160H1, GRK101H1 and GRK102H1.

(6 FCEs)

1. CLA160H1, CLA260H1
- 2.4 FCEs of GRK courses, of which 1 FCE must be 300+ level, 1 FCE 400-level, including GRK430H1
- 3.1 additional FCE of CLA/GRK/LAT

## Latin Major (Arts Program)

### Completion Requirements:

There are no specific requirements for first year. Students are recommended to take CLA160H1, LAT101H1 and LAT102H1.

(6 FCEs)

1. CLA160H1, CLA260H1
- 2.4 FCEs of LAT courses, of which 1 FCE must be at 300+ level, 1 FCE at 400-level, including LAT430H1
- 3.1 additional FCE of CLA/GRK/LAT

## Classical Civilization Minor (Arts Program)

### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

Required courses: 2 CLA half-courses with a final mark of at least 65% in each. (CLA160H1 is recommended, but not required).

### Completion Requirements:

There are no specific requirements for first year. Students are recommended to take CLA160H1 and one other CLA course at the 200 level.

(4 FCEs)

1. CLA160H1
- 2.3.5 FCEs of CLA courses at the 200+ level, including 1 FCE at the 300+ level

Substitutions:

1. Up to 2.0 FCEs from approved courses involving the ancient Greek and Roman civilizations taught by other departments, notably Art (e.g., FAH206H1, FAH207H1, FAH300H1-FAH313H1) and Philosophy (e.g., PHL200Y1, PHL301H1-PHL304H1), may be substituted for the 3.5 CLA courses listed under 2 above.
2. Up to 1.0 FCEs in GRK or LAT may be substituted for the 3.5 CLA courses listed under 2 above.

## Greek Minor (Arts Program)

### Completion Requirements:

There are no specific requirements for first year. Students are recommended to take CLA160H1, GRK101H1 and GRK102H1.

(4 FCEs)

1. 1 FCE of CLA courses, including CLA160H1
2. 3 FCEs of GRK courses, of which at least 1 FCE must be GRK 300+ level

## Latin Minor (Arts Program)

### Completion Requirements:

There are no specific requirements for first year. Students are recommended to take CLA160H1, LAT101H1 and LAT102H1.

(4 FCEs)

1. 1 FCE of CLA courses, including [CLA160H1](#)
2. 3 FCEs of LAT courses, of which at least 1 FCE must be LAT 300+ level

## Faculty of Arts & Science Language Citation

The Department of Classics participates in the Faculty of Arts and Science's Language Citation initiative for Ancient Greek and Latin. The study of Ancient Greek and Latin is a demanding and intellectually rewarding educational experience which makes available to the modern student the rich resources of classical texts in the original languages. Successful study of these languages demonstrates intelligence, discipline, analytical sophistication, and an excellent memory. The study of any foreign language provides invaluable insights into the varieties of human culture and expression.

In each language the Language Citation recognizes a significant level of achievement in language study with a high level of academic success.

The Citation in Latin is available to students who complete [LAT101H1](#) and [LAT102H1](#) (or the equivalent prerequisite training) and earn a grade of at least B- in [LAT201H1](#), [LAT202H1](#) and any two LAT half-courses at the 300 level.

The Citation in Ancient Greek is available to students who complete [GRK101H1](#) and [GRK102H1](#) (or the equivalent prerequisite training) and earn a grade of at least B- in [GRK201H1](#), [GRK202H1](#) and any two GRK half-courses at the 300 level.

Students should note that, as explained on page 20 of this Calendar, the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

## Regarding Classics Courses

**Note:** CLA courses are taught in English; all readings are in English. CLA courses do not require knowledge of Greek or Latin.

### First-Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

### 300-Series Courses

Most 300-series courses have specific prerequisites, which are enforced. Students seeking exemption from these prerequisites should contact the undergraduate coordinator before attempting to enroll in them on ACORN.

Students enrolled in the Major and Minor Programs in Classical Civilization have priority access to these courses.

Only 8 to 10 half-courses at the 300-level are offered in a typical Fall-Winter Session.

### Greek Courses

These courses teach reading in ancient Greek. Prerequisites will be enforced. [GRK101H1](#) requires no prior knowledge in ancient Greek. Courses in Greek taught by the Department of Classics involve the study of the form of the language employed in antiquity from about 800 B.C.E. to 400 C.E. The Department of Classics does not offer instruction in Medieval or Modern Greek.

**Frequency of Offering:** In each fall-winter session, [GRK430H1](#) will be offered and a minimum of 3 half-courses in each of the GRK 300 and 400-series. In odd-numbered years the courses offered in the 300 and 400-series will normally be drawn from those with odd numbers, and in even-numbered years from those with even numbers.

Courses numbered [GRK440H1](#) to [GRK453H1](#) are advanced versions of the courses with the same titles at the 300-level ([GRK340H1](#) - [GRK353H1](#)). They differ from the 300-level versions in meeting for an extra hour, studying more texts, and including a component of integrative, inquiry-based research.

### Latin Courses

These courses teach reading in Latin. Prerequisites will be enforced. [LAT101H1](#) requires no prior knowledge of Latin.

**Frequency of Offering:** In each fall-winter session, [LAT430H1](#) will be offered and a minimum of 3 half-courses in each of the LAT 300 and 400-series. In odd-numbered years the courses offered in the 300 and 400-series will normally be drawn from those with odd numbers, and in even-numbered years from those with even numbers.

Courses numbered [LAT440H1](#) to [LAT453H1](#) are advanced versions of the courses with the same titles at the 300-level ([LAT340H1](#) - [LAT353H1](#)). They differ from the 300-level versions in meeting for an extra hour, studying more texts, and including a component of integrative, inquiry-based research.

## Classics Courses

### CLA160H1 - Introduction to Classical Studies

**Hours:** 36L/10T

An introduction to major themes in the development of Greek and Roman civilization, literature and culture.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA201H1 - Latin & Greek in Scientific Terminology

**Hours:** 36L

The study of technical and scientific terms derived from Latin and Greek: word elements, formation, analysis. The course is designed to give students in any field of specialization a better grasp of the derivation and basic meaning of English words derived from Latin and Greek elements.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CLA203H1 - Science in Antiquity

**Hours:** 36L

The first scientific traditions in the classical Mediterranean and the Near East, with emphasis on Greek science. Discussions of early physical science, biology, mathematics, and astronomy, and their place in ancient life and thought, based on primary sources in translation. Designed for students in both the sciences and humanities.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CLA204H1 - Introduction to Classical Mythology

**Hours:** 36L

A survey of the myths and legends of ancient Greece (and their extension to Rome) with some consideration of their role in ancient and modern literature and art.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CLA219H1 - Women in Antiquity

**Hours:** 36L

A survey of the position of women in ancient Greece and Rome, with focus on women's sexuality and socialization; their economic, religious, and political roles; and their creative production in the arts.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA230H1 - Introduction to Greek History

**Hours:** 36L

A historical survey of the most significant features in the development of the civilization and states of ancient Greece from the Bronze Age to the second century B.C.E.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA231H1 - Introduction to Roman History

**Hours:** 36L

A historical survey of the most significant features in the development of the civilization and state of ancient Rome from the mythical beginnings to the fourth century C.E.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA232H1 - Introduction to Greek Society and Culture

**Hours:** 36L

A general introduction to the society and culture of Ancient Greece. Topics may include literature, art, social customs, gender and sexuality, daily life, and religious festivals (the theatre, the Olympic Games etc.).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA233H1 - Introduction to Roman Society and Culture

**Hours:** 36L

A general introduction to the society and culture of Ancient Rome. Topics may include literature, art, social customs, gender and sexuality, daily life, and religious festivals (the circus, the gladiatorial games etc.).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA236H1 - Greek and Roman Epic

Hours: 36L

A study of one or more of the epic poems of Greek and Roman antiquity (e. g. The *Iliad* and *Odyssey* of Homer and the *Aeneid* of Virgil).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA260H1 - Method and Theory in Classics

Hours: 36L

An introduction to key issues in methodology and theory in the study of the classical world.

**Distribution Requirements:** Humanities

## CLA299Y1 - Research Opportunity Program

Hours: TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## CLA303H1 - The Ancient Novel

Hours: 36S

An introduction to the Greek romances of love and adventure (Chariton, Longus, Heliodorus), and the more ironical and socially conscious works of the Roman writers Petronius and Apuleius.

**Prerequisite:** CLA160H1 + 1 of CLA204H1/CLA219H1/CLA232H1/CLA233H1/CLA236H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA305H1 - Theories of Myth

Hours: 36S

A detailed study of the major modern approaches to the analysis and interpretation of myth with specific reference to their applications to ancient Graeco-Roman myth.

**Prerequisite:** CLA204H1 + 1 OF CLA160H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CLA308H1 - Religion in the Greek World

Hours: 36S

A study of the religious cults and forms of worship in the ancient Greek world.

**Prerequisite:** CLA160H1 + 1 of CLA204H1/CLA230H1/CLA232H1/CLA236H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CLA310H1 - Religion in the Roman World

Hours: 36S

A study of the religious cults and forms of worship in the Roman world, including the pagan cults, Judaism, and early Christianity.

**Prerequisite:** CLA160H1 + 1 of CLA204H1/CLA231H1/CLA233H1/CLA236H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CLA319H1 - Sexuality and Gender in Classical Literature

Hours: 36S

Detailed study of the representation of sexuality and gender in Greek and/or Roman literary texts from one or more genres.

**Prerequisite:** CLA160H1 + 1 of CLA219H1/CLA232H1/CLA233H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA321H1 - Sport and Festival

**Hours:** 36S

An examination of various aspects of athletic competition in the ancient Greco-Roman world, employing literary and archaeological evidence.

**Prerequisite:** CLA160H1 + 1 of CLA230H1/CLA231H1/CLA232H1/CLA233H1/CLA236H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA322H1 - Classical Reception

**Hours:** 36S

Modern reception of the classical world in a variety of media, such as art, literature, music, popular culture, etc.

**Prerequisite:** CLA160H1 + 1 of CLA204H1/CLA219H1/CLA230H1/CLA231H1/CLA232H1/CLA233H1/CLA236H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA336H1 - Roman Law

**Hours:** 36S

Roman law with emphasis on how it reflected community values. The nature of Roman legal reasoning. The historical development of Roman law against the background of the evolution of Roman society and Roman power.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA362H1 - Early Greece

**Hours:** 36S

The Greek world from the second millennium B.C.E. to the emergence of the *polis*

**Prerequisite:** CLA160H1 + 1 of CLA230H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA363H1 - Archaic and Classical Greece

**Hours:** 36S

The Greek world from the eighth to the fourth centuries B.C.E., with an emphasis on political events and development.

**Prerequisite:** CLA160H1 + 1 of CLA230H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA364H1 - The Hellenistic World

**Hours:** 36S

The Greek world in the age of Alexander the Great and his successors (336 B.C.E. to 31 B.C.E.)

**Prerequisite:** CLA160H1 + 1 of CLA230H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA366H1 - Topics in the Study of Greek History

**Hours:** 36S

Topics vary from year to year.

**Prerequisite:** CLA160H1 + 1 of CLA230H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA367H1 - The Roman Republic

**Hours:** 36S

The Roman world from 510 B.C.E. to 44 B.C.E.

**Prerequisite:** CLA160H1 + 1 of CLA231H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA368H1 - Augustus and the Julio-Claudians

**Hours:** 36S

The Roman world in the age of Augustus and his dynasty (44 B.C.E. to 68 C.E.)

**Prerequisite:** CLA160H1 + 1 of CLA231H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA369H1 - The Roman Empire

**Hours:** 36S

The Roman world from 68 C.E. to 378 C.E.

**Prerequisite:** CLA160H1 + 1 of CLA231H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA371H1 - Topics in the Study of Roman History

**Hours:** 36S

Topics vary from year to year.

**Prerequisite:** CLA160H1 + 1 of CLA231H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA372H1 - The Economic History of the Classical World

**Hours:** 36S

The structure and performance of economies in the Greek and/or Roman worlds, and their modern interpretation.

**Prerequisite:** CLA160H1 + 1 of CLA230H1/CLA231H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA373H1 - The Environment in the Greco-Roman World

**Hours:** 36S

An exploration of the ecology and environment of the ancient Mediterranean basin in classical antiquity.

**Prerequisite:** CLA160H1 + 1 of CLA230H1/CLA231H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Living Things and Their Environment (4)

## CLA378H1 - Late Antiquity

**Hours:** 36S

The history and culture of the Greco-Roman world during the fourth through seventh centuries C.E., with particular emphasis on the decline of the Roman state and emergence of Christianity.

**Prerequisite:** CLA160H1 + 1 of CLA231H1/CLA233H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CLA382H1 - Tragedy

**Hours:** 36S

The study of classical tragedy as a literary genre, dramatic production, and social institution, with analysis of representative plays.

**Prerequisite:** CLA160H1 + 1 of CLA204H1/CLA219H1/CLA230H1/CLA232H1/CLA236H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA383H1 - Comedy

**Hours:** 36S

The origin and development of Greek and Roman comedy, based on a study of representative plays.

**Prerequisite:** CLA160H1 + 1 of CLA219H1/CLA230H1/CLA231H1/CLA232H1/CLA233H1/CLA236H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA386H1 - Classical Literature in Translation

**Hours:** 36S

Study of a selection of Greek and Roman literary texts from one or more genres.

**Prerequisite:** CLA160H1 + 1 of CLA204H1/CLA219H1/CLA232H1/CLA233H1/CLA236H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA387H1 - Spectacle in the Roman World

**Hours:** 36S

The role in Roman society and culture of public spectacles, including the chariot-races, the gladiatorial games, executions, and triumphal processions.

**Prerequisite:** CLA160H1 + 1 of CLA231H1/CLA233H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA388H1 - Classical Antiquity and the Cinema

**Hours:** 36S

A study of the representation of ancient Greece and/ or Rome in cinema.

**Prerequisite:** CLA160H1 + 1 of CLA219H1/CLA232H1/CLA233H1/CLA260H1; or INI115Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA389H1 - Classical Spaces: Sites and Monuments

**Hours:** 36S

A close study of one or more sites in the ancient world and the cultural significance of the site(s) in question.

**Prerequisite:** CLA160H1 + 1 of CLA230H1/CLA231H1/CLA232H1/CLA233H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA392H1 - Topics in the study of Classical Culture and Society

**Hours:** 36S

Topics vary from year to year.

**Prerequisite:** CLA160H1 + 1 of CLA219H1/CLA232H1/CLA233H1/CLA260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CLA398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## CLA399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## CLA400H1 - Independent Studies (formerly CLA400Y1)

**Hours:** TBA

Independent Studies. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Department

**Exclusion:** CLA400Y1

**Recommended Preparation:** Preferably 1 FCE in the CLA 300-series

**Distribution Requirements:** Humanities

## CLA401H1 - Independent Studies

**Hours:** TBA

Independent Studies. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Department

**Recommended Preparation:** Preferably 1 FCE in the CLA 300 series

**Distribution Requirements:** Humanities

## CLA402H1 - Advanced Seminar in Greek Civilization

**Hours:** 36S

An advanced research seminar devoted to critical issues relating to Greek civilization. Course requirements include a research essay. Topics vary from year to year.

**Prerequisite:** Enrolment in Major Program in Classical Civilization; 14.0 FCEs completed including 1.0 in CLA 300-series

**Exclusion:** CLA403H1

**Distribution Requirements:** Humanities

## CLA403H1 - Advanced Seminar in Roman Civilization

**Hours:** 36S

An advanced research seminar devoted to critical issues relating to Roman civilization. Course requirements include a research essay. Topics vary from year to year.

**Prerequisite:** Enrolment in Major Program in Classical Civilization; 14.0 FCEs completed including 1.0 in CLA 300-series

**Exclusion:** CLA402H1

**Distribution Requirements:** Humanities

## Greek Courses

## GRK101H1 - Introductory Ancient Greek I (formerly GRK 100Y1)

**Hours:** 48S

An intensive introduction to Ancient Greek for students who have no knowledge of the language; preparation for the reading of Ancient Greek literature.

**Exclusion:** GRK100Y1 Students who have studied Ancient Greek previously must obtain permission from the Undergraduate Coordinator before enrolling.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK102H1 - Introductory Ancient Greek II

**Hours:** 48S

A continuation of the intensive introduction to Ancient Greek in GRK 101H1. Also appropriate for students who have some training in Ancient Greek, but have not completed a whole credit course at University or a final-year (Grade 12) course in secondary school.

**Prerequisite:** GRK101H1/some background in Ancient Greek

**Exclusion:** GRK100Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK201H1 - Intermediate Ancient Greek I

**Hours:** 48S

Reading of selections of Ancient Greek prose works with systematic language study.

**Prerequisite:** GRK100Y1/GRK102H1. Grade 12 in Ancient Greek may be accepted, but students should consult the Undergraduate Coordinator before enrolling.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK202H1 - Intermediate Ancient Greek II

**Hours:** 48S

Continued language training with readings in Ancient Greek prose and verse.

**Prerequisite:** GRK201H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK340H1 - Greek Philosophy I

Hours: 36S

Readings from one or more philosophical texts.

**Prerequisite:** GRK202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK341H1 - Greek Historians I

Hours: 36S

Readings from one or more Greek Historians.

**Prerequisite:** GRK202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK342H1 - Greek Orators I

Hours: 36S

Readings from from one or more oratorical texts.

**Prerequisite:** GRK202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK343H1 - Greek Prose Authors I

Hours: 36S

Readings from Greek prose authors (e.g., biography, novels, essays, texts in *koine*).

**Prerequisite:** GRK202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK350H1 - Greek Epic I

Hours: 36S

Readings from Greek epics, including Homer.

**Prerequisite:** GRK202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK351H1 - Greek Comedy I

Hours: 36S

Readings from Aristophanes and Menander.

**Prerequisite:** GRK202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK352H1 - Greek Tragedy I

Hours: 36S

Readings from Aeschylus, Sophocles and Euripides.

**Prerequisite:** GRK202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK353H1 - Greek Verse Authors I

Hours: 36S

Readings from Greek verse (e.g., elegy, iambics, lyric).

**Prerequisite:** GRK202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK428H1 - Independent Studies (formerly GRK428Y1)

Hours: TBA

Independent Studies. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Department

**Exclusion:** GRK428Y1

**Recommended Preparation:** Usually 1 FCE from GRK 300-level courses

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK429H1 - Independent Studies

**Hours:** TBA

Independent Studies. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Department

**Recommended Preparation:** Usually 1 FCE from GRK 300-series courses

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK430H1 - Advanced Greek Language Study

**Hours:** 36S

A course designed to enhance language skills. Prose composition, sight translation, stylistic analysis of classical Greek prose.

**Prerequisite:** GRK340H1/GRK341H1/GRK342H1/GRK343H1

**Exclusion:** GRK330H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK440H1 - Greek Philosophy II

**Hours:** 48S

Advanced readings from one or more philosophical texts.

**Prerequisite:** One FCE in the GRK 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK441H1 - Greek Historians II

**Hours:** 48S

Advanced readings from one or more Greek historians.

**Prerequisite:** One FCE in the GRK 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK442H1 - Greek Orators II

**Hours:** 48S

Advanced readings from one or more oratorical texts.

**Prerequisite:** One FCE in the GRK 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK443H1 - Greek Prose Authors II

**Hours:** 48S

Advanced readings from Greek prose authors (e.g., biography, novels, essays, texts in *koine*).

**Prerequisite:** One FCE in the GRK 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK450H1 - Greek Epic II

**Hours:** 48S

Advanced readings from Greek epics, including Homer.

**Prerequisite:** One FCE in the GRK 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK451H1 - Greek Comedy II

**Hours:** 48S

Advanced readings from Aristophanes and Menander.

**Prerequisite:** One FCE in the GRK 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK452H1 - Greek Tragedy II

**Hours:** 48S

Advanced readings from Aeschylus, Sophocles and Euripides.

**Prerequisite:** One FCE in the GRK 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GRK453H1 - Greek Verse Authors II

**Hours:** 48S

Advanced readings from Greek verse (e.g., elegy, iambic, lyric).

**Prerequisite:** One FCE in the GRK 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Latin Courses

### LAT101H1 - Introductory Latin I (formerly LAT 100Y1)

**Hours:** 48S

An intensive introduction to Latin for students who have no knowledge of the language; preparation for the reading of Latin literature.

**Exclusion:** LAT100Y1. Students who have studied Latin previously must obtain permission from the Undergraduate Coordinator before enrolling.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### LAT102H1 - Introductory Latin II

**Hours:** 48S

A continuation of the intensive introduction to Latin in LAT 101H1. Also appropriate for students who have some training in Latin, but have not completed a whole credit course at University or a final-year (Grade 12) course in secondary school.

**Prerequisite:** LAT101H1/some background in Latin

**Exclusion:** LAT100Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## LAT201H1 - Intermediate Latin I

**Hours:** 48S

Reading of selections of Latin prose works with systematic language study.

**Prerequisite:** LAT100Y1/LAT102H1. Grade 12 in Latin may be accepted, but students should consult the Undergraduate Coordinator before enrolling.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### LAT202H1 - Intermediate Latin II

**Hours:** 48S

Continued language training with readings in Latin prose and verse.

**Prerequisite:** LAT201H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### LAT340H1 - Latin Novelists I

**Hours:** 36S

Readings from one or more Latin novelists.

**Prerequisite:** LAT202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### LAT341H1 - Latin Historians I

**Hours:** 36S

Readings from one or more Latin historians.

**Prerequisite:** LAT202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## LAT342H1 - Latin Orators I

**Hours:** 36S

Readings from Latin orators, including Cicero.

**Prerequisite:** LAT202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## LAT343H1 - Latin Prose Authors I

**Hours:** 36S

Readings from Latin prose authors (e. g. biography, letters, philosophy).

**Prerequisite:** LAT202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## LAT350H1 - Latin Epic I

**Hours:** 36S

Readings from one or more Latin epics, including Virgil.

**Prerequisite:** LAT202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## LAT351H1 - Latin Drama I

**Hours:** 36S

Readings from Latin comedy and/or tragedy.

**Prerequisite:** LAT202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## LAT352H1 - Latin Satire I

**Hours:** 36S

Readings from one or more Latin satirists.

**Prerequisite:** LAT202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## LAT353H1 - Latin Verse Authors I

**Hours:** 36S

Readings from Latin verse (e. g. elegy, lyric, bucolic).

**Prerequisite:** LAT202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## LAT428H1 - Independent Studies (formerly LAT428Y1)

**Hours:** TBA

Independent Studies. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Department

**Exclusion:** LAT428Y1

**Recommended Preparation:** Usually 1 FCE from LAT 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## LAT429H1 - Independent Studies

**Hours:** TBA

Independent Studies. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Department

**Recommended Preparation:** Usually 1 FCE from LAT 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## LAT430H1 - Advanced Latin Language Study (formerly LAT330H1)

**Hours:** 36S

A course designed to enhance language skills. Prose composition, sight translation, stylistic analysis of Latin prose.

**Prerequisite:** LAT340H1/LAT341H1/LAT342H1/LAT343H1

**Exclusion:** LAT330H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **LAT440H1 - Latin Novelists II**

**Hours:** 48S

Advanced readings from one or more Latin novelists.

**Prerequisite:** One FCE in the LAT 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **LAT441H1 - Latin Historians II**

**Hours:** 48S

Advanced readings from one or more Latin historians.

**Prerequisite:** One FCE in the LAT 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **LAT442H1 - Latin Orators II**

**Hours:** 48S

Advanced readings from Latin orators, including Cicero.

**Prerequisite:** One FCE in the LAT 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **LAT443H1 - Latin Prose Authors II**

**Hours:** 48S

Advanced readings from Latin prose authors (e. g. biography, letters, philosophy).

**Prerequisite:** One FCE in the LAT 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **LAT450H1 - Latin Epic II**

**Hours:** 48S

Advanced readings from one or more Latin epics, including Virgil.

**Prerequisite:** One FCE in the LAT 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **LAT451H1 - Latin Drama II**

**Hours:** 48S

Advanced readings from Latin comedy and/or tragedy.

**Prerequisite:** One FCE in the LAT 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **LAT452H1 - Latin Satire II**

**Hours:** 48S

Advanced readings from one or more Latin satirists.

**Prerequisite:** One FCE in the LAT 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **LAT453H1 - Latin Verse Authors II**

**Hours:** 48S

Advanced readings from Latin verse (e. g. elegy, lyric, bucolic).

**Prerequisite:** One FCE in the LAT 300-series

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Faculty List

### University Professor Emeritus

S. Cook, SM, PhD, FRS, FRSC  
G. Hinton, PhD, FRS, FRSC

### Professors Emeriti

R. Baecker, MSc, PhD  
D. Corneil, MA, PhD  
W. Enright, MSc, PhD (University of Toronto Scarborough)  
E. Hehner, MSc, PhD  
R.C. Holt, PhD  
H. Levesque, MSc, PhD, FRSC  
R. Mathon, MSc, PhD (University of Toronto Mississauga)  
J. Mylopoulos, MSc, PhD, FRSC  
C. Rackoff, PhD (University of Toronto Mississauga)  
D. Wortman, MSc, PhD

### Senior Lecturer Emeritus

J. Clarke, MSc, PhD

### University Professor

A. Borodin, MSc, PhD, FRSC

### Professor and Chair of the Department

R. Balakrishnan, MSc, PhD

### Professor and Vice Chair of the Department

K. Truong, PhD

### Associate Professor and Associate Chair (Graduate Studies)

A. Demke-Brown, MSc, PhD

### Associate Professor, Teaching Stream and Associate Chair (Undergraduate Studies)

F. Pitt, MSc, PhD

### Professors

T. Abdelrahman, MSc, PhD  
F. Bacchus, MSc, PhD  
R. Balakrishnan, MSc, PhD  
C. Boutilier, MSc, PhD  
M. Chechik, MSc, PhD  
E. de Lara, MSc, PhD  
S. Dickinson, MSc, PhD  
S. Easterbrook, PhD  
F. Ellen, MMath, PhD  
E. Fiume, MSc, PhD  
D. Fleet, MSc, PhD (University of Toronto Scarborough)  
V. Hadzilacos, PhD (University of Toronto Scarborough)  
G. Hirst, MSc, PhD (University of Toronto Scarborough)  
K. Jackson, MSc, PhD  
A. Jepsen, PhD  
N. Koudas, MSc, PhD (University of Toronto Scarborough)  
K. Kutulakos, MSc, PhD  
P. Marbach, MSc, PhD  
S. McIlraith, MMath, PhD  
R. Miller, MSc, PhD, FRSC  
M. Molloy, MMath, PhD (University of Toronto Scarborough)  
R. Neal, BSc, PhD  
G. Penn, MSc, PhD  
T. Pitassi, MSc, PhD  
K. Singh, MSc, PhD  
S. Stevenson, MSc, PhD

S. Toueg, MA, PhD  
R. Zemel, MSc, PhD

### Associate Professors

A. Bonner, MSc, PhD (University of Toronto Mississauga)  
M. Brudno, MSc, PhD  
C. Christara, MSc, PhD  
J. Danahy, MScUrb & DesPI  
A. Demke-Brown, MSc, PhD

## Introduction

### What is Computer Science?

Despite the name, Computer Science is not really a science of computers at all. Computers are quite remarkable electronic devices, but even more remarkable is what they can be made to do: simulate the flow of air over a wing, manage communication over the Internet, control the actions of a robot, synthesize realistic images, play grandmaster-level chess, and on and on. Indeed the application of computers in activities like these has affected most areas of modern life. What these tasks have in common has little to do with the physics or electronics of computers; what matters is that they can be formulated as some sort of computation. This is the real subject matter of Computer Science: computation, and what can or cannot be done computationally.

In trying to make sense of what we can get a computer to do, a wide variety of topics come up. There are, however, two recurring themes. The first is the issue of scale: how big a system can we specify without getting lost in the design, or how big a task can a computer handle within reasonable bounds of time, memory, and accuracy. A large part of Computer Science deals with these questions in one form or another. In the area of programming languages and methodology, for example, we look for notations for describing computations, and programming methodologies that facilitate the production of manageable and efficient software. In the theory of computation area, we study resource requirements in time and memory of many basic computational tasks.

The second theme concerns the scope of computation. Computers were originally conceived as purely numerical calculators, but today, we tend to view them much more broadly. Part of Computer Science is concerned with understanding just how far computational ideas can be applied. In the area of artificial intelligence, for example, we ask how much of the intelligent behaviour of people can be expressed in computational terms. In the area of human-computer

interaction, we ask what sorts of normal day-to-day activities of people might be supported and augmented using computers.

Some Computer Science courses are offered in the evening, to allow part-time students to pursue our programs. Introductory courses and some higher-level courses are offered in the summer.

The Professional Experience Year Program (PEY) offers students the opportunity to gain valuable work experience in industry, over a twelve to sixteen-month period. It is available to eligible, full-time students. Students may also take advantage of the International Exchange Program offered by CIE. Please refer to the [Student Services & Resources](#) chapter of this Calendar.

Associate Chair (Undergraduate Studies): Associate Professor, Teaching Stream Francois Pitt

Student Counsellors, Undergraduate Office: Bahen Building, 40 St. George Street, Rooms 4252/4254/4256, M5S 2E4 (416-978-6360), email: [ug@cs.utoronto.ca](mailto:ug@cs.utoronto.ca).

Web site: [web.cs.toronto.edu](http://web.cs.toronto.edu)

## Advice on choosing courses towards a Major in Computer Science

A Major program in any discipline may form part (but not the whole) of your degree requirements. The Major program in Computer Science is designed to include a solid grounding in the essentials of Computer Science, followed by options that let you explore one or a few topics more deeply. You will also realize what areas you have not studied, and be ready to explore them if your interests change after completing the Major.

To give you freedom to choose your path through Computer Science, we have designed the Major to include a minimal set of required courses. There are some courses that we think you ought to consider carefully as you make those choices. [CSC373H1](#) is fundamental to many more advanced Computer Science topics, where designing appropriate algorithms is central. [CSC209H1](#) is a prerequisite to effective work in many application areas.

We have designed “packages” of related courses that are intended to accompany the Specialist program in Computer Science, and you may find them helpful in completing your Major too. Please see our web site at <http://web.cs.toronto.edu/program/ugrad.htm>

A significant role of the Major is to allow you to integrate your studies in Computer Science and another discipline. For example, many Computer Science students are also interested in statistics, economics, physics or mathematics. In those cases, it makes sense to enrol in a Major in one discipline and either a Major or a Specialist in the other. If your interests are evenly balanced, the obvious choice is to do two Majors, and that is what we assume here.

If you are doing a double Major (two Majors in related disciplines), you might want to consult your college registrar's office for advice on satisfying the degree requirements with overlapping Majors. A number of sample combinations are listed below for your reference. This is not a complete list: many other combinations are possible.

A Major program is generally not enough to prepare you for graduate study in Computer Science, though a complete Specialist is not required. Please consult the advice about graduate study

included with the description of the Specialist program in Computer Science.

### CSC and Mathematics

The theoretical foundations of Computer Science are essentially a branch of mathematics, and numerical analysis (the area of CS that studies efficient, reliable and accurate algorithms for the numerical solution of continuous mathematical problems) is also a topic in applied mathematics. If you are interested in both Computer Science and Mathematics, a double major is a good choice.

In this double major, you should choose all the theoretical courses in the first three

years: CSC165H1, CSC236H1, CSC263H1, CSC373H1, and CSC463H1. If the "enriched" versions are available as alternatives, you should prefer them: CSC240H1 in place of CSC165H1 and CSC236H1, and CSC265H1 in place of CSC263H1. You should also take at least one of CSC438H1, CSC448H1, and CSC465H1.

You should also make sure you take courses in numerical analysis - CSC336H1 and CSC436H1, and possibly CSC446H1.

In the Major in Mathematics, you should prefer courses that are also in the Specialist program in Mathematics: MAT157Y1, MAT240H1, MAT247H1 and so on. Ask the advisors in the Department of Mathematics which courses they would recommend if you're planning a career in mathematics. Don't be afraid to admit your interest in CS.

### CSC and Bioinformatics/Computational Biology

Bioinformatics is a field that came into existence only in the 1990s but has become an extremely fruitful interaction between biological scientists and computer scientists. Deciphering the genome requires not just extremely clever biology but also extremely clever computer science, drawing from the study of algorithms and data structures and from data mining.

To study bioinformatics, you should enrol in the Specialist program in Bioinformatics and Computational Biology sponsored by the Department of Biochemistry, and also in the Major in Computer Science. Your Computer Science Major should include a selection of courses something like this:

CSC373H1/CSC375H1  
CSC321H1/CSC343H1  
CSC336H1/CSC350H1  
BCB410H1, BCB420H1  
CSC411H1

Some of CSC310H1, CSC324H1, CSC412H1, CSC456H1, CSC463H1

You should seek advice from both the Department of Biochemistry and the Department of Computer Science on how to distribute your courses across the two programs.

### CSC and Statistics

Here your Computer Science course choices should be somewhat similar to those for Computer Science and Mathematics: take the theoretical Computer Science courses up to the 300-level, and prefer the higher-level MAT and STA courses. For example, take STA257H1 and STA261H1 rather than STA247H1 and STA248H1.

Within Computer Science, take courses in numerical analysis (CSC336H1 and CSC436H1). Choose also from among information theory (CSC310H1), machine learning (CSC321H1 and CSC411H1), and natural language processing (CSC401H1).

### CSC and Economics

There is considerable opportunity for mutually supporting interests in Computer Science and economics in the area of economic modelling, econometrics, and numerical analysis. In Computer Science, you might choose courses such as CSC343H1 (databases), CSC358H1 (networks), and CSC369H1 (operating systems) to acquire the technical background for working with large systems and data sets, and CSC336H1 and CSC436H1 (numerical analysis) to understand the difficulties of large numerical models.

If you are interested in financial modelling, you will also want to take CSC446H1 to learn how to handle partial differential equations; to do that, you would want to have taken the necessary mathematical courses.

Applying ideas from economics to Computer Science is a little harder, but certainly economic principles apply to databases (CSC443H1) and networks (CSC458H1). CSC358H1 discusses how to model the processes involved in computer networks and in other customer-server systems. CSC304H1 (Algorithmic Game Theory and Mechanism Design) and CSC454H1 (Business of Software) would also complement your background in economics.

### CSC and Linguistics

If you are interested in both Computer Science and Linguistics, you should consider doing a Major in both. Your Major in Computer Science should focus on computational linguistics (CL), the sub-area of AI concerned with human languages ("natural languages"); researchers in this area are interested in developing programs that can "understand" and generate natural language. You should take our Computational Linguistics courses, CSC401H1 and CSC485H1. (They can be taken in either order.) As preparation, you should also take CSC324H1 (programming languages). Other courses you might find valuable are CSC384H1 (AI), CSC343H1 (databases), and the theoretical courses CSC373H1/CSC375H1 and CSC463H1.

### CSC and Physics

If you want to study Computer Science and physics, then as a physicist, you will be interested in how natural processes and human design can take us from the materials and laws of nature to useful computational machinery, and you will want to study CSC258H1 (computer organization—the way solid-state devices can be combined to build a machine that repeatedly executes instructions) and CSC369H1 (operating systems—the large software systems that organize the programs people write and run to present the appearance of a well-run self-policing machine).

As a computer scientist, you will wonder how accurately you can compute the results of calculations needed in simulating or predicting physical processes. CSC336H1 and CSC436H1 introduce you to numerical analysis, and CSC446H1 applies it to partial differential equations, used to model many physical systems.

Both a computer scientist and a physicist will wonder how to write effective programs. CSC263H1 and CSC373H1 teach you to choose appropriate data structures and algorithms, and CSC463H1 helps you to understand whether a problem is computable, and if so, whether the computation takes a reasonable amount of time.

In fourth year, you may choose CSC418H1, which depends on and also simulates the behaviour of light and mechanical systems. CSC456H1 deals with high-performance computing of the kind used in scientific computing. CSC420H1 might also be a good choice, though some preparation in artificial intelligence would be helpful for this course.

# Computer Science Programs

## Computer Science Specialist (Science Program)

### Enrolment Requirements:

This is a limited enrolment program (Type 2L) that can only accommodate a certain number of students. Eligibility is based on the following criteria:

A. Completion of at least 4.0 FCEs including CSC148H1 (with a minimum grade of 70%) and CSC165H1/CSC240H1 (with a minimum grade of 70%), AND

B. An average of the grades in CSC148H1/CSC207H1 and CSC165H1/CSC236H1/CSC240H1 that meets the department's annual cutoff. When more than one course has been completed from a list of alternatives, the higher grades will be used. Also, CSC240H1 grades will be adjusted to account for the course's greater difficulty. Finally, note that *the cutoff changes from year to year*, depending on the current capacity of the program and the pool of applicants. For more information, including historical data, please visit <http://web.cs.toronto.edu/program/ugrad/admission.htm>.

Note that students admitted to the program after second or third year will be required to pay retroactive program fees.

### Completion Requirements:

(12.0 full course equivalents [FCEs], including at least 1.5 FCEs at the 400-level)

First year (2.5 FCEs):

1. (CSC108H1, CSC148H1)/CSC150H1, CSC165H1/CSC240H1; (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

Second year (3.5 FCEs):

2. CSC207H1, CSC209H1, CSC236H1/CSC240H1, CSC258H1, CSC263H1/CSC265H1; MAT221H1/MAT223H1/MAT240H1; STA247H1/STA255H1/STA257H1

Notes:

1. Students with a strong background in an object-oriented language such as Python, Java or C++ may omit CSC108H1 and proceed directly with CSC148H1. [There is no need to replace the missing half-credit for program completion; however, please base your course choice on what you are ready to take, not on "saving" a half-credit].
2. CSC240H1 is an accelerated and enriched version of CSC165H1 plus CSC236H1, intended for students with a strong mathematical background, or who develop an interest after taking CSC165H1. If you take CSC240H1 without CSC165H1, there is no need to replace the missing half-credit for program completion; but please see Note 1.
3. Consult the Undergraduate Office for advice about choosing among CSC108H1 and CSC148H1, and between CSC165H1 and CSC240H1.

Later years (6.0 FCEs):

3. CSC369H1, CSC373H1/CSC375H1

4. 5.0 FCEs from the following:

- Any 300-/400-level CSC course;
- BCB410H1, BCB420H1, BCB430Y1;
- ECE385H1, ECE489H1;
- MAT224H1, MAT235Y1/MAT237Y1/MAT257Y1, any 300-/400-level MAT course except MAT329Y1, MAT390H1, MAT391H1;
- STA248H1/STA261H1, any 300-/400-level STA course

with at most 2.0 FCEs from MAT or STA courses, and at least 1.5 FCEs from 400-level CSC, BCB, or ECE courses.

No more than 1.0 FCE from CSC490H1, CSC491H1, CSC494H1, CSC495H1, BCB430Y1 may be used to fulfill program requirements

The choices in 4 must satisfy the requirement for an integrative, inquiry-based activity by including one of the following half-courses: CSC301H1, CSC318H1, CSC404H1, CSC411H1, CSC418H1, CSC420H1, CSC428H1, CSC454H1, CSC485H1, CSC490H1, CSC491H1, CSC494H1, CSC495H1. This requirement may also be met by participating in the PEY (Professional Experience Year) program.

### Preparing for graduate study in Computer Science

Strong students should consider the option of further study in graduate school (where the degrees offered are typically M.Sc. and Ph.D.). If you find yourself frequently receiving marks in the B+ range or better, you should consult with faculty members to learn more about graduate school and whether it would be a good option for you. You will want to ask for advice on your particular interests and you will find faculty members are happy to talk to you but there are also some course choices that should be considered by all students thinking of graduate study in Computer Science.

The focuses can help you further refine your areas of interest, but you should not take courses exclusively in one area. You will benefit by having taken an advanced course requiring considerable software development and a theory course.

It will be especially beneficial to have done a project course (CSC494H1/CSC495H1), a capstone course (CSC490H1/CSC491H1), and/or a summer research project. It is good if this individual work is in the area where you eventually decide you'd like to do your own research, but that is not essential; what you need most is some experience doing work on your own, under the mentorship of an experienced researcher.

### Choosing courses

This program offers considerable freedom to choose courses at the 300-/400-level, and you are free to make those choices on your own. We are eager to offer guidance, however, and both our Undergraduate Office and individual faculty members are a rich source of advice.

## Focus In Artificial Intelligence

### Description:

(3.5 FCEs)

Artificial Intelligence (AI) is aimed at understanding and replicating the computational processes underlying intelligent behaviour. These behaviours include the perception of one's environment, learning how that environment is structured, communicating with other

agents, and reasoning to guide one's actions. This focus is designed to provide students with an introduction to some of the key scientific and technical ideas that have been developed in AI. There are four different sub-areas of AI represented in our department: Computer Vision, Computational Linguistics, Machine Learning, and Knowledge Representation and Reasoning. These areas cover a wide variety of ideas and techniques. Students wanting to achieve this focus are required to take courses from at least two of these sub-areas (as in point 2, below).

#### Enrolment Requirements:

Enrolment in the Computer Science Specialist Program (ASSPE1689).

#### Completion Requirements:

Required Courses:

1. 1.0 FCE from the following: MAT235Y1/MAT237Y1/MAT257Y1, APM236H1/MIE262H1/STA248H1/STA261H1, CSC336H1, CSC310H1, CSC330H1, CSC438H1, CSC448H1, CSC463H1

2. 2.5 FCEs from the following, so that courses are from at least two of the four areas

- a) CSC401H1, CSC485H1
- b) CSC320H1, CSC420H1
- c) CSC321H1, CSC411H1, CSC412H1
- d) CSC384H1, CSC486H1

Suggested Related Courses:

CSC304H1, CSC324H1, COG250Y1, PSY270H1, PHL232H1, PHL342H1, STA414H1

## Focus In Computational Linguistics And Natural Language Processing

#### Description:

(4.0 FCEs)

How can we build and analyze systems that enable users to communicate with computers using human language (also called natural language) and automatically process the vast amounts of data on the web available in the form of text? The focus covers appropriate material on natural language interfaces, as well as tools such as document summarization, intelligent search over the web, and so on. Students considering this focus are encouraged to consider a Major in Linguistics. [Note 0.5 FCE in LIN is in addition to the 12.0 FCEs required to complete the Specialist program]

#### Enrolment Requirements:

Enrolment in the Computer Science Specialist Program (ASSPE1689).

#### Completion Requirements:

Required Courses

1. CSC318H1

2. CSC401H1, CSC485H1

3. LIN100Y1/LIN200H1

4. 1.5 FCEs from the following: CSC309H1, CSC321H1, CSC330H1, CSC411H1, CSC428H1, CSC486H1

5. 0.5 FCE from the following: PSY100H1, COG250Y1

Suggested Related Courses:

Other relevant Computer Science courses, depending on the student's interests, include other courses in artificial intelligence such as CSC384H1 or CSC420H1. Linguistics, Psychology, and Cognitive Science are all directly relevant to this focus, and we recommend that interested students take additional courses from any or all of those disciplines.

## Focus In Computer Systems

#### Description:

(3.5 FCEs)

Software systems are complex and interesting. Poorly done systems can be incredibly expensive: they can cost society billions of dollars and sometimes make the difference between life and death. Rapid changes in technology and applications means that the underlying systems must continually adapt. This focus takes you under the covers of software systems, laying bare the layers and introducing you to concurrency issues, scalability, multiprocessor systems, distributed computing, and more.

#### Enrolment Requirements:

Enrolment in the Computer Science Specialist Program (ASSPE1689).

#### Completion Requirements:

Required Courses:

1. CSC324H1, CSC343H1, CSC443H1, CSC469H1, CSC488H1

2. 1.0 FCE from the following: CSC372H1/ECE385H1, CSC358H1, CSC458H1

Suggested Related Courses:

1. CSC301H1, CSC309H1, CSC367H1, CSC410H1, ECE489H1,

2. Relevant courses offered at UTM: CSC347H5, CSC423H5, CSC427H5

3. Relevant courses offered by Engineering: ECE454H1, ECE568H1

## Focus In Computer Vision

### Description:

(3.5 FCEs)

Computer vision is the science and technology of machines that can see. As a science, the goal of computer vision is to understand the computational processes required for a machine to come to an understanding of the content of a set of images. The data here may be a single snapshot, a video sequence, or a set of images from different viewpoints or provided by medical scanners.

The computer vision focus introduces students to the study of vision from a computational point of view. That is, we attempt to clearly define computational problems for various steps of the overall process, and then show how these problems can be tackled with appropriate algorithms.

Students who wish to pursue computer vision should have an understanding of linear algebra and calculus of several variables. Moreover, they should be solid programmers and have a good understanding of data structures and algorithm design. These basic tools are required in order to first pose computational vision problems, and then develop and test algorithms for the solution to those problems.

### Enrolment Requirements:

Enrolment in the Computer Science Specialist Program (ASSPE1689).

### Completion Requirements:

Required Courses:

1. MAT235Y1/MAT237Y1/MAT257Y1, CSC320H1, CSC336H1, CSC411H1, CSC420H1

2. 0.5 FCE from the following: CSC412H1, CSC418H1, CSC2503H (Note: students must petition to take a graduate course.)

Suggested Related Courses:

The following are examples of topics and courses that fit naturally with a study of computational vision. The list is meant to be illustrative of the range of cognate topics, but is not necessarily complete. The ordering is alphabetical and not indicative of importance. Note: there are prerequisites for many of these courses that we do not list here.

APM462H1, COG250Y1, CSC384H1, CSC485H1, CSC486H1, ECE216H1, PHL232H1, PHY385H1, PSL440Y1, PSY270H1, PSY280H1, STA257H1/STA261H1

## Focus In Game Design

### Description:

(3.5 FCEs)

Video game design combines several disciplines within computer science, including software engineering, graphics, artificial intelligence, and human-computer interaction. It also incorporates

elements of economics, psychology, music, and creative writing, requiring video game researchers to have a diverse, multidisciplinary set of skills.

Students who wish to pursue video game design should have an understanding of linear algebra (for computer graphics modelling), computer hardware and operating systems (for console architecture), data structures, and algorithm design. Students will gain a general knowledge of the more advanced topics listed in the courses below.

### Enrolment Requirements:

Enrolment in the Computer Science Specialist Program (ASSPE1689).

### Completion Requirements:

Required courses:

1. CSC300H1, CSC301H1, CSC318H1, CSC324H1, CSC384H1, CSC418H1, CSC404H1

Suggested Related Courses:

1. CSC358H1, CSC458H1, CSC428H1,

2. MUS300H1, CIN212H1/INI222H1, CIN432H1/INI465H1, ENG235H1

3. ECO326H1, RSM482H1/MGT2056H

## Focus In Human-computer Interaction

### Description:

(6.5 FCEs)

Human-Computer Interaction (HCI) is the scientific study of the use of computers by people and the design discipline that informs the creation of systems and software that are useful, usable, and enjoyable for the people who use them. HCI students have exciting opportunities for research and graduate school; HCI professionals often have jobs with titles such as user interface architect, user interface specialist, interaction designer, or usability engineer. [Note 3.5 FCEs in SOC & PSY are in addition to the 12.0 FCEs required to complete the Specialist program]

### Enrolment Requirements:

Enrolment in the Computer Science Specialist Program (ASSPE1689).

### Completion Requirements:

Required Courses:

1. CSC300H1, CSC301H1, CSC318H1, CSC428H1
2. (SOC100H1, SOC150H1)/SOC101Y1, SOC202H1, SOC204H1/SOC200H1, SOC252H1/SOC254H1/SOC302H1 [To enrol in restricted SOC courses, please

contact the CS Undergraduate Office in the July preceding the academic year in which you plan to take the course]

- 1.0 FCE from the following: CSC309H1, CSC320H1, CSC321H1, CSC343H1, CSC384H1, CSC401H1, CSC404H1, CSC418H1, CSC485H1, CSC490H1/491H1
4. PSY100H1, PSY270H1/PSY280H1

Suggested Related Courses:

1. CSC454H1, CSC290H1
2. At least one half-course in Human Factors or Ergonomics offered by the Department of Mechanical and Industrial Engineering, such as MIE240H1, MIE343H1, MIE344H1, MIE448H1, or MIE449H1. Human factors is a discipline closely associated with human-computer interaction that approaches problems in slightly different ways.
3. ENV281H1, ENV381H1
4. IRE260H1

## Focus In Scientific Computing

**Description:**

(3.5 FCEs)

Scientific computing studies the world around us. Known and unknown quantities are related through certain rules, e.g. physical laws, formulating mathematical problems. These problems are solved by numerical methods implemented as algorithms and run on computers. The numerical methods are analyzed and their performance (e.g. accuracy, efficiency) studied. Problems, such as choosing the optimal shape for an airplane (to achieve, for example, minimal fuel consumption), finding the fair price for derivative products of the market, or regulating the amount of radiation in medical scans, can be modelled by mathematical expressions and solved by numerical techniques.

Students wishing to study scientific computing should have a strong background in mathematics - in particular calculus of several variables, linear algebra, and statistics - be fluent in programming, and have a good understanding of data structures and algorithm design.

**Enrolment Requirements:**

Enrolment in the Computer Science Specialist Program (ASSPE1689).

**Completion Requirements:**

Required Courses:

1. MAT235Y1/MAT237Y1/MAT257Y1,
2. 1.5 FCEs from the following: CSC336H1, CSC436H1, CSC446H1, CSC456H1, CSC466H1
3. 1.0 FCE from the following: CSC320H1/CSC418H1, CSC321H1/CSC411H1, CSC343H1, CSC384H1, CSC358H1/CSC458H1

Suggested Related Courses:

- CSC367H1
- MAT224H1/MAT240H1, MAT244H1, MAT334H1/  
MAT354H1, MAT337H1/MAT357H1

It is also recommended that students in this focus consider taking a half-course or two from the basic sciences (such as physics, chemistry, biology), as these sciences are the source of many problems solved by numerical techniques.

## Focus In Theory of Computation

**Description:**

(4.5 FCEs + 2.0 FCEs from required Specialist courses)

Why is it easy to sort a list of numbers, but hard to break Internet encryption schemes? Is finding a solution to a problem harder than checking that a solution is correct? Can we find good approximate solutions, even when the exact solutions seem out of reach? Theory of Computation studies the inherent complexity of fundamental algorithmic problems. On one hand, we develop ground-breaking efficient data structures and algorithms. On the other, we have yet to develop good algorithms for many problems despite decades of effort, and for these problems we strive to prove no time- or space-efficient algorithms will ever solve them. While the field has seen some successful impossibility results, there are still many problems - such as those underlying modern cryptography and security - for which we do not know either efficient algorithms or strong lower bounds!

This focus takes a rigorous, mathematical approach to computational problem-solving: students will gain a deep understanding of algorithm paradigms and measures of problem complexity, and develop the skills necessary to convey abstract ideas with precision and clarity. Many of our students go on to graduate studies and sophisticated algorithmic work in industry. This focus has natural ties with many branches of mathematics and is the foundation of many computer science fields. Consequently, our students often apply their theoretical knowledge to other fields of interest.

We strongly encourage taking the enriched theory courses (CSC240H1, CSC265H1) as well as specialist/major versions of the MAT requirements for our focus. [Depending on courses selected for points 4 & 5, students may need to complete 0.5-1.0 FCE in addition to the 12.0 FCEs required to complete the Specialist program.]

**Enrolment Requirements:**

Enrolment in the Computer Science Specialist Program (ASSPE1689).

**Completion Requirements:**

Required Courses:

1. MAT137Y1/MAT157Y1/MAT237Y1 (Note: If MAT237Y1 is used here, it cannot be counted as part of the 2.0 FCEs for point 4, below.)
2. CSC463H1
3. 2.0 FCEs from the following: CSC304H1, CSC310H1, CSC336H1, CSC438H1, CSC448H1, CSC473H1; MAT309H1, MAT332H1, MAT344H1; at UTM: CSC322H5/MAT302H5, CSC422H5; graduate courses: CSC2221H1, CSC2401H1, CSC2410H1, CSC2420H1, CSC2426H1 (note that students must petition to take a graduate course)
4. 2.0 FCEs from the following: APM236H1/MIE262H1, MIE263H1, APM421H1, APM461H1, MAT224H1/MAT247H1, MAT237Y1/MAT257Y1, MAT244H1/MAT267H1, MAT301H1/MAT347Y1, MAT315H1, MAT327H1, MAT334H1/MAT354H1,

MAT335H1, MAT337H1/MAT357H1, any 400-level MAT course, STA248H1/STA261H1, STA347H1

Notes:

1. Students who complete an independent study project (CSC494H1/CSC495H1) under the supervision of a faculty member from the Theory group may request to substitute one of CSC494H1/CSC495H1 for one of the courses in list 3 above. This request must be made directly to the department's Undergraduate Office.
2. Students who complete a graduate Topics course in Theory may request to count it towards the completion of list 3 above. This request must be made directly to the department's Undergraduate Office.

Recommended Courses:

1. Students are strongly encouraged to take the enriched theory courses: CSC240H1 and CSC265H1, rather than their regular counterparts: CSC165H1/CSC236H1 and CSC263H1, respectively.

## Focus In Web And Internet Technologies

**Description:**

(3.5 FCEs)

The Web and Internet Technologies focus introduces students to the systems and algorithms that power today's large-scale web and Internet applications such as search engines, social networking applications, web data mining applications, and content distribution networks. The focus covers the algorithm foundations of web and internet technologies, as well as implementation and system architecture.

Students who wish to pursue the Focus in Web and Internet Technologies should have a solid understanding of statistics, be good programmers, and have a good understanding of data structures and algorithm design.

To get practical experience, students pursuing the web and Internet technologies focus are encouraged to do either a term project or a summer USRA project in web and internet technologies.

**Enrolment Requirements:**

Enrolment in the Computer Science Specialist Program (ASSPE1689).

**Completion Requirements:**

Required courses:

1. STA248H1, CSC309H1, CSC343H1, CSC358H1, CSC458H1, CSC411H1
2. 0.5 FCE from the following: CSC310H1, CSC443H1, CSC469H1

Suggested Related Courses:

1. Courses offered at UTM: CSC347H5, CSC423H5, CSC427H5

2. ECE568H1

3. ENV281H1, ENV381H1

## Computer Science Major (Science Program)

**Enrolment Requirements:**

This is a limited enrolment program (Type 2L) that can only accommodate a certain number of students. Eligibility is based on the following criteria:

A. Completion of at least 4.0 FCEs including CSC148H1 (with a minimum grade of 70%) and CSC165H1/CSC240H1 (with a minimum grade of 70%), AND

B. An average of the grades in CSC148H1/CSC207H1 and CSC165H1/CSC236H1/CSC240H1 that meets the department's annual cutoff. When more than one course has been completed from a list of alternatives, the higher grades will be used. Also, CSC240H1 grades will be adjusted to account for the course's greater difficulty. Finally, note that the cutoff changes from year to year, depending on the current capacity of the program and the pool of applicants. For more information, including historical data, please visit <http://web.cs.toronto.edu/program/ugrad/admission.htm>.

Note that students admitted to the program after second or third year will be required to pay retroactive program fees.

**Completion Requirements:**

(8.0 full course equivalents [FCEs], including at least 0.5 FCE at the 400-level)

First year (2.5 FCEs):

1. (CSC108H1, CSC148H1)/CSC150H1, CSC165H1/CSC240H1; (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

Second year (2.5 FCEs):

2. CSC207H1, CSC236H1/CSC240H1, CSC258H1, CSC263H1/CSC265H1; STA247H1/STA255H1/STA257H1

Notes:

1. Students with a strong background in an object-oriented language such as Python, Java or C++ may omit CSC108H1 and proceed directly with CSC148H1. [There is no need to replace the missing half-credit for program completion; however, please base your course choice on what you are ready to take, not on saving a half-credit].
2. CSC240H1 is an accelerated and enriched version of CSC165H1 plus CSC236H1, intended for students with a strong mathematical background, or who develop an interest after taking CSC165H1. If you take CSC240H1 without CSC165H1, there is no need to replace the missing half-credit for program completion; but please see Note 1.
3. Consult the Undergraduate Office for advice about choosing among CSC108H1 and CSC148H1, and between CSC165H1 and CSC240H1.

Later years (3.0 FCEs):

3. 3.0 FCEs from the following:

- Any 200-/300-/400-level CSC course;
- BCB410H1, BCB420H1, BCB330Y1/430Y1;

- [ECE385H1](#), [ECE489H1](#);
- [MAT221H1](#)/[MAT223H1](#)/[MAT240H1](#), [MAT235Y1](#)/[MAT237Y1](#)/[MAT257Y1](#), any 300-/400-level MAT course except [MAT329Y1](#), [MAT390H1](#), [MAT391H1](#)

with at least 0.5 FCE from a 400-level CSC/BCB course, at least 1.0 additional FCE from 300-/400-level CSC/BCB/ECE courses, and at least 0.5 additional FCE from a 300-/400-level course.

No more than more than 1.0 FCE from [CSC490H1](#), [CSC491H1](#), [CSC494H1](#), [CSC495H1](#), [BCB330Y1](#)/[430Y1](#) may be used to fulfill program requirements.

The choices in 3 must satisfy the requirement for an integrative, inquiry-based activity by including one of the following half-courses: [CSC301H1](#), [CSC318H1](#), [CSC404H1](#), [CSC411H1](#), [CSC418H1](#), [CSC420H1](#), [CSC428H1](#), [CSC454H1](#), [CSC485H1](#), [CSC490H1](#), [CSC491H1](#), [CSC494H1](#), [CSC495H1](#). This requirement may also be met by participating in the PEY (Professional Experience Year) program.

## Computer Science Minor (Science Program)

### Enrolment Requirements:

This is a limited enrolment program (Type 2L) that can only accommodate a certain number of students. Eligibility is based on the following criteria:

A. Completion of at least 4.0 FCEs including [CSC148H1](#) (with a minimum grade of 70%) and [CSC165H1](#)/[CSC240H1](#) (with a minimum grade of 70%), AND

B. An average of the grades in [CSC148H1](#)/[CSC207H1](#) and [CSC165H1](#)/[CSC236H1](#)/[CSC240H1](#) that meets the department's annual cutoff. When more than one course has been completed from a list of alternatives, the higher grades will be used. Also, [CSC240H1](#) grades will be adjusted to account for the course's greater difficulty. Finally, note that the cutoff changes from year to year, depending on the current capacity of the program and the pool of applicants. For more information, including historical data, please visit <http://web.cs.toronto.edu/program/ugrad/admission.htm>.

### Completion Requirements:

(4.0 full course equivalents [FCEs])

1. ([CSC108H1](#), [CSC148H1](#))/[CSC150H1](#), [CSC165H1](#)/[CSC240H1](#)
2. [CSC207H1](#), [CSC236H1](#)/[CSC240H1](#)

#### Notes:

1. Students with a strong background in Java or C++ may omit [CSC108H1](#) and proceed directly with [CSC148H1](#).
2. [CSC240H1](#) is an accelerated and enriched version of [CSC165H1](#) plus [CSC236H1](#), intended for students with a strong mathematical background, or who develop an interest after taking [CSC165H1](#).
3. Consult the Undergraduate Office for advice about choosing among [CSC108H1](#) and [CSC148H1](#), and between [CSC165H1](#) and [CSC240H1](#).

(Total of above requirements: 2.5 FCEs. If you take fewer than 2.5 FCEs, you must take more than 1.5 FCEs from the next list, so that the total is 4.0 FCEs.)

3. 1.5 FCEs from the following list, of which at least 1.0 FCE must be at the 300-/400-level:

CSC: any 200-/300-/400-level

#### Note:

1. Computer Science Minors are limited to three 300-/400-level CSC/ECE half-courses

## Regarding Computer Science Courses

### Enrolment notes

1. The University of Toronto Mississauga and University of Toronto Scarborough Computer Science Minor subject POSTs are not recognized as restricted Computer Science programs for St. George course enrolments.

2. No late registration is permitted in any Computer Science course after the first two weeks of classes. Enrolment in most Computer Science courses above 100-level MAY be restricted. Consult the Calendar or the Arts & Science Registration Instructions and [Timetable](#) for details.

3. Students not enrolled in the Computer Science Major or Specialist programs are limited to a maximum of three 300-/400-level CSC/ECE half-courses.

### Prerequisites and exclusions

Prerequisites and exclusions for all courses are strictly enforced. Prerequisite waivers can be granted by instructors if the student demonstrates that s/he has background covering the material of the prerequisite course(s).

Please refer to the [Arts & Science Registration Instructions and Timetable](#) for prerequisite waiver deadlines.

### Dropping down from enriched to regular courses

Students may go to their college to drop down from enriched courses to regular courses. The courses are as follows: from [CSC148H1](#) to [CSC108H1](#), from [CSC240H1](#) to [CSC165H1](#) (or to [CSC236H1](#) if you have already passed [CSC165H1](#) with at least 60%), and from [CSC265H1](#) to [CSC263H1](#). Students may only drop down if there is space in the course into which they are moving.

#### Drop down deadlines:

20179, Fall session: October 4, 2017  
20181, Winter session: January 31, 2018

### Students with transfer credits

If you have transfer credits in Computer Science, or a similar subject, for courses done at another university or college, contact our Undergraduate Office (BA4252/4254) for advice on choosing courses. Also ask for advice even if you don't have transfer credits yet but are considering degree study at the University of Toronto. Without advice, you risk poor course choice or other adverse consequences.

## First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Choosing first year courses

To help you select the programming course that is right for you, see [http://web.cs.toronto.edu/program/ugrad/courses\\_ug/1st.htm](http://web.cs.toronto.edu/program/ugrad/courses_ug/1st.htm)

# Computer Science Courses

## CSC104H1 - Computational Thinking

**Hours:** 24L/12T

Humans have solved problems for millennia on computing devices by representing data as diverse numbers, text, images, sound and genomes, and then transforming the data. A gentle introduction to designing programs (recipes) for systematically solving problems that crop up in diverse domains such as science, literature, and graphics. Social and intellectual issues raised by computing. Algorithms, hardware, software, operating systems, the limits of computation.

Note: you may not take this course concurrently with any Computer Science course, but you may take CSC108H1/CSC148H1 after CSC104H1.

**Exclusion:** Any Computer Science course

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC108H1 - Introduction to Computer Programming

**Hours:** 36L

Programming in a language such as Python. Elementary data types, lists, maps. Program structure: control flow, functions, classes, objects, methods. Algorithms and problem solving. Searching, sorting, and complexity. Unit testing. No prior programming experience required.

NOTE: You may not take this course concurrently with CSC120H1/CSC148H1, but you may take CSC148H1 after CSC108H1.

**Exclusion:** CSC120H1, CSC121H1, CSC148H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC120H1 - Computer Science for the Sciences

**Hours:** 36L/12P

An introduction to computer science for students in other sciences, with an emphasis on gaining practical skills. Introduction to programming with examples and exercises appropriate to the sciences; web programming; software tools. Topics from: database design, considerations in numerical calculation, using UNIX/LINUX systems. At the end of this course you will be able to develop computer tools for scientific applications, such as the structuring and analysis of experimental data. With some additional preparation, you will also be ready to go on to CSC148H1. Practical (P) sections consist of supervised work in the computer laboratory. No programming experience is necessary.

**Exclusion:** Any CSC course, with the exception of CSC104H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC121H1 - Computer Science for Statistics

**Hours:** 36L/12P

An introduction to computer science for students planning to use computers for statistical analysis and research. Using a statistical programming environment, fundamental programming concepts, and computational topics relevant to statistics, such as issues with numerical calculation, random number generation, and management of data. Practicals consist of supervised work in the computer laboratory to reinforce concepts and develop programming skills. No previous programming experience is necessary. Please consult with the CS Undergraduate office if you intend to continue on to CSC148H1.

**Exclusion:** Any CSC course, with the exception of CSC104H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC148H1 - Introduction to Computer Science

**Hours:** 36L/24P

Abstract data types and data structures for implementing them. Linked data structures. Encapsulation and information-hiding. Object-oriented programming. Specifications. Analyzing the efficiency of programs. Recursion. This course assumes programming experience as provided by CSC108H1. Students who already have this background may consult the Computer Science Undergraduate Office for advice about skipping CSC108H1. Practical (P) sections consist of supervised work in the computing laboratory. These sections are offered when facilities are available, and attendance is required. NOTE: Students may go to their college to drop down from CSC148H1 to CSC108H1. See above for the drop down deadline.

**Prerequisite:** CSC108H1/(equivalent programming experience)

**Exclusion:** CSC207H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC165H1 - Mathematical Expression and Reasoning for Computer Science

**Hours:** 36L/24T

Introduction to abstraction and rigour. Informal introduction to logical notation and reasoning. Understanding, using and developing precise expressions of mathematical ideas, including definitions and theorems. Structuring proofs to improve presentation and comprehension. General problem-solving techniques. Running time analysis of iterative programs. Formal definition of Big-Oh. Diagonalization, the Halting Problem, and some reductions. Unified approaches to programming and theoretical problems.

**Corequisite:** CSC148H1/(CSC108H1/CSC120H1, MAT137Y1/MAT157Y1)

**Exclusion:** CSC236H1, CSC240H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC204H1 - Collaborating with Computer Scientists

**Hours:** 48L/24P

This course teaches the language, culture, and communication mechanisms necessary for effective collaboration on large-scale software projects involving both computer scientists and non-computer scientists. This course is intended for students with little or no computer science background.

**Distribution Requirements:** Humanities

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC207H1 - Software Design

Hours: 24L/12T

An introduction to software design and development concepts, methods, and tools using a statically-typed object-oriented programming language such as Java. Topics from: version control, unit testing, refactoring, object-oriented design and development, design patterns, advanced IDE usage, regular expressions, and reflection. Representation of floating-point numbers and introduction to numerical computation.

**Prerequisite:** 60% or higher in CSC148H1

**Exclusion:** CSC209H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

**Note: Please note:** The minimum prerequisite grade in CSC148H1 and CSC165H1/CSC240H1 is lower than the minimum grade for program admission. If you take this course when your grade in CSC148H1 or CSC165H1/CSC240H1 is lower than the requirement for program admission, you will be unable to enrol in a Computer Science program. If you hope to enrol in a Computer Science program in future, please ensure that you satisfy the program admission grade requirements in CSC148H1 and CSC165H1/CSC240H1 before completing any 200-level course.

## CSC209H1 - Software Tools and Systems Programming

Hours: 24L/12T

Software techniques in a Unix-style environment, using scripting languages and a machine-oriented programming language (typically C). What goes on in the operating system when programs are executed. Core topics: creating and using software tools, pipes and filters, file processing, shell programming, processes, system calls, signals, basic network programming.

**Prerequisite:** CSC207H1

**Exclusion:** CSC372H1, CSC369H1, CSC469H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC236H1 - Introduction to the Theory of Computation

Hours: 24L/12T

The application of logic and proof techniques to Computer Science. Mathematical induction; correctness proofs for iterative and recursive algorithms; recurrence equations and their solutions; introduction to automata and formal languages. This course assumes university-level experience with proof techniques and algorithmic complexity as provided by CSC165H1. Very strong students who already have this experience (e.g. successful completion of MAT157Y1) may consult the undergraduate office about proceeding directly into CSC236H1 or CSC240H1.

**Prerequisite:** 60% or higher in CSC148H1, 60% or higher in CSC165H1

**Exclusion:** CSC240H1, CSC263H1/CSC265H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

**Note: Please note:** The minimum prerequisite grade in CSC148H1 and CSC165H1/CSC240H1 is lower than the minimum grade for program admission. If you take this course when your grade in CSC148H1 or CSC165H1/CSC240H1 is lower than the requirement for program admission, you will be unable to enrol in a Computer Science program. If you hope to enrol in a Computer Science program in future, please ensure that you satisfy the program admission grade requirements in CSC148H1 and CSC165H1/CSC240H1 before completing any 200-level course.

## CSC240H1 - Enriched Introduction to the Theory of Computation

Hours: 24L/12T

The rigorous application of logic and proof techniques to Computer Science. Propositional and predicate logic; mathematical induction and other basic proof techniques; correctness proofs for iterative and recursive algorithms; recurrence equations and their solutions (including the Master Theorem); introduction to automata and formal languages. This course covers the same topics as CSC236H1, together with selected material from CSC165H1, but at a faster pace, in greater depth and with more rigour, and with more challenging assignments. Greater emphasis will be placed on proofs and theoretical analysis. Certain topics briefly mentioned in CSC165H1 or CSC236H1 may be covered in more detail in this course, and some additional topics may also be covered.

NOTE: Students may go to their college to drop down from CSC240H1 to CSC165H1 (or to CSC236H1 if they have already passed CSC165H1). See above for the drop down deadline.

**Corequisite:** CSC148H1; MAT137Y1/MAT157Y1

**Exclusion:** CSC236H1, CSC263H1/CSC265H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC258H1 - Computer Organization

**Hours:** 24L/12T/13P

Computer structures, machine languages, instruction execution, addressing techniques, and digital representation of data. Computer system organization, memory storage devices, and microprogramming. Block diagram circuit realizations of memory, control and arithmetic functions. There are a number of laboratory periods in which students conduct experiments with digital logic circuits.

**Prerequisite:** 70% or higher in CSC148H1, 70% or higher in CSC165H1/CSC240H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC263H1 - Data Structures and Analysis

**Hours:** 24L/12T

Algorithm analysis: worst-case, average-case, and amortized complexity. Expected worst-case complexity, randomized quicksort and selection. Standard abstract data types, such as graphs, dictionaries, priority queues, and disjoint sets. A variety of data structures for implementing these abstract data types, such as balanced search trees, hashing, heaps, and disjoint forests. Design and comparison of data structures. Introduction to lower bounds.

**Prerequisite:** CSC207H1, CSC236H1/CSC240H1; STA247H1/STA255H1/STA257H1

**Exclusion:** CSC265H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC265H1 - Enriched Data Structures and Analysis

**Hours:** 24L/12T

This course covers the same topics as CSC263H1, but at a faster pace, in greater depth and with more rigour, and with more challenging assignments. Greater emphasis will be placed on proofs, theoretical analysis, and creative problem-solving. Certain topics briefly mentioned in CSC263H1 may be covered in more detail in this course, and some additional topics may also be covered. Students without the exact course prerequisites but with a strong mathematical background are encouraged to consult the Department about the possibility of taking this course.

**NOTE:** Students may go to their college to drop down from CSC265H1 to CSC263H1. See above for the drop down deadline.

**Prerequisite:** CSC240H1 or an A- in CSC236H1

**Corequisite:** STA247H1/STA255H1/STA257H1

**Exclusion:** CSC263H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC300H1 - Computers and Society

**Hours:** 24L/12T

Privacy and Freedom of Information; recent Canadian legislation and reports. Computers and work; employment levels, quality of working life. Electronic fund transfer systems; transborder data flows. Computers and bureaucratization. Computers in the home; public awareness about computers. Robotics. Professionalism and the ethics of computers. The course is designed not only for science students, but also those in social sciences or humanities.

**Prerequisite:** Any half-course on computing

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## CSC301H1 - Introduction to Software Engineering

**Hours:** 24L/12T

An introduction to agile development methods appropriate for medium-sized teams and rapidly-moving projects. Basic software development infrastructure; requirements elicitation and tracking; estimation and prioritization; teamwork skills; basic UML; design patterns and refactoring; security, discussion of ethical issues, and professional responsibility.

**Prerequisite:** CSC209H1, CSC263H1/CSC265H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC302H1 - Engineering Large Software Systems

**Hours:** 24L/12T

An introduction to the theory and practice of large-scale software system design, development, and deployment. Project management; advanced UML; reverse engineering; requirements inspection; verification and validation; software architecture; performance modelling and analysis.

**Prerequisite:** CSC301H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC304H1 - Algorithmic Game Theory and Mechanism Design

**Hours:** 24L/12P

A mathematical and computational introduction to game theory and mechanism design. Topics include games in matrix and extensive form, equilibria and price of anarchy, matching markets, auctions, network externalities, tipping points, voting theory. This course is intended for economics, mathematics, and computer science students.

**Prerequisite:** STA247H1/STA255H1/STA257H1/PSY201H1/ECO227Y1, (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Recommended Preparation:** MAT223H1, CSC373H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC309H1 - Programming on the Web

**Hours:** 24L/12T

An introduction to software development on the web. Concepts underlying the development of programs that operate on the web; survey of technological alternatives; greater depth on some technologies. Operational concepts of the internet and the web, static client content, dynamic client content, dynamically served content, n-tiered architectures, web development processes, and security on the web. Assignments involve increasingly more complex web-based programs. Guest lecturers from leading e-commerce firms will describe the architecture and operation of their web sites.

**Prerequisite:** CSC209H1

**Recommended Preparation:** CSC343H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC310H1 - Information Theory

**Hours:** 24L/12T

Measuring information. The source coding theorem. Data compression using ad hoc methods and dictionary-based methods. Probabilistic source models, and their use via Huffman and arithmetic coding. Noisy channels and the channel coding theorem. Error correcting codes, and their decoding by algebraic and probabilistic methods.

**Prerequisite:** 60% or higher in CSC148H1; STA247H1/STA255H1/STA257H1/STA107H1; (MAT135H1, MAT136H1)/ MAT135Y1/ MAT137Y1/MAT157Y1, MAT221H1/MAT223H1/MAT240H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC318H1 - The Design of Interactive Computational Media

**Hours:** 24L/12T

User-centred design of interactive systems; methodologies, principles, and metaphors; task analysis. Interdisciplinary design; the role of graphic design, industrial design, and the behavioural sciences. Interactive hardware and software; concepts from computer graphics. Typography, layout, colour, sound, video, gesture, and usability enhancements. Classes of interactive graphical media; direct manipulation systems, extensible systems, rapid prototyping tools. Students work on projects in interdisciplinary teams.

**Prerequisite:** Any CSC half-course

**Recommended Preparation:** CSC300H1 provides useful background for work in CSC318H1, so if you plan to take CSC300H1 then you should do it before CSC318H1

**Distribution Requirements:** Science

## CSC320H1 - Introduction to Visual Computing

**Hours:** 24L/12P

Image synthesis and image analysis aimed at students with an interest in computer graphics, computer vision, or the visual arts. Focus on three major topics: (1) visual computing principles computational and mathematical methods for creating, capturing, analyzing, and manipulating digital photographs (image acquisition, basic image processing, image warping, anti-aliasing); (2) digital special effects applying these principles to create special effects found in movies and commercials; (3) visual programming using C/C++ and OpenGL to create graphical user interfaces for synthesizing and manipulating photographs. The course requires the ability to use differential calculus in several variables and linear algebra.

**Prerequisite:** CSC209H1/(CSC207H1, proficiency in C or C++); MAT221H1/MAT223H1/MAT240H1, (MAT136H1 with a minimum mark of 77)/(MAT137Y1 with a minimum mark of 73)/(MAT157Y1 with a minimum mark of 67)/MAT235Y1/MAT237Y1/MAT257Y1  
**Recommended Preparation:** MAT235Y1/MAT237Y1/MAT257Y1  
**Distribution Requirements:** Science

## CSC321H1 - Introduction to Neural Networks and Machine Learning

**Hours:** 24L/12P

The first half of the course is about supervised learning for regression and classification problems and will include the perceptron learning procedure, backpropagation, and methods for ensuring good generalisation to new data. The second half of the course is about unsupervised learning methods that discover hidden causes and will include K-means, the EM algorithm, Boltzmann machines, and deep belief nets.

**Prerequisite:** (MAT136H1 with a minimum mark of 77)/(MAT137Y1 with a minimum mark of 73)/(MAT157Y1 with a minimum mark of 67)/MAT235Y1/MAT237Y1/MAT257Y1, MAT221H1/MAT223H1/MAT240H1; STA247H1/STA255H1/STA257H1  
**Recommended Preparation:** MAT235Y1/MAT237Y1/MAT257Y1  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC324H1 - Principles of Programming Languages

**Hours:** 24L/12T

Programming principles common in modern languages; details of commonly used paradigms. The structure and meaning of code. Scope, control flow, datatypes, and parameter passing. Two non-procedural, non-object-oriented programming paradigms: functional programming (illustrated by languages such as Lisp/Scheme, ML or Haskell) and logic programming (typically illustrated in Prolog).

**Prerequisite:** CSC263H1/CSC265H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC336H1 - Numerical Methods

**Hours:** 24L/12T

The study of computational methods for solving problems in linear algebra, non-linear equations, and approximation. The aim is to give students a basic understanding of both floating-point arithmetic and the implementation of algorithms used to solve numerical problems, as well as a familiarity with current numerical computing environments.

**Prerequisite:** CSC148H1/CSC150H1; MAT133Y1(70%)/(MAT135H1, MAT136H1)/MAT135Y1/MAT137Y1/MAT157Y1, MAT221H1/MAT223H1/MAT240H1  
**Exclusion:** CSC350H1, CSC351H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC343H1 - Introduction to Databases

**Hours:** 24L/12T

Introduction to database management systems. The relational data model. Relational algebra. Querying and updating databases: the query language SQL. Application programming with SQL. Integrity constraints, normal forms, and database design. Elements of database system technology: query processing, transaction management.

**Prerequisite:** CSC165H1/CSC240H1/(MAT135H1, MAT136H1)/MAT135Y1/MAT137Y1/MAT157Y1; CSC207H1. Prerequisite for Engineering students only: ECE345H1/CSC190H1/CSC192H1  
**Exclusion:** CSC434H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC358H1 - Principles of Computer Networks

**Hours:** 24L/12T

Introduction to computer networks with an emphasis on fundamental principles. Basic understanding of computer networks and network protocols. Topics include network hardware and software, routing, addressing, congestion control, reliable data transfer, performance analysis, local area networks, and TCP/IP.

**Prerequisite:** CSC209H1, CSC258H1, CSC263H1/CSC265H1, STA247H1/STA255H1/STA257H1/ECO227Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC367H1 - Parallel Programming

**Hours:** 24L/12T

Introduction to aspects of parallel programming. Topics include computer instruction execution, instruction-level parallelism, memory system performance, task and data parallelism, parallel models (shared memory, message passing), synchronization, scalability and Amdahl's law, Flynn taxonomy, vector processing and parallel computing architectures.

**Prerequisite:** CSC258H1, CSC209H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC369H1 - Operating Systems

**Hours:** 24L/12T

Principles of operating systems. The operating system as a control program and as a resource allocator. The concept of a process and concurrency problems: synchronization, mutual exclusion, deadlock. Additional topics include memory management, file systems, process scheduling, threads, and protection.

**Prerequisite:** CSC209H1, CSC258H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC373H1 - Algorithm Design, Analysis & Complexity

**Hours:** 36L/12T

Standard algorithm design techniques: divide-and-conquer, greedy strategies, dynamic programming, linear programming, randomization, network flows, approximation algorithms. Brief introduction to NP-completeness: polynomial time reductions, examples of various NP-complete problems, self-reducibility. Additional topics may include approximation and randomized algorithms. Students will be expected to show good design principles and adequate skills at reasoning about the correctness and complexity of algorithms.

**Prerequisite:** CSC263H1/CSC265H1

**Exclusion:** CSC375H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC384H1 - Introduction to Artificial Intelligence

**Hours:** 24L/12T

Theories and algorithms that capture (or approximate) some of the core elements of computational intelligence. Topics include: search; logical representations and reasoning, classical automated planning, representing and reasoning with uncertainty, learning, decision making (planning) under uncertainty. Assignments provide practical experience, in both theory and programming, of the core topics.

**Prerequisite:** (CSC263H1/CSC265H1, STA247H1/STA255H1/STA257H1)/Permission of the Cognitive Science Director

**Recommended Preparation:** CSC324H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC385H1 - Microprocessor Systems

**Hours:** 24L/12T/36P

Microprocessor and embedded systems: Software techniques for real-time task creation and management. Connected device characteristics and the hardware and software ramifications. System construction and management. An examination of the issues unique to or particularly important to embedded computing. Laboratory experiments provide "hands on" experience. An open team project is done in the last few laboratory sessions.

**Prerequisite:** CSC258H1; CSC209H1/proficiency in C

**Exclusion:** CSC372H1, ECE385H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC396Y0 - Designing Systems for Real World Problems

**Hours:** TBA

This Summer Abroad special offering provides students with an opportunity to explore new environments, which improves their ability to see their own world with increased sensitivity and germinates new design ideas. In this course, students will identify a real problem in the world and work in groups on projects addressing this problem. Students will explore their problem space and the people within that space, identify needs, constraints, and requirements, and ultimately design solutions. Their designs will be iterated by gathering feedback and conducting usability testing on the early prototypes. The course projects will culminate with development of a technological solution that addresses the identified problem. Final project presentations will take place at the end of the course. This course can be counted as 0.5 FCE at the 300-level for Computer Science program completion.

**Prerequisite:** Any CSC half course, and balloting

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC401H1 - Natural Language Computing

**Hours:** 24L/12T

Introduction to techniques involving natural language and speech in applications such as information retrieval, extraction, and filtering; intelligent Web searching; spelling and grammar checking; speech recognition and synthesis; and multi-lingual systems including machine translation. N-grams, POS-tagging, semantic distance metrics, indexing, on-line lexicons and thesauri, markup languages, collections of on-line documents, corpus analysis. PERL and other software.

**Prerequisite:** CSC207H1/CSC209H1; STA247H1/STA255H1/STA257H1

**Recommended Preparation:** MAT221H1/MAT223H1/MAT240H1 is strongly recommended

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC404H1 - Introduction to Video Game Design

**Hours:** 24L/12T

Concepts and techniques for the design and development of electronic games. History, social issues, and story elements. The business of game development and game promotion. Software engineering, artificial intelligence, and graphics elements. Level and model design. Audio elements. Practical assignments leading to team implementation of a complete game.

**Prerequisite:** CSC301H1/CSC318H1/CSC384H1/CSC418H1

**Distribution Requirements:** Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## CSC410H1 - Software Testing and Verification

**Hours:** 24L/12T

Concepts and state-of-the-art techniques in quality assessment for software engineering; quality attributes; formal specifications and their analysis; testing, verification, and validation.

**Prerequisite:** CSC207H1, CSC236H1/CSC240H1

**Recommended Preparation:** CSC330H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC411H1 - Machine Learning and Data Mining

**Hours:** 24L/12T

An introduction to methods for automated learning of relationships on the basis of empirical data. Classification and regression using nearest neighbour methods, decision trees, linear models, and neural networks. Clustering algorithms. Problems of overfitting and of assessing accuracy. Problems with handling large databases. Emphasis on statistical approaches.

**Prerequisite:** CSC263H1/CSC265H1, MAT(135H1,136H1)/MAT137Y1/MAT137Y1/MAT157Y1, STA247H1/STA255H1/STA257H1

**Recommended Preparation:** CSC336H1/CSC350H1, STA248H1/STA250H1/STA261H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC412H1 - Probabilistic Learning and Reasoning

**Hours:** 24L/12T

An introduction to probability as a means of representing and reasoning with uncertain knowledge. Qualitative and quantitative specification of probability distributions using probabilistic graphical models. Algorithms for inference and probabilistic reasoning with graphical models. Statistical approaches and algorithms for learning probability models from empirical data. Applications of these models in artificial intelligence and machine learning.

**Prerequisite:** CSC411H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC418H1 - Computer Graphics

**Hours:** 24L/12T

Identification and characterization of the objects manipulated in computer graphics, the operations possible on these objects, efficient algorithms to perform these operations, and interfaces to transform one type of object to another. Display devices, display data structures and procedures, graphical input, object modelling, transformations, illumination models, primary and secondary light effects; graphics packages and systems. Students, individually or in teams, implement graphical algorithms or entire graphics systems.

**Prerequisite:** CSC336H1/CSC350H1/CSC351H1/CSC373H1, (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1, CSC209H1/ proficiency in C or C++; Prerequisite for Engineering students only: ECE345H1 or ECE352H1

**Recommended Preparation:** MAT237Y1, MAT244H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC420H1 - Introduction to Image Understanding

**Hours:** 24L/12P

Introduction to basic concepts in computer vision. Extraction of image features at multiple scales. Robust estimation of model parameters. Multiview geometry and reconstruction. Image motion estimation and tracking. Object recognition. Topics in scene understanding as time permits.

**Prerequisite:** CSC263H1/CSC265H1, (MAT135H1, MAT136H1)/MAT135Y1/MAT137Y1/MAT157Y1, MAT221H1/ MAT223H1/MAT240H1

**Recommended Preparation:** CSC320H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC428H1 - Human-Computer Interaction

**Hours:** 24L/12T

Understanding human behaviour as it applies to user interfaces: work activity analysis, observational techniques, questionnaire administration, and unobtrusive measures. Operating parameters of the human cognitive system, task analysis and cognitive modelling techniques and their application to designing interfaces. Interface representations and prototyping tools. Cognitive walkthroughs, usability studies and verbal protocol analysis. Case studies of specific user interfaces.

**Prerequisite:** CSC318H1; STA247H1/STA255H1/STA257H1; CSC209H1/proficiency C++ or Java

**Recommended Preparation:** A course in PSY; CSC209H1; (STA248H1/STA250H1/STA261H1)/(PSY201H1, PSY202H1)/(SOC202H1, SOC300H1)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC436H1 - Numerical Algorithms

**Hours:** 24L/12T

Numerical algorithms for the algebraic eigenvalue problem, approximation, integration, and the solution of ordinary differential equations. Emphasis is on the convergence, stability, and efficiency properties of the algorithms.

**Prerequisite:** CSC336H1/CSC350H1

**Exclusion:** CSC351H1

**Recommended Preparation:** MAT235Y1/MAT237Y1/MAT257Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC438H1 - Computability and Logic

**Hours:** 24L/12T

Computable functions, Church's thesis, unsolvable problems, recursively enumerable sets. Predicate calculus, including the completeness, compactness, and Lowenheim-Skolem theorems. Formal theories and the Gödel Incompleteness Theorem. Ordinarily offered in years alternating with CSC448H1.

**Prerequisite:** (CSC363H1/CSC463H1)/CSC365H1/CSC373H1/ CSC375H1/MAT247H1

**Exclusion:** MAT309H1; PHL348H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC443H1 - Database System Technology

**Hours:** 24L/12T

Implementation of database management systems. Storage management, indexing, query processing, concurrency control, transaction management. Database systems on parallel and distributed architectures. Modern database applications: data mining, data warehousing, OLAP, data on the web. Object-oriented and object-relational databases.

**Prerequisite:** CSC343H1, CSC369H1, CSC373H1/CSC375H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC446H1 - Computational Methods for Partial Differential Equations

**Hours:** 24L/12T

Finite difference methods for hyperbolic and parabolic equations; consistency, convergence, and stability. Finite element methods for 2-point boundary value problems and elliptic equations. Special problems of interest. Ordinarily offered in years alternating with CSC456H1.

**Prerequisite:** CSC351H1/(CSC336H1 (75%))/equivalent mathematical background; MAT237Y1/MAT257Y1; APM346H1/APM351Y1/(MAT244H1/MAT267H1 and exposure to PDEs)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC448H1 - Formal Languages and Automata

**Hours:** 24L/12T

Regular, deterministic, context free, context sensitive, and recursively enumerable languages via generative grammars and corresponding automata (finite state machines, push down machines, and Turing machines). Topics include complexity bounds for recognition, language decision problems and operations on languages. Ordinarily offered in years alternating with CSC438H1.

**Prerequisite:** CSC236H1/CSC240H1, CSC263H1

**Recommended Preparation:** CSC373H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC454H1 - The Business of Software

**Hours:** 24L/12T

The software and internet industries; principles of operation for successful software enterprises; innovation and entrepreneurship; software business definition and planning; business models, market and product planning; product development, marketing, sales, and support; financial management and financing of high-technology ventures; management, leadership, and partnerships. Students will all write business plans in teams.

**Prerequisite:** Five CSC half-courses at the 200-level or higher

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC456H1 - High-Performance Scientific Computing

**Hours:** 24L/12T

Computationally-intensive applications in science and engineering are implemented on the fastest computers available, today composed of many processors operating in parallel. Parallel computer architectures; implementation of numerical algorithms on parallel architectures; performance evaluation. Topics from: matrix-vector product, solution of linear systems, sparse matrices, iterative methods, domain decomposition, Fourier solvers. For students in computer science, applied mathematics, science, engineering. Ordinarily offered in years alternating with CSC446H1.

**Prerequisite:** CSC436H1/(CSC336H1 (75%))/equivalent mathematical background; CSC209H1/proficiency in C, C++, or Fortran

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC458H1 - Computer Networking Systems

**Hours:** 24L/12T

Computer networks with an emphasis on network programming and applications. An overview of networking basics: layering, naming, and addressing, packet switching fundamentals, socket programming, protocols, congestion control, routing, network security, wireless networks, multimedia, web 2.0, software-defined networking, and online social networks.

**Prerequisite:** CSC209H1, CSC258H1, CSC263H1/CSC265H1, STA247H1/STA255H1/STA257H1/ECO227Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC463H1 - Computational Complexity and Computability

**Hours:** 24L/12P

Introduction to the theory of computability: Turing machines and other models of computation, Church's thesis, computable and noncomputable functions, recursive and recursively enumerable sets, many-one reductions. Introduction to complexity theory: P, NP, polynomial time reducibility, NP-completeness, self-reducibility, space complexity (L, NL, PSPACE and completeness for those classes), hierarchy theorems, and provably intractable problems.

**Prerequisite:** CSC236H1/CSC240H1

**Exclusion:** CSC363H1/CSCC63H3, CSC365H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC465H1 - Formal Methods in Software Design

**Hours:** 24L/12T

Using mathematics to write error-free programs. Proving each refinement; identifying errors as they are made. Program development to meet specifications; modifications that preserve correctness. Useful for all programming; essential for programs that lives depend on. Basic logic, formal specifications, refinement. Conditional, sequential, parallel, interaction, probabilistic programming, and functional programming.

**Prerequisite:** CSC236H1/CSC240H1/MAT309H1

**Recommended Preparation:** CSC463H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC466H1 - Numerical Methods for Optimization Problems

**Hours:** 36L

Numerical methods for unconstrained optimization problems, in particular line search methods and trust region methods. Topics include steepest descent, Newton's method, quasi-Newton methods, conjugate gradient methods and techniques for large problems. This course will normally be offered every other year.

**Prerequisite:** CSC336H1, MAT221H1/MAT223H1/MAT240H1, MAT235Y1/MAT237Y1/MAT257Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC469H1 - Operating Systems Design and Implementation

**Hours:** 24L/12T

An in-depth exploration of the major components of operating systems with an emphasis on the techniques, algorithms, and structures used to implement these components in modern systems. Project-based study of process management, scheduling, memory management, file systems, and networking is used to build insight into the intricacies of a large concurrent system.

**Prerequisite:** CSC369H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC473H1 - Advanced Algorithm Design

**Hours:** 24L/12P

Advanced algorithm design techniques, with emphasis on the role that geometry, approximation, randomization, and parallelism play in modern algorithms. Examples will be drawn from linear programming and basics of continuous optimization; randomized algorithms for string matching, graph problems, and number theory problems; streaming algorithms and parallel algorithms in the Map-Reduce model.

**Prerequisite:** CSC373H1, MAT221H1/MAT223H1/MAT240H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC485H1 - Computational Linguistics

**Hours:** 36L

Computational linguistics and the processing of language by computer. Topics include: context-free grammars; chart parsing, statistical parsing; semantics and semantic interpretation; ambiguity resolution techniques; reference resolution. Emphasis on statistical learning methods for lexical, syntactic, and semantic knowledge.

**Prerequisite:** STA247H1/STA255H1/STA257H1 or familiarity with basic probability theory, including Bayes's theorem; CSC207H1/CSC209H1 or proficiency in Python and software development.

**Recommended Preparation:** CSC324H1/CSC384H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC486H1 - Knowledge Representation and Reasoning

**Hours:** 24L/12T

Representing knowledge symbolically in a form suitable for automated reasoning, and associated reasoning methods. Topics from: first-order logic, entailment, the resolution method, Horn clauses, procedural representations, production systems, description logics, inheritance networks, defaults and probabilities, tractable reasoning, abductive explanation, the representation of action, planning.

**Prerequisite:** CSC384H1, CSC363H1/CSC365H1/CSC373H1/CSC375H1/CSC463H1

**Recommended Preparation:** CSC330H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC488H1 - Compilers and Interpreters

**Hours:** 24L/12T

The structure of compilers, Programming language processing. Scanning based on regular expressions, Parsing using context free grammars, Semantic analysis (type and usage checking), Compiler dictionaries and tables. Runtime organization and storage allocation, code generation, optimization. Use of modern compiler building tools. Course project involves building a complete compiler.

**Prerequisite:** CSC258H1, CSC324H1, CSC263H1/CSC265H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ECE489H1 - Compilers II

**Hours:** 24L/36P

Theoretical and practical aspects of building modern optimizing compilers. Topics: intermediate representations, basic blocks and flow graphs, data flow analysis, partial evaluation and redundancy elimination, loop optimizations, register allocation, instruction scheduling, interprocedural analysis, and memory hierarchy optimizations. Students implement significant optimizations within the framework of a modern research compiler. (This course is a cross-listing of ECE540H1, Faculty of Applied Science and Engineering.)

**Prerequisite:** CSC236H1/CSC240H1

**Recommended Preparation:** ECE385H1, proficiency in C

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC490H1 - Capstone Design Project

**Hours:** 48L

This half-course gives students experience solving a substantial problem that may span several areas of Computer Science. Students will define the scope of the problem, develop a solution plan, produce a working implementation, and present their work using written, oral, and (if suitable) video reports. Class time will focus on the project, but may include some lectures. The class will be small and highly interactive. Project themes change each year. Contact the Computer Science Undergraduate Office for information about this year's topic themes, required preparation, and course enrolment procedures. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the instructor

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC491H1 - Capstone Design Project

**Hours:** 48L

This half-course gives students experience solving a substantial problem that may span several areas of Computer Science. Students will define the scope of the problem, develop a solution plan, produce a working implementation, and present their work using written, oral, and (if suitable) video reports. Class time will focus on the project, but may include some lectures. The class will be small and highly interactive. Project themes change each year. Contact the Computer Science Undergraduate Office for information about this years topic themes, required preparation, and course enrolment procedures. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the instructor

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC494H1 - Computer Science Project

**Hours:** TBA

This half-course involves a significant project in any area of Computer Science. The project may be undertaken individually or in small groups. The course is offered by arrangement with a Computer Science faculty member. Not eligible for CR/NCR option.

**Prerequisite:** Three 300-/400-level CSC half-courses, and permission of the Associate Chair, Undergraduate Studies. Contact the Computer Science Undergraduate Office for information about course enrolment procedures.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## CSC495H1 - Computer Science Project

**Hours:** TBA

This half-course involves a significant project in any area of Computer Science. The project may be undertaken individually or in small groups. The course is offered by arrangement with a Computer Science faculty member. Not eligible for CR/NCR option.

**Prerequisite:** Three 300-/400-level CSC half-courses, and permission of the Associate Chair, Undergraduate Studies. Contact the Computer Science Undergraduate Office for information about course enrolment procedures.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

# Dr. David Chu Program In Contemporary Asian Studies

## Faculty List

### Professor Emeritus

Victor Falkenheim (East Asian Studies/Political Science)

### Professors

Zaheer Baber (Sociology, University of Toronto Scarborough)  
Jacques Bertrand (Political Science)  
Loren Brandt (Economics)  
Eric Cazdyn (East Asian Studies)  
Amrita Daniere (Geography/Planning)  
Eric Fong (Sociology)  
Takashi Fujitani (History)  
Tania Li (Anthropology)  
Hy Luong (Anthropology)  
Ito Peng (Sociology)  
Katharine Rankin (Geography)  
Ka Tat Tsang (Social Work)  
Joseph Wong (Political Science)  
Jia-Lin Xie (Rotman)  
Lisa Yoneyama (East Asian Studies)  
Xiaodong Zhu (Economics)

### Associate Professors

Ruoyun Bai (Global Asia Studies, University of Toronto Scarborough)  
Joshua Barker (Anthropology)  
Ritu Birla (History)  
Alana Boland (Geography)  
Jennifer Chun (Sociology, University of Toronto Scarborough)  
Francis Cody (Anthropology/Asian Institute)  
Arti Dhand (Religion)  
Naisargi Dave (Anthropology)  
Christoph Emmrich (Religion)  
Frances Garrett (Religion)  
Kanishka Goonewardena (Geography)  
Ping-Chun Hsiung (Social Sciences, University of Toronto Scarborough)  
Kajri Jain (Visual Studies, University of Toronto Mississauga)  
Malavika Kasturi (Historical Studies, University of Toronto Mississauga)  
Ken Kawashima (East Asian Studies)  
Hui Kian Kwee (Historical Studies, University of Toronto Mississauga)  
Tong Lam (Historical Studies, University of Toronto Mississauga)  
Li Chen (Global Asia Studies, University of Toronto Scarborough)  
Ken MacDonald (Social Sciences, University of Toronto Scarborough)  
Virginia Maclaren (Geography)  
Minelle Mahtani (Human Geography, University of Toronto Scarborough)  
Lisa Mar (History, University College)  
Bonnie McElhinny (Anthropology)  
Heather Miller (Anthropology)  
Lynette Ong (Political Science/Asian Institute)  
Srilata Raman (Religion)  
Ajay Rao (Religion)

Deepali Dewan (ROM)  
Wendy Dobson (Rotman)

## Introduction

The fluid processes of transnationalization and modernization in Asia mean that it is increasingly anachronistic to approach the study of contemporary Asia from the perspective of just one country or a singular discipline. The Contemporary Asian Studies (CAS) major and minor programs offered by the Asian Institute at the Munk School of Global Affairs provide a multi-disciplinary lens through which to examine the linkages between Asia's history, its emergence onto the global stage, and the challenges and opportunities inherent in its modernity, as well as Asia's future(s) in the global arena.

The CAS program is thematically-driven, reflective of contemporary issues that are of relevance to understanding the complexities of today's Asia. The CAS courses are distinctly pan-Asian in geographic scope, providing empirical and critical coverage of South, Southeast, and East Asia through multiple disciplinary approaches to the study of the region, including Anthropology, Economics, Geography, History, Political Science, Religion, and Sociology.

By exposing students to current issues and debates in Asia, the CAS program is designed to prepare students for careers in or about Asia. In addition, the Asian Institute is committed to facilitating overseas experiential learning opportunities, including field schools, international course modules, professional internships, and study abroad opportunities. Upper-level CAS courses are designed to be research-intensive. There is no language requirement for the CAS major or minor. However, students are strongly encouraged to study an Asian language. One FCE in an approved Asian language can be credited towards the major or minor degree.

Students may also be interested in the South Asian Studies minor, which is closely connected with the Contemporary Asian Studies program.

NOTE: Students who wish to count courses towards the CAS major or minor that are not listed as CAS courses or in Group A, B, or C below (including U of T courses and transfer credits) must seek pre-approval from the program director prior to taking the course. Asian

content does not guarantee that the course will be approved for CAS program credit.

## Contemporary Asian Studies Programs

### Contemporary Asian Studies Major (Arts Program)

#### Completion Requirements:

(7.5 full courses or their equivalent)

1. CAS200Y1 or (CAS201H1 and CAS202H1)
2. CAS310H1 and CAS320H1
3. CAS400H1 and CAS450H1
4. 1.0 FCE each from Group A, B, and C
5. 1.0 additional FCE at the 300 or 400 level from Group A, B, or C, or at any level in an Asian Language
6. 0.5 FCE in a quantitative or qualitative research methods course to fulfill the Research Competency required in the program. Students may use courses listed in the calendar posting below, or another course as approved by the program director.

### Contemporary Asian Studies Minor (Arts Program)

#### Completion Requirements:

(4 full courses or their equivalent)

1. CAS200Y1 or (CAS201H1 and CAS202H1)
2. CAS310H1 and CAS320H1
3. 2 additional FCEs from Group A, B, or C (excluding 100-level courses), OR 1 FCE from Group A, B, and/or C, and 1 FCE at any level in an Asian language.

## Groups of Elective Courses

These are courses pre-approved to count towards the CAS program. Note that not all electives are offered every year. Some may not be offered on a regular basis and/or may only be offered to students enrolled in a POST sponsored by the department or unit offering the courses. Students are responsible for checking co- and prerequisites for all courses listed below.

## Course Groups

### Group A: Political Transformation

- [CAS390H1 Special Topics](#)
- [CAS430H1 Nationalism and Revolution in Asia](#)
- [EAS345Y1 The Rise of Greater China: Issues & Topics \(formerly EAS345H1\)](#)
- [EAS357H1 Mao's China and Beyond](#)
- [EAS364H1 China's Cultural Revolution: History and Memory](#)
- [EAS374H1 Modern Japan and Colonialism](#)
- [EAS464H1 The Korean War](#)
- [EAS474H1 U.S. and Canada's Wars in Asia](#)
- [EAS484Y1 The Japanese Empire](#)
- [JHA384H1 Japan in the World, mid-16th to mid-20th century](#)
- [JHA394H1 The Asia Pacific War](#)
- [JPA331Y1 Issues in Contemporary Chinese Politics](#)
- [JPA376Y0 Transforming Global Politics: Comparative and Chinese Perspectives \(formerly POL 376Y1\)](#)
- [HIS494H1 Gandhi's Global Conversations](#)
- [POL215Y1 Politics and Transformation of Asia-Pacific](#)
- [POL302Y1 State & Society in 20th Century China \(formerly JMC 301Y1\)](#)
- [POL328H1 Politics and Government in South Asia \(formerly POL328Y1\)](#)
- [POL357Y1 Topics in South Asian Politics](#)
- [POL431Y1 Politics and Society in Contemporary China](#)
- [POL441H1 Topics in Asian Politics](#)

### Group B: Social and Economic Transformation

- [CAS370H1 Asian Cities](#)
- [CAS420H1 Asia and the New Global Economy \(formerly JPA420H1\)](#)
- [CDN230H1 Asian Canadian History \(formerly UNI230H1\)](#)
- [CDN390H1 Chinese Canadian Studies \(formerly UNI390H1\)](#)
- [ECO435H1 The Economics of Modern China](#)
- [GGR342H1 The Changing Geography of Southeast Asia](#)
- [GGR343H1 The Changing Geography of China](#)
- [SAS114H1 Introduction to South Asian Studies \(formerly SAS114Y1\)](#)
- [ANT341H1 China in Transition \(formerly ANT341Y1\)](#)
- [ANT472H1 Japan in Global Context: Anthropological Perspectives \(formerly ANT354Y1 and ANT354H1\)](#)
- [ANT477H1 Transnational Korea in and outside the Peninsula \(formerly ANT377H1\)](#)
- [EAS105H1 Modern East Asia](#)
- [EAS247H1 History of Capitalism in Modern Japan](#)
- [EAS289Y1 Environment and East Asia](#)
- [EAS328H1 Science, Technology and Society in Modern China](#)
- [EAS333H1 Modernism and Colonial Korea](#)
- [EAS347H1 Everyday Life in Modern Japan](#)
- [EAS372H1 The Postwar, Cold War and Divided Koreas](#)
- [EAS375H1 Postwar Japan: Crisis, Apocalypse](#)
- [EAS378H1 Edo, Osaka, and Kyoto: Urban Life in Early Modern Japan](#)

- [EAS457H1 Special Topics in Modern Japanese History](#)
- [EAS473H1 Modern Korean History Seminar](#)
- [HIS280Y1 History of China](#)
- [HIS281Y1 History of Modern Japan](#)
- [HIS282Y1 History of South Asia](#)
- [HIS283Y1 Southeast Asian Crossroads](#)
- [HIS284Y1 Viet Nam: Crossroads of Asia](#)
- [HIS315H1 Narratives of Viet Nam](#)
- [HIS328H1 Modern China \(formerly HIS328Y1\)](#)
- [HIS346H1 Rice and Spice in Southeast Asia: a Regional Food History](#)
- [HIS385H1 The History of Hong Kong](#)
- [HIS470H1 History, Rights, and Difference in South Asia](#)
- [HIS480H1 Modernity and its Others: History and Postcolonial Critique](#)
- [JHA384H1 Japan in the World, mid-16th to mid-20th century](#)
- [SOC218H1 Asian Communities in Canada \(formerly SOC218Y1\)](#)

## Group C: Cultural Expression/Exploration

- [CAS350H1 Asian Youth Cultures](#)
- [CAS360H1 Asian Genders](#)
- [CAS414H1 Public Culture and Media in Asia](#)
- [CDN307H1 Asian Cultures in Canada \(formerly UNI307H1\)](#)
- [CIN376Y1 Chinese Cinemas](#)
- [EAS251H1 Aesthetics and Politics in 20th Century Korea](#)
- [EAS307H1 Chinese Political Philosophy](#)
- [EAS314H1 Culture & World After Hiroshima & Nagasaki](#)
- [EAS333H1 Modernism and Colonial Korea](#)
- [EAS394H1 Film Culture in Contemporary China](#)
- [EAS431H1 Advanced Topics in Japanese Cinema](#)
- [FAH363H1 The Mechanics of the Image in East Asia](#)
- [FAH364H1 Visual South Asia](#)
- [FAH368H1 Encounters: Art Within and Beyond East Asia](#)
- [FAH462H1 Outside East Asian Art](#)
- [FAH463H1 Materiality, Objecthood, Connoisseurship and Collecting in the Arts of East Asia](#)
- [FAH464H1 Transregional East Asian Art](#)
- [FAH465H1 Exhibiting China](#)
- [FAH466H1 Photography in India](#)
- [HIS448H1 Gender in East and Southeast Asia \(formerly HIS391H1\)](#)
- [HIS467H1 French Colonial Indochina: History, Cultures, Texts, Film \(formerly HIS467Y1\)](#)
- [MUS209H1 Performing Arts of South Asia](#)
- [RLG205H1 Hinduism](#)
- [RLG206H1 Buddhism](#)
- [RLG311H1 Gender, Body and Sexuality in Asian Traditions \(formerly RLG236H\)](#)
- [RLG312H1 Gender, Body and Sexuality in Islam](#)
- [RLG355H1 Anthropology of Islam](#)
- [RLG356H1 Islam in China](#)
- [RLG358H1 Special Topics in Hinduism](#)
- [RLG361H1 Literatures of Hinduism](#)
- [RLG364H1 Hinduism and Contemporary Media](#)
- [RLG365H1 Modern Hinduism](#)
- [RLG366H1 Hindu Philosophy](#)
- [RLG372H1 Tibetan Buddhism](#)

- [RLG373H1 Buddhist Ritual](#)
- [RLG376H1 Buddhism in South and Southeast Asia](#)
- [RLG378H1 Himalayan Buddhism](#)
- [RLG464H1 History and Historiography of Buddhism](#)
- [RLG472H1 Religion and Aesthetics in South Asia](#)
- [NEW214Y1 Socially Engaged Buddhism](#)

## Quantitative and Qualitative Reasoning Competency

- [ANT447H1 Ethnographic Practicum: Metropolis](#)
- [ANT449H1 Ethnographic Practicum: Infrastructures](#)
- [DTS300H1 Qualitative and Quantitative Reasoning](#)
- [ECO220Y1 Quantitative Methods in Economics](#)
- [ECO227Y1 Quantitative Methods in Economics](#)
- [GGR225H1 Power of Maps and Geographic Information](#)
- [GGR270H1 Introductory Analytical Methods](#)
- [GGR271H1 Social Research Methods](#)
- [MUN105Y1 Global Problem-Solving: Laboratory Opportunities](#)
- [POL222H1 Introduction to Quantitative Reasoning I \(formerly POL 322H1\)](#)
- [POL419H1 Quantitative Methods and Data Analysis](#)
- [PSY201H1 Statistics I](#)
- [STA201H1 Why Numbers Matter](#)
- [STA220H1 The Practice of Statistics I](#)
- [SOC202H1 Introduction to Quantitative Methods in Sociology](#)
- [SOC204H1 Introduction to Qualitative Methods in Sociology](#)

## Courses with Priority Enrolment

In addition to the CAS and joint courses listed below, the following courses offer priority enrolment for CAS students:

[CIN376Y1](#) - Chinese Cinemas  
[EAS328H1](#) - Science, Technology and Society in Modern China  
[JPA376Y0](#) - Transforming Global Politics: Comparative and Chinese Perspectives  
[POL215Y1](#) - Politics and Transformation of Asia-Pacific  
[POL328H1](#) - Politics and Government in South Asia  
[SAS114H1](#) - Introduction to South Asian Studies

## Contemporary Asian Studies Courses

### CAS201H1 - Asian Sites, Global Questions, Part 1

**Hours:** 24L

This course, along with CAS202H1, addresses Asia empirically in contemporary global formations and as an idea in the global imagination. It introduces students to critical research methods and scholarship on Asia and its transnational formations. At the same time, it grapples with contemporary global problems, as well as Asian-Canadian connections posed by the unique configurations of politics, economy, culture and historical memory in contemporary Asian sites. Interdisciplinary analytical and research methods are introduced to provide area studies grounding and conceptual framing. This course provides preparation to delve into located Asia-based studies to ask universal questions on the nature of democracy, authoritarianism, markets, social justice, and the meanings and media for cultural expression. It informs students aiming to take more advanced courses on Asia and globalization and provides the foundation for the Contemporary Asian Studies major and minor. CAS201H1 introduces students to basic social science frameworks in the study of global Asia.

**Prerequisite:** 4 FCEs

**Exclusion:** CAS200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### CAS202H1 - Asian Sites, Global Questions, Part 2

**Hours:** 24L

This course, along with CAS201H1, addresses Asia empirically in contemporary global formations and as an idea in the global imagination. It introduces students to critical research methods and scholarship on Asia and its transnational formations. At the same time, it grapples with contemporary global problems, as well as Asian-Canadian connections posed by the unique configurations of politics, economy, culture and historical memory in contemporary Asian sites. Interdisciplinary analytical and research methods are introduced to provide area studies grounding and conceptual framing. This course provides preparation to delve into located Asia-based studies to ask universal questions on the nature of democracy, authoritarianism, markets, social justice, and the meanings and media for cultural expression. It informs students aiming to take more advanced courses on Asia and globalization and provides the foundation for the Contemporary Asian Studies major and minor. CAS202H1 puts the frameworks introduced in CAS201H1 in conversation with practical methods in applied/policy studies.

**Prerequisite:** CAS201H1

**Exclusion:** CAS200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### CAS310H1 - Comparative Colonialisms in Asia

**Hours:** 24L

This course analyzes the impact of colonialism in South, East, and Southeast Asia and the various ways in which pre-colonial traditions intersect with and reshape colonial and postcolonial process across the various regions of Asia. The course will examine the conjunctures of economy, politics, religion, education, ethnicity, gender, and caste, as these have played out over time in the making and re-making of Asia as both idea and place. Attention will be paid to postcolonial and indigenous theories, questions of the colonial from the perspective of Asian Studies, and debates about the meaning of postcolonialism for the study of Asia now and in the future.

**Prerequisite:** CAS200Y1 or CAS201H1

**Recommended Preparation:** CAS202H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

### CAS320H1 - Comparative Modernities in Asia

**Hours:** 24L

Since at least the late 1700s, the effects of capitalism across the globe have profoundly transformed the landscapes of human livelihood, consumption, production and governance in Asia. While colonial empires have declined, new empires have emerged, and a growing number of countries have witnessed the rise of nationalism and independent states, social, political and technological revolutions, and most recently neoliberal globalization. This course theorizes and explores these dramatic changes in a comparative framework. It is aimed at students wishing to better understand the great transformations of modern Asia in a global context.

**Prerequisite:** CAS200Y1 or CAS201H1

**Recommended Preparation:** CAS202H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

### JPA331Y1 - Issues in Contemporary Chinese Politics

**Hours:** 48L

The course covers topics of interest in China from the Communist takeover in 1949 through to the reform period of the 1980s, 1990s and 2000s. It will also address aspects of China's diplomacy related to its growing economic power. (*Given by the Department of Political Science and the Contemporary Asian Studies Program*)

**Prerequisite:** 2.0 POL courses or CAS200Y1/CAS201H1

**Exclusion:** POL300H1 F (taken in 2009-10 or 2010-11)/POLC16H3

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CAS350H1 - Asian Youth Cultures

**Hours:** 24L

In focusing on youth in Asia, this course brings together two disputed cultural formations of substantial contemporary importance. Both youth and Asia are increasingly invoked on the global stage in support of a wide range of interests. Examining practices of young people and the idea of youth in the context of Asia requires critical attention to the promises and fears that attach to the rise of Asian economies, international demographic transitions, the growth of a global middle-class, increasing consumption disparities, changing immigration patterns, expanding technological skills, global/local environmental concerns, and young peoples shifting political priorities and loyalties. The course may consider: youth subcultures, styles, music, and politics.

**Prerequisite:** Minimum of 6 FCEs

**Recommended Preparation:** CAS200Y1 or CAS201H1 and CAS202H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## CAS360H1 - Asian Genders

**Hours:** 24L

This course will explore ways that gender is mobilized and produced in parts of Asia. It seeks to understand gender in its diversity and in attempts to "fix" or locate it in various bodies and places. Attempts will be made to see how gender is made knowable in terms of sexuality, medicine, nation, class, ethnicity, religion, and other discourses.

**Prerequisite:** Minimum of 6 FCEs

**Recommended Preparation:** CAS200Y1 or CAS201H1 and CAS202H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CAS370H1 - Asian Cities

**Hours:** 24L

This course offers a multidisciplinary perspective of urban life in Asia. The thematic focus will be on how the urban intersects with modernities and postcolonial formations. Drawing on recent scholarship in the social sciences and the humanities, we will examine the realignment of cultural, political, and economic forces associated with Asia's diverse processes of urbanization.

**Prerequisite:** Minimum of 6 FCEs

**Recommended Preparation:** CAS200Y1 or CAS201H1 and CAS202H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JHA384H1 - Japan in the World, mid-16th to mid-20th century

**Hours:** 24L

This course examines Japan within the context of world history from the mid-16th to the mid-20th century. Rather than seek comprehensive coverage of Japan's national history along a linear timeline, we will use Japan as a lens through which to consider key moments in the history of the modern world.

**Prerequisite:** HIS102Y1/HIS103Y1/HIS107Y1/HIS241H1/HIS242H1/HIS244H1/HIS250H1/HIS250Y1/HIS271Y1/HIS280Y1/HIS281Y1/HIS282Y1/HIS283Y1/HIS291H1/HIS291Y1/HIS292H1/HIS292Y1/HIS297Y1 or permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CAS390H1 - Special Topics

**Hours:** 24L

Course content varies in accordance with the interest of the instructor. Check <http://munkschool.utoronto.ca/ai/cas> for an updated description.

**Prerequisite:** Minimum of 6 FCEs

**Recommended Preparation:** CAS200Y1 or CAS201H1 and CAS202H1

**Distribution Requirements:** Social Science

## CAS393H1 - Independent Research

**Hours:** TBA

Supervised independent research on a topic agreed on by the student and supervisor before enrolment in the course. Open to advanced students with a strong background in contemporary Asian studies. A maximum of one year of Independent Research courses is allowed per program. Contact hours with the supervisor may vary, but typically comprise of one hour per week. Not eligible for CR/NCR option.

**Prerequisite:** At least 10 FCEs, permission from Program Director

## CAS393Y1 - Independent Research

**Hours:** TBA

Supervised independent research on a topic agreed on by the student and supervisor before enrolment in the course. Open to advanced students with a strong background in contemporary Asian studies. A maximum of one year of Independent Research courses is allowed per program. Contact hours with the supervisor may vary, but typically comprise of one hour per week. Not eligible for CR/NCR option.

**Prerequisite:** At least 10 FCEs, permission from Program Director

**Distribution Requirements:** Social Science

## JHA394H1 - The Asia Pacific War

**Hours:** 24L

This course examines the Second World War in the Asia Pacific region and highlights: (1) how imperialism and colonialism of both the Euro-American and Japanese varieties were central to the War's outbreak, conduct, and "resolution"; (2) various "local" rather than simply national experiences and memories of the War, including those of marginalized groups in Japan and its colonies, "comfort women", victims of war atrocities, Asian North Americans, African Americans, and Pacific Islanders.

**Prerequisite:** HIS107Y1/ HIS242H1/ HIS250H1/ HIS251H1/ HIS263Y1/ HIS271Y1/ HIS280Y1/ HIS281Y1/ HIS282Y1/ HIS283Y1/ HIS284Y1/ HIS292Y1/ HIS311Y1/ HIS317H1/ HIS328H1/ HIS338H1/ HIS343H1/ HIS343Y1/ HIS344H1/ HIS344Y1/ HIS351Y1/ HIS361Y1/ HIS377H1/ HIS385H1/ HIS385Y1

**Recommended Preparation:** One or more courses on Japan, China, Korea, or Southeast Asia in any department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CAS400H1 - Interdisciplinary Research in Methods in Contemporary Asian Studies

**Hours:** 24S

This seminar addresses Asian worlds In Asia, transnationally, and locally to cultivate new approaches to global processes and problems. The course explores key Asian sites that open new configurations for studying interactions between economic/environmental development, political change, and migration and cultural politics. It provides an advanced and systematic overview of the research methodologies that students have been exposed to throughout the CAS program. These include historical-archival, ethnographic, visual/media, and statistical/quantitative methods that allow us to map Asian political, economic, and cultural formations, and through them, global challenges. The seminar builds interdisciplinary conversations attentive to both critical problematizing and problem-solving, to qualitative and applied projects. Together with CAS450H1, it is the required capstone to the Contemporary Asian Studies major.

**Prerequisite:** CAS200Y1/(CAS201H1, CAS202H1); CAS310H1

**Exclusion:** CAS400Y1

**Recommended Preparation:** CAS320H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

**Note:** This course will offer an International Course Module in Indonesia in February Reading Week 2018.

## CAS413H1 - Asia and Canada

**Hours:** 24S

This course is an interactive, participatory seminar. It will provide an opportunity to complement theoretical understanding about Asia acquired in other courses through hands-on research and experiential learning. The course will enable students to link studying Asia and Canada to career trajectories in the field of development and research.

**Prerequisite:** At least 14 FCEs

**Exclusion:** NEW413H1, SAS413H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CAS414H1 - Public Culture and Media in Asia

**Hours:** 24S

This upper-level seminar will introduce students to the interdisciplinary study of popular culture and mass-mediated cultural forms in Asia. Through readings about popular protest, festivals, cinema, print, television, and music this course provides methodological tools to interpret the politics of representation and the formation of alternative modernities in the Asian continent and among the diaspora. The course will furthermore familiarize students with a range of theoretical lenses for conceptualizing the different meanings of the public from a modern Asian perspective.

**Prerequisite:** At least 14 FCEs

**Exclusion:** NEW414H1, SAS414H1

**Recommended Preparation:** CAS200Y1 or CAS201H1 and CAS202H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## CAS420H1 - Asia and the New Global Economy (formerly JPA420H1)

**Hours:** 24S

This course explores the rise of Asia and its integration into the new global economy (labour, capitalism, knowledge economy, economic nationalism, inequality, gender, the meaning of capitalism, democracy, among others), exposing students to diverse disciplinary perspectives. Geographical coverage is pan-Asian, including East, Southeast and South Asia.

**Prerequisite:** At least 14 FCEs

**Exclusion:** JPA420H1

**Recommended Preparation:** CAS200Y1 or CAS201H1 and CAS202H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CAS430H1 - Nationalism and Revolution in Asia

**Hours:** 24L

This course explores the far-reaching social, political, and cultural transformations in modern East, Southeast, and South Asia, focusing on the twentieth-century revolutionary histories and struggles to establish modern nation-states. The course adopts a topical approach within a chronological and comparative framework to highlight major historical movements and theoretical issues significant to the Asian experience.

**Prerequisite:** At least 14 FCEs

**Exclusion:** HIS382H1, ASI430H1

**Recommended Preparation:** CAS200Y1/(CAS201H1, CAS202H1), CAS310H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CAS450H1 - Asian Pathways Research Practice

**Hours:** 24S

This seminar builds on the systematic overview of research methodologies of the Contemporary Asian Studies major and its capstone course, CAS400H1. CAS450H1 provides students with the opportunity to research questions of contemporary relevance stemming from Asia and its transnational networks and communities. Addressing a range of methodologies, including historical-archival, ethnographic, visual/media, and statistical/quantitative, the course emphasizes research experience outside the classroom, in Asia as well as locally with communities in Toronto. Students will develop their own research contributions while working collaboratively.

**Prerequisite:** At least 14 FCEs, including CAS200Y1/(CAS201H1, CAS202H1); CAS310H1; CAS400H1

**Exclusion:** CAS400Y1

**Recommended Preparation:** CAS320H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CAS490H1 - Special Topics in Contemporary Asian Studies

**Hours:** 24S

Course content varies in accordance with the interest of the instructor. Check <http://munkschool.utoronto.ca/ai/cas> for an updated description.

**Prerequisite:** At least 14 FCEs including CAS200Y1/(CAS201H1, CAS202H1) and CAS310H1; and enrolment in the Contemporary Asian Studies major or minor or permission from the Program Director.

**Recommended Preparation:** CAS320H1

**Distribution Requirements:** Humanities; Social Science

## CAS498H1 - Independent Research

**Hours:** TBA

Supervised independent research on a topic agreed on by the student and supervisor before enrolment in the course. Open to advanced students with a strong background in contemporary Asian studies. A maximum of one year of Independent Research courses is allowed per program. Contact hours with the supervisor may vary, but typically comprise of one hour per week. Not eligible for CR/NCR option.

**Prerequisite:** At least 14 FCEs including CAS200Y1/(CAS201H1 and CAS202H1), CAS310H1; enrolment in the Contemporary Asian Studies major or minor, and permission from the Program Director

**Recommended Preparation:** CAS320H1

**Distribution Requirements:** Social Science

## CAS498Y1 - Independent Research

**Hours:** TBA

Supervised independent research on a topic agreed on by the student and supervisor before enrolment in the course. Open to advanced students with a strong background in contemporary Asian studies. A maximum of one year of Independent Research courses is allowed per program. Contact hours with the supervisor may vary, but typically comprise of one hour per week. Not eligible for CR/NCR option.

**Prerequisite:** At least 14 FCEs including CAS200Y1/(CAS201H1, CAS202H1), CAS310H1; enrolment in the Contemporary Asian Studies major or minor, and permission from the Program Director

**Recommended Preparation:** CAS320H1

**Distribution Requirements:** Social Science

Breese Davies, MA, LLB

## Introduction

The Centre for Criminology and Sociolegal Studies is a research and teaching unit at the [University of Toronto](#). Founded in 1963 by Prof. John Edwards, the Centre's [faculty](#) and students study crime, order and security from a variety of disciplinary perspectives and theoretical approaches. With backgrounds in sociology, history, law, psychology, philosophy and political science, the faculty are actively engaged in Canadian and international criminological research. The Centre's [library](#) (the Criminology Information Service) houses the leading Canadian research collection of criminological material, consisting of more than 25,000 books, journals, government reports, statistical sources and other documents.

In 2013, the undergraduate program became integrated with the Centre for Criminology and Sociolegal Studies. The close relationship between the Centre for Criminology and Sociolegal Studies and Woodsworth College helps to foster even greater academic excellence for students enrolled in the Criminology and Sociolegal Studies program as they will continue to benefit from the rich academic support services and facilities available at the College, including the Academic Writing Centre. Woodsworth College remains the home of the Undergraduate Program Office and the Criminology and Sociolegal Studies Students' Association (CRIMSA).

The Criminology and Sociolegal Studies program incorporates theory, research methods, and knowledge from a wide range of other disciplines such as history, political science, philosophy, sociology, psychology, law and economics. The program provides students with a sound foundation for the understanding of crime and

the administration of justice in Canada and abroad, and, more generally, the processes of social order and disorder. Most students combine their studies in Criminology and Sociolegal Studies with programs in Political Science, Psychology or Sociology.

People with backgrounds in Criminology and Sociolegal Studies are found working in Correctional Services, Law Enforcement, Courts, Government departments, NGOs and other settings. A career in Criminology and Sociolegal Studies requires additional education and experience beyond the undergraduate level. Please visit our website for a comprehensive career information page, course forms and other program resources.

## Regarding Program Enrolment

Admission to major and specialist programs will be determined by a student's mark in specific courses. See program descriptions for details on the entry requirements. These are limited enrolment programs that can only accommodate a limited number of students. Achieving the marks required does not necessarily guarantee admission to the program in any given year. Requests for admission will be considered in the first program request period only (April 1 - May 17, 2017). For detailed program application instructions ("type 3- with a no indicator") click [here](#). Do not change your program after year 3 if you are required to complete your degree in four years as prerequisites and program requirements will not be waived. Due to the limited enrolment nature of this program students are strongly advised to enroll in backup programs.

## Criminology and Sociolegal Studies Programs

### Criminology and Sociolegal Studies - Specialist (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program ("type 3-No indicator") and achieving the minimum mark threshold does not guarantee admission to the Criminology and Sociolegal Studies specialist in any given year. Eligibility will be based on a student's mark in the required courses listed below. The precise mark threshold is an estimate of what will be required in the 2017 program admission cycle.

Applying after first year: There is no admission to this program after first year.

Applying after second year:

1. Student must be enrolled in the Criminology and Sociolegal Studies major (ASMAJ0826) and have completed a minimum of 8.0 FCEs.
2. The estimated mark threshold is a combined average of at least 80% in CRI205H1, CRI210H1 and CRI225H1.

Applying after third year:

1. Student must be enrolled in the Criminology and Sociolegal Studies major (ASMAJ0826) and have completed at least 12.0 FCEs.
2. The estimated mark threshold is a combined average of at least 80% in four 300+ level half-credit CRI lecture or seminar courses and 1.0 FCE from CRI205H1, CRI210H1 and CRI225H1.

Important:

1. Requests for admission will be considered in the first program request period only (April 1-May 17, 2017). For detailed program enrolment instructions for type 3-No programs please click here.
2. Due to the limited enrolment nature of this program students are strongly advised to enroll in backup programs.

### Completion Requirements:

The following requirements apply to students admitted to the Criminology and Sociolegal Studies specialist in 2017. Each course requirement is individual and cannot be used more than once. A course taken on a CR/NCR basis may not be used to satisfy program requirements.

Total FCEs: 11.0 of which 7.0 FCEs must be CRI courses (including 3.0 FCEs 300+level courses from Group A and 1.0 FCE 400-level from Group B) .

1. 2.0 FCEs from ECO/HIS/PHL/POL/PSY/SOC (any combination/level)
  2. All of: CRI205H1, CRI210H1, CRI225H1, CRI335H1, CRI340H1, CRI343H1, CRI350H1
  3. At least 2.5 FCEs from Group A
  4. At least 1.0 FCE from Group B
  5. Additional FCEs (excluding those already counted) from Groups A, B or C for a total of 11.0 FCEs
- Note: Students may use a maximum of 1.0 Independent Study FCE and 1.0 Research Participation FCE towards their Criminology & Sociolegal Studies program.

Group A: CRI300H1/ CRI364H1/ CRI365H1/ CRI370H1/ CRI380H1/ CRI383H1/ CRI385H1/ CRI390H1/ CRI391H1/ CRI392H1/ CRI393H1/ CRI394H1/ CRI395H1/ CRI395Y1/ CRI396H1/ CRI397Y1/ CRI450H1

Group B: CRI415H1/ CRI420H1/ CRI422H1/ CRI425H1/ CRI427H1/ CRI428H1/ CRI429H1/ CRI431H1/ CRI435H1/ CRI445H1/ CRI480H1/ CRI487H1/ CRI490H1/ CRI491H1/ CRI498H1

Group C: ANT444Y1/ HIS411H1/ PHL271H1/ PHL370H1/ POL242Y1/ PSY201H1/ PSY202H1/ PSY220H1/ PSY240H1/ PSY328H1/ SOC205H1/ SOC212H1/ SOC306Y1/ SOC313H1/ SOC315H1/ SOC413H1/ TRN412H1/ CRI215H1/ CRI389Y0

Note about non CRI courses:

Some courses may be available only to students who have completed specified prerequisites and/or are enrolled in a program sponsored by the department offering the course. Course enrolment

conditions are listed in the Arts and Science timetable. Course descriptions, prerequisites, corequisites and exclusions are listed in the Calendar.

Students who have completed criminology/sociolegal type courses in the Faculty of Arts and Science that are not included in Group C may email the Program Coordinator to find out if the courses can be used to complete Group C program requirements.

## Criminology and Sociolegal Studies - Major (Arts Program)

### Enrolment Requirements:

This is a limited enrolment program (type 3-No) and achieving the minimum mark threshold does not guarantee admission to the Criminology and Sociolegal Studies major in any given year. Eligibility will be based on a student's mark in the required courses listed below. The precise mark threshold is an estimate of what will be required in the 2017 program admission cycle.

Applying after first year:

1. Completion of at least four full-course equivalents.
2. Completion of two full-course equivalents taken in 2016-2017 with the following course code indicators: ECO/HIS/PHL/POL/PSY/SOC. Any course (and level) combination from this list is acceptable. The estimated mark threshold is a combined average of 70% in these 2.0 FCEs.

Note: Courses with other course code indicators will not be accepted.

Applying after second or third year: Same as above.

Important:

1. Requests for admission will be considered in the first program request period only (April 1-May 17, 2017). For detailed program enrolment instructions for type 3-No programs please click here.
2. Due to the limited enrolment nature of this program students are strongly advised to enroll in backup programs.

### Completion Requirements:

The following requirements apply to students admitted to the Criminology and Sociolegal Studies major in 2017. Students must complete a total of 8.0 FCEs including at least 2.0 CRI 300+level FCEs, 0.5 of which must be a 400-level CRI course. Each course requirement is individual and cannot be used more than once. A course taken on a CR/NCR basis may not be used to satisfy program requirements.

- 1: 2.0 FCEs from ECO/HIS/PHL/POL/PSY/SOC
  - 2: All of CRI205H1, CRI210H1, CRI225H1
  - 3: At least 2.0 300+ level FCEs from Group A, at least 0.5 must be a 400-level lecture/seminar course
  - 4: At least 0.5 from Group B
  - 5: Additional courses (excluding those already counted) from Groups A and C for a total of 8.0 FCEs
- Note: Students may use a maximum of 1.0 Independent Study FCE and 1.0 Research Participation FCE towards the Criminology & Sociolegal Studies program.

Group A: CRI300H1/ CRI335H1/ CRI340H1/ CRI343H1/ CRI364H1/ CRI365H1/ CRI370H1/ CRI380H1/ CRI383H1/ CRI385H1/

CRI386H1/ CRI390H1/ CRI391H1/ CRI392H1/ CRI393H1/  
CRI394H1/ CRI395H1/ CRI395Y1/ CRI396H1/ CRI397Y1/  
CRI415H1/ CRI420H1/ CRI422H1/ CRI425H1/ CRI427H1/  
CRI428H1/ CRI429H1/ CRI431H1/ CRI435H1/ CRI445H1/  
CRI480H1/ CRI487H1/ CRI490H1/ CRI491H1/ CRI498H1

Group B: PSY201H1/PSY202H1/SOC200H1/SOC202H1/CRI350H1

Group C: ANT444Y1/ HIS411H1/ PHL271H1/ PHL370H1/  
PSY220H1/ PSY240H1/ PSY328H1/ SOC205H1/ SOC212H1/  
SOC306Y1/ SOC313H1/ SOC315H1/ SOC413H1/ TRN412H1/  
CRI215H1/ CRI389Y0

Note about non CRI courses:

1. Some courses may be available only to students who have completed specified prerequisites and/or are enrolled in a program sponsored by the department offering the course. Course enrolment conditions are listed in the Arts and Science timetable. Course descriptions, prerequisites, corequisites and exclusions are listed in the Calendar.
2. Students who have completed criminology/sociolegal type courses in the Faculty of Arts and Science that are not included in Group C may email the Program Coordinator to find out if the courses can be used to complete Group C program requirements.

Not all courses are offered every year. Please check the [timetable](#) for current course offerings and enrolment restrictions/conditions. Students without course prerequisites will be removed at any time they are discovered. Course descriptions, prerequisites, corequisites and exclusions are listed below. Forms for independent study and research participation courses can be found [here](#).

## Criminology and Sociolegal Studies Courses

### CRI205H1 - Introduction to Criminology

**Hours:** 24L/12T

An introduction to the study of crime and criminal behaviour. The concept of crime, the process of law formation, and the academic domain of criminology. Theories of crime causation, methodologies used by criminologists, and the complex relationship between crime, the media and modern politics.

**Corequisite:** CRI225H1

**Exclusion:** WDW205H1, WDW200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### CRI210H1 - Criminal Justice

**Hours:** 24L/12T

An introduction to the Canadian criminal justice system. The institutions established by government to respond to crime and control it; how they operate, and the larger function they serve; including the role of the police, the trial process, courts and juries, sentencing, imprisonment and community corrections.

**Prerequisite:** CRI205H1, CRI225H1

**Exclusion:** WDW210H1, WDW200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### CRI215H1 - Introduction to Sociolegal Studies

**Hours:** 24L/12T

The course covers several major issues that will help prepare students for advanced courses in the criminology major: the meaning of law, the production of laws and legal institutions, law in action, comparative legal traditions, and the methodology of sociolegal studies.

**Prerequisite:** 4.0 FCEs and a minimum cgpa of 2.3 or enrolment in the Criminology & Sociolegal Studies program

**Exclusion:** WDW215H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### CRI225H1 - Criminal Law

**Hours:** 24L/12T

The main principles and themes of Canadian criminal law; legal definitions of crime, requirements of a criminal act (actus reus), criminal intention (mens rea), causation and defences. The origins, goals and functioning of criminal law, and limits on the power of the state to criminalize behaviour.

**Corequisite:** CRI205H1

**Exclusion:** WDW225H1, WDW220Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI300H1 - Theories of Criminal Justice

**Hours:** 36L

A survey of the evolution of normative theories of criminal justice, which examines how major theorists from the Enlightenment to the contemporary period have understood the normative justification for criminal prohibition and punishment. Although the course focuses on western political philosophy and social science, there will also be some attention to theories of criminal justice in selected non-western traditions.

**Prerequisite:** (CRI205H1 and CRI225H1) or (1.0 FCE 300+ level from HIS/PHL/POL/SOC and a min cgpa of 2.5)

**Exclusion:** WDW300H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI335H1 - Policing

**Hours:** 36L

A theoretical framework is developed to examine the nature of policing, its structure and function. Attention is given to the history of policing as a global form of social practice. We examine the perspectives of both the police and the policed, as well as the objectives, domains, strategies, and authority of contemporary policing, including decision-making, organizational culture, and accountability.

**Prerequisite:** CRI210H1/CRI215H1

**Exclusion:** WDW335H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI340H1 - Punishment: Theory and Practice

**Hours:** 36L

The study of punishment from historical and philosophical perspectives, with a focus on contemporary Canadian policy issues. Topics covered include penal theory, prisons and non-carceral forms of punishment, and the goals of penal reform.

**Prerequisite:** CRI205H1, CRI210H1, CRI225H1

**Exclusion:** WDW340H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI343H1 - Comparative Criminal Justice

**Hours:** 36L

Criminal justice issues outside Canada, based on a variety of international and historical studies. The evolution of criminal justice systems in Western Europe, including the English adversarial and continental European inquisitorial approaches. A comparison of policing, criminal procedure, forms of punishment, and crime rates in the contemporary world.

**Prerequisite:** CRI205H1, CRI210H1, CRI225H1

**Exclusion:** WDW393H1 taken in 2008-09, WDW343H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI350H1 - Understanding Criminological Research

**Hours:** 36L

An introduction to social science research methods used by criminologists. An understanding of the strengths and weaknesses of published criminological research is developed. Specific technical issues such as sampling and measurement are taught in the context of examining alternative ways of answering research questions.

**Prerequisite:** CRI205H1, CRI210H1, CRI225H1

**Exclusion:** SOC200H1, SOC200Y1, WDW350H1, WDW350Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI364H1 - Indigenous Peoples & Criminal Justice

**Hours:** 36L

An introduction to issues affecting Indigenous peoples in the Canadian criminal justice system identified by Indigenous scholars, activists and allies. Topics include: effects of colonization, legal discrimination and disenfranchisement, Treaties and land claims, criminalization, Indigenous activism, and the Truth and Reconciliation Commission.

**Prerequisite:** 1 FCE from CRI205H1, CRI210H1, CRI215H1, CRI225H1

**Exclusion:** CRI394H1 Topics: Indigenous Peoples & Criminal Justice taken in 20171

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI365H1 - Crime and Mind

**Hours:** 36L

Legal, psychological and sociological understandings of issues in the criminal justice system, through a consideration of topics including: criminal intent, the Not Criminally Responsible on Account of Mental Disorder defence, the use of battered woman syndrome as part of a self-defence, infanticide, issues of transcultural psychiatry, and jury screening for bias.

**Prerequisite:** 1.0 FCE from CRI205H1, CRI210H1, CRI225H1

**Exclusion:** WDW365H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI370H1 - Youth Justice

**Hours:** 36L

The course will examine what is known about offending by youths and the various purposes that have been attributed to youth justice systems. The course will focus, in large part, however, on the nature of the laws and youth justice systems that have been designed in Canada and elsewhere to respond to offending by youths.

**Prerequisite:** CRI205H1, CRI210H1, CRI225H1

**Exclusion:** WDW370H1, WDW375H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI380H1 - Crime, Gender and Sex

**Hours:** 36L

Theory, research and policy related to the ways in which gender shapes criminal behaviour, the administration of criminal justice, and the criminal law. How notions of different types of masculinity and femininity are embedded in and influence both the operation of the criminal justice system as well as criminal behaviours. The regulation of gender and sexuality through the criminal law and through crime.

**Prerequisite:** (CRI205H1 and CRI210H1) or (70% in SOC212H1 and enrolment in Sociology program)

**Exclusion:** WDW380H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI383H1 - Immigration, Ethnicity and Crime

**Hours:** 36L

The connection between immigration and crime, the effect of immigration on crime rates, discrimination against immigrants, the representation of immigrants in crime statistics, public perception of risk and security, and criminal justice policy changes which affect immigration. We consider research conducted in North America and Europe.

**Prerequisite:** CRI205H1 or SOC212H1

**Exclusion:** WDW383H1, WDW390H1 in 2008

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI385H1 - Representing Crime and Authority

**Hours:** 36L

Cultural constructions of crime, disorder, dangerousness and risk are integral parts of the criminal justice system. A critical analysis of how criminal justice personnel, the media, and academic criminologists construct their authority through symbols and images, in order to "explain" and manage crime, and how these representations are regarded in public discourse.

**Prerequisite:** 1.0 FCE from CRI205H1, CRI210H1, CRI225H1.

**Exclusion:** WDW385H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI386H1 - Origins of Criminal Justice

**Hours:** 36L

Criminal justice practice, as well as political debate concerning crime and criminal justice, are often influenced by ideas that are initially developed outside the criminal justice arena. This course examines the history, current influence and efficacy of a range of such ideas, such as: the role of religious practice in rehabilitating offenders; military service and participation in sports as preventive of delinquency; the influence of environmental pollution on crime rates; the concept of the 'problem family'; intelligence based policing and the use of management theories in criminal justice organizations.

20181: The course will include an optional Service Learning component. Students in the Service Learning component complete 20 hours volunteer work with a community service agency and a reduced study load in the lecture course. Space in the Service Learning option is limited. See timetable for details.

**Prerequisite:** CRI205H1, CRI210H1

**Exclusion:** CRI390H1 Roots of Criminal Justice Policy taken in 2014/2015/2016/2017.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI389Y0 - Topics in Criminology Abroad

**Hours:** TBA

Topics in Criminology and Sociolegal Studies offered in an international setting. The content may vary from year to year. 2016 Summer Abroad (England) - Topic: Rights, Freedoms and Responsibilities in Criminal Law: England and Canada

**Prerequisite:** Consult the Summer Abroad Program Office.

**Exclusion:** WDW389Y0

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI390H1 - Topics in Criminology

**Hours:** 36L

The objective of the course is to explore emerging issues in Criminology, and their social, legal, ethical and political implications. Topics vary from year to year.

**Prerequisite:** 1 FCE from CRI205H1, CRI210H1, CRI225H1

**Exclusion:** WDW390H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI391H1 - Topics in Criminology

**Hours:** 36L

The objective of the course is to explore emerging issues in Criminology, and their social, legal, ethical and political implications. Topics vary from year to year.

**Prerequisite:** 1 FCE from CRI205H1, CRI210H1, CRI225H1

**Exclusion:** WDW391H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI392H1 - Topics in Criminology

**Hours:** 36L

The objective of the course is to explore emerging issues in Criminology, and their social, legal, ethical and political implications. Topics vary from year to year.

**Prerequisite:** 1 FCE from CRI205H1, CRI210H1, CRI225H1

**Exclusion:** WDW392H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI393H1 - Topics in Criminology

**Hours:** 36L

20171 Topic: Human Rights & Security The objective of the course is to explore emerging issues in Criminology, and their social, legal, ethical and political implications. Topics vary from year to year.

**Prerequisite:** 1 FCE from CRI205H1, CRI210H1, CRI225H1

**Exclusion:** WDW393H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI394H1 - Topics in Criminology and Sociolegal Studies

**Hours:** 36L

The objective of the course is to explore emerging issues in Criminology, and their social, legal, ethical and political implications. Topics vary from year to year.

**Prerequisite:** (1 FCE from CRI205H1, CRI210H1, CRI225H1) or (ABS300Y1/ABS301Y1/ABS351Y1, 1.0 FCE from HIS/PHL/POL/PSY/SOC, ASMAJ0115/ASSPE0115)

**Exclusion:** WDW394H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI395H1 - Independent Study

**Hours:** TBA

Independent study under the direction of a faculty member. Open only when a faculty member is willing and available to supervise. Consult the program [website](#) for additional information. Not eligible for CR/NCR option.

**Prerequisite:** CRI205H1, CRI210H1, CRI225H1 and 2 CRI 300 half-credit lecture/seminar courses, approval of the Program Coordinator

**Exclusion:** CRI395Y1, WDW395H1 Criminology

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI395Y1 - Independent Study

**Hours:** TBA

Independent study under the direction of a faculty member. Open only when a faculty member is willing and available to supervise. Consult the program [website](#) for additional information. Not eligible for CR/NCR option.

**Prerequisite:** CRI205H1, CRI210H1, CRI225H1 and 2 CRI 300 half-credit lecture/seminar courses, approval of the Program Coordinator

**Exclusion:** CRI395H1, WDW395Y1 Criminology

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI396H1 - Research Participation

**Hours:** TBA

Credit course for supervised participation in a faculty research project. Offered only when a full-time faculty member from the Centre for Criminology & Sociolegal Studies is willing and available to supervise. Consult the program [website](#) for additional information. Not eligible for CR/NCR option.

**Prerequisite:** 9 FCEs. A CGPA of at least 3.0 is recommended. Approval of the Program Coordinator.

**Exclusion:** CRI397Y1, WDW396H1 Criminology

**Breadth Requirements:** Society and its Institutions (3)

## CRI397Y1 - Research Participation

**Hours:** TBA

Credit course for supervised participation in a faculty research project. Offered only when a full-time faculty member from the Centre for Criminology & Sociolegal Studies is willing and available to supervise. Consult the program [website](#) for additional information. Not eligible for CR/NCR option.

**Prerequisite:** 9 FCEs. A CGPA of at least 3.0 is recommended. Approval of the Program Coordinator.

**Exclusion:** CRI396H1, WDW397Y1 Criminology

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI415H1 - Politics and Crime

**Hours:** 24S

An advanced seminar examining the development of criminal justice and penal policies in Canada, the United States, Western Europe and Russia; the way authorities in those countries define and manage political deviance and the intrusion of politics into the administration of justice, especially in non-democratic settings.

**Prerequisite:** A minimum average of 77% in 4 CRI 300 half-credit lecture/seminar courses

**Exclusion:** CRI3120H1, WDW415H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI420H1 - Current Issues in Criminal Law

**Hours:** 24S

An advanced seminar exploring in detail current issues in criminal law. The objective of the course is to discuss current policy and case law developments in the criminal law, and their social, political and ethical implications. The role of Parliament and the judiciary in the development of the criminal law is considered. Topics vary from year to year.

**Prerequisite:** 2 CRI 300 half-credit lecture/seminar courses

**Exclusion:** WDW420H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI422H1 - Indigenous Law

**Hours:** 24S

Seminar course exploring Indigenous law, settler state law, and the complex interrelationship between the two in Canada. Topics include: legal sources, forms and processes; sovereignty, territory and jurisdiction; treaty relationships; Indigenous peoples in international law; Indigenous rights and the constitution; environmental use, relations and protection; and Indigenous self-determination and governance.

**Prerequisite:** 1 FCE from CRI205H1, CRI210H1, CRI215H1, CRI225H1. 0.5 FCE from CRI 300-level

**Exclusion:** CRI490H1 Advanced Topics in Criminology: Indigenous Law taken in 20169

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI425H1 - The Prosecution Process

Hours: 24L

A critical examination of the process by which certain conduct is identified, prosecuted and punished as "crime", and the process by which individuals become "criminals". The evolution of the modern prosecution system, including the exercise of prosecutorial discretion, rules of evidence, socially constructed defences, disparity in sentencing, and wrongful convictions.

**Prerequisite:** CRI205H1, CRI210H1, CRI225H1, CRI325H1

**Exclusion:** WDW320H1, WDW425H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI427H1 - Organized Crime and Corruption

Hours: 24S

An advanced seminar exploring the history and characteristics of organized crime and corruption.

**Prerequisite:** 2 CRI 300 half-credit lecture/seminar courses

**Exclusion:** WDW427H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI428H1 - Neighbourhoods and Crime

Hours: 24S

An advanced seminar exploring the connection between neighbourhoods and the perpetuation of poverty, social marginalization, segregation and crime. The course may include an optional Service Learning component. Check the timetable for details.

**Prerequisite:** 2 CRI 300 half-credit lecture/seminar courses

**Exclusion:** WDW428H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI429H1 - Youth Culture, Racialization and Crime in the Global Context

Hours: 24S

An advanced seminar exploring youth culture and its possible connection to criminality from an international perspective.

**Prerequisite:** 2 CRI 300 half-credit lecture/seminar courses (0.5 may be substituted by a 300+ level HIS/PHL/PSY/SOC course)

**Exclusion:** WDW429H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI431H1 - Mental Health, Morality & Legal Controls

Hours: 24S

A critical exploration of contemporary debates in criminology, and legal and moral philosophy concerning the diagnostic and criminal justice labeling of mental disorders such as psychopathy and paedophilia, and their representation in popular culture.

**Prerequisite:** 2 CRI 300 half-credit lecture/seminar courses

**Exclusion:** WDW431H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI435H1 - Advanced Seminar in Policing

Hours: 24S

This course will explore policing in a comparative and historical context. Issues to be covered include the following: the maintenance of law and order before police forces; development of police forces in continental Europe and the English-speaking world; structure and function of national police forces around the world today; the role of political and secret police forces; and contemporary debates on the mission and regulation of the police in contemporary North America including issues such as police-community relations, private policing, and counter-terrorism.

**Prerequisite:** A minimum average of 77% in four CRI 300 half credit lecture/seminar courses

**Exclusion:** CRI3130H1, WDW435H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI445H1 - International Criminal Law

**Hours:** 24S

An advanced seminar focusing on the legal and conceptual framework for responding to state violence and war crimes, and the challenges faced by various international legal institutions. Legal doctrines of sovereign immunity and universal jurisdiction, the history of international criminal prosecutions, and substantive international criminal law are examined.

**Prerequisite:** A minimum average of 77% in 4 CRI 300 half-credit lecture/seminar courses

**Exclusion:** CRI3340H1, WDW425H1 taken in 2008-2009; WDW445H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI450H1 - Advanced Research/Reading

**Hours:** TBA

A supervised individual or group project under the direction of a faculty member from the Centre for Criminology & Sociolegal Studies. Approval of the Undergraduate Coordinator is required. Form is available on the Program Office [website](#). Not eligible for CR/NCR option.

**Prerequisite:** 3 CRI 300 half-credit lecture/seminar courses and minimum 3.0 CGPA.

**Exclusion:** WDW450H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI480H1 - Interpersonal Violence

**Hours:** 24S

The meaning, purposes and sources of interpersonal violence, including an examination of debates over defining and documenting violence, and a review of the research on the relationships between illegitimate, interpersonal violence and state-approved or state-initiated violence. Cultural, social and individual correlates of interpersonal violence; the violence of the law; and how violence is justified and denied.

**Prerequisite:** 2 CRI 300 half-credit lecture/seminar courses

**Exclusion:** WDW400H1 in 2004-2006, WDW480H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI487H1 - Law, Space, and the City

**Hours:** 24S

An introduction to interdisciplinary studies of law and space, this course covers a broad range of topics, from work on empire and colonialism by legal historians and aboriginal scholars to studies of national spaces, urban spaces, and bodily spaces. Some background in either legal studies or cultural geography is desirable. Open to students in law, geography, anthropology, women/gender studies, and sociology, though permission of the instructor is required.

**Prerequisite:** 2 CRI 300 half-credit lecture/seminar courses

**Exclusion:** CRI3256H1 (only when offered as a joint course), WDW487H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI490H1 - Advanced Topics in Criminology & Sociolegal Studies

**Hours:** 24S

The objective of the course is to explore emerging issues in Criminology, and their social, legal, ethical and political implications. Topics vary from year to year.

**Prerequisite:** 2 CRI 300 half-credit lecture/seminar courses

**Exclusion:** WDW490H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CRI491H1 - Advanced Topics in Criminology

**Hours:** 24S

Topics vary from year to year. The objective of the course is to explore emerging issues in Criminology, and their social, legal, ethical and political implications.

**Prerequisite:** 2 CRI 300 half-credit lecture/seminar courses

**Exclusion:** WDW491H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **CRI498H1 - Intensive Course**

**Hours:** TBA

Content in any given year depends on instructor. Intensive courses are offered by distinguished visitors from around the world. Students in their 4th year are strongly encouraged to take advantage of this unique opportunity to study with one or more outstanding visiting international scholars that the Centre for Criminology & Sociolegal Studies brings from time to time. The intensive course usually runs for approximately 3-4 weeks.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

# Diaspora and Transnational Studies

## Faculty List

### Professor

K. O'Neill, MA, Ph D

### Associate Professors

K. MacDonald, MA, Ph D (University of Toronto Scarborough)

A. Shternshis, MA, Ph D

## Introduction

### Interdisciplinary program

Where is home? Need it be in one place? Is it always attached to territory? Diaspora and transnational studies examines the historical and contemporary movements of peoples and the complex problems of identity and experience to which these movements give rise as well as the creative possibilities that flow from movement. The program is comparative and interdisciplinary, drawing from the social sciences, history and the arts. Students are required to take a year long course that offers an introduction to a broad array of themes and disciplinary methodologies. The program offers a wide selection of additional courses, giving students the opportunity to learn about a range of diasporic communities as well as key debates in the field.

## Diaspora and Transnational Studies Programs

## Diaspora & Transnational Studies Major (Arts Program)

### Completion Requirements:

(7 full courses or their equivalent, including at least two 300+ series courses)

1. [DTS200Y1](#)
2. [DTS300H1](#)
3. 4.5 full-course equivalents (FCEs) from Group A and B courses, with at least two FCEs from each group. Coverage must include at least two diasporic communities or regions, to be identified in consultation with the program advisor.
4. Two DTS 400-level courses

## Diaspora & Transnational Studies Minor (Arts Program)

### Completion Requirements:

(4 full courses or their equivalent, including at least one 300+ series course)

1. [DTS200Y1](#)
2. [DTS300H1](#)
3. 2 full-course equivalents (FCEs) from Group A and B courses, with at least one FCE from each group.
4. One DTS 400-level course

### Group A (Humanities) Courses

Students are responsible for checking the co- and prerequisites for all courses in Groups A and B.

Note: course = one full course or the equivalent in half courses.

## **Diaspora and Transnational Studies Courses**

### **DTS200Y1 - Introduction to Diaspora and Transnational Studies I (formerly DTS201H1, 202H1)**

**Hours:** 48L

What is the relationship between place and belonging, between territory and memory? How have the experiences of migration and dislocation challenged the modern assumption that the nation-state should be the limit of identification? What effect has the emergence of new media of communication had upon the coherence of cultural and political boundaries? All of these questions and many more form part of the subject matter of Diaspora and Transnational Studies. This introductory course ex-amines the historical and contemporary movements of peoples and the complex issues of identity and experience to which these processes give rise as well as the creative possibilities that flow from movement and being moved. The area of study is comparative and interdisciplinary, drawing from the social sciences, history, the arts and humanities. Accordingly, this course provides the background to the subject area from diverse perspectives and introduces students to a range of key debates in the field, with particular attention to questions of history, globalization, cultural production and the creative imagination.

**Exclusion:** DTS201H1, DTS202H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

### **DTS300H1 - Qualitative and Quantitative Reasoning**

**Hours:** 24L

Focuses on research design and training in methods from history, geography, anthropology, literary and cultural studies, and other disciplines appropriate to Diaspora and Transnational Studies. Prepares students to undertake primary research required in senior seminars.

**Prerequisite:** DTS200Y1 or CJS200H1 or CJS201H1 or permission of course instructor

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## **JQR360H1 - The Canadian Census: Populations, Migrations and Demographics**

**Hours:** 24L/12T

Examines the Canadian population census through the experience of diasporic groups in Canada. Approaches the census as a statistical tool, an historical source and an ideological project of citizenship and nationalism. Uses census data to explore mathematical and statistical concepts and to integrate numerical ways of thinking with qualitative analysis. (Jointly sponsored by African Studies, Diaspora and Transnational Studies, Caribbean Studies, Equity Studies and Latin American Studies).

**Prerequisite:** DTS200Y1/HIS230H1/HIS231H1/LAS200H1/LAS201H1/NEW120Y1/NEW150Y1/NEW220H1/NEW221H1/NEW224Y1/NEW225H1/NEW226H1/NEW240Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **DTS390H1 - Independent Study**

**Hours:** TBA

A scholarly project chosen by the student, approved by the Department, and supervised by one of its instructors. Consult with the Diaspora and Transnational Studies Program Office for more information. Not eligible for CR/NCR option.

**Prerequisite:** DTS200Y1

**Distribution Requirements:** Humanities; Social Science

## **DTS390Y1 - Independent Study**

**Hours:** TBA

A scholarly project chosen by the student, approved by the Department, and supervised by one of its instructors. Consult with the Diaspora and Transnational Studies Program Office for more information. Not eligible for CR/NCR option.

**Prerequisite:** DTS200Y1

**Distribution Requirements:** Humanities; Social Science

## **DTS401H1 - Advanced Topics in Diaspora and Transnationalism (Cosmopolitanism, Diaspora, Literature)**

**Hours:** 24S

An in-depth investigation of topics in Diaspora and Transnationalism. Content in any given year depends on instructor. Refer to the Centre for Diaspora and Transnational Studies website (<http://www.cdts.utoronto.ca/undergraduate.html>) for more information.

**Prerequisite:** DTS200Y1 or equivalent and a minimum of 15 FCEs

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **DTS402H1 - Advanced Topics in Diaspora and Transnationalism (Drugs and/in Diaspora)**

**Hours:** 24S

An in-depth investigation of topics in Diaspora and Transnationalism. Content in any given year depends on instructor. Refer to the Centre for Diaspora and Transnational Studies website (<http://www.cdts.utoronto.ca/undergraduate.html>) for more information.

**Prerequisite:** DTS200Y1 or equivalent and a minimum of 15 FCEs

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **DTS403H1 - Advanced Topics in Diaspora and Transnationalism (Foodways - Diasporic Dinners, Transnational Tables and Culinary Connections)**

**Hours:** 24S

An in-depth investigation of topics in Diaspora and Transnationalism. Content in any given year depends on instructor. Refer to the Centre for Diaspora and Transnational Studies website (<http://www.cdts.utoronto.ca/undergraduate.html>) for more information.

**Prerequisite:** DTS200Y1 or equivalent and a minimum of 15 FCEs

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **DTS404H1 - Advanced Topics in Diaspora and Transnationalism**

**Hours:** 24S

An in-depth investigation of topics in Diaspora and Transnationalism. Content in any given year depends on instructor.

**Prerequisite:** DTS200Y1 or equivalent, or CJS200H1 or CJS201H1 and a minimum of 15 FCEs

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **DTS405H1 - Advanced Topics in Diaspora and Transnationalism (Human Trafficking and Contemporary Slavery)**

**Hours:** 24S

An in-depth investigation of topics in Diaspora and Transnationalism. Content in any given year depends on instructor. Refer to the Centre for Diaspora and Transnational Studies website (<http://www.cdts.utoronto.ca/undergraduate.html>) for more information.

**Prerequisite:** DTS200Y1 or equivalent and a minimum of 15 FCEs

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **DTS406H1 - Advanced Topics in Diaspora and Transnationalism**

**Hours:** 24S

An in-depth investigation of topics in Diaspora and Transnationalism. Content in any given year depends on instructor.

**Prerequisite:** DTS200Y1 or equivalent and a minimum of 15 FCEs

**Recommended Preparation:** Students should be in their final academic year of study.

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## Faculty List

### Director

T. Trojanowska, MA, Ph D

### Professors

A. Ackerman, MA, Ph D

P. Kleber, MA, Ph D

### Associate Director (Graduate)

A. Budde, MA, Ph D

### Associate Director (Undergraduate)

T. N. Cesare Schotzko, MA, M Mus, Ph D

### Associate Professors

A. Budde, MA, Ph D

T. N. Cesare Schotzko, MA, M Mus, Ph D

N. Copeland, MA, Ph D (University of Toronto Mississauga)

P. Sperdakos, MA, Ph D (University of Toronto Scarborough)

T. Trojanowska, MA, Ph D

### Assistant Professors

J. Carter, MA, Ph D

B. Freeman, MA, Ph D (University of Toronto Scarborough)

X. Fan, MA, Ph D

J. Gallagher-Ross, MFA, DFA (University of Toronto Mississauga)

V.K. Preston, MA, Ph D

### Senior Lecturer

K. Gass, BA

### Lecturer

S. Boye, MA, Ph D

J. Thompson

## Introduction

Our undergraduate program at the Centre for Drama, Theatre, and Performance Studies offers a unique set of critical and artistic skills through which students attending the University of Toronto may engage the broader social, political, and intellectual facets of a humanities curriculum. Undergraduate Drama (Specialist, Major, Minor) at the Drama Centre combines rich and rigorous scholarship with high standards of practical theatre training through courses in dramatic literature, dramaturgy, theatre and performance theory and history, as well as introductory and advanced studio courses in acting, production, design, directing, and playwriting. Students graduating from our programs have combined honours majors in such areas as Anthropology, Canadian Studies, Cinema Studies, Classics, Commerce, Art, History, Human Biology, Political Science, Psychology, Religion, Sexual Diversity Studies, Sociology, and Women and Gender Studies.

The Drama Centre's undergraduate programs are housed in the Union Building at University College, which includes the Helen Gardiner Phelan Playhouse—one of three theatres and a number of related performance and rehearsal venues available to our students

and faculty. More details, including application and ballot forms, can be found on the website at: <http://dramacentre.utoronto.ca/>.

The Centre's Associate Director (Undergraduate) T. Nikki Cesare Schotzko and the Undergraduate Administrative Coordinator Colleen Osborn are also available for consultation. For enquiries or an appointment call the Undergraduate Drama Coordinator at 416-978-8099 or send an e-mail to [c.osborn@utoronto.ca](mailto:c.osborn@utoronto.ca).

Please note: Certain courses are restricted to students in a Drama Specialist, Major or Minor program; others are open to all students of the University. Several courses require audition, interview or the submission of a portfolio. See below for details.

General Enquiries: Room 300, 79 St. George Street (416-978-8099)

Enrolment in the Specialist and Major programs is, with few exceptions, contingent upon a personal interview, audition and/or portfolio submission. Students will be admitted to the Major only after they have been admitted to either DRM200Y1, DRM202H1, DRM228H1 or DRM254Y1, and to the Specialist only after completing 8.0 full-course equivalents.

Auditions and interviews are held in April. Applications are due March 10th. There is a second round in August for applications to DRM200Y1 and DRM228H1. Register for a Drama Application: <https://drama-apply.chass.utoronto.ca/login>

Enrolment in the Minor program is unrestricted. Priority is reserved for Drama Majors and Specialists for studio courses (Group B).

## Drama, Theatre and Performance Studies Programs

### Drama Specialist (Arts Program)

#### Enrolment Requirements:

Enrolment in the Specialist and Major programs is limited and selection is normally made after a personal interview, audition and/or portfolio submission. Students will be admitted to the Major only after they have been admitted to either DRM200Y1, DRM202H1, DRM228H1 or DRM254Y1, and to the Specialist only after completing 8.0 full-course equivalents.

#### Completion Requirements:

12 full courses or their equivalent (FCE), including at least 4.0 300+ series with at least 1.0 FCE at the 400 level.

1. DRM100Y1/DRM101Y1/UNI102Y1
2. DRM220Y1/DRM230Y1
3. From Group A: 3.0 FCE
4. From Group B: 2.0 FCE (entry points: DRM200Y1/DRM202H1/DRM228H1/DRM254Y1)
5. From Group A, B, C or other DRM: 5.0 FCE to make up the total of 12 full-course equivalents

Note: Students taking Group B Studio courses must take an academic co-requisite from Foundations or a course from Group A.

## Drama Major (Arts Program)

### Enrolment Requirements:

Enrolment in the Major program is limited and selection is normally made after a personal interview, audition and/or portfolio submission. Students will be admitted to the Major only after they have been admitted to either [DRM200Y1](#), [DRM202H1](#), [DRM228H1](#) or [DRM254Y1](#).

### Completion Requirements:

8 full courses or their equivalent (FCE), including at least 2 FCE at the 300+ series courses with at least 0.5 FCE at the 400 level.

1. [DRM100Y1/DRM101Y1/UNI102Y1](#)
2. [DRM220Y1/DRM230Y1](#)
3. From Group A: 2.0 FCE
4. From Group B: 2.0 FCE (entry points: [DRM200Y1/DRM202H1/DRM228H1/DRM254Y1](#))
5. From Group A, B, C or other DRM: 2.0 FCE to make up the total of 8 full-course equivalents

Note: Students taking Group B Studio courses must take an academic co-requisite from Foundations or a course from Group A.

## Drama Minor (Arts Program)

### Completion Requirements:

4 full courses or their equivalent (FCE) including at least 1.0 FCE at the 300+ level.

1. [DRM100Y1/DRM101Y1/UNI102Y1](#)
2. [DRM220Y1/DRM230Y1](#)
3. From Group A: 1.0 FCE
4. From Groups A, B, C or other DRM (when eligible): 1.0 FCE to make up the total of 4 full-course equivalents

Note: Priority is reserved for Drama Majors and Specialists for Group B Studio courses.

## Notes Regarding Course Groups

**Studio Courses (Group B):** Students taking a studio course (Group B) are required to take an academic co-requisite from Foundations or any course from Group A.

**Group C:** Many Group C courses have pre-requisites. Check with the designated department prior to enrollment.

## Course Groups

### Foundations

- [DRM100Y1 Introduction to Acting and Performance](#)
- [DRM101Y1 Introduction to Drama, Theatre and Performance Studies](#)
- [UNI102Y1 Performing the City](#)

- [DRM220Y1 Comparative Theatre Histories](#)
- [DRM230Y1 Concepts of Twentieth-Century Theatre](#)

### Group A: Drama, Theatre and Performance Studies

- [INS341H1 North American Indigenous Theatre](#)
- [DRM303H1 Theories of Acting](#)
- [DRM331H1 Dramaturgy](#)
- [DRM342H1 The Contemporary Avant-Garde](#)
- [DRM362H1 Theatre and the World](#)
- [DRM366H1 Canadian Theatre](#)
- [DRM385H1 Special Topics in Drama, Theatre and Performance Studies](#)
- [DRM385Y1 Special Topics in Drama, Theatre and Performance Studies](#)
- [DRM386H1 Special Topics in Drama, Theatre and Performance Studies](#)
- [DRM387H1 Special Topics in Drama, Theatre and Performance Studies](#)
- [DRM388H1 Special Topics in Drama, Theatre and Performance Studies](#)
- [DRM485Y1 Senior Seminar: Drama, Theatre and Performance Studies Thesis](#)
- [DRM487H1 Senior Seminar in Drama, Theatre and Performance Studies](#)
- [DRM488H1 Senior Seminar in Drama, Theatre and Performance Studies](#)
- [JIA400H1 Interdisciplinary Practice for the Arts: The Architecture of Creativity](#)
- [JDC400Y1 Redefining Security through Art](#)
- [JDC410H1 Arts and Politics: Bertolt Brecht, Robert Lepage, Robert Wilson](#)

### Group B: Studio

- [DRM200Y1 Performance I](#)
- [DRM201H1 Voice for the Actor I](#)
- [DRM202H1 Directing I](#)
- [DRM211H1 Movement for the Actor I](#)
- [DRM228H1 Playwriting I](#)
- [DRM254Y1 Production and Design I: Production](#)
- [DRM300Y1 Performance I](#)
- [DRM301H1 Concepts of Voice and Movement](#)

## Regarding Drama, Theatre and Performance Studies Courses

### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Drama, Theatre and Performance Studies Courses

### DRM100Y1 - Introduction to Acting and Performance

**Hours:** 48L/24T

An introduction to performance practice with an emphasis on the historical development and contemporary work of playwrights, actors, and directors. Key theorists, practitioners, and schools will be introduced and students will analyze them through rigorous hands-on, experiential work. This course combines weekly two-hour lectures with one-hour tutorials.

**Exclusion:** DRM101Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Special Topics & Independent Studies

- [DRM286H1 Special Topics in Drama: Introduction to Communications](#)
- [DRM299Y1 Research Opportunity Program](#)
- [DRM387H1 Special Topics in Drama, Theatre and Performance Studies](#)
- [DRM390Y1 Independent Studies in Drama, Theatre and Performance Studies](#)
- [DRM391H1 Independent Studies in Drama, Theatre and Performance Studies](#)
- [DRM399Y1](#)
- [DRM485H1 Senior Seminar in Drama, Theatre and Performance Studies](#)

## DRM101Y1 - Introduction to Drama, Theatre and Performance Studies

**Hours:** 48L/24T

A broad introduction to the canon of Western drama, the principles of theatre history as well as key artistic movements and notions of arts criticism through a range of dramatic texts, artistic movements, and performance practices, with particular reference to the relationship between dramatic texts and their larger contexts. This course combines weekly two-hour lectures with one-hour tutorials.

**Exclusion:** DRM100Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM200Y1 - Performance I

**Hours:** 144P

Emphasis is initially placed on ensemble, non-verbal, and improvisational work. Students proceed to the application of their acquired skills to scripted material. Students may apply in their first or second year of University. The [Application Form](#) Deadline is March 10th for the first round of auditions; August 10th for the second round. See [Audition Guidelines](#) for information on how to apply.

**Prerequisite:** An audition in April or in August. Students can apply directly out of high school.

**Corequisite:** DRM101Y1/UNI102Y1 or DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM201H1 - Voice for the Actor I

**Hours:** 2T/48P

An introduction to the dynamics of voice and effective communication as they relate to the development of the actor. Work brings theory into physical practice. See website for more details.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM202H1 - Directing I

**Hours:** 24T/36P

An introduction to major concepts and artistic practices in directing, emphasizing theoretical and historical issues with supplemental practical application. The course focuses on different styles, ideas, and goals of theatre directors in their relations to actors, audiences, and broad cultural and political contexts. The [application deadline](#) is March 10th for an interview in April.

**Prerequisite:** An interview in April or in August. Students can apply directly out of high school.

**Corequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or DRM220Y1/DRM230Y1

**Recommended Preparation:** DRM100Y1/DRM101Y1/UNI102Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM211H1 - Movement for the Actor I

**Hours:** 2T/48P

An introduction to movement for the actor focusing on body awareness and skill development, ensemble sensibility and stagecraft as it pertains to actor training. See [website](#) for more details.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM220Y1 - Comparative Theatre Histories

**Hours:** 72L

An intensive study of a range of historical and cross-cultural dramatic and performance texts and practices that contextualize theatre and performance more broadly within the social, political, and cultural parameters in which they take place. Theatre history is necessarily inextricable from world history and this course considers the many ways theatre and performance interact with the globalized world.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM228H1 - Playwriting I

**Hours:** 36L

A hands-on study of the craft of dramatic writing. The class examines the basic elements of playwriting such as plot, structure, theme, character, dialogue, setting, with an emphasis on story-making. Attention is given to the development of students own work through written assignments and in-class exercises. See [Portfolio Guidelines](#) for information on how to apply.

**Prerequisite:** A portfolio of writing samples due on March 10th or August 10th. Students can apply directly out of high school.

**Corequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or DRM220Y1/DRM230Y1

**Exclusion:** DRE362H5

**Recommended Preparation:** DRM100Y1/DRM101Y1/UNI102Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM230Y1 - Concepts of Twentieth-Century Theatre

**Hours:** 72L

An introduction to the shifting landscapes of European theatre theory, history and practice in the late 19th century and their repercussions throughout the 20th and 21st centuries. The course focuses on the developments of modern and postdramatic theatre. It also includes critical analysis of the annual Drama Mainstage production and current Canadian theatre.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM254Y1 - Production and Design I: Production

**Hours:** 72L/72P

A practical introduction to various areas of theatre production and design. Working extensively in the Helen Gardiner Phelan Playhouse, the students form the core of the production team for Drama productions. The [Application Deadline](#) is March 10th for an interview in April.

**Prerequisite:** An interview in April or in August. Students can apply directly out of high school.

**Corequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM286H1 - Special Topics in Drama: Introduction to Communications

**Hours:** 36P

Effective communication is a pivotal skill in work and other environments where public speaking, persuasive discourse, and personal presence are key to success. This introductory course is suited to students in professional programs or for those who would like to learn a full range of communication skills.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Prerequisite:** Permission from the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM300Y1 - Performance I

**Hours:** 144P

Building upon the work of DRM200Y1, students concentrate on scene study, styles of acting, and the development of ensemble work with an intensive focus on voice and movement practices. The [Application Deadline](#) is April 10th.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1; DRM200Y1; Minimum CGPA of 2.7 or permission of the Drama Centre. See online application for more details. The Application Deadline is April 10th.

**Corequisite:** DRM220Y1/DRM230Y1 or any course from Group A if DRM220Y1/DRM230Y1 is complete; 1 FCE from DRM301H1/DRM311H1/DRM375H1/DRM376H1/DRM377H1/DRM378H1.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM301H1 - Concepts of Voice and Movement

**Hours:** 3T/48P

An experiential studio course that introduces and develops physical skills in contemporary theatre practice with particular attention on the relationship between voice and movement via the voice, breath, body, movement, emotion, character, text and personal imagery. See [website](#) for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1 and 1 FCE from Group B

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM302H1 - Directing II

**Hours:** 36P

A continuation of DRM202H1, concentrating on major concepts and artistic practices in directing. The course focuses on different styles, ideas, and goals of theatre directors in their relations to actors, audiences, and broad cultural and political contexts. A major component will be the practical application of basic directing techniques.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1; DRM202H1

**Corequisite:** DRM220Y1/DRM230Y1 or any course from Group A.

**Exclusion:** VPDC02H3

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM303H1 - Theories of Acting

**Hours:** TBA

An examination of the major writers who have influenced the art of the actor in the twentieth century, with a focus on theories of actor training and the preparation for performance, the ways in which audiences assess acting as an art form, and the rise of the actor as an artist of equal status in North American and European theatre. Writers include Konstantin Stanislavsky, his followers and interpreters in America (including the Actors Studio and Lee Strasberg), along with alternatives to his 'System,' including Expressionism, Epic Theatre and the teachings of Michael Chekhov.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or any 4.0 FCE

**Exclusion:** DRM388H1; VPDB15H3

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM311H1 - Movement for the Actor II

**Hours:** 3T/48P

A continuation of previous training to develop a more expressive body and increase devising skills through a more concentrated study of the relationship between objective, impulse and action using the principles of Viewpoints, Laban and the Margolis Method. See [website](#) for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1, DRM200Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM328H1 - Playwriting II

**Hours:** 36L

A continuation of DRM228H1, concentrating on the in-depth knowledge and practice of playwriting with an emphasis on style and technique of writing for the stage. Students develop their own work through written assignments, in-class exercises, and the final public presentation. See [Portfolio Guidelines](#) for information on how to apply and the deadline to apply.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1; DRM228H1; Minimum CGPA of 2.7 and permission of the Centre. See online application for details.

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM331H1 - Dramaturgy

**Hours:** 36L

Study of dramaturgical theory and of interpretations of the dramaturge's function in the theatre. Using examples from Canada and beyond, students apply this knowledge to theatre practice.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1

**Exclusion:** DRE348H5; DRE360H5; VPDD01H3

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM342H1 - The Contemporary Avant-Garde

**Hours:** 36L

The turn of the 21st century advanced a social, political, and aesthetic shift reminiscent of that during the post-Industrial Revolution/pre-WWII epoch that launched the historical avant-garde. This class, while exploring significant artistic and sociopolitical developments of the historical avant-garde, will primarily concentrate on the experimental theatre and performance of the past 15 years - a contemporary avant-garde that "hinge[s] on a networked spatiality, rather than on linear teleology" and reflects a growing collective investment on part of audiences and artists alike in the work of a work of art.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or any 4.0 FCE

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM354Y1 - Production and Design II: Design

**Hours:** 48L/24P

A practical introduction to aspects of theatre production, with a module on scenic design. Working extensively in the Helen Gardiner Phelan Playhouse, the students form the core of the production team for Drama productions. Application Deadline is April 10th; see department [website](#) for details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1, Minimum CGPA of 2.7 or permission of the Drama Centre. See online application for details.

**Corequisite:** DRM220Y1/DRM230Y1 or any course from Group A

**Recommended Preparation:** DRM254Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM362H1 - Theatre and the World

**Hours:** 36L

An intercultural, post-colonial and comparative analysis of innovative processes in the national and cross-cultural theatre around the world. Focusing on selected periods and cultures, the course explores the cultural backgrounds of key turning points in pre-modern and modern theatre and their impact on the developments of the post-modern theatre in a globalizing world. Not offered in 2016/17.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or any 4.0 FCE

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM366H1 - Canadian Theatre

**Hours:** 36L

Since the 1960s, actors, directors, and writers have been architects of Canadian identity. This course will study the history of Canadian theatre, with an emphasis on how Canadian playwrights and creators have been engaged with social and political issues. A survey of post-colonial theatre, cultural diversity, and gender politics on the Canadian stage.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or a Canadian Studies Major/Specialist

**Exclusion:** DRM268H1; DRE200H5; DRE364H5; VPDB13H3

**Recommended Preparation:** For Drama Majors and Specialists: DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM368H1 - Collective Creations

**Hours:** 36L

A hands-on exploration of fundamental building blocks of collective creation, or 'devised theatre', examining techniques and exercises by its leading practitioners. Combining research, improvisation and design elements, students define a topic of investigation and shape the resulting discoveries into a workshop presentation at the end of the course. Not offered in 2016/17.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM375H1 - Special Topics in Studio Practice

**Hours:** 36P

An in-depth examination of selected performance disciplines, styles, and genres within their historical and critical context. Content may vary depending on instructor. Please consult the Undergraduate Drama office or check Studio Topics on our [website](#) for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1; DRM200Y1; Minimum CGPA of 2.7 or permission of the Drama Centre. See online application for details.

**Corequisite:** DRM300Y1

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM375Y1 - Special Topics in Studio Practice

**Hours:** 72P

An in-depth examination of selected performance disciplines, styles, and genres within their historical and critical context. Content may vary depending on instructor. Please consult the Undergraduate Drama office or check Studio Topics on our website for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1; DRM200Y1; Minimum CGPA of 2.7 or permission of the Drama Centre.

**Corequisite:** DRM300Y1

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM376H1 - Special Topics in Studio Practice

**Hours:** 36P

An in-depth examination of selected performance disciplines, styles, and genres within their historical and critical context. Content may vary depending on instructor. Please consult the Undergraduate Drama office or check Studio Topics on our website for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1; DRM200Y1; Minimum CGPA of 2.7 or permission of the Drama Centre. See online application for details.

**Corequisite:** DRM300Y1

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM377H1 - Special Topics in Studio Practice

**Hours:** 36P

An in-depth examination of selected performance disciplines, styles, and genres within their historical and critical context. Content may vary depending on instructor. Please consult the Undergraduate Drama office or check Studio Topics on our website for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1; DRM200Y1; Minimum CGPA of 2.7 or permission of the Drama Centre. See online application for details.

**Corequisite:** DRM300Y1

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM378H1 - Special Topics in Studio Practice

**Hours:** 36P

An in-depth examination of selected performance disciplines, styles, and genres within their historical and critical context. Content may vary depending on instructor. Please consult the Undergraduate Drama office or check Studio Topics on our website for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1; DRM200Y1; Minimum CGPA of 2.7 or permission of the Drama Centre. See online application for details.

**Corequisite:** DRM300Y1

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM385H1 - Special Topics in Drama, Theatre and Performance Studies

**Hours:** 36L

An in-depth examination of selected issues in drama, theatre and performance studies. Content may vary depending on instructor and is counted towards Group A. Please consult the Undergraduate Drama office and check Special Topics on the website for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or any 4.0 FCE

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM385Y1 - Special Topics in Drama, Theatre and Performance Studies

**Hours:** TBA

An in-depth examination of selected issues in drama, theatre and performance studies. Content may vary depending on instructor and is counted towards Group A. Please consult the Undergraduate Drama office and check Special Topics on the website for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or any 4.0 FCE

**Distribution Requirements:** Humanities

## DRM386H1 - Special Topics in Drama, Theatre and Performance Studies

**Hours:** 36L

An in-depth examination of selected issues in drama, theatre and performance studies. Content may vary depending on instructor and is counted towards Group A. Please consult the Undergraduate Drama office and check Special Topics on the website for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or any 4.0 FCE

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM387H1 - Special Topics in Drama, Theatre and Performance Studies

**Hours:** TBA

An in-depth examination of selected issues in drama, theatre and performance studies. Content may vary depending on instructor and is counted towards Group A. Please consult the Undergraduate Drama office and check Special Topics on the website for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or any 4.0 FCE

**Recommended Preparation:** DRM220Y1/DRM230Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM388H1 - Special Topics in Drama, Theatre and Performance Studies

**Hours:** 36L

An in-depth examination of selected issues in drama, theatre and performance studies. Content may vary depending on instructor and is counted towards Group A. Please consult the Undergraduate Drama office and check Special Topics on the website for more details.

**Prerequisite:** DRM100Y1/DRM101Y1/UNI102Y1 or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM390Y1 - Independent Studies in Drama, Theatre and Performance Studies

**Hours:** TBA

A scholarly project at the 300 level proposed by the individual student in conversation with a member of faculty who is willing to act as supervisor. Not eligible for CR/NCR option.

**Prerequisite:** CGPA 2.7; DRM220Y1/DRM230Y1; 10 FCE;

Specialist or Major in Drama; A written proposal; Independent study form signed by both student and faculty instructor to be submitted for approval to the Associate Director (undergraduate) before registration: August 1st for September start date; November 1st for January start date.

**Distribution Requirements:** Humanities

## DRM391H1 - Independent Studies in Drama, Theatre and Performance Studies

**Hours:** TBA

A scholarly project at the 300 level proposed by the individual student in conversation with a member of faculty who is willing to act as supervisor. Not eligible for CR/NCR option.

**Prerequisite:** CGPA 2.7; DRM220Y1/DRM230Y1; 10 FCE;

Specialist or Major in Drama; A written proposal; Independent study form signed by both student and faculty instructor to be submitted for approval to the Associate Director (undergraduate) before registration: August 1st for September start date; November 1st for January start date.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM400Y1 - Advanced Performance: Devised Theatre

**Hours:** 48T/144P

An in-depth study of devising theatre in a group context. This course offers an intensive exploration of the history and practice of devised theatre within the late 20th and early 21st centuries that will culminate in a number of in-class and public performances. This course is open to acting, directing, playwriting, and production and design students. The [Application Deadline](#) is April 10th.

**Prerequisite:** Specialist or Major in Drama with a minimum CGPA of 2.7; DRM220Y1/DRM230Y1; DRM300Y1 or DRM354Y1 or DRM328H1 or DRM302H1; a letter of interest and permission of the Drama Centre.

**Recommended Preparation:** DRM331H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JDC400Y1 - Redefining Security through Art

**Hours:** 48L/48T

Articulates a cultural approach to achieving Human Security. This course examines human security issues in which there is a significant cultural dimension to a security threat, and in which culture occupies an essential place in any realistic and effective solution. The work of artists to be analyzed include: Ariane Mnouchkine; Robert Lepage; Bertolt Brecht; John Greyson, Mohsen Makhmalbaf, Terry George and Daniel Barenboim. Not offered in 2016/17.

**Prerequisite:** 14 FCE, Specialist or Major in Drama and permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JIA400H1 - Interdisciplinary Practice for the Arts: The Architecture of Creativity

**Hours:** 144P/144S

While examining the interconnectedness of the arts, students are required to meet between sessions and develop projects connected to their study. These projects involve a range of media, including theatre, film, music and visual art (installation). Limited to fourth-year students.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM401H1 - Advanced Concepts in Voice

**Hours:** 4T/48P

Advanced voice training to refine the skills and concepts developed thus far in DRM200Y1 and DRM300Y1, focusing on performance. Techniques of articulation, speech, and rhetoric are studied. Taken in conjunction with DRM403Y1: Advanced Performance: Mainstage and DRM411H1: Advanced Concepts in Movement.

**Prerequisite:** Minimum CGPA of 2.7; DRM220Y1/DRM230Y1; DRM300Y1; Acceptance into DRM403Y1 or permission from the instructor.

**Corequisite:** DRM403Y1 and DRM411H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM402H1 - Advanced Directing

**Hours:** 24T/36P

An exploration of advanced directing for the theatre. The class is centered on student directed productions, which are publically presented at the end of term. Emphasis is placed on the development of strong central concepts and realizing the production with imagination, collaboration and creativity. Priority is reserved for Drama Majors and Specialists. The Application Deadline is April 10th.

**Prerequisite:** Specialist or Major in Drama with a minimum CGPA of 2.7; DRM220Y1/DRM230Y1; DRM302H1; DRM331H1; a written proposal and an interview in April.

**Recommended Preparation:** DRM300Y1 or DRM328H1 or DRM354Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM403Y1 - Advanced Performance: Mainstage

**Hours:** 48T/144P

This course, taught each year by a different visiting professional theatre director, offers upper-level theatre and performance studies students the opportunity to explore acting in a full-length production. Plays are selected to challenge students in a variety of diverse ways, exposing them to a full spectrum of theatre and performance genres and possibilities. The Application Deadline is April 10th.

**Prerequisite:** Specialist or Major in Drama with a minimum CGPA of 2.7; DRM220Y1/DRM230Y1; DRM300Y1, 1 FCE from DRM301H1/DRM311H1/DRM375H1/DRM376H1/DRM377H1/DRM378H1; An audition in April.

**Corequisite:** DRM401H1, DRM411H1 (or permission of the Centre).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JDC410H1 - Arts and Politics: Bertolt Brecht, Robert Lepage, Robert Wilson

**Hours:** 36L

Bertolt Brecht played a specific role in the paradigm shift of the art which began at the end of the 19th century. He advanced this change by trying to connect art to its social and political functions and structure with the positive acceptance of the industrial revolution and by trying to transform it with the help of the new technological media. Not offered in 2016/17.

**Prerequisite:** 14 FCE, Specialist or Major in Drama and permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM411H1 - Advanced Concepts in Movement

**Hours:** 2T/48P

Advanced movement training to refine the skills and concepts developed thus far in DRM200Y1 and DRM300Y1, focusing on performance. Techniques of personal physical awareness, movement as a tool for discovery in acting processes, movement as communication in performance, ensemble work, and movement generation are studied. Taken in conjunction with [DRM403Y1: Advanced Performance: Mainstage](#) and [DRM401H1: Advanced Concepts in Voice](#).

**Prerequisite:** Minimum CGPA of 2.7; DRM220Y1/DRM230Y1; DRM300Y1; Acceptance into DRM403Y1 or permission from the instructor.

**Corequisite:** DRM403Y1 and DRM411H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM428H1 - Advanced Playwriting

**Hours:** 24T/36P

A continuation of DRM328H1, concentrating upon the in-depth knowledge and practice of playwriting with an emphasis on advanced style and technique of writing for the stage. Students develop their own longer work through in-class exercises, one major written assignment, and the final public presentation. See [Portfolio Guidelines](#) for information on how to apply.

**Prerequisite:** Minimum CGPA of 2.7; DRM220Y1/DRM230Y1, DRM328H1 and a portfolio of writing samples due in November.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM454H1 - Advanced Production and Design

**Hours:** 24T/36P

Continues the exploration of design and production techniques. Students are given an opportunity to use their knowledge and skills from previous production courses on an advanced level. Students are expected to participate in Drama Centre productions in senior creative and leadership roles. Focus also includes the integration of digital technology into theatrical performance.

**Prerequisite:** Minimum CGPA of 2.7; DRM220Y1/DRM230Y1; DRM254Y1 and DRM354Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM454Y1 - Advanced Production and Design

**Hours:** 144P

Continues the exploration of design and production techniques. Students are given an opportunity to use their knowledge and skills from previous production courses on an advanced level. Students are expected to participate in Drama Centre productions in senior creative and leadership roles. Focus also includes the integration of digital technology into theatrical performance. The Application Deadline is March 10th for an interview in April. See department website for application details.

**Prerequisite:** Minimum CGPA of 2.7; DRM220Y1/DRM230Y1; DRM254Y1 and DRM354Y1; and permission of the Drama Centre

**Exclusion:** DRM454H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM485H1 - Senior Seminar in Drama, Theatre and Performance Studies

**Hours:** TBA

An in-depth examination of selected issues in the theatre at the 400 level. Content may vary depending on instructor and therefore may be counted towards Groups A or B. Please consult the Undergraduate Drama office or check the program's [website](#) for more details.

**Prerequisite:** DRM220Y1/DRM230Y1; 14 FCE, Specialist or Major in Drama and/or permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## DRM485Y1 - Senior Seminar: Drama, Theatre and Performance Studies Thesis

**Hours:** 72L

Research thesis, emphasizing topics and methods used in drama, theatre and performance studies. Students must obtain permission from the instructor by submitting a research project proposal. The project may engage creative practice, but the thesis itself will be a critical, written work engaging the research and dramaturgy involved in the performance or artwork. Not eligible for CR/NCR option. See online application for details.

**Prerequisite:** Minimum CGPA of 2.7; DRM220Y1/DRM230Y1; 14 FCE, Specialist or Major in Drama and a research project proposal.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **DRM486H1 - Senior Seminar in Drama, Theatre and Performance Studies**

**Hours:** 36P

An in-depth examination of selected issues in the theatre at the 400 level. Content may vary depending on instructor and therefore may be counted towards Groups A or B. Please consult the Undergraduate Drama office or check the programs [website](#) for more details.

**Prerequisite:** DRM220Y1/DRM230Y1; 14 FCE, Specialist or Major in Drama and/or permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **DRM487H1 - Senior Seminar in Drama, Theatre and Performance Studies**

**Hours:** 36L

An in-depth examination of selected issues in the theatre at the 400 level. Content may vary depending on instructor and therefore may be counted towards Groups A or B. Please consult the Undergraduate Drama office or check the programs website for more details.

**Prerequisite:** DRM220Y1/DRM230Y1; 14 FCE, Specialist or Major in Drama and/or permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **DRM488H1 - Senior Seminar in Drama, Theatre and Performance Studies**

**Hours:** 36L

An in-depth examination of selected issues in the theatre at the 400 level. Content may vary depending on instructor and therefore may be counted towards Groups A or B. Please consult the Undergraduate Drama office or check the programs website for more details.

**Prerequisite:** DRM220Y1/DRM230Y1; 14 FCE, Specialist or Major in Drama and/or permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **DRM490Y1 - Independent Studies in Drama, Theatre and Performance Studies**

**Hours:** TBA

A scholarly project at the 400 level proposed by the individual student in conversation with a member of faculty who is willing to act as supervisor. Not eligible for CR/NCR option.

**Prerequisite:** CGPA 2.7; DRM220Y1/DRM230Y1; 14 FCE; Specialist or Major in Drama; A written proposal; Independent study form signed by both student and faculty instructor to be submitted for approval to the Associate Director (undergraduate) before registration: August 1st for September start date; November 1st for January start date.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **DRM491H1 - Independent Studies in Drama, Theatre and Performance Studies**

**Hours:** TBA

A scholarly project at the 400 level proposed by the individual student in conversation with a member of faculty who is willing to act as supervisor. Not eligible for CR/NCR option.

**Prerequisite:** CGPA 2.7; DRM220Y1/DRM230Y1; 14 FCE; Specialist or Major in Drama; A written proposal; Independent study form signed by both student and faculty instructor to be submitted for approval to the Associate Director (undergraduate) before registration: August 1st for September start date; November 1st for January start date.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

# Earth Sciences

## Faculty List

### Professor and Chair of the Department

R. Pysklywec, M Sc, Ph D

### Associate Professor and Associate Chair (Graduate Studies)

J. Bollmann, Dip Geol, Sci. Nat. ETH

### Associate Professor and Associate Chair (Undergraduate)

U. Wortmann, Dipl. Geol., Dr. Rer. Nat.

### University Professor

B. Sherwood-Lollar, BA, Ph D, FRSC

### Professors

J. R. Desloges, M Sc, Ph D  
M. L. Diamond, M Sc, M Sc Eng, Ph D  
N. Eyles, M.Sc., Ph. D. (U of T Scarborough)  
F.G. Ferris, B Sc, Ph D, FRSC  
K.W.F. Howard, M Sc, Ph D (U of T Scarborough)  
A.D. Miall, B Sc, Ph D, D Sc, FRSC  
B. Milkereit, M.Sc., Ph.D.  
J.E. Mungall, M Sc, Ph D

### Associate Professors

B.A. Bergquist, B Sc, Ph D  
S. A. Cowling, M Sc, Ph D  
M. Dittrich, Ph.D., (U of T Scarborough)  
S. Finkelstein, M Phil, Ph D  
R. Ghent, M Sc, Ph D  
J. Halfar, Dip Geol, Ph D (U of T Mississauga)  
G.S. Henderson, M Sc, Ph D  
L. Schoehnbohm, B Sc, Ph D (U of T Mississauga)  
D.J. Schulze, M Sc, Ph D (U of T Mississauga)

### Assistant Professors

M. Laflamme, Ph D (U of T Mississauga)  
Z. Zajacz, Ph D

### Cross Appointed Faculty

Q. Liu M.Sc., Ph.D.  
M. Wells, Ph.D., (U of T Scarborough)

### Senior Lecturers

C.-G. Bank, Dip Geophys, M Sc, Ph D

### Status Only Faculty

K. Tait, M.Sc., Ph.D., ROM  
J. B. Caron, M.Sc., Ph.D., ROM  
M. Head, M.Sc., Ph.D., Brock University

### Non tenure stream faculty

D. Davis, M Sc, Ph D  
M.A. Hamilton, M Sc, Ph D  
S. Kamo, M Sc, Ph D

### University Professor Emeritus

A.J. Naldrett, MA, M Sc, Ph D, FRSC

### Professors Emeriti

G.M. Anderson, B Eng, MA Sc, Ph D  
R. C. Bailey, B.Sc., Ph.D.  
J.J. Fawcett, B Sc, Ph D  
J. Gittins, M Sc, Ph D, Sc D (U)  
H.C. Halls, M Sc, PhD (U of T Mississauga)  
G. Norris, MA, Ph D, FRSC (U)  
J.C. Rucklidge, MA, Ph D  
W.M. Schwerdtner, Dip Geol, Dr Rer Nat  
S.D. Scott, Ph D, FRSC  
E. T. C. Spooner, MA, Ph D (U)  
P.H. von Bitter, MA, Ph D  
P-Y. F. Robin, M Sc, Ph D (U of T Mississauga)  
J.A. Westgate, B Sc, Ph D (S)

## Introduction

Do you like sciences but have a hard time choosing which one to pursue? Can you picture yourself performing experiments in the lab, or collecting data in the field, or developing and testing models on a computer? Then Earth Sciences is the discipline for you. It is the study of physical, chemical, and biological processes over a wide range of temporal and spatial scales in earth and planetary systems.

Our department offers various programs:

The three specialist programs – Geology, Environmental Geoscience, and Geophysics (offered in collaboration with the Department of Physics) – give students the skills to enter graduate studies and also allows them to become professional “geoscientists in training” after graduation. The Geology specialist program focuses on processes of the solid planetary bodies, including volcanoes, sedimentary environments, mountain building, the formation of minerals or ores, and Earth through time. The Environmental Geosciences specialist program in addition addresses processes related to groundwater and biochemical activities. The Geophysics specialist program allows students to model physical processes in and on Earth and other planets and to apply non-invasive methods of imaging the subsurface, often in 4D (i.e., space and time); targets may range from archaeological investigations to groundwater imaging and mineral exploration, but also include modeling of mountain-building processes and planetary magnetic fields.

The Geoscience Major program builds on a set of core courses and allows students to select elective courses that match their particular interests. Students have paired this program not just with other science programs but such diverse fields as geography, archaeology, economics, history, political science, or peace and conflict studies.

The Geoscience Minor program provides an introduction to Earth science topics and thinking.

The new major called “Earth and Environmental Systems” takes a holistic approach to understanding how the Earth system works and

how it has evolved over tens to millions and billions of years. This requires understanding the dynamics and interactions of all aspects of the system (solid Earth, ocean, atmosphere, and biosphere) and provides the larger context at a time when climate change, resource consumption and global pollution weigh heavily on people and societies.

Our programs emphasise hands-on lab and field work. At least one field course is required in each program, and several courses have offered optional one-day to two-week long trips. In recent years courses have travelled to Newfoundland, Texas, Arizona, Hawaii, Chile, and New Zealand, and small groups of undergraduates have been involved with field research in Turkey, Peru, Greece and South Africa. These field training opportunities foster the establishment of peer networks, develop team-working skills, afford hands-on learning, and allow for a close collaboration and mentoring experience between individual students and instructors. Students are also encouraged to take advantage of extra and co-curricular opportunities such as study abroad, summer abroad, internships, or working in industry and non-governmental organizations.

More information (including an undergraduate handbook) can be found on the department website [www.es.utoronto.ca](http://www.es.utoronto.ca). Students are encouraged to discuss their plans for program and course selection with the Undergraduate Associate Chair ([undergradchair@es.utoronto.ca](mailto:undergradchair@es.utoronto.ca)).

## Earth Sciences Programs

### Environmental Geosciences Specialist (Science Program)

#### Description:

The Environmental Geosciences specialist program explains the interconnectedness within the Earth system (biosphere, hydrosphere, atmosphere, and geosphere), measures and models processes related to groundwater and biochemical activities, and assesses the effects of human activities on our geological surroundings.

Jointly sponsored by the School for the Environment and the Department of Earth Sciences. Topics include earth materials, sedimentary geology, aqueous geochemistry, hydrogeology and biogeochemistry. For more information, please contact the Department of Earth Sciences, [undergradchair@es.utoronto.ca](mailto:undergradchair@es.utoronto.ca). Students should note that under the Professional Geoscientists Act of 2000, individuals practicing Environmental Geoscience in Ontario require education that fulfills APGO knowledge requirements (see note below) or a P.Eng.

#### Completion Requirements:

(12 full courses or their equivalent which includes fulfillment of the Faculty's Distribution requirement, including at least one FCE from 400-series courses)

1st year required courses (2 FCE): [CHM151Y1/CHM135H1](#), [CHM136H1](#), [MAT135H1](#), [PHY131H1/PHY151H1](#)

1st year elective courses: 1FCE from [MAT136H1](#), [PHY132H1/PHY152H1](#), [BIO120H1](#), [CSC108H1/ESS345H1](#), [JEG100H1](#)

2nd year required courses (2 FCE): [ESS241H1](#), [ENV233H1](#), [ESS262H1](#), [GGR201H1](#)

2nd year elective courses: 1 FCE from [ESS221H1](#), [ESS222H1](#), [ESS261H1](#), [STA220H1/GGR270H1](#), [CHM210H1](#), [MAT221H1/MAT223H1](#); up to 0.5 FCE of this requirement can be satisfied by taking one of the following ethics courses: [IMC200H1/PHL273H1/PHL275H1/ABS201Y1](#)

3rd and 4th year required courses (2 FCE): [ESS311H1](#), [ESS312H1](#), [ESS410H1](#), [ESS461H1](#)

3rd and 4th year elective courses: 4 FCE from [JGA305H1](#), [ESS330H1](#), [ESS331H1](#), [ESS361H1](#), [ESS362H1](#), [GGR337H1](#), [GGR390H1](#), [ENV333H1](#), [ESS431H1](#), [ESS441H1](#), [ESS445H1](#), [ESS450H1](#), [ESS462H1](#), [ESS463H1](#), [ESS464H1](#), [ESS490H1](#), [ESS491H1/ESS492Y1](#)

If you plan to become APGO certified, we suggest you consider the following courses to fulfill minimum qualifications. This list comprises courses which are required for the specialist as well as suggested courses; together they fulfill groups 1A, 1B, 2A and 2B of the APGO requirements and add up to 13.5 FCE:

Group 1A: [CHM135H1](#), [MAT135H1](#), [PHY131H1](#)

Group 1B: [BIO120H1](#), [MAT136H1](#), [CHM136H1](#), [PHY132H1](#), [STA220H1](#), [CSC108H1/ESS345H1](#)

Group 2A: [ESS221H1](#), [ESS241H1](#), [ESS330H1](#), [ESS331H1](#)

Group 2B: [ENV233H1](#), [ESS312H1](#), [GGR201H1](#), [GGR337H1](#), [JGA305H1](#)

Group 2C: 4.5 FCE of 200/300/400 level ESS or other allowable courses

All students, regardless of their career aspirations, are encouraged to talk to the undergraduate chair about their selection of electives.

### Geology Specialist (Science Program)

#### Completion Requirements:

Please consult the [undergraduate handbook](#) for detailed information on this program.

(14 full courses or their equivalent)

5.0 FCE foundation courses:  
[CHM151Y1](#) / [CHM135H1](#), [CHM136H1](#) ([CHM138H1](#), [CHM139H1](#));  
[MAT135H1](#) & [MAT136H1](#); ([PHY131H1](#), [PHY132H1](#))/([PHY151H1](#),  
[PHY152H1](#)); [BIO120H1](#) / [MAT221H1](#) / [MAT223H1](#); [STA220H1](#) /  
[GGR270H1](#); [GGR201H1](#); [CSC108H1](#) / [ESS345H1](#); recommended:  
[ESS102H1](#) or [JEG100H1](#)

6.0 FCE core courses:  
[ENV233H1](#), [ESS221H1](#), [ESS222H1](#), [ESS241H1](#), [ESS261H1](#),  
[JGA305H1](#), [ESS311H1](#), [ESS312H1](#), [ESS322H1](#), [ESS331H1](#),  
[ESS441H1](#), [ESS431H1](#) (previously ESS332)

1.0 FCE field courses:  
[ESS330H1](#), [ESS420H1](#)

2.0 FCE electives chosen from:

ENV234H1, ESS381H1, ESS410H1, ESS423H1, ESS425H1,  
ESS445H1, ESS461H1, ESS481H1, ESS420H1 / ESS490H1,  
ESS491H1 / ESS492Y1, ESS362H1

## Geophysics Specialist (Science Program)

### Completion Requirements:

Consult Departments of Geology and Physics

(13.5 to 14 full courses or their equivalent with at least one course at the 400-level)

9.0 FCEs core courses:

100-level: PHY131H1/PHY151H1, PHY132H1/PHY152H1;  
(MAT135H1, MAT136H1)/MAT137Y1

200-level: PHY250H1, PHY254H1; MAT235Y1/MAT237Y1;  
ESS221H1, ESS241H1

300-level: PHY395H1; JGA305H1

400-level: PHY408H1, PHY493H1, ESS452H1; ESS441H1,  
ESS445H1, ESS450H1

0.5 to 1.0 FCEs ethics course chosen from the following list:  
JPH441H1, ENV333H1, IMC200H1, PHL273H1, PHL275H1,  
INS201Y1

4.0 to 4.5 additional FCEs chosen from Groups A, B, and/or C:

Group A -- courses required and relevant for professional registration (APGO):  
CHM135H1; ESS345H1/CSC108H1; STA220H1/GGR270H1;  
MAT223H1, MAT244H1; APM346H1; ESS331H1

Group B -- emphasis on physics (suitable for graduate school preparation in a physics program):  
PHY252H1, PHY350H1, PHY354H1, PHY392H1, PHY454H1,  
PHY495H1

Group C -- other relevant courses:  
PHY224H1, MAT224H1, MAT335H1, APM346H1, ESS211H1,  
ESS222H1, ESS311H1, ESS312H1, ESS431H1, ESS330H1,  
ESS410H1, ESS490H1, ESS491H1, ESS492H1

## Earth and Environmental Systems Major (Science Program)

### Description:

(8 full courses or their equivalent including at least 2.0 FCE at 300+ series with at least 0.5 FCE at 400 level series.)

1. 2.0 FCE foundation science courses: 2.0 FCE selected from  
JEG100H1 (ESS102H1), BIO120H1, BIO130H1, CHM135H1  
(CHM139H1), CHM136H1 (CHM138H1), PHY131H1, PHY132H1,  
MAT135H1

2. 3.0 FCE core courses:

- 1.0 FCE at 200 level: ESS261H1, ESS262H1 (NOTE: ESS261H1 and ESS262H1 may be taken in either order.)
- 1.0 FCE at 300 level: ESS345H1,  
ESS361H1/ESS362H1/GGR305H1
- 0.5 FCE field course: ESS410H1/ESS450H1/GGR390H1
- 0.5 FCE capstone course:  
ESS461H1/ESS462H1/ESS463H1/ESS464H1

3. 3.0 FCE elective courses:

**In addition to the above core courses, you need to take 3 FCE electives. This requirement can be satisfied by any of the Earth Sciences Courses listed on this page.** The following clusters of courses are neither mutually exclusive nor meant to limit choice but intended to show logical course complements. These are not POST requirements; rather the clusters are presented to aid students in course selection according to their interests.

a) Earth Surface Processes

ESS241H1, ESS311H1, ESS331H1, ESS445H1, GGR201H1,  
GGR205H1, GGR272H1

b) Paleoclimate

ESS331H1, ESS361H1, ESS362H1, ESS461H1, ESS464H1,  
ENV234H1, GGR305H1

c) Biogeochemistry

ENV233H1, ESS311H1, ESS312H1, ESS362H1, ESS410H1,  
ESS462H1

d) Global Environmental Change

ESS362H1, ESS462H1, ESS463H1, GGR203H1, GGR314H1,  
PHY392H1

e) Quaternary Science

ANT314H1, ANT315H1, ANT409H1, ANT419H1, ESS461H1

f) Other Relevant Courses

JGA305H1, ESS450H1, GGR337H1, JEE337H1, JSC301H1,  
ESS399Y0, ESS491H1/ESS492Y1

## Geoscience Major (Science Program)

### Completion Requirements:

(8 full courses or their equivalent including at least 2.0 FCE at 300+ series with at least 0.5 FCE at 400 level series.)

2.0 to 2.5 FCE chosen from BIO120H1; CHM135H1, CHM136H1  
(CHM138H1, CHM139H1); MAT135H1, MAT136H1, MAT137Y1;  
PHY131H1, PHY132H1; JEG100H1 (ESS102H1); ENV234H1

2.5 FCE core courses: [ESS221H1](#), [ESS222H1](#), [ESS241H1](#), [ESS261H1](#), [ESS331H1](#)

0.5 FCE field course: [ESS330H1](#)/[ESS410H1](#)/[ESS450H1](#)

2.5 to 3.0 FCE chosen from 300/400 level ESS courses/[JGA305H1](#); note course progressions and prerequisites.

We suggest students consider the following logical course clusters in their higher years:

(a) Earth/planetary materials and mineral resources: [ENV233H1](#), [ESS322H1](#), [ESS431H1](#) ([ESS332H1](#)), [ESS423H1](#)

(b) tectonics: [JGA305H1](#), [ESS345H1](#), [ESS441H1](#), [ESS445H1](#)

(c) environmental biogeochemistry: [ENV233H1](#), [ESS311H1](#), [ESS312H1](#), [ESS410H1](#), [ESS461H1](#)

(d) geoarchaeology: [JGA305H1](#), [ESS461H1](#)

## Environmental Geosciences Minor (Science Program)

### Enrolment Requirements:

**Admission to the Environmental Geosciences Minor has been administratively suspended as of 1 April 2015 and is no longer admitting students. Students presently enrolled in the minor will be able to complete the program requirements as described below.**

### Completion Requirements:

(4 full courses or their equivalent; must include at least one full-course equivalent at the 300+-level)

1. [CHM136H1](#) ([CHM138H1](#))

2. [ENV233H1](#); [ESS221H1](#), [ESS222H1](#), [ESS311H1](#), [ESS312H1](#), [ESS410H1](#)

## Geoscience Minor (Science Program)

### Completion Requirements:

(4 full courses or their equivalent, with at least 1.0 FCE at 300+ series.)

1. 1.0 FCE of 100-series CHM, BIO, or PHY courses.

2. 1.0 FCE of 100-level ESS courses ([JEG100H1](#)/[ESS102H1](#) recommended).

3. 1.0 FCE of 200-level ESS courses, including [ENV234H1](#).

4. 1.0 FCE of 300/400 level ESS courses, including [JGA305H1](#).

Be aware of course prerequisites, check clusters of courses listed for the geoscience major program, and consult the geology undergraduate handbook for logical course progressions.

## Regarding Earth Sciences Courses

### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Earth Sciences Courses

### JEG100H1 - Introduction to Physical Geography and Earth Science

Hours: 24L/10P

This introduction to Physical Geography and Earth Sciences examines the atmosphere, lithosphere, hydrosphere, cryosphere and biosphere, emphasizing processes, flows of energy and materials, and the interconnectedness of these Earth systems. Specific topics include weather and climate, earth materials, geological and geomorphic processes involved in the genesis of landforms, river systems, glaciers, soils, and biomes. Five laboratory meetings during the term.

**Exclusion:** GGR100H1 and ESS102H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

### ESS103H1 - Geology in Public Issues

Hours: 24L

Geologic hazards: earthquakes, volcanoes, landslides, tsunamis. The distribution and politics of natural resources, including petroleum and ore deposits. Nuclear power and nuclear waste disposal. Global change: the geologic record of hot and cold climates, and how the earth survives. ESS103H1 is primarily intended as a science Distribution Requirement course for Humanities and Social Science, it will be taught in odd years.

**Exclusion:** GLG103H1, ERS103H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS104H1 - Controversies in Earth Science

**Hours:** 24L

The evolution of ideas about the origin and development of the earth from the Athenians to the 20th Century, with attention on the age of earth; on the evolution and disappearance of species; on the origin of oceans, continents and mountains; on climate change; and on the courage of scientists in confronting the religious and political views of their time. ESS104H1 is primarily intended as a science Distribution Requirement course for Humanities and Social Science students. Taught in even years.

**Exclusion:** GLG105H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS105H1 - Our home planet

**Hours:** 24L

The nature and evolution of the Earth; plate tectonics; rocks and minerals; volcanism; geological time; fossils; geology of Ontario; environmental issues; and human interactions with the planet. ESS105H1 is primarily intended as a science Distribution Requirement course for Humanities and Social Science students

**Exclusion:** GLG110H1, EESA06H3

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS205H1 - Confronting Global Change

**Hours:** 24L/8T

The emergence of society as a major geological force is considered in terms of the evolving debate about the consequences of human activity for the habitability of our planet. Major issues such as climate change, environmental pollution, and depletion of natural resources are examined.

**Exclusion:** GLG205H1, ERS321H5

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ESS221H1 - Minerals and Rocks

**Hours:** 24L/36P

Systematic mineralogy (including: identification, classification and description), Physical and chemical properties of minerals. Crystallography and crystal systems (symmetry, crystal structure, crystal systems) Descriptions of rocks in hand samples. Optical techniques in mineral identification.

**Exclusion:** GLG206H1, ERS201H5, EESB19H3

**Recommended Preparation:**

(CHM138H1, CHM139H1)/CHM151Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS222H1 - Petrology

**Hours:** 24L/36P

Origin and classification of igneous, sedimentary and metamorphic rocks and their associated ore deposits. Emphasis is placed on formation of rock types in the context of plate tectonic theory, and the practical aspects of rock identification in hand sample and thin section.

**Prerequisite:** ESS221H1, ERS203H5, EESC36H3

**Exclusion:** GLG207H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ENV233H1 - Earth System Chemistry

**Hours:** 24L

This course will examine how the chemistry of the Earth system has changed through geologic time including recent perturbations by humans. Within this context students will be exposed to the scientific principles of thermodynamics, redox, and acid-base chemistry. This course will build on the topics introduced in ENV234H1.

**Prerequisite:** 0.5 FCE from CHM135H1 (recommended)/CHM138H1/CHM136H1/CHM139H1/CHM151Y1; 0.5 FCE from MAT135H1/MAT137Y1/MAT157Y1/JMB170Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ENV234H1 - Environmental Biology: Structure and Function of Ecosystems (formerly ENV234Y1)

**Hours:** 24L/18P

This multidisciplinary course draws on elements from geology, soil science, and ecology to understand past and present environments and human impacts on landscapes and ecosystems. Emphasis on the structure, functioning and connectivity of aquatic and terrestrial ecosystems. Field trips and labs. Mandatory day-long field trip on a Friday or Saturday (students choose which day; a fee of approximately \$15 may be charged for field trip transportation.) (Lab Materials Fee: \$25)

**Prerequisite:** BIO120H1/JEG100H1 (recommended)/FOR200H1/FOR201H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ESS241H1 - Geologic Structures and Maps

**Hours:** 24L/36P

Field observations, description and classification of geological structures: stratigraphic and intrusive contacts, unconformities; relative age determination; folds and fold systems; faults and fault systems; boudinage, foliations and lineations; spherical projections and mechanical principles (stress, strain, rheology). Practical work focuses on reading geological maps, constructing cross-sections, and interpreting both in terms of geological processes and histories.

**Exclusion:** GLG345H1, EESC37H3

**Recommended Preparation:**

(PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

**Note:** This course will offer an International Course Module in Oman over the November Reading Week 2017.

## ESS261H1 - Earth System Evolution

**Hours:** 24L/36P

Interrelationships between Earth's atmosphere, hydrosphere, geosphere and biosphere through time; including patterns of evolution and extinction as they are related to changes at the earth's surface and recorded in the rock record. Laboratories cover major groups of fossils, their classification, use in biostratigraphy, and living analogues. NOTE: ESS261H1 and ESS262H1 may be taken in either order; and both are required for advanced courses.

**Exclusion:** GLG217H1

**Recommended Preparation:** BIO120H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS262H1 - Earth System Processes

**Hours:** 24L/24P

Processes acting within the Earth system, with particular emphasis on interactions between its components (hydrosphere, atmosphere, biosphere and solid Earth) at long and short timescales. Lecture topics include pre-biotic and post-biotic atmosphere, thermohaline circulation of the oceans, plate tectonics, the rock cycle, regulation of paleoclimates, the global carbon cycle and the terrestrial and marine biosphere.

**Recommended Preparation:** PHY131H1/CHM138H1/BIO120H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## JGA305H1 - Environmental and Archaeological Geophysics

**Hours:** 24L/12P

Application of near-surface geophysical methods to investigate environmental and archaeological sites; in particular magnetometry, resistivity, ground-probing radar, and seismic surveys. Course will cover background on the various methods, and allow students to run field surveys and present on case studies.

**Prerequisite:** ESS241H1 or ANT200Y1 or GGR201H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS311H1 - Aqueous Geochemistry

**Hours:** 24L/24P

An introduction to aqueous environmental geochemistry emphasising the importance of chemical equilibria, mass transport, and microbiological activity in regulating the chemical composition of natural and contaminated systems.

**Prerequisite:** ESS211H1 / ENV233H1

**Exclusion:** GLG351H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS312H1 - Hydrogeology

**Hours:** 24L/24P

Groundwater flow, the role of groundwater in geologic processes, and physical, chemical and biological constraints on contaminant source transport and attenuation.

**Prerequisite:** ESS311H1

**Exclusion:** GLG450H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS322H1 - Igneous and Metamorphic Petrology

**Hours:** 24L/36P

An overview of the nature and origin of igneous as well as metamorphic rocks, with particular emphasis on the interpretation of textures and mineral assemblages as they reflect rock-forming processes. Laboratory exercises familiarise students with the most common rock types, and provide practical examples of the theoretical principles discussed in lectures. This course also has a mandatory weekend field trip to view igneous and metamorphic rocks and structures in the Bancroft or Montreal area.

**Prerequisite:** ESS222H1 & ESS211H1/ENV233H1

**Exclusion:** GLG318H1, GLG319H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS330H1 - Introduction to Geologic Field Methods

**Hours:** TBA

A two-week field course in early May or late August. Students are introduced to field geology and to basic field measurement, mapping and documentation techniques (for example in the Espanola - Manitoulin Island area, west of Sudbury). Students are responsible for the cost of board and lodging and transport to and from the field area. Not eligible for CR/NCR option. Note: Enrollment is handled by the department. For registration deadlines, additional fees associated with the field course, course dates, and special registration requirements, please consult the departmental announcements or inquire with [ugrad@es.utoronto.ca](mailto:ugrad@es.utoronto.ca).

**Prerequisite:** ESS222H1 & ESS241H1

**Exclusion:** GLG340H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS331H1 - Sedimentation and Stratigraphy

**Hours:** 24L/36P

Formal principles of stratigraphy, types of stratigraphic unit, methods of dating and correlation (biostratigraphic methods, magnetostratigraphy, radiometric dating). Methods of study in surface and subsurface (outcrop measurement, elementary introduction to wireline logs, seismic methods). The principles of facies analysis; sediment transport - sedimentary structures, the flow regime, and sediment gravity flows. The carbonate factory and carbonate rock classification. Trace fossils. Laboratory exercises in understanding facies mapping, isopachs and isolith maps.

**Prerequisite:** ESS221H1

**Exclusion:** GLG360H1, ERS313H5

**Recommended Preparation:** ESS222H1, ESS330H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS345H1 - Computational Geology

**Hours:** 24L/1T/24P

High-level computer programming to manipulate, analyse, and visualise geologic datasets, and to solve geologic problems that require mathematical and physical concepts. Students work in Matlab, write reports, give oral presentations, and work in teams.

**Prerequisite:** ESS241H1/ESS261H1/ESS262H1

**Exclusion:** GLG204H1, CSC108H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS361H1 - Atmosphere-Biosphere Interact

**Hours:** 24L

Theory on the exchange of energy and matter (carbon, water) between the land surface and atmosphere, with a focus on the implications of ecosystem-level processes for regional micrometeorology. Examples will be taken from research on contemporary as well as palaeoclimate systems. Case studies to include how changes in vegetation type alter surface radiation balance, hydrological cycling and heat transfer in soils. There is no formal textbook for this course. Lecture material will be augmented with assigned readings from the scientific literature.

**Prerequisite:** 8.0 FCE's, including 1.5 FCE from PHY131H1/PHY132H1/CHM138H1/CHM139H1/MAT135H1/MAT136H1

**Exclusion:** GGR303H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ESS362H1 - Oceanography

**Hours:** 24L/24P

An introduction to the physical, geological, chemical, and biological processes governing the world's oceans. The course emphasizes critical thinking, environmental issues, and interrelationships among scientific disciplines.

**Prerequisite:** 8.0 FCE including ESS261H1/ESS262H1

**Recommended Preparation:** 1.0 FCE from ESS102H1/PHY131H1/PHY132H1/CHM138H1/CHM139H1/BIO120H1/MAT135H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS381H1 - Special Topics in Earth Science

**Hours:** 24L/24P

A survey of current thinking in Earth science. Topics may include isotope geochemistry, ore genesis, or planetary remote sensing.

**Prerequisite:** minimum of 1.0 credits in ESS at the 200+ level

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS391H1 - Directed Studies

**Hours:** TBA

An individual study program chosen by the student with the advice, and under the supervision, of a faculty member. Such work may involve obtaining data in the field or lab and analysing it, an interdisciplinary research project, and supervised readings. Not eligible for CR/NCR option.

**Prerequisite:** enrollment in an Earth Science program of study, completion of at least one full-course equivalent of 200-series ESS courses.

**Exclusion:** GLG371H1

**Distribution Requirements:** Science

## ESS392Y1 - Directed Studies

**Hours:** TBA

An individual study program chosen by the student with the advice, and under the supervision, of a faculty member. Such work may involve obtaining data in the field or lab and analysing it, an interdisciplinary research project, and supervised readings. Not eligible for CR/NCR option.

**Prerequisite:** enrollment in an Earth Sciences Program of Study; completion of at least one full-course equivalent of 200-series ESS courses.

**Exclusion:** GLG372Y1

**Distribution Requirements:** Science

## JPE395H1 - Physics of the Earth

**Hours:** 24L

Designed for students interested in the physics of the Earth and the planets. Study of the Earth as a unified dynamic system; determination of major internal divisions in the planet; development and evolution of the Earth's large scale surface features through plate tectonics; the age and thermal history of the planet; Earth's gravitational field and the concept of isostasy; mantle rheology and convection; Earth tides; geodetic measurement techniques, in particular modern space-based techniques.

**Prerequisite:** PHY132H1/PHY152H1/PHY180H1/MIE100H1, MAT235Y1/MAT237Y1/MAT291H1/AER210H1, PHY254H1/PHY293H1/MAT244H1/MAT267H1/MAT290H1/MAT292H1

**Exclusion:** PHY359H1, PHY395H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## ESS399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Exclusion:** GLG399Y0

**Distribution Requirements:** Science

## ESS410H1 - Field Techniques in Hydrogeochemistry

**Hours:** TBA

A ten-day fieldcourse in late summer at the Deep River field site designed to familiarize students in a variety of hydrogeological and biogeochemical field techniques; includes a mixture of lecture, laboratory and field exercises. Not eligible for CR/NCR option. Note: Enrollment is handled by the department. For registration deadlines, additional fees associated with the field course, course dates, and special registration requirements, please consult the departmental announcements or inquire with [ugrad@es.utoronto.ca](mailto:ugrad@es.utoronto.ca).

**Prerequisite:** ESS311H1, ESS312H1

**Exclusion:** GLG448H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS420H1 - Advanced Geological Field Methods

**Hours:** TBA

A two-week advanced geological mapping project in a challenging field environment. Students learn to compile existing geoscience data, create a geological map and prepare a professional final report on their activities and findings. Not eligible for CR/NCR option. For registration deadlines, additional fees associated with the field course, course dates, and special registration requirements, please consult the departmental announcements or inquire with [ugrad@es.utoronto.ca](mailto:ugrad@es.utoronto.ca).

**Prerequisite:** ESS322H1 & ESS330H1

**Exclusion:** GLG445H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS423H1 - Mineral Deposits

**Hours:** 24L/36P

Geology and geochemistry of ore deposits. Origin and interpretation; systematic ore mineralogy, in hand specimen and reflected light microscopy.

**Prerequisite:** ESS322H1

**Exclusion:** GLG442H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS425H1 - Analytical Methods for the Geosciences

**Hours:** 24L/36P

Theory and hands-on learning of current analytical techniques (laboratory work is worth 50% of the final grade). In each lab, groups of two students receive instruction from an experienced analyst and acquire hands-on experience using state-of-the-art analytical equipment. Where possible, samples supplied by the students are analyzed. Techniques covered include Neutron Activation, X-ray Fluorescence, X-ray Diffraction, Scanning Electron Microscopy, Gas Chromatography, Ion Chromatography, Atomic Absorption, Inductively Coupled Plasma Optical Emission Spectrometry and Inductively Coupled Plasma Mass Spectrometry.

**Prerequisite:** ESS322H1

**Exclusion:** ENV315H1

**Recommended Preparation:** ESS311H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS431H1 - Basin Analysis (formerly ESS332H1)

**Hours:** 24L/36P

Detailed study of each of the major sedimentary environments. Typical facies assemblages, cyclic sedimentation. Autogenic and allogenic processes. The principles of sequence stratigraphy. The history of the sequence concept; systems tracts and bounding surfaces. Sequence models. What causes sequences: mechanisms of change in base level and accommodation: - tectonism, climate change, eustatic sea-level change.

**Prerequisite:** ESS331H1

**Exclusion:** GLG430H1, ESS332H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS441H1 - Advanced Structural Geology

**Hours:** 24L/24P

Principles of geological mechanics: stress, strain, rheology. Faulting, folding and development of tectonic foliations and lineations. Structural analysis of fractures, folds and tectonites.

**Prerequisite:** ESS241H1 and 1.0 FCE of 300-level ESS/PHY courses, including JGA205H1

**Recommended Preparation:** ESS345H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

**Note:** This course will offer an International Course Module in Oman over November Reading Week 2017.

## ESS445H1 - Global Tectonics

**Hours:** 24L/24P

Exploration of physical Earth processes and their relationship to large-scale geological phenomena. Mantle convection as plate tectonic engine; intraplate/plate boundary lithospheric deformation including orogenesis and crustal subsidence. Focus on reconciling geodynamic theory/modelling with geological/geophysical observations.

**Prerequisite:** ESS441H1

**Exclusion:** GLG465H1

**Recommended Preparation:** ESS322H1 & ESS332H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS450H1 - Geophysical Field Techniques

**Hours:** TBA

A ten-day field course in late August at the Deep River field site. Students get hands-on experience using geophysical instrumentation, applying various data collection techniques, and performing data analysis in gravity, magnetic, seismic, electrical, electromagnetic, and radar surveys. Not eligible for CR/NCR option. Note: Enrollment is handled by the department. For registration deadlines, additional fees associated with the field course, course dates, and special registration requirements, please consult the departmental announcements or inquire with [ugrad@es.utoronto.ca](mailto:ugrad@es.utoronto.ca).

**Exclusion:** GLG330H1

**Recommended Preparation:** JGA305H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS452H1 - Geophysical Imaging with Non-seismic Methods

**Hours:** 24L

Current geophysical surface and borehole methodologies (gravity, magnetics, electrical, electromagnetic, nuclear) and their theoretical basis for investigating Earth's interior to depths ranging from several metres to tens of kilometers.

**Prerequisite:** PHY395H1, APM346H1

**Exclusion:** PHY494H1

**Recommended Preparation:** ESS345H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS461H1 - Palaeoenvironmental Studies

**Hours:** 24L/24P

The use of proxy data (terrestrial and aquatic microfossils) to infer past environmental conditions. The nature and extent of Quaternary environmental change is considered in the context of assessing current issues such as acidification, metal pollution, eutrophication and global climate change. Palaeoenvironmental techniques are applied in the laboratory.

**Prerequisite:** ESS261H1

**Exclusion:** GLG436H1

**Recommended Preparation:** ESS362H1, ENV233H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ESS462H1 - Global Biogeochemical Cycles

**Hours:** 24L

A seminar course focusing on the exchange of matter (i.e. elements, minerals) between the Earth's atmosphere, ocean, and biosphere. Course-related topics include global biogeochemical cycling of carbon, nitrogen, phosphorus, silicon, iron, and zinc (amongst other elements) and will include both terrestrial and marine ecosystems. Examples and case studies will be viewed from the paleo-, contemporary and potential future global change perspectives. The overall content of course readings will be determined by student interest, as students have the freedom to choose topics (readings) of personal interest. Offered in alternate years.

**Prerequisite:** 10 FCEs from any of ESS/MAT/PHY/CHM/EEB/GGR, including ESS361H1/ESS362H1/GGR305H1

**Exclusion:** GGR403H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS463H1 - Contaminants in the Environment

**Hours:** 24L

Disturbances to the Earth system by anthropogenic contaminant input and how to improve environmental quality. Case studies include mining contamination and remediation, and movement of contaminants in air, water, soils, and sediments, particularly in urban areas.

**Prerequisite:** ESS261H1, ESS262H1, ESS361H1/ESS362H1

**Distribution Requirements:** Science

## ESS464H1 - Biological Perspectives on Earth System Evolution

**Hours:** 24L

A seminar course focussing on ways that the Earth's biosphere (terrestrial and marine) has altered the overall functioning of the Earth System over geological time, including (1) influence of terrestrial vegetation on surface processes such as palaeosol development, river geomorphology, erosion, and cycling of major biogeochemical nutrients on land, (2) influence of the marine biosphere on the concentration of O<sub>2</sub> and CO<sub>2</sub> in the atmosphere, including the origin of the stratospheric ozone layer, and (3) the interactive influence of the terrestrial and marine biosphere on atmospheric moisture transport, production of latent heat relative to sensible heat fluxes, and the development of the planetary boundary layer. Offered in alternate years.

**Prerequisite:** ESS261H1/ESS262H1, ESS361H1/ESS362H1/GGR305H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ESS481H1 - Advanced Topics in Earth Sciences

**Hours:** 24L/24P

This course is offered on an irregular basis, typically in the winter term. Students are advised to consult the departmental notices with respect to course times and content, but should expect an in-depth study of modern earth science questions, for example mineralogy and material science, advanced petrology, or exploration geochemistry. Course instructors will often, but not always, be recruited from industry.

**Prerequisite:** appropriate 300-level ESS credits. Prerequisites change from year to year; consult Department for details.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS490H1 - Geological Capstone Fieldtrip

**Hours:** TBA

A two-week excursion to a challenging field setting. Students will integrate field observations with their accumulated knowledge of geodynamics, structural geology, and landscape evolution to understand large-scale geological events. Not eligible for CR/NCR option. Note: Enrollment is handled by the department. For registration deadlines, additional fees associated with the field course, course dates, and special registration requirements, please consult the departmental announcements or inquire with [ugrad@es.utoronto.ca](mailto:ugrad@es.utoronto.ca).

**Prerequisite:** ESS241H1, ESS221H1, ESS330H1/ESS420H1/ESS450H1

**Exclusion:** GLG420H1

**Recommended Preparation:** ESS261H1, ESS322H1, ESS431H1, ESS441H1, ESS445H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS491H1 - Undergraduate Thesis Project

**Hours:** TBA

Research emphasising methods used in field and experimental work. Students must obtain the consent of an instructor and register with the undergraduate coordinator and are urged to do so toward the end of their third year. In addition to submitting a thesis, students are required to give an oral presentation of their research results to an open meeting of the department. Not eligible for CR/NCR option.

**Prerequisite:** Completion of the required 300-level courses, and enrollment in a relevant program and permission of the department.

**Exclusion:** GLG471H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ESS492Y1 - Undergraduate Thesis Project

**Hours:** TBA

Research emphasising methods used in field and experimental work. Students must obtain the consent of an instructor and register with the undergraduate coordinator and are urged to do so toward the end of their third year. In addition to submitting a thesis, students are required to give an oral presentation of their research results to an open meeting of the department. Not eligible for CR/NCR option.

**Prerequisite:** Completion of the required 300-level courses in an appropriate program and permission of the department.

**Exclusion:** GLG470Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JPE493H1 - Seismology

**Hours:** 24L

Why do earthquakes occur and how are they related to tectonic motion of the Earth's surface? What is the physics behind the propagation of seismic waves through the Earth, and how can it be used to determine the internal structures of the Earth? This introductory course is aimed at understanding the physics behind seismic wave propagation, as well as asymptotic and numerical solutions to the elastodynamic equation. Travel time and amplitude of seismic waves are discussed based on seismic ray theory, while numerical methods are introduced to obtain accurate solutions to more complex velocity structures. Seismic tomographic methods, including their applications to hydrocarbon reservoir imaging, are also covered.

**Prerequisite:** JPE395H1, APM346H1/APM351Y1/MAT351Y1

**Exclusion:** PHY493H1

**Recommended Preparation:** ESS345H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

J. Arimori, MA  
K. Ko, MA, PhD  
I. Komuro-Lee, MA  
H. Rupprecht, MA, PhD

### Assistant Professors, Teaching Stream

Y. Choi, MA, PhD  
Y. Tomita, MA, PhD

## Introduction

The Department of East Asian Studies offers students the opportunity to develop a deeper understanding of the history, cultures, and languages of premodern, modern, and contemporary East Asia. The department's course offerings engage the diversity of East Asian cultures, from contemporary film and politics to ancient philosophy, and they critically examine the structures that define the area and render it an object of study. We offer a full range of courses on East Asian literature, history, thought, religion, and society, as well as Chinese, Japanese, and Korean language courses from beginning to advanced levels. In a time of globalization, a degree in East Asian Studies can be an excellent springboard from which to launch a career in fields where bilingualism, critical analytical skills, and in-depth knowledge of the socio-historical and cultural contexts of East Asian texts and ideas are essential. Our Major and Specialist programs build the foundation for careers in teaching and research, international business and law, foreign service, and cultural institutions.

Students seeking counseling should contact the Undergraduate Coordinator, but all members of the Department will be happy to provide advice and information about their course offerings. In conjunction with Woodsworth College, the Department offers courses during June and July at the University of Hong Kong, and through the Centre for International Experience, participates in exchange programs with universities in China, Korea, Japan, Taiwan, and Singapore.

General Enquiries: Robarts Library, 14th Floor, (416)946-3625, [www.eas.utoronto.ca](http://www.eas.utoronto.ca)

## East Asian Studies Programs

### East Asian Studies Specialist (Arts Program)

#### Completion Requirements:

Completion of the program requires 10.0 FCEs, meeting the following requirements:

1. [EAS103H1](#) and [EAS105H1](#), normally taken in the first year;
2. [EAS209H1](#), highly recommended to be taken in the second year;
3. At least third-year proficiency in Chinese, Korean or Japanese, either by completing an appropriate language course (e.g., [EAS300Y1](#)/[EAS310Y1](#)/[EAS320Y1](#) or a 400-level language course) or by demonstrating the required proficiency in the initial placement. Students whose placement assessment exempts them from the requirement must substitute Society-Culture courses or courses in one of the other languages offered;
4. A minimum of 5.0 Society-Culture FCEs, with at least 4.0 FCEs at the 300-level or above, of which at least 1.0 FCE must be at the 400 level;
5. Additional EAS courses to a total of 10.0 FCEs; and
6. 2.0 FCEs may be courses on East Asia offered by other departments.

Note: First-year students should

take [EAS103H1](#) and [EAS105H1](#), a first-year language course (unless placed in an upper-year language course by the

department), and up to 1.0 Society-Culture FCE at the 200-level.

## East Asian Studies Major (Arts Program)

### Completion Requirements:

Completion of the program requires 7.0 FCEs, meeting the following requirements:

1. [EAS103H1](#) and [EAS105H1](#), normally taken in the first year;
2. [EAS209H1](#), highly recommended to be taken in the second year;
3. At least second-year proficiency in Chinese, Korean or Japanese, either by completing an appropriate language course (e.g., [EAS201H1](#)/[EAS200Y1](#)/[EAS210Y1](#)/[EAS211Y1](#)/[EAS212H1](#)/[EAS220Y1](#)/[EAS221H1](#) or a higher level language course) or by demonstrating the required proficiency in the initial placement. Students whose placement assessment exempts them from the requirement must substitute Society-Culture courses or courses in one of the other languages offered;
4. A minimum of 3.0 Society-Culture FCEs, with at least 2.0 FCEs at the 300-level or above, of which at least 0.5 FCE must be at the 400 level;
5. Additional EAS courses to a total of 7.0 FCEs; and
6. 1.0 FCE may be courses on East Asia offered by other departments.

Note: First-year students should take [EAS103H1](#) and [EAS105H1](#), a first-year language course (unless placed in an upper-year language course by the department), and up to 1.0 Society-Culture FCE at the 200-level.

## East Asian Studies Minor (Arts Program)

### Completion Requirements:

Completion of the program requires 4.0 FCEs, meeting the following requirements:

1. [EAS103H1](#) and [EAS105H1](#);
2. 3.0 Society-Culture FCEs, one of which must be 300/400-level; and
3. 1.0 FCE may be courses on East Asia offered by other departments.

Language courses cannot be used to fulfil the requirements of the Minor program.

## Course Groups

### Core Courses

- [EAS103H1](#) Premodern East Asia
- [EAS105H1](#) Modern East Asia
- [EAS209H1](#) Approaches to East Asia (formerly [EAS209Y1](#))

## Society-Culture Courses

- [EAS214H1](#) History of Chinese Thought: Beginnings to Period of Disunion
- [EAS215H1](#) History of Chinese Thought: Tang through Ming Periods
- [EAS219H1](#) Cultural History of Food in East Asia
- [EAS230H1](#) Critical Approaches to Chinese Literature
- [EAS235H1](#) Perceptions of China in Japanese Literature
- [EAS241H1](#) History of Chinese Philosophy
- [EAS242H1](#) Japanese Cinemas I: Film Form and the Problems of Modernity
- [EAS243H1](#) Japanese Cinemas II: Film Form and the Problems of Modernity
- [EAS245H1](#) Premodern Japanese History
- [EAS246H1](#) Early Modern Japanese History
- [EAS247H1](#) History of Capitalism in Modern Japan
- [EAS251H1](#) Aesthetics and Politics in 20th Century Korea
- [EAS256H1](#) Chinese Literature (Pre-Qin to Tang) (formerly [EAS336H1](#))
- [EAS257H1](#) Chinese Literature (Song to Qing) (formerly [EAS337H1](#))
- [EAS271H1](#) 20th Century Korean History
- [EAS273H1](#) Modern Chinese Cities
- [EAS274H1](#) Popular Culture in East Asia
- [EAS279H1](#) East Asian Ecocinema
- [EAS284H1](#) Modern Chinese Literature
- [EAS284Y1](#) Modern Chinese Literature
- [EAS289Y1](#) Environment and East Asia
- [EAS295Y0](#) Selected Topics in East Asian Studies, 200-level
- [EAS296H1](#) Topics in East Asian Studies
- [EAS297H1](#) Texts, Images and Objects in East Asia
- [EAS299Y1](#) Research Opportunity Program
- [EAS307H1](#) Chinese Political Philosophy
- [EAS308H1](#) East Asia Seen in Maps, Ancient and Modern
- [EAS309H1](#) Modern Chinese Prose
- [EAS311H1](#) A History of Japanese Monsters
- [EAS312H1](#) Art and Archaeology of Early China
- [EAS314H1](#) Culture & World After Hiroshima & Nagasaki
- [EAS315H1](#) "The "Yellow Peril": Past & Present"
- [EAS327H1](#) Japanese Fiction and the Nation
- [EAS328H1](#) Science, Technology and Society in Modern China
- [EAS330H1](#) Narrative Strategies in Modern Japanese Fiction
- [EAS333H1](#) Modernism and Colonial Korea
- [EAS334H1](#) Chinese Novels
- [EAS334Y1](#) Chinese Novels
- [EAS338H1](#) Classical Daoism
- [EAS340H1](#) Topics in Chinese Society and Culture
- [EAS340Y1](#) Topics in Chinese Society and Culture
- [EAS345Y1](#) The Rise of Greater China: Issues & Topics (formerly [EAS345H1](#))
- [EAS346H1](#) Self and Imagination in Premodern China
- [EAS347H1](#) Everyday Life in Modern Japan
- [EAS348H1](#) Gift, Plunder, and Exchange: Japan and World History
- [EAS349H1](#) Soundscapes and Modern China
- [EAS357H1](#) Mao's China and Beyond
- [EAS358Y1](#) Classical Chinese I
- [EAS361H1](#) Zen Buddhism

## Faculty of Arts & Science Language Citation

The Department of East Asian Studies participates in the Faculty of Arts and Science's Language Citation initiative for Chinese, Japanese, and Korean. The study of any of these languages is a challenging and time consuming endeavour, which offers rich rewards for students interested in the cultures, societies, and economies of East Asia.

The Language Citation recognizes a significant level of achievement in language study with a high level of academic success. The Language Citation is available to students who achieve a B- or above in 2.0 FCEs beyond the first-year course in a language. The following courses count towards a Language Citation:

Chinese

– [EAS200Y1](#), [EAS201H1](#), [EAS300Y1](#), [EAS401H1](#), [EAS402H1](#)

Japanese

– [EAS220Y1](#), [EAS221H1](#), [EAS320Y1](#), [EAS460H1](#), [EAS461H1](#)

Korean – [EAS210Y1](#), half a credit

of [EAS211Y1](#), [EAS212H1](#), [EAS310Y1](#), [EAS410Y1](#), and [EAS416Y1](#)

Students should note that the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation. Students interested in the Citation should apply to the EAS office.

## East Asian Studies Courses

### Core Courses

#### EAS103H1 - Premodern East Asia

**Hours:** 24L/12T

Examines how various histories of East Asia can be written by focusing on specific themes in the histories of China, Japan, and Korea to roughly 1600. Required of EAS specialists, majors, and minors.

**Exclusion:** EAS102Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS105H1 - Modern East Asia

**Hours:** 24L/12T

Examines how various histories of East Asia can be written by focusing on specific themes in the histories of China, Japan, and Korea from roughly 1600 to the Cold War. Required of EAS specialists, majors, and minors.

**Prerequisite:** EAS103H1

**Exclusion:** EAS102Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS209H1 - Approaches to East Asia (formerly EAS209Y1)

**Hours:** 24L/12T

Required of EAS specialists and majors, this course introduces various approaches, theories, and methodologies for the study of East Asian societies and cultures. As the course serves as a foundation for upper-level EAS courses, it should be taken as early as possible, preferably in the second year.

**Prerequisite:** EAS103H1, EAS105H1

**Exclusion:** EAS209Y1

**Distribution Requirements:** Humanities

## Society-Culture Courses

### EAS214H1 - History of Chinese Thought: Beginnings to Period of Disunion

**Hours:** 24L

This course examines the cultural history of China from the earliest times to the 9th century, through political, religious, philosophical, literary, and artistic developments. Emphasis will be on the reading and interpretation of primary source texts.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### EAS215H1 - History of Chinese Thought: Tang through Ming

**Hours:** 24L

This course examines the vibrant middle period of Chinese history, a period in which some of the most distinctively traditional forms of thought, religious belief, artistic and literary expression, and scholarly practices emerged and developed. Topics include: the establishment of empire as a norm (and its implications); the rise of the literati and literati culture; the examination system; Neo-Confucian philosophy; visual culture; sciences of the body; and popular and print culture.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### EAS219H1 - Cultural History of Food in East Asia

**Hours:** 24L

This course introduces historical, literary, and anthropological issues related to the consumption of food in East Asia. Through a wide variety of reading materials, it focuses on the relationship between various foodways and trade, ritual, religion, medicine, and cultural identity.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### EAS230H1 - Critical Approaches to Chinese Literature

**Hours:** 24L

Examines key questions in Chinese literature from the earliest times to 1800. Texts include poetry and narratives in English translation. The course introduces important themes, approaches, and theories to help students understand the "how" and "why" of writing and literary form in China.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS235H1 - Perceptions of China in Japanese Literature

**Hours:** 24L

Lectures on Japanese literary negotiations with China, the Chinese and Chineseness, ranging from celebration of shared cultural practices and aestheticization of China to nativist resistance to Chinese cultural hegemony. Required readings are available in English translation, including Tale of Genji, Tale of Middle-Councillor Hamamatsu (medieval romance), Haku Rakuten (No Play), Battles of Coxinga (Kabuki play), Three-Cornered World (by Soseki), and Wild Goose (by Ogai).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS241H1 - History of Chinese Philosophy

**Hours:** 39L

The course introduces the major philosophical traditions in China, such as Confucianism, Daoism, and Buddhism, and their historical development from ancient to modern times in four periods: the emergence of Confucianism, Daoism, and other minor schools; the introduction of Buddhism and the development of various sects of Chinese Mahayana Buddhism; the unfolding of neo-Confucianism; and the development of modern Chinese philosophy.

**Exclusion:** PHL237H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS242H1 - Japanese Cinemas I: Film Form and the Problems of Modernity

**Hours:** 36L/12T

This course investigates how film aesthetics relate to the most profound socio-historical problems of Japanese modernity. It also considers the ways various filmmakers employ cinematic form to engage the social problems of their moment. Part I focuses on the 1890s - 1950s.

**Exclusion:** EAS237Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS243H1 - Japanese Cinemas II: Film Form and the Problems of Modernity

**Hours:** 36L/12T

This course investigates how film aesthetics relate to the most profound socio-historical problems of Japanese modernity. It also considers how various film makers employ cinematic form to engage the social problems of their moment. Part II focuses on the 1960s - present.

**Prerequisite:** EAS242H1

**Exclusion:** EAS237Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS245H1 - Premodern Japanese History

**Hours:** 24L

A survey of the history of premodern Japan from earliest recorded histories to the establishment of the Tokugawa regime in the seventeenth century. Uses a wide range of translated primary Japanese texts to illuminate the emergence of cultural forms and their conjunction with social, economic, religious, and political trends.

**Exclusion:** EAS246H1 taken prior to 2010-11

**Recommended Preparation:** EAS103H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS246H1 - Early Modern Japanese History

**Hours:** 24L

A survey of the history of Japan from about 1600 until the disintegration of the Tokugawa regime in the mid-19th century. Uses a wide range of translated primary Japanese texts to illuminate the emergence of cultural forms and their conjunction with social, economic, religious, and political trends.

**Recommended Preparation:** EAS103H1/EAS105H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS247H1 - History of Capitalism in Modern Japan

**Hours:** 24L

This course provides a historical narrative of the development of the capitalist mode of production in Japan, from the mid-19th century to the present day. Readings include texts from various disciplines: economics, philosophy, social and labour history, and literature.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS251H1 - Aesthetics and Politics in 20th Century Korea

**Hours:** 24L

This lecture course examines key questions and texts in the history of literature from the Korean peninsula during the twentieth century, exploring how aesthetic form refracted the experiences of colonialism, division, and the formation of opposing nation-states.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS256H1 - Chinese Literature (Pre-Qin to Tang) (formerly EAS336H1)

**Hours:** 24L

A survey of major works in premodern Chinese literature, including poetry, essays, and short narratives from the pre-Qin through Tang eras (11th century BCE - 10th century CE).

**Exclusion:** EAS336Y1, EAS336H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS257H1 - Chinese Literature (Song to Qing) (formerly EAS337H1)

**Hours:** 24L

A survey of major works in premodern Chinese literature, including poetry, essays, short narratives and drama from the Song through Qing dynasties (10th - 19th centuries CE).

**Exclusion:** EAS337Y1, EAS337H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS271H1 - 20th Century Korean History

**Hours:** 24L

A survey of the history of Korea from the Tonghak uprising and Sino-Japanese war of 1894-1895, through the colonial period, division, and to the civil war.

**Exclusion:** EAS271Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS273H1 - Modern Chinese Cities

**Hours:** 24L

This course offers a critical review of the history and historiography of modern Chinese cities. Focusing on the development of specific Chinese cities, the course emphasizes understanding the socio-cultural production of space as well as analytical reading of landscape, urban imagery, and urban writings.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS274H1 - Popular Culture in East Asia

**Hours:** 24L

Through various forms of popular culture in the 20th century, this course explores the cultural contexts and social trajectories of China, Japan and Korea. Forms of popular culture studied include art, visual culture, consumer habits, foodways, advertising, music, and fashion.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS279H1 - East Asian Ecocinema

**Hours:** 36L

The course examines the ethical, political, historic and aesthetic dimensions of Asian Ecocinema (environmental films that engage with the Asia-based global environmental crisis) and discusses the films' ways of connecting place and planet.

**Prerequisite:** EAS103H1/EAS105H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS284H1 - Modern Chinese Literature

**Hours:** 24L

This course offers a critical examination of 20th-century Chinese literature, with a focus on the important developments of literary writing over time, from the inception of New Literature in the 1910s, the development of realism and modernism in the 1930s, to the emergency of post-revolution and postmodernist writings in the 1990s. Emphasis is placed on generating a dialogue on interpretations of key works.

**Exclusion:** EAS284Y1, EAS334Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS284Y1 - Modern Chinese Literature

**Hours:** 48L

This course offers a critical examination of 20th-century Chinese literature, with a focus on the important developments of literary writing over time, from the inception of New Literature in the 1910s, the development of realism and modernism in the 1930s, to the emergency of post-revolution and postmodernist writings in the 1990s. Emphasis is placed on generating a dialogue on interpretations of key works.

**Exclusion:** EAS284H1, EAS334H1, EAS334Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS289Y1 - Environment and East Asia

**Hours:** 48L

This course explores the environmental crisis in East Asia, with a special focus on its representations in the media, film, and literary writings.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## EAS295Y0 - Selected Topics in East Asian Studies, 200-level

**Hours:** TBA

This course allows students to pursue the specialized study of specific topics tailored to the research and study opportunities available in Hong Kong and the expertise and interests of the instructor. Available only in the Woodsworth College Hong Kong Summer Program.

**Distribution Requirements:** Humanities

## EAS296H1 - Topics in East Asian Studies

**Hours:** 24L

An in-depth study of Chinese, Japanese or Korean culture, history and/or literature. Content depends on the instructor. See EAS website for details. When offered, the course will have a subtitle that describes its content.

**Distribution Requirements:** Humanities

## EAS297H1 - Texts, Images and Objects in East Asia

**Hours:** 24P

This course seeks to understand East Asian civilizations through texts, images, and objects exhibited at the Royal Ontario Museum (ROM). Students study various texts, paintings, bronzes, architecture, sculptures, porcelains, and other objects, and explore their historical, aesthetic, and critical meanings.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## EAS307H1 - Chinese Political Philosophy

Hours: 24S

The course analyses the development of Chinese political philosophy from ancient times to the present day, focusing on Confucianism, Daoism, and Legalism and their relation to issues in political philosophy today.

**Prerequisite:** EAS241H1/PHL237H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS308H1 - East Asia Seen in Maps, Ancient and Modern

Hours: 24L

Through the lens of important maps ancient and new, this course looks at the histories, cultural logic, and methods of visual representation in societies of East Asia. The maps include archaeological artifacts, ancient manuscripts, and printed renditions, spanning from early history to the nineteenth century.

**Prerequisite:** EAS105H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS309H1 - Modern Chinese Prose

Hours: 24S

A survey of representative works of prose written by 20th-century Chinese writers. This course focuses on reading texts, as well as analyzing their textual structures, aesthetic values, and historical contexts.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS311H1 - A History of Japanese Monsters

Hours: 24L

This course examines the historical development of Japanese monsters, from roughly the 7th - 8th centuries to modern times. We focus on how the changing understanding of monsters in society has embodied certain fissures in Japanese culture, especially with regard to gender and class.

**Recommended Preparation:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS312H1 - Art and Archaeology of Early China

Hours: 36L

This course explores ancient societies from prehistory to the Bronze Age of China from archaeological perspectives with a focus on Chinese collections at the ROM. The course offers students an understanding of the origins and formation of Chinese civilizations.

**Prerequisite:** EAS209H1/ANT100Y1/ANT200Y1

**Exclusion:** EAS411H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS314H1 - Culture & World After Hiroshima & Nagasaki

Hours: 24L

Exploration of literature, film, and other cultural production related to the atomic bombing and other nuclear catastrophes from transnational, inter-Asia, and transpacific perspectives. Primarily focuses on, but not necessarily limited to, the cultural texts, intellectual concepts, and social thoughts generated out of the history of Hiroshima and Nagasaki atomic destruction.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS315H1 - "The "Yellow Peril": Past & Present"

Hours: 24L

Beginning with the Chinese Exclusion Acts, the Asian presence in North America has often been considered a serious social menace. This course explores the Asian/North American response to the past and present "Yellow Peril" constituted as a gendered, sexualized, classed, and racialized epistemological and affective structure of knowledge.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS327H1 - Japanese Fiction and the Nation

**Hours:** 24L/4T

Explores modern Japanese literature, with special attention given to literature's relation to the nation. Students explore how literature transforms throughout Japanese modernity and how its meaning and effects function to simultaneously solidify and fracture national identity.

**Prerequisite:** At least one course in literature or East Asian Studies

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS328H1 - Science, Technology and Society in Modern China

**Hours:** 24L

Learn to understand modern China from an understudied yet important perspective: the development of science and technology since the establishment of People's Republic in 1949. Science and technology have played crucial parts in China's political, economical, social, and cultural transformations. Drawing from anthropological, social, and historical studies of science, we examine, among other topics, science and nation-building, biopolitics, technocracy, and scientists' self-fashioning at the junction of Communist reign and global capitalism. Students also learn key concepts of science studies.

**Prerequisite:** EAS209H1/CAS201H1

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Society and its Institutions (3)

## EAS330H1 - Narrative Strategies in Modern Japanese Fiction

**Hours:** 24L

Discussion of narratives by modern Japanese authors with attention to issues in narratology and contemporary narrative studies such as: voice and perspective; gender and power relationships of the narrator-narratee-narrated; the act of narrating, writing, listening and reading; and metafictional paradox.

**Prerequisite:** At least one course in literature or East Asian Studies

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS333H1 - Modernism and Colonial Korea

**Hours:** 24L

This course considers the problem of colonial modernism through a close reading of literary and cultural texts from early 20th-century Korea. It asks what it means to enter modernity under colonial rule, and questions the relationship between imperialism, writing, and subjectivity. Topics include the role of literature in elaborating new concepts of subjectivity, literature and the fine arts as assimilatory practices, the emergence of urban space and reconfiguration of notions of the rural, and changing notions of time and space in the cultural products of nativism. Readings of literary works will be accompanied by showings of paintings and photographs from the period, as well as discussions of theoretical essays on modernism.

**Prerequisite:** EAS105H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS334H1 - Chinese Novels

**Hours:** 24L

This course explores the development of Chinese fiction from earliest times with emphasis on the twentieth century.

**Exclusion:** EAS284Y1, EAS334Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS334Y1 - Chinese Novels

**Hours:** 48L

This course explores the development of Chinese fiction from earliest times with emphasis on the twentieth century.

**Exclusion:** EAS284H1, EAS284Y1, EAS334H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS338H1 - Classical Daoism

**Hours:** 48L/24P

This course examines major issues of classical Daoist thought, such as Dao and cosmos, body and self, human nature, language and knowledge, and political visions. Based on both textual and ideological analysis of Daoist works such as the Laozi, the Zhuangzi, and Huanglao Daoist texts, to be updated with recently unearthed texts in silk and bamboo slips.

**Prerequisite:** PHL237H1/EAS241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS340H1 - Topics in Chinese Society and Culture

**Hours:** 24L

This course explores issues of identity, self, and community in a broad exploration of cultural transformation in China.

**Exclusion:** EAS340Y1

**Recommended Preparation:** EAS103H1/EAS105H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS340Y1 - Topics in Chinese Society and Culture

**Hours:** 48L

The course explores issues of identity, self, and community in a broad exploration of cultural transformation in China.

**Exclusion:** EAS340H1

**Recommended Preparation:** EAS103H1/EAS105H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS345Y1 - The Rise of Greater China: Issues & Topics (formerly EAS345H1)

**Hours:** 48L

This course looks at China from a regional perspective, with a focus on Taiwan, Hong Kong, and the Peoples Republic of China's economic integration. The role of Chinese communities globally and in Southeast Asia also receives attention.

**Exclusion:** EAS345H1

**Recommended Preparation:** One course on modern China or East Asia or equivalent

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS346H1 - Self and Imagination in Premodern China

**Hours:** 24L

This course explores the diverse ways in which subjectivity was conceived in premodern China (up to the 12th century) by way of various images thinkers invoked to make sense of it. Works studied include: Warring States philosophical treatises; Buddhist and religious Daoist texts on meditation and self-cultivation; literary theory and poetry; philosophical prose essays by literati; and paintings.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS347H1 - Everyday Life in Modern Japan

**Hours:** 24L

The history of modern Japan as revealed by the problem of everyday life and its relationship to capitalism. Using a range of literary, philosophical, economic, and ethnographic materials that deal with the development of capitalism in Japan, Japanese colonialism, imperialism, and fascism, the course explores ways to specify and critique what is called everyday life.

**Recommended Preparation:** EAS247H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS348H1 - Gift, Plunder, and Exchange: Japan and World History

**Hours:** 24L

This course critically re-evaluates the history and historiography of Japanese capitalism, imperialism/colonialism, and world-empire through the lens of three, distinct "modes of exchange": gift, plunder, and commodity exchange. Inspired by Kojin Karatani's *The Structure of World History: From Modes of Production to Modes of Exchange* (2014), this course explores the emancipatory politics inherent in the critical analysis of modes of exchange, and takes up historical cases from Japan, Hokkaido, Okinawa, Taiwan, Korea, China, and the "Greater East Asian Co-Prosperity Sphere".

**Prerequisite:** EAS209H1/EAS247H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS349H1 - Soundscapes and Modern China

**Hours:** 24L

An introduction to sound studies through the case of modern China. The class surveys basic theories of sound studies. It investigates the technological, cultural, and social production of soundscapes in modern China. Topics include the invention of national language(s), the introduction of gramophone, radio, and sound cinema, and the relationship between sound, aesthetics, and power.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS357H1 - Mao's China and Beyond

**Hours:** 24L

This course introduces major issues and events in contemporary Chinese history from the success of the Communist revolution in 1949 to China's postsocialist transitions in the 1980s and early 1990s. Topics include the development and victory of the Chinese Communist revolution, the rule and legacy of Mao Zedong (particularly the Hundred Flowers movement, the Great Leap Forward, and the Cultural Revolution), and economic reform and political repression in the era of Deng Xiaoping.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS358Y1 - Classical Chinese I

**Hours:** 48S

An introduction to the Classical Chinese language with emphasis on grammatical analysis and translation into English. Open only to EAS majors and specialists.

**Prerequisite:** at least 4 EAS half courses

**Exclusion:** EAS206Y1, EAS306Y1, EAS335Y1

**Recommended Preparation:** two or more years of Modern Standard Chinese

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS361H1 - Zen Buddhism

**Hours:** 24L

This course introduces the Zen Buddhist traditions of China, Korea, and Japan. Emphasis is placed on the radical views of history, language, ritual, self, and enlightenment espoused by these traditions. The course also examines issues related to Zen monasticism, the development of koans, and the definition of orthodoxy in both premodern and modern Zen. Students will be asked to explore these and other topics by paying close attention to the historical, doctrinal, and institutional contexts from which they arose.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS362Y1 - Classical Japanese

**Hours:** 48S

Introduction to classical Japanese, followed by readings of various short works by classical authors.

**Prerequisite:** EAS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS363H1 - Classical Japanese Part I

**Hours:** 24S

Introduction to classical Japanese, followed by readings of various short works by classical authors. Covers first half of EAS362Y1.

**Prerequisite:** EAS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS364H1 - China's Cultural Revolution: History and Memory

**Hours:** 24L

No understanding of contemporary China is possible without understanding the ramifications of the Great Proletarian Cultural Revolution (1966-1976). This course considers this tumultuous episode as a field of historical research and conceptual inquiry. This course critically examines a wide variety of sources, including scholarly accounts, official documents, personal memoirs, oral histories, and literary works.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS365H1 - Classical Japanese Part II

**Hours:** 24S

Introduction to classical Japanese, followed by readings of various short works by classical authors. Covers the second half of EAS362Y1. Students must seek permission of the instructor to be placed in the course.

**Prerequisite:** EAS363H1, EAS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS366H1 - Lovers and Madmen in Chinese Literature

**Hours:** 24L

A thematic introduction to some of China's major literary texts by taking as our guide the lover and the madman as both writer and subject. We use the idea of lover and madman to explore issues such as social and behavioral boundaries, desire, violence, narrative compulsion, and the re-imagination of tradition.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS372H1 - The Postwar, Cold War and Divided Korea

**Hours:** 24L

This research-oriented course examines the divided history of the Korean peninsula since 1945 in the context of the global war. Examines key debates in the history of contemporary Korea, beginning with the Korean war and ending with the contemporary culture of division.

**Prerequisite:** EAS209H1

**Exclusion:** EAS372Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS372Y1 - The Postwar, Cold War and Divided Korea

**Hours:** 48L

This research-oriented course examines the divided history of the Korean peninsula since 1945 in the context of the global war. Examines key debates in the history of contemporary Korea, beginning with the Korean war and ending with the contemporary culture of division.

**Prerequisite:** EAS209H1

**Exclusion:** EAS372H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS374H1 - Modern Japan and Colonialism

**Hours:** 24L

This course interrogates the history of modern Japan from the perspective of Japan's colonial exploits in East Asia. The course also addresses the political economy and culture of the military occupation of Japan by the Supreme Command of the Allied Powers. Texts from economics, philosophy, and literature will be used.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS375H1 - Postwar Japan: Crisis, Apocalypse

**Hours:** 24L

This course explores the history of the postwar period in Japan and its former colonies in order to delineate a way to think of the idea of apocalypse in relation to crisis in advanced capitalism. Through an examination of the history of capitalist crisis in postwar Japan, the course investigates themes of apocalypse in atomic-bomb literature, television, Godzilla, radical students movements, ecological-industrial disasters, worker art movements, debates on modernity and fascism, avant-garde theatre, popular music, religious movements, nationalism, populism, and the so-called "ageing population" problem. The course revolves around texts by philosophers, economists, novelists, essayists, artists, and critics, as well as film and audio recordings.

**Exclusion:** EAS347H1, EAS374H1

**Recommended Preparation:** EAS247H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS378H1 - Edo, Osaka, and Kyoto: Urban Life in Early Modern Japan

**Hours:** 24L

An exploration of most important cities of Tokugawa Japan. Among the largest cities of the early modern world, the three were home to a vibrant urban culture and remarkable economic activity. The framework is historical, but the texts will be diverse; buildings, maps, screen paintings, prints, film, and novels will be studied.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS384H1 - Medieval Japan

**Hours:** 24L

In popular culture medieval Japan often figures as an era of unrelenting warfare, in which only samurai mattered. This course offers more balanced view of what many historians regard as the most volatile, yet also most creative, era in Japanese history. The course examines the era from 1100-1500 with an eye to understanding the place of warriors, but also to explaining the incredible cultural advances of the period, which gave rise to many of the arts for which Japanese culture is renowned.

**Prerequisite:** EAS103H1/EAS105H1

**Recommended Preparation:** EAS245H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS386H1 - Culture of Nature in China

**Hours:** 24L

The course examines the cultural practice of nature in China's past and present, focusing on literary, artistic, spiritual, ethical, political, and scientific aspects of human-nature relation. Through scholarly works and primary sources, the course inquires into the cultural politics of human-nature entanglements.

**Prerequisite:** EAS209H1

**Exclusion:** EAS386Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS388H1 - Asian/North American Feminist Issues

**Hours:** 24L

A transpacific examination of gender and sexuality issues that have directly and indirectly affected Asians and Asian North Americans. Considers, for example, the gender and sexual representations of Asia in North America, the psycho-history of the "Yellow Peril" and its ramifications beyond Asian North Americans, and the history of immigration, nationalism, colonialism, war, and the militarized empire.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS393H1 - Topics in Buddhism

**Hours:** 24L

Topics vary according to the instructors' interests.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS393Y1 - Topics in Buddhism

**Hours:** 48L

Topics vary according to the instructor's interests.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS394H1 - Film Culture in Contemporary China

**Hours:** 36L

This course discusses documentary film and DV culture in contemporary China as forms of cultural, communal, and political practices. We focus on films and videos that seek to address important global issues such as peace, environment, and climate change in cross-media approach and in personal tone. We ask: What new tendencies are there in the films and videos? Where can we trace them back to? What fresh possibilities do they bring forth to our aesthetic and public life?

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS395Y0 - Selected Topics in East Asian Studies

**Hours:** TBA

This course allows students to pursue the specialized study of topics tailored to the research and study opportunities available in Hong Kong and the expertise and interests of the instructor. Available only in the Woodsworth College Hong Kong Summer Program.

**Distribution Requirements:** Humanities

## EAS396H1 - Topics in East Asian Studies

**Hours:** 24L

An in-depth study of Chinese, Japanese or Korean culture, history and/or literature. Content depends on the instructor. See EAS website for details. When offered, the course will have a subtitle that describes its content.

**Distribution Requirements:** Humanities

## EAS397H1 - Literary Lives in Late Imperial China

**Hours:** 24L

In-depth examination of five to six selected men and women through close reading of their literary repertoire and through biography and autobiography. The material will introduce concepts such as memory, literati identity, aesthetic theories, gender, and social transformations in the Ming and Qing period.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## EAS399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## EAS406Y1 - Thinking about Things: Material Culture in East Asia

**Hours:** 48S

This seminar explores theories of the object, the histories of objects in East Asia, and critical thinking about the process of research. Through theoretical readings, class, and individual research projects, the seminar asks how to formulate research questions, use the internet and other resources, and present discoveries in a class conference.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS407H1 - Textual Analysis of Classical Chinese Philosophy

**Hours:** 24S

Readings from ancient and medieval Chinese philosophy. Beginning with linguistic (especially semantic) analysis of key words, structure and meaning of sentences, paragraphs, and texts as a whole, which forms the basis for philosophical examination.

**Prerequisite:** PHL237H1/EAS241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS408H1 - Modern Taiwanese Literature

**Hours:** 24S

A general survey of modern Taiwanese literature from 1949 to the present. It examines issues central to understanding the Taiwanese literary culture, such as historical/cultural context, oral/written language, self-identification, gender, and human rights.

**Prerequisite:** EAS209H1/2.0 FCEs in literature

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS409H1 - Cities in Premodern China

**Hours:** 24S

Focusing on selected Chinese cities from the earliest history to 1800 CE, this course introduces students to different aspects of urban life and its representations in literature and history.

**Prerequisite:** EAS103H1, EAS209H1

**Exclusion:** EAS367H1

**Recommended Preparation:** Some familiarity with Chinese history in the middle period

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS412H1 - Technology and Material Cultures of Ancient China

**Hours:** 24P

This course introduces the technology and material culture of prehistoric and Bronze-Age China. Offers students an understanding of the development of ancient technologies (e.g. bronze, jade, and lacquer) and associated ways of life from archaeological perspectives.

**Prerequisite:** EAS312H1/EAS411H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS413H1 - Medieval Chinese Civilization

**Hours:** 24S

This course explores the intellectual culture of the Six Dynasties in China (3rd through 6th centuries CE), a period in which many new forms of thought and expression flourished. Texts include historical anecdotes, Buddhist and Daoist scriptures, self-cultivation manuals, philosophical exegeses, and treatises on music, art, and poetics.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS414H1 - Bodily/Mental Health in Chinese Philosophy

**Hours:** 24S

Textual and conceptual analysis of theories and practices related to physical health and mental sanity in Chinese philosophical schools such as Confucianism, Daoism, and Chinese Mahayana Buddhism.

**Prerequisite:** PHL237H1/EAS241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS417H1 - Korean Literary Translation Workshop

**Hours:** 24L

A workshop format is used to explore problems encountered when translating Korean literary texts (fiction and poetry) into English. Practice with a variety of texts is accompanied by readings in translation theory to refine our understanding of translation and enrich our experience working with historical forms of Korean and English.

**Prerequisite:** EAS310Y1 or its equivalent

**Recommended Preparation:** EAS410Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS418H1 - Topics in Chinese Art Theories

**Hours:** 24S

This course focuses on theories of Chinese arts by critically analyzing various theoretical texts and treatises on music, painting, calligraphy, and literature as recorded in the Classics.

**Prerequisite:** EAS209H1

**Recommended Preparation:** Knowledge of Chinese language

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS419H1 - Chinese Cultural Studies Seminar: May Fourth

**Hours:** 24L

This seminar focuses on the May Fourth Movement in early twentieth century China. Taking May Fourth as a case study and a vantage point, this class enables a critical understanding of various aspects of the cultural and intellectual life in the early Republican period.

**Prerequisite:** EAS105H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS420H1 - Travels, Travelers, and Travel Accounts in Asia

**Hours:** 24S

This seminar focuses on the circulation of people, words, and ideas throughout Asia before 1900, as we try to understand the worlds travelers both sought and encountered. Texts include travel diaries and geographical narratives.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS422H1 - Warring States Philosophy and Its Contexts

**Hours:** 24L

This course examines the emergence of philosophy in the Warring States period (4th and 3rd centuries BCE) as part of a broader intellectual landscape that considers developments in medical conceptions of the body, theories of the natural world, artistic thought and practice, and the social/political order.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS431H1 - Advanced Topics in Japanese Cinema

**Hours:** 24S

The focus ranges from the examination of cross-cultural theoretical problems (such as Orientalism) to a director-based focus, from the examination of genre (such as documentary or the category of genre itself) to the way film intersects with other cultural forms and technologies (such as video and new media).

**Prerequisite:** EAS242H1/EAS243H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS432H1 - Korean Cultural Studies Seminar

**Hours:** 24S

This seminar provides an opportunity for in-depth reading and research into a specific topic in the cultural and intellectual history of Korea. Topics will vary each semester but may include colonial period print culture, the New Woman, the history of photography, and modernism.

**Prerequisite:** Permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS438H1 - Architecture in Premodern China

**Hours:** 24S

Survey of China's architecture from the Song dynasty. Subjects include design (including fengshui); role of architects and craftsmen; building techniques and materials; and logistics and financing of building projects. This seminar is based on readings of primary texts (Yingzao fashi, Lu Ban jing, geomantic treatises) and visits to the Royal Ontario Museum.

**Prerequisite:** EAS209H1

**Recommended Preparation:** Knowledge of Chinese language

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS439H1 - The Global Bildungsroman: Narratives of Development, Time, and Colonialism

**Hours:** 24S

This course studies Bildungsroman, the story of an individual's coming of age, in the context of twentieth-century political, cultural, and social developments of imperialism, anti-colonialism, human rights discourse, and globalization. Our focus will be novels from the (post)colonial world and theoretical essays on the Bildungsroman form. The course aims to provide a model for rethinking literary history and genres within a global context. Authors may include Yi Kwangsu, Wu Zhouliu, Pramodnya Ananta Toer, Kang Younghill, Tsitsi Dangarembga, Camara Laye, amongst others.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS444H1 - The City, Body and Text in Modern Japanese Literature

**Hours:** 24S

This course examines how the city and body exert formative forces on the text, and how the practice of writing and reading texts informs the ways we, as corporeal beings, experience the city as manifested in the 20th-century Japanese literature.

**Prerequisite:** EAS209H1 & at least one course in literature, cinema, or visual art

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS447H1 - Sound Studies and Modern Japan

**Hours:** 24S

This seminar explores the growing field of sound studies with particular attention given to auditory histories and cultures in modern Japan and the prewar Japanese empire in East Asia. We study the interrelationships between industrialization, mass culture, colonialism, and techniques and processes of reproducing sound in order to specify the status of acoustic and sonic mediation in everyday life in a capitalist commodity economy.

**Prerequisite:** EAS209H1 and EAS247H1/EAS347H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS448H1 - East Asian Studies Archive: Language, Number, Money

**Hours:** 24S

This course investigates salient problems of the historical archive in relation to the experience of modernity in East Asian societies. What is the meaning of the modern archive in East Asia? How is the knowledge of the modern archive produced in relation to the production of quantitative knowledge (e.g., in demographic or economic statistics)? How should we approach the relationship between number and language? How is this knowledge transformed into state knowledge as well as into what we call common sense?

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS449H1 - Future, Architecture, Japan

**Hours:** 24L

Examination of how the future is imagined and materialized in architectural theory and practice throughout Japanese history. From classical temples to modernist experiments of the Metabolist movement to contemporary works by Isozaki Arata and Atelier Bow Wow, we study built and unbuilt structures as theories of the future.

**Prerequisite:** EAS209H1/ARC221H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS454H1 - Special Topics in Modern Chinese History

**Hours:** 24S

A selective survey of major historiographical problems and debates in the fields of late 19th and 20th century Chinese history. Course readings will include both theoretical and historical materials.

**Prerequisite:** EAS209H1

**Recommended Preparation:** EAS209H1, HIS280Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS455H1 - Classical Confucianism

**Hours:** 24S

This course explores the historical and systematic aspects of classical Confucianism, which is fundamental for understanding Chinese philosophy and culture. The historical part discusses the development of the Confucian doctrine from Confucius to his generations of disciples. The systematic part engages issues such as emotion, art, poetry, morality and virtues, political philosophy, and knowledge and reality.

**Prerequisite:** EAS241H1/PHL237H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## EAS456H1 - Japan as seen by ?: Reference, Apparatus, Operation

**Hours:** 24S

The course discusses how images of Japan, charged with varied degrees of desire for empirical knowledge, have contributed to contemporary novels and plays by David Mitchell, Ruth L. Ozeki, David Mamet, Joy Kogawa, Kazuo Ishiguro, Marguerite Duras, and David Hwang.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS457H1 - Special Topics in Modern Japanese History

**Hours:** 24S

An analysis of contemporary monographs on modern Japanese history. This course offers a critical survey of existing methodologies of and approaches to writing about modern Japan.

**Prerequisite:** EAS247H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS458H1 - Classical Chinese II (formerly EAS306Y1)

**Hours:** 24S

As a continuation of EAS358Y1 (formerly EAS206Y1), this course helps students to gain in-depth control of grammatical structures of classical Chinese and to read texts with greater ease. Requirements include a major research/translation project. Open only to EAS majors and specialists.

**Prerequisite:** EAS358Y1 (minimum 79%)

**Exclusion:** EAS306Y1, EAS335Y1

**Recommended Preparation:** three or more years of Modern Standard Chinese, EAS358Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS459Y1 - Rethinking the Cold War in East Asia

**Hours:** 48S

This research course examines the ways our historical understanding of the Cold War in East Asia has shifted over the last twenty years. Focusing primarily on the divided Korean peninsula where it can be said the Cold War still rages, the course examines the mutual constitution of two competing regional political economies rooted in a shared commitment to developmentalism.

**Prerequisite:** EAS271H1

**Recommended Preparation:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS464H1 - The Korean War

Hours: 24S

An advanced research seminar on the Korean War.

**Prerequisite:** EAS271H1

**Recommended Preparation:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS465H1 - Domesticity and Family in 20th Century East Asia

Hours: 24S

A comparative study of the history of domesticity and family in modern East Asia.

**Prerequisite:** EAS209H1

**Recommended Preparation:** EAS209Y1/H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS466H1 - History, Everyday Life, and North Korea

Hours: 36S

This essay-driven course explores the complexity of examining North Korean history by using comparative methods developed through the study of other socialist societies and theories of everyday life.

**Prerequisite:** EAS209H1, EAS271H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS467H1 - Photographic Narratives of Japan

Hours: 24S

Uses seminal theoretical literature, photo roman (by, e.g., Abe, Nakagami) and narratives about photography (by, e.g., Tanizaki, Mishima, Kanai) to examine the rhetorical complicity and coercion of the two modes of representation which emerged in the modern and nationalistic age, and persist, in the wake of the newer media, as dominant registers of everyday life and departures from there.

**Prerequisite:** EAS209H1 & at least one course in humanities (literature, art history, philosophy) or reading proficiency in Japanese

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS471H1 - Issues in the Political Economy of South Korea

Hours: 24S

A course designed to guide students toward a research paper on a selected topic of interest on the postwar political economy of South Korea.

**Prerequisite:** EAS209H1/EAS271H1

**Exclusion:** EAS471Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS471Y1 - Issues in the Political Economy of South Korea

Hours: 48S

A course designed to guide students toward a research paper on a selected topic of interest on the postwar political economy of South Korea.

**Prerequisite:** EAS209H1/EAS271H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS473H1 - Modern Korean History Seminar

Hours: 24S

An examination of recent literature in the modern Korean history field, focusing especially on the late 19th and 20th centuries.

**Prerequisite:** EAS271H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS474H1 - U.S. and Canada's Wars in Asia

Hours: 24S

This course examines the cultural and social legacies of the 19th- and 20th-century hot and cold wars fought by the U.S. and Canada in different parts of Asia. It explores film, literature, and other cultural products that came out of the transpacific violence and its aftermath.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS475Y1 - Issues in East Asian Historiography

**Hours:** 48L

This course analyses select topics in the historiography of East Asian. Students are expected to write a major research paper.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS478Y1 - Samurai Culture

**Hours:** 48S

An intensive seminar exploring one of Japan's most recognizable figures, the samurai. This course investigates the historical reality of warrior life along with the legends, with focus on the ways in the warrior's world found expression in religion, art, and literature.

**Prerequisite:** EAS209H1, EAS245H1/EAS246H1/EAS247H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS479H1 - Ecocriticism

**Hours:** 24L

The course aims to establish students' ability to engage with core ecological agendas with methodology of cultural history and literary and visual analysis.

**Prerequisite:** EAS209H1

**Recommended Preparation:** At least one 300-level EAS course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS484Y1 - The Japanese Empire

**Hours:** 48S

This course surveys historical literature on the Japanese Empire. A reading and writing course intended for EAS majors and specialists.

**Prerequisite:** EAS209H1

**Recommended Preparation:** Courses in modern East Asian history.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## EAS495Y1 - Advanced Topics in East Asian Studies

**Hours:** 48S

An in-depth study of Chinese, Japanese or Korean culture, history and/or literature. Content depends on the instructor.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

## EAS496H1 - Advanced Topics in East Asian Studies

**Hours:** 24S

An in-depth study of Chinese, Japanese or Korean culture, history and/or literature. Content depends on the instructor.

**Prerequisite:** EAS209H1

**Distribution Requirements:** Humanities

## EAS497H1 - Beyond Orientalism

**Hours:** 24S

This course confronts the Orientalist view of the world by looking at one Asian nation regularly exempted from that paradigm: Japan. By examining, among other topics, Japan's emperor system, its construction of a national history, and its own imperialism, this course hopes to point toward alternative ways of thinking about East and West.

**Prerequisite:** Permission of the instructor

**Recommended Preparation:** EAS209H1 & five EAS courses

**Distribution Requirements:** Humanities

## Independent Studies

### EAS434H1 - Independent Studies

**Hours:** TBA

A scholarly project chosen by the student, approved by the Department, and supervised by one of its instructors. Consult the website ([eas.utoronto.ca](http://eas.utoronto.ca)) for more information. Not eligible for CR/NCR option.

**Prerequisite:** EAS209H1 & five EAS courses

**Distribution Requirements:** Humanities

## EAS435H1 - Independent Studies

**Hours:** TBA

A scholarly project chosen by the student, approved by the Department, and supervised by one of its instructors. Consult the website ([eas.utoronto.ca](http://eas.utoronto.ca)) for more information. Not eligible for CR/NCR option.

**Prerequisite:** EAS209H1 & five EAS courses

**Distribution Requirements:** Humanities

## EAS436Y1 - Independent Studies

**Hours:** TBA

A scholarly project chosen by the student, approved by the Department, and supervised by one of its instructors. Consult the website ([eas.utoronto.ca](http://eas.utoronto.ca)) for more information. Not eligible for CR/NCR option.

**Prerequisite:** EAS209H1 & five EAS courses

**Distribution Requirements:** Humanities

## Chinese

### EAS100Y1 - Modern Standard Chinese I

**Hours:** 52T/52S

Intended for students with no background in Mandarin or any Chinese dialect, this course provides an introduction to modern standard Chinese as a foreign/second language. The course consists of mandatory lectures and tutorials. Students study a minimum of 550 Chinese characters. Students must go through screening process conducted by the Department. See [www.eas.utoronto.ca/languages/chinese](http://www.eas.utoronto.ca/languages/chinese) for details.

**Exclusion:** EAS101Y1, LGGA60H3, LGGA61H3, LGGB60H3, LGGB61H3, CHI100Y5, CHI101H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### EAS101Y1 - Modern Chinese I for Students with Prior Background

**Hours:** 26T/52S

This course is designed for students who understand elementary Mandarin or any Chinese dialect because of their cultural or family backgrounds. The course consists of mandatory lectures and tutorials. Students will learn a minimum of 650 characters. Students must go through screening process conducted by the Department. See [www.eas.utoronto.ca/languages/chinese](http://www.eas.utoronto.ca/languages/chinese) for details.

**Exclusion:** EAS100Y1, EAS200Y1, LGGA60H3, LGGA61H3, LGGB60H3, LGGB61H3, CHI100Y5, CHI101H5, CHI200Y5, CHI201Y5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### EAS200Y1 - Modern Standard Chinese II

**Hours:** 52T/52S

This course is a continuation of EAS100Y1. Students learn major grammatical structures which are not introduced in the first year and expand their vocabulary. Students who do not meet the prerequisite must go through a placement process conducted by the Department. See [eas.utoronto.ca/languages/chinese](http://eas.utoronto.ca/languages/chinese) for details.

**Prerequisite:** EAS100Y1 (minimum grade 67%)/equivalent as determined by placement process.

**Exclusion:** EAS101Y1, EAS201H1, LGGB60H3, LGGB61H3, CHI200Y5, CHI201Y5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### EAS201H1 - Modern Chinese II for Students with Prior Background (formerly EAS201Y1)

**Hours:** 26T/52S

This course is a continuation of EAS101Y1. It focuses on development of students' listening, speaking, reading, and writing skills at a low intermediate level. Students who do not meet the prerequisite must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/chinese](http://www.eas.utoronto.ca/languages/chinese) for details.

**Prerequisite:** EAS101Y1 (minimum 67%)/equivalent as determined by placement process.

**Exclusion:** EAS200Y1, EAS201Y1, EAS290Y1, LGGB60H3, LGGB61H3, CHI200Y5, CHI201Y5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS300Y1 - Modern Standard Chinese III

**Hours:** 104S

This high intermediate-level course is a continuation of EAS200Y. Students learn to read short texts which deal with personal or social topics, compose paragraph-length essays, and converse in social situations which require exchanges of basic information. Students who do not meet the prerequisite must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/chinese](http://www.eas.utoronto.ca/languages/chinese) for details.

**Prerequisite:** EAS200Y1 (EAS200Y1 (minimum 70%)/EAS201Y1 or EAS201H1 (minimum 70%)/equivalent as determined by placement process.

**Exclusion:** EAS290Y1, LGGC60H3, LGGC61H3, LGGC62H3, LGGC63H3, CHI301Y5, CHI310Y5, CHI311Y5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS401H1 - Modern Standard Chinese IVa

**Hours:** 52S

This course aims to develop students' abilities at an advanced level, with a focus on reading of fictional and/or journalistic writings. Students will improve their reading comprehension, strengthen writing skills, and advance speaking and listening skills through class discussions and oral presentations. Students who do not meet the prerequisite must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/chinese](http://www.eas.utoronto.ca/languages/chinese) for details.

**Prerequisite:** EAS300Y1 (minimum 73%)/EAS402H1 (minimum 73%)/equivalent as determined by placement process

**Exclusion:** EAS290Y1, EAS400Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS402H1 - Modern Standard Chinese IVb

**Hours:** 52S

This course aims to develop students language abilities at an advanced level, with a focus on reading argumentative-style essays and news. Students will improve their reading comprehension, strengthen writing skills, and advance speaking and listening skills through class discussions and oral presentations. Students who do not meet the prerequisite must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/chinese](http://www.eas.utoronto.ca/languages/chinese) for details.

**Prerequisite:** EAS300Y1 (minimum 73%)/EAS401H1 (minimum 73%)/equivalent as determined by placement process

**Exclusion:** EAS290Y1, EAS400Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Japanese

### EAS120Y1 - Modern Standard Japanese I

**Hours:** 48L/72T

This course is for students with no or a very limited background in Japanese. Students must go through screening process conducted by the Department. See [www.eas.utoronto.ca/languages/japanese/](http://www.eas.utoronto.ca/languages/japanese/) for details.

**Exclusion:** EAS121H1, EAS122Y0, LGGA80H3, LGGA81H3

**Recommended Preparation:** Learning the Japanese alphabets (hiragana & katakana)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### EAS121H1 - Japanese I for Students with Prior Background

**Hours:** 24L/36T

This course is equivalent to the second half of EAS120Y1 for students with some background in the Japanese language. Students must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/japanese/](http://www.eas.utoronto.ca/languages/japanese/) for details.

**Exclusion:** EAS120Y1, EAS222Y0, LGGA81H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### EAS122Y0 - Summer Japanese in Japan I

**Hours:** TBA

This course is available in the Summer Abroad Program for students with no or a very limited background in Japanese. Those who have successfully completed this course may be able to take EAS121H1 or EAS220Y1 based on the result of a placement test. See <http://summerabroad.utoronto.ca/programs/japan/> for details.

**Prerequisite:** Passing the placement test at ICU

**Exclusion:** EAS120Y1

**Recommended Preparation:** Learning the Japanese alphabets (hiragana & katakana)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS220Y1 - Modern Standard Japanese II

**Hours:** 72L/48T

This is an advanced beginner level language course for those who completed EAS120Y1 or EAS121H1 with a minimum grade of 67%. Students who do not meet the prerequisite must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/japanese/](http://www.eas.utoronto.ca/languages/japanese/) for details.

**Prerequisite:** EAS120Y1/EAS121H1 (minimum 67%)/equivalent as determined by placement process

**Exclusion:** EAS223Y0

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS221H1 - Modern Standard Japanese II for Students with Prior Background

**Hours:** 24L/36T

This course is equivalent to the second half of EAS220Y1. Designed for those who have a good foundation of lower beginners' grammar, vocabulary, and kanji knowledge and have not yet acquired the proficiency required to take EAS320Y1. Students must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/japanese/](http://www.eas.utoronto.ca/languages/japanese/) for details.

**Prerequisite:** Placement process

**Exclusion:** EAS220Y1/EAS223Y0

**Recommended Preparation:** The first half of the content covered in EAS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS222Y0 - Summer Japanese in Japan IIa

**Hours:** TBA

This course is available in the Summer Abroad Program for students who have some prior background in the language. Students should already be familiar with hiragana, katakana and some kanji as well as basic sentence patterns. Those who have successfully completed this course may be able to take EAS220Y1 or EAS320Y1 based on the result of a placement test. See <http://summerabroad.utoronto.ca/programs/japan/> for details.

**Prerequisite:** Passing the placement test at ICU

**Exclusion:** EAS120Y1, EAS121H1

**Recommended Preparation:** Two-thirds of the content covered in EAS120Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS223Y0 - Summer Japanese in Japan IIb

**Hours:** TBA

This course is available in the Summer Abroad Program for students who have completed EAS120Y1 or EAS121H1 or equivalent. Those who have successfully completed this course may be able to take EAS320Y1 based on the result of a placement test. See <http://summerabroad.utoronto.ca/programs/japan/> for details.

**Prerequisite:** Passing the placement test at ICU

**Exclusion:** EAS220Y1

**Recommended Preparation:** One-third of the content covered in EAS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS320Y1 - Modern Standard Japanese III

**Hours:** 120S

This is a lower intermediate level course for those who have completed EAS220Y1 with a minimum grade of 70%. Students who do not meet the prerequisite must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/japanese/](http://www.eas.utoronto.ca/languages/japanese/) for details.

**Prerequisite:** EAS220Y1 (70% minimum)/equivalent as determined by placement process

**Exclusion:** EAS348H1, EAS349H1, EAS322Y0

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS321Y0 - Summer Japanese in Japan IIIa

**Hours:** TBA

This is a lower intermediate Japanese course available in the Summer Abroad for students who have completed EAS220Y1 or equivalent. Those who have successfully completed this course may be able to take EAS320Y1, EAS460H1, or EAS461H1 based on the result of a placement test; for EAS460H1 an interview will also be required. See <http://summerabroad.utoronto.ca/programs/japan/> for details.

**Prerequisite:** Passing the placement test at ICU

**Recommended Preparation:** Material covered in EAS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS322Y0 - Summer Japanese in Japan IIb

**Hours:** TBA

This is a lower intermediate Japanese course available in the Summer Abroad program. Those who successfully complete this course may be able to take EAS460H1 or EAS461H1 based on the result of the placement test and/or interview. See <http://summerabroad.utoronto.ca/programs/japan/> for details.

**Prerequisite:** Passing the placement test at ICU

**Exclusion:** EAS320Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS460H1 - Modern Standard Japanese IVa

**Hours:** 48S

This is a high intermediate level Japanese course that focuses on oral/aural communication. Native or near-native speakers are not permitted to take this course. Students who do not meet the prerequisite must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/japanese](http://www.eas.utoronto.ca/languages/japanese) for details.

**Prerequisite:** EAS320Y1 (70% minimum)/equivalent as determined by placement process

**Exclusion:** EAS460Y1, EAS463Y0

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS461H1 - Modern Standard Japanese IVb

**Hours:** 48S

This is a high intermediate level Japanese course that focuses on reading and writing skills. Native or near-native speakers are not permitted to take this course. Students who do not meet the prerequisite must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/japanese](http://www.eas.utoronto.ca/languages/japanese) for details.

**Prerequisite:** EAS320Y (70% minimum)/equivalent as determined by placement process

**Exclusion:** EAS461Y1, EAS463Y0

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS462Y0 - Summer Japanese in Japan IVa

**Hours:** TBA

This is an upper intermediate level Japanese course available only in the Summer Abroad Program. Those who have successfully completed this course may be eligible to take EAS460H1 and/or EAS461H1 depending on the result of a placement test; for EAS460H1 an interview will also be required. See <http://summerabroad.utoronto.ca/programs/japan/> for details.

**Prerequisite:** Passing the placement test at ICU

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS463Y0 - Summer Japanese in Japan IVb

**Hours:** TBA

This is an advanced Japanese course available only in the Summer Abroad Program for those who have completed a course equivalent to EAS460H1 or EAS461H1. See <http://summerabroad.utoronto.ca/programs/japan/> for details.

**Prerequisite:** Passing the placement test at ICU

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS464Y0 - Summer Japanese in Japan IV-c

**Hours:** TBA

This is an advanced Japanese course available in the Summer Abroad Program for those who have completed EAS460H1 or EAS461H1 or equivalent. See <http://summerabroad.utoronto.ca/programs/japan/> for details.

**Prerequisite:** Passing the placement test at ICU

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Korean

## EAS110Y1 - Modern Standard Korean I

**Hours:** 48T/48S

This course is designed to help students build communication skills in the Korean language. Through an integration of listening, speaking, reading and writing, it aims to provide a solid foundation in beginning-level Korean. This course assumes that students do not have any prior knowledge of Korean. Students must go through screening process conducted by the Department. See [www.eas.utoronto.ca/languages/korean](http://www.eas.utoronto.ca/languages/korean) for details.

**Exclusion:** EAS211Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS210Y1 - Modern Standard Korean II

**Hours:** 48T/48S

As a continuation of EAS110Y1, this course is designed to help students improve their skills in the Korean language. Students in this course are expected to perform basic communicative functions, read and write paragraph-level texts, and conjugate verbs/adjectives accurately. Students who do not meet the prerequisite must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/korean](http://www.eas.utoronto.ca/languages/korean) for details.

**Prerequisite:** EAS110Y1 (63% minimum)/equivalent as determined by the Korean placement interview

**Exclusion:** EAS211Y1, EAS212H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS211Y1 - Accelerated Modern Standard Korean I & II

**Hours:** 96L

Covering both EAS110Y1 and EAS210Y1, the course is ideal for self-motivated students who enjoy fast-paced language learning, students with a passion for Korean films and television, students with some listening and speaking skills from prior study or family background, and students taking the full four-year course series. Successful completion of the course fulfils the prerequisite for EAS310Y1. Students must go through screening process conducted by the Department. See [www.eas.utoronto.ca/languages/korean](http://www.eas.utoronto.ca/languages/korean) for details.

**Exclusion:** EAS110Y1, EAS210Y1, EAS212H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS212H1 - Accelerated Modern Standard Korean II

**Hours:** 48L

As a continuation of EAS110Y1, this course is designed to help students increase their Korean communication skills at beginner high to intermediate low levels. It is ideal for self-motivated students who enjoy fast-paced language learning, and students who have built basic language skills from prior study. Successful completion of the course fulfils the prerequisite for EAS310Y1. Students must go through screening process conducted by the Department. See [www.eas.utoronto.ca/languages/chinese](http://www.eas.utoronto.ca/languages/chinese) for details.

**Prerequisite:** EAS110Y1 (70% minimum)/equivalent as determined by the Korean placement interview

**Exclusion:** EAS210Y1, EAS211Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS310Y1 - Modern Standard Korean III

**Hours:** 96S

As a continuation of EAS210Y1 and EAS211Y1, this course is designed to help students improve their Korean proficiency at the intermediate level. The class focuses not only on oral fluency and grammar but also on reading comprehension. Students who do not meet the prerequisite must go through placement process conducted by Department. See [www.eas.utoronto.ca/languages/korean](http://www.eas.utoronto.ca/languages/korean) for details.

**Prerequisite:** EAS210Y1/EAS211Y1/EAS212H1 (67% minimum)/equivalent as determined by placement process

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## EAS410Y1 - Modern Standard Korean IV

**Hours:** 96S

As a continuation of EAS310Y1, this course is designed for advanced-level learners of Korean. Through reading short essays/articles and watching films, this course aims to improve students proficiency in speaking, writing, listening, and reading. Classroom and online discussions are conducted entirely in Korean. Students who do not meet the prerequisite must go through placement process conducted by the Department. See [www.eas.utoronto.ca/languages/korean](http://www.eas.utoronto.ca/languages/korean) for details.

**Prerequisite:** EAS310Y1 (70% minimum)/equivalent as determined by placement process

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **EAS416Y1 - Academic and Professional Korean**

**Hours:** 96S

This course aims to assist students to upgrade their language proficiency for academic and professional purposes. It is ideal for students who seek career opportunities in Korea-related business or in higher education in Korean studies. Emphasis is on comprehension and composition of academic and business texts and preparation for Korean proficiency tests. Interviews are required of all students who wish to enrol in the course. See [www.eas.utoronto.ca/languages/korean](http://www.eas.utoronto.ca/languages/korean) for details.

**Prerequisite:** EAS310Y1 (70% minimum)/equivalent as determined by the Korean placement interview

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

# Ecology and Evolutionary Biology

## Faculty List

### Professors Emeriti

P.A. Abrams, BS, Ph D, FRSC  
D.R. Brooks, MS, Ph D, FRSC  
D.G. Butler, M Sc, Ph D, D Sc, FRSA  
T.J. Carleton, B Sc, Ph D  
C.S. Churcher, M Sc, Ph D  
N.G. Dengler, MS, Ph D  
S.S. Desser, M Sc, Ph D  
T.A. Dickinson, B Sc, Ph D  
D.W. Dunham, BS, Ph D  
J.B. Falls, BA, Ph D CM  
R.I.C. Hansell, B Sc, Ph D  
H.H. Harvey, M Sc, Ph D  
R.C. Plowright, MA, Ph D  
H.A. Regier, MS, Ph D CM  
J.D. Rising, BA, Ph D  
G.M. Telford, B Sc, Ph D  
A. P. Zimmerman, BA, Ph D

### University Professors

S.C.H. Barrett, B Sc, Ph D, FRSC, FRS  
M.B. Sokolowski, B Sc, Ph D, FRSC

### Distinguished Professors

A. Agrawal, B Sc, Ph D  
L. Rowe, B Sc, Ph D

### Professor and Chair of the Department

D.A. Jackson, M Sc, Ph D

### Professor and Associate Chair, Graduate Studies

F.H. Rodd, M Sc, Ph D

### Professor and Associate Chair, Undergraduate Studies

A.D. Cutter, BS, Ph D

### Professors

M.-J. Fortin, M Sc, Ph D FRSC  
M.R. Gross, B Sc, Ph D  
D.A. McLennan, M Sc, Ph D  
R. Murphy, MA, Ph D  
R.F. Sage, MS, Ph D  
J.R. Stinchcombe, BA, Ph D  
J.D. Thomson, MS, Ph D, FRSC  
A.E. Weis, BA, Ph D  
S.I. Wright, M Sc, Ph D

### Associate Professors

J-B. Caron, M Sc, Ph D  
B. Chang, AB, Ph D  
D.C. Currie, B Sc, Ph D  
H. Cyr, M Sc, Ph D  
C. Darling, M Sc, Ph D  
J.E. Eckenwalder, M Sc, Ph D  
M.E. Engstrom, M Sc, Ph D  
D. Evans, B Sc, Ph D  
M.E. Frederickson, AB, Ph D  
H. Lopez-Fernandez, B Sc, Ph D  
J.M. Moncalvo, M Sc, Ph D  
T.L. Sage, MS, Ph D

### Associate Professor, Teaching Stream

C.A. Goldman, M Sc

### Assistant Professors

B. Gilbert, M Sc, Ph D  
M. Krkosek, B Sc, Ph D  
S.B. Kvist, MS, Ph D  
D.L. Mahler, BA, Ph D  
N. Mideo, B Sc, Ph D

## Introduction

Ecologists and evolutionary biologists recognize that all life has evolved and that an understanding of the factors influencing the origin and maintenance of biological diversity – from genomes to ecosystems – underlies all life sciences and is critical to our stewardship of life on this planet. Society needs to make informed decisions about sustainable development, global climate change, control of invasive species, the preservation of genetic diversity and ecosystem integrity, and the control of emerging infectious diseases. These are all evolutionary and ecological problems.

Ecology and Evolutionary Biology is a broad discipline that seeks to understand the origins, diversity, and distribution of organisms. The Department offers a very wide range of courses that deal with biological diversity, conservation biology, molecular evolution, population and quantitative genetics, genomics, animal behaviour, population, community, and ecosystem ecology, evolutionary and ecological theory, environmental biology, and systematics. Students exposed to these subjects come to realize that the ecological and evolutionary underpinnings of life present a host of scientific problems that are both intellectually challenging and critical to our future.

The Department offers six programs: a Specialist program in Ecology and Evolutionary Biology; Major programs in Biodiversity and Conservation Biology, Ecology & Evolutionary Biology, and Environmental Biology; and two Minor programs in Environmental Biology. The Department also jointly offers programs with other departments: Specialist, Major, and Minor programs in Biology (with Cell & Systems Biology), and a Major program in Genome Biology (with Cell & Systems Biology and Molecular Genetics & Microbiology).

The **EEB Specialist** program (12 FCEs) provides an in-depth understanding of ecological and evolutionary patterns and processes, as well as the diversity of life forms (microbes, fungi, plants, animals). Concepts are taught using a broad array of approaches, including molecular studies, laboratory experiments, computer and mathematical modeling, and field studies. An integral part of the experience is to conduct independent research projects in the laboratory and/or field. There is a strong emphasis within the program on hands-on laboratory and fieldwork that complement the conceptual framework developed in lectures. Students in this program have the opportunity to concentrate in ecology, evolutionary biology, or behaviour. The EEB Major program (8 FCEs) provides a comprehensive understanding of ecology and evolution, also with concepts taught using a broad array of approaches – including opportunities to conduct independent research projects – and with an emphasis on hands-on laboratory and field work.

Today, in an era of unprecedented global change, natural ecosystems are under attack and thousands of species are threatened with extinction and many more have experienced unprecedented declines. Students in the **Biodiversity and Conservation Biology Major** program (8 FCEs) will be equipped to aid in the response to what is perhaps humanity's most pressing challenge, the conservation of biological diversity. Students in this program take courses in their first and second years that provide

foundations in ecology, evolutionary biology, biodiversity and conservation biology, environmental biology, mathematics, and statistics. In their upper years students will obtain in-depth knowledge about the diversity of living organisms and take advanced courses in ecology, evolution, and biodiversity and conservation biology, including a capstone course at the 400-level.

Environmental science is an interdisciplinary field that integrates biological, chemical, and physical sciences to study human interactions with their environment. The **Environmental Biology Major** (8 FCEs) provides a broad background in biology that is essential to understand the impact of humans on other organisms and their environments. It provides students with an understanding of ecology, the diversity and function of living organisms, the physical and chemical environment, and the ways organisms interact with, and affect, ecosystem processes. Students are exposed to ecosystem management, issues related to environmental change, and the consequences of interactions between humans and the environment.

The **Environmental Biology Minor** program (4 FCEs) offer students an introduction to ecology, evolution, environmental biology, and organismal diversity. The **Biology Minor (joint with NUS)** program is offered jointly with the National University of Singapore; students complete 2.0 FCEs at the University of Toronto and 2.0 FCEs on exchange in Singapore. LSM courses at the National University of Singapore are also available to students in EEB programs.

Students entering their first year in the life sciences take BIO120H1 (offered by EEB) and BIO130H1 (offered by CSB). These courses are taken by students who have successfully completed Grade 12 Biology, SBI4U (or an equivalent course). BIO130H1 also requires Grade 12 Chemistry, SCH4U. One or both of these half courses are a prerequisite for almost all further courses in the life sciences. Students requiring more information about BIO120H1 please contact the BIO120 Office, Ramsay Wright Zoological Laboratories (25 Harbord St.), Room 105E, [bio120@utoronto.ca](mailto:bio120@utoronto.ca)

Students requiring more information about Ecology & Evolutionary Biology programs and courses please visit the departmental website or contact the Undergraduate Office, Earth Sciences Centre (25 Willcocks St.), Room 3055B, [undergrad.eeb@utoronto.ca](mailto:undergrad.eeb@utoronto.ca), 416-978-2084.

Website: <http://www.eeb.utoronto.ca/undergrad.htm>

## Ecology and Evolutionary Biology Programs

## Ecology and Evolutionary Biology Specialist (Science Program)

### Completion Requirements:

(12 FCEs including at least 4.0 FCEs at the 300+ series level, 1.0 of which must be at the 400 series level)

First Year (3.0 FCEs): BIO120H1; BIO130H1; (CHM135H1, CHM136H1)/CHM151Y1; (MAT135H1, MAT136H1)/MAT137Y1/ MAT157Y1

1. 2.0 FCEs: BIO220H1 (ecology and evolutionary biology); BIO230H1 (molecular and cell biology); BIO260H1/HMB265H1 (genetics); BIO251H1/BIO270H1/PSL300H1/ENV234H1 (plant or animal form and function/environmental biology); ENV234H1 (environmental biology; cannot be substituted with EEB375H1)

2. 0.5 FCE in statistics from: EEB225H1 (recommended)/ STA220H1/STA257H1/ STA288H1/GGR270H1/PSY201H1

3. 0.5 FCE in core evolution from: EEB318H1, EEB323H1, EEB362H1

4. 0.5 FCE in core ecology from: EEB319H1, EEB321H1 (both are recommended), EEB328H1

5. 0.5 FCE in organismal biology from: EEB263H1, EEB266H1, EEB267H1, EEB268H1, EEB330H1, EEB331H1, EEB340H1, EEB380H1, EEB382H1, EEB384H1, EEB386H1, EEB388H1

6. 1.0 FCE at 300+ series, from: EEB318H1, EEB319H1, EEB321H1, EEB322H1, EEB323H1, EEB324H1, EEB325H1, EEB328H1, EEB330H1, EEB331H1, EEB340H1, EEB356H1, EEB362H1, EEB365H1, EEB380H1, EEB382H1, EEB384H1, EEB386H1, EEB388H1, EEB390H1, EEB398H0, EEB399Y0, EEB428H1, EEB433H1, EEB440H1, EEB455H1, EEB459H1, EEB460H1, EEB465H1, EEB466H1, EEB492H1/EEB492Y1, EEB495H1, EEB496H1, EHJ352H1, ENV334H1, ENV432H1, ENV395Y1; NUS

Sub-total = 8.0 FCEs

7. 1.0 to 2.5 FCEs in at least two of the three following categories: (1) one field course (0.5 FCE) from EEB403H0, EEB403H1, EEB405H0, EEB405H1, EEB406H0, EEB406H1, EEB407H0, EEB407H1, EEB410H0, EEB410H1; (2) one seminar (0.5 FCE) from EEB495H1, EEB496H1; and/or (3) one independent research project course (1.0 FCE) from EEB498Y1/EEB499Y1 and concurrent research issues course EEB488H1 (0.5 FCE).

Sub-total = 9.0 or 10.5 FCEs (depending on options chosen in #7)

8. Select the remaining FCEs for a total of 12.0 FCEs (at least 1.0 must be 300+ series if 1.0 FCE is completed in #7 above) from: BIO251H1, BIO270H1/PSL300H1, BIO271H1/PSL301H1; all EEB courses (excluding EEB202H1, EEB206H1, EEB208H1, EEB214H1, EEB215H1); EHJ352H1; ENV234H1, ENV334H1, ENV432H1; JHE353H1, JHE355H1; and no more than 1.0 FCE from the following (note that some courses may require prerequisites that are not listed within this program): ANT336H1, ANT333Y1, ANT335Y1, ANT430H1, ANT436H1; CSB328H1, CSB340H1, CSB349H1, CSB350H1, CSB352H1, CSB353H1, CSB430H1, CSB431H1, CSB452H1, CSB458H1, CSB472H1, CSB474H1; ENV346H1; FOR200H1, FOR307H1, FOR413H1, FOR416H1, FOR417H1; GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR305H1, GGR307H1, GGR308H1; MAT221H1; MGY340H1; NUS; PSY100H1, PSY260H1, PSY270H1, PSY280H1, PSY290H1, PSY390H1, PSY397H1, PSY492H1, PSY497H1 (note that many PSY courses have limited enrolment)

Total = 12 FCEs

NOTE: Students may wish to concentrate in ecology, evolutionary biology, or behaviour. Recommended EEB, EHJ and JHE courses for these concentrations are as follows:

Ecology: [EEB255H1](#), [EEB319H1](#), [EEB321H1](#), [EEB328H1](#),  
[EEB365H1](#), [EEB428H1](#), [EEB433H1](#), [EEB440H1](#), [EEB465H1](#),  
[EEB495H1](#), [ENV432H1](#)  
 Evolutionary Biology: [EEB323H1](#), [EEB324H1](#), [EEB325H1](#),  
[EEB362H1](#), [EEB390H1](#), [EEB440H1](#), [EEB459H1](#), [EEB460H1](#),  
[EEB466H1](#), [EHJ352H1](#), [JHE353H1](#), [JHE355H1](#)  
 Behaviour: [EEB322H1](#), [EEB455H1](#), [EEB496H1](#)

## Biodiversity and Conservation Biology Major (Science Program)

### Completion Requirements:

(8 FCEs including at least 2.0 FCEs at 300+ series with at least 0.5 FCE at the 400 level series)

First Year (1.5 FCEs): [BIO120H1](#); ([MAT135H1](#),  
[MAT136H1](#))/[MAT137Y1](#)

Higher Years:

1. 2.0 FCEs: [BIO220H1](#) (ecology and evolutionary biology);  
[EEB225H1](#)(recommended)/[STA220H1](#)/[STA257H1](#)/[STA288H1](#)/  
[GGR270H1](#)/[PSY201H1](#) (statistics); [EEB255H1](#) (conservation  
 biology); [ENV234H1](#) (environmental biology; cannot be substituted  
 with [EEB375H1](#))

2. 1.5 FCEs in organismal biology (with at least 0.5 FCE from Group  
 1 and 0.5 FCE from Group 2) from:  
 Group 1 (plant or microbial): [BIO251H1](#); [EEB268H1](#), [EEB330H1](#),  
[EEB331H1](#), [EEB340H1](#)

Group 2 (animal): [EEB263H1](#), [EEB266H1](#), [EEB267H1](#), [EEB380H1](#),  
[EEB382H1](#), [EEB384H1](#), [EEB386H1](#), [EEB388H1](#)

3. 0.5 FCE in core evolution: [EEB318H1](#), [EEB323H1](#), [EEB362H1](#)

4. 0.5 FCE in core ecology from: [EEB319H1](#), [EEB321H1](#),  
[EEB328H1](#)

5. 0.5 FCE: [EEB365H1](#) (applied conservation biology)

6. 1.0 FCE from: [BIO130H1](#), [BIO251H1](#); [EEB263H1](#), [EEB266H1](#),  
[EEB267H1](#), [EEB268H1](#), [EEB318H1](#), [EEB319H1](#), [EEB321H1](#),  
[EEB322H1](#), [EEB323H1](#), [EEB324H1](#), [EEB325H1](#), [EEB328H1](#),  
[EEB330H1](#), [EEB331H1](#), [EEB340H1](#), [EEB362H1](#), [EEB380H1](#),  
[EEB382H1](#), [EEB384H1](#), [EEB386H1](#), [EEB388H1](#), [EEB390H1](#),  
[EEB397Y1](#), [EEB398H0](#), [EEB399Y0](#), [EEB428H1](#), [EEB433H1](#),  
[EEB440H1](#), [EEB455H1](#), [EEB459H1](#), [EEB497H1](#), [EEB498Y1](#),  
[EEB499Y1](#), [EHJ352H1](#), [ENV334H1](#), [ENV432H1](#), [FOR307H1](#),  
[FOR413H1](#), [JHE353H1](#), [JHE355H1](#); NUS

7. 0.5 FCE at 400 series from: [EEB465H1](#), [EEB466H1](#); field course:  
[EEB403H0](#), [EEB403H1](#), [EEB405H0](#), [EEB405H1](#), [EEB406H0](#),  
[EEB406H1](#), [EEB407H0](#), [EEB407H1](#), [EEB410H0](#), [EEB410H1](#);  
 seminar, [EEB495H1](#); research project: [EEB497H1](#), [EEB498Y1](#)/  
[EEB499Y1](#) (recommended research subject in biodiversity and/or  
 conservation biology)

NOTE: [BIO260H1](#)/[HMB265H1](#) (genetics) is recommended. Note that  
 both [BIO260H1](#) and [HMB265H1](#) require [BIO130H1](#) and [BIO230H1](#);  
[BIO230H1](#) requires both [CHM135H1](#) and [CHM136H1](#)

Students interested in law, economics, policy, or environmental  
 studies may choose to pair their Biodiversity and Conservation

Biology Major with another Major such as Economics, Environmental  
 Ethics, or Environmental Studies (all three are Arts programs), or  
 Science programs (e.g., School of the Environment programs).

## Ecology & Evolutionary Biology Major (Science Program)

### Completion Requirements:

(8 full courses or their equivalent including at least 2.0 FCEs at 300+  
 series with at least 0.5 FCE at the 400 series level)

First Year (2.0 FCEs): [BIO120H1](#); [BIO130H1](#);( [CHM135H1](#) (formerly  
[CHM139H1](#)), [CHM136H1](#)(formerly [CHM138H1](#)))/[CHM151Y1](#)

Higher Years:

1. 2.0 FCEs: [BIO220H1](#); [BIO230H1](#); [BIO260H1](#)/[HMB265H1](#);  
[EEB225H1](#)/[STA220H1](#)/[STA257H1](#)/[GGR270H1](#)

2. 1.0 FCE from: [BIO251H1](#), [BIO270H1](#)/[PSL300H1](#), [BIO271H1](#)/  
[PSL301H1](#), [EEB263H1](#), [EEB266H1](#), [EEB267H1](#), [EEB268H1](#),  
[ENV234H1](#)

3. 2.0 FCEs from: [EEB318H1](#), [EEB319H1](#), [EEB321H1](#), [EEB322H1](#),  
[EEB323H1](#), [EEB324H1](#), [EEB325H1](#), [EEB328H1](#), [EEB362H1](#),  
[EEB365H1](#), [EEB375H1](#), [EEB380H1](#), [EEB382H1](#), [EEB384H1](#),  
[EEB386H1](#), [EEB388H1](#), [EEB390H1](#), [EEB397Y1](#), [EEB398H0](#),

## Environmental Biology Major (Science Program)

### Completion Requirements:

(8 FCEs including at least 2.0 FCEs at 300+ series with at least 0.5  
 FCE at the 400 level series)

First Year (3.0 FCEs): [BIO120H1](#); ([CHM135H1](#) (formerly  
[CHM139H1](#)), [CHM136H1](#) (formerly [CHM138H1](#)))/[CHM151Y1](#);  
([MAT135H1](#), [MAT136H1](#))/[MAT135Y1](#)/[MAT137Y1](#); [PHY131H1](#)/  
[PHY151H1](#) or [BIO130H1](#)

1. 2.0 FCEs: [BIO220H1](#) (ecology and evolutionary biology);  
[ENV234H1](#) (cannot be substituted with [EEB375H1](#) for this  
 requirement), [ENV334H1](#) (environmental biology); [EEB225H1](#)

(recommended)/[STA220H1](#)/[STA257H1](#)/[STA288H1](#)/[GGR270H1](#)/[PSY201H1](#) (statistics)

2. 0.5 FCE in biological diversity and function from: [BIO251H1](#), [BIO270H1](#), [EEB266H1](#), [EEB267H1](#), [EEB268H1](#), [EEB340H1](#), [BIO260H1](#)/[HMB265H1](#) (note that both require [BIO130H1](#) and [BIO230H1](#))

3. 0.5 FCE in physical environment from: [CHM210H1](#), [ESS261H1](#), [ESS262H1](#), [GGR201H1](#), [GGR203H1](#), [GGR205H1](#), [GGR206H1](#), [PHY131H1](#), [PHY132H1](#), [PHY151H1](#), [PHY152H1](#)

4. 0.5 in core ecology from: [EEB319H1](#), [EEB321H1](#), [EEB328H1](#)

5. 1.0 FCE from: [EEB319H1](#), [EEB321H1](#), [EEB323H1](#), [EEB325H1](#), [EEB328H1](#), [EEB365H1](#), [EEB375H1](#), [EEB386H1](#), [EEB433H1](#), [ENV432H1](#), [ESS361H1](#), [ESS362H1](#), [FOR305H1](#), [FOR307H1](#), [GGR305H1](#), [GGR307H1](#), [GGR308H1](#), [ESS311H1](#), [ENV316H1](#)

6. 0.5 FCE at the 400-series from: field course [EEB403H0](#), [EEB403H1](#), [EEB405H0](#), [EEB405H1](#), [EEB406H0](#), [EEB406H1](#), [EEB407H0](#), [EEB407H1](#), [EEB410H0](#), [EEB410H1](#)/[FOR418H1](#); seminar/lecture course [EEB428H1](#), [EEB433H1](#), [EEB495H1](#), [ENV432H1](#), [ESS462H1](#), [ESS463H1](#), [ESS464H1](#), [JFG470H1](#); independent research project course [EEB497H1](#), [EEB498Y1](#) (concurrent with research issues course [EEB488H1](#)), [EEB499Y1](#).

This program can be combined with other Environmental programs (see School of the Environment), as well as Science (e.g., Chemistry, Earth Sciences) and Social Science (e.g., Economics) programs.

## Environmental Biology Minor (Science Program)

### Completion Requirements:

(4 FCEs; must include at least one full-course equivalent at the 300+ series)

1. 1.5 FCEs: [BIO120H1](#), [BIO220H1](#), [ENV234H1](#) (cannot be substituted with [EEB375H1](#))

2. 0.5 FCE in organismal biology: [EEB266H1](#), [EEB267H1](#), [EEB268H1](#)

3. 2.0 FCEs (at least 1.0 FCE at 300+ series) from: [BIO251H1](#), [EEB255H1](#), [EEB263H1](#), [EEB266H1](#), [EEB267H1](#), [EEB268H1](#), [EEB318H1](#), [EEB319H1](#), [EEB321H1](#), [EEB328H1](#), [EEB362H1](#), [EEB365H1](#), [EEB380H1](#), [EEB382H1](#), [EEB384H1](#), [EEB386H1](#), [EEB388H1](#), [EEB433H1](#), [ENV334H1](#) (recommended); [ENV432H1](#); NUS; no more than one field course from [EEB403H0](#), [EEB403H1](#), [EEB405H0](#), [EEB405H1](#), [EEB406H0](#), [EEB406H1](#), [EEB407H0](#), [EEB407H1](#), [EEB410H0](#), [EEB410H1](#)

## Regarding Ecology and Evolutionary Biology Courses

### Lab Materials Fee

Some courses in this department have a mandatory Lab Materials Fee to cover non-reusable materials. The fee for each such course

is given below in the course description, and will be included on the student's invoice on ACORN.

### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Ecology and Evolutionary Biology Courses

### BIO120H1 - Adaptation and Biodiversity

**Hours:** 24L/15P

Principles and concepts of evolution and ecology related to origins of adaptation and biodiversity. Mechanisms and processes driving biological diversification illustrated from various perspectives using empirical and theoretical approaches. Topics include: genetic diversity, natural selection, speciation, physiological, population, and community ecology, maintenance of species diversity, conservation, species extinction, global environmental change, and invasion biology. A lab coat is required and the cost is approximately \$16 if students wish to purchase it through the Department. (Lab Materials Fee: \$25)

**Prerequisite:** Grade 12 Biology or equivalent. Students without high school Biology must consult the BIO120 Office ([bio120@utoronto.ca](mailto:bio120@utoronto.ca))

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### EEB202H1 - Plants and Society

**Hours:** 24L

The importance of plants to society. Topics include: plant biology, domestication of crop plants, plant breeding and genetic engineering, biological invasions, conservation, biodiversity and genetic resources, ecological implications of advances in modern plant science, macroevolution of plants, forest utilization. For non-science students in all years and disciplines.

**Exclusion:** BIO120H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB206H1 - Studying Behaviour

**Hours:** 24L/12T

All organisms display some behaviours. This course explores what is behaviour and how it is quantified and studied. Topics may include: mate choice, aggression and resolution, parent-offspring conflict, manipulating behaviour, and the origins of empathy and self-awareness. For non-science students in all years and disciplines. (Not offered in 2016-17)

**Exclusion:** BIO120H1; PSY210H1/  
220H1/230H1/240H1/260H1/270H1/280H1/290H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB208H1 - Ecosystems and the Human Footprint

**Hours:** 24L/12T

An introduction to the diversity of Earth's aquatic and terrestrial ecosystems (e.g., coral reefs, lakes, tropical rainforests); the history of industrialization and human population growth; how the human footprint impacts ecosystems (e.g., ecosystem function, biological diversity); and strategies to maintain, recover and restore ecosystems. This is a course for non-science students in all years and disciplines.

**Exclusion:** BIO120H1, ENV200H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB214H1 - Evolution and Adaptation

**Hours:** 24L/12T

Evolution and adaptation of life on Earth. Introduction to the theory of evolution by natural selection. Topics may include: evidence supporting the fact of evolution, and how evolutionary theory can help explain the world around us, such as how species are formed, and the evolution of sex, infanticide, and disease. For non-science students in all years and disciplines.

**Exclusion:** BIO120H1/BIO150Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB215H1 - Conservation Biology

**Hours:** 24L/12T

Introduction to the scientific discipline that deals with threatened species and habitats. Topics include: biodiversity, extinction, threats, demography, genetic diversity, protecting, managing and restoring ecosystems (e.g., nature reserves, captive breeding, conservation corridors), sustainable development, and global warming. Ties between the study of conservation biology and environmental law, economics, and policy will also be covered. For non-science students in all years and disciplines.

**Exclusion:** BIO120H1/BIO150Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BIO220H1 - From Genomes to Ecosystems in a Changing World

**Hours:** 24L/15P

Dynamics of genetic and ecological change in biological systems, from genomes to ecosystems. Evolutionary genetic and ecological perspectives on wide-ranging topics including disease, aging, sexual conflict, genetics of human differences, conservation, and global climate change. Applications of evolutionary, ecological, and molecular-genetic principles and processes. Responsibilities of human societies in a changing world. (Lab Materials Fee: \$25).

**Prerequisite:** BIO120H1

**Recommended Preparation:** BIO130H1, BIO230H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB225H1 - Biostatistics for Biological Sciences

**Hours:** 36L/12P

A statistics course designed especially for life science students, using examples from ecology and evolution where appropriate. Students learn to choose and use statistics that are appropriate to address relevant biological questions and hypotheses. Lectures and computer labs will be used to cover the following methods: sampling and experimental design, data exploration, correlation, regression, ANOVA, Chi-square, and non-parametric tests.

**Prerequisite:** BIO120H1

**Exclusion:** BIO225H1 /ECO220Y1 /ECO227Y1 /GGR270H1 /  
HMB325H1 /PCL376H1 /PSY201H1 /SOC300Y1 /STA220H1 /  
STA250H1 /STA288H1

**Distribution Requirements:** Science

## **ENV234H1 - Environmental Biology: Structure and Function of Ecosystems (formerly ENV234Y1)**

**Hours:** 24L/18P

This multidisciplinary course draws on elements from geology, soil science, and ecology to understand past and present environments and human impacts on landscapes and ecosystems. Emphasis on the structure, functioning and connectivity of aquatic and terrestrial ecosystems. Field trips and labs. Mandatory day-long field trip on a Friday or Saturday (students choose which day; a fee of approximately \$15 may be charged for field trip transportation.) (Lab Materials Fee: \$25)

**Prerequisite:** BIO120H1/JEG100H1 (recommended)/FOR200H1/  
FOR201H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **BIO251H1 - Form, Function and Development in Plants (formerly BIO251Y1)**

**Hours:** 24L/18P

Introduction to structure, function, and ecology of vegetative and reproductive processes in plants with a focus on flowering plants and gymnosperms. Lectures and labs emphasize photosynthesis, respiration, mineral nutrition, transport processes, patterns of plant growth and development, the role of hormones in development, photomorphogenesis, and plant reproduction. (Lab Materials Fee: \$25).

**Prerequisite:** BIO120H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **EEB255H1 - Essentials of Biodiversity Science and Conservation Biology**

**Hours:** 36L

"Classical" and "new" concepts in biodiversity and conservation. Topics may include: evolution and ecology in the past (Holocene) and future (Anthropocene); levels and kinds of biodiversity; valuing biodiversity through ecological economics; causes of endangerment; predicting extinction; genetic and demographic theory; habitat protection and captive breeding; conservation policies and endangered species acts; designing future biodiversity.

**Prerequisite:** BIO120H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **EEB263H1 - Comparative Vertebrate Anatomy**

**Hours:** 24L/36P

The ontogeny and phylogeny of vertebrate structure are considered within the context of evolutionary theory. Functional aspects of the various organ systems are examined. Representative vertebrates are analyzed (with brief dissection of some forms) in laboratory to illustrate selected anatomical features and to provide practical exposure to vertebrate construction. (Lab Materials Fee: \$25)

**Prerequisite:** BIO120H1

**Exclusion:** EEB263Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **EEB266H1 - Animal Diversity: Invertebrates**

**Hours:** 24L/18P

The diversity of invertebrates (e.g. sponges, jellyfish, flatworms, molluscs, segmented worms, round worms, arthropods, echinoderms and several smaller phyla) is explored, focusing on taxonomic characters that define each group and their placement in the evolutionary tree of life, ecological function, biological requirements, and geographical distribution. Labs emphasize identification and recognition of major groups, including dissection when appropriate. (Lab Materials Fee: \$25)

**Prerequisite:** BIO120H1

**Exclusion:** EEB265Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **EEB267H1 - Animal Diversity: Vertebrates**

**Hours:** 24L/18P

Introduction to the diversity of chordate animals (vertebrates, tunicates, and lancelets), focusing on morphological, physiological, ecological and behavioural traits that make each group special and how those traits increase vulnerability to human-based exploitation. Labs involve living organisms whenever possible, but only for display purposes.

**Prerequisite:** BIO120H1

**Exclusion:** EEB265Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB268H1 - Plant and Microbial Diversity

**Hours:** 24L/15P

Introduction to the biology of algae, fungi, and land plants. Lectures and labs emphasize the diversity of organisms with a focus on life cycles, ecology, and evolution. (Lab Materials Fee: \$25)

**Prerequisite:** BIO120H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## EEB318H1 - Principles of Evolution

**Hours:** 24L/12T

Principles and practice of evolutionary biology since Darwin. Topics may include: phylogeny, speciation, mutation and neutral evolution, population genetic variation, quantitative genetics, molecular evolution, natural selection and adaptation, evolutionary conflict and cooperation, and levels of selection.

**Prerequisite:** BIO220H1

**Exclusion:** Students who have taken EEB323H1/EEB324H1 cannot take (or concurrently take) EEB318H1. Students who have completed EEB318H1 may take EEB323H1/EEB324H1/EEB362H1.

**Recommended Preparation:** BIO260H1/HMB265H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB319H1 - Population Ecology

**Hours:** 24L/36P

Abundance and distribution of populations; population growth and regulation; fluctuations, stochasticity and chaos; meta-population persistence and extinction; age and stage-structured populations; interactions within and between species; optimal harvesting; spread of infectious diseases. Labs include experiments and computer simulations. (Lab materials fee: \$25 - will not be charged in 2016-17)

**Prerequisite:** BIO220H1; (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1; and a course in statistics from EEB225H1

(recommended), PSY201H1, STA220H1/STA250H1/STA257H1, STA288H1/GGR270H1, HMB325H1

**Recommended Preparation:** ENV234H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB321H1 - Community Ecology

**Hours:** 24L/36P

Nature and analysis of community structure; disturbance and community development; species interactions; community assembly processes. Computer exercises in weekly labs provide training in sampling, simulation, and data analysis.

**Prerequisite:** BIO220H1; and a course in statistics from EEB225H1 (recommended), PSY201H1, STA220H1/STA250H1/STA257H1/STA288H1, GGR270H1, HMB325H1

**Recommended Preparation:** EEB319H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB322H1 - Behaviour and Behavioural Ecology

**Hours:** 24L/36P

A broad introduction to animal behaviour emphasizing concepts from ethology and behavioural ecology, including foraging, predation, mating systems, parental care and behaviour genetics. Field and laboratory studies are undertaken. (Lab Materials Fee: \$25; Lab Manual Fee: \$10)

**Prerequisite:** BIO220H1; and a course in statistics from EEB225H1 (recommended), PSY201H1, STA220H1/STA250H1/STA257H1, GGR270H1, HMB325H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB323H1 - Evolutionary Genetics

**Hours:** 24L/24T

Evolutionary biology rests on a foundation of evolutionary genetics. This course focuses on the core ideas in population genetics and extends to evolutionary genomics. Students are exposed to the mathematical theory underlying evolutionary genetics and will learn the mathematical foundations underlying these ideas. Topics include the population genetics of mutation, migration, drift, and selection, analysis of sequence variation, and the evolution of sexual reproduction.

**Prerequisite:** BIO220H1, BIO260H1/HMB265H1

**Recommended Preparation:** (MAT135H1, MAT136H1)/MAT135Y1/MAT136Y1/MAT137Y1/MAT157Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB324H1 - Evolutionary Ecology

**Hours:** 36L/12T

Empirical and theoretical approaches to key areas of research including natural selection, sexual selection, and life histories. Other topics may include phenotypic plasticity, speciation, co-evolution, and quantitative genetics.

**Prerequisite:** EEB318H1/EEB323H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB325H1 - Evolutionary Medicine

**Hours:** 36L/12T

How evolutionary principles can help us better understand health and disease. Concepts from evolutionary biology (e.g., life history theory, coevolution, genomic conflict, constraints and trade-offs) will be applied to key problems in medicine and public health, including antibiotic resistance, aging, cancer, autoimmune disease, and pathogen virulence.

**Prerequisite:** BIO130H1, BIO220H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB328H1 - Physiological Ecology

**Hours:** 24L/24T

An advanced treatment of the physiological mechanisms controlling plant and animal distribution and ecological success. Topics of focus include photosynthesis and resource balance, water and nutrient relations, temperature effects, and adaptations to abiotic stress. A fee of approximately \$15 may be charged for field trip transportation.

**Prerequisite:** BIO220H1

**Recommended Preparation:** BIO251H1/BIO270H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB330H1 - Systematic Botany

**Hours:** 24L/36P

The theoretical foundations of taxonomy and the types of evidence used in constructing plant classifications. Labs emphasize taxonomic characters and their uses. Includes an independent taxonomic project. (Lab Materials Fee: \$25)

**Prerequisite:** BIO220H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB331H1 - Introduction to the Fungi

**Hours:** 24L/36P

Topics include fungal systematics, morphology, physiology, and ecology. The roles of fungi in the environment and their importance to man. A weekend field trip explores the natural occurrence of fungi. Labs introduce the techniques used for morphological and molecular identification, and for isolation in pure culture. Students use fungal cultures to conduct an independent experimental research project. (Lab Materials Fee: \$25).

**Prerequisite:** BIO220H1

**Recommended Preparation:** EEB268H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV334H1 - Environmental Biology: Applied Ecology

**Hours:** 24L/36P

Applied issues in aquatic and terrestrial ecosystems. Topics include: ecology of agro-ecosystems and other human-managed ecosystems, bio-indicators of anthropogenic impacts, ecosystem restoration, and adaptive management. Field trips and laboratory exercises. A fee of approximately \$15 may be charged for field trip transportation. Group projects address local management/restoration issues. (Lab Materials Fee: \$25)

**Prerequisite:** ENV234H1 and completion of 9 FCEs

**Recommended Preparation:** a course in statistics (EEB225H1 recommended)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB340H1 - Comparative Plant Morphology

**Hours:** 24L/36P

The origin of land plants and the subsequent diversification of land plant vegetative and reproductive form and function. Discussions synthesize morphological and anatomical knowledge from living organisms and fossil records with cellular, physiological, and molecular information on the developmental "tool kit" of land plants and their ancestors throughout geological time. Topics address the evolution of vegetative and reproductive meristems; stem, leaf, and root architecture; vascular tissue; the ovule habit; fertilization processes; and pollination biology. (Lab Materials Fee: \$25; Lab Manual Fee: \$25)

**Prerequisite:** BIO220H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EHJ352H1 - Evolution of the Human Genome

**Hours:** 24L/12T

Human genome diversity and evolution with a focus on current research. The course integrates applications of human evolutionary genomics to the understanding of human history and adaptation, the causes of disease, and genome structure and function. Topics include: comparative genomics, population genomics of adaptation, association mapping, repetitive/selfish DNA, and gene duplication.

**Prerequisite:** BIO220H1, BIO260H1/HMB265H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## JHE353H1 - History of Evolutionary Biology

**Hours:** 24L/10T

An examination of major ideas about biological evolution from the 18th century to the 1930s and of their impact on scientific and social thought. Topics include the diversity of life and its classification, the adaptation of organisms to their environment, Wallace's and Darwin's views on evolution by natural selection, sexual selection, inheritance from Mendel to T.H. Morgan, eugenics, and the implications of evolution for religion, gender roles, and the organization of society. Offered by the Institute for the History and Philosophy of Science and Technology.

**Prerequisite:** 6 full courses or equivalent

**Exclusion:** EEB353H1/HPS323H1/HPS353H1

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Society and its Institutions (3)

## JHE355H1 - History and Philosophy of Evolutionary Biology

**Hours:** 24L/10T

An examination of the place of the organism in evolutionary theory from the early 1900s to the present. Biology is the science of living things, and yet, paradoxically, living things--organisms--have been comprehensively left out of the Modern Synthesis theory of evolution that developed in the twentieth century. This course surveys the reasons--historical, philosophical and empirical--for the marginalisation of organisms from evolutionary theory. It examines the ways in which evolutionary developmental biology attempts to restore the organisms to a central place in evolutionary biology. Offered by faculty in the Institute for the History and Philosophy of Science and Technology.

**Prerequisite:** 6 full courses, including two half-courses or one full-year course in any one or more of EEB, BIO or HPS

**Exclusion:** EEB355H1/HPS333H1/HPS355H1

**Recommended Preparation:** JHE353H1

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Society and its Institutions (3)

## EEB362H1 - Macroevolution

**Hours:** 24L/12T

Explores patterns of large-scale evolutionary change, played out over large geographic expanses and extended periods of time. Integrates patterns with field and experimental studies to clarify evolutionary processes. Topics include: origins of species and their adaptations, historical biogeography, co-evolution, community evolution, radiations and extinctions, fossils and macroevolutionary patterns, and the role of evolutionary information in conservation and biodiversity initiatives. Tutorials emphasize methods used to reconstruct phylogenetic relationships and the sequence of character evolution.

**Prerequisite:** BIO220H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB365H1 - Topics in Applied Conservation Biology

**Hours:** 24L/24P

Applied conservation biology including management (at the level of species/populations, environments/landscapes, and ecosystems) and how to conserve and maintain biodiversity and ecosystem function (including species and ecosystem distribution modelling).

**Prerequisite:** BIO220H1

**Recommended Preparation:** EEB255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB375H1 - Organisms and Their Environment

**Hours:** 24L/12T

Ecological interactions between organisms and their environment. Past and present changes in Earth's environment and the human responses to those changes. Topics may include: Pleistocene glaciations, origins of agriculture, species extinctions, disease ecology, deforestation, water pollution, pesticides, and estrogenic compounds. (Note: EEB375H1 cannot substitute ENV234H1 to satisfy a program requirement.)

**Prerequisite:** BIO220H1

**Exclusion:** ENV234H1/ENV334H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB380H1 - Diversity of Insects (formerly EEB356H1)

**Hours:** 24L/36P

Evolutionary history, morphology, physiology, development, behaviour, and ecological significance of insects. Labs focus on identification of major groups of insects found in Ontario and each student makes an insect collection. Insects are collected during field trips during class time and also on Saturday field trips early in the term. A fee of approximately \$15 may be charged for field trip transportation.

**Prerequisite:** BIO220H1

**Exclusion:** EEB356H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB382H1 - Diversity of Fishes

**Hours:** 24L/18P

Systematics, morphology, ecology, behaviour, biogeography, and conservation of fishes. Identification of major groups of fish; what makes each group biologically special and how those unique traits might contribute to conservation concerns. Labs focus on exercises designed to highlight how ichthyologists actually do research. (Lab materials fee: \$25)

**Prerequisite:** BIO220H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB384H1 - Diversity of Amphibians and Reptiles

**Hours:** 24L/36P

Lectures and laboratories examine the natural history, morphology, behaviour, ecology, evolutionary relationships, and biogeography of amphibians (frogs and toads, salamanders, caecilians) and non-avian reptiles (turtles, the tuatara, lizards, snakes, and crocodilians).

**Prerequisite:** BIO220H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

**Note:** This course will offer an International Course Module in Ecuador over February Reading Week 2018.

## EEB386H1 - Diversity of Birds

**Hours:** 24L/12P

Avian ecology, behaviour, conservation, and functional morphology and evolution of avian flight. Labs focus on avian anatomy and song analysis, and an outdoor activity introduces students to basic avian identification and compiling a field journal.

**Prerequisite:** BIO220H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB388H1 - Diversity of Mammals

**Hours:** 24L/36P

Lectures and laboratories examine the natural history, morphology, classification, evolutionary relationships, reproduction, biogeography, and conservation of mammals. Labs focus on the identification of mammals and their diverse morphological adaptations including mammals of Ontario.

**Prerequisite:** BIO220H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB390H1 - Vertebrate Paleontology: Major Transitions in Vertebrate History

**Hours:** 24L/18P

The evolutionary history of vertebrates is recorded in their fossil record. Lectures highlight the origin and radiation of major vertebrate clades, and emphasize key events in vertebrate history, notably major ecological and evolutionary transitions, and mass extinctions. Practicals (at the Royal Ontario Museum) explore fossils that exemplify these themes.

**Prerequisite:** BIO220H1; at least one of EEB263H1, EEB267H1, EEB362H1, EEB382H1, EEB384H1, EEB386H1, EEB388H1

**Recommended Preparation:** EEB263H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB397Y1 - Research Project in Ecology and Evolutionary Biology

**Hours:** TBA

An intermediate research project requiring the prior consent of a member of the Department to supervise the project. The topic is to be one mutually agreed on by the student and supervisor. They must arrange the time, place, and provision of any materials and submit to the Undergraduate Office a signed form of agreement outlining details prior to being enrolled. This course is open to highly self-motivated students who are in their Third Year and have a strong interest in ecology and/or evolutionary biology. Students are required to write up the results of their research in a formal paper, often in the format of a research article, and may be required to present the results at a poster session and/or participate in an oral presentation. Students should contact their potential supervisors over the summer before classes begin in September. Information regarding how to register for the course is available on the EEB website. Not eligible for CR/NCR option.

**Prerequisite:** Permission of department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## EEB399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## EEB403H0 - Tropical Field Biology

**Hours:** TBA

A two-week field course introducing students to the diversity of biological communities in the tropics focusing on ecological and evolutionary interactions. Plant and animal communities of the New World tropics are compared and contrasted with temperate communities. Student research projects included. Fee for accommodations, food, within course travel, station fee, etc. will apply. See Departmental website for details. Not eligible for CR/NCR option.

**Prerequisite:** BIO220H1 and permission of department

**Recommended Preparation:** A second or third year ecology, evolution or environmental biology course; and a course in statistics.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB403H1 - Tropical Field Biology

**Hours:** TBA

A two-week field course introducing students to the diversity of biological communities in the tropics focusing on ecological and evolutionary interactions. Plant and animal communities of the New World tropics are compared and contrasted with temperate communities. Student research projects included. Not eligible for CR/NCR option.

**Prerequisite:** BIO220H1 and permission of department

**Recommended Preparation:** A second or third year ecology, evolution or environmental biology course; and a course in statistics.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB405H0 - Temperate Field Biology

**Hours:** TBA

A two-week field course offered (in May or August) at U of T's Koffler Scientific Reserve, King City, Ontario. Students learn the natural history of the region and conduct a field-based research project in ecology or evolutionary biology. Fee for accommodations, food, within course travel, station fee, etc. will apply. See Departmental website for details. Not eligible for CR/NCR option.

**Prerequisite:** BIO220H1 and a course in statistics and permission of department

**Recommended Preparation:** A second or third year ecology, evolution or environmental biology course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB405H1 - Temperate Field Biology

**Hours:** TBA

A two-week field course offered (in May or August) at U of T's Koffler Scientific Reserve, King City, Ontario. Students learn the natural history of the region and conduct a field-based research project in ecology or evolutionary biology. Fee for accommodations, food, within course travel, station fee, etc. will apply. See Departmental website for details. Not eligible for CR/NCR option.

**Prerequisite:** BIO220H1 and a course in statistics and permission of department

**Recommended Preparation:** A second or third year ecology, evolution or environmental biology course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB406H0 - Inter-University Field Course

**Hours:** TBA

A two-week field course offered between May and August by another Ontario university (to various locations) as part of the Ontario Universities Program in Field Biology (OUPFB). The selection of field course modules are announced in January. For registration information and additional fees information consult the EEB website. Not eligible for CR/NCR option.

**Prerequisite:** Varies on module selected.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB406H1 - Inter-University Field Course

**Hours:** TBA

A two-week field course offered between May and August by another Ontario university (to various locations) as part of the Ontario Universities Program in Field Biology (OUPFB). The selection of field course modules are announced in January. For registration information and additional fees information consult the EEB website. Not eligible for CR/NCR option.

**Prerequisite:** Varies on module selected

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB407H0 - Alpine Ecosystems

**Hours:** TBA

A two-week field course at a high mountain field station in the summer. Students learn the natural history of alpine and subalpine biomes and investigate major abiotic and biotic interactions. Required projects catalogue natural diversity, examine species interactions, or assess abiotic influences and stresses on high-altitude organisms and their environment. (Offered occasionally.) Not eligible for CR/NCR option.

**Prerequisite:** BIO120H1, (BIO251H1 or BIO270H1) and permission of department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB407H1 - Alpine Ecosystems

**Hours:** TBA

A two-week field course at a high mountain field station in the summer. Students learn the natural history of alpine and subalpine biomes and investigate major abiotic and biotic interactions. Required projects catalogue natural diversity, examine species interactions, or assess abiotic influences and stresses on high-altitude organisms and their environment. (Offered occasionally.) Not eligible for CR/NCR option.

**Prerequisite:** BIO220H1, (BIO251H1 or BIO270H1) and permission of department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB410H0 - Lake Ecosystem Dynamics

**Hours:** TBA

A two-week field course in August (offered in alternate years) at the Harkness Fisheries Research Laboratory in Algonquin Park, Ontario. Field and laboratory exercises demonstrate how interactions between physical, chemical, and biological parameters are crucial in understanding lake ecosystems. Fundamental and applied issues are discussed. Students collect, analyse, and interpret data, and complete a class project and an individual project. Fee for accommodations, food, within course travel, station fee, etc. will apply. See Departmental website for details. (Next offered in August 2017.) Not eligible for CR/NCR option.

**Prerequisite:** BIO220H1 and permission of department

**Recommended Preparation:** At least one 200+ series course in ecology, environmental biology, or physical geography; and a course in statistics

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB410H1 - Lake Ecosystem Dynamics

**Hours:** TBA

A two-week field course in August (offered in alternate years) at the Harkness Fisheries Research Laboratory in Algonquin Park, Ontario. Field and laboratory exercises demonstrate how interactions between physical, chemical, and biological parameters are crucial in understanding lake ecosystems. Fundamental and applied issues are discussed. Students collect, analyse, and interpret data, and complete a class project and an individual project. Fee for accommodations, food, within course travel, station fee, etc. will apply. See Departmental website for details. Not eligible for CR/NCR option.

**Prerequisite:** BIO220H1 and permission of department

**Recommended Preparation:** At least one 200+ series course in ecology, environmental biology, or physical geography; and a course in statistics

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB428H1 - Global Change Ecology

**Hours:** 24L/24T

An examination of organism, population, and ecosystem responses to long-term environmental change occurring at the global scale, with emphasis on human caused perturbation to climate and the carbon, nitrogen, and hydrologic cycles and their ecological effects.

**Prerequisite:** BIO220H1 and at least 1.0 FCE from EEB at 300+ series

**Recommended Preparation:** ENV234H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB430H1 - Theoretical Ecology

**Hours:** 24L/24P

Theoretical ecology uses models to explain biological phenomena such as the maintenance of biodiversity, population growth, competition, eco-evolutionary dynamics, epidemiology, spatial ecology, and species extinction. Students will learn to develop and analyse ecological models, and apply models to analyse and interpret data. (Not offered in 2016-17)

**Prerequisite:** BIO220H1, EEB225H1, MAT136H1, and at least one of EEB319H1/EEB321H1/EEB322H1/EEB323H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV432H1 - Urban Ecology

**Hours:** 24L/12S

The ecology of urban areas through consideration of the biological and physical environments, in particular how the human-constructed environment alters pre-existing biophysical conditions and interactions. Encompasses a comparative perspective to study the development of these emerging ecosystems of increasing importance given global urbanization. One or two Saturday field trips (a fee of approximately \$15 may be charged for field trip transportation.)

**Prerequisite:** At least one of EEB319H1/EEB321H1/EEB365H1/ENV334H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB433H1 - Global Issues in Aquatic Ecosystems

**Hours:** 36L

Advanced study of ecological principles and applied issues in freshwater and marine systems. Lectures and student-led discussions will cover physical, chemical, and biological interactions, from microbes to marine mammals. Topics may include carbon and nutrient cycling, food webs & trophic downgrading, ocean acidification, hydrothermal vents & connectivity in the oceans, lake management.

**Prerequisite:** BIO220H1, ENV234H1 and one of EEB319H1/EEB321H1/EEB328H1/ENV334H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB440H1 - Ecology and Evolution of Plant-Animal Interactions

**Hours:** 24L/12T

Major concepts in ecology and evolution from the perspective of plant-animal interactions. The richness of interactions between plants and animals is explored including antagonistic interactions (e.g., herbivory, carnivorous plants), mutualistic interactions (e.g., pollination, seed dispersal, ant-plant associations), and interactions involving multiple species across trophic levels.

**Prerequisite:** BIO220H1, a course in statistics (from EEB225H1 (recommended)/PSY201H1 / STA220H1/ STA257H1/ STA288H1/ GGR270H1/ HMB325H1) and at least one of EEB318H1/EEB319H1/ EEB321H1/ EEB323H1/ EEB324H1/ EEB328H1/ EEB403H1/ EEB403H0/ EEB405H1/ EEB405H0/ EEB406H1/ EEB406H0/ EEB407H1/ EEB407H0/ EEB410H1/ EEB410H0

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB455H1 - Genes, Environment and Behaviour

**Hours:** 18L/18S

An examination of the Gene-Environment Interplay perspective as sources of individual differences in behaviour, from both mechanistic and evolutionary viewpoints. Both historical and recent studies are used to illustrate important concepts in the field. Student-led discussions address the evidence base for these concepts.

**Prerequisite:** BIO220H1, HMB265H1/BIO260H1, and at least 12.0 FCEs (including 1.0 FCE 300+ level series EEB course)

**Recommended Preparation:** EEB322H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB459H1 - Population Genetics

**Hours:** 24L/12T

A focus on theoretical population genetics, using mathematical models to understand how different evolutionary forces drive allele frequency change. Students learn how to mathematically derive classic results in population genetics. Topics include drift, coalescence, the relationship between population and quantitative genetics, selection in finite populations, and mutation load. Offered in alternate years; next offered in 2018-19.

**Prerequisite:** BIO260H1/HMB265H1, EEB323H1

**Recommended Preparation:** A solid understanding of basic algebra and calculus.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB460H1 - Molecular Evolution and Genomics

**Hours:** 24L/12T

Processes of evolution at the molecular level, and the analysis of molecular data. Gene structure, neutrality, nucleotide sequence evolution, sequence evolution, sequence alignment, phylogeny construction, gene families, transposition.

**Prerequisite:** BIO220H1, BIO230H1/BIO255H1, BIO260H1/HMB265H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB465H1 - Advanced Topics in Biodiversity Science and Conservation Biology

**Hours:** 36L

Biodiversity in the Anthropocene. This course links the biological and social sciences to identify human goals for future biodiversity, methods to achieve this biodiversity, and to understand key issues such as the end of the wild, ecosystem services as a unit of conservation, animal welfare as a moral responsibility, and GMOs as biodiversity. Practical training may be provided in identifying species at risk, and in applying ecological-economics to trade-off decisions.

**Prerequisite:** BIO220H1, EEB255H1 and at least 1.0 FCE from EEB at 300+ series

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB466H1 - Approaches to the Study of Biodiversity

**Hours:** 24L/24P

This course uses the collections, research, and public gallery areas of the Royal Ontario Museum to expose students to the ways in which biodiversity is discovered, analyzed, and interpreted in a museum setting. Topics include: morphological and molecular approaches, taxonomy, classification, bioinformatics and e-taxonomy, and the interpretation of biodiversity for the public. Labs include student projects and a one-day field trip on a weekend (cost about \$15).

**Prerequisite:** EEB365H1 (highly recommended) or at least one organismal course from EEB266H1, EEB267H1, EEB268H1, EEB330H1, EEB331H1, EEB380H1, EEB382H1, EEB384H1, EEB386H1, EEB388H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB488H1 - Research Issues in Ecology and Evolutionary Biology

**Hours:** 36S

This course is taken concurrently by students who are enrolled in EEB498Y1 Advanced Research Project in Ecology and Evolutionary Biology, and uses a combination of seminars, discussions, and presentations (including presentations by students) designed to cover issues commonly encountered when conducting research in ecology and evolutionary biology. Topics may include experimental design, effective use of statistics, scientific writing and publishing, public communication, ethics, and career development. Students will be required to attend departmental seminars. This half-course runs from September to April and meets in alternate weeks. Students who apply to EEB497H1 in the fall session can also apply to enrol concurrently in EEB488H1.

**Prerequisite:** Permission of the department

**Corequisite:** EEB498Y1 (or EEB497H1 Fall)

**Exclusion:** EEB499Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB492H1 - Internship in Ecology and Evolutionary Biology

**Hours:** TBA

A one-term intensive internship (in summer or fall term, for half credit) providing a placement and hands-on experience, in an ecologically or evolutionary context, with an organization such as a zoo, conservation authority, government agency, non-governmental organization, or media outlet. Provides senior students with a unique opportunity to communicate and translate the concepts learned in their ecology, evolutionary biology, or conservation biology courses in a practical way. Placements may require a commitment of one or two full days each week. Not eligible for CR/NCR.

**Prerequisite:** At least 2.5 FCEs in EEB at the 300+ series level, and permission of instructor (application in department)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB492Y1 - Internship in Ecology and Evolutionary Biology

**Hours:** TBA

A one-term intensive internship (in summer or fall term, for full credit) providing a placement and hands-on experience, in an ecologically or evolutionary context, with an organization such as a zoo, conservation authority, government agency, non-governmental organization, or media outlet. Provides senior students with a unique opportunity to communicate and translate the concepts learned in their ecology, evolutionary biology, or conservation biology courses in a practical way. Placements require a commitment of two or more full days each week. Not eligible for CR/NCR.

**Prerequisite:** At least 2.5 FCEs in EEB at the 300+ series level, and permission of instructor (application in department).

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB495H1 - Seminar in Ecology and Evolutionary Biology

**Hours:** 24S

Seminar course in ecology and evolutionary biology, emphasizing critical thinking and the synthesis of ideas crossing disciplinary boundaries. Group discussions among peers, facilitated by faculty, and student presentations. Discussions include critical analysis of research and review articles in the primary literature. Evaluation based on presentations, participation in class discussions, and written assignments. A half-course offered in both Fall and Winter sessions.

**Prerequisite:** A minimum of 1.0 FCE in EEB courses at the 300+ level (at least 0.5 FCE in ecology and 0.5 FCE in evolutionary biology is highly recommended)

**Exclusion:** EEB496H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB496H1 - Seminar in Behaviour and Behavioural Ecology

**Hours:** 24S

Topics in behavioural ecology including predator-prey interactions, host-parasite interactions, mate choice, and foraging. Other topics for general discussions may include animal emotions, consciousness, culture and welfare. Evaluation based on presentations, participation in class discussions, and written assignments.

**Prerequisite:** EEB322H1 (minimum GPA of 2.7); and one of EEB318H1/ EEB323H1/ EEB324H1 /EEB362H1 /EEB403H1/ EEB403H0/ EEB405H1/ EEB405H0/ EEB406H1/ EEB406H0/ EEB407H1/ EEB407H0/ EEB410H1/ EEB410H1 or PSY362H1/ PSY390H1/ PSY392H1/ PSY397H1

**Exclusion:** EEB495H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## EEB497H1 - Research Studies in Ecology & Evolutionary Biology

**Hours:** TBA

An independent studies half-course allowing students to produce a literature review, which is supervised by a faculty member in the Department of Ecology and Evolutionary Biology. Highly motivated fourth-year students will work closely with a supervisor and be required to write up the results of their research in a final research paper. Students should contact a potential supervisor well before classes begin in the fall, winter, or summer session. Information on how to apply for the course is available on the EEB website. Students cannot take more than two independent research courses of EEB 497H1, 498Y1, and 499Y1, and the second project must be with a different supervisor. Students who apply to EEB497H1 in the fall session can also apply to enrol concurrently in EEB488H1Y. Not eligible for CR/NCR option.

**Prerequisite:** Permission of department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **EEB498Y1 - Advanced Research Project in Ecology and Evolutionary Biology**

**Hours:** TBA

An advanced research project (a literature review alone is not sufficient) requiring the prior consent of a member of the Department to supervise the project. The topic is to be one mutually agreed on by the student and supervisor. They must arrange the time, place, and provision of any materials and submit to the Undergraduate Office a signed form of agreement outlining details prior to being enrolled. This course is normally open only to highly self-motivated students who are in their Fourth-Year and have adequate background in ecology and/or evolutionary biology. Students are required to write up the results of their research in a formal paper, often in the format of a research article, and are also required to present the results at a poster session and/or oral presentation. The time commitment is approximately 8 hours per week. Students should contact their potential supervisors over the summer before classes begin in September. Information regarding how to register for the course is available on the EEB website. Students in this course are also concurrently enrolled in EEB488H1Y Research Issues in Ecology and Evolutionary Biology. Not eligible for CR/NCR option.

**Prerequisite:** Permission of department

**Corequisite:** EEB488H1Y

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **EEB499Y1 - Advanced Research Project in Ecology and Evolutionary Biology II**

**Hours:** TBA

Allows students to do another independent project, supervision of which must be different from EEB497H1/EEB498Y1. Operates in the same manner as EEB498Y1. Not eligible for CR/NCR option.

**Prerequisite:** EEB497H1/EEB498Y1 and permission of department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# Economics

## Faculty List

### University Professor Emeritus

S. Hollander, OC, BScEcon, Ph D, LLD, FRSC

### Professors Emeriti

R.A. Berry, BA, Ph D  
R.M. Bird, MA, Ph D, FRSC  
J.D. Bossons, AM, Ph D  
J.L. Carr, MA, Ph D  
F.R. Casas, MSc, Ph D  
J.S. Cohen, MA, Ph D  
D.N. Dewees, BSc, LL B, Ph D  
S.M. Eddie, BSc, Ph D  
J.E. Floyd, MA, Ph D  
D.K. Foot, AM, Ph D  
M.A. Fuss, MA, Ph D  
M. Gunderson, MA, Ph D, FRSC  
W. Haque, MA, MSc, Ph D  
M.J. Hare, B Com  
G.K. Helleiner, OC, MA, Ph D, FRSC  
S. Howson, MA, Ph D  
J.A. Hynes, ABD  
Y. Kotowitz, BA, Ph D  
A.M. Kruger, BA, Ph D  
G.F. Mathewson, B Com, Ph D  
D.E. Moggridge, MA, Ph D  
J.E. Pesando, MA, Ph D  
K.J. Rea, MA, Ph D  
F.J. Reid, MSc, Ph D  
J.A. Sawyer, MA, Ph D  
L.B. Smith, AM, Ph D  
M.H. Watkins, B Com  
A.M. Watson, B Com, MA  
L. Waverman, MA, Ph D  
T.A. Wilson, AM, Ph D, FRSC  
J.W.L. Winder, MA, Ph D

### Professor and Chair of the Department

H.D. Benjamin, MA, Ph D

### Professor and Associate Chair, Graduate Studies

E. Damiano, MA, Ph D

### Associate Chair, Undergraduate Studies

G. Hamilton, MA, Ph D

### University Professor

M. Trebilcock, FRSC, LLM

### Professors

V. Aguirregabiria, MSc, Ph D  
V.A. Aivazian, BS, Ph D (University of Toronto Mississauga)  
M. Alexopoulos, MA, Ph D  
G. Anderson, M Sc, Ph D (University of Toronto Mississauga)  
M. Baker, MA, Ph D  
L. Brandt, BS, Ph D  
G. Bobonis, BA, Ph D  
M. Faig, MA, Ph D (University of Toronto Mississauga)  
C. Gourieroux, Ph D  
A.J. Hosios, M Eng, MA, Ph D  
A. Melino, BA, Ph D (University of Toronto Mississauga)  
P. Oreopoulos, MA, Ph D (University of Toronto Mississauga)  
M.J. Osborne, BA, Ph D  
C. Pitchik, M Sc, Ph D (University of Toronto Mississauga)

D. Restuccia, MA, Ph D  
M. Smart, MA, Ph D  
A. Siow, BA, Ph D  
D. Trefler, MA, Ph D  
A.J. Yatchew, MA, Ph D  
X. Zhu, MS, Ph D (University of Toronto Mississauga)

### Associate Professors

M. Burda, MA, Ph D  
M. Duarte, MA, Ph D (University of Toronto Mississauga)  
G. Kambourov, MA, Ph D (University of Toronto Mississauga)  
B. Kuruscu, MA, Ph D  
E. Malinova, MA, Ph D  
R. McMillan, BA, Ph D (University of Toronto Mississauga)  
J. Mondria, MA, Ph D  
P. Morrow, MA, Ph D  
A. Park, M Phil., Dipl. Wirt. Math, Ph D (University of Toronto Mississauga)  
M. Peski, MA, Ph D  
X. Shi, MA, Ph D (University of Toronto Mississauga)  
C. Stewart, MA, M Phil, M Sc, Ph D

### Associate Professors, Teaching Stream

L. Bailey, BA, MA (University of Toronto Mississauga)  
S.A. Hussain, MA, Ph D  
G. Indart, MA, Ph D  
J. Murdock, M Phil, Ph D  
K. Yu, MA, Ph D (University of Toronto Mississauga)

### Assistant Professors

N. Bau, BA, Ph D (University of Toronto Mississauga)  
J. Beauchamp, MA, PhD  
K. Bernhardt-Walther, MA, MBA, Ph D  
A. Blouin, MA, Ph D  
M. Celik, BA, Ph D  
P. Cziraki, MSc, M Phil, Ph D  
K. Dasgupta, MA, MS, Ph D  
R. Deb, MA, M Phil, Ph D (University of Toronto Mississauga)  
S. Dyrda, MA, Ph D (University of Toronto Mississauga)  
S. Eli, BA, Ph D  
J. Goldman, MSc, Ph D (University of Toronto Mississauga)  
J. Gu, MS, Ph D (University of Toronto Mississauga)  
Y. Halberstam, MA, Ph D  
J. Hall, BA, Ph D  
K. Kroft, MA, Ph D  
N. Li, MA, Ph D (University of Toronto Mississauga)  
Y. Luo, MA, Ph D  
I. Mourifié, MSc, Ph D  
S. Ozkan, MA, MSc, Ph D  
P. Salardi, MA, Ph D  
D. Seim, BA, Ph D (University of Toronto Mississauga)  
M. Serafinelli, MA, Ph D (University of Toronto Mississauga)  
E. Souza Rodrigues, MA, MSc, MPhil, Ph D (University of Toronto Mississauga)  
J. Steinberg, BA, Ph D  
J. Suzuki, MA, Ph D  
X. Tian, MA, Ph D (University of Toronto Mississauga)  
L.M.F. Turner, MSc, Ph D (University of Toronto Mississauga)  
R. Wolthoff, MSc, Ph D (University of Toronto Mississauga)  
Y. Wan, MA, Ph D

### Assistant Professors, Teaching Stream

P. Baude, MA  
P. Foltin, MA, MSc  
K. Freitas, B Sc, PhD

## Introduction

Economics is a social science that encompasses a broad range of human behaviour and has a strong influence on the structure, well-being and development of a society.

Much of human activity is directed towards the satisfaction of material wants. In many areas of the world, the greater part of human effort must be directed towards meeting the most elemental demands for food, clothing, and shelter. Even in technologically advanced societies, where these basic requirements can be met with comparative ease, the desire for more goods and services never appears to be fully satisfied. In consequence, every society - whatever its political orientation - is both competitive and cooperative. It is competitive because its members contend with one another to satisfy their individual wants from a limited supply of productive resources. It is cooperative because the greatest supply of goods is available when the activity of producing them is coordinated and organized. Economics deals with any issue arising out of the conflict between the demand for goods and services, and a limited supply of resources to satisfy those demands.

Undergraduate training in economics is intended to familiarize students with the discipline of economic thinking, to equip them to better understand human behaviour, and for the intelligent appraisal of contemporary economic problems.

Economics makes considerable use of mathematics in its enquiries. All economics programs require at least one course in mathematics.

An undergraduate degree is generally not sufficient to become a professional economist. For this or other reasons, graduate work may be necessary. Students who wish to do graduate work should seek advice from the Department concerning their choice of courses. The Economics Specialist program and the Economics and Mathematics program, with their greater emphasis on mathematics, are designed to prepare students for graduate study, and are an excellent starting place.

Undergraduate Administrator: R. Innes

Undergraduate Assistant: D. Navarro

Commerce Assistant: J. Fan

Enquiries: 150 St. George Street (416-978-4603)

## Regarding Economics Programs

These are limited enrolment programs. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol (please read entry requirements for each program carefully). Consult the [Arts & Science Program Enrolment instructions](#) for details and instructions.

**NOTE: Please read prerequisites and exclusions carefully. Course prerequisites are strictly enforced and are not just "recommended preparation." For all mathematics and statistics course prerequisites, the level of the course is also important. For all third and fourth year economics courses, FULL YEAR intermediate course prerequisites are mandatory: a similar "half course" version is not acceptable. All prerequisites must be fully completed BEFORE a course can be taken. Courses that are prerequisites cannot be taken simultaneously with the courses for which they are a prerequisite (i.e., they are not "co-requisites"). Students from other institutions must show their transcripts to the department if they are using prior courses as prerequisites. The same rules apply.**

## Economics Programs

### Economics & Mathematics Specialist (Science Program)

#### Enrolment Requirements:

The Economics & Mathematics Specialist program is a limited enrolment program. All students who request the program and obtain at least the specified marks in the required courses will be eligible to enroll.

Students interested in the Economics & Mathematics Specialist program apply and enter from either the Economics Major or Mathematics Major program, after having completed the Year 2 requirements of the program as described below. Note that course substitutions may not be used to enter this program.

#### Entry Requirements (from the Economics or Mathematics Major program):

- A minimum of 70% in [ECO206Y1](#), and
- A minimum of 70% in [ECO208Y1](#), and
- A minimum of 60% in [MAT137Y1/MAT157Y1](#).

#### Completion Requirements:

#### Program Course Requirements: 13 full courses or their equivalent

#### First Year (2.0 FCE):

1. [ECO100Y1](#)/([ECO101H1](#) + [ECO102H1](#));
2. [MAT137Y1/MAT157Y1](#)

#### Second Year and Higher (Core Courses, 8.5 FCE):

1. ECO206Y1, ECO208Y1, ECO220Y1/ECO227Y1/  
(STA257H1, STA261H1)
2. MAT223H1/MAT240H1, MAT224H1/MAT247H1,  
MAT237Y1/MAT257Y1, MAT246H1, MAT244H1/  
MAT267H1
3. ECO325H1, ECO326H1, ECO375H1
4. MAT336H1/MAT337H1/MAT357H1, APM462H1

*Third Year and Higher (Elective Courses, 2.5 FCE):*

1. 0.5 300+ ECO course
2. 1.0 400-level ECO course
3. 1.0 300-level or higher MAT (or APM) courses (in addition to APM462H1).

*Notes:*

1. Students must meet all prerequisites for upper-year math and economics courses, and should choose their sequencing of courses accordingly.
2. MAT223H1/MAT240H1 may be taken in First Year.
3. ECO475H1 is strongly recommended.
4. STA302H1/STA303H1 are not accepted in lieu of ECO375H1.
5. Students with MAT157Y1 cannot take MAT246H1 (it is an exclusion). Such students can instead substitute any 300-level MAT or APM course to meet the MAT246H1 requirement.

## Economics Specialist (Arts Program)

### Enrolment Requirements:

The Economics Specialist program is a limited enrolment program. All students who request the program and obtain at least the specified marks in the required courses will be eligible to enroll.

Students interested in the Specialist program apply and enter from the Major program, after having completed the Year 2 requirements of the program as described below. Note that course substitutions may not be used to enter this program.

### Entry Requirements (from the Major program):

A minimum of 70% in each course in the trio of intermediate courses:

- ECO206Y1(70%), and
- ECO208Y1(70%), and
- ECO220Y1(70%)/ECO227Y1(70%)/(STA257H1(70%),STA261H1(70%)).

*Note:* In order to meet the pre-requisites for the specialist-oriented second-year courses (ECO206Y1, ECO208Y1, and ECO227Y1), students must obtain a mark of at least 70% in ECO100Y1/ECO101H1(70% + ECO102H1(70%)), and earn a minimum of 60% in (MAT135H1, MAT136H1) or 55% in MAT137Y1.

### Completion Requirements:

**Program Course Requirements: 12 full courses or their equivalent**

*First Year (2.0 FCE):*

1. ECO100Y1/(ECO101H1 + ECO102H1);
2. (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

*Note:* MAT133Y1 is not a suitable substitute for (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1.

*Second Year (Core Courses, 3.0 FCE):*

- ECO206Y1, ECO208Y1, ECO220Y1/ECO227Y1/  
(STA257H1, STA261H1)

*Third Year (Core Courses, 1.5 FCE):*

- ECO325H1, ECO326H1, ECO375H1

*Third Year and Higher (ECO Electives, 5.5 FCE):*

1. 4.5 FCE 300-level ECO or higher
2. 1.0 FCE 400-level ECO

*Notes:*

1. ECO210H1 is highly recommended, especially for students interested in graduate studies. Students may count ECO210H1 towards the Specialist program in lieu of a 0.5 300-level ECO elective.
2. While 200-level or higher math or statistics courses may complement the Economics Specialist courses, they **cannot** be used as substitutes for economics courses in this program.
3. Students are nevertheless encouraged to take more math if they plan on pursuing graduate studies. Students should especially consider MAT221H1/MAT223H1/MAT240H1 (Linear Algebra), MAT235Y1/MAT237Y1 (Multivariate Calculus), MAT246H1 (Abstract Mathematics), or even consider doing a Minor program in Mathematics.
4. ECO475H1 is strongly recommended
5. STA302H1/STA303H1 are not accepted in lieu of ECO375H1
6. (STA220H1, STA255H1) are not accepted in lieu of ECO220Y1/ECO227Y1/(STA257H1, STA261H1).

## Financial Economics Specialist (Science Program)

### Enrolment Requirements:

This is a limited enrolment program. Students enrolled in this program cannot simultaneously be enrolled in any other Economics specialist, joint specialist, major or minor program in Economics, or in Economic History or in the B.Com program.

This is a Type 2L limited program and so meeting the minimum course marks specified above will not necessarily guarantee admission.

Students interested in the Specialist program apply and enter from the Major program, after having completed the Year 2 requirements of the program as described below.

### Entry Requirements (from the Major program):

A minimum of 80% in each course in the trio of intermediate courses:

- ECO206Y1(80%), **and**
- ECO208Y1(80%), **and**
- ECO227Y1(80%)/(STA257H1(80%),STA261H1(80%)).

*Note:* In order to meet the pre-requisites for the specialist-oriented second-year courses (ECO206Y1, ECO208Y1, and ECO227Y1), students must obtain a mark of at least 70% in ECO100Y1/(ECO101H1(70%) + ECO102H1(70%)), and earn a minimum of 60% in (MAT135H1, MAT136H1) or 55% in MAT137Y1.

#### Completion Requirements:

##### **Program Course Requirements: 13 full courses or their equivalent**

##### *First Year (2.0 FCE):*

1. ECO100Y1/(ECO101H1 + ECO102H1);
2. (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

*Note:* MAT133Y1 is not a suitable substitute for (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1.

##### *Second Year (Core Courses, 3.0 FCE):*

- ECO206Y1, ECO208Y1, ECO227Y1/(STA257H1, STA261H1)

##### *Third Year (Core Courses, 2.5 FCE):*

1. ECO325H1, ECO326H1, ECO375H1
2. ECO358H1, ECO359H1

*Third Year and Higher (Electives, 5.5 FCE, at least 1.0 at the 400-level):*

1. 1.0 FCE from ECO349H1, ECO356H1, ECO357H1, ECO456H1, ECO461H1/ECO460H5, ECO462H1/ECO434H5, ECO463H1/ECO463H5, ECO464H1, ECO465H1, ECO475H1
2. 4.5 additional 300+ ECO credits

##### *Notes:*

1. Some required courses at upper-year levels may be offered only on the St. George or on the University of Toronto Mississauga campus in any given year. Students registered in this program at either campus may have to attend lectures on the other campus in such cases.
2. MAT221H1/MAT223H1/MAT240H1 is recommended as preparation for ECO375H1. Students taking one of these MAT courses can have it count in lieu of a 0.5 300-level ECO credit required for this program.
3. (MAT235Y1/MAT237Y1)/ECO210H1 is strongly recommended for this program. Students taking one of these courses can have it count in lieu of 0.5 300-level credit required for this program.
4. ECO475H1 is strongly recommended
5. STA302H1/STA303H1 are not accepted in lieu of ECO375H1
6. (STA220H1,STA255H1) are not accepted in lieu of ECO220Y1/ECO227Y1/(STA257H1,STA261H1).

## Economics Major (Arts Program)

#### Enrolment Requirements:

*(The enrolment requirements below are effective for students who are:*

- *applying to programs in April 2018; or*
- *planning to take ECO101H1 and ECO102H1 in Summer 2017 in order to apply to an Economics program in July 2017 (during the second round of program enrolment) for September 2017 admission.*

*Students who are applying to an Economics program in April 2017 (during the first round of program enrolment) for June 2017 admission should consult the 2016-17 Calendar.)*

This is a limited enrolment program. Students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

#### **Required courses and grades for program enrolment:**

(ECO101H1 with a final mark of at least 63% and ECO102H1 with a final mark of at least 63% , **or** ECO105Y1 with a final mark of at least 80%), **AND** MAT133Y1 with a final mark of at least 63%, **or** (MAT135H1 with a final mark of at least 60% and MAT136H1 with a final mark of at least 60%), **or** MAT137Y1 with a final mark of at least 55%, **or** MAT157Y1 with a final mark of at least 55%.

#### Completion Requirements:

##### **Program Course Requirements: 7 full courses or their equivalent**

##### *First Year (2.0 FCE):*

1. ECO101H1+ECO102H1/ECO100Y1/ECO105Y1;
2. MAT133Y1/(MAT135H1,MAT136H1)/MAT137Y1/MAT157Y1

##### *Second Year (Core courses, 3.0 FCE):*

1. ECO200Y1/ECO204Y1/ECO206Y1,
2. ECO202Y1/ECO208Y1/ECO209Y1,
3. ECO220Y1/ECO227Y1/(STA220H1, STA255H1)/(STA257H1, STA261H1)

##### *Third and Higher Years (ECO Electives, 2.0 FCE):*

1. 1.5 FCE 300+ series ECO courses
2. At least 0.5 FCE 400 level ECO course

##### *Notes:*

1. Eligibility for all Economics programs is based, in part, on attaining a minimum grade in ECO101H1 plus ECO102H1 or ECO105Y1(which are exclusions to each other). Students are reminded that they may only repeat a course once as per Faculty regulations. For admission to a program requiring ECO101H1 plus ECO102H1 or ECO105Y1, this means that students have a combined total of *at most* two tries at ECO101H1 plus ECO102H1,

- ECO105Y1 or any comparable course (e.g., at UTSC or UTM). No third try will be considered in order to meet the minimum grade requirement for admission to a program.
- Students in the Major program considering graduate studies in Economics are advised to take the more mathematical stream courses (ECO206Y1, ECO208Y1), and also some or all of the 300-level advanced micro, macro, and econometrics sequence (ECO325H1, ECO326H1, and ECO375H1).
  - Students considering graduate studies in Economics are also encouraged to take more than the minimum amount and level of math. Students should especially consider MAT221H1/MAT223H1/MAT240H1 (Linear Algebra), MAT235Y1/MAT237Y1 (Multivariate Calculus), MAT246H1 (Abstract Mathematics), or even consider doing a Minor program in Mathematics.
  - Students should pay careful attention to the courses they choose to meet the 200-level statistics requirements. The accepted combinations are precisely as stated. In particular, STA220H1+STA255H1 and STA257H1+STA261H1 are distinct packages of courses, and the elements cannot be combined any other way.
  - Students combining other programs with Economics need to confirm that their chosen statistics courses meet the requirements of both programs. Besides the combinations noted in descriptions of the ECO programs, the only other accepted combinations for ECO Major program, and course prerequisite conditions, are precisely: STA247H1+STA248H1, and PSY201H1+STA255H1.
  - Students in the Major program in Economics cannot be enrolled in the Minor program in Environmental Economics.

- ECO100Y1/ECO101H1+ECO102H1/ECO105Y1;
- MAT133Y1/(MAT135H1,MAT136H1)/MAT137Y1/MAT157Y1

*Second Year (Core courses, 1.0 FCE):*

- ECO200Y1/ECO204Y1/ECO206Y1

*Third and Higher Years (ECO Electives, 1.0 FCE):*

- 1.0 FCE 300+ series ECO courses

**NOTES:**

- Students enrolled in the Minor Program in Economics cannot be enrolled in any other Minor, Major, Specialist or Joint Specialist Economics program;
- Eligibility for all Economics programs is based in part, on attaining a minimum grade in ECO101H1 plus ECO102H1 or ECO100Y1 or ECO105Y1 (which are exclusions to each other). Students are reminded that they may only repeat a course *once* as per Faculty regulations, which means that students may have *at most* a combined total of two attempts at ECO100Y1, or ECO101H1 plus ECO102H1, or ECO105Y1 or any comparable course (e.g., at UTSC or UTM). No third attempt will be considered in order to meet the minimum grade requirement for admission to a program (failed attempts do not count).
- Many 300-level and higher courses in economics **require** ECO220Y1. While not a formal part of the Economics Minor program, students **MUST** meet the specified prerequisites for 300+ economics courses, and should seriously consider taking ECO220Y1.

## Economics Minor (Arts Program)

### Enrolment Requirements:

*(The enrolment requirements below are effective for students who are:*

- applying to programs in April 2018; or*
- planning to take ECO101H1 and ECO102H1 in Summer 2017 in order to apply to an Economics program in July 2017 (during the second round of program enrolment) for September 2017 admission.*

*Students who are applying to an Economics program in April 2017 (during the first round of program enrolment) for June 2017 admission should consult the 2016-17 Calendar.)*

(ECO101H1 with a final mark of at least 63% and ECO102H1 with a final mark of at least 63% , or ECO105Y1 with a final mark of at least 80%), **AND** MAT133Y1 with a final mark of at least 63%, or (MAT135H1 with a final mark of at least 60% and MAT136H1 with a final mark of at least 60%), or MAT137Y1 with a final mark of at least 55%, or MAT157Y1 with a final mark of at least 55%.

### Completion Requirements:

**Program Course Requirements: 4 full courses or their equivalent**

*First Year (2.0 FCE):*

### Other Programs

- Finance & Economics (BCom) - See Rotman Commerce
- Environmental Economics - See School of the Environment

## Economics Courses

### ECO101H1 - Principles of Microeconomics

**Hours:** 24L/12T

An introduction to economic analysis and its applications: price determination, market structure, decision making by individuals and firms, public policy. NOTE: extensive use of graphical and quantitative analysis.

**Exclusion:** ECO100Y1, ECO105Y1

**Recommended Preparation:** MCV4U (Calculus & Vectors) and MHF4U (Advanced Functions), or equivalent secondary school mathematics credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### ECO102H1 - Principles of Macroeconomics

**Hours:** 24L/12T

An introduction to economic analysis and its applications from a macroeconomic (economy-wide) perspective. Topics covered include international trade and finance, role of money and the banking system, monetary and fiscal policy. Note: graphical and quantitative analysis are used extensively.

**Prerequisite:** ECO101H1

**Exclusion:** ECO100Y1, ECO105Y1

**Recommended Preparation:** MCV4U (Calculus & Vectors) and MHF4U (Advanced Functions), or equivalent secondary school mathematics credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### ECO105Y1 - Principles of Economics for Non-Specialists

**Hours:** 48L/24T

Fundamentals for consumers, businesses, citizens. Microeconomics focuses on cost/benefit analysis: gains from trade, price coordination, competition/monopoly, efficiency/equity tradeoffs, government/market failures, environmental policies, income/wealth distributions. Macroeconomics focuses on: GDP growth, unemployment, inflation, monetary/fiscal policies, business cycles, exchange rates, government deficits/debt, globalization. Emphasizes economic literacy, fewer mathematical tools than ECO100Y1.

**Exclusion:** ECO100Y1, ECO101H1, ECO102H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### ECO200Y1 - Microeconomic Theory

**Hours:** 48L/24T

Theory of markets and prices. Determination of prices through the interaction of the basic economic units, the household as consumer and as supplier of inputs and the business firm as producer and as employer of inputs. The pricing system as the mechanism by which social decisions and allocation of goods are made in a market economy.

**Prerequisite:** ECO100Y1(67%)/(ECO101H(63%), ECO102H(63%))/ECO105Y1(80%); MAT133Y1/(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Exclusion:** ECO204Y1, ECO206Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### ECO202Y1 - Macroeconomic Theory and Policy

**Hours:** 48L/24T

Theory of output, employment and the price level; techniques for achieving economic stability; central banking and Canadian financial institutions and markets; foreign exchange markets and the exchange rate. This course is not intended for students enrolled in the BCom program; please see ECO209Y1.

**Prerequisite:** ECO100Y1(67%)/(ECO101H1(63%), ECO102H1(63%))/ECO105Y1(80%); MAT133Y1/(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Exclusion:** ECO208Y1, ECO209Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### ECO204Y1 - Microeconomic Theory and Applications (for Commerce)

**Hours:** 48L/24T

The use of microeconomics to analyze a variety of issues from marketing and finance to organizational structure. Consumer preferences and behavior; demand, cost analysis and estimation; allocation of inputs, pricing and firm behavior under perfect and imperfect competition; game theory and public policy, including competition policy. Business cases are used to connect theory and practice and to highlight differences and similarities between economics and accounting, marketing and finance. This course is restricted to students in the Commerce programs.

**Prerequisite:** ECO100Y1(67%)/(ECO101H1(63%), ECO102H1(63%))/ECO105Y1(80%); MAT133Y1/(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Exclusion:** ECO200Y1, ECO206Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO206Y1 - Microeconomic Theory

**Hours:** 48L/24T

This course deals more rigorously and more mathematically with the topics included in ECO200Y1 and is intended primarily for students in certain Economics Specialist programs.

**Prerequisite:** ECO100Y1(70%)/(ECO101H(70%), ECO102H(70%)); MAT133Y1(63%)/(MAT135H1(60%), MAT136H1(60%))/MAT137Y1(55%)/MAT157Y1(55%)

**Exclusion:** ECO200Y1, ECO204Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO208Y1 - Macroeconomic Theory

**Hours:** 48L/24T

This course deals more rigorously and more mathematically with the topics included in ECO202Y and is intended primarily for students in certain Economics Specialist programs.

**Prerequisite:** ECO100Y1(70%)/(ECO101H(70%), ECO102H(70%)); MAT133Y1(63%)/(MAT135H1(60%), MAT136H1(60%))/MAT137Y1(55%)/MAT157Y1(55%)

**Exclusion:** ECO202Y1, ECO209Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO209Y1 - Macroeconomic Theory and Policy (for Commerce)

**Hours:** 48L/24T

Macroeconomic issues relevant for commerce students. Analytical tools are used to examine policy issues: Canadian government budgets, Bank of Canada monetary policy, exchange rate policy, foreign trade policy and government regulation of financial intermediaries. This course is restricted to students in the Commerce programs.

**Prerequisite:** ECO100Y1(67%)/(ECO101H1(63%), ECO102H1(63%))/ECO105Y1(80%); MAT133Y1/(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Exclusion:** ECO202Y1, ECO208Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO210H1 - Mathematical Methods for Economic Theory

**Hours:** 24L/12T

An introduction to mathematical methods commonly used in economic theory. Topics include unconstrained multivariate optimization, multivariate optimization subject to equality or inequality constraints and differential equations.

**Prerequisite:** ECO100Y1(67%)/(ECO101H(63%), ECO102H(63%))/ECO105Y1(80%); MAT133Y1(63%)/(MAT135H1(60%), MAT136H1(60%))/MAT137Y1(55%)/MAT157Y1(55%)

**Corequisite:** ECO200Y1/ECO204Y1/ECO206Y1

**Distribution Requirements:** Social Science

## ECO220Y1 - Quantitative Methods in Economics

**Hours:** 48L/48T

Numerical and graphical data description; data collection and sampling; probability; sampling distributions; statistical inference; hypothesis testing and estimation; simple and multiple regression analysis (extensive coverage). Learn how to analyze data and how to correctly interpret and explain results. Applications include research papers in economics.

**Prerequisite:** ECO100Y1(67%)/(ECO101H(63%), ECO102H(63%))/ECO105Y1(80%); MAT133Y1/(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Exclusion:** ECO227Y1, GGR270H1, PSY201H1, PSY202H1, SOC300H1, STA107H, STA220H1, STA221H1, STA247H1, STA248H1, STA250H1, STA257H1, STA261H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3); The Physical and Mathematical Universes (5)

## ECO227Y1 - Quantitative Methods in Economics

**Hours:** 48L/24T

A rigorous introduction to probability and mathematical statistics intended for economics specialists. Probability and estimation theory, sampling distributions, hypotheses testing, multiple regression analysis. Students will learn the tools used in economics and finance to model and address randomness and uncertainty.

**Prerequisite:** ECO100Y1(70%)/(ECO101H(70%), ECO102H(70%)); MAT133Y1(63%)/(MAT135H1(60%), MAT136H1(60%))/MAT137Y1(55%)/MAT157Y1(55%)

**Corequisite:** Recommended: MAT223H1/MAT240H1, MAT235Y1/MAT237Y1/ECO210H1

**Exclusion:** ECO220Y1, GGR270H1, PSY201H1, PSY202H1, SOC300H1, STA107H, STA247H1, STA248H1, STA250H1, STA255H1, STA257H1, STA261H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ECO230Y1 - International Economic Institutions and Policy

**Hours:** 48L/24T

This course is intended primarily for students in the International Relations and in the Peace & Conflict Studies programs. The key concepts of international trade and finance are reviewed with an eye to understanding contemporary issues and recommending policy initiatives. Attention is given to empirical assessment of alternative trade theories and to broader international relations issues.

**Prerequisite:** ECO100Y1(67%)/(ECO101H(63%), ECO102H(63%))/ECO105Y1(80%)/enrolment in the International Relations Specialist or Major Programs, or the IR/Peace and Conflict Studies joint Specialist Program

**Exclusion:** ECO328Y1/ECO364H1/ECO365H1/ECO364H5/ECO365H5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO250Y1 - Special Topics in Economics

**Hours:** 48L/24T

Courses may be offered in one or more subjects each year. Students must meet the Prerequisites announced by the Department (see the Undergraduate Administrator or the Economics Department website for details).

**Prerequisite:** TBA

**Distribution Requirements:** Social Science

## ECO251H1 - Special Topics in Economics

**Hours:** 24L/12T

Courses may be offered in one or more subjects each year. Students must meet the Prerequisites announced by the Department (see the Undergraduate Administrator or the Economics Department website for details).

**Prerequisite:** TBA

**Distribution Requirements:** Social Science

## ECO252H1 - Special Topics in Economics

**Hours:** 24L/12T

Courses may be offered in one or more subjects each year. Students must meet the prerequisites announced by the Department (see the Undergraduate Administrator or the Economics Department website for details).

**Prerequisite:** TBA

**Distribution Requirements:** Social Science

## ECO299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## ECO305H1 - Economics of Accounting

**Hours:** 24L/12T

The economic impact of accounting rules and practices for firms and financial contracts. Topics include economic models of agency, economics of optimal accounting rules such as government regulation of corporate disclosure and the economic returns to financial reporting. No previous knowledge of accounting is required; the basic language of financial accounting will be covered.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1, STA255H1)/(STA257H1, STA261H1)

**Exclusion:** Not open to students enrolled in Rotman Commerce programs.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO306H1 - American Economic History

Hours: 24L/12T

A survey of American economic history from the ante-bellum period to the present. Potential topics include the rapid growth of the American economy in the late 19th and early 20th century; Causes of the onset of the Great Depression; The economic impact of slavery and its aftermath; Health and demographic trends; and 20th century trends in inequality.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO310H1 - Empirical Industrial Organization

Hours: 24L/12T

The quantitative analysis of firms' strategies in real-world industries, using tools from applied microeconomics and statistics. Topics include studies of monopoly, oligopoly, imperfect competition, and the estimation of demand and cost functions that underpin these markets.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1/ECO227Y1/(STA220H1, STA255H1)/(STA257H1, STA261H1)

**Exclusion:** ECO310Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO313H1 - Environmental Economics and Policies

Hours: 24L/12T

This course demonstrates how a rigorous application of microeconomic techniques can inform our responses to various environmental problems. Topics may include: air and water pollution and renewable resource management.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO314H1 - Energy and the Environment

Hours: 24L/12T

This course surveys important features of energy markets and related environmental challenges. One of the central objectives is to provide an understanding of the key economic tools needed to analyse these markets. A related objective is the development of a framework for understanding the public discourse on energy and the environment. Topics include the hydrocarbon economy (oil, natural gas and coal), electricity markets, global warming and other externalities, renewable energy, conservation, carbon taxes and 'cap-and-trade'.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO316H1 - Applied Game Theory

Hours: 24L/12T

Focuses on the core ideas and concepts of game theory and on applications of them in economics and other social sciences. Topics may include oligopoly, electoral competition, the theory of public goods, voting theory, the free rider problem, repeated interaction, bargaining, evolutionary equilibrium, matching and auctions.

Note: This course cannot be taken as a substitute in programs that require ECO326H1.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1

**Exclusion:** ECO326H1, ECO326H5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO320H1 - Economic Analysis of Law

Hours: 24L/12T

The practical application of microeconomic theory to common legal problems: torts, contracts, property and crime, and the limitations of economic analysis. No previous familiarity with the law is assumed. (This is an economic analysis of legal issues, not a course in law.)

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO321H1 - Canadian Economic History prior to 1850

Hours: 24L/12T

This course applies the tools of economics - theoretical and empirical - to study Canada's historical growth experiences. Topics include: The variation in well-being among indigenous peoples (both pre and post contact), migration and indentured servitude, colonial money, child labour and education, and the rise of factories. The impact of colonial institutions on Canada's economic success is studied in a comparative context.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1

**Exclusion:** ECO323Y5, ECO321Y1, ECO322Y5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO322H1 - Canadian Economic History, 1850-1960

Hours: 24L/12T

Canadian economic history between 1850 and 1960, with a focus on the debate over the ability of the market mechanism to optimize economic development. Topics covered include tariff policies, Confederation, the transcontinental railroad, opening the West, the Great Depression, monetary policy and the Bank of Canada, regional growth and dominion-provincial relations.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1

**Exclusion:** ECO323Y5, ECO321Y1, ECO322Y5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO324H1 - Economic Development

Hours: 24L/12T

This course critically analyzes issues related to economic development and the associated policy responses. Tools from micro and macroeconomic theory are employed, as well as the critical assessment of empirical evidence. Topics may include education, health, credit markets, inequality, and the role of foreign aid.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO324Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO325H1 - Advanced Economic Theory - Macro

Hours: 24L/12T

A development of the microeconomic foundations of macroeconomic theory to expand students' analytic skills by constructing and solving macroeconomic models. Topics may include: dynamic choice, neoclassical growth theory, uncertainty and rational expectations, business cycles, as well as fiscal and monetary policy.

**Prerequisite:** ECO208Y1/ECO202Y1(70%)/ECO209Y1(70%), ECO220Y1(70%)/ECO227Y1/(STA220H1(70%), STA255H1(70%))/(STA257H1,STA261H1)

**Recommended Preparation:** MAT235Y1/MAT237Y1/ECO210H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO326H1 - Advanced Economic Theory - Micro

Hours: 24L/12T

Game theory and applications. Topics include: strategic and extensive games, with applications to economics.

**Prerequisite:** ECO200Y1(70%)/ECO204Y1(70%)/ECO206Y1, ECO220Y1(70%)/ECO227Y1/(STA220H1(70%), STA255H1(70%))/(STA257H1,STA261H1)

**Exclusion:** ECO316H1, ECO326H5

**Recommended Preparation:** MAT235Y1/MAT237Y1/ECO210H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO331H1 - Behavioural and Experimental Economics

Hours: 24L/12T

Ample empirical and experimental evidence suggests significant departures from classical assumptions of economic behaviour. For example, humans are neither always perfectly rational nor always self-interested. This course describes systematic ways in which behaviour deviates from neoclassical assumptions, generating new, and hopefully more realistic behavioural assumptions that have broad empirical, theoretical and policy implications.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO332H1 - Economics of the Family

**Hours:** 24L/24T

A use of microeconomics to study the behaviour of the family, including marriage, divorce, intra-family allocations, investment in children and gender roles.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO333H1 - Urban Economics

**Hours:** 24L/12T

Spatial economic theory and urban public policy: firms and individuals in partial and general equilibrium, land development and land-use controls, urban transportation, efficiency and equity in spending and taxing.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1

**Exclusion:** ECO333Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO334H1 - Political Economy: Voters, Information and Media

**Hours:** 24L/12T

Tools are developed to analyze voters and the role of information in democracies. Theories of voter information are evaluated using empirical literature on media and the political economy of media. The effects of innovations in information technology are explored and we will evaluate how the empirical results square with the theory. A study of newspapers, radio, television, cable, the Internet and social media, with a focus on empirical methods used to identify effects of media on voters.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO336H1 - Public Economics

**Hours:** 24L/12T

Theory of taxation and public goods, and quantitative methods for program evaluation. Additional topics include taxation and income distribution; environmental policy; and the political economy of government policy.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO336Y1, ECO337H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO337H1 - Public Economics (for Commerce)

**Hours:** 24L/12T

An introduction to the economics of government similar to ECO336H1, but with greater focus on issues in business and financial economics. Additional topics include business tax planning and corporate financial policy; taxation of saving and risk-taking; and government business enterprises.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO336Y1, ECO336H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO338H1 - Economics of Careers

**Hours:** 24L/12T

The economic analysis of careers from the perspectives of both workers and employers: How do people decide what to study, what careers to pursue, and when to change jobs? How do these decisions interact with the structure of firms? The impact of specialization and the division of labor on the evolution of careers is considered, as are the role of cognitive and communication skills in the labor market.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO339H1 - Labour Economics: Employment, Wages and Public Policy

**Hours:** 24L/12T

Using tools from microeconomic theory and statistics, this course introduces students to the study of labour markets, focusing on employment and wage determination, and the application of labour economics to public policy. Topics may include: Labour supply, labour demand, estimating the impact of welfare programs, minimum wages, and other labour market interventions.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO239Y1, ECO339Y1, ECO343Y5, ECO344Y5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO340H1 - Labour Economics: The Distribution of Earnings

**Hours:** 24L/12T

Using tools from microeconomic theory and statistics, this course studies the determinants of wages across labour markets. Topics include the theory of compensating differentials, human capital, discrimination, immigration, unions, and alternative models of compensation. In addition, students are introduced to microeconomic models of unemployment. Throughout the course, there is an emphasis on the evaluation of empirical evidence.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO239Y1, ECO339Y1, ECO343Y5, ECO344Y5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO341H1 - The Economic History of the 20th Century: Trade, Migration, Money and Finance before 1945

**Hours:** 24L/12T

Tailored to advanced students in Economics, Commerce, International Relations and History. The focus is on growth and fluctuations in Europe and North America between roughly 1870 and 1939, with a particular emphasis on international trade and payments, migration, investment, and monetary arrangements.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1/(ECO230Y1, POL208Y1)

**Exclusion:** ECO342Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO342H1 - Twentieth Century Economic History: Institutions, Growth and Inequality

**Hours:** 24L/12T

Tailored to advanced students in Economics, Commerce, International Relations and History. The focus is on institutions, growth and inequality in countries across the world.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1/(ECO230Y1, POL208Y1)

**Exclusion:** ECO342Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO349H1 - Money, Banking and Financial Markets

**Hours:** 24L/12T

This course studies the interaction of the monetary and banking sectors with financial markets and the broader economy. It builds especially on tools developed in intermediate macroeconomics, but also focuses on the institutional structure of the Canadian monetary sector, including the role and operation of the Bank of Canada.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO202Y1/ECO208Y1/ECO209Y1, ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO349H5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO350Y1 - Special Topics in Economics

**Hours:** 48L/24T

Courses may be offered in one or more subjects each year. Students must meet the prerequisites announced by the Department (see the Undergraduate Administrator or the Economics Department website for details).

**Prerequisite:** TBA

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO351H1 - Special Topics in Economics

Hours: 24L/12T

Courses may be offered in one or more subjects each year. Students must meet the prerequisites announced by the Economics Department (see the Undergraduate Administrator or the Economics Department website for details).

**Prerequisite:** TBA

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO352H1 - Special Topics in Economics

Hours: 24L/12T

Courses may be offered in one or more subjects each year. Students must meet the prerequisites announced by the Department (see the Undergraduate Administrator or the Economics Department website for details).

**Prerequisite:** TBA

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO356H1 - Special Topics in Financial Economics

Hours: 24L/12T

Courses may be offered in one or more subjects each year. Students must meet the prerequisites announced by the Department (see the Undergraduate Administrator or the Economics Department website for details).

**Prerequisite:** TBA

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO358H1 - Financial Economics I

Hours: 24L/12T

An introduction to economics of financial assets and financial markets. Topics: inter-temporal choice, expected utility theory, security valuation, selected asset pricing models, market efficiency, and the term structure of interest rates - essential materials for an understanding of the role and operation of financial markets.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ACT349H1,RSM332H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO359H1 - Financial Economics II: Corporate Finance

Hours: 24L/12T

Agency and incomplete information problems inherent in financial transactions; the role of contractual arrangements in overcoming them. Financial constraints on investment decisions of firms; the financial system in economic growth; the legal system in the functioning of financial markets. A look at theoretical and empirical literature covering these issues.

**Prerequisite:** ECO358H1

**Exclusion:** ACT349H1, RSM333H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO362H1 - Economic Growth

Hours: 24L/12T

The course considers a broad range of issues that underlie economic growth, including technical progress and the accumulation of human and physical capital. Beyond these factors, the course also investigates the efficiency with which capital is used, the role of foreign trade, and the possible roles of institutions and geography.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO202Y1/ECO208Y1/ECO209Y1, ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO352H1, ECO360Y1, ECO362H5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO364H1 - International Trade Theory

Hours: 24L/12T

An examination of the causes and consequences of international trade. The first half develops traditional models of comparative advantage, with the second half examines more recent theoretical and empirical work on trade & wages, the political economy of trade, outsourcing, and firm heterogeneity.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO230Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO365H1 - International Monetary Economics

**Hours:** 24L/12T

Introduction to open economy macroeconomics and international finance. The core objective of the course is to develop macroeconomic models of open economies that can be applied towards gaining an understanding of recent events such as US deficits, financial crises, China's exchange rate policy and the Euro.

**Prerequisite:** ECO202Y1/ECO208Y1/ECO209Y1

**Exclusion:** ECO230Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO368H1 - Economics of Conflict

**Hours:** 24L/12T

This course explores the links between violent conflict and socioeconomic development. It focuses on micro-level processes leading to conflict, and how conflict and political violence affect people's lives at the household and community levels. It also examines how these processes are linked to wider political and economic issues including governance and the role of institutions. Tools from economic theory are applied alongside country-specific and cross-country empirical evidence.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1) Note: Students with ECO100Y1(67%)/(ECO101H(63%) + ECO102H(63%))/(ECO105Y1(80%)), plus a full-year of quantitative methods/statistics (e.g., POL242Y1), and who are enrolled in the International Relations or Peace, Conflict and Justice Major or Specialist programs may take this course with Permission of the Instructor.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO369H1 - Health Economics

**Hours:** 24L/12T

The provision of health care provides many special problems of informational asymmetry, regulation, insurance and redistribution. A consideration of the demand and supply side problems. Alternative reform proposals for health care are explored.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO369Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO370Y1 - Economics of Organizations

**Hours:** 48L/24T

An introduction to the economic analysis of the firm that highlights how organizations and special contractual relationships emerge as alternative institutions to the market for allocating resources. Incentive problems and informal relationships, within and between firms, are important components of this analysis.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO381H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO372H1 - Applied Regression Analysis and Empirical Papers

**Hours:** 24L/12T

How multiple regression can be used to answer causal questions. Implications of, and how to interpret different model specifications and identification strategies. Students will read, critically evaluate and replicate existing research, and conduct their own original analyses. Statistical software STATA or R will be used.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO351H1 (2016-2017)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO374H1 - Applied Econometrics (for Commerce)

**Hours:** 24L/12T

An introduction to econometrics similar to ECO375H1, with greater focus on applications drawn from business and financial economics. The course is built around the statistical foundations and economic applications of the multiple regression model. Using statistical software, students will also learn how to conduct, present, and critique empirical research.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1(70%)/ECO227Y1/(STA257H1,STA261H1)

**Exclusion:** ECO375H1, ECO327Y5

**Recommended Preparation:** MAT221H/MAT223H1/MAT240H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO375H1 - Applied Econometrics I

**Hours:** 24L/12T

Introduction to econometrics. Statistical foundations and the interpretation of multiple regression models, with an emphasis on cross-sectional data. Application of regressions to a wide variety of economic questions and data sources, including the use of statistical software. Problems in the identification of causality, and an introduction to methods of addressing common statistical issues

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1(70%)/ECO227Y1/(STA257H1,STA261H1)

**Exclusion:** ECO374H1, ECO327Y5

**Recommended Preparation:** MAT221H1/MAT223H1/MAT240H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO380H1 - Markets, Competition, and Strategy

**Hours:** 24L/12T

This course in applied microeconomics is concerned with the functioning of markets and the behaviour of firms within these markets. The focus is on strategic relationships between organizations, including competitive relationships among firms in the same market and cooperative relationships between a firm and its suppliers and distributors.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO381H1 - Personnel Economics

**Hours:** 24L/12T

An examination of selected material on compensation and incentives in organizations. Topics include recruitment and hiring, training, turnover, downsizing, motivating workers, teams, allocating authority and task assignment.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Exclusion:** ECO370Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## ECO399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## ECO401H1 - Topics in Economic Policy

**Hours:** 24L/12T

This course covers basic issues in the theoretical and empirical evaluation of public policy. Sample topics include income redistribution through taxation and the provision of social insurance and public goods, the mitigation of externalities, and welfare analysis in behavioral models.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1); At least one FCE in ECO at the 300 level or higher.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO402H1 - Topics in Health Economics

**Hours:** 24L/12T

This course explores a variety of topics in health economics, providing students with an overview of current and historical institutional characteristics of the market for, and public policy towards, health care. Students will apply theoretical and empirical tools to current domestic and international issues in health policy. No previous background in health economics is required.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1); At least one FCE in ECO at the 300 level or higher.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO403H1 - Topics in Development Economics and Policy

**Hours:** 24L/12T

This course covers a variety of topics pertaining to economic development and associated policies. Depending on the course instructor, the focus may be on theories and policies related to poverty alleviation, human capital formation, financial markets, international trade, governance or economic growth

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1); At least one FCE in ECO at the 300 level or higher.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO404H1 - Topics in Managerial Economics

**Hours:** 24L/12T

Applies quantitative economic methods to real world business-oriented cases. Sample topics include: New product design, Decision making under uncertainty, Market segmentation and price discrimination, Inventory analysis, Game theoretic analysis of price wars, Financial portfolio design, and optimal pricing. Involves substantial modeling in Excel, regression analysis, optimization methods, and financial reports.

**Prerequisite:** ECO200Y1(75%)/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1); At least one FCE in ECO at the 300 level or higher.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO406H1 - Developmental Macroeconomics

**Hours:** 24L/12T

This course studies a growth model applicable to both middle-income developing countries and resource-rich developed countries. Special attention is paid to causes of cyclical currency overvaluation, particularly Dutch disease and excessive capital inflows.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1); At least one FCE in ECO at the 300 level or higher.

**Breadth Requirements:** Society and its Institutions (3)

## ECO407H1 - Competing Views in Macroeconomic Theory and Policy

**Hours:** 24L/24T

Provides students with a systematic analysis of competing perspectives on key areas of macroeconomic theory and policy. Special attention paid to competing views regarding key fiscal, monetary, and trade policy issues as applied to Canada.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1); At least one FCE in ECO at the 300 level or higher.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO408H1 - The Economics of Life: A Historical Perspective (Formerly ECO308H1)

**Hours:** 24L/12T

Demographic economic history within a North American context. Topics include changes over time in marriage markets, fertility, mortality and stature. The impact of property rights within marriage, illegitimacy, the decline of fertility in the nineteenth century and the puzzling inter-temporal divergence between height and wealth during the early nineteenth century.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1); At least one FCE in ECO at the 300 level or higher.

**Exclusion:** ECO308H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO409H1 - Topics in Money, Banking, and Finance

**Hours:** 24L/12T

This course examines the foundations of money and financial institutions using tools mastered in micro and macroeconomics. The goal is a set of principles valid for the analysis of monetary policy and institutional regulation in a variety of real world settings.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1); At least one FCE in ECO at the 300 level or higher.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO410H1 - Mergers and Competition Policy

**Hours:** 24L/24T

A combined theoretical, empirical and policy approach to mergers amongst competitors (horizontal mergers). Uses microeconomic models including game theory and econometrics. Delves into recent/current matters assessed by antitrust authorities domestically and/or internationally with applications to specific industries.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1/ECO227Y1/(STA220H1, STA255H1)/(STA257H1, STA261H1), at least 1.0 ECO FCE at the 300+ level or higher

**Exclusion:** ECO310Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO414H1 - Energy and Regulation

**Hours:** 24L/12T

This course provides a general treatment of the economics of energy markets and the use of regulation in addressing environmental and other issues arising in these markets. A central theme is the search for an appropriate balance between market forces and regulatory/government intervention. Familiarity with tools of microeconomics and statistics/econometrics is essential. Topics include oil, natural gas, coal and electricity markets, global warming and other externalities, networks, feed-in-tariffs, carbon taxes, 'cap-and-trade' and incentive regulation.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO220Y1/ECO227Y1/(STA220H1, STA255H1)/(STA257H1, STA261H1) or permission of the instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO416H1 - Macroeconometric Models for Policy Analysis and Forecasting

**Hours:** 24L/12T

The construction and operation of macroeconometric models. The use of models for conducting policy simulations and for generating quantitative forecasts of economic activity.

**Prerequisite:** ECO325H1, ECO327Y1/ECO374H1/ECO375H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO417H1 - Economic Development Policy: Community Engaged Learning

**Hours:** 12L/12T/12P

An examination of the causes and consequence of poverty in developing countries with a microeconomic focus, and how it relates it to poverty in the developed world, using a 30-hour service placement at a community organization. Importance of community and context specific factors in policy implementation; learn how local organizations have responded. Use of reflection assignments, papers, group work and class discussions to relate to course concepts. Topics include poverty traps, health, education, and credit. An application to the instructor is necessary. Not available for CR/NCR option.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO418H1 - Empirical Applications of Economic Theory

**Hours:** 24L/12T

Topics class in applied econometrics, emphasizing empirical industrial organization. Emphasis on a balanced treatment of theory and econometric techniques used in empirical research in industrial organization (the study of firms and markets). How firms behave, how market equilibriums arise and how economic policies are used to affect market equilibriums.

**Prerequisite:** ECO327Y/ECO374H1/ECO375H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO419H1 - International Macroeconomics

**Hours:** 24L/12T

Contemporary issues in international monetary economics and macroeconomic policy formulation in open economies like Canada. A study of forces determining interest rates and exchange rates, inflation and unemployment; analysis of government policy in relation to financial markets.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1, ECO202Y1/ECO208Y1/ECO209Y1, ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1) permission of instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO420Y1 - Special Topics in Economics

**Hours:** 48S

Seminars or workshops may be offered in one or more subjects each year. Students must meet the Prerequisites announced by the Department. (See the Undergraduate Administrator or the Economics department website for details.)

**Prerequisite:** TBA, permission of instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO421H1 - Special Topics in Economics

**Hours:** 24S

Seminars or workshops may be offered in one or more subjects each year. Students must meet the Prerequisites announced by the Department. (See the Undergraduate Administrator or the Economics Department website for details.)

**Prerequisite:** TBA; permission of instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO422H1 - Special Topics in Economics

**Hours:** 24S

Seminars or workshops may be offered in one or more subjects each year. Students must meet the prerequisites announced by the Department. (See the Undergraduate Administrator or the Economics Department website for details.)

**Prerequisite:** TBA, permission of instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO423H1 - Economics and Biosocial Data

**Hours:** 24L/12T

This course introduces and critically assesses economic research that uses genetic, neuroscientific, and other biosocial data. We will address questions such as: What are the effects of brain neurochemistry on economic decision-making? What role do nature and nurture play in economic behaviour and outcomes? What can we learn from genoeconomics? What are the policy implications (or lack thereof) of related findings? No previous background in biology or genetics is required.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1) ; at least 1.0 ECO FCE at the 300+ level; or permission of the instructor.  
**Exclusion:** ECO422H1S (winter 2017)

**Recommended Preparation:** ECO374H1/ECO375H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO425H1 - Business Cycles

**Hours:** 24L/12T

This course builds on material covered in ECO208Y1. Students will learn how to use business cycle models to better understand key empirical features of the macroeconomy. Topics covered include the financial crisis, monetary policy, fiscal policy, theories of unemployment, and the effects of innovation on economic fluctuations, the Great Depression and the Financial Crisis.

**Prerequisite:** ECO200Y/204Y/206Y, ECO202Y/208Y/209Y, ECO220Y/227Y/(STA220H, STA255H)/(STA257H, STA261H);, at least 1.0 ECO FCE at the 300+ level

**Corequisite:** ECO374H1/375H1

**Exclusion:** ECO438H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO426H1 - Market Design

**Hours:** 24L/12T

This course presents the theory and practice of market design, including matching markets and auctions. Sample topics include school choice, kidney exchange, spectrum auctions, and keyword auctions.

**Prerequisite:** ECO316H1(70%)/ECO326H1(60%)/CSC200Y1(70%)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO428H1 - Classical Economic Thought

**Hours:** 24L/12T

An examination of the price, distribution, and growth theories of major economic thinkers before 1870, from pre-classical contributions by Aristotle, Mercantilists, and Physiocrats to the classical authors Adam Smith, David Ricardo, T.R. Malthus, and Karl Marx.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1

**Exclusion:** ECO322Y5, ECO429Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO429H1 - Economic Thought after 1870

**Hours:** 24L/12T

Economic analysis between 1870 and 1960, from the foundations of microeconomics by the Marginal Utility theorists of the 1870s (Jevons, Menger, and Walras), Alfred Marshall in the 1890s, and the capital theorists Bohm-Bawerk and Fisher in the early 1900s, to the Keynesian revolution in macroeconomics in the 1930s and Friedman's counter-revolution in the 1950s.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1

**Exclusion:** ECO322Y5, ECO429Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO430Y1 - Reading Course or Thesis

**Hours:** TBA

Intended for advanced Specialist students who have exhausted course offerings in a particular area. Open only when a faculty member is available and willing to supervise. Students must obtain the approval of the Associate Chair for Undergraduate Studies before enrolling. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO431H1 - Reading Course or Thesis

**Hours:** TBA

Intended for advanced Specialist students who have exhausted course offerings in a particular area. Open only when a faculty member is available and willing to supervise. Students must obtain the approval of the Associate Chair for Undergraduate Studies before enrolling. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO432H1 - Topics in Economics of the Family

**Hours:** 24L/12T

Economics bring an analytic and quantitative approach to the study of the family. The course will discuss analytic and empirical models of family behaviour, including nature versus nurture, parental investments, quantity and quality tradeoff in children, marital matching, resource allocation within the household, and gender roles.

**Prerequisite:** ECO204Y1/ECO206Y1, ECO326H1, ECO374H1/ECO375H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO433H1 - The Economics of Cities and Regions

**Hours:** 24L/12T

Broad introduction to modern regional and urban economics. In the first part, we study how and why cities grow and develop. In the second part, we explore how cities interact and why they differ in size and perform different activities. The last part looks at regional development and attempts to understand the determinants of regional inequalities.

**Corequisite:** ECO327Y1/ECO374H1/ECO375H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO434H1 - Topics in Political Economy

**Hours:** 24L/12T

This course surveys recent advances in political economy, emphasizing the critical evaluation of empirical evidence pertaining to political economic theories. Topics vary by year, but may include voters and electoral competition, and the political economy of media and political agency.

**Prerequisite:** ECO316H1/ECO326H1/, ECO374H1/ECO375H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO435H1 - The Economics of Modern China

**Hours:** 24L/12T

A focus on post-1949 Chinese economy, and the PRCs economic legacy. Economic development during the Maoist period, particularly post-1979 reforms. China's experience is compared to Eastern Europe's and the role of China in the rapidly growing East Asian economy. This is a limited enrolment seminar requiring extensive reading.

**Prerequisite:** ECO200Y1(70%)/ECO204Y1(70%)/ECO206Y1(70%); ECO220Y1/ECO227Y1/

(STA220H1,STA255H1)/(STA257H1,STA261H1)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO436H1 - Advanced Economics of Money and Banking

**Hours:** 24L/12T

This course will introduce formal models of money and banking in the dynamic general equilibrium framework. Students will learn how to solve these models, and how to use them to better understand key empirical features of the macroeconomy.

**Prerequisite:** ECO325H1(70%)/ECO326H1(70%), ECO374H1(70%)/ECO375H1(70%)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO437H1 - Quantitative Macroeconomics

**Hours:** 24L/12T

In order to capture the complexity of economic behavior and interactions, especially with a significant time dimension, modern models of the macroeconomy make considerable use of computer simulation. This course teaches students both how to develop the economic models, and how to solve and work with them computationally.

**Prerequisite:** ECO325H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO439H1 - Empirical Methods in Microeconomics

**Hours:** 24L/12T

This course studies the methods used in modern program evaluation and micro-econometrics to identify causal effects in the presence of potentially unobserved confounding factors. Covers a range of methods and designs, both experimental and quasi-experimental. There is a heavy emphasis on the application of these methods to a broad range of economic questions.

**Prerequisite:** (ECO375H1(60%)/ECO374H1(70%)) OR (ECO200Y1(80%)/ECO204Y1(80%)/ECO206Y1(80%), (ECO220Y1(80%)/ECO227Y1(80%))

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO446H1 - Advanced Public Economics

**Hours:** 24L/12T

An advanced treatment of public economics. Theoretical and empirical methods for public policy analysis. These methods are applied to real-world issues in public economics, including tax avoidance and optimal tax design, valuing public goods, and other topics.

**Prerequisite:** ECO336H1(60%)/ECO337H1(60%)

**Exclusion:** ECO336Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO451H1 - Macroeconomic Growth

**Hours:** 24L/12T

Studies current empirical evidence, and corresponding theoretical models to explain and understand macroeconomic growth, and its varied experience across countries. Coverage and depth of treatment go beyond ECO362H1. Students may benefit from, but need not have taken ECO362H1.

**Prerequisite:** ECO325H1(60%), ECO374H1(60%)/ECO375H1(60%)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO456H1 - Special Topics in Financial Economics

**Hours:** 24L/12T

Courses may be offered in one or more subjects each year. Students must meet the prerequisites announced by the Department (see the Undergraduate Administrator or the Economics Department website for details).

**Prerequisite:** TBA

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO459H1 - International Trade Regulation

**Hours:** 24L

The theory and political economy of international trade, with examination of specific trade institutions: Bretton Woods, WTO, NAFTA, tariff administration, most-favoured nation treatment, antidumping regulation, subsidies and countervailing duties, agriculture, trade in services, trade-related intellectual property, trade and environment, trade and developing countries.

**Prerequisite:** ECO364H1, ECO365H1, permission of the instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO461H1 - The Economics of Financial Risk Management

**Hours:** 24L/12T

This course is intended primarily for students in the Financial Economics specialist program and is not open to students in the BCom program. The role of risk management in both private and public sectors, a discussion of why firms and government should hedge financial risks; individual and social gains of financial risk management; identification and quantification of financial risks (including Value-at-Risk measures); how derivative securities can be used for financial risk management.

**Prerequisite:** ECO358H1(70%)

**Exclusion:** ACT349H1, RSM332H1, RSM333H1, RSM435H1, ECO460H5, ECO461H5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO462H1 - Financial Econometrics

**Hours:** 24L/12T

This course is intended primarily for students in the Financial Economics specialist program. An introduction to the econometrics used in empirical finance, with an emphasis on estimation and inference using computer based applications. Topics will include parametric and nonparametric models of volatility, evaluation of asset pricing theories and models for risk management and transactions data.

**Prerequisite:** ECO358H1(70%), (ECO375H1(70%),(ECO475H1(70%)/ECO376H1(70%)/ECO327Y5(70%))

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO463H1 - Financial Market Microstructure

**Hours:** 24L/12T

Security prices evolve through a large number of bilateral trades, performed by people that have specific, well-regulated and institutionalized roles. Market microstructure is the subfield of financial economics that studies the price formation process. Using the lens of theoretical economic models, this course reviews insights concerning the strategic trading behaviour of individual market participants, and models are brought market data. The course further studies how public and private information, market regulation, and trading arrangements, such as limit order books or dark pools, affect behavior.

**Prerequisite:** ECO358H1(70%)/RSM330H1(70%), ECO374H1(70%)/ECO375H1(70%)

**Exclusion:** ECO463H5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO464H1 - Empirical Financial Economics

Hours: 24L/12T

The course develops the tools used in empirical research in financial economics. Coverage may include discrete choice models, duration models, instrumental variables, differences-in-differences, regression discontinuity, propensity score estimators, sample selection models and cumulative abnormal return calculation. Topics are drawn from ownership structure, mergers and acquisitions, capital structure, payout policy, CEOs' effect on the firm, executive compensation, insider trading, shareholder activism, and bank financing.

**Prerequisite:** ECO358H1(70%)/RSM330H1(70%), ECO374H1(70%)/ECO375H1(70%)/ECO327Y5(70%)

**Recommended Preparation:** ECO359H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO465H1 - International Finance

Hours: 24L/12T

An advanced course that addresses topics in international finance and macroeconomics. Potential topics include: foreign exchange market; exchange rate determination; empirical models of exchange rates; international financial markets and uncertainty; international CAPM and home bias; sovereign debt; optimal capital controls.

**Prerequisite:** One of the following: ECO365H1(80%), or ECO325H1(60%) + ECO374H1(60%), or ECO325H1(60%) + ECO375H1(60%).

**Exclusion:** ECO419H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO466H1 - Empirical Macroeconomics and Policy

Hours: 24L/12T

This course builds on material covered in ECO208Y1, ECO325H1, and ECO374H1/ECO375H1. Students will increase their data literacy and learn to apply techniques to address policy issues. Topics covered: how monetary policy is conducted, ways in which central banks use general equilibrium models and basic techniques for predicting key macroeconomic variables. Students will follow current global issues and forecast how domestic and international events may alter the Bank of Canada's monetary policy in the short run.

**Prerequisite:**

ECO208Y1(70%)/ECO209Y1(70%)/ECO202Y1(75%)/ECO325H1(70%), ECO374H1(70%)/ECO375H1(70%)

**Recommended Preparation:** ECO325H1, ECO425H1, ECO475H1

**Breadth Requirements:** Society and its Institutions (3)

## ECO475H1 - Applied Econometrics II (Formerly ECO376H1)

Hours: 24L/12T

A research-oriented course continuing from ECO375H. The regression model is extended in several possible directions: time series analysis; panel data techniques; instrumental variables; simultaneous equations; limited dependent variables. Students will complete a major empirical term paper, applying the tools of econometrics to a topic chosen by the student.

**Prerequisite:** ECO375H1(70%)/ECO374H1(80%), NOTE: STA302H1 is not accepted preparation.

**Exclusion:** ECO376H1, ECO327Y1, ECO327Y5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ECO499H1 - Honours Essay in Applied Microeconomics

Hours: 24L/12T

Students will complete an original research paper on a topic of their choosing. Topic must be microeconomic and applied, meaning all papers will involve data and quantitative (regression) analysis.

**Prerequisite:** ECO200Y1/ECO204Y1/ECO206Y1; ECO202Y1/ECO208Y1/ECO209Y1; ECO220Y1/ECO227Y1/(STA220H1,STA255H1)/(STA257H1,STA261H1); ECO372H1/ECO374H1/ECO375H1; 3.0 GPA in economics courses; approval of the associate chair, undergraduate

**Recommended Preparation:** ECO374H/ECO375H and ECO372H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

# Employment Relations, Centre for Industrial Relations and Human Resources

## Faculty List

### Professors Emeriti

F.J. Reid, MSc, Ph D  
A. Verma, BTech, MBA, Ph D

### Associate Professor, Teaching Stream Emeritus

L. Riznek, MA, Ph D

### Associate Professor and Director of the Centre

R. Gomez, MA, MIR, Ph D

### Assistant Professor

D. Pohler, BCom, Ph D

### CLTA

Hua Wang, MA, MBA, Ph D

## Introduction

Since 1965, the Centre for Industrial Relations and Human Resources has brought together professors from many different disciplines and departments at the University of Toronto to teach and conduct research on all aspects of work, the workplace, labour markets and labour relations. The CIRHR's graduate programs rank among the best in North America and its faculty reflects the depth, breadth and diversity of our university.

In 2013, the undergraduate Employment Relations and Human Resources Certificate programs became integrated with the graduate programs at the Centre for Industrial Relations and Human Resources. The continuing close relationship between the Centre and Woodsworth College helps to foster ongoing academic excellence for students enrolled in the Employment Relations program as they continue to benefit from the rich academic support services and facilities available at the College. Woodsworth College remains the home of the Undergraduate Program Office and the Employment Relations Students' Association (ERSA).

The overarching goal of the undergraduate program in Employment Relations is to offer an interdisciplinary learning opportunity in which to study the 'world of work and employment' in a Canadian and global context from the perspectives of economics, history, law, management, political science, psychology and sociology. The program provides students with a theoretical background and knowledge of current developments in the field that will serve as a basis for careers in employment relations such as: a Human Resources Generalist, Recruitment Specialist, HR Consultant, Employment Equity Officer, Training and Development Consultant, Corporate Trainer, Policy Advisor in the Ministry of Labour, Union Representative and Labour Relations Specialist. The undergraduate degree in Employment Relations is also a perfect platform from which to enter post-graduate programs in Industrial Relations and Human Resources, Law with a specialisation in labour and employment, as well as policy and labour studies programs.

Students are encouraged to use the resources available in both the CIRHR Library and Career Centre in order to investigate current labour market trends and career options in Employment Relations. Students are also encouraged to explore the services offered by the Human Resources Professionals Association (HRPA) which is Canada's HR thought leader and the largest HR association in the country. In Ontario, HRPA regulates the HR profession and issues the Certified Human Resources Professional (CHRP) designation, the national standard for excellence in human resources management. All of the course work requirements needed for CHRP are offered in the Employment Relations program.

Additional information on program requirements, forms and other useful resources can be found on the Program Office [website](#).

## Regarding Program Enrolment

Admission to major and specialist programs will be determined by a student's mark in specific courses. See program descriptions for details on the entry requirements. These are limited enrolment programs that can only accommodate a limited number of students. Achieving the marks required does not necessarily guarantee admission to the program in any given year. Requests for admission will be considered in the first program request period only (April 1 - May 17, 2017). For detailed program application instructions (see "type 3- with a no indicator") click [here](#). Do not change your program after year 3 if you are required to complete your degree in four years as prerequisites and program requirements will not be waived. Due to the limited enrolment nature of this program students are strongly advised to enroll in backup programs.

## Employment Relations, Centre for Industrial Relations and Human Resources Programs

### Employment Relations - Specialist Program (Arts Program)

#### Admission Requirements:

This is a limited enrolment program (type 3-No) and achieving the minimum mark threshold does not guarantee admission to the Employment Relations Specialist in any given year. Eligibility will be based on a student's mark in the required courses listed below. The precise mark threshold is an estimate of what will be required in the 2017 program admission cycle.

Applying after first year:

Completion of at least four full-course equivalents.

1.0 FCE from ECO100Y1/ECO101H1/ECO102H1 with an estimated threshold of a 67% average or ECO105Y1 with an estimated threshold of an 80% average

1.0 FCE from

SOC100H1/SOC1501/SOC101Y1/SOC102H1/SOC103H1/PSY100 H1 with an estimated threshold of a 70% average

Applying after second year:

1.0 FCE from ECO100Y1/ECO101H1/ECO102H1 with an estimated threshold of a 67% average or ECO105Y1 with an estimated threshold of an 80% average

1.0 FCE from SOC200H1 or higher level taken in 20169-20171 with an estimated threshold of a 73% average

Important:

Requests for admission will be considered in the first program request period only (April 1-May 17, 2017). For detailed program enrolment instructions for type 3-No programs please click here. Due to the limited enrolment nature of this program students are strongly advised to enroll in backup programs.

### Completion Requirements:

The following requirements apply to students admitted to the Employment Relations specialist in 2017.

Total FCEs: 10.0 including a minimum of 4.0 FCEs at the 300+ level (1.0 FCE must have the IRE course designator and 1.0 FCE must be at the 400-level.) Each course requirement is individual and cannot be used more than once. A course taken on a CR/NCR basis may not be used to satisfy program requirements.

1.0 FCE from ECO100Y1/ECO101H1/ECO102H1/ECO105Y1

1.0 FCE from

SOC100H1/SOC1501/SOC101Y1/SOC102H1/SOC103H1/PSY100 H1

All of IRE240H1, IRE244H1, IRE260H1, IRE339H1, IRE430Y1 or (IRE430H1 and IRE431H1)

1.0 FCE from Group A

1.0 FCE from Group B

0.5 FCE from Group C

0.5 FCE from Group D

Additional courses (excluding those already counted) from Groups C and D for a total of 10.0 FCEs.

Note: Students may only use 1.0 FCE independent study and 1.0 FCE research participation toward the Employment Relations program.

Group A: ECO321Y1 (or equivalent)/ HIS263Y1/ POL214Y1

Group B: ECO220Y1/ IRE379H1/ PSY201H1/ PSY202H1/ SOC200H1/ SOC202H1

Group C: IRE444H1/ IRE446H1/ IRE447H1/ IRE472H1

Group D: GGR221H1/ HIS313H1/ INI300H1/ IRE332Y0/ IRE344H1/ IRE345H1/ IRE346H1/ IRE347H1/ IRE348H1/ IRE349H1/ IRE367H1/ IRE378H1/ IRE395H1/ IRE395Y1/ IRE396H1/ IRE397Y1/ IRE432Y0/ IRE493H1/ IRE494H1/ JGI216H1/ MGT201H1/ RSM222H1/ RSM361H1/ RSM392H1/ RSM461H1/ RSM464H1/ SOC207H1/ SOC317Y1/ SOC366H1/ SOC367H1/ SOC439H1

Notes:

Students who have completed ECO239Y1/ECO339Y1 may request to have the course counted toward the Employment Relations Specialist program. Please email your request to [er@utoronto.ca](mailto:er@utoronto.ca). Non IRE courses: Some courses offered by other departments may

be available only to students who have completed specified prerequisites or who are enrolled in a program sponsored by the department offering the course. Course enrolment conditions are listed in the Arts and Science timetable. Course descriptions, prerequisites, corequisites and exclusions are listed in the Calendar.

## Employment Relations - Major (Arts Program)

### Admission Requirements:

This is a limited enrolment program ("type 3-No" indicator) and achieving the minimum mark threshold does not guarantee admission to the Employment Relations major in any given year. Eligibility will be based on a student's mark in the required courses listed below. The precise mark threshold is an estimate of what will be required in the 2017 program admission cycle.

Applying after first year:

1. Completion of at least four full-course equivalents.
2. Completion of 1.0 FCE from ECO100Y1/ECO101H1/ECO102H1/ECO105Y1 and 1.0 FCE from SOC100H1/SOC150H1/SOC101Y1/SOC102H1/SOC103H1/PSY100H1.
3. The estimated mark threshold is a combined average of 65% in these 2.0 FCEs.

Applying after second or third year:

1. Completion of 1.0 FCE from ECO100Y1/ECO101H1/ECO102H1/ECO105Y1
2. Completion of 1.0 FCE from 200 or higher level SOC courses taken in 20169-20171.
3. The estimated mark threshold is a combined average of 70% in these 2.0 FCEs.

Important:

1. Requests for admission will be considered in the first program request period only (April 1-May 17, 2017). For detailed program enrolment instructions for "type 3-No" programs please click here.
2. Due to the limited enrolment nature of this program students are strongly advised to enroll in backup programs.

### Completion Requirements:

The following requirements apply to students admitted to the Employment Relations major in 2017.

Total FCEs: 7.0 (including 2.0 FCEs at the 300+ level of which 0.5 FCE must be at the 400-level.) Each course requirement is individual and cannot be used more than once. A course taken on a CR/NCR basis may not be used to satisfy program requirements.

First Year:

1.0 FCE from ECO100Y1/ECO101H1/ECO102H1/ECO105Y1

1.0 FCE from

SOC100H1/SOC1501/SOC101Y1/SOC102H1/SOC103H1/PSY100 H1

Higher Years:

1. All of IRE240H1, IRE244H1, IRE260H1, IRE430Y1 or (IRE430H1

and IRE431H1)

2. 0.5 FCE IRE 300-level course from Group A

3. Additional courses from Groups A and B (excluding courses already counted) for a total of 7.0 FCEs

Note: Students may only use a 1.0 FCE independent study and a 1.0 FCE research participation toward the Employment Relations program.

**Group A:** IRE339H1/ IRE346H1/ IRE347H1/ IRE348H1/ IRE367H1/ IRE378H1/ IRE379H1

**Group B:** ECO220Y1/ GGR221H1/ HIS313H1/ INI300H1/ IRE332Y0/ IRE344H1/ IRE345H1/ IRE349H1/ IRE395H1/ IRE395Y1/ IRE396H1/ IRE397Y1/ IRE432Y0/ IRE444H1/ IRE446H1/ IRE447H1/ IRE472H1/ IRE493H1/ IRE494H1 / JGI216H1/ MGT201H1/ PSY201H1/ PSY202H1/ RSM222H1/ RSM361H1/ RSM392H1/ RSM464H1/ RSM461H1/ SOC200H1/ SOC202H1/ SOC207H1/ SOC317Y1/ SOC366H1/ SOC367H1/ SOC439H1

Notes:

1. Students who have completed ECO239Y1/ ECO339Y1 may request to have the course counted in the Group B category. Please email your request to [er@utoronto.ca](mailto:er@utoronto.ca).
2. Non IRE courses: Some courses offered by other departments may be available only to students who have completed specified prerequisites or who are enrolled in a program sponsored by the department offering the course. Course enrolment conditions are listed in the Arts and Science [timetable](#). Course descriptions, prerequisites, corequisites and exclusions are listed in the [Calendar](#).

Not all courses are offered every year. Please check the [timetable](#) for current course offerings and enrolment restrictions/conditions. Students without course prerequisites will be removed at any time they are discovered. Course descriptions, prerequisites, corequisites and exclusions are listed below. Forms for independent study and research participation courses are available [here](#).

## Employment Relations, Centre for Industrial Relations and Human Resources Courses

### IRE240H1 - Introduction to Employment Relations

**Hours:** 36L

An introduction to the study of the world of work and employment, the history and development of employment relations, its central theories and concepts; the behaviours, outcomes, practices and institutions that emerge from or affect the employment relationship; contemporary issues and comparative employment relations systems.

**Prerequisite:** Enrolment in the Employment Relations program (ASSPE/ASMAJ1535) or 4.0 FCEs and a minimum cgpa of 2.3.

**Exclusion:** WDW240H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### IRE244H1 - Labour Relations

**Hours:** 36L

Introduction to the institutions, issues and legislation affecting the employment relationship in the public and private sectors in Canada, with emphasis on collective bargaining. The economic and political environment, history of the labour movement, union organization, certification, contract negotiation, strikes, dispute resolution, contract administration and grievances.

**Prerequisite:** Enrolment in the Employment Relations program (ASSPE1535/ASMAJ1535) or 4.0 or more FCEs and a minimum cgpa of 2.3.

**Exclusion:** ECO244Y1, WDW244H1, WDW244Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE260H1 - Organizational Behaviour

Hours: 36L

Introduction to the nature of organizations and the behaviour of individuals and groups within organizations, including topics such as culture and diversity, reward systems, motivation, leadership, politics, communication, decision-making, conflict and group processes. Not recommended for students in Commerce programs.

**Prerequisite:** Enrolment in the Employment Relations program (ASSPE1535/ASMAJ1535) or 4.0 or more FCEs and a minimum cgpa of 2.3

**Exclusion:** MGT262H1, RSM260H1, WDW260H1, WDW260Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE332Y0 - Topics in Employment Relations (Summer Abroad Program)

Hours: TBA

Topics in Employment Relations offered in an international setting. The content may vary from year to year. 2016 Summer Abroad (Italy) Topic: Cross Cultural Perspectives on Leadership. For more information check the [Summer Abroad](#) website.

**Exclusion:** WDW332Y0

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE339H1 - Labour Markets and Public Policy

Hours: 36L

This course is designed to provide students in the Employment Relations program with knowledge of how the labour market affects the employment relationship. The basic tools of labour economics are developed and applied to various issues of organizational and government policy such as: the incentive effects of compensation arrangements, government income support programs, and minimum wage policy; the determinants of preferences for hours of work including job-sharing, overtime and retirement; the impacts of unions on compensation and productivity; public-sector employment and alternatives to the right to strike; discrimination in employment on the basis of gender and race as well as related government policies such as pay and employment equity. Note: [IRE339H1](#) will not count towards an ECO program.

**Prerequisite:** ECO100Y1/ECO105Y1

**Exclusion:** ECO239Y1, ECO339Y1, ECO339H1, WDW339H1, ECO261H5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE344H1 - Topics in Employment Relations

Hours: 36L

Topics vary from year to year, but the objective of the course is to discuss current employment relations issues and their economic, legal, political and social implications.

**Prerequisite:** IRE244H1, IRE260H1. Additional prerequisites depending on topic.

**Exclusion:** WDW344H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE345H1 - Topics in Employment Relations

Hours: 36L

Topics vary from year to year, but the objective of the course is to discuss current employment relations issues and their economic, legal, political and social implications.

**Prerequisite:** IRE244H1, IRE260H1. Additional prerequisites depending on topic.

**Exclusion:** WDW345H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE346H1 - HR Planning & Strategy

Hours: 36L

An understanding is developed of how essential elements of the human resource planning process support organizational goals and strategies. Topics such as environmental influences, job analysis, forecasting human resource needs and ascertaining supply, succession planning, downsizing and restructuring, mergers and acquisitions, outsourcing, and strategic international issues are examined.

**Prerequisite:** IRE240H1/IRE244H1/IRE260H1

**Exclusion:** WDW346H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE347H1 - Training & Development

**Hours:** 36L

The role of training and development initiatives in organizations. Students acquire the knowledge and skills to conduct a training needs assessment, identify training objectives, explore strategies to increase the transfer of training, design and deliver a training activity using various training methodologies, and evaluate its effectiveness.

**Prerequisite:** IRE260H1

**Exclusion:** WDW347H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE348H1 - Recruitment & Selection

**Hours:** 36L

The principles, legal issues, and emerging trends affecting the recruitment process and selection of staff in organizations. Development of recruitment strategies, assessment of applications for employment, interviewing candidates, and the role of testing and measurement of competencies in making hiring decisions.

**Prerequisite:** IRE240H1/IRE244H1/IRE260H1

**Exclusion:** WDW348H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE349H1 - Topics in Employment Relations

**Hours:** 36L

Topics vary from year to year, but the objective of the course is to discuss current employment relations issues and their economic, legal, political and social implications.

**Prerequisite:** IRE244H1, IRE260H1. Additional prerequisites depending on topic.

**Exclusion:** WDW349H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE367H1 - Compensation

**Hours:** 36L

The theory and process of developing and administering compensation systems. Through the core compensation principles of efficiency, equity, consistency and competitiveness we consider such topics as: job analysis, job evaluation, pay levels and structures, pay for performance, benefits, and compensating special groups of workers.

**Prerequisite:** IRE260H1/RSM260H1

**Exclusion:** WDW367H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE378H1 - Employment Health

**Hours:** 36L

The influence of legislation, the labour market and collective bargaining on health policies and programs in the workplace. The rights and responsibilities of employers, employees, unions and governments for the regulation and promotion of workplace health and safety; and the implications of evolving demographic, economic, and social factors.

**Prerequisite:** IRE244H1/IRE260H1

**Exclusion:** WDW378H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE379H1 - Employment Relations Research and Human Resource Analytics

**Hours:** 36L

An introduction to fundamental quantitative and qualitative research methods to enable students to critically evaluate and conduct research in the labour field. The class will explore data-driven, analytical approaches to managing human resources using basic metrics, analysis, and interpretation of information that link human resource initiatives to various indicators of organizational performance.

**Prerequisite:** IRE240H1/IRE244H1/IRE260H1

**Exclusion:** WDW379H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE395H1 - Independent Study

Hours: TBA

Independent study under the direction of a faculty member. Open only when a faculty member is willing and available to supervise. Application form is due one week before the start of term. Consult the program website for additional information. Not eligible for CR/NCR option.

**Prerequisite:** IRE244H1, IRE260H1 and 1 300H level IRE course. Minimum cgpa of 2.3. Approval of the Program Coordinator.

**Exclusion:** WDW395H1 Employment Relations

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE395Y1 - Independent Study

Hours: TBA

Independent study under the direction of a faculty member. Open only when a faculty member is willing and available to supervise. Application form is due one week before the start of term. Consult the program [website](#) for additional information. Not eligible for CR/NCR option.

**Prerequisite:** IRE244H1, IRE260H1 and 1 300H level IRE course. Minimum cgpa of 2.3. Approval of the Program Coordinator.

**Exclusion:** WDW395Y1 Employment Relations

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE396H1 - Research Participation

Hours: TBA

Credit course for supervised participation in a faculty research project. Offered only when a faculty member is willing and available to supervise. Consult the program [website](#) for additional information. Not eligible for CR/NCR option.

**Prerequisite:** IRE244H1, IRE260H1 and 2 300H level IRE courses. Minimum cgpa of 2.5. Approval of the Program Coordinator.

**Exclusion:** WDW396H1 Employment Relations

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE397Y1 - Research Participation

Hours: TBA

Credit course for supervised participation in a faculty research project. Offered only when a faculty member is willing and available to supervise. Consult the program [website](#) for additional information. Not eligible for CR/NCR option.

**Prerequisite:** IRE244H1, IRE260H1 and 2 300H level IRE courses. Minimum cgpa of 2.5. Approval of the Program Coordinator.

**Exclusion:** WDW397Y1 Employment Relations

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE430H1 - Canadian Employment Law & the Non-Union Workplace

Hours: 24L

The course will focus on the law governing employment in a non-unionized workplace. Specifically, it will cover every phase of the employment relationship from hiring to termination and beyond and the rights and obligations of employers and employees as developed by the Courts and under employment-related statutes (namely the Employment Standards Act, 2000 and the Human Rights Code.) The course will also cover provisions from the Occupational Health and Safety Act.

**Prerequisite:** IRE244H1 and 1 300H level IRE course

**Exclusion:** IRE430Y1, WDW430Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE431H1 - Canadian Labour Law & the Unionized Workplace

Hours: 24L

The course will focus on the laws impacting unionized workplaces. It will cover every phase of the Ontario Labour Relations Act, 1995 (the LRA) from union organizing, certification, negotiation and bargaining, collective agreement arbitration, retention of bargaining rights and decertification and termination of bargaining rights.

**Prerequisite:** IRE430H1

**Exclusion:** IRE430Y1, WDW430Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE432Y0 - Advanced Topics in Employment/Labour Relations (Abroad)

**Hours:** TBA

Advanced topics in Employment Relations offered in an international setting. The content may vary from year to year. Offered by the Professional & International Programs Office.

**Prerequisite:** 13 FCEs including IRE244H1, IRE260H1 and 2 300H level IRE courses.

**Exclusion:** WDW432Y0

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE444H1 - Seminar in Employment Relations

**Hours:** 24S

An advanced seminar examining contemporary issues in the employment relations and human resources field. Topics vary from year to year, but the objective of the course is to discuss current issues and their economic, legal and social implications.

**Prerequisite:** IRE244H1, IRE260H1 and 2 300H level IRE courses

**Exclusion:** WDW444H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE446H1 - Working as an Internal Organizational Consultant

**Hours:** 24S

This course examines the various elements of the consulting process and the interpersonal skills required to build trust, influence others, contract with clients, and establish and maintain strong working relationships. This seminar may include a compulsory learning format component using a service-learning placement with a community-based agency or organization. Consult the current timetable for details.

**Prerequisite:** IRE244H1, IRE260H1 and 2 300H level IRE courses

**Exclusion:** WDW446H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

**Note:** This course will offer an International Course Module in Iceland over February Reading Week 2018.

## IRE447H1 - Contemporary Challenges Facing Today's Organizations

**Hours:** 24S

An advanced seminar exploring significant developments in organizations, and the challenges and opportunities facing professionals in the employment relations field. Emphasis is placed on developing problem solving and critical thinking skills and examining theories and concepts of employment relations.

**Prerequisite:** IRE244H1, IRE260H1, IRE379H1

**Exclusion:** WDW447H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE472H1 - Negotiations

**Hours:** 24S

Resolving conflicts constructively is a challenge faced by all organizations and most individuals. This course will cover fundamentals of the negotiation process and conflict resolution. This course will apply multiple cases and simulations providing students with several opportunities to build their skills.

**Prerequisite:** IRE244H1, IRE260H1 and 1 300H level IRE course

**Exclusion:** WDW372H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE473H1 - Sociology of Industrial Relations

**Hours:** 24S

This course introduces students to sociological approaches to work and industrial relations. Students are introduced to classical theories and then these perspectives are applied to analyze current labour market and employment relationships. The objective of this course is first to demonstrate how an understanding of industrial relations can be informed and enriched by classical and contemporary sociological perspectives. Second, it is to enable students to familiarise themselves with sociological perspectives so that they can compare and contrast, support or oppose, distinct approaches to industrial relations and the nature of work. This will facilitate a critical view of the theories that will be explored and applied in the course.

**Prerequisite:** SOC101Y1 or equivalent and at least 1 300 IRE half-credit course

**Distribution Requirements:** Social Science

## **IRE474H1 - Labour Arbitration**

**Hours:** 24S

This course will focus on grievance arbitration and examine both procedural and substantive issues, including the scope of arbitration, pre-arbitration and arbitration processes and select issues in arbitration - discipline and discharge, contract interpretation, disability accommodation, privacy and discrimination.

**Prerequisite:** IRE244H1 and 1 300H level IRE course

**Exclusion:** IRE1260H1

**Distribution Requirements:** Social Science

## **IRE493H1 - Advanced Topics in Employment Relations**

**Hours:** 24S

Advanced topics vary from year to year, but the objective of the course is to explore theories, concepts and emerging issues in Employment Relations and their impact on internal and external environments.

**Prerequisite:** IRE244H1, IRE260H1 and 2 300H level IRE courses

**Exclusion:** WDW493H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **IRE494H1 - Advanced Topics in Employment Relations**

**Hours:** 24S

Advanced topics vary from year to year, but the objective of the course is to explore theories, concepts and emerging issues in Employment Relations and their impact on internal and external environments.

**Prerequisite:** IRE244H1, IRE260H1 and 2 300H level IRE courses

**Exclusion:** WDW494H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

#### **Assistant Professor, Teaching Stream**

S. Rayter, MA, PhD (U)

## **Introduction**

To study literature is to engage, through the medium of the written word, with some of history's most creative and articulate minds as they contemplate fundamental and persistent questions: What does it mean to be an individual in society? What is the purpose of art? What is the significance of human endeavor, and what are the limits of human experience? As a student in the English program you will be introduced to the literary tradition in English, a fascinating conversation spanning over a thousand years and connecting nations and peoples all across the globe. In addition, you will be trained in methods of critical reading and writing which will help you not only to comprehend, but also to grapple with, the complexity of texts and of the authors and societies that produce them. The skills acquired by students of English are directly applicable to any career that requires critical thinking and analysis—from education to government, law to engineering, business to medicine, and beyond. Perhaps just as valuably, the study of English will provide you with models and tools for discovering and articulating your own complex perspective on art, history, society, and your relation to all three.

The Department of English offers courses in Canadian and Indigenous North American literature; in American and transnational literatures; in the national and diasporic English literatures of Africa,

the Caribbean, and South Asia; in British literature from its origins to the present day; and in the critical and theoretical literature through which literary critics and philosophers have developed vocabulary and methods for describing the forms, histories, and ideologies of literary art.

English courses are arranged in four series. Courses in our 100 series introduce students, in large lectures, to the study of English literature through sweeping surveys: of the literary tradition from Homer through the 19th century; of literature written in direct response to the events of recent decades; or of narrative forms in many genres and historical periods. Most 100-series courses include small-group tutorials, where students are introduced to critical reading and writing skills; essays at the 100 level typically do not require research or secondary sources. Courses in the 200 series are devoted to the study of literature in a specific genre, or the literature of a specific place or people. Coursework at the 200 level may require some research or engagement with critical literature on the subject. 300-series courses focus on particular literary periods, on diasporic literatures, and on special topics within a literature or literary genre. Courses at this level introduce students to research skills and typically require essays that incorporate secondary sources. Courses in the 400 series are both advanced and focused—unique courses created by Department faculty which often relate to their own research. These courses require a substantial research essay.

The Department of English offers several Programs of Study. The Specialist is the most intensive and comprehensive, requiring a minimum of ten full-course equivalents (FCE) in a 20-FCE degree. The Major is the Department's most popular program. It provides both depth and breadth to students who wish to focus on English studies but also wish to leave room in their degrees to pursue other interests. The Minor is the Department's second-most popular program, and can be combined with Majors or Specialists in a wide variety of other fields. On the presumption that the Minor is a curiosity-driven program, Minors are exempt from the distribution requirements of the Specialist and Major.

Students with questions about English Programs should consult the Office of the Associate Chair or the Undergraduate Counsellor. Students interested in graduate school in English should seek advice on course selection from their professors, academic counsellors, and the Office of the Director of Graduate Studies. Students considering a teaching career in Ontario should consult the admission counsellors at the Ontario Institute for Studies in Education/UT.

The Department of English publishes detailed course descriptions and reading lists online, usually by the beginning of May. Students are urged to consult these course descriptions at [www.english.utoronto.ca](http://www.english.utoronto.ca) before enrolment begins.

Associate Chair: Professor J. Lopez, Room 608, 170 St. George Street

Undergraduate Counsellor: Ms V. Holmes, Room 609, 170 St. George Street (416-978-5026)

General Enquiries: Room 610, 170 St. George Street (416-978-3190)

## **Regarding English Programs**

**Enrolment in the English Specialist program requires a final grade of at least 73% in ENG110Y1, ENG140Y1, or ENG150Y1;**

or, after second year, a final grade of at least 77% in 2.0 ENG 200-series FCE. Students are responsible for completing all the requirements of an English program from the Calendar of the year in which they enrolled in the program. Completion of a first-year ENG course is not a requirement for any of our programs. Please note that we do not accept any CR/NCR courses toward any of our programs.

## English Programs

### English Specialist (Arts Program)

#### Enrolment Requirements:

Enrolment in the English Specialist program requires a final grade of at least 73% in ENG110Y, ENG140Y, or ENG150Y. Students applying to enrol in the Specialist after second year require a final grade of at least 77% in 2.0 ENG 200-series FCE. Students are responsible for completing all the requirements of an English program from the Calendar of the year in which they enrolled in the program.

#### Completion Requirements:

Ten FCE (including at least 7.0 ENG FCE) from the courses listed below, including 3.0 300+series FCE and 1.0 400-series ENG FCE.

Only 1.0 100-series ENG FCE may be counted. ENG100H1 may not be counted.

Courses must fulfill the following requirements:

1. At least 1.0 FCE from Group 1 (Theory, Language, Methods)
2. At least 1.0 FCE from Group 2 (Canadian and Indigenous North American Literatures)
3. At least 1.0 FCE from Group 3 (American and Transnational Literatures)
4. At least 3.0 FCE from Group 4 (British Literature to the 19th Century)
5. At least 1.5 FCE from Group 5 (Literature since the 18th Century)
6. ENG287H1; if not, STA201H1 Why Numbers Matter, or 0.5 FCE in any other BR=5 course

### English Major (Arts Program)

#### Completion Requirements:

Seven FCE (including at least 5.0 ENG FCE) from the courses listed below, including 1.5 300+series FCE and 0.5 400-level ENG FCE.

Only 1.0 100-series ENG FCE may be counted. ENG100H1 may not be counted.

Courses must fulfill the following requirements:

1. At least 0.5 FCE from Group 1 (Theory, Language, Methods)
2. At least 1.0 FCE from Group 2 (Canadian and Indigenous North American Literatures)
3. At least 1.0 FCE from Group 3 (American and Transnational Literatures)
4. At least 2.0 FCE from Group 4 (British Literature to the 19th Century)

5. At least 1.0 FCE from Group 5 (Literature since the 18th Century)
6. ENG287H1; if not, STA201H1 Why Numbers Matter, or 0.5 FCE in any other BR=5 course

## English Minor (Arts Program)

#### Completion Requirements:

Four FCE (including at least 3.0 ENG FCE) from the courses listed below, including 1.0 300+series FCE.

Only 1.0 100-series ENG FCE may be counted. ENG100H1 may not be counted.

## Asian Literatures and Cultures Minor (Arts Program)

#### Completion Requirements:

This humanities-based Type 3 Minor program represents a unique opportunity to study Asian Literatures and Cultures within a Southasian location. Students take core subjects at the first-year or second-year level in Toronto and then spend one semester of their second, third or fourth year at the National University of Singapore (NUS) where they are enrolled in lecture courses. For more information, contact the English Undergraduate Office and the Centre for International Experience at [www.cie.utoronto.ca](http://www.cie.utoronto.ca).

Four FCE, including ENG270Y1 and one other ENG FCE from the list above and two appropriate NUS FCE, including at least one 300-series ENG or NUS FCE. Students are advised to contact the Undergraduate Counsellor in advance of going abroad to discuss course selection at NUS.

## Course Groups

### Courses that may be counted toward English programs but that are not grouped:

- ENG110Y1 Narrative
- or
- ENG140Y1 Literature for our Time
- or
- ENG150Y1 The Literary Tradition
- ENG299Y1 Research Opportunity Program
- ENG389Y1 Creative Writing
- ENG390Y1 Individual Studies
- or
- ENG392H1 Individual Studies
- ENG391Y1 Individual Studies (Creative)
- or
- ENG393H1 Individual Studies (Creative)
- ENG398H0 Research Excursions
- ENG399Y0 Research Excursions
- ENG499Y1 Advanced Research Seminar

## Group 1: Theory, Language, Methods

- [ENG201Y1 Reading Poetry](#)
- [ENG205H1 Rhetoric](#)
- [ENG280H1 Critical Approaches to Literature](#)
- [ENG285H1 The English Language in the World](#)
- [ENG287H1 The Digital Text](#)
- [ENG380H1 History of Literary Theory](#)
- [ENG382Y1 Contemporary Literary Theory](#)
- [ENG383H1 Critical Methods](#)
- [ENG384Y1 Literature and Psychoanalysis](#)
- [ENG385H1 History of the English Language](#)
- [ENG414H1 Advanced Studies: Theory, Language, Methods](#)
- [ENG415H1 Advanced Studies: Theory, Language, Methods](#)
- [ENG418H1 Advanced Studies Seminar: Theory, Language, Methods](#)
- [JEI206H1 Writing English Essays](#)
- [PHL285H1 Aesthetics](#)
- [PHL388H1 Literature and Philosophy](#)
- [SMC229H1 Readers and Readerships \(formerly SMC228Y1\)](#)
- [VIC301H1 Critical Writing Seminar](#)

## Group 2: Canadian and Indigenous North American Literatures

- [ENG215H1 The Canadian Short Story](#)
- [ENG252Y1 Canadian Literature](#)
- [ENG254Y1 Indigenous Literatures of North America](#)
- [ENG350H1 Early Canadian Literature](#)
- [ENG352H1 Canadian Drama](#)
- [ENG353Y1 Canadian Fiction](#)
- [ENG354Y1 Canadian Poetry](#)
- [ENG355H1 Indigenous Women's Literature](#)
- [ENG357H1 New Writing in Canada](#)
- [ENG359H1 African Canadian Literature](#)
- [ENG424H1 Advanced Studies: Canadian and Indigenous North American Literatures](#)
- [ENG425H1 Advanced Studies: Canadian and Indigenous North American Literatures](#)
- [ENG428H1 Advanced Studies Seminar: Canadian and Indigenous North American Literatures](#)
- [CDN218H1 Voices in Canadian Writing \(formerly UNI218H1\)](#)
- [INS322H1 Indigenous Narratives of Empowerment](#)
- [INS341H1 North American Indigenous Theatre](#)
- [ITA233H1 Italian-Canadian Literature \(formerly ITA233Y1\)](#)
- [JSU325H1 Queerly Canadian \(formerly UNI325H1\)](#)
- [SLA238H1 Literature of the Ukrainian-Canadian Experience](#)
- [SMC376H1 Irish Canadian Literature](#)

## Group 3: American and Transnational Literatures

- [ENG250Y1 American Literature](#)
- [ENG270Y1 Colonial and Postcolonial Writing](#)
- [ENG273Y1 Queer Writing](#)

- [ENG360H1 Early American Literature](#)
- [ENG363Y1 Nineteenth-Century American Literature](#)
- [ENG364Y1 Twentieth-Century American Literature](#)
- [ENG365H1 Contemporary American Fiction](#)
- [ENG366H1 Caribbean Literature \(formerly ENG264H1\)](#)
- [ENG367H1 African Literatures in English \(formerly ENG278Y1\)](#)
- [ENG368H1 Asian North American Literature \(formerly ENG268H1\)](#)
- [ENG369H1 South Asian Literatures in English \(formerly ENG269H1\)](#)
- [ENG370H1 Postcolonial and Transnational Discourses](#)
- [ENG375H1 Topics in Jewish Literature](#)
- [ENG434H1 Advanced Studies: American and Transnational Literatures](#)
- [ENG435H1 Advanced Studies: American and Transnational Literatures](#)
- [ENG438H1 Advanced Studies Seminar: American and Transnational Literature](#)
- [EAS284H1 Modern Chinese Literature](#)
- [EAS284Y1 Modern Chinese Literature](#)
- [NEW322H1 The Contemporary African Novel \(formerly NEW322Y1\)](#)

## Group 4: British Literature to the 19th Century

- [ENG200H1 The Bible in Literature](#)
- [ENG202Y1 British Literature: Medieval to Romantic](#)
- [ENG220Y1 Shakespeare](#)
- [ENG240Y1 Old English Language & Literature](#)
- [ENG300Y1 Chaucer](#)
- [ENG301H1 Spenser](#)
- [ENG302Y1 Poetry and Prose, 1500-1600](#)
- [ENG303H1 Milton](#)
- [ENG304Y1 Poetry and Prose, 1600-1660](#)
- [ENG305H1 Swift, Pope, and Their Contemporaries](#)
- [ENG306Y1 Poetry and Prose, 1660-1800](#)
- [ENG307H1 Women Writers, 1660-1800](#)
- [ENG308Y1 Romantic Poetry and Prose](#)
- [ENG311H1 Medieval Literature](#)
- [ENG322Y1 Fiction before 1832](#)
- [ENG323H1 Austen and Her Contemporaries](#)
- [ENG330H1 Early Drama](#)
- [ENG331H1 Drama to 1603](#)
- [ENG335H1 Drama 1603 to 1642](#)
- [ENG336H1 Topics in Shakespeare](#)
- [ENG337H1 Drama, 1660-1800](#)
- [ENG444H1 Advanced Studies: British Literature to the 19th Century](#)
- [ENG445H1 Advanced Studies: British Literature to the 19th Century](#)
- [ENG448H1 Advanced Studies Seminar: British Literature to the 19th Century](#)
- [CLA204H1 Introduction to Classical Mythology](#)
- [CLA236H1 Greek and Roman Epic](#)
- [ITA200H1 Major Italian Authors in Translation: from Dante to Tasso](#)
- [MST200Y1 Getting Medieval: The Many Middle Ages](#)
- [MST201H1 Getting Medieval: Language and Literature](#)
- [MST202H1 Getting Medieval: Place and Space](#)

- [NMC256H1 1001 Nights Around the World](#)
- [SMC226H1 King Arthur](#)
- [VIC342H1 Women and Writing in the Renaissance](#)
- [VIC344H1 Renaissance Narrative \(formerly VIC242H1\)](#)

## Group 5: Literature since the 18th Century

- [ENG210Y1 The Novel](#)
- [ENG213H1 The Short Story](#)
- [ENG214H1 The Short-Story Collection](#)
- [ENG232H1 Biography and Autobiography](#)
- [ENG234H1 Children's Literature](#)
- [ENG235H1 The Graphic Novel](#)
- [ENG236H1 Detective Fiction](#)
- [ENG237H1 Science Fiction](#)
- [ENG239H1 Fantasy and Horror](#)
- [ENG324Y1 Fiction, 1832-1900](#)
- [ENG325H1 Victorian Realist Novels](#)
- [ENG328Y1 Modern Fiction to 1960](#)
- [ENG329H1 Contemporary British Fiction](#)
- [ENG340H1 Modern Drama to World War II](#)
- [ENG341H1 Modern Drama since World War II](#)
- [ENG347Y1 Victorian Poetry and Prose](#)
- [ENG348Y1 Modern Poetry to 1960](#)
- [ENG349H1 Contemporary Poetry](#)
- [ENG454H1 Advanced Studies: Literature since the 18th Century](#)
- [ENG455H1 Advanced Studies: Literature since the 18th Century](#)
- [ENG458H1 Advanced Studies Seminar: Literature since the 18th Century](#)
- [DRM342H1 The Contemporary Avant-Garde](#)
- [FIN240H1 Masterpieces of Scandinavian Literature](#)
- [GER220H1 German Literature in Translation \(E\) \(formerly GER204H1\)](#)
- [GER240H1 German Drama in Translation \(E\) \(formerly GER232H1\)](#)
- [SLA212H1 The Russian Novel](#)
- [SLA252H1 Russian Short Fiction](#)
- [SMC342Y1 Literature of Three Nations: Ireland, Scotland and Wales](#)
- [SMC375H1 The Contemporary Irish Novel](#)
- [SPA254H1 Cervantes and Modern Fiction](#)

## Regarding English Courses

*Please note: Not all courses are offered every year.*

Only ONE of ENG110Y1, ENG140Y1, or ENG150Y1 may be counted toward English program requirements. ENG100H1 may not be used to meet the requirements of any English program. First-year students may enrol in a 200-series ENG course if they are concurrently enrolled in ENG110Y1, ENG140Y1, or ENG150Y1. English 200-series courses are open to students who have obtained standing in 1.0 ENG FCE or in any 4.0 FCE. Students without these prerequisites may enrol in a 200-series course if they are concurrently enrolled in ENG110Y1, ENG140Y1, or ENG150Y1. English 300-series courses are open to students who have obtained standing in 4.0 FCE, including 2.0 ENG FCE. Students should note the special prerequisites for ENG389Y1, ENG390Y1, ENG391Y1, ENG392H1 and ENG393H1: consult the descriptions online before

the May 15 deadline for instructions on applying for these courses. English 400-series courses are open to students who have obtained standing in 9.0 FCE, including 4.0 ENG FCE. Students who require a 400-series course to satisfy their program requirements have enrolment priority in the first round of course enrolment. Individual topics to be specified by instructors. Seminars are designed to provide students with the opportunity to practice their skills of research and interpretation at a particularly advanced level. These courses are not eligible for the CR/NCR option. **Please note that prerequisites and exclusions will be strictly enforced.**

### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## English Courses

### ENG100H1 - Effective Writing

**Hours:** 36L

Practical tools for writing in university and beyond. Students will gain experience in generating ideas, clarifying insights, structuring arguments, composing paragraphs and sentences, critiquing and revising their writing, and communicating effectively to diverse audiences. This course may not count toward any English program.

**Distribution Requirements:** Humanities

### ENG110Y1 - Narrative

**Hours:** 72L

This course explores the stories that are all around us and that shape our world: traditional literary narratives such as ballads, romances, and novels, and also non-literary forms of narrative, such as journalism, movies, myths, jokes, legal judgments, travel writing, histories, songs, diaries, biographies.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG140Y1 - Literature for our Time

**Hours:** 48L/24T

An exploration of how recent literature in English responds to our world. Includes poetry, prose, and drama by major writers of the twentieth century and emerging writers of the current century.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG150Y1 - The Literary Tradition

**Hours:** 72L

An introduction to major authors, ideas, and texts that shaped and continue to inform the ever-evolving traditions of literature in English. Includes works and authors from antiquity to the nineteenth century such as the Bible, the Qur'an, Plato, Homer, Sappho, Virgil, Dante, Christine de Pizan, Shakespeare, Cervantes, Montaigne, Austen, Dostoevski.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG200H1 - The Bible in Literature

**Hours:** 36L

This course introduces the Bible and explores its influence on literary traditions. Through close readings of literary texts that rework biblical material, we will explore issues such as translation, reception, intertextuality, and form.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG201Y1 - Reading Poetry

**Hours:** 72L

An introduction to poetry through a close reading of texts, focusing on its traditional forms, themes, techniques, and uses of language; its historical and geographical range; and its twentieth-century diversity.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG202Y1 - British Literature: Medieval to Romantic

**Hours:** 72L

An introduction to influential texts that have shaped the British literary heritage, covering approximately twelve writers of poetry, drama, and prose, from Chaucer to Keats, with attention to such questions as the development of the theatre, the growth of the novel form, and the emergence of women writers.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG205H1 - Rhetoric

**Hours:** 36L

An introduction to the rhetorical tradition from classical times to the present with a focus on prose as strategic persuasion. Besides rhetorical terminology, topics may include the discovery and arrangement of arguments, validity in argumentation, elements of style, and rhetorical criticism and theory.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JEI206H1 - Writing English Essays

**Hours:** 24L/12T

This course teaches students who already write effectively how to write clear, compelling, research-informed English essays. The course aims to help students recognize the function of grammar and rhetoric, the importance of audience, and the persuasive role of style.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE. English students have priority.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG210Y1 - The Novel

**Hours:** 72L

An introduction to the novel through a reading of ten to twelve texts, representing a range of periods, techniques, regions, and themes.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG213H1 - The Short Story

**Hours:** 36L

This course explores shorter works of nineteenth- and twentieth-century writers. Special attention is paid to formal and rhetorical concepts for the study of fiction as well as to issues such as narrative voice, allegory, irony, and the representation of temporality.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG214H1 - The Short-Story Collection

**Hours:** 36L

This course explores collections of short stories. It examines individual stories, the relationships among and between stories, the dynamics of the collection as a whole, the literary history of this genre, along with its narrative techniques and thematic concerns.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG215H1 - The Canadian Short Story

**Hours:** 36L

An introduction to the Canadian short story, this course emphasizes its rich variety of settings, subjects, and styles.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG220Y1 - Shakespeare

**Hours:** 72L

A representative survey of Shakespeare's work, covering the different periods of his career and the different genres in which he worked. Readings may include such plays as *The Taming of the Shrew*, *Richard III*, *Henry IV*, *Twelfth Night*, *Hamlet*, *Macbeth*, and *The Tempest*. Non-dramatic poetry may also be included.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG232H1 - Biography and Autobiography

**Hours:** 36L

An introduction to biography and autobiography, with a sampling of important examples in English.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG234H1 - Children's Literature

**Hours:** 36L

A critical and historical study of poetry and fiction written for or appropriated by children, this course may also include drama or non-fiction and will cover works by at least twelve authors such as Bunyan, Stevenson, Carroll, Twain, Alcott, Nesbit, Montgomery, Milne, Norton, Fitzhugh.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG235H1 - The Graphic Novel

**Hours:** 36L

An introduction to book-length sequential art, this course includes fictional and nonfictional comics, with a focus on formal properties such as narrative layout and text/art hybridity. Themes vary but may include superheroes; auto/biography; the figure of the outsider; women in comics; alienation and youth; and war reporting.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG236H1 - Detective Fiction

**Hours:** 36L

At least twelve works by such authors as Poe, Dickens, Collins, Doyle, Chesterton, Christie, Sayers, Van Dine, Hammett, Chandler, Faulkner, P.D. James, Rendell.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG237H1 - Science Fiction

**Hours:** 36L

This course explores speculative fiction that invents or extrapolates an inner or outer cosmology from the physical, life, social, and human sciences. Typical subjects include AI, alternative histories, cyberpunk, evolution, future and dying worlds, genetics, space/time travel, strange species, theories of everything, utopias, and dystopias.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG239H1 - Fantasy and Horror

**Hours:** 36L

This course explores speculative fiction of the fantastic, the magical, the supernatural, and the horrific. Subgenres may include alternative histories, animal fantasy, epic fantasy, the Gothic, fairy tales, magic realism, sword and sorcery, and vampire fiction.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG240Y1 - Old English Language & Literature

**Hours:** 72L

Prepares students to read the oldest English literary forms in the original language. Introduces the earliest English poetry in a woman's voice, expressions of desire, religious fervour, and the agonies of war. Texts, written 680 - 1100, range from the epic of Beowulf the dragon-slayer to ribald riddles.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG250Y1 - American Literature

**Hours:** 72L

An introductory survey of major works in American literature, this course explores works in a variety of genres, including poetry, fiction, essays, and slave narratives.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG252Y1 - Canadian Literature

**Hours:** 72L

An introductory survey of major Canadian works in poetry, prose, and drama from early to recent times.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG254Y1 - Indigenous Literatures of North America

**Hours:** 72L

An introduction to Indigenous North American writing in English, with significant attention to Aboriginal literatures in Canada. The writings are placed within the context of Indigenous cultural and political continuity, linguistic and territorial diversity, and living oral traditions. The primary focus is on contemporary Indigenous writing.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG270Y1 - Colonial and Postcolonial Writing

**Hours:** 72L

In this course we study literary and non-literary texts from the nineteenth century to the present day. Colonial texts are analysed alongside postcolonial interpretations of the nineteenth-century archive, giving students a grasp of colonial discourse and contemporary postcolonial analyses.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG273Y1 - Queer Writing

**Hours:** 72L

Introducing a lesbian, gay, bisexual, trans, and queer tradition in literature and theory, this course explores classical, modern, postmodern, and contemporary literature, criticism, art, film, music, and popular culture.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG280H1 - Critical Approaches to Literature

**Hours:** 36L

A practical introduction to literary theory and its central questions, such as the notion of literature itself, its political underpinnings, the relation between literature and reality, the making of literary canons, and the roles of the author and the reader.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG285H1 - The English Language in the World

**Hours:** 36L

Many-voiced modern English dominates science, business, diplomacy, and popular cultures worldwide. This introductory course surveys transnational, regional, and social varieties of Later Modern English; the linguistic and social factors that have shaped them; their characteristic structures; and their uses in speech and in writing, both literary and non-literary.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ENG287H1 - The Digital Text

**Hours:** 24L/12T

Explores the relations between digital technology and literary studies. Students will use such tools as computer-assisted analysis, digital editions, and visualization to ask new questions about literature. Readings may include born-digital fiction. Students will gain hands-on experience with digital technology, but no programming experience is required.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## ENG300Y1 - Chaucer

**Hours:** 72L

The foundation of English literature: in their uncensored richness and range, Chaucer's works have delighted wide audiences for over 600 years. Includes *The Canterbury Tales*, with its variety of narrative genres from the humorous and bawdy to the religious and philosophical, and *Troilus and Criseyde*, a profound erotic masterpiece.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG301H1 - Spenser

**Hours:** 36L

Selections from *The Faerie Queene* and other works.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG302Y1 - Poetry and Prose, 1500-1600

**Hours:** 72L

Considering literature during the reign of the Tudors, this course may include poetry of Wyatt, Sidney, Mary Sidney Herbert, Marlowe, Shakespeare, Spenser, and Donne; prose of More, Askew, Sidney, Hakluyt, Hooker, Elizabeth I, Lyly, and Nashe; and supplementary readings from such writers as Erasmus, Castiglione, Machiavelli.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG303H1 - Milton

**Hours:** 36L

Selections from *Paradise Lost* and other works.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG304Y1 - Poetry and Prose, 1600-1660

**Hours:** 72L

Considering literature during the reign of the early Stuarts and the Civil War, with special attention to Milton and *Paradise Lost*, this course also includes such poets as Donne, Jonson, Lanyer, Wroth, Herbert, Marvell, and such prose writers as Bacon, Clifford, Donne, Wroth, Burton, Cary, Browne, Hobbes, Milton, Cavendish.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG305H1 - Swift, Pope, and Their Contemporaries

**Hours:** 36L

Selected works in prose and verse by Swift and Pope studied alongside works by their contemporaries. Topics may include the legitimacy of satire, the role of criticism, and the growing importance of writing by women.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG306Y1 - Poetry and Prose, 1660-1800

**Hours:** 72L

Writers of this period grapple with questions of authority and individualism, tradition and innovation, in politics, religion, knowledge, society, and literature itself. Special attention to Dryden, Pope, Swift, Johnson, and at least six other authors.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG307H1 - Women Writers, 1660-1800

**Hours:** 36L

A study of poems, plays, novels, letters, periodical essays, polemical works, and books for children by such writers as Cavendish, Behn, Finch, Centlivre, Leapor, Burney, Wollstonecraft. Topics may include patronage and publishing; nationality, class, and gender; and generic conventions.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG308Y1 - Romantic Poetry and Prose

**Hours:** 72L

Poetry and critical prose of Blake, W. Wordsworth, Coleridge, Byron, P.B. Shelley, and Keats; may include selections from other writers such as Crabbe, Scott, Landor, Clare, D. Wordsworth, M. Shelley, De Quincey.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG311H1 - Medieval Literature

**Hours:** 36L

This course explores a selection of writings in early English, excluding those by Chaucer.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG322Y1 - Fiction before 1832

**Hours:** 72L

This course studies the emergence of prose fiction as a genre recognized in both a literary and a commercial sense. Authors may include Behn, Defoe, Richardson, Fielding, Sterne, Scott, and Austen.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG323H1 - Austen and Her Contemporaries

**Hours:** 36L

A study of selected novels of Jane Austen and of works by such contemporaries as Radcliffe, Godwin, Wollstonecraft, Wordsworth, Edgeworth, Scott, and Shelley, in the context of the complex literary, social, and political relationships of that time.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG324Y1 - Fiction, 1832-1900

**Hours:** 72L

Exploring the social and political dilemmas of a culture in transition, this course studies such topics as the comic art of Dickens, Trollope, and Thackeray, the Gothicism of the Brontës, the crisis of religious faith in George Eliot, and the powerful moral fables of Hardy. Students will read 10-12 novels.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG325H1 - Victorian Realist Novels

**Hours:** 36L

This course explores forms of realism in Victorian fiction and includes at least six novels by such authors as Dickens, Thackeray, George Eliot, Charlotte Brontë, Gaskell, Collins, Trollope, Hardy.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG328Y1 - Modern Fiction to 1960

**Hours:** 72L

This course explores ten to twelve works by such writers as James, Conrad, Cather, Forster, Joyce, Woolf, Lawrence, Faulkner, Rhys, Hemingway, Achebe, Ellison, Spark, Lessing.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG329H1 - Contemporary British Fiction

**Hours:** 36L

This course explores six or more works by at least four British contemporary writers of fiction.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG330H1 - Early Drama

**Hours:** 36L

Texts and performances preceding and underlying the plays of Shakespeare and his contemporaries, including creation-to-doomsday play cycles; plays performed in parishes, inns, great halls, outdoor arenas, and at court; religious and political propaganda plays; political pageants. Attention to social, political, and theatrical contexts.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG331H1 - Drama to 1603

**Hours:** 36L

This course explores English drama to the end of the reign of Queen Elizabeth I, with attention to such playwrights as Lyly, Kyd, Marlowe, Shakespeare.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG335H1 - Drama 1603 to 1642

**Hours:** 36L

This course explores English drama from the death of Queen Elizabeth I to the closing of the theatres, with attention to such playwrights as Jonson, Middleton, Shakespeare, Webster.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG336H1 - Topics in Shakespeare

**Hours:** 36L

A concentrated study of one aspect of Shakespeare's work, such as his use of a particular genre, a particular period of his work, a recurring theme, or the application of a particular critical approach.

**Prerequisite:** 2.0 ENG FCE including ENG220Y1, and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG337H1 - Drama, 1660-1800

**Hours:** 36L

At least twelve plays, including works by Dryden, Wycherley, Congreve, and their successors, chosen to demonstrate the modes of drama practised during the period, the relationship between these modes and that between the plays and the theatres for which they were designed.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG340H1 - Modern Drama to World War II

**Hours:** 36L

A study of plays in English by such dramatists as Wilde, Yeats, Shaw, Synge, Glaspell, Hughes, O'Neill, as well as plays in translation by such dramatists as Ibsen, Chekhov, Strindberg, Pirandello.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG341H1 - Modern Drama since World War II

**Hours:** 36L

A study of plays by such dramatists as Beckett, Miller, Williams, Pinter, Soyinka, Churchill, with background readings from other dramatic literatures.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG347Y1 - Victorian Poetry and Prose

**Hours:** 72L

Writers (such as Darwin, Tennyson, Browning, Wilde, Nightingale, Christina Rossetti, Kipling) respond to crisis and transition: the Industrial Revolution, the Idea of Progress, and the "Woman Question"; conflicting claims of liberty and equality, empire and nation, theology and natural selection; the Romantic inheritance, Art-for-Arts-Sake, Fin de siècle, and "Decadence."

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG348Y1 - Modern Poetry to 1960

**Hours:** 72L

Special study of Yeats, Pound, Eliot, Auden, Stevens; selections from other poets.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG349H1 - Contemporary Poetry

**Hours:** 36L

Works by at least six contemporary poets, such as Ammons, Ashbery, Heaney, Hughes, Lowell, Muldoon, Plath.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG350H1 - Early Canadian Literature

**Hours:** 36L

Writing in English Canada before 1914, from a variety of genres such as the novel, poetry, short stories, exploration and settler accounts, nature writing, criticism, First Nations cultural production.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG352H1 - Canadian Drama

**Hours:** 36L

A study of major Canadian playwrights and developments since 1940, with some attention to the history of the theatre in Canada.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG353Y1 - Canadian Fiction

**Hours:** 72L

A study of ten to twelve Canadian works of fiction, primarily novels.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG354Y1 - Canadian Poetry

**Hours:** 72L

A study of major Canadian poets, modern and contemporary.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG355H1 - Indigenous Women's Literature

**Hours:** 36L

A study of works by Indigenous women writers from North America and beyond, with significant attention to Aboriginal writers in Canada. Texts engage with issues of de/colonization, representation, gender, and sexuality, and span multiple genres, including fiction, life writing, poetry, drama, film, music, and creative non-fiction.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG357H1 - New Writing in Canada

**Hours:** 36L

Close encounters with recent writing in Canada: new voices, new forms, and new responses to old forms. Texts may include or focus on poetry, fiction, drama, non-fiction, or new media.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG359H1 - African Canadian Literature

**Hours:** 36L

Black Canadian Literature (poetry, drama, fiction, non-fiction) from its origin in the African Slave Trade in the eighteenth century to its current flowering as the expression of immigrants, exiles, refugees, ex-slave-descended, and colonial-settler-established communities. Pertinent theoretical works, films, and recorded music are also considered.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG360H1 - Early American Literature

**Hours:** 36L

This course explores writing in a variety of genres produced in the American colonies in the seventeenth and eighteenth centuries, such as narratives, poetry, autobiography, journals, essays, sermons, court transcripts.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG363Y1 - Nineteenth-Century American Literature

**Hours:** 72L

This course explores American writing in a variety of genres from the end of the Revolution to the beginning of the twentieth century.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG364Y1 - Twentieth-Century American Literature

**Hours:** 72L

This course explores twentieth-century American writing in a variety of genres.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG365H1 - Contemporary American Fiction

Hours: 36L

This course explores six or more works by at least four contemporary American writers of fiction.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG366H1 - Caribbean Literature

Hours: 36L

Literatures and cultures of the Caribbean and the diaspora, including fiction, poetry, theory, drama, film, and other media.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG367H1 - African Literatures in English

Hours: 36L

What, if anything, is distinctively "African" in African texts; what might it mean to produce "African" readings of African literature? We address these, as well as other questions, through close readings of oral performances and literary and other cultural texts.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG368H1 - Asian North American Literature

Hours: 36L

Literature and cultures of Asian Canadians and Asian Americans, including fiction, poetry, theory, drama, film, and other media.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG369H1 - South Asian Literatures in English

Hours: 36L

Major authors and literary traditions of South Asia, with specific attention to literatures in English from India, Sri Lanka, Pakistan, Bangladesh, and the diaspora. The focus will be on fiction and poetry with some reference to drama.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG370H1 - Postcolonial and Transnational Discourses

Hours: 36L

This course focuses on recent theorizations of postcoloniality and transnationality through readings of fictional and non-fictional texts, along with analyses of contemporary films and media representations.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG375H1 - Topics in Jewish Literature

Hours: 36L

Jewish literature in English, focusing on questions of language, history, religion, national identity, and genre. May include prose, poetry, drama, film, or music from various Jewish literary communities.

**Prerequisite:** 2.0 ENG/CJS FCE and any 4.0 FCE, or permission of the instructor and the Associate Chair.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG380H1 - History of Literary Theory

Hours: 36L

Literary theory from classical times to the nineteenth century. Topics include theories of the imagination, genre analysis, aesthetics, the relations between literature and reality and literature and society, and the evaluation and interpretation of literature.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG382Y1 - Contemporary Literary Theory

**Hours:** 72L

This course explores literary theory from the early twentieth century to the present. Schools or movements studied may include structuralism, formalism, phenomenology, Marxism, post-structuralism, reader-response theory, feminism, queer theory, new historicism, psychoanalysis, postcolonial theory, and cultural and race studies.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Thought, Belief and Behaviour (2)

## ENG383H1 - Critical Methods

**Hours:** 36L

Sustained study of one school, movement, or approach in literary theory, history, or criticism. Content varies with instructors.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG384Y1 - Literature and Psychoanalysis

**Hours:** 72L

An introduction to psychoanalysis for students of literature, this course considers major psychoanalytic ideas through close readings of selected texts by Freud. The course also explores critiques and applications of Freud's work and examines a selection of literary texts that engage psychoanalytic theory.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Thought, Belief and Behaviour (2)

## ENG385H1 - History of the English Language

**Hours:** 36L

This course explores English from its prehistory to the present day, emphasizing Old, Middle, and Early Modern English and the theory and terminology needed to understand their lexical, grammatical, and phonological structure; language variation and change; codification and standardization; literary and non-literary usage.

**Prerequisite:** 2.0 ENG FCE and any 4.0 FCE

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ENG389Y1 - Creative Writing

**Hours:** 72S

Restricted to students who in the opinion of the Department show special aptitude for writing poetry, fiction, or drama. For application procedure, see the descriptions online and submit an application by May 15. Not eligible for CR/NCR option.

**Prerequisite:** 2.0 ENG FCE, any 4.0 FCE and permission of the instructor and the Associate Chair

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG390Y1 - Individual Studies

**Hours:** TBA

A scholarly project chosen by the student and supervised by a member of the staff. The form of the project and the manner of its execution are determined in consultation with the supervisor. All project proposals should be submitted by May 15. Proposal forms are available online and from the Department. Not eligible for CR/NCR option.

**Prerequisite:** 3.0 ENG FCE, any 4.0 FCE and permission of the instructor and the Associate Chair

**Exclusion:** ENG392H

**Distribution Requirements:** Humanities

## ENG391Y1 - Individual Studies (Creative)

**Hours:** TBA

A project in creative writing chosen by the student and supervised by a member of the staff. The form of the project and the manner of its execution are determined in consultation with the supervisor. All project proposals should be submitted by May 15. Proposal forms are available online and from the Department. Not eligible for CR/NCR option.

**Prerequisite:** 3.0 ENG FCE, including ENG389Y1, any 4.0 FCE and permission of the instructor and the Associate Chair

**Exclusion:** ENG393H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ENG392H1 - Individual Studies

**Hours:** TBA

A scholarly project chosen by the student and supervised by a member of the staff. The form of the project and the manner of its execution are determined in consultation with the supervisor. All project proposals should be submitted by May 15. Proposal forms are available online and from the Department. Not eligible for CR/NCR option.

**Prerequisite:** 3.0 ENG FCE, any 4.0 FCE and permission of the instructor and the Associate Chair

**Exclusion:** ENG390Y1

**Distribution Requirements:** Humanities

## ENG393H1 - Individual Studies (Creative)

**Hours:** TBA

A project in creative writing chosen by the student and supervised by a member of the staff. The form of the project and the manner of its execution are determined in consultation with the supervisor. All project proposals should be submitted by May 15. Proposal forms are available online and from the Department. Not eligible for CR/NCR option.

**Prerequisite:** 3.0 ENG FCE, including ENG389Y1, any 4.0 FCE and permission of the instructor and the Associate Chair

**Exclusion:** ENG391Y1

**Distribution Requirements:** Humanities

## ENG398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## ENG399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## ENG414H1 - Advanced Studies: Theory, Language, Methods

**Hours:** 24S

Advanced Studies: Theory, Language, Methods

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## ENG415H1 - Advanced Studies: Theory, Language, Methods

**Hours:** 24S

Advanced Studies: Theory, Language, Methods

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## ENG418H1 - Advanced Studies Seminar: Theory, Language, Methods

**Hours:** 24S

Advanced Studies Seminar: Theory, Language, Methods

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## ENG424H1 - Advanced Studies: Canadian and Indigenous North American Literatures

**Hours:** 24S

Advanced Studies: Canadian and Indigenous North American Literatures

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG425H1 - Advanced Studies: Canadian and Indigenous North American Literatures**

**Hours:** 24S

Advanced Studies: Canadian and Indigenous North American Literatures

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG428H1 - Advanced Studies Seminar: Canadian and Indigenous North American Literatures**

**Hours:** 24S

Advanced Studies: Canadian and Indigenous North American Literatures

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG434H1 - Advanced Studies: American and Transnational Literatures**

**Hours:** 24S

Advanced Studies: American and Transnational Literatures

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG435H1 - Advanced Studies: American and Transnational Literatures**

**Hours:** 24S

Advanced Studies: American and Transnational Literatures

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG438H1 - Advanced Studies Seminar: American and Transnational Literature**

**Hours:** 24S

Advanced Studies Seminar: American and Transnational Literature

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG444H1 - Advanced Studies: British Literature to the 19th Century**

**Hours:** 24S

Advanced Studies: British Literature to the 19th Century

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG445H1 - Advanced Studies: British Literature to the 19th Century**

**Hours:** 24S

Advanced Studies: British Literature to the 19th Century

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG448H1 - Advanced Studies Seminar: British Literature to the 19th Century**

**Hours:** 24S

Advanced Studies Seminar: British Literature to the 19th Century

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG454H1 - Advanced Studies: Literature since the 18th Century**

**Hours:** 24S

Advanced Studies: Literature since the 18th Century

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG455H1 - Advanced Studies: Literature since the 18th Century**

**Hours:** 24S

Advanced Studies: Literature since the 18th Century

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG458H1 - Advanced Studies Seminar: Literature since the 18th Century**

**Hours:** 24S

Advanced Studies Seminar: Literature since the 18th Century

Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE and any 9.0 FCE

**Distribution Requirements:** Humanities

## **ENG499Y1 - Advanced Research Seminar**

**Hours:** 48S

A seminar designed to provide students with the opportunity to practice their skills of research and interpretation at a particularly advanced level. Admission by invitation and permission of the instructor and the Associate Chair. Not eligible for CR/NCR option.

**Prerequisite:** 4.0 ENG FCE, any 9.0 FCE, and permission of the Department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

# School of the Environment

## Faculty List

### Professor and Director

† K. Strong, BSc, DPhil

### Associate Professor and Academic Associate Director

† S. Finkelstein, AB, MPhil, PhD

### Professors

† W.S. Prudham, BA, BSc, MA, PhD

† J.B. Robinson, BA, MES, PhD

### Associate Professor

† S.B. Scharper, BA, MA, PhD

### Assistant Professors

† C. Abizaid, MA, PhD

† Hui Peng, BSc, PhD

† K. Neville, BSc, MEnvSci, PhD

† N. Rollinson, BAT, MSc, PhD

C. Wiseman, BES, M. Nat.Res.Mgmt., Dr. Phil. Nat.

† D. Wunch, BSc, MSc, PhD

T. Yoreh, BA, MA, PhD

### Associate Professor, Teaching Stream

K. Ing, BSc, MSc

### Senior Lecturer Emeriti

D. Macdonald, BA, MA, PhD

B. Savan, BSc, PhD

† Cross-appointed faculty

## Introduction

The School of the Environment is an innovative interdisciplinary unit within the Faculty of Arts and Science; it brings together and leverages the enormous breadth of environmental teaching and research expertise throughout the Faculty. The School fosters opportunities for interdisciplinary research and scholarship in environment, spanning the sciences, social sciences and humanities. Students who enrolled in programs in the former Centre for Environment will be able to complete them.

### Core Programs:

The School offers core programs in two areas: Environmental Science BSc Major and Minor, and Environment Studies BA Major and Minor. These programs are ideally suited to be taken in conjunction with another program(s) in a related academic field. For example, the Environmental Science Major could be combined with a Major in Environment & Health, Environmental Ethics, Earth and Environmental Systems, Environmental Geography, Forest Conservation Science, Physical & Environmental Geography, Biomedical Toxicology, Chemistry, Physics, Biodiversity and Conservation Biology, or Environmental Biology, while the Environmental Studies Major could be combined with a

complementary BA Major such as Political Science, Economics, Women and Gender Studies, Human Geography, Forest Conservation, Architecture, or BSc Major, such as Environmental Biology, Environment & Health, or Forest Conservation Science. These programs of study provide students with a powerful combination of disciplinary depth and interdisciplinary breadth.

The School's Environmental Science B.Sc. Major and Minor programs reflect the fact that most environmental issues are complex and involve aspects drawing from many different areas of science. These programs provide students with a breadth of knowledge spanning scientific disciplines, and the tools to understand and integrate scientific principles from across the physical and biological sciences, and across multiple spatial and temporal scales. At its core, environmental science is concerned with the scientific analysis and development of creative solutions to environmental problems. Students are exposed to disciplinary and interdisciplinary knowledge and research skills necessary to function as an environmental scientist.

The School's Environmental Studies B.A. Major and Minor are interdisciplinary programs intended for students interested in studying and working in an environmental area, primarily within the social sciences or humanities. These programs offer rigorous academic study of the economic, social, cultural and political forces that drive issues such as species extinction, loss of biodiversity, air and water pollution, and climate change. The interdisciplinary structure of the programs provides grounding in scientific literacy while advancing critical thinking skills that will help students to evaluate complex environmental problems and sustainable solutions for improved environmental health and well-being.

Environmental Science students who wish to have a foundation in Environmental Studies beyond the ENV221H and ENV222H core courses, are encouraged to consider adding the Minor in Environmental Studies to their Environmental Science Major. It is possible to double count a number of courses between the two programs.

### Collaborative Specialist, Major and Minor Programs:

The School collaborates with other disciplines to offer four collaborative Science Specialist programs: Environment & Health; Environmental Chemistry; Environmental Geosciences; and Environment & Toxicology. Other collaborative offerings include Major programs in Environment & Health, and Environmental Ethics, as well as collaborative Minor programs in Environmental Ethics, Energy & Environment, and Environment & Behaviour. These programs combine the School's interdisciplinary core with a deliberately focused set of discipline-specific courses.

### Directed Environmental Minor Programs:

Environmental Minor programs are offered by a number of departments. Five of these Minors are in the sciences, and four are arts Minors. These programs are intended for students interested in acquiring a hierarchical body of environmental knowledge in a specific discipline.

These Minors are open to any student irrespective of program. As with any Minor, these programs can be combined with other programs of study (i.e., Minors and Majors) to meet the requirements for a degree. (See the Degree Requirements section of the Calendar for program requirement details).

### General Program Information:

All Science programs in the School include a strong First Year science component with core interdisciplinary science courses in

subsequent years. Students intending to pursue Environmental Science or any of the Science Specialist programs are advised to choose First Year courses from among ([BIO120H1](#), [BIO130H1](#)); ([CHM136H1](#), [CHM138H1](#), [CHM135H1](#), [CHM139H1](#))/([CHM151Y1](#); [MA1135H1](#), [MAT136H1](#), [MAT137Y1](#), [MAT157Y1](#), [JMB170Y1](#)); ([PHY131H1](#), [PHY132H1](#))/([PHY151H1](#), [PHY152H1](#)), and ([GGR100H1](#), [JEG100H1](#), [GGR101H1](#)). Students should identify specific program requirements as well as the prerequisites for [ENV234H1](#); [ENV237H1](#); [ENV238H1](#); [ENV316H1](#); [ENV334H1](#); [JE E337H1](#); [CHM210H1](#) when selecting specific First Year science courses.

Arts programs in the School build on a base of social science and humanities courses. Environmental Studies, as well as Environmental Ethics, do not require specific First Year courses. Students intending to follow arts programs in the area of environment are recommended to take [ENV100H1](#), and might find it helpful to take [ENV200H1](#) in first year, as well as to include some First Year course choices from the 100-level offerings in Anthropology, Biology, Economics, Geography, History, Philosophy, Political Science or Sociology.

**Note:** Majors and Specialists in School of the Environment programs are eligible for a number of School-based scholarships (see <http://www.environment.utoronto.ca/Undergraduate/Scholarships.aspx>)

Students interested in School of the Environment programs should refer to the Calendar program listings below and are encouraged to consult the School's website at <http://www.environment.utoronto.ca>. For further information about the School's programs and courses, please contact:

School of the Environment Academic Associate Director, Prof S. Finkelstein ([finkelstein@es.utoronto.ca](mailto:finkelstein@es.utoronto.ca)).

School of the Environment Undergraduate Student Advisor and Placement Coordinator, David Powell, Room ES 1022, 33 Willcocks Street Wing, Earth Sciences Centre, 416-946-8100 or [david.powell@utoronto.ca](mailto:david.powell@utoronto.ca)

## Environmental Programs in Other Academic Units:

Students should also be aware that numerous programs offered by other academic units have relevance to the study of the environment, and most are highly suitable for double majors with the School of the Environment programs. Students interested in environment-related courses of study should also review the following programs:

### **Biodiversity & Conservation Biology (Science program offered by the Department of Ecology & Evolutionary Biology):**

Details available at: <http://www.eeb.utoronto.ca/Learning/programs.htm>

Students in the Biodiversity and Conservation Biology Major receive training in the relatively young, but already firmly established, synthetic fields of biodiversity and conservation biology. They will be equipped to aid in the response to what is perhaps humanity's most pressing challenge, the conservation of biological diversity. As ecologically responsible and informed citizens, they will appreciate the increasing complexity and uncertainty of the world in which we all live, and be in a position to make informed policy and decisions about sustainable development, global environmental change, control of invasive species, and the conservation of genetic diversity and ecosystem integrity.

### **Earth and Environmental Systems (Science program offered by the Department of Earth Sciences):**

(Details available at: <http://www.es.utoronto.ca/programs/undergraduate/>)

The new Major, Earth and Environmental Systems, takes a holistic approach to understanding how the Earth system works and how it has evolved over tens of millions to billions of years. This requires understanding the dynamics and interactions of all aspects of the system (solid Earth, ocean, atmosphere, and biosphere) and provides the larger context at a time when climate change, resource consumption and global pollution weigh heavily on people and societies.

### **Environmental Biology (Science program offered by the Department of Ecology & Evolutionary Biology):**

Details available at: <http://www.eeb.utoronto.ca/Learning/programs.htm>

The Environmental Biology Major provides a broad background in biology that is essential to understand the impact of humans on other organisms and their environments. It provides students with an understanding of ecology, the diversity and function of living organisms, the physical and chemical environment, and the ways organisms interact with, and affect, ecosystem processes. Students are exposed to ecosystem management, issues related to environmental change, and the consequences of interactions between humans and the environment.

### **Environmental Geography (Arts program offered by the Department of Geography):**

(See program details under Geography or at <http://www.geog.utoronto.ca/>)

These Specialist, Major and Minor programs can be taken in conjunction with either the School's Arts or Science programs for an Honours Degree. They focus on resource and environmental planning, environmental assessment, water resources, waste management and Canada's forests from the perspective of Geography.

### **Forest Conservation (Arts or Science programs offered by the Faculty of Forestry):**

(See program details under Forestry or at [www.forestry.utoronto.ca](http://www.forestry.utoronto.ca))

These Specialist, Major and Minor programs can be taken in conjunction with the School's science or arts programs for an Honours degree. Core subjects include world forests, forest products in sustainable forestry, forest conservation practices, forest management and resource allocation, and forests and society. Other topics include biodiversity maintenance, ecological sustainability, protection of wildlife and their habitats, international policy, certification, intensive forest management, community management, forest health and forest fragmentation.

### **Physical & Environmental Geography (Science program offered by the Department of Geography):**

(See program details under Geography or at <http://www.geog.utoronto.ca/>)

These Specialist and Major programs can be taken in conjunction with the School's science or arts programs for an Honours Degree.

Core subjects include geomorphology, climatology, soil science and hydrology. Other topics include biogeography, remote sensing, climate assessment, biogeochemistry and environmental contaminants modeling.

## School of Environment Programs

### Core Programs

### Environmental Science Major (Science Program)

#### Enrolment Requirements:

This is a limited enrolment program. Enrolment is limited and selection will be based on marks in 1.0 FCE of the required first-year courses: BIO120H1 and 0.5 FCE from CHM136H1/CHM138H1/CHM135H1/CHM139H1/CHM151Y1 with an overall average of at least 65% and a final mark of at least 60% in each course. The precise mark thresholds outlined above are an estimate of what will be required in the coming POST admission cycle. Achieving those mark(s) does not necessarily guarantee admission to the POST in any given year. For more information, consult the Schools Undergraduate Student Advisor (see above).

#### Completion Requirements:

(7.5 full courses or their equivalent)

First Year (1.5 FCEs): BIO120H1; 0.5 FCE from CHM136H1/CHM138H1/CHM135H1 (recommended)/CHM139H1/CHM151Y1; 0.5 FCE from MAT135H1/MAT137Y1/MAT157Y1/JMB170Y1

Second Year (2.5 FCEs):

1. ENV221H1
2. ENV234H1
3. ENV233H1
4. ENV237H1/ENV238H1\*

\*ENV238H1 is for students who have previously taken PHY131H1/PHY132H1/PHY151H1/PHY152H1

5. STA220H1/EEB225H1/GGR270H1 or other science courses providing training in statistics as approved by the Academic Associate Director.

NOTE: students interested in taking EEB Field Courses (Group B) in third/fourth year are encouraged to take BIO220H1 in second/third year.

Third Year (1 FCE):

1. ENV337H1/JEE337H1
2. ENV316H1

Third/Fourth Year (2.0 FCEs):

1. 2.0 FCE from courses in Group A, B, and C, with no more than 0.5 FCE from Group C. At least 0.5 FCE must be at the 300+-level

#### Group A: Environmental Science

BIO220H1\*/ CHM210H1/CHM310H1/CHM410H1/CHM415H1/EEB319H1/EEB321H1/EEB328H1/EEB365H1/EEB428H1/EEB430H1/EEB433H1/EEB440H1/EEB465H1/ENV334H1/ENV341H1/ENV346H1/ENV430H1/ENV432H1/ESS261H1/ESS311H1/ESS312H1/ESS461H1/ESS463H1/GGR301H1/GGR308H1/GGR314H1/GGR347H1/GGR348H1/GGR409H1/JGA305H1/PCL362H1/PHY392H1\*\*/PHY492H1\*\*

Notes: \*BIO220H1 is required for all upper-year 300+ EEB series courses, with no exceptions. \*\*PHY392H1 and PHY492H1 include relevant environmental content, but prerequisites for these courses cannot be used towards Group A requirements.

#### Group B: Environmental Science-related Field Courses

ANT330Y1/ARH306Y1/EEB403H1/EEB405H1/EEB406H1/EEB407H1/EEB410H1/ENV336H1/ENV395Y0/ENV396Y0/ESS330H1/ESS410H1/ESS450H1/GGR390H1

Note: \*BIO220H1 is required for all upper-year 300+ EEB series courses, with no exceptions.

#### Group C: Environmental Policy & Society (no more than 0.5 FCE from Group C)

ENV222H1/ENV261H1/ENV281H1/ENV282H1/ENV307H1/ENV320H1/ENV322H1/ENV323H1/ENV333H1/ENV335H1/ENV347H1/ENV350H1/ENV361H1/ENV362H1/ENV381H1/ENV382H1/ENV422H1/ENV461H1/ENV462H1/FOR302H1

Fourth Year (0.5 FCE):

1. 0.5 FCE from the following: ENV432H1\*/ENV440H1/ENV452H1\*

\*Note that ENV432H1 requires one of EEB319H1/EEB321H1/EEB365H1/ENV334H1 as a prerequisite, and ENV452H1 includes ENV334H1 as one of its prerequisites.

Students combining the Environmental Science Major with a second BSc or BA Major, and who are also interested in obtaining a basic understanding of the social/political/policy aspects of environment, can add the Environmental Studies Minor. Some of the courses taken for the Environmental Science Major may be double counted for this Minor. Please contact the Undergraduate Student Advisor (see above) to learn more about this option.

### Environmental Science Minor (Science Program)

#### Enrolment Requirements:

This is a limited enrolment program. Enrolment is limited and selection will be based on marks in BIO120H1 and CHM136H1/CHM138H1/CHM135H1/CHM139H1/CHM151Y1 with an overall average of at least 65% and a final mark of at least 60% in each course. The precise mark thresholds outlined above are an estimate of what will be required in the coming POST admission cycle. Achieving those mark(s) does not necessarily guarantee admission to the POST in any given year.

For more information, consult the School's Undergraduate Student Advisor (see above).

#### Completion Requirements:

First Year (1.5 FCE):

1. BIO120H1; 0.5 FCE from CHM136H1/CHM138H1/CHM135H1(recommended)/CHM139H1/CHM151Y1; 0.5 FCE from MAT135H1/MAT137Y1/MAT157Y1/JMB170Y1

Higher Years (2.5 FCEs):

2. ENV221H1
3. 1.0 FCE from ENV234H1, ENV233H1, ENV237H1/ENV238H1\*
4. ENV337H1/JEE337H1
5. 0.5 FCE from courses in Group A or B\*\*

## Notes

\* ENV238H1 is for students who have previously taken PHY131H1/PHY132H1/PHY151H1/PHY152H1

\*\* Students should verify the prerequisites for the courses listed under the groups below in advance of their course selection.

BIO220H1 is required for all upper-year EEB 300+-series courses (Group A and B) and there are no exceptions.

### Group A: Environmental Science

CHM310H1/CHM410H1/CHM415H1/EEB319H1/EEB321H1/EEB328H1/EEB365H1/EEB428H1/EEB430H1/EEB433H1/EEB440H1/EEB465H1/ENV334H1/ENV341H1/ENV346H1/ENV430H1/ENV432H1/ESS261H1/ESS311H1/ESS312H1/ESS461H1/ESS463H1/GGR301H1/GGR308H1/GGR314H1/GGR347H1/GGR348H1/GGR409H1/JGA305H1/PCL362H1/PHY392H1\*/PHY492H1\*

Notes: \*PHY392H1 and PHY492H1 include relevant environmental content, but prerequisites for these courses cannot be used towards Group A requirements.

### Group B: Environmental Science-related Field Courses

ANT330Y1/ARH306Y1/EEB403H1/EEB405H1/EEB406H1/EEB407H1/EEB410H1/ENV316H1/ENV336H1/ENV395Y1/ENV396Y1/ESS330H1/ESS410H1/ESS450H1/GGR390H1

## Environmental Studies Major (Arts Program)

### Completion Requirements:

For more information, consult the School's Undergraduate Student Advisor (see above).

(7 FCE or their equivalent, including at least 2.5 FCE at the 300+ level and 0.5 FCE at the 400 level)

#### First Year

Students must complete at least 4 FCE before applying to this type 1 major. ENV100H1 is recommended but not required.

#### Higher Years:

1. ENV221H1; ENV222H1; ENV223H1.

2. ENV200H1 or another 0.5 FCE Life Science course approved by the Undergraduate Coordinator.

3. 0.5 FCE from the following Environmental Policy, Law & Society courses: ENV320H1; ENV322H1; ENV323H1; ENV347H1; ENV350H1; ENV422H1; JGE331H1

4. 0.5 FCE from among the following Environmental Thought & Ethics courses: ENV333H1; JGE321H1; CLA373H1; PHL273H1; WGS273H1/WGS273Y1

5. One of ENV421H1/ENV440H1/ENV451H1/ENV461H1.

6. An additional 3.5 FCE of courses from any combination of courses listed in the three groups below\*, with no more than 1 FCE from the Science group.

\*Students may choose to take courses across the three groups or within a particular group, depending on their interest.

## Environmental Studies Minor (Arts Program)

### Completion Requirements:

Consult David Powell, Undergraduate Student Advisor, School of the Environment, Room ES1022, 33 Willcocks wing of Earth Sciences Centre, 416-946-8100 or [david.powell@utoronto.ca](mailto:david.powell@utoronto.ca)

(4 FCE or their equivalent, including at least 1.5 FCE at the 300+ level)

#### First Year

Students must complete at least 4 FCE before applying to this type 1 minor. ENV100H1 is recommended but not required.

#### Higher Years:

1. ENV221H1; ENV222H1/GGR222H1.

2. ENV200H1 or another 0.5 FCE Life Science course approved by the Undergraduate Coordinator.

3. An additional 2.5 FCE, a maximum 1.0 of which may be environmental courses offered by academic units other than the CFE (from Group A below). The remainder must be selected from the following: ENV261H1; ENV281H1; ENV282H1; ENV307H1; ENV320H1; ENV322H1; ENV323H1; JGE321H1; JGE331H1; ENV333H1; ENV335H1; ENV347H1; ENV350H1; ENV361H1; ENV362H1; ENV381H1; ENV382H1; ENV395Y0; ENV396Y0; ENV421H1\*; ENV422H1\*; ENV430H1\*; ENV431H1\*; ENV440H1\*; ENV461H1; ENV462H1; PHL273H1

\*Note: with permission of Undergraduate Coordinator

## Collaborative Programs

## Environment & Behaviour Minor (Science Program)

### Completion Requirements:

(4 full courses or their equivalent; must include at least one full course equivalent at the 300+-level.

Enrolment in the Minor program is limited to students also enrolled in the Psychology Minor/Major/Specialist.

#### Higher Years:

1. ENV221H1, ENV222H1; PSY220H1, PSY335H1/PSY435H1

2. One FCE from ENV333H1, ENV335H1; ENV361H1/ENV381H1 (if ENV381H1 taken in 2015-16 or 2016-17); JGE321H1; JGE331H1; SOC385H1

3. One FCE from PSY320H1, PSY321H1, PSY327H1/PSY427H1, PSY336H1

## Environment & Health Major (Science Program)

### Completion Requirements:

Environment & Health Major (Science program)

This is an unlimited enrolment program. All students who have completed at least 4.0 courses, including the Year 1 requirements below, are eligible to enrol.

Required Courses (8.0 FCE)

Year 1: Students must complete Year 1 requirements 1 and 2 prior to entering POST:

1. BIO120H1; BIO130H1

2. (CHM136H1/CHM138H1; CHM135H1/CHM139H1)/ CHM151Y1  
(Only transfer credits that carry exclusions to CHM136H1/CHM138H1 and/or CHM135H1/CHM139H1 will be accepted)

3. GGR100H1/JEG100H1/GGR101H1/ESS102H1/GLG102H1/  
MAT135H1/PHY131H1/ PSY100H1

Year 2: Foundations in environment and health

4. BCH210H1/ CHM247H1

5. BIO220H1; BIO230H1/BIO255H1

6. HMB265H1/BIO260H1

7. 1.0 FCE from environmental core courses: ENV221H1  
/ENV222H1/ ENV234H1/ENV337H1/JEE337H1

Year 3: Third year core courses

8. ENV341H1

9. PSL300H1; PSL301H1

Years 3 or 4:

10. 0.5 FCE from environment and health relevant courses:  
HMB302H1/ HMB303H1/ HMB312H1/ HMB314H1/ HMB322H1/  
HMB390H1/ HMB496Y1/ HMB499Y1/ANA300Y1/ ANA301H1/  
BCH311H1/ CSB349H1/ PSL350H1/ BCH370H1/ CHM310H1/  
CSB325H1/ CSB327H1/ CSB328H1/ CSB331H1/ CSB346H1/  
CSB347H1/ CSB350H1/ CSB351Y1/ EEB318H1/ EEB319H1/  
EEB321H1/ EEB328H1/ EEB362H1/ EEB375H1/ EEB428H1/  
ENV315H1/ ESS425H1/ ENV316H1/ ENV336H1/  
ESS463H1/ GGR303H1/GGR305H1/ GGR409H1/ GGR347H1/  
GGR348H1/ HIS423H1/ JGE347H1/ JGE348H1/ ESS311H1/  
ESS312H1/ IMM334Y1/ LMP301H1/ LMP363H1/ MGY377H1/  
NFS382H1/ NFS386H1/ NFS488H1/ PSL372H1/ PSL420H1/  
PSY435H1

Year 4: Environment & Health Capstone Course

11. JEH455H1

## Environment & Health Specialist (Science Program)

### Completion Requirements:

From air pollution and water contamination to climate change, the anthropogenic impact on our environment has significant repercussions on human health. A collaboration between the School of the Environment and Human Biology, the objective of the Environment and Health program is to provide students with instruction in fundamental biological sciences and to integrate a broad understanding of the environmental determinants of health.

For more information, consult the School's Undergraduate Student Advisor (see above).

Environment & Health Specialist (Science Program)

This is an unlimited enrolment program. All students who have completed at least 4.0 courses, including the Year 1 requirements below, are eligible to enrol.

(14 full courses or their equivalent which includes fulfillment of the Faculty's Distribution requirements; must include at least four 300+-series courses, one of which must be at the 400-level)

Year 1: Students must complete Year 1 requirements 1 and 2 prior to entering POST:

1. BIO120H1; BIO130H1

2. (CHM136H1/CHM138H1; CHM135H1/CHM139H1)/ CHM151Y1  
(Only transfer credits that carry exclusions to CHM136H1/CHM138H1 and/or CHM135H1/CHM139H1 will be accepted)

3. 1 full course or its equivalent in half courses from among:  
GGR100H1/ JEG100H1/ GGR101H1/ MAT135H1/ MAT136H1/  
JMB170Y1/ PHY131H1/ PHY132H1/ PHY151H1/ PHY152H1/  
PSY100H1

Year 2: Foundations of environment and health

4. BCH210H1; CHM247H1

5. BIO220H1; BIO230H1/BIO255H1

6. HMB265H1/BIO260H1

7. ENV221H1; ENV222H1

8. ENV234H1; ENV337H1/JEE337H1

9. PHL273H1

Year 3: Selected topics in environment and health with greater depth.

10. STA220H1; STA221H1

11. BCH311H1/CSB349H1/LMP363H1/NFS284H1/(PSL300H1,  
PSL301H1)/PSL350H1

12. JGE321H1; ENV341H1

13. 1.0 FCE from: CHM210H1/ENV334H1/(only one from ENV233H1/ ESS261H1/ GGR203H1/ GGR303H1/ GGR314H1/ PHY231H1)

Years 3 & 4:

14. 1.5 FCE from environment and health relevant courses: HMB302H1/ HMB303H1/ HMB312H1/HMB314H1/ HMB322H1/ HMB390H1/ HMB496Y1/ HMB499Y1/ANA300Y1/ ANA301H1/ BCH311H1/ CSB349H1/ PSL350H1/ BCH370H1/ CHM310H1/ CSB325H1/ CSB327H1/ CSB328H1/ CSB331H1/ CSB346H1/ CSB347H1/ CSB350H1/ CSB351Y1/ EEB318H1/ EEB319H1/ EEB321H1/ EEB328H1/ EEB362H1/ EEB375H1/ EEB428H1/ ENV315H1/ ESS425H1/ ENV316H1/ ENV336H1/ ESS463H1/ GGR303H1/GGR305H1/ GGR409H1/ GGR347H1/ GGR348H1/ HIS423H1/ JGE347H1/ JGE348H1/ ESS311H1/ ESS312H1/ IMM334Y1/ LMP301H1/ LMP363H1/ MGY377H1/ NFS382H1/ NFS386H1/ NFS488H1/ PSL372H1/ PSL420H1/ PSY435H1 or any other approved course for which the student has appropriate prerequisites. The 1.5 FCE can be chosen to reflect the particular academic interests of each student.

Year 4: Advanced topics in environment and health with emphasis on primary research and critical analysis

15. ENV421H1/HMB396Y0/HMB496Y1/HMB499Y1 or a minimum of 0.5 FCE from any approved departmental or college independent research project

16. JEH455H1

E&H Specialist Program Notes:

1. Many second, third and fourth year courses in this program have specific prerequisites. Students should check prerequisites for the higher level courses they are interested in prior to making first year course selections, and on through higher years
2. EEB225H is no longer equivalent to STA221H, as of the 2011-12 academic year.

## Environment & Toxicology Specialist (Science Program)

### Description:

This program is jointly sponsored by the Department of Pharmacology and Toxicology and the School of the Environment. For additional information see "School of the Environment" ([www.environment.utoronto.ca](http://www.environment.utoronto.ca)) or consult our website: [www.pharmtox@utoronto.ca](mailto:www.pharmtox@utoronto.ca)

The Environment and Toxicology Specialist program is an interdisciplinary program which spans the social, physical and life sciences and integrates study of the effects of chemicals not only on the health and behaviour of human beings but on whole ecosystems as the adverse effects associated with therapeutic and environmental chemicals are discussed. This program emphasizes the application of knowledge of environmental toxicology and risk assessment and prepares students for a variety of job opportunities following its completion. Graduates of the Environment and Toxicology program may pursue careers in scientific research, environmental science, conservation science, governmental agencies, consulting agencies, and within chemical, manufacturing or agriculture industries. Students learn to integrate basic environmental and life science with particular aspects of clinical toxicology and related areas through lectures, tutorials, and

laboratory and independent research project experience. The senior independent research project course enables students to gain valuable research experience while working under the supervision of an individual faculty member in either a laboratory-based or a non-laboratory-based setting.

The Professional Experience Year (PEY) internship program is an elective 12-16 month paid employment placement within pharmaceutical/ biotechnology/chemical companies, university research laboratories, university-affiliated organizations, consulting companies or government research agencies. The PEY takes place between the 3rd and 4th years of undergraduate study and is open to Specialists in Pharmacology and Biomedical Toxicology who have a cGPA of at least 3.0. Students who participate in this program agree to return to their SPE program in the Department to complete their 4th year and their degree. The PEY internship provides an excellent opportunity for real-world experience in drug development, project management, client relations, basic and clinical research, information management and regulatory affairs.

### Enrolment Requirements:

The Environment and Toxicology Specialist is a Type 2L program and can only accommodate a limited number of students. Admission into this program is determined by a student's average in the following courses: BIO120H1, BIO130H1, CHM136H1/CHM138H1, CHM135H1/CHM139H1, and one of PHY131H1, MAT135H1, or GGR100H1. It is expected that a cumulative average 70% in the selected courses will be required for admission; however, achieving that mark does not necessarily guarantee admission to the program in any given year. Entry into the program requires completion of BIO120H1, BIO130H1, CHM135H1, CHM136H1, one of PHY131H1, MAT135H1, or GGR100H1 and 0.5 FCE from among the other first year course requirements. Completion of the program requires completion of all 4 FCE of the first year required courses. See the [Arts & Science Program Enrolment web site](#) for application procedures.

NOTE: Students cannot combine a Biomedical Toxicology Major program with an Environment and Toxicology Specialist program for their degree.

Students who wish to enroll in the program **after** their second year will be considered on a case-by-case basis. Successful completion of required prerequisite courses is required to enroll in further upper-level program courses.

### Completion Requirements:

(15 full courses or their equivalent, including 4.0 300+-level courses, 1.0 of which must be at the 400-level).

First Year: BIO120H1; BIO130H1; CHM135H1/CHM139H1; CHM136H1/CHM138H1; and at least 0.5 FCE from PHY131H1; MAT135H1; JEG100H1

First or Second Year: At least 1.5 FCE from GGR100H1 (if not counted in First Year, 2 above); GGR101H1; MAT135H1 (if not counted in First Year, 2 above); MAT136H1/JMB170Y1; PHY131H1 (if not counted in First Year, 2 above); PHY132H1

Second Year: BCH210H1; BIO230H1/(BIO240H1, 241H1); ENV221H1; ENV222H1, PCL201H1 and CHM247H1. One FCE from (BIO270H1, BIO271H1/ (PSL300H1, PSL301H1)/PSL302Y1 (see NOTE 1)

Third and Fourth Years: BIO220H1; ENV234H1; JGE321H1; ENV334H1; CHM210H1; PCL302H1; PCL362H1; PCL473Y1.

One from STA220H1/STA221H1/STA288H1/EEB225H1 (see NOTE 2).

One from ENV421H1/PCL366H1/PCL474Y1 (see NOTE 2).

At least 1.0 FCE from: ENV341H1; PHY231H1; ENV337H1/JEE337H1; CHM310H1; ESS463H1; PCL465H1; PCL477H1; PCL481H1; PCL484H1; PCL486H1; LMP301H1; LMP363H1 (see NOTE 3)

#### NOTES:

1. PSL300H1 and PSL301H1 require MAT100 /PHY100 -series courses.

2. PCL302H1 is a required co-requisite of PCL366H1; STA288H1, PCL201H1, PCL302H1, and PCL465H1 are pre-requisites for students intending to take PCL474Y1. Students intending to take PCL474Y1 must obtain permission from the Undergraduate Student Advisor of the School of the Environment 3 months prior to the intended date of enrolment. Students must also consult with the Department of Pharmacology and Toxicology at least 3 months prior to the intended date of enrolment as the student is responsible for arranging for a supervisor.

3. Students taking PCL481H1 must take BCH210H1, PCL302H1 and PCL362H1 as prerequisites. Students taking PCL477H1 must take BCH210H1 prior. **Students taking ENV421H1 or PCL366H1 must take 1.5 FCE from program electives (group 7) to ensure 15 FCE program credits**

## Environment and Energy Minor (Science Program)

### Description:

#### Environment and Energy (Science Program) Joint Program with the School of the Environment

Jointly sponsored by the School of the Environment and the Department of Geography, this interdisciplinary program addresses the scientific, technological, environmental and policy aspects of energy use and supply, with a focus on the reduction of environmental impacts.

Note that the four full course equivalents that constitute the Minor Program are those listed below under Higher Years. Consult David Powell, Undergraduate Student Advisor, School of the Environment, Room ES 1022, 33 Willcocks wing, Earth Sciences Centre, 416-946-8100 or [david.powell@utoronto.ca](mailto:david.powell@utoronto.ca)

### Completion Requirements:

*First Year Courses:* One FCE from (MAT135H1, MAT136H1)/MAT137Y1, and at least one FCE from CHM138H1/CHM136H1, CHM139H1/CHM135H1, CHM151Y1, PHY131H1, PHY132H1, PHY151H1, PHY152H1

*All of:* ENV221H1, ENV222H1/GGR223H1 (1.0 FCE)

*All of:* ENV346H1, ENV350H1, ENV450H1 (1.5 FCE)

*Any two of:* GGR310H1/FOR310H1, GGR314H1, GGR347H1, GGR348H1 (1.0 FCE)

*Any one of:* CHM210H1, CHM310H1, CHM415H1, ENV237H1, ENV238H1, FOR310H1\*/GGR310H1\*, FOR410H1, GGR203H1, GGR314H1\*, GGR347H1\*, GGR348H1\*, HPS313H1, PHY231H1, PHY250H1 (\* if not taken for the requirement immediately above) (0.5 FCE)

**Total FCEs: 4.0**

## Environmental Chemistry Specialist (Science Program)

### Completion Requirements:

Consult Professor J. Murphy, Department of Chemistry (416-946-0260 or [jmurphy@chem.utoronto.ca](mailto:jmurphy@chem.utoronto.ca))

Jointly sponsored by the School of the Environment and the Department of Chemistry, this program focuses on analytical theory, instrumentation and methodological aspects of organic and inorganic contaminants in soil, water, air and biological tissues.

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required courses will be eligible to enrol. Consult the Arts & Science Program Enrolment web site at <http://www.artsci.utoronto.ca/current/program> for details.

Courses for admission: CHM135H1/CHM139H1 and CHM136H1/CHM138H1 or CHM151Y1 with a minimum mark of 63%.

(14 full courses or their equivalent, including at least one 400-series course)

First Year: (BIO120H1, BIO130H1/BIO220H1); CHM151Y1 (strongly recommended)/(CHM135H1/CHM139H1, CHM136H1/CHM138H1); (MAT135H1, MAT136H1)/MAT137Y1

First or Second Year: (PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

Second and Higher Years:

1. CHM217H1, (CHM220H1/CHM222H1, CHM221H1/CHM223H1)/CHM225Y1, CHM238Y1, CHM247H1/CHM249H1; (CHM210H1, GGR203H1/GGR314H1); STA220H1/GGR270H1
2. CHM310H1, CHM410H1, CHM415H1; ENV234H1, (ENV221H1, ENV222H1), ENV334H1/ENV341H1/ENV346H1
3. One additional FCE from 300/400-series CHM courses
4. ENV421H1/CHM499Y1/CHM398H0 (in areas relevant to the program with prior approval by the Department).
5. Further courses from any 300/400 series courses with DR=SCI, BR=4 or BR=5 such that the total FCE for the specialist is 14.

## Environmental Ethics Major (Arts Program)

### Completion Requirements:

Jointly sponsored by the School of the Environment and the Department of Philosophy, this program explores how value judgments and worldviews affect environmental decision making. For more information, consult the Schools Undergraduate Student Advisor (see above).

(6.0 full courses or their equivalent)

1. ENV221H1, ENV222H1; PHL273H1; JGE321H1
2. One FCE from PHL373H1; ENV333H1; JGE331H1
3. 0.5 FCE from among ENV421H1/ENV492H1/ENV493H1, ENV440H1, ENV451H1
4. 2.5 FCEs from Group A below.

#### Group A:

ANT450H1; ECO105Y1; ENV333H1; ENV335H1, ENV347H1; FOR302H1; GGR321H1/JAG321H1; HIS318Y1; HPS202H1, HPS307H1; INS402H1; JGE331H1; PHL275H1, PHL295H1, PHL373H1; PHL375H1, PHL394H1, PHL395H1, PHL413H1; PSY335H1/PSY435H1; RLG228H1, RLG345H1, RLG484H1; WGS273H1/WGS273Y1

## Environmental Ethics Minor (Arts Program)

#### Completion Requirements:

Jointly sponsored by the School of the Environment and the Department of Philosophy, this program explores how value judgments and worldviews affect environmental decision making. For more information, consult the School's Undergraduate Student Advisor (see above).

(4 full courses or their equivalent; must include at least one full-course equivalent at the 300+-level)

1. PHL273H1
2. One of PHL373H1, ENV333H1; JGE321H1, JGE331H1
3. ENV221H1, ENV222H1
4. Two additional FCE's in PHL, with at least one half course at the 300+ level. It is recommended that one course be in the History of Philosophy and the other in the Problems of Philosophy, including one half-course in ethics.

## Environmental Geosciences Specialist (Science Program)

#### Description:

The Environmental Geosciences specialist program explains the interconnectedness within the Earth system (biosphere, hydrosphere, atmosphere, and geosphere), measures and models processes related to groundwater and biochemical activities, and assesses the effects of human activities on our geological surroundings.

Jointly sponsored by the School for the Environment and the Department of Earth Sciences. Topics include earth materials, sedimentary geology, aqueous geochemistry, hydrogeology and biogeochemistry. For more information, please contact the Department of Earth Sciences, [undergradchair@es.utoronto.ca](mailto:undergradchair@es.utoronto.ca). Students should note that under the Professional Geoscientists Act of 2000, individuals practicing Environmental Geoscience in Ontario require education that fulfills APGO knowledge requirements (see note below) or a P.Eng.

#### Completion Requirements:

(12 full courses or their equivalent which includes fulfillment of the Faculty's Distribution requirement, including at least one FCE from 400-series courses)

1st year required courses (2 FCE): CHM151Y1/CHM135H1, CHM136H1, MAT135H1, PHY131H1/PHY151H1

1st year elective courses: 1 FCE from MAT136H1, PHY132H1/PHY152H1, BIO120H1, CSC108H1/ESS345H1, JEG100H1

2nd year required courses (2 FCE): ESS241H1, ENV233H1, ESS262H1, GGR201H1

2nd year elective courses: 1 FCE from ESS221H1, ESS222H1, ESS261H1, STA220H1/GGR270H1, CHM210H1, MAT221H1/MAT223H1; up to 0.5 FCE of this requirement can be satisfied by taking one of the following ethics courses: IMC200H1/PHL273H1/PHL275H1/ABS201Y1

3rd and 4th year required courses (2 FCE): ESS311H1, ESS312H1, ESS410H1, ESS461H1

3rd and 4th year elective courses: 4 FCE from JGA305H1, ESS330H1, ESS331H1, ESS361H1, ESS362H1, GGR337H1, GGR390H1, ENV333H1, ESS431H1, ESS441H1, ESS445H1, ESS450H1, ESS462H1, ESS463H1, ESS464H1, ESS490H1, ESS491H1/ESS492Y1

If you plan to become APGO certified, we suggest you consider the following courses to fulfill minimum qualifications. This list comprises courses which are required for the specialist as well as suggested courses; together they fulfill groups 1A, 1B, 2A and 2B of the APGO requirements and add up to 13.5 FCE:

Group 1A: CHM135H1, MAT135H1, PHY131H1

Group 1B: BIO120H1, MAT136H1, CHM136H1, PHY132H1, STA220H1, CSC108H1/ESS345H1

Group 2A: ESS221H1, ESS241H1, ESS330H1, ESS331H1

Group 2B: ENV233H1, ESS312H1, GGR201H1, GGR337H1, JGA305H1

Group 2C: 4.5 FCE of 200/300/400 level ESS or other allowable courses

All students, regardless of their career aspirations, are encouraged to talk to the undergraduate chair about their selection of electives.

## Directed Minors

## Environmental Anthropology Minor (Arts Program)

#### Completion Requirements:

A program focused on understanding the diverse nature of interactions between humans and their environments, both in the past and in modern global society. Consult the Undergraduate Office, Department of Anthropology (416-978-6414).

(4 full courses or their equivalent; must include at least one full-course equivalent at the 300+-level)

1. ANT100Y1/(ENV221H1, ENV222H1/GGR222H1)/ENV222Y1/GGR222Y1
2. ANT200Y1/ (ANT204H1 + ANT207H1/0.5 300 level Social Anthropology course)
3. Two FCE's from: ANT315H1, ANT336H1, ANT346H1, ANT351H1, ANT364H1, ANT366H1, ANT368H1, ANT371H1, ANT374H1, ANT376H1, ANT409H1, ANT410H1, ANT415Y1, ANT420H1, ANT430H1, ANT450H1, INS250H1, INS402H1

## Environmental Biology Minor (Science Program)

### Completion Requirements:

(4 FCEs; must include at least one full-course equivalent at the 300+ series)

1. 1.5 FCEs: BIO120H1, BIO220H1, ENV234H1 (cannot be substituted with EEB375H1)
2. 0.5 FCE in organismal biology: EEB266H1, EEB267H1, EEB268H1
3. 2.0 FCEs (at least 1.0 FCE at 300+ series) from: BIO251H1, EEB255H1, EEB263H1, EEB266H1, EEB267H1, EEB268H1, EEB318H1, EEB319H1, EEB321H1, EEB328H1, EEB362H1, EEB365H1, EEB380H1, EEB382H1, EEB384H1, EEB386H1, EEB388H1, EEB433H1, ENV334H1 (recommended); ENV432H1; NUS; no more than one field course from EEB403H0, EEB403H1, EEB405H0, EEB405H1, EEB406H0, EEB406H1, EEB407H0, EEB407H1, EEB410H0, EEB410H1

## Environmental Chemistry Minor (Science Program)

### Completion Requirements:

Consult Professor J. Murphy, Department of Chemistry

Environmental chemistry is the study of the chemical impacts of humankind's activities on the soil, air, and water. This minor provides a balanced fundamental background in chemistry as well as an introduction to the major issues associated with environmental chemistry.

(4 full courses or their equivalent; must include at least one full-course equivalent at the 300+ level)

1. (CHM135H1/CHM139H1, CHM136H1/CHM138H1)/CHM151Y1
2. One full course equivalent from CHM217H1, CHM220H1/CHM222H1/CHM225Y1, CHM238Y1, CHM247H1/CHM249H1
3. CHM210H1
4. CHM310H1, and any two of CHM317H1, CHM410H1, CHM415H1

## Environmental Economics Minor (Arts Program)

### Enrolment Requirements:

*(Effective for students enrolling in programs in April 2018. For students intending to enroll starting April 2017, please consult the 2016-17 Calendar.)*

Consult Ms. R. Innes, Undergraduate Administrator, Department of Economics (416-978-8616)

This is a limited enrolment (Type 2) program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

Required courses: ECO101H1 with a final mark of at least 63% and ECO102H1 with a final mark of at least 63%, OR ECO105Y1 with a final mark of at least 80%, and MAT133Y1 with a final mark of at least 63%, OR MAT135H1 with a final mark of at least 60% and MAT136H1 with a final mark of at least 60%, OR MAT137Y1 with a final mark of at least 55%, OR MAT157Y1 with a final mark of at least 55%.

### Completion Requirements:

(4 full courses or their equivalent)

1. ECO100Y1/ECO101H1+ECO102H1/ECO105Y1
2. MAT133Y1/MAT135Y1/MAT137Y1
3. ECO200Y1/ECO204Y1/ECO206Y1
4. One full ECO course at the 300+ level, including at least one of ECO313H1 and/or ECO314H1

### Note:

Students enrolled in this Minor program cannot be enrolled in any other program in Economics.

## Environmental Geography Minor (Arts Program)

### Description:

A focus on the human-environment nexus is most explicit in these programs. Students learn about the social, spatial, and biophysical processes that shape society's relationship to nature, management of resources, and contemporary environmental change. These programs appeal to non-science students who seek an environmental program that allows them to learn more about the natural processes that interact with social factors in shaping environments. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

### Enrolment Requirements:

There are no entry requirements for this program.

### Completion Requirements:

*First Year Geography Courses:* Any course (0.5 FCE) from GGR107H1 (recommended), GGR100H1/JEG100H1, GGR101H1, GGR112H1, GGR124H1. 200/300-level GGR courses may also be

used to meet this requirement. Contact the Undergraduate Administrator to update your program.

**Core Course:** All (0.5 FCE) of GGR223H1

**Physical and Environmental Geography Course:** Any course (0.5 FCE) from GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR305H1, GGR308H1, GGR314H1, GGR347H1, GGR348H1, ENV200H1, ENV234H1

**Applications:** Any 5 courses (2.5 FCEs) from Group A; up to 1.0 FCE can be from Group B.

Note: At least 1.0 FCE must be 300/400 series courses.

**Total FCEs: 4.0**

## Environmental Geosciences Minor (Science Program)

### Enrolment Requirements:

**Admission to the Environmental Geosciences Minor has been administratively suspended as of 1 April 2015 and is no longer admitting students. Students presently enrolled in the minor will be able to complete the program requirements as described below.**

### Completion Requirements:

(4 full courses or their equivalent; must include at least one full-course equivalent at the 300+-level)

1. CHM136H1 (CHM138H1)
2. ENV233H1; ESS221H1, ESS222H1, ESS311H1, ESS312H1, ESS410H1

## Geographic Information Systems Minor (Arts Program)

### Description:

The GIS program covers the on theoretical, technical and applied foundations for geographic information systems. Students learn methods for spatial data production, analysis and presentation using computer cartography, spatial analysis, remote sensing, and geovisualization. Problem solving and project design are emphasized in upper level courses, as students apply techniques to answer specific geographic questions. The GIS program is structured to provide a stand-alone minor for students in Geography and other disciplines seeking complementary skills in spatial analysis (e.g., field biology, archaeology).

Note: Students combining this program with a Specialist/Major sponsored by the Department of Geography will normally be allowed to count only 1.5 (of the 4.0) FCEs towards both programs.

### Enrolment Requirements:

There are no entry requirements for this program.

### Completion Requirements:

**First Year Geography Courses:** Any 2 courses (1.0 FCE) from GGR100H1/JEG100H1, GGR101H1, GGR107H1, GGR112H1, GGR124H1. 200/300 level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

**Methods & Core Courses:** All (2.0 FCEs) of GGR270H1, GGR272H1, GGR273H1, GGR373H1

**Applications:** Any 2 courses (1.0 FCE) from GGR225H1, GGR337H1, GGR372H1, GGR413H1, GGR414H1, GGR462H1, GGR472H1, GGR473H1, GGR491Y1, GGR492H1, GGR493Y1 (0.5 FCE can be used based on internship), GGR497H1, GGR498H1, GGR499H1, JFG470H1, JFG475H1

Note: At least 1.0 FCE must be 300/400 series courses

**Total FCEs: 4.0**

## Physical and Environmental Geography Minor (Science Program)

### Description:

Physical and Environmental Geography offers science-based programs for students interested in an integrative approach to understanding the earth's biotic and abiotic systems, including their spatial dynamics and the ways they are altered by human action. The programs provide a foundation in the subfields of climatology, biogeography, hydrology, and geomorphology. Students gain practical experience in lab and field settings. Technical skills taught also include data analysis, geospatial analytical tools, including GIS and Remote Sensing.

### Enrolment Requirements:

There are no entry requirements for this program.

### Completion Requirements:

**First Year Geography Courses:** Any 2 courses (1.0 FCE) from GGR100H1/JEG100H1 (recommended), GGR101H1, GGR107H1, GGR112H1, GGR124H1

**Core Courses:** Any 2 courses (1.0 FCE) from GGR201H1, GGR203H1, GGR205H1, GGR206H1

**Methods Courses:** One (0.5 FCE) of GGR301H1/GGR305H1/GGR308H1 and one (0.5 FCE) of GGR272H1/GGR337H1

**Applications:** Any 2 courses (1.0 FCE) from GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR301H1, GGR305H1, GGR307H1, GGR308H1, GGR310H1/FOR310H1, GGR314H1, GGR347H1, GGR348H1, GGR390H1, GGR401H1, GGR405H1, GGR413H1, GGR414H1

**Total FCEs: 4.0**

## Course Groups

### Environmental Studies Major Group A: Environmental Policy, Law & Society Courses

- [ANT346H1 Anthropology of Food](#)
- [ANT351H1 Contested Environments](#)
- [ANT364H1 Environment & Globalization \(formerly ANT364Y1\)](#)
- [ANT371H1 Human Nutritional Ecology \(formerly ANT471H1\)](#)
- [ANT374H1 Rethinking Development, or the Improvement of the World](#)
- [ECO313H1 Environmental Economics and Policies](#)
- [ECO314H1 Energy and the Environment](#)
- [ENV261H1 Is the Internet Green?](#)
- [ENV281H1 Special Topics in Environment](#)
- [ENV282H1 Special Topics in the Environment](#)
- [ENV307H1 Urban Sustainability \(formerly JIE307Y1\)](#)
- [ENV320H1 National Environmental Policy \(formerly ENV320Y1\)](#)
- [ENV322H1 International Environmental Policy \(formerly ENV320Y1\)](#)
- [ENV323H1 Ontario Environmental Policy \(formerly ENV423H1\)](#)
- [ENV335H1 Environmental Design](#)
- [ENV347H1 The Power of Economic Ideas \(formerly ENV447H1\)](#)
- [ENV350H1 Energy Policy and Environment](#)
- [ENV361H1 Social Media and Environmentalism](#)
- [ENV362H1 Energy & Environment: Transitions in History](#)
- [ENV381H1 Special Topics in Environment](#)
- [ENV382H1 Special Topics in Environment](#)
- [ENV422H1 Environmental Law](#)

## School of the Environment Courses

### Lab Materials Fee

Some courses in this department have a mandatory Lab Materials Fee to cover non-reusable materials. The fee for each such course is given below in the course description, and will be included on the student's invoice on ACORN.

NOTE: Many ENV courses are limited in enrolment and require specific prerequisites. Preference is given to students meeting the ACORN deadlines.

### First Year Seminars

The 199Y1 and 199H1 courses offered by the Faculty of Arts & Science are seminars designed to give first-year students an opportunity to work closely with a professor studying cutting-edge topics in a small group setting. A number of these seminars focus on environment-related themes. More details can be found here: <http://www.artsci.utoronto.ca/current/course/fyh-1/>

## ENV100H1 - Introduction to Environmental Studies

**Hours:** 24L

An investigation of the relationship between human beings and their natural and built environments. This interdisciplinary course will draw from the sciences, social sciences and the humanities to explore major social, cultural, economic, regulatory, ethical, ecological and technological aspects of environmental issues.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV200H1 - Assessing Global Change: Science and the Environment (formerly ENV200Y1)

**Hours:** 24L/4T

The perspective which scientists bring to the understanding and resolution of environmental concerns having global implications: atmospheric systems and climate change, the biosphere and conservation of biodiversity.

This living things and their environment breadth course is intended to fulfill the environmental literacy requirement for students in the BA programs of the School of the Environment or the living things and their environment breadth course requirement for Commerce, Humanities and Social Science students

**Exclusion:** BIO120H1, BIO150Y1 (applies only to students in Arts & Science); ENV200Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV221H1 - Multidisciplinary Perspectives on Environment (formerly ENV222Y1)

**Hours:** 24L/4T

One of two foundation courses for the Schools undergraduate program. Introduces students to ways in which different disciplines contribute to our understanding of environment. Instructors and guest lecturers are drawn from the sciences, social sciences and the humanities and will present subject matter, assumptions, conceptualizations and methodologies of their disciplines.

**Exclusion:** ENV222Y1/GGR222Y1/JGE221Y1

**Distribution Requirements:** Social Science

## ENV222H1 - Interdisciplinary Environmental Studies (formerly ENV222Y1)

**Hours:** 24L/4T

Building upon [ENV221H1](#), shows how environmental studies is working to knit different disciplinary perspectives into one interdisciplinary body of knowledge; interplay of science and values in definition and framing of issues; roles of markets, politics and ethics in developing solutions; local to global scale; historical and current timeframes.

**Exclusion:** ENV222Y1/GGR222H1/GGR222Y1/JGE221Y1/JIE222Y1 Note: GGR222H1 as an exclusion for ENV222H1 does not apply for the Winter 2011 offering of the ENV222H1/GGR222H1 combined course.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV223H1 - Fundamental Environmental Skills

**Hours:** 24L

The practical, interdisciplinary and controversial nature of environmental issues, as well as the uncertainty that surrounds measures to address them demand mastery of a particular range of skills by environmental students. This course teaches the fundamental research, analysis and presentation skills required for effective environmental work.

**Corequisite:** ENV221H1 and enrolment in a School Major program, or permission of Academic Associate Director.

**Exclusion:** GGR271H1 (taken in 2010-11 or after); INI223H1 (2005-06 academic year and before)

**Distribution Requirements:** Social Science

## ENV233H1 - Earth System Chemistry

**Hours:** 24L

This course will examine how the chemistry of the Earth system has changed through geologic time including recent perturbations by humans. Within this context students will be exposed to the scientific principles of thermodynamics, redox, and acid-base chemistry. This course will build on the topics introduced in ENV234H1.

**Prerequisite:** 0.5 FCE from CHM135H1 (recommended)/CHM138H1/CHM136H1/CHM139H1/CHM151Y1; 0.5 FCE from MAT135H1/MAT137Y1/MAT157Y1/JMB170Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ENV234H1 - Environmental Biology: Structure and Function of Ecosystems (formerly ENV234Y1)

**Hours:** 24L/18P

This multidisciplinary course draws on elements from geology, soil science, and ecology to understand past and present environments and human impacts on landscapes and ecosystems. Emphasis on the structure, functioning and connectivity of aquatic and terrestrial ecosystems. Field trips and labs. Mandatory day-long field trip on a Friday or Saturday (students choose which day; a fee of approximately \$15 may be charged for field trip transportation.) (Lab Materials Fee: \$25)

**Prerequisite:** BIO120H1/JEG100H1 (recommended)/FOR200H1/FOR201H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV237H1 - Physics of the Changing Environment A

**Hours:** 24L/24P

The course will cover basic physics of environmental processes and of measurement techniques in the atmosphere, the ocean, lake-land-forest systems, and other biological systems. It will place its work in the context of climate change and other aspects of environmental change. This course is solely intended for students in the Environmental Science Major program who have NOT completed a previous first year physics core course.

**Prerequisite:** MAT135H1/MAT136H1/MAT137Y1/MAT157Y1/JMB170Y1, CHM136H1/CHM138H1/CHM135H1/CHM139H1/CHM151Y1

**Exclusion:** ENV238H1, PHY131H1/PHY132H1/PHY151H1/PHY152H1

**Recommended Preparation:** Any high school physics

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ENV238H1 - Physics of the Changing Environment B

**Hours:** 24L/24P

The course will cover basic physics of environmental processes and of measurement techniques in the atmosphere, the ocean, lake-land-forest systems, and other biological systems. It will place its work in the context of climate change and other aspects of environmental change. This course is solely intended for students in the Environmental Science Major program who have completed a previous first year physics core course.

**Prerequisite:** MAT135H1/MAT136H1/MAT137Y1/MAT157Y1/JMB170Y1, CHM136H1/CHM138H1/CHM135H1/CHM139H1/CHM151Y1, PHY131H1/PHY132H1/PHY151H1/PHY152H1

**Exclusion:** ENV237H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ENV261H1 - Is the Internet Green?

**Previous Course Number:** ENV281H1

**Hours:** 24L/12T

The Internet has deeply penetrated most aspects of society and yet we are remarkably unreflective about its impacts and sustainability. This course challenges students to critically evaluate evidence regarding the environmental and social impacts of the Internet and how the Internet contributes (or not) to goals of environmental sustainability. (ENV261H1 is intended as a Breadth Requirement course in the Social Sciences.)

**Prerequisite:** Students must have completed a minimum of 4.0 FCEs to enrol in the course.

**Exclusion:** BIG102Y1; ENV281H1 if taken in 2015-16 or 2016-17

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV262H1 - The Science of Energy in the Environment

**Hours:** 24L/12T

Energy is a fundamental organizing principle of Nature. It has a central role in the origin and evolution of the universe, and is the basis of the ecosystem of the Earth and of technology and the world economy. This course will explore the science of energy in all its forms. (ENV262H1 is primarily intended as a Breadth Requirement course for students in the Humanities and Social Sciences.)

**Exclusion:** ENV346H1, (PHY131H1, PHY132H1, PHY151H1, PHY152H1 or equivalent, taken previously or concurrently)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ENV281H1 - Special Topics in Environment

**Hours:** 24L/12T

Special topics course designed for students in School of the Environment programs. Content in any given year depends on instructor. See [School of the Environment website](#) for more details.

**Prerequisite:** Students must have completed a minimum of 4.0 FCEs to register for the course.

**Exclusion:** BIG102Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV282H1 - Special Topics in the Environment

**Hours:** 24L

Special topics course designed for students in School of the Environment programs. Content in any given year depends on instructor. See [School of the Environment website](#) for more details.

**Prerequisite:** Students must have completed a minimum of 4.0 FCEs to register for the course.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ENV299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science; Social Science

## ENV307H1 - Urban Sustainability (formerly JIE307Y1)

**Hours:** 36L

This course critically examines the concept of urban sustainability in theory and application. Case studies of ongoing urban sustainability programs in the developed and developing world help students assess the successes and failures of these programs. The course also examines the current state of research and implementation efforts toward urban sustainability.

**Prerequisite:** (ENV221H1, ENV222H1)

**Exclusion:** INI307Y1 (2005-06 academic year and before)/JIE307Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV316H1 - Laboratory and Field Methods in Environmental Science

**Hours:** 12T/36P

This course focuses on methods of sampling and analyzing natural air, water and solid Earth materials for physical, chemical and biological properties that are relevant to current environmental issues. It will integrate approaches from chemistry, physics, geology and biology, and cover techniques in field sampling, laboratory analyses and analyses of large environmental data sets. Basic concepts related to quality control will be emphasized throughout the course: sample collection and storage methods, calibration of field and lab instruments, analyses in complex matrices, errors (accuracy, precision), and detection limits. A fee of approximately \$15 may be charged for field trip transportation.

**Prerequisite:** ENV234H1, ENV233H1, ENV237H1/ENV238H1

**Exclusion:** ESS425H1/ENV315H1 (Chemical Analysis of Environmental Samples)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV320H1 - National Environmental Policy (formerly ENV320Y1)

**Hours:** 24L/12T

Examines ways in which governments develop and implement policy to protect the environment within their borders. Primarily Canada, plus comparisons with other countries. The focus is upon the politics of environmental policy making, which is understood by examining the interests and powers of the relevant state and non-state actors.

**Prerequisite:** (ENV221H1, ENV222H1)

**Exclusion:** ENV320Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV322H1 - International Environmental Policy (formerly ENV320Y1)

**Hours:** 24L/12T

Examines the ways in which states negotiate and implement international agreements addressing global environmental issues, such as the United Nations Framework Convention on Climate Change. Focus is upon factors which determine the efficacy of multilateral environmental agreements and the prospects for stronger global environmental governance.

**Prerequisite:** (ENV221H1, ENV222H1)

**Exclusion:** ENV320Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV323H1 - Ontario Environmental Policy (formerly ENV423H1)

**Hours:** 24S

Introduces students to public policy and institutional foundations of public policy in Canada, with an emphasis on environmental policy in Ontario. Provides an insiders perspective on how environmental policy has been developed in Ontario.

**Prerequisite:** (ENV221H1, ENV222H1) and enrolment in a School program, or permission of Academic Associate Director

**Exclusion:** ENV423H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV333H1 - Ecological Worldviews

**Hours:** 24L

Approaches to environmental concerns are often marked by assumptions that reflect distinct worldviews positing particular understandings of the role of the human with respect to nature. This course explores sundry economic, political, scientific, religious, and moral worldviews pertaining to the environment, including environmental ethics, Gaia, ecofeminism, scientific cosmology, and aboriginal perspectives.

**Prerequisite:** (ENV221H1, ENV222H1)

**Exclusion:** INI333H1 (2005-06 academic year and before)

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ENV334H1 - Environmental Biology: Applied Ecology

**Hours:** 24L/36P

Applied issues in aquatic and terrestrial ecosystems. Topics include: ecology of agro-ecosystems and other human-managed ecosystems, bio-indicators of anthropogenic impacts, ecosystem restoration, and adaptive management. Field trips and laboratory exercises. A fee of approximately \$15 may be charged for field trip transportation. Group projects address local management/restoration issues. (Lab Materials Fee: \$25)

**Prerequisite:** ENV234H1 and completion of 9 FCEs

**Recommended Preparation:** a course in statistics (EEB225H1 recommended)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV335H1 - Environmental Design

**Hours:** 24L

Introduction to understanding the complexity of relationships among people, built forms, and natural systems; systematic review of examples of environmental design at various scales.

**Prerequisite:** (ENV221H1, ENV222H1)

**Exclusion:** INI335H1 (2005-06 academic year and before)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV336H1 - Ecology in Human-Dominated Environments

**Hours:** TBA

A two week course offered at a Southern Ontario field station during late summer. Introduction to im-pacts of humans on semi-natural and human-dominated environments of southern Ontario and overview of the most commonly used assessment tools for states of ecosystems. These environments play important roles in terms of ecosystem services.

**Prerequisite:** first year biology and permission of the instructor

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV337H1 - Human Interactions with the Environment

**Hours:** 24L/12P

The impact of 7 billion people on the planet is enormous and challenges future generations. What are these impacts today and in future? What solutions and tools can avert societal collapse? Using an integrated and interdisciplinary systems approach, we explore problems and solutions to the earth's limits to growth.

**Prerequisite:** (two of ENV233H1, ENV234H1, ENV237H1/ENV238H1) or (GGR201H1 + GGR203H1) or (ENV233H1 + ESS261H1) or (CHM210H1 + CHM217H1) or (ENV221H1/ENV222H1/ENV234H1 + BIO220H1 + BIO230H1/BIO255H1) or permission of Academic Associate Director

**Exclusion:** JGE236H1, JGE337H1

**Recommended Preparation:** Related high school science

**Distribution Requirements:** Science

## ENV341H1 - Environment and Human Health

**Hours:** 24L

Examination of the linkages between human health and environment. Addresses basic principles and scientific knowledge relating to health and the environment and uses case studies to examine current environmental health issues from a health sciences perspective.

**Prerequisite:** (ENV221H1, ENV222H1) and enrolment in a School of the Environment program; or BIO230H1/(BIO240H1, BIO241H1)/BIO250Y1/BIO255Y1 and enrolment in the HMB Specialist in Health and Disease/HMB Specialist in Global Health; or permission of the Academic Associate Director

**Exclusion:** INI341H1 (2005-06 academic year and before)

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV346H1 - Terrestrial Energy Systems

**Hours:** 36L/24T

Various earth systems for energy transformation, storage and transport are explored. Geological, hydrological, biological, cosmological and oceanographic energy systems are considered in the context of the Earth as a dynamic system, including the variation of solar energy received by the planet and the redistribution of this energy through various radiative, latent and sensible heat transfer mechanisms. It considers the energy redistribution role of large-scale atmospheric systems, of warm and cold ocean currents, the role of the polar regions, and the functioning of various hydrological systems. The contribution and influence of tectonic systems on the surface systems is briefly introduced, as well the important role of energy storage processes in physical and biological systems, including the accumulation of fossil fuel reserves.

**Prerequisite:** (MAT135H1, MAT136H1)/MAT135Y1/MAT137Y1/JMB170Y1/BIO120H1/BIO150Y1/CHM136H1/CHM138H1/CHM1135H1/CHM139H1/CHM151Y1/PHY131H1/PHY132H1/PHY151H1/PHY152H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ENV347H1 - The Power of Economic Ideas (formerly ENV447H1)

**Hours:** 24L

This course examines the power of economic ideas in effecting environmental change. Topics include the relation of ecological economics to mainstream economics, as well as the role of financial incentives to move the environmental agenda forward.

**Prerequisite:** (ENV221H1, ENV222H1)

**Exclusion:** ENV447H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV350H1 - Energy Policy and Environment

**Hours:** 24L

The course addresses: (1) physical, technological and economic aspects of energy and electricity systems and their associated environmental impacts; (2) current international, Canadian and Ontario energy policy; (3) technological, economic and political factors influencing policy which could significantly reduce environmental impacts of energy use.

**Prerequisite:** (ENV221H1, ENV222H1) or permission of Academic Associate Director

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV361H1 - Social Media and Environmentalism

**Previous Course Number:** ENV381H1

**Hours:** 24L/12T

This course examines the impacts of the internet on environmental thinking and policy-making. Topics include the use of social media as a tool for community-building and collaborative design, the sharing economy, online protest movements, mass surveillance and its implications, and the impact of misinformation on climate denialism.

**Prerequisite:** Students must have completed a minimum of 6.0 FCEs to register for the course.

**Exclusion:** BIG102Y1; ENV381H1 if taken in 2015-16 or 2016-17

**Recommended Preparation:** ENV221H1, ENV222H1, and/or ENV261H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV362H1 - Energy & Environment: Transitions in History

**Previous Course Number:** ENV282H1

**Hours:** 36L

An exploration of the interactions between humans and their environments in the Holocene, focussing on the contexts and consequences of changes in energy technologies. Includes consideration of changes in food production and processing, transport and power generation technologies from the adoption of agriculture to the twentieth century.

**Prerequisite:** Students must have completed a minimum of 6.0 FCEs to register for the course.

**Exclusion:** BIG101Y1; ENV282H1 if taken in 2015-16 or 2016-17; HPS307H1; HIS300H1;

**Recommended Preparation:** ENV221H1, ENV222H1, and/or ENV262H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## ENV381H1 - Special Topics in Environment

**Hours:** 24L

Special topics course designed for students in School of the Environment programs. Content in any given year depends on instructor. See [School of the Environment website](#) for more details.

**Prerequisite:** Students must have completed a minimum of 9.0 FCEs to register for the course.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV382H1 - Special Topics in Environment

**Hours:** 24L/12T

Special topics course designed for students in School of the Environment programs. *Will be offered in 2017-18 on the subject area of religion and environment.* Content in any given year depends on instructor. See [School of the Environment website](#) for more details.

**Prerequisite:** Students must have completed a minimum of 9.0 FCEs to register for the course.

**Exclusion:** BIG101Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV395Y0 - Special Topics Field Course

**Hours:** 48S

This course examines fundamental concepts in ecology, evolution, biodiversity, geology and conservation biology through lectures and fieldwork in highland, tropical and island ecosystems in Ecuador. The complex relations between these environments and the people who depend on them will also be examined through analysis of the social, cultural, and economic transformations that have taken place in recent years. Suitable for all School of the Environment programs.

**Recommended Preparation:** ENV200H1 or equivalent; OR BIO120H1 or equivalent

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3); Living Things and Their Environment (4)

## ENV396Y0 - Special Topics Field Course

**Hours:** TBA

This course examines Australia's environmental, wildlife and conservation issues from an interdisciplinary perspective. In consideration of these issues, Australia's unique flora and fauna are examined through lectures and fieldwork in the various climatically varied regions of Australia that are visited throughout the course.

**Recommended Preparation:** ENV200H1 or equivalent; or BIO120H1 or equivalent

**Distribution Requirements:** Social Science; Science

**Breadth Requirements:** Society and its Institutions (3); Living Things and Their Environment (4)

## ENV421H1 - Environmental Research

Hours: 24S

A research course for all students in the School combining report writing, independent and group-based research on an interdisciplinary topic. Not eligible for CR/NCR option.

**Prerequisite:** (ENV221H1, ENV222H1); completion of 10 FCE or their equivalent, and enrolment in one of the Schools core major or collaborative specialist programs; or permission of the Academic Associate Director.

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV422H1 - Environmental Law

Hours: 24S

An introduction to environmental law for students in Environmental Studies; legal methods available to resolve environmental problems and the scope and limits of those methods; common law and statutory tools as well as environmental assessment legislation; the problem of standing to sue and the limits of litigation.

**Prerequisite:** (ENV221H1, ENV222H1) and enrolment in a School program, or permission of Academic Associate Director

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV430H1 - Environment and Health in Vulnerable Populations

Hours: 24S

The seminar introduces students to a wide range of topics and issues as they relate to the environment and health of vulnerable populations. Through readings and discussion, students will explore the potential health effects of exposures in children and other vulnerable populations to a variety of chemical and physical agents in both the indoor and outdoor environments. A number of case studies or topics will be examined to exemplify why certain populations may be especially vulnerable to various environmental hazards. Issues related to equity and justice will also be examined.

**Prerequisite:** ENV341H1, or permission of the instructor.

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV431H1 - Urban Sustainability & Ecological Technology

Hours: 24L

Ecological technology or green infrastructure encompasses those technologies that incorporate ecosystems to replace mechanical or non-living components in a machine or a piece of infrastructure. Complex systems theory and second-law thermodynamics are used as a template to explore concepts of urban sustainability, and the role of ecological technology in this context.

**Prerequisite:** ENV221H1, ENV222H1) or permission of the Academic Associate Director

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV432H1 - Urban Ecology

Hours: 24L/12S

The ecology of urban areas through consideration of the biological and physical environments, in particular how the human-constructed environment alters pre-existing biophysical conditions and interactions. Encompasses a comparative perspective to study the development of these emerging ecosystems of increasing importance given global urbanization. One or two Saturday field trips (a fee of approximately \$15 may be charged for field trip transportation.)

**Prerequisite:** At least one of EEB319H1/EEB321H1/EEB365H1/ENV334H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV440H1 - Professional Experience Course (formerly ENV440Y1)

**Hours:** 10S

Regular academic seminars complement off-campus work on an environmental project. The course enables students to gain practical experience of the needs and demands of professional environmental agencies. Students are given a choice of placements in a variety of sectors (such as government, NGOs, industry).

Eligible students who wish to do a work placement in the Summer Session or Fall Term of 2018, must submit an application to the Placement Coordinator electronically by January 19, 2018, to participate in the first round of work placement applications. Some additional applications after the deadline above will be accepted, space in the course permitting. Contact Placement Coordinator, David Powell, at [david.powell@utoronto.ca](mailto:david.powell@utoronto.ca)

The application form for the summer and fall of 2018 is available at the School of the Environment Courses page at: <https://www.environment.utoronto.ca/undergraduate/course-list/>

**Prerequisite:** 10 full courses or their equivalent, including three FCE of environmental courses in the student's environmental program completed before ENV440H1 taken; or permission of Academic Associate Director

**Exclusion:** ENV440Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV450H1 - Energy and Environment Solutions

**Hours:** 12T/24S

This is an interdisciplinary course in which students address current energy problems while incorporating technical, environmental, economic, social, and political concerns.

**Prerequisite:** ENV346H1, ENV350H1; (GGR347H1, GGR348H1)/(JGE347H1, JGE348H1)/(GGR314H1, GGR333H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV451H1 - Current Environmental Topics

**Hours:** 24S

This capstone course for the School's core programs will explore current environmental topics, with the goal of integrating the multi- and interdisciplinary strands of each student's learning to date.

**Prerequisite:** (ENV221H1, ENV222H1); completion of 10 FCE or their equivalent, and enrolment in one of the Schools core major programs; or permission of the Academic Associate Director.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV452H1 - Environmental Science Seminar

**Hours:** 36S

Scientists from within and external to the university share and discuss challenges, findings and opportunities. Specific topics (and speakers) vary from year to year but may draw from rehabilitation techniques, contaminants in our environment, environmental health, impacts on landscapes and communities, biodiversity, water, and modelling of environmental processes.

**Prerequisite:** ENV316H1/ENV334H1/JEE337H1, completion of 10 FCEs, and enrolment in the Environmental Science Major; or permission of the Academic Associate Director

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## ENV461H1 - The U of T Campus as a Living Lab of Sustainability

**Hours:** 24L

Sustainability is a growing priority for universities all over the world. Many are developing strong operational sustainability goals and targets, and are giving increasing emphasis to teaching and research on sustainability issues. Yet few have committed at the executive level to integrating academic and operational sustainability in the context of treating their campus as a living laboratory of sustainable practice, research and teaching. Arguably, it is such living lab approaches that offer the largest potential for universities to play a significant role in the sustainability transition. This course will explore and apply the living lab concept, in the context of operational sustainability at the University of Toronto. We will begin by looking at the literature on university sustainability and the living lab concept. The bulk of the course will involve undertaking an applied research project on some aspect of campus sustainability, working in close partnership with operational staff at the University of Toronto. Students will develop the skills needed to work across disciplines and fields of study, and with non-academic partners. This course will put students to work on operational sustainability projects identified by the staff working in or with the Sustainability Office at the University of Toronto. Students will be organized into groups, each of which will be assigned one project, to be overseen by one or more U of T staff members. The bulk of the course will consist of regular meetings with the staff "clients", with instructors, and in small groups to undertake a group project. Each group will produce a mid-term and final report, and give a mid-term and final presentation. Each student will also submit two 360 reviews of the group process. A crucial aspect of this course is the ability of students to work collaboratively together in a group environment, and to work effectively with a university staff person acting as a "client" for their work. Students will be provided with a Handbook outlining information on working in groups and the focus of the class in the second week will be on this issue. The first 360 peer review will serve to provide information on how well each group is working. Students are encouraged to discuss and resolve group process issues in the weekly group meetings, and in their regular meetings with the instructor and TA. The second 360 review will occur at the end of the term. The results of the two 360 reviews will be used, where appropriate, to adjust individual marks from the group averages.

**Prerequisite:** Students must have completed a minimum of 10.0 FCE to register for the course.

**Exclusion:** ENV481H1 if taken in 2016-17

**Recommended Preparation:** 1.0 FCE of environment-related coursework

**Distribution Requirements:** Humanities; Social Science; Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV462H1 - Energy and Environment: Economics, Politics, and Sustainability

**Previous Course Number:** ENV382H1

**Hours:** 24L/12T

This is an interdisciplinary course that examines key ideas in economics, politics and security that are essential to understanding energy and environmental issues. The course will cover energy markets, energy security, and the increasing role that sustainability plays in setting policies.

**Prerequisite:** Students must have completed a minimum of 10.0 FCEs to register for the course, of which 3.0 must be ENV courses.

**Exclusion:** BIG101Y1; ENV382H1 if taken in 2015-16 or 2016-17

**Recommended Preparation:** ENV221H1, ENV222H1, ENV262H1, and/or ENV362H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ENV481H1 - Special Topics in the Environment

**Hours:** 24S

Special topics course designed for advanced Specialist and Major students in School of the Environment programs.

**Prerequisite:** (ENV221H1, ENV222H1) and completion of at least 10 FCE and enrolment in a School Environmental program, or permission of Academic Associate Director.

**Distribution Requirements:** Social Science

## ENV482H1 - Special Topics in the Environment

**Hours:** 24S

Special topics course designed for advanced Specialist and Major students in School of the Environment programs.

**Prerequisite:** (ENV221H1, ENV222H1) and completion of at least 10 FCE and enrolment in a School Environmental program, or permission of Academic Associate Director.

**Distribution Requirements:** Social Science

## ENV492H1 - Independent Studies Project (formerly INI492H1)

A research project or selected topic in an area of environment not otherwise available in the Faculty, meant to develop skills in independent study of interdisciplinary topics. A written proposal co-signed by the student and supervisor must be submitted for approval by the Academic Associate Director of the School normally one month prior to commencing the course. Not eligible for CR/NCR option.

**Prerequisite:** (ENV221H1, ENV222H1) and completion of at least 14 FCE, and enrolment in a School of the Environment program

**Distribution Requirements:** Social Science

## ENV493H1 - Independent Studies Project (formerly INI493H1)

**Hours:** TBA

A research project or selected topic in an area of environment not otherwise available in the Faculty, meant to develop skills in independent study of interdisciplinary topics. A written proposal co-signed by the student and supervisor must be submitted for approval by the Academic Associate Director of the School normally one month prior to commencing the course. Not eligible for CR/NCR option.

**Prerequisite:** (ENV221H1, ENV222H1) and completion of at least 14 FCE, and enrolment in a School of the Environment program

**Distribution Requirements:** Social Science

## JEH455H1 - Current Issues in Environment and Health

**Hours:** 16L/8S

This course introduces students to complex issues at the interface between environment and health where health is broadly defined. Each year a current and controversial case study is explored from scientific, medical, political and policy perspectives. The course takes students from the molecular to individual to population and societal levels.

**Prerequisite:** 14 FCE complete, ENV341H1/ HMB302H1/ HMB312H1/ HMB314H1/ HMB322H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## JGE321H1 - Multicultural Perspectives on Environmental Management

**Hours:** 24L

Diverse approaches to environmental issues in a variety of multicultural settings are introduced, compared and analyzed, using case studies. Perspectives on environmental management will be discussed as they emerge from contexts such as Latin America, Asia, or Africa.

**Prerequisite:** ENV221H1/ENV222H1/GGR222H1/GGR223H1

**Exclusion:** ENV321Y1

**Recommended Preparation:** 8.0 FCE's

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGE331H1 - Resource and Environmental Theory (formerly GGR331H1)

**Hours:** 24L

Introduction to and critical evaluation of major ideas and conceptual traditions underpinning environmental and natural resource politics and regulation. Topics include: parks and protected areas, market-based environmental regulation, property rights and conservation, Malthusianism, and biodiversity conservation. Emphasis is placed on critical reading of primary texts.

**Prerequisite:** GGR100H1/JEG100H1/GGR107H1/ENV221H1/ ENV222H1/GGR222H1/GGR223H1

**Exclusion:** GGR331H1

**Recommended Preparation:** 8.0 FCE's

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

# Estonian

Given by the Department of Slavic Languages and Literatures

Estonian is spoken by approximately one million people in present-day Estonia and some 72,000 in other parts of the world, including 18,000 in Canada. Closely related to Finnish and more distantly to Hungarian, Estonian is one of the few Finno-Ugric languages to exist surrounded by speakers of Indo-European languages.

An ancient people, the Estonians have preserved their language and culture despite centuries of domination by other nations. Not only is their heritage enormously rich in folk epics and songs, but Estonians enjoy a vigorous and diversified literary tradition which continues in Estonia proper and in their adoptive countries.

Estonian studies at the University of Toronto are concerned with the language, literature, and culture of Estonia. The language courses will be of interest to those wishing to improve their language skills, as well as to students of general linguistics who desire to acquire a knowledge of a non-Indo-European language.

## Estonian Programs

### Estonian Studies Minor (Arts Program)

#### Completion Requirements:

(4 FCEs or equivalent, including at least one at the 300+ level)

Four FCEs from: EST100H1, EST101H1, EST200H1, EST201H1, EST300Y1, EST400Y1, EST420Y1, FIN220H1

### Regarding Estonian Courses

#### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

#### Note

The Department reserves the right to assign students to courses appropriate to their level of competence in Estonian.

## Estonian Courses

### EST100H1 - Elementary Estonian Language and Culture I (formerly EST100Y1)

**Hours:** 48P

Learn essential Estonian vocabulary, basic grammar and develop elementary conversational competence. Popular songs, poetry, and structured dialogue are among the various tools for achieving these objectives. Students will learn commonly used phrases and expressions used in everyday situations, from greeting people to making purchases in stores, and ordering meals in cafes. The course is designed for students with either no fluency or minimum fluency in Estonian.

**Exclusion:** EST100Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### EST101H1 - Elementary Estonian Language and Culture II (formerly EST100Y1)

**Hours:** 48L

This course expands the student's command of Estonian from the introductory level. The course will consist of themed sessions using language for travel in Estonia, savouring the language of Estonian cuisine, and the lyrics of popular, folk and classical Estonian music. These themed sessions will also enable students to better understand the proper inflections of nouns and tenses of verbs in both dialogue and written exercises. This course is open to students with minimum fluency in Estonian.

**Prerequisite:** EST100H1 / Permission of instructor

**Exclusion:** EST100Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **EST200H1 - Intermediate Estonian Language and Culture I (formerly EST200Y1)**

**Hours:** 48P

This course develops the student's language skills via an exploration of Estonian culture - including its music, literature, film and media. Each of these areas will be examined through readings, writing about one's impressions, and speaking about them to others in the class. The course consists of a combination of both classroom and web-based learning. The course is open to students with some fluency in Estonian.

**Prerequisite:** (EST100H1, EST101H1) / Permission of instructor

**Exclusion:** EST200Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **EST201H1 - Intermediate Estonian Language and Culture II (formerly EST200Y1)**

**Hours:** 48P

Through an exploration of Estonian culture both in Estonia and the diaspora, students will further develop their skills in speaking, reading and writing in Estonian. Students will learn about the main characteristics of Estonian society its history, way of life, the Estonian economy and business environment, and Estonian current affairs. Students will discuss recent trends and challenges in the development of Estonian society. The course will combine both classroom and web-based learning. It is open to students with elementary fluency in Estonian, both spoken and written.

**Prerequisite:** (EST100H1, EST101H1) / Permission of instructor

**Exclusion:** EST200Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **EST300Y1 - Advanced Estonian**

**Hours:** 72P

Advanced grammar and stylistics through study of a variety of texts; problems of composition; translation; oral and written practice. (Offered in alternate years)

**Prerequisite:** EST200Y1 or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **EST400Y1 - Estonian Literature from 1700**

**Hours:** 24L/24S

A survey of the major writers and literary periods in Estonian literature. From Ksu Hans, Lament of Tartu to the National Awakening. Republican, Soviet, expatriate literature, and the New Awakening. Readings in Estonian or English. (Offered in alternate years)

**Prerequisite:** Permission of instructor

**Recommended Preparation:** EST300Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **EST420Y1 - Independent Study**

**Hours:** TBA

A year-long reading and research project of significant depth in a major topic in Estonian language, literature or culture approved and supervised by an instructor. Not eligible for CR/NCR option.

**Prerequisite:** EST300Y1/EST400Y1; permission of instructor

**Distribution Requirements:** Humanities

## **EST421H1 - Independent Study**

**Hours:** TBA

A semester-long reading and research project of significant depth in a major topic in Estonian language, literature or culture approved and supervised by an instructor. Not eligible for CR/NCR option.

**Prerequisite:** Permission of instructor

**Distribution Requirements:** Humanities

# Centre for Ethics

The Centre for Ethics at the University of Toronto fosters research, teaching and public discussion of the moral dimensions of contemporary individual, social and political life. We are committed to the proposition that universities have a distinctive capacity and responsibility to shed light on questions of the moral life, as well as to educate students for reflective citizenship. Fulfilling this responsibility requires that we promote and engage in dialogue about the theory and practice of ethics across disciplinary, cultural, religious and social divides. For information or to make an appointment for consultation contact the Assistant to the Director, 416-978-6288 or e-mail: [ethics@utoronto.ca](mailto:ethics@utoronto.ca).

## Centre for Ethics Courses

### ETH201H1 - Contemporary Moral Problems

**Hours:** 24L

ETH201H1 is an introductory course in ethics. How should we live? Which course of action is the right one? When and why should we blame ourselves and/or others? We all have and exercise moral opinions; this course is about justifying them. The course begins with some critical reasoning skills, and then explores philosophical strategies for justifying moral beliefs. We will then examine some specific issues of moral and political significance before concluding with psychological mechanisms behind moral attitudes and behaviour.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### ETH210H1 - Rationality and Action

**Hours:** 36L

An introductory survey of attempts that have been made to develop a formal model of practical rationality, with particular emphasis on the way moral considerations enter into those deliberations. Topics may include: utility-maximization theory, introductory game theory, consequentialism, and deontic reasoning, as well as the limitations of rationality.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### ETH220H1 - Moral Psychology

**Hours:** 36L

A study of issues that arise at the intersection of psychology and moral philosophy. Why do people act morally? What role do reason and emotion play? Can we know what is right, yet not be motivated to do it? What role can science play in advancing our understanding of morality?

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### ETH230H1 - Morality in Cross-Cultural Perspective

**Hours:** 36L

Is morality universal, or does it vary by time and place? This course will examine cultural differences in moral codes from both empirical and philosophical perspectives.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### ETH350H1 - Topics in Value Theory

**Hours:** 24L

Selected topics in value theory, broadly construed (ethics, political theory, law).

The winter 2017 session will be structured around the concept of human dignity. The course will explore philosophical, legal, and historical interpretations of this concept. It will use dignity as a lens through which to examine issues including discrimination, multiculturalism, and human rights.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ETH401H1 - Seminar in Ethics

**Hours:** 16L/16S

The seminar will expose advanced undergraduates to cutting edge research in ethics. It meets bi-weekly over the entire academic year. Participants will attend research presentations at the Centre for Ethics (topics have included bioethics, indigenous rights, equality and education, free speech, and workplace democracy). They will also meet individually with the instructor (the Centre's Director) to plan an independent research project related to the theme of the course. In the winter term, students will present their research and discuss it with the other students in the seminar. (Note that this is an "H1Y" course -- a half-credit course taught throughout both Fall and Winter terms.)

**Prerequisite:** One of PHL365H1, PHL375H1, PHL271H1, POL200Y1 or an equivalent, POL330Y1 or an equivalent. Preference for enrolment will be given to students of the Department of Philosophy, the Department of Political Science, and Trinity Colleges program in Ethics, Society, and Law.

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

# European Studies

The European Studies Program is designed to develop an interdisciplinary expertise on modern Europe, combining rigorous language training with in-depth knowledge of Europe's history, politics, and culture. For students who desire the linguistic competence, the cultural comprehension, and the specialized knowledge necessary to operate effectively in the "new" Europe, the major program provides undergraduate students with the opportunity to focus on Europe through a wide variety of courses and disciplines with a focus on economics, history, language and politics. A major in European Studies offers preparation either for further specialized or professional study at the graduate level or for work either in Europe itself or within a Canadian-based organization/business dealing with Europe.

Language competence is at the centre of the European Studies Program. Students majoring in European Studies are expected to acquire, in the course of their Program, a working fluency in one or more of the following designated languages: Croatian, Czech, Estonian, Finnish, French, German, Hungarian, Italian, Macedonian, Modern Greek, Polish, Portuguese, Russian, Serbian, Slovak, Spanish, or Ukrainian. European Studies majors may want to consider working toward a [language citation](#). To ensure that graduates in European Studies have the historical understanding and specialized knowledge, as well as linguistic competence, necessary to comprehend contemporary Europe, a balanced syllabus is presented: core courses on the political evolution of Europe and on the economics and politics of European integration are complemented by choices from courses offered by the twelve academic departments participating in the Program. Students who choose to minor in European Studies will acquire in-depth knowledge of modern Europe.

## European Studies Programs

### European Studies Major (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program open only to those who earn a mark of at least 65% in one of the required first-year language courses and who also successfully complete at least 4 full courses in first year. Students who are exempted from a first-year language course (i.e. those with some prior language skills) should begin studies at the second-year level and must complete a three-year sequence of language study.

#### Completion Requirements:

#### Major Requirements

Visit the European Studies Program web site for updated information about requirements, course offerings, and events:  
[www.sites.utoronto.ca/esp](http://www.sites.utoronto.ca/esp) or consult Prof. Robert Austin, Undergraduate Coordinator, Room 128N, Munk School of Global Affairs (416-946-8942) for general program requirements.

European Studies Majors must complete 7.0 FCEs, including at least two 300+-level FCEs, 0.5 of which must be at the 400-level. The mandatory EUR498H - Special Topics in European Studies -

fulfils the 400-level requirement. The distribution of the 7.0 FCEs is as follows:

\* Three FCEs in language (a three-year progressive sequence of courses in a single language). Variations on this can be discussed with the Program Coordinator.

\* Two FCEs in the required core courses offered by the Departments of History (EUR200Y) and Political Science (POL207Y or POL359Y).

\* The .5 FCE EUR498H - Special Topics in European Studies.

\* The remaining 1.5 FCE in elective courses chosen from the list of eligible electives below.

Students are expected to consult with the Program Coordinator for assistance with and advice on course selection.

NOTE: Some of the courses listed below may have prerequisites; some may be offered in alternate years. The list reflects information available at the time of printing. Consult the Program Advisor for up-to-date information.

#### First Year:

One of the following: [EST100Y1](#); [EST100H1](#) and [EST101H1](#), [FIN100Y1](#); [FSL100H1](#) and [FSL102H1/FSL121Y1](#); [GER100Y1](#); [HUN100Y1](#); [ITA100Y1/ITA101Y1](#); [MGR100H1F](#); [MGR101H1S](#); [PRT100Y1/PRT110Y1](#); [SLA100Y1](#), [SLA100H](#) and [SLA101H](#), [SLA105Y1](#), [SLA106Y1](#), [SLA107Y1](#), [SLA108Y1](#), [SLA109Y1](#), [SPA100Y1](#) or an

#### Second Year:

1. EUR 200Y1  
2. One full course equivalent from: [EST200Y1](#); [FIN200Y1](#); [FSL221Y1](#); [GER200Y1/GER300Y1/GER370H1](#); [HUN200Y1](#); [ITA250Y1/ITA251Y1/ITA252Y1](#); [MGR245Y1](#); [PRT220Y1](#); [SLA204Y1](#), [SLA206Y1](#), [SLA207Y1](#), [SLA208Y1](#), [SLA209Y1](#), [SLA220Y1](#), [SLA237Y1](#); [SPA220Y1](#) or an equivalent combination of half credits.

#### Third Year:

1. [POL207Y1](#) or [POL359Y1](#) or [POL324Y1](#)  
2. One full course equivalent from: [EST300Y1](#); [FIN300H1](#) plus half course in literature; [FSL321Y1](#), [FSL421Y1](#), [FSL442H1](#) and [FSL443H1](#); [GER300Y1/GER370H1/GER372H1](#), [GER400H1](#); [HUN310Y1](#); [ITA343H1](#) and [ITA344H1](#), [ITA354H1](#) and [ITA355H1](#), [ITA364H1](#) and [ITA365H1](#); [MGR300H1](#) and [MGR301H](#); [PRT320Y1/PRT420Y1](#); [SLA305H1](#), [SLA306H1](#) and [SLA336H1](#), [SLA307Y1](#), [SLA308Y1](#), [SLA316Y1](#), [SLA320Y1](#), [SLA321Y1](#), [SLA351H1](#), [SLA402H1](#) and [SLA403H1](#); [SPA320Y1/SPA323H1/SPA325H1/SPA420H1](#) and [SPA421H1](#)

#### Fourth Year:

1. [EUR498H1](#)

2. Remaining courses to be selected from the list of eligible electives below. The most up-to-date list of electives is on the program website.

Current Eligible Electives (for approval on courses outside the list or for transfer credits, please consult the Program Coordinator):

[ANT446H1](#); [ECO230Y1](#), [ECO301Y1](#), [ECO303Y1](#), [ECO342Y1](#); [ENG329H1](#), [ENG340H1](#), [ENG341H1](#); [EST400Y1](#); [FCS195H1](#), [FCS297H1](#), [FCS310Y1](#), [FCS331H1](#), [FCS395H1](#); [FIN230H1](#), [FIN235H1](#), [FIN240H1](#), [FIN250H1](#), [FIN260H1](#), [FIN340H1](#), [FIN350H1](#),

FIN415H1, FRE320H1, FRE324H1, FRE326H1, GGR339H1, GGR344H1, GGR361H1, GER150H1, GER204H1, GER205H1, GER232H1, GER150H1, GER261H1, GER321H1, GER322H1, GER323H1, GER326H1, GER336H1, GER350H1, GER362H1, GER410H1, GER421H1, GER425H1, HIS208Y1, HIS245Y1, HIS251Y1, HIS302H1, HIS309H1, HIS317H1, HIS325H1, HIS330H1, HIS331H1, HIS334Y1, HIS335H1, HIS337Y1, HIS338H1, HIS339Y1, HIS344Y1, HIS349H1, HIS351Y1, HIS353Y1, HIS354Y1, HIS355H1, HIS361H1, HIS371H1, HIS388H1, HIS389H1 (Hungarian History), HIS389Y0 (City in Central Europe), HIS401H1, HIS407H1, HIS414H1, HIS415H1, HIS416H1, HIS418H1, HIS421Y1, HIS422H1, HIS431H1, HIS433H1, HIS439H1, HIS442H1, HIS445H1, HIS449Y1, HIS451H1, HIS453H1, HIS455H1, HIS458Y1, HIS459H1, HIS460H1, HIS461H1, HIS477H1, HIS488H1, HIS490H1; HUN335H1, HUN345H1, HUN355H1, HUN356H1; INI381H1, INI382H1; ITA210Y1, ITA240Y1, ITA245Y1, ITA301H1, ITA310H1, ITA326H1, ITA340H1, ITA341H1, ITA346H1, ITA347H1, ITA381H1, ITA405H1, ITA410H1, ITA415H1, ITA421H1, ITA441H1, ITA455H1, ITA491H1, ITA492H1; JHP304Y1, JHP435Y1, JHP454Y1; JPD439Y1; JPP343Y1; PHL210Y1, PHL217H1, PHL265H1, PHL310H1, PHL311H1, PHL312H1, PHL315H1, PHL316H1, PHL317H1, PHL320H1, PHL321H1, PHL322H1, PHL326H1, PHL338H1, PHL365H1, PHL388H1; POL200Y1, POL207Y1, POL317Y1, POL320Y1, POL321H1, POL324Y1, POL332H1, POL344H1, POL354H1, POL359Y1, POL368Y0, POL372H1, POL405Y1, POL414H1, POL415H1, POL422Y1, POL437H1, POL440Y1, POL452Y1, POL453Y1; PRT250H1; SLA202H1, SLA205H1, SLA215H1, SLA216Y1, SLA217H1, SLA218Y1, SLA222H1, SLA225H1, SLA226H1, SLA228H1, SLA234H1, SLA241H1, SLA242H1, SLA244H1, SLA247H1, SLA248H1, SLA252H1, SLA302H1, SLA303H1, SLA315H1, SLA318H1, SLA322H1, SLA327H1, SLA328H1, SLA331H1, SLA337H1, SLA339H1, SLA340H1, SLA343H1, SLA344H1, SLA346H1, SLA356H1, SLA380H1, SLA404H1, SLA405Y1, SLA406H1, SLA407H1, SLA414H1, SLA417H1, SLA424H1, SLA425Y1, SLA434Y1, SLA436H1, SLA441H1, SLA442H1, SLA449H1, SLA453H1, SLA458H1, SLA460H1, SLA463H1, SLA465H1, SLA475H1, SLA476H1, SLA485H1, SOC341Y1, SOC350Y1; SPA325H1, SPA341H1, SPA345H1, SPA435H1.

## European Union Studies Minor (Arts Program)

### Enrolment Requirements:

This is a limited enrolment program open only to those who earn a mark of at least 70% in a first-year history or political science course and who also successfully complete at least 4 full courses in first year. Visit the European Studies Program web site for updated information about requirements, course offerings, and events: [www.utoronto.ca/esp](http://www.utoronto.ca/esp).

### Completion Requirements:

(4 full courses or their equivalent, including at least one 300/400 full-course equivalent)

1. EUR200Y1
2. POL207Y1/POL324Y1/POL359Y1
3. Two full credits or their equivalent in eligible elective courses (see European Studies Major above)

## European Studies Courses

### MGR100H1 - Introductory Modern Greek

Hours: 24L

This course is designed for absolute beginners in the Modern Greek language. The overall goal is to facilitate understanding and use of familiar everyday expressions and phrases aimed at the satisfaction of basic communicative needs. Students will familiarize themselves with the Modern Greek alphabet, pronunciation and grammatical rules. No previous knowledge of Modern Greek required.

**Exclusion:** Students who have completed High School in Greece or a Grade 12 Modern Greek language credit.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### MGR101H1 - Elementary Modern Greek

Hours: 24L

This course builds on MGR100H1 and aims to develop competence in the Modern Greek language at the basic level. Students will attain elementary proficiency in the spoken and written language by familiarizing themselves with a variety of grammatical and syntax structures while continuing to enrich their vocabulary. Emphasis will be placed on reading and conversational skills while students are expected to write short descriptive paragraphs.

**Prerequisite:** MGR100H1

**Exclusion:** Students who have completed High School in Greece or a Grade 12 Modern Greek language credit.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### EUR200Y1 - Europe: Nation-State to Supranational Union

Hours: 48L/24T

An analysis of the development of European political regimes from 1789 until the 2004 and 2007 enlargements of the European Union to include the countries of the former Soviet bloc. This course identifies the decisive forces and factors affecting the operation of constitutions and institutions within the countries which came to form the European Union: nationalism, multi-nationalism, internationalism and supranationalism.

**Exclusion:** HIS241H1/HIS242H1

**Recommended Preparation:** HIS103Y1/HIS109Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## MGR245Y1 - Intermediate Modern Greek

**Hours:** 78S

A course designed for students with some command of the language: vocabulary building; study of grammar and syntax; compositional skills leading to the study of a prose literary work.

**Prerequisite:** First year Greek or equivalent; permission of instructor that includes language placement test evaluation

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MGR300H1 - Advanced Modern Greek I

**Hours:** 24L

This course builds on the Intermediate level background knowledge to prepare students as independent users of the Modern Greek language. In order to attain conversational fluency and communicate effectively and accurately with native Greek language speakers, students will practice on reading and interpreting magazine and newspaper articles on various topics as well as applying more complex grammatical and syntax rules to write essays on assigned subjects.

**Prerequisite:** Completion of MGR245Y1 or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MGR301H1 - Advanced Modern Greek II

**Hours:** 24L

The aim of this course is to facilitate fluency both in spoken and written Modern Greek. Proficiency at this level will be attained through familiarization with various texts and genres including a Modern Greek literature anthology and selected academic articles. Emphasis will be placed on writing which will lead to the production of a short research paper in Modern Greek.

**Prerequisite:** Completion of MGR300H1 or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JRA401H1 - Topics in Comparative Politics V

**Hours:** 24S

Selected issues in comparative politics. Content and instructor varies from year to year. (*Given by the Department of Political Science and the Centre for European, Russian and Eurasian Studies*)

**Prerequisite:** 2.0 POL credits in comparative politics. See the Departments website

<http://politics.utoronto.ca/undergraduate/courses/fallwinter-timetable/> for POL courses by area group.

**Exclusion:** POL 438H (taken in 2013-14 and 2014-15)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JRA401Y1 - Topics in Comparative Politics V

**Hours:** 48S

Selected issues in comparative politics. Content and instructor varies from year to year. (*Given by the Department of Political Science and the Centre for European, Russian and Eurasian Studies*)

**Prerequisite:** 2.0 POL credits in comparative politics. See the Departments website

<http://politics.utoronto.ca/undergraduate/courses/fallwinter-timetable/> for POL courses by area group.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JRA402H1 - Topics in Comparative Politics VI

**Hours:** 24S

Selected issues in comparative politics. Content and instructor varies from year to year. (*Given by the Department of Political Science and the Centre for European, Russian and Eurasian Studies*)

**Prerequisite:** 2.0 POL credits in comparative politics. See the Departments website

<http://politics.utoronto.ca/undergraduate/courses/fallwinter-timetable/> for POL courses by area group.

**Exclusion:** POL 410H (taken in 2013-14 and 2014-15)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **JRA437H1 - Government, Law and Politics in Russia (formerly POL 437H1)**

**Hours:** 24S

Law in the governance of Russia, in the Soviet and post Soviet periods, including constitutional development, courts, business disputes, crime and criminal justice, corruption, cultural obstacles to legal order, and legal transition in comparative perspective. (*Given by the Department of Political Science and the Centre for European, Russian, and Eurasian Studies*)

**Prerequisite:** HIS351Y1/POL354H1/POL354Y1/a course in Russia or Soviet politics

**Exclusion:** POL422Y1/POL437H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **EUR495H1 - Independent Studies**

**Hours:** 2P

An in-depth of an issue of relevance to the European Union. Content depends on the instructor. Not eligible for CR/NCR option.

**Prerequisite:** Open only to students enrolled in the European Studies Major Program. Third and Fourth year students only.

**Recommended Preparation:** Varies year to year.

## **EUR498H1 - Special Topics - Europe**

**Hours:** 24L

The course looks at issues of central significance to Europe and the European Union in that academic year. These issues might include immigration, integration, migration, fiscal/monetary union, common foreign and security policies, peacekeeping/peacebuilding and EU enlargement/deepening.

**Prerequisite:** EUR200Y1 + POL207Y1/POL324Y1/POL359Y1 and completion of 12.0 FCEs

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## Introduction

A nation of five million people, Finland is situated between West and East, between Sweden and Russia, sharing for thousands of years religious, historical, political, social, and cultural influences and experiences with its neighbours and the different worlds they represent.

Finnish, a Finno-Ugric language related to Estonian and Hungarian, is spoken by 94% of Finland's population, by 300,000 in Sweden, and by large numbers in Canada, the United States, and other countries. The other constitutionally recognized group, the Finland-Swedes, comprises over six percent of the population. The Finns have a strong commitment to their languages and to their culture. Their national epic, the Kalevala, compiled in the 19th century from old Finnish epic narrative poems and incantations, soon became a national symbol and continues to this day to inspire the growth and development of the country's creative force. Today the entire world responds to Finnish achievements in music, literature, the arts and architecture, and celebrates the work of such outstanding figures as Jean Sibelius, Aki Kaurismäki, Alvar Aalto, and Eliel and Eero Saarinen.

Finnish studies at the University of Toronto are presently engaged in teaching the Finnish language - a three-year sequence - and in offering other courses on the literature and culture of Finland.

## Finnish Programs

### Finnish Studies Major (Arts Program)

#### Completion Requirements:

(6 FCEs or their equivalent, with at least 2 FCEs at the 300+ level, including 0.5 FCE at the 400-level)

1. FIN100H1, FIN110H1
2. FIN200H1, FIN210H1
3. FIN300H1
4. 4 FCEs from the following: FIN230H1, FIN235H1, FIN240H1, FIN250H1, FIN260H1, FIN305H1, FIN310H1, FIN320H1, FIN330H1, FIN340H1, FIN350H1, FIN360H1, FIN400H1, FIN410H1, FIN415H1, FIN420Y1, FIN430H1
5. 0.5 FCE in Breadth Requirement Category 5: The Physical and Mathematical Universes, or another half course approved by the program director, to fulfill the Quantitative Reasoning competency required in the program.

## Finnish Studies Minor (Arts Program)

#### Completion Requirements:

(4 FCEs or equivalent, including at least one at the 300+ level)

Four FCEs from FIN-designated courses

## Finnish Courses

### FIN100H1 - Elementary Finnish I

Hours: 48P

The Department reserves the right to assign students to courses appropriate to their level of competence in Finnish. An introductory language course for students with no knowledge of Finnish. The acquisition of a basic vocabulary and of an understanding of elementary structural features through practice in comprehension, speaking, reading and writing.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### SWE100H1 - Elementary Swedish I

Hours: 24L/24P

Elementary Swedish I gives students a basic knowledge of Swedish. Students learn to understand and use Swedish in everyday situations, and to read and write short texts on familiar themes, and speak about their immediate social environment and learn something about everyday life in both Finland and Sweden.

**Exclusion:** SWE 101H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## SWE101H1 - Elementary Swedish II

**Hours:** 24L/24P

Elementary Swedish II, a continuation of SWE100H1 gives students a basic knowledge of Swedish. Students learn to understand and use Swedish in everyday situations, and to read and write short texts on familiar themes, and speak about their immediate social environment and learn something about everyday life in both Finland and Sweden.

**Prerequisite:** SWE100H1 or instructor permission

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN110H1 - Elementary Finnish II

**Hours:** 48P

An introductory language course for students with no knowledge of Finnish. The acquisition of a basic vocabulary and of an understanding of elementary structural features through practice in comprehension, speaking, reading and writing.

**Prerequisite:** FIN100H1 or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN200H1 - Intermediate Finnish I

**Hours:** 48P

The four language skills (speaking, listening, reading and writing) honed by discussion of Finnish literary texts as well as by compositions in Finnish about these texts, by a series of conversation exercises, and by analysis of morphology, syntax and word formation. Translation is used to aid in language learning.

**Prerequisite:** FIN110H1 or permission of instructor

**Exclusion:** FIN200Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN210H1 - Intermediate Finnish II

**Hours:** 48P

The four language skills (speaking, listening, reading and writing) honed by discussion of Finnish literary texts as well as by compositions in Finnish about these texts, by a series of conversation exercises, and by analysis of morphology, syntax and word formation. Translation is used to aid in language learning.

**Prerequisite:** FIN200H1 or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN220H1 - Introduction to Finnish Linguistics

**Hours:** 12L/12S

A survey of the linguistic structures of the Finno-Ugric languages including Estonian, Finnish and Hungarian with special emphasis on Finnish. Focus is to gain insights into workings of non-Indo-European languages. No prior knowledge of Finno-Ugric languages or linguistics required.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FIN230H1 - Finnish Culture 1800 to Present

**Hours:** 12L/12P

FIN230H1 offers an introduction to Finnish society, history and culture 1800 to present. The course examines the rise of Finnish nationalism in the 1800s, its main manifestations, particularly the developments of its cultural, educational and social institutions, its economic structures, its demographics, as well as the nations bilingual status.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## FIN235H1 - Finnish Literature 1800 to Present

**Hours:** 12L/12P

FIN235H1 surveys the major works in Finnish literature 1800 to present by examining its role in the implementation of the agenda of Finnish nationalism in the 19th and the 20th century. The major genres and periods in Finnish literature are studied.

**Recommended Preparation:** FIN230H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN238H1 - The Vikings

**Hours:** 48L

This course examines the influence and reception of the Vikings on the Nordic countries and Europe up to the modern day, focusing on their legacy in the contemporary Nordic world in literature, film and other cultural fields.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN240H1 - Masterpieces of Scandinavian Literature

**Hours:** 12L/12S

Introduction to the greatest authors of Scandinavian literature and their greatest works, particularly August Strindberg, Henrik Ibsen, H.C. Andersen, Knut Hamsun, Selma Lagerlöf, Per Lagerkvist, Aleksis Kivi, Sigrid Undset and Halldor Laxness, etc. These are situated in their Scandinavian context and in world literature. (Offered every two or three years)

**Recommended Preparation:** Some background in literature

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN250H1 - Finnish Cinema

**Hours:** 12P/24S

Development of Finnish cinema from its parochial beginnings to its international recognition. The great pastoral tradition; the war memories (Laine, Kassila, Parikka); socio-political engagement of the 60s (Donner, Jarva), the paucity of the 70s (Mollberg); the universal outsider themes of the 80s (Aki and Mika Kaurismäki). Readings and subtitles in English. (Offered in alternate years)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN260H1 - Scandinavian Cinema

**Hours:** 12P/24S

Major developments of cinema in Scandinavia in the 20th and 21st centuries focusing on Denmark, Sweden, and Finland. In addition to "old classics," most important recent films are screened and discussed. Film directors include Ingmar Bergman, Carl Th. Dreyer, Aki and Mika Kaurismäki, and many others. (Offered in alternate years)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN270H1 - Modern and Contemporary Finnish Architecture and Design

**Hours:** 24P

Finnish architecture and design from the 19th century to the present. Explores the technical and stylistic development of modern architecture and design in relation to the cultural and socioeconomic progress of the young nation. The focus is on the work of modern architects and designers. The course also examines the history of Scandinavian design more broadly.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN300H1 - Advanced Finnish I

**Hours:** 12P/24S

Advanced Finnish provides a continuation of FIN210H1 Intermediate Finnish.

**Prerequisite:** FIN210H1 or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN305H1 - Finnish Morphology and Syntax

**Hours:** 12L/12S

Finnish Morphology and Syntax is designed present the Finnish morphological system and the principles of Finnish syntax to students interested in general linguistics, morphology, syntax, or Finnish linguistics. The Finnish case system, the verb conjugation system and phenomena such as consonant gradation, vowel harmony and clitics will be explored.

**Prerequisite:** Introduction to linguistics or FIN110H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FIN310H1 - Finnish Folklore: The Kalevala

**Hours:** 12L/12S

An examination of the Finnish national epic, the Kalevala: its relationship to the tradition of folk poetry; its quality as an epic poem; the mythological, religious, and cultural dimensions of its world view; its role in Finland's nation building in the 19th and 20th centuries. Readings in English. (Offered at least every alternate year)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN320H1 - The Finnish Canadian Immigrant Experience

**Hours:** 12L/12S

Major issues and dimensions of the culture and experience of the Finnish immigrants to Canada, including Finnish Canadian literature, theatre, and press. Conceptual and ideological contributions to working class culture, women's lives, religious and social attitudes and values. Readings in English. (Offered every three or four years)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## FIN330H1 - Regional Origins of Finnish Culture

**Hours:** 12L/12S

The course traces the construction of a unified Finnish culture over the centuries from subcultures and values which ultimately have their definitions in the regional diversity of the area now called Finland. It focuses on the main divisions into western and eastern Finland, but also explores the Swedish and the Sami (Lappish) heritage in the context of old cultural regions. The sources used are cultural history texts as well as Finnish literature.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN340H1 - Advanced Finnish II

**Hours:** 12P/24S

Advanced Finnish II provides a continuation of FIN300H1 Advanced Finnish I.

**Prerequisite:** FIN300H1 or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN350H1 - The Finnish Short Story

**Hours:** 24S

Historical, structural, and thematic study of the short fiction of Finland from the Romanticism of the 19th century to contemporary post-structuralism and post-modernism. Works of Runeberg, Topelius, Kivi, Canth, Aho, Jotuni, Lehtonen, Schildt, Sillanpää, Haanpää, Meri, Hyry, Salama, Mukka, Leksom, and others. Readings in English. (Offered in alternate years)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FIN360H1 - Bilingualism in Finland

**Hours:** 12L/12S

Bilingualism in Finland as a case study in the sociology of language. A critical survey of the historical development of language politics in Finland as a bilingual society from 1800 until present.

**Exclusion:** FIN340H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## FIN400H1 - Translation: Finnish-English

**Hours:** 24S

Written translation from Finnish to English. Students will apply their textual analysis skills in translating texts drawn from diverse sources and genres, while exploring the general theory of translation. Translation exercises will serve as the basis for training in comparative Finnish-English stylistics.

**Prerequisite:** FIN300H1 or permission of instructor

**Recommended Preparation:** FIN305H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FIN410H1 - Finnish Literature 1700-1900 (in Finnish)

**Hours:** 24S

A chronological study of the development of Finnish literature, emphasizing outstanding writers, significant movements and trends, the emergence and transformations of the major genres and their relationship to Finnish folklore and to the national awakening. All readings in Finnish. (Offered as needed)

**Prerequisite:** Permission of instructor

**Recommended Preparation:** FIN300Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FIN415H1 - Finnish Literature in the 20th Century**

**Hours:** 24S

This course examines the main literary works and genres of 20th Century Finland, especially Jotuni, Sillanpaa, Haanpaa, Meri, Manner, Linna, Tuuri and a sample of contemporary writers. All readings in Finnish.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** FIN410H1

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FIN420Y1 - Independent Study**

**Hours:** TBA

A year-long reading and research project of significant depth in a major area in Finnish language, literature or culture approved and supervised by an instructor. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## **FIN421H1 - Independent Study**

**Hours:** TBA

A semester-long reading and research project of significant depth in a major area in Finnish language, literature or culture approved and supervised by an instructor. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## Faculty List

### Professors Emeriti

P.L. Aird, BScAgr, MS, PhD  
T.J. Blake, BSc,MF, PhD  
R.B. Bryan, BA, PhD  
R. Carrow, BScF, MSc, PhD  
P.A. Cooper, BScF, MSc, PhD  
M. Hubbes, DipIngAgr, DrAgr  
A. Kenney, BScF, MSc, PhD  
D.L. Martell, MAsC, PhD  
J. C. Nautiyal, BSc, MF, PhD  
D.N. Roy, BSc, DPhil, FRSC  
V.R. Timmer, BScF, MScF, PhD

### Professor and Dean of the Faculty

Robert M. Wright, BSc, MLA

### Professors

J. Caspersen, BA, PhD  
S. Kant, MA, PhD  
J.R. Malcolm, MSc, PhD  
M. Sain, PhD, PEng, FRSC (UK)  
S.M. Smith, MSc, PhD  
S.C. Thomas, BA, PhD  
N. Yan, BASc, PhD

### Assistant Professors

S. Krigstin, MScF, PhD

### Associate Professors

J.D. Allison, PhD  
D. Puric-Mladenovic, PhD  
B.M. Wotton, PhD

## Introduction

Forests have traditionally been managed primarily as sources of timber and revenue. However, there is increasing recognition of their immense cultural, social and environmental role, focused particularly by recent United Nations conferences in Rio de Janeiro and Johannesburg. Increasingly the focus of forest management has shifted to include biodiversity maintenance, ecological sustainability, and the protection of wildlife and their habitats. Canadians, as custodians of 10% of the remaining global forest cover, and 25% of the undisturbed frontier forest, have both the option and the responsibility to provide global leadership in forest conservation and sustainable forest management. Forest conservation programs prepare students for this critically important role by combining traditional ecological (biology, zoology) and physical (soil science, hydrology) sciences with social sciences. Forest conservationists increasingly focus on complex, emerging social and community issues, such as aboriginal rights and land tenure, protection of wilderness parklands, preservation of urban green space, and the use of forests for carbon sequestration.

Responsible stewardship of our forests and the changing focus from industrial timber production to forest conservation has greatly expanded the range of expertise necessary. Graduates can pursue

a wide range of new career opportunities developing in private, government and non-government environmental organizations where forest conservationists increasingly work as members of multidisciplinary teams of environmental and resource managers. Graduates from forest conservation programs can also pursue graduate programs in a wide range of disciplines, including forest conservation, forestry, environmental sciences and international development.

Students may take a specialist 4-year degree leading to an H.B.A. in Forest Conservation or an H.B.Sc. in Forest Conservation Science. The arts program focuses on communal forest management, development of forest policies, forest economics and forest product trade, with electives in social sciences, while the science program concentrates on forest biology and ecology with electives in life and physical sciences.

The specialist programs provide a grounding in forest conservation with emphasis on breadth as well as research depth, and can particularly meet the needs of individuals who are considering graduate level education in forestry (M.F.C., M.Sc.F. or Ph.D.).

The major programs in Forest Conservation are intended to build on a student's interest in forestry and related issues. Students should consider combining these programs with a major in another related discipline such as environment, geography, biology, chemistry, urban studies or architecture.

A minor in Forest Conservation Science (Science program) and a minor in Forest Conservation (Arts program) are also available. Students should consider combining these programs with a minor in other related disciplines.

## Forest Biomaterials Science

Canada is not only a key player in global forest conservation but also a world leader in Forest Biomaterials Science and Biorefinery education and research. Wise and innovative use of forest biomaterials is a mandatory component of global forest conservation. It is recognized that right and proper use of forest-based materials can help resolve global environmental problems as they are renewable, have low life cycle costs and contribute to carbon sequestration. Traditionally, forest materials have been used in wood construction and paper products. Today, new and exciting technologies are transforming the forest resource into biodegradable polymers, specialty chemicals, nanomaterials and carbon neutral fuels. Students in this program will acquire a thorough understanding of forest sustainability; material science of wood, lightweight composites, pharmaceutical and nutraceutical products, and other forest based materials; bio-conversion technologies related to forest and agricultural materials and optimal use and maintenance of natural fibre based materials. The program is highly interdisciplinary, combining aspects of forestry, biology, chemistry, chemical and mechanical engineering and building sciences.

The major and minor in Forest Biomaterials Science will be of interest to students that recognize the value of conserving the forest through good design, application and utilization of forest based products. Graduates from this program can pursue careers in private industry, research and government organizations where knowledge of new and changing technologies will be required to lead the transformation from petro-chemical based industries to ones established on renewable biomaterials.

Undergraduate Co-ordinator: Professor Sean Thomas, Room 4012 , Earth Sciences Centre (416-978-1044)

Undergraduate Administrator: Laura Lapchinski, Room 1017A, Earth Sciences Centre (416-978-5480)

# Forest Conservation and Forest Biomaterials Science Programs

## Forest Conservation Science Specialist (Science Program)

### Completion Requirements:

(12 full courses or their equivalent, including at least 3.5 300-series courses and 2.0 400-series courses; other equivalent and approved courses offered by other Faculties, University of Toronto Mississauga or University of Toronto Scarborough may be eligible for inclusion.)

#### First Year:

BIO120H1; plus 2.5 first year Science FCEs (GGR100H1, GGR101H1; CHM138H1, CHM139H1 recommended)

#### Second Year:

1. ENV234H1; FOR200H1, FOR201H1  
2. 1.0 FCE from ECO220Y1, ECO227Y1; GGR270H1, GGR271H1; STA220H1, STA221H1  
3. 1.0 FCE from BIO220H1, BIO251H1, BIO260H1; GGR205H1, GGR206H1, GGR272H1, GGR273H1; PHL273H1; ENV221H1, ENV222H1; ENV234H1, ENV237H1, ENV238H1

#### Third Year:

1. FOR301H1, FOR305H1; 1.0 FCE from FOR300H1, FOR302H1, FOR303H1, FOR306H1, FOR307H1, FOR310H1; ENV334H1  
2. 0.5 FCE from EEB319H1, EEB321H1, EEB323H1, EEB328H1; CSB340H1  
3. 1.0 FCE from EEB324H1, EEB365H1, EEB386H1, EEB388H1; GGR303H1, GGR305H1, GGR314H1; ENV320H1, ENV322H1, ENV323H1

#### Fourth Year:

1. FOR400Y1, FOR401H1  
2. 0.5 FCE from FOR403H1, FOR405H1, FOR410H1, FOR413H1, FOR416H1, FOR417H1, FOR418H1, FOR419H1, FOR420H1, FOR423H1; GGR403H1; ENV347H1; JFG470H1, JFG475H1; EEB403H1, EEB406H1, EEB407H1

## Forest Conservation Specialist (Arts Program)

### Completion Requirements:

(12 full courses or their equivalent, including at least 3.0 300-series courses and 2.5 400-series courses; other equivalent and approved courses offered by other Faculties, University of Toronto Mississauga or University of Toronto Scarborough may be eligible for inclusion.)

#### First Year:

BIO120H1; plus 1.5 first year Social Science FCEs

#### Second Year:

1. ENV234H1; FOR200H1, FOR201H1  
2. 1.0 FCE from ECO220Y1, ECO227Y1; GGR270H1; STA220H1, STA221H1, STA255H1  
3. 1.0 FCE from ANT204H1; ENV221H1, ENV222H1; GGR223H1; INS201Y1; PHL273H1

#### Third Year:

1. FOR301H1, FOR305H1; At least 1.0 FCE from FOR300H1, FOR302H1, FOR303H1, FOR306H1, FOR307H1, FOR310H1; EEB321H1  
2. At least 1.0 FCE from JGE321H1, JGE331H1; ENV320H1, ENV323H1, ENV347H1; GGR321H1

#### Fourth Year:

1. FOR400Y1, FOR401H1  
2. 1.0 FCE from ANT450H1; FOR403H1, FOR416H1, FOR417H1, FOR418H1; ENV421H1, ENV422H1, ENV440H1; JFG470H1, JFG475H1; GGR416H1

An additional 1.0 FCE can be taken from any 3rd or 4th year elective listed above.

## Forest Biomaterials Science Major (Science Program)

### Completion Requirements:

The Forest Biomaterials major or minor may be strengthened by an accompanying major or minor(s) in Biology (major, minor), Biochemistry (major), Forest Conservation (major, minor), Chemistry (major, minor), Environmental Chemistry (minor), Materials Chemistry (minor) or Environment & Science (major, minor).

Consult the Program Coordinator, Professor Sally Krigstin, Room 3029; Earth Sciences Centre (416-946-8507)

(8 full courses or their equivalent, including at least 2.0 FCE 300-series courses and 2.0 FCE 400-series courses; other equivalent and approved courses offered by other Faculties may be eligible for inclusion.)

1. BIO120H1; 1.0 FCE from MSE101H1; ECO100Y1; ECO105Y1; CHM138H1, CHM139H1; MAT135H1  
2. FOR200H1, STA220H1; 1.0 FCE from CHM220H1; ENV221H1, ENV234H1; MSE219H1; BCH210H1; BCH242Y1; STA221H1; EEB225H1; MGT201H1, RSM100Y1; BIO220H1, BIO251H1  
3. FOR300H1, FOR310H1; 1.0 FCE from FOR302H1, FOR305H1; ENV350H1; MSE316H1; BCH370H1; GGR348H1  
4. FOR401H1, FOR410H1; 1.0 FCE from FOR403H1, FOR405H1, FOR420H1, FOR423H1; CHE475H1

An additional 0.5 FCE can be taken from any 3rd or 4th year elective listed above.

## Forest Conservation Major (Arts Program)

### Completion Requirements:

(8 full courses or their equivalent, including at least 1.5 300-series courses and 1.0 400-series course; other equivalent and approved courses offered by other Faculties, University of Toronto Mississauga or University of Toronto Scarborough may be eligible for inclusion.)

#### First Year:

BIO120H1; plus 1.5 first year Social Science FCEs

Second Year:

1. ENV234H1, FOR200H1, FOR201H1  
2. 1.0 FCE from ANT204H1, ECO220Y1, ECO227Y1, GGR270H1;  
INS201Y1, STA221H1, ENV221H1, ENV222H1, PHL273H1;  
STA220H1, STA255H1

Third Year:

FOR305H1; 1.0 FCE from FOR300H1, FOR301H1, FOR302H1,  
FOR303H1, FOR306H1, FOR307H1, FOR310H1; EEB321H1

Fourth Year:

FOR400Y1

An additional 1.0 FCE can be taken from any 3rd or 4th year elective listed above or under the Forest Conservation Specialist (Arts Program).

## Forest Conservation Science Major (Science Program)

### Completion Requirements:

(8 full courses or their equivalent, including at least 2.0 300-series courses and 1.0 400-series course; other equivalent and approved courses offered by other Faculties, University of Toronto Mississauga or University of Toronto Scarborough may be eligible for inclusion.)

First Year:

BIO120H1; plus 2.5 first year Science FCEs (GGR100H1, GGR101H1; CHM138H1, CHM139H1 recommended)

Second Year:

FOR200H1, FOR201H1; 1.0 FCE from ENV234H1, ENV237H1, ENV238H1; GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR223H1, GGR272H1, GGR273H1; BIO220H1

Third Year:

FOR305H1; 1.5 FCE from FOR300H1, FOR301H1, FOR302H1, FOR303H1, FOR306H1, FOR307H1, FOR310H1; EEB321H1

Fourth Year:

FOR400Y1

## Forest Biomaterials Science Minor (Science Program)

### Completion Requirements:

The Forest Biomaterials major or minor may be strengthened by an accompanying major or minor(s) in Biology (major, minor), Biochemistry (major), Forest Conservation (major, minor), Chemistry (major, minor), Environmental Chemistry (minor), Materials Chemistry (minor) or Environment & Science (major, minor).

Consult the Program Coordinator, Professor Sally Krigstin, Room 3029; Earth Sciences Centre (416-946-8507)

(4 full courses or their equivalent, including at least 1.5 FCE 300-series course and 1.0 FCE 400-series courses)

1. 1.5 FCE from BIO120H1; MSE101H1; ECO105Y1; CHM138H1, CHM139H1, CHM220H1; FOR200H1; ENV234H1; MGT201H1  
2. FOR300H1, FOR310H1; 0.5 FCE from ENV350H1; MSE219H1, MSE316H1; FOR305H1, BCH370H1; GGR348H1  
3. 1.0 FCE from FOR401H1, FOR405H1, FOR410H1, FOR420H1, FOR423H1

## Forest Conservation Minor (Arts Program)

### Completion Requirements:

(4 full courses or their equivalent)

First Year: 1.0 FCE from ANT100Y1; ECO100Y1; ENV200H1; GGR100H1, GGR101H1

Higher Years: 3.0 FCEs from FOR200H1, FOR201H1, FOR300H1, FOR301H1, FOR302H1, FOR303H1, FOR305H1, FOR306H1, FOR307H1, FOR310H1, FOR400Y1, FOR401H1

## Forest Conservation Science Minor (Science Program)

### Completion Requirements:

(4 full courses or their equivalent, including at least 1.0 300-series course and 1.0 400-series course)

First Year: 1.0 FCE from BIO120H1; GGR100H1, GGR101H1; CHM138H1, CHM139H1

Second Year: FOR200H1, FOR201H1

Third Year: 1.0 FCE from FOR300H1, FOR301H1, FOR302H1, FOR303H1, FOR305H1, FOR306H1, FOR307H1, FOR310H1

Fourth Year: FOR400Y1

### Note regarding courses:

#### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

# Forest Conservation and Forest Biomaterials Science Courses

## FOR200H1 - Conservation of Canada's Forests

**Hours:** 24L

Forest conservation issues in Canada; development of forest management philosophy in Canadian and temperate forest regions; and concepts of sustainability. Techniques for more sustainable forest management: structural retention; forest certification; old growth; value-added and non-traditional forest products.

**Recommended Preparation:** BIO120H1, GGR100H1, GGR101H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## FOR201H1 - Conservation of Tropical and Subtropical Forests

**Hours:** 24L

The world's major tropical and subtropical forest biomes; prospects for conservation and sustainable management; consequences of different forest development strategies; tropical deforestation and selective logging; agroforestry; biodiversity and non-timber forest products; the fuelwood crisis; large carnivore conservation; ecological, economic and social perspectives.

**Recommended Preparation:** BIO120H1, GGR100H1, GGR101H1  
**Distribution Requirements:** Science; Social Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## FOR300H1 - Forest Products in Sustainable Forestry

**Hours:** 24L/24P

Traditional and non-traditional forest products; wood structure; properties and material attributes; functional characteristics and logistics of wood product industry. Contribution of innovative product development to conservation; adding value; residue use; biorefinery; under-utilized species; wood protection. Forest product certification; eco-labelling; life cycle analysis.

**Recommended Preparation:** FOR200H1, FOR201H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## FOR301H1 - Field Methods in Forest Conservation

**Hours:** TBA

A practical introduction to the field methods used by forest conservationists in Ontario. This field course will last 10-days from August 30 September 8 approximately. Field exercises will provide students with practical training in tree identification, forest ecosystem classification, forest inventory, stand management prescriptions, tree marking, and silvicultural systems. Each student is required to pay an ancillary fee of \$600 to cover the costs of their transportation and accommodation. Students must contact the Faculty to register; we strongly recommend that you do so by the end of May, but later registrations will be considered if class size permits. Not eligible for CR/NCR option.

**Recommended Preparation:** ENV234H1, FOR200H1, FOR201H1, GGR205H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## FOR302H1 - Societal Values and Forest Management

**Hours:** 24L

The course will provide diverse perspectives about societal values and forests, such as Aboriginal perspective, ecosystem services and human well-being, climate change and carbon sequestration, and forest management systems, such as community-based forest management and adaptive management systems; and will develop an understanding of the need of integrative approach to address the social, cultural, economic, and scientific issues associated with forest management.

**Recommended Preparation:** FOR200H1, FOR201H1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## FOR303H1 - Human Dimensions of Global Forests

**Hours:** 24L

Global forest resources; relationships between societies and forests, consumption, trade and valuation of timber and non-timber products; ecosystem services, climate change and forestry, tropical deforestation and softwood lumber dispute.

**Recommended Preparation:** FOR200H1, FOR201H1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## FOR305H1 - Biology of Trees and Forests

**Hours:** 24L/40P

An overview of the biology of trees and the ecological principles that govern the structure and function of forests. Topics in tree biology will include tree identification, wood anatomy, tree architecture, resource acquisition and allocation, tree growth and mortality. Topics in forest ecology will include resource competition, stand development, species succession, and the cycling of nutrients and energy. This course will include a substantial field and lab component.

**Recommended Preparation:** FOR200H1, FOR201H1, BIO120H1, BIO220H1, ENV234H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR306H1 - Tropical Forest Ecology and Conservation Field Course

**Hours:** 24P

This course will provide practical experience in tropical forest conservation, introducing tools for rapid assessment of biodiversity, analysis of human use and natural disturbance impacts on forest structure and diversity, and the development of effective forest conservation strategies. The 10-day course will be field-based in the country of Dominica, West Indies. Additional fees for field course (e.g. accommodation, food, other within course travel expenses) will apply. See Faculty website for details. Not eligible for CR/NCR option.

**Prerequisite:** FOR201H1, FOR301H1 or FOR305H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR307H1 - Forest Insect Ecology & Management

**Hours:** 24L/24P

Insect identification and ecology, biodiversity and conservation, invasive species, insect-tree interaction, biological control, pesticide use, and integrated pest management.

**Recommended Preparation:** FOR301H1 or FOR305H1, EEB380H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR310H1 - Bioenergy from Sustainable Forest Management

**Hours:** 24L/12T

Socio-economic, technical, political and environmental issues associated with the utilization of forest biomass (e.g., harvesting residues, thinnings, salvage, short rotation woody crops) for a source of renewable energy.

**Exclusion:** GGR310H1

**Recommended Preparation:** Completion of at least 6 Science FCEs

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## FOR400Y1 - Advanced Seminar in Forest Conservation

**Hours:** 48S

Examination of current and emerging critical issues affecting sustainable management and conservation of global forests. Seminars led by students, faculty and visiting speakers.

**Prerequisite:** At least 2 of FOR300H1/FOR301H1/FOR302H1/FOR303H1/FOR305H1/FOR306H1/FOR307H1/FOR310H1

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** Living Things and Their Environment (4); Society and its Institutions (3)

## FOR401H1 - Research Paper/Thesis in Forest Conservation

**Hours:** TBA

Individual in-depth student research projects on significant forest conservation and forest biomaterial issues, based on field and/or laboratory research, or literature survey. Not eligible for CR/NCR option.

**Prerequisite:** Completion of at least 15 FCEs, including 2 courses from FOR300H1/FOR301H1/FOR302H1/FOR303H1/FOR305H1/FOR306H1/FOR307H1/FOR310H1

**Distribution Requirements:** Science; Social Science

## FOR403H1 - Directed Readings

**Hours:** 24S

Provides opportunities for students to carry out individual in-depth study of current forest conservation and forest biomaterials issues, under the direction of a faculty member. Not eligible for CR/NCR option.

**Prerequisite:** Completion of at least 15 FCEs, including 2 courses from FOR300H1/FOR301H1/FOR302H1/FOR303H1/FOR305H1/FOR306H1/FOR307H1/FOR310H1

**Distribution Requirements:** Science; Social Science

## FOR405H1 - Forest Products, Processing and Water Relations

**Hours:** 24L/12P

Processing of wood into commercial products focusing on products produced in conjunction with water. Also includes compositemanufacturing; specifications and testing; bending;wood drying; spalting and decay protection; life cycle analysis of wood-based products.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## FOR410H1 - Bioenergy and Biorefinery Technology

**Hours:** 24L/24T

Technological advances and approaches in deriving biofuels and chemical feedstocks from forest and other biomass. Fundamental chemical attributes of biomass, as they affect the fuel value and potential for deriving liquid, solid and gaseous fuels and valuable chemicals for other applications will be discussed.

**Exclusion:** FOR425H1 (APSC)

**Recommended Preparation:** Completion of at least 10 Science FCEs

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## FOR413H1 - Wildlife Ecology & Conservation

**Hours:** 24L

Temperate and tropical wildlife ecology and conservation; roles of wildlife in forest conservation; impacts of forestry practices and landscape modification on wildlife; ecology and viability of wildlife populations; human uses and abuses of game and non-game species.

**Prerequisite:** FOR200H1, FOR201H1, EEB319H1, EEB321H1, EEB323H1, EEB324H1, ENV234H1 + Completion of at least 15 FCEs

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR416H1 - Urban Forestry and Green Infrastructure

**Hours:** 24L

Trees in and around the city are key to providing multiple engineered and ecological services that only recently have been brought into the responsible fiscal planning of every municipality around the globe. Reviews the role of trees and woodlands in providing environmental, social and economic benefits to urban and peri-urban residents and to the broader environment. Examines approaches to the characterization of urban forest ecosystems, and their planning and management.

**Prerequisite:** FOR200H1, FOR201H1

**Exclusion:** FOR421H1 (APSC)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR417H1 - Ecological Principles of Agroforestry

**Hours:** 24L

The roles of trees and forests in agricultural land-use systems primarily in the third world. An examination of the biological and management aspects of agroforestry, within the socio-economic constraints of the developing world. The sustainability of particular agroforestry systems is a theme throughout.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR418H1 - Urban Forest Conservation Field Camp

**Hours:** 45L/15P

A ten day field course examining urban forestry issues in the GTA, southern and eastern Ontario and Quebec. Topics include: urban forest inventories, nursery production, arboricultural techniques, urban woodland management, urban forest health, urban forest administration, urban dendrology, and urban forestry research. Additional fees for field course (e.g. accommodation, food, other within course travel expenses) will apply. See Faculty website for details. Not eligible for CR/NCR option.

**Prerequisite:** FOR200H1, FOR201H1, or permission of the instructor.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR419H1 - Forest Fire Behaviour and Management

**Hours:** 24L/24P

Understanding forest fire activity is important for predicting fire's impact on forests and the wildland-urban interface, as well as understanding the impacts of climate change. Basic principles of forest fuel moisture exchange, fire occurrence and fire behaviour are explored. Emphasis is placed on application of these models to real fire management problems.

**Prerequisite:** One course in quantitative methods, linear algebra or calculus

**Recommended Preparation:** ECO220Y1, ECO227Y1, GGR270H1, MAT133Y1, MAT137Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR420H1 - Green Process Chemistry

**Hours:** 24L/12T

This course provides an overview of the chemistry of wood and wood materials involving cellulose, hemicellulose, lignin, extractives. It also covers some reaction chemistry associated with these chemical components.

**Recommended Preparation:** Completion of at least 10 Science FCEs

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## FOR423H1 - Sustainable Materials Design and Manufacturing

**Hours:** 24L/24T

This course focuses on the manufacturing processes, properties and uses of wood and agricultural fibre based products including wood based composites, ligno-cellulosic/thermoplastic composites and structural or engineered composites, and the practical use of these products in design.

**Exclusion:** FOR424H1 (APSC)

**Recommended Preparation:** Completion of at least 10 Science FCEs

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## JFG470H1 - Forest Management

**Hours:** 24L

Application of operational research and information technology to develop decision support systems for forest land management planning. Basic principles of mathematical programming, simulation and decision analysis, and their application to planning for forest conservation and sustainable development, policy analysis and other land management planning problems.

**Prerequisite:** One course in quantitative methods or linear algebra

**Recommended Preparation:** ECO220Y1, ECO227Y1, GGR270H1, MAT133Y1, MAT223H1

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## JFG475H1 - Forest Fire Management Systems

**Hours:** 24L

Use of operational research and information technology to develop mathematical models and decision support systems to design and evaluate the performance of forest fire and other emergency response systems. Forest fire management systems are used to illustrate the basic principles of emergency response system planning that can also be applied to urban fire, police and ambulance services.

**Prerequisite:** One course in quantitative methods or calculus

**Recommended Preparation:** ECO220Y1, ECO227Y1, GGR270H1, MAT133Y1, MAT137Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## Faculty List

### University Professor Emeritus

B.T. Fitch, BA, D 3e C (T)

### Professor Emeriti

C. Bertrand-Jennings, LsL, Ph D (University of Toronto Scarborough)  
P.A.R. Bouissac, LsL, DES, D Phl (V)  
N. Boursier, DES, CAPES, D 3e C (U)  
D. Clandfield, MA, D 3e C (N)  
C. Cloutier-Wojciechowska, LsL, DES, MA, M Ph, DPS, DUP (University of Toronto Mississauga)  
P. Collet, AM, Ph D (SM)  
D. de Kerckhove, MA, Ph D (SM)  
L.E. Doucette, BA, Ph D (University of Toronto Scarborough)  
A.G. Falconer, MA, D 3e C (U)  
P. Fitting, MA, Ph D (N)  
C.M. Grisé, MA, Ph D(SM)  
E.A. Heinemann, MA, Ph D (N)  
E.M. Kushner, MA, Ph D (V)  
E. Lehouck, AGR ESS, D Phl (U)  
M.M. Léon, LsL, DES, D 3e C (V)  
M. Lord, MA, Ph D (University of Toronto Mississauga)  
P. Martin, IRAL BR, D 3e C, D Sc A (SM)  
N. Maury, LenD, D 3e C (T)  
J.A. McClelland, MA, Ph D (V)  
P.W. Nesselroth, MA, Ph D (U)  
W.A. Oliver, MA, D 3e C (T)  
M. O'Neill-Karch, MA, D U Honoris Causa (WW)  
P.J.G.O. Perron, BA, D 3e C (U)  
H.G. Schogt, MA, Ph D (U)  
D.W. Smith, BA, Ph D (V)  
R.A. Taylor, MA, Ph D (V)  
C.D.E. Tolton, AM, Ph D (I, V)  
H.H. Weinberg, MA, Ph D (University of Toronto Mississauga)  
T.R. Wooldridge, BA, D 3e C (T)

### Professor and Chair of the Department

P. Michelucci, MA, Ph D (University of Toronto Mississauga) (until June 30, 2017)

### Associate Chair, Graduate Studies

B. Havercroft, MA, Ph D (V) (until June 30, 2017)

### Associate Chair, Undergraduate Studies

J. Steele MA, Ph D (SM) (until June 30, 2017)

### Professors

C. Elkabas, MA, Ph D (University of Toronto Mississauga)  
J. LeBlanc, MA, Ph D (V)  
R.J. Le Huenen, LsL, DES, D Phl (V)  
P. Michelucci, MA, Ph D (University of Toronto Mississauga)  
J. Paterson, MA, Ph D (I)  
Y. Roberge, MA, Ph D (SM)  
A. Tcheuyap, MA, Ph D (SM)

### Associate Professors

A.-M. Brousseau, MA, Ph D (SM)  
B. Havercroft, MA, Ph D (V)  
G. Holtz, MA, D 3e C (V)  
D. Kullmann, MA, Ph D (SM)  
S. Mittler, MA, Ph D (University of Toronto Scarborough)  
A. Motsch, MA, Ph D (V)  
J. Ndayiragije, MA, Ph D (University of Toronto Scarborough)

E. Nikiema, MA, Ph D (University of Toronto Mississauga)  
M. Pirvulescu, MA, Ph D (University of Toronto Mississauga)  
Y. Portebois, MA, Ph D (SM)  
P. Riendeau, MA, Ph D (University of Toronto Scarborough)  
J. Steele, MA, Ph D (SM)

### Associate Professors, Teaching Stream

C. Beauquis, MA, Ph D (University of Toronto Scarborough)  
J. English, MA, Ph D (University of Toronto Scarborough)  
C. Evans, MA, Ph D (University of Toronto Mississauga)  
K. McCrindle, MA, Ph D (University of Toronto Scarborough)  
F. Mugnier-Manfredi, MA, Ph D (University of Toronto Scarborough)  
Emerita  
G. Paray, MA, Ph D (SM)  
S. Sacré, MA, Ph D (OH)  
M. Tsimenis, MA, Ph D (University of Toronto Scarborough)  
M.-A. Visoi, MA, Ph D (SM)

### Assistant Professors

J. Cahill, MA, Ph D (I)  
S. Drouin, MA, Ph D (University of Toronto Scarborough)  
F. Hamlaoui, MA, Ph D  
M.-P. Lory, L ès L., M ès L., Ph D (University of Toronto Mississauga)  
A. Takam, MA, Ph D (SM)  
P. Thériault, MA, Ph D (SM)

### Assistant Professors, Teaching Stream

R. Hong, MA, Ph D (University of Toronto Mississauga)

### Lecturers

P. Bessler, MA, Ph D (OH)  
P. Bovy, MA, Ph D (SM)

## Introduction

French is not only one of the official languages of Canada: it is also one of the world's major international languages. Courses in French studies provide a varied, flexible, and in-depth examination of the French language and the multitude of cultures that it serves. The skills and knowledge acquired will lay the groundwork for careers in teaching, journalism, translation, publishing, and government service as well as research in a variety of fields. In the Canadian job market, command of the French language is a definite asset. The Department offers students an integrated curriculum, which brings together courses in language, didactics, linguistics, literature, and French culture. Unless specified otherwise, the language of instruction of all courses is French.

### Overview of French Programs

The Department offers three majors (French Language Learning, Linguistics, Literature) and two minors (French as a Second Language, French Studies). Programs in Linguistics and Literature can also be taken as specialist programs.

### Majors

**French Language Learning (FRE):** The 200-level mandatory course **FRE225Y1** introduces students to second language teaching methodology. Courses at the 300 and 400 levels expand upon this, focusing on communicative teaching approaches, the role of culture in the second language classroom, and teaching to younger learners. Students are also provided with a background in applied linguistics in the areas of bilingualism, second language acquisition, and sociolinguistics.

### What can I do with a program in French Language Learning? Career paths include:

- provincial and federal government civil service
- language teaching
- media, public relations, journalism, publishing, editing, copywriting, technical writing
- bilingual customer service

**Linguistics (FRE):** 200-level mandatory courses initiate students into the analysis of contemporary French and its historical development. 300-level courses break the discipline of linguistic analysis into its chief component parts. 400-level courses initiate students to research in a variety of areas including formal linguistics, bilingualism, second language acquisition, and language contact.

### What can I do with a program in French Linguistics? Possible career paths include:

- provincial and federal government civil service
- health professions such as speech pathology, speech therapy, audiology
- language teaching
- computer applications in speech & text recognition, programming
- media, public relations, journalism, publishing, editing, copywriting, technical writing
- bilingual customer service

**Literature (FRE):** 200-level mandatory courses introduce students to concepts, methodologies, and critical tools elaborated vis-à-vis further literature and theory and that serve as the framework for other literature courses dedicated to the history of French literature and its cultural and social contexts. 300-level courses encourage students to explore sophisticated primary and secondary sources from disciplinary and interdisciplinary perspectives. 400-level courses initiate students to research. The actual content of most 400-level courses varies considerably according to the instructor. Students should consult the French Studies Undergraduate brochure ([www.french.utoronto.ca/undergraduate](http://www.french.utoronto.ca/undergraduate)) for content specific to a given year.

### What can I do with a program in French Literature? Possible career paths include:

- provincial and federal government civil service
- language teaching
- media, public relations, journalism, publishing, editing, copywriting
- library and information sciences
- foreign services/affairs, international development
- bilingual customer service

### Minors

**French as a Second Language (FSL):** The FSL program is designed to accommodate the widest range of previous learning experiences and particular interests of students. Emphasis is placed on both written and spoken language; at higher levels, half-courses allow for specialized study of one or the other.

### What can I do with a program in French as a Second language? Career paths include:

- provincial and federal government civil service including as a bilingual immigration or customs officer
- private sector positions as a bilingual customer service agent or flight attendant

**French Cultural Studies (FCS):** Courses on French and Francophone culture, taught in English, may be used to fulfil distribution/breadth requirements.

### Important policies re French as a Second Language (FSL) courses

The following policies must be respected when registering for French courses. Failure to do so may result in students being automatically withdrawn by the Department from the course in which they are registered:

#### 1) Determining the appropriate level of your first French course:

The Department places students in the language course appropriate to their level of linguistic competence based on the results of its Placement Test. Given that 100, 200, 300 and 400-level FSL courses correspond to levels of competence in French and not to years of study, a student may be recommended to enroll in a course at a higher level than his/her year of study. The Placement Test, available at [www.lang.utoronto.ca/placement/french](http://www.lang.utoronto.ca/placement/french), is mandatory for all students who wish to register in an FRE or FSL course for the first time (except true beginners with no knowledge of French who may enroll directly in **FSL100H1**). The Test can be taken only **ONCE** and the results of the first test will prevail in the event of multiple attempts. Ideally, the Placement Test should be taken in the term preceding the one in which students wish to register in (e.g., for a course starting in September, students should take the Placement Test in the summer term, prior to their registration date on ACORN and before the beginning of classes). Please allow three to five working days to obtain your test results.

**2) Sequencing:** Students are reminded that they must take FSL courses in the appropriate sequencing (100>200>300>400). In particular,

- If placed at a higher level than **FSL221Y1** by the Placement Test, students registered in a major programme must take **FSL271H1** before any FSL300 or 400-level course.
- Students currently registered in or having completed **FSL321Y1**, **FSL375Y1** or any 400-level FSL course cannot take **FSL362H1**, **FSL363H1**, and **FSL364H1**.

**3) Auditing:** No auditing is allowed in FSL courses.

### Study Abroad Options for Students wishing to Study French in Other Universities including those in Quebec or Europe

**Study Elsewhere Program:** In order to be permitted to participate in this program, a student must satisfy the following requirements: have 1) an overall average of at least 70% in courses completed in second year; and 2) an average of 70% in at least two French (FRE) courses required in a Major or Specialist program. Information on these programs and on the Second Language Summer Program is available on-line at [french.utoronto.ca/undergraduate/information/study\\_elsewhere](http://french.utoronto.ca/undergraduate/information/study_elsewhere).

**French Department Study Abroad in Nice, France:** The Department of French at the University of Toronto, in collaboration with other Canadian universities, offers a third-year abroad program to study at the University of Nice. Students spend a full academic year in France (September to May), and may receive up to 5.0

credits towards their degree (2.0 of credits are taught by the Canadian professor in charge of the program and up to 3.0 credits may be taken from the regular University of Nice offerings). Students pay regular University of Toronto tuition fees and remain UofT students.

In order to participate, students must 1) be enrolled in a French program (Specialist, Major or Minor); 2) have a minimum GPA of 2.50; 3) have at least a B (70%) average in all courses completed in the year preceding their participation in the program; and 4) have completed at least FSL221Y (with a minimum grade of 63%) or equivalent. At least 1.0 FRE 200-level course is preferred.

St. George students apply by submitting the online form to the Centre for International Experience <http://www.cie.utoronto.ca/Going/Apply/Online-Application.htm>. UTM and UTSC students apply through their own International Student Centre.

### Transfer Credits

- **For FSL Courses:**

Students may apply for transfer credits for language courses taken at any accredited or degree-granting university in Canada or abroad; this is done, through the Office of the Faculty Registrar. In order to be recommended for transfer credits, students should arrange, before returning to Toronto, for the university in which the course(s) were taken to send an official transcript of their results directly to the address indicated on their Letter of Permission (if they have one) or to the Office of the Faculty Registrar.

As soon as possible after completion of the course and before enrolling in any FSL or FRE course at UofT, students must take the Placement Test at the Department of French. In order to receive a transfer credit, students must qualify for entry into the next language course above the level of the one for which they desire credit. Students must enroll in the course recommended by the Placement Test results. Therefore, students who enroll in a course before taking the Placement Test, do so at their own risk. Students should call 416-926-2302 or write to [french.secretary@utoronto.ca](mailto:french.secretary@utoronto.ca) to book an appointment to write the test at the Department of French.

- **For FRE Courses:**

Transfer credits for studies in areas other than language may be requested directly upon return through the Office of the Faculty Registrar and will be processed in the normal way. It is recommended that a Letter of Permission be requested through the Office of the Faculty Registrar well in advance of departure from Toronto. Students are reminded that only courses taken at accredited universities or degree-granting institutions will be considered for credit.

**Exclusions and prerequisites:** Students must abide by all requirements stated in the exclusions and prerequisites to register in a course. Students who do not have the prerequisites for a given course must obtain the permission of the Department prior to registration. The Department will assess the students' admissibility to the course in consultation with the instructor. For FSL courses, exclusions ensure that students follow the best progression in language learning.

**Further Information:** The French Studies Undergraduate Brochure, available online at [www.french.utoronto.ca/undergraduate](http://www.french.utoronto.ca/undergraduate), contains more detailed information concerning the courses and programs listed below.

Associate Chair, Undergraduate: Room 227, Odette Hall, 50 St. Joseph St., 416-926-2312; [french.undergradchair@utoronto.ca](mailto:french.undergradchair@utoronto.ca)

Undergraduate Counsellor: Room 226, Odette Hall, 50 St. Joseph St., 416-926-2333; [french.undergraduate@utoronto.ca](mailto:french.undergraduate@utoronto.ca)

General Enquiries: Room 210, Odette hall, 50 St. Joseph St., 416-926-2302, [french.secretary@utoronto.ca](mailto:french.secretary@utoronto.ca)

## French Programs

### French Language Learning Major (Arts Program)

#### Completion Requirements:

**The Department takes into account the quality of students' French as one of the criteria in the evaluation of assignments and examinations. A minimum of 20% of the grade will be allocated to this aspect of written assignments.**

(8 full courses or their equivalent including at least 2 F.C.E.s FRE courses at the 300+ level)

- FSL221Y1 (63%) (Students not placed in FSL221Y1 or higher by the Placement test must first complete FSL121Y1 before starting this program. Students exempted from FSL221Y1 must replace it with FSL271H1 and any FSL or FRE half-course. FSL271H1 must be completed before enrolling in any higher-level FSL course.)
- FRE225Y1, 0.5 full-course equivalent among FRE210H1/FRE240H1/FRE250H1, FRE272H1, FSL321Y1 (Students exempted from FSL321Y1 may replace it with any FRE course)
- FRE379H1, FRE383H1, FRE384H1, FRE388H1, FSL421Y1/FSL375Y1
- FRE483H1, FRE485H1

### French Language and French Linguistics Major (Arts Program)

#### Completion Requirements:

**The Department takes into account the quality of students' French as one of the criteria in the evaluation of assignments and examinations. A minimum of 20% of the grade will be allocated to this aspect of written assignments.**

(8 full courses or their equivalent)

- FSL221Y1 (63%) (Students not placed in FSL221Y1 or higher by the Placement test must first complete FSL121Y1 before starting this program. Students exempted from FSL221Y1 must replace it with FSL271H1

and any FSL or FRE half-course. FSL271H1 must be completed before enrolling in any higher-level FSL course.)

- FRE272H1, FRE273H1, FRE274H1; 1.0 full-course equivalent among FRE210H1/FRE240H1/FRE250H1; FSL321Y1 (Students exempted from FSL321Y1 may replace it with any FRE course)
- FRE376H1, FRE378H1; FRE383H1 and 0.5 full-course equivalent in Group B at the 300-level; ANY 300+ half-course in French linguistics
- 1.0 full course equivalent French linguistics at the 400-level

Group A - *Structure of French*: FRE376H1 (mandatory), FRE378H1 (mandatory), FRE386H1, FRE387H1, FRE488H1, FRE489H1, FRE490Y1, FRE491H1, FRE492H1

Group B - *Use, acquisition and history of French*: FRE379H1, FRE383H1 (mandatory), FRE388H1, FRE471H1, FRE487H1, FRE490Y1, FRE491H1, FRE492H1, JFL477H1, JFL478H1

## French Language and Literature Major (Arts Program)

### Completion Requirements:

The Department takes into account the quality of students' French as one of the criteria in the evaluation of assignments and examinations. A minimum of 20% of the grade will be allocated to this aspect of written assignments.

(8 full courses or their equivalent)

- FSL221Y1 (63%), FSL321Y1 (Students not placed in FSL221Y1 or higher by the Placement test must first complete FSL121Y1 before starting this program. Students exempted from FSL221Y1 may replace it with any FRE 200+ or 300-level course. Students exempted from FSL321Y1 may replace it with two FRE half-courses at the 300+ level).
- FRE240H1, FRE241H1, FRE210H1/FRE250H1
- FRE272H1/FRE273H1
- FRE344H1
- 1.0 full-course equivalent in the *History of French Literature* group as follows: 0.5 full-course equivalent from FRE318H1/FRE319H1/FRE320H1 and 0.5 full-course equivalent from FRE324H1/FRE326H1; 1.0 full-course equivalent in the *Problematics and Media Studies* group from FRE304H1, FRE308H1, FRE310H1, FRE334H1, FRE336H1, FRE345H1; 0.5 full-course equivalent in the *Cultural and Social Contexts* group from FRE314H1/FRE332H1.
- 1.0 full-course equivalent in FRE literary courses at the 400-level.

Please note that students must complete in this order FRE240H1, FRE241H1 and FRE344H1 before taking any FRE 400-level literary courses.

## French as a Second Language Minor (Arts Program)

### Completion Requirements:

The Department takes into account the quality of students' French as one of the criteria in the evaluation of assignments and examinations. A minimum of 20% of the grade will be allocated to this aspect of written assignments.

(4 full courses or their equivalent)

- FSL221Y1 (63%). Students not placed in FSL221Y1 or higher by the Placement test must first complete FSL121Y1 before starting this program. Students exempted from this course must replace it with FSL271H1 and any half-course listed immediately below or with FSL321Y1.
- 1.0 full course equivalent among the following: FSL362H1, FSL363H1, FSL364H1.
- FSL375Y1
- FSL472H1 + FSL473H1

Please note that FSL362H1, FSL363H1, and FSL364H1 can be taken concurrently but must be completed before enrolling in FSL375Y1.

## French Studies Minor (Arts Program)

### Completion Requirements:

The Department takes into account the quality of students' French as one of the criteria in the evaluation of assignments and examinations. A minimum of 20% of the grade will be allocated to this aspect of written assignments.

(4 full courses or their equivalent)

1. FSL221Y1 (Students not placed in FSL221Y1 or higher by the Placement test must first complete FSL121Y1 before starting this program. Students exempted from FSL221Y1 must replace it with FSL271H1 and any FRE half-course)
2. Three FRE courses at the 200+ level including one full course equivalent at the 300/400-level

## French Language and French Linguistics Specialist (Arts Program)

### Completion Requirements:

The Department takes into account the quality of students' French as one of the criteria in the evaluation of assignments and examinations. A minimum of 20% of the grade will be allocated to this aspect of written assignments.

(10 full courses or their equivalent)

- FSL221Y1 (63%) (Students not placed in FSL221Y1 or higher by the Placement test must first complete FSL121Y1 before starting this program. Students exempted from FSL221Y1 must replace it with FSL271H1 and any FSL or FRE half-course. FSL271H1 must be completed before enrolling in any higher-level FSL course.)
- FRE272H1, FRE273H1, FRE274H1; 1.0 full-course equivalent among FRE210H1/FRE240H1/FRE250H1; FSL321Y1 (Students exempted from FSL321Y1 may replace it with any FRE course)
- FRE376H1, FRE378H1 and 1.0 full-course equivalent in Group A at the 300-level; FRE383H1 and 1.0 full-course equivalent in Group B at the 300-level
- 2.0 full-course equivalents in French Linguistics at the 400-level

Group A - *Structure of French*: FRE376H1 (mandatory), FRE378H1 (mandatory), FRE386H1, FRE387H1, FRE488H1, FRE489H1, FRE490Y1, FRE491H1, FRE492H1

Group B - *Use, acquisition and history of French*: FRE379H1, FRE383H1 (mandatory), FRE388H1, FRE471H1, FRE487H1, FRE490Y1, FRE491H1, FRE492H1, JFL477H1, JFL478H1

## French Language and Literature Specialist (Arts Program)

### Completion Requirements:

The Department takes into account the quality of students' French as one of the criteria in the evaluation of assignments and examinations. A minimum of 20% of the grade will be allocated to this aspect of written assignments.

(11 full courses or their equivalent)

- FSL221Y1 (63%), FSL321Y1, FSL442H1, FSL443H1. (Students not placed in FSL221Y1 or higher by the Placement test must first complete FSL121Y1 before starting this program. Students exempted from FSL221Y1 may replace it with any FRE 200+ or 300+ level course. Students exempted from FSL321Y1 may replace it with two FRE half-courses at the 300+ level. Students with 77% in FSL321Y1 may replace FSL442H1, FSL443H1 with a 300+ series FRE course).
- FRE240H1, FRE241H1, FRE210H1, FRE250H1
- FRE272H1, FRE273H1
- FRE344H1
- 1.5 full course equivalents in the *History of French Literature* group: FRE318H1, FRE319H1, FRE320H1, FRE324H1, FRE326H1; 1.0 full-course equivalent in the *Problematics and Media Studies* group: FRE304H1, FRE308H1, FRE310H1, FRE334H1, FRE336H1, FRE345H1; 0.5 full-course equivalent in the *Cultural and Social Contexts* group: FRE314H1, FRE332H1.

- 1.0 full-course equivalent in FRE literary courses at the 400-level
- 0.5 additional full-course equivalent at the 300 + level among the Department's literary course offerings.

**Please note that students must complete in this order FRE240H1, FRE241H1 and FRE344H1 before taking any FRE 400-level literary courses.**

## Faculty of Arts & Science Language Citation

The Department of French participates in the Faculty of Arts and Science's Language Citation initiative for French.

In order to receive a language citation in French Studies, students should have completed two FCE (Full Course Equivalents) FSL courses at the 300+ level or two FCE FRE courses at the 200+ level with a minimum grade of B-. Please note that a combination of both FRE and FSL courses cannot qualify for the citation.

Students should note that, as explained in this Calendar, the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

## French Courses

### FSL100H1 - French for Beginners

**Hours:** 24L/12T

An intensive basic course in spoken and written French for students who have no knowledge of French: comprehension, speaking, reading, and writing.

**Exclusion:** FSL102H1 and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL102H1 - Introductory French

**Hours:** 24L/12T

An intensive basic course in spoken and written French for students who have studied some French, but who have not yet attained the entry level for FSL121Y1.

**Prerequisite:** FSL100H1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** FSL121Y1 and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL121Y1 - French Language I

**Hours:** 48L/48T

Intended for students having some knowledge of French but wishing to increase their proficiency to that of normal University entrance. Offers training in written and spoken French; reinforcement of reading comprehension and aural abilities; and an introduction to French-Canadian and Québécois cultures.

**Prerequisite:** FSL102H1, or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** FSL221Y1 and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS195H1 - French Culture from Napoleon to Asterix

**Hours:** 24L

A multi-media course, analyzing the contributions the French have made to world culture in such domains as architecture, art, literature, and music, as well as some of the implications of the appropriation of French cultural icons by big business and the media.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE210H1 - Introduction to Quebec Literature and Culture

**Hours:** 36L

An introduction to various aspects of Québec literature and culture through the study of literary texts, cinema, and artistic productions, and their role in the evolution of a distinct Québec society. The course also familiarizes students with important socio-cultural and political events, which participated in the evolution of Québec society and provide a better understanding of Québec literature.

**Prerequisite:** FSL221Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL221Y1 - French Language II

**Hours:** 48L/48T

Focuses on developing greater complexity in student's production (sentence structure including subordination; verb tense and agreement; difficult sounds and prosodic fluency), and comprehension (analysis of word order-meaning relations; understanding temporal relations and thematic elements). Overview of francophone media and cultural institutions including cinema and festivals.

**Prerequisite:** FSL121Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** FSL321Y1 and higher

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE225Y1 - Second Language Learning (formerly JFI225Y1)

**Hours:** 48L

A theoretical and practical consideration of the ways we learn a second language, with a historical overview and critical evaluation of the various methodologies that have been developed; the role of cultural studies in language learning; practical evaluation and development of syllabus, course and text materials.

**Prerequisite:** FSL221Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** JFI225Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE240H1 - Introduction to Literary Analysis

**Hours:** 24L/24T

A practical introduction to concepts, methods and problems of literary analysis, based on a detailed study of selected French and Francophone literary texts from various genres and periods. Students master the basic techniques of literary analysis and use them in short essays.

**Prerequisite:** FSL221Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE241H1 - Introduction to Research and Writing in Literary Studies

**Hours:** 36L

Survey and practical applications of literary research tools, printed and digitalized, with training sessions at the library. Topics covered include rules and conventions of scholarly writing, organizing a paper, choice of appropriate style, developing arguments, proper usage of footnotes and bibliographical references, and material presentation of papers and dissertations.

**Prerequisite:** FSL221Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Distribution Requirements:** Humanities

## FRE250H1 - French Literature: From its Beginnings to the Twenty-First Century

**Hours:** 36L

The evolution and major trends of French literature from the Middle Ages to the 21st century placed in their historical background and studied through representative texts from a variety of genres (narrative, poetry, drama, essay), selected both for their historical importance and their relevance to modern readers. (Not offered in 2016-17).

**Prerequisite:** FSL221Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL271H1 - French Grammar, within Reason

**Hours:** 36L

An introduction to basic concepts of the French grammar from an analytic and descriptive point of view. Exploration of traditional grammar concepts such as subject, predicate, complement. This course provides understanding of the logic that is often hidden by the apparent complexity of grammatical rules.

**Prerequisite:** FSL121Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Exclusion:** FSL321Y1 and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE272H1 - The Structure of Modern French: An Introduction

**Hours:** 24L/12T

A general introductory course on the structure of the French language including a descriptive study of meaning, sound, word, and sentence structure.

**Prerequisite:** FSL221Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE273H1 - Introduction to the History of the French Language

**Hours:** 36L

A discovery of a long and fascinating history, stretching from the spoken Latin of the Gauls to the many varieties of French found today all over the world via the investigation of the social, political and cultural causes of language change. Our focus includes topics such as medieval bilingualism, the regulation of language through the Académie française, the political use of the French language, the emergence of the Francophonie and modern Canadian French.

**Prerequisite:** FSL 221Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Recommended Preparation:** FRE272H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **FRE274H1 - Introduction to the Linguistic Analysis of French**

**Hours:** 24L/12T

An analytical study of contemporary French phonetics and phonology, morphology, syntax and semantics. This course is designed to prepare students for more advanced study of French linguistics at the 300 and 400 levels.

**Prerequisite:** FRE272H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **FCS290H1 - Special Topics in French Cultural Studies I**

**Hours:** 24L

The relation of French popular culture to society. For more information, see [http://www.french.utoronto.ca/undergraduate/courses/french\\_cultural\\_studies](http://www.french.utoronto.ca/undergraduate/courses/french_cultural_studies).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FCS291H1 - Special Topics in French Cultural Studies I**

**Hours:** 24L

The relation of French popular culture to society. (Not offered in 2017-18; offered every three years).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **FCS292H1 - Special Topics in French Cultural Studies I**

**Hours:** 24L

The relation of French popular culture to society. For more information, see [http://www.french.utoronto.ca/undergraduate/courses/french\\_cultural\\_studies](http://www.french.utoronto.ca/undergraduate/courses/french_cultural_studies)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FRE299Y1 - Research Opportunity Program**

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option. Course does not count towards any program in French.

**Distribution Requirements:** Humanities

## **FRE304H1 - Contemporary French Women's Prose Fiction**

**Hours:** 24L

An analysis of selected prose texts of the last hundred years written by major French women authors, emphasizing themes and textual strategies used to represent the female subject, her relationship to language, and the role of ethnicity, class, and gender in the construction of identity.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FRE308H1 - Reading, Writing, and Publishing in France (1200-2000)**

**Hours:** 24L

From the medieval manuscript to the E-book, with a view to understand how and why one writes, reads and/or publishes, a study of the impact of various technical innovations, the industrialization of book production and the role of intermediaries, in the context of the emergence of mass culture and global markets. (Not offered in 2017-18)

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS310Y1 - French Cinema

**Hours:** 48L/48P

Cinema in France with emphasis on theory and practical criticism, on auteurs and movements such as the avant-garde of the twenties and the New Wave of the late fifties. Films shown are subtitled. (Not offered in 2017-18).

**Prerequisite:** At least 5 course credits in any subject

**Recommended Preparation:** INI115Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE310H1 - Relations between Text and Other Media

**Hours:** 24L

Literary texts and other forms of media (photographs, cinematographic images, paintings) have been associated in a fascinating relation in hundreds of works of French literature. An exploration of this inextricable weaving together of verbal and visual experiences as it pertains to literature through the study of interdisciplinary theoretical texts focused on photography, painting, and cinema.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE314H1 - Quebec and French-Canadian Literature

**Hours:** 24L

Literature of the 20th and 21st centuries speaks of contesting social and literary figures of authority, of challenging traditional literary structures and of accentuating creativity and subjectivity. An exploration of the thematic and formal structures that challenge traditional forms of thinking and writing in contemporary literature from Québec and other French-speaking parts of Canada.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE318H1 - Medieval French Literature

**Hours:** 24L

Religious fervour, chivalry, romance and ribald humour, heroic deeds, marvellous adventures, and exotic travels as found in selected texts from the French Middle Ages. Readings in modern French translations with appropriate reference to the original language.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE319H1 - Laughter and Thought in French Renaissance Literature

**Hours:** 24L

An overview of the fascinating literary diversity, prose, theatre and poetry essential to the changing humanistic discourse of the French Renaissance and Baroque periods. The underscoring of important historical events - Reformation, Great Discoveries, Printing - to explain the philosophical and literary values produced by such violent times.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE320H1 - French Literature of Classicism and Enlightenment

**Hours:** 24L

An introduction to French literature between Classicism and the French Revolution with particular emphasis on its relationship to philosophical, cultural, and political movements of the Enlightenment, providing historical depth to philosophical and socio-political foundations of today's life. A privileged access to, and critique of, modernity in the postmodern age.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL321Y1 - French Language III

**Hours:** 48L/48T

Develops further students' written/speaking and comprehension/listening abilities by focusing on greater sentential and lexical complexity. Particular attention is paid to norms (contextually-appropriate (in)formality; particularities of French spelling and punctuation; differences between Canadian and European varieties). Investigation of linguistic, political and cultural aspects of the Francophonie.

**Prerequisite:** FSL221Y1 (63%) or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Exclusion:** FSL375Y1 and higher. May not concurrently take FSL362H1, FSL363H1, FSL364H1.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JFV323H1 - Semiotics and Literature I

**Hours:** 24S

The study of readings from major French literary semioticians is combined with the practical application of theory to the analysis of selected literary texts. This course is taught in English. (Not offered in 2016-17; offered every three years.)

**Prerequisite:** Completion of 5 FCE

**Recommended Preparation:** FRE240H1 + FRE241H1 or VIC223Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE324H1 - French Literature in the Time of Revolutions and Industrialization

**Hours:** 24L

The long 19th century (1789-1914) is characterized by change: from political upheavals to literary, scientific, and media revolutions, the spread of literacy, and the rapid development of industrialization and colonization. A study of the evolution of literature (genres, forms, movements), as influenced by these changing socio-political and economic contexts.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE326H1 - Contemporary French Literature

**Hours:** 24L

Characterized by experimentation and the crisis of representation, French literature of the 20th and 21st centuries has undergone numerous transformations in form, content, and generic boundaries. A study of these literary movements, trends, and transgressions in poetry, prose, and theatre.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE332H1 - Francophone Literatures

**Hours:** 24L

A comprehensive introduction to Francophone literatures and cultures, examining the linguistic, aesthetic and discursive specificities as represented by authors of the Francophone world. Focus on the concepts of colonialism, representation, alienation, emigration, and nationalism.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE334H1 - Francophone Cinema

**Hours:** 24L

Through films from across the spectrum of the Francophone world, a study of the diversity of the French colonial empire as well as the different aesthetic, historical, and cultural effects of colonialism and post-independence experience on various cinematic representations.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FRE336H1 - Postcolonialism: Francophone Literatures**

**Hours:** 24L

The fundamentals of postcolonial theories, with emphasis on how they relate to the Francophone world. The dialogue between fiction and theory, as well as the modalities of a coherent Francophone postcolonial identity in a global world.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **FRE344H1 - Literary Theory**

**Hours:** 24L

An introduction to literary theory through the study of particular theories underlying specific approaches to the literary text. Concepts and problems central to literary theory, and the writings of major critics and theoreticians.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FRE345H1 - Literary Genres**

**Hours:** 24L

Survey of the main literary genres and analysis of their features, with in-depth study of two of the genres: narrative (epic poem, novel, short narrative), lyric poetry, drama (tragedy, comedy, farce, mystery play), essay. Readings of selected texts, chosen for their representative potential and their historical relevance.

**Prerequisite:** FRE240H1

**Recommended Preparation:** FRE241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FSL350Y0 - French Language and Culture**

**Hours:** TBA

The course will be part of an international agreement between the University of Toronto and the University of Nice. Students will be taking the course in Nice.

**Prerequisite:** Any 200-series FRE course or FSL221Y1Y (minimum 63%)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FRE351H0 - Special Topics in Linguistics or Literature**

**Hours:** TBA

The course will be part of an international agreement between the University of Toronto and the University of Nice. Students will be taking the course in Nice.

**Prerequisite:** FRE240H1 and/or FRE272H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FRE352H0 - Special Topics in Linguistics or Literature**

**Hours:** TBA

The course will be part of an international agreement between the University of Toronto and the University of Nice. Students will be taking the course in Nice.

**Prerequisite:** FRE240H1 and/or FRE272H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL362H1 - Writing French: the Language of the Media

**Hours:** 36L

Using current online French media, broaden your understanding of the French language; deepen your grammatical knowledge; expand your vocabulary (including idioms); review key aspects of French syntax; and fine-tune your reading skills in French. Weekly reading and writing workshops are an integral part of this course.

**Prerequisite:** FSL221Y (63%) or, upon first FRE/FSL enrolment equivalent as determined by the French Placement Test.

**Exclusion:** FSL321Y1 and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL363H1 - French for the Workplace

**Hours:** 36L

Students will accomplish a variety of professional tasks and develop effective oral and written communication skills as well as acquire a deeper knowledge of the culture of the workplace in French-speaking communities: magazines, internet, video-clips. Emphasis on the study of professional terminology, correspondence formulae and professional practices of the workplace

**Prerequisite:** FSL221Y (63%) or, upon first FRE/FSL, enrolment equivalent as determined by the French Placement Test

**Exclusion:** FSL321Y1 and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL364H1 - French for the Arts

**Hours:** 36L

Introduction to the study of central themes in French artistic expression, designed to familiarize students with key concepts and vocabularies relevant to the subject. Study of modes of artistic representation, (visual, performing arts) and their contribution to the rich heritage and identity of French culture. Observation, description and analysis of various artistic mediums.

**Prerequisite:** FSL221Y1Y (63%) or, upon first FRE/FSL enrolment equivalent as determined by the French Placement Test

**Exclusion:** FSL321Y1 and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS369Y0 - The Culture of Touraine

**Hours:** 48L

This course will offer a unique opportunity to study the culture of the Touraine region while living an experience of complete immersion in Tours, a city located in the Loire Valley, a UNESCO World Heritage Site and the seat of power of the French monarchy until the 17th Century. Not eligible for CR/NCR option. (Not offered in Summer 2017)

**Prerequisite:** At least 5 course credits in any subject

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL375Y1 - Comparative Stylistics

**Hours:** 48L

A comparative study of the characteristics of French and English expression and how they pertain to the problems of translation.

**Prerequisite:** any FSL300Y (1.0 FCE) or any FRE 200 (1.0 FCE)course.

**Exclusion:** FSL421Y1 and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE376H1 - French Phonology and Phonetics

**Hours:** 24L

A study of the phonological system of modern French based on actual samples of speech taken from different regional varieties and socio-economic groups.

**Prerequisite:** FRE272H1 + FRE274H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE378H1 - French Syntax

**Hours:** 24L

A study of the distribution and relationships of the syntagmatic components of contemporary French; of sentential structure, including the principles of coordination, subordination and expansion; and of major theoretical approaches.

**Prerequisite:** FRE272H1 + FRE274H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE379H1 - Sociolinguistics of French

Hours: 24L

The relationship between language use and social factors such as socio-economic status, social context and gender of speaker. Theoretical notions are derived through the analysis of specific data, focusing on Canadian French and other varieties spoken in the Americas.

**Prerequisite:** FRE272H1 + FRE383H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## FRE383H1 - Experimental and Quantitative Methods for the Study of French

Hours: 24L

An introduction to the foundations of quantitative analysis and experimental research on French. Topics include differences between quantitative and qualitative analyses; hypothesis formulation; experimental design; and data collection and analysis including basic statistical methods. Phenomena investigated come from Canadian and European varieties as well as studies of second language learners.

**Prerequisite:** FRE272H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## FRE384H1 - Teaching French as a Second Language

Hours: 24L

This course provides an introduction to the communicative approach in recent methods and pedagogical materials published in France and in North America. Emphasis is put on the various interpretations of the communicative approach in teaching FSL, with reference to theoretical issues and historical background.

**Prerequisite:** FRE272H1 + FSL321Y1 + FRE225Y1 (JFI225Y1)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE386H1 - French Semantics

Hours: 24L

Various approaches to the notion of meaning; its functioning at all levels of representation.

**Prerequisite:** FRE272H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE387H1 - French Morphology

Hours: 24L

A study of the morphological system of modern French, its relationship to syntax and phonology; theoretical notions derived from the analysis of specific data.

**Prerequisite:** FRE272H1 + FRE274H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE388H1 - Bilingualism and second language acquisition of French

Hours: 24L

An overview of the cognitive aspects of bilingualism and language acquisition among early and late bilingual French speakers. Topics will include psycholinguistic processing and representation in the multilingual mind; the role and analysis of input in second language acquisition; patterns of interlanguage grammatical development; the nature and sources of intra and interlearner variation; and the effect of instruction on learning.

**Prerequisite:** FRE272H1 + FRE383H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FCS390H1 - Special Topics in French Cultural Studies II

Hours: 24L

Studies on an individual writer or specific area of literature. For more information, see [http://www.french.utoronto.ca/undergraduate/courses/french\\_cultural\\_studies](http://www.french.utoronto.ca/undergraduate/courses/french_cultural_studies)

**Prerequisite:** At least 5 courses in any subject

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS391H1 - Special Topics in French Cultural Studies II

**Hours:** 24L

Studies on an individual writer or a specific area of literature. For more information, see [http://www.french.utoronto.ca/undergraduate/courses/french\\_cultural\\_studies](http://www.french.utoronto.ca/undergraduate/courses/french_cultural_studies).

**Prerequisite:** At least 5 course credits in any subject

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS392H1 - Special Topics in French Cultural Studies II

**Hours:** 24L

Studies on an individual writer or specific area of literature. The relation of French popular culture to society. For more information, see [http://www.french.utoronto.ca/undergraduate/courses/french\\_cultural\\_studies](http://www.french.utoronto.ca/undergraduate/courses/french_cultural_studies)

**Prerequisite:** At least 5 courses in any subject

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## FRE399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## FRE410H1 - Advanced Topics in Quebec Literature:

**Hours:** 24S

An advanced interdisciplinary research seminar devoted to specific issues of Québécois literature and culture. Focus on a literary genre, a particular subject matter, a literary movement, or based on a multidisciplinary approach to cinema, arts, and music.

**Prerequisite:** FRE240H1 + FRE241H1 + FRE344H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL421Y1 - French Language IV

**Hours:** 72L

An advanced course in French including the reading and discussion of texts focussing on the francophone presence and influence in the international context. Emphasis is placed on mastery of complex linguistic skills via use of a variety of reference tools and self-correction.

**Prerequisite:** FSL321Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** FSL442H1, FSL443H1.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE438H1 - Advanced Topics in Francophone Literatures

**Hours:** 24S

An advanced seminar dedicated to specific issues of the Francophone literature and culture. Focusing on an author, a literary genre, or based on a multidisciplinary approach involving cinema, arts and music, each seminar reflects the professor's current research. For more information, see [http://www.french.utoronto.ca/undergraduate/courses/french\\_literature](http://www.french.utoronto.ca/undergraduate/courses/french_literature)

**Prerequisite:** FRE240H1 + FRE241H1 + FRE344H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE441H1 - Advanced Topics in French Literature

**Hours:** 24S

An advanced, research-oriented seminar devoted to specific issues of French literature and culture. Focus on a literary genre, a particular subject or literary movement, or based on a multidisciplinary approach involving cinema, arts, and music. For more information, see

[http://www.french.utoronto.ca/undergraduate/courses/french\\_literature](http://www.french.utoronto.ca/undergraduate/courses/french_literature)

**Prerequisite:** FRE240H1 + FRE241H1 + FRE344H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL442H1 - French Language V: Written French

**Hours:** 36L

Designed for students who wish to consolidate and perfect their writing abilities. Skills developed include the mastery of register-based differences; use of rhetorical and stylistic techniques; systematic self-correction; and the advanced use of reference tools including on-line dictionaries.

**Prerequisite:** FSL421Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE443H1 - Advanced Topics

**Hours:** 24S

An advanced, research-oriented seminar devoted to questions concerning the authors practice, originality, and oeuvre. Production, performance and prominence, characteristic genres, religious and philosophical thought, theoretical reflection on literature, language, and belonging as aspects of the analysis of one single authors body of writing. For more information, see

[http://www.french.utoronto.ca/undergraduate/courses/french\\_literature](http://www.french.utoronto.ca/undergraduate/courses/french_literature)

**Prerequisite:** FRE240H1 + FRE241H1 + FRE344H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL443H1 - French Language V: Oral French

**Hours:** 36L

Designed for students who wish to consolidate and perfect their speaking abilities. This is accomplished through the preparation of longer oral productions involving a rich vocabulary and contextually-appropriate speech registers. Focus on overall pronunciation including fine phonetic detail and fluency.

**Prerequisite:** FSL421Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** Not open to fluent or native speakers of French.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE446H1 - Advanced Studies in Literary Theory

**Hours:** 24S

An advanced, research-oriented course devoted to specific issues in French literary theory. Focus on particular theoretical concepts, paradigms, schools, trends, movements or major thinkers. For more information, see

[http://www.french.utoronto.ca/undergraduate/courses/french\\_literature](http://www.french.utoronto.ca/undergraduate/courses/french_literature)

**Prerequisite:** FRE240H1 + FRE241H1 + FRE344H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE471H1 - Medieval French Language

**Hours:** 24S

This course aims to assure an understanding of Old French, to read most of the medieval texts. From a selection of texts, it explores the form of the language in various centuries and regions and provide a basis for understanding the history of French language. This course is also listed in the offerings of the Graduate department of French.

**Prerequisite:** FRE272H1/FRE273H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL472H1 - Reading and Writing Fiction and Non-Fiction in French

**Hours:** 36L

Hybrid course designed for students who wish to further develop their reading and writing skills in French. Through a combination of traditional classroom time and online instruction, students will acquire analytic tools to comprehend, analyze and write fiction and non-fiction texts. Multimedia approach to understanding the cultural experiences of francophone world.

**Prerequisite:** FSL375Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL473H1 - Oral French in Context

**Hours:** 36L

This course is designed for students who wish to consolidate and perfect their speaking and listening abilities: focuses on various aspects and difficulties that come with speaking and understanding French in real-life situations. Students will strengthen their mastery of French and acquire the confidence they need for a professional environment.

**Prerequisite:** FSL375Y1

**Exclusion:** Not open to fluent or native speakers of French.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JFL477H1 - Issues in French and Linguistics I: Neurolinguistics

**Hours:** 24S

An advanced seminar on issues of current theoretical relevance in linguistics, with a special reference to French. This course is taught in English. For course descriptions, see the Departmental web site at:

[http://www.french.utoronto.ca/undergraduate/courses/french\\_linguistics](http://www.french.utoronto.ca/undergraduate/courses/french_linguistics).

**Prerequisite:** Any two 300+ series LIN or FRE linguistics courses.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JFL478H1 - Issues in French and Linguistics II

**Hours:** 24S

An advanced seminar on issues of current theoretical relevance in linguistics with special reference to French. This course is taught in English.

**Prerequisite:** Any two 300+ series LIN or FRE Linguistics course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE483H1 - Teaching French in Context: Language, Culture, and Society

**Hours:** 24L

The course investigates the relation between language, society and culture and study in depth various aspects of French and Francophone civilization, with particular focus on the development and integration of materials for use in the classroom by using contemporary texts and audio-visual documents.

**Prerequisite:** FRE384H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE485H1 - Teaching Young People's Literature

**Hours:** 24L

Analysis of bibliographical tools available for the selection of literary materials for the FSL classroom. Study of representative works of interest to young people such as novels, detective stories, cartoons, with special emphasis on socio-cultural aspects. Critical analysis of various pedagogical approaches useful for the Experiential Learning component: students participate in a school internship.

**Prerequisite:** FRE384H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE487H1 - Advanced Topics in Bilingualism and L2 acquisition

**Hours:** 24S

This course examines how non-native speakers acquire various aspects of French vocabulary, morphosyntax, and phonology. It also provides practical, in-depth training in methodological design and quantitative analysis culminating in students' undertaking of an analysis of data from corpora of spoken or written French.

**Prerequisite:** FRE376H1 + FRE378H1 + FRE383H1 + FRE388H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE488H1 - Special Topics in Advanced Linguistics I

**Hours:** 24S

An advanced seminar on a specific aspect of French linguistics. <https://fas.calendar.utoronto.ca/course/fre488h1>.

**Prerequisite:** Varies according to particular course offering; consult the French Studies Undergraduate brochure ([www.french.utoronto.ca/undergraduate](http://www.french.utoronto.ca/undergraduate)) for exact prerequisites.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE489H1 - Special Topics in Advanced Linguistics II

**Hours:** 24S

An advanced seminar on a specific aspect of French linguistics. For more information, see [http://www.french.utoronto.ca/undergraduate/courses/french\\_linguistics](http://www.french.utoronto.ca/undergraduate/courses/french_linguistics).

**Prerequisite:** Varies according to particular course offering; consult the French Studies Undergraduate brochure ([www.french.utoronto.ca/undergraduate](http://www.french.utoronto.ca/undergraduate)) for exact prerequisites.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE490Y1 - Senior Essay

**Hours:** TBA

A research project on a literary, linguistic, or second language learning topic to be proposed by the student and supervised by a Faculty member, culminating in a major research paper. Not eligible for CR/NCR option.

**Prerequisite:** Any 300+ FRE Linguistics/Literature/Second Language Learning course. Permission of Department.

**Distribution Requirements:** Humanities

## FRE491H1 - Independent Study

**Hours:** TBA

A research project on a literary, linguistic, or second language learning topic to be proposed by the student and supervised by a Faculty member on a topic of common interest, including readings, discussions, papers. Not eligible for CR/NCR option.

**Prerequisite:** Any 300+ FRE Linguistics/Literature/Second Language Learning course. Permission of Department.

**Distribution Requirements:** Humanities

## FRE492H1 - Independent Study

**Hours:** TBA

A research project on a literary, linguistic, or second language learning topic to be proposed by the student and supervised by a Faculty member on a topic of common interest, including readings, discussions, papers. Not eligible for CR/NCR option.

**Prerequisite:** Any 300+ FRE Linguistics/Literature/Second Language Learning course. Permission of Department.

**Distribution Requirements:** Humanities

## Faculty List

### Professors Emeriti

L.S. Bourne, MA, Ph D, FRSC, DES Hons  
J.N.H. Britton, MA, Ph D  
R.B. Bryan, BA Ph D  
I. Burton, Ph D, FRSC  
A.J. Dakin, Ph D, ARIBA, FRTPI  
J.H. Galloway, MA, Ph D (V)  
E.C. Relph, M Phil, Ph D  
S.T. Roweis, M Sc (PI), Ph D (I)  
J.W. Simmons, MA, Ph D  
A. Waterhouse, M Sc (PI), Ph D

### Associate Professor Emeritus

A. M. Davis, PhD

### Associate Professor and Chair of the Department, Graduate Chair

V.W. Maclaren, M PI, MS, PhD

### Professors

J.M. Chen, B Sc, Ph D, FRSC  
A.G. Daniere, MPP, Ph D  
J.R. Desloges, M Sc, Ph D  
M.S. Gertler, MCP, Ph D, FRSC  
J. Hackworth, MA, MEP, Ph D  
L.D.D. Harvey, M Sc, Ph D  
D. Leslie, MA, Ph D  
R.D. Lewis, MA, Ph D  
W.S. Prudham, MA, Ph D  
K.N. Rankin, MRP, Ph D  
S. Ruddick, MA, Ph D  
T. Smith, M Sc, Ph D

### Associate Professors

A. Boland, MAIS, Ph D  
D. Cowen, MScPI, Ph D  
R.J. DiFrancesco, MA, Ph D  
M. Farish, BA, Ph D  
E. Gilbert, MA, Ph D  
K. Goonewardena, M PI, Ph D  
P. Hess, MEP, Ph D  
M. Siemiatycki, M Sc, Ph D  
R. Silvey, MA, Ph D  
S. Wakefield, MA, Ph D

### Associate Professor, Teaching Stream

D. Boyes, M Sc, Ph D

### Assistant Professors

C. Abizaid, MA, Ph D  
J. Liu, Ph D  
N. Singh, MFM, Ph D  
M. Widener, MSc, Ph D  
J. Zhang, MS, Ph D

## Introduction

Geography is the study of the environments created on the earth's surface by nature and people. The physical and biological elements of these environments, as well as their economic and social structure, historical development, spatial organization, interrelationships, management and planning form the subject

matter of Geography. Geography, therefore, relates closely to other fields in natural science, social science and the humanities, and geographers take courses in these related fields along with their geography courses. Students specializing in other subjects often select one or more geography courses to deepen their understanding of the resource base, culture and economy of those parts of the world in which they are interested.

Employment opportunities for geographers exist in many branches of international organizations, government, industry, and education. Geographers work at all levels of government service, especially in agencies responsible for environmental management; land and resource analysis; development of historic districts and sites; urban transportation planning; urban and regional development planning; trade promotion; community social services; geographic systems design and data analysis; transport network design and the processing of archival, survey, and cartographic information. In business, geographers work in marketing, locational analysis, resource development, and in consulting firms engaged in project evaluation, land use planning and natural heritage conservation. They often also find work in the non-profit sector as policy analysts, cartographers and geographic information science specialists, community organizers, and educators.

Students studying Geography may take either an H.B.A. or H.B.Sc., depending upon the subjects they wish to emphasize. The Department offers Specialist, Major and Minor Programs in Geography, and contributes courses to various departmental and college programs including American Studies; Anthropology; Archaeology; Canadian Studies and Peace and Conflict Studies; Equity Studies; School of the Environment; Environmental Geosciences; Urban Studies; Ethics, Society and Law and International Relations; and European Studies. Counselling and advice may be obtained from the Associate Chair, Undergraduate or the Undergraduate Counsellor.

Associate Chair, Undergraduate:

Professor R. Lewis, Sidney Smith Hall, Room 5003 (416-978-1590)

Undergraduate Counsellor:

K. Giesbrecht, Sidney Smith Hall, Room 5044 (416-978-6455)

General Enquiries: 416-978-3375

## Regarding Geography and Planning Programs

For 2017-18

Admission to major and specialist programs will be determined by a student's mark in 0.5-1.0 GGR FCEs at the 100 and/or 200 level. See program descriptions for details on the entry requirements. These are limited enrolment programs that can only accommodate a limited number of students. Achieving the marks required does not necessarily guarantee admission to the program in any given year.

Double majors in Geography may only overlap 1.0 FCE. Students combining any of our Minor programs with a Specialist/Major program would normally be allowed to overlap only 1.5 FCEs towards both programs. Students that choose to specialize or major in one of the three Geography programs cannot minor in the same program but may do so in another Geography program. Double minors can overlap 1.0 FCE.

Generally, students may only take 1.0 Independent Research Project FCE toward their program requirements.

# Geography and Planning Programs

## Human Geography Specialist (Arts Program)

### Description:

The Human Geography programs provide the opportunity to learn about the relations between landscapes, places, people and nature, and the spatial organization of human activities. While students are encouraged to explore the breadth of the discipline, we also identify courses by theme for students who wish to develop expertise in one or two subfields (e.g., urban geography, cultural and historical geography). The Human Geography programs appeal to students who wish to develop an integrative understanding of the cultural, economic, political and social forces that shape how people use and experience the environments they live in. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

### Enrolment Requirements:

Admission will be determined by one of the following:

0.5 GGR FCE's at the 100 or 200 level with a final mark of 77% or 1.0 GGR FCE's at the 100 and/or 200 level with a final mark of 70% in each course.

Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE). This is a limited enrolment program that can only accommodate a limited number of students. Achieving these marks does not necessarily guarantee admission to the program in any given year.

### Completion Requirements:

*First Year Geography Courses:* Any 2 courses (1.0 FCE) from GGR100H1/JEG100H1, GGR101H1, GGR107H1, GGR112H1, GGR124H1. 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Physical and Environmental Geography Course:* Any course (0.5 FCE) not used to satisfy first year course requirement from GGR100H1/JEG100H1, GGR101H1, GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR223H1

*Methods Courses:* All (1.5 FCE) of GGR270H1, GGR271H1, GGR272H1

*Regional Geography Course:* Any course (0.5 FCE) from GGR240H1, GGR246H1, GGR254H1, GGR341H1, GGR342H1, GGR343H1

*Fourth Year Courses:* Any 2 (1.0 FCE) 400 series GGR courses, at least one of which must be from Group E. Up to 0.5 FCE can be used from GGR493Y1 based on internship.

*Applications:* Any 11 courses (5.5 FCEs) from Group E; Up to 1.5 FCE can be from Group F.

Note: At least 4.0 FCEs must be 300/400 series courses. Of these, at least 1.0 FCE must be 400 series (includes Fourth Year Course requirement).

**Total FCEs: 10.0**

## Focus in Planning (Specialist)

### Description:

The Planning Focus provides students with the opportunity to learn about how planning is a key component of the dynamic relations that exist between places, policy, power, and people. It focuses in on the conscious choices and decision made by various groups to shape the spatial organization of human activities. The Planning Focus will appeal to students who wish to develop an integrative understanding of the cultural, economic, political and social forces that shape the development and redevelopment of metropolitan and rural regions. Students are encouraged to explore the breadth of our courses that engage planning questions in relation to transportation, social segregation, health and housing, economic policy, environment change, and globalization.

### Enrolment Requirements:

Enrolment in the Human Geography Specialist (ASSPE1667) program is required.

### Completion Requirements:

Core (required) Courses: 1.0 FCE from GGR217H1 and JGI346H1

Planning Electives: Any 3 courses (1.5 FCE) from GGR241H1, GGR338H1, GGR339H1, GGR343H1, GGR359H1, GGR424H1, GGR433H1, GGR434H1, GGR493Y1 (0.5 FCE can be used based on internship)

Note: At least 1.0 FCE must be 300/400 series courses.

## Focus in Urban Geography (Specialist)

### Enrolment Requirements:

Enrolment in a Human Geography major or specialist program.

### Completion Requirements:

Required Urban Geography Courses: 1.0 FCE from GGR124H1, GGR241H1, JGI216H1

Urban Geography Electives: 1.5 FCE's from GGR254H1, GGR336H1, GGR339H1, GGR357H1, GGR359H1, GGR374H1, GGR382H1, GGR424H1, GGR458H1

Note: At least 1.0 FCE must be 300/400 series courses.

## Human Geography Major (Arts Program)

### Description:

The Human Geography programs provide the opportunity to learn about the relations between landscapes, places, people and nature, and the spatial organization of human activities. While students are encouraged to explore the breadth of the discipline, we also identify courses by theme for students who wish to develop expertise in one or two subfields (e.g., urban geography, cultural and historical geography). The Human Geography programs appeal to students who wish to develop an integrative understanding of the cultural, economic, political and social forces that shape how people use and experience the environments they live in. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

### Enrolment Requirements:

Admission is based on one of the following:

0.5 GGR FCE's at the 100 or 200 level with a final mark of 73% or 1.0 GGR FCE's at the 100 and/or 200 level with a final mark of 67% in each course.

Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE). This is a limited enrolment program that can only accommodate a limited number of students. Achieving these marks does not necessarily guarantee admission to the program in any given year.

### Completion Requirements:

*First Year Geography Courses:* Any two courses (1.0 FCE) from GGR100H1/JEG100H1, GGR101H1, GGR107H1, GGR112H1, GGR124H1. 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Physical and Environmental Geography Course:* Any course (0.5 FCE) not used to satisfy first year course requirement from GGR100H1/JEG100H1, GGR101H1, GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR223H1

*Methods Courses:* All (1.0 FCE) of GGR270H1, GGR271H1

*Regional Geography Course:* Any course (0.5 FCE) from GGR240H1, GGR246H1, GGR254H1, GGR341H1, GGR342H1, GGR343H1

*Fourth Year Course:* Any course (0.5 FCE) from 400 series courses from Group E.

*Applications:* Any 7 courses (3.5 FCEs) from Group E; Up to 1.0 FCE can be from Group F.

Note: At least 2.0 FCEs must be 300/400 series courses. Of these, at least 0.5 must be 400 series (includes Fourth Year Course requirement).

**Total FCEs: 7.0**

## Focus in Planning (Major)

### Description:

The Planning Focus provides students with the opportunity to learn about how planning is a key component of the dynamic relations that exist between places, policy, power, and people. It focuses in on the conscious choices and decision made by various groups to shape the spatial organization of human activities. The Planning Focus will appeal to students who wish to develop an integrative understanding of the cultural, economic, political and social forces that shape the development and redevelopment of metropolitan and rural regions. Students are encouraged to explore the breadth of our courses that engage planning questions in relation to transportation, social segregation, health and housing, economic policy, environment change, and globalization.

### Enrolment Requirements:

Enrolment in the Human Geography Major (ASMAJ1667) program is required.

### Completion Requirements:

Core (required) Courses: 1.0 FCE from GGR217H1 and JGI346H1

Planning Electives: Any 3 courses (1.5 FCE) from GGR241H1, GGR338H1, GGR339H1, GGR343H1, GGR359H1, GGR424H1, GGR433H1, GGR434H1, GGR493Y1 (0.5 FCE can be used based on internship)

Note: At least 1.0 FCE must be 300/400 series courses.

## Focus in Urban Geography (Major)

### Enrolment Requirements:

Enrolment in a Human Geography major or specialist program

### Completion Requirements:

Required Urban Geography Courses: 1.0 FCE from GGR124H1, GGR241H1, JGI216H1

Urban Geography Electives: 1.5 FCE's from GGR254H1, GGR336H1, GGR339H1, GGR357H1, GGR359H1, GGR374H1, GGR382H1, GGR424H1, GGR458H1

Note: At least 1.0 FCE must be 300/400 series courses.

## Human Geography Minor (Arts Program)

### Description:

The Human Geography programs provide the opportunity to learn about the relations between landscapes, places, people and nature, and the spatial organization of human activities. While students are encouraged to explore the breadth of the discipline, we also identify courses by theme for students who wish to develop expertise in one

or two subfields (e.g., urban geography, cultural and historical geography). The Human Geography programs appeal to students who wish to develop an integrative understanding of the cultural, economic, political and social forces that shape how people use and experience the environments they live in. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

#### **Enrolment Requirements:**

There are no entry requirements for this program.

#### **Completion Requirements:**

*First Year Geography Courses:* Any 2 courses (1.0 FCE) from GGR100H1/JEG100H1, GGR101H1, GGR107H1, GGR112H1, GGR124H1. 200/300 level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Applications:* Any 6 courses (3.0 FCEs) from higher level GGR/JFG/JGE/JGI/JUG social science or humanities courses, including at least 1.0 FCE at the 300/400 level. One course (0.5 FCE) can be from Group F.

**Total FCEs: 4.0**

## **Environmental Geography Specialist (Arts Program)**

#### **Description:**

A focus on the human-environment nexus is most explicit in these programs. Students learn about the social, spatial, and biophysical processes that shape society's relationship to nature, management of resources, and contemporary environmental change. These programs appeal to non-science students who seek an environmental program that allows them to learn more about the natural processes that interact with social factors in shaping environments. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

#### **Enrolment Requirements:**

Admission will be determined by one of the following:

0.5 GGR FCE's at the 100 or 200 level with a final mark of 77% or 1.0 GGR FCE's at the 100 and/or 200 level with a final mark of 70% in each course.

Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE). This is a limited enrolment program that can only accommodate a limited number of students. Achieving these marks does not necessarily guarantee admission to the program in any given year.

#### **Completion Requirements:**

*First Year Geography Courses:* Any 2 courses (1.0 FCE) from GGR107H1 (recommended), GGR100H1/JEG100H1, GGR101H1, GGR112H1, GGR124H1. 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Physical and Environmental Geography Courses:* Any 2 courses (1.0 FCE) from GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR305H1, GGR308H1, GGR314H1, GGR347H1, GGR348H1, ENV200H1, ENV234H1

*Methods & Core Courses:* All (2.5 FCEs) of GGR223H1, GGR270H1, GGR271H1, GGR272H1, JGE331H1

*Regional Geography Courses:* Any course (0.5 FCE) from GGR240H1, GGR246H1, GGR254H1, GGR341H1, GGR342H1, GGR343H1

*Fourth Year Courses:* Either GGR491Y1 or one of GGR416H1, GGR492H1, GGR497H1 and one additional 0.5 FCE 400 level course from Group A or Group B (1.0 FCE)

*Application:* Any 8 courses (4.0 FCEs) from Group A; up to 1.5 FCE can be from Group B; up to 1.0 FCE can be from Group C.

Note: At least 4.0 FCE's must be 300/400 series courses. Of these, at least 1.0 FCE must be 400 series (includes Fourth Year Course requirement).

**Total FCEs: 10.0**

## **Environmental Geography Major (Arts Program)**

#### **Description:**

A focus on the human-environment nexus is most explicit in these programs. Students learn about the social, spatial, and biophysical processes that shape society's relationship to nature, management of resources, and contemporary environmental change. These programs appeal to non-science students who seek an environmental program that allows them to learn more about the natural processes that interact with social factors in shaping environments. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

#### **Enrolment Requirements:**

Admission is based on one of the following:

0.5 GGR FCE's at the 100 or 200 level with a final mark of 73% or 1.0 GGR FCE's at the 100 and/or 200 level with a final mark of 67% in each course.

Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE). This is a limited enrolment program that can only accommodate a limited number of students. Achieving these marks does not necessarily guarantee admission to the program in any given year.

#### **Completion Requirements:**

*First Year Geography Courses:* Any 2 courses (1.0 FCE) from GGR107H1 (recommended), GGR100H1/JEG100H1, GGR101H1, GGR112H1, GGR124H1. 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Physical and Environmental Geography Courses:* Any 2 courses (1.0 FCE) from GGR201H1, GGR203H1, GGR205H1, GGR206H1.

GGR305H1, GGR308H1, GGR314H1, GGR347H1, GGR348H1, ENV200H1, ENV234H1

*Methods & Core Courses:* All (1.5 FCE) of GGR223H1, GGR270H1, GGR271H1

*Regional Geography Courses:* Any course (0.5 FCE) from GGR240H1, GGR246H1, GGR254H1, GGR341H1, GGR342H1, GGR343H1

*Fourth Year Course:* Any course (0.5 FCE) at the 400 level from Group A.

*Applications:* Any 5 courses (2.5 FCEs) from Group A; up to 1.0 FCE can be from Group B; up to 0.5 FCE can be from Group C.

Note: At least 2.0 FCEs must be 300/400 series courses. Of these, at least 0.5 FCE must be 400 series (includes Fourth Year Course requirement).

**Total FCEs: 7.0**

## Environmental Geography Minor (Arts Program)

### Description:

A focus on the human-environment nexus is most explicit in these programs. Students learn about the social, spatial, and biophysical processes that shape society's relationship to nature, management of resources, and contemporary environmental change. These programs appeal to non-science students who seek an environmental program that allows them to learn more about the natural processes that interact with social factors in shaping environments. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

### Enrolment Requirements:

There are no entry requirements for this program.

### Completion Requirements:

*First Year Geography Courses:* Any course (0.5 FCE) from GGR107H1 (recommended), GGR100H1/JEG100H1, GGR101H1, GGR112H1, GGR124H1. 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Core Course:* All (0.5 FCE) of GGR223H1

*Physical and Environmental Geography Course:* Any course (0.5 FCE) from GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR305H1, GGR308H1, GGR314H1, GGR347H1, GGR348H1, ENV200H1, ENV234H1

*Applications:* Any 5 courses (2.5 FCEs) from Group A; up to 1.0 FCE can be from Group B.

Note: At least 1.0 FCE must be 300/400 series courses.

**Total FCEs: 4.0**

## Physical and Environmental Geography Specialist (Science Program)

### Description:

Physical and Environmental Geography offers science-based programs for students interested in an integrative approach to understanding the earth's biotic and abiotic systems, including their spatial dynamics and the ways they are altered by human action. The programs provide a foundation in the subfields of climatology, biogeography, hydrology, and geomorphology. Students gain practical experience in lab and field settings. Technical skills taught also include data analysis, geospatial analytical tools, including GIS and Remote Sensing.

### Enrolment Requirements:

Admission will be determined by one of the following:

0.5 FCE's at the 100 or 200 level with a final mark of 77% or 1.0 GGR FCE's at the 100 and/or 200 level with a final mark of 70% in each course.

Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE). This is a limited enrolment program that can only accommodate a limited number of students. Achieving these marks does not necessarily guarantee admission to the program in any given year.

### Completion Requirements:

*Introductory courses:* Any 6 half courses or the equivalent (3.0 FCEs) from GGR100H1/JEG100H1, MAT133Y1/MAT135H1/MAT136H1/MAT137Y1/MAT157Y1, MAT223H1/MAT240H1, MAT224H1/MAT247H1, PHY131H1/PHY151H1, PHY132H1/PHY152H1, CHM138H1/CHM136H1, CHM139H1/CHM135H1, CHM151Y1, BIO120H1, BIO130H1, at least two of which must be Math or Phys half courses.

*Core Courses:* Any 4 courses (2.0 FCEs) from GGR201H1, GGR203H1, GGR205H1, GGR206H1, up to one half course from Group H.

*Regional Geography Courses:* Any course (0.5 FCE) from GGR101H1, GGR240H1, GGR246H1, GGR254H1, GGR341H1, GGR342H1, GGR343H1

*Methods Courses:* All (2.0 FCEs) of GGR270H1, GGR272H1, GGR337H1, GGR390H1

*Applications:* Any 7 courses (3.5 FCEs) from GGR273H1, GGR301H1, GGR305H1, GGR307H1, GGR308H1, GGR310H1/FOR310H1, GGR314H1, GGR373H1, GGR347H1, GGR348H1, GGR416H1, (but no more than one of GGR273H1, GGR373H1, GGR493Y1 (based on internship), any GGR course from the list for Core Courses and Fourth Year Courses not already used; up to three half courses from Group I. No more than one of GGR273H1, GGR373H1.

*Fourth Year Courses:* Any 2 courses (1.0 FCE) from GGR401H1, GGR405H1, GGR413H1, GGR414H1, GGR491Y1, GGR493Y1 (0.5

FCE can be used based on internship), GGR498H1, 400-series in Group I, but the total number of half courses from Group I (including 300-series courses) must not exceed 3.

**Total FCEs: 12.0**

## Physical and Environmental Geography Major (Science Program)

### Description:

Physical and Environmental Geography offers science-based programs for students interested in an integrative approach to understanding the earth's biotic and abiotic systems, including their spatial dynamics and the ways they are altered by human action. The programs provide a foundation in the subfields of climatology, biogeography, hydrology, and geomorphology. Students gain practical experience in lab and field settings. Technical skills taught also include data analysis, geospatial analytical tools, including GIS and Remote Sensing.

### Enrolment Requirements:

Admission is based on one of the following:

0.5 GGR FCE's at the 100 or 200 level with a final mark of 73% or 1.0 GGR FCE's at the 100 and/or 200 level with a final mark of 67% in each course.

Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE). This is a limited enrolment program that can only accommodate a limited number of students. Achieving these marks does not necessarily guarantee admission to the program in any given year.

### Completion Requirements:

*Introductory Courses:* Any 4 half courses or the equivalent (2.0 FCEs) from GGR100H1/ JEG100H1, MAT133Y1/MAT135H1/MAT136H1/MAT137Y1/MAT157Y1, MAT223H1/MAT240H1, MAT224H1/MAT247H1, PHY131H1/PHY151H1, PHY132H1/PHY152H1, CHM138H1/CHM136H1, CHM139H1/CHM135H1, CHM151Y1, BIO120H1, BIO130H1, at least two of which must be Math or Phys half courses.

*Core Courses:* Any 3 courses (1.5 FCE) from GGR201H1, GGR203H1, GGR205H1, GGR206H1

*Regional Geography Course:* Any course (0.5 FCE) from GGR101H1, GGR240H1, GGR246H1, GGR254H1, GGR341H1, GGR342H1, GGR343H1

*Methods Courses:* All (1.5 FCE) of GGR270H1, GGR272H1, GGR390H1

*Applications:* Any 4 courses (2.0 FCEs) from GGR273H1, GGR301H1, GGR305H1, GGR307H1, GGR308H1, GGR310H1/FOR310H1, GGR314H1, GGR337H1, GGR373H1, GGR347H1, GGR348H1, GGR416H1, GGR493Y1 (based on internship), any GGR course from the list for requirement B or F not already used; any one half course from Group I (below). No more than one from GGR273H1, GGR373H1.

*Fourth Year Course:* Any course (0.5 FCE) from GGR401H1, GGR405H1, GGR413H1, GGR414H1, GGR491Y1, GGR493Y1 (0.5 FCE can be used based on internship), GGR498H1

**Total FCEs: 8.0**

## Physical and Environmental Geography Minor (Science Program)

### Description:

Physical and Environmental Geography offers science-based programs for students interested in an integrative approach to understanding the earth's biotic and abiotic systems, including their spatial dynamics and the ways they are altered by human action. The programs provide a foundation in the subfields of climatology, biogeography, hydrology, and geomorphology. Students gain practical experience in lab and field settings. Technical skills taught also include data analysis, geospatial analytical tools, including GIS and Remote Sensing.

### Enrolment Requirements:

There are no entry requirements for this program.

### Completion Requirements:

*First Year Geography Courses:* Any 2 courses (1.0 FCE) from GGR100H1/JEG100H1 (recommended), GGR101H1, GGR107H1, GGR112H1, GGR124H1

*Core Courses:* Any 2 courses (1.0 FCE) from GGR201H1, GGR203H1, GGR205H1, GGR206H1

*Methods Courses:* One (0.5 FCE) of GGR301H1/GGR305H1/GGR308H1 and one (0.5 FCE) of GGR272H1/GGR337H1

*Applications:* Any 2 courses (1.0 FCE) from GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR301H1, GGR305H1, GGR307H1, GGR308H1, GGR310H1/FOR310H1, GGR314H1, GGR347H1, GGR348H1, GGR390H1, GGR401H1, GGR405H1, GGR413H1, GGR414H1

**Total FCEs: 4.0**

## Geographic Information Systems Minor (Arts Program)

### Description:

The GIS program covers the theoretical, technical and applied foundations for geographic information systems. Students learn methods for spatial data production, analysis and presentation using computer cartography, spatial analysis, remote sensing, and geovisualization. Problem solving and project design are emphasized in upper level courses, as students apply techniques to answer specific geographic questions. The GIS program is structured to provide a stand-alone minor for students in Geography

and other disciplines seeking complementary skills in spatial analysis (e.g., field biology, archaeology).

Note: Students combining this program with a Specialist/Major sponsored by the Department of Geography will normally be allowed to count only 1.5 (of the 4.0) FCEs towards both programs.

#### Enrolment Requirements:

There are no entry requirements for this program.

#### Completion Requirements:

*First Year Geography Courses:* Any 2 courses (1.0 FCE) from GGR100H1/JEG100H1, GGR101H1, GGR107H1, GGR112H1, GGR124H1. 200/300 level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Methods & Core Courses:* All (2.0 FCEs) of GGR270H1, GGR272H1, GGR273H1, GGR373H1

*Applications:* Any 2 courses (1.0 FCE) from GGR225H1, GGR337H1, GGR372H1, GGR413H1, GGR414H1, GGR462H1, GGR472H1, GGR473H1, GGR491Y1, GGR492H1, GGR493Y1 (0.5 FCE can be used based on internship), GGR497H1, GGR498H1, GGR499H1, JFG470H1, JFG475H1

Note: At least 1.0 FCE must be 300/400 series courses

**Total FCEs: 4.0**

## Asian Geographies (offered jointly with the National University of Singapore) Minor (Arts Program)

#### Description:

Asian Geographies offers a structure exchange opportunity between the University of Toronto and National University of Singapore (NUS). This program allows students to study geographic themes through the lens of development and change in Asia. They complete half of this minor program while at National University of Singapore (NUS), selecting from courses there that locate geographic questions in a local or regional context.

This Type 3 minor program represents a unique opportunity to study geography in a different cultural environment. For more information, contact the Undergraduate Office and the Centre for International Experience (CIE, [www.cie.utoronto.ca](http://www.cie.utoronto.ca)). Students are advised to contact the U of T Geography Department in advance of going abroad to discuss course selection at NUS.

#### Completion Requirements:

*First Year Geography Course:* Any course (0.5 FCE) from GGR100H1/JEG100H1, GGR101H1, GGR107H1, GGR112H1, GGR124H1

*Applications (UofT):* Any 3 (1.5 FCE) higher level GGR/JGE/JGI/JFG/JUG courses

*Applications (NUS):* Any 4 courses (2.0 FCEs) from NUS250H0, NUS251H0, NUS252H0, NUS253H0, NUS254H0, NUS255H0, NUS256H0, NUS350H0, NUS351Y0, NUS352H0, NUS353H0, NUS354H0 (or other NUS course with permission of the department)

Note: At least 1.0 FCEs must be at the 300/400 level (from U of T or NUS)

**Total FCEs: 4.0**

## Environment and Energy Minor (Science Program)

#### Description:

#### Environment and Energy (Science Program) Joint Program with the School of the Environment

Jointly sponsored by the School of the Environment and the Department of Geography, this interdisciplinary program addresses the scientific, technological, environmental and policy aspects of energy use and supply, with a focus on the reduction of environmental impacts.

Note that the four full course equivalents that constitute the Minor Program are those listed below under Higher Years. Consult David Powell, Undergraduate Student Advisor, School of the Environment, Room ES 1022, 33 Willcocks wing, Earth Sciences Centre, 416-946-8100 or [david.powell@utoronto.ca](mailto:david.powell@utoronto.ca)

#### Completion Requirements:

*First Year Courses:* One FCE from (MAT135H1, MAT136H1)/MAT137Y1, and at least one FCE from CHM138H1/ CHM136H1, CHM139H1/ CHM135H1, CHM151Y1, PHY131H1, PHY132H1, PHY151H1, PHY152H1

*All of:* ENV221H1, ENV222H1/ GGR223H1 (1.0 FCE)

*All of:* ENV346H1, ENV350H1, ENV450H1 (1.5 FCE)

*Any two of:* GGR310H1/ FOR310H1, GGR314H1, GGR347H1, GGR348H1 (1.0 FCE)

*Any one of:* CHM210H1, CHM310H1, CHM415H1, ENV237H1, ENV238H1, FOR310H1\*/ GGR310H1\*, FOR410H1, GGR203H1, GGR314H1\*, GGR347H1\*, GGR348H1\*, HPS313H1, PHY231H1, PHY250H1 (\* if not taken for the requirement immediately above) (0.5 FCE)

**Total FCEs: 4.0**

## Course Groups

### Group A (Environmental Geography Courses)

- GGR201H1 Geomorphology
- GGR203H1 Introduction to Climatology
- GGR205H1 Introduction to Soil Science
- GGR206H1 Introduction to Hydrology

- [GGR223H1 Environment, Society and Resources \(formerly GGR222H1\)](#)
- [GGR272H1 Geographic Information and Mapping I](#)
- [GGR273H1 Geographic Information and Mapping II](#)
- [GGR301H1 Fluvial Geomorphology](#)
- [GGR305H1 Biogeography](#)
- [GGR308H1 Canadian Arctic and Subarctic Environments](#)
- [GGR310H1 Bioenergy from Sustainable Forest Management](#)
- [GGR314H1 Global Warming](#)
- [GGR321H1 Indigenous Worlds, Worldviews and the Environment](#)
- [GGR329H1 The Global Food System](#)
- [GGR334H1 Water Resource Management](#)
- [GGR337H1 Environmental Remote Sensing](#)
- [GGR338H1 Environmental Issues in the Global South](#)
- [GGR340H1 Health Geography](#)
- [GGR341H1 Changing Geography of Latin America](#)
- [GGR347H1 Efficient Use of Energy \(formerly JGE347H1\)](#)
- [GGR348H1 Carbon-Free Energy \(formerly JGE348H1\)](#)
- [GGR373H1 Advanced Geographic Information Systems](#)
- [GGR405H1 Sustainable Systems for Natural Resources Management](#)
- [GGR413H1 Watershed Hydroecology](#)
- [GGR414H1 Advanced Remote Sensing](#)
- [GGR416H1 Environmental Impact Assessment \(formerly GGR393H1\)](#)
- [GGR418H1 Political Economy of Natural Resources](#)
- [GGR419H1 Environmental Justice](#)
- [GGR434H1 Building Community Resilience](#)
- [GGR438H1 Environment and Development](#)
- [GGR481H1 Field Course in Environmental Geography](#)
- [GGR491Y1 Research Project](#)
- [GGR492H1 Senior Practicum](#)
- [GGR493Y1 Geography Professional Exper](#)
- [GGR497H1 Independent Research](#)
- [GGR498H1 Independent Research](#)
- [JFG470H1 Forest Management](#)
- [JFG475H1 Forest Fire Management Systems](#)
- [JGE321H1 Multicultural Perspectives on Environmental Management](#)
- [JGE331H1 Resource and Environmental Theory \(formerly GGR331H1\)](#)
- [JUG320H1 The Canadian Wilderness](#)

## Group B (School of the Environment Courses)

- [ENV200H1 Assessing Global Change: Science and the Environment \(formerly ENV200Y1\)](#)
- [ENV234H1 Environmental Biology: Structure and Function of Ecosystems \(formerly ENV234Y1\)](#)
- [ENV307H1 Urban Sustainability \(formerly JIE307Y1\)](#)
- [ENV323H1 Ontario Environmental Policy \(formerly ENV423H1\)](#)
- [ENV333H1 Ecological Worldviews](#)
- [ENV335H1 Environmental Design](#)
- [ENV350H1 Energy Policy and Environment](#)
- [ENV422H1 Environmental Law](#)

## Group C

- Any other Geography courses at the 200/300/400 level not listed in Group A.

## Group E

- [GGR216H1 Global Cities](#)
- [GGR217H1 Urban Landscapes and Planning](#)
- [GGR220H1 The Spatial Organization of Economic Activity](#)
- [GGR221H1 New Economic Spaces](#)
- [GGR223H1 Environment, Society and Resources \(formerly GGR222H1\)](#)
- [GGR225H1 Power of Maps and Geographic Information](#)
- [GGR240H1 Geographies of Colonialism in North America](#)
- [GGR241H1 Geographies of Urban Social Exclusion](#)
- [GGR246H1 Geography of Canada](#)
- [GGR251H1 Geography of Innovation](#)
- [GGR252H1 Marketing Geography](#)
- [GGR254H1 Geography USA](#)
- [GGR272H1 Geographic Information and Mapping I](#)
- [GGR273H1 Geographic Information and Mapping II](#)
- [GGR299Y1 Research Opportunity Program](#)
- [GGR300H1 Special Topics in Geography I](#)
- [GGR314H1 Global Warming](#)
- [GGR320H1 Geographies of Transnationalism, Migration, and Gender](#)
- [GGR321H1 Indigenous Worlds, Worldviews and the Environment](#)
- [GGR323H1 Issues in Population Geography](#)
- [GGR326H1 Remaking the Global Economy](#)
- [GGR327H1 Geography and Gender](#)
- [GGR328H1 Labour Geographies](#)
- [GGR329H1 The Global Food System](#)
- [GGR334H1 Water Resource Management](#)
- [GGR336H1 Urban Historical Geography of North America](#)
- [GGR338H1 Environmental Issues in the Global South](#)
- [GGR339H1 Urban Geography, Planning and Political Processes](#)
- [GGR340H1 Health Geography](#)
- [GGR341H1 Changing Geography of Latin America](#)
- [GGR342H1 The Changing Geography of Southeast Asia](#)
- [GGR343H1 The Changing Geography of China](#)
- [GGR352H1 Understanding Spatiality](#)
- [GGR356H1 Recreation and Tourism](#)
- [GGR357H1 Housing and Community Development](#)
- [GGR360H1 Culture, History, and Landscape](#)
- [GGR363H1 Critical Geographies: An Introduction to Radical Ideas on Space, Society and Culture](#)
- [GGR372H1 GIS for Public Health](#)
- [GGR373H1 Advanced Geographic Information Systems](#)
- [GGR374H1 Urban Dynamics](#)
- [GGR382H1 Field Course in Human Geography](#)
- [GGR400H1 Special Topics in Geography I](#)
- [GGR416H1 Environmental Impact Assessment \(formerly GGR393H1\)](#)
- [GGR418H1 Political Economy of Natural Resources](#)
- [GGR419H1 Environmental Justice](#)
- [GGR420H1 Critical Development Geography](#)
- [GGR421H1 Histories of Geographical Thought](#)

- [GGR424H1 Transportation Geography and Planning \(formerly GGR324H1\)](#)
- [GGR430H1 Geographies of Markets](#)
- [GGR431H1 Regional Dynamics](#)
- [GGR433H1 Built Environment and Health](#)
- [GGR434H1 Building Community Resilience](#)
- [GGR438H1 Environment and Development](#)
- [GGR439H1 Global Political Geography](#)
- [GGR452H1 Space, Power, Geography: Understanding Spatiality](#)
- [GGR457H1 The Post-War Suburbs](#)
- [GGR458H1 Selected Topics in Urban Geography](#)

## Regarding Geography and Planning Courses

### Prerequisites

#### NOTE

Recommended Preparation: The course will be taught in a manner that assumes students have achieved the level of study (e.g., third year standing) and completed courses listed (or equivalent background).

Prerequisites: These are strictly monitored requirements. In some cases Prerequisites may be waived if equivalent background exists. Please consult the Associate Chair, Undergraduate or the course instructor.

### First-Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Group H

- [CHM217H1 Introduction to Analytical Chemistry](#)
- [CHM310H1 Environmental Chemistry](#)
- [ESS221H1 Minerals and Rocks](#)
- [ESS261H1 Earth System Evolution](#)
- [CHE210H1 \(Faculty of Engineering\)](#)

## Group I

- [EEB319H1 Population Ecology](#)
- [EEB321H1 Community Ecology](#)
- [EEB324H1 Evolutionary Ecology](#)
- [EEB328H1 Physiological Ecology](#)
- [EEB330H1 Systematic Botany](#)
- [EEB428H1 Global Change Ecology](#)
- [ENV346H1 Terrestrial Energy Systems](#)
- [ESS262H1 Earth System Processes](#)
- [ESS311H1 Aqueous Geochemistry](#)
- [ESS361H1 Atmosphere-Biosphere Interact](#)
- [ESS461H1 Palaeoenvironmental Studies](#)
- [ESS463H1 Contaminants in the Environment](#)
- [ESS464H1 Biological Perspectives on Earth System Evolution](#)

- [FOR305H1 Biology of Trees and Forests](#)
- [FOR306H1 Tropical Forest Ecology and Conservation Field Course](#)

## Geography and Planning Courses

### JEG100H1 - Introduction to Physical Geography and Earth Science

**Hours:** 24L/10P

This introduction to Physical Geography and Earth Sciences examines the atmosphere, lithosphere, hydrosphere, cryosphere and biosphere, emphasizing processes, flows of energy and materials, and the interconnectedness of these Earth systems. Specific topics include weather and climate, earth materials, geological and geomorphic processes involved in the genesis of landforms, river systems, glaciers, soils, and biomes. Five laboratory meetings during the term.

**Exclusion:** GGR100H1 and ESS102H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR101H1 - Ancient Civilizations and their Environments

**Hours:** 24L

The course will focus on the processes that drive environmental change and how past societies have responded to the constraints that these impose. The emphasis is on the current interglacial, the Holocene, and how increasing population and technology has affected human-environment interactions.

**Exclusion:** JGE236H1(taken in 2007-2008, 2008-2009)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## GGR107H1 - Environment, Food and People

**Hours:** 24L/12T

Examines the relations between food, nature, and society. Food is fundamental to human existence, and central to most cultures; it also has significant and widespread effects on the physical environment. This course uses food as a lens to explore human-environment interactions locally and globally. It serves as an introduction to environmental and human geography.

**Exclusion:** GGR107Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR112H1 - Geographies of Globalization, Development and Inequality

**Hours:** 24L/8T

Economic development and underdevelopment are taking shape in an increasingly interconnected global context. This course examines geographic approaches to "Third World" development, economic globalization, poverty, and inequality. It pays particular attention to the roles of rural-urban and international migration in shaping specific landscapes of development.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR124H1 - Cities and Urban Life

**Hours:** 24L/6T

Offers an introduction to North American cities and urbanization in a global context. It explores social, cultural, political and economic forces, processes, and events that shape contemporary urbanism. The course adopts the lens of 'fixity' and 'flow' to examine how the movement of people, ideas, goods, and capital, as well as their containment in the infrastructure and space of the city, give rise to particular urban forms.

**Exclusion:** GGR124Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR201H1 - Geomorphology

**Hours:** 24L/4P

Introduction to the principles of geomorphology; earth materials; major features of crustal morphology; landforming processes of water, wind, waves and ice; human impact on earth surface processes. One hour laboratory session approximately every other week; a local field trip.

**Recommended Preparation:** JEG100H1/GGR100H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR203H1 - Introduction to Climatology

**Hours:** 34L

Introduction to the large scale processes responsible for determining global and regional climate and atmospheric circulation patterns, as well as the small scale processes responsible for determining the microclimates of specific environments.

**Prerequisite:** Physics SPH3U

**Recommended Preparation:** JEG100H1/GGR100H1; MAT133Y1, MAT135H1, MAT136H1, MAT137Y1; PHY131H1, PHY132H1, PHY151H1, PHY152H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR205H1 - Introduction to Soil Science

**Hours:** 24L/4P

Introduction to soil science dealing with the chemical, physical, and biological properties of soils; soil formation and development; the classification of soils, and the application of soil science to environmental, agricultural and forestry issues.

**Recommended Preparation:** CHM138H1/CHM136H1, CHM139H1/CHM135H1; JEG100H1/GGR100H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR206H1 - Introduction to Hydrology

**Hours:** 30L/4T

Introduction to the hydrologic cycle with emphasis on the physical processes, including precipitation, interception, evaporation, runoff, ground water and soil water. Basic hydrological models will be practiced.

**Recommended Preparation:** JEG100H1/GGR100H1; MAT135H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JGI216H1 - Globalization and Urban Change

**Hours:** 24L

Focusing on the impacts that global flows of ideas, culture, people, goods, and capital have on cities throughout the globe, this course explores some of the factors that differentiate the experiences of globalization and urban change in cities at different moments in history and in various geographic locations.

**Recommended Preparation:** GGR124H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR216H1 - Global Cities

**Hours:** 24L

Most urban courses taught in the English-speaking world implicitly or explicitly focus on large North American, European, or Australian cities. While these places are interesting in their own right, studying them as the sole model of urbanization is misleading. To a great extent, the societies of the westernized, developed world are already highly-urbanized and have been so for decades. Cities outside of this sphere, by contrast, are generally growing much faster, and experiencing greater social and economic upheaval as a result. Understanding non-North American urbanization is a vital part of understanding cities in general. This course is an attempt to introduce students to processes of urbanization that are occurring in places other than North America. There will be a particular focus on comparing the urban form, economies, and social life in cities around the world.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR217H1 - Urban Landscapes and Planning

**Hours:** 24L

Considers the role of planning in shaping the urban landscape through historical and contemporary examples that illustrate the interplay of modernist and post-modernist approaches to city building. Traces the origins, competing rationalities and lingering effects of planning in the production of urban space. Broaches possibilities for engaging planning critically to address challenges of social and environmental justice in cities today.

**Exclusion:** GGR361H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR220H1 - The Spatial Organization of Economic Activity

**Hours:** 24L/2T

Focuses on theoretical and empirical topics aimed at describing, analyzing and explaining the spatial distribution of economic activity at macro- and micro-spatial-scales. Topics covered could include theories of regional economic growth and change, issues surrounding uneven development in space, the empirical definition of regional economic systems, and the measurement of economic growth and structural change.

**Exclusion:** GGR220Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR221H1 - New Economic Spaces

**Hours:** 24L/4T

Provides an introduction to economic geography and economic geography theory from the 1970s on, illustrating the different ways that geographers have conceptualized the restructuring of resource industries, manufacturing and services. The crisis of Fordism and the rise of new production models will be given particular attention, along with the reorganization of finance, the rise of cultural industries and the globalization of commodity chains. New regimes of governance of the economy will also be considered.

**Exclusion:** GGR220Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR223H1 - Environment, Society and Resources (formerly GGR222H1)

**Hours:** 24L/6T

Focuses on society-environment relations and different approaches to resource governance and management. This includes exploration of the spatial, social, and political economic origins and implications of humans' changing relations to nature. Drawing on debates from environmental governance and political ecology literatures, the course also investigates the ways that different actors and institutions have framed and sought solutions to environmental and resource challenges.

**Exclusion:** GGR222H1/GGR222Y1/GGR233Y1/JGE221Y1/ENV222Y1/ENV222H1 (if ENV222H1 was taken before 2012-13)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR225H1 - Power of Maps and Geographic Information

**Hours:** 24L/4P

Examines the changing role of geographic information in society. Considers how spatial information is produced, organized, controlled, and used in different historical, cultural and political contexts. Topics examined include: the effects of the shift from print to digital mapping; implications of mobile spatial technologies and the geoweb; open source and open access; production and control of spatial data and information; and alternative cartographies. Introduces geospatial literacy skills.

**Exclusion:** GGR375H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR240H1 - Geographies of Colonialism in North America

**Hours:** 24L/6T

An introduction to the historical geography of North America through the lens of colonialism. Focused on the period from the late 15th century to the turn of the 20th, but with an eye to our colonial present, the course uses cultural texts and place-based cases to ground broad themes and processes such as environmental change, (re)settlement campaigns, slavery and industrialization, railroading and resource extraction, American empire-building, and enduring struggles over land and identity.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## GGR241H1 - Geographies of Urban Social Exclusion

**Hours:** 24L

Introduction to the geographies of urban social exclusion and segregation after 1750. Using a selection of cities from around the world, the course examines the impacts and implications of urban social inequalities.

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR246H1 - Geography of Canada

**Hours:** 24L

Social and economic differences have been, and continue to be, a prominent feature of Canada's geography. In this course these differences are examined at a regional and local scale. The course adopts a thematic approach and considers issues such as historical development, urbanization, industrialization, immigration and population change, Canada's cultural mosaic and native issues. Emphasis will be placed on the evolution of social and economic policies and Canada's incorporation into a global economy.

**Recommended Preparation:** GGR107H1, GGR124H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR251H1 - Geography of Innovation

**Hours:** 24L

Explores how new technologies and industries are generated and sustained, or failed to be. Focuses on the dynamics of leading technological sectors such as electronics, automobiles and biotechnology in their geographical and historical contexts. We critically scrutinise the iconic Silicon Valley along with other major innovative regions/nations, and investigate the key role of universities and finance in driving innovation and entrepreneurship.

**Exclusion:** GGR300H1 (2014-15)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR252H1 - Marketing Geography

**Hours:** 24L/4T

The problem of retail location. The spatial structure of consumer demand and retail facilities. Shopping centres and retail chains. Techniques for site selection and trade area evaluation, location strategies, retail planning.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR254H1 - Geography USA

**Hours:** 24L

After a short historical overview of the making of America, this course focuses on contemporary issues in American society, economy, politics, race, regional distinctions and disparities, urban development.

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR270H1 - Introductory Analytical Methods

**Hours:** 24L/12T

Theory and practical application of elementary quantitative techniques in geography emphasizing descriptive, inferential and spatial statistical analysis, probability, and sampling.

**Exclusion:** ECO220Y1/ECO227Y1/GGR270Y1/LIN305H1/POL222H1/POL242Y1/PSY201H1/SOC200H1/SOC202H1/STA220H1/STA248H1/STA250H1/STA261H1

**Recommended Preparation:** 0.5 FCE in Geography

**Distribution Requirements:** Social Science

## GGR271H1 - Social Research Methods

**Hours:** 24L

Practical course on field methods designed to enable students to carry out their own research projects. Behavioural observation, interviewing, questionnaire design, sampling theory, content analysis of written and graphic material, data coding and focus groups.

**Exclusion:** SOC200H1/SOC204H1/WDW350H1/ENV223H1(from 2010-11)

**Distribution Requirements:** Social Science

## GGR272H1 - Geographic Information and Mapping I

**Hours:** 24L/24P

Introduction to digital mapping and spatial analysis using geographic information systems (GIS). Students learn how to use GIS software to find, edit, analyze and map geographic data to create their own maps, analyze geographic problems and use techniques that can be applied to a variety of subject areas.

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR273H1 - Geographic Information and Mapping II

**Hours:** 24L/24P

Builds on GGR272H1 by providing students with practical spatial analysis methods and the underlying theory needed to understand how to approach various geographic problems using geographic information system (GIS) software and a variety of data types and sources.

**Prerequisite:** GGR272H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## GGR300H1 - Special Topics in Geography I

**Hours:** 24L

Content in any given year depends on instructor. The program in which the course can be used depends on its content. Consult Department Office in April.

**Distribution Requirements:** Science; Social Science

## GGR301H1 - Fluvial Geomorphology

**Hours:** 24L/4P

Elements of drainage basin morphology and hydrology, classification of rivers, stream patterns and hydraulic geometry. Elements of open channel flow, sediment transport and the paleohydrology of river systems. River channel adjustments to environmental change, human impact and the management/design of river habitats. Exercises include experimentation in a laboratory flume. **Usually offered every other year.**

**Prerequisite:** GGR270H1 (or equivalent), and GGR201H1 or permission of instructor

**Recommended Preparation:** 10.0 FCE's including JEG100H1/GGR100H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR305H1 - Biogeography

**Hours:** 24L

Identifies patterns in and explains processes behind plant and animal distributions through space and time. Topics covered include ecological and evolutionary dynamics, disturbance, dispersal, migration, continental drift, speciation, extinction, paleoenvironments and island biogeography. We also examine terrestrial and marine biomes, the meaning of biodiversity, conservation challenges, and recent biogeographic changes associated with human impact.

**Recommended Preparation:** 8.0 FCE's including JEG100H1/GGR100H1 or (BIO120H1, BIO130H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## GGR308H1 - Canadian Arctic and Subarctic Environments

**Hours:** 24L

We will explore the climate geomorphology, soils, hydrology, biogeochemical cycling, limnology and food web structures of the Arctic and Subarctic. Current stresses of climate change and pollution are discussed along with scientific and political solutions.

**Prerequisite:** Equivalent of one full-year science course at the 200-level or permission from the instructor.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR310H1 - Bioenergy from Sustainable Forest Management

**Hours:** 24L/12P

Socio-economic, technical, political and environmental issues associated with the utilization of forest biomass (e.g., harvesting residues, thinnings, salvage, short rotation woody crops) for a source of renewable energy.

**Exclusion:** FOR310H1

**Recommended Preparation:** Completion of at least 6 Science FCEs

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR314H1 - Global Warming

**Hours:** 30L/6T

A comprehensive examination of the greenhouse warming problem, beginning with economic, carbon cycle, and climate model projections; impacts on and adaptive responses of agriculture, forests, fisheries, and water resources; options and policies to reduce greenhouse gas emissions.

**Recommended Preparation:** 8.0 FCE's

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JUG320H1 - The Canadian Wilderness

**Hours:** 24L

The idea of wilderness permeates narratives of Canadian national identity, while policy-makers seek to manage and contain natural areas. This course compares and contrasts historical and contemporary wilderness narratives in literature, painting and film with policies in areas such as conservation, urban planning, land claims and tourism.

**Recommended Preparation:** 8.0 FCE's

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## GGR320H1 - Geographies of Transnationalism, Migration, and Gender

**Hours:** 24L

This course examines recent changes in global migration processes. Specifically, the course addresses the transnationalization and feminization of migrant populations and various segments of the global labor force. The coursework focuses on analyzing classical paradigms in migration studies, as well as emerging theoretical approaches to gender and migration. In addition, it traces the shifting empirical trends in gendered employment and mobility patterns. It uses in-depth case study material to query the frameworks employed in migration studies and to understand the grounded implications of gendered migration. It pays particular attention to the interventions made by feminist geographers in debates about work, migration, place, and space.

**Recommended Preparation:** 8.0 FCE's

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGE321H1 - Multicultural Perspectives on Environmental Management

**Hours:** 24L

Diverse approaches to environmental issues in a variety of multicultural settings are introduced, compared and analyzed, using case studies. Perspectives on environmental management will be discussed as they emerge from contexts such as Latin America, Asia, or Africa.

**Prerequisite:** ENV221H1/ENV222H1/GGR222H1/GGR223H1

**Exclusion:** ENV321Y1

**Recommended Preparation:** 8.0 FCE's

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR321H1 - Indigenous Worlds, Worldviews and the Environment

**Hours:** 24L

Explores the diverse ways of understanding and responding to the world that emerge from indigenous cultures around the world. Examines how indigenous ways of being and relating to their natural environment can help us understand and address the current environmental crisis. Using examples of indigenous activism from Canada and around the world, examines how colonial histories shape dispossession and marginalization and inform visions for the future. Topics include traditional ecological knowledge, place-based social movements, environmental concerns of indigenous peoples, bio-cultural restoration and decolonization of nature-human relations.

**Exclusion:** JAG321H1

**Recommended Preparation:** 8.0 FCE's including 1.0 FCE in Geography and/or Aboriginal Studies (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR323H1 - Issues in Population Geography

**Hours:** 24L

Explores issues in the geographies of population at a variety of scales from global to local. Topics include an investigation of the mechanics of population growth, theories of population, population growth through time, migration, the impact of population growth on the environment and the social and economic consequences of population change.

**Exclusion:** GGR208H5

**Recommended Preparation:** 8.0 FCE's including GGR107H1, GGR124H1, GGR246H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JUG325H1 - Landscapes of Violence in Canada

**Hours:** 24L

This course examines how violence is enacted in Canada, at various scales, and across domestic, urban, national, and international landscapes. We will interrogate what is meant by violence; examine its colonial, racial and patriarchal dimensions; explore the impact on people and communities; and attend to forms of resistance and repair.

**Recommended Preparation:** CDN267H1, CDN268H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR326H1 - Remaking the Global Economy

Hours: 24L

Examines links between global economic integration and geographically uneven economic development. Focuses on debates and empirical studies on global production networks (GPNs), and associated issues such as offshoring, outsourcing, and upgrading. Blends analysis of both theory and practice of business firms and regional development. Seeks to develop an in-depth understanding of the key actors driving contemporary global economic transformation, within the 'transnational space' constituted and structured by transnational firms, state institutions, and ideologies.

**Prerequisite:** 7.5 FCE's

**Exclusion:** GGR300H1 (2013-14)

**Recommended Preparation:** GGR112H1/GGR220H1/GGR221H1/GGR251H1, 1.0 FCE in Geography (SOC SCI/BR=3) at the 200+ level

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR327H1 - Geography and Gender

Hours: 24L

Introduction to the work of feminist geographers. The course will explore the relationship between gender and space, emphasizing spatial cognition, architecture, and layout of the city.

**Recommended Preparation:** 8.0 FCE's including 1.0 FCE in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR328H1 - Labour Geographies

Hours: 24L

Explores changes in the nature of work and the structure and geography of labour markets. Topics will include globalization, lean production, flexibility and risk, industrial relations, workfare, the body at work, and gender and work.

**Prerequisite:** 7.5 FCE's including 1.0 FCE in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR329H1 - The Global Food System

Hours: 24L

Explores the changing global geographies of food by tracing international movements of food through both mainstream and 'alternative' supply chains. The implications for sustainability, food security, community autonomy and health are investigated.

**Recommended Preparation:** 8.0 FCE's including 1.0 FCE in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGE331H1 - Resource and Environmental Theory (formerly GGR331H1)

Hours: 24L

Introduction to and critical evaluation of major ideas and conceptual traditions underpinning environmental and natural resource politics and regulation. Topics include: parks and protected areas, market-based environmental regulation, property rights and conservation, Malthusianism, and biodiversity conservation. Emphasis is placed on critical reading of primary texts.

**Prerequisite:** GGR100H1/JEG100H1/GGR107H1/ENV221H1/ENV222H1/GGR222H1/GGR223H1

**Exclusion:** GGR331H1

**Recommended Preparation:** 8.0 FCE's

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR334H1 - Water Resource Management

Hours: 24L

Managing demand and supply; linkages between water quality and human health. Case studies from the industrial world and from developing countries, rural and urban. Implications of population growth and climate change for water resource management.

**Recommended Preparation:** 8.0 FCE's including one of JEG100H1/GGR100H1, GGR107H1, GGR223H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR336H1 - Urban Historical Geography of North America

Hours: 24L

This course explores the emergence and reproduction of class and racial social spaces, the development of new economic spaces, and the growing importance of the reform and planning movements. Emphasis is on metropolitan development between 1850 and 1950.

**Recommended Preparation:** 8.0 FCE's including one of GGR124H1, GGR241H1, GGR254H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR337H1 - Environmental Remote Sensing

Hours: 24L/24P

Principles of optical, active and passive microwave remote sensing; satellite orbit and sensor characteristics; image processing and analysis techniques and software; and environmental remote sensing applications.

**Recommended Preparation:** JEG100H1/GGR100H1, GGR272H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR338H1 - Environmental Issues in the Global South

Hours: 24L

Describes and analyses a range of key environmental issues in the context of the Global South. Topics covered include: air quality and water supply, solid waste management, impacts of and responses to environmental change. Considers factors that influence distribution of environmental costs and benefits in geographic and historical terms. Also examines technologies and policy paradigms that have framed and sought to address environmental issues in the Global South.

**Recommended Preparation:** 8.0 FCE's including one of GGR107H1, GGR223H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR339H1 - Urban Geography, Planning and Political Processes

Hours: 24L

Investigates North American urban political geography, exploring conflicts over immigration, environment, gentrification, homelessness, labour market restructuring, race and racism, urban sprawl, nature and environment, gender, sexuality, security, and segregation. Explores competing visions of city life and claims on urban space. The course investigates how these struggles connect to economic, social and environmental politics at larger spatial scales, and considers different theoretical frameworks that geographers have developed to make sense of both the persistence of old problems and the emergence of new ones.

**Recommended Preparation:** 8.0 FCE's including GGR124H1, GGR246H1/GGR254H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR340H1 - Health Geography

Hours: 24L

An exploration of the aspects of health in which place or location matters. Particular attention will be paid to the role of environments (physical, social, etc.) in explaining differences in health between places, the structuring of health-related behaviour in place, and the development of health policy for places.

**Prerequisite:** 2 of GGR270H1, GGR271H1 or GGR272H1

**Exclusion:** GGR330H1, GGR450H1, GGR451H1

**Recommended Preparation:** 8.0 FCE's including one of GGR222H1/GGR223H1 or ENV236H1/JGE236H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR341H1 - Changing Geography of Latin America

Hours: 24L

Seeks to develop a general understanding of present-day Latin America by focusing on human-environment interactions, past and present. Case studies are used to understand the diversity of Latin American landscapes (physical and cultural), and how they are changing within the context of globalization.

**Exclusion:** GGR249H

**Recommended Preparation:** 8.0 FCE's including 1.0 in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR342H1 - The Changing Geography of Southeast Asia

Hours: 24L

Examines changes in the social, political and economic geography of Southeast Asian countries. Examples drawn from Thailand, Singapore, Indonesia, Vietnam and the Philippines as these emerging newly industrialized countries enter the 21st century. Emphasis on political-economy, urbanization and environment since 1950.

**Recommended Preparation:** 8.0 FCE's including 1.0 FCE in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR343H1 - The Changing Geography of China

Hours: 36L

The evolving social, political and economic landscape of China. Focus on development strategies and their effects on agriculture, industry, urbanization, city planning and the environment since 1949. Special attention paid to the interconnected development trajectories shaping urban and rural areas, together with the complex interactions between the built and social environments.

**Prerequisite:** 8.0 FCEs

**Recommended Preparation:** 1.0 FCE in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGI346H1 - The Urban Planning Process

Hours: 24L

Overview of how planning tools and practice shape the built form of cities. This course introduces twentieth century physical planning within its historical, social, legal, and political contexts. Community and urban design issues are addressed at local and regional scales and in both central cities and suburbs. The focus is on Toronto and the Canadian experience, with comparative examples from other countries, primarily the United States.

**Recommended Preparation:** 8.0 FCE's including GGR124H1, INI235Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR347H1 - Efficient Use of Energy (formerly JGE347H1)

Hours: 24L/6T

Examines the options available for dramatically reducing our use of primary energy with no reduction in meaningful energy services, through more efficient use of energy at the scale of energy-using devices and of entire energy systems. Topics covered include energy use in buildings, transportation, industry, and agriculture. **Offered alternate years from GGR348H1.**

**Prerequisite:** Physics SPH3U

**Exclusion:** GGR333H1, JGE347H1

**Recommended Preparation:** 8.0 FCE's including first year Math and/or Physics

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR348H1 - Carbon-Free Energy (formerly JGE348H1)

Hours: 24L/6T

Examines the options available for providing energy from carbon-free energy sources: solar, wind, biomass, nuclear, and fossil fuels with capture and sequestration of CO<sub>2</sub>. The hydrogen economy is also discussed. **Offered alternate years from GGR347H1.**

**Prerequisite:** Physics SPH3U

**Exclusion:** GGR333H1, JGE348H1

**Recommended Preparation:** 8.0 FCE's including first year Math and/or Physics

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR352H1 - Understanding Spatiality

Hours: 24L

Investigates the changing nature of space and our thinking about it, introducing students to a wide range of contemporary geographers and spatial theorists such as Lefebvre, Soja, Gregory, Harvey, Massey and others as well as challenges to this thinking - voices from the margins or peripheries. It will explore changing conceptions of spatiality that inform geographic thought and that help us understand the ways in which political, economic and social power is constituted and contested at a range of spatial scales.

**Recommended Preparation:** 8.0 FCE's including 1.0 FCE in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR356H1 - Recreation and Tourism

Hours: 24L

Explores recreation, tourism and leisure from local and global perspectives, including the social and environmental costs and benefits. Connects tourism and recreation to core geographical concepts related to globalization, mobility, planning, construction of place and identity, landscapes of consumption, and the environment.

**Exclusion:** GGR256H1

**Recommended Preparation:** 8.0 FCE's including GGR107H1, GGR124H1, GGR221H1, GGR246H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR357H1 - Housing and Community Development

Hours: 24L

Focuses on the importance of adequate housing and quality neighbourhoods. It roots theoretical explanations and policy debates in realities using Canada and Toronto as examples. Topics covered include the evolution of public policies relating to social housing, rental housing, homeownership, neighborhoods, and homelessness.

**Recommended Preparation:** Completion of 8.0 FCE's including GGR124H1 and 1.0 FCE in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR359H1 - Comparative Urban Policy

Hours: 24L

This course considers urban public policy. Urban policy is not natural or inevitable response to urban problems. It is actively produced (and contested) by an array of voices, institutions, and social forces. Actualized urban policies are thus best understood and evaluated as products of these influences. The first half of the course will cover broad theoretical matters pertaining to the production of urban policy. The second half of the course will focus more intensively on one problem urban decline and explore the actualized approaches that have been brought to bear to manage it.

**Prerequisite:** 7.5 FCE's including 1.0 FCE in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR360H1 - Culture, History, and Landscape

Hours: 24L

The history of approaches to the idea of landscape. A consideration of the origins and uses of the term in geographical inquiry will be followed by a series of case studies, global in scope, from the Early Modern period to the present. Emphasis will be placed on the representational and lived aspects of landscapes, as well as struggles over their definition, interpretation, and use.

**Recommended Preparation:** 8.0 FCE's including 1.0 FCE in Geography (HUM/BR=1 or SOC SCI/BR=3)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GGR363H1 - Critical Geographies: An Introduction to Radical Ideas on Space, Society and Culture

Hours: 36L

Introduces a diversity of critical perspectives for geographers and others, including anarchism, Marxism, feminism, sexual politics, postcolonialism, anti-imperialism and anti-racism. In so doing it illustrates how such radical ideas about space, society and culture have contributed to our political thought and action.

**Recommended Preparation:** 8.0 FCE's including 1.0 FCE in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR372H1 - GIS for Public Health

Hours: 24L/12P

The goal of this course is to leave students with appreciation of the power of Geographic Information Systems (GIS) to explore and analyze spatial health and medical data. The course will focus on organizing health data in a GIS, clustering detection methods, and basic spatial statistics. Other topics like agent-based models and visualization techniques will be touched upon. Lab work will provide hands on experience with example data, leaving students with a firm grasp of contemporary health and medical problems and a skill set of spatial analytical methods that can be used to solve them.

**Prerequisite:** 8.0 FCEs

**Exclusion:** GGR300H1(2015-2016), GGR335H5

**Recommended Preparation:** GGR270H1, GGR272H1

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR373H1 - Advanced Geographic Information Systems

**Hours:** 24L/24P

Advanced theory, techniques, and applications in geographic information systems (GIS), including interpolation, geostatistics, modeling, and raster and vector analysis. GIS project design and implementation.

**Prerequisite:** GGR273H1

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR374H1 - Urban Dynamics

**Hours:** 24L

This course will focus on the social and economic repercussions associated with the formation and evolution of polynuclear urban regions in response to global economic restructuring. Foci will include the importance of knowledge and innovation in the process of economic development, social and economic polarization at multiple spatial scales, planning interventions to address these polarities, and strategies and tactics in the promotion of more sustainable urban-centred regional economies.

**Recommended Preparation:** 8.0 FCE's including 2.0 FCE's in Geography (SOC SCI/BR=3). A statistics course (GGR270H1 or other) would be an asset.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR382H1 - Field Course in Human Geography

**Hours:** TBA

Introduction to field studies in human geography. The course includes exercises and a project during a one-week field study in late August or early September, some preparation during the preceding summer and complementary practical work and/or seminars during the Fall Term. Each student is required to pay the costs of their transportation and accommodation. Students must register with the department in the spring. Course is limited by size. Preference given to Geography SPE/MAJ/MIN. Applications open to all students. Not eligible for CR/NCR option.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** 8.0 FCE's

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR390H1 - Field Methods

**Hours:** TBA

Introduction to field methods in geomorphology, vegetation mapping/analysis, soils, hydrology, and climatology. The course includes exercises and a project during a one-week field camp, a little preparation during the preceding summer, and complementary practical work and/or seminars during the Fall Term. Each student is required to pay the costs of their transportation and accommodation. This course meets the field requirement for Physical & Environmental Geography programs. The field camp normally runs for one week at the end of August/early September. Students must register with the Department by April. Consult with the department in case of conflict or concerns. Course may be limited by size. Not eligible for CR/NCR option.

**Prerequisite:** 1.0 from JEG100H1/GGR100H1, GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR305H1, ESS102H1, ENV234H1

**Recommended Preparation:** 8.0 FCE's including GGR270H1

**Distribution Requirements:** Science

## GGR398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## GGR399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## GGR400H1 - Special Topics in Geography I

**Hours:** 24S

Content in any given year depends on instructor. The program in which this course can be used depends on its context. Consult Departmental Office in April.

**Prerequisite:** 10.0 FCE's

**Recommended Preparation:** 2.0 FCE's in GGR (HUM/BR=1 or SOC SCI/BR=3)

**Distribution Requirements:** Social Science

## GGR401H1 - Special Topics in Geography II

**Hours:** TBA

Content in any given year depends on instructor. The program in which this course can be used depends on its context. Consult Departmental Office in April.

**Prerequisite:** 10.0 FCE's

**Recommended Preparation:** 2.0 FCE's (science) in any of GGR/ESS/BIO/CHM/EEB/FOR

**Distribution Requirements:** Science

## GGR405H1 - Sustainable Systems for Natural Resources Management

**Hours:** 24S

This seminar examines the scientific foundations of sustainable natural resource management. Will consider frameworks to assess management and production systems for renewable natural resource and energy development in relation to specific landscapes. Constraints and opportunities to achieving sustainability objectives in different systems will be examined through theoretical and case study evaluations drawn from research literatures. Seminar and self-directed inquiry through individual and team projects.

**Prerequisite:** 10.0 FCE's

**Exclusion:** GGR401H1 (2012-13)

**Recommended Preparation:** 2.0 FCE's (science) in any of GGR/BIO/CHM/EEB/ESS/FOR

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## GGR413H1 - Watershed Hydroecology

**Hours:** 24L

Modern developments in hydrology and ecology, including form and process models, interactions of hydrology, ecology and geomorphology; the course emphasizes the use of computer simulation models of drainage basin processes.

**Prerequisite:** 10.0 FCE's

**Recommended Preparation:** GGR201H1, GGR206H1, GGR270H1, GGR272H1 or GGR337H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR414H1 - Advanced Remote Sensing

**Hours:** 18L/8T/4P/2S

Building on GGR337H1 Environmental Remote Sensing with advanced theories and techniques for land cover mapping, vegetation biophysical and biochemical parameter retrievals, optical and thermal remote sensing of urban environment, and application of satellite remote sensing to terrestrial water and carbon cycle estimation. Basic radiative transfer theories as applied to vegetation will be given in some detail as the basis for various remote sensing applications. Optical instruments for measuring vegetation structural parameters will be demonstrated in the field.

**Prerequisite:** 10 FCEs including GGR337H1

**Recommended Preparation:** GGR272H1, GGR273H1, GGR373H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR416H1 - Environmental Impact Assessment (formerly GGR393H1)

**Hours:** 24L/4T

Environmental impact assessment (EIA) as a mechanism for avoiding or mediating the potential costs of development. The course focuses on the theory and practice of EIA in Canada in general and Ontario in particular. Using a broad definition of environment, various components of EIA are addressed, with an emphasis on principles, legal and institutional frameworks, stages in the process, and specific analytical techniques.

**Prerequisite:** 10.0 FCE's, 2.0 FCE's in Geography including GGR270H1, GGR271H1

**Exclusion:** GGR393H1

**Recommended Preparation:** One of GGR222H1/GGR223H1 or ENV236H1/JGE236H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR418H1 - Political Economy of Natural Resources

**Hours:** 24S

Examines political aspects of the appropriation of natural resources, including policy and regulation, environmental impacts, and social justice. Emphasis is placed on reading contemporary literature on the politics of resource access and control from geography and other social science disciplines.

**Prerequisite:** 10.0 FCE's including GGR223H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR419H1 - Environmental Justice

**Hours:** 24S

Examines how environmental problems affect people, communities and societies differentially and how marginalized communities and people often bear the brunt of environmental costs, while contributing little to their creation. It uses readings and case studies from across the globe to address the production of environmental injustice and the struggle for environmental justice.

**Prerequisite:** 10.0 FCE's

**Recommended Preparation:** 1.0 FCE in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR420H1 - Critical Development Geography

**Hours:** 24L

Examines the politics and processes shaping economic globalization and international development. The course will review a range of critical approaches to development, the historical geography of uneven development, and some emerging approaches to critical development studies. The course focuses on recent scholarly discussions about how to define international development and pays particular attention to the relationships between migration and development in theory and practice. It takes seriously the politics of difference (race, ethnicity, class, gender, nationality and sexuality) and inequality in the critical study of international development research and practice.

**Prerequisite:** 10.0 FCEs

**Recommended Preparation:** GGR112H1 or GGR124H1; GGR320H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR421H1 - Histories of Geographical Thought

**Hours:** 24S

The history of geography as an intellectual subject, focusing primarily on the modern period, and on the genealogies of central concepts. Disciplinary developments will be situated next to broader contexts, including imperialism and militarism, the relationship between culture and nature, and the shifting social role of the academy.

**Prerequisite:** 10.0 FCE's

**Recommended Preparation:** 2.0 FCE's in Geography (HUM/BR=1 or SOC SCI/BR=3)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## GGR424H1 - Transportation Geography and Planning (formerly GGR324H1)

**Hours:** 24L

Introductory overview of major issues in interurban and intraurban transportation at the local, national and international scale. Topics include urban transportation, land use patterns and the environment, causes of and cures for congestion, public transit, infrastructure finance, and transport planning and policy setting.

**Prerequisite:** 10.0 FCE's including one of GGR124H1/GGR220H1/GGR221H1

**Exclusion:** GGR324H1

**Recommended Preparation:** GGR270H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR430H1 - Geographies of Markets

**Hours:** 36S

Focuses on actually-existing markets and their geographically-mediated formation and assemblage. Explores how markets are produced, stabilized, reshaped and fall apart at multiple geographic scales. We examine issues such as the debates on states versus markets, embeddedness of markets, neoliberalism and moral justification of markets, varieties of capitalism, regionally variegated capitalism, post-socialist market transitions, and the dynamic evolution of market institutions and economic landscapes.

**Prerequisite:** 10.0 FCE's including at least 1.0 FCE in 300+ Geography (SOC SCI/BR=3)

**Exclusion:** GGR400H1(2013-14)

**Recommended Preparation:** GGR220H1/GGR221H1, GGR326H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR431H1 - Regional Dynamics

**Hours:** 24L

Economic activity, and related indices of socioeconomic well-being and human capital, have always tended to concentrate in space, leaving specific regions to be classified as "creative", "developed", or "core" regions and others as "have-not", "less-developed", "peripheral", or "marginal" regions. As a result, regional economic change has been very difficult to fully explain (and certainly predict) using conventional (orthodox) theories and methods. This course examines the theoretical linkage between related trends in terms of globalization, vertical disintegration, specialization, innovation, and the locational behaviour of firms. We will focus on the seemingly counter-intuitive finding that regional economic change in a time of increasing global interdependence is increasingly dependent on the local context. Topics will include evolutionary economic geography, path dependence, economic clusters, learning regions, the role of institutions, knowledge spill-overs, and the geography of innovation, among others. We will see why the economic activity is becoming ever more concentrated in space even as it globalizes. The course makes extensive use of empirical case studies from around the globe.

**Prerequisite:** 10.0 FCE's including GGR221H1 or GGR251H1  
**Recommended Preparation:** GGR326H1, GGR270H1. A statistics course (GGR270H1 or other) would be an asset.  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR433H1 - Built Environment and Health

**Hours:** 36S

Linking across fields that include public health, geography and planning, this course examines the growing evidence and ways in which human health is affected by the design and development of the built environment in which we live, work and play. The course considers how various planning and development decisions impact population and individual health, particularly in relation to chronic diseases, injuries, and mental health.

**Prerequisite:** 10.0 FCE's  
**Exclusion:** GGR400H1 (2012-13)  
**Recommended Preparation:** 1.0 FCE in Geography (SOC SCI/BR=3)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR434H1 - Building Community Resilience

**Hours:** 36S

Examines concepts of resilience as a way of building the capacity of communities to (a) respond to predicted disruptions/shocks associated with climate change, global pandemics, anticipated disruptions in global food supply, energy insecurity, and environmental degradation; and (b) nurture the development of alternative spaces that support the emergence of more life-sustaining structures and practices. Includes explicit attention to equity and public health, and explores issues such as: participatory governance of social-ecological systems, the nature of social change, complexity science, the role of social movements, indigenous and political ecology perspectives.

**Prerequisite:** 10 FCEs  
**Exclusion:** GGR400H1 (2011-12)  
**Recommended Preparation:** 1.0 FCEs in Geography  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR438H1 - Environment and Development

**Hours:** 36S

Examines the implications of development - as an economic and social project - for how the environment is used, by whom, and to what ends. Draws on literatures in political ecology and critical development geography. Topics include: interpretations of scarcity and degradation, questions of consumption, and the greening of development. Examines expansion of and struggles over new forms of green infrastructure in urban and rural settings.

**Prerequisite:** 10 FCE's  
**Recommended Preparation:** 1.0 FCE in Geography (SOC SCI/BR=3)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR439H1 - Global Political Geography

**Hours:** 36S

Introduction to geopolitical theories. Emphasis on the development of the nation state, theories of land claims and the territorial manifestations of nationalism. Will examine recent theoretical as well as empirical challenges to many of the conventional geopolitical assumptions about scale, space, and power in global politics. Please note that this course is open to students who have taken GGR239H1 (formerly Global Political Geography).

**Prerequisite:** 10.0 FCE's  
**Recommended Preparation:** 1.0 FCE in Geography (SOC SCI/BR=3)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **GGR452H1 - Space, Power, Geography: Understanding Spatiality**

**Hours:** 24S

Our understanding of space and power has shifted radically in the past half century. Space no longer implies only regions, nations or territory; power is not simply a question of domination, control, or forms of political representation. Space and power are intricately related. This course explores a shift in our ways of thinking about space and power, focusing specifically on the works of Michel Foucault and Gilles Deleuze. Through the works of Deleuze and Foucault, students are introduced to a variety of ways that space and power are organized and contested. The course begins with the maps in our heads: what kinds of spatial systems organize dominant world-views, how have these changed over time? What spatial metaphors do we use to think about power - as hidden and operating at a depth, or as a surface effect? How does the social organization of space figure in the development of different technologies and techniques of power? How do technologies of power become organized, serialized, dispersed, transformed and contested?

**Prerequisite:** 10.0 FCE's including at least one (or an equivalent) of GGR327H1, GGR328H1, GGR339H1, GGR352H1, GGR360H1, GGR363H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **JGI454H1 - The Role of the Planner: Making a Difference**

**Hours:** 24L

Focuses on the role of a planning practitioner in contemporary society using a wealth of examples drawn from recent issues and debates in Canadian cities and regions. The course will walk students through the demands made of planners in terms of both technical expertise as well as political necessity and ask them to think actively about how to prepare for the extraordinary growth of cities during the next century. Examples of issues that will be discussed in some detail include the myths surrounding the city vs. the suburbs, the creativity and passion involved in planning work and the need to see Toronto's future from a regional perspective.

**Prerequisite:** 14.5 FCEs, 5.0 of which must be GGR/INI Urban Studies

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **GGR457H1 - The Post-War Suburbs**

**Hours:** 24L

Investigates post-war suburbs, beginning with an examination of their competing contemporary meanings. It considers images of prosperous private enclaves, of declining and difficult to access places, of racialized and segregated areas, of banality and homogeneity, of precarity and polarization, and of creative social struggles. It assesses these different visions through an analysis of urban growth and change since WWII. The course will focus on themes of public and private space; class, race and segregation; gender and suburban space; immigration; urban sprawl, and the changing social and economic geography of the suburbs. It examines North American areas, with examples from Australia and Europe.

**Prerequisite:** 10 FCEs

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **GGR458H1 - Selected Topics in Urban Geography**

**Hours:** 24L

This course focuses on original works that have been influential to the field of urban geography. The first third of the course consists of extensive reading and discussion of pre-selected "classical" urban pieces. The second third consists of student-led reviews of important urban books. The final third consists of student-led projects devoted to a particular theme (announced on the first day of class). It is designed for students who have taken urban courses in the past who are interested in extending this interest in a non-textbook, more interactive environment.

**Prerequisite:** 10.0 FCE's

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **GGR462H1 - GIS Research Project**

**Hours:** TBA

Students work in groups to develop their own research project and then acquire, organize and analyze geographic data to complete it. Emphasis is placed on research design, project management and the application of GIS concepts and skills learned in previous courses to a practical problem.

**Prerequisite:** GGR373H1

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JFG470H1 - Forest Management

**Hours:** 24L

Application of operational research and information technology to develop decision support systems for forest land management planning. Basic principles of mathematical programming, simulation and decision analysis, and their application to planning for forest conservation and sustainable development, policy analysis and other land management planning problems.

**Prerequisite:** One course in quantitative methods or linear algebra  
**Recommended Preparation:** ECO220Y1, ECO227Y1, GGR270H1, MAT133Y1, MAT223H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR472H1 - Developing Web Maps

**Hours:** 24L

Explores the power of web mapping and CyberGIS, with a focus on hands-on learning and open source software. Students will learn about relevant software (exploring various APIs), data structures, methods, and cartographic and visualization techniques. Finally, students will work in groups to develop and deliver their own online web maps from scratch, on a topic of their choosing.

**Prerequisite:** 10.0 FCEs including GGR272H1 and GGR273H1  
**Exclusion:** GGR400H1 (2015-2016)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR473H1 - Cartographic Design

**Hours:** 12L/24P

Design and production of maps using GIS cartographic and graphics software packages. Map perception and map use, principles and elements of cartographic design, data acquisition and manipulation, production and reproduction of maps and atlases. Practical exercises culminate in a major project in thematic map design.

**Prerequisite:** 10.0 FCE's including GGR272H1, GGR273H1, GGR373H1  
**Exclusion:** GGR380H5  
**Distribution Requirements:** Social Science

## JFG475H1 - Forest Fire Management Systems

**Hours:** 24L

Use of operational research and information technology to develop mathematical models and decision support systems to design and evaluate the performance of forest fire and other emergency response systems. Forest fire management systems are used to illustrate the basic principles of emergency response system planning that can also be applied to urban fire, police and ambulance services.

**Prerequisite:** One course in quantitative methods or calculus  
**Recommended Preparation:** ECO220Y1, ECO227Y1, GGR270H1, MAT133Y1, MAT137Y1  
**Distribution Requirements:** Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR481H1 - Field Course in Environmental Geography

Introduction to field studies in environmental geography. The course may include individual assignments and group work. Field trips are concentrated during a one-week period in late August or early September. Some preparation during the preceding summer may be required. Periodic course meetings and shorter field trips continue, along with course work, during the Fall Term. Each student is required to pay the costs of their transportation and accommodation. Students must register with the Department by April. Course may be limited by size. Not eligible for CR/NCR option.

**Prerequisite:** Permission of instructor  
**Exclusion:** GGR381H1  
**Recommended Preparation:** 10.0 FCE's including 3.0 FCE's in Geography (SOC SCI/BR=3)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR482H1 - Toronto Field Course

**Hours:** TBA

Examines the production of urban landscapes, built environments and social spaces in Toronto and surrounding areas through in-depth case studies. Coverage will vary some depending on instructor. The course consists of local field trips and in-class seminars and lectures. Students must apply with the Department. Contact the Department in January for deadlines. Course is limited by size. Preference given to Geography SPE/MAJ/MIN. Applications open to all students. Not eligible for CR/NCR option.

**Prerequisite:** 10.0 FCE's  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR491Y1 - Research Project

**Hours:** TBA

Specially designed for students wishing to gain experience in conducting research in their area of specialization. Of particular value for geographers interested in graduate study, or positions in government, planning and consulting firms where research skills may be an asset. Students select a research problem and complete a project under the supervision of a faculty member. Enrolment requires written permission from a faculty supervisor and Associate Chair, Undergraduate; early discussion with a likely supervisor is encouraged. Enrolment may be completed at any time up to September; open to students in a Specialist or Major Program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Prerequisite:** 10 FCEs

**Distribution Requirements:** Social Science

## GGR492H1 - Senior Practicum

**Hours:** TBA

Students design and implement an independent applied geography/planning project in consultation with an employer (paid or volunteer), who will act as their "client". Enrolment requires written permission from a staff supervisor and Associate Chair, Undergraduate. Only open to students who are enrolled in a Specialist or Major program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## GGR492Y1 - Senior Practicum

**Hours:** TBA

Students design and implement an independent applied geography/planning/GIS project in consultation with an employer (paid or volunteer), who will act as their client. Enrolment required written permission from a staff supervisor and Associate Chair, Undergraduate. Only open to students who have completed 10 FCEs and who are enrolled in a Specialist, Major or GIS minor program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## GGR493Y1 - Geography Professional Exper

**Hours:** TBA

Undertake professional placement matching academic interests and career goals. Students meet regularly during the year in class to cover topics such as: reflective writing, project management, career planning, and the application of academic skills in professional contexts. Research project required that connects a topic related to placement with academic literatures. Normally, one day per week spent at placement site. For students in their final year of a Geography major or specialist program of study, or the GIS Minor. Space limited. Applications are reviewed in early spring. Not eligible for CR/NCR option.

**Prerequisite:** 14.5 FCEs; must be enrolled in a GGR Major or Specialist, or GIS Minor; permission of instructor.

## GGR497H1 - Independent Research

**Hours:** TBA

Independent research extension to one of the courses already completed in Environmental Geography. Enrolment requires written permission from a faculty supervisor and Associate Chair, Undergraduate. Only open to students who have completed 10 FCE's and who are enrolled in a Specialist or Major program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Prerequisite:** 10.0 FCE's

**Distribution Requirements:** Social Science

## GGR498H1 - Independent Research

**Hours:** TBA

Independent research extension to one of the courses already completed in Physical Geography. Enrolment requires written permission from a faculty supervisor and Associate Chair, Undergraduate. Only open to students who have completed 10 FCEs and who are enrolled in a Specialist or Major program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Prerequisite:** 10.0 FCE's

**Distribution Requirements:** Science

## GGR499H1 - Independent Research

**Hours:** TBA

Independent research extension to one of the courses already completed in a social science or humanities branch of Geography. Enrolment requires written permission from a faculty supervisor and Associate Chair, Undergraduate. Only open to students who have completed 10 FCEs and who are enrolled in a Specialist or Major program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Prerequisite:** 10.0 FCE's

**Distribution Requirements:** Humanities; Social Science

## National University of Singapore Courses

### NUS250H0 - Cities in Transition

**Hours:** TBA

This module is concerned with the changing roles of cities in an age of globalization. The first part examines cities as part of urban networks at the national, regional and international levels, and focuses on the implications arising from the rise of mega-cities and global cities. The second half of the module investigates the challenges facing cities on the ground, including issues of the revitalization and re-imaging of city cores, changing retail landscapes, and the impact of telecommunications on the location of urban activities and peoples' mobility. The module is targeted at students with an interest in urban issues. (Co-listed as GE2204 National University of Singapore)

**Recommended Preparation:** 4.0 FCEs

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## NUS251H0 - Southeast Asia

**Hours:** TBA

This module deals with a multi-disciplinary approach to understanding the regional geography of Southeast Asia. Students are expected not only to critically analyze their readings but also to be able to synthesize materials to provide a holistic understanding of the region. Specifically, it looks at the region through historical, cultural, social and political-economic perspectives. The module also discusses sustainable development issues. This is a module that is open to all students in the Faculty of Arts & Social Sciences, Engineering, Law, Science, School of Design & Environment and School of Business. (Co-listed as GE2226 National University of Singapore)

**Exclusion:** GGR342H1

**Recommended Preparation:** 4.0 FCEs

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### NUS252H0 - Rice, Spice & Trees: Peasants in Southeast Asia

**Hours:** TBA

Southeast Asia has been, and still is comprised of predominantly rural and agrarian societies. This module seeks to develop an understanding of peasant life in the region. Topics to be studied include the village as a construct, the moral economy of the peasantry, land and man relations, economic output, and peasant beliefs, consciousness, and cultural expressions. With the peasants increasing involvement in the world market and the nation-state, it is also important to consider the penetration of capitalism into the rural economy, as well as the demand for supra-village identification and loyalties. Notions of development as they pertain to the peasants, and as postulated by the state, non-governmental organizations and the peasants themselves are also discussed. (Co-listed as SE3213 National University of Singapore)

**Recommended Preparation:** 4.0 FCEs

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## NUS253H0 - Economy and Space

**Hours:** TBA

This module examines relationships between economy and space through a focus on 'development'. Through interrogating theories, strategies and trajectories of 'development', students will develop an understanding of the past and contemporary global political economy and its geographies. The course will emphasize the geopolitical and cultural backdrops to 'development' and attendant economic geographies amidst debates about 'globalization', international trade and investment. (Co-listed as GE2202 National University of Singapore)

**Recommended Preparation:** 4.0 FCEs

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## NUS254H0 - Geographies of Social Life

**Hours:** TBA

This module explores debates in geography about social issues. It emphasizes the relationship between social identity and social space, and how different places reflect and shape diverse ways of life. The module examines the role of space in the interplay of different social groups (e.g. ethnic groups, men/women), and in relation to different aspects of daily life (e.g. housing, leisure). Its emphasis, however, is on how to think about these issues in different scales/contexts (streets, public spaces, global cities). The course is intended for geography majors, and students throughout NUS with an interest in the relationship between society and space. (Co-listed as SE2224 National University of Singapore)

**Recommended Preparation:** 4.0 FCEs

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## NUS255H0 - Cities and Urban Life in Southeast Asia

**Hours:** TBA

Are Southeast Asian urban models unique from those of the West? This module uses historical and emerging developments to re-evaluate debates on Southeast Asian urbanization. The particularities of Southeast Asian urbanisation will be examined both in terms of its intertwined history with the rest of the world as well as the politics of time and space. The module aims at developing a critical understanding of the interaction between historical, political-economic and cultural processes that constitute urbanization in Southeast Asia. (Co-listed as SE2212 National University of Singapore)

**Recommended Preparation:** 4.0 FCEs

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## NUS256H0 - Changing Landscape of Singapore

**Hours:** TBA

This module attempts to understand the rationale of changes in Singapore's urban landscape. It places these changes within a framework that considers Singapore's efforts to globalize and examines how policies are formulated with the idea of sustaining an economy that has integral links sub-regionally with Southeast Asia while developing new spatial linkages that will strengthen its position in the global network. Emphasis is also given to recent discussions about how diversity and difference in the perception and use of space pose a challenge to the utilitarian and functional definition adopted by the state. (Co-listed as GEK2001/SSA2202 National University of Singapore)

**Recommended Preparation:** 4.0 FCEs

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## NUS350H0 - Natural Resources: Policy and Practice

**Hours:** TBA

This module examines important geographical, ecological and political concepts and approaches to natural resources management. In particular, we focus on ownership regimes, access, exploitation and conservation in different social, economic and cultural contexts. Detailed cases of fisheries, forestry, freshwater and agriculture conflicts and problems are discussed. (Co-listed as GE3210 National University of Singapore)

**Recommended Preparation:** 4.0 FCEs

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **NUS351Y0 - Field Studies in Geography: SE Asia**

**Hours:** TBA

The module exposes students to different geographical methods, both human and physical, and as such it is an ideal preparation for any student wishing to undertake further primary research at higher levels in geography, and other social science disciplines. After a series of lectures/seminars on fieldwork methods, fieldwork ethics, and health and safety issues in the field (which may include some basic introductory language classes), students then undertake a 2-5 week period of field study overseas, depending on logistical and other constraints. Previous field studies have been for periods of 4-5 weeks overseas in Thailand and Malaysia. While overseas, students undergo orientation workshops, meet peers in host universities, and visit potential field sites before conducting an intensive period of fieldwork in small groups of 3-5 students. (Co-listed as GE3230A at the National University of Singapore)

**Recommended Preparation:** 4.0 FCEs  
**Distribution Requirements:** Social Science

## **NUS352H0 - East Asia**

**Hours:** TBA

This module examines aspects of the geography of East Asia, which includes China, Hong Kong, Taiwan, Japan and Korea. Emphasis is placed on the developmental processes and the underlying physical, political, socio-cultural and economic factors that account for their development. It evaluates various discourses on East Asian development and also assesses the impact of East Asian development on regional conflicts, patterns of social change, urbanization and sub-regional integration. (Co-listed as GE3209 at the National University of Singapore)

**Recommended Preparation:** 4.0 FCEs  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **NUS353H0 - Globalization and Asian Cities**

**Hours:** TBA

This module aims to provide students with an in-depth understanding of the social, political, and economic changes at various geographical scales with respect to globalization. More specifically, the module focuses on developing understandings of the complex forces driving globalization and the related urban and regional changes and the relationship between globalization and regionalization. This module is not just for geography students, but for all students who are interested in the urban and regional changes in the Asia-Pacific with respect to globalization and regionalization and the driving forces of the changes. (Co-listed as GE3219 at the National University of Singapore)

**Recommended Preparation:** 4.0 FCEs  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **NUS354H0 - South Asia: Development, Issues, Debates**

**Hours:** TBA

This module is concerned with understanding and assessing the development experiences of the South Asian countries. Students are expected to grapple with concrete case studies of development programs in their work. The coursework covers issues pertaining to rural, agricultural, urban, industrial and human development, as well as their impact upon people and the environment. Particular attention is given to the situation of the poor and the weak, including disadvantaged children, women, and ethnic minorities. (Co-listed as SN3232 at the National University of Singapore)

**Recommended Preparation:** 4.0 FCEs  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## Introduction

German-speaking countries enjoy a long tradition at the cultural and political core of Europe. During the last two hundred years their importance has steadily increased, and with the recent developments in Eastern Europe their influence seems certain to expand even more.

The importance of the German language has grown correspondingly: it is the second foreign language after English in the countries of central and Eastern Europe, and its use is spreading within the European Community. Learning German opens the door to many fields of intellectual, technical and politico-economic endeavor. German scholars have been leaders in philosophy, the sciences, history, archaeology, sociology and political science. German literature is equally distinguished: writers like Goethe, Kafka, Rilke, Brecht, Mann, Wolf, Grass, Jelinek, Özdamar, etc., have dealt with the widest possible range of human problems and concerns, and have been recognized worldwide.

The Department of Germanic Languages and Literatures offers courses on literature from the Middle Ages to the present, so that the student may acquire an overview of this significant element of German life and culture. We offer language courses from beginning and intermediate to advanced levels, with practice in reading, writing, comprehending and speaking German, as well as stylistics, linguistics, and the specialized vocabulary and concepts of business.

Language and literature instruction is integrated as far as possible, with the aim of teaching students advanced critical literacy in German. The department offers a minor in Yiddish, with instruction offered from beginning and intermediate to advanced levels. German combines well with other modern languages and literatures, and double-majors are encouraged. Students in a variety of programs, such as Cinema Studies, European Studies, Literary Studies, Drama, Music and others, will benefit from courses in German language, literature and culture. The Department supports opportunities for students to study and work in Germany, by encouraging participation in programs established by the German government, by Canadian universities, and by our own Arts and Science Faculty's Study Elsewhere Program. One of these is the exchange program under which Toronto students can spend the academic year at the Humboldt University in Berlin.

A knowledge of German is a virtual necessity for specialists in many disciplines; it is also very useful in certain career areas (e.g., the foreign service, interpretation and translation, librarianship, business and commerce, music, tourism, and of course teaching). The successful completion of a four-year program, including seven approved courses in German, may entitle the student to enter the M.A. or Ph.D. program in the Graduate Division of the Department.

Students entering with some previous knowledge of German are required to contact the department to write an initial assessment test (placement test) and will then be advised to take courses at the appropriate level. Please check the department's web site at [www.german.utoronto.ca](http://www.german.utoronto.ca) for more information.

Information on studies in German Language and/or Literature can be obtained from the Associate Chair for Undergraduate Studies at [german.undergrad@utoronto.ca](mailto:german.undergrad@utoronto.ca).

## German Programs

### German Studies Specialist (Arts Program)

#### Completion Requirements:

(10 full courses or their equivalent)

1. [GER100Y1](#), [GER200Y1](#), [GER300Y1](#), [GER400H1](#)
2. [GER150H1](#) (to be taken within the first two years of studies) or [GER310H1](#)
3. [GER205H1](#), [GER305H1](#)
4. At least 3.5 additional F.C.E. in GER courses on the 300-level
5. At least 1.5 additional F.C.E. in GER courses on the 400-level
6. No more than 2 F.C.E. courses taught in English
7. Preapproved cognate courses may count toward the program

Please note: (a) GER150H1 must be taken within the first two years of study; (b) students must complete GER205H1 before taking ANY 300-level topic courses taught in German (i.e. typically in the second year, concurrently with GER200Y1); (c) students must complete GER305H1 before taking ANY 400-level topic courses taught in German; (d) 300-level courses may be replaced by 400-level courses (inquire in advance); (e) all specialists should schedule an appointment with the Undergraduate Coordinator for personalized counselling as early in their studies as possible.

## German Studies Major (Arts Program)

### Completion Requirements:

(7 full courses or their equivalent)

1. GER100Y1, GER200Y1, GER300Y1, GER400H1
2. GER150H1 (to be taken within the first two years of studies) or GER310H1
3. GER205H1, GER305H1
4. At least 1.5 additional F.C.E. in GER courses on the 300-level
5. At least 0.5 additional F.C.E. in GER courses on the 400-level
6. No more than 1.5 F.C.E. courses taught in English
7. Preapproved cognate courses may count toward the program

Please note: (a) GER150H1 must be taken within the first two years of study; (b) students must complete GER205H1 before taking ANY 300-level topic courses taught in German (i.e. typically in the second year, concurrently with GER200Y1); (c) students must complete GER305H1 before taking ANY 400-level topic courses taught in German; (d) 300-level courses may be replaced by 400-level courses (inquire in advance); (e) all majors should schedule an appointment with the Undergraduate Coordinator for personalized counselling as early in their studies as possible.

## Al and Malka Green Yiddish Program Minor (Arts Program)

### Completion Requirements:

(4 full courses or their equivalent)

1. GER260Y1, GER360H1, OR GER463Y1\* (instead of GER260 and GER360)
2. GER462H1
3. The remaining courses should be taken from  
361H1  
362H1  
367H1  
100Y1  
150H1  
or any course offered by and crosslisted by the Centre for Jewish Studies

\*NOTE: Students who took GER 463Y cannot take GER260Y or GER360H. Students who took GER260Y or GER360H cannot take GER463Y.

## Business German Minor (Arts Program)

### Completion Requirements:

(4 full GER courses or their equivalent)

This Minor Program requires 4 full courses from the Department of German.

1. GER100Y1/GER200Y1, OR proof of comparable German level
2. GER270H1, GER272H1, GER370H1, GER372H1 are mandatory
3. the remainder of the courses or equivalent must have a GER designator OR must be a pre-approved cognate course.

Note: Students enrolled in the German Studies Specialist of Major Program may not simultaneously enroll for a Business German Minor Program.

## German Studies Minor (Arts Program)

### Completion Requirements:

(4 full courses or their equivalent)

1. GER100Y1, GER200Y1, GER300Y1
2. The remainder of the four courses or equivalent must have a GER designator, but cannot be GER400
3. No more than 0.5 F.C.E. may be taken in English

Note: Students registered for a German Specialist or Major may not simultaneously be registered for a German Minor program.

## German Studies in English (Arts Program)

### Completion Requirements:

#### Requirements:

1. The Minor Program requires 4 full courses (FCE), three of which have to have a GER denominator;
2. GER150H1 is required;
3. A maximum of 1.0 FCE in cognate courses is allowed (i.e. courses offered by other departments containing a relevant Germanic component and a final paper on a Germanic topic); please inquire at the Department and get approved in advance.

For a list of courses taught in English, please check the German Department website.

Note: Students registered for a German Specialist or Major may not simultaneously be registered for a German Minor program.

## Faculty of Arts & Science Language Citation

The Department of German participates in the Faculty of Arts & Science's Language Citation initiative for German. The study of German is a demanding and intellectually rewarding educational experience, providing students with excellent resources for understanding the culture of the German speaking world. German is now the second foreign language after English in the countries of central and Eastern Europe, and its use is spreading within the European Community. Learning German opens the door to many intellectual, technical, political, and economic fields. Successful study of German demonstrates intelligence, discipline, analytical sophistication, and an excellent memory. The study of any foreign language provides invaluable insights into the varieties of human culture and expression.

The Language Citation recognizes a significant level of achievement in language study with a high level of academic success. The Citation in German is available to students who complete GER100Y1 (or the equivalent prerequisite training) and earn a grade of at least B- in GER200Y1 and GER300Y1.

Students should note that the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

## First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Note

Notes: (a) All students with previous knowledge of the German language, as well as students returning from extended stays in German-speaking countries, are REQUIRED to take a placement test offered at the Department. (b) The Department reserves the right to place students in the language course appropriate to their level of language skill. (c) More detailed course descriptions and reading lists for the various courses are available from the instructor.

## German Courses

### GER100Y1 - Introduction to German I

**Hours:** 96P

This is the language course to take if you have had no previous experience of the German language. The emphasis is on comprehension, speaking, reading, writing, vocabulary and basic grammar. This course can be counted towards all programs in German.

**Note:** Students with any previous knowledge of German are REQUIRED to take a placement test offered at the department.

**Exclusion:** Senior high school German or equivalent. **Note:** Students with any previous knowledge of German are required to take a placement test offered at the department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### GER101H1 - Introduction to German

**Hours:** 48P

This course is intended for students with some prior knowledge of German. It is equivalent to the Spring Term of GER100Y1. The emphasis is on comprehension, speaking, reading, writing, vocabulary and basic grammar.

**Exclusion:** Senior high school German or equivalent. GER100Y.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### GER150H1 - Introduction to German Culture (E)

**Hours:** 36S

This course taught in English is intended for students who are unfamiliar with German culture. It examines historical, political and cultural developments in Germany from about 1871 to the present focusing on literary and non-literary texts.

**Note:** This course is required for the major and specialist program, and can only be taken within the first two years. In later years it may be substituted with GER310H1.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER200Y1 - Introduction to German II

**Hours:** 96P

This course continues the work done in GER100Y1 / GER101H1. It further expands on basic grammar and vocabulary, practice in comprehension, composition, and conversation.

**Prerequisite:** GER100Y1/GER101H1 or German placement test, Senior high school German or equivalent

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER205H1 - German Literature I

**Hours:** 36S

This course offers a transition from the language courses to the topic courses on the 300-level. It introduces students to German literature and provides them with working methods and analytical tools relevant for the study of German literary texts in the original German.

Note: This course is required for the major and specialist program

**Prerequisite:** GER100Y1

**Corequisite:** GER200Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER220H1 - German Literature in Translation (E) (formerly GER204H1)

**Hours:** 36S

This course taught in English is an introduction to major authors of German literature, such as J.W. Goethe, F. Kafka, T. Mann, G. Grass, C. Wolf and E.S. Özdamar, focusing on their key works and introducing central topics.

**Exclusion:** GER204H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER240H1 - German Drama in Translation (E) (formerly GER232H1)

**Hours:** 36S

This course taught in English offers a general survey introducing major dramatic works from the German-speaking countries from the eighteenth century to the present, by authors such as G.E. Lessing, F. Schiller, G. Büchner, B. Brecht, P. Weiss and E. Jelinek.

**Exclusion:** GER232H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER250H1 - Topics in German Film History (E)

**Hours:** 24P/24S

Focusing on a specific era of film production (e.g. Weimar cinema, Nazi era and postwar, feminist filmmaking, New German Cinema or Postwall), this course explores the relationship between social movements and film form and style. Taught in English. Cross-listed with the Cinema Studies Program Innis College.

**Exclusion:** GER351H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER251H1 - German and European Cinema \_E

**Hours:** 24P/24S

This course examines German cinema against the backdrop of European film history. European films share common references points anchored in the cataclysms of two world wars, and have also negotiated analogous postwar transformations in family life, urbanization, the regional and the national, cultural identity, labour relations, post-socialist societies, and state security. A comparative approach enables examination of what binds German cinema to European cinema - shared histories and political concerns--as well as what is nationally unique and distinctive. By matching select films with readings from social theory, cultural studies, and film studies, we will compare and contrast these socio-historical concerns while also attending to the medium specificities of film style, aesthetics, and narrative form.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER260Y1 - Elementary Yiddish

**Hours:** 72P

This course introduces Yiddish language, literature, music, theater, and cinema through interactive multi-media seminars, designed to build proficiency in reading, writing and comprehending. No prior knowledge of Yiddish is required.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER270H1 - Money and Economy in German Literature and Culture \_E

**Hours:** 36P

In this course, we examine key literary, philosophical, and cultural texts, in order to understand how modern culture approaches problems such as property, debt, and exchange value.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER272H1 - Introduction to Business German

**Hours:** 36P

This course introduces students to basic concepts and vocabulary necessary for the German business context. All the language skills (reading, writing, listening, and speaking) will be practiced in appropriate business contexts.

**Prerequisite:** Pre-/Co-Requisite: GER 200Y.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER275H1 - Marx, Nietzsche, Freud (E)

**Hours:** 36S

This is an introductory course to the thought of Karl Marx, Friedrich Nietzsche, and Sigmund Freud and their pioneering contributions to the understanding of the individual and society in modernity. Readings include selections from writings of the early Marx, the Communist Manifesto, and Capital, Nietzsche's critique of culture, academe, and nationalism, and Freud's theory of culture, his views on the psychopathology of everyday life, on the meaning of dreams, symptoms, the return of the repressed, and what it might mean to live in a free society.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## GER300Y1 - Intermediate German

**Hours:** 96P

Continuing the work done in GER100Y1 and GER200Y1, this course offers German at the intermediate level focusing on extension of vocabulary, specific problems of grammar, essay-writing, reading and conversation. The Department reserves the right to place students in the appropriate course in the series GER200Y1 and GER300Y1.

**Prerequisite:** GER200Y1 or German placement test

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER305H1 - German Literature II

**Hours:** 24S

Building on the work of GER205H1, this course offers a survey of German literature and culture from the eighteenth to the twentieth century. Within a chronological framework, students read and analyze excerpts from representative works of major German writers.

Note: This course is required for the major and specialist program, and should be taken concurrently with [GER300Y1](#)

**Prerequisite:** GER205H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER310H1 - Contemporary German Culture and Media**

**Hours:** 24S

This course focuses on contemporary German culture as expressed through a variety of media. It approaches Germany and Germany's position within Europe and the world mainly (but not exclusively) through non-literary texts.

Note: This course may count as a substitute course for the required GER150H1; please inquire in advance.

**Prerequisite:** GER200Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER320H1 - The Age of Goethe (formerly GER420H1)**

**Hours:** 24S

Goethe and his contemporaries saw themselves faced with a rapidly changing world. This course examines the innovative literary experiments they developed in response to these changing times.

**Prerequisite:** GER205H1

**Exclusion:** GER420H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER321H1 - 19th Century German Literature (formerly GER325H1)**

**Hours:** 24S

This course focuses on German authors of the nineteenth century. Literary, political and philosophical texts are analyzed as a discussion of political uprisings, the industrial revolution and the emergence of German nationalism.

**Prerequisite:** GER205H1

**Exclusion:** GER325H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER322H1 - Kafka in Context (formerly GER331H1)**

**Hours:** 24S

Franz Kafka's texts are read in the literary, historical, and philosophical context of fin-de-siècle Prague and central Europe.

**Prerequisite:** GER205H1

**Exclusion:** GER331H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER323H1 - Weimar Culture and Beyond (formerly GER334H1)**

**Hours:** 24S

Focusing roughly on the period from 1918 to 1945, this course examines literary and artistic movements like Dada, Bauhaus, the Golden Age in German film in the decades between World War I and Nazism.

**Prerequisite:** GER205H1

**Exclusion:** GER334H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER326H1 - Writing Memory: Post 1945 (formerly GER335H1)**

**Hours:** 24S

An examination of post-World War II German literature and culture from Zero Hour through to present-day debates about the Holocaust and its memorialization within a German context.

**Prerequisite:** GER205H1

**Exclusion:** GER335H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER330H1 - Introduction to German Poetry (formerly GER424H1)**

**Hours:** 24S

This course offers an introduction and exploration of German poetry from all ages. The focus lies on poems which pick as a central topic the self in its relation to itself, others, and society.

**Prerequisite:** GER205H1

**Exclusion:** GER424H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER332H1 - Deviance - Madness - Outsiders (formerly GER327H1)**

**Hours:** 24S

An analysis of the artistic confrontation with deviance, madness, and outsiders. The course covers expressions of this confrontation in a variety of genres.

**Prerequisite:** GER205H1

**Exclusion:** GER327H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER336H1 - Focus On Berlin (formerly GER422H1)**

**Hours:** 24S

This course offers an exploration of the cultural developments of one of the most exciting capitals of the world, from the Bismarckian era to German reunification and beyond.

**Prerequisite:** GER205H1

**Exclusion:** GER422H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER338H1 - Narratives of the Body (E)**

**Hours:** 24L/12T

In this course, we examine literary and cinematic explorations of bioethical questions, in order to understand how artistic discourse approaches problems such as normality, madness, and biopower. Readings could include texts by G. Buechner, H. Kleist, E.T.A. Hoffmann, F. Kafka, and T. Mann, among others. All material will be read in English translation.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER340H1 - German Theater Production (formerly GER380H1)**

**Hours:** 48S

The course offers close reading, rehearsing and staging of a play. Students will become familiar with the different steps of a theater production, be introduced to basic acting and staging techniques and get acquainted to leading theories of theater.

**Prerequisite:** GER200Y1

**Exclusion:** GER380H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **GER350H1 - German Visual Cultures (formerly GER351H1)**

**Hours:** 24P/24S

This course presents students with a survey of the history and development of the German cinema. It examines major trends of German cinematography focusing on thematic and formal aspects.

**Prerequisite:** GER205H1

**Exclusion:** GER351H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER354Y0 - Special Topics Summer Course in Berlin (E)

**Hours:** TBA

The topics of this course taught in English and open to students from other disciplines vary from year to year. Interested students can address questions to Woodsworth College.

**Recommended Preparation:** 100-level HIS/POL/GER course/International or European Studies

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER355Y0 - Summer Course in Berlin

**Hours:** TBA

Students who wish to petition the department for credit toward a specialist or major program in German will be required to do part of their work in German. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER360H1 - Intermediate Yiddish

**Hours:** 36P

The course conducted in Yiddish offers a review of basic grammar, stylistics, study of short literary texts.

**Prerequisite:** GER260Y1

**Exclusion:** GER360Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JGJ360H1 - Holocaust in Literature

**Hours:** 24S

This course examines literary works written in different languages, in ghettos and concentration camps during the Holocaust, as well as those reflecting on the genocide in its aftermath. We focus on literature as a means of engaging with the unimaginable and on the cross analysis of eye-witness and memory writing.

**Prerequisite:** Completion of a minimum of 4.0 FCEs

**Exclusion:** CJS220H1 GER367H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER361H1 - Yiddish Literature in Translation (E)

**Hours:** 24S

An overview of the major figures and tendencies in modern Yiddish literature and culture from the beginning of the 19th century to the present. Readings (in English) of modern Yiddish prose, poetry, drama and cinema.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER362H1 - Jewish Culture in the Soviet Union (E)

**Hours:** 24S

The course focuses on Soviet Jewish culture between 1917 and 1991. Works in translation by Soviet Yiddish writers and poets, performances of central Yiddish theatres, and publications in central Yiddish periodicals will be analyzed as expressions of Soviet ideology and of ethnic identity.

**Recommended Preparation:** HIS208Y1, HIS242H1, HIS250Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER367H1 - Topics in Yiddish or German Jewish Literature and Culture

**Hours:** 24S

Topics in modern Yiddish or German Jewish literature and culture from the beginning of the 19th century to the present, featuring a selection of readings of modern Yiddish prose, poetry, drama and cinema. Taught in English and open to students across disciplines.

**Prerequisite:** Completion of a minimum of 4.0 FCEs

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER370H1 - German Business Culture 1

**Hours:** 36P

This course provides students with a working knowledge of German business culture that allows them to navigate the German workplace. The main focus is to deepen students' knowledge of business concepts.

Note: This course is required for the minor program in Business German

**Prerequisite:** GER200Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER371H0 - Berlin Summer Internship

**Hours:** TBA

An intensive internship in Berlin, focusing on work/study and intercultural learning. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## GER372H1 - German Business Culture 2

**Hours:** 36P

This course offers an intensive development of the linguistic skills needed in the context of business transactions and management in German-speaking countries. Through materials from various sources, students develop oral and written skills for competence in German business communication as well as cross-cultural awareness.

**Prerequisite:** GER370H1

**Exclusion:** GER470H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## GER399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## GER400H1 - Advanced German

**Hours:** 48P

This is a course for advanced learners of German reviewing complex features of the language and introducing them to aspects of German stylistics. The emphasis lies on oral and written communication.

**Prerequisite:** GER300Y1

**Exclusion:** GER400Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER410H1 - Topics in German Intellectual History (E)

**Hours:** 24S

This course taught in English offers an examination of key moments and themes in German intellectual history from the Enlightenment to the present.

**Prerequisite:** Advanced status

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## GER411H1 - Critical Theory

**Hours:** 24S

The course familiarizes students with some of the key issues in critical theory today. Focusing on current debates, it will provide the background to these debates.

**Prerequisite:** Advanced status

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## GER423H1 - Transnational Literatures

**Hours:** 24S

This course investigates contemporary German culture by paying attention to its other or alternate voices and perspectives, i.e. those not usually prevalent in mainstream cultural and sociopolitical discourses.

**Prerequisite:** GER305H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER425H1 - Romanticism

**Hours:** 24S

This course introduces students to the literature and some philosophical tenets of Romanticism (roughly 1798-1830) as a critical engagement with Enlightenment, modern science, and modernity.

**Prerequisite:** GER305H1

**Exclusion:** GER324H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER426H1 - Medieval Language and Culture

**Hours:** 36S

This course offers an introduction to the language, literature and culture of Medieval Germany. The reading and translation of exemplary medieval German texts will introduce students to Middle High German and provide an insight into epochal concepts like courtly love and chivalry as well as courtly and monastic designs of identity.

**Prerequisite:** GER300Y1, GER205H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER429H1 - Topics in Medieval German Literature (E)

**Hours:** 24S

An open course which explores specific topics in Medieval literature and culture. It serves to introduce students to seminal premodern texts and discourses.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER430H1 - Topics in German Literature and Culture

**Hours:** 24S

An open course which explores specific aspects of German literature and culture.

**Prerequisite:** GER305H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER431H1 - Topics in Germanic Studies

**Hours:** 24S

An open course which explores specific aspects of Germanic Studies.

**Prerequisite:** Completion of at least 7.0 FCEs

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER450H1 - Topics in German Cinema

**Hours:** 24P/24S

This course explores in detail a specific aspect of German cinema. Details will be available from the Department.

**Prerequisite:** GER300 or equivalent

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER462H1 - Advanced Yiddish

**Hours:** 24P

This course conducted entirely in Yiddish focuses on advanced reading, writing, vocabulary and conversation, the study of poetry, short fiction, and memoir literature by leading authors. Selected advanced grammatical topics are presented in conjunction with the study of texts.

**Prerequisite:** GER360H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER463Y1 - Yiddish Language for German Speakers

**Hours:** 48P

The course is designed as an intensive Yiddish language training. The goal is to teach German speakers to read, write and speak in Yiddish. The curriculum relies on the German language skills of the students, and focuses on differences between Yiddish and German grammar and vocabulary. Upon the completion of the course, students should be able to read Yiddish literary texts with a minimal use of dictionary.

**Note:** Graduate students can take the course in preparation for their Yiddish competency test.

**Prerequisite:** Either 3 FCE in German language or fluency in German language.

**Exclusion:** GER260, GER360, GER462

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER490H1 - Independent Study

**Hours:** 24S

A reading & research project in Germanic literature and/or culture involving a substantive research component. Not eligible for CR/NCR option.

**Prerequisite:** Advanced status and permission of department. **Note:** permission needs to be obtained by May 1st for the Fall Term and by Nov. 1st for the Spring Term

**Distribution Requirements:** Humanities

## GER491Y1 - Individual Studies

**Hours:** 48S

A scholarly project chosen by the student and supervised by a member of the staff. The form of the project and the manner of its execution are determined in consultation with the supervisor. Not eligible for CR/NCR option.

**Prerequisite:** Prerequisite: Advanced status and permission of department. **Note:** project proposals need to be submitted by June 1st

**Distribution Requirements:** Humanities

## Faculty List

### University Professors Emeriti

J.M. Beattie, MA, Ph D, FRSC (U)  
J.M. Bliss, MA, Ph D, FRSC

### Professors Emeriti

R.D. Accinelli, MA, Ph D  
S. Aster, MA, Ph D, FRHS  
C.C. Berger, MA, Ph D, FRSC  
W.C. Berman, MA, Ph D  
P. Blanchard, BA, Ph D  
J.C. Cairns, MA, Ph D  
W.J. Callahan, MA, Ph D, FRHS  
J. Dent, BA, Ph D (I)  
W. Dowler, MA, Ph D  
H.L. Dyck, MA, Ph D  
M. Eksteins, B Phil, D Phil  
J.M. Estes, MA, Ph D  
M.G. Finlayson, MA, Ph D  
J.W. Goering, MA, Ph D  
W.A. Goffart, AM, Ph D, FRHS, FRSC  
A. Greer, MA, Ph D  
P.F. Grendler, MA, Ph D  
J.N. Ingham, MA, Ph D  
M. Israel, MA, Ph D  
R.E. Johnson, BA, Ph D  
J.L.H. Keep, BA, Ph D  
M.A. Klein, MA, Ph D  
J. Kornberg, MA, Ph D  
T.O. Lloyd, MA, D Phil  
L.S. MacDowell, M Sc (Econ), Ph D  
M.R. Marrus, CM, MA, Ph D, MSL, FRHistS, FRSC  
D.P. Morton, MA, Ph D  
A.C. Murray, MA, Ph D  
W.H. Nelson, MA, Ph D  
J. Pearl, Ph D  
D.L. Raby, BA, Ph D  
I. Robertson, MA, Ph D  
A. Rossos, MA, Ph D  
P.F.W. Rutherford, MA, Ph D  
D. Smyth, BA, Ph D, FRHS (T)  
R.A. Spencer, MA, D Phil  
S. Van Kirk, MA, Ph D  
N.K. Wagle, MA, Ph D  
M. Wayne, MA, Ph D  
N.P. Zacour, MBE, MA, Ph D

### Associate Professors Emeriti

L.J. Abrey, MA, MPhil, Ph D  
A. Sheps, MA, Ph D  
A.I. Silver, Ph D  
B. Todd, MA, D Phil  
W. Wark, MA, Ph D

### Professor and Chair of the Department

N. Terpstra, MA, PhD, FRSC

### Associate Professor and Associate Chair (Graduate Studies)

A.D. Hood, MA, Ph D

### Professor and Associate Chair (Undergraduate Studies)

J. Mori, BA, D Phil

### Professor and Deputy Chair

M.G. McGowan, MA, Ph D (SM)

### University Professor

L. Viola, MA Ph D, FRSC

### Professors

K.R. Bartlett, MA, Ph D (V)  
D. Bender, MA, Ph D (University of Toronto Scarborough)  
D. Bergen, MA, Ph D  
R. Bothwell, MA, Ph D, FRSC (T)  
J. English, MA, Ph D (Adjunct)  
T. Fujitani, MA, Ph D  
D. Gabaccia, MA, Ph D (University of Toronto Scarborough)  
M. Gervers, MA, PhD (University of Toronto Scarborough)  
R. Halpern, MA, Ph D

S. Mills, MA, PhD  
W. Nelson, MA, Ph D (University of Toronto Scarborough)  
T. Sayle, MA, Ph D  
L. van Isschot, MA, Ph D  
T. Walker, MA, Ph D  
Y. Wang, MA, Ph D

## Introduction

Historians study the past to understand it on its own terms, to gain insight into how our world has developed, and in order to influence the present. The study of history covers a wide and diverse range of topics, from the history of aboriginal societies, conquistadors, ethnicity, fascism, labour, psychiatry, patterns of settlement and migration, politics, the Renaissance, revolution, to the automobile, slavery, international relations, trade unions, women's studies, and more.

The study of history is at the core of any liberal arts education. In order to make sense of political, social, economic, and cultural development, it is essential to understand historical change and continuities. History is also integral to most area studies (East Asian Studies, Near and Middle Eastern Civilizations, Canadian or American Studies, etc.) and is a crucial part of the study of political science, economics, sociology, international relations, religion, art history, English—nearly every discipline in the humanities and social sciences. History as a discipline partakes of both the humanities and social sciences: it is a social science because it studies societies and the processes of change, but the method and analytical approach are those of the humanities. Close analysis of problems, critical examination of evidence, and persuasive oral and written communication are all hallmarks of historical inquiry.

History graduates will gain both a broad overview of the contours of history and in-depth knowledge of one or more specific regions, time periods, or thematic specializations. They will understand how social processes, political ideologies, economic trends, and environmental changes have intersected with individual and collective human actions to shape historical change and, ultimately, the world we live in today. History graduates will comprehend how history is written, including the skills and methods of historical research, the use and interpretation of textual and other evidence, and the choices involved in various theoretical and analytical frameworks. They will be able to critically read and assimilate large amounts of information, weigh evidence, draw well-informed conclusions, and present cogent, analytical arguments.

The analytical and communication skills one develops by studying history are critical to a great variety of careers. History graduates put their training directly to use in such fields as law, politics, business, government service, museums, libraries and archives, documentary filmmaking, journalism, international relations, urban planning, teaching, and many other areas. With emphasis on how to analyze issues, read critically, do productive research, delineate a case, and present evidence in support of that case, studying history equips one with both the skills and knowledge for an ever-changing workplace and society.

## Curriculum

The History curriculum is designed to give students a solid grounding in a variety of interpretive and methodological approaches, while allowing them a great deal of flexibility to follow their own particular interests. Breadth requirements (detailed below) ensure that students achieve chronological depth and geographic range. There are courses at most levels in American, Asian, African, Latin American and Caribbean, British, Canadian, European, Russian and East European history. Thematic clusters such as medieval history, gender, international relations, and colonialism/post-colonialism help students pursue areas of particular interest.

The 100-series courses are thematically-based and introduce students to the craft and tools of historical research and writing. The 200-series courses are broad chronological surveys of countries, regions, or time periods. They are open to first-year students and have no prerequisites. The 300-series courses enable students to pursue topics in greater depth and methodological sophistication. They are not open to first-year students and frequently have prerequisites. The 400-series courses represent the culmination of an undergraduate's study of history. They are taught as small-group seminars in which students draw upon the skills they have developed through the course of their History program in research, analysis, and oral and written presentation.

More detailed information concerning the department, history programs and particular courses can be found on our website: [www.history.utoronto.ca](http://www.history.utoronto.ca). There is a History Students' Association in the Department and there is student participation in the Department meetings and major standing committees.

## History Programs

### History Specialist (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment POST that can only accommodate a limited number of students. Eligibility will be based on a student's marks in the required courses. The precise mark thresholds outlined below are an estimate of what will be required in the coming POST admission cycle. Achieving those marks does not necessarily guarantee admission to the POST in any given year.

Required courses: 2.0 HIS FCE, one of which must be at the 100-level, with a final mark of at least 73% in each.

#### Completion Requirements:

The Specialist program gives students in-depth training in historical research, analysis and writing for graduate study or professional

use. To achieve these objectives, students choose one of two options when entering their third year.

(10 full courses or their equivalent) Consult the department for details of equivalent courses.

First year: 1.0 HIS FCE at the 100-level; in addition, students may take 1.0 HIS FCE at the 200-level

Higher Years: Additional HIS courses to a total of 10 FCEs overall, meeting the following requirements:

1. 1.0 FCE at the 200-level or above from each of the following Divisions\*:
  - I. Asia/Africa/Middle East
  - II. Canada/United States/Latin America/Caribbean
  - III. Europe
2. 1.0 FCE in Pre-modern (before 1800) history\*.
3. At least 5 FCEs at the 300-level or above, including 1.5 FCEs at the 400-level to be fulfilled in the following ways:
  - I) HIS 476Y (full year senior thesis) and a 400-level H seminar course; or
  - II) HIS 475H (half year senior thesis) and two 400-level H seminar courses; or
  - III) 0.5 FCE senior Methodology course\* and 1.0 FCE 400-level course(s)

Note that the Thesis Option has limited enrolment due to limited capacity in Thesis Courses HIS475H1 and HIS476Y1. Interested students should contact the department for more information regarding Thesis supervision.

\*Courses that satisfy the Methodology, Pre-modern and Divisional requirements are listed on the History website.

## History Major (Arts Program)

### Enrolment Requirements:

This is a limited enrolment POST that can only accommodate a limited number of students. Eligibility will be based on a student's mark(s) in the required course(s). The precise mark thresholds outlined below are an estimate of what will be required in the coming POST admission cycle. Achieving those mark(s) does not necessarily guarantee admission to the POST in any given year.

Required courses: 1.0 HIS FCE at the 100-level, with a final mark of at least 60%.

### Completion Requirements:

(7 full courses or their equivalent)

First Year: 1.0 HIS FCE at the 100-level; in addition, students may take 1.0 HIS FCE at the 200-level.

Higher Years:

Additional HIS courses to a total of seven, meeting the following requirements:

1. At least 2.0 FCEs at the 300-level or above, including 0.5 FCE at the 400-level
2. 1 FCE at the 200-level or above from each of the following divisions\*:
  - I. Asia/Africa/Middle East
  - II. Canada/United States/Latin America/Caribbean
  - III. Europe.
3. 1 FCE in pre-modern (pre-1800) history\*.

\* Courses that satisfy the Pre-modern and Divisional requirements are listed on the History website.

### Courses in other departments:

a) *Equivalent Courses*: the History Department website lists a number of history courses offered by other departments, such as East Asian Studies, Near and Middle Eastern Civilizations, and Classics which can be taken for program credit. Typically these courses are taught by faculty members who are trained as historians but whose primary appointment is in another department; they may include subjects not covered by HIS offerings. These are considered equivalent to HIS courses for the purpose of all program requirements *except* the 100-level requirement, and there is no limit on the number of these courses that can be included in a student's program.

b) *Related Courses*: the History Department website also lists a number of courses in other departments that may be substantially historical in content but that differ in methodology or approach from an HIS course. History Majors may draw up to 1.0 FCE to fulfill items 1 through 3 of the Major program. **Note**: A 100-level related course may be applied toward the Divisional or Pre-modern requirements but *does not* take the place of the required 100-series HIS course.

## History Minor (Arts Program)

### Completion Requirements:

(4 full courses or their equivalent)

First Year:

1.0 HIS FCE at the 100-level is required. It is recommended that students complete this requirement prior to enrolling in the minor program.

Higher Years:

Additional HIS courses to a total of 4.0 FCEs, including at least 1.0 FCE at the 300- or 400-level.

### Courses in other departments:

a) *Equivalent Courses*: the History Department website lists a number of history courses offered by other departments, such as East Asian Studies, Near and Middle Eastern Civilizations, and Classics which can be taken for program credit. Typically these courses are taught by faculty members who are trained as historians but whose primary appointment is in another department; they may include subjects not covered by HIS offerings. These are considered equivalent to HIS courses for the purpose of all program requirements *except* the 100-level requirement, and there is no limit on the number of these courses that can be included in a student's program.

b) *Related Courses*: the History Department website also lists a number of courses in other departments that may be substantially historical in content but that differ in methodology or approach from an HIS course. History Minors may draw up to 1.0 FCE as part of their History program. **Note**: A 100-level related course may not be used to fulfill the required 100-series HIS course.

## Regarding History Courses

**Note**: Not all of these courses are taught every year. Please check the Arts & Science timetable or the HIS Department website for the list of courses offered in 2015-16.

### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

### 100-Series Courses

**All 100-series HIS courses are mutually exclusive, with the exception of AP, IB, CAPE, or GCE transfer credits. Students may enrol in only one 100-series History course. Students enrolled in more than one of these courses (or who have completed one of these courses or a previous HIS 100-series course with a mark of 50% or greater) will be removed at any time. First-Year students may take 200-series courses.**

## History Courses

### HIS100Y1 - History of the Arctic

**Hours:** 48L/20T

People have made the Arctic home for millennia, creating circumpolar cultures in its challenging climate. This course compares and examines connections in the contested polar region through several themes: cultures in contact, trade and exploration, environment, crime and punishment, and defense and sovereignty.

**Exclusion:** Any 100-level HIS course, with the exception of AP, IB, CAPE, or GCE transfer credits.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3); Living Things and Their Environment (4)

### HIS101Y1 - Histories of Violence

**Hours:** 48L/20T

Ranging widely chronologically and geographically, this course explores the phenomenon of violence in history. It examines the role and meanings of violence in particular societies (such as ancient Greece and samurai Japan), the ideological foundations and use of violence in the clash of cultures (as in slavery, holy wars, colonization, and genocide), and the effects and memorialization of violence.

**Exclusion:** Any 100-level HIS course, with the exception of AP, IB, CAPE, or GCE transfer credits.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2); Society and its Institutions (3)

### HIS102Y1 - Empires, Encounters and Exchanges

**Hours:** 48L/20T

Interactions among peoples, empires, and cultures, with particular attention to the non-European world. Can we speak of international relations before the modern concept of nation-states was established? What forms did globalization take in the pre-modern era? Covering a broad chronological sweep from before the Silk Road to the present day, we will look at exchanges of goods and technologies; dissemination of ideas and religions; voyages of migration and exploration; and episodes of conquest and colonization.

**Exclusion:** Any 100-level HIS course, with the exception of AP, IB, CAPE, or GCE transfer credits.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2); Society and its Institutions (3)

### HIS103Y1 - Statecraft and Strategy: An Introduction to the History of International Relations

**Hours:** 48L/20T

An analysis of the development of the international system, from 1648 to 1945, which highlights the role of war as an instrument of national policy, as a determinant of the system of states and as a threat to international society.

**Exclusion:** Any 100-level HIS course, with the exception of AP, IB, CAPE, or GCE transfer credits.

**Breadth Requirements:** Society and its Institutions (3)

### HIS106Y1 - The African Diaspora in the Americas, 1492-1804

**Hours:** 48L/20T

This course introduces the history of the African Diaspora in the Americas, from 1492-1804. Lectures and readings will draw from primary sources and historical scholarship to focus on a range of topics, including slavery and the slave trade, race relations, gender and sexuality, religious and cultural practices, and liberation struggles.

**Exclusion:** Any 100-level HIS course, with the exception of AP, IB, CAPE, or GCE transfer credits.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS107Y1 - Approaches to East Asian History

**Hours:** 48L/20T

This course draws on the history of China, Korea and Japan between 1600 to 1950 to explore historical issues of gender, nationalism, war and relations with the West.

**Exclusion:** Any 100-level HIS course, with the exception of AP, IB, CAPE, or GCE transfer credits.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS109Y1 - The Development of European Civilization, 1350-1945

**Hours:** 48L/20T

The shape of traditional society; the forces at work on the social, political, economic, cultural and intellectual structures of Western Europe since the high Middle Ages: the Structure of Traditional Society; the First Period of Challenges, 1350-1650; the Second Period of Challenges, 1650-1815; Confidence, Stability and Progress, 1815-1914; the Collapse of the Old Order and the Condition of Modern Europe, 1914-1945.

**Exclusion:** Any 100-level HIS course, with the exception of AP, IB, CAPE, or GCE transfer credits.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## HIS202H1 - Gender, Race and Science

**Hours:** 24L/10T

This course examines scientific ideas about human difference from the 18th-century to the present. It explores how scientists and their critics portrayed the nature of race, sex difference, and masculinity/femininity in light of debates over nation, citizenship, colonialism, emancipation, knowledge and equality. The course will also introduce students to the uses of gender and race as analytic categories within the practice of history. While the course draws much of its subject matter from the history of the United States, it also explores selective issues in European and colonial contexts.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS205H1 - Topics in Women's History

**Hours:** 24L/10T

This course introduces students to the diverse experiences of women from a comparative perspective. Students will study how women's strategies have shaped the major cultural, economic, political and social processes in the world and how these processes have affected women's experiences in their particular societies. By studying women's history from both local and global perspectives, students will engage critically with claims that women's history is universal. The local focus of the course will rotate between Africa, Asia, Europe, and North America, depending on the expertise of the instructors.

**Exclusion:** HIS245Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS205Y1 - Topics in Women's History

**Hours:** 48L/20T

This course introduces students to the diverse experiences of women from a comparative perspective. Students will study how women's strategies have shaped the major cultural, economic, political and social processes in the world and how these processes have affected women's experiences in their particular societies. By studying women's history from both local and global perspectives, students will engage critically with claims that women's history is universal. The local focus of the course will rotate between Africa, Asia, Europe, and North America, depending on the expertise of the instructors.

**Exclusion:** HIS245Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3); Thought, Belief and Behaviour (2)

## HIS208Y1 - History of the Jewish People

**Hours:** 48L/20T

An introduction to the history of the Jews throughout the world over the past two thousand years.

**Recommended Preparation:** HIS102Y1/103Y1/109Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS220Y1 - The Shape of Medieval Society

**Hours:** 48L/20T

Economic, political, religious, and educational ideas and institutions of the Middle Ages, from the late Roman period to the fifteenth century.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS221H1 - African American History to 1865

**Hours:** 24L/10T

An introduction to the history of Africans and people of African descent in the Americas generally, and the United States in particular. Major themes include modernity and the transatlantic slave trade; capitalism and reparations; Atlantic crossings; African women, gender, and racial formations; representation, resistance, and rebellion; nation-building; abolitionism and civil war; historical method and the political uses of the past.

**Exclusion:** HIS298Y1 (2016-17)

**Recommended Preparation:** Any 100-level course in Arts or Humanities

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS222H1 - African American History from 1865 to the Present

**Hours:** 24L/10T

This course examines the history of black people in the United States after the abolition of slavery. Major themes include the promise and tragedy of Reconstruction; gender and Jim Crow; race and respectability; migration, transnationalism, and 20th century black diasporas; black radical traditions and freedom movements; intersectionality and black feminisms; the drug war and mass incarceration; sexuality and the boundaries of blackness.

**Exclusion:** HIS 298Y1 (2016-17)

**Recommended Preparation:** Any 100 level course in Arts or Humanities

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS230H1 - Indigenous and Early Colonial Caribbean History

**Hours:** 24L/12P

This course introduces students to the study of Caribbean history from first human settlement to the late 18th century. Subject matter covered includes indigenous social structures, cosmology and politics; the process of European conquest; the economics, society and political order of colonial society; the Middle Passage; the everyday lives and struggles of enslaved peoples.

**Exclusion:** HIS294Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS231H1 - Revolution and Emancipation in the Colonial Caribbean

**Hours:** 24L/12P

This course explores the history of the late eighteenth and nineteenth century caribbean, from the Haitian Revolution to the U.S. occupation of Cuba and Puerto Rico. Students learn about the first struggles for political independence; the struggle to abolish the slave trade; slave emancipation; indentureship and struggles to define freedom after emancipation.

**Exclusion:** HIS294Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS241H1 - Europe in the Nineteenth Century, 1815-1914

**Hours:** 24L/10T

An introduction to modern European history from Napoleon to the outbreak of World War I. Important political, economic, social, and intellectual changes in France, Germany, Austria-Hungary, Italy, and other countries are discussed: revolution of 1848, Italian and German unification, racism and imperialism, the evolution of science, art, and culture, labour protest, and the coming of war.

**Exclusion:** EUR200Y1

**Recommended Preparation:** HIS103Y1/HIS109Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS242H1 - Europe in the 20th Century

**Hours:** 24L/10T

The evolution of European politics, culture, and society from 1914: the two world wars, Fascism and Nazism, the post-1945 reconstruction and the movement towards European integration.

**Exclusion:** EUR200Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS243H1 - Early Modern Europe, 1450-1648

**Hours:** 24L/10T

The political, social, economic, and intellectual history of continental Europe. The Renaissance, the Reformation, Counter-reformation, growth of the territorial monarchies, the religious wars.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS244H1 - Early Modern Europe, 1648-1815

**Hours:** 24L/10T

The political, social, economic, and intellectual history of continental Europe. Development of royal absolutism, social change and the crisis of the ancient regime, the Enlightenment, the French Revolution, the Napoleonic era.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS245H1 - European Colonialism, 1700-1965

**Hours:** 24L

This course will introduce students to the history of European colonialism. It will analyze the nature of colonial rule, the impact of empire on both colonies and metropolises, and delve into questions of power, gender and culture. It considers slavery and abolition, imperial networks, colonial capital, colonial competition, colonial cultures, the twilight of colonial rule, and a variety of settings.

**Exclusion:** HIS389Y0, 20155

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS250Y1 - History of Russia (formerly HIS250H1)

**Hours:** 48L/20T

This course is an introductory survey that examines the political, social, and cultural developments that shaped the Russian empire from the settlement of Kiev in the 9th century to the collapse of the Soviet Union in 1991.

**Exclusion:** HIS250H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS251Y1 - History of East Central Europe

**Hours:** 48L/20T

The Polish, Czech, and Hungarian background; the Balkans in the late medieval and early modern periods. Renaissance, Reformation and Counter-reformation, decline and national awakening to the beginning of the 19th century. Partitioned Poland, nationalism in the 19th century; World War I, Peace Settlement, interwar years and the Communist period.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS262H1 - Canada: A Short History of Here

**Hours:** 24L/10T

This course is intended for non-History students; History students are advised to take HIS263Y1 instead. Make sense of politics today and develop a deeper understanding of Canadian society and its institutions through the major events and demographic trends that have shaped the development of this country, while enhancing critical reading and thinking skills through short writing assignments. No research essay.

\*This course will not count towards History program requirements or as a pre-requisite for upper level courses.\*

**Exclusion:** HIS263Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS263Y1 - Introduction to Canadian History

**Hours:** 48L/15T

An introductory survey to the major events and trends that have shaped the political, social and economic history of Canada, including the challenges of indigenous-newcomer and French-English relations over more than four centuries of interactions.

**Exclusion:** HIS262Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS264H1 - Critical Issues in Canadian History

**Hours:** 24L/12T

This course introduces key issues in Canadian history and foundational principles of historical analysis. It is primarily designed for potential History majors/specialists. It is not a comprehensive survey. Examples serve to deepen analysis and introduce important methods and debates, preparing students for upper year courses in Canadian history.

**Exclusion:** HIS263Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS271Y1 - American History Since 1607

**Hours:** 48L/20T

A survey of the economic, social, cultural, and political history of the United States from the colonial era to present times.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS280Y1 - History of China

**Hours:** 48L/20T

A broad overview of the history of China from earliest times to the present. The emphasis is on how the meaning of China and the Chinese people have changed through history.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS281Y1 - History of Modern Japan

**Hours:** 48L/20T

Political, military, social, economic, and intellectual history of Japan from beginning of Tokugawa period (1603) to the present. Emphasis on the long term modernization and democratization of Japan, and passage through imperialism and militarism to peace.

**Exclusion:** EAS223H1/EAS223Y1/HIS281H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS282Y1 - History of South Asia

**Hours:** 48L/20T

An introductory survey addressing major themes in the history of South Asia, examining South Asian political economy, social history, colonial power relations and the production of culture. Emphasis is on the period after 1750, particularly the study of colonialism, nationalism, and postcolonial citizenship and modernity.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS283Y1 - Southeast Asian Crossroads

**Hours:** 48L/20T

This course surveys the historical experiences of the states that constitute present-day Southeast Asia and examines how long term socio-economic trends affected the daily lives of Southeast Asians. Lectures introduce the major themes while weekly readings explore the major themes of the course: state structure; cultural commonalities; ethnic, class and gender relations; religious practice and trade.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS284Y1 - Viet Nam: Crossroads of Asia

**Hours:** 48L/20T

Examines the history of Viet Nam from its mythical origins to the contemporary period, exploring the country's long experience with Chinese and South Asian cultural influence. Themes include Sinicization and Indianization; constructions of gender; state formation; the introduction and impact of the world religions; colonization and nationalism; and the impact of globalization.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS291H1 - Latin America: The Colonial Period (formerly HIS291Y1)**

**Hours:** 24L/10T

The evolution of Spanish and Portuguese America from pre-Columbian civilizations to the wars of independence.

**Exclusion:** HIS291Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS292H1 - Latin America: The National Period (formerly HIS292Y1)**

**Hours:** 24L/10T

A survey of Latin American history from the wars of independence to the present day.

**Exclusion:** HIS292Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS293H1 - The Making of the Atlantic World, 1480-1804**

**Hours:** 24L/10T

This course introduces students to the social, economic, cultural and political history of the Atlantic world resulting from European exploration and colonization in the Americas beginning in the 1490s and the growth of the transatlantic slave trade. It focuses on interactions between Africans, Europeans, and Amerindians around the Atlantic Ocean.

**Prerequisite:** HIS102Y1/106Y1/109Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS295Y1 - African History and Historical Methodology**

**Hours:** 48L/24T

An introduction to African history and the methodology of history more broadly, this course sets out to question how historians do history, examine differences in theories of knowledge, and explore the relationship between academic and cultural representations of the past. The course also draws on anthropology and related disciplines.

**Exclusion:** HIS381H1, HIS382H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Thought, Belief and Behaviour (2)

## **HIS297Y1 - History of Africa from a Gender Perspective**

**Hours:** 48L/20T

This survey of African history is analytical rather than narrative in its approach. It rethinks the way that African history has hitherto been conceptualized and taught by placing the question of gender at the center of the story of Africa.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS298Y1 - Themes & Issues in History**

**Hours:** TBA

This is a thematic survey course addressing issues of gender, class, ethnicity, religion, war, economics and political strife through broad-sweep coverage of a region's history. Prepares students for upper-level study through exposure to eyewitness primary sources and conflicting secondary interpretations of events. Consult <http://history.utoronto.ca/undergraduate/fw-courses/> for exact prerequisites and for specific content of the course.

**Prerequisite:** Varies according to particular course offering. See History website for information.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## HIS300H1 - Energy and Environment in North American History

**Hours:** 24L/6T

This course examines the history of energy in North America from the perspective of political economy, environment and social-cultural history. Particular attention is paid to twentieth-century developments and to the relationship between energy and social power. Examples are drawn from both Canada and the United States.

**Prerequisite:** HIS263Y1 / HIS264H1 / HIS271Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JSH300H1 - Literature and History in Russia

**Hours:** 24L

History and Literature were always interconnected in Russia. Writers not only sought to reflect the society around them, but were themselves often social critics and political figures. The course examines key texts in Russian literary tradition both as works of art and as primary sources for the historian. All readings in English.

**Recommended Preparation:** HIS250H1/HIS250Y1 or SLA240H1/SLA241H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HIS301H1 - Imperial Spain (formerly HIS301Y1)

**Hours:** 24L

This course treats the political, social, and religious history of Spain and its empire ca.1450-1714, including the history of colonial Latin America.

**Exclusion:** HIS301Y1

**Recommended Preparation:** HIS243H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS302H1 - Material Culture in Victorian Britain (formerly HIS302Y1)

**Hours:** 24L

An examination of the products of the first and second industrial revolutions in Victorian England. This course focuses on the cultural history of commercialization and consumerism.

**Exclusion:** HIS302Y1

**Recommended Preparation:** HIS109Y1 or 241H

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS303H1 - The Mediterranean, 600-1300: Crusade, Colonialism, Diaspora

**Hours:** 36L

The course treats contact and conflict between Christians, Muslims, and Jews in the premodern Mediterranean world. Within the framework of broad political and economic developments, the course explores a range of topics, including holy war, slavery, religious polemics, colonialism, the commerce in goods and ideas, and ethnic relations.

**Recommended Preparation:** HIS220Y1 or NMC273Y1 or some medieval history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS304H1 - Topics in Middle East History

**Hours:** 24L

An in-depth examination of Middle East historical issues. Content in any given year depends on instructor. See History Website for more details.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JHP304Y1 - Ukraine: Politics, Economy and Society

**Hours:** 48L

The history of Ukraine from earliest times to the present. Economic, political, and cultural movements; Kievan Rus', Polish-Lithuanian Commonwealth, Cossack state, national revival, twentieth century statehood, and unification. As this course is designed as an introductory course, the professor welcomes first- and second-year students to enroll, as well as upper-level students. *(Given by the Departments of History and Political Science)*

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## HIS305H1 - Popular Culture and Politics in the Modern Caribbean

**Hours:** 24L

This course examines the connections between popular culture and politics in the modern Caribbean. Aspects of popular culture such as sport, religion, and social constructions of gender will be discussed. The impact of post-war migration, race and racial nationalism and the upheavals of the 1960s on popular culture in the Caribbean will also be themes.

**Prerequisite:** HIS294Y1/HIS230H1,231H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS306H1 - Islam and Muslims in the Balkans

**Hours:** 24L

The course examines the history of the Balkans from the fourteenth century until the present day with a particular focus on Islam, Muslims and Muslim culture. Topics include formation of Muslim communities, relations between Muslims and non-Muslims in the Ottoman and Habsburg empires, Sufi Islam, Muslims as minorities and majorities, and their experiences during the break-up of Yugoslavia. No prior knowledge of Balkan history or Islam is assumed.

**Prerequisite:** Any two 200-HIS courses

**Exclusion:** HIS389H1 (Islam and Muslims in the Balkans)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS307H1 - Canadian Political Issues

**Hours:** 36L

Ten key issues in Canadian politics from the 1850s to the 1990s: background, partisan divisions, debates, mobilization of support and opposition, outcomes.

**Prerequisite:** HIS263Y1/HIS264H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS308H1 - The Mediterranean, 1300-1700

**Hours:** 36L

This course continues with the themes treated in HIS303H1, specifically in the context of relations between the Ottoman empire and European states and the growing impact of the Atlantic world on the Mediterranean.

**Prerequisite:** HIS303H1

**Exclusion:** HIS303Y1

**Recommended Preparation:** HIS220Y1/HIS243H1/NMC273Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS309H1 - The European Reformations

**Hours:** 36L

What happens when a culture changes its religious organization and beliefs? Social and intellectual upheavals beginning in fifteenth century Europe created the split between Catholic and protestant Christians and reshaped the spiritual and political landscape of sixteenth century Europe. Issues covered include religion and politics, toleration, gender, popular piety, class.

**Prerequisite:** HIS243H1 / VIC240Y1 or permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS310H1 - Histories of North American Consumer Culture**

**Hours:** 24L/6T

This course examines the emergence of a modern consumer society in North America from about 1850 to recent times. The aim is to combine political, social, economic and cultural history to chart changing relationships between North Americans, consumer commodities, and identities.

**Prerequisite:** HIS263Y1/HIS264H1/HIS271Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS311Y1 - Introduction to Canadian International Relations**

**Hours:** 48L/10T

Canadian international affairs in a broader context. Anglo-American as well as Canadian-American relations; the European background to questions such as the League of Nations, appeasement and rearmament, which directly affected Canada without this country being consulted.

**Recommended Preparation:** A course in Canadian history or politics

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS312H1 - Immigration to Canada**

**Hours:** 24L/5T

The peopling of Canada by immigrant groups from the 1660s to the 1970s. Immigration and multiculturalism policies; migration and settlement; ethnic communities; relations with the host society.

**Recommended Preparation:** HIS263Y1/HIS264H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS313H1 - Canadian Labour and the Left (formerly HIS313Y1)**

**Hours:** 24L

Canadian labour history from political action to collective bargaining in the period from Confederation to the present.

**Prerequisite:** ECO244Y1/HIS263Y1/HIS264H1/WDW244H1/WDW244Y1

**Exclusion:** HIS313Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS314H1 - Quebec and French Canada (formerly HIS314Y1)**

**Hours:** 24L

A general survey tracing the political, social, and cultural development of a distinct society in Quebec and the rise of self-conscious French-speaking communities elsewhere in Canada.

**Exclusion:** HIS314Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS315H1 - Narratives of Viet Nam**

**Hours:** 24L

This course introduces students to the multiple ways in which the diverse populations inhabiting the geographic space of Viet Nam construct their histories. Perspectives from Chinese, Charn, ethnic minority and Vietnamese majority populations will be explored.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS316H1 - Competing Colonialism in Northeast China The Harbin Experiment**

**Hours:** 24L

This course explores the political, social, and cultural history of Harbin, one of the major cities of Manchuria/Northeast China, the product of competing Russian, Japanese, and international colonialism during the first half of the twentieth century, and an early case of multi-ethnic emigration and multiculturalism.

**Prerequisite:** HIS250Y1 or HIS280Y1 or HIS281Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS317H1 - 20th Century Germany (formerly HIS317Y1)**

**Hours:** 24L

A survey of modern German history in the twentieth century. Topics include World War I and the postwar settlement, the Weimar Republic, the National Socialist dictatorship, the Holocaust, the division of Germany, the Cold War, German reunification, Germany and the European Union, nationalism, political culture, war and revolution, religious and ethnic minorities and questions of history and memory.

**Prerequisite:** HIS103Y1/109Y1/241H1,242H1/EUR200Y1

**Exclusion:** HIS317Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS318H1 - "The "Wild" West in Canada"**

**Hours:** 24L/7T

What happens when histories of Canada begin in the West? This course examines the critical challenges that the myths and legacies of the West pose to Canadian history, from pre-contract to 1990. Themes include First Nations and colonialism, immigration, racism, economic development, regionalism, prostitution and illegal economies.

**Prerequisite:** HIS263Y1/HIS264H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS319H1 - Renaissance France and the Wars of Religion, 1483-1610**

**Hours:** 24L

Considers the expansion of the French state at the close of the 100 Years War, cultural and social change during the Renaissance, religious change and the Protestant Reformation, the emergence of religious conflict and the Wars of Religion. A range of primary sources and historiographical perspectives will be considered.

**Prerequisite:** HIS243H1/HIS309H1/HIS388H1/HIS443H1 or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS320H1 - Barbarian Invasions and the Fall of the Roman Empire**

**Hours:** 24L/5T

Covers major events and themes for the period 300-600, including decline of Greco-Roman paganism, conversion to Christianity, individual barbarian groups (Ostrogoths, Visigoths, Huns, Burgundians, Vandals, Franks, Lombards), their culture and impact on empire, Justinians reconquests.

**Recommended Preparation:** HIS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS321H1 - Dark Age Europe, 7th 10th Centuries**

**Hours:** 24L/5T

Surveys major events and figures for the period c. 600-1000, including: Pope Gregory the Great, the Merovingian Franks, Lombard Italy, Byzantine civilization, the rise of Islam, Charlemagne, the Carolingian Renaissance, the Vikings, Anglo-Saxon England to King Alfred, the Ottonians.

**Exclusion:** HIS320Y1

**Recommended Preparation:** Some ancient history, ancient Greek or Latin language, early Christianity, Celtic history, Old Irish and Old English languages.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS322H1 - The High Middle Ages**

**Hours:** 48L/10T

Chronological survey of the history of medieval Europe from 1100 to approximately 1450. The three main topics are: the formation of the modern states, the impact of urban development, and the evolution of spirituality.

**Prerequisite:** HIS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS323H1 - Rites of Passage and Daily Life in the Middle Ages (formerly HIS323Y1)**

**Hours:** 24L/5T

Reflecting on the life cycle and rites of passage in the medieval period gives the opportunity to study the daily lives of peasants, nobles, monks, nuns, and burghers, and to observe from an interesting angle the differences between female and male life experiences.

**Prerequisite:** A course specifically on the Middle Ages such as HIS220Y1

**Exclusion:** HIS323Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **JHN323H1 - Indigeneity in the Caribbean**

**Hours:** 24L

Explores the legacies of the pre-Columbian era, as well as the post-1492 experiences of people of pre-Columbian Caribbean ancestry. Examines the origins and consequences of the Caribbean's narrative of "indigenous absence", as well as the relationship between indigeneity, globalization and diaspora.

**Prerequisite:** ABS201Y1/HIS230H1/HIS231H1/NEW120Y1/NEW220H1/NEW221H1/NEW224Y1/NEW225H1/NEW226H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS324H1 - British Imperial Experience, 1600-2000**

**Hours:** 24L

The British empire, at its zenith, covered one-quarter of the earth's land surface. Whatever the rights and wrongs of its history were, the legacies of this global experience continue to influence politics in today's world. Equal coverage is given to early modern and modern history. Some background in British history or international relations is strongly recommended. This course begins at home with English expansionism in the British Isles before moving on to deal with case studies selected from North America, the Caribbean, Africa, South Asia and East Asia. Coherence comes from thematic foci consisting of economics, law, migration, gender and governance.

**Prerequisite:** HIS103Y1/  
109Y1/241H1/244H1/245H1/368H1/337H1/349H1

**Recommended Preparation:** HIS102Y1/103Y1/109Y1/202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS325H1 - Imperial Russia (formerly HIS325Y1)**

**Hours:** 24L

This course focuses on Russia's history during a period of remarkable change and turbulence, when the country more firmly established its far-flung empire while simultaneously attempting to define itself as a nation. From the wars and reforms of Peter the Great through the end of the empire during the First World War, the course touches on questions of social and cultural change, and the political events that allowed or constrained them.

**Prerequisite:** HIS250H1/HIS250Y1/permission of instructor

**Exclusion:** HIS325Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS326H1 - Topics in Chinese History**

**Hours:** 24L

Selected topics on a specific period in Chinese history. Topics in any given year depend on the instructor.

**Prerequisite:** HIS280Y

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS327H1 - Rome: The City in History**

**Hours:** 24L

This course investigates the development of Rome from its mythical foundations, through the Empire, the Middle Ages, Renaissance and Baroque to the modern city, illustrating the shift from the pagan to the papal city and its emergence as the capital of a united Italy after 1870 and a modern European metropolis.

**Prerequisite:** At least one European History course

**Exclusion:** VIC348Y1 (2012-16), VIC162H1 (2016-17)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS328H1 - Modern China (formerly HIS328Y1)**

**Hours:** 24L

An examination of political, social and economic developments in modern Chinese history to the present day. Main topics may include the decline of the Imperial order and the challenge of Western imperialism; the Republican period; the rise of the Communist movement; the Peoples Republic of China.

**Prerequisite:** HIS280Y1/EAS102Y1

**Exclusion:** JMC201Y1, HIS328Y1

**Recommended Preparation:** HIS380H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS330H1 - Germany from Frederick the Great to the First World War (formerly HIS317Y1)**

**Hours:** 24L

Topics include German reactions to the French Revolution, Napoleonic occupation, the Wars of Liberation, industrial expansion, the Revolutions of 1848, unification in 1871, Bismarck and Kaiser Wilhelm II, everyday life, gender relations, avant-garde culture, nationalism, antisemitism, colonialism, and the Great War of 1914-18.

**Prerequisite:** EUR200Y1/HIS241H1

**Exclusion:** HIS341Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS331H1 - Modern Baltic History (formerly HIS331Y1)**

**Hours:** 24L

The history of the Baltic countries, Estonia, Latvia and Lithuania from 1900 to the present day, with emphasis on the emergence of independent Baltic states, World War II, communist era, the Baltic Revolution, the restoration of independence and European integration.

**Exclusion:** HIS331Y1

**Recommended Preparation:** HIS250H1/HIS250Y1/HIS251Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS332H1 - Crime and Society in England, 1500-1800 (formerly HIS332Y1)**

**Hours:** 24L

The changing nature of crime and criminal justice in early-modern England; the emergence of modern forms of policing, trial and punishment.

**Prerequisite:** Successful completion of 8 full credits, including one full HIS credit

**Exclusion:** HIS332Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS333H1 - Catholic Asia in the Early Modern Era, 1500-1800**

**Hours:** 24L

This course examines the impact of Catholicism in Asia, from its introduction to its relevance in the contemporary global order. Students will be introduced to how Catholicism and the technologies accompanying it affected historical transitions in local communities in Asia as well as how the growth of these communities has affected the global Catholic Church.

**Prerequisite:** A course in European or Asian history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS334H1 - East Central Europe and the Great Powers in the Short 20th Century, 1914-1991 (formerly HIS334Y1)**

**Hours:** 24L

The diplomatic, economic and military activities of Russia, Germany, Austria, France, Great Britain and the U.S. vis a vis Central Europe. Russian and German expansion, partitions of Poland, disintegration of the Ottoman Empire, the Napoleonic and World Wars, political systems created in Vienna, Versailles and Yalta, the Cold War and the disintegration of the Soviet outer empire.

**Prerequisite:** EUR200Y1/HIS251Y1/permission of the instructor

**Exclusion:** HIS334Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS335H1 - Soviet Cultural History

**Hours:** 24L

This course explores Russian culture - art, architecture, film and literature - from 1917 to the post-Soviet present. Readings and screenings trace the relation between culture, history, and revolution from the Russian Avant-Garde and proletarian culture to socialist realism, and from Krushchevs thaw to examples of Soviet postmodernism.

**Prerequisite:** HIS250H1/HIS250Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HIS336H1 - Medieval Spain

**Hours:** 36L

This course emphasizes the interaction of Christians, Muslims, and Jews, and the cultural and political distinctiveness of Castile and Aragon in the development of state, society, and culture in medieval Spain.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS337H1 - Culture, Politics and Society in 18th Century Britain (formerly HIS337Y1)

**Hours:** 24L

Deals with England, Scotland, Ireland and the Atlantic World. Addresses major political, social, economic, intellectual and cultural highlights of the "long" eighteenth century. Deals with enlightenment, industrialization and the loss of the first British empire. Interrogates Britain's emerging status as a world power.

**Exclusion:** HIS337Y1

**Recommended Preparation:** EUR200Y1/HIS109Y1/243H1/244H1/r368H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS338H1 - The Holocaust, to 1942 (formerly HIS338Y1/398Y1)

**Hours:** 24L/5T

German state policy towards the Jews in the context of racist ideology, bureaucratic structures, and varying conditions in German-occupied Europe. Second Term considers responses of Jews, European populations and governments, the Allies, churches, and political movements.

**Prerequisite:** Completion of six undergraduate full-course equivalents

**Exclusion:** HIS388Y1/398Y1

**Recommended Preparation:** A course in modern European history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS339H1 - History of Modern Israel

**Hours:** 24L

This course explores the history of the Jewish state from the rise of Zionism to the present. Topics include the Zionist-Arab conflict, immigration, the construction of a new Hebrew identity, interactions between religion and state, the impact of the Holocaust, and the relationship between Israel and the Jewish diaspora.

**Prerequisite:** HIS208Y1

**Exclusion:** HIS356Y1 and HIS389H1 (History of Israel)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS340H1 - The Ottoman Empire, 1800-1922

**Hours:** 24L

The course examines the history of the Ottoman Empire from the beginning of the 19th c. until its dissolution in the course of World War I. Topics include Ottoman reforms, relations between the Empires populations and the state, the diplomatic interactions known as the Eastern Question, the Young Turk revolution, gender, and intellectual, cultural and artistic developments.

**Prerequisite:** Any two 200-level HIS courses

**Exclusion:** HIS389H1 (The Ottoman Empire, 1800-1922)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS341Y1 - Germany Among the Global Empires 1840-2010

**Hours:** 48L

This course places Germany's long national history in a transnational and global context, exploring its place among the global empires of Britain, Russia, France and the United States from the mid-seventeenth century to the present. Events of the German nation-state's political, social and cultural developments are analyzed through a framework focused on both military expansion and the development of the world economy after 1700. Particular attention is paid to the interplay between strategies for a global expansion and transformations in national culture, looking at Germany in the world and the world in Germany.

**Prerequisite:** Two HIS courses from the following: HIS102Y/103Y/107Y/109Y/241H/242H/243H/244H/EUR200Y/HIS250Y/271Y

**Recommended Preparation:** HIS102Y/109Y/241H/242H

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## HIS343H1 - History of Modern Espionage

**Hours:** 24L

An introduction to the historical origins and evolution of modern intelligence services. Topics to be studied include: intelligence in wartime; technological change; intelligence failures; covert operations; counter-espionage; the future of spying. The impact of the popular culture, both in fiction and film is also examined.

**Exclusion:** HIS343Y1

**Recommended Preparation:** HIS103Y1 or an equivalent introduction to modern international relations

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS344H1 - Conflict and Co-operation in the International System Since 1945

**Hours:** 24L

An examination of the conduct and consequences of international politics in an atomic/nuclear age when the stakes of the Great Game were not just the fates of states and nations, but the survival of humanity itself. The diplomatic, strategic and economic aspects of international relations will all receive appropriate elucidation.

**Exclusion:** HIS344Y1

**Recommended Preparation:** EUR200Y1/HIS103Y1/HIS241H1, HIS242H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS345H1 - History and Film

**Hours:** 24L/36P

This course is designed to further students knowledge of films relationship to the events they depict and their undeniable power as representational systems to render history effectively. This will necessarily entail both close examination of the formal systems film rely upon and an understanding of the distinction between fictional and non-fictional forms in film.

**Prerequisite:** 2 full courses in history or permission of instructor

**Recommended Preparation:** INI212Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS346H1 - Rice and Spice in Southeast Asia: a Regional Food History

**Hours:** 24L

This course examines the importance of food products in the livelihoods of the inhabitants of Southeast and in the world economy. It traces the circulation of these products within the Southeast Asian region in the pre-modern period, into the spice trade of the early modern era, and the establishment of coffee and sugar plantations in the late colonial period, and the role of these exports in the contemporary global economy.

**Recommended Preparation:** HIS283Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HIS347H1 - The Country House in England 1837-1939

**Hours:** 24L

This course examines class, distinction and community through the lens of the English country house from 1837 to 1939. Topics include owners, servants, houses, collections, gardens and rituals such as fox hunting.

**Prerequisite:** A course in British or European history

**Recommended Preparation:** HIS349H1/HIS302H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS348H1 - Topics in Gender History

Hours: 24L

An in-depth examination of issues in gender history. Content in any given year depends on instructor. See History website for more details.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS349H1 - History of Britain: Struggle for Power

Hours: 24L

An introduction to the history of modern England with emphasis on the search for identity with reference to the nation, the crown, class, gender, age, political parties, race and ethnicity.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS350H1 - War, State & Society

Hours: 24L

This course surveys the relationship between society, the military, and warfare from the 18th century to the present. Combining methodologies from History and International Relations, we examine the distinction between war and other kinds of inter-human conflict; the origins and effects of conscription; the relationship between modern nationalism and military service; gendered and minority perspectives on combat; and the impact of the World Wars on combatants and civilians.

**Prerequisite:** A course in European history

**Recommended Preparation:** HIS103Y1/HIS241H1/HIS242H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS351Y1 - History of Twentieth-Century Russia

Hours: 48L

A survey of the history of Twentieth-Century Russia. The social, economic, and political development of Twentieth-Century Russia, with an emphasis on the Russian Revolution and Stalinism. Stress is placed on modern historiographical issues.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS353Y1 - Poland: A Crossroads of Europe

Hours: 48L

Social and political history of Poland from the 10th to the 20th century. Analysis of the political history in a broader, central European context; consequences of Christianization of medieval Poland and the Polish-Lithuanian union; Sarmatian culture, Antemurale, Polish Messianism and Cordon sanitaire.

**Prerequisite:** HIS251Y1/permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS354H1 - Men, Gender and Power in Europe from the Renaissance to the French Revolution (formerly HIS354Y1)

Hours: 24L

An investigation of how ideas of masculinity and gender roles shaped the exercise of private and public power in early modern Europe.

**Exclusion:** HIS354Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS355H1 - A History of Pre-modern Medicine

Hours: 24L

This course surveys major themes and developments in the history of medicine from c.600 BCE to 1800 CE. Topics include: Hippocrates, Galen and their reception in the Middle Ages; monasteries, medicinal gardens and hospitals; medieval licensing of physicians and pharmacists; medieval scholastic medicine; the Black Death; Renaissance anatomy and charlatans; New World drug discoveries; William Harvey's heart, William Witherings's foxglove, the isolation of morphine.

**Prerequisite:** A course in medieval or pre-modern history

**Recommended Preparation:** HIS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS357Y1 - A Social History of Renaissance Europe (formerly HIS357H1)**

**Hours:** 48L

A social history of the 15th and 16th centuries set against the cultural and political background. Emphasis on changes in customs and living conditions resulting from economic, legal, intellectual, and religious developments of the period.

**Exclusion:** HIS357H1

**Recommended Preparation:** A course in Renaissance or Early Modern European history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS358H1 - Canadian History in 100 Objects**

**Hours:** 24L

The Canadian history course focuses on museums and material culture (history of objects). Using museum visits, lectures, and workshops, students in this course have an opportunity to conduct original research on how artefacts (and the institutions that house them) offer us new ways of thinking about the past.

**Prerequisite:** HIS264H1 or HIS263Y1

**Exclusion:** HIS389H1 (Material Culture in Canada)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS359H1 - Regional Politics and Radical Movements in the 20th Century Caribbean**

**Hours:** 24L

The role of nationalism, race and ethnicity, class conflict and ideologies in the recent development of Caribbean societies; Europe's replacement by the United States as the dominant imperial power in the Caribbean; how this mixture of regional and international pressures has led to widely differing political systems and traditions.

**Recommended Preparation:** HIS294Y1/HIS230H1,231H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS360H1 - African Canadian History, 1606-Present (formerly HIS360Y1)**

**Hours:** 24L

This course traces the earliest known arrival of people of African descent in Canada from the early seventeenth century to the time of their more recent postwar immigration trends. Using socio-historical and multidisciplinary approaches, settlement, community and institutional building and survival will be examined within the framework of other Canadian historical developments.

**Exclusion:** HIS360Y1

**Recommended Preparation:** HIS263Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS361H1 - The Holocaust, from 1942**

**Hours:** 24L/5T

Follows on HIS338H1. Themes include: resistance by Jews and non-Jews; local collaboration; the roles of European governments, the Allies, the churches, and other international organizations; the varieties of Jewish responses. We will also focus on postwar repercussions of the Holocaust in areas such as justice, memory and memorialization, popular culture and politics.

**Prerequisite:** completion of 6 undergraduate full-course equivalents and HIS338H1

**Exclusion:** HIS338Y

**Recommended Preparation:** a course in modern European history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS362H1 - The Hansa: The World of Merchants**

**Hours:** 24L

The history of the Hanseatic League in medieval Europe from the late 12th to the late 16th century, with emphasis on the organization of the German Hansa, maritime activities, Hanseatic trade, and daily life of the Hanseatic merchants in Western and Eastern Europe.

**Prerequisite:** HIS220Y1 or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS363H1 - Dynamics of Gender in Canadian History**

**Hours:** 24L

A lecture course which deals thematically with gender issues in Canadian history (including familial roles, changing patterns of work and employment, and participation in the public sphere).

**Prerequisite:** HIS263Y1/HIS264H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS364H1 - From Revolution to Revolution: Hungary Since 1848**

**Hours:** 24L

This course offers a chronological survey of the history of Hungary from the 1848 revolution until the present. It is ideal for students with little or no knowledge of Hungarian history but who possess an understanding of the main trends of European history in the 19th and 20th centuries. The focus is on the revolutions of 1848-1849, 1918-1919, the 1956 Revolution against Soviet rule and the collapse of communism in 1989. The story has not been invariably heroic, violent and tragic.

**Prerequisite:** A 100 level HIS course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS365H1 - History of the Great Lakes Region**

**Hours:** 24L/6T

A survey of the Great Lakes Region as a trans-national space from fur trade to free trade. Attention is given to the political, social, economic, environmental, and cultural histories that affected the development of the region.

**Prerequisite:** HIS263Y1/HIS264H1/HIS271Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS366H1 - Aboriginal Peoples of the Great Lakes from 1815 to the Present**

**Hours:** 24L/5T

Explores the history of Aboriginal peoples (Indigenous and Metis) living in the Great Lakes Region after the Great Lakes were effectively split between British North America (later Canada) to the north and the United States to the south, when a rapidly increasing newcomer population on both sides of the border marginalized Indigenous peoples and settled on their land. Topics include a comparative examination of Indigenous experiences of colonialism, including treaties and land surrenders as well as the development of government policies aimed at removing and/or assimilating Great Lakes peoples. This course will also study resistance by First National and Tribal Councils to those programs over nearly two centuries and assess local strategies used for economic and cultural survival.

**Prerequisite:** HIS263Y1/HIS264H1/HIS271Y1

**Exclusion:** HIS369Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS367Y0 - The City in Central Europe: Imperial Pasts, Imperial Aspirations, Wars and Revolutions**

**Hours:** 48L

The cities of Central Europe, and most notably those of the Habsburg Empire, were at the forefront of Europe's cultural, artistic and intellectual development until the outbreak of the Second World War. Moreover, these cities remain living monuments to the achievements of European culture to the present day. These cities also represent some of the darker aspects of European history. The goal of this course is to familiarize students with the history of Central Europe, the complex historical role of central European cities, their interaction with imperial and then national cultures, economies and societies, and their importance in creating modern nation states.

Offered in summer only as part of the Summer Abroad Program.

**Prerequisite:** 1 FCE in History

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS368H1 - Early Modern Britain, 1485-1660 (formerly HIS238H1)**

**Hours:** 24L

Introduction to the political, social and religious history of early modern England, Scotland and Ireland. Particular attention will be paid to the history of the monarchy, the Protestant Reformation, gender issues and relations between different parts of the British Isles.

**Exclusion:** HIS337Y

**Recommended Preparation:** EUR200Y1, HIS109Y1/243H1/244H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS369H1 - Aboriginal Peoples of the Great Lakes from 1500 to 1830**

**Hours:** 24L/5T

Explores the history of Aboriginal peoples (Indigenous and Métis) living in the Great Lakes Region from the 16th century to the aftermath of the war of 1812. Weaving together interdisciplinary sources, this course examines central events in Great Lakes history including the formation of the Wendat and Haudenosaunee Confederacies and key Anishinaabek alliances, the arrival of European newcomers into an Indigenous landscape, the social-political impact of new diseases, reactions to European missionaries, the fur trade, major conflicts and peace processes including the Great Peace of Montreal, the Treaty of Niagara and the 60 Years War for the Great Lakes; and ending with the period of significant encroachment of new settlers on Indigenous lands. Tutorials, primary source analysis, essay, exam.

**Prerequisite:** HIS263Y1/HIS264H1/HIS271Y1/ABS201Y1

**Exclusion:** HIS369Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS372H1 - Topics in U.S. History**

**Hours:** 24L

In-depth examination of selected periods or themes in U.S. history. Topic in any given year depends on instructor. See History website for more details.

**Prerequisite:** HIS271Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS373H1 - Servants and Masters, 1000- 1700**

**Hours:** 24L

This course will explore the history of all types of servants, from the ladies-in-waiting to the domestic slaves, in Western Europe between 1000 and 1700. The goal will be to observe especially their working and living conditions, as well as the changing perception of service through time.

**Prerequisite:** A course on the Middle Ages or on the early Modern Period

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS374H1 - American Consumerism - The Beginnings**

**Hours:** 24L/6T

This course looks at the early origins of American consumerism. It begins with 17th-century England and the economic imperatives within the Atlantic World, then traces the changing attitudes of 18th-century Americans towards consumer goods, fashion and style that led to the mass consumption of the 19th century.

**Prerequisite:** HIS271Y1 and at least 6 completed undergraduate courses.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS375H1 - Politics and Protest in Postwar North America**

**Hours:** 24L

This course will explore the background, experience, and legacy of protest movements in North America during the post-1945 era. The course will draw on cutting edge historical literature, and will compare and contrast the American and Canadian contexts. Topics will include the Cold War, the Civil Rights Movement, feminism, nationalism, environmentalism, labour, and the New Left.

**Prerequisite:** Completion of a minimum of 4.0 FCEs

**Exclusion:** HIS378H1

**Recommended Preparation:** HIS263Y1/HIS264H1/HIS271Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS376H1 - The United States: Now and Then

**Hours:** 24L

An exploration of some of the historical roots of issues that are of particular importance to understanding the United States of the early 21st century: e.g., the conflicts in Iraq, Afghanistan, and Syria and U.S. global leadership (or hegemony); the impact of globalization on the domestic economy; cultural innovation vs. neo-conservatism.

**Prerequisite:** HIS271Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS377H1 - 20th-Century American Foreign Relations (formerly HIS377Y1)

**Hours:** 24L

A survey of the history of American foreign relations from 1898 to the present. Themes include imperial expansion and the uses of power; the relationship of business and government in U.S. foreign policy; and the role of culture and ideas in America's relations with the world.

**Prerequisite:** HIS271Y1/POL208Y1

**Exclusion:** HIS377Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS378H1 - America in the 1960s

**Hours:** 24L

A survey of one of the most turbulent decades in American history. Examines the political, social, economic and cultural revolutions that transformed the face of America.

**Prerequisite:** HIS271Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS379H1 - Vietnam at War

**Hours:** 24L

This course examines the French and American Wars (1945-75) in Vietnam and its effects on the population of Vietnam and Southeast Asia. It begins with a brief overview of pre-colonial Vietnamese history and moves into a study of the impact and legacies of colonial rule and centres on the impact of the Wars on the cultures, economies, and societies of Southeast Asia.

**Prerequisite:** HIS283Y1 or another Asian history course.

**Exclusion:** HIS400H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS380H1 - Late Imperial China (formerly HIS380Y1)

**Hours:** 24L

The political, social, and economic history of China from the period of political and economic reorganization in the Song dynasty to the final glory of the imperial order down to the end of the 18th century and its decay in the 19th.

**Prerequisite:** EAS102Y/HIS280Y1/JMC201Y1

**Exclusion:** HIS380Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS383Y1 - Women in African History (formerly HIS383H1)

**Hours:** 24L

This course subjects our increasing knowledge about African women's history from the mid-19th century to the present to critical analysis. It goes beyond restoring women to history and seeing African women as victims impacted upon and struggling against colonialism and neo-colonialism. It examines how African women's lived experiences have been represented, packaged, and delivered to different audiences.

**Prerequisite:** HIS295Y1/297Y1/NEW150Y1/NEW250Y1/NEW351Y/POL301Y1 or permission from the Instructor

**Exclusion:** HIS383H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JHA384H1 - Japan in the World, mid-16th to mid-20th century

Hours: 24L

This course examines Japan within the context of world history from the mid-16th to the mid-20th century. Rather than seek comprehensive coverage of Japan's national history along a linear timeline, we will use Japan as a lens through which to consider key moments in the history of the modern world.

**Prerequisite:** HIS102Y1/HIS103Y1/HIS107Y1/HIS241H1/HIS242H1/HIS244H1/HIS250H1/HIS250Y1/HIS271Y1/HIS280Y1/HIS281Y1/HIS282Y1/HIS283Y1/HIS291H1/HIS291Y1/HIS292H1/HIS292Y1/HIS297Y1 or permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS385H1 - The History of Hong Kong

Hours: 24L

A study of political, economic, and social change in the British colony of Hong Kong from 1842 until the present day.

**Exclusion:** Students cannot take both the Y and H version of HIS385

**Recommended Preparation:** HIS280Y1/JMC201Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS385Y0 - The History of Hong Kong

Hours: 48L

A study of political, economic, and social change in the British colony of Hong Kong from 1842 until the present day.

Offered in summer only as part of the Summer Abroad Program.

**Exclusion:** Students cannot take both the Y and H version of HIS385

**Recommended Preparation:** HIS280Y1/JMC201Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS387H1 - France, 1610-1848 (formerly HIS388Y1)

Hours: 24L

This course considers the history of France, from the rise of absolutist monarchy under the seventeenth-century, Bourbon monarchs, through the Enlightenment, the Revolution and Napoleonic Empire, and the Restoration, to the fall of the constitutional monarchy in 1848.

**Prerequisite:** one HIS/FRE course

**Exclusion:** HIS388Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS388H1 - France Since 1848 (formerly HIS388Y1)

Hours: 24L

A study of French society, politics and culture from the Paris Commune to the 1990s. Special attention is paid to watersheds like the Dreyfus Affair and the Vichy regime, to issues of regionalism/nationalism, cultural pluralism, women's rights, intellectual and cultural trends, and decolonization.

**Prerequisite:** EUR200Y1/one course in HIS/FRE

**Exclusion:** HIS388Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS389H1 - Topics in History

Hours: 24L

In-depth examination of historical issues. Content in any given year depends on instructor. See History website for more details.

**Prerequisite:** 9.0 FCEs including 1.0 FCE HIS course. Further pre-requisites vary from year to year, consult the department.

**Distribution Requirements:** Humanities

## HIS389Y1 - Topics in History

Hours: 48L

In-depth examination of historical issues. Content in any given year depends on instructor. See History website for more details.

**Prerequisite:** 9.0 FCEs including 1.0 FCE HIS course. Further pre-requisites vary from year to year, consult the department.

**Distribution Requirements:** Humanities

## HIS391Y1 - Black Freedom in the Atlantic World

**Hours:** 72L

Black writers and historical actors were at the vanguard of re-conceiving, implementing, and realizing much of the Enlightenment project of freedom. Africans and people of African descent significantly affected its meaning in the Atlantic world. The course sets out to explore this history as well as the contemporary practice of freedom.

**Prerequisite:** A course in African or European history

**Exclusion:** HIS296Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JAH391H1 - Topics in Anthropology and History

**Hours:** 24S

Anthropological and Historical perspectives on topics that vary from year to year.

**Recommended Preparation:** ANT204H1 or a course in European History

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JAH391Y0 - Topics in Anthropology and History

**Hours:** 48S

Anthropological and Historical perspectives on topics that vary from year to year.

**Recommended Preparation:** ANT207H1 or a course in European History

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## HIS392Y1 - Screening Freedom

**Hours:** 48L

This course examines how filmmakers in Africa, The Americas, and Europe have dealt with subjects such as slavery, colonialism, racism and postcolonial issues such as illegal immigration or structural adjustment. The course interpolates texts from HIS391Y1 into these films in order to bring new perspectives to questions of freedom in different media, times, and places.

N.B. This course supplements HIS391Y1.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## HIS393H1 - Digital History

**Hours:** 24L

Explores implications for history and its methods of the shift from print to digital sources. Imparts introductory skills in the manipulation of digital media, such as the use of maps, GIS and big data.

**Prerequisite:** 200-level History course

**Exclusion:** HIS389H1 (Digital History)

**Distribution Requirements:** Humanities

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## HIS394H1 - 20th and 21st Century African Icons: Media and Biography

**Hours:** 24L

Superseding 19th century European missionary and explorers' accounts of Africa; media in the 20th and 21st centuries have unequivocally played a key role in shaping the globe's views of Africa and Africans. In 2005, BBC Focus on Africa put out an impressive list of more than 100 "African Icons". Since then, a number of websites have come up with various lists of African icons. Who are the African icons and what makes them icons? How have the media contributed in making them icons?

**Prerequisite:** HIS295Y1/ HIS297Y1/ HIS383H1/ HIS383Y1/ HIS386H1/ HIS481H1/ NEW160Y1/NEW261Y1/NEW351Y1/ POL301Y1/POL361H1 or by permission from the Instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JHA394H1 - The Asia Pacific War

**Hours:** 24L

This course examines the Second World War in the Asia Pacific region and highlights: (1) how imperialism and colonialism of both the Euro-American and Japanese varieties were central to the War's outbreak, conduct, and "resolution"; (2) various "local" rather than simply national experiences and memories of the War, including those of marginalized groups in Japan and its colonies, "comfort women", victims of war atrocities, Asian North Americans, African Americans, and Pacific Islanders.

**Prerequisite:** HIS107Y1/ HIS242H1/ HIS250H1/ HIS251H1/ HIS263Y1/ HIS271Y1/ HIS280Y1/ HIS281Y1/ HIS282Y1/ HIS283Y1/ HIS284Y1/ HIS292Y1/ HIS311Y1/ HIS317H1/ HIS328H1/ HIS338H1/ HIS343H1/ HIS343Y1/ HIS344H1/ HIS344Y1/ HIS351Y1/ HIS361Y1/ HIS377H1/ HIS385H1/ HIS385Y1

**Recommended Preparation:** One or more courses on Japan, China, Korea, or Southeast Asia in any department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS395H1 - Independent Studies

**Hours:** TBA

This course provides an opportunity for exceptional third-year students to undertake an independent research project on a topic for which there is not a suitable course offering. Students must find an appropriate supervisor from the Department, submit a proposal, and receive approval for the project. Students must be enrolled in either a History Specialist or Major program; have taken at least 3.0 FCE in HIS with a B+ average; and have approval of an instructor willing to supervise the project. Not eligible for CR/NCR option.

**Prerequisite:** Third-year standing; 77% average in 3.0 HIS FCEs.

**Distribution Requirements:** Humanities

## HIS395Y1 - Independent Studies

**Hours:** TBA

This course provides an opportunity for exceptional third-year students to undertake an independent research project on a topic for which there is not a suitable course offering. Students must find an appropriate supervisor from the Department, submit a proposal, and receive approval for the project. Students must be enrolled in either a History Specialist or Major program; have taken at least 3.0 FCE in HIS courses with a B+ average; and have approval of an instructor willing to supervise the project. Not eligible for CR/NCR option.

**Prerequisite:** Third-year standing; 77% average in 3.0 HIS FCE.

**Distribution Requirements:** Humanities

## HIS396H1 - Business and Society

**Hours:** 24L

This course is designed for students interested in big business's complex structural development and social significance. It exams business's adaption to technological, regulatory and political change along with social thinker's reaction to commerce and business's involvement with some of the greatest political and economic challenges of past 150 years.

**Exclusion:** HIS389H1 (Buisness and Society)

**Recommended Preparation:** One 100 level humanities or business course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS397H1 - Political Violence and Human Rights in Latin America

**Hours:** 24L

This course will explore human rights theory and practice from a Latin American perspective. There will be a focus on the local derivation, development and impact of the movement for human rights in Latin America. The course will focus on the history of organized protest against violence in the twentieth century.

**Prerequisite:** HIS292H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## HIS399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## HIS400H1 - The American War in Vietnam

**Hours:** 24S

This course examines the French and American Wars (1945-75) in Vietnam and its effects on the population of Vietnam and Southeast Asia. It begins with a brief overview of pre-colonial Vietnamese history and moves into a study of the impact and legacies of colonial rule and centres on the impact of the Wars on the cultures, economies, and societies of Southeast Asia.

**Prerequisite:** By permission of the Instructor

**Exclusion:** HIS315H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS401Y1 - History of the Cold War (formerly HIS401H1)

**Hours:** 48S

This course covers international relations from World War II to the collapse of the Soviet Union. Topics include the breakdown of the wartime alliance, Soviet predominance in eastern Europe, the Western response, NATO, atomic weaponry.

**Prerequisite:** HIS311Y1/HIS344H1/HIS344Y1/HIS377H1

**Exclusion:** HIS401H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS402H1 - Canada and Decolonization

**Hours:** 24S

This course will explore the multi-faceted ways in which Canada was shaped by and was an active participant in global decolonization following the Second World War. An emphasis will be placed on the larger global context in which post-war Canadian history unfolded. Topics will include Aboriginal politics, changing migration patterns, Quebec nationalism, diasporic politics, anti-colonial thought and oppositional social movements.

**Prerequisite:** HIS263Y1/HIS264H1

**Recommended Preparation:** HIS307H1/312H1/314H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS403H1 - Jews and Christians in Medieval and Renaissance Europe (formerly HIS403Y1)

**Hours:** 24S

The course focuses on aspects of Jewish-Christian relations ca.300-1600, such as royal and ecclesiastical Jewish policies; religious polemics; intellectual collaboration; social and economic interaction; anti-Judaism and religious violence. (Joint undergraduate-graduate)

**Exclusion:** HIS403Y1

**Recommended Preparation:** HIS208Y1/HIS220Y1/HIS243H1/HIS322Y1/ HIS357Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS404H1 - Topics in U.S. History

**Hours:** 24S

Selected topics in U.S. history. Topics in any given year depend on the instructor. Please see History website for details.

**Prerequisite:** HIS271Y

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS405Y1 - Canadian Foreign Relations

**Hours:** 48S

A course on Canadian external relations since 1945. Topics include Canada and the Cold War, the Korean War, the Suez crisis and the war in Vietnam, membership in international organizations, and bilateral relations with other countries. (Joint undergraduate-graduate)

**Prerequisite:** HIS311Y1/POL312Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS406H1 - Advanced Topics in Gender History

**Hours:** 24S

An in-depth examination of issues in gender history. Content in any given year depends on instructor. See History website for more details.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS407H1 - Imperial Germany, 1871-1918 (formerly HIS407Y1)**

**Hours:** 24S

Historiographical controversies and the latest empirical findings concerning social conflict and political mobilization under Bismarck and Wilhelm II. Problems raised by competing schools of interpretation include definitions of the authoritarian state, bourgeois hegemony, localism and regionalism, radical nationalism, workers' culture, and gender relations. (Joint undergraduate-graduate)

**Prerequisite:** HIS317H1 or permission of the instructor

**Exclusion:** HIS407Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS410H1 - Spectacle, Crowds, and Parades in Canada**

**Hours:** 24S

Social and cultural approaches to understanding spectacles, crowd behaviour, and parades in the Canadian past, 1660s - 1980s.

**Prerequisite:** HIS263Y1/HIS264H1/HIS367H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS411H1 - Great Trials in History**

**Hours:** 24S

This seminar course will study a handful of great trials in close detail. Using materials from the modern period in Europe and North America, we will look at the clash of ideas represented in these high-profile cases, the historical setting in which they were embedded, the human drama, legal and sometimes constitutional issues, and their impact both on their societies and our own.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS412Y1 - Crusades, Conversions and Colonialization in the Medieval Baltic (formerly HIS412H1)**

**Hours:** 48S

Explores the impact of crusades, religious conversion and colonialization on medieval Baltic history through analysis of two medieval chronicles in English translation. Topics include culture clash, medieval colonialism, Europeanization as well as German expansion eastwards, the role of the Teutonic Knights and the strategies of survival of the native Baltic people after conquest and Christianization.

**Exclusion:** HIS412H1

**Recommended Preparation:** HIS250H1/HIS250Y1/  
353Y1/permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS413H1 - Slave Emancipation in the Atlantic World**

**Hours:** 24S

Examines the process and consequences of slave emancipation in the Atlantic World, beginning with the French and Haitian Revolutions and concluding with slavery and abolition in West Africa in the early 20th century. Students are introduced to the major literature and historiographical debates surrounding emancipation.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS414H1 - Down and Out in Medieval Europe**

**Hours:** 24S

Explores the life conditions of individuals on the lower echelons of medieval society (the poor, servants and apprentices, the exiled, prisoners, slaves, foreigners and lepers). In parallel, we will discuss the various conceptions of poverty that prevailed in the Middle Ages. These objectives will allow us to glimpse the European Middle Ages from an unusual angle as well as reflect on important socio-economic and religious changes.

**Prerequisite:** HIS220Y1 or a course on the Middle Ages

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS415Y1 - Nationalism & Memory in Modern Europe (formerly HIS415H1)**

**Hours:** 48S

Investigates the modern concept of the nation and its connections to the idea of collective memory in twentieth-century Europe. Through reading and discussing seminal works on nationalism and national memory, we will discuss the connections between modern notions of nation and practices of remembering.

**Prerequisite:** Two history courses from the following: HIS102Y1,103Y1,109Y1,241H1,242H1,243H1,244H1,245H1,EUR200Y1,HIS317H1

**Exclusion:** HIS415H1

**Recommended Preparation:**

HIS102Y1,109Y1,241H1,242H1,243H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS416H1 - Orientalism and Nationalism in Nineteenth-Century Germany**

**Hours:** 24S

In 1771, with the translation of the Zend-Avesta by the French Scholar Anquetil-Duperron, a new era opened in German national culture. From the philosophy of Johann Gottfried von Herder to the novels of Thomas Mann, this course analyzes the ways in which German writers defined the substance and place of national culture in their writings about India, Central Asia and the East.

**Prerequisite:** HIS241H1, 242H1/317H1/Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS417H1 - The Oldest Profession in Canada: Sex Work in Comparative Historical Contexts**

**Hours:** 24L

This course explores historical populations involved in "the world's oldest profession" in Canadian and comparative contexts, 1680-onwards. Using a range of texts, including film, memoirs, oral histories and photographs, students explore both lived experiences and representations of a range of sex-trade involved populations, including madams, clients, and queer and trans workers.

**Prerequisite:** HIS263Y1/HIS264H1,an additional .50 300+ level HIS course, permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS419H1 - Canada By Treaty: Alliances, Title Transfers and Land Claims**

**Hours:** 24S

A detailed study of the treaty process between indigenous peoples and newcomers in Canadian history, with examination of the shift between alliance treaties to land surrender agreements from the colonial period through to the signing of recent treaties including the Nunavut Land Claims Agreement and the Nisga'a Final Agreement.

**Prerequisite:** HIS263Y1/HIS264H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS420H1 - Russia's Great Patriotic Wars**

**Hours:** 24S

The course examines Russia's wars with Napoleon and Hitler, both as military campaigns and as important nation-building events, largely through memoir literature.

**Prerequisite:** HIS250H1/HIS250Y1/HIS325H1/HIS351Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS423H1 - Social History of Medicine in the 19th& 20th Centuries (formerly HIS423Y1)**

**Hours:** 24S

Introduces students to current issues in the social history of medicine and some of the major developments in the modern history of the discipline. The format is class discussion based on themes covered in the course textbook, covering such topics as the history of the doctor-patient relationship, changes in physicians' social status, changing attitudes toward the body, and the evolution of various medical and surgical specialties including obstetrics and gynecology. (Joint undergraduate-graduate).

**Prerequisite:** A minimum of one course in HIS/PSY/SOC

**Exclusion:** HIS423Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS424H1 - Violence in Medieval Society (formerly HIS424Y1)**

**Hours:** 24S

This seminar explores the social function and meaning of violence in medieval society, and the development of rituals and institutions to control violence. Among the topics treated: Germanic blood feud, aristocratic violence and chivalry, criminal justice systems, violence against minorities, and violence and gender. (Joint undergraduate-graduate)

**Prerequisite:** HIS220Y1/HIS320H1/HIS321H1/HIS322H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS426H1 - Medieval Italy, 400-1000**

**Hours:** 24S

This course surveys the major developments and figures of Italian history by focusing on key primary texts (in translation) with a particular view to urban and legal history which will form the backdrop to understanding artistic and literary achievements in context.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS427H1 - History and Historiography in the Golden Legend**

**Hours:** 24S

The Golden Legend or Readings on the Saints, compiled by Jacobus de Voragine C. 1260, serves as the basis for a seminar on the relation of history and legend as understood in the High Middle Ages. (Joint undergraduate-graduate)

**Prerequisite:** HIS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS428H1 - Medieval Institutes of Perfection**

**Hours:** 24S

The first goal of this seminar is to help students read the sources with a more critical eye, especially narrative sources (Lives of Saints) and normative sources (rules and customaries). The second goal is to study the evolution of the monastic ideal from its origin to the 12th century. (Joint undergraduate-graduate)

**Prerequisite:** A course specifically on the Middle Ages such as HIS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS429H1 - Canada and Empire in the Twentieth Century**

**Hours:** 24S

This course explores the ways in which twentieth century Canada was shaped by its complex relationship to empire. Course readings place Canadian historiography into dialogue with new theoretical and methodological approaches drawn from postcolonial studies, new imperial history, feminist and critical race theory. Topics include the meaning of empire in everyday life, migration, the impact of global decolonization, and Aboriginal politics.

**Prerequisite:** HIS263Y1/HIS264H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS430H1 - Canadians and the World Wars**

**Hours:** 24S

Topics in the political, social, cultural, and military history of Canadians during the First and Second World Wars. Emphasis on the home front.

**Prerequisite:** HIS263Y1/HIS264H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS432H1 - Topics in Medieval History

**Hours:** 24S

The students define together with the professor eight different topics (e.g. relics, masculinity, leprosy, clothes, recluses, peasants houses, gynecology and the peace of God). Each topic is approached through a class discussion, on the basis of a common corpus of secondary sources, plus presentations by the students.

**Prerequisite:** A course in Medieval history such as HIS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS433H1 - Polish Jews Since the Partition of Poland

**Hours:** 24S

To explore the history of Polish Jews from the Partitions of Poland to the present time, concentrating on the 19th and the first half of the 20th centuries: situation of Polish Jews in Galicia; Congress Kingdom of Poland; Prussian-occupied Poland before 1914; during World War II; and post-war Poland. Focus on an analysis of primary sources. (Joint undergraduate-graduate)

**Prerequisite:** HIS208Y1/251Y1/permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS434Y1 - Kievan Rus

**Hours:** 48S

The origin of Rus, international trade, the impact of nomadic peoples, the introduction of Christianity, the economic system and the problem of feudalism, the political structure and the dilemma of princely succession; literature and architecture; the displacement of political power centres and depopulation, the preservation of the Kievan heritage. (Joint undergraduate-graduate)

**Prerequisite:** HIS220Y1/HIS250H1/HIS250Y1/HIS320H1/HIS321H1/HIS322H1/JHP204Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS435H1 - Themes in Toronto History

**Hours:** 24S

This course will examine aspects of Toronto's history. It is not a general survey of Toronto history; instead, the course will normally revolve around a specific theme or group of themes. Specific themes vary by year, depending on the focus of the instructor. Strong emphasis will be placed on reading and research.

**Prerequisite:** Any second year Canadian history course or permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS437H1 - Telling Lies About Hitler: Frauds and Famous Feuds Among German Historians

**Hours:** 24S

Examines historiographical controversies and their public reception. Topics include the forged Hitler diaries, the David Irving trial, German responsibility for 1914, Daniel Goldhagen's "eliminationist" thesis, Auschwitz as an "Asiatic deed", Wehrmacht complicity in the Holocaust and retrospective films about East Germany.

**Recommended Preparation:** HIS242H1/

317H1/330H1/338H1/361H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS438H1 - Inquisition and Society in Medieval and Early Modern Europe

**Hours:** 24S

Focusing on the institution of the inquisition, this seminar explores the response of ecclesiastical and secular authorities to religious heterodoxy. Among the groups prosecuted by the inquisition discussed: Cathar heretics in France, crypto-Jews and crypto-Muslims in Spain, and witches in Italy.

**Recommended Preparation:** HIS220Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS439H1 - Russia's Empire

**Hours:** 24S

This course examines ways in which the Russian Empire and Soviet Union expanded their territories, the ways they controlled those colonies, and the ways in which they dealt with rising nationalism both at home and abroad.

**Prerequisite:** HIS250H1/250Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS440H1 - Maps and History

**Hours:** 24S

Examines the use of maps through the ages to depict spatial relationships and political, social, or cultural authority. Explores the visual display of quantitative information, the evolution of historical atlases, and cartographic crime. Such topics as Lebensraum and gerrymandering illustrate how maps can distort historical processes and communal relationships.

**Recommended Preparation:** at least three History courses at the 200/300 level

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS442H1 - Jews and the Holocaust in the Soviet Union

**Hours:** 24S

This course is an advanced research seminar in Soviet history. It will explore the Jewish experience in the Soviet Union, with a focus on the Holocaust. The seminar will begin with an examination of the history of Jews in the Russian Empire and the Soviet Union in the years leading up to the Second World War. Then the course will pivot directly to the topic of the Holocaust on Soviet soil. How did the Holocaust in the east differ from the Holocaust in the west? How did the conduct of war condition genocide in the Soviet Union? How did Soviet Jews and non-Jews respond to the German genocide? What was the response of Stalin and the Soviet government to the Holocaust? How is the Holocaust remembered by the states and people of the former Soviet Union.

**Prerequisite:** HIS351Y1 or a course on the Holocaust

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS443H1 - Society, Culture and Religion in the Renaissance and Reformation (formerly HIS443Y1)

**Hours:** 24S

Developments in popular/lay/local religion as expressed in a variety of cultural, political, and social forms from 1400-1600; the relation of these forms to both Catholic and Protestant institutional churches. Impact of Renaissance humanism on notions of kinship, order, community, perfection.

**Prerequisite:** HIS309H1/357Y1 or permission of instructor

**Exclusion:** HIS443Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS444H1 - Topics in Jewish History

**Hours:** 24S

Selected topics on a specific period or theme in Jewish history. Topic in any given year will depend on the instructor. Please see History website for details.

**Prerequisite:** A course in modern European or Jewish history

**Recommended Preparation:** A course in Jewish history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS445H1 - Nationalism

**Hours:** 24S

What is a nation? Are nations ancient or modern, unchanging or malleable? Do nations create states, or does the state create the nation? This course seeks to answer these questions through an examination of nationalism, primarily in Europe, from the 1700s through the present.

**Prerequisite:** Two courses in European history or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS446H1 - Gender and Slavery in the Atlantic World (formerly HIS446Y1)

**Hours:** 48S

The course examines the relationship between gender and the experience of slavery and emancipating several Atlantic world societies from the 17th-19th centuries. Areas to be covered are the Caribbean, Brazil, the U.S. South, West and South Africa and Western Europe.

**Prerequisite:** HIS291H1/HIS294Y1/HIS230H1,231H1/HIS295Y1

**Exclusion:** HIS446Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS448H1 - Gender in East and Southeast Asia (formerly HIS391H1)

**Hours:** 24S

This course explores the history of gender in East and Southeast Asia from a comparative perspective. It will examine how models of Southeast Asian women have been constructed against their East Asian counterparts.

**Prerequisite:** HIS283Y1

**Exclusion:** HIS391H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS449Y1 - Ukrainian National Revival

**Hours:** 48S

The role of the intelligentsia in East European national revivals; the ethnographic and literary revival; the language question; the press and cultural organizations; education; religion; and political movements. (Joint undergraduate-graduate)

**Recommended Preparation:** One of the following: JHP204Y1/HIS241H1/HIS251Y1/HIS445H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS451H1 - World War II in East Central Europe

**Hours:** 24S

The fall of the Versailles system, German and Soviet diplomatic and military activities and their occupational policies in East Central Europe during World War II, economic exploitation, collaboration, resistance, and genocide in the discussed region, its liberation and sovietization in 1944-1945. (Joint undergraduate-graduate)

**Prerequisite:** EUR200Y1/HIS251Y1/HIS334Y1/HIS334H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JHP451Y1 - The People from Nowhere

**Hours:** 48S

This course traces from earliest times to the present the evolution of a people called Carpatho-Rusyns and their historic homeland Carpathian Rus', located in the heart of Europe. The historic survey will deal with political, socioeconomic, and cultural developments, all the while testing the hypothesis that nationalities are imagined communities. (*Given by the Departments of History and Political Science*)

**Recommended Preparation:** a course in eastern European history, or in nationalism

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## HIS452H1 - Science and Society in Britain, 1600-1800

**Hours:** 24S

Interrogates British landmarks of the Scientific Revolution and Enlightenment in their intellectual, religious, cultural and social contexts. Addresses canonical "achievements" in astronomy, physics and chemistry but deals equally with popular "pseudo" sciences like astrology and mesmerism. Deconstructs progress narratives and paradigms of knowledge acquisition in Britain and its imperial world. Investigates connections (or lack of them) between elite and popular culture. Do not register for this seminar without at least one of the pre-requisites because this course deals extensively with mentalities of the pre-modern world.

**Prerequisite:** HIS244H1/HIS337H1/HIS368H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JHP454Y1 - Twentieth Century Ukraine

**Hours:** 48S

World War I and the Russian Revolution: the Ukrainian independence movement; the Soviet Ukraine and west Ukrainian lands during the interwar period; World War II and the German occupation; the Soviet Ukraine before and after the death of Stalin. Socio-economic, cultural, and political developments. (*Given by the Departments of History and Political Science*)

**Prerequisite:** A course in modern European, East European or Russian history or politics such as JHP204Y1/HIS250Y1/HIS351Y1/HIS353Y1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## HIS455Y1 - Hacking History: Digital Projects Capstone Class

**Hours:** 48S

This course provides a unique opportunity to grapple with the challenges of public history, while exploring new methods and technologies in the digital humanities. Each year, we partner with one or more community groups to create historical websites which endure well beyond the school year. Topics vary annually.

**Prerequisite:** HIS393H1, equivalent experience, or instructor's permission

**Recommended Preparation:** Basic HTML/CSS skills as learned in self-paced online introductions

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS457H1 - The French Revolution and the Napoleonic Empire

**Hours:** 24S

Explores the central themes in the history of France during the Revolution and the First Empire. We will consider the periods principal political, social and cultural aspects: the causes of the French Revolution; the shift from constitutional monarchy to Republic; the relationship between politics and religion; the invention of a new republican political culture; counterrevolution and Terror; the Directory; Bonapartes rise to power; the Napoleonic Empire; the nature of war during the Empire; the Restoration; and the Revolutions legacy in France and beyond today.

**Prerequisite:** HIS243H1/HIS244H1/HIS319H1/HIS341Y1/HIS387H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS459H1 - Soviet History and Film, 1921-1946

**Hours:** 24S

The history of Soviet cinema and the importance of film as a historical source. Documentary and fiction film; editing, narration, and sound; film distribution and exhibition; the Soviet school of montage and socialist realism; nationality and gender; the Soviet musical comedy of the Stalin era; resistance and dissidence.

**Prerequisite:** CIN105Y1/HIS250Y1/HIS250H1/HIS335H1

**Exclusion:** HIS450Y1/SLA233H1/234H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HIS460H1 - Soviet History and Film, 1941-1991

**Hours:** 24S

Soviet film as a historical source and the institutional and ideological history of Soviet film production, distribution, and exhibition. Fiction and documentary film during World War II; the cinema of the Cold War and the Thaw; Soviet new realism and the return of the village; avant-garde cinema of the 1960s-80s; memory and historical revision in late Soviet film. Screenings include never-before-seen archival footage, as well as films and film clips subtitled by the instructor.

**Prerequisite:** INI115Y1/HIS250Y1/335H1

**Exclusion:** HIS450Y1/SLA233H1/SLA234H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HIS461H1 - Poland in the 20th Century

**Hours:** 24S

The 20th century has been an age of experiments for Poland. Universal, general problems of democracy, authoritarianism, totalitarianism, communism, socialism, free market and centrally planned economies, are examined, as are the ongoing adjustments made by the Polish people. (Joint undergraduate-graduate)

**Prerequisite:** HIS334H1/HIS353Y1/permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS463H1 - Cloth in American History to 1865

**Hours:** 24S

Cloth was a major commodity in the early modern world. Positioning early America within a global context and employing a material culture framework, textiles and clothing provide the lens through which to view the social, cultural, economic and industrial development of the United States from pre-European contact until the 1860s.

**Prerequisite:** HIS271Y

**Recommended Preparation:** HIS374H1/VIC224Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS464H1 - Religion and Violence in Comparative Perspective

**Hours:** 24S

Examines varying roles of religion in cases of genocide and extreme violence. Seminar proceeds from recent cases (Darfur, Rwanda, wars associated with break-up of Yugoslavia) backward through the 20th century (Cambodia, Indonesia, the Holocaust, Armenians, Herero) and the 19th century (Belgian Congo, Caucasus, native peoples in the Americas).

**Prerequisite:** one course in HIS/REL/Peace and Conflict

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS465Y1 - Gender and International Relations

**Hours:** 48S

This seminar explores the use of gender as a category of analysis in the study of international relations. Topics include gendered imagery and language in foreign policymaking; beliefs about women's relationship to war and peace; issues of gender, sexuality, and the military; gender and global governance; gender and the global economy; sexual violence; and contributions of feminist theory to international relations theory.

**Prerequisite:** HIS311Y/HIS344Y/HIS377H1/POL208Y1/POL351H1/JPP343H1/WGS160Y1 or permission of instructor

**Exclusion:** JHP440Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2); Society and its Institutions (3)

## HIS466H1 - Topics in Canadian History (formerly HIS466Y1)

**Hours:** 24S

Selected topics in a specific period of Canadian history. Content in any given year depends on instructor. Please see the History Department website for complete description.

**Prerequisite:** HIS263Y1 or permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS467H1 - French Colonial Indochina: History, Cultures, Texts, Film (formerly HIS467Y1)

**Hours:** 24S

Examines French colonial Indochina through several different lenses. Themes include the cross-cultural contact zones between colonial and colonized societies, imperial culture, expressions of colonial power, and forms of opposition. Colonial novels, translated resistance literature, documentaries, and films are utilized as primary sources to be examined critically.

**Prerequisite:** ANT344Y1/EAS204Y1/GGR342H1/HIS104Y1/HIS107Y1/HIS280Y1/HIS283Y1/HIS284Y/HIS315H1/HIS388H1/NEW369Y1

**Exclusion:** HIS467Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS470H1 - History, Rights, and Difference in South Asia

**Hours:** 24S

Addressing South Asian history after 1750, this course examines ideas of rights, contract, and the rule of law in colonial and postcolonial contexts. Attention is paid to the intellectual history of rights and the central place of colonial and postcolonial questions within that history. Topics include rights and questions concerning indigenous culture, caste and customary practice, gender and capitalist development.

**Prerequisite:** A mark of 73% or higher in HIS282Y1 or instructors permission

**Recommended Preparation:** Background in political and social theory and some background in South Asia

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS472H1 - Indigenous-Newcomer Relations in Canadian History (formerly HIS472Y1)**

**Hours:** 24S

The trajectory of Canadian history has been (and continues to be) shaped significantly by the changing relationships between indigenous peoples and newcomers to what is now Canada. Through discussion of readings on various seminar topics, we will explore the multi-faceted contours of these relationships, from cultural encounters, treaties & alliances, and missionization to colonization, assimilation, residential schools and contemporary issues.

**Prerequisite:** HIS263Y1 (minimum 73%)

**Exclusion:** HIS472Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS473Y1 - The United States and Asia since 1945 (formerly HIS473H1)**

**Hours:** 48S

This seminar examines strategic, economic, ideological, and cultural factors in U.S. relations with East and Southeast Asia. Major themes include the role of cultural and informal diplomacy and the effect of perceptions and misperceptions on both sides of U.S.-Asian interactions.

**Prerequisite:** HIS271Y/HIS344Y/HIS377H1

**Exclusion:** HIS473H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS474H1 - Emancipate Yourself from Mental Slavery? Historical Narratives of Caribbean Decolonisation**

**Hours:** 24S

This course is a critical intellectual history of Caribbean decolonisation. It begins with the Haitian Revolution, exploring and comparing how history was mobilized to structure anti-colonial theories about the making of postcolonial Caribbean societies. Key conceptual frameworks to be examined include indigenism, noirism, creolization, metissage; Caribbean interpretations of Marxism, Negritude and Pan-Africanism.

**Prerequisite:** HIS294Y1/HIS230H1,231H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS475H1 - Senior Thesis Seminar**

**Hours:** 24S

Compulsory for all Specialists undertaking a one-semester dissertation. Weekly seminars provide training in reviewing literature, writing research proposals, formulating hypotheses and oral presentation of findings.

History Specialists only. Students must find topics and thesis supervisors. Not eligible for CR/NCR option. See department website for pre-requisites and specific registration instructions. (<http://history.utoronto.ca/undergraduate/senior-thesis>)

**Prerequisite:** Consent of supervisor and department

**Exclusion:** HIS498H1, HIS499Y1, HIS476Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS476Y1 - Senior Thesis Seminar**

**Hours:** 48S

Compulsory for all Specialists undertaking a one-year dissertation. Weekly seminars provide training in reviewing literature, writing research proposals, formulating hypotheses, oral presentation of findings and constructive critique of other students' work. Posters will be prepared for an annual spring conference.

History Specialists only. Students must find topics and thesis supervisors. Not eligible for CR/NCR option. See department website for pre-requisites and specific registration instructions. (<http://history.utoronto.ca/undergraduate/senior-thesis>)

**Prerequisite:** Consent of supervisor and department

**Exclusion:** HIS475H1, HIS498H1, HIS499Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS477H1 - Topics in the Social and Cultural History of Victorian Britain (formerly HIS477Y1)**

**Hours:** 24S

Examination of the impact of industrialism on Victorian society and values. Concentration on Victorian social critics including Engels, Owen, Maynew, Dickens and Morris.

**Exclusion:** HIS477Y1

**Recommended Preparation:** A course in modern British History/Victorian literature

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS479H1 - US Foreign Policy Since World War II (formerly HIS479Y1)**

**Hours:** 24S

An in-depth study of U.S. behaviour in the global arena since World War II. Particular attention will be paid to the origins and evolution of the Cold War, the Vietnam War, the initiatives of the Nixon-Kissinger years, the end of the Cold War, and the relevance of globalization.

**Prerequisite:** HIS271Y1/377H1

**Exclusion:** HIS479Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS480H1 - Modernity and its Others: History and Postcolonial Critique**

**Hours:** 24S

Engaging with influential perspectives in postcolonial historiography, this seminar tracks three major themes in the history of the idea of modernity from the late 18th through the 20th centuries: political freedom, citizenship and the nation-state; capitalism and its critique; and the relationship of history, memory, and identity. (Joint undergraduate-graduate)

**Prerequisite:** a mark of 73% or higher in HIS282Y1, or instructors permission; HIS470H1

**Recommended Preparation:** History of colonialism, political theory, or postcolonial literatures

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS481H1 - Elite Women, Power, and Modernity in Twentieth-Century Africa**

**Hours:** 24S

The role of elite women in twentieth-century Africa has been overshadowed by studies of non-elite women so much so as to suggest that all women lacked power. This course aims to show how a very limited but important group of women negotiated power in a century of increasing patriarchy. It combines gender with class analysis.

**Prerequisite:** 300-level African History course or any of the African Studies courses offered at U of T.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS484H1 - The Car in North American History (formerly HIS484Y1)**

**Hours:** 24S

This seminar examines the history of the car in North America from the perspective of technology, business, landscape and popular culture. Particular attention is paid to issues of production, consumption, geography, and daily life, and to the importance of class race, gender, region, and age in shaping the meaning and experience of car culture.

**Prerequisite:** HIS263Y1/HIS264H1/HIS271Y1

**Exclusion:** HIS484Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS485H1 - Topics in Chinese History (formerly HIS485Y1)**

**Hours:** 24S

A seminar on selected aspects of Chinese history from 1368 to the present. Please see History website for detailed description of topic in any given year.

**Prerequisite:** EAS102Y1/HIS280Y1/JMC201Y1

**Exclusion:** HIS485Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS486H1 - Writing and Masculinity in Africa**

**Hours:** 24S

Introduces African cultural and intellectual history via a series of important primary texts. These texts provide important insights into the gendered nature of African intellectual movements for liberation as well as wider political discourses. It examines how these authors developed and deployed concepts such as authenticity, modernity, nation, and personhood.

**Prerequisite:** HIS391Y or an equivalent course in African history

**Exclusion:** HIS395H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS487H1 - Animal and Human Rights in Anglo-American Culture

**Hours:** 24S

Examines the parallel discourses of animal and human rights in Anglo-American culture from the eighteenth century to the present. The course explores issues of subjectivity and consciousness as well as cruelty and pain. Topics include slavery and abolition, animal welfare and antivivisection, anti-colonial liberation movements, and animal rights campaigns.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS489H1 - The History of Psychiatry and Psychiatric Illness

**Hours:** 24S

Introduces students to current issues in the history of psychiatry and some of the major developments in the evolution of this unique medical specialty. The format is class discussion based on themes covered in the course textbook, covering such topics as changing perspectives on the nature of psychotic illness, the psychoneuroses, disorders of the mind/body relationship, psychiatric diagnosis, and presentations of illness. (Joint undergraduate-graduate).

**Prerequisite:** a minimum of one course in HIS/PSY/SOC

**Exclusion:** HIS423Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS490H1 - Everyday Stalinism

**Hours:** 24S

This seminar explores issues of everyday life in Soviet Russia during the Stalin era. What was the Soviet normal? Topics will include belief systems, dreams and myths, terror, fear, repression, and resistance. Texts include a range of different sources, memoirs, diaries, official state documents, and secondary sources.

**Prerequisite:** grade of A in HIS250Y1/grade of B+ or higher in HIS351Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS492H1 - Empire & Colonization in the French Atlantic World

**Hours:** 16S

The first French empire (1604-1791) is typically considered a failed empire. Beginning with the first French exploratory expeditions in the South Atlantic in the mid-16th century, this course examines the social, economic and political history of French imperial expansion during the *Ancien régime* in order to consider the meaning of success, as applied to empire during this period. The focus is on the development of the two colonial centres of the French New World: New France and the French Caribbean.

**Prerequisite:** HIS244H1/HIS294Y1/HIS230H1,231H1

**Recommended Preparation:** HIS387H

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS493H1 - Humanity in War: The Modern Evolution of the Law of Armed Conflict

**Hours:** 24S

This course explores the development of international humanitarian law over the course of the nineteenth and twentieth centuries. Questions asked will include how modern warfare has been understood as a political, cultural, social and legal phenomenon, and the ways in which such perspectives developed into a program of restraint.

**Prerequisite:** HIS241H1/242H1/344H1/344Y1/EUR200Y1 or another course in modern history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS494H1 - Gandhi's Global Conversations

**Hours:** 24S

Primary source analysis of global circuits of ethico-political thought via work and life of Gandhi. Charts transnational environment of Gandhian thought (eg. Ruskin and Tolstoy), its critics (advocates of minority rights, also revolutionary violence) and global afterlife (eg. King, Mandela). Teaches methods in intellectual and political history of the global.

**Prerequisite:** HIS282Y1 with a mark of 76% or above

**Distribution Requirements:** Humanities

## **HIS495H1 - Topics in History (formerly HIS495Y1)**

**Hours:** 48S

An in-depth examination of historical issues. Content in any given year depends on instructor. See History website for more details.

**Prerequisite:** 14.0 FCEs including 2.0 FCE HIS course. Further pre-requisites vary from year to year, consult the department.

**Recommended Preparation:** Varies from year to year

**Distribution Requirements:** Humanities

## **HIS495Y1 - Topics in History**

**Hours:** 48S

An in-depth examination of historical issues. Content in any given year depends on instructor. See History website for more details.

**Prerequisite:** 14.0 FCEs including 2.0 FCE HIS course. Further pre-requisites vary from year to year, consult the department.

**Recommended Preparation:** Varies from year to year

**Distribution Requirements:** Humanities

## **HIS496H1 - Topics in History**

**Hours:** 24S

An in-depth examination of historical issues. Content in any given year depends on instructor. See History website for more details.

**Prerequisite:** 14.0 FCEs including 2.0 FCE HIS course. Further pre-requisites vary from year to year, consult the department.

**Exclusion:** Students may not take both L0601 ("Critical Histories of the Black Canadian Experience") and L0701 ("Race in Canada") offered in 2016-17 Fall/Winter.

**Distribution Requirements:** Humanities

## **HIS497H1 - Animal Politics and Science**

**Hours:** 24L

Why is thinking about the animal unsettling for some or strange for others? Especially since Darwin, the question of the animal-what it says about being or not being human-has been at the core of important philosophical and scientific debates. This course examines the ways that question has been answered over time.

**Prerequisite:** A course in political theory, history of science, or intellectual history.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **HIS498H1 - Independent Studies**

**Hours:** TBA

History Majors only. These courses result in the production of an independent research project. This may not necessarily take the form of a thesis. Students must find topics and project supervisors. Not eligible for CR/NCR option. See department website for pre-requisites and specific registration instructions.

**Distribution Requirements:** Humanities

## **HIS499Y1 - Independent Studies**

**Hours:** TBA

History Majors only. These courses result in the production of an independent research project. This may not necessarily take the form of a thesis. Students must find topics and project supervisors. Not eligible for CR/NCR option. See department website for pre-requisites and specific registration instructions.

**Distribution Requirements:** Humanities

# History and Philosophy of Science and Technology

## Faculty List

**Professor and Director**  
TBA

**Associate Professor and Director of Graduate Studies**  
Y. Fehige, BSc, BPhil, BTheol, MPhil, MTheol, PhD, PhD (V)

**Associate Professor and Director of Undergraduate Studies**  
C.-P. Yeang, BS, SM, Ph D, Sc D (V)

### Professors

C. Fraser, MA, Ph D (V)  
N. Kremontsov, Diploma Candidate of Sciences/History and Philosophy of Science and Technology (V)  
D. Walsh, BSc, BA, M Phil, Ph D, Ph D (V)

### Associate Professors

B. Baigrie, MA, Ph D (V)  
J. Berkovitz, BSc, MA, Ph D (V)  
L. Dacome, BA, M Phil, Ph D (V)  
M. Vicedo, BA, MA, Ph D, Ph D (V)

### Assistant Professors

Hakob Barseghyan, BA, MA, PhD, PhD (V)  
Mark Solovey, BA, MA, MA, PhD (V)  
Wen-Ching Sung, BA, MS, MS, PhD (V)  
Rebecca Woods, BA, MA, PhD (V)

### University Professor Emeritus

T.H. Levere, MA, D Phil, D Litt, FRSC (V)

### Professors Emeriti

B.S. Hall, BA, Ph D (V)  
J. Langins, M Eng, Ph D (V)  
P.M.H. Mazumdar, MB, M Tech, Ph D (V)  
P. Thompson, MA, Ph D (V)  
M.P. Winsor, M Phil, Ph D (V)

## Introduction

How are scientific theories developed? Do values affect science and do scientific theories influence social values? What is the role of science and technology in a democratic society? These are some of the questions that historians and philosophers of science examine. Courses in the philosophy of science engage with the structure of science, its methods, and its special claims to the production of knowledge. Courses in the history of science and technology situate scientific advances in their cultural and socio-economic context.

Students taking HPS courses deepen their understanding of major ideas in science; they learn to think critically about the past and present role of science in human societies, and they improve their skills in oral presentation and debate, research, and writing.

Students pursuing an HPS POST will be ideally suited to any professional or academic context that requires an understanding of

science, science in society, and the relation between the sciences and the humanities.

The Minor programs are designed to complement a wide range of Major or Specialist programs including those in the sciences, history, philosophy, or any program for which the combination of sciences and humanities could prove beneficial. The HPS major program is useful for elementary and secondary school teaching, museum and library work, science writing and editing, law, medicine and other fields where competence in both science and humanities is valuable.

Director of Undergraduate Studies:

Professor Chen-Pang Yeang  
Victoria College, Room 309 (Tel: 416-978-3968)

## History and Philosophy of Science and Technology Programs

## History and Philosophy of Science and Technology Major (Arts Program)

### Completion Requirements:

Students are encouraged to meet with the Director of Undergraduate Studies prior to registering for this degree.

7 full courses or their equivalent

First year (recommended):

1. One 0.5 FCE from any HPS100-level courses; up to a 1.0 FCE at the 100 level will count towards the major.

Higher years (required):

Additional HPS courses, to a total of 7 FCEs, to be chosen from any HPS courses, including [JHE353H1](#), [JHE355H1](#), [PHL355H1](#), [PHL356H1](#), [PHL357H1](#), and meeting the following requirements:

1. At least 1.0 FCEs at the 200+ level.

2. At least 2.0 FCEs at the 300+level, 0.5 of which must be at the 400-level.

## History and Philosophy of Science and Technology Minor (Arts Program)

### Completion Requirements:

4 full courses or their equivalent

1. Recommended: 0.5 FCE from any HPS100-level courses. Up to 1.FCE HPS courses at the 100-level will be counted towards the minor.
2. Recommended: at least 0.5 FCE from any HPS 200-level courses.
3. Additional HPS courses (including [JHE353H1](#), [JHE355H1](#), [JPH311H1](#), [PHL356H1](#), [PHL357H1](#)), to a total of 4 FCEs, with at least one FCE at the 300+level.

## Science and Society Minor (Arts Program)

### Completion Requirements:

The Minor in Science and Society is an interdisciplinary program that focuses on the different ways science and technology shape modern society and, in turn, how society shapes science and technology. From the food we eat to the way we conceive family relations or our obligations to future generations, our daily practices and our beliefs are increasingly influenced by scientific research and its applications. In turn, politics, public opinion, moral beliefs and cultural practices affect scientific and technological development. Courses in this program address such topics as science and values, science-related policy and politics, ethical uses of technology, scientific revolutions and controversies, modeling and communication of scientific research, and knowledge transfer from research to commercial and societal applications.

(4.0 FCEs, including at least 1.0 FCE at 300+ level)

1. [HPS200H1](#)
2. 1.0 FCE from: [VIC206H1](#), [VIC207H1](#), [VIC274H1](#), [VIC278H1](#), [VIC343Y1](#), [IMC200H1](#), [IVP210H1](#). Students who achieve at least 77% in the Vic One course [VIC170Y1](#) or [VIC172Y1](#) may count that course toward the Minor and use it to fulfill this requirement.
3. 1.0 FCE from: [HPS202H1](#), [HPS210H1](#), [HPS211H1](#), [HPS222H1](#), [HPS260H1](#), [HPS303H1](#), [HPS307H1](#), [HPS308H1](#), [HPS309H1](#), [HPS318H1](#), [HPS319H1](#), [HPS324H1](#), [HPS350H1](#)
4. An additional 0.5 FCE from program requirements 2. and 3. above.
5. An additional 1.0 FCE from program requirements 2. and 3. above and/or from the approved list of cognate courses below:  
[ANT353H1](#), [ANT358H1](#), [ANT364H1](#), [BIO220H1](#), [EEB215H1](#), [ENV200H1](#), [ETH220H1](#), [GGR223H1](#), [GGR321H1](#), [HIS355H1](#), [HIS423H1](#), [JGE321H1](#), [PHL273H1](#), [PHL281H1](#), [PHL373H1](#), [PHL380H1](#), [PHL381H1](#), [PHL382H1](#), [PHL383H1](#), [PHL384H1](#), [PHS300H1](#), [PSY328H1](#), [WGS275H1](#), [WGS367H1](#)

## Regarding History and Philosophy of Science and Technology Courses

### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## History and Philosophy of Science and Technology Courses

### HPS100H1 - Introduction to History and Philosophy of Science

Hours: 24L/10T

This is an online introduction to the key issues in the history and philosophy of science. How do scientific theories and method change through time? Is there a universal and unchangeable method of science? What demarcates science from non-science? Can scientific theories provide true descriptions of the world? Is there scientific progress? What are the major worldviews in the history of science? The pre-recorded lectures are available online at any time. Tutorial sessions are live at the portal. For more information: [http://www.hps.utoronto.ca/undergraduate\\_courses.htm](http://www.hps.utoronto.ca/undergraduate_courses.htm)

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### HPS110H1 - The Science of Human Nature

Hours: 24L/10T

Why do we do what we do? What factors play a role in shaping our personality? What biological and social elements help configure a person's moral and emotional character? In this course, we examine landmark studies that shook standard beliefs about human nature in their time. We analyze those studies in their historical context and discuss their relevance to social, ethical, and policy debates. The studies may include research on mother love, obedience, conformity, bystander intervention in emergencies, deception, race, and gender stereotypes.

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS120H1 - How to Think about Science

**Hours:** 24L/10T

This course addresses the nature of science and its importance to our understanding of ourselves. Questions include: What is a science? Is science objective? What is scientific reasoning? Has our conception of science changed through history? How does science shape our moral image? Does science reveal our natures as humans?

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS200H1 - Science and Values

**Hours:** 24L

An introduction to issues at the interface of science and society. Including the reciprocal influence of science and social norms, the relation of science and religion, dissemination of scientific knowledge, science and policy. Issues may include: Nuclear, Biological and Chemical Weapons; Genetic Engineering; The Human Genome Project; Climate Change.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS201H1 - Origins of Western Technology

**Hours:** 24L/10T

Technology and its place in our culture from Antiquity to the beginnings of the Industrial Revolution. Relations between technology and science, religion, the arts, social institutions, and political beliefs.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS202H1 - Technology in the Modern World

**Hours:** 24L/10T

A survey of technical change and its social implications from the Industrial Revolution to the present.

**Recommended Preparation:** HPS201H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS203H1 - Making Sense of Uncertainty

**Hours:** 24L/10T

This course examines issues of uncertainty in various contexts of science, technology, and society since the 19th century. Topics may include randomized controlled trials, statistical identification of normal and pathological, biopolitics, philosophical interpretations of probability, Brownian motions, uncertainty principle in quantum mechanics, cybernetic mind, and chance in avant-garde arts.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS204H1 - Public Nudity: History, Law and Science

**Hours:** 24L

An examination of the practices and attitudes to public nudity from antiquity to the present, including Canadian jurisprudence from the 1950s to 2005, recent changing scientific studies of attitudes to public nudity, and the impact of attitudes on body image, self esteem, mental health and social deviance.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS210H1 - Scientific Revolutions I

**Hours:** 24L

Case studies in the history of science from antiquity to 1800, including the revolutionary work of Copernicus, Kepler, Galileo, Descartes, Newton, Linnaeus, Lavoisier, and Herschel. The course is designed to be accessible to science students and non-scientists alike.

**Exclusion:** HPS200Y1

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS211H1 - Scientific Revolutions II

**Hours:** 24L

Case studies in the history of science from 1800 to 2000, including Volta, Lyell, Darwin, Mendel, Einstein, Schrödinger, Watson, and Crick. The course is designed to be accessible to science students and non-scientists alike.

**Exclusion:** HPS200Y1, HPS300H1

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS222H1 - Ideas in the History and Philosophy of Science

**Hours:** 24L/10T

The course focuses on the bearings that philosophical views had on science in different periods in history. We consider philosophical conceptions of space, time and matter; the influence of religious views on science; the influence of natural magic on the emergence of modern science; and the nature of scientific knowledge.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS230H1 - Quantifying the Renaissance

**Hours:** 24L

This course will not be offered in 2015-16.

**Exclusion:** Any 100-level MAT course

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## HPS250H1 - Introductory Philosophy of Science

**Hours:** 24L/10T

This course introduces and explores central issues in the philosophy of science, including scientific inference, method, and explanation. Topics may include underdetermination, realism and empiricism, and laws of nature.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS260H1 - Biology and the Future: Science and Science Fiction

**Hours:** 24L/10T

This lecture course explores the fantastic visions of humanity's future inspired by the advance of the biological sciences during the twentieth century. Biology provided the scientific underpinning for societal hopes and fears embodied in such cultural icons as robots, aliens, "brains in a vat," and super-humans.

**Exclusion:** HMB444H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HPS270H1 - Science and Literature

**Hours:** 24L/10T

This course will focus on the interplay between science and literature from ancient Greece to the present day. We'll examine the impact of major scientific paradigm shifts on the literature of their time, and situate literary texts within the context of contemporary scientific discoveries and technological innovations.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## HPS300H1 - Topics in History and Philosophy of Science and Technology

**Hours:** 48L/24P

Topics vary year to year.

**Exclusion:** HPS211H1

**Distribution Requirements:** Humanities

## HPS300Y0 - Britain and the Rise of Modern Science

A Historical exploration of Britain's role in the rise of modern science, from the Renaissance to the double helix. Students will be introduced to the work of Hooke, Newton, Cavendish, Davy, Faraday, Maxwell, Rutherford, and others.

**Exclusion:** HPS211H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2); Society and its Institutions (3)

## HPS301H1 - Topics in the History of Science

**Hours:** 24L/10T

This course can concern topics of special interest in the history of science from Antiquity until present. Topics may focus on specific-time periods, fields of inquiry, individuals, scientific institutions, or geographic locations.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HPS302H1 - Topics in Philosophy of Science

**Hours:** 24L/10T

This course can concern topics of special interest in the philosophy of science from Antiquity until present. Topics may include scientific change, rationality, method, evidence, progress, reduction, scientific laws, models, representation etc. The course may also focus on specific-time periods, fields of inquiry, individuals, scientific institutions, geographic locations, etc.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS303H1 - Topics in the History of Medicine

**Hours:** 24S

This course offers a focused discussion of several aspects of the history of medicine. Various themes are examined in depth year to year so as to familiarize students with different topics and methodological approaches.

**Prerequisite:** HPS318H and/or HPS319H, or at least 2 HPS courses with a focus on the history of science at the 200-level or higher

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS304H1 - A History Lab: Biomedical Sciences, Past and Present

**Hours:** 36S

Offers a hands-on introduction to historical research. Through a close examination of classic scholarly texts, archival materials, and recent media publications, this advanced seminar explores the sources, methods, and approaches in historical studies of biomedical twentieth century-sciences.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HPS307H1 - History of Energy

**Hours:** 24L/10T

The history of human control of various sources of energy, including technical developments, scientific theories, and impact on culture and society. Recent debates on fossil fuel and nuclear power examined in historical context. (offered irregularly)

**Recommended Preparation:** HPS201H1/HPS202H1 or any HIS course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS308H1 - Technology and Prosperity

**Hours:** 24L/10T

The systemic nature of modern technology suggests that it has intimate interactions with society, human values, ideologies, and the economy. We will attempt to examine these interactions in history in order to promote reflection on ways in which technology and its evolution could be managed for the benefit of humankind.

**Recommended Preparation:** any half course in HPS at the 200-level

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS309H1 - Worldviews: Aristotelian-Medieval Worldview

**Hours:** 24L/10T

This course reconstructs the Aristotelian-medieval mosaic of theories including physics, cosmology, theology, astronomy/astrology, optics, and physiology/medicine. We analyze the role of metaphysics in medieval science, including determinism/indeterminism, plenism/vacuism, finitism/infinity, theism/deism, and teleology/mechanism. Finally, we explicate the Aristotelian-medieval method, by focusing on the notions of demonstrative truth, intuition, and deduction.

**Recommended Preparation:** HPS100H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JPH311H1 - History of Physics

**Hours:** 24L

Topics in the history of physics from antiquity to the 20th century, including Aristotelian physics, Galileo, Descartes, electromagnetism, thermodynamics, statistical mechanics, relativity, quantum physics, and particle physics. The development of theories in their intellectual and cultural contexts.

**Prerequisite:** At least one-half PHY course at university level

**Exclusion:** HPS311H1

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## HPS313H1 - Two Hundred Years of Electricity

**Hours:** 24S

A history of the science and technology of electricity in the 19th and 20th centuries in its social, economic, and cultural context.

**Prerequisite:** At least one-half CSC/PHY or Electrical Engineering (ECE) course

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS316H1 - Environment, Technology, and Nature

**Hours:** 24L/10T

This course examines the intersection of technology and environment in the modern world. Whether simple or complex, whether designed for recreation, work, or warfare, our tools and how we use them filter our perceptions of, and engagements with, non-human nature. Emphasis is on case studies from 1800 to the present.

**Prerequisite:** 0.5 FCE in HPS or HIS

**Recommended Preparation:** HPS201H1/HPS202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HPS318H1 - History of Medicine I

**Hours:** 24L/10T

This course explores how medicine was practiced, taught and theorized from ancient Greece to the early modern period. It focuses on the historical development of western medicine in relation to societies, politics and culture, and considers topics such as the creation of medical traditions, the transmission and communication of medical knowledge, the pluralistic world of healers, the role of religion, magic and natural philosophy, the cultural meaning of disease, and the emergence of institutions such as the hospital.

**Prerequisite:** First-year students must have instructors approval

**Exclusion:** HPS314Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS319H1 - History of Medicine II

**Hours:** 24L/10T

This course examines the development of medicine from the seventeenth to the twentieth century. It focuses on the historical development of western medicine in relation to societies, politics and culture and considers topics such as changing views of the body, the development of medical institutions such as hospitals, asylums and laboratories, the diversifies world of healing and the place of visual and material culture in the production and dissemination of medical knowledge.

**Prerequisite:** First-year students must have instructors approval

**Exclusion:** HPS314Y1; HPS315H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS321H1 - Understanding Engineering Practice: From Design to Entrepreneurship

**Hours:** 24S

This course seeks to understand the nature of engineering practice, which comprises complex social, intellectual, and technical actions at various stages from design to entrepreneurship. Building upon the history and social studies of technology, philosophy of engineering, business history, and management science, we introduce ways to analyze such complex actions.

**Prerequisite:** Three half-courses (1.5 FCE) with any combination of engineering, natural sciences, medical sciences, or commerce.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS322H1 - Complexity, Order, and Emergence

**Hours:** 10T/24S

A survey of the history of and recent developments in the scientific study of complex systems and emergent order. There will be particular emphasis on the biological and cognitive sciences. Topics covered may include: mechanism and teleology in the history of science, 19th and 20th century emergentism, complex systems dynamics, order and adaptiveness, self-organisation in biology and cognitive development.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS324H1 - Natural Science and Social Issues

**Hours:** 24L

Historical examination of the interactions of science (both as body of knowledge and as enterprise) with ideological, political and social issues. The impact of science; attacks on and critiques of scientific expertise as background to contemporary conflicts. Subjects may vary according to students interests. (offered irregularly)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS326H1 - History of Science and Religion

**Hours:** 24L

From its origins in the Renaissance, modern science has developed in the context of European religious beliefs and institutions. Although cases of conflict like Galileo or the Monkey Trial are famous, more common are cases of scientists like Newton or Faraday whose religious convictions were crucial to their scientific success.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS333H1 - Famous Debates in Science

**Hours:** 24L/10T

The course focuses on famous debates in science, such as the Leibniz-Clarke debate on the nature of space, time and God, the Huxley-Wilberforce debate on evolution and the Bohr-Einstein debate on the nature of the quantum reality. The main aim is to explore the philosophical ideas involved in these debates in their historical context.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS350H1 - Revolution in Science

**Hours:** 24S

An investigation into the nature and development of scientific knowledge, inspired by Kuhns notion of revolutions. Topics may include, the rationality of theory choice, and social constructivism.

**Prerequisite:** HPS250H1 or permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS352H1 - History of the Human Sciences

**Hours:** 24L

This course explores major developments and controversies in the human sciences: psychology, sociology, economics, political science, and anthropology. How have scientists in these areas explained human behavior? How have they described, evaluated, and tried to improve society? We examine these issues in their historical context and consider their contemporary relevance.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JHE353H1 - History of Evolutionary Biology

**Hours:** 24L/10T

An examination of major ideas about biological evolution from the 18th century to the 1930s and of their impact on scientific and social thought. Topics include the diversity of life and its classification, the adaptation of organisms to their environment, Wallace's and Darwin's views on evolution by natural selection, sexual selection, inheritance from Mendel to T.H. Morgan, eugenics, and the implications of evolution for religion, gender roles, and the organization of society. Offered by the Institute for the History and Philosophy of Science and Technology.

**Prerequisite:** 6 full courses or equivalent

**Exclusion:** EEB353H1/HPS323H1/HPS353H1

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Society and its Institutions (3)

## JHE355H1 - History and Philosophy of Evolutionary Biology

**Hours:** 24L/10T

An examination of the place of the organism in evolutionary theory from the early 1900s to the present. Biology is the science of living things, and yet, paradoxically, living things--organisms--have been comprehensively left out of the Modern Synthesis theory of evolution that developed in the twentieth century. This course surveys the reasons--historical, philosophical and empirical--for the marginalisation of organisms from evolutionary theory. It examines the ways in which evolutionary developmental biology attempts to restore the organisms to a central place in evolutionary biology. Offered by faculty in the Institute for the History and Philosophy of Science and Technology.

**Prerequisite:** 6 full courses, including two half-courses or one full-year course in any one or more of EEB, BIO or HPS

**Exclusion:** EEB355H1/HPS333H1/HPS355H1

**Recommended Preparation:** JHE353H1

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS360H1 - History of Modern Cosmology

**Hours:** 24L/10T

Conceptions of the universe since 1800 with attention to observational sources of changing ideas. History of large telescopes, stellar spectroscopy and radio astronomy. Relativistic conceptions of space and time, models of stellar evolution, discovery of extra-galactic nebulae, Hubble red-shift and microwave background radiation. Philosophical and religious implications are examined.

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS390H1 - History of Mathematics up to 1700

**Hours:** 36L

A survey of ancient, medieval, and early modern mathematics with emphasis on historical issues. (Offered in alternate years)

**Prerequisite:** At least one full course equivalent at the 200+level from CSC/MAT/STA

**Exclusion:** HPS310Y1; MAT220Y1

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS391H1 - History of Mathematics after 1700

**Hours:** 36L

A survey of the development of mathematics from 1700 to the present with emphasis on historical issues. (Offered in alternate years)

**Prerequisite:** At least one full course equivalent at the 200+level from CSC/MAT/STA

**Exclusion:** HPS310Y1; MAT220Y1, MAT391H1

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS395Y1 - Science, Development, and Innovation in Contemporary China

**Hours:** 48L/24P

Science and technology not only are vehicles to build a modern state, but also serve impetus for economic development in many countries. In China, the development of science has intertwined with the transformation from self-reliance to an integrated node of global economy, and from planned to market economy. We will use science and technology as a lens to analyze China's recent social changes from Mao era to post-Mao years. Utilizing interdisciplinary research, we will critically examine the concepts and practices of development, innovation, and science and technology. The course design also includes field trips to key sites of innovations in China, including museums for Chinese medicine, IT and biotech companies, and makers' lab in Shenzhen.

**Exclusion:** EAS328H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## HPS410H1 - History of Mathematics

**Hours:** 24S

An historical survey from pre-Greek to the present. Various themes are emphasized year to year, to show mathematics as changing and evolving. A student could expect to gain an historical overview as well as a sense of the unity of the mathematical sciences.

**Prerequisite:** HPS309Y1/HPS310Y1/HPS390H1/HPS391H1/MAT220Y1 and permission of instructor  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HPS411H1 - Conceptual Foundations of Mathematics

**Hours:** 24S

An examination of foundational and conceptual aspects of mathematics such as: the nature of mathematical objects, logicism, Church's elementaristic mathematics, Gödel's theorem and formal systems, postulational methods, mathematics and reality, the cardinal, ordinal and abstract approaches to numbers, infinity, and Euclidean and non-Euclidean geometries. Not eligible for CR/NCR option.

**Prerequisite:** PHL245H1/HPS390H1 or HPS391H1 or HPS410H1 or permission of the instructor  
**Exclusion:** PHL346H1  
**Distribution Requirements:** Humanities; Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## HPS412H1 - History of the Biological Sciences

**Hours:** 24S

Advanced level survey of biological science from ancient Greece to the 20th century emphasizing primary sources analyses. Not eligible for CR/NCR option.

**Prerequisite:** Permission of instructor  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HPS430H1 - History of Technology I

**Hours:** 24S

An advanced survey of the history of technology from Antiquity to the Industrial Revolution. Not eligible for CR/NCR option.

**Prerequisite:** Permission of instructor  
**Recommended Preparation:** HPS201H1/HPS202H1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HPS431H1 - History of Technology II

**Hours:** 24S

An advanced survey of the history of technology from the Industrial Revolution to modern times. Not eligible for CR/NCR option.

**Prerequisite:** Permission of instructor  
**Recommended Preparation:** HPS201H1/HPS202H1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HPS481H1 - Special Research Opportunity in History of Medicine

**Hours:** 24L/6T

This course offers advanced undergraduate students the opportunity to undertake original research into the history of medicine, under the guidance of a faculty mentor.

**Prerequisite:** Permission of instructor  
**Recommended Preparation:** Preparation with instructor  
**Distribution Requirements:** Humanities

## HPS482H1 - Special Research Opportunity in History of Science

**Hours:** 24L/6T

This course offers advanced undergraduate students the opportunity to undertake original research into the history of the natural or physical sciences, under the guidance of a faculty mentor.

**Prerequisite:** Permission of instructor  
**Recommended Preparation:** Preparation with instructor  
**Distribution Requirements:** Humanities

## **HPS483H1 - Special Research Opportunity in History of Technology**

**Hours:** 24L/6T

This course offers advanced undergraduate students the opportunity to undertake original research into the history of the natural or physical sciences, under the guidance of a faculty mentor.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** Preparation with instructor

**Distribution Requirements:** Humanities; Science

## **HPS484H1 - Special Research Opportunity in Philosophy of Science I**

**Hours:** 24L/6T

This course offers advanced undergraduate students the opportunity to undertake original research into the philosophy of the natural or physical sciences, under the guidance of a faculty mentor.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** Preparation with instructor

**Distribution Requirements:** Humanities; Science

## **HPS485H1 - Special Research Opportunity in Philosophy of Science 2**

**Hours:** 24L/6T

This course offers advanced undergraduate students the opportunity to undertake original research into the philosophy of the natural or physical sciences, under the guidance of a faculty mentor.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** Preparation with instructor

**Distribution Requirements:** Humanities

## **HPS495Y1 - Individual Studies**

**Hours:** TBA

A reading and research project in some aspect of history of science and technology, supervised by a faculty member.

**Prerequisite:** Two HPS courses

**Distribution Requirements:** Humanities; Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **HPS496H1 - Individual Studies**

**Hours:** TBA

A reading and research project in some aspect of the social, cultural or intellectual history of science and technology, supervised by a faculty member.

**Prerequisite:** Two HPS courses

**Distribution Requirements:** Humanities; Science

## **HPS497H1 - Individual Studies**

**Hours:** TBA

A reading and research project in some aspect of the social, cultural or intellectual history of science and technology, supervised by a faculty member.

**Prerequisite:** Two HPS courses

**Distribution Requirements:** Humanities

## **HPS498H1 - Individual Studies**

**Hours:** TBA

A reading and research project in some aspect of the development of scientific theory or practice, supervised by a faculty member.

**Prerequisite:** Two HPS courses

**Distribution Requirements:** Humanities

## **HPS499Y1 - Individual Studies**

**Hours:** TBA

A reading and research project in some aspect of the development of scientific theory or practice, supervised by a faculty member.

**Prerequisite:** Two HPS courses

**Distribution Requirements:** Humanities

## Faculty List

### Professors Emeriti

K. Andrews, MFA  
L.E. Eleen, MA, Ph D  
D.S. Richardson, MA, Ph D (U)  
D. Rifat, DA  
J.W. Shaw, MAT, Ph D, D Hum Lett, FSA, FRSC (T)  
M.C. Shaw, MA, Ph D (S)  
B. Welsh-Orcharov, MA, Ph D

### Associate Professor and Chair

E. M. M. Legge, MA, Ph D

### Associate Chair, Undergraduate Studies

C. Anderson, MA, PhD

### University Professor

P.L. Sohm, MA, Ph D (U)

### Professors

M.A. Cheetham, MA, Ph D, FRSC (U)  
L. Kaplan, MA, Ph D (University of Toronto Mississauga)  
D. Reid, CM, MA, DFA  
E.M. Kavalier, MA, Ph D  
C. Knappett, PhD, FSA (Homer Thompson/Walter Graham Chair in Aegean Prehistory)

### Associate Professors

C. Anderson, MA, Ph D  
J. Bear, MA, Ph D  
J. Caskey, MA, Ph D (University of Toronto Mississauga)  
A. S. Cohen MA, Ph D  
B. C. Ewald, MA, Dr. Phil E.M.M. Legge, MA, Ph D (U)  
E. Harney, MA, Ph D (University of Toronto Scarborough)  
K. Jain, MA, Ph D (University of Toronto Mississauga)  
E.M.M. Legge, MA, Ph D (U)  
E. Levy, MA, Ph D (University of Toronto Mississauga)  
G. Periti, MA, Ph D  
J. Purtle, MA, M Phil, Ph D (U)  
J. Ricco, AM, Ph D (University of Toronto Mississauga)  
A. Syme, MA, Ph D (University of Toronto Mississauga)

### Assistant Professors

J. Clarke, M. Arch, M Phil, Ph D  
Y. Gu, MA, Ph D (University of Toronto Scarborough)  
S.J. Kim, MA, MPhil, Ph D  
H. Mostafa, MA, Ph D

### Adjunct Professor

Y. Hendeles, C.M., O.Ont, Ph.D Amsterdam, LL.D University of Toronto, Nova Scotia College of Art and Design, Ontario College of Art and Design (Hons)

### Royal Ontario Museum

D. Dewan, MA, Ph D  
A. Gehmacher, MA, Ph D  
A. Liivandi, MA, MLS  
A. Palmer, MA, Ph D  
S. Stock, MA, Ph D

## Introduction

The Department of Art offers Minor, Major, and Specialist programs in the History of Art (FAH).

The FAH curriculum covers the Bronze Age to the present in several global regions: the Mediterranean area, Europe and North America, and Asia. [FAH101H1](#) is an overview of the major periods and monuments in the history of art and architecture, and [FAH102H1](#) serves as a practical and critical introduction to the practice of art history and is a mandatory component of the curriculum; students are encouraged to take this class early in their progress toward an FAH program. Half courses at the 200 level are more comprehensive surveys that thematically introduce the material from specific chronological periods, regional areas, or the history of architecture. Many of these courses, which are offered on a regular basis, serve as “gateway” prerequisites for courses at the 300 and 400 level; students are advised to check the prerequisites for each upper-level course carefully.

Courses in the history of art (FAH) are useful to students in other departments or faculties; history, literature, music, and philosophy are likewise concerned with systems of thought and imagery. Fundamental concepts in such disciplines are embodied or reflected in related works of art of the same general period and area. Students in architecture, geography, or city planning will find courses in the history of architecture of benefit.

At the same time, the Department directs the attention of its students to the wide range of offerings in other departments and urges them to acquire the broad cultural background essential to an understanding of the arts. Of special importance are familiarity with history, a knowledge of the various traditions of literature and mythology, and an acquaintance with philosophy. Courses in cultural, historical or urban geography may also be relevant in programs that include the history of architecture. It is imperative that students interested in pursuing an advanced degree in art history acquire the foreign languages necessary for such work. Although the choice of languages will be dependent on an individual's program of study, it is generally recommended that students learn German and at least one other European language. The Department web site provides a list of courses in other departments that can be counted toward an art history degree.

In conjunction with Woodsworth College, the Department offers courses during the summer term at the University of Siena, Italy, and at other locations abroad. For information about these degree-credit courses, please consult the Department of Art web site or contact the Summer Abroad Program at Woodsworth College, 119 St. George Street (416-978-8713).

The History of Art Students' Association sponsors a variety of lectures and other activities for members of the departmental community.

Many courses in the Department are offered in alternate years only, or on a three-year cycle. For more detailed information on courses and degree programs, consult the Department of Art web site and Undergraduate Handbook at [www.art.utoronto.ca](http://www.art.utoronto.ca). Counselling is available, by appointment, from the Undergraduate Coordinators.

Enquiries:

Ms. Louise Kermode, Undergraduate Secretary, Sidney Smith Hall, Room 6036 (416-978-7892)

## History of Art Programs

### History of Art Specialist (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program. All students who request the program and obtain at least the specified mark(s) in the required course(s) will be eligible to enrol.

Required courses: At least four half courses from the Department's art history offerings, with marks of at least 70% in each course.

#### Completion Requirements:

1 course=1 FCE (one full course equivalent); e.g., FAH101H1 + FAH102H1 = 1 course or 1 FCE

One half course = 0.5 FCE; e.g., FAH102H1

(11 FCEs)

At least nine FAH FCE's, and two FCE's in one or more languages including at least one German, French, or Italian, though an acceptable alternative modern language such as Dutch or Russian (or Chinese and/or another Asian language) may be acceptable. **It is strongly recommended that students acquire a reading knowledge of German, French, or Italian by the end of the third year.** Students specializing in Ancient or Medieval art should also recognize the necessity of studying Greek and/or Latin. Students interested in pursuing Asian art history will need to acquire Chinese and/or Japanese and/or another Asian language.

First Year:

FAH102H1

Higher Years:

1. At least one half course in each of Groups A, B, C, and D (see below for definitions).
2. One additional half course in Group A and Group B.
3. No more than 3.5 FCEs may be taken at the 200-level.
4. 3.5 FCEs at the 300+level
5. 1 FCE at the 400 level. No more than 1.5 FCEs at the 400-level will be counted toward fulfilling program requirements.
6. Approved courses in other programs may be substituted for up to two FAH FCEs. See Department web site for details.

In addition, the Faculty of Arts and Science requires Fine Art History Specialists who do not complete FAH338H1 to complete at least 0.5 FCE in Arts and Science courses in Breadth Category 5: The Physical and Mathematical Universes.

### History of Art Major (Arts Program)

#### Completion Requirements:

1 course=1 FCE (one full course equivalent); e.g., FAH101H1 + FAH102H1 = 1 course or 1 FCE

One half course = 0.5 FCE; e.g., FAH102H1

(6 FCEs)

At least six FAH FCEs fulfilling the following distribution requirements:

First Year:

FAH102H1

Higher Years:

1. At least one half course in three of the four FAH Groups (see below for definitions).
2. Three FCEs at the 300+ level, including at least one half-course at the 400-level.
3. No more than 1.0 FCE at the 400-level will be counted toward fulfilling program requirements.
4. Approved courses in other programs may be substituted for up to one FAH FCE. See Department web site for details.

In addition, the Faculty of Arts and Science requires History of Art Majors who do not complete FAH338H1 to complete at least 0.5 FCE in Arts and Science courses in Breadth Category 5: The Physical and Mathematical Universes.

### History of Art Minor (Arts Program)

#### Completion Requirements:

1 course=1 FCE (one full course equivalent); e.g., FAH101H1 + FAH102H1 = 1 course or 1 FCE

One half course = 0.5 FCE; e.g., FAH102H1

(4 FCEs)

At least four FAH courses fulfilling the following distribution requirements:

1. FAH102H1
2. At least one half course in two of the four FAH Groups (see below for definitions)
3. At least one FCE at the 300-level.

## FAH Course Groups

### Group A: Ancient, Medieval

FAH courses numbered 200–229, 300–329, 400–429

### Group B: Renaissance–Baroque, Modern–Contemporary–Canadian

FAH courses numbered 230–59, 330–59, 430–59

### Group C: Asian

FAH courses numbered 260–69, 360–69, 460–69

### Group D: History of Architecture

FAH courses numbered 270–79, 370–79, 470–79, plus FAH300, 309, 328, 362, 364, 404, 421

Note:

1. Certain courses, including [FAH101H1](#), do not satisfy the requirement for any group, but do count toward any FAH degree program.
2. Students who have already taken FAH100Y1 are encouraged, but not required, to take [FAH102H1](#) for the fulfillment of degree requirements.
3. Courses used to satisfy one group requirement cannot be counted toward another group requirement.

## Visual Studies Programs

New admissions for the Visual Studies program will be through the John H. Daniels Faculty of Architecture, Landscape, and Design ([www.daniels.utoronto.ca](http://www.daniels.utoronto.ca)).

The Visual Studies programs and courses have been transferred from the Faculty of Arts & Science to the John H. Daniels Faculty of Architecture, Landscape, and Design. **The programs described in the Architecture section apply to students enrolled in the programs before September 2014.**

## First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## History of Art Courses

### FAH101H1 - Monuments of Art History

Hours: 24L

Consideration of the stylistic and contextual significance of representative monuments in the history of art.

**Exclusion:** FAH100Y/FAH105H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### FAH102H1 - Art and Ideas

Hours: 24L/6T

A survey of the history of art, architecture and allied arts. This introduction to the history of art will examine a wide range of objects, selected and discussed in connection with a special theme to be selected by the instructor. Students will be expected to study the history and significance of art through the close reading of selected texts that relate to both art and theory. Special attention will be given to developing essential art historical skills necessary for upper level courses. The topic for each semester will vary based on the instructor. No previous knowledge of history of art or architecture is required. Frequent writing assignments and exercises will be based on readings, lectures, and museum or gallery visits to collections in Toronto.

**Exclusion:** FAH105H5/FAH202H5/VPBH39H3

**Distribution Requirements:** Humanities

### FAH206H1 - Prehistoric Aegean and East Mediterranean Art and Archaeology

Hours: 24L

An overview of the major monuments, artifacts, themes and problems in the study of the archaeology, art and architecture of the Aegean region and the east Mediterranean to 1000BC.

**Exclusion:** FAH101Y5/FAH203H5/FAH204H5/FAH205H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH207H1 - Greek and Roman Art and Archaeology**

**Hours:** 24L

An overview of the major monuments, artifacts, themes and problems in the study of the archaeology, art and architecture of the civilizations of Greece and Rome.

**Exclusion:** FAH101Y5/FAH203H5/FAH204H5/FAH205H1/XBC199Y1 L0211

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH215H1 - Early Medieval Art and Architecture**

**Hours:** 24L

An overview of major monuments and themes in the art and architecture of Western Europe and the Byzantine East from the third until the eleventh century.

**Exclusion:** FAH102Y5/FAH261H1/FAH267H5/FAH271H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH216H1 - Later Medieval Art and Architecture**

**Hours:** 24L

An overview of major monuments and themes in the art and architecture of Western Europe and the Byzantine East from the eleventh until the fifteenth century.

**Exclusion:** FAH102Y5/FAH261H1/FAH267H5/FAH271H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH230H1 - Renaissance Art and Architecture (formerly FAH274H1)**

**Hours:** 24L

A selective survey of the major art centres and types of artistic and architectural production in Italy and northern Europe, from the early fifteenth century to the mid-sixteenth. Themes include the relations--artistic, economic and ideological--between northern and southern Europe during this period, the changing role of art in religious life, the emergence of secular themes, and the legacies left by Renaissance art to modern life and culture.

**Exclusion:** FAH200Y5/FAH274H1/FAH274H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH231H1 - Baroque Art and Architecture (formerly FAH279H1)**

**Hours:** 24L

Major forms of expression in the visual arts ca. 1600 - ca. 1750 with particular attention to forms, techniques, theories, and patronage of the arts as well as biographies of artists in Italy, France, the Netherlands, Flanders, Germany and England.

**Exclusion:** FAH200Y5/FAH279H1/FAH279H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH245H1 - Modernism and anti-Modernism, c. 1750-1900**

**Hours:** 24L

An introduction to the advent and development of art movements including Rococo and Neoclassicism; Romanticism and Revolution, Realism and the advent of Photography, Impressionism; Academic art; Post-Impressionism.

**Exclusion:** FAH280H1/FAH287H1/FAH287H5

**Recommended Preparation:** FAH102H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH246H1 - Art Since 1900

Hours: 24L

An introduction to the consolidation of Modernist tendencies in Europe to the mid 20th century and to the many contemporary responses to these achievements. Individual artists, including Picasso, Matisse, Duchamp, and Matthew Barney are considered in their relationship to various art movements and the theories that supported them, including Expressionism; Abstraction and Constructivism; Dada and Surrealism; Neue Sachlichkeit; Abstract Expressionism; Pop; Conceptual Art; Earth Art; Feminist Art; Postmodernism; New Media Art.

**Exclusion:** FAH288H1/FAH288H5/FAH289H1/FAH289H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH248H1 - Canadian Painting 1665-1960 (formerly FAH286H1)

Hours: 24L

An introductory survey of the history of painting in Canada from the 17th to the 20th century.

**Exclusion:** FAH286H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH252H1 - Introduction to the History of Photography

Hours: 24L

This course surveys the history of photography in Europe and North America, from its origins to recent innovations in digital imaging. Emphasis is placed on the various aesthetic, scientific, and political discourses in which photography has been located, and the assumptions and premises associated with the medium's relationship to reality.

**Exclusion:** FAH352H1

**Recommended Preparation:** FAH101H1/FAH102H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH260H1 - The Artistic Landscape of East Asia (formerly FAH290H1)

Hours: 24L

An overview of major monuments and themes in the art and architecture of East Asia (China, Japan, Korea, Vietnam, Mongolia and Tibet), from the neolithic to the present.

**Exclusion:** FAH290H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH262H1 - Art and Visual Experience in Modern and Contemporary East Asia

Hours: 24L

An overview of major monuments and themes in the art and architecture of East Asia (China, Japan, Korea, Vietnam, Mongolia and Tibet) and its diaspora in the nineteenth and twentieth centuries.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH265H1 - Monuments of the Islamic World

Hours: 24L

This course explores the architecture of the Islamic world from the 7th - 12th centuries through the lens of its major monuments throughout the central Islamic lands, North Africa and Spain. Through an emphasis upon the Umayyad, Abbasid, Fatimid and Seljuk periods, the course explores the range of cultural, political, social and religious aspects related to the development of the built environment. It also considers the impact of Islam's encounter with late antiquity and aims to position the rise of Islamic architecture within the context of this encounter. Additionally, the architecture is contextualized through a study of the urban history of select early and medieval Islamic cities.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH270H1 - Architecture: Rituals and Monuments

**Hours:** 24L

A survey of architecture from pre-history to the start of modernism, with attention given to the ways in which architecture shapes human experience.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH272H1 - Modern Architecture from 1750 to the Present

**Hours:** 24L

An introduction to the buildings, issues and ideas from Neoclassicism to the present.

**Exclusion:** FAH282H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## FAH303H1 - Emergence of Greek Civilisation

**Hours:** 24L

This course investigates the material culture, art and architecture of the Aegean civilizations from the Neolithic through to the building of the palaces of Crete around 2000BC.

**Prerequisite:** FAH205H1/FAH207H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH309H1 - City of Rome

**Hours:** 24L

The art, architecture and archaeology of the city of Rome to AD476.

**Prerequisite:** FAH205H1/FAH207H1

**Exclusion:** FAH302H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH310H1 - Greek Vase Painting

**Hours:** 24L

This course is a comprehensive exploration of the art of Greek vase painting, covering material from the late Geometric period (8th C. BCE) to the late Classical Period (4th C. BCE). While iconography and narrative will form a major portion of the content, the class will also explore issues surrounding material and technique, the prevalent sympotic (drinking) culture and Greek rituals that provides the cultural framework, dynamics of trade, theories of viewership and semiotics, status of the artist, and other historiographical concerns, including problematic issues surrounding the modern practice of collecting.

**Prerequisite:** FAH207H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH311H1 - Greek Sculpture

**Hours:** 24L

The course provides a thorough examination of ancient Greek sculpture from 7th - 1st century BCE, which in many ways defined the canon of western art that was to follow. Classic issues of style, dating, and technique are complemented by putting them into the contexts of cultural history, religion and socio-politics. While the course is a traditional monument-based survey of major sculptural works from the ancient Greek world, several important issues are also addressed, pertaining both to contemporary society and the study of other areas of art history. These include but are not limited to: gender, social class, colonialism, notion of the artist, originality, and aesthetic theory.

**Prerequisite:** FAH207H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH312H1 - Art of the Hellenistic Age (formerly FAH317H1)**

**Hours:** 24L

Transformation in the visual arts, paintings, sculpture, and mosaics of the expanding Greek world c. 400BC to c. 100BC; the response to Hellenization from the new artistic centres of Asia Minor and Italy.

**Prerequisite:** FAH205H1/FAH207H1

**Exclusion:** FAH317H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH313H1 - Greek Myth in Ancient Art**

**Hours:** 24L

A general introduction to Greek mythology and its uses (and abuses) by the Greeks and Romans through the art of antiquity. Students will learn about gods and goddesses, heroes and heroines, their attributes and stories which constituted the subjects of (not only) ancient art.

**Exclusion:** CLA204H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH318H1 - Monastic Art and Architecture**

**Hours:** 24L

An examination of the role played by monks and nuns in the creation and use of art and architecture in the Middle Ages.

**Prerequisite:** FAH215H1/FAH216H1/261H1/454H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH319H1 - Illuminated Manuscripts**

**Hours:** 24L

A focused survey of different types of manuscripts and their images from the origins of the book in Late Antiquity to the invention of printing.

**Prerequisite:** FAH215H1/FAH216H1/261H1

**Recommended Preparation:** SMC358H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH327H1 - Secular Art and Architecture of the Middle Ages**

**Hours:** 24L

A consideration of art and architecture made for the court, the aristocracy, and other patrons outside the realm of the Christian church.

**Prerequisite:** FAH215H1/FAH216H1/261H1/337H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH328H1 - Gothic Cathedral (formerly FAH369H1)**

**Hours:** 24L

An examination of the Gothic cathedral from its origins in Paris in the 1130's through its development and elaboration in France, England and Italy. This course also considers monumental decorations in painted glass, wall painting, tapestry and portal sculpture.

**Prerequisite:** FAH215H1/FAH216H1/261H1/351H5

**Exclusion:** FAH369H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH330H1 - German Art and Architecture in the Age of Drer (formerly FAH306H1)**

**Hours:** 24L

Albrecht Drer and the painting and printmaking of his contemporaries. Consideration of the great Hall churches of Saxony and the altarpieces of Tilman Riemenschneider and his contemporaries; the status of the arts and attitudes towards Italian art, and the consequences of the Reformation for religious imagery.

**Prerequisite:** FAH230H1/FAH231H1/274H1/279H1

**Exclusion:** FAH306H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH331H1 - Netherlandish Renaissance Art and Culture (formerly FAH307H1)**

**Hours:** 24L

Painting, sculpture and architecture of the Netherlands in the sixteenth century with reference to the arts in Italy, France, Germany and Spain. Consideration of Netherlandish art in the context of literature, religion, urban expansion, political and economic developments; and as a system of communication. Particular attention devoted to Hieronymus Bosch, Pieter Bruegel, the rise of secular art.

**Prerequisite:** FAH230H1/FAH231H1/274H1/279H1

**Exclusion:** FAH307H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH333H1 - The Altarpiece in Italy ca. 1400 - ca. 1600**

**Hours:** 24L

Focusing on developments in Venice, Florence and Rome during the Renaissance, this course examines altarpieces both as aesthetic objects and as expressions of the social, religious and political structures for which they were made.

**Prerequisite:** FAH230H1/FAH231H1/274H1/279H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH335H1 - The Art of Love in the Renaissance**

**Hours:** 24L

Love is studied not only as a favorite theme of Renaissance art, but as the basis of some of its fundamental aesthetic claims. The question of love connects Renaissance art to important strains of philosophical thought and religious spirituality, as well as to some urgent realities of social life.

**Prerequisite:** FAH230H1/FAH231H1/274H1/279H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH337H1 - Rivalry, Imitation and Envy in Italian Renaissance Art**

**Hours:** 24L

This course examines works in different art media, including painting, sculpture and prints, produced from 1400 to 1600, discussing how artistic practice of imitation and emulation stimulated the development of individual styles. In addition, this course addresses notions of disruptive rivalry, and the representation of slander and envy.

**Prerequisite:** FAH230H1/FAH231H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH338H1 - Art and Consumers in the Renaissance (1400-1700)**

**Hours:** 24L

It has long been said that the material culture of the Renaissance generated the first stir of consumerism with a variety of artifacts produced from 1400 to 1700 in Italy. This course explores the material culture of Renaissance consumerism and discusses the production and function of works in different art media.

**Prerequisite:** FAH230H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH340H1 - 17th-Century Art of the Netherlands (formerly FAH308H1)**

**Hours:** 24L

Concentration on the major masters of Holland's Golden Age, ca. 1580-ca. 1700. Particular attention is paid to genre painting and the notion of "Dutch realism". Consideration of art within its social and historical contexts.

**Prerequisite:** FAH230H1/FAH231H1/274H1/279H1

**Exclusion:** FAH308H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH341H1 - Venetian Renaissance Art and Architecture**

**Hours:** 24L

Form and meaning, theory and practice of painting and architecture in Venice, ca. 1450-ca. 1600. Social, political and cultural contexts of making and viewing art, including works by Giorgione, Titian, Veronese, Tintoretto and Palladio.

**Prerequisite:** FAH230H1/FAH231H1/274H1/279H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH344H1 - Rembrandt, Rubens and their Age (formerly FAH277H1)**

**Hours:** 24L

Introduction to the art of Rembrandt and Rubens in the context of Netherlandish painting of the seventeenth century. Lectures will treat the approaches of these two artists to biblical and mythological subjects, landscape, portraiture, and their involvement in contemporary politics.

**Exclusion:** FAH277H1

**Recommended Preparation:** FAH101H1/FAH102H1r

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH345H1 - The Romantic Movement in French Art (formerly FAH383H1)**

**Hours:** 24L

This course explores the painting, sculpture, and graphic arts of the Romantic era in France, from about 1820 to 1850. Major emphasis on Gericault, Delacroix, and Ingres in their artistic, cultural, and political context. Key topics in Romanticism, including Orientalism and gender, are also explored.

**Prerequisite:** FAH245H1/FAH246H1/287H1

**Exclusion:** FAH383H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH346H1 - Impressionism (formerly FAH378H1)**

**Hours:** 24L

The origin and development of Impressionism in France and Europe, 1860-1886, in its social, political and intellectual context. Painting, graphics and sculpture by Monet, Renoir, Degas, Pissarro, Sisley, Cassatt and Morisot.

**Prerequisite:** FAH245H1/FAH246H1/287H1

**Exclusion:** FAH378H1/378H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH347H1 - Cubism and Related Movements (formerly FAH384H1)**

**Hours:** 24L

An investigation of the birth and development of Cubism, Futurism and Orphism in Europe and North America.

**Prerequisite:** FAH245H1/FAH246H1/287H1/288H1

**Exclusion:** FAH384H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH348H1 - The Dada and Surrealist Tradition (formerly FAH385H1)**

**Hours:** 24L

The origins and development of the Dada and Surrealist movements in early 20th-century Western art, and their lasting impact on art after World War II. Painting, sculpture, graphic arts, and the theoretical preoccupation which accompanied artistic production.

**Prerequisite:** FAH245H1/FAH246H1/288H1/289H1

**Exclusion:** FAH385H1/447H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH349H1 - Abstraction in Twentieth-Century Art (formerly FAH387H1)

**Hours:** 24L

The origins, development, and critical issues pertaining to abstract or non-figurative modes of art as manifested in painting, sculpture and other selected media up to the present time. Movements include European abstract art before World War II as well as post-war developments.

**Prerequisite:** FAH102H1/FAH245H1/FAH246H1/288H1/289H1/385H1

**Exclusion:** FAH387H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH350H1 - Minimalism (formerly FAH389H1)

**Hours:** 24L

An investigation of the different definitions and issues of minimal art including seriality, materials, process, objecthood, chance, installation, reception, relations to music and film, and the influence of structuralism.

**Prerequisite:** FAH102H1/FAH245H1/FAH246H1/288H1/289H1

**Exclusion:** FAH389H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH352H1 - 19th Century Photography

**Hours:** 24L

An introduction to the major artists, movements, and debates in photography in Europe and North America, from its prehistory to the turn of the century. Issues considered include the relationship of social class to aesthetics, the role of illusion, the rise of mass reproduction.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH353H1 - On Display: Cultures of Exhibition, 1789-1900

**Hours:** 24L

Examination of the historical development of the cultures of exhibition in Nineteenth-Century Europe, and the diversity of venues displaying works of art and nature. Historical and theoretical overview is complemented by case studies which include investigations of private cabinets of curiosity, encyclopedic museums, commercial galleries, side-shows, and world's fairs.

**Prerequisite:** Any FAH 200-level course

**Recommended Preparation:** some introduction to art and/or cultural history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH354H1 - Recent and Contemporary Canadian Art (formerly FAH386H1)

**Hours:** 24L

An examination of the visual arts in Canada from the 1960s to the present. A large and diverse range of media, practices, artists, and theoretical contexts will be examined. Emphasis is placed on work that can be seen in the original.

**Prerequisite:** FAH102H1/FAH245H1/FAH246H1/FAH248H1/FAH286H1/FAH288H1/FAH289H1

**Exclusion:** FAH386H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH355H1 - Landscape to EcoArt

**Hours:** 24L

Ecological art is a focus in contemporary global art. We examine ecoart's antecedents in the landscape genre and Earth Art and the diverse theoretical and disciplinary perspectives that inform our understanding of these movements. Artists include Burtynsky, Eliasson, Long, Mendieta, Netco, Smithson, Turrell. Readings include Deleuze, Heidegger, Latour.

**Prerequisite:** FAH246H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH360H1 - World of the Senses: Chinese Decorative Arts

**Hours:** 24L

This course surveys late imperial Chinese decorative arts from the Song (960-1127) through Qing (1644-1911) dynasties. It focuses on ceramics/porcelain, textiles, and furniture, attending especially to works in Toronto collections. Students will read primary and secondary sources to learn how decorative arts shaped daily life in imperial China.

**Prerequisite:** Any 200-level FAH half course/any 100- or 200-level EAS Society-Culture course.

**Recommended Preparation:** FAH260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH363H1 - The Mechanics of the Image in East Asia

**Hours:** 24L

East Asian images differ from Western ones in material support, format, and technologies of image-making. This course probes how East Asian images -- painting on objects, handscrolls, prints, optical media, film, and new media work.

**Prerequisite:** Any 200 level FAH half course/ANY 100 or 200 level EAS Society-Culture course

**Recommended Preparation:** FAH260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH364H1 - Visual South Asia

**Hours:** 24L

An overview of the visual culture (monuments to films) of South Asia from the Indus Valley Civilization (3500 BCE) to the contemporary. Focus on visual literacy, stylistic evolution, major concepts and the first-hand study of objects.

**Prerequisite:** any 200-level FAH half course / any course in Asian history, culture, or religion

**Recommended Preparation:** FAH260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH368H1 - Encounters: Art Within and Beyond East Asia

**Hours:** 24L

Artistic production moved fluidly within and beyond East Asia. To understand the artistic world of East Asia, this course probes phenomena that may include Buddhist art, art of conquest dynasties, Chinoiserie, art of the Pacific Rim, film, and contemporary art.

**Prerequisite:** Any 200 level FAH half course/ANY 100 or 200 level EAS Society-Culture course

**Recommended Preparation:** FAH260H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH370H1 - European Renaissance Architecture (formerly FAH324H1)

**Hours:** 24L

Architecture and architectural theory ca. 1400 ca. 1600.

**Prerequisite:** FAH270H1/FAH278H1

**Exclusion:** FAH324H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH371H1 - Architecture and Urbanism in Baroque Europe (formerly FAH355H1)

**Hours:** 24L

Architecture studied through its various building types and in its urban context. Themes include architecture and power under Absolutism, and the rise of the modern city.

**Prerequisite:** FAH270H1/278H1/281H1

**Exclusion:** FAH355H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH372H1 - Architecture in the Age of Historicism ca. 1750-ca. 1900 (formerly FAH281H1)**

**Hours:** 24L

Major monuments and key figures in architecture and urbanism in Europe and North America from the Enlightenment to the birth of Modernism.

**Prerequisite:** FAH270H1/FAH272H1/278H1

**Exclusion:** FAH281H

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH373H1 - Modern Architecture Since 1890 (formerly FAH282H1)**

**Hours:** 24L

Major monuments and key figures in architecture and urbanism from Industrialization to the mid-twentieth century. Topics may include architectural theory, colonialism, and new technologies.

**Prerequisite:** FAH270H1/FAH272H1/278H1/281H1

**Exclusion:** FAH282H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH374H1 - Consequences of Modernism: Architecture after 1945 (formerly FAH382H1)**

**Hours:** 24L

An examination of architectural theory and practice from the end of Modernism to the present.

**Prerequisite:** FAH270H1/FAH272H1/278H1/281H1/282H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH376H1 - Canadian Architecture: A Survey**

**Hours:** 24L

Vernacular traditions in building, patterns of settlement and urbanization, and development of high styles in architecture in New France, British North America, and what is now Canada, from ca. 1650 to ca. 1925. Material economy, cultural identity, local character, regional expression, national symbolism and international influences.

**Prerequisite:** FAH270H1/FAH272H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH377H1 - Dilemmas of Nature and Culture: Landscape Architecture since 1850**

**Hours:** 24L

This course examines landscape architecture in relation to its political and social contexts from the mid-nineteenth century to the present when it emerged as a profession in North America. It looks at how landscape architecture embodies and challenges our understandings of culture's variable, tangled relationship to nature. It discusses specific projects, designers and their writings that shaped popular understandings of society's connection to the environment.

**Prerequisite:** FAH102H1/FAH246H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH380H1 - Special Topics in Art History (formerly FAH395H1)**

**Hours:** 24L

The study of various aesthetic, cultural, social, political, and theoretical aspects of Western art and photography across the centuries.

**Prerequisite:** Two FAH half courses or permission of instructor

**Exclusion:** FAH395H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH381H1 - Problems in Jewish Art (formerly FAH329H1)**

**Hours:** 24L

This course investigates the changing definition of Jewish art and the status of Jewish artists. Other issues explored include Jewish-Christian visual polemics, the construction of individual and communal Jewish identity through art, architecture, and texts, and the conceptual transformation of Jewish craft and ritual objects into art.

**Exclusion:** FAH329H1

**Recommended Preparation:** FAH102H1, a 200 level FAH half course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH390Y0 - Studies Abroad in Spanish Art and Architecture**

**Hours:** 24L

Through site visits and local resources, this course looks at the history of Spanish art and architecture, including the various work created by the diverse religious and political groups of the Iberian peninsula. The specific focus of the course may vary from year to year.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH391Y0 - Studies Abroad in Ancient Art and Architecture**

**Hours:** TBA

Studies Abroad in Ancient Art and Architecture. Not eligible for CR/NCR option.

**Prerequisite:** one FAH half course in ancient art, architecture, and archaeology/permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH392Y0 - Studies Abroad in Medieval Art and Architecture**

**Hours:** TBA

Studies Abroad in Medieval Art and Architecture. Not eligible for CR/NCR option.

**Prerequisite:** one FAH half course in medieval art and architecture/permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH393Y0 - Studies Abroad in Renaissance and Baroque Art and Architecture**

**Hours:** TBA

Studies Abroad in Renaissance and Baroque Art and Architecture. Not eligible for CR/NCR option.

**Prerequisite:** one FAH half course in Renaissance or Baroque art and architecture/permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH394Y0 - Studies Abroad in Modern and Contemporary Art and Architecture**

**Hours:** TBA

Studies Abroad in Modern and Contemporary Art and Architecture.

**Prerequisite:** one FAH half course in Modern or Contemporary art and architecture/permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH395Y0 - Studies Abroad in Canadian Art and Architecture**

**Hours:** TBA

Studies Abroad in Canadian Art and Architecture. Not eligible for CR/NCR option.

**Prerequisite:** one FAH half course in Canadian art and architecture/permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH396Y0 - Studies Abroad in Asian Art and Architecture

**Hours:** TBA

Studies Abroad in Asian Art and Architecture. Not eligible for CR/NCR option.

**Prerequisite:** one FAH half course in Asian art and architecture/permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH397Y0 - Studies Abroad in Architectural History

**Hours:** TBA

Studies Abroad in Architectural History. Not eligible for CR/NCR option.

**Prerequisite:** one FAH half course in architectural history/permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## FAH399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## FAH401H1 - Aegean Wall Paintings

**Hours:** 24S

Investigation of the wall-paintings of the Minoan, Cycladic and Mycenaean worlds in the second millennium BC: context, associations, viewing and historical interpretations.

**Prerequisite:** FAH205H1/FAH206H1

**Recommended Preparation:** FAH300H1/FAH303H1/FAH304H1/

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH405H1 - Understanding Dionysos: The God of Wine, Theatre and the Afterlife

**Hours:** 24S

The Greek god Dionysos presents a multifaceted entry point into exploring Ancient Greek art, culture, religion and history. This course is a comprehensive exploration of the figure of Dionysos, from his obscure pre-historic beginnings of foreign origin, to his transformation into other post-classical entities, spanning Christianity to Buddhism. A substantial part of the course deals with his representations in Greek art, and the god's relationship to the Greeks as the governing figure of many important facets of their lives: drinking practices, sexuality, the performative arts, and the transition into the afterlife through the notion of eternal bliss. The course reading draws on art historical literature, as well as primary sources, and theoretical texts regarding religion and cultural practices.

**Prerequisite:** FAH207H1 / FAH310H1 / FAH311H1 / FAH312H1 / FAH313H1 / CLA204H1 / CLA232H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH406H1 - Cross-Cultural Issues in Ancient Art Beyond Greece and Rome

**Hours:** 24S

When cultures collide, they assimilate, they exchange, they transform, and they develop, and there seems to be a pattern of recognizable centres of power around which artistic tradition often revolves. This has caused the conventional understanding of certain flowering of artistic heritage as a product of cross-cultural influences. This course is a seminar style survey that explores these fascinating amalgams of artistic traditions that lie at the Eastern outskirts of the Hellenistic world throughout the Roman Period, from Bactria to India, and with a heavy focus on the Buddhist art of Gandhara, reaching out along the Silk Road. As the title suggests, the class aims at a renewed framework that re-evaluates the role of the Ancient West, which has been absent since the heavily Eurocentric scholarship from the early 20th century. It also aims to familiarize students with current theoretical issues surrounding cross-cultural studies as it pertains to the visual arts, touching upon modern postcolonial theories of space.

**Prerequisite:** FAH207H1; three additional FAH courses

**Recommended Preparation:** FAH311H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH407H1 - Studies in Roman Painting and Sculpture

**Hours:** 24S

Issues explored might cover Republican and Imperial painting; its Hellenistic sources and parallel media (mosaic, relief). The four distinctive genres of Roman sculptural production: the portrait, the historical relief, sarcophagi, and replicas of famous Greek sculptures. Styles, themes and modes of display in cultural context.

**Prerequisite:** FAH206H1

**Recommended Preparation:** FAH305H1/FAH309H1/FAH312H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH420H1 - Studies in Western Medieval Art and Architecture

**Hours:** 24S

In-depth examination of monuments and issues in the art and architecture of Western Europe from the sixth to the fifteenth century.

**Prerequisite:** FAH215H1/FAH216H1/FAH261H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH421H1 - Studies in Medieval Cities

**Hours:** 24S

A focused examination of urbanism, art and architecture of a specific medieval city, such as Jerusalem, Rome, Constantinople, or Paris.

**Prerequisite:** FAH215H1/FAH216H1/FAH261H1

**Recommended Preparation:** FAH325Y0/FAH327H1/FAH328H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH423H1 - The Palaces of Minoan Crete

**Hours:** 24L

Around 2000 BC, the island of Crete sees the emergence of what are arguably the earliest towns and states in European prehistory. At the heart of this new social order are the so-called palaces, massive architectural complexes usually interpreted as seats of administrative and political authority. However, fresh discoveries over the past two decades, coupled recently with radical new interpretations, require a fundamental rethinking of the nature of the palaces and their role in Minoan society. This course will provide students with an active opportunity to learn about the latest developments in Minoan art, architecture, and archaeology.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH424H1 - Studies in Medieval Book Illumination

**Hours:** 24S

A consideration of individual types of books, their decoration, function, and cultural context. Topics might include, for example, Gospels, Psalters, or Books of Hours.

**Prerequisite:** FAH215H1/FAH216H1/FAH261H1

**Recommended Preparation:** FAH319H1/SMC358H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH430H1 - Pieter Bruegel (formerly FAH428H1)

**Hours:** 24S

The study of Pieter Bruegel's works in the context of Netherlandish culture. Emphasis on secular works.

**Prerequisite:** FAH307H1/FAH331H1; permission of instructor

**Exclusion:** FAH428H1

**Recommended Preparation:** Reading knowledge of French or German

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH432H1 - Caravaggio

**Hours:** 24S

The life and work of Caravaggio in the context of 17th-century Roman and Neapolitan art theory and patronage, with a particular emphasis on the contentious issue of realism.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** FAH230H1/FAH231H1/FAH274H1/FAH279H1/FAH341H1/FAH342H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH433H1 - Leonardo and His Legacy in Renaissance Italy

**Hours:** 24S

This seminar examines major critical developments in the interpretation of High Renaissance art in Italy by looking at key works produced by Leonardo, his contemporaries, and followers (1470-1530).

**Prerequisite:** FAH230H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH434H1 - The First Art Historians

**Hours:** 24S

In Vasari's *Lives of the Artists* and their after-lives, painters and humanists explored questions of word and image, art and life, biography and history, the psychology of style, the economics and politics of art and the languages of art. How and why did art history originate?

**Prerequisite:** FAH230H1/FAH231H1 and permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH435H1 - Correggio

**Hours:** 24S

Exhibitions, symposia and several publications have recently re-considered the art of the High Renaissance artist Correggio (1489/1494?-1534), but its understanding remains problematic within the current paradigms of Italian Renaissance art. As has been often observed, Correggio was and still is an undervalued artist. This seminar will consider Correggio's most ambitious works of art of his short career - his altarpieces, dome decorations and amazing erotic images - and reconstruct their meanings to familiarize undergraduate students with an overlooked corpus of works in the general histories of Renaissance art, while providing them with the basic art historical research tools in the field of Italian Renaissance art.

**Prerequisite:** FAH230H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH436H1 - Italian Renaissance Art, Fashion, and Material Culture

**Hours:** 24S

This seminar explores fashion in the visual and material culture of Renaissance Italy. It focuses on the discourse of fashion as represented by Renaissance artists in their works and as treated in contemporary texts. It further examines the multiple meanings of dress in the courts of Renaissance Italy.

**Prerequisite:** FAH230H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH440H1 - Dutch Genre Painting of the 17th Century

**Hours:** 24S

Study of so-called "scenes of everyday life". Special attention given to cultural context and problems of interpretation, the work of Jan Vermeer, and the reputation of this art in following centuries.

**Prerequisite:** FAH307H1/308H1/FAH331H1/FAH340H1/FAH428H1; permission of instructor

**Recommended Preparation:** Reading knowledge of French or German

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH445H1 - The Paris Salon and French Art of the Nineteenth Century

**Hours:** 24S

French painting, sculpture, and criticism of the mid-19th century, with particular to the key role played by the Paris Salon: its emergence and decline as a public space for exhibitions, its impact on the shape of artistic careers, and the relation between the Salon and artistic practices. Attention both to Modernist artists, such as Manet, and to their opponents. Students will engage in critical readings of primary and secondary texts (Baudelaire, T. J. Clark, Michael Fried), as well as conduct original research on important Salon paintings and sculptures. Assignments will include a book review, an annotated bibliography, and a research paper.

**Prerequisite:** FAH245H1/FAH280H1/FAH287H1

**Recommended Preparation:** FAH346H1/FAH345H1/FAH378H1/FAH383H1. Reading knowledge of French strongly recommended.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH447H1 - 19th-Century Landscape Painting

**Hours:** 24S

Investigation of English, French, German and Swiss landscape painting from the birth of the Romantic movement to Post-Impressionism.

**Prerequisite:** FAH245H1/FAH287H1

**Recommended Preparation:** Reading knowledge of French or German

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH448H1 - International Art Since 1940 (formerly FAH402H1)

**Hours:** 24S

Developments in the mainstream of Western painting and sculpture since World War II with special emphasis upon interrelations between Europe and North America.

**Prerequisite:** FAH246H1/FAH288H1/FAH289H1/FAH348H1/FAH350H1/FAH351H1/FAH385H1/FAH388H1/FAH389H1

**Exclusion:** FAH402H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH449H1 - Contemporary Art Movements (formerly FAH411H1)

**Hours:** 24S

Selected aspects of the complex array of international contemporary art movements, their artists, objects, and critical discourses. Potential issues include the theoretical, philosophical, and political concerns addressed by given artworks and artists; the role of art journals, the private patron, and museum display.

**Prerequisite:** FAH246H1/FAH289H1

**Exclusion:** FAH411H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH457H1 - Issues in Canadian Art, ca. 1900-1940 (formerly FAH415H1)

**Hours:** 24S

Focused, thematic examinations of the visual arts in Canada in the first half of the twentieth century.

**Prerequisite:** FAH248H1

**Exclusion:** FAH415H1/FAH416H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH458H1 - Issues in Recent Canadian Art (formerly FAH416H1)**

**Hours:** 24S

Focused, thematic examinations of the visual arts in Canada from 1940 to the present.

**Prerequisite:** FAH246H1/FAH286H1/FAH352H1/FAH386H1

**Exclusion:** FAH416H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH461H1 - East Asian Art as a Cultural System**

**Hours:** 24S

Methodologically-focused seminar engaged with recovering and articulating in Western terms indigenous ways of seeing and thinking about East Asian art.

**Prerequisite:** FAH260H1/FAH262H1/FAH290H1/FAH361H1/

FAH362H1/FAH363H1/FAH364H1/FAH365H1/FAH368H1/

EAS211Y0/EAS227Y/EAS233H1/EAS237Y1/EAS305Y1/

EAS331Y1/EAS418H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH462H1 - Outside East Asian Art**

**Hours:** 24S

Methodologically- and historiographically-focused seminar that attends to the contiguities and ruptures of approaching East Asian art through Western art historical methods.

**Prerequisite:** FAH260H1/FAH262H1/FAH290H1/FAH361H1/

FAH362H1/FAH363H1/FAH364H1/FAH365H1/FAH368H1/

EAS211Y0/EAS227Y/EAS233H1/EAS237Y1/EAS305Y1/

EAS331Y1/EAS418H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH463H1 - Materiality, Objecthood, Connoisseurship and Collecting in the Arts of East Asia**

**Hours:** 24S

Seminar based on firsthand examination of East Asian objects in Toronto collections that attends to the historical processes by which such objects were valued and collected.

**Prerequisite:** FAH260H1/FAH262H1/FAH290H1/FAH361H1/

FAH362H1/FAH363H1/FAH364H1/FAH365H1/FAH368H1/

EAS211Y0/EAS227Y/EAS233H1/EAS237Y1/EAS305Y1/EAS331Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH464H1 - Transregional East Asian Art**

**Hours:** 24S

In-depth examination of the play of East Asian Art within and beyond East Asia.

**Prerequisite:** FAH260H1/FAH262H1/FAH290H1/FAH361H1/

FAH362H1/FAH363H1/FAH364H1/FAH365H1/FAH368H1/

EAS211Y0/EAS227Y/EAS233H1/EAS237Y1/EAS305Y1/EAS331Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH465H1 - Exhibiting China**

**Hours:** 24S

This seminar teaches students the skills required to curate an exhibition of Chinese materials. Working firsthand with objects of Chinese art and visual culture in local Toronto collections, students learn to document the object, assess authenticity, write object labels, panel texts, and catalogue essays. Students will thus prepare an exhibition, actual or virtual, of Chinese objects in local collections.

**Prerequisite:** FAH260H1/FAH262H1/FAH290H1/FAH361H1/

FAH362H1/FAH363H1/FAH364H1/FAH365H1/FAH368H1/

EAS211Y0/EAS227Y/EAS233H1/EAS237Y1/EAS305Y1/EAS331Y1

**Recommended Preparation:** Two additional courses in Chinese/East Asian art

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH466H1 - Photography in India

**Hours:** 24S

Examination of current issues in and methods of studying photography in India. Focus on visual evolution, theories and concepts of looking at photographs, and intersections of India with the rest of the world. Includes first-hand study of objects in ROM collection, and possible guest lectures.

**Prerequisite:** FAH262H1/FAH364H1/FAH365H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH470H1 - Studies in Renaissance and Baroque Architecture (formerly FAH450H1)

**Hours:** 24S

An in-depth study of themes and problems in architecture in Renaissance and Baroque Europe.

**Prerequisite:** FAH324H1/FAH355H1/FAH370H1

**Exclusion:** FAH450H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH480H1 - University Art Centre Exhibition Course (formerly FAH454H1)

**Hours:** 24S

Students work together designing and installing an exhibition of works of art, normally drawn from the collections of the University Art Centre. The course meets every two weeks at the University Art Centre over the entire academic year.

**Prerequisite:** 8 FAH half courses; permission of instructor (application in department)

**Exclusion:** FAH451H5/454H1/455H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH481H1 - Internship (formerly FAH455H1)

**Hours:** 24S

The internship is designed to offer hands-on experience pertaining to the study, exhibition, and care of works of art, focused on the collections and activities of the University Art Centre, an auction house, a public museum, or a private gallery. Students must provide proof of their acceptance as an intern by the Art Centre/auction house/museum/gallery in order to be enrolled in the course. This course is Pass/Fail. Not eligible for CR/NCR option.

**Prerequisite:** 8 FAH half courses; permission of instructor (application in department)

**Exclusion:** FAH454H1/FAH455H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH481Y1 - Internship (formerly FAH455H1)

**Hours:** 48S

The internship is designed to offer hands-on experience pertaining to the study, exhibition, and care of works of art, focused on the collections and activities of the University Art Centre, an auction house, a public museum, or a private gallery. Students must provide proof of their acceptance as an intern by the Art Centre/auction house/museum/gallery in order to be enrolled in the course. This course is Pass/Fail. Not eligible for CR/NCR option.

**Prerequisite:** 8 FAH half courses; permission of instructor (application in department)

**Exclusion:** FAH454H1/FAH455H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FAH483H1 - Introduction to Conservation: Materials, Deterioration, and Preservation in Art and Material Culture (formerly FAH453H1)

**Hours:** 24S

An introduction to conservation, designed to give students a basic understanding of the field, its techniques, and its purposes. Sessions conducted by specialists in the Royal Ontario Museum conservation department.

**Prerequisite:** 8 FAH half courses; permission of instructor.

**Exclusion:** FAH453H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH484H1 - Fashion, & Textiles: Culture & Consumption (formerly FAH459H1)**

**Hours:** 24S

This course examines the history, meaning and consumption of Western European textiles (Late Antique - 18th century) and fashionable dress (18th - 21st centuries). Analysis and research will combine student seminars with the study of actual artefacts in the Textile & Costume Collection of the Royal Ontario Museum.

**Prerequisite:** 8 half FAH courses

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH485H1 - Collecting Canada: Canadian Pictorial Arts Collection at the Royal Ontario Museum (formerly FAH456H1)**

**Hours:** 24S

Theoretical and practical engagement with the ROM's Canadian paintings, prints and drawing collections (18th-20th C). Through lectures, workshops, and seminars, we consider the collecting, interpretation, and display of images within the framework of "documentary art" and its various connotations.

**Prerequisite:** FAH248H1/286H1, 2.0 300-level FAH courses

**Exclusion:** FAH456H1

**Recommended Preparation:** FAH352H1/FAH386H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH486H1 - Case Studies at the Royal Ontario Museum**

**Hours:** 24S

In-depth investigation of objects at the Royal Ontario Museum. Content will vary according to the museum department offering the course in any given semester.

**Prerequisite:** 8 FAH half courses

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH487H1 - Introduction to Asian Textiles**

**Hours:** 24S

Introduction to the diverse textile traditions of Asia and the diverse means for interpreting them, with a concentration on core production areas, select regional traditions and connecting forces. Includes first-hand study of objects in ROM collections and galleries and possible guest lectures.

**Prerequisite:** 8 half FAH courses (4.0 FCE)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH488H1 - Special Topics in Chinese Art: Ideas and Practices**

**Hours:** 24S

Making use of ROM's Chinese art collection, this object-based, case-study oriented seminar explores the ideas and practices behind works of Chinese art. The course examines art and artifacts in relation to their historical contexts, paying close attention to such issues as political practices, religious quests, patronage, audience, and literati culture.

**Prerequisite:** 8 half FAH courses which may include 1.0 EAS FCE as a substitute

**Recommended Preparation:** Introductory courses in East Asian or Chinese art.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH489H1 - Topics in the History of Art and Architecture**

**Hours:** 24S

Focused examination of special topics in any period of Mediterranean, European, North American, or Asian art and architecture.

**Prerequisite:** 8 FAH half courses; permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH490H1 - Introduction to the Textile Arts of the Indian Ocean World**

**Hours:** 24S

The Indian Ocean has been called the Cradle of Globalization. For thousands of years monsoon winds linked the people and arts of this vast Ocean that stretches from East Africa in the West to Indonesia (and beyond) in the East. Throughout its long history, handwoven textiles have been amongst the area's greatest art forms, trade goods, religious objects and markers of identity. This course will survey the wide variety of these forms, from c. 1100 to 1950. Special attention is placed on India, which lies at the center of the region, and originated many of the fibres, techniques, design and iconography of the wider area. Select regional manifestations are then examined in depth, using the ROM's extensive collections. These range from the silks of Madagascar, to embroidered men's wear of Oman, to the cosmopolitan batiks of northern coastal Java. It is seen that all these traditions can best be understood within the framework of the wider Indian Ocean region.

**Prerequisite:** Permission of the instructor

**Recommended Preparation:** Asian art, Islamic art, or anthropology

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH491H1 - Independent Studies in Ancient Art and Architecture**

**Hours:** TBA

Independent Studies in Ancient Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH491Y1 - Independent Studies in Ancient Art and Architecture**

**Hours:** TBA

Independent Studies in Ancient Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH492H1 - Independent Studies in Medieval Art and Architecture**

**Hours:** TBA

Independent Studies in Medieval Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH492Y1 - Independent Studies in Medieval Art and Architecture**

**Hours:** TBA

Independent Studies in Medieval Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH493H1 - Independent Studies in Renaissance and Baroque Art and Architecture**

**Hours:** TBA

Independent Studies in Renaissance and Baroque Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH493Y1 - Independent Studies in Renaissance and Baroque Art and Architecture**

**Hours:** TBA

Independent Studies in Renaissance and Baroque Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH494H1 - Independent Studies in Modern and Contemporary Art and Architecture**

**Hours:** TBA

Independent Studies in Modern and Contemporary Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH496H1 - Independent Studies in Asian Art and Architecture**

**Hours:** TBA

Independent Studies in Asian Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH494Y1 - Independent Studies in Modern and Contemporary Art and Architecture**

**Hours:** TBA

Independent Studies in Modern and Contemporary Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH496Y1 - Independent Studies in Asian Art and Architecture**

**Hours:** TBA

Independent Studies in Asian Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH495H1 - Independent Studies in Canadian Art and Architecture**

**Hours:** TBA

Independent Studies in Canadian Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH497H1 - Independent Studies in Architectural History**

**Hours:** TBA

Independent Studies in Architectural History. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH495Y1 - Independent Studies in Canadian Art and Architecture**

**Hours:** TBA

Independent Studies in Canadian Art and Architecture. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **FAH497Y1 - Independent Studies in Architectural History**

**Hours:** TBA

Independent Studies in Architectural History. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

# Human Biology

Collaborative Program of the Faculty of Arts & Science and the Faculty of Medicine

## Faculty List

### Associate Professor and Director

M. Woodin, Ph D

### Associate Professor, Teaching Stream and Associate Director

R. Wilson, M Sc, Ph D

### Associate Professors, Teaching Stream

A. Dias, M Sc, Ph D

W. Ju, M Sc, Ph D

M. Papaconstantinou, Ph D

F. Taverna, Ph D

### Assistant Professor, Teaching Stream

C. Dockstader, Ph D

## Introduction

The Human Biology Program is an undergraduate collaborative program between the Faculty of Arts and Science and the Faculty of Medicine. Our programs examine the biology of our species through interdisciplinary lenses by integrating topics from the biological and medical sciences, social sciences, and the humanities. The overall structure of the collaborative program is designed to expose students to the transdisciplinary field of human biology with opportunities to specialize in selected areas of inquiry in the field.

A central objective to the Human Biology Program (HMB) is to facilitate to the development of core competencies in our students: critical and creative thinking, self-directed learning, quantitative and analytical reasoning, and effective communication and research. HMB aims to prepare students for future careers where an interdisciplinary education in biological and health sciences would be an asset. HMB offers diverse experiential learning opportunities for students which includes a faculty that is at the cutting-edge of teaching innovation, strong academic relationships with other department and faculties at the University, service learning with organizations in Toronto, and undergraduate research in laboratories on campus and affiliated hospital research institutes.

After first year life science courses, undergraduate students may enter the Human Biology program in their selected HMB program: Fundamental Genetics and its Applications, Global Health, Health and Disease, Human Biology, and Neuroscience. HMB students start by taking foundational courses to provide background on their subject area and introduce students to topics integral to the study of human biology. Students then progress to more specialised topics and have more detailed instruction but are also encouraged to participate in self-directed and group learning. In their final year, HMB students are further engaged to practice critical analysis by taking one of our specialized seminar courses in their program, which focuses on expanding the depth of knowledge the student has acquired while studying human biology at the University of Toronto.

## Regarding Human Biology Programs

The Human Biology Program offers five areas of study, all of which offer a major program, and four of which offer a specialist program.

Students are allowed to switch between Human Biology major programs, but should first obtain written permission from the Program Office to determine which of their completed courses will transfer to their new Human Biology major program. Students seeking advice on which HMB major to choose or advise for program completion pathways should view the [HMB Program Pathway Tools webpage](#).

**Students are not permitted to be enrolled in more than one Human Biology major program.**

## Human Biology Programs

### Fundamental Genetics and its Applications Specialist (Science Program)

#### Enrolment Requirements:

*(Effective for students enrolling in programs in April 2018. For students intending to enroll starting April 2017, please consult the 2016-17 Calendar.)*

This specialist is a Type 3 limited enrolment program. Admissions will be based on the following criteria, however achieving the minimum grades listed does not guarantee admission to the Fundamental Genetics and its Applications specialist program in any given year.

#### Applying with less than 8 FCEs:

- Completion of [BIO130H1](#) with a minimum grade of 65
- Completion of [CHM135H1](#) and completion of [CHM136H1](#) with a minimum grade of 55 (or [CHM151Y1](#) with a minimum grade of 55).  
*Transfer credits will be accepted in lieu of the chemistry requirements **only** if they carry a direct exclusion or equivalency to a pre-approved chemistry course. Please carefully check your Transfer Credit Assessments.*
- Completion of 4.0 FCE

#### Applying with 8 or more FCEs completed:

- Completion of [BIO220H1](#) with a minimum grade of 65
- Completion of [BIO230H1](#)/ [BIO255H1](#) with a minimum grade of 65

- Completion of [HMB265H1/ BIO260H1](#)
- Completion of [BCH210H1](#)

Students may apply for this major program during Round 1 and Round 2 of Type 3 Enrolment after they have earned 4.0 FCE. Students applying for admissions to the program utilizing transfer credits will be considered on a case-by-case basis. Students entering from CEGEP or from another university should contact [hmb.undergrad@utoronto.ca](mailto:hmb.undergrad@utoronto.ca) after their transfer credit assessment has been complete for program enrolment assessment. For more information about Type 3 enrolment, visit the [Faculty of Arts & Science Subject Program Enrolment Instructions website](#).

#### Completion Requirements:

**Required Courses (12.0 FCE, including at least 1.0 FCE at the 400 level)**

#### Chemical and Physical Foundations of Biological Systems

1. [\(CHM135H1, CHM136H1\)/\(CHM138H1, CHM139H1\)/CHM151Y1](#)  
*Transfer credits will be accepted in lieu of the chemistry requirements only if they carry a direct exclusion or equivalency to a pre-approved chemistry course*

2. [MAT135H1/ PHY131H1/ PHY151H1/ CSC120H1/ CSC148H1](#)  
3. [BCH210H1](#)

#### Biological Foundations of Living Systems

4. [BIO120H1, BIO130H1](#)  
5. [BIO220H1](#)  
6. [BIO230H1/ BIO255H1](#)

#### Courses in Fundamental Genetics

7. [HMB265H1/ BIO260H1](#)  
8. [HMB321H1](#)

9. 1.5 FCE from: [HMB360H1/ HMB421H1/ HMB435H1/ HMB437H1/ HMB474H1/ BCH311H1/ BCH350H1/ BCH425H1/ BCH426H1/ BCH440H1/ BCH445H1/ BCH448H1/ CSB328H1/CSB331H1/ CSB340H1/CSB349H1/ CSB351Y1/ CSB353H1/ CSB428H1/ CSB429H1/ EEB318H1/ EEB323H1/ EEB365H1/EHJ352H1/ MGY314H1/ MGY315H1/ MGY340H1/ MGY428H1/ MGY471H1/ MGY452H1/ MGY470H1/ PSL350H1](#)

#### Courses in Applied Genetics

10. [HMB201H1](#)  
11. [HMB301H1 / ECO369H1](#)

12. 1.5 FCE from: [HMB401H1/ HMB431H1/HMB436H1/ HMB441H1/ HMB489H1/ BCH340H1/ BCH441H1/ BCH447H1/ CSB352H1/ CSB458H1/ CSB459H1/ CSB472H1/ CSB473H1/ CSB474H1/ EEB325H1/ EEB459H1/ EEB460H1/ NFS487H1/ PHL384H1/ PSL404H1/ PSY390H1](#)

#### Data Analysis and Research-Based Courses

13. 0.5 FCE in statistics: [HMB325H1/ EEB225H1/ STA220H1/ STA288H1](#)  
14. 0.5 FCE from bioethics: [HMB306H1/ HMB406H1/ PHL281H1](#)  
15. 0.5 FCE from upper-year lab course: [HMB311H1/ HMB314H1/ MGY314H1/ MGY315H1](#)  
16. 0.5 FCE from research based courses: [HMB342H1/HMB360H1/](#)

[HST373H1/ MGY377H1/ MGY378H1](#)

17. 1.0 FCE from research project course: [HMB496Y1\\*/ HMB499Y1\\*](#)

*\* A research project from a different unit may be accepted with prior written approval from Human Biology if the course is not counting toward a different program.*

*Fundamental Genetics and its Applications Specialists Notes:*

1. Courses can only count toward one requirement, even if listed as options to multiple requisites of the program .
2. Not all courses listed have priority enrolment for Fundamental Genetics and its Applications specialists. Students are responsible for checking priority of courses and meeting course prerequisites for courses they wish to take.

## Global Health Specialist (Science Program)

#### Description:

#### HMB: Global Health

The objective of the HMB: Global Health program is to provide students with instruction in fundamental biological sciences and to integrate a broad understanding of the socio-economic and cultural determinants of health to populations around the world.

#### Enrolment Requirements:

*(Effective for students enrolling in programs in April 2018. For students intending to enroll starting April 2017, please consult the 2016-17 Calendar.)*

This specialist is a Type 3 limited enrolment program. Admissions will be based on the following criteria, however achieving the minimum marks listed does not guarantee admission to the Fundamental Genetics and its Applications specialist program in any given year.

#### Applying with less than 8 FCEs:

- Completion of [BIO130H1](#) with a minimum grade of 65
- Completion of [CHM135H1](#) and completion of [CHM136H1](#) with a minimum grade of 55 (or [CHM151Y1](#) with a minimum grade of 55).
  - *Transfer credits will be accepted in lieu of the chemistry requirements **only** if they carry a direct exclusion or equivalency to a pre-approved chemistry course. Please carefully check your Transfer Credit Assessments.*
- Completion of 4.0 FCE

#### Applying with 8 or more FCEs completed:

- Completion of [BIO230H1/ BIO255H1](#) with a minimum grade of 65
- Completion of [BIO220H1](#)
- Completion of [HMB265H1/ BIO260H1](#)
- Completion of [BCH210H1](#)

Students may apply for this major program during Round 1 and Round 2 of Type 3 Enrolment after they have earned 4.0 FCE. Students applying for admissions to the program utilizing transfer

credits will be considered on a case-by-case basis. Students entering from CEGEP or from another university should contact [hmb.undergrad@utoronto.ca](mailto:hmb.undergrad@utoronto.ca) after their transfer credit assessment has been complete for program enrolment assessment. For more information about Type 3 enrolment, visit the [Faculty of Arts & Science Subject Program Enrolment Instructions website](#).

### Completion Requirements:

**Required Courses (13.5 FCE, including at least 1.0 FCE at the 400-level)**

#### Chemical and Physical Foundations of Biological Systems

1. ([CHM135H1](#), [CHM136H1](#)) / ([CHM138H1](#), [CHM139H1](#)) / [CHM151Y1](#)  
*Transfer credits will be accepted in lieu of the chemistry requirements only if they carry a direct exclusion or equivalency to a pre-approved chemistry course.*
2. [MAT135H1](#) / [PHY131H1](#) / [PHY151H1](#)
3. [BCH210H1](#)

#### Biological Foundations of Living Systems

4. [BIO120H1](#), [BIO130H1](#)
5. [BIO220H1](#)
6. [BIO230H1](#) / [BIO255H1](#)
7. [HMB265H1](#) / [BIO260H1](#)
8. [PSL300H1](#), [PSL301H1](#)
9. 1.0 FCE from [HMB302H1](#) / [HMB322H1](#) / [ANA300Y1](#) / [ANA301H1](#) / [CSB351Y1](#) / [IMM340H1](#) / [IMM350H1](#) / [MGY377H1](#) / [MGY378H1](#)

#### Global Health Concentration Courses

10. [HMB203H1](#)
11. [HMB323H1](#)

12. 0.5 FCE from: [PHS100H1](#) / [GGR112H1](#) / [PSY100H1](#) / [ABS201Y1](#) / [ANT100Y1](#) / [SOC101Y1](#) / [ECO100Y1](#) / [SOC102H1](#) *Transfer credits from AP and IB psychology are not accepted.*

13. 0.5 FCE from Epidemiology Courses: [HMB342H1](#) / [HST373H1](#)

14. 2.0 FCE from courses on the biological dimensions of Global Health: [HAJ453H1](#) / [HMB323H1](#) / [HMB433H1](#) / [HMB436H1](#) / [HMB437H1](#) / [HMB440H1](#) / [HMB443H1](#) / [HMB462H1](#) / [HMB473H1](#) / [HMB474H1](#) / [HMB496Y1](#) / [HMB499Y1](#) / [JEH455H1](#) / [CSB351Y1](#) / [EEB325H1](#) / [EHJ352H1](#) / [MGY350H1](#) / [MGY377H1](#) / [MGY378H1](#) / [MIJ485H1](#)

15. 1.0 FCE from courses on the social and ecological dimensions of Global Health: [HMB303H1](#) / [HMB306H1](#) / [ABS240Y1](#) / [ABS250Y1](#) / [ABS350H1](#) / [ABS355H1](#) / [ANT345H1](#) / [ANT348H1](#) / [ANT358H1](#) / [ANT458H1](#) / [ANT460H1](#) / [ECO314H1](#) / [ECO324H1](#) / [ECO333H1](#) / [ECO334H1](#) / [ECO342H1](#) / [ECO369H1](#) / [ECO402H1](#) / [EEB428H1](#) / [ENV341H1](#) / [ENV430H1](#) / [ENV432H1](#) / [GGR433H1](#) / [GGR434H1](#) / [HST410H1](#) / [HST440H1](#) / [HST464H1](#) / [JNH350H1](#) / [NEW352H1](#) / [NEW353H1](#) / [NEW453H1](#) / [NFS490H1](#) / [PHS300H1](#) / [PSY320H1](#) / [PSY321H1](#)

#### Data Analysis and Research-Based Courses

16. 0.5 FCE in statistics: [HMB325H1](#) / [STA220H1](#) / [STA288H1](#) / [PSY201H1](#) / [HMB325H1](#)
17. 0.5 FCE in bioethics: [HMB306H1](#) / [HMB406H1](#) / [PHL281H1](#)
18. 1.0 FCE from: [HMB496Y1](#) / [HMB499Y1](#)\*

\* A research project from a different unit may be accepted with prior written approval from Human Biology if the course is not counting toward a different program.

#### Global Health Specialists Notes:

1. Courses can only count toward one requirement, even if listed as options to multiple requisites of the program
2. Not all courses listed have priority enrolment for Global Health specialists. Students are responsible for checking priority of courses and meeting course prerequisites for courses they wish to take.

## Health & Disease Specialist (Science Program)

### Description:

#### HMB: Health & Disease

The objective of the HMB: Health & Disease program is to provide students with a solid foundation in the biological sciences as it relates to basic human physiology and the mechanisms of disease and to facilitate the integration of concepts from across the life sciences, social sciences and humanities. In addition, students will acquire skills in laboratory science, experience with quantitative approaches, and develop effective communication skills to provide an appropriate background essential to research and problem solving in this field.

### Enrolment Requirements:

(Effective for students enrolling in programs in April 2018. For students intending to enroll starting April 2017, please consult the 2016-17 Calendar.)

This specialist is a Type 3 limited enrolment program. Admissions will be based on the following criteria, however achieving the minimum marks listed does not guarantee admission to the Health & Disease specialist in any given year.

#### Applying with less than 8 FCEs:

- Completion of [BIO130H1](#) with a minimum grade of 65
- Completion of [CHM135H1](#) and [CHM136H1](#) OR completion of [CHM151Y1](#)
  - *Transfer credits will be accepted in lieu of the chemistry requirements **only** if they carry a direct exclusion or equivalency to a pre-approved chemistry course. Please carefully check your Transfer Credit Assessments.*
- Completion of 4.0 FCE

#### Applying with 8 or more FCEs completed:

- Completion of [BIO230H1](#) / [BIO255H1](#) with a minimum grade of 65
- Completion of [BIO220H1](#)
- Completion of [HMB265H1](#) / [BIO260H1](#)
- Completion of [BCH210H1](#)

Students may apply for this major program during Round 1 and Round 2 of Type 3 Enrolment after they have earned 4.0 FCE. Students applying for admissions to the program utilizing transfer credits will be considered on a case-by-case basis. Students

entering from CEGEP or from another university should contact [hmb.undergrad@utoronto.ca](mailto:hmb.undergrad@utoronto.ca) after their transfer credit assessment has been complete for program enrolment assessment. For more information about Type 3 enrolment, visit the [Faculty of Arts & Science Subject Program Enrolment Instructions website](#).

### Completion Requirements:

**Required Courses (13.0 FCE, including at least 1.0 FCE at the 400-level)**

#### Chemical and Physical Foundations of Biological Systems

1. (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1 *Transfer credits will be accepted in lieu of the chemistry requirements only if they carry a direct exclusion or equivalency to a pre-approved chemistry course*
2. MAT135H1/ PHY131H1/ PHY151H1
3. BCH210H1

#### Biological Foundations of Living Systems

4. BIO120H1, BIO130H1
5. BIO220H1
6. BIO230H1/ BIO255H1
7. HMB265H1/ BIO260H1
8. PSL300H1, PSL301H1
9. 1.0 FCE from depth courses on the molecular biology of cells and tissues: CSB327H1/ CSB328H1/ CSB331H1, (BCH311H1/ CSB349H1/ PSL350H1)

#### Health & Disease Concentration Courses

10. HMB202H1
11. HMB302H1
12. HMB322H1
13. 2.0 FCE from: HAB453H1/ HMB401H1/ HMB402H1/ HMB422H1/ HMB432H1/ HMB434H1/ HMB436H1/ HMB437H1/ HMB440H1/ HMB441H1/ HMB443H1/ HMB452H1/ HMB462H1/ HMB470H1/ HMB471H1/ HMB472H1/ HMB473H1/ HMB474H1/ JEH455H1/ ANA300Y1/ ANA301H1/ CSB345H1/ CSB351Y1/ EEB325H1/ IMM340H1/ IMM350H1/ LMP301H1/ LMP365H1/ LMP403H1/ LMP406H1/ MGY377H1/ MGY378H1/ NFS485H1/ NFS486H1/ PCL362H1/ PSL404H1/ PSL421H1/ PSL425H1

#### Data Analysis and Research-Based Courses

14. 0.5 FCE in statistics: HMB325H1/ STA220H1/ STA288H1/ PSY201H1
15. 0.5 FCE in bioethics: HMB306H1/ HMB406H1/ PHL281H1
16. 0.5 FCE from upper-year lab course: HMB312H1/ HMB314H1/ CSB330H1/ PSL372H1/ BCH370H1
17. 0.5 FCE from research based courses: HMB323H1/ HMB342H1/ HST373H1
18. 1.0 FCE from HMB496Y1\*/ HMB499Y1\*

\* A research project from a different unit may be accepted with prior written approval from Human Biology if the course is not counting toward a different program.

#### Health & Disease Specialists Notes:

1. Courses can only count toward one requirement, even if listed as options to multiple requisites of the program
2. Not all courses listed have priority enrolment for Health & Disease specialists. Students are responsible for checking priority of courses and meeting course prerequisites for courses they wish to take.

## Neuroscience Specialist (Science Program)

### Description:

#### HMB: Neuroscience

Neuroscience is an interdisciplinary field aimed at understanding the brain and nervous system utilizing integration of research at the molecular, cellular, and organismal levels, and through all stages of human development. The application of neuroscience has important implications for understanding human behaviour and for promoting the development of effective strategies for diagnosing and treating nervous system disorders. The objective of the HMB: Neuroscience specialist and major programs is to provide students with a solid foundation and facilitates the integration of concepts from multiple fields to their understanding of neuroscience.

### Enrolment Requirements:

(Effective for students enrolling in programs in April 2018. For students intending to enroll starting April 2017, please consult the 2016-17 Calendar.)

This specialist is a Type 3 limited enrolment program. Admissions will be based on the following criteria, however achieving the minimum marks listed does not guarantee admission to the neuroscience specialist in any given year.

#### Applying with less than 8 FCEs:

- Completion of BIO130H1 with a minimum grade of 70
- Completion of CHM135H1 and completion of CHM136H1 with a minimum grade of 55 (or CHM151Y1 with a minimum grade of 55)
  - *Transfer credits will be accepted in lieu of the chemistry requirements **only** if they carry a direct exclusion or equivalency to a pre-approved chemistry course. Please carefully check your Transfer Credit Assessments*
- Completion of 4.0 FCE

#### Applying with 8 or more FCEs completed:

- Completion of BIO230H1/ BIO255H1 with a minimum grade of 70
- Completion of HMB265H1/ BIO260H1
- Completion of BCH210H1
- Completion of PSL300H1

Students may apply for this major program during Round 1 and Round 2 of Type 3 Enrolment after they have earned 4.0 FCE. Students applying for admissions to the program utilizing transfer credits will be considered on a case-by-case basis. Students entering from CEGEP or from another university should contact [hmb.undergrad@utoronto.ca](mailto:hmb.undergrad@utoronto.ca) after their transfer credit assessment has been complete for program enrolment assessment. For more information about Type 3 enrolment, visit the [Faculty of Arts & Science Subject Program Enrolment Instructions website](#).

### Completion Requirements:

**Required Courses (12.0 FCE, including at least 1.0 FCE at the 400-level)**

## Chemical and Physical Foundations of Biological Systems

1. (CHM135H1, CHM136H1) / (CHM138H1, CHM139H1) / CHM151Y1  
*Transfer credits will be accepted in lieu of the chemistry requirements **only** if they carry a direct exclusion or equivalency to a pre-approved chemistry course.*
2. MAT135H1/ PHY131H1/ PHY151H1/ CSC120H1/ CSC148H1
3. BCH210H1

## Biological Foundations of Living Systems

4. BIO120H1, BIO130H1
5. BIO230H1/ BIO255H1
6. HMB265H1/ BIO260H1
7. PSL300H1

## Neuroscience Concentration Courses

8. PSY100H1 *Transfer credits from AP and IB Psychology are not accepted*
9. HMB200H1
10. HMB300H1
11. CJH332H1
12. HMB320H1
13. JHA410H1/ ANA300Y1

14. 2.0 FCE from HMB360H1/ HMB420H1/ HMB430H1/ HMB440H1/ HMB450H1/ HMB471H1/ HMB473H1/ CSB345H1/ CSB346H1/ CSB430H1/ CSB432H1/ CSB445H1/ CSC321H1/ LMP410H1/ NEW335H1/ NFS489H1/ PCL475H1/ PSL374H1/ PSL432H1/ PSL440Y1/ PSL444Y1/ PSL450H1/ PSL452H1/ PSL472H1/ PSY342H1/ PSY371H1/ PSY372H1/ PSY390H1/ PSY395H1/ PSY460H1/ PSY470H1/ PSY471H1/ PSY473H1/ PSY475Y1/ PSY480H1/ PSY490H1/ PSY492H1/ PSY493H1/ PSY492H1/ PSY493H1/ PSY494H1/ PSY496H1

## Data Analysis and Research-Based Courses

15. 0.5 FCE in statistics: HMB325H1/ STA220H1/ STA288H1/ PSY201H1
16. 0.5 FCE from bioethics: HMB306H1/ HMB406H1/ PHL281H1
17. 0.5 FCE from upper-year lab course: HMB310H1/ HMB314H1/ PSY399H1
18. 1.0 FCE from research project course: HMB496Y1\*/ HMB499Y1\*

\* A research project from a different unit may be accepted with prior written approval from Human Biology if the course is not counting toward a different program.

## Neuroscience Specialists Notes:

1. Courses can only count toward one requirement, even if listed as options to multiple requisites of the program.
2. Not all courses listed have priority enrolment for Neuroscience specialists. Students are responsible for checking priority of courses and meeting course prerequisites for courses they wish to take.

# Fundamental Genetics and its Applications Major (Science Program)

## Enrolment Requirements:

This is a Type 1 open enrolment program. Students are permitted to enrol in the major during the program enrolment cycle as soon as they have earned 4.0 FCE. It is recommended students complete their first year life science requirements before entering the program.

## Completion Requirements:

**Required Courses (8.0 FCE, including at least 0.5 FCE at the 400-level)**

## Chemical and Physical Foundations of Biological Systems

1. (CHM135H1, CHM136H1) / (CHM138H1, CHM139H1) / CHM151Y1  
*Transfer credits will be accepted in lieu of the chemistry requirements only if they carry a direct exclusion or equivalency to a pre-approved chemistry course*

2. MAT135H1/ PHY131H1/ PHY151H1/ CSC120H1/ CSC148H1
3. BCH210H1

## Biological Foundations of Living Systems

4. BIO120H1, BIO130H1
5. BIO220H1
6. BIO230H1/ BIO255H1

## Courses in Fundamental Genetics

7. HMB265H1/ BIO260H1
8. HMB321H1

9. 0.5 FCE from: HMB360H1/ HMB421H1/ HMB435H1/ HMB437H1/ HMB474H1/ BCH311H1/ BCH425H1/ BCH426H1/ BCH440H1/ BCH445H1/ BCH448H1/ CSB328H1/ CSB331H1/ CSB340H1/ CSB349H1/ CSB351Y1/ CSB353H1/ CSB428H1/ CSB429H1/ EEB318H1/ EEB323H1/ EEB365H1/ EHJ352H1/ MGY314H1/ MGY315H1/ MGY340H1/ MGY428H1/ MGY452H1/ MGY470H1/ MGY471H1/ PSL350H1

## Courses in Applied Genetics

10. HMB201H1
11. HMB301H1/ ECO369H1
12. 0.5 FCE from: HMB401H1/ HMB431H1/ HMB436H1/ HMB441H1/ HMB489H1/ BCH340H1/ BCH350H1/ BCH441H1/ BCH447H1/ CSB352H1/ CSB458H1/ CSB459H1/ CSB472H1/ CSB473H1/ CSB474H1/ EEB325H1/ EEB459H1/ EEB460H1/ NFS487H1/ PHL384H1/ PSL404H1/ PSY390H1

## Data Analysis and Research-Based Courses

13. 0.5 FCE in statistics: HMB325H1/ EEB225H1/ STA220H1/ STA288H1

14. 0.5 FCE from a research-based or lab course: HMB311H1/ HMB314H1/ MGY315H1/ HMB342H1/ HMB360H1/ HMB496Y1\*/ HMB499Y1\*/ HST373H1/ MGY314H1/ MGY377H1/ MGY378H1

*\* A research project from a different unit may be accepted with prior written approval from Human Biology if the course is not counting toward a different program.*

#### *Fundamental Genetics and its Applications Major Notes:*

1. Courses can only count toward one requirement, even if listed as options to multiple requisites of the program.
2. Not all courses listed have priority enrolment for Fundamental Genetics and its Applications majors. Students are responsible for checking priority of courses and meeting course prerequisites for courses they wish to take.
3. The Fundamental Genetics and its Applications major cannot be paired with any other Human Biology Program managed major program.

## Global Health Major (Science Program)

### Description:

#### HMB: Global Health

The objective of the HMB: Global Health program is to provide students with instruction in fundamental biological sciences and to integrate a broad understanding of the socio-economic and cultural determinants of health to populations around the world.

### Enrolment Requirements:

This is a Type 1 open enrolment program. Students are permitted to enrol in the major during the program enrolment cycle as soon as they have earned 4.0 FCE. It is recommended students complete their first year life science requirements before entering the major program.

### Completion Requirements:

**Required Courses (8.0 FCE, including at least 0.5 FCE at the 400-level)**

#### Chemical and Physical Foundations of Biological Systems

1. (CHM135H1, CHM136H1) / (CHM138H1, CHM139H1)/ CHM151Y1 *Transfer credits will be accepted in lieu of the chemistry requirements only if they carry a direct exclusion or equivalency to a pre-approved chemistry course.*
2. MAT135H1/ PHY131H1/ PHY151H1

#### Biological Foundations of Living Systems

3. BIO120H1, BIO130H1
4. BIO230H1/ BIO255H1
5. HMB265H1/ BIO260H1
6. PSL300H1, PSL301H1
7. 1.0 FCE from HMB302H1/ HMB322H1/ ANA300Y1/ ANA301H1/ CSB351Y1/ IMM340H1/ IMM350H1/ MGY377H1/ MGY378H1

#### Global Health Concentration Courses

8. 0.5 FCE from: PHS100H1 / PSY100H1/ABS201Y1/ ANT100Y1/ SOC101Y1/ ECO100Y1

*Transfer credits from AP and IB psychology are not accepted.*

9. HMB203H1

10. 0.5 FCE from courses on the biological dimensions of Global Health: HAJ453H1 /HMB323H1/ HMB342H1/ HMB433H1/ HMB436H1/ HMB437H1/ HMB440H1/ HMB443H1 / HMB462H1 / HMB473H1/ HMB474H1/ HMB496Y\*/ HMB499Y1\*/ CSB351Y1 /EEB325H1/ EHJ352H1/ HST373H1/ MGY350H1/ MGY377H1/ MGY378H1/ MIJ485H1

11. 0.5 FCE from courses on the social and ecological dimensions of Global Health: HMB303H1/ HMB306H1/ HMB406H1/ ABS240Y1/ ABS250Y1/ ABS350H1/ABS355H1/ ANT345H1/ANT348H1/ ANT358H1/ ANT458H1/ ANT460H1/ BIO220H1/ EEB428H1/ ENV341H1/ ENV430H1/ ENV432H1/ GGR433H1/ GGR434H1/ JEH455H1/ ECO314H1/ HST410H1/ HST440H1/ HST464H1/ JNH350H1/ NEW352H1/ NEW353H1/ NEW453H1/ NFS490H1/ PHS300H1/ PSY320H1/ PSY321H1/ ECO324H1/ ECO333H1/ ECO334H1/ ECO342H1/ ECO369H1/ ECO402H1

### Data Analysis Courses

12. 0.5 FCE in statistics: HMB325H1/ STA220H1/ STA288H1/ PSY201H1

*\* A research project from a different unit may be accepted with prior written approval from Human Biology if the course is not counting toward a different program.*

#### *Global Health Major Notes:*

1. Courses can only count toward one requirement, even if listed as options to multiple requisites of the program
2. Not all courses listed have priority enrolment for Global Health majors. Students are responsible for checking priority of courses and meeting course prerequisites for courses they wish to take.
3. The Global Health major cannot be paired with any other Human Biology Program managed major program.

## Health & Disease Major (Science Program)

### Description:

#### HMB: Health & Disease

The objective of the HMB: Health & Disease program is to provide students with a solid foundation in the biological sciences as it relates to basic human physiology and the mechanisms of disease and to facilitate the integration of concepts from across the life sciences, social sciences and humanities. In addition, students will acquire skills in laboratory science, experience with quantitative approaches, and develop effective communication skills to provide an appropriate background essential to research and problem solving in this field.

### Enrolment Requirements:

This major is a Type 1 open enrolment program. Students are permitted to enrol in the major during the program the enrolment cycle as soon as they have earned 4.0 FCE. It is recommended students complete the program's required 100-level courses before entering the major program.

### Completion Requirements:

## Required Courses (7.5 FCE, including at least 0.5 FCE at the 400-level)

### Chemical and Physical Foundations of Biological Systems

1. (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1 *Transfer credits will be accepted in lieu of the chemistry requirements **only** if they carry a direct exclusion or equivalency to a pre-approved chemistry course*
2. MAT135H1/ PHY131H1/ PHY151H1
3. BCH210H1

### Biological Foundations of Living Systems

4. BIO120H1, BIO130H1
5. BIO220H1, BIO230H1/ BIO255H1
6. HMB265H1/ BIO260H1
7. PSL300H1, PSL301H1

### Health & Disease Concentration Courses

8. HMB202H1
9. HMB302H1/HMB322H1

10. 0.5 FCE from: H4J453H1/ HMB401H1/ HMB402H1/ HMB422H1/ HMB432H1/ HMB434H1/ HMB436H1/ HMB437H1/ HMB440H1/ HMB441H1/ HMB443H1/ HMB452H1/ HMB462H1/ HMB470H1/ HMB471H1/ HMB472H1/ HMB473H1/ HMB474H1/ EHJ352H1/ JEH455H1/ ANA300Y1/ ANA301H1/ CSB345H1/ EEB325H1/ LMP301H1/ LMP363H1/ LMP403H1/ LMP406H1 / NFS485H1/ NFS486H1/ PCL362H1/ PSL404H1/ PSL421H1/ PSL425H1

### Data Analysis and Research-Based Courses

11. 0.5 FCE in statistics: HMB325H1/ STA220H1/ STA288H1/ PSY201H1
12. 0.5 FCE from an upper-year lab or research-based course: HMB312H1/ HMB314H1/ HMB323H1/ HMB342H1/ HST373H1/ HMB496Y1\*/ HMB499Y1\*

\* A research project from a different unit may be accepted with prior written approval from Human Biology if the course is not counting toward a different program.

### Health & Disease Major Notes:

1. Courses can only count toward one requirement, even if listed as options to multiple requisites of the program
2. Not all courses listed have priority enrolment for Health & Disease majors. Students are responsible for checking priority of courses and meeting course prerequisites for courses they wish to take.
3. The Health & Disease major cannot be paired with any other Human Biology Program managed major program.

## Human Biology Major (Science Program)

### Description:

#### HMB: Human Biology

Human Biology is a transdisciplinary field concerned with the study of human health from a biological, sociological, and evolutionary perspective. Research in human biology focuses on impact that genetic variations, development, physical fitness, and nutrition have on the general health of populations and how this compares across cultures and through history. The objective of the HMB: Human Biology major program is to provide students with a solid foundation in the life sciences as it relates to human biology and to facilitate the integration of concepts from across the social sciences and humanities, and to equip them with quantitative skills essential to research and success in this field.

### Enrolment Requirements:

This is a Type 1 open enrolment program. Students are permitted to enrol in the major during the program enrolment cycle when they have earned 4.0 FCE. It is recommended that students complete the program's required 100-level courses before entering the major program.

### Completion Requirements:

## Required Courses (8.0 FCE, including at least 0.5 FCE at the 400-level)

### Chemical and Physical Foundations of Biological Systems

1. (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1 *Transfer credits will be accepted in lieu of the chemistry requirements **only** if they carry a direct exclusion or equivalency to a pre-approved chemistry course*
2. MAT135H1/ PHY131H1/ PHY151H1
3. BCH210H1

### Biological Foundations of Living Systems

4. BIO120H1, BIO130H1
5. HMB204H1
6. BIO230H1/ BIO255H1, BIO220H1
7. HMB265H1/ BIO260H1
8. PSL300H1, PSL301H1
9. 1.0 FCE from: HMB302H1/ANA300Y1/ ANA301H1/ CSB351Y1/ IMM340H1/ IMM350H1/ MGY377H1/ MGY378H1
10. 1.0 FCE from: HMB302H1/ HMB303H1/ HMB310H1/ HMB311H1/ HMB312H1/ HMB314H1/ HMB322H1/ HMB323H1/ HMB342H1/ HMB360H1/ EHJ352H1/ HMB402H1/ HMB406H1/ HMB422H1/ HMB432H1/ HMB434H1/ HMB436H1/ HMB437H1/ HMB440H1/ HMB441H1/ HMB443H1/ HMB452H1/ HMB462H1/ HMB470H1/ HMB471H1/ HMB473H1/ HMB474H1/ HMB496Y1\*/ HMB499Y1\*/ JEH455H1/ANA301H1/ BIO270H1/ BIO271H1/ BCH311H1/ BCH340H1/ BCH422H1/ BCH426H1/ BCH440H1/ BCH441H1/ BCH445H1/ BCH447H1/ CSB325H1/ CSB345H1/ CSB346H1/ CSB351Y1/CSB443H1/ EEB255H1/EEB318H1/ EEB319H1/ EEB323H1/ EEB324H1/ EEB325H1 / EEB365H1/ EEB375H1/ EHJ352H1/ EEB428H1 / EEB445H1/ EEB465H1/ IMM340H1/ IMM350H1/ IMM430H1/ LMP363H1/ LMP402H1/ LMP403H1/ LMP406H1/ MIJ485H1/ MGY377H1/ MGY378H1/ MGY470H1/ NFS284H1/ NFS382H1/ NFS400H1/ NFS485H1/ NFS486H1/ NFS487H1/ NFS488H1/ NFS489H1/ NFS490H1/ PCL362H1/ PCL473H1/ PSL420H1/ PSL421H1/ PSY371H1/

PSY372H1/ PSY399H1/ PSY440H1/ PSY460H1/ PSY470H1/ PSY471H1/ PSY494H1

*\*A research project from a different unit may be accepted with prior written approval from Human Biology if the course is not counting toward a different program.*

**Human Biology Major Notes:**

1. Courses can only count toward one requirement, even if listed as options to multiple requisites of the program.
2. Not all courses listed have priority enrolment for Human Biology majors. Students are responsible for checking priority of courses and meeting course prerequisites for courses they wish to take.
3. The Human Biology major cannot be paired with any other Human Biology Program managed major program.

## Neuroscience Major (Science Program)

**Description:**

**HMB: Neuroscience**

Neuroscience is an interdisciplinary field aimed at understanding the brain and nervous system utilizing integration of research at the molecular, cellular, and organismal levels, and through all stages of human development. The application of neuroscience has important implications for understanding human behaviour and for promoting the development of effective strategies for diagnosing and treating nervous system disorders. The objective of the HMB: Neuroscience specialist and major programs is to provide students with a solid foundation and facilitates the integration of concepts from multiple fields to their understanding of neuroscience.

**Enrolment Requirements:**

**Neuroscience Major (Science Program) 8.0 FCE**

*(Effective for students enrolling in programs in April 2018. For students intending to enroll starting April 2017, please consult the 2016-17 Calendar.)*

This major is a Type 2L limited enrolment program. Admissions will be based on the following criteria, however achieving the minimum grades listed does not guarantee admission to the neuroscience major in any given year.

*Applying with less than 8 FCEs:*

- Completion of BIO130H1 with a minimum grade of 55
- Completion of CHM135H1 and CHM136H1 or completion of CHM151Y1
  - *Transfer credits will be accepted in lieu of the chemistry requirements **only** if they carry a direct exclusion or equivalency to a pre-approved chemistry course. Please carefully check your Transfer Credit Assessments*
- Completion of 4.0 FCE

*Applying with 8 or more FCEs completed:*

- Completion of BIO230H1/ BIO255H1 with a minimum grade of 55
- Completion of HMB265H1/ BIO260H1

- Completion of BCH210H1
- Completion of PSL300H1

Students may apply for this major program during Round 1 and Round 2 of Type 2L Enrolment after they have earned 4.0 FCE. Students applying for admissions to the program utilizing transfer credits will be considered on a case-by-case basis. Students entering from CEGEP or from another university should contact [hmb.undergrad@utoronto.ca](mailto:hmb.undergrad@utoronto.ca) after their transfer credit assessment has been complete for program enrolment assessment. For more information about Type 2L enrolment, visit the [Faculty of Arts & Science Subject Program Enrolment Instructions website](#).

**Completion Requirements:**

**Required Courses (8.0 FCE, including at least 0.5 FCE at the 400-level)**

**Chemical and Physical Foundations of Biological Systems**

1. (CHM135H1, CHM136H1) / (CHM138H1, CHM139H1/ CHM151Y1)  
*Transfer credits will be accepted in lieu of the chemistry requirements only if they carry a direct exclusion or equivalency to a pre-approved chemistry course.*
2. MAT135H1/ PHY131H1/ PHY151H1/ CSC120H1/ CSC148H1
3. BCH210H1

**Biological Foundations of Living Systems**

4. BIO120H1, BIO130H1
5. BIO230H1/ BIO255H1
6. HMB265H1/ BIO260H1
7. PSL300H1

**Neuroscience Concentration Courses**

8. HMB200H1
9. HMB300H1
10. CJH332H1
11. 0.5 FCE from HMB320H1/ JHA410H1/ ANA300Y1

12. 0.5 FCE from HMB360H1/ HMB420H1/ HMB430H1/ HMB440H1/ HMB450H1/ HMB471H1/ HMB473H1/ HMB496Y1/ HMB499Y1/ CSB345H1/ CSB346H1/ CSB430H1/ CSB432H1/ CSB445H1/ CSC321H1/ LMP410H1/ NEW335H1/ NFS489H1/ PCL475H1/ PSL374H1/ PSL432H1/ PSL440Y1/ PSL444Y1/ PSL450H1/ PSL452H1/ PSL472H1/ PSY342H1/ PSY371H1/ PSY372H1/ PSY390H1/ PSY395H1/ PSY460H1/ PSY470H1/ PSY471H1/ PSY473H1/ PSY475Y1/ PSY480H1/ PSY490H1/ PSY492H1/ PSY493H1/ PSY492H1/ PSY493H1/ PSY494H1/ PSY496H1

**Data Analysis and Research-Based Courses**

13. 0.5 FCE in statistics: HMB325H1/ STA220H1/ STA288H1/ PSY201H1
14. 0.5 FCE from a higher-year lab course: HMB310H1/ HMB314H1/ PSY399H1

*\* A research project from a different unit may be accepted with prior written approval from Human Biology if the course is not counting toward a different program.*

**Neuroscience Major Notes:**

1. Courses can only count toward one requirement, even if listed as options to multiple requisites of the program.
2. Not all courses listed have priority enrolment for Neuroscience majors. Students are responsible for checking priority of courses and meeting course prerequisites for courses they wish to take.
3. The Neuroscience major cannot be paired with any other Human Biology Program managed major program.

- [HMB450H1 Neurodevelopmental Disorders and Diseases](#)
- [HMB473H1 Exercise and Mental Health](#)

## Important Notes About Human Biology Courses

### Human Biology Course Prerequisites & Corequisites

Students are advised that the Human Biology Program enforces prerequisites and corequisites on all courses offered by the program. Students are expected to know the prerequisites of courses they wish to take and ensure they have the necessary prerequisites prior to enrollment.

Should a student wish to seek a prerequisite waiver, the request must be made prior to enrolling in the course. Please email the program office at [hmb.udergrad@utoronto.ca](mailto:hmb.udergrad@utoronto.ca) with such requests. If a student is enrolled in an Applied Statistics Specialist, or is planning on using transfer credits, or credits obtained from UTSC/UTM, in lieu of stated prerequisites/corequisites, please contact the program office prior to enrolling in courses to ensure your alternate credits will be accepted.

Please note that if a pre-requisite is a FCE count, we generally will allow a 0.5 FCE difference (i.e. have 13.5 FCE complete when 14 FCE is required) should a student have all other prerequisites **and** if enrolment pressure is not too high. An email request for a waiver of this type of prerequisite is not necessary.

Please note that 300-level courses with the following joint course codes are automatically accepted when the pre-requisite states "A HMB300-level course:" CJH, EHJ, JNH.

## Regarding Human Biology 400-level Courses

Due to popularity of HMB400-level courses, the Human Biology Program Office reserves the right to remove any student who has either completed the required number of courses for their HMB program or has completed the program requisite that the HMB400-level course would count towards utilizing a HMB400-level course taken in a prior school year. The Human Biology Program Office also reserves the right to instruct students enrolled in too many HMB400-level courses to drop to a specified number to allow as many of our HMB students to take a HMB400-level course. This course enrolment limit varies from year to year, generally capping at two if a major student and three if a specialist student. Students in this situation are given five business days' notice via email of their situation to choose which courses they wish to keep. Students are encouraged to routinely check their UTOR email during July and August Course Enrolment.

Students who are removed from HMB400-level courses for the reasons listed above will be permitted to attempt re-enrollment on September 1. This means, that if you were removed from a HMB400 level course **not** due to failing prerequisite checks, you will be permitted on September 1 to enrol via ACORN either into the course if there is space, or on the waitlist if the course is full.

There are no pre-requisite exceptions on any HMB400-level course. Students planning on using transfer credits in lieu of the pre-requisites must email [hmb.undergrad@utoronto.ca](mailto:hmb.undergrad@utoronto.ca) before enrolling in the course to request that transfer credits be accepted in lieu of the stated pre-requisites. Please note that 300-level courses with the following joint course codes are automatically accepted when the pre-requisite states "A HMB300-level course:" CJH, EHJ, JNH.

## Regarding Human Biology "Tiered Waitlists"

The Human Biology Program employs "tiered waitlists" on all courses that have the enrolment indicator of R1 or P that has unequal spots. (HMB does not use the R2 enrolment control). For an explanation of how Tiered Waitlists work please visit the [HMB Webpage "HMB Tiered Waitlist Explained."](#)

## Human Biology Courses

### HMB200H1 - Introduction to Neuroscience

**Hours:** 24L/12T

An introductory course that explores the development, physiology and continually changing function of the nervous system as it relates to certain types of human behaviour. Critical analysis of scientific evidence is used to enrich learning.

**Prerequisite:** BIO120H1, BIO130H1

**Exclusion:** HMB220H1

**Recommended Preparation:** PSL300H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### HMB201H1 - Introduction to Genes, Genetics & Biotechnology

**Hours:** 24L/12T

Interdisciplinary course consisting of three parts: the genetic basis, tools and techniques of biotechnology; medical, environmental and agricultural applications; and ethical, legal and social aspects of biotechnology (including approaches to risk assessment, reduction and acceptance). A prime example used in the third part is the controversy over genetically modified foods.

**Prerequisite:** BIO120H1, BIO130H1

**Recommended Preparation:** HMB265H1/ BIO260H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### HMB202H1 - Introduction to Health and Disease

**Hours:** 24L/12P

An introductory course in Health and Disease using an interdisciplinary approach that integrates developmental human biology with perspectives from the Social Sciences. An exploration of the key concepts and approaches that are necessary for understanding the dynamic nexus of human health and disease. (Lab Fees: \$50)

**Prerequisite:** BIO120H1, BIO130H1

**Exclusion:** HMB203H1/ HMB204H1

**Recommended Preparation:** BIO230H1/ BIO255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### HMB203H1 - Introduction to Global Health

**Hours:** 24L/12T

An introductory course covering the theories, operational components and strategies of implementing primary health care in developing countries. Topics include education, control of vector borne diseases, essential drug provision, maternal and child health and nutrition and incorporation of alternative and complementary technologies, community participation and deployment of health service providers.

**Prerequisite:** BIO120H1, BIO130H1

**Exclusion:** HMB202H1/HMB204H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB204H1 - Introduction to Human Biology

**Hours:** 24L/12T

An introduction to the biological, health, environmental, and sociopolitical issues that influence human health and well-being. Topics include genetic variation within and across human populations, biological variation related to the environment, determinants of health and disease, and human behaviour and development.

**Prerequisite:** BIO120H1, BIO130H1

**Exclusion:** HMB202H1/ HMB203H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB265H1 - General & Human Genetics

**Hours:** 24L/12T

An introduction to classical and modern methods of genetic analysis. Topics include Mendelian genetics, the genetics of human population and disease, genomics, and applications of genetics to human society.

**Prerequisite:** BIO120H1, BIO130H1, (CHM135H1/CHM139H1, CHM136H1/ CHM138H1)/ CHM151Y1

**Exclusion:** BIO260H1/ BIO207H5

**Recommended Preparation:** Recommended Co-requisite: BIO230H1/BIO255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB300H1 - Neurobiology of Behaviour

**Hours:** 24L/12T

This intermediate course in neuroscience focuses on higher brain functions and mechanisms underlying human and animal behaviours. Topics may include advanced neurophysiological, neuroanatomical and genetic basis of various cortical functions, including learning and memory, "mirroring", and executive function. Experimental techniques used in neuroscience research such as electrophysiological recordings, brain imaging and neurogenetics are emphasized.

**Prerequisite:** HMB200H1/HMB220H1/PSY290H1, BIO230H1/ BIO255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB301H1 - Biotechnology

**Hours:** 24L/12T

Students gain an appreciation for how science, business, government and society drive the development of biotechnology products. Topics include stem cells and regenerative medicine, diagnostics, cancer therapy, biotechnology in the developing world, antibiotic alternatives, and patents.

**Prerequisite:** HMB201H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB302H1 - Vertebrate Histology and Histopathology

**Hours:** 24L/36P

Laboratory and lecture course studying the structure of the cell, various tissues and organ systems. Emphasis is on functional morphology and the adaptive response (including the inflammatory reaction) by comparing histological sections of normal tissues and organs with common diseases including neoplasia, respiratory, and liver disease. (Lab Materials Fee: \$50)

**Prerequisite:** BIO230H1/ BIO255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB303H1 - Global Health and Human Rights

**Hours:** 24L/15S

A multidisciplinary emphasis on the economic, historical, social and cultural determinants of health and human rights, and how structural violence prevents progress towards human rights. Case studies reflecting global aspects of health and human rights form a framework for approaching these issues.

**Prerequisite:** 9 FCE complete, a HST200-level course/ HMB202H1/ HMB203H1/HMB204H1

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## HMB306H1 - Ethical Considerations in Emerging Technology

**Hours:** 14L/10S

Advancing technology increases our ability to intervene in the course of natural events involving human health and well being. Questions arise as whether we ought to and who will benefit or be harmed. This course considers the far-reaching bioethical implications of emerging bio-technology. Topics to be explored include-but are not limited to- ethical considerations in emerging reproductive technologies, genetic alteration/genetic enhancement. Use of life support technologies, synthetic life, life extension.

**Prerequisite:** BIO230H1, HMB265H1/BIO260H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB310H1 - Laboratory in Neuroscience

**Hours:** 12L/36P

A laboratory course based on current research techniques for students in the Neuroscience Specialist and Major programs. Lab topics may include human brain imaging and disorders; animal behaviour, electrophysiology and cell culture; and microarray analysis of neural development. (Lab Materials Fee: \$50)

**Prerequisite:** 9 FCE complete, HMB200H1/HMB220H1/PSY290H1, HMB265H1/BIO260H1, BIO230H1/ BIO255H1

**Corequisite:** PSL300H1

**Exclusion:** PSY399H1/HMB311H1/HMB312H1/HMB314H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB311H1 - Laboratory in Fundamental Genetics and its Applications

**Hours:** 12L/36P

A laboratory course based on current research techniques for students in the Fundamental Genetics and its Applications specialist and major programs. Lab topics may include basic microbiology, molecular biology and animal cell culture techniques, nutrigenomics; and microarray analysis of altered gene expression. (Lab Materials Fee: \$50)

**Prerequisite:** 9 FCE complete, HMB201H1, HMB265H1/BIO260H1, BIO230H1/ BIO255H1

**Exclusion:** HMB310H1/HMB312H1/HMB314H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB312H1 - Laboratory in Health and Disease

**Hours:** 12L/36P

A laboratory course based on current research techniques for students in the HMB: Health & Disease and HMB: Global Health programs. Lab topics may include basic microbiology, molecular biology and animal cell culture techniques, immunocytochemistry, microarrays, and histological techniques. (Lab Materials Fee: \$50)

**Prerequisite:** 9 FCE complete, HMB202H1/HMB203H1/ HMB204H1, HMB265H1/BIO260H1, BIO230H1/ BIO255H1

**Corequisite:** PSL301H1

**Exclusion:** HMB310H1/HMB311H1/HMB314H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB314H1 - Laboratory in Human Biology

**Hours:** 12L/36P

Students analyze whole body, cellular, and molecular responses to stress. Techniques range from those standard in medical practice (e.g., blood pressure) to those used in cutting-edge research laboratories (e.g., microarrays). Students gain technical and analytical skills as they use these laboratory techniques to design and carry out individual and group experiments. (Lab Materials Fee: \$25)

**Prerequisite:** 9 FCE complete, HMB200H1/ HMB201H1/ HMB202H1/ HMB203H1/ HMB204H1/HMB220H1, HMB265H1/ BIO260H1, BIO230H1/ BIO255H1

**Corequisite:** PSL300H1

**Exclusion:** HMB310H1/HMB311H1/HMB312H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB320H1 - Neuroanatomy

**Hours:** 24L/8T/16P

This is a rigorous, introductory course that presents the functional and comparative anatomy of the vertebrate brain. It is designed for students who intend to continue with studies in the Neurosciences and related areas.

**Prerequisite:** 9 FCE complete, PSL300H1, HMB200H1/HMB220H1/ PSY290H1, BIO230H1/ BIO255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB321H1 - Topics in Genetics

**Hours:** 24L/12T

The overall theme of this course is human genetics in disease. Topics include the molecular basis of human disease, using model organisms to identify disease-related genes, and genetic counseling. Expert guest lectures from clinical and basic sciences as well as small group work in tutorials build in-depth understanding.

**Prerequisite:** 9 FCE completed, HMB265H1/ BIO260H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB322H1 - Topics in Health & Disease

**Hours:** 24L/12T

Explore the scientific basis and interdisciplinary healthcare practices of several diseases (diseases vary by year). Discuss current issues related to the biology and the impact of these diseases.

**Prerequisite:** 9 FCE complete, BIO230H1/BIO255H1, PSL300H1

**Corequisite:** PSL301H1

**Recommended Preparation:** HMB302H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB323H1 - Global Health Research

**Hours:** 24L/12T

Globalization of health problems impacts biomedical research. Current global health research advances are explored and global health research skills are developed. Both provide background preparation for global health research, particularly in international settings.

**Prerequisite:** 9 FCE complete, HMB202H1/HMB203H1/ HMB204H1, BIO230H1/ BIO255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

**Note:** This course will offer an International Course Module in Greece over February Reading Week 2018.

## HMB325H1 - Statistics Applied to Human Biology

**Hours:** 24L/24T

(This course is not being offered in the 2017-2018 Academic Year. Students are advised to take STA288H1 instead.)

Find out how to use statistics in your research, and critically assess published data using statistical concepts. The examples used in these lectures and small-group sessions are taken solely from human biology studies.

**Prerequisite:** 0.5 FCE from a first year math or physics course, BIO220H1, BIO230H1/BIO255H1, HMB265H1/BIO260H1

**Exclusion:** ECO220Y1/ECO227Y1/PSY202H1/SOC300H1/ STA221H1/STA248H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## CJH332H1 - Neurobiology of the Synapse (Formerly CSB332H1)

**Hours:** 24L

Examination of all aspects of the synapse in both the peripheral and central nervous systems of invertebrates and vertebrates. Topics include: synapse formation, synaptic transmission, synaptic plasticity, learning and memory, and neurological disorders.

**Prerequisite:** BIO271H1/PSL300H1

**Exclusion:** CSB332H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB342H1 - Epidemiology of Health & Disease

**Hours:** 24L/24T

This course engages students in the fundamental science of epidemiology applied to health and disease. After an introduction to various measures of health and disease, the scientific methods used to investigate, analyze, prevent and control health problems will be illustrated using biomedical and public health examples.

**Prerequisite:** 9 FCE complete, HMB200H1/HMB201H1/ HMB202H1/HMB203H1/ HMB204H1

**Exclusion:** HST373H1

**Recommended Preparation:** HMB325H1 or other statistics course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## JNH350H1 - AIDS : Challenges and Successes (formerly NEW350H1)

**Hours:** 24L

Explores the pandemic of AIDS in Africa through a social science lens. (Given by Human Biology and New College)

**Exclusion:** NEW350H1

**Recommended Preparation:** NEW150Y1

**Distribution Requirements:** Humanities; Science; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## EJH352H1 - Evolution of the Human Genome

**Hours:** 24L/12T

Human genome diversity and evolution with a focus on current research. The course integrates applications of human evolutionary genomics to the understanding of human history and adaptation, the causes of disease, and genome structure and function. Topics include: comparative genomics, population genomics of adaptation, association mapping, repetitive/selfish DNA, and gene duplication.

**Prerequisite:** BIO220H1, BIO260H1/HMB265H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB360H1 - Neurogenomics

**Hours:** 24L/12T

Genetic basis of normal and abnormal function of the nervous system. Lecture topics include neural gene expression, regulation of chromatin and neuron function, genome wide association studies and disorders of brain and behaviour, optogenetic and pharmacogenetic techniques to probe neural circuit function. Tutorials emphasize critical analysis of primary research.

**Prerequisite:** 9 FCE complete, HMB200H1/HMB201H1/HMB220H1/PSY290H1, HMB265H1/BIO260H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB394Y0 - International Research Project in Human Biology

**Hours:** TBA

Your individual, independent research project is supervised by a faculty member in an approved university. This unique opportunity to conduct a lab-based research project is open to students in any Human Biology program. Coordinated by Centre for International Experience. Not eligible for CR/NCR option.

**Prerequisite:** At least 8.5 FCEs including relevant courses in human biology.

**Distribution Requirements:** Science

## HMB395Y1 - Human Biology Research Project

**Hours:** TBA

A research project is supervised by a faculty member of the Faculty of Arts and Science or the Faculty of Medicine. Not eligible for CR/NCR option. Applications for this course are due to the Human Biology Program Office no later than 15 days prior to the first day of F-term. For more information please check the [Human Biology website](#).

**Prerequisite:** 9 FCE complete, HMB200H1/HMB201H1/HMB202H1/ HMB203H1/HMB204H1, BCH210H1/CHM247H1, BIO230H1/BIO255H1, HMB265H1/BIO260H1, cGPA 3.5 or higher, and permission of the Human Biology Program

**Exclusion:** Students are not permitted to do a HMB research project concurrently with another research project and students are allowed to do no more than 2.0 FCE from HMB-coded research project courses.

**Recommended Preparation:** 0.5 FCE or more in any statistics course

**Distribution Requirements:** Science

## HMB396Y0 - International Research Project in Human Biology

**Hours:** TBA

Your individual, independent research project is supervised by a faculty member in an approved university. This unique opportunity to conduct a lab-based research project is open to students in any Human Biology program. Not eligible for CR/NCR option. Coordinated by [Woodsworth College](#).

**Prerequisite:** An approved 300-series science laboratory course and permission of the Human Biology Program from which application forms may be obtained.

**Distribution Requirements:** Science

## HMB399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Prerequisite:** 9 FCE complete and permission of the Human Biology Program from which application forms may be obtained.

**Distribution Requirements:** Science

## HMB401H1 - Biomedical Advances & Technologies

**Hours:** 24L/12T

This course introduces life science students to biomedical advances and technologies in medicine, including drug patents, medical device implants, diagnostic and medical device software. Limitations of patent protection in commercializing medical products, and limitations to scalability will also be discussed.

**Prerequisite:** 14 FCE completed, HMB301H1

**Recommended Preparation:** a statistics course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB402H1 - Topics in Translational Medicine

**Hours:** 18L/6S

The bridge between basic scientific research and clinical practice integrates fundamental knowledge about molecular/cellular mechanisms and clinical disorders to increase the potential for new medical treatments, therapies and interventions as well as understanding of disease processes. Case applications delivered by experts illustrate how promising laboratory discoveries transform medicine and medical science.

**Prerequisite:** 14 FCE complete, BCH210H1, BIO230H1/BIO255H1, HMB302H1/HMB312H1/HMB314H1/HMB322H1

**Recommended Preparation:** CSB349H1/ BCH311H1/ PSL350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB406H1 - Health Care Ethics

**Hours:** 8L/16S

Since research involving human subjects lays the foundation for innovation in modern health care, this course examines health care ethics along a continuum from bench to bedside. Ethical issues are discussed in the context of specific cases involving human research, as well as contemporary clinical practice.

**Prerequisite:** 14 FCE complete, A HMB300-level course, HMB306H1/ PHL281H1/ other ethics course with prior approval from the unit

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## JHA410H1 - Clinical Neuroimaging

**Hours:** 24L/12T

This course focuses on the use of neuroimaging techniques in understanding how trauma, disorders, and disease impact neural structure and function. Lectures will focus on local and long-range neural impact of pathology and neuroimaging assessment. Lab work will focus on practical skills including image processing, analyses, and experimental design.

**Prerequisite:** 9 FCE complete, PSL300H1, BIO230H1, HMB200H1/ HMB220H1/ PSY290H1/ ANA300Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB420H1 - Seminar in Neurobiology of Behaviour

**Hours:** 12L/12S

This seminar course focuses on recent research into the neurobiology underlying human behaviour. A variety of normal and abnormal human behaviours are studied (e.g., voluntary action, moral cognition, hedonism, aggression).

**Prerequisite:** 14 FCE complete, HMB300H1/HMB310H1/ HMB320H1/ HMB360H1/ CJH332H1 (formerly CSB332H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB421H1 - Seminar in Fundamental Genetics and its Applications

**Hours:** 12L/12S

Theme based lecture and seminar course underlining current medical research in relation to the areas of genes, genetics and biotechnology. Topics vary yearly.

**Prerequisite:** 14 FCE complete, HMB301H1/HMB311H1/HMB314H1/ HMB321H1, cGPA 2.5

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB422H1 - Seminar in Health & Disease

**Hours:** 16L/8S

This course focuses on current medical research related to human disease. Faculty from the Department of Anesthesia, Faculty of Medicine present their own preoperative research. The potentially profound health effects of anesthesia, pain management, and the control of the cardiorespiratory system essential for most surgery are also highlighted.

**Prerequisite:** 14 FCE complete, PSL300H1, PSL301H1, HMB302H1/ HMB312H1/ HMB314H1/ HMB322H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB430H1 - Trends in Neuroscience

**Hours:** 18L/6S

Current research covering the breadth of neuroscience is showcased by members of the Collaborative Program in Neuroscience. These topical reports cover the spectrum from molecular through genetic, cellular, developmental, systems, behavioural and modelling. As well, approaches to studying neurodegenerative diseases and clinical neurophysiology are introduced.

**Prerequisite:** 14 FCE complete, HMB300H1/ HMB310H1/ HMB320H1/ HMB360H1/ CJH332H1 (formerly CSB332H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB431H1 - Innovation in Applied Genetics

**Hours:** 16L/8S

This course explores innovation in research and technology in the field of applied genetics.

**Prerequisite:** 14 FCE complete, a HMB300-level course

**Corequisite:** HMB325H1/ STA288H1/ STA220H1/ PSY201H1

**Recommended Preparation:** HMB301H1

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## HMB432H1 - Topics in Histology & Histopathology

**Hours:** 12L/12S

Lecture and seminar course emphasizing current research. Topics may include the digestive system, cardiovascular system, respiratory system, stem cells, and neoplasia. Topics vary depending on class interest.

**Prerequisite:** 14 FCE complete, HMB302H1/ HMB312H1/ HMB314H1/ HMB322H1, cGPA 2.5

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB433H1 - Topics in Global Health

**Hours:** 16L/8S

Seminar and theme based course examining the opportunity to apply basic knowledge of biological determinants of disease to designing health system interventions and informatics that can have a global impact in the near term.

**Prerequisite:** 14 FCE complete, HMB303H1/ HMB323H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB434H1 - Complementary & Integrative Medicine

**Hours:** 20L/4S

Introduction to complementary and alternative medical therapies. Topics include, Traditional Chinese Medicine, Naturopathy, Ayurvedic, and Mind-Body Practices. Physiological mechanisms will be emphasized and therapies will be critically analyzed from an evidence-based research perspective. Integrating alternative therapies into Western practices with a focus on personalized medicine will be discussed.

**Prerequisite:** 14 FCE complete, BCH210H1, BIO230H1, HMB302H1/ HMB303H1/ HMB312H1/ HMB314H1/ HMB322H1/ HMB323H1/ HMB342H1

**Recommended Preparation:** HMB342H1/ CSB349H1/ PSL350H1/ BCH311H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB435H1 - Selected Topics in Molecular Cell Biology

**Hours:** 16L/8S

Theme-based lecture and seminar course underlining current basic science research in the area of molecular and cell biology as related to human disease. Topics focus on the impact of fundamental processes (e.g., cell migration) on the cellular and molecular aspects of physiology and pathophysiology in a variety of systems (e.g., immune, nervous).

**Prerequisite:** 14 FCE complete, CSB349H1/PSL350H1/BCH311H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB436H1 - Medical and Veterinary Mycology

**Hours:** 16L/6P/8S

This lecture-based course will familiarize students with fungi of public health importance, particularly those that cause disease in humans and other animals. The course will focus on the clinical presentation, pathophysiology, and treatment of fungal infections, as well as the ecology, physiology and evolutionary biology of the agents responsible. The course will also address other ways in which fungi influence human and animal health.

**Prerequisite:** 14 FCE complete, HMB265H1/ BIO260H1

**Exclusion:** BOT405H1

**Recommended Preparation:** EEB268H1, EEB331H1/CSB353H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB437H1 - The Biology of the Human Metallome

**Hours:** 24L

This course will discuss how heavy metals are integral to organ function through various biological pathways, the importance of metal regulation and control and its relationship with gene transcription. An introduction of metallo-therapeutics will also be featured, ranging from neuro-degenerative therapies to cancer treatment.

**Prerequisite:** 14 FCE complete, HMB265H1/BIO260H1, BIO230H1/ BIO255H1

**Recommended Preparation:** BCH210H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB440H1 - Dementia

**Hours:** 18L/10P/6S

This course, featuring a service-learning component, explores dementia. In patients with dementia, intellectual, social and occupational functioning deteriorate. The course addresses the multi-disciplinary aspects of dementia (clinical, genetic, molecular, social) with a focus on the most common cause of dementia, Alzheimer's disease.

*A short application to enrol in this course is required. Information may be found via the [Human Biology Program website](#).*

**Prerequisite:** 14 FCE complete, PSL300H1, HMB300H1/ HMB301H1/ HMB302H1/ HMB310H1/ HMB311H1/ HMB312H1/ HMB312H1/ HMB320H1/ HMB321H1/ HMB322H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB441H1 - Genetics of Human Disease

**Hours:** 24L

Toronto researchers present current insight into the genetics of specific human diseases: single gene (e.g., cystic fibrosis), chromosome (e.g. Down syndrome) and multifactorial inheritance (e.g., heart disease) disorders.

**Prerequisite:** 14 FCE complete, HMB265H1/BIO260H1, HMB301H1/ HMB302H1/ HMB311H1/ HMB312H1/ HMB314H1/ HMB321H1/ HMB321H1/ HMB322H1

**Recommended Preparation:** HMB301H1/ HMB321H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB443H1 - Global Hidden Hunger

**Hours:** 18L/6S

(This course is not offered for the 2016 - 2017 academic year)

Vitamin and mineral deficiencies, termed 'hidden hunger', affect about half the world's population. Explore the global nature, catastrophic consequences, and causes of these deficiencies. Discuss formulation and implementation of international, national, and local policies to alleviate 'hidden hunger' especially in infants and young children. A service-learning opportunity is integrated. Students will be required to contribute to a local community organization while using course knowledge to develop a project or initiative beneficial to the organization and community.

*a short application to enrol in this course is required. Information may be found via the [Human Biology Program website](#).*

**Prerequisite:** 14 FCE complete, BIO230H1/BIO255H1, HMB302H1/ HMB303H1/ HMB312H1/ HMB314H1/ HMB322H1/ HMB323H1/ CJH332H1 (formerly CSB332H1)/ NFS382H1

**Recommended Preparation:** PSL301H1, CSB349H1/ PSL350H1/ BCH311H1

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## HMB450H1 - Neurodevelopmental Disorders and Diseases

**Hours:** 24L/12T

Proper development of the human brain is essential for human health. This course will examine how neurodevelopment failures contribute to neurological disorders and diseases, including epilepsy and autism. Current research from basic, translational, and clinical perspectives will be examined using case studies. The impact of neurodevelopmental disorders and diseases on the individual and community will be discussed.

**Prerequisite:** 14 FCE complete, HMB300H1/HMB310H1/ HMB320H1/ CJH332H1 (formerly CSB332H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB452H1 - Personalized Medicine

**Hours:** 12L/12S

Clinical medicine is making rapid progress in predicting individual patients' disease risk, prevention, diagnosis and treatment. This new health care delivery requires overcoming major science and policy challenges to pave the way for its navigation by professionals and patients. Focus is on the significance of current breakthrough applications (e.g., nanoscale DNA sequencing).

**Prerequisite:** 14 FCE complete, HMB302H1/ HMB312H1/ HMB314H1/ HMB322H1

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## HAJ453H1 - AIDS: A Global Perspective

**Hours:** 6L/18S

Seminars explore the global AIDS crisis, adopting the medical-anthropological perspective of Paul Farmer's *Infections and Inequalities*. Varying epidemiological profiles of AIDS are placed in broader social, cultural, and political-economic frameworks. The impact of globalization and structural inequality on local cultures and lifestyles provides an essential backdrop to the discussions.

**Prerequisite:** 14 FCE complete, AND either (HMB302H1/ HMB303H1/ HMB322H1/ HMB323H1/ HMB342H1) OR (0.5 FCE from a ANT300+ level course from Group B- Evolutionary)

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JEH455H1 - Current Issues in Environment and Health

**Hours:** 16L/8S

This course introduces students to complex issues at the interface between environment and health where health is broadly defined. Each year a current and controversial case study is explored from scientific, medical, political and policy perspectives. The course takes students from the molecular to individual to population and societal levels.

**Prerequisite:** 14 FCE complete, ENV341H1/ HMB302H1/ HMB312H1/ HMB314H1/ HMB322H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB462H1 - Topics in Epidemiology

**Hours:** 12L/12S

The focus is on the theory and application of biostatistics and epidemiology to current developments in special topics in substantive areas of epidemiology (e.g., chronic disease, environmental & occupational health, infectious disease, methods, social, etc.).

**Prerequisite:** 14 FCE complete, HMB342H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB470H1 - Exercise and Sports Medicine

**Hours:** 20L/4S

This course introduces biomechanics and builds on knowledge of the biomechanics of injury and dysfunction to develop a systematic understanding of risk, injury prevention, and initial management of injuries in sports and physical activities. Some additional topics include doping in sport, travel issues in competitive sport, and ethical issues in clinical sport medicine.

**Prerequisite:** 14 FCE complete, PSL300H1, PSL301H1, a HMB300-level course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB471H1 - Performance Enhancement

**Hours:** 20L/4S

Enhancing performance has broad appeal. This course explores current developments for achieving peak performance academically, physically and emotionally. We focus on the scientific basis of the links between performance and stress, and of the benefits and risks of pharmacological methods to achieve performance enhancement. Various stress management skills are introduced.

**Prerequisite:** 14 FCE complete, PSL300H1, a HMB 300-level course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB472H1 - Exercise Physiology

**Hours:** 20L/4S

Examine the physiological and biochemical responses of the human body to both acute and chronic bouts of physical activity. The impact of activity on health, and health on physical activity, is explored by examining adaptations from the cellular to the systemic level of bodily function.

**Prerequisite:** 14 FCE complete, PSL300H1, PSL301H1, a HMB300-level course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB473H1 - Exercise and Mental Health

**Hours:** 18L/10P/6S

This course featuring a service-learning component discusses how mental well-being is a critical element of total health. We explore the evidence underpinning the role of physical activity in the avoidance of mental disorders, recovery from mental disorders, and the quality of life of those with or without mental disorders.

*A short application to enrol in this course is required. Information may be found via the [Human Biology Program website](#).*

**Prerequisite:** 14 FCE complete, PSL300H1, PSL301H1, a HMB300-level course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB474H1 - Dental Sciences

**Hours:** 12L/12S

Dentistry is one of the oldest branches of medicine responsible for the treatment of diseases of oral cavity. This course will introduce students to the key concepts as well as the latest research in the dental sciences, including but not limited to craniofacial structures, bone physiology, odontogenesis, pathogenesis of oral diseases, and technology in dental sciences.

**Prerequisite:** BIO230H1/BIO255H1, PSL300H1, PSL301H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB489H1 - Advanced Laboratory in Human Biology

**Hours:** 72P

Building on their experience in 3rd-year labs, students participate in inquiry-based laboratory experiments in diverse areas of current human biology research. Open to students in any Human Biology program. (Lab Materials Fee: \$50)

**Prerequisite:** 14 FCE complete, HMB310H1/ HMB311H1/ HMB312H1/ HMB314H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB496Y1 - Research Project in Human Biology

An independent research project is supervised by a faculty member of the Faculty of Arts and Science or the Faculty of Medicine. Not eligible for CR/NCR option. Applications for this course are due to the Human Biology Program Office no later than 15 days prior to the first day of summer F-term.

**Prerequisite:** 9 FCE complete, a 300+ level laboratory course, HMB200H1/ HMB201H1/ HMB202H1/ HMB203H1/ HMB204H1, HMB265H1/BIO260H1, BIO230H1, cGPA 3.0 or higher (if you are a 3rd year student)/ cGPA 2.5 or higher (if you are a , and permission of the Human Biology Program

**Exclusion:** Students are not permitted to do a HMB research project concurrently with another research project and students are allowed to do no more than 2.0 FCE from HMB-coded research project courses.

**Recommended Preparation:** 0.5 FCE or more in any statistics course

**Distribution Requirements:** Science

## HMB499Y1 - Research Project in Human Biology II

**Hours:** TBA

A research project is supervised by a faculty member of the Faculty of Arts and Science or the Faculty of Medicine. Not eligible for CR/NCR option. Applications for this course are due to the Human Biology Program Office no later than 15 days prior to the first day of F-term. For more information please check the [Human Biology website](#).

**Prerequisite:** HMB496Y1

**Exclusion:** Students are not permitted to do a HMB research project concurrently with another research project and students are allowed to do no more than 2.0 FCE from HMB-coded research project courses.

**Recommended Preparation:** 0.5 FCE or more in any statistics course

**Distribution Requirements:** Science

# Hungarian

## Given by the Centre for European, Russian, and Eurasian Studies

Hungarian is spoken by ten and a half million inhabitants of present-day Hungary, about three million people in the neighbouring countries, and perhaps as many as an additional two million around the world. These figures make Hungarian, which is related to Finnish, Estonian, and Lappish, but virtually no other language in Europe, by far the largest minority language in the great Indo-European language territory.

Despite the isolation that might have been imposed by the uniqueness of their language, Hungarians have been engaged with, and participants in, greater European affairs since their arrival in the Carpathian basin more than a thousand years ago. Hungarians have made signal contributions in the fields of arts, science, and mathematics, winning Nobel prizes in Chemistry (4), Medicine (3), Physics (3), Economics, and Literature. In the music world the names Bartók, Kodály, Lehár, Liszt, Széll, Ormandy, Schiff, and many others are internationally famous. Leo Szilárd, Edward Teller, Paul Erdős, and John von Neumann are famous figures in theoretical physics and mathematics. Joseph Biró developed the ball-point pen and to this day the British call a ball-point pen, a biro. Hungarians have also become famous in sports, particularly soccer, boxing, and fencing, and in the world of cinema. And who has not played with the Rubik's cube?

Hungarian studies at the University of Toronto focus on the language, literature, cinema and culture of Hungary and on the international role of Hungary and Hungarians - particularly on Hungarian immigration to Canada. For many of the courses no prior knowledge of the Hungarian language is necessary, making them easily accessible also to students in other programs.

Program Coordinator:  
Professor Robert Austin, [robert.austin@utoronto.ca](mailto:robert.austin@utoronto.ca), Tel. 416.946.8942

## Hungarian Programs

### Hungarian Studies Major (Arts Program)

#### Completion Requirements:

(6 full courses or their equivalent including two FCEs in Hungarian language study)

First Year:

HUN100Y1

Higher Years:

1. HUN200Y1, HUN310Y1, HUN320Y1

2. Two courses from: EUR200Y1, HIS241H1, HIS242H1, HIS251Y1, HIS389H1 (Hungarian History), HIS453H1, HUN355H1, HUN345H1, HUN355H1, HUN356H1, HUN440Y1, HUN450H1, HUN455H1, INI381H1

### Hungarian Studies Minor (Arts Program)

#### Completion Requirements:

(4 full courses or their equivalent, including at least one at the 300+ level)

Four courses from: HUN100Y1, HUN200Y1, HUN310Y1, HUN320Y1, HUN335H1, HUN345H1, HUN351H1, HUN440Y1, HUN450H1, HUN455H1; HIS241H1, HIS251Y1, HIS389H1 (Hungarian History), HIS453H1; INI381H1

### Faculty of Arts & Science Language Citation

The Hungarian program participates in the Faculty of Arts and Science's Language Citation initiative. Students may achieve this Citation in Hungarian.

Language study is a demanding and intellectually rewarding educational experience. Our students learn to communicate both orally and in writing in other languages and are thus able to experience other parts of the world in more intimate ways. Their access to other cultures opens doors for further study and employment. Students in our department also have the opportunity to read a vast array of world-renowned authors in the original languages, as well as works – normally not available in English – in other areas of study, for example, cinema studies, drama, folklore, history, intellectual history, philosophy, mathematics, and political science.

The Language Citation recognizes a significant level of achievement in language study. For course selection students should consult the Undergraduate Coordinator as early as possible since not every language course is offered each year. Students who begin language study at the Intermediate level should consult the Undergraduate Coordinator for approval of advanced literature and culture courses that may satisfy the requirements for the Language Citation.

The Language Citation in Hungarian is available to students who complete HUN200Y1 and HUN310Y1 with a grade of at least B-.

Students should note that, as explained on the page 20 of this Calendar, the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

### Note

The Department reserves the right to assign students to courses appropriate to their level of competence in Hungarian.

## Hungarian Courses

### HUN100Y1 - Elementary Hungarian

**Hours:** 120P

The Department reserves the right to assign students to courses appropriate to their level of competence in Hungarian. The basic features and logic of the language. Development of conversational skills and the reading of easy texts. Open only to students with little or no knowledge of Hungarian.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### HUN200Y1 - Intermediate Hungarian

**Hours:** 96P

Review of descriptive grammar; studies in syntax; vocabulary building; intensive oral practice; composition; reading and translation.

**Prerequisite:** Permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### HUN310Y1 - Advanced Hungarian

**Hours:** 48S

A synchronic and diachronic survey of the Hungarian language. Conceptualized summary of grammar, syntax, and stylistics; studies in the genesis and historical stages of the language. Brief consideration of living dialects, the basics of poetics; selected problems in translation and language teaching. Readings in Hungarian.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### HUN320Y1 - A Survey of Hungarian Literature

**Hours:** 48S

A chronological study of the development of Hungarian literature since the 12th century; emphasis both on outstanding writers and on significant movements or themes. Transformations of ideas and changes in language and style. No knowledge of Hungarian required.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### HUN335H1 - Urban vs. Rural: Immigration to and Settlement in North America

**Hours:** 12L/12S

This course will provide an examination of the history of Hungarian Immigration to and settlement in North America. The course will examine the "push" and "pull" factors, the socio-economic factors involved, their patterns of migration and the organizational development of the communities they founded in North America. The course will compare and contrast the reception the immigrants and later refugees received in the United States and Canada and examine how they adapted to their new homelands.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

### HUN345H1 - The Dynamic of Hungarian Culture, Ethnography, and Folklore

**Hours:** 12L/12S

Explore the cultural traditions, historical processes, myths, and figures that have shaped and redefined Hungarian civilization and national identity. Theoretical and practical classes on ethno-genesis, anthropology, and folklore. Readings in English (also available in Hungarian).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **HUN355H1 - One Hundred Years of Dramatic Change: History of the Past Century and Reflections of Society in Hungarian Culture**

**Hours:** 12L/12S

Explore Hungary's rapidly changing place in Europe. Focus on political, sociological, and historical understandings of nationalism and identity as they manifest themselves in literature, history, and culture. Knowledge of Hungarian not required.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HUN455H1 - Hungary and Europe: Cultural Adaptation in the Late 20th Century**

**Hours:** 12L/12S

Focus on literature, art, mass media, and popular culture in post-1990 Hungary with special emphasis on the past ties to European culture and the impact of European integration. Readings in English (also available in Hungarian).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **HUN497Y1 - Independent Study (Hungarian)**

**Hours:** TBA

Translation course concentrating on Hungarian prose translation. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

## **HUN498H1 - Independent Study (Hungarian)**

**Hours:** TBA

Translation course concentrating on Hungarian prose translation. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

## Faculty List

### Professors Emeriti

J.B. Hay, M Sc, Ph D  
D. E. Isenman, B Sc, Ph D  
R.H. Painter, B Sc, Ph D  
M.J. Shulman, BA, Ph D

### Professor and Chair of the Department

J.C.Zúñiga-Pflücker, B Sc, Ph D

### University Professor

T.W. Mak, Ph D, D Sc, FRSC

### Professors

N. Berinstein, MD  
J. Danska, AB, Ph D  
H.M. Dosch, MD  
E. Fish, M Sc Ph D  
J. L. Gommerman, B Sc, Ph D  
R.M. Gorczynski, Ph D, MD  
C. Guidos, B Sc, Ph D  
R. Hakem, M Sc, Ph D  
R.D. Inman, BA, MD  
N.N. Iscove, Ph D, MD  
M. Jeschke, MD, Ph D, FACS, FRSC  
M.H. Julius, B Sc, Ph D  
R. Kaul, MD, Ph D  
E.C. Keystone, B Sc, Ph D  
G. Levy, B Sc, MD, FRCP  
P.S. Ohashi, B Sc, Ph D  
M. Ostrowski, MD, FRCP  
C. Paige, B Sc, Ph D  
J. Penninger, MD (Adjunct)  
M.J.H Ratcliffe, B Sc, Ph D  
C. Roifman, MD  
R. Rottapel, MD  
K. Siminovitch, MD, FRCP, ABIM  
T.H. Watts, B Sc, Ph D  
D. Williams, M Sc, Ph D  
M. Woo, MD, Ph D, FRCPC  
L. Zhang, MD, Ph D

### Associate Professors

M.K. Anderson, B Sc, Ph D  
S. Berger, M Sc, Ph D  
D. Brooks, Ph D  
J.R. Carlyle, B Sc, Ph D  
S. Girardin, Ph D  
E. Grunebaum B Sc, MD  
N. Hirano, MD, Ph D  
D.J. Kelvin, M Sc, Ph D  
K. MacDonald, MD  
A. Martin, M Sc, Ph D  
T. McGaha, Ph D  
D.J. Philpott, Ph D  
P. Poussier, MD  
J. Rast, Ph D  
L. Rubin, MD, LMCC, FRCPC  
A. Schuh, MD  
D. Spaner M D  
F. Tsui, M Sc, Ph D  
P. Vadas, Ph D, MD  
J. Wither, MD, Ph D  
R.S. Yeung, MD, Ph D, FRCPC

### Assistant Professors

M. Butler, MD  
S. Dunn, Ph D  
G. Ehrhardt Ph D  
T. Eiwegger, MD, Ph D  
S. Epelman, MD, Ph D, FRCPC  
J. Jongstra-Bilen, M Sc, DEA, Ph D  
J. P. Julien, Ph D  
T. Mallevaey Ph D  
A. Mortha, Ph D  
C.S. Robbins, Ph D  
B. Treanor, Ph D  
D. Winer, MD

### Lecturers

D.S. Allan, Ph D  
A. Bourdeau, Ph D  
L. Clemenza, B Sc, Ph D  
I. Dimitriou, Ph.D  
N. Lee, Ph D  
W. Tamminen, BSc, PhD

## Introduction

Immunology is an integrative branch of the medical sciences that draws upon the more traditional disciplines of Molecular Biology, Microbiology, Pathology, and Biochemistry. In essence, Immunology is the study of the physiological responses that result when foreign (i.e. non-self) materials are introduced into a vertebrate organism such as humans. Traditionally, the discipline has focussed on the body's response to infectious micro-organisms, with the purpose of developing effective vaccines. However, the scope of modern Immunology now encompasses all aspects of self vs. non-self recognition phenomena including organ transplantation, tumour immunology and autoimmune diseases. Recent major advances in our understanding of the cellular and molecular basis of the immune response promise to provide us with a new generation of prophylactic, therapeutic and diagnostic reagents of relevance to human and animal health.

The Department of Immunology in collaboration with Trinity College co-ordinates specialist, major, and minor programs in Immunology. The emphasis of the specialist program is to provide students with a sound theoretical understanding of the cellular and molecular basis of non-self recognition, together with sufficient laboratory experience to enable the students to consider embarking on a career in the discipline. The major and minor programs offer students fundamental training in immunology and gives the student the opportunity to combine immunology with another program in Life Sciences, Basic Sciences, or within the Arts.

Immunologists may have careers in universities and other centres of learning and research, as well as in the biotechnology industries, diagnostic laboratories and various government agencies. Courses in this specialist program are drawn from offerings by the Department, together with courses from other Departments, taught in some cases by members of the Department of Immunology. As enrolment in the specialist and major programs are restricted, please consult specific requirements outlined in the program description section.

Associate Chair, Undergraduate:

Dr. T. Mallevaey

## Immunology Programs

### Immunology Specialist (Science Program)

#### Enrolment Requirements:

This is a limited enrolment program that can only accommodate a limited number of students. Eligibility will be competitive and based on a student's marks in the 3.0 required first-year courses:

BIO120H1, BIO130H1, CHM135H1 (formerly CHM139H1); CHM136H1 (formerly CHM138H1)/CHM151Y1, (MAT135H1, MAT136H1)/MAT137Y1 with an average of at least 70% on these 3.0 full-course equivalents (FCEs) and a final mark of at least 65% in each course.

While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = high 70s; average = high 70s.

Achieving these estimated marks does not guarantee admission to the program in any given year.

Note: Students must apply to this program on the [A&S Current Students Program Enrolment website](#).

For more information, refer to the Immunology website at [www.immunology.utoronto.ca](http://www.immunology.utoronto.ca).

#### Completion Requirements:

(13.5 full courses or their equivalents)

First Year:

BIO120H1; BIO130H1; CHM135H1 (formerly CHM139H1); CHM136H1 (formerly CHM138H1) / CHM151Y1; (MAT135H1; MAT136H1)/MAT137Y1

First Year or upper years:

(PHY131H1; PHY132H1)1 / (PHY151H1; PHY152H1)1

Second Year:

1. BCH242Y1 ; BIO230H1 ; BIO260H1 / HMB265H1; CHM220H1; IMM250H1

2. One course from the following list: BIO220H1 / STA220H1 / TRN225Y1 / TRN236H1 / CHM247H1 / CHM249H1

Third Year:

BCH377H1; IMM341H1; IMM351H1 ; MGY311Y1; MGY377H1; MGY378H1

Fourth Year:

1. IMM435H12

2. Two courses from the following list: IMM428H1 / IMM429H1 / IMM430H1 / MIJ485H1  
3. IMM450Y1 or one full course equivalent at the 400-series in ANA, BCH, IMM, LMP, MGY, CSB.

1 These courses may be taken in the first year or subsequent years and are not required for entrance into the specialist program.

2 This course is capped at 40 students. Priority will be given to Immunology Specialist students, followed by Immunology Major students.

### Immunology Major (Science Program)

#### Enrolment Requirements:

This is a limited enrolment program that can only accommodate a limited number of students. Eligibility will be competitive and based on a student's marks in the 2.0 required first-year courses:

BIO120H1, BIO130H1, CHM135H1 (formerly CHM139H1); CHM136H1 (formerly CHM138H1)/CHM151Y1 with an average of at least 70% on these 2.0 full-course equivalents (FCEs) and a final mark of at least 60% in each course.

While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = high 70s; average = high 70s.

Achieving these estimated marks does not guarantee admission to the program in any given year.

Note: Students must apply to this program on the [A&S Current Students Program Enrolment website](#).

For more information, refer to the Immunology website at [www.immunology.utoronto.ca](http://www.immunology.utoronto.ca).

#### Completion Requirements:

(8 full courses or their equivalents, including two 400-series courses)

First Year:

BIO120H1; BIO130H1; CHM135H1 (formerly CHM139H1); CHM136H1 (formerly CHM138H1)

Second Year:

1. BCH210H1; BIO230H1; IMM250H1; BIO260H1 / HMB265H1  
2. 0.5 full-course equivalent (0.5 FCE) from the following list: BIO220H1 / STA220H1 / TRN225Y1 / TRN236H1

Third Year:

IMM340H1; IMM350H1; CSB349H1/ BCH311H1; One full-course equivalent from the following list: BCH377H1/ MGY377H1 / MGY378H1/ PHL281H1

Fourth Year1:

One full-course equivalent from the following list: BCH370H1 / IMM428H1 / IMM429H1 / IMM430H1 / IMM435H13 / MIJ485H12

1 Students considering graduate school are encouraged to add the additional non-compulsory IMM450Y research course, if space permits.

2 MIJ485H1 requires MGY377H1 & MGY378H1 as pre-requisites.

3 This course is capped at 40 students. Priority will be given to

Immunology Specialist students, followed by Immunology Major students.

## Immunology Minor (Science Program)

### Completion Requirements:

For more information, refer to the Immunology website at [www.immunology.utoronto.ca](http://www.immunology.utoronto.ca).

(4 full courses or their equivalents)

First Year:

BIO120H1; BIO130H1; CHM135H1 (formerly CHM139H1); CHM136H1 (formerly CHM138H1)/CHM151Y1

Second Year:

BIO230H1; IMM250H1

Third Year:

IMM340H1; IMM350H1

## Regarding Immunology Courses

### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Immunology Courses

### IMM250H1 - The Immune System and Infectious Disease

**Hours:** 24L

Students will be introduced to the basic concepts of immunity to infectious disease and how breakdown of the immune response can lead to auto-immunity. We will trace the history of current ideas in immunology and the immune response by examining how bacteria and viruses cause disease and the initial discoveries that led to such developments as vaccination. Current topical and newsworthy infectious diseases (HIV, tuberculosis, SARS, avian flu) will be used as examples of how the immune system copes with microbial infections.

**Recommended Preparation:** BIO120H1, BIO130H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### IMM340H1 - Fundamental Immunology

**Hours:** 24L

This course introduces the basic principles and key players of the immune system: differences and interplay between innate and adaptive immunity, how immune cells develop and function, how immune cells recognize threats and danger and mount an appropriate and measured response.

**Prerequisite:** BIO230H1

**Exclusion:** IMM334Y1/IMM335Y1/IMM341H1

**Recommended Preparation:** IMM250H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### IMM341H1 - Fundamental Immunology (Advanced)

**Hours:** 24L/12T

This course introduces the fundamental principles and key players of the immune system: differences and interplay between innate and adaptive immunity, how immune cells develop and function, how immune cells recognize threats and danger and mount an appropriate and measured response. Intended for students specializing in Immunology and related programs.

**Prerequisite:** BIO230H1

**Exclusion:** IMM334Y1/IMM335Y1/IMM340H1

**Recommended Preparation:** IMM250H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM350H1 - The Immune System in Action

**Hours:** 24L

This course illustrates how different elements of the immune system come together to mount efficient and measured responses. Topics include response to infectious microorganisms, allergy and autoimmunity, immune responses against cancer, and transplantation immunology.

**Prerequisite:** IMM340H1/IMM341H1

**Exclusion:** IMM334Y1/IMM335Y1/IMM351H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM351H1 - The Immune System in Action (Advanced)

**Hours:** 24L/12T

This course illustrates how different elements of the immune system come together to mount efficient and measured responses. Topics include response to infectious microorganisms, allergy and autoimmunity, immune responses against cancer, and transplantation immunology. Intended for students specializing in Immunology and related programs.

**Prerequisite:** IMM341H1/IMM340H1

**Exclusion:** IMM334Y1/IMM335Y1/IMM350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM428H1 - Molecular Immunology

**Hours:** 24L

This course will focus on the molecular and cellular biology of immune recognition. The course will emphasize historical and recent experimental evidence leading to our current understanding of immune recognition. Subtopics are subject to change and have recently included mechanisms of diversification of immunoglobulin receptors, T cell - MHC interactions, T cell activation and signaling mechanisms; receptors of the innate immune system, immune recognition by natural killer cells.

**Prerequisite:** BCH311, CSB349, MGY311, BCH210H1/BCH242Y1, IMM350H1/IMM351H1 (IMM334Y1/IMM335Y1)

**Recommended Preparation:** CSB349H1/MGY311Y1/PSL350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM429H1 - Developmental Immunology

**Hours:** 24L

Hematopoiesis, myelopoiesis, lymphopoiesis, a study of the development of cells involved in the immune system including their ontogeny, physical, molecular, and biochemical characteristics, regulation of differentiation and maturation, positive and negative selection of lymphocytes.

**Prerequisite:** IMM350H1/IMM351H1 (IMM334Y1/IMM335Y1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM430H1 - Clinical Immunology

**Hours:** 24L/24T

This course will address the underlying pathogenesis as well as highlight the challenges of treating immune-related conditions such as autoimmunity, cancer, HIV, and transplantation and graft rejection. Half of the lectures will address the genetics and cellular pathogenesis of autoimmune diseases such as multiple sclerosis, type I diabetes and lupus. Other lectures will overview a number of immunological challenges faced in the clinic, such as preventing graft rejection after transplantation or boosting the immune system to fight cancer and HIV.

**Prerequisite:** IMM350H1/IMM351H1 (IMM334Y1/IMM335Y1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM435H1 - Practical Immunology

**Hours:** 72P

Application of basic principles acquired from IMM350H1/IMM351H1/(IMM334Y1/IMM335Y1); immunological procedures performed in research and diagnostic laboratories using molecular and cellular approaches; instruction through lectures, video tapes, and practical exercises in the laboratory.

**Prerequisite:** BCH210H1/BCH242Y1, IMM350H1/IMM351H1/(IMM334Y1/IMM335Y1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **IMM450Y1 - Research Project in Immunology**

**Hours:** 154P

An opportunity for specialized research in Immunology under the supervision of a member of the Faculty. There are no pre- or co-requisites, although preference is given to Immunology Specialist and Major students. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **MIJ485H1 - Vaccines and Immunity**

**Hours:** 36L

Analysis of the strategies used by pathogenic microbes to evade specific and innate immune responses, and the strategies used to combat infectious disease using vaccines, with an emphasis on molecular and immunological aspects. Special topics include: molecular basis of pathogenicity and immune-evasion strategies; vaccination strategies; challenges to vaccine implementation (given jointly by the Departments of Molecular Genetics and Immunology).

**Prerequisite:** IMM350H1/IMM351H1 (IMM334Y1/IMM335Y1), MGY377H1, MGY378H1

**Exclusion:** MBY480H1, MGY485H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# Impact Centre

## Faculty List

### Professor and Director

M. Cynthia Goh, BS, PhD (U)

### Cross Appointed

E. Istrate, BASc, PhD

## Introduction

The Impact Centre's goal is for proactive knowledge translation, in which university-based expertise is brought to create value to society. Innovation and entrepreneurship are important aspects in this process, and the Impact Centre is home to a number of training activities for students to gain entrepreneurial skills. These skills are useful whether starting a company, or joining an existing company. At the undergraduate level, this program includes lecture-based and experiential-learning courses.

The courses are aimed at students from all disciplines. Inventions sometimes come from the science or engineering labs, but getting them out of the lab and available to meeting society's needs requires a very diverse set of skills. This is usually done by multi-disciplinary teams with representatives from the sciences, the social sciences and the humanities. Therefore, the courses will emphasise such collaborations between students of diverse backgrounds.

## Impact Centre Courses

### IMC200H1 - Innovation and Entrepreneurship

**Hours:** 24L

How do innovations become useful in society? What is needed for a company to use such innovations successfully? Why and how do individuals and companies commercialize a technology? This course gives an introduction to the skills needed by entrepreneurs in order to start a new venture based on an innovative idea. This course is Pass/Fail. Not eligible for CR/NCR option.

**Prerequisite:** 4.0 FCEs in any subject

**Recommended Preparation:** No particular preparation needed. Although the topics relate to science innovations, the course is targeted at students from all disciplines, who are interested in using innovations. This includes science, social sciences and humanities students, mirroring the roles of these individuals in enterprises. Because this is an introductory course, students who have previously taken business or entrepreneurial courses are strongly discouraged from registering in this course.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### IVP210H1 - Holography for 3D Visualization

**Hours:** 24L/36P

An introduction to the theory and practice of holography. Human perception & 3D visualization; fundamentals of 3D modeling; ray and wave optics; interference, diffraction, coherence; transmission and reflection holograms; colour perception; stereograms. Applications of holography in art, medicine, and technology. Computer simulation, design, and construction of holograms.

**Exclusion:** JOP210H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

### IMC299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science; Social Science

### IMC391H1 - Exploring New Ventures

**Hours:** 12L/48P

This experiential learning course allows students to explore the inner working of new venture companies. The majority of the course consists of a placement with Toronto-based start-ups, with oversight from the Impact Centre. In-class activities facilitate the application of entrepreneurial tools to develop the students' entrepreneurial skills.

**Prerequisite:** IMC200H1/ RSM100H1/ MGT100H1. 8.0 FCEs in any subject.

**Exclusion:** IMC390Y1, IMC392Y1

**Recommended Preparation:** Although the internships often relate to science innovations, they are targeted at students from all disciplines. This includes science and engineering, social sciences and humanities students, mirroring the roles of these individuals in enterprises.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IMC392Y1 - Exploring New Ventures

**Hours:** 12L/96P

This experiential learning course allows students to explore the inner working of new venture companies. The majority of the course consists of a placement with Toronto-based start-ups, with oversight from the Impact Centre. In-class activities facilitate the application of entrepreneurial tools to develop the students' entrepreneurial skills.

**Prerequisite:** IMC200H1/RSM100H1/MGT100H1. 8.0 FCEs in any subject.

**Exclusion:** IMC390Y1, IMC391H1

**Recommended Preparation:** Although the internships often relate to science innovations, they are targeted at students from all disciplines. This includes science and engineering, social sciences and humanities students, mirroring the roles of these individuals in enterprises.

**Distribution Requirements:** Science; Social Science

**Breadth Requirements:** Society and its Institutions (3)

# Indigenous Studies

## Faculty List

### Associate Professors

A. McKay  
R. Kuokkanen  
C. Suzack

### Assistant Professors

R. DeCaire  
A. Key Jr.

## Introduction

Indigenous Studies is an interdisciplinary undergraduate program dedicated to the study and research of Indigenous peoples in Canada and throughout the world. The program offers courses that engender a rigorous and respectful understanding of Indigenous peoples' languages, knowledges, cultures, histories, politics, arts, intellectual traditions and research methodologies. INS offers Specialist, Major, and Minor Programs within the Faculty of Arts & Science. Students are encouraged to seek counselling and information about this program from [indigenous.studies@utoronto.ca](mailto:indigenous.studies@utoronto.ca) or on our website at <http://www.indigenoustudies.utoronto.ca>.

## Indigenous Studies Programs

### Indigenous Studies Specialist (Arts Program)

#### Completion Requirements:

(10 full courses or their equivalents, including at least one 400+level course)

1. INS201Y1
2. INS210Y1/INS220Y1/(INS230H1, INS231H1)
3. INS300Y1 and INS301Y1/INS351Y1
4. INS390H1 and INS460H1
5. Four additional full-course equivalents from Group A (note: some of these courses have prerequisites)
6. One additional FCE from Group A or Group B below (note: some of these courses have prerequisites)
7. For numbers 5 and 6 above, 2 FCE's must be at the 300 level and .5 FCE at the fourth year level.

**Note:** A student who wishes to complete their program in four years should take at least two courses in Indigenous Studies each year for the first two years, for example, INS201Y1 and INS210Y1/INS220Y1/INS230H1 and INS231H1 the first year; INS300Y1 and another 300 level course from ABS the second year; INS301Y1/INS351Y1 (offered in alternative years) and another 300 level course from INS the third year; and a four hundred level INS or JFP course; or one 400 level half course and one 300 level course in their final year.

## Indigenous Studies Major (Arts Program)

#### Completion Requirements:

(7 full courses or their equivalent, including at least two 300+level courses)

1. INS201Y1
2. INS210Y1/INS220Y1/INS230H1 and INS231H1
3. INS300Y1 and INS301Y1/INS351Y1
4. INS390H1
5. Two additional full-course equivalents from INS or JFP (note: some of these courses have prerequisites)
6. One additional .5 FCE from Group A or one .5 FCE from Group B below (note: some of these courses have prerequisites)
7. Of the courses chosen, at least 2 FCE must be at the 300+ level and .5 FCE at the 400 level.

**Note:** A student who wishes to complete their program in four years should take at least two courses in Indigenous Studies each year for the first two years, for example, INS201Y1 and INS210Y1/INS220Y1/INS230H1 and INS231H1 the first year; INS300Y1 and another 300 level course from ABS the second year; INS301Y1/INS351Y1 (offered in alternative years) and another 300 level course from INS the third year; and a four hundred level INS or JFP course; or one 400 level half course and one 300 level course in their final year.

## Indigenous Studies Minor (Arts Program)

#### Completion Requirements:

(4 full courses or their equivalent, including at least one full-course equivalent at the 300+level)

1. INS201Y1
2. INS300Y1/INS301Y1/INS351Y1
3. One additional full-course equivalent from INS or JFP (note: some of these courses have prerequisites)
4. One additional full-course equivalent from Group A below (note: some of these courses have prerequisites)

**Note:** A student who wishes to complete their program in four years should take at least two courses in Indigenous Studies each year for the first two years, for example, INS201Y1 and INS210Y1/INS220Y1/INS230H1 and INS231H1 the first year; INS300Y1 and another 300 level course from the second year; INS301Y1/INS351Y1 (offered in alternative years) and another 300 level course from INS the third year; and a four hundred level INS or JFP course; or one 400 level half course and one 300 level course in their final year.

## Course Groups

### Group A

- INS200H1 Introduction to Indigenous Truth and Resilience
- INS201Y1 Introduction to Indigenous Studies: Foundations, History and Politics
- INS205H1 Indigenous Worldviews, Spiritual and Healing Traditions

- [INS210Y1 Introduction to Anishinaabemowin](#)
- [INS215Y1 Introduction to an Indigenous Language of Canada](#)
- [INS220Y1 Introduction to an Iroquoian Language](#)
- [INS230H1 Introduction to Inuktitut](#)
- [INS231H1 Elementary Inuktitut](#)
- [INS240Y1 Ecological Interactions: Intro to Aboriginal and Western Sciences](#)
- [INS250H1 Indigenous Environmental Science and Practice \(formerly Indigenous Environmental Education\)](#)
- [INS261H1 Contemporary Challenges Facing Indigenous Communities](#)
- [INS300Y1 Worldviews, Indigenous Knowledges, and Oral Tradition](#)
- [INS301Y1 Native Language and Culture](#)
- [INS302H1 Aboriginal Representation in the Mass Media and Society](#)
- [INS310Y1 Anishinaabemowin II](#)
- [INS322H1 Indigenous Narratives of Empowerment](#)
- [INS323Y1 Intermediate Iroquoian Language](#)
- [INS340Y1 Aboriginal Health Science](#)
- [INS341H1 North American Indigenous Theatre](#)
- [INS350H1 Indigenous Health Systems](#)
- [INS351Y1 Indigenous Legends & Teaching](#)
- [INS352H1 Indigenous Leadership, Policy and Practices in Canada](#)
- [INS355H1 Current Issues in Indigenous Environment and Health](#)
- [INS352H1 Indigenous Leadership, Policy and Practices in Canada](#)
- [INS353H1 First Nations Politics in Canada](#)
- [INS354H1 Indigenous Governance and Self-Determination](#)
- [INS360Y1 Politics and Process of Reconciliation in Canada](#)
- [INS371H1 Topics in Indigenous Literatures](#)
- [INS372H1 Special Topics in Indigenous Language](#)
- [INS390H1 Research and Ethics in Indigenous Studies](#)
- [INS398H0 Research Excursions](#)
- [INS399Y0 Research Excursions](#)
- [INS491Y1 Topics in International Indigenous Studies](#)
- [INS402H1 Traditional Indigenous Ecological Knowledge](#)
- [INS403H1 Indigenous Peoples and the Urban Context](#)
- [INS404H1 Anishinaabewin Intellectual Traditions, Narrative and Culture](#)
- [INS405H1 Indigenous Thought & Expression: Creative Non-fiction \(formerly ABS405Y1\)](#)
- [INS407H1 Aboriginal/Canadian Relations in Environmental and Resource Management](#)
- [INS460H1 Indigenous Theory, Research and Methods \(formerly Methodology in Aboriginal Studies\)](#)
- [INS491Y1 Topics in International Indigenous Studies](#)
- [INS493H1 Independent Experiential Studies](#)
- [INS494Y1 Independent Experiential Studies](#)
- [INS495Y1 Independent Research](#)
- [INS496H1 Independent Research](#)
- [INS497H1 Independent Research](#)
- [INS498Y1 Independent Research](#)
- [ANT315H1 Arctic Archaeology](#)
- [ANT327H1 "'Diversity': Critical/Comparative Studies of Indigeneity, Multiculturalism and \(Settler\) Colonialism"](#)
- [ANT384H1 Special Topics in Society, Culture and Language](#)

- [ANT388H1 Anthropologists and Indigenous Peoples in North America](#)
- [ANT458H1 Settler-Colonialism and Indigenous Health in Canada](#)
- [ENG254Y1 Indigenous Literatures of North America](#)
- [ENG355H1 Indigenous Women's Literature](#)
- [HIS262H1 Canada: A Short History of Here](#)
- [HIS366H1 Aboriginal Peoples of the Great Lakes from 1815 to the Present](#)
- [HIS369H1 Aboriginal Peoples of the Great Lakes from 1500 to 1830](#)
- [HIS419H1 Canada By Treaty: Alliances, Title Transfers and Land Claims](#)
- [HIS472H1 Indigenous-Newcomer Relations in Canadian History \(formerly HIS472Y1\)](#)
- [GGR321H1 Indigenous Worlds, Worldviews and the Environment](#)
- [JFP450H1 Aboriginal Issues in Health and Healing](#)
- [LIN458H1 Revitalizing Languages](#)
- [POL308H1 Indigenous Politics in Canada](#)
- [WGS395H1 Indigeneity\(s\), hub spaces and decolonization](#)

## Group B

- [ANT200Y1 Introduction to Archaeology](#)
- [ANT204H1 Anthropology of the Contemporary World \(formerly ANT204Y1\)](#)
- [ANT319Y1 Archaeology of North America \(formerly ANT310Y1\)](#)
- [ANT311Y1 Archaeological Fieldwork](#)
- [ANT348H1 Medical Anthropology: Social- Cultural Perspectives \(formerly ANT348Y1\)](#)
- [ANT366H1 Anthropology of Activism and Social Justice \(formerly ANT366Y1\)](#)
- [ANT410H1 Hunter-Gatherers Past & Present](#)
- [HIS106Y1 Natives, Settlers and Slaves: Colonizing the Americas, 1492-1804](#)
- [HIS263Y1 Introduction to Canadian History](#)
- [HIS318H1 "The "Wild" West in Canada"](#)
- [HIS365H1 History of the Great Lakes Region](#)
- [HIS402H1 Canada and Decolonization](#)
- [JHN323H1 Indigeneity in the Caribbean](#)
- [LIN351H1 Sociolinguistic Patterns in Language](#)
- [NEW225H1 Caribbean Societies](#)
- [NEW226H1 Caribbean Political Thought](#)
- [NEW240Y1 Introduction to Equity Studies](#)
- [RLG307H1 Museums and Material Religion](#)

## Faculty of Arts & Science Language Citation

Indigenous Studies participates in the Faculty of Arts & Science Language Citation Initiative for Anishinaabemowin. The study of the Anishinaabe language is a demanding and intellectually rewarding educational experience. Successful study of this language demonstrates intelligence, discipline, analytical sophistication, and an excellent memory. The study of any language provides invaluable insights into the varieties of human culture and expression.

In each language the Language Citation recognizes a significant level of achievement in language study with a high level of academic success. The Citation in Anishinaabemowin is available to students

who complete [INS210Y1](#) and earn a grade of at least B- in [INS310Y1](#) and [INS301Y1/INS351Y1](#).

Students should note that, as explained in this Calendar, the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

## First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Indigenous Studies Courses

### INS200H1 - Introduction to Indigenous Truth and Resilience

**Hours:** 24L/12T

This course is an interdisciplinary introduction to the historical and contemporary experiences of Indigenous peoples in Canada, with an emphasis on local lands and peoples. The course will explore Indigenous resilience, relationships with settlers and settler states, and principles and ethics of Indigenous Knowledge. Tutorials will focus on critical discussion and experiential learning.

**Distribution Requirements:** Humanities; Social Science  
**Breadth Requirements:** Society and its Institutions (3)

### INS201Y1 - Introduction to Indigenous Studies: Foundations, History and Politics

**Hours:** 48L/24T

This course is designed to introduce students to the ideas, methods and themes of the discipline of Indigenous Studies. The development of the field of Indigenous Studies in Canada will form an important focus in the first half. The second part of the course will address "history and politics", including an overview of the historical processes of diplomacy, alliances, and treaty-making.

**Exclusion:** ABS201Y1- Introduction to Aboriginal Studies  
**Distribution Requirements:** Humanities; Social Science  
**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

### INS205H1 - Indigenous Worldviews, Spiritual and Healing Traditions

**Hours:** 24L

This course will discuss the relationship between spiritual philosophies, beliefs, traditions and practices that contribute to meaning in Indigenous communities. This course will emphasize traditions and teachings and understanding the role of spirituality historically and within contemporary Indigenous societies, including governance, treaties, environment, culture, healing and everyday life.

**Prerequisite:** INS201Y1 or INS200H1  
**Exclusion:** ABS205H1 Aboriginal Spirituality  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

### INS210Y1 - Introduction to Anishinaabemowin

**Hours:** 72L

An introduction to the Anishinaabe language, including the syllabic writing system.

**Exclusion:** ABS210Y1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

### INS215Y1 - Introduction to an Indigenous Language of Canada

**Hours:** 72L

This course will offer an introduction to one of Canada's Indigenous languages, including its writing system. Speaking skills will be emphasized.

**Exclusion:** ABS215Y1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

### INS220Y1 - Introduction to an Iroquoian Language

**Hours:** 72L

An introduction to one of the languages of the Iroquoian language family.

**Exclusion:** ABS220Y1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## INS230H1 - Introduction to Inuktitut

**Hours:** 24L

An introduction to one dialect of Inuktitut, the language of the Inuit, including aspects of other dialects and the syllabic writing system.

**Exclusion:** ABS230H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS231H1 - Elementary Inuktitut

**Hours:** 24L

This course builds on the introduction to Inuktitut from ABS230H. Emphasis will be placed on developing grammatical complexity and vocabulary in students oral skills, as well as dialect and cultural awareness.

**Prerequisite:** INS230H1

**Exclusion:** ABS231H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS240Y1 - Ecological Interactions: Intro to Indigenous and Western Sciences

**Hours:** 48L/72P

Introduction to methodologies and applications of Aboriginal and Western sciences, with an emphasis on environmental change, animal behaviour, evolution, sustainable practices, and implications of intrinsic ecological connections. Exploratory labs, often outdoors, develop literacy and skills in each paradigm as well as critical thought, creative reflection, and synthesis of knowledge.

**Prerequisite:** INS201Y1

**Exclusion:** ABS240Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## INS250H1 - Indigenous Environmental Science and Practice (formerly Indigenous Environmental Education)

**Hours:** 24L

This course is a study of the ecological and scientific teachings of Indigenous peoples. The course provides and overview of Indigenous peoples' relationships with the natural world in historical and contemporary environmental issues and their implications for Indigenous Peoples and others.

**Prerequisite:** INS201Y1

**Exclusion:** ABS250H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS261H1 - Contemporary Challenges Facing Indigenous Communities

**Hours:** 24L

This is a survey course focusing on the contemporary challenges faced by Indigenous peoples in Canada. In this course students research specific challenges facing Indigenous communities today. This includes specific challenges that arise out of the broader topic areas of language and culture, land rights, economics, governance, youth, education, health, social services, environment, violence, healing, community development, repatriation of cultural property, and decolonization.

**Prerequisite:** INS201Y1

**Exclusion:** ABS261H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS300Y1 - Worldviews, Indigenous Knowledges, and Oral Tradition

**Hours:** 48L

A study of the languages and culture of Indigenous peoples through exploration of oral histories, from creation stories until present times, including the role of oral history and methods for studying oral history through accounts told by elders.

**Prerequisite:** 5 FCE including INS201Y1, plus one additional INS full course equivalent

**Exclusion:** ABS300Y1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS301Y1 - Native Language and Culture

**Hours:** 48L

Examination of the historical interplay of Indigenous languages and cultures in Canada. Particular focus is on the language and culture of an Indigenous people of Ontario.

**Prerequisite:** 5 FCE including INS201Y1, plus one additional INS full course equivalent

**Exclusion:** ABS200Y1; ABS301Y1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS302H1 - Indigenous Representation in the Mass Media and Society

**Hours:** 24L

A survey of historical and contemporary representations of Indigenous people in the mass media. Introduction to basic techniques for evaluating, analyzing, and understanding the construction of Nativeness as it is communicated through film, television, and other media. Examination of racial stereotypes and the role of mass communication in perpetuating and challenging stereotypes, cultural appropriation, Indigenous media production, impact of media portrayal of Indigenous peoples.

**Prerequisite:** 8 FCE including INS201Y1, plus one additional INS full course equivalent

**Exclusion:** ABS302H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS310Y1 - Anishinaabemowin II

**Hours:** 72L

Further study of the Anishinaabe language with emphasis on speaking and writing.

**Prerequisite:** INS210Y1

**Exclusion:** ABS310Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS322H1 - Indigenous Narratives of Empowerment

**Hours:** 24L

This course explores Indigenous decolonization and empowerment by analysing comparatively theoretical and literary debates that focus on issues of sovereignty, gender, grass-roots activism, and anti-racism. It analyses several emerging paradigm approaches to this set of debates including intersectional critical-race theory, Indigenous feminisms, and decolonization practices in theoretical and literary texts.

**Prerequisite:** 8 FCE including INS201Y1, plus one additional INS full course equivalent

**Exclusion:** ABS496H1 Indigenous Narratives; ABS322H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS323Y1 - Intermediate Iroquoian Language

**Hours:** 72L

Further study of an Iroquoian language.

**Prerequisite:** INS220Y1

**Exclusion:** ABS323Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS331H1 - Indigenous Music: Technical and Theoretical Aspects

Contemporary and historical musical theory of sacred spiritual ceremonial music and social-public performance practices of Indigenous people of North America. This course will have a participatory emphasis on the music of the Haudenosaunee (Longhouse People) of the Great Lakes.

**Prerequisite:** 8 FCE including INS201Y1, plus one additional INS course equivalent

**Exclusion:** ABS331H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS340Y1 - Indigenous Health Science

**Hours:** 48L/48P

This course is themed in six-week quarters addressing four aspects of Western Science (basic, applied, clinical and population health). Within each quarter, the Western Science theme is examined holistically using Indigenous Science and the four aspects of the Medicine Wheel (physical, mental, emotional, spiritual).

**Prerequisite:** 8 FCE including INS201Y1, plus one additional INS full course equivalent

**Exclusion:** ABS340Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## INS341H1 - North American Indigenous Theatre

**Hours:** 24L

An introduction to the evolution of Indigenous theatre in North America, examining traditional oratory, ceremony, community responsibility, and social construct and their impact on current Indigenous theatre.

**Prerequisite:** 8 FCE including INS201Y1, plus one additional INS full course equivalent

**Exclusion:** ABS341H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS350H1 - Indigenous Health Systems

**Hours:** 24L

An overview of Indigenous health systems, internationally, nationally, provincially and locally, with a focus on Ontario. Discussion of health models and strategies, policy, legislation, jurisdictional issues, Indigenous health initiatives.

**Prerequisite:** 8 FCE including INS201Y1 or INS200H

**Exclusion:** ABS351H1; ABS350H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS351Y1 - Indigenous Legends & Teaching

**Hours:** 24L

An introduction to laws of Indigenous societies, focusing on the Anishinaabe, as seen through legends and teachings.

**Prerequisite:** 5 FCE including INS201Y1, plus one additional INS full course equivalent

**Exclusion:** ABS351Y1 Aboriginal Legends and Teachings

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS352H1 - Indigenous Leadership, Policy and Practices in Canada

**Hours:** 24L

A historical and contemporary overview of leadership and politics in First Nation, Inuit and Metis communities in Canada. This course will focus on pre-contact governance structures, contemporary effects of colonization, and processes and strategies for decolonization. Various policy initiatives from Indigenous organizations will be examined.

**Prerequisite:** 5 FCE, including INS201Y1 and one additional INS designator full course equivalent.

**Exclusion:** ABS352H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS353H1 - First Nations Politics in Canada

**Hours:** 24L

This course examines recent trends in First Nations politics and their effects on the social, economic and political lives of First Nations Peoples. It provides students with an in-depth understanding of the socio-political and cultural context for First Nations societies in contemporary settings. It explores the legacies of the *Indian Act*, the tabling of the 1969 White Paper and responses to it, the emergence of current Indigenous political movements, Constitutional issues, and First Nations citizenship.

**Prerequisite:** 5 FCE, including INS201Y1 and one additional INS designator full course equivalent

**Exclusion:** ABS353H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS354H1 - Indigenous Governance and Self-Determination

**Hours:** 24L

This course examines the theory and practice of Indigenous governance and self-determination in Canada and abroad. It studies forms of Indigenous governance and self-determination past, present and future, with a special section on Aboriginal self-government agreements in Canada.

**Prerequisite:** INS353H1 or equivalent or permission of instructor

**Exclusion:** ABS354H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS355H1 - Current Issues in Indigenous Environment and Health

**Hours:** 24L

This course will examine current views about Indigenous peoples' health and relationship to environment. The course will focus on Indigenous people's perceptions of health and contemporary health systems, including policy, politics and practices.

**Prerequisite:** 8 FCE, including INS201Y1, plus one additional INS designator course

**Exclusion:** ABS355H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS360Y1 - Politics and Process of Reconciliation in Canada

This course uses relationship-building methodologies to develop skills to examine and explore the concept and processes, practice and promises of reconciliation. Through class discussion/seminars, guest speakers, and comparative readings in: Canadian and Indigenous colonial history; the findings of the Canadian Truth and Reconciliation Commission's Calls for Action; the Human Rights Tribunal Decision (Cindy Blackstock decision, January 26, 2016) on the Welfare of Indigenous Children; the rise of Indigenous solidarity movements in Canada, students will examine reconciliation and determine whether it is a different process than 'decolonization'.

**Prerequisite:** INS201Y1, or permission of instructor

**Exclusion:** ABS360Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS371H1 - Topics in Indigenous Literatures

**Hours:** 24S

This seminar provides an in-depth examination of Indigenous literatures in a comparative context. Content in any given year depends on the instructor. See Aboriginal Studies website for more details.

**Prerequisite:** 8 FCE, including INS201Y1

**Exclusion:** ABS371H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS372H1 - Special Topics in Indigenous Language

**Hours:** 36S

This seminar provides an indepth examination of Indigenous language revitalization efforts in Canada and internationally. Content in any given year depends on the instructor. See Aboriginal Studies website for more information.

**Prerequisite:** 8 FCE, including INS201Y1 and INS210Y1/INS220Y1/INS230H1 and INS231H1

**Exclusion:** ABS372H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS390H1 - Research and Ethics in Indigenous Studies

**Hours:** 24S

This course examines research approaches, strategies, methods and techniques used in Indigenous studies. It explores a range of topical issues including research ethics and protocols, intellectual property rights, research agreements and community-based research. This course includes the study of quantitative, qualitative and Indigenous methodologies. Critically examines research theories, methodologies and practices used by academic disciplines to study Indigenous peoples. Decolonized research methodologies will form a focus of this course.

**Prerequisite:** 8 FCEs, including INS201Y1 and at least one additional INS designator full course equivalent

**Exclusion:** ABS390H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Prerequisite:** 8 FCE including INS201Y1

**Exclusion:** ABS398H0

**Distribution Requirements:** Social Science

## INS399Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. Not eligible for CR/NCR option.

**Prerequisite:** 8 FCE including INS201Y1

**Exclusion:** ABS399Y0

**Distribution Requirements:** Social Science

## INS402H1 - Traditional Indigenous Ecological Knowledge

**Hours:** 36L

An overview of the relationships between Indigenous peoples and their environments, including an exploration of cultural, historical, and contemporary aspects of Indigenous environmental philosophies; the nature, control and transmission of Traditional Ecological Knowledge (TEK), and historical uses of TEK in managing the environment.

**Prerequisite:** 10 FCE, INS201Y1, plus two additional full-course equivalents in INS.

**Exclusion:** ABS402H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## INS403H1 - Indigenous Peoples and the Urban Context

**Hours:** 24S

Critically examines Indigenous peoples' experiences, encounters and interactions in urban areas in Canada. This course explores the historical and contemporary conditions of Indigenous peoples, including urban governance and the development of Indigenous organizations. This course will focus on youth perspectives and how traditions, cultures and knowledges are expressed in urban settings.

**Prerequisite:** 10 FCEs, INS201Y1 plus two additional full-course equivalents in INS

**Exclusion:** ABS403H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS404H1 - Anishinaabewin Intellectual Traditions, Narrative and Culture

**Hours:** 24S

An examination of oral narratives with an emphasis on the significance of language. This course will give students an in-depth understanding of Anishinaabewin philosophies, teachings and values.

**Prerequisite:** 10 FCE, including INS201Y1 and at least two additional INS designator full course equivalents.

**Exclusion:** ABS404H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS405H1 - Indigenous Thought & Expression: Creative Non-fiction (formerly ABS405Y1)

**Hours:** 24S

An investigation of (Anishnaabe, Iroquoian, Athapaskan, Salish), examined through the study of research and writing of creative-nonfiction.

**Prerequisite:** 10 FCEs, INS201Y1 plus two additional full-course equivalents in INS

**Exclusion:** ABS405Y1; ABS405H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## INS407H1 - Indigenous/Canadian Relations in Environmental and Resource Management

**Hours:** 36L

This course will explore the relationship between Indigenous and non-Indigenous peoples in Canadian society from pre-European contact to the present. The relationship between Indigenous and non-Indigenous peoples in Canada shapes historical and current views of environmental and resource management in a variety of ways. Economic, environmental, political, social and cultural aspects will be discussed. *This course will be offered in conjunction with JPG1419, a graduate course in the Department of Geography and Program in Planning.*

**Prerequisite:** Completion of at least 14 FCE, including INS201Y1 and at least two additional INS designator full course equivalents or GGR321H1. Permission of the instructor is required.

**Exclusion:** ABS407H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JFP450H1 - Indigenous Issues in Health and Healing

**Hours:** 24L

This course consists of an examination of health and healing from a holistic perspective (mental, physical, emotional, spiritual) and how colonialism, culture, and public policy have impacted the health of Aboriginal peoples in the present day. This course is built around a case-based project in which students working in interdisciplinary groups take on the role of a traditional Indigenous healer, and then assess their healing strategy from a biomedical perspective.

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS460H1 - Indigenous Theory, Research and Methods

**Hours:** 36L

This course explores the basis of Indigenous knowledge and how that translates into research theory and methodology. Students will design a research project, consider Indigenous research governance and conduct an ethics review. This is a service learning course. This course is only open to students enrolled in a Specialist or Major in Indigenous Studies.

**Prerequisite:** 10 FCEs, including INS201Y1 and INS390H1, and at least one additional INS designator full course equivalent.

**Exclusion:** ABS460Y1; ABS460H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS491Y1 - Topics in International Indigenous Studies

**Hours:** 48S

This seminar provides an in-depth examination of Indigenous studies in international contexts. Content in any given year depends on the instructors. See Indigenous Studies website for more detail. Not eligible for CR/NCR option.

**Prerequisite:** INS201Y1 and two additional INS designator full-course equivalents.

**Exclusion:** ABS491Y1

**Recommended Preparation:** INS360Y1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS493H1 - Independent Experiential Studies

Students design and implement an independent experiential Indigenous studies research project in consultation with an Indigenous organization and a faculty supervisor. Enrolment requires written permission from a faculty supervisor and Director of Indigenous Studies. Not eligible for CR/NCR option.

**Prerequisite:** 10 FCEs, completed INS390H1 and enrolled in a major or specialist program in Indigenous Studies

**Exclusion:** ABS493H1

**Distribution Requirements:** Humanities; Social Science

## INS494Y1 - Independent Experiential Studies

Students design and implement an independent experiential Indigenous studies research project in consultation with an Indigenous organization and a faculty supervisor. Enrolment requires written permission from a faculty supervisor and Director of Indigenous Studies. Not eligible for CR/NCR option.

**Prerequisite:** 10 FCEs, completed INS390H1 and enrolled in a major or specialist program in Indigenous Studies

**Exclusion:** ABS494Y1

**Distribution Requirements:** Humanities; Social Science

## INS495Y1 - Independent Research

Supervised independent research on a topic agreed on by the student and the supervisor before enrolment in the course. Available only when someone is willing and able to supervise. Not eligible for CR/NCR option.

**Prerequisite:** INS201Y1 plus one additional INS designator full-course equivalent

**Exclusion:** ABS495Y1

**Distribution Requirements:** Humanities; Social Science

## INS496H1 - Independent Research

Supervised independent research on a topic agreed on by the student and the supervisor before enrolment in the course. Available only when someone is willing and able to supervise. Not eligible for CR/NCR option.

**Prerequisite:** INS201Y1 plus one additional INS designator full-course equivalent

**Exclusion:** ABS496H1

**Distribution Requirements:** Humanities; Social Science

## **INS497H1 - Independent Research**

Supervised independent research on a topic agreed on by the student and the supervisor before enrolment in the course. Available only when someone is willing and able to supervise. Not eligible for CR/NCR option.

**Prerequisite:** INS201Y1 plus one additional INS designator full-course equivalent

**Exclusion:** ABS497H1

**Distribution Requirements:** Humanities; Social Science

## **INS498Y1 - Independent Research**

Supervised independent research on a topic agreed on by the student and the supervisor before enrolment in the course. Available only when someone is willing and able to supervise. Not eligible for CR/NCR option.

**Prerequisite:** INS201Y1 plus one additional INS designator full-course equivalent

**Exclusion:** ABS498Y1

**Distribution Requirements:** Humanities; Social Science

# Innis College

## Faculty List

### Assistant Professor, Teaching Stream

David J. Roberts, Ph D

### Associate Professors, Teaching Stream

S. Brail, Ph D

C. Messenger, MA

R.E. Riendeau, MA

### Lecturer, Teaching Stream

S. English, MA

## Introduction

Innis College offers courses (designated INI) that sustain two interdisciplinary academic programs: Urban Studies and Writing and Rhetoric. Innis College is also the home of the Cinema Studies Institute, which offers an impressive collection of courses (designated CIN) listed separately under Cinema Studies Institute. Courses for the new Innis One Program have been inspired by the College's two academic programs and its special relationship with the Cinema Studies Institute.

### Innis One: The Creative City

Innis One encourages first-year students to develop their creative and critical capacities by exploring the dynamism of the urban environment. By reaching beyond the walls of the academy to engage in an imaginative, inquiry-based, and civic-minded learning experience, students will gain a greater appreciation of the interplay between film, writing, and urban landscapes.

Students may enroll in two (1.0 FCE) of the four half-credit courses (INI100H1, INI101H1, INI102H1, and INI106H1) offered in the Program. Limited to an enrolment of 25, these seminar courses, featuring group discussions, films, guest lecturers, and special field trips, offer students a unique experiential learning opportunity that will also help them to develop writing, research, and analytical skills.

All first-year students in the Faculty of Arts and Science (St. George campus) are eligible for admission. Students may apply to all four Innis One courses by ranking their preferences. Online applications and further information are available at [innis.utoronto.ca/academic-programs/one/](http://innis.utoronto.ca/academic-programs/one/).

### Urban Studies

Urban Studies at Innis College provides students with the tools to make sense of their urban world. The Program examines the complex and dynamic relations among institutions, people, and physical form that create, sustain, or destroy cities.

The Program is suited for those students who wish to study cities using several disciplinary approaches. It is also of interest to those students who wish to become involved in urban issues in Toronto. The Program offers an internship in the office of either a municipal politician, non-profit research group, or other government organization as part of its experiential learning program. Because urban issues are so varied, Urban Studies combines well with many

other program areas. Students are advised to consult the Program Director when designing programs that meet their particular interests. The Program encourages students to take advantage of the Study Elsewhere Program at the University of Toronto to broaden their knowledge of cities.

Enquiries: Tony Pi, Writing and Rhetoric and Urban Studies Program Assistant, Room 233E Innis College (416-978-5809), [urbanstudies.innis@utoronto.ca](mailto:urbanstudies.innis@utoronto.ca). Also see the Urban Studies website at [sites.utoronto.ca/innis/urban](http://sites.utoronto.ca/innis/urban).

### Writing and Rhetoric

The Minor Program in Writing and Rhetoric is built on a foundation of Innis College courses that cover academic essay writing, rhetoric, critical thinking, creative writing, media analysis, and writing in the workplace. The Program also draws on relevant University of Toronto courses in a range of disciplines. The Program's design reflects three interrelated themes.

#### Writing:

This discipline involves more than instruction in composition skills. Writing is related to rhetoric, logic, reasoning, and critical thinking. One of the main goals of the Program is to ensure that students graduate with a solid grounding in various modes of writing and with highly developed transferable skills.

#### Rhetoric:

Classical rhetorical terms and methods of argumentation and persuasion are central to the study of rhetoric. One of the oldest disciplines in the liberal arts, rhetoric as a contemporary discipline focuses on the influence of discourse on social forces. For the purposes of this Program, rhetoric will, broadly speaking, be used to signify both rhetoric in the classical sense of the term and the patterns of communication identifiable in a variety of disciplines and environments.

#### Critical Analysis:

One of the tenets of the Program is shared by many of the University's Arts and Science disciplines: that problem-solving and creative, persuasive, and effective writing depend on the ability to analyze discourse critically.

Enquiries: Tony Pi, Writing and Rhetoric and Urban Studies Program Assistant, Room 233E Innis College (416-978-5809), [writingandrhetoric.innis@utoronto.ca](mailto:writingandrhetoric.innis@utoronto.ca). Also see the Writing and Rhetoric website at [sites.utoronto.ca/innis/wr](http://sites.utoronto.ca/innis/wr).

## Innis College Programs

### Urban Studies Specialist (Arts Program)

#### Enrolment Requirements:

For Program requirements and information, consult the Urban Studies website at [sites.utoronto.ca/innis/urban](http://sites.utoronto.ca/innis/urban). Note: All Urban Studies programs are limited enrolment programs (see the Arts & Science Program Enrolment instructions at <http://www.artsci.utoronto.ca/current/program> for application procedures).

This is a limited enrolment program. Eligibility will be based on a student's mark(s) in the required course(s). The precise mark thresholds outlined below are an estimate of what will be required in the coming program admission cycle. Achieving those mark(s) does not necessarily guarantee admission to the program in any given year.

Enrolment in the Specialist program requires the following:

- Completion of at least 4.0 FCEs in first year courses;
- Completion of at least 3.0 FCEs from the list of 4.0 FCEs in possible First Year selections below with an average final mark of not less than 72 percent across all three and individual final marks not less than 70 percent. Students who did not meet this criterion at the completion of year 1 (and hence had been unsuccessful in their first application to the USP) may re-apply at the end of year 2 and the admission decision will be based on the completion of one of the following (in addition to [INI235H1](#) and [INI236H1](#)) with a final mark of at least 70 percent in each:

[ECO220Y1](#) or

The pairing of [GGR270H1](#) and [GGR271H1](#); or

[POL242Y1](#); or,

The pairing of [SOC202H1](#) and [SOC252H1](#)

#### Completion Requirements:

(11.0 Full Course Equivalents (FCEs) including at least 4.0 FCEs at the 300+ level, 1.0 of which must be at the 400-level)

First Year:

Three of the following selections:

- 1.0 FCEs from First year Economics courses (e.g., [ECO100Y1](#), [ECO105Y1](#));
- 1.0 FCEs from First year Human/Urban/Social/Environmental (i.e., Social Science based) Geography courses (e.g., [GGR101H1](#), [GGR107H1](#), [GGR112H1](#), and [GGR124H1](#));
- 1.0 FCEs from First year Political Science courses (e.g., [POL101Y1](#));
- 1.0 FCEs from First year Sociology courses (e.g., [SOC100H1](#), [SOC150H1](#)).

Higher Years:

- [INI235H1](#) and [INI236H1](#) (formerly [INI235Y1](#));
- [ECO220Y1](#) or ([GGR270H1](#) and [GGR271H1](#)) or [POL242Y1](#) or ([SOC202H1](#) and [SOC252H1](#));
- any of the following to a total of 2.0 FCEs of which at least 1.0 FCE must be at the 400-level: [INI333H1](#), [INI336H1](#), [INI337H1](#), [INI338H1](#), [INI339H1](#), [INI342H1](#), [INI432H1](#), [INI433H1](#), [INI437Y1](#), [INI439H1](#))

- 4.0 FCEs in at least three of groups A through H, including at least 2.0 FCEs at the 300-level or above.

## Urban Studies Major (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program. Eligibility will be based on a student's mark(s) in the required course(s). The precise mark thresholds outlined below are an estimate of what will be required in

the coming program admission cycle. Achieving those mark(s) does not necessarily guarantee admission to the program in any given year.

Enrolment in the Major program requires the following:

- Completion of at least 4.0 FCEs in first year courses;
- Completion of at least 2.0 FCEs from the list of 4.0 FCEs in possible First Year selections below with an average final mark of not less than 72 percent across both courses and individual final marks not less than 70 percent.

Students who do not meet this criterion at the completion of year 1 (and hence are unsuccessful in their first application to the USP) may re-apply at the end of year 2 and the admission decision will be based on the completion of one of the following (in addition to [INI235H1](#) and [INI236H1](#)) with a final mark of at least 70 percent in each:

[ECO220Y1](#) or

The pairing of [GGR270H1](#) and [GGR271H1](#); or

[POL242Y1](#); or,

The pairing of [SOC202H1](#) and [SOC252H1](#)

#### Completion Requirements:

(7.0 Full Course Equivalents (FCEs) including at least 2.0 FCEs at the 300+ level, 0.5 of which must be at the 400-level)

First Year:

Two of the following selections:

- 1.0 FCEs from First year Economics courses (e.g., [ECO100Y1](#), [ECO105Y1](#));
- 1.0 FCEs from First year Human/Urban/Social/Environmental (i.e., Social Science based) Geography courses (e.g., [GGR101H1](#), [GGR107H1](#), [GGR112H1](#), and [GGR124H1](#));
- 1.0 FCEs from First year Political Science courses (e.g., [POL101Y1](#));
- 1.0 FCEs from First year Sociology courses (e.g., [SOC100H1](#), [SOC150H1](#)).

Higher Years

- [INI235H1](#) and [INI236H1](#) (formerly [INI235Y1](#));

- any of the following to a total of 1.0 FCEs of which at least .5 FCEs must be at the 400-level: [INI333H1](#), [INI336H1](#), [INI337H1](#), [INI338H1](#), [INI339H1](#), [INI342H1](#), [INI432H1](#), [INI433H1](#), [INI437Y1](#), [INI439H1](#);

- 0.5 FCEs from a 300-level or above course listed in Group A;

- 2.5 FCEs in at least two of groups A through H, including at least 0.5 FCEs at the 300-level or above.

## Urban Studies Minor (Arts Program)

#### Enrolment Requirements:

This is a limited enrolment program. Eligibility will be based on a student's mark(s) in the required course(s). The precise mark thresholds outlined below are an estimate of what will be required in the coming program admission cycle. Achieving those mark(s) does not necessarily guarantee admission to the program in any given year.

Enrolment in the Minor program requires the following:

- Completion of at least 4.0 FCEs in first year courses;

- Completion of 1.0 FCE from the list of 4.0 FCEs in possible First Year selections below with a final mark not less than 70 percent.

Students who do not meet this criterion at the completion of year 1 (and hence are unsuccessful in their first application to the USP) may re-apply at the end of year 2 and the admission decision will be based on the completion of [INI235H1](#) and [INI236H1](#) with a final mark of at least 70 percent.

#### Completion Requirements:

(4.0 full course equivalents, including at least 1.0 FCEs at the 300+ level)

First Year:

One of the following selections:

- 1.0 FCEs from First year Economics courses (e.g., [ECO100Y1](#), [ECO105Y1](#));
- 1.0 FCEs from First year Human/Urban/Social/Environmental (i.e., Social Science based) Geography courses (e.g., [GGR101H1](#), [GGR107H1](#), [GGR112H1](#), and [GGR124H1](#));
- 1.0 FCEs from First year Political Science courses (e.g., [POL101Y1](#));
- 1.0 FCEs from First year Sociology courses (e.g., [SOC100H1](#), [SOC150H1](#)).

Higher Years

- [INI235H1](#) and [INI236H1](#) (formerly [INI235Y1](#));

- 0.5 FCEs from a 300-level or above course listed in Group A;
- 1.5 FCEs in at least two of groups A through H, including at least 0.5 FCEs at the 300-level or above.

## Writing and Rhetoric Minor (Arts Program)

#### Enrolment Requirements:

For Program requirements and information, see below, and visit the Writing and Rhetoric web site: [sites.utoronto.ca/innis/wr/](https://sites.utoronto.ca/innis/wr/). Also contact Tony Pi, Writing and Rhetoric and Urban Studies Program Assistant, Room 233 Innis College (416-978-5809), [writingandrhetoric.innis@utoronto.ca](mailto:writingandrhetoric.innis@utoronto.ca).

This program does not have specific first-year requirements. See the [Arts & Science Program Enrolment web site](#) for application procedures.

#### Entrance Requirements:

This program has unlimited enrolment and no specific admission requirements. All students who have completed at least 4.0 courses are eligible to enrol.

#### Completion Requirements:

Requirements for the Minor program:

Four full courses or their equivalent, as outlined below, including the equivalent of at least 1.0 FCEs at the 300/400-level. Note: No specialist or major degree is available in this program.

- 2.5 INI writing courses (note: [JEI206H1](#) counts as an INI course in the Writing and Rhetoric Program)

- 1.5 other full-course equivalents from groups A, B, or C below. Courses outside these lists may be approved by the Program Director.

#### Courses for the Minor:

Note: Enrolment in all INI writing courses (except first-year and fourth-year courses) requires completion of 4 full-course equivalents. Students do not have to be enrolled in the minor to take INI writing courses. Students who are enrolled in the minor have first priority in most INI courses and in [JEI206H1](#).

Note: No more than 0.5 FCEs in transfer credit may be counted towards the program.

## Course Groups

### Urban Studies Group A: Urban Studies

- [INI234H1 Cities in Popular Culture](#)
- [INI333H1 Critical Approaches in Urban Studies](#)
- [INI334H1 Urban Field Course](#)
- [INI336H1 Creative Cities \(formerly INI336Y1\)](#)
- [INI337H1 Studies in Contemporary Urban Problems](#)
- [INI338H1 Advanced Topics in Urban Studies I](#)
- [INI339H1 Divided City / United City](#)
- [INI430H1 Advanced Topics in Urban Studies II](#)
- [INI431Y1 Special Topics in Urban Studies](#)
- [INI432H1 Special Topics in Urban Studies](#)
- [INI433H1 Special Topics in Urban Studies](#)
- [INI437Y1 Urban Experiential Learning in Toronto & the GTA \(formerly INI306Y1\)](#)
- [INI438H1 Advanced Urban Research Project](#)
- [JGI216H1 Globalization and Urban Change](#)
- [JGI346H1 The Urban Planning Process](#)
- [JGI454H1 The Role of the Planner: Making a Difference](#)

### Urban Studies Group B: Economics

- [ECO305H1 Economics of Accounting](#)
- [ECO310H1 Empirical Industrial Organization](#)
- [ECO313H1 Environmental Economics and Policies](#)
- [ECO314H1 Energy and the Environment](#)
- [ECO316H1 Applied Game Theory](#)
- [ECO320H1 Economic Analysis of Law](#)
- [ECO322H1 Canadian Economic History, 1850-1960](#)
- [ECO324H1 Economic Development](#)
- [ECO332H1 Economics of the Family](#)
- [ECO333H1 Urban Economics](#)
- [ECO334H1 Political Economy: Voters, Information and Media](#)
- [ECO336H1 Public Economics](#)
- [ECO338H1 Economics of Careers](#)
- [ECO339H1 Labour Economics: Employment, Wages and Public Policy](#)
- [ECO340H1 Labour Economics: The Distribution of Earnings](#)
- [ECO341H1 The Economic History of the 20th Century: Trade, Migration, Money and Finance before 1945](#)
- [ECO342H1 Twentieth Century Economic History: Institutions, Growth and Inequality](#)

- [ECO362H1 Economic Growth](#)
- [ECO364H1 International Trade Theory](#)
- [ECO372H1 Applied Regression Analysis and Empirical Papers](#)
- [ECO401H1 Topics in Economic Policy](#)

## Innis College Courses

### First-Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

### Note

Courses are listed in this order:

- Innis One
- Urban Studies
- Writing and Rhetoric
- Other Innis College courses

For Cinema Studies Courses see [Cinema Studies Institute](#).

## Innis One Courses

### INI100H1 - The City Where Movies Are Made

**Hours:** 36S

In this course, first-year students will be introduced to film culture in Toronto from a variety of angles, including: a history of the city onscreen (both as itself and as a popular shooting location for American productions); an account of major Toronto filmmaking sites and institutions; introductions to local directors and producers; and overviews of contemporary local film festival culture (TIFF and beyond) as well as the city's film-critical community. Through a combination of lectures, screenings, field trips and special guest speakers, the students will be moved to consider both the vitality of Toronto's film scene as well as its connections to other aspects of the city. Not eligible for CR/NCR option.

**Prerequisite:** Admission to Innis One

**Exclusion:** Munk One, New One, St. Mike's One, Trinity One, Vic One, UC One, Woodsworth One

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INI101H1 - Blogging the Just City

**Hours:** 36S

An introduction to the concept of the city as a creative environment promoting not only growth and wealth but also social justice, equality, cooperation, and civility. Students will learn to build their own blog to help them to observe, interpret, and reflect upon the process of urban interaction and the relationship between creativity and justice. Not eligible for CR/NCR option.

**Prerequisite:** Admission to Innis One

**Exclusion:** Munk One, New One, St. Mike's One, Trinity One, Vic One, UC One, Woodsworth One

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI102H1 - Telling the Stories of the City: Writing Creative Non-Fiction

**Hours:** 36S

An introduction to creative writing techniques and the personal essay form through which students will explore and develop their conscious connection to the natural-urban landscape. The course will include activities such as field trips, readings, interviews, and journaling to generate the material for personal essays on engagement with nature in the city. Not eligible for CR/NCR option.

**Prerequisite:** Admission to Innis One

**Exclusion:** Munk One, New One, St. Mike's One, Trinity One, Vic One, UC One, Woodsworth One

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INI106H1 - Writing Literary Journalism: Telling the Stories of the City

**Hours:** 36S

An introduction to literary journalism, in which students study the craft of storytelling along with interviewing, reporting, and the journalist's ethical stance. Guest speakers, field trips, writing activities and course readings will help students engage deeply with their environment and develop the skills and sensitivity required for literary reporting. Not eligible for CR/NCR option.

**Prerequisite:** Admission to Innis One

**Exclusion:** Munk One, New One, St. Mike's One, Trinity One, Vic One, UC One, Woodsworth One

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Urban Studies Courses

### INI234H1 - Cities in Popular Culture

**Hours:** 24L

By exploring different popular culture phenomena such as the emergence of hip-hop in the Bronx, Batman's Gotham, and Nollywood, this course works to examine the contributions of popular culture in shaping our understandings of cities (as well as providing different perspectives of the city and the urban experience than is generally captured in scholarly/academic literature). Popular culture becomes a vehicle by which we will explore different aspects of urban life and urban representation.

**Prerequisite:** 4.0 FCEs

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### INI235H1 - A Multidisciplinary Introduction to Urban Studies I: Theoretical Foundations of City Building (formerly INI235Y1)

**Hours:** 24L

Focuses on the theoretical foundations of urbanization, urban change, and city building, with particular attention on global urban growth, history of contemporary urbanization, urban planning, governance, built form, and economic development. These topics are explored through a multidisciplinary lens, with an emphasis on understanding urban transitions over time and their meaning for contemporary urban experience.

**Prerequisite:** Four courses with at least one of the following: ECO100Y1/ECO105Y1 or 1.0 FCE from 100-level GGR courses including GGR101H1, GGR107H1, GGR112H1 and GGR124H1, or 1.0 FCE from 100-level POL courses including POL101Y1, or POL214Y1, or 1.0 FCE from 100-level SOC courses including SOC101Y1, SOC102H1, and SOC103H1

**Exclusion:** INI235Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI236H1 - A Multidisciplinary Introduction to Urban Studies II: Urban Challenges and Theoretical Application (formerly INI235Y1)

**Hours:** 24L

Cities are centres of innovation and creative energy, but they also face significant and pressing challenges. This course explores various urban issues including inequality, eroding infrastructure, and concerns arising from globalization, while also examining the ways in which municipal governments and urban citizens are imagining and implementing potential solutions to these challenges.

**Prerequisite:** INI235H1

**Exclusion:** INI235Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI333H1 - Critical Approaches in Urban Studies

**Hours:** 24L

A common approach to studying the city is to quantify the outcome of processes and to rely on the scientific method and quantitative analysis to test hypotheses and ultimately create new knowledge. Critical approaches have been advanced on the belief that the notion of quantification, and that of positivism itself, could be inappropriate, if not altogether flawed. This course will introduce students to a variety of critical or alternative approaches to understanding urban dynamics.

**Prerequisite:** INI235H1 and INI236H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI334H1 - Urban Field Course

**Hours:** 12S

Students will have the opportunity to travel to a destination city for a week-long examination of specific social, economic, physical, and/or environmental issues. The trip will include meetings with municipal representatives and other decision-makers (public and possibly private). The findings of the trip supplemented by bibliographic research and in-class discussion will form the basis of a major research essay. Each student is required to pay the cost of transportation and accommodation. Not eligible for CR/NCR option.

**Prerequisite:** INI235H1 and INI236H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI336H1 - Creative Cities (formerly INI336Y1)

**Hours:** 24L

A prominent thesis in the fields of planning and economic geography is that the presence of creative occupations in a city correlates positively with the overall health of urban regions. This course will investigate the nature of this link from theoretical and empirical perspectives and examine its potential usefulness in a planning/policy context.

**Prerequisite:** 1.0 FCE from: GGR101H1/GGR107H1/GGR112H1/GGR124H1; INI235H1, INI236H1

**Exclusion:** INI336Y1

**Recommended Preparation:** GGR220Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI337H1 - Studies in Contemporary Urban Problems

**Hours:** 24L

This course will focus on an examination of the immediate difficulties facing Toronto and by extension all Canadian cities. Instruction will consist of a combination of lectures by the instructor and by noted experts/practitioners in a range of topic areas including urban governance, finance, planning, environmental sustainability and social welfare.

**Recommended Preparation:** GGR124H1/INI235H1, INI236H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI338H1 - Advanced Topics in Urban Studies I

**Hours:** 24L

This course will expose students to a range of contemporary theoretical, analytical, and policy oriented debates in Urban Studies. The emphasis will be on establishing a broad knowledge base in the multifaceted field of urban studies. The exact topics to be covered will fall broadly under the banner of urban socioeconomic change, and specific syllabi, year to year, will follow contemporary and emerging debates. This will be expanded upon in this course's 400 level counterpart.

**Exclusion:** GGR347H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI339H1 - Divided City / United City

**Hours:** TBA

This course focuses on the impact of increased economic inequality and economic polarization, a trend that is producing a variety of sociospatial changes in metropolitan areas in Canada, and affecting the lived realities of different population groups. Students will learn about and engage with the research and policy development process.

**Prerequisite:** A minimum of 8.0 FCEs

**Recommended Preparation:** INI235Y1

## INI342H1 - Urban Studies Research Seminar I

**Hours:** 24S

This course provides students an opportunity to craft and initiate an Urban Studies capstone research project. Students will gain knowledge, experience and insight in utilizing qualitative research methods including interviewing, focus groups, observational analysis and other techniques. Seminars and assignments focus on the application of qualitative methods to each student's selected urban research question.

**Prerequisite:** INI235H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI430H1 - Advanced Topics in Urban Studies II

**Hours:** 24L

This course is meant to be a senior complement to INI338H1 whereby important theoretical, analytical and/or policy debates are addressed in a research seminar format. Students in INI430H1 will be expected to extend, or refine research topics identified and explored in INI338H1 in a major independent research project. Students will present their proposals, their progress reports, and their final results to the instructor and the class.

**Prerequisite:** INI235H1, INI236H1, INI336H1/INI338H1. Priority is given to students enrolled in the Urban Studies Major or Specialist Programs. However, consideration may be given to students with suitable course background as determined by the Program Director.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI431Y1 - Special Topics in Urban Studies

**Hours:** TBA

From time to time, the Urban Studies Program organizes community outreach and information sessions. At the discretion of the Director, students may enroll in a special topics course and investigate these issues more deeply under the supervision of an agreeable faculty member. Proposals including a letter from an agreeable faculty member should be submitted to the Director by June 1 for a Fall or Year-long course, or by November 1 for a Spring course. Not eligible for CR/NCR option.

**Prerequisite:** Enrolment in a major or specialist program in Urban Studies.

**Recommended Preparation:** INI235H1, INI236H1, completion of research design and research methods courses, 14 FCEs in an aligned social science program.

**Distribution Requirements:** Social Science

## INI432H1 - Special Topics in Urban Studies

**Hours:** TBA

Special topics courses are offered periodically for senior students in the Urban Studies Program. Offerings in any given year will depend on program priorities, availability of specialized expertise and funding. Not eligible for CR/NCR option.

**Prerequisite:** Enrolment in a major or specialist program in Urban Studies.

**Recommended Preparation:** INI235H1 and INI236H1, completion of research design and research methods courses, 14 FCEs in an aligned social science program.

**Distribution Requirements:** Social Science

## INI433H1 - Special Topics in Urban Studies

**Hours:** 24S

Special topics courses are offered periodically for senior students in the Urban Studies Program. Offerings in any given year will depend on program priorities, availability of specialized expertise and funding. Not eligible for CR/NCR option.

**Prerequisite:** Enrolment in a major or specialist program in Urban Studies.

**Recommended Preparation:** INI235H1 and INI236H1, completion of research design and research methods courses, 14 FCEs in an aligned social science program.

**Distribution Requirements:** Social Science

## INI434Y1 - Independent Research in Urban Studies

**Hours:** TBA

Designed to allow strong students in the Major and Specialist programs to extend a piece of urban research under the supervision of a faculty member from any aligned department. Choice of 'H' or 'Y' session pursuant to the scope of the research envisioned, the proposed supervisors assessment of depth of the inquiry, and the approval of the program director. Proposals, including a letter from an agreeable supervisor should be submitted to the program director by June 1 for a Fall or Year session course and by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** INI235H1, INI236H1, completion of research design and research methods courses, 14 FCEs in an aligned social science program. Enrolment in the Urban Studies Major or Specialist programs.

**Distribution Requirements:** Social Science

## INI435H1 - Independent Research in Urban Studies

**Hours:** TBA

Designed to allow strong students in the Major and Specialist programs to extend a piece of urban research under the supervision of a faculty member from any aligned department. Choice of 'H' or 'Y' session pursuant to the scope of the research envisioned, the proposed supervisors assessment of depth of the inquiry, and the approval of the program director. Proposals, including a letter from an agreeable supervisor should be submitted to the program director by June 1 for a Fall or Year session course and by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** INI235H1, INI236H1, completion of research design and research methods courses, 14 FCEs in an aligned social science program. Enrolment in the Urban Studies Major or Specialist programs.

**Distribution Requirements:** Social Science

## INI436H1 - Independent Research in Urban Studies

**Hours:** TBA

Designed to allow strong students in the Major and Specialist programs to extend a piece of urban research under the supervision of a faculty member from any aligned department. Choice of 'H' or 'Y' session pursuant to the scope of the research envisioned, the proposed supervisors assessment of depth of the inquiry, and the approval of the program director. Proposals, including a letter from an agreeable supervisor should be submitted to the program director by June 1 for a Fall or Year session course and by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** INI235H1, INI236H1, completion of research design and research methods courses, 14 FCEs in an aligned social science program. Enrolment in the Urban Studies Major or Specialist programs.

**Distribution Requirements:** Social Science

## INI437Y1 - Urban Experiential Learning in Toronto & the GTA (formerly INI306Y1)

**Hours:** 72S

A method of studying city issues that combines readings, seminar discussions, and field trips with an 8 hour / week internship in the office of a municipal politician, local government, or non-profit organization. Readings focus on community development, urban planning, economic development and local governance. Students must fill out a ballot for the course (available on the Urban Studies website - [sites.utoronto.ca/innis/urban](http://sites.utoronto.ca/innis/urban) ) by June 1. Enrolment in this course is competitive and at the discretion of Professor Shauna Brail.

**Prerequisite:** INI235H1, INI236H1. Priority is given to students enrolled in the Urban Studies Minor, Major, or Specialist Programs. However, consideration may be given to students with suitable course background as determined by the Program Director. Note: INI437Y1 cannot be taken concurrently with JGI450Y1.

**Exclusion:** INI306Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI438H1 - Advanced Urban Research Project

**Hours:** 24S

This course will allow students to investigate an urban topic of their choice in a guided seminar environment. This course will guide students through the various steps of the research process including: proposal writing and refinement, secondary research, primary data acquisition, analysis and the production of a senior research paper. The course emphasizes the connections between the design, implementation and write-up of an in-depth research paper. Not eligible for CR/NCR option.

**Prerequisite:** INI235H1 and INI236H1

**Exclusion:** INI438Y1

**Recommended Preparation:** INI342H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI438Y1 - Advanced Urban Research Project

**Hours:** 48S

This course will allow students to investigate an urban topic in depth in a guided seminar environment. Each step of the research process including proposal writing and refinement, bibliographic research, primary data acquisition, analysis and the production of a senior thesis will be the focus of this course. The course will emphasize the requirements and tricks of the trade for each step in the process, and also put an emphasis on the ability to articulate ideas successfully. Not eligible for CR/NCR option.

**Prerequisite:** INI235Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI439H1 - Cities and Mega-events: Place-making, Contestation and Urban Citizenship

**Hours:** 24S

Mega-events, like the Olympics, give cities the opportunity to showcase themselves to the world, but the production of television-friendly urban images do much to obscure the processes, compromises and social consequences in host cities. These events are powerful tools for city branding. They are also potential opportunities for social movements and other groups and individuals to highlight their own sets of concerns. This course will explore the challenges and opportunities that cities face in hosting such events.

**Prerequisite:** 12.0 FCEs

**Exclusion:** INI430H1 (topic of same name in 2013-14), INI332H1, INI432H1 (2016)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGI216H1 - Globalization and Urban Change

**Hours:** 24L

Focusing on the impacts that global flows of ideas, culture, people, goods, and capital have on cities throughout the globe, this course explores some of the factors that differentiate the experiences of globalization and urban change in cities at different moments in history and in various geographic locations.

**Recommended Preparation:** GGR124H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGI346H1 - The Urban Planning Process

**Hours:** 24L

Overview of how planning tools and practice shape the built form of cities. This course introduces twentieth century physical planning within its historical, social, legal, and political contexts. Community and urban design issues are addressed at local and regional scales and in both central cities and suburbs. The focus is on Toronto and the Canadian experience, with comparative examples from other countries, primarily the United States.

**Recommended Preparation:** 8.0 FCE's including GGR124H1, INI235Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGI450Y1 - Planning for Change: Community Development in Practice

**Hours:** 48S

Offers senior undergraduates the opportunity to participate in a service learning course alongside graduate students. Students will examine theory and practice related to service learning and will conduct a research project designed with a community organization. The course aims to unite theory and practice by providing analytical tools to connect academic and community development work.

**Prerequisite:** 15 FCEs, 5.0 of which must be GGR/INI. Note: JGI450Y1 cannot be taken concurrently with INI437Y1.

**Exclusion:** JPG1812H (graduate)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGI454H1 - The Role of the Planner: Making a Difference

**Hours:** 24L

Focuses on the role of a planning practitioner in contemporary society using a wealth of examples drawn from recent issues and debates in Canadian cities and regions. The course will walk students through the demands made of planners in terms of both technical expertise as well as political necessity and ask them to think actively about how to prepare for the extraordinary growth of cities during the next century. Examples of issues that will be discussed in some detail include the myths surrounding the city vs. the suburbs, the creativity and passion involved in planning work and the need to see Toronto's future from a regional perspective.

**Prerequisite:** 14.5 FCEs, 5.0 of which must be GGR/INI Urban Studies

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## Writing and Rhetoric Courses

### INI103H1 - Writing Essays

**Hours:** 24L/12T

Introduces the fundamentals of essay writing within an interdisciplinary context. Includes the history of the essay and its various rhetorical modes (narrative, descriptive, expository, argumentative), with a focus on humanities and social sciences essays. Both non-academic essays and essays from across the academic disciplines are examined in terms of purpose, audience, and persuasive strategies.

**Distribution Requirements:** Humanities; Social Science

### INI104H1 - Writing Reports

**Hours:** 36S

Introduces the fundamentals of report writing within an interdisciplinary context. This writing intensive course focuses on improving writing skills appropriate to report writing genres. Informal, formal, research, and professional workplace reports are examined in terms of purpose, audience, structure, style, persuasive strategies, and use of visual rhetoric (tables, charts, graphs). This course also examines qualitative and quantitative research methods.

**Distribution Requirements:** Humanities; Social Science

## INI201H1 - Theories of Rhetoric

**Hours:** 36S

A survey of rhetorical theory from ancient Greece and Rome to the twentieth century. The course will examine classical theories of rhetoric, nineteenth-century interpretations of those theories, and the influence of twentieth-century language and literary theories on expanded notions of rhetoric.

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INI203Y1 - Foundations of Written Discourse

**Hours:** 72S

Designed to teach students to write persuasively and to recognize persuasive strategies at work in writing they analyze. Classical rhetorical terms, elements of style, and modes of argument are central to the course. Assignments include a rhetorical analysis, in-class essays, and a term essay. Readings include prose from a variety of disciplines, excluding fiction and poetry. Students who enrol in the course must demonstrate competence in the English language.

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## INI204H1 - The Academic Writing Process

**Hours:** 36S

The strategy necessary to write complete pieces of non-fiction prose, especially exposition and argument. Concepts of planning and organization include: focusing, research, outlining, patterns of logical development, introduction, paragraph development, conclusion, argumentation and persuasion, documentation, and revision. Students for whom English is a second language should have an advanced level of fluency in English before enrolling.

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Exclusion:** INI204Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## INI211H1 - Introduction to Creative Writing

**Hours:** 36S

This introductory course focuses on the process and craft of creative writing. Students will study short fiction, creative nonfiction and poetry by established writers, and learn to respond to works-in-progress by their peers. A variety of activities will help students generate, develop, and revise a portfolio of original creative work.

**Prerequisite:** 4.0 full-course equivalents

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INI300H1 - Strategic Writing in Business and the Professions: Theory and Practice (formerly INI300Y1)

**Hours:** 36S

Aims to teach students to recognize the rhetoric of the professional workplace and to communicate strategically and ethically using written and oral discourse appropriate to business, government, and not-for-profit organizations. Case study analysis using ethical reasoning models is a central component of the course.

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Exclusion:** INI300Y1; INI302H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INI301H1 - Contemporary Issues and Written Discourse: Rhetoric and the Print Media

**Hours:** 36S

Examines how the language and rhetoric of print media shape social issues. Rhetorical strategies at work in the media reporting of such controversial issues as international crises and military actions are examined. The construction of the columnists persona and the role of editorials are also examined.

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INI302H1 - Writing in Business and the Professions for Rotman Commerce students

**Hours:** 24L/12T

Designed for and restricted to undergraduates in Rotman Commerce. Assignments and course aims reflect the learning goals of the Rotman Commerce program. This course focuses on critical thinking, ethical reasoning, and the rhetoric of the world of business. The theory and practice of written and oral communication are also central. Case study analysis using ethical reasoning models is a central pedagogical tool.

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Exclusion:** INI300Y1/INI300H1

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INI303H1 - Digital Rhetoric

**Hours:** 36S

Examines networked reading, research, and writing in the humanities. Students analyze web content and develop skills in web design and communication strategy. The course focuses on creating web pages using the principles of argument, persuasion, and visual rhetoric. Students will develop a digital portfolio of online writing projects.

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INI304H1 - Critical Thinking and Inquiry in Written Communication

**Hours:** 24L

This seminar in critical reading, analysis, and writing focuses on the nature, the evaluation, and the use and abuse of evidence in the process of formulating and supporting an argument. The case study method will be employed to assess the level of authority, credibility, and objectivity evident in public discourse, official sources, and academic inquiry.

**Prerequisite:** Completion of 4.0 full-course equivalents, and a writing course offered by the Writing and Rhetoric Program (or equivalent).

**Distribution Requirements:** Humanities; Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## INI305H1 - Word and Image in Modern Writing

**Hours:** 36S

The rhetorical term Ekphrasis, which refers to writing that is about visual art, is central in the examination of the persuasive power of the conversation or discourse that is produced when the written word attempts the evocation of visual images. Course readings will include ekphrastic texts drawn from several disciplines and genres: journalism, informal essays, poetry, and scholarly writing.

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INI310H1 - Stylistic Editing and Copy Editing

**Hours:** 36S

This course introduces students to professional editorial conventions at two later stages of the editorial process. Both stages require analytical skills and sentence expertise. Through stylistic editing, students learn how to improve a writer's literary style; through copy editing, they learn how to ensure both accuracy and consistency (editorial style).

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INI311Y1 - Seminar in Creative Writing

**Hours:** 72S

This workshop course examines methodological approaches to literary fiction from the perspective of the creator. Through course readings, discussion, and creative writing assignments, student writers will learn how prose writers combine stylistic techniques, point-of-view, setting, character, scenes, and structure to produce literary effects.

**Prerequisite:** 4.0 full-course equivalents, fluency in English.

**Recommended Preparation:** Experience or strong interest in writing fiction.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INI316H1 - Developmental and Substantive Editing

**Hours:** 36S

This course introduces professional editorial conventions at two early stages of the editorial process. Both stages require editors to think critically and creatively as they assess content, organization, and argument. Students learn how to analyze and evaluate these elements, envision possible improvements, and explain these suggestions persuasively.

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INI405Y1 - Independent Studies in Writing and Rhetoric

**Hours:** TBA

Independent research projects devised by students and supervised by the Writing and Rhetoric staff. Open only to students who are completing the Minor Program in Writing and Rhetoric Program. Applications should be submitted to the Program Director by June 1 for a Fall session course or by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Program Director.

**Distribution Requirements:** Humanities; Social Science

## INI406H1 - Independent Studies in Writing and Rhetoric

**Hours:** TBA

Independent research projects devised by students and supervised by the Writing and Rhetoric staff. Open only to students who are completing the Minor Program in Writing and Rhetoric Program. Applications should be submitted to the Program Director by June 1 for a Fall session course or by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Program Director.

**Distribution Requirements:** Humanities; Social Science

## INI407H1 - Independent Studies in Writing and Rhetoric

**Hours:** TBA

Independent research projects devised by students and supervised by the Writing and Rhetoric staff. Open only to students who are completing the Minor Program in Writing and Rhetoric Program. Applications should be submitted to the Program Director by June 1 for a Fall session course or by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Program Director.

**Distribution Requirements:** Humanities; Social Science

## INI408Y1 - Special Topics in Writing and Rhetoric

**Hours:** TBA

Seminars in special topics designed for students who are completing the Minor Program in Writing and Rhetoric.

**Prerequisite:** Permission of instructor.

**Distribution Requirements:** Humanities; Social Science

## INI409H1 - Special Topics in Writing and Rhetoric

**Hours:** 36S

Seminars in special topics designed for students who are completing the Minor Program in Writing and Rhetoric.

**Prerequisite:** Permission of instructor.

**Distribution Requirements:** Humanities; Social Science

## INI410H1 - Special Topics in Writing and Rhetoric

**Hours:** 36S

Seminars in special topics designed for students who are completing the Minor Program in Writing and Rhetoric (e.g., "Analyzing Creative Non-Fiction").

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Distribution Requirements:** Humanities; Social Science

## INI413H1 - Visual Rhetoric of the Aesthetic Movement

**Hours:** 36L

Explores the role of writing and rhetoric in the shaping of material culture and public taste in Victorian illustrated magazines and newspapers in the Aesthetic period (1860-1900). The Great Exhibition of 1851 will provide the context for this study of texts and *objects*, including the decorative arts.

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Recommended Preparation:** INI103H1 / INI203Y1 / INI204Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## INI414H1 - Writing for Social Change

**Hours:** 36S

Explores writing that underscores social movements and teaches students to use rhetoric and communication theory and skills to effect social change. Through experiential learning and targeted projects, students will create a portfolio of writing in and for the community beyond the University.

**Prerequisite:** Completion of 4.0 full-course equivalents.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JEI206H1 - Writing English Essays

**Hours:** 24L/12T

This course teaches students who already write effectively how to write clear, compelling, research-informed English essays. The course aims to help students recognize the function of grammar and rhetoric, the importance of audience, and the persuasive role of style.

**Prerequisite:** 1.0 ENG FCE or any 4.0 FCE. English students have priority.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Other Innis College Courses

### INI299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

### INI400Y1 - Independent Research

**Hours:** TBA

Under the supervision of a faculty member, students explore topics of their own choice and design their own research projects for a course not otherwise available within the Faculty. The student should submit a detailed proposal and a letter of support from the supervisor by June 1 for Y and F courses and by September 1 for S courses. Not eligible for CR/NCR option.

**Prerequisite:** Normally requires completion of 15.0 full-course equivalents with 3.3 CGPA and permission of the Innis College Vice-Principal.

### INI401H1 - Independent Research

**Hours:** TBA

Under the supervision of a faculty member, students explore topics of their own choice and design their own research projects for a course not otherwise available within the Faculty. The student should submit a detailed proposal and a letter of support from the supervisor by June 1 for Y and F courses and by September 1 for S courses. Not eligible for CR/NCR option.

**Prerequisite:** Normally requires completion of 15.0 full-course equivalents with 3.3 CGPA and permission of the Innis College Vice-Principal.

### INI402H1 - Independent Research

**Hours:** TBA

Under the supervision of a faculty member, students explore topics of their own choice and design their own research projects for a course not otherwise available within the Faculty. The student should submit a detailed proposal and a letter of support from the supervisor by June 1 for Y and F courses and by September 1 for S courses. Not eligible for CR/NCR option.

**Prerequisite:** Normally requires completion of 15.0 full-course equivalents with 3.3 CGPA and permission of the Innis College Vice-Principal.

# Italian

## Faculty List

### Professors Emeriti

R. Capozzi, MA, Ph D  
M. Ciavolella, Ph D  
A. Franceschetti, Dott in Lett, Ph D  
M. Kuitunen, Dott in Lett, MA, Phil M, Ufficiale Ord. Merit It. Rep.  
J.A. Molinaro, MA, Ph D, FRSC  
O.L. Pugliese, MA, Ph D (V)  
M.W. Ukas, MA, Ph D

### Professor and Chair of the Department

S. Bancheri, MA, PhD (University of Toronto Mississauga)

### Professors

S. Bancheri, MA, PhD (University of Toronto Mississauga)  
K. Eisenbichler, MA, Ph D (V)  
F. Guardiani, Dott in Lett, MA, Ph D (SM)  
M. Lettieri, MA, Ph D (University of Toronto Mississauga)  
D. Pietropaolo, MA, Ph D (SM), Commend. Rep. It.  
L. Somigli, Dott in Lett, Ph D

### Associate Professor

F. Pierno, Dott in Lett, DEA, Doctorat

### Assistant Professors

E. Brilli, Dott in Lett, Ph D (La Sapienza, Rome; EHESS, Paris)  
A. Zambenedetti, Dott in Lingue e Lett Straniere, MA, Ph D

### Associate Professors, Teaching Stream

B. Magliocchetti, MA (SM)  
M. Pasquarelli Clivio, MA, Ph D (SM)  
M. Scarci, MA, Ph D (V)

### Senior Lecturers Emeriti

R. Longo Lavorato, MA, Ph D (SM)  
A. Urbancic, B Ed, MA, Ph D (V)

## Introduction

To study Italian is not only to acquire a language, but also to study a rich literature and a many-sided culture which have played an important, and sometimes dominant, role in Western civilization. For Canadians, the Italian contribution bears a special significance: the vast influx of Italians has brought changes in our way of life and a living presence to reinforce traditional Italian influences, thus enriching the meaning of the term Canadian. Italian combines well with other modern languages and literatures, and other programs such as European Studies, Literary Studies, and Mediaeval and Renaissance Studies, but is by no means restricted to these. Students may choose from Specialist, Major and Minor programs in Italian Studies. Italian courses are offered for beginners as well as for students who may have prior knowledge or instruction in Italian. Oral practice is included in all language courses. Students well qualified in the Italian language may be excused from language courses in first year (please see the Undergraduate Coordinator). 300- and 400-series courses are available to qualified third and fourth-year students and may be taken concurrently. These courses offer a wide range of options in language, literature, linguistics, culture and cinema. There are courses in Italian literature, culture and cinema that are given in English and have no language requirement. In conjunction with Woodsworth College, ITA courses may be taken in Italy at the University of Siena during July and August. A number of bursaries are available. Students may apply to

take their Third Year in Italy under the Study Abroad Program in conjunction with the Centre for International Experience (<http://www.studentlife.utoronto.ca/cie>). Undergraduate Coordinator: 416-926-2338 Email: [italian.undergrad@utoronto.ca](mailto:italian.undergrad@utoronto.ca) Enquiries: 100 St. Joseph St. Room 204 (416-926-2345) Web site: <http://www.utoronto.ca/italian/>

## Italian Programs

### Italian Specialist (Arts Program)

#### Completion Requirements:

(10 full courses or their equivalent, including at least one full course equivalent at the 400 level)

1. The following language courses: [ITA100Y1](#), [ITA250Y1](#), [ITA350Y1](#), [ITA450H1](#)
2. One additional 200-series ITA full course equivalent
3. Two full course equivalents at the 300+ level in literature, including 0.5 FCE in each of the THREE periods of Italian literature:

Medieval / Renaissance: [ITA300H1/ITA311H1/ITA312H1/ITA320H1/ITA321H1/ITA325H1/ITA332H1/ITA370H1/ITA420H1/ITA455H1](#)

Baroque / Enlightenment: [ITA301H1/ITA326H1/ITA390H1/ITA420H1/ITA436H1/ITA455H1](#)

Modern / Contemporary: [ITA301H1/ITA310H1/ITA330H1/ITA334H1/ITA346H1/ITA380H1/ITA381H1/ITA410H1/ITA421H1/ITA455H1](#)

4. One half course from the following: [ITA360H1/363H1/371H1/431H1/432H1/471H1](#)
5. One half course from the following: [ITA311H1/ITA320H1/ITA321H1/ITA332H1/ITA340H1/ITA341H1/ITA342H1/ITA345H1/ITA347H1/ITA441H1/ITA370H1/ITA420H1](#)
6. Two additional full course equivalents at the 300+ level with at least one half course at the 400 level
7. [ITA495H1](#)

NOTE: No more than TWO full courses or equivalent where the language of instruction is English may be counted towards the Specialist Program.

### Italian Major (Arts Program)

#### Completion Requirements:

(7 full courses or their equivalent, including at least one half-course equivalent at the 400 level)

1. The following language courses: [ITA100Y1](#), [ITA250Y1](#), [ITA350Y1](#)
2. One additional 200-series ITA full course equivalent
3. One full course or equivalent at the 300+ level in literature
4. One half course from the following: [ITA360H1/363H1/371H1/431H1/432H1/471H1](#)

5. One half course from the following: [ITA311H1/ITA320H1/ITA321H1/ITA332H1/ITA340H1/ITA341H1/ITA342H1/ITA345H1/ITA347H1/ITA441H1/ITA370H1/ITA420H1](#)
6. One additional 300+ series course of which at least one half course must be at the 400 level

## Italian Culture and Communication Studies Minor (Arts Program)

### Completion Requirements:

4 full courses (or equivalent) including one full course equivalent from any of the following:

[ITA340H1/ITA341H1/ITA342H1/ITA345H1/ITA347H1/ITA441H1/445H1](#)

[ITA360H1/ITA363H1/ITA431H1/ITA432H1](#)

[ITA356Y1/357Y1/358Y1/359Y1](#)

[ITA371H1/ITA471H1](#)

## Italian Minor (Arts Program)

### Completion Requirements:

(4 full courses or their equivalent)

Any 4 ITA courses (at least one full course equivalent must be a 300/400-level literature course)

## Faculty of Arts & Science Language Citation

The Department of Italian Studies participates in the Faculty of Arts and Science's Language Citation initiative for Italian. Proficiency in Italian is an invaluable asset for those wishing to pursue a career in social work, business, applied science, government, law, medicine or education. A knowledge of Italian complements undergraduate studies in other areas, such as music, fine art, literary studies, European history or political science, to name a few.

The Language Citation recognizes a significant level of achievement in language study with a high level of academic success. The Citation in Italian is available to students who, having completed a first year language course in Italian ([ITA100Y1/ITA151Y1](#)) (or the equivalent prerequisite training), earn a grade of at least B- in a second-year language course ([ITA250Y1/ITA251Y1](#)) and in one FCE in Italian language at the 300 or 400 level.

Students should note that the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

## First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more

than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Guidelines for students who wish to begin the study of the Italian language at the university level

[ITA100Y1](#) - Italian Language for Beginners – An introductory course for students with no previous knowledge of the Italian language. Not open to students with grade 11 and/or 12 U or M Italian or with previous experience, exposure or instruction in Italian.

[ITA250Y1](#) - Intermediate Italian – The subsequent course for students who have completed ITA100Y1 or ITA151Y1.

This course is also open to students who have completed Grade 11 and/or 12 Italian (U or M level) or with previous experience or instruction in Italian. For this group, the Department may conduct assessment to determine appropriate placement.

The Department reserves the right to place students in the language course appropriate to their level of language skill.

## Italian Courses

### ITA100Y1 - Italian Language for Beginners

**Hours:** 72S

An introduction to the main elements of the Italian language. The development of speaking, reading, and writing skills. Introduction to Italian culture and texts.

**Exclusion:** Grade 11 and/or 12 Italian (U or M level) or previous experience or instruction in Italian.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA102Y0 - Practical Italian

**Hours:** 48L/24P

A course specifically designed for students who wish to take Italian as a breadth requirement. Emphasis will be given to basic aspects of communication in a functional context. This course cannot be used towards any Minor, Major or Specialist program in Italian. (Offered in Siena only)

**Exclusion:** 4U Italian or any previous university level Italian language course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA135Y0 - Conversation and Culture: An Introduction to Italian

**Hours:** 72S

The course is designed to introduce students to Italian grammar and develop basic oral and comprehension skills. Elements of Italian culture, past and present, are also examined in the context of language and communication. To select the appropriate second-year follow-up course, students are asked to contact the Undergraduate Coordinator. (Offered in Siena only)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA200H1 - Major Italian Authors in Translation: from Dante to Tasso

**Hours:** 24L

The course will focus on authors from the Middle Ages to the Renaissance who had a defining influence on Western literature, such as Dante, Petrarca, Boccaccio, Machiavelli, Ariosto and Tasso. This course includes a component designed to enhance students' research experience. (Given in English)

**Exclusion:** ITA300H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA201H1 - Major Italian Authors in Translation: from Marino to Calvino

**Hours:** 24L

The course will focus on authors from the Baroque to the Twentieth Century who had a defining influence on Western literature, such as Marino, Goldoni, Manzoni, Pirandello, Calvino. This course includes a component designed to enhance students' research experience. (Given in English)

**Exclusion:** ITA301H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA210Y1 - Contemporary Italy

**Hours:** 48S

Through the study of literature and art from Italian unification to the present, and of their social and political context, this course aims to give students a comprehensive introduction to contemporary Italian culture and society. All texts are read in translation. The course includes a component designed to introduce students to methods of scholarly research appropriate to the field. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA233H1 - Italian-Canadian Literature (formerly ITA233Y1)

**Hours:** 24L

The course will explore how notions of identity and (self)-representation emerge in literature by Canadian writers of Italian descent. Works by Nino Ricci, Pier Giorgio Di Cicco, Frank Paci, Mary Di Michele, Caterina Edwards and Gianna Patriarca will be examined to illustrate the critical evolution of the immigrant journey from its historical experience to its current branding. This course includes a component designed to enhance students' research experience. (Given in English)

**Exclusion:** ITA233Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## ITA235Y0 - Conversation and Culture: Intermediate Italian Intensive Oral Practice

**Hours:** 72S

This course is designed to enhance students oral proficiency in Italian, improve listening and reading comprehension and develop a broad lexical base for more effective communicating skills. Elements of Italian culture are also examined in the context of language and communication through a series of topical readings which form the basis of discussions. (Offered in Siena only)

**Prerequisite:** ITA100Y1/ITA101Y1/ITA102Y1/ITA135Y0/ITA151Y1/ITA152Y1 or permission of Department

**Exclusion:** ITA252Y1 (and/or higher)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA240Y1 - History of Italian Cinema

**Hours:** 48L/72P

This course surveys the history of Italian cinema and the sociopolitical circumstances surrounding the film industry, from its early days to the present, while also introducing the students to methods of analysis and research appropriate to the field. Emphasis will be placed on films from the silent era to the 1960s, and from the 1960s to the present. This course includes a component designed to introduce students to methods of scholarly research appropriate to the field.

The course is given in English and all films shown have English subtitles.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA249H1 - Italians in Asia

**Hours:** 24L

From early Sino-Roman cultural exchanges to the present day commercial relations, Italian travelers to Asia have produced a large body of works showing original thinking, intellectual audacity, and religious tolerance. This course focuses on some of these accomplishments, including *The travels* of Marco Polo, the writings of Matteo Ricci Li-Madou, and Roberto de Nobili, and the paintings of Giuseppe Castiglione. This course includes a component designed to enhance students research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## ITA250Y1 - Intermediate Italian

**Hours:** 72S

Grammar review, readings of Italian authors and oral practice to enhance comprehension and expressive skills.

**Prerequisite:** ITA100Y1/151Y1; Grade 11 and/or 12 Italian (U or M level), or previous experience or instruction in Italian, or permission of the Department.

**Exclusion:** ITA251Y1/ITA252Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA299Y1 - Research Opportunity Program

**Hours:** TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>.

**Distribution Requirements:** Humanities

## ITA300H1 - History of Italian Literature: Middle Ages and Renaissance

**Hours:** 24L

This course provides a chronological, comprehensive view of Italian literature and its major authors and trends, in their socio-historical contexts from its beginnings to the Renaissance. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Exclusion:** ITA200H1/ITA300Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA301H1 - History of Italian Literature: Baroque to Contemporary

**Hours:** 24L

This course provides a chronological, comprehensive view of Italian literature and its major authors and trends, in their socio-historical contexts from the Baroque period to the present day. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Exclusion:** ITA201H1/ITA300Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA310H1 - The 'Journey' in 19th Century Italian Literature

Hours: 24L

The course illustrates Italy's contribution to the history of the trope during a time when countries became increasingly interdependent and conscious of each other's cultures. Through literary and social analysis the course traces the most vital aspects of the journey motif. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA311H1 - Mediaeval Italian Literature in Translation: Dante

Hours: 24L

A study of the *Vita Nuova* and of the *Divine Comedy* within the literary and cultural contexts of the Middle Ages. This course includes a component designed to enhance students' research experience. (Given in English)

**Exclusion:** ITA320Y1/321Y1/ITA320H1/ITA321H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA312H1 - Mediaeval Italian Literature in Translation: Petrarch and Boccaccio

Hours: 24L

A study of Petrarch's *Canzoniere* and of Boccaccio's *Decameron* in relation to later Middle Ages. This course includes a component designed to enhance students' research experience. (Given in English)

**Exclusion:** ITA325H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA315Y1 - Italian Theatre: Text and Performance

Hours: 48L/24P

A study of Italian Theatre (comedy, tragedy) from the 16th to the 20th Centuries with focus on staging and acting techniques culminating with the production of a play. The performative process will also provide experiential learning for students and improve their oral communication. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA 250Y1/ITA 251Y1/ITA252Y1 /permission of Department

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA320H1 - Dante: Vita Nuova and Divina Commedia (Inferno)

Hours: 24L

Dante's poetry and great Christian epic of conversion explode with the passions of this world. This course focuses on intertextual and rhetorical strategies used to fashion the author's complex vision of contemporary society within the framework of providential history. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Exclusion:** ITA311H1/ITA320Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA321H1 - Dante: Divina Commedia (Purgatorio and Paradiso)

Hours: 24L

A continuation of ITA320H1, this course examines the *Purgatorio* and the *Paradiso* in the context of Dante's vision of contemporary society. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA320H1

**Exclusion:** ITA311H/ITA320Y

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA325H1 - Themes and Forms of the Lyric Tradition from Petrarch to Tasso

**Hours:** 24L

A comprehensive historical and thematic review of love poetry in the Italian lyric tradition. The course focuses on the distinctive elements of the lyric genre from the establishment of the canon with Petrarch to its amplification with Tasso. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Exclusion:** ITA325Y1/ITA312H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA326H1 - Themes and Forms of the Lyric Tradition from Late Renaissance to 20th Century

**Hours:** 24L

A chronological and historical review of the forms and themes of love poetry in the Italian lyric tradition. The course follows the evolution of the genre from late Renaissance, Mannerist and Baroque writings, to the love poetry of D'Annunzio. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Exclusion:** ITA325Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA330H1 - Alessandro Manzoni and the 19th Century

**Hours:** 24L

Italy's foremost author's conscious attempt to write the great representative ("epic") work of the Risorgimento. This course explores Manzoni's continuing struggle to find the appropriate language, style, and genre to express his vision of history. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Exclusion:** ITA330Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA332H1 - Love in the Renaissance

**Hours:** 24L

An exploration of the theme of love in the Renaissance and its development in a variety of literary forms. Analysis of treatises, poetry, short stories and letters with the purpose of examining intertextuality and the practice of imitation, as well as the social and political aspects of love, such as marriage, women's position in society, pornography, homosexuality and other issues. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA340H1 - Italian Neorealist Cinema

**Hours:** 24L/36P

The focus of this course is the films of Italian Neorealism, one of the most influential, artistic, and intellectual movements in the history of world cinema. While emphasis will be placed primarily on the work of Roberto Rossellini, Vittorio De Sica, and Luchino Visconti, the course will also offer a detailed discussion of the historical context and of the sociopolitical issues of postwar Italy. This course includes a component designed to enhance students' research experience. (Given in English)

**Exclusion:** ITA340Y

**Recommended Preparation:** ITA240Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA341H1 - Gender and Genre in Italian Cinema

**Hours:** 24L/36P

The course looks at Italian cinema from the perspective of gender and genre studies. While the focus will be primarily on film, the course will also engage with different media and discuss how these have informed and influenced Italian notions of masculinity and femininity throughout the Twentieth Century. The emphasis on genre will provide the structure to organize a discourse that will embrace very diverse and multifaceted texts, and will enable students to develop their analytical and critical skills in the field. This course includes a component designed to enhance students' research experience. (Given in English)

**Exclusion:** ITA340Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA342H1 - Popular Italian Cinema

**Hours:** 24L

This course discusses the notion of the *Popular* as applied to Italian cinema. By focusing on the number of films that have appropriated popular international genres such as *Spaghetti Westerns*, *Horror*, and *Poliziotteschi*, this course will discuss Italian cinema in a global context, drawing parallels and comparisons with other national industries. Students will gain a broader understanding of Italian film culture, and will apply their critical and research skills to a wide range of texts. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA345H1 - Cinema of the Italian Diasporas

**Hours:** 24L/36P

This course will examine how several filmmakers of Italian descent engage with the representation of their diasporic identity. Particular emphasis will be placed on Italian-Canadian and Italian-American cinema, as well as on Italian cineastes working in Argentina, Brazil, and Australia. The course will analyze films that span from silent to contemporary, from the formation of the stereotypical images to the re-appropriation of archetypes on the part of "ethnic" filmmakers. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA348H1 - Mass Media in Italy: The European Context

**Hours:** 24L

This course investigates Italy's pivotal role in epochal cultural changes: from manuscript to print and from print to computers. The impacts of Print Technology in the Renaissance and of Electronic Technology from Marconi onward are thoroughly analyzed. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA350Y1 - Language Practice

**Hours:** 24P/48S

For students who have completed ITA250Y1/ITA251Y1. Discussion of problems of grammar, style, and composition. Language analysis based on readings of Italian authors. One hour a week of oral practice. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1

**Exclusion:** ITA351Y1/ITA352Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA356Y0 - Italian Culture from the Middle Ages to the Renaissance

**Hours:** 24L/24T

A survey of artists, writers, and thinkers from the time of Dante to the days of Leonardo. During field trips, the streets, squares, churches, and palazzi of many cities serve as living laboratories for a discussion of the topography of mediaeval and Renaissance cities. This course includes a component designed to enhance students' research experience. (Offered in Siena only.)

ITA356Y0: This course is taught in English and is open to students from other disciplines.

**Exclusion:** ITA245Y1/ITA246H1/ITA248Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## ITA357Y0 - Italian Culture from the Middle Ages to the Renaissance

**Hours:** 24L/24T

A survey of artists, writers, and thinkers from the time of Dante to the days of Leonardo. During field trips, the streets, squares, churches, and palazzi of many cities serve as living laboratories for a discussion of the topography of mediaeval and Renaissance cities. This course includes a component designed to enhance students' research experience. (Offered in Siena only.)

ITA357Y0: Students who wish to petition the Department for credit towards a Specialist or Major in Italian will be required to do the readings in Italian

**Exclusion:** ITA245Y1/ITA246H1/ITA248Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## ITA358Y0 - Modern Italian Culture

Hours: 24L/24T

Analysis of a selection of philosophical, artistic, musical, and literary works from the age of the Baroque to the present. The main topics of discussion include: Romanticism, Italian unification, theatre, opera, Futurism, fascism, Neorealism, regional differences, and industrialization. Field trips and viewing of movies included. This course includes a component designed to enhance students' research experience. (Offered in Siena only)

ITA358Y0: This course is taught in English and is open to students from other disciplines.

**Exclusion:** ITA245Y1/ITA247H1/ITA248Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## ITA359Y0 - Modern Italian Culture

Hours: 24L/24T

Analysis of a selection of philosophical, artistic, musical, and literary works from the age of the Baroque to the present. The main topics of discussion include: Romanticism, Italian unification, theatre, opera, Futurism, fascism, Neorealism, regional differences, and industrialization. Field trips and viewing of movies included. This course includes a component designed to enhance students' research experience. (Offered in Siena only)

ITA359Y0: Students who wish to petition the Department for credit towards a Specialist or Major in Italian will be required to do the readings in Italian.

**Exclusion:** ITA245Y1/ITA247H1/ITA248Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1); Society and its Institutions (3)

## ITA360H1 - Italian Linguistics

Hours: 24L

For students having a knowledge of Italian and/or Italian dialects but no background in linguistics. Concepts of general linguistics. Italy as a linguistic entity. The structure of contemporary Italian, with special regard to its sound system and grammatical categories. This course includes a component designed to enhance students' research experience. (Given in English)

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA363H1 - Italian Sociolinguistics

Hours: 24L

Starting with a survey of the sociolinguistic situation in Italy before Unification, this course deals with the complex relationship between regional languages and dialects on the one hand and Common Italian on the other. The recent rise of regional variants of Italian and its impact on the dialects are also discussed. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA364H1 - Italian and Social Media

Hours: 24L

The aim of this course is to examine how media can influence the evolution of language in contemporary Italy. The first part of this course has an historical goal and will be devoted to the role played by traditional media (television, radio, newspapers) in the linguistic history of Italian. The second part will be devoted to the impact that social media is having on Italian. Empirical quantitative research will be based on the most important databases for contemporary Italian.

**Prerequisite:** ITA250Y/251Y/252Y

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA370H1 - Power and Success in the Renaissance

Hours: 24L

Concepts of power and strategies for success in Renaissance texts including Machiavelli's *Il principe*, Castiglione's *Il libro del cortegiano* and Della Casa's *Galateo*. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Exclusion:** ITA370Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA371H1 - Translating I

**Hours:** 24S

A course designed for advanced students. Written translation of a variety of non-technical texts from English into Italian and Italian into English. Treatment of common difficulties in translating to and from the two languages. This course includes a component designed to enhance students' research experience.

**Prerequisite:** Permission of Department

**Exclusion:** ITA371Y

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA380H1 - The Prose of the World: The Modern Italian Novel and the Realist Tradition

**Hours:** 24L

This course examines the development of modern Italian novel by taking as its focus the question of the relationship between narrative and the world. The course analyzes some of the major figures of Nineteenth-Century realist tradition such as Manzoni and Verga, as well as the resurgence of realist narrative in the post-World War II period with authors such as Pavese and Calvino. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA381H1 - Topics in Modern and Contemporary Literature

**Hours:** 24L

Focusing on compelling themes arising from critical and theoretical debates in 20th-century culture, this course analyzes poetic, narrative and dramatic works by major Italian modern and contemporary authors. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA390H1 - The Commedia dell'Arte

**Hours:** 24L

A study of the conventions of the Commedia dell'Arte tradition in the context of its performance history from the late Renaissance to the present. Issues examined include acting techniques, improvisation, masks and costumes, iconography and adaptation to film. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA395Y0 - Special Topics in Italian Studies

**Hours:** 48S

The area of concentration will depend upon the instructor teaching the course in any given year. (Offered only during the summer through the Summer Abroad Program)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA398H0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. This course includes a component designed to enhance students' research experience.

**Distribution Requirements:** Humanities

## ITA399Y0 - Research Excursions

**Hours:** TBA

An instructor-supervised group project in an off-campus setting. Details at <http://www.artsci.utoronto.ca/current/course/399>. This course includes a component designed to enhance students' research experience.

**Distribution Requirements:** Humanities

## ITA400H1 - Machiavelli

Hours: 24S

An intensive study of Machiavelli's major works in English translation, including his political treatises (*The Prince*, excerpts from *The Discourses*), plays (*The Mandrake Root*), letters, and short story (*Belfagor*), in the context of Renaissance Florence, the history of Machiavelli criticism, and modern ethical debates. This course includes a component designed to enhance students' research experience. (Given in English)

**Prerequisite:** Completion of at least 10.0 FCEs

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA410H1 - Masterpieces of Modern Drama

Hours: 24L

This course will study works by the major Italian playwrights of the Twentieth Century, including two of Italy's Literature Nobel Prize winners, Luigi Pirandello and Dario Fo. Particular attention will be paid to the relationship between individual works and broader literary and cultural movements, as well as to issues regarding staging and production of the plays under discussion. The course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1 and at least 0.5 FCE  
ITA literature courses at the 300-level

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA420H1 - Spinning a Tale: The Italian Short Story from Boccaccio to Basile

Hours: 24L

The short story genre and its development from the Middle Ages to the Baroque. In addition to Boccaccio's tales, included are some of the most famous stories of Western literature, which later inspired masterpieces in all art forms, such as *Romeo and Juliet*, *Othello* and *Puss in Boots*. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1 and at least 0.5 FCE  
ITA literature courses at the 300-level

**Exclusion:** ITA421Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA421H1 - Spinning a Tale: The Italian Short Story after 1800

Hours: 24L

Focusing on short stories by some of the most important authors of the Twentieth Century, such as Pirandello and Calvino, this course will provide an introduction to the major tendencies of contemporary Italian literature. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1 and at least 0.5 FCE  
ITA literature courses at the 300-level

**Exclusion:** ITA421Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA431H1 - History of Italian Language I-from Middle ages to Cinquecento

Hours: 24L

An historical overview of the Italian language from the first Medieval documents to the texts of the *Questione della Lingua*. It deals with historical grammar and the analyses of early Italian texts. An introduction to notions of linguistic statistics. Empirical quantitative methods are based on the three most important databases of old Italian: TLIO, OVI, BIZ. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Exclusion:** ITA430H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA432H1 - History of Italian Language II-from Cinquecento to Contemporary

Hours: 24L

The evolution of the Italian Language from the *Questione della lingua* to Contemporary issues pertaining to reading of literary and non literary documents and analyses of the social, political and economic conditions which influenced Early Modern, Modern and Contemporary Italian. Introduction to techniques pertaining to notions of linguistic statistics. Quantitative methods will be based on the three most important databases for the Early modern, Modern and Contemporary Italian: *Vocabolario della Crusca* (online), BaDIP and BIZ. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA433H1 - Italian Language and Italian Dialects in Toronto

**Hours:** 24L

Through an historical overview of Italian immigration in Toronto, the role of Italian and Italian dialects in the city will be examined. As part of the topic studied in course, students will contribute to the website of the OIM by collecting varied forms of empirical linguistic evidence.

**Prerequisite:** ITA250Y/ITA251Y/ITA252Y

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA441H1 - Italian Cinematic Adaptation

**Hours:** 24L

An analysis of the process of adaptation in an exploration of the ideological and narratological perspectives as well as the stylistic elements of literary and cinematic discourse. Selections include novels by Verga, Tomasi di Lampedusa, Moravia, Bassani and their filmic adaptations by directors such as Visconti, De Sica, Bertolucci. This course includes a component designed to enhance students' research experience. (Given in English)

**Recommended Preparation:** One of: ITA240Y1/340Y1/ ITA340H1/ ITA341H1/ITA347H1/381Y1. Knowledge of Italian recommended

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA445H1 - Literature of the Italian Diasporas

**Hours:** 24L

This course examines works by writers of Italian descent, focusing on themes linked to the second-generation experience, such as intergenerational conflict, gender relations, the return journey, and the quest for identity. The comparative approach of this investigation will bring within the same framework the diasporic literatures of Canada, the United States, Argentina, Brazil, Australia, and of other countries. (Texts available in English and in their original language). This course includes a component designed to enhance students' research experience. (Given in English)

**Recommended Preparation:** ITA233Y1/ITA233H1/ITA345H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA450H1 - Advanced Italian

**Hours:** 36S

This advanced-level course is designed to provide students with further study of the Italian language and culture with emphasis on varied methods of expression. This course will improve students' oral and written communication skills.

**Prerequisite:** ITA350Y1 /ITA351Y1

**Exclusion:** ITA451H1/ITA452H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA455H1 - Women Writers in Italy

**Hours:** 24L

The course will focus on the writings of women in different periods of Italian history. Spanning a variety of genres, from the novel to autobiography, from poetry to essayism, the course will discuss various aspects of the debate regarding the changing roles of women in society. This course includes a component designed to enhance students' research experience.

**Prerequisite:** ITA250Y1/ITA251Y1/ITA252Y1 and at least 0.5 FCE ITA literature courses at the 300-level

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA460Y1 - Internship in Italian

**Hours:** 48P

Opportunity to apply acquired knowledge in a work placement environment. The placement will take place in local community organizations, Private Business Associations and local media.

**Prerequisite:** ITA350Y1/ITA351Y1/ITA352Y1 or ITA371Y1

**Corequisite:** Must be enrolled in 4th year.r3.0 CGPA required.rDepartmental interview.

**Distribution Requirements:** Humanities

## ITA471H1 - Translating II

**Hours:** 24S

A course designed for advanced students. Written translation of literary, administrative, business, and semi-technical texts from English into Italian and Italian into English. This course includes a component designed to enhance students' research experience.

**Exclusion:** ITA471Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA489H1 - Independent Studies

**Hours:** TBA

An opportunity to pursue at the 400-level an independent course of study not otherwise available. A written proposal, co-signed by the instructor, must be submitted on the appropriate proposal form for approval by the Department of Italian Studies. Application deadline: April 30 for F courses, November 30 for S courses.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

## ITA490Y1 - Independent Studies

**Hours:** TBA

In exceptional circumstances, students may request to pursue at the 400-level an independent course of study not otherwise available. A written proposal, co-signed by the instructor, must be submitted on the appropriate proposal form for approval by the Department of Italian Studies. Application deadline April 30.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

## ITA495H1 - Directed Research

**Hours:** TBA

Based on a professor's research project currently in progress, this course will enable an undergraduate student to play a useful role in the project while receiving concrete training in research. This course is mandatory for all students enrolled in the specialist's program.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

## ITA496H1 - Research Methods

**Hours:** TBA

This course, linked to the instructor's research project, will provide training in a variety of research methods. This course includes a component designed to enhance students' research experience.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

J. Newman, MA, PhD (REL)  
W. Saleh, MA, PhD (NMC, REL)  
A. Shternshis, MA, D Phil, PhD (GER) AI and Malka Green  
Associate Professor of Yiddish Studies  
K. Weisman, MA, PhD (ENG)  
R. Wittmann, MA, PhD (HIS)  
P. Wróbel, MA, PhD (HIS) Konstanty Reynert Professor of Polish  
Studies

### Assistant Professors

A. Komaromi, MA, PhD (VIC)  
A. Paz, MA, BA, PhD (ANT)  
D. Silver, PhD (SOC)  
S. Vande Moortele, PhD (MUS)

### Associate Professors, Teaching Stream

R. Austin, PhD (ERE)  
E. Gold, BA, MA, PhD (LIN)  
S. Goldberg, MA, PhD (CJS, RLG)  
Y. Nizri, PhD (CJS, RLG)

### Visiting Professor

M. Morgan, PhD (CJS, PHL) Senator Jerahmiel S. Grafstein  
Professor of Jewish Thought

### Special Lecturers

F. Bialystok, MA, PhD (CDN)  
G. Citron, PhD (PHL) Ray D. Wolfe Postdoctoral Fellow

## Introduction

The undergraduate program at the Anne Tanenbaum Centre for Jewish Studies (CJS) builds on the expertise and range of the faculty. The program is organized around four areas of interest that reflect the diverse strengths of the CJS. The Specialist and Major programs of study requires one of the gateway courses, CJS200H1 or CJS201H1, and a half credit course at the 400-level. The Minor program of study requires either CJS200H1 or CJS201H1.

### Four Areas of Interest:

#### I. Classical Judaism

The civilization of the people of the book has produced a rich, classical literature: the Hebrew Bible, the Dead Sea Scrolls, Hellenistic texts, as well as rabbinic literature from the earliest targumic and midrashic interpretations through the Talmuds and geonic traditions to medieval commentators on Talmudic texts. We situate these texts in their linguistic and cultural contexts, and study them with philological rigour. Our students learn to trace the development of the Jewish imagination in its interactions with surrounding cultures and to appreciate its many expressions: legal, exegetical, mythic, and mystical. Jewish civilization emerges as a highly variegated collection of phenomena and traditions.

## II. Jewish Philosophy and Thought

Both in the ancient world and contemporary society, many vital questions have arisen from Jewish experience and its interaction with diverse religions and philosophies. Why would the perfect, all-sufficient God care to speak to human beings? How could God's inner life be described? What is the relationship between law and ethics? What future could a particular, religious identity have in a secular democracy based on universal values? What can traditional Jewish sources contribute to contemporary feminism and what does contemporary feminism have to say about the traditionally gendered view of Jewish commandments? In addressing these questions, we teach students to engage critically with the great figures in the history of Jewish thought, from Philo to Maimonides, from Spinoza to Rosenzweig.

## III. Jewish History and Social Sciences

Covering the whole range of Jewish history, from ancient Israelites to modern Israel, from medieval Spain to the Holocaust and beyond, our courses explore both the ideal and material aspects of the many contexts in which Jewish civilization has survived and thrived, while offering a unique perspective on world history. Social sciences such as anthropology, political science, and sociology enrich our comprehension of today as well as yesterday by exploring phenomena such as collective memory, group identity, and inter-group conflict. Our courses give students the tools not only to understand the past but also to shape the future.

## IV. Jewish Cultures, Languages, and Literatures

We offer a rich variety of courses in Jewish literature, film, and theatre, as well as Yiddish and Hebrew language. How have Jews expressed their resilience and imagination under the extreme conditions of the Holocaust or within communist societies? What is the Jewish contribution to North American popular culture? From the social lives of contemporary Russian Jews to the impact of Israeli folk dance on national identity, from experimental Jewish photography to Jewish involvement in Broadway musicals, we investigate the many ways in which Jews express their identity and creativity in cultures around the world.

## Centre for Jewish Studies Programs

### Jewish Studies Specialist (Arts Program)

#### Enrolment Requirements:

There are no specific first-year requirements; however, first-year students are welcome to take [CJS200H1](#), [CJS201H1](#), Hebrew Language courses ([MHB155H1](#) and [MHB156H1](#)) and Yiddish ([GER260Y1](#)), which count towards the Jewish Studies Specialist.

#### Completion Requirements:

(10 FCEs, including at least 4 FCEs at the 300+ level and at least 1 FCE at the 400-level.)

#### 1. [CJS200H1/CJS201H1](#)

2. 1 FCE at the 400 level in any of the four areas of Jewish Studies (see CJS website for the list of approved and available courses: [www.cjs.utoronto.ca/undergraduate/courses](http://www.cjs.utoronto.ca/undergraduate/courses)).

3. 3 FCEs or proof of proficiency in one of the following languages: Aramaic, Hebrew, Yiddish. Other languages are accepted with special permission. Students entering the program with requisite linguistic proficiency in a Jewish language will choose any 3 FCEs in an area of concentration (see below) in addition to the regular requirements described in section 4.

4. 5 FCEs in any of the four areas of Jewish Studies.

5. Note: From section 3 and 4, at least 4 FCEs at the 300+ level.

6. [DTS300H1](#) or 0.5 FCE to satisfy the Quantitative Reasoning competency of the program, to be chosen from courses in Jewish Studies developing this competency. If none is available, 0.5 FCE from Breadth Requirement Category #5: The Physical & Mathematical Universe, or 0.5 FCE approved by the Undergraduate Director.

### Jewish Studies Major (Arts Program)

#### Enrolment Requirements:

There are no specific first-year requirements; however, first-year students are welcome to take [CJS200H1](#), [CJS201H1](#), Hebrew Language courses ([MHB155H1](#) and [MHB156H1](#)), and Yiddish ([GER260Y1](#)), which count towards the Jewish Studies Major.

#### Completion Requirements:

(6.5 FCEs, including at least 2 FCEs at the 300+ level, 0.5 of which must be at the 400-level)

#### 1. [CJS200H1/CJS201H1](#)

2. 0.5 FCE in a 400-level course in any area of Jewish Studies (see CJS website for the list of available courses for any given year: [www.cjs.utoronto.ca/undergraduate/courses](http://www.cjs.utoronto.ca/undergraduate/courses))

3. 5 FCEs in any of the four areas of Jewish Studies, with at least 2 FCEs at the 300+ level.

4. [DTS300H1](#) or 0.5 FCE to satisfy the Quantitative Reasoning competency of the program, to be chosen from courses in Jewish Studies developing this competency. If none is available, 0.5 FCE from Breadth Requirement Category #5: The Physical & Mathematical Universe, or 0.5 FCE approved by the Undergraduate Director.

## Jewish Studies Minor (Arts Program)

### Enrolment Requirements:

There are no specific first-year requirements; however, first-year students are welcome to take [CJS200H1](#), [CJS201H1](#), and Hebrew Language courses ([MHB155H1](#) and [MHB156H1](#)) and Yiddish Language courses ([GER260Y1](#)), which count towards the Jewish Studies Minor.

### Completion Requirements:

(4 FCEs, including at least 1 FCE at the 300+ level)

1. [CJS200H1/CJS201H1](#)

2. 3.5 FCEs in any of the four areas of Jewish Studies, including at least 1 FCE at the 300+ level (see CJS website for the list of available courses for any given year:  
[www.cjs.utoronto.ca/undergraduate/courses](http://www.cjs.utoronto.ca/undergraduate/courses))

## Centre for Jewish Studies Courses

### CJS200H1 - Introduction to Jewish Thought

Hours: 24L

A balanced presentation of the multifaceted approach to the discipline by treating Jewish religion and thought. The course introduces students not only to a chronological and thematic overview of the subject, but also to different methodological approaches.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### CJS201H1 - Introduction to Jewish Culture

Hours: 24S

General introduction to history, literatures and cultures of Jewish people from antiquity to contemporary. A balanced presentation of multi-disciplinary approaches and multi-methodological approaches to Jewish studies, with a special emphasis on Jewish cultural studies and Jewish secularity.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### CJS220H1 - The Holocaust in Fiction

Hours: 24S

The course examines literary works written in different languages, in ghettos and concentration camps during the Holocaust, as well as those reflecting on the genocide in its aftermath. We focus on literature as a means of engaging with the unimaginable and on the cross analysis of eye-witness and memory writing.

**Recommended Preparation:** CJS200H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### CJS230H1 - God, Nation, and Self Transformed: The Secularization of the Jewish Experience

Hours: 24S

The course provides a theoretical background to the issue of secularization and examines the diverse attempts to define on a secular basis the Jew, the Jewish nation, and the Jewish God since the breakdown of traditional Jewish society. A variety of Jewish secularisms are examined in a larger, non-Jewish context.

**Recommended Preparation:** CJS200H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### CJS290H1 - Topics in Jewish Studies

Hours: 24L/24T

An examination of issues in Jewish Studies. Content in any given year depends on instructor.

**Distribution Requirements:** Humanities

## CJS383H1 - Jews and Power

**Hours:** 24L

This course will explore the relationship of Jews to political power. Among the themes to be covered are: How has the relationship of the Jewish community to political authority changed over time? What is the Jewish conception of political authority? How did Jews protect their communal and individual rights in the absence of sovereignty? How did the dynamics of antisemitism, philosemitism, and anti-Jewish violence change over time? How did Zionism and the revival of Jewish sovereignty change the position of Jews in the political order? What are the political and moral dilemmas posed by statehood? And what are the implications of Jewish sovereignty for Jews in the Diaspora?

**Prerequisite:** POL101Y1 or CJS200H1 or CJS201H1

**Exclusion:** POL383H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CJS389H1 - Jewish Secularism and Messianic Thought: From Spinoza to Derrida

**Hours:** 24S

This course examines the critical role that Messianic thought plays in the emergence of modern Jewish secular thought. A study of the secular dimension of Messianism in the writings of Jewish philosophers, from Spinoza to Derrida, leading to the larger question of its place in the project of Jewish modernity.

**Recommended Preparation:** CJS200H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CJS390H1 - Special Topics in Jewish Studies

**Hours:** 24L

An examination of issues in Jewish Studies. Content in any given year depends on instructor.

**Prerequisite:** Permission of the instructor/program

**Distribution Requirements:** Humanities

## CJS400H1 - Research Seminar in Jewish Studies

**Hours:** 24S

An interdisciplinary seminar in which Jewish Studies topics are explored intensively, culminating in a major research paper by each student. Not eligible for CR/NCR option.

**Prerequisite:** JSP200H1; permission of the instructor/program

**Distribution Requirements:** Humanities

## CJS401H1 - Community & Identity

**Hours:** 24S

Exploration of Jewish notions of community, identity, and humanity in classic and contemporary sources as well as through experiential learning in which students are placed in internships at organizations and institutions that identify themselves as Jewish and as serving the Jewish community in the GTA. Not eligible for CR/NCR option.

**Prerequisite:** CJS200 or CJS201 and at least two other half-courses in Jewish Studies; permission of instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CJS401Y1 - Community & Identity

**Hours:** 48S

Exploration of Jewish notions of community, identity, and humanity in classic and contemporary sources as well as through experiential learning in which students are placed in internships at organizations and institutions that identify themselves as Jewish and as serving the Jewish community in the GTA. Not eligible for CR/NCR option.

**Prerequisite:** CJS200Y1 or CJS201Y1 and at least two other half-courses in Jewish Studies; permission of instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CJS490H1 - Advanced Topics in Jewish Studies

**Hours:** 24S

An in-depth investigation of topics in Jewish Studies. Content in any given year depends on instructor.

**Prerequisite:** Permission of the instructor/program

**Distribution Requirements:** Humanities

## **CJS491H1 - Advanced Topics in Jewish Studies**

**Hours:** 24S

An in-depth investigation of topics in Jewish Studies. Content in any given year depends on instructor.

**Prerequisite:** Permission of the instructor/program

**Distribution Requirements:** Humanities

## **CJS498Y1 - Independent Study**

**Hours:** TBA

A scholarly project on an approved topic supervised by a faculty affiliated with the Centre for Jewish Studies. Not eligible for CR/NCR option.

**Prerequisite:** CJS200H1 and permission of the Centre

**Recommended Preparation:** CJS400H1

**Distribution Requirements:** Humanities

## **CJS499H1 - Independent Study**

**Hours:** TBA

A scholarly project on an approved topic supervised by a faculty affiliated with the Centre for Jewish Studies. Not eligible for CR/NCR option.

**Prerequisite:** CJS200H1 and permission of the Centre

**Recommended Preparation:** CJS400H1

**Distribution Requirements:** Humanities

S. Richardson, MD  
J. Robertson, PhD  
A. Seth, PhD  
P. Shek, PhD  
A.E.M. Simor, MD  
B. Strauss, MD, PhD  
D.M. Templeton, PhD, MD  
P. Thorner, MD, PhD  
M.S. Tsao, MD  
G.A. Wilson, MD  
B. Yang, PhD  
H. Yeger, PhD  
G. Yousef, MD, PhD  
L. Zhang, PhD  
M. Zielenska, PhD

### Associate Professors

H.P. Elsholtz, PhD  
J. Fish, PhD  
S. Girardin, PhD  
D. Hwang, PhD, MD  
J. Lee, PhD  
K. Mekhail, PhD  
J. Mogridge, PhD  
M. Rozakis-Adcock, PhD  
G. Schmitt-Ulms, DNS

### Assistant Professors

L. Fu, PhD  
P. Yip, PhD

## Introduction

The Department of Laboratory Medicine and Pathobiology provides a bridge between the basic sciences and medicine. Investigating the molecular mechanisms of disease is an important priority of the department. Faculty are concerned with the biochemical changes that may be associated with cell and tissue injury and with the etiology, pathogenesis and behaviour of disease. Research is carried out in such areas as cardiovascular disease, immunopathobiology, neuropathology, endocrinology and metabolism, neoplasia, bone and connective tissue disease, clinical and molecular epidemiology, antibiotic resistance, and molecular pathogenesis of infectious disease.

The Pathobiology Specialist program gives students a broad understanding of contemporary medical research and basic scientific insights that have revolutionized our understanding of disease in recent years. Aspects of biochemistry, chemistry, cellular and molecular biology, and genetics are brought to bear upon human pathology. Graduates from the program will frequently pursue graduate studies in medical research and eventual research careers in academic, industrial, pharmaceutical, or governmental laboratories. A knowledge of cellular and molecular mechanisms of disease processes is also useful in a wide variety of multidisciplinary careers in government, regulatory agencies, law, and environment.

## Laboratory Medicine and Pathobiology Programs

### Pathobiology Specialist (Science Program)

#### Enrolment Requirements:

This is a limited enrolment program that can only accommodate a limited number of students. Eligibility will be competitive and based on a student's marks in the 3.0 required first-year courses:

BIO120H1, BIO130H1, (CHM135H1, CHM136H1)/CHM151Y1;  
(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1.

Note: Students must apply to this program on the Arts & Science Faculty Registrar's Office website (see the [Arts & Science Program Enrolment web site](#) for application procedures) from early April to mid-May. At later times, contact the LMP Undergraduate Office.

#### Completion Requirements:

(13.5 full courses or their equivalent, including at least two 400-series courses)

First Year:

(BIO120H1, BIO130H1); (CHM135H1, CHM136H1)/CHM151Y1;  
(MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

First or Second Year:

(PHY131H1, PHY132H1)/(PHY151H1, PHY152H1)

Second Year:

BCH210H1; BIO230H1; BIO260H1/HMB265H1; CHM220H1;  
CHM247H1/CHM249H1; PSL300H1; PSL301H1; STA220H1/  
BIO220H1

Third Year:

BCH370H1; BCH311H1/CSB349H1;(IMM340H1,  
IMM350H1)/(IMM341H1, IMM351H1)/(MGY377H1, MGY378H1);  
LMP300Y1; LMP365H1

Fourth Year:

At least 4 of LMP402H1, LMP403H1, LMP405Y1, LMP406H1,  
LMP408H1, LMP410H1, LMP415H1, LMP436H1 (Note: If the research project LMP405Y1 is taken, three additional courses from the list are still required.)

## Regarding Laboratory Medicine and Pathobiology Courses

#### First Year Seminars

The 199Y1 and 199H1 seminars are designed to provide the opportunity to work closely with an instructor in a class of no more than twenty-four students. These interactive seminars are intended to stimulate the students' curiosity and provide an opportunity to get to know a member of the professorial staff in a seminar environment during the first year of study. Details can be found at [www.artsci.utoronto.ca/current/course/fyh-1/](http://www.artsci.utoronto.ca/current/course/fyh-1/).

## Laboratory Medicine and Pathobiology Courses

### LMP299Y1 - Research Opportunity Program

Hours: TBA

Credit course for supervised participation in faculty research project. Details at <http://www.artsci.utoronto.ca/current/course/rop>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

### LMP300Y1 - Introduction to Pathobiology

Hours: 42L/6P

Concepts in pathogenesis; cell injury and death; tissue structure, wound healing; repair and fibrosis. Molecular basis of major organ system pathology. The laboratory examines gross anatomical specimens and introduces histopathology. Enrolment is limited to students specializing in pathobiology who have completed the first and second year requirements of the program.

**Exclusion:** LMP301H1, LMP363H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### LMP301H1 - Introduction to the Biochemistry of Human Disease

Hours: 24L

Introduces concepts and mechanisms of disease processes as they arise from disturbances of normal biochemical and physiological functions. The rational use of the clinical biochemistry laboratory in the diagnosis and management of disease is explained. Not intended for students in the Pathobiology Specialist program.

**Prerequisite:** BCH210H1/BCH242Y1

**Exclusion:** LMP300Y1

**Recommended Preparation:** PSL201Y1/300H1/301H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP363H1 - Principles of Pathobiology

**Hours:** 24L

Pathological changes brought on by foreign compounds; applications of pathology to the detection of toxic carcinogenic actions.

**Prerequisite:** BIO230H, CHM247H1/CHM249H1

**Exclusion:** LMP300Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP365H1 - Neoplasia

**Hours:** 20L/4P

A general introduction to the cellular and molecular aspects of cancer and its etiology. The laboratory component presents the range of benign and malignant tumor types at the gross and histological levels. Pathophysiology of cancer, invasion and metastases, role of the immune system.

**Corequisite:** LMP300Y1 or permission of department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP402H1 - Inflammation and Infection

**Hours:** 24L

Mechanisms that allow microbial pathogens to cause disease and the host to detect infection, mount an inflammatory response and resolve the infection. Primary research articles are discussed. Topics include commensal bacteria, bacterial toxins, pattern recognition receptors, leukocyte emigration, chemotaxis, and the role of non-coding RNAs in immunity.

**Prerequisite:** (IMM340H1, IMM350H1)/(IMM341H1, IMM351H1)/(MGY377H1, MGY378H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP403H1 - Immunopathology

**Hours:** 24L

The immune system in disease. Responses of the immune system to host invasion, injurious stimuli, and transplantation. Immunopathology of organ-specific diseases including pancreas, gut, liver, heart, kidney, and blood. Intended for students specializing in pathobiology or related programs.

**Prerequisite:** (IMM340H1, IMM350H1)/(IMM341H1, IMM351H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP405Y1 - Project in Pathobiology

**Hours:** 154P

A self-contained research project to be completed under the supervision of a faculty member. The main areas of research are as listed in the description of the Department (above). The student will normally have completed three full years of study, and is expected to devote at least one full day per week to the project. Admission is by arrangement with the Department and with a particular supervisor. A list of potential supervisors is available from the Departmental Office and on our web site. Not eligible for CR/NCR option.

**Prerequisite:** BCH210H1/BCH242Y1, LMP300Y1/LMP363H1/LMP365H1 and permission of department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP406H1 - Pathobiology of the Cardiovascular System

**Hours:** 24L

Pathobiology of the heart, blood vessels, and lymphatic system. Congenital diseases of the heart, ischemic injury, stroke. Treatments of vascular disease and cardiovascular biomaterials. Major focus on atherosclerosis and hypertension. The emphasis is on the underlying cell biology of these processes.

**Prerequisite:** (PSL300H1, PSL301H1)/PSL302Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **LMP408H1 - Genetic modelling of human development and disease**

**Hours:** 24L

Introduces use of genetic model systems and organisms in exploring aspects of human reproduction, development, and disease. A major focus is on the impact of the genetic models on understanding human health, and disease. Ethical issues in animal research, genetic manipulation, and disease modeling are highlighted

**Prerequisite:** LMP300Y1/BIO260H1/HMB265H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **LMP410H1 - Pathobiology of Neurodegenerative Disease**

**Hours:** 24L

Molecular basis of neurodegenerative diseases of the central and peripheral nervous systems. Relevant neuroanatomy and molecular biology of the CNS. Current research topics in neurodegenerative diseases.

**Prerequisite:** (BIO240H1, BIO241H1)/BIO255Y1/(PSL300H1, PSL301H1)/PSL302Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **LMP415H1 - Forensic Pathobiology**

**Hours:** 24L

A thematic review of the major scientific areas and research controversies in forensic medicine. The approach is mechanistic analysis and evidence-based medicine. Classical forensic medicine is critically analyzed with emphasis on experimental methods to resolve controversies. We also explore how the justice system utilizes medical and scientific data.

**Prerequisite:** LMP300Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## **LMP436H1 - Microbial Pathogenesis**

**Hours:** 36L

Molecular mechanism involved in pathogenesis of infectious disease. Topics include recurrent themes in the establishment of infectious disease, such as adherence and spread of pathogenic bacteria as well as evasion of host defences. Emphasis is placed on genetic characterization and expression of virulence determinants and on interactions between bacterial pathogens and their hosts.

**Prerequisite:** BCH210H1/BCH242Y1, IMM340H1/IMM350H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# Latin American Studies

## Faculty List

### Professors

Anne-Emanuelle Birn (International Development & Public Health)  
Courtney Jung (Political Science)  
Judith Teichman (Political Science)  
Kevin L. O'Neill (Religion)  
Ana Teresa Pérez-Leroux (Spanish and Portuguese)  
Rosa Sarabia (Spanish and Portuguese)  
Laura Colantoni (Spanish and Portuguese)  
Jeffrey M. Pilcher (History)

### Associate Professors

Gustavo J. Bobonis (Economics)  
Ana María Bejarano (Political Science)  
Patricia Landolt (Sociology)  
María Cristina Cuervo (Spanish and Portuguese)  
Eva-Lynn Jagoe (Spanish and Portuguese, Centre for Comparative Literature)  
Valentina Napolitano (Anthropology)  
Néstor E. Rodríguez (Spanish and Portuguese)  
Mariana Mota Prado (Law)  
Rubén Gaztambide-Fernández (OISE)  
Susan Antebi (Spanish and Portuguese)  
Gustavo Indart (Economics)  
Melanie J. Newton (History)

### Assistant Professors

Christopher Krupa (Anthropology)  
Lena Mortensen (Anthropology)  
Alejandro Paz (Anthropology)  
Edward R. Swenson (Anthropology)  
Christian Abizaid (Geography & Centre for the Environment)  
Kevin Coleman (Historical Studies)  
Ryan Isakson (International Development)  
Luisa Farah Schwartzman (Sociology)  
Luis van Isschot (History)  
Jeff Packman (Music History and Culture)  
Sharlene Mollet (Critical Development Studies & Human Geography)  
Jason Dyck (History)

### Senior Lecturer

Manuel Ramírez (Spanish and Portuguese)

### Sessional Lecturers

Bernardo García Domínguez (Latin American Studies & New College)  
Juan P. Marsiaj (Latin American Studies)  
Víctor R. Rivas (Latin American Studies)  
Ramón Antonio (Arturo) Victoriano (Language Studies)  
Donald Kingsbury (Political Science & Latin American Studies)

### Professors Emeriti

Albert Berry (Economics)  
Jock Galloway (Geography)  
Peter Blanchard (History)  
Ricardo Sternberg (Spanish and Portuguese)

## Introduction

The Latin American Studies program at the University of Toronto provides students in the social sciences and humanities an opportunity to engage and deepen their understanding of Latin American regions, their histories, politics, cultures, economies and societies. Courses encourage students to situate both their special interests and the contemporary debates in fields such as anthropology, political science, geography, literature, history, or sociology within a broader interdisciplinary framework, while at the same time committing themselves to an understanding of the historical, cultural and political experiences of Spanish and Portuguese America. Through an engagement with different texts and faculty expertise, this program trains students in current themes such as postcolonial thinking, critical readings of colonial histories, literary and anthropological genres, comparative politics, politics of indigeneity and human rights, as well as in environmental policies and political economy of Latin America and the Americas as a transnational whole. With the possibility to carry out curricula experience in Latin America and internship stages in Canada, this program also offers an important lead for career development experiences on Latin America. This knowledge is increasingly necessary for Canada, as the country enters into new trade, political, environmental, and academic agreements with our emerging hemispheric partners.

Students seeking counselling and information should visit the LAS website: <http://las.utoronto.ca> and/or contact the Program Coordinator at [las.coord@utoronto.ca](mailto:las.coord@utoronto.ca)

## Latin American Studies Programs

### Latin American Studies Major (Arts Program)

#### Completion Requirements:

There are no specific first-year requirements. However, first-year students are encouraged to take a Spanish or Portuguese language course ([SPA100Y1](#), [SPA219Y1](#), [SPA220Y1](#), [SPA320Y1](#), [PRT100Y1](#), [PRT110Y1](#), [PRT219Y1](#), or [PRT220Y1](#)), which counts towards the Latin American Studies Major.

(7 FCEs or equivalent. Includes a minimum of 2 FCEs at the 300+-level, at least 0.5 FCE of which must be at the 400-level.)

A. Course work: Students must successfully complete seven full courses or their equivalents sponsored or approved by LAS, as well as satisfy the requirements of their departmental specialization.

Of the required courses:

1. [LAS200H1](#) and [LAS201H1](#) (previously [LAS200Y1](#)).
2. [LAS300H1](#) or [LAS301H1](#). Please note that if the subject matter and/or instructor has changed, it will be possible to take, and be credited for, [LAS300H1](#) or [LAS301H1](#) more than once.
3. [JQR360H1](#) or an alternative, but similar, 0.5 FCE course on a combination of quantitative and qualitative reasoning / research design can be taken in consultation with LAS administration.
4. [LAS400H1](#), [LAS401H1](#), or an equivalent 0.5 FCE fourth year-level course, approved by LAS administration.

B. Language: Students must successfully complete (with a minimum grade of 65%) at least the second level of language instruction in

Spanish or Portuguese by the end of the third year of study (SPA220Y1 or PRT220Y1). Spanish Heritage speakers must successfully complete (with a grade of at least 65%) SPA219Y1 (previously SPA319Y1), as this course is considered an equivalent of SPA220Y1. Portuguese Heritage speakers must successfully complete (with a minimum grade of 65%) PRT219Y1, as this course is considered an equivalent of PRT220Y1. Students can also demonstrate equivalent proficiency in the given language through completion of 1 FCE of Spanish and/or Portuguese courses in Latin American topics as approved by LAS administration at a second-year level of instruction or higher.

## Latin American Studies Minor (Arts Program)

### Completion Requirements:

There are no specific first-year requirements. However, first-year students are welcome to take a Spanish or Portuguese language course (SPA100Y1, SPA219Y1, SPA220Y1, SPA320Y1, PRT100Y1, PRT110Y1, PRT219Y1, or PRT220Y1), which counts towards the Latin American Studies Minor.

(4 FCEs or their equivalent, including LAS200H1, LAS201H1, and at least one full course at the 300+ level.)

1. LAS200H1 and LAS201H1 (previously LAS200Y1).
2. LAS300H1 or LAS301H1.
3. 2.5 FCEs chosen from LAS courses of the list of approved courses eligible for programme credit. A minimum of 0.5 FCE must be from the Social Sciences; another 0.5 FCE must be from the Humanities. (LAS300H1 can be used to cover the Social Science requirement and LAS301H1, towards the Humanities requirement).

Spanish or Portuguese language study is recommended, but not a requirement.

### Courses eligible for programme credit

The following is a list of undergraduate courses offered by academic units affiliated with LAS. Courses not appearing below may be considered for credit in a Latin American Studies program with permission of the Director. For up-to-date information on this list, please check our website: <http://las.utoronto.ca>. Students are responsible for checking the co- and prerequisites for all courses in this list. For updates on courses being offered by affiliated units, please check individual departmental websites.

## Course Groups

### Anthropology

- [ANT316H1 Ancient Cultures of Mesoamerica](#)
- [ANT320H1 Ancient Cultures of the Andes](#)
- [ANT340H1 Anthropology of Latin America](#)
- [ANT407H1 Inka and Aztec States](#)

### Diaspora and Transnational Studies

- [DTS200Y1 Introduction to Diaspora and Transnational Studies I \(formerly DTS201H1, 202H1\)](#)

- [DTS300H1 Qualitative and Quantitative Reasoning](#)

### Economics

- [ECO324H1 Economic Development](#)
- [ECO403H1 Topics in Development Economics and Policy](#)

### Forest Conservation and Forest Biomaterial Sciences

- [FOR201H1 Conservation of Tropical and Subtropical Forests](#)

### Geography

- [GGR101H1 Ancient Civilizations and their Environments](#)
- [GGR216H1 Global Cities](#)
- [GGR341H1 Changing Geography of Latin America](#)
- [JGE321H1 Multicultural Perspectives on Environmental Management](#)

### History

- [HIS291H1 Latin America: The Colonial Period \(formerly HIS291Y1\)](#)
- [HIS292H1 Latin America: The National Period \(formerly HIS292Y1\)](#)
- [HIS294Y1](#)
- [HIS301Y1](#)
- [HIS333Y1](#)
- [HIS359H1 Regional Politics and Radical Movements in the 20th Century Caribbean](#)
- [HIS390Y1](#)

### Music

- [MUS305H1 Latin American and Caribbean Music](#)

### New College Caribbean Studies

- [NEW120Y1 Introduction to Caribbean Studies](#)
- [NEW220H1 Comparative Caribbean Literature I: Canonical Readings](#)
- [NEW221H1 Comparative Caribbean Literature II: Contemporary Readings](#)
- [NEW223Y1](#)
- [NEW324Y1](#)
- [JLN327H1 Regional Perspectives on the Hispanic Caribbean](#)
- [JLN427H1 Regional Perspectives on the Hispanic Caribbean](#)
- [JQR360H1 The Canadian Census: Populations, Migrations and Demographics](#)

### Political Science

- [POL305Y1 Politics and Society in Latin America](#)
- [POL442H1 Topics in Latin American Politics](#)

## Portuguese

- PRT100Y1 Portuguese for Beginners
- PRT110Y1
- PRT220Y1 Intermediate Portuguese
- PRT255H1
- PRT258H1 Introduction to Luso-Brazilian Studies (formerly PRT258Y1)
- PRT320Y1 Advanced Portuguese
- PRT351H1
- PRT355H1
- PRT357H1
- PRT358H1 Topics in Portuguese Studies
- PRT365H1
- PRT443H1
- PRT454Y1
- PRT458H1 The Lusophone Short Story

## St. Michael's College, Christianity and Culture

- SMC207H1 Christianity in Latin America

## Spanish

- SPA100Y1 Spanish for Beginners
- SPA219Y1 Academic Spanish
- SPA220Y1 Intermediate Spanish
- SPA258H1 Introduction to Hispanic Literary Studies
- SPA259H1 Introduction to Hispanic Cultural Studies
- SPA320Y1 Advanced Spanish
- SPA326H1 Latin American Varieties of Spanish Through the Media
- SPA375H1 Latin American Cinema
- SPA381H1 Nation, Identity and Modernity in Spanish-America
- SPA382H1 Spanish American Women in Art, Film, and Literature
- SPA384H1 Avant-Garde Movements in Spanish America
- SPA385H1 Literature and Social Change in Spanish America
- SPA386H1 Literary Landscapes of the Mexican Revolution
- SPA387H0
- SPA422H1 Sociolinguistics of Spanish
- SPA467H1 Topics in Spanish-American Literature and Culture
- SPA471H1
- SPA480H1 Icons and Iconography in Latin American Culture
- SPA482H1 20th-Century Spanish American Narrative
- SPA486H1 Contemporary Caribbean Literatures and Identities
- SPA487H1
- SPA488H1 Central America Postwar Narrative

## UTM Courses

- FAH356H5
- GGR369H5
- HIS290H5

- HIS330H5
- HIS345H5
- HIS390H5
- HIS391H5
- HIS454H5
- HIS490H5
- POL438Y5
- SOC332H5
- SPA100Y5
- SPA220Y5
- SPA259H5
- SPA320Y5

## UTSC Courses

- ANTB18H3
- HISC38H3
- HISD08H3
- LGGA30H3
- LGGA31H3
- LGGB32H3
- LGGB33H3
- LGGC30H3
