**Recommended Preparation:** [FOR200H1](#), [FOR201H1](#), [BIO120H1](#), [BIO220H1](#), [ENV234H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR306H1 - Tropical Forest Ecology and Conservation Field Course

**Hours:** 24P

This course will provide practical experience in tropical forest conservation, introducing tools for rapid assessment of biodiversity, analysis of human use and natural disturbance impacts on forest structure and diversity, and the development of effective forest conservation strategies. The 10-day course will be field-based in the country of Dominica, West Indies. Additional fees of \$2700 for field course (e.g. accommodation, food, other within course travel expenses). See Faculty website for details. Not eligible for CR/NCR option.

**Prerequisite:** [FOR201H1](#), [FOR301H1](#) or [FOR305H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR307H1 - Forest Insect Ecology & Management

**Hours:** 24L/24P

Insect identification and ecology, biodiversity and conservation, invasive species, insect-tree interaction, biological control, pesticide use, and integrated pest management.

**Recommended Preparation:** [FOR301H1](#) or [FOR305H1](#), [EEB380H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR310H1 - Bioenergy from Sustainable Forest Management

**Hours:** 24L/12T

Socio-economic, technical, political and environmental issues associated with the utilization of forest biomass (e.g., harvesting residues, thinnings, salvage, short rotation woody crops) for a source of renewable energy.

**Exclusion:** [GGR310H1](#)

**Recommended Preparation:** Completion of at least 6.0 Science credits

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## FOR400Y1 - Advanced Seminar in Forest Conservation

**Hours:** 48S

Examination of current and emerging critical issues affecting sustainable management and conservation of global forests. Seminars led by students, faculty and visiting speakers.

**Prerequisite:** At least 2 of

[FOR300H1](#)/[FOR301H1](#)/[FOR302H1](#)/[FOR303H1](#)/[FOR305H1](#)/[FOR306H1](#)/[FOR307H1](#)/[FOR310H1](#)

**Distribution Requirements:** Science, Social Science

**Breadth Requirements:** Living Things and Their Environment (4), Society and its Institutions (3)

## FOR401H1 - Research Paper/Thesis in Forest Conservation

Individual in-depth student research projects on significant forest conservation and forest biomaterial issues, based on field and/or laboratory research, or literature survey. Not eligible for CR/NCR option.

**Prerequisite:** Completion of 15.0 credits including 1.0 credit from:  
FOR300H1/FOR301H1/FOR302H1/FOR303H1/FOR305H1/FOR306H1/FOR307H1/FOR310H1  
**Distribution Requirements:** Science, Social Science

## FOR403H1 - Directed Readings

**Hours:** 24S

Provides opportunities for students to carry out individual in-depth study of current forest conservation and forest biomaterials issues, under the direction of a faculty member. Not eligible for CR/NCR option.

**Prerequisite:** Completion of 15.0 credits including 1.0 credit from:  
FOR300H1/FOR301H1/FOR302H1/FOR303H1/FOR305H1/FOR306H1/FOR307H1/FOR310H1  
**Distribution Requirements:** Science, Social Science

## FOR410H1 - Bioenergy and Biorefinery Technology

**Hours:** 24L/24T

Technological advances and approaches in deriving biofuels and chemical feedstocks from forest and other biomass. Fundamental chemical attributes of biomass, as they affect the fuel value and potential for deriving liquid, solid and gaseous fuels and valuable chemicals for other applications will be discussed.

**Exclusion:** FOR425H1 (APSC)  
**Recommended Preparation:** Completion of at least 10.0 Science credits  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## FOR413H1 - Wildlife Ecology & Conservation

**Hours:** 24L

Temperate and tropical wildlife ecology and conservation; roles of wildlife in forest conservation; impacts of forestry practices and landscape modification on wildlife; ecology and viability of wildlife populations; human uses and abuses of game and non-game species.

**Prerequisite:** FOR200H1, FOR201H1, EEB319H1, EEB321H1, EEB323H1, EEB324H1, ENV234H1 + Completion of 15.0 credits  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## FOR416H1 - Green Urban Infrastructure

**Hours:** 24L

Trees in and around the city are key to providing multiple engineered and ecological services that only recently have been brought into the responsible fiscal planning of every municipality around the globe. Reviews the role of trees and woodlands in providing environmental, social and economic benefits to urban and peri-urban residents and to the broader environment. Examines approaches to the characterization of urban forest ecosystems, and their planning and management.

**Prerequisite:** Completion of 4.0 credits  
**Exclusion:** FOR421H1 (APSC)  
**Recommended Preparation:** FOR200H1, FOR201H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## FOR417H1 - Ecological Principles of Agroforestry

**Hours:** 24L

The roles of trees and forests in agricultural land-use systems primarily in the third world. An examination of the biological and management aspects of agroforestry, within the socio-economic constraints of the developing world. The sustainability of particular agroforestry systems is a theme throughout.

**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## FOR418H1 - Urban Forest Conservation Field Camp

**Hours:** 45L/15P

A ten-day field course examining urban forestry issues in the GTA, southern and eastern Ontario and Quebec. Topics include: urban forest inventories, nursery production, arboricultural techniques, urban woodland management, urban forest health, urban forest administration, urban dendrology, and urban forestry research. Additional fees of \$850 for field course (e.g. accommodation, food, other within course travel expenses) will apply. See Faculty website for details. Not eligible for CR/NCR option.

**Prerequisite:** [FOR200H1](#), [FOR201H1](#), or permission of the instructor.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR419H1 - Forest Fire Behaviour and Management

**Hours:** 24L/24P

Understanding forest fire activity is important for predicting fire's impact on forests and the wildland-urban interface, as well as understanding the impacts of climate change. Basic principles of forest fuel moisture exchange, fire occurrence and fire behaviour are explored. Emphasis is placed on application of these models to real fire management problems.

**Prerequisite:** One course in quantitative methods, linear algebra or calculus

**Recommended Preparation:** [ECO220Y1](#), [ECO227Y1](#), [GGR270H1](#), [MAT133Y1](#), [MAT137Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## FOR420H1 - Green Process Chemistry

**Hours:** 24L/12T

This course provides an overview of the chemistry of wood and wood materials involving cellulose, hemicellulose, lignin, extractives. It also covers some reaction chemistry associated with these chemical components.

**Recommended Preparation:** Completion of at least 10.0 Science credits

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## FOR423H1 - Sustainable Materials Design and Manufacturing

**Hours:** 24L/24T

This course focuses on the manufacturing processes, properties and uses of wood and agricultural fibre based products including wood based composites, ligno-cellulosic/thermoplastic composites and structural or engineered composites, and the practical use of these products in design.

**Exclusion:** [FOR424H1](#) (APSC)

**Recommended Preparation:** Completion of at least 10.0 Science credits

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# French

## Faculty List

### University Professor Emeritus

B.T. Fitch, BA, D 3e C (T)

### Professor Emeriti

C. Bertrand-Jennings, LsL, Ph D (University of Toronto Scarborough)

P.A.R. Bouissac, LsL, DES, D Phl (V)

N. Boursier, DES, CAPES, D 3e C (U)

D. Clandfield, MA, D 3e C (N)

P. Collet, AM, Ph D (SM)

D. de Kerckhove, MA, Ph D (SM)

L.E. Doucette, BA, Ph D (University of Toronto Scarborough)

C. Elkabas, MA, Ph D (University of Toronto Mississauga)

A.G. Falconer, MA, D 3e C (U)

P. Fitting, MA, Ph D (N)

C.M. Grisé, MA, Ph D(SM)

E.A. Heinemann, MA, Ph D (N)

E.M. Kushner, MA, Ph D (V)

E. Lehouck, AGR ESS, D Phl (U)

M.M. Léon, LsL, DES, D 3e C (V)

M. Lord, MA, Ph D (University of Toronto Mississauga)

P. Martin, IRAL BR, D 3e C, D Sc A (SM)

N. Maury, LenD, D 3e C (T)

J.A. McClelland, MA, Ph D (V)

P.W. Nesselroth, MA, Ph D (U)

W.A. Oliver, MA, D 3e C (T)

M. O'Neill-Karch, MA, D U Honoris Causa (WW)

J. Paterson, MA, Ph D (I)

P.J.G.O. Perron, BA, D 3e C (U)

Y. Roberge, MA, Ph D (SM)

D.W. Smith, BA, Ph D (V)

R.A. Taylor, MA, Ph D (V)

C.D.E. Tolton, AM, Ph D (I, V)

T.R. Wooldridge, BA, D 3e C (T)

### Chair of the Department

A.-M. Brousseau MA, Ph D (SM)

### Associate Chair, Graduate Studies

P. Riendeau, MA, Ph D

### Associate Chair, Undergraduate Studies

P. Thériault, MA, Ph D (SM)

### Professors

J. LeBlanc, MA, Ph D (V)

P. Michelucci, MA, Ph D (University of Toronto Mississauga)

A. Tcheuyap, MA, Ph D (SM)

### Associate Professors

A.-M. Brousseau, MA, Ph D (SM)

J. Cahill, MA, Ph D (I)

S. Drouin, MA, Ph D (University of Toronto Scarborough)

B. Havercroft, MA, Ph D (V)

G. Holtz, MA, D 3e C (V)

D. Kullmann, MA, Ph D (SM)

S. Mittler, MA, Ph D (University of Toronto Scarborough)

A. Motsch, MA, Ph D (V)

J. Ndayiragije, MA, Ph D (University of Toronto Scarborough)

E. Nikiema, MA, Ph D (University of Toronto Mississauga)

M. Pirvulescu, MA, Ph D (University of Toronto Mississauga)

K. Rehner, B.A., B.Ed, TEIL, M.Ed, Ph.D. (University of Toronto Mississauga)

P. Riendeau, MA, Ph D (University of Toronto Scarborough)

J. Steele, MA, Ph D (University of Toronto Mississauga)

P. Thériault, MA, Ph D (SM)

### Associate Professors, Teaching Stream

C. Beauquis, MA, Ph D (University of Toronto Scarborough)

J. English, MA, Ph D (University of Toronto Scarborough)

C. Evans, MA, Ph D (University of Toronto Mississauga)

K. McCrindle, MA, Ph D (University of Toronto Scarborough)

F. Mugnier-Manfredi, MA, Ph D (University of Toronto Scarborough) Emerita

G. Paray, MA, Ph D (SM)

S. Sacré, MA, Ph D (SM)

M. Tsimenis, MA, Ph D (University of Toronto Scarborough)

M.-A. Visoi, MA, Ph D (SM)

### Assistant Professors

E. Dunbar, MA, Ph D

F. Hamlaoui, MA, Ph D (SM)

M.-P. Lory, L ès L., M ès L., Ph D (University of Toronto Mississauga)

A. Rannaud, L.èsL., M.èsL., Ph.D.(University of Toronto Mississauga)

### Assistant Professors, Teaching Stream

M. Friesner, MA, Ph D (SM)

R. Hong, MA, Ph D (University of Toronto Mississauga)

### Lecturer

P. Bessler, MA, Ph D (OH)

## Introduction

French is not only one of the official languages of Canada: it is also one of the world's major international languages. Courses in French studies provide a varied, flexible, and in-depth examination of the French language and the multitude of cultures that it serves. The skills and knowledge acquired will lay the groundwork for careers in teaching, journalism, translation, publishing, and government service as well as research in a variety of fields. In the Canadian job market, command of the French language is a definite asset. The Department offers students an integrated curriculum, which brings together courses in language, linguistics, literature, and French culture. Unless specified otherwise, the language of instruction of all courses is French.

### Overview of French Programs

The Department offers two specialists (French Language and French Linguistics, French Language and Literature), three majors (French Language Learning, French Language and French Linguistics, French Language and Literature) and three minors (French Language, French Studies, Practical French).

### Majors

**French Language Learning (FRE):** The 200-level mandatory course [FSL226H1](#) introduces students to strategies for autonomous learning in French as a Second Language. Courses at the 300 and 400 levels build on knowledge and skills first introduced in FSL226H1 and provide students with more analytical approaches to French language learning, in its both synchronic structure and historical evolution. They encourage students to learn about the richness of culture across the French-speaking world and improve writing skills for subsequent advanced study.

**What can I do with a program in French Language Learning?** Career paths include:

- provincial and federal government civil service
- language teaching
- media, public relations, journalism, publishing, editing, copywriting, technical writing
- bilingual customer service

**Linguistics (FRE):** 200-level mandatory courses initiate students into the analysis of contemporary French and its historical development. 300-level courses break the discipline of linguistic analysis into its chief component parts. 400-level courses initiate students to research in a variety of areas including formal linguistics, bilingualism, second language acquisition, and language contact.

**What can I do with a program in French Linguistics?** Possible career paths include:

- provincial and federal government civil service
- health professions such as speech pathology, speech therapy, audiology
- language teaching
- computer applications in speech & text recognition, programming
- media, public relations, journalism, publishing, editing, copywriting, technical writing
- bilingual customer service

**Literature (FRE):** 200-level mandatory courses introduce students to concepts, methodologies, and critical tools elaborated vis-à-vis further literature and theory that serve as the framework for other literature courses dedicated to the history of French literature and its cultural and social contexts. 300-level courses encourage students to explore sophisticated primary and secondary sources from disciplinary and interdisciplinary perspectives. 400-level courses initiate students to research. The actual content of most 400-level courses varies considerably according to the instructor. Students should consult the French Studies Undergraduate brochure ([www.french.utoronto.ca/undergraduate](http://www.french.utoronto.ca/undergraduate)) for content specific to a given year.

**What can I do with a program in French Literature?** Possible career paths include:

- provincial and federal government civil service
- language teaching
- media, public relations, journalism, publishing, editing, copywriting
- library and information sciences
- foreign services/affairs, international development
- bilingual customer service

### Minors

**French Language and Practical French:** The French language program is designed to accommodate the widest range of previous learning experiences and particular interests of students. Emphasis is placed on both written and spoken language; at higher levels, half-courses allow for specialized study of one or the other.

**What can I do with a program in French language?** Career paths include:

- provincial and federal government civil service including as a bilingual immigration or customs officer
- private sector positions as a bilingual customer service agent or flight attendant

**Students enrolled in two or more French programs are allowed to double-count only 1.0 credit towards their French programs.**

## Important policies re French as a Second Language (FSL) courses

The following policies must be respected when registering for French courses. Failure to do so may result in students being automatically withdrawn by the Department from the course in which they are registered:

### 1) Determining the appropriate level of your first French course:

The Department places students in the language course appropriate to their level of linguistic competence based on the results of its Placement Test. Given that 100, 200, 300 and 400-level FSL courses correspond to levels of competence in French and not to years of study, a student may be recommended to enroll in a course at a higher level than his/her year of study. The Placement Test, available at <http://www.lang.utoronto.ca/placement/french/>, is mandatory for all students who wish to register in an FRE or FSL course for the first time (except true beginners with no knowledge of French who may enroll directly in FSL100H1). The Test can be taken only **ONCE** and the results of the first test will prevail in the event of multiple attempts. Ideally, the Placement Test should be taken in the term preceding the one in which students wish to register in (e.g., for a course starting in September, students should take the Placement Test in the summer term, prior to their registration date on ACORN and before the beginning of classes). Please allow three to five working days to obtain your test results. Self-placement is not allowed in the Department of French. The administration reserves the right to conduct an additional test if in doubt about a student's undeclared proficiency in French.

2) **Sequencing:** Students are reminded that they must take FSL courses in the appropriate sequencing (100>200>300>400). In particular,

- If placed at a higher level than FSL221Y1 by the Placement Test, students registered in a Major program must take FSL271H1 before any FSL300 or 400-level course.

3) **Auditing:** No auditing is allowed in FSL courses.

## Study Elsewhere Programs

For more information, please go to <https://www.french.utoronto.ca/undergraduate-program/study-elsewhere> or email: [french.elsewhere@utoronto.ca](mailto:french.elsewhere@utoronto.ca)

### Quebec, France and Belgium

Students who have completed at least one year of full-time studies and wish to study abroad for one or two semesters should contact the University of Toronto Centre for International Experience Office, or consult their [website](#). Students may request credit for a course offered

by the Department of French, subject to the general rules for eligibility.

**Third Year Study Elsewhere:** In order to be permitted to participate in this program, a student must satisfy the following requirements: have 1) an overall average of at least 70% in courses completed in second year; and 2) an average of 70% in at least two French (FRE) courses required in a Major or Specialist program.

## Transfer Credits

### • For FSL Courses:

Students may apply for transfer credits for language courses taken at any accredited or degree-granting university in Canada or abroad; this is done through the Office of the Faculty Registrar. In order to be recommended for transfer credits, students should arrange, before returning to Toronto, for the university in which the course(s) were taken to send an official transcript of their results directly to the Office of the Faculty Registrar.

As soon as possible upon their return from the program, students who wish to obtain a transfer credit are required to book an appointment to take the placement test at the Department of French. They should call 416 926 2302 or email [french.secretary@utoronto.ca](mailto:french.secretary@utoronto.ca). They must qualify for entry in the next language course above the level of the one for which they desire the credit. Students must enroll in the course recommended by the placement test results. No self-placement is allowed.

### • For FRE Courses:

Transfer credits for studies in areas other than language may be requested directly upon return through the Office of the Faculty Registrar and will be processed in the normal way. It is recommended that a Letter of Permission and pre-approval of proposed courses be requested through the Office of the Faculty Registrar well in advance of departure from Toronto. Students are reminded that only courses taken at accredited universities or degree-granting institutions will be considered for credit.

**Exclusions and prerequisites:** Students must abide by all requirements stated in the exclusions and prerequisites to register in a course. Students who do not have the prerequisites for a given course must obtain the permission of the Department prior to registration. The Department will assess the students' admissibility to the course in consultation with the instructor. For FSL courses, exclusions ensure that students follow the best progression in language learning.

**Further Information:** The French Studies Undergraduate Brochure, available online at [www.french.utoronto.ca/undergraduate](http://www.french.utoronto.ca/undergraduate), contains more detailed information concerning the courses and programs listed below.

Associate Chair, Undergraduate: Room 227, Odette Hall, 50 St. Joseph St., 416-926-2312, [french.undergradchair@utoronto.ca](mailto:french.undergradchair@utoronto.ca)

Undergraduate Counsellor: Room 226, Odette Hall, 50 St. Joseph St., 416-926-2333, [french.undergraduate@utoronto.ca](mailto:french.undergraduate@utoronto.ca)

General Enquiries: Room 210, Odette Hall, 50 St. Joseph St., 416-926-2302, [french.secretary@utoronto.ca](mailto:french.secretary@utoronto.ca)

## French Programs

### French Language and French Linguistics Specialist (Arts Program) - ASSPE0525

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(10.0 credits)

1) [FSL221Y1](#)(63%)

2) [FRE272H1](#), [FRE273H1](#), [FRE274H1](#), [FRE210H1](#), [FRE245H1](#), [FSL321Y1](#)

3) [FRE376H1](#), [FRE378H1](#), [FRE386H1](#), [FRE387H1](#), [FRE383H1](#), [FRE379H1](#), [JFG388H1](#)

4) 2.0 credits from 400-level French linguistics courses: [FRE486H1](#), [FRE487H1](#), [FRE488H1](#), [FRE489H1](#), [FRE490Y1](#), [FRE491H1](#), [FRE492H1](#).

N.B.

i) Students not placed in [FSL221Y1](#) or higher by the Placement test must first complete [FSL121Y1](#) before starting this program. Students exempted from [FSL221Y1](#) must replace it with [FSL271H1](#) and any FSL or FRE half-course. [FSL271H1](#) must be completed before enrolling in any higher-level FSL course.

ii) Students exempted from [FSL321Y1](#) may replace it with any FRE course.

### French Language and Literature Specialist (Arts Program) - ASSPE1295

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(10.0 credits):

1) [FSL221Y1](#)(63%)

2) [FRE210H1](#), [FRE245H1](#), [FRE246H1](#), [FRE272H1](#), [FRE273H1](#), [FSL321Y1](#)

3) 1.0 credit from each of the following three groups (3.0 credits in total):

Group 1 –Literary History: [FRE318H1](#)/ [FRE319H1](#)/  
[FRE320H1](#)/ [FRE324H1](#)/ [FRE326H1](#)

Group 2 –Genres and Gender: [FRE304H1](#)/ [FRE310H1](#)/  
[FRE345H1](#)

Group 3 –Quebec and Francophone Literatures:  
[FRE314H1](#)/ [FRE332H1](#)/ [FRE334H1](#)/ [FRE336H1](#)/  
[SLA263H1](#)

4) [FSL442H1](#), [FSL443H1](#)

5) 1.5 credits from the following 400-level FRE literature courses: [FRE410H1](#)/ [FRE438H1](#)/ [FRE441H1](#)/ [FRE443H1](#)/  
[FRE446H1](#)

N.B.

i) Students not placed in [FSL221Y1](#) or higher by the Placement test must first complete [FSL121Y1](#) before starting this program. Students exempted from [FSL221Y1](#) may replace it with any FRE 200+ or FRE 300+ level course.

ii) Students exempted from [FSL321Y1](#) may replace it with 1.0 FRE credit at the 300+ level

### French Language and French Linguistics Major (Arts Program) - ASMAJ0525

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(7.0 credits)

1) FSL221Y1(63%).

2) FRE272H1, FRE273H1, FRE274H1, FRE210H1/  
FRE245H1, FSL321Y1.

3) FRE376H1, FRE378H1, FRE383H1, FRE379H1/  
JFG388H1.

4) 1.0 credit from 400-level French linguistics courses:  
FRE486H1, FRE487H1, FRE488H1, FRE489H1,  
FRE490Y1, FRE491H1, FRE492H1.

N.B.

i) Students not placed in FSL221Y1 or higher by the Placement test must first complete FSL121Y1 before starting this program. Students exempted from this course must replace it with FSL271H1 and any FSL or FRE half-course. FSL271H1 must be completed before enrolling in any higher-level FSL course.

ii) Students exempted from FSL321Y1 may replace it with any FRE course.

## French Language and Literature Major (Arts Program) - ASMAJ1295

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(7.0 credits)

1) FSL221Y1(63%).

2) FRE210H1, FRE245H1, FRE246H1, FRE272H1,  
FSL321Y1.

3) One 0.5 credit from each of the following three groups as well as one 0.5 credit of the student's choice from any group (2.0 credits in total):

Group 1 –Literary History: FRE318H1/ FRE319H1/  
FRE320H1/ FRE324H1/ FRE326H1

Group 2 –Genres and Gender: FRE304H1/ FRE310H1/  
FRE345H1

Group 3 –Quebec and Francophone Literatures:  
FRE314H1/ FRE332H1/ FRE334H1/ FRE336H1/  
SLA263H1

4) 1.0 credit from the following 400-level FRE literature courses: FRE410H1/ FRE438H1/ FRE441H1/ FRE443H1/  
FRE446H1

N.B.

i) Students not placed in FSL221Y1 or higher by the Placement test must first complete FSL121Y1 before starting this program. Students exempted from FSL221Y1 may replace it with any FRE 200+ or 300+ level course.

ii) Students exempted from FSL321Y1 may replace it with 1.0 FRE credit at the 300+ level.

## French Language Learning Major (Arts Program) - ASMAJ0120

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(7.0 credits, including 1.5 FRE credits at the 300+ level)

1) FSL221Y1(63%)

2) FRE226H1/ FSL226H1, FRE272H1, FRE273H1,  
FSL321Y1

3) FRE383H1, FRE379H1, JFG388H1, FSL421Y1

4) FSL442H1, FSL443H1

N.B.

i) Students not placed in FSL221Y1 or higher by the Placement test must first complete FSL121Y1 before starting this program. Students exempted from FSL221Y1 must replace it with FSL271H1 and any FSL or FRE 0.5 credit course. FSL271H1 must be completed before enrolling in any higher-level FSL course.

ii) Students exempted from FSL321Y1 must replace it with 1.0 credit from the following FRE courses: FRE210H1,  
FRE245H1, FRE246H1, FRE274H1.

## French Studies Minor (Arts Program) - ASMIN1135

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits)

1) [FSL221Y1](#)

2) 3.0 FRE credits at the 200+ level including 1.0 credit at the 300/400-level

N.B. Students not placed in [FSL221Y1](#) or higher by the Placement test must first complete [FSL121Y1](#) before starting this program. Students exempted from [FSL221Y1](#) must replace it with [FSL271H1](#) and any FRE half-course.

## Minor in French Language (Arts Program) - ASMIN0120

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits)

1) [FSL121Y1](#)

2) [FSL221Y1](#) (63%)

3) [FSL321Y1](#)

4) [FSL421Y1](#)/1.0 credit in 200-level FRE courses ( [FRE210H1](#), [FRE245H1](#), [FRE246H1](#), [FRE272H1](#), [FRE273H1](#), [FRE274H1](#))

## Minor in Practical French (Arts Program) - ASMIN0556

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits)

1. [FSL221Y1](#) (63%). Students exempted from this course must replace it with 0.5 FRE credit at the 200-level and any half-course listed immediately below.
2. 1.0 credit among the following: [FSL312H1](#), [FSL313H1](#), [FSL314H1](#), [FSL315H1](#)
3. [FSL375H1](#), 0.5 credit from [FRE272H1](#)/[FRE245H1](#)
4. [FSL473H1](#), 0.5 credit from the following: [FSL415H1](#), [FSL472H1](#), [FSL475H1](#)

**Students enrolled in two or more French programs are allowed to double-count only 1.0 credit towards their French programs.**

## Faculty of Arts & Science Language Citation

The Department of French participates in the Faculty of Arts and Science's Language Citation initiative for French.

In order to receive a language citation in French Studies, students should have completed 2.0 credits of FSL courses at the 300+ level or 2.0 credits of FRE courses at the 200+ level with a minimum grade of B- in each course. Please note that a combination of both FRE and FSL courses cannot qualify for the citation.

Students should note that, as explained in the [About Programs of Study](#) section of this Calendar, the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

## French Courses

### General French Courses

#### FRE299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

#### FRE398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

#### FRE398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

#### FRE399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

#### FRE490Y1 - Senior Essay

A research project on a linguistic, literary, or second language learning topic to be proposed by the student and supervised by a Faculty member, culminating in a major research paper. Not eligible for CR/NCR option.

**Prerequisite:** Any 300+ FRE  
Linguistics/Literature/Second Language Learning course.  
Permission of Department.  
**Distribution Requirements:** Humanities

#### FRE491H1 - Independent Study

A research project on a linguistic, literary, or second language learning topic to be proposed by the student and supervised by a Faculty member on a topic of common interest, including readings, discussions, papers. Not eligible for CR/NCR option.

**Prerequisite:** Any 300+ FRE  
Linguistics/Literature/Second Language Learning course.  
Permission of Department.  
**Distribution Requirements:** Humanities

#### FRE492H1 - Independent Study

A research project on a linguistic, literary, or second language learning topic to be proposed by the student and supervised by a Faculty member on a topic of common interest, including readings, discussions, papers. Not eligible for CR/NCR option.

**Prerequisite:** Any 300+ FRE  
Linguistics/Literature/Second Language Learning course.  
Permission of Department.  
**Distribution Requirements:** Humanities

## French First-Year Foundations

#### FCS194H1 - Urban Youth Languages of the World

**Hours:** 24S

Are there such phenomena as urban youth “languages”? How do they evolve and what commonalities or divergences are there? In this course, we will survey a range of urban youth languages that have emerged in African, North American and European contexts – with specific focus on their structural (linguistic) and social typicalities. Discussions and presentations will focus on the sociolinguistic concepts of language contact, bi/multilingualism, lexical innovation/renovation, language mixing, etc. in relation to youth language practices. We will be comparing major varieties of these language practices within and between the continents, and also be assessing their prospects and implications for language change. This course is taught in English. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## FCS196H1 - Historical, Geographic and Social Variation in French

**Hours:** 24S

Throughout most of its nearly 1200-year history, the language that we now call French was not a single linguistic entity, but rather a collection of related dialects. Although socio-political factors resulted in a partial unification of these dialects during the 18th and 19th centuries, the unification was, to a large extent, outweighed by French colonization of areas such as North America and Africa, which resulted in even greater linguistic diversification. The purpose of this course is to provide an overview of the extensive variation that exists throughout the French-speaking world. Topics to be covered include phonetics (pronunciation), lexicology (word selection) and morpho-syntax (grammar). This course is taught in English. No knowledge of French or linguistics is required. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## FCS197H1 - Pleasure, Pain and Nostalgia in Belle Époque

**Hours:** 24L

This course will explore ideas and cultural representations of 19th century France through examples from art, philosophy, and literature with an emphasis on the critical discussion of two literary narratives that challenged tradition and authority: Flaubert's "Madame Bovary" and Maupassant's "Bel-ami". The course will be held in English. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS198H1 - The Literacy of Images: Interactions between Text and Other Media

**Hours:** 24L

How do images create meaning in texts? How do words guide the interpretation of images? This course will

examine relations between texts from different literary genres (the Bande Dessinée, fiction and autobiography) and other media (illustration, photography, cinema) through an interdisciplinary theoretical framework, by combining perspectives from literature, cinema, illustration, and photography. The course will be held in English. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS199H1 - Marketing in the French Speaking World

**Hours:** 24S

This course investigates sociocultural and linguistic issues surrounding market expansion and marketing of products and services to French-speaking audiences in Canada and elsewhere. Students consider challenges posed by increased globalization through comparisons of English- and French-speaking communities, while exploring basic marketing theory. Through case studies of successes and failures, students examine how companies develop and adapt branding and messaging for Francophone audiences by integrating differences in humour, values, politics, and financial considerations. Students thus develop an understanding of the Francophone consumer and gain skills for advertising and branding in a Francophone or bilingual environment. This course is taught in English. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## French Cultural Studies

### FCS194H1 - Urban Youth Languages of the World

**Hours:** 24S

Are there such phenomena as urban youth "languages"? How do they evolve and what commonalities or divergences are there? In this course, we will survey a range of urban youth languages that have emerged in African, North American and European contexts – with specific focus on their structural (linguistic) and social typicalities. Discussions and presentations will focus on the sociolinguistic concepts of language contact, bi/multilingualism, lexical innovation/renovation, language mixing, etc. in relation to youth language practices. We will be comparing major varieties of these language

practices within and between the continents, and also be assessing their prospects and implications for language change. This course is taught in English. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## FCS195H1 - French Culture from Napoleon to Asterix

**Hours:** 24L

A multi-media course, analyzing the contributions the French have made to world culture in such domains as architecture, art, literature, and music, as well as some of the implications of the appropriation of French cultural icons by big business and the media.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS196H1 - Historical, Geographic and Social Variation in French

**Hours:** 24S

Throughout most of its nearly 1200-year history, the language that we now call French was not a single linguistic entity, but rather a collection of related dialects. Although socio-political factors resulted in a partial unification of these dialects during the 18th and 19th centuries, the unification was, to a large extent, outweighed by French colonization of areas such as North America and Africa, which resulted in even greater linguistic diversification. The purpose of this course is to provide an overview of the extensive variation that exists throughout the French-speaking world. Topics to be covered include phonetics (pronunciation), lexicology (word selection) and morpho-syntax (grammar). This course is taught in English. No knowledge of French or linguistics is required. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## FCS197H1 - Pleasure, Pain and Nostalgia in Belle Époque

**Hours:** 24L

This course will explore ideas and cultural representations of 19th century France through examples from art, philosophy, and literature with an emphasis on the critical discussion of two literary narratives that challenged tradition and authority: Flaubert's "Madame Bovary" and Maupassant's "Bel-ami". The course will be held in English. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## FCS199H1 - Marketing in the French Speaking World

**Hours:** 24S

This course investigates sociocultural and linguistic issues surrounding market expansion and marketing of products and services to French-speaking audiences in Canada and elsewhere. Students consider challenges posed by increased globalization through comparisons of English- and French-speaking communities, while exploring basic marketing theory. Through case studies of successes and failures, students examine how companies develop and adapt branding and messaging for Francophone audiences by integrating differences in humour, values, politics, and financial considerations. Students thus develop an understanding of the Francophone consumer and gain skills for advertising and branding in a Francophone or bilingual environment. This course is taught in English. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## FCS290H1 - Special Topics in French Cultural Studies I

**Hours:** 24L

The relation of French popular culture to society. For more information, see <https://www.french.utoronto.ca/course-offerings-2020-2021/french-cultural-studies-courses-fcs>.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS291H1 - Special Topics in French Cultural Studies I

**Hours:** 24L

The relation of French popular culture to society. For more information, see <https://www.french.utoronto.ca/course-offerings-2020-2021/french-cultural-studies-courses-fcs>.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## FCS292H1 - Special Topics in French Cultural Studies I

**Hours:** 24L

Various topics about the relation of French popular culture to society.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS310Y1 - French Cinema

**Hours:** 48L/48P

Cinema in France with emphasis on theory and practical criticism, on auteurs and movements such as the avant-garde of the twenties and the New Wave of the late fifties. Films shown are subtitled.

**Prerequisite:** At least 5 course credits in any subject  
**Recommended Preparation:** [INI115Y1](#)  
**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS369Y0 - The Culture of Touraine

**Hours:** 48L

This course will offer a unique opportunity to study the culture of the Touraine region while living an experience of complete immersion in Tours, a city located in the Loire Valley, a UNESCO World Heritage Site and the seat of power of the French monarchy until the 17th Century. Not eligible for CR/NCR option.

**Prerequisite:** At least 5 course credits in any subject  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS390H1 - Special Topics in French Cultural Studies II

**Hours:** 24L

Studies on an individual writer or specific area of literature. For more information, see <https://www.french.utoronto.ca/course-offerings-2020-2021/french-cultural-studies-courses-fcs>.

**Prerequisite:** At least 5 courses in any subject  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS391H1 - Special Topics in French Cultural Studies II

**Hours:** 24L

Studies on an individual writer or a specific area of literature. For more information, see <https://www.french.utoronto.ca/course-offerings-2020-2021/french-cultural-studies-courses-fcs>.

**Prerequisite:** At least 5 course credits in any subject  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## FCS392H1 - Special Topics in French Cultural Studies II

**Hours:** 24L

Studies on an individual writer or specific area of literature. The relation of French popular culture to society. For more information, see <https://www.french.utoronto.ca/course-offerings-2020-2021/french-cultural-studies-courses-fcs>.

**Prerequisite:** At least 5 courses in any subject  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## French Linguistics

### FRE272H1 - The French Language: A Linguistic Introduction

**Hours:** 24L/12T

A general introduction to the structure of French language, from a linguistic perspective. Students will become acquainted with the various components of the language (sound, meaning, word formation, sentence structure) through detailed description and basic analysis of Canadian and European varieties of French. Students will also be introduced to the study of French in the context of bilingualism (second language acquisition, sociolinguistics). **This course is mandatory in all specialist and major programs.**

**Prerequisite:** [FSL221Y1](#) or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

### FRE273H1 - Introduction to the History of the French Language

**Hours:** 24L/12T

A discovery of a long and fascinating history, stretching from the spoken Latin of the Gauls to the many varieties of French found today all over the world via the investigation of the social, political, and cultural causes of language change. Our focus includes topics such as medieval bilingualism, the regulation of language through the Académie française, the political use of the French language, the emergence of the Francophonie and modern Canadian French.

**Prerequisite:** [FSL221Y1](#) or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.  
**Recommended Preparation:** [FRE272H1](#)  
**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### FRE274H1 - Introduction to the Linguistic Analysis of French

**Hours:** 24L/12T

An analytical study of contemporary French phonetics and phonology, morphology, syntax and semantics. This course is designed to prepare students for more advanced study of French linguistics at the 300 and 400 levels.

**Prerequisite:** [FRE272H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

### FRE376H1 - French Phonology and Phonetics

**Hours:** 24L

A study of the phonological and phonetic systems of modern French based on actual samples of speech taken from different regional varieties and socio-economic groups.

**Prerequisite:** [FRE272H1](#), [FRE274H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

### FRE378H1 - French Syntax

**Hours:** 24L

A study of the distribution and relationships of the syntagmatic components of contemporary French; of sentential structure, including the principles of coordination, subordination and expansion; and of major theoretical approaches.

**Prerequisite:** [FRE272H1](#) + [FRE274H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

### FRE379H1 - Sociolinguistics of French

**Hours:** 24L

The relationship between language use and social factors such as socio-economic status, social context and gender of speaker. Theoretical notions are derived through the analysis of specific data, focusing on Canadian French and other varieties spoken in the Americas.

**Prerequisite:** [FRE272H1](#) + [FRE383H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## FRE383H1 - Quantitative Methods for the Study of French

**Hours:** 24L/12T

An introduction to the foundations of quantitative research on French. Topics include differences between quantitative and qualitative analyses; hypothesis formulation; experimental design; and data collection and analysis including basic statistical methods. Phenomena investigated come from Canadian and European varieties as well as studies of second language learners.

**Prerequisite:** [FRE272H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## FRE386H1 - French Semantics

**Hours:** 24L

Various approaches to the notion of meaning; its functioning at all levels of representation.

**Prerequisite:** [FRE272H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE387H1 - French Morphology

**Hours:** 24L

A study of the morphological system of modern French, its relationship to syntax and phonology; theoretical notions derived from the analysis of specific data.

**Prerequisite:** [FRE272H1](#) + [FRE274H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JFG388H1 - Bilingualism, Multilingualism, and Second Language Acquisition

**Previous Course Number:** FRE388H1

**Hours:** 24L/12T

Knowing and speaking more than one language is the everyday norm of people living in much of the world including in multicultural cities like Toronto. Via an in-depth introduction to the cognitive and social underpinnings of bi- and multilingualism including second language acquisition, this course provides answers to questions such as *How do bilinguals/multilinguals differ from monolinguals in the ways that they process and use language? How does acquiring a language as an adult differ from when we are children? How do an individual's language repertoires interact with those of their peers and local community?*

**Prerequisite:** (1) Any 100-level or higher language course OR introductory linguistics course (e.g., [LIN200H1](#), [FRE272H1](#), [ITA360H1](#), [SLA323H1](#)/ [SLA380H1](#), [SPA322H1](#)), (2) At least 4.0 credits in any subject

**Exclusion:** [FRE388H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE471H1 - Medieval French Language

**Hours:** 12T/24S

This course aims to ensure an understanding of Old French, to read most of the medieval texts. From a selection of texts, it explores the form of the language in various centuries and regions and provide a basis for understanding the history of the French language. This course is also listed in the offerings of the Graduate department of French.

**Prerequisite:** [FRE272H1](#)/[FRE273H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE486H1 - Special Topics in French Linguistics

**Previous Course Number:** JFL477H1, JFL478H1

**Hours:** 12T/24S

An advanced course on a particular topic in the use, acquisition, history or synchronic analysis of French. Please see the French Department website

<https://www.french.utoronto.ca/undergraduate> for the description of the particular course in a given year

**Prerequisite:** Will vary depending upon year. Consult department website.

**Exclusion:** JFL478H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE487H1 - Advanced Topics in Bilingualism and L2 acquisition

**Hours:** 12T/24S

This course examines how adult learners acquire various aspects of French language (vocabulary, syntax and/or phonology). It also provides in-depth, practical training in methodological design and quantitative analysis culminating in students' undertaking of individual experimental studies.

**Prerequisite:** FRE376H1 + FRE378H1 + FRE383H1 + FRE388H1/JFG388H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE488H1 - Special Topics in Advanced Linguistics I

**Hours:** 12T/24S

An advanced seminar on a specific aspect of French linguistics. For more information, see <https://www.french.utoronto.ca/undergraduate>.

**Prerequisite:** Varies according to particular course offering; consult the French Studies Undergraduate brochure ([www.french.utoronto.ca/undergraduate](https://www.french.utoronto.ca/undergraduate)) for exact prerequisites.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE489H1 - Special Topics in Advanced Linguistics II

**Hours:** 12T/24S

An advanced seminar on a specific aspect of French linguistics. For more information, see <https://www.french.utoronto.ca/undergraduate>.

**Prerequisite:** Varies according to particular course offering; consult the French Studies Undergraduate brochure ([www.french.utoronto.ca/undergraduate](https://www.french.utoronto.ca/undergraduate)) for exact prerequisites

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## French Literature

### FRE210H1 - Introduction to Québec Literature and Culture

**Hours:** 24L/12T

An introduction to various aspects of Québec literature and culture through the study of literary texts, cinema, and artistic productions, and their role in the evolution of a distinct Québec society. The course also familiarizes students with important socio-cultural and political events, which participated in the evolution of Québec society and provide a better understanding of Québec literature.

**Prerequisite:** FSL221Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### FRE245H1 - Introduction to French Cultural and Literary Studies

**Previous Course Number:** FRE240H1

**Hours:** 24L/12T

This course is a practical introduction to concepts, methods and problems of literary analysis as well as an overview of French artistic culture. Using elements of comparison from fine arts, contemporary and popular culture (including novels and movies) and a variety of emblematic works of French and Francophone literatures (among others: essays by Voltaire, Montesquieu and Simone de Beauvoir; poems by Ronsard, Hugo, Baudelaire and Césaire; excerpts from novels by George Sand, Albert Camus and Patrick Chamoiseau), its objective is to provide students with a practical introduction to the tools of literary analysis, but also to help them better read, understand and appreciate literary texts.

**Prerequisite:** FSL221Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** FRE240H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE246H1 - Introduction to French Literary Analysis

**Previous Course Number:** FRE241H1

**Hours:** 24L/12T

This course provides a general introduction to French and francophone literature of different genres and periods. Special emphasis will be placed on concepts, methods, and problems of literary analysis with the goal of helping students to improve their ability to write literary essays. Among the questions to be explored are: *What are the rules and conventions of scholarly writing? How does one develop and structure arguments to ensure that a paper is well organized? How are rhetorical devices analyzed? When and how should bibliographical references be inserted?*

**Prerequisite:** [FRE245H1](#) and [FSL221Y1](#) or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** [FRE241H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE304H1 - Contemporary French Women's Prose Fiction

**Hours:** 24L

An analysis of selected prose texts of the last hundred years written by major French women authors, emphasizing themes and textual strategies used to represent the female subject, her relationship to language, and the role of ethnicity, class, and gender in the construction of identity.

**Prerequisite:** [FRE240H1/FRE245H1](#), [FRE241H1/FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE310H1 - Relations between Text and Other Media

**Hours:** 24L

Literary texts and other forms of media (photographs, cinematographic images, paintings) have been associated in a fascinating relation in hundreds of works of French

literature. An exploration of this inextricable weaving together of verbal and visual experiences as it pertains to literature through the study of interdisciplinary theoretical texts focused on photography, painting, and cinema.

**Prerequisite:** [FRE240H1/FRE245H1](#), [FRE241H1/FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE314H1 - Quebec and French-Canadian Literature

**Hours:** 24L

Literature of the 20th and 21st centuries speaks of contesting social and literary figures of authority, of challenging traditional literary structures, and of accentuating creativity and subjectivity. An exploration of the thematic and formal structures that challenge traditional forms of thinking and writing in contemporary literature from Québec and other French-speaking parts of Canada.

**Prerequisite:** [FRE240H1/](#) [FRE245H1](#), [FRE241H1/](#) [FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE318H1 - Medieval French Literature

**Hours:** 24L

Religious fervour, chivalry, romance and ribald humour, heroic deeds, marvellous adventures, and exotic travels as found in selected texts from the French Middle Ages. Readings in modern French translations with appropriate reference to the original language.

**Prerequisite:** [FRE240H1/FRE245H1](#), [FRE241H1/FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE319H1 - Laughter and Thought in French Renaissance Literature

**Hours:** 24L

An overview of the fascinating literary diversity, prose, theatre and poetry essential to the changing humanistic discourse of the French Renaissance and Baroque

periods. The underscoring of important historical events - Reformation, Great Discoveries, Printing - to explain the philosophical and literary values produced by such violent times.

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE320H1 - French Literature of Classicism and Enlightenment

**Hours:** 24L

An introduction to French literature between Classicism and the French Revolution with particular emphasis on its relationship to philosophical, cultural, and political movements of the Enlightenment, providing historical depth to philosophical and socio-political foundations of today's life. A privileged access to, and critique of, modernity in the postmodern age.

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE324H1 - French Literature in the Time of Revolutions and Industrialization

**Hours:** 24L

The long 19th century (1789-1914) is characterized by change: from political upheavals to literary, scientific, and media revolutions, the spread of literacy, and the rapid development of industrialization and colonization. A study of the evolution of literature (genres, forms, movements), as influenced by these changing socio-political and economic contexts.

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE326H1 - Contemporary French Literature

**Hours:** 24L

Characterized by experimentation and the crisis of representation, French literature of the 20th and 21st centuries has undergone numerous transformations in form, content, and generic boundaries. A study of these literary movements, trends, and transgressions in poetry, prose, and theatre.

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE332H1 - Francophone Literatures

**Hours:** 24L

A comprehensive introduction to Francophone literatures and cultures, examining the linguistic, aesthetic, and discursive specificities as represented by authors of the Francophone world. Focus on the concepts of colonialism, representation, alienation, emigration, and nationalism.

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE334H1 - Francophone Cinema

**Hours:** 24L

Through films from across the spectrum of the Francophone world, a study of the diversity of the French colonial empire as well as the different aesthetic, historical, and cultural effects of colonialism and post-independence experience on various cinematic representations.

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE336H1 - Postcolonialism: Francophone Literatures

**Hours:** 24L

The fundamentals of postcolonial theories, with emphasis on how they relate to the Francophone world. The dialogue between fiction and theory, as well as the

modalities of a coherent Francophone postcolonial identity in a global world.

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FRE345H1 - Literary Genres

**Hours:** 24L

Survey of the main literary genres and analysis of their features, with in-depth study of two of the genres: narrative (epic poem, novel, short narrative), lyric poetry, drama (tragedy, comedy, farce, mystery play), essay. Readings of selected texts, chosen for their representative potential and their historical relevance.

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE410H1 - Advanced Topics in Quebec Literature:

**Hours:** 24S

An advanced interdisciplinary research seminar devoted to specific issues of Québécois literature and culture. Focus on a literary genre, a particular subject matter, a literary movement, or based on a multidisciplinary approach to cinema, arts, and music. For more information, see <https://www.french.utoronto.ca/undergraduate>

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#), [FRE345H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE438H1 - Advanced Topics in Francophone Literatures

**Hours:** 24S

An advanced seminar dedicated to specific issues of the Francophone literature and culture. Focusing on an author, a literary genre, or based on a multidisciplinary approach involving cinema, arts and music, each seminar reflects the professor's current research. For more

information, see

<https://www.french.utoronto.ca/undergraduate>

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#), [FRE345H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE441H1 - Advanced Topics in French Literature

**Hours:** 24S

An advanced, research-oriented seminar devoted to specific issues of French literature and culture. Focus on a literary genre, a particular subject or literary movement, or based on a multidisciplinary approach involving cinema, arts, and music. For more information, see <https://www.french.utoronto.ca/undergraduate>

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#), [FRE345H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE443H1 - Advanced Topics: Authors

**Hours:** 24S

An advanced, research-oriented seminar devoted to questions concerning the authors practice, originality, and oeuvre. Production, performance and prominence, characteristic genres, religious and philosophical thought, theoretical reflection on literature, language, and belonging as aspects of the analysis of one single authors body of writing. For more information, see <https://www.french.utoronto.ca/undergraduate>

**Prerequisite:** [FRE240H1/FRE245H1](#),  
[FRE241H1/FRE246H1](#), [FRE345H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FRE446H1 - Advanced Studies in Literary Theory

**Hours:** 24S

An advanced, research-oriented course devoted to specific issues in French literary theory. Focus on particular theoretical concepts, paradigms, schools, trends, movements or major thinkers. For more

information, see  
<https://www.french.utoronto.ca/undergraduate>

**Prerequisite:** FRE240H1/FRE245H1, FRE241H1/FRE246H1, FRE345H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## French as a Second Language

### FSL100H1 - French for Beginners

**Hours:** 24L/12T

An intensive basic course in spoken and written French for students who have no knowledge of French: comprehension, speaking, reading, and writing.

**Exclusion:** FSL102H1 and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### FSL102H1 - Introductory French

**Hours:** 24L/12T

An intensive basic course in spoken and written French for students who have studied some French, but who have not yet attained the entry level for FSL121Y1.

**Prerequisite:** FSL100H1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** FSL121Y1 and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### FSL121Y1 - French Language I

**Hours:** 48L/48T

Intended for students having some knowledge of French but wishing to increase their proficiency to that of normal University entrance. Offers training in written and spoken French; reinforcement of reading comprehension and aural abilities; and an introduction to French-Canadian and Québécois cultures.

**Prerequisite:** FSL102H1, or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** FSL221Y1 and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### FSL221Y1 - French Language II

**Hours:** 48L/48T

Intended for those who have some knowledge of French, this course is the first in a proficiency-sequenced series that provides students with the opportunity to become proficient, focused, autonomous French language learners. Adopting a principally actional approach to second language learning targeting Level A2 objectives of the Common European Framework of Reference for Languages (CEFR), the course's main objective is to provide a communicative learning environment through activities based in real-world, everyday contexts.

**Prerequisite:** FSL121Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** Any FSL 300-level course and higher

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### FSL226H1 - Strategies for Autonomous Learning in French as a Second Language

**Previous Course Number:** FRE226H1

**Hours:** 24L/12T

This course provides French language learners with an understanding of how one best acquires French as a second or third language including various FSL strategies that allow for effective, autonomous learning. It further implements a structure to encourage continuous active reflection and self-assessment. Students will first learn about the types of knowledge and sub-skills that must be acquired to master French including vocabulary and grammar. Language benchmarks and self-evaluation tools are then introduced to help learners to profile their four main competences (reading, writing, listening, and speaking). Subsequently, they will receive practical training in the use of specific online resources (e.g., *Bon Patron*) geared towards improving French writing.

**Prerequisite:** FSL221Y1 (63%)

**Corequisite:** FSL321Y1, as determined by the French Placement Test

**Exclusion:** FRE226H1, FRE225Y1/JFI225Y1,

FSL375H1, FSL375Y1, FSL415H1, FSL421Y1,  
FSL442H1, FSL443H1, FSL472H1, FSL473H1,  
FSL475H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour  
 (2)

## FSL271H1 - French Grammar, within Reason

**Hours:** 36L

An introduction to basic concepts of the French grammar from an analytic and descriptive point of view. Exploration of traditional grammar concepts such as subject, predicate, complement. This course provides understanding of the logic that is often hidden by the apparent complexity of grammatical rules.

**Prerequisite:** FSL121Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Exclusion:** Any FSL 300-level course and higher.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL312H1 - Writing French: the Language of the Media

**Previous Course Number:** FSL362H1

**Hours:** 36L

Using current online French media, broaden your understanding of the French language; deepen your grammatical knowledge; expand your vocabulary (including idioms); review key aspects of French syntax; and fine-tune your reading skills in French. Weekly reading and writing workshops are an integral part of this course.

**Prerequisite:** FSL221Y1 (63%) or, upon first FRE/FSL enrolment equivalent as determined by the French Placement Test.

**Exclusion:** FSL321Y1 and higher

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL313H1 - French for the Workplace

**Previous Course Number:** FSL363H1

**Hours:** 36L

This course is designed to enhance students' existing knowledge of French by giving them a theoretical as well as a practical foundation in the use of French language in the workplace. Special emphasis will be placed on the appropriate vocabulary used within the context of communication in the Francophone workplace. Students will learn how to communicate in a variety of professional contexts as well as how to distinguish between the formal and informal styles of French suitable for diverse situations in the workplace. This course also aims to help students acquire intercultural skills needed in the Francophone workplace.

The redesigned course will provide a hybrid alternative that delivers the same high quality content and high degree of interaction present in traditional in-class course delivery. The new format will consist of weekly one-hour online sessions and two-hour traditional in-class sessions. In this format, further preparation work and homework will continue to be carried on as in the traditional course, i.e. outside of the 3-hour class time.

**Prerequisite:** FSL221Y1 (63%) or, upon first FRE/FSL enrolment equivalent as determined by the French Placement Test

**Exclusion:** FSL321Y1 and higher

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL314H1 - French for the Arts

**Previous Course Number:** FSL364H1

**Hours:** 36L

Introduction to the study of central themes in French artistic expression, designed to familiarize students with key concepts and vocabularies relevant to the subject. Study of modes of artistic representation, (visual, performing arts) and their contribution to the rich heritage and identity of French culture. Observation, description and analysis of various artistic mediums.

**Prerequisite:** FSL221Y1 (63%) or, upon first FRE/FSL enrolment equivalent as determined by the French Placement Test

**Exclusion:** FSL321Y1 and higher

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL315H1 - French Oral Communication for Professional and Academic Contexts

**Hours:** 36L

This course is designed for students who wish to develop their oral communication skills in French in preparation for bilingual employment, community service, and academic activities in Canada and abroad. Emphasis is placed on the development of skills for accurate oral language use in professional and academic contexts: researched oral presentations, debates, interviews, and student-led discussions. Students will learn how to adapt their speaking style and register to different audiences and situations, use appropriate vocabulary, and self-correct.

**Prerequisite:** FSL221Y1 (63%) or, upon first FRE/FSL, enrolment equivalent as determined by the French Placement Test

**Exclusion:** FSL321Y1 and higher. Not open to fluent and native speakers of French.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL321Y1 - French Language III

**Hours:** 72L

The course is intended for students who have already mastered the basic competences in French language proficiency. The textbook used in this course will follow the B1 level of the Common European Framework of Reference for Languages (CEFR) in its active approach which puts emphasis on the student being at the centre of the learning process. Students will learn the following intermediate-level language skills: writing, speaking as well as understanding written and spoken French.

**Prerequisite:** FSL221Y1 (63%) or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Exclusion:** FSL375Y1 and higher. May not be taken concurrently with any FSL31\*H1 series courses.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL375H1 - Practical Translation: French - English

**Previous Course Number:** FSL375Y1

**Hours:** 36L

This half-year course, which works as an introduction to translation, is designed to improve students' mastery of French through English to French and French to English translations. Emphasis is on the practice of translation of a variety of texts and documents, and on the introduction to the practice of oral interpretation from one language to the other.

**Prerequisite:** 1.0 credit in FSL at the 300-level, or any 1.0 credit in FRE at the 200-level

**Exclusion:** FSL375Y1, Any FSL 400-level course.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL415H1 - Business French

**Hours:** 36S

This course is designed to strengthen oral and written communication skills in French and develop intercultural competence for a variety of career paths including public relations, international development, federal and provincial government. Students will gain expertise in spoken and written French through in-class activities supported by multimedia: interviews, professional presentations, and debates. The course is not open to native French speakers.

**Prerequisite:** FSL321Y1, FSL315H1

**Exclusion:** FSL421Y1; not open to native speakers of French. According to our departmental enrollment guidelines, native speakers of French are excluded from all FSL courses with the exception of those needing to improve their written or oral skills who must request permission from the Associate Chair, Undergraduate Studies to enroll in FSL442H1 or FSL443H1. Such students will be asked to complete the Placement Test at the Department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## FSL421Y1 - French Language IV

**Hours:** 72L

An advanced course in French including the reading and discussion of texts focussing on the francophone presence and influence in the international context. Emphasis is placed on mastery of complex linguistic skills via use of a variety of reference tools and self-correction.

**Prerequisite:** FSL321Y1 or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** FSL442H1, FSL443H1.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL442H1 - French Language V: Written French

**Hours:** 36L

Designed for students who wish to consolidate and perfect their writing abilities. Skills developed include the mastery of register-based differences; use of rhetorical and stylistic techniques; systematic self-correction; and the advanced use of reference tools including on-line dictionaries.

**Prerequisite:** [FSL421Y1](#) or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL443H1 - French Language V: Oral French

**Hours:** 36L

Designed for students who wish to consolidate and perfect their speaking abilities. This is accomplished through the preparation of longer oral productions involving a rich vocabulary and contextually-appropriate speech registers. Focus on overall pronunciation including fine phonetic detail and fluency.

**Prerequisite:** [FSL421Y1](#) or, upon first FRE/FSL enrolment, equivalent as determined by the French Placement Test.

**Exclusion:** Not open to fluent or native speakers of French.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL472H1 - Reading and Writing Fiction and Non-Fiction in French

**Hours:** 36L

An online course designed for students who wish to further develop their reading and writing skills in French. Students will acquire analytic tools to comprehend, analyze and write fiction and non-fiction texts. Multimedia approach to understanding the cultural experiences of francophone world.

**Prerequisite:** [FSL375Y1](#)/[FSL375H1](#) and 0.5 credit in FRE at the 200-level)

**Exclusion:** [FSL421Y1](#), [FSL442H1](#), [FSL443H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL473H1 - Oral French in Context

**Hours:** 36L

Putting students in diverse speaking and listening situations and contexts, this course is designed for those who wish to consolidate and perfect their speaking and listening abilities and take them to the next level. Focusing on a contextual approach of both oral and aural French and various francophone cultures, this course will focus on various aspects and difficulties that come with speaking and understanding French in real-life situations.

**Prerequisite:** [FSL375Y1](#)/[FSL375H1](#) and 0.5 credit in FRE at the 200-level)

**Exclusion:** Not open to fluent or native speakers of French.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## FSL475H1 - Creative Writing in French

**Hours:** 12L/24P

Do you like creative writing? Are you simply curious about it? Do you want to hone your writing skills in French and develop your creative voice in the process? Then this course is for you. Part workshop in which constructive and supportive feedback will help you develop your writing in French and your creativity, part literary discussion on various aspects of literary technique such as character, setting, plot, point of view, structure or revision (through reading).

**Prerequisite:** [FSL375Y1](#)/[FSL375H1](#) and 0.5 credit in FRE at the 200-level)

**Exclusion:** Not open to native speakers of French.

According to our departmental enrollment guidelines, native speakers of French are excluded from all FSL courses with the exception of those needing to improve their written or oral skills who must request permission from the Associate Chair, Undergraduate Studies to enroll in [FSL442H1](#) or [FSL443H1](#). Such students will be asked to complete the Placement Test at the Department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

 L. Stephens, MScPI, PhD (CLTA)  
 N. Subramanyam, MRP, PhD

### Assistant Professor, Teaching Stream

S. Peirce, MSc, PhD (CLTA)

## Introduction

Geography is the study of the environments created on the earth's surface by nature and people. The physical and biological elements of these environments, as well as their economic and social structure, historical development, spatial organization, interrelationships, management and planning form the subject matter of Geography. Geography, therefore, relates closely to other fields in natural science, social science and the humanities, and geographers take courses in these related fields along with their geography courses. Students specializing in other subjects often select one or more geography courses to deepen their understanding of the resource base, culture and economy of those parts of the world in which they are interested.

Employment opportunities for geographers exist in many branches of international organizations, government, industry, and education. Geographers work at all levels of government service, especially in agencies responsible for environmental management; land and resource analysis; development of historic districts and sites; urban transportation planning; urban and regional development planning; trade promotion; community social services; geographic systems design and data analysis; transport network design and the processing of archival, survey, and cartographic information. In business, geographers work in marketing, locational analysis, resource development, and in consulting firms engaged in project evaluation, land use planning and natural heritage conservation. They often also find work in the non-profit sector as policy analysts, cartographers and geographic information science specialists, community organizers, and educators.

Students studying Geography may take either an H.B.A. or H.B.Sc., depending upon the subjects they wish to emphasize. The Department offers Specialist, Major and Minor Programs in Geography, and contributes courses to various departmental and college programs including

American Studies; Anthropology; Archaeology; Canadian Studies and Peace and Conflict Studies; Equity Studies; School of the Environment; Environmental Geosciences; Urban Studies; Ethics, Society and Law and International Relations; and European Studies. Counselling and advice may be obtained from the Associate Chair, Undergraduate or the Undergraduate Counsellor.

## Regarding Geography and Planning Programs

For 2021-22

Admission to major and specialist programs will be determined by a student's mark in 0.5-1.0 GGR credits at the 100 and/or 200-level. See program descriptions for details on the entry requirements. These are limited enrolment programs that can only accommodate a limited number of students. Achieving the marks required does not necessarily guarantee admission to the program in any given year.

Double majors in Geography may only overlap 1.0 credit. Students combining any of our Minor programs with a Specialist/Major program would normally be allowed to overlap only 1.5 credits towards both programs. Double minors can overlap 1.0 credit. Students combining the Focus in Planning and the Focus in Urban Geography can overlap 1.5 credits. Students that choose to specialize or major in one of the three Geography programs cannot minor in the same program but may do so in another Geography program.

Generally, students may only take 1.0 credit of an Independent Research Project toward their program requirements.

## Geography and Planning Programs

### Human Geography Specialist (Arts Program) - ASSPE1667

The Human Geography programs provide the opportunity to learn about the relations between landscapes, places, people and nature, and the spatial organization of human activities. While students are encouraged to explore the breadth of the discipline, we also identify courses by theme for students who wish to develop expertise in one or two subfields (e.g., urban geography, cultural and historical geography). The Human Geography programs appeal to students who wish to develop an integrative understanding of the cultural, economic, political and social forces that shape how people use and experience the environments they live in. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade*

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

- 0.5 credit in GGR courses at the 100- or 200-level, with a minimum grade of 75%, or
- 1.0 credit in GGR courses at the 100- or 200-level, with a minimum grade of 70%

To ensure that students admitted to the program will be successful, applicants with a final grade or grade average lower than the minimum grades stated above will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program. Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE).

#### Completion Requirements:

*First Year Geography Courses:* Any 2 courses (1.0 credit) from [JEG100H1](#), [GGR101H1](#), [GGR107H1](#), [GGR112H1](#), [GGR124H1](#), [GGR196H1](#), [GGR197H1](#), [GGR198H1](#), [GGR199H1](#). 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Physical and Environmental Geography Course:* Any course (0.5 credit) not used to satisfy first year course

requirement from [JEG100H1](#), [GGR101H1](#), [GGR201H1](#), [GGR203H1](#), [GGR205H1](#), [GGR206H1](#), [GGR223H1](#)

*Methods Courses:* All (1.5 credits) of [GGR270H1](#), [GGR271H1](#), [GGR272H1](#)

*Regional Geography Course:* Any course (0.5 credit) from [GGR240H1](#), [GGR246H1](#), [GGR254H1](#), [GGR341H1](#), [GGR342H1](#), [GGR343H1](#), [GGR344H1](#)

*Fourth Year Courses:* Any 2 (1.0 credit) 400-level GGR courses, at least one of which must be from Group E. Up to one 0.5 credit can be used from [GGR493Y1](#), based on suitability of placement for this program, and approved by department.

*Applications:* Any 11 courses (5.5 credits) from Group E; Up to 1.5 credits can be from Group F. Up to 1.0 credit can be used from [GGR493Y1](#), based on suitability of placement for this program, and approved by department.

Note: At least 4.0 credits must be 300/400-level courses. Of these, at least 1.0 credit must be at the 400-level (includes Fourth Year Course requirement).

**Total credits: 10.0**

*Group E (Human Geography Courses):*

[GGR216H1](#), [GGR217H1](#), [GGR221H1](#), [GGR223H1](#), [GGR225H1](#), [GGR240H1](#), [GGR241H1](#), [GGR246H1](#), [GGR251H1](#), [GGR252H1](#), [GGR254H1](#), [GGR272H1](#), [GGR273H1](#), [GGR274H1](#), [GGR299Y1](#), [GGR314H1](#), [GGR320H1](#), [GGR323H1](#), [GGR324H1](#), [GGR326H1](#), [GGR327H1](#), [GGR328H1](#), [GGR329H1](#), [GGR332H1](#), [GGR334H1](#), [GGR336H1](#), [GGR338H1](#), [GGR339H1](#), [GGR340H1](#), [GGR341H1](#), [GGR342H1](#), [GGR343H1](#), [GGR344H1](#), [GGR349H1](#), [GGR352H1](#), [GGR354H1](#), [GGR357H1](#), [GGR359H1](#), [GGR360H1](#), [GGR363H1](#), [GGR372H1](#), [GGR373H1](#), [GGR374H1](#), [GGR382H1](#), [GGR386H1](#), [GGR387H1](#), [GGR389H1](#), [GGR400H1](#), [GGR416H1](#), [GGR418H1](#), [GGR419H1](#), [GGR420H1](#), [GGR421H1](#), [GGR424H1](#), [GGR428H1](#), [GGR429H1](#), [GGR430H1](#), [GGR431H1](#), [GGR433H1](#), [GGR434H1](#), [GGR438H1](#), [GGR452H1](#), [GGR456H1](#), [GGR457H1](#), [GGR458H1](#), [GGR460H1](#), [GGR462H1](#), [GGR472H1](#), [GGR481H1](#), [GGR482H1](#), [GGR491Y1](#), [GGR492H1](#), [GGR496H1](#), [GGR497H1](#), [GGR499H1](#), [JGE321H1](#), [JGE331H1](#), [JIG322H1](#), [JIG440H1](#), [JUG320H1](#), [JUG325H1](#), [JGI216H1](#), [JGU216H1](#), [JGI346H1](#), [JGU346H1](#), [JGI454H1](#), [JGU454H1](#)

## Focus in Planning (Specialist) - ASFOC1667B

The Planning Focus provides students with the opportunity to learn about how planning is a key component of the dynamic relations that exist between places, policy, power, and people. It focuses in on the conscious choices and decision made by various groups to shape the spatial organization of human activities. The Planning Focus will appeal to students who wish to develop an integrative understanding of the cultural, economic, political and social forces that shape the development and redevelopment of metropolitan and rural regions. Students are encouraged to explore the breadth of our courses that engage planning questions in relation to transportation, social segregation, health and housing, economic policy, environment change, and globalization.

### Enrolment Requirements:

Enrolment in the Human Geography Specialist (ASSPE1667) program is required.

### Completion Requirements:

Core (required) Courses: 1.0 credit from [GGR217H1](#) and [JGI346H1](#)/ [JGU346H1](#)

Planning Electives: 1.5 credits from [GGR241H1](#), [GGR338H1](#), [GGR339H1](#), [GGR343H1](#), [GGR349H1](#), [GGR354H1](#), [GGR359H1](#), [GGR424H1](#), [GGR428H1](#), [GGR433H1](#), [GGR434H1](#), [GGR456H1](#), [GGR460H1](#), [GGR493Y1](#) (0.5 credit can be used based on internship)

Note: At least 1.0 credit must be 300/400-level courses.

## Focus in Urban Geography (Specialist) - ASFOC1667S

The Focus in Urban Geography provides students with the opportunity to emphasize urban geography as part of their Human Geography specialist or major. Urban geography focuses on the political, social, cultural and economic processes that shape city life, development and policy. This focus will appeal to students registered in the Human Geography specialist or major program who wish to develop an integrative understanding of the dynamics that shape the urban realm. Students are encouraged to explore the breadth of our course offerings in housing, historical, political and transportation.

### Enrolment Requirements:

Enrolment in the Human Geography Specialist (ASSPE1667) program is required.

**Completion Requirements:**

Required Urban Geography Courses: 1.0 credit from GGR124H1, GGR241H1, JGI216H1/ JGU216H1

Urban Geography Electives: 1.5 credits from GGR254H1, GGR336H1, GGR339H1, GGR349H1, GGR357H1, GGR359H1, GGR374H1, GGR382H1, GGR424H1, GGR458H1, GGR460H1, GGR482H1

Note: At least 1.0 credit must be 300/400-level courses.

## Human Geography Major (Arts Program) - ASMAJ1667

The Human Geography programs provide the opportunity to learn about the relations between landscapes, places, people and nature, and the spatial organization of human activities. While students are encouraged to explore the breadth of the discipline, we also identify courses by theme for students who wish to develop expertise in one or two subfields (e.g., urban geography, cultural and historical geography). The Human Geography programs appeal to students who wish to develop an integrative understanding of the cultural, economic, political and social forces that shape how people use and experience the environments they live in. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

**Enrolment Requirements:**

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

*Variable Minimum Grade*

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

- 0.5 credit in GGR courses at the 100- or 200-level, with a minimum grade of 67%, or
- 1.0 credit in GGR courses at the 100- or 200-level, with a minimum grade of 63%

To ensure that students admitted to the program will be successful, applicants with a final grade or grade average lower than the minimum grades stated above will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program. Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE).

**Completion Requirements:**

*First Year Geography Courses:* Any two courses (1.0 credit) from JEG100H1, GGR101H1, GGR107H1, GGR112H1, GGR124H1, GGR196H1, GGR197H1, GGR198H1, GGR199H1. 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Physical and Environmental Geography Course:* Any course (0.5 credit) not used to satisfy first year course requirement from JEG100H1, GGR101H1, GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR223H1

*Methods Courses:* All (1.0 credit) of GGR270H1, GGR271H1

*Regional Geography Course:* Any course (0.5 credit) from GGR240H1, GGR246H1, GGR254H1, GGR341H1, GGR342H1, GGR343H1, GGR344H1

*Fourth Year Course:* Any course (0.5 credit) from 400-level courses from Group E.

*Applications:* Any 7 courses (3.5 credits) from Group E; Up to 1.0 credit can be from Group F. Up to 1.0 credit can be used from GGR493Y1, based on suitability of placement for this program, and approved by department.

Note: At least 2.0 credits must be 300/400-level courses. Of these, at least 0.5 must be at the 400-level (includes Fourth Year Course requirement).

**Total credits: 7.0**

## Group E (Human Geography Courses)

GGR216H1, GGR217H1, GGR221H1, GGR223H1, GGR225H1, GGR240H1, GGR241H1, GGR246H1, GGR251H1, GGR252H1, GGR254H1, GGR272H1, GGR273H1, GGR274H1, GGR299Y1, GGR314H1, GGR320H1, GGR323H1, GGR324H1, GGR326H1, GGR327H1, GGR328H1, GGR329H1, GGR332H1, GGR334H1, GGR336H1, GGR338H1, GGR339H1, GGR340H1, GGR341H1, GGR342H1, GGR343H1, GGR344H1, GGR349H1, GGR352H1, GGR354H1, GGR357H1, GGR359H1, GGR360H1, GGR363H1, GGR372H1, GGR373H1, GGR374H1, GGR382H1, GGR386H1, GGR387H1, GGR389H1, GGR400H1, GGR416H1, GGR418H1, GGR419H1, GGR420H1, GGR421H1, GGR424H1, GGR428H1, GGR429H1, GGR430H1, GGR431H1, GGR433H1, GGR434H1, GGR438H1, GGR452H1, GGR456H1, GGR457H1, GGR458H1, GGR460H1, GGR462H1, GGR472H1, GGR481H1, GGR482H1, GGR491Y1, GGR492H1, GGR496H1, GGR497H1, GGR499H1, JGE321H1, JGE331H1, JIG322H1, JIG440H1, JUG320H1, JUG325H1, JGI216H1/ JGU216H1, JGI346H1/ JGU346H1, JGI454H1/ JGU454H1

Group F (Optional Science Courses for Human Geography)

GGR201H1, GGR203H1, GGR205H1, GGR206H1,  
GGR301H1, GGR305H1, GGR308H1, GGR310H1,  
FOR310H1, GGR337H1, GGR347H1, GGR348H1,  
GGR388H1, GGR401H1, GGR405H1, GGR406H1,  
GGR413H1, GGR414H1, GGR498H1

## Focus in Planning (Major) - ASFOC1667A

The Planning Focus provides students with the opportunity to learn about how planning is a key component of the dynamic relations that exist between places, policy, power, and people. It focuses in on the conscious choices and decision made by various groups to shape the spatial organization of human activities. The Planning Focus will appeal to students who wish to develop an integrative understanding of the cultural, economic, political and social forces that shape the development and redevelopment of metropolitan and rural regions. Students are encouraged to explore the breadth of our courses that engage planning questions in relation to transportation, social segregation, health and housing, economic policy, environment change, and globalization.

### Enrolment Requirements:

Enrolment in the Human Geography Major (ASMAJ1667) program is required.

### Completion Requirements:

Core (required) Courses: 1.0 credit from GGR217H1 and JGI346H1/ JGU346H1

Planning Electives: 1.5 credits from GGR241H1, GGR338H1, GGR339H1, GGR343H1, GGR349H1, GGR354H1, GGR359H1, GGR424H1, GGR428H1, GGR433H1, GGR434H1, GGR456H1, GGR460H1, GGR493Y1 (0.5 credit can be used based on internship)

Note: At least 1.0 credit must be 300/400-level courses.

## Focus in Urban Geography (Major) - ASFOC1667M

The Focus in Urban Geography provides students with the opportunity to emphasize urban geography as part of their Human Geography specialist or major. Urban geography focuses on the political, social, cultural and economic processes that shape city life, development and policy. This focus will appeal to students registered in the Human Geography specialist or major program who wish to develop an integrative understanding of the dynamics that shape the urban realm. Students are encouraged to

explore the breadth of our course offerings in housing, historical, political and transportation.

### Enrolment Requirements:

Enrolment in the Human Geography Major (ASMAJ1667) program is required.

### Completion Requirements:

Required Urban Geography Courses: 1.0 credit from GGR124H1, GGR241H1, JGI216H1/ JGU216H1

Urban Geography Electives: 1.5 credits from GGR254H1, GGR336H1, GGR339H1, GGR349H1, GGR357H1, GGR359H1, GGR374H1, GGR382H1, GGR424H1, GGR458H1, GGR460H1, GGR482H1

Note: At least 1.0 credit must be 300/400-level courses.

## Human Geography Minor (Arts Program) - ASMIN1667

The Human Geography programs provide the opportunity to learn about the relations between landscapes, places, people and nature, and the spatial organization of human activities. While students are encouraged to explore the breadth of the discipline, we also identify courses by theme for students who wish to develop expertise in one or two subfields (e.g., urban geography, cultural and historical geography). The Human Geography programs appeal to students who wish to develop an integrative understanding of the cultural, economic, political and social forces that shape how people use and experience the environments they live in. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits)

*First Year Geography Courses:* Any 2 courses (1.0 credit) from JEG100H1, GGR101H1, GGR107H1, GGR112H1, GGR124H1, GGR196H1, GGR197H1, GGR198H1, GGR199H1. 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Applications:* Any 6 courses (3.0 credits) from Group E, including at least 1.0 credit at the 300/400-level. One course (0.5 credit) can be from Group F. Up to 1.0 credit

can be used from [GGR493Y1](#), based on suitability of placement for this program, and approved by department.

## Environmental Geography Specialist (Arts Program) - ASSPE1252

A focus on the human-environment nexus is most explicit in these programs. Students learn about the social, spatial, and biophysical processes that shape society's relationship to nature, management of resources, and contemporary environmental change. These programs appeal to non-science students who seek an environmental program that allows them to learn more about the natural processes that interact with social factors in shaping environments. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

### Variable Minimum Grade

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

- 0.5 credit in GGR courses at the 100- or 200-level, with a minimum grade of 75%, or
- 1.0 credit in GGR courses at the 100- or 200-level, with a minimum grade of 70%

To ensure that students admitted to the program will be successful, applicants with a final grade or grade average lower than the minimum grades stated above will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program. Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE).

### Completion Requirements:

*First Year Geography Courses:* Any 2 courses (1.0 credit) from [GGR107H1](#) (recommended), [JEG100H1](#), [GGR101H1](#), [GGR112H1](#), [GGR124H1](#), [GGR196H1](#), [GGR197H1](#), [GGR198H1](#), [GGR199H1](#). 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Physical and Environmental Geography Courses:* Any 2 courses (1.0 credit) from [GGR201H1](#), [GGR203H1](#), [GGR205H1](#), [GGR206H1](#), [GGR305H1](#), [GGR308H1](#), [GGR314H1](#), [GGR347H1](#), [GGR348H1](#), [ENV200H1](#), [ENV234H1](#)

*Methods & Core Courses:* All (2.5 credits) of [GGR223H1](#), [GGR270H1](#), [GGR271H1](#), [GGR272H1](#), [JGE331H1](#)

*Regional Geography Courses:* Any course (0.5 credit) from [GGR240H1](#), [GGR246H1](#), [GGR254H1](#), [GGR341H1](#), [GGR342H1](#), [GGR343H1](#), [GGR344H1](#)

*Fourth Year Courses:* Either [GGR491Y1](#) or one of [GGR416H1](#), [GGR492H1](#), [GGR497H1](#) and one additional 0.5 credit 400 level course from Group A or Group B (1.0 credit). Up to one 0.5 credit can be used from [GGR493Y1](#), based on suitability of placement for this program, and approved by department.

*Application:* Any 8 courses (4.0 credits) from Group A; up to 1.5 credits can be from Group B; up to 1.0 credit can be from Group C. Up to 1.0 credit can be used from [GGR493Y1](#), based on suitability of placement for this program, and approved by department.

Note: At least 4.0 credits must be 300/400-level courses. Of these, at least 1.0 credit must be at the 400-level (includes Fourth Year Course requirement).

**Total credits: 10.0**

*Group A (Environmental Geography Courses):*

GGR201H1, GGR203H1, GGR205H1, GGR206H1,  
GGR223H1, GGR272H1, GGR273H1, GGR274H1,  
GGR301H1, GGR305H1, GGR308H1, GGR310H1,  
GGR314H1, GGR323H1, GGR329H1, GGR332H1,  
GGR334H1, GGR337H1, GGR338H1, GGR340H1,

Please note that obtaining this minimum final grade does not guarantee admission to the program. Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE).

**Completion Requirements:**

*First Year Geography Courses:* Any 2 courses (1.0 credit) from GGR107H1 (recommended), JEG100H1, GGR101H1, GGR112H1, GGR124H1, GGR196H1, GGR197H1, GGR198H1, GGR199H1. 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Physical and Environmental Geography Courses:* Any 2 courses (1.0 credit) from GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR305H1, GGR308H1, GGR314H1, GGR347H1, GGR348H1, ENV200H1, ENV234H1

*Methods & Core Courses:* All (1.5 credits) of GGR223H1, GGR270H1, GGR271H1

*Regional Geography Courses:* Any course (0.5 credit) from GGR240H1, GGR246H1, GGR254H1, GGR341H1, GGR342H1, GGR343H1, GGR344H1

*Fourth Year Course:* Any course (0.5 credit) at the 400-level from Group A.

*Applications:* Any 5 courses (2.5 credits) from Group A; up to 1.0 credit can be from Group B; up to 0.5 credit can be from Group C.

Note: At least 2.0 credits must be 300/400-level courses. Of these, at least one 0.5 credit must be at the 400-level (includes Fourth Year Course requirement).

**Total credits: 7.0**

## Group A (Environmental Geography Courses)

GGR201H1, GGR203H1, GGR205H1, GGR206H1,  
GGR223H1, GGR272H1, GGR273H1, GGR274H1,  
GGR301H1, GGR305H1, GGR308H1, GGR310H1,  
GGR314H1, GGR323H1, GGR329H1, GGR332H1,  
GGR334H1, GGR337H1, GGR338H1, GGR340H1,  
GGR341H1, GGR347H1, GGR348H1, GGR349H1,  
GGR372H1, GGR373H1, GGR386H1, GGR387H1,  
GGR388H1, GGR401H1, GGR405H1, GGR406H1,  
GGR413H1, GGR414H1, GGR416H1, GGR418H1,  
GGR419H1, GGR434H1, GGR438H1, GGR481H1,  
GGR491Y1, GGR492H1, GGR497H1, GGR498H1,

JGE321H1, JGE331H1, JIG322H1, JIG440H1,  
JUG320H1

Group B (School of the Environment Courses)

ENV200H1, ENV234H1, ENV307H1, ENV323H1,  
ENV333H1, ENV335H1, ENV350H1, ENV395Y0,  
ENV396Y0, ENV422H1

Group C

Any other GGR, JGE, JIG, JUG courses at the 200/300/400-level not listed in Group A.

## Environmental Geography Minor (Arts Program) - ASMIN1252

A focus on the human-environment nexus is most explicit in these programs. Students learn about the social, spatial, and biophysical processes that shape society's relationship to nature, management of resources, and contemporary environmental change. These programs appeal to non-science students who seek an environmental program that allows them to learn more about the natural processes that interact with social factors in shaping environments. These programs offer training in quantitative and qualitative research methods, including GIS and Remote Sensing.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits)

*First Year Geography Courses:* Any course (0.5 credit) from GGR107H1 (recommended), JEG100H1, GGR101H1, GGR112H1, GGR124H1, GGR196H1, GGR197H1, GGR198H1, GGR199H1. 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Core Course:* All (0.5 credit) of GGR223H1

*Physical and Environmental Geography Course:* Any course (0.5 credit) from GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR305H1, GGR308H1, GGR314H1, GGR347H1, GGR348H1, ENV200H1, ENV234H1

*Applications:* Any 5 courses (2.5 credits) from Group A; up to 1.0 credit can be from Group B. Up to a 0.5 credit can

be used from GGR493Y1, based on suitability of placement for this program, and approved by department.

Note: At least 1.0 credit must be 300/400-level courses.

### Group A (Environmental Geography Courses):

GGR201H1, GGR203H1, GGR205H1, GGR206H1,  
GGR223H1, GGR272H1, GGR273H1, GGR274H1,  
GGR301H1, GGR305H1, GGR308H1, GGR310H1,  
GGR314H1, GGR323H1, GGR329H1, GGR332H1,  
GGR334H1, GGR337H1, GGR338H1, GGR340H1,  
GGR341H1, GGR347H1, GGR348H1, GGR349H1,  
GGE372H1, GGR373H1, GGR386H1, GGR387H1,  
GGR388H1, GGR401H1, GGR405H1, GGR406H1,

ENV396Y0, ENV422H1

## Physical and Environmental Geography Specialist (Science Program) - ASSPE2030

Physical and Environmental Geography offers science-based programs for students interested in an integrative approach to understanding the earth's biotic and abiotic systems, including their spatial dynamics and the ways they are altered by human action. The programs provide a foundation in the subfields of climatology, biogeography, hydrology, and geomorphology. Students gain practical experience in lab and field settings. Technical skills taught also include data analysis, geospatial analytical tools, including GIS and Remote Sensing.

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

### Variable Minimum Grade

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

- 0.5 credit in GGR courses at the 100- or 200-level, with a minimum grade of 75%, or

- 1.0 credit in GGR courses at the 100- or 200-level, with a minimum grade of 70%

To ensure that students admitted to the program will be successful, applicants with a final grade or grade average lower than the minimum grades stated above will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program. Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE).

### Completion Requirements:

*Introductory courses:* Any 6 half courses or the equivalent (3.0 credits) from JEG100H1, MAT133Y1/ MAT135H1/ MAT136H1/ MAT137Y1/ MAT157Y1, MAT223H1/ MAT240H1, MAT224H1/ MAT247H1, PHY131H1/ PHY151H1, PHY132H1/ PHY152H1, CHM138H/ CHM136H1, CHM139H/ CHM135H1, CHM151Y1, BIO120H1, BIO130H1, at least two of which must be Math or Physics half courses.

*Core Courses:* Any 4 courses (2.0 credits) from GGR201H1, GGR203H1, GGR205H1, GGR206H1, up to one half course from Group H.

*Regional Geography Courses:* Any course (0.5 credit) from GGR101H1, GGR240H1, GGR246H1, GGR254H1, GGR341H1, GGR342H1, GGR343H1, GGR344H1

*Methods Courses:* All (2.0 credits) of GGR270H1, GGR272H1, GGR337H1, GGR390H1

*Applications:* Any 7 courses (3.5 credits) from GGR273H1, GGR274H1, GGR301H1, GGR305H1, GGR308H1, GGR310H1/ FOR310H1, GGR314H1, GGR373H1, GGR347H1, GGR348H1, GGR416H1, (but no more than one of GGR273H1, GGR373H1), up to 1.0 credit can be used from GGR493Y1, based on suitability of placement for this program, and approved by department. Any GGR course from the list for Core Courses and Fourth Year Courses not already used. Up to 1.5 credits from Group I. No more than one of GGR273H1, GGR373H1.

*Fourth Year Courses:* Any 2 courses (1.0 credit) from GGR401H1, GGR405H1, GGR406H1, GGR413H1, GGR414H1, GGR491Y1, GGR498H1, 400-level courses in Group I, but the total number of half courses from Group I (including 300-level courses) must not exceed 3 (1.5 credits). Up to one 0.5 credit can be used from GGR493Y1, based on suitability of placement for this program, and approved by department.

**Total credits: 12.0**

*Group H:*  
CHM217H1, CHM310H1, ESS224H1, ESS261H1

### Group I:

EEB319H1, EEB321H1, EEB324H1, EEB328H1, EEB428H1, ENV346H1, ESS262H1, ESS311H1, ESS361H1, ESS461H1, ESS463H1, ESS464H1, FOR301H1, FOR305H1, FOR306H1, FOR417H1, JEE337H1, PHY392H1, PHY408H1

## Physical and Environmental Geography Major (Science Program) - ASMAJ2030

Physical and Environmental Geography offers science-based programs for students interested in an integrative approach to understanding the earth's biotic and abiotic systems, including their spatial dynamics and the ways they are altered by human action. The programs provide a foundation in the subfields of climatology, biogeography, hydrology, and geomorphology. Students gain practical experience in lab and field settings. Technical skills taught also include data analysis, geospatial analytical tools, including GIS and Remote Sensing.

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

### Variable Minimum Grade

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

- 0.5 credit in GGR courses at the 100- or 200-level, with a minimum grade of 67%, or
- 1.0 credit in GGR courses at the 100- or 200-level, with a minimum grade of 63%

To ensure that students admitted to the program will be successful, applicants with a final grade or grade average lower than the minimum grades stated above will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program. Jointly-offered GGR courses will also be considered (e.g. JEG, JGI, JGE).

### Completion Requirements:

*Introductory Courses:* Any 4 half courses or the equivalent (2.0 credits) from JEG100H1, MAT133Y1/ MAT135H1/ MAT136H1/ MAT137Y1/ MAT157Y1, MAT223H1/ MAT240H1, MAT224H1/ MAT247H1, PHY131H1/ PHY151H1, PHY132H1/ PHY152H1, CHM138H/ CHM136H1, CHM139H/ CHM135H1, CHM151Y1, BIO120H1, BIO130H1, at least two of which must be Math or Physics half courses.

*Core Courses:* Any 3 courses (1.5 credits) from GGR201H1, GGR203H1, GGR205H1, GGR206H1

*Regional Geography Course:* Any course (0.5 credit) from GGR101H1, GGR240H1, GGR246H1, GGR254H1, GGR341H1, GGR342H1, GGR343H1, GGR344H1

*Methods Courses:* All (1.5 credits) of GGR270H1, GGR272H1, GGR390H1

*Applications:* Any 4 courses (2.0 credits) from GGR273H1, GGR274H1, GGR301H1, GGR305H1, GGR308H1, GGR310H1/ FOR310H1, GGR314H1, GGR337H1, GGR373H1, GGR347H1, GGR348H1, GGR416H1. Up to 1.0 credit can be used from GGR493Y1, based on suitability of placement for this program, and approved by department. Any GGR course from the list for Core Courses and Fourth Year Courses not already used. Any course (0.5 credit) from Group I. No more than one from GGR273H1, GGR373H1.

*Fourth Year Course:* Any course (0.5 credit) from GGR401H1, GGR405H1, GGR406H1, GGR413H1, GGR414H1, GGR491Y1, GGR498H1

**Total credits: 8.0**

Group I

EEB319H1, EEB321H1, EEB324H1, EEB328H1, EEB428H1, ENV346H1, ESS262H1, ESS311H1, ESS361H1, ESS461H1, ESS463H1, ESS464H1, FOR301H1, FOR305H1, FOR306H1, FOR417H1, JEE337H1, PHY392H1, PHY408H1

## Physical and Environmental Geography Minor (Science Program) - ASMIN2030

Physical and Environmental Geography offers science-based programs for students interested in an integrative approach to understanding the earth's biotic and abiotic systems, including their spatial dynamics and the ways they are altered by human action. The programs provide a foundation in the subfields of climatology, biogeography, hydrology, and geomorphology. Students gain practical experience in lab and field settings. Technical skills taught also include data analysis, geospatial analytical tools, including GIS and Remote Sensing.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits)

*First Year Geography Courses:* Any 2 courses (1.0 credit) from JEG100H1 (recommended), GGR101H1, GGR107H1, GGR112H1, GGR124H1, GGR196H1, GGR197H1, GGR198H1, GGR199H1

*Core Courses:* Any 2 courses (1.0 credit) from GGR201H1, GGR203H1, GGR205H1, GGR206H1

*Methods Courses:* One (0.5 credit) of GGR301H1/ GGR305H1/ GGR308H1 and one (0.5 credit) of GGR272H1/ GGR337H1

*Applications:* Any 2 courses (1.0 credit) from GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR274H1, GGR301H1, GGR305H1, GGR308H1, GGR310H1/ FOR310H1, GGR314H1, GGR347H1, GGR348H1, GGR390H1, GGR401H1, GGR405H1, GGR406H1, GGR413H1, GGR414H1. Up to one 0.5 credit can be used from GGR493Y1, based on suitability of placement for this program, and approved by department.

## Geographic Information Systems Minor (Arts Program) - ASMIN0305

The GIS program covers the on theoretical, technical and applied foundations for geographic information systems. Students learn methods for spatial data production, analysis and presentation using computer cartography, spatial analysis, remote sensing, and geovisualization. Problem solving and project design are emphasized in upper level courses, as students apply techniques to answer specific geographic questions. The GIS program is structured to provide a stand-alone minor for students in Geography and other disciplines seeking complementary skills in spatial analysis (e.g., field biology, archaeology).

Note: Students combining this program with a Specialist/Major sponsored by the Department of Geography will normally be allowed to count only 1.5 (of the 4.0) credits towards both programs.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits)

*First Year Geography Courses:* Any 2 courses (1.0 credit) from [JEG100H1](#), [GGR101H1](#), [GGR107H1](#), [GGR112H1](#), [GGR124H1](#), [GGR196H1](#), [GGR197H1](#), [GGR198H1](#), [GGR199H1](#). 200/300-level GGR courses may also be used to meet this requirement. Contact the Undergraduate Administrator to update your program.

*Methods & Core Courses:* All (2.0 credits) of [GGR270H1](#), [GGR272H1](#), [GGR273H1](#), [GGR373H1](#)

*Applications:* Any 2 courses (1.0 credit) from [GGR225H1](#), [GGR274H1](#), [GGR337H1](#), [GGR372H1](#), [GGR386H1](#), [GGR413H1](#), [GGR414H1](#), [GGR462H1](#), [GGR472H1](#), [GGR491Y1](#), [GGR492H1](#), [GGR493Y1](#) (0.5 credit can be used based on internship), [GGR497H1](#), [GGR498H1](#), [GGR499H1](#)

Note: At least 1.0 credit must be 300/400-level courses

## Asian Geographies (offered jointly with the National University of Singapore) Minor (Arts Program) - ASMIN2727

Asian Geographies offers a structure exchange opportunity between the University of Toronto and National University of Singapore (NUS). This program allows students to study geographic themes through the lens of development and change in Asia. They complete half of this minor program while at National University of Singapore (NUS), selecting from courses there that locate geographic questions in a local or regional context.

This minor program represents a unique opportunity to study geography in a different cultural environment. For more information, contact the Undergraduate Office and the Centre for International Experience (CIE, [studentlife.utoronto.ca/cie](http://studentlife.utoronto.ca/cie)). Students are advised to contact the U of T Geography Department in advance of going abroad to discuss course selection at NUS.

### Enrolment Requirements:

**Enrolment in the Asian Geographies Minor is administratively suspended effective February 28, 2020 and is no longer admitting students. Students currently enrolled will be permitted to finish the program.**

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

### Special Requirement

- A supplementary application is required. For more information, contact the Centre for International Experience (CIE, [studentlife.utoronto.ca/cie](http://studentlife.utoronto.ca/cie)).

### Completion Requirements:

*First Year Geography Course:* Any course (0.5 credit) from [GGR100H1](#)/[JEG100H1](#), [GGR101H1](#), [GGR107H1](#), [GGR112H1](#), [GGR124H1](#)

*Applications (UofT):* Any 3 (1.5 credits) higher level GGR/JGE/JGI/JFG/JUG courses

*Applications (NUS):* Any 4 courses (2.0 credits) from [NUS250H0](#), [NUS251H0](#), [NUS252H0](#), [NUS253H0](#), [NUS254H0](#), [NUS255H0](#), [NUS256H0](#), [NUS350H0](#), [NUS351Y0](#), [NUS352H0](#), [NUS353H0](#), [NUS354H0](#) (or other NUS course with permission of the department)

Note: At least 1.0 credit must be at the 300/400 level (from U of T or NUS)

**Total credits: 4.0**

## Environment and Energy Minor (Science Program) - ASMIN1552

### Environment and Energy (Science Program) Joint Program with the School of the Environment

Jointly sponsored by the School of the Environment and the Department of Geography, this interdisciplinary program addresses the scientific, technological, environmental and policy aspects of energy use and supply, with a focus on the reduction of environmental impacts.

Note that the four full course equivalents that constitute the Minor Program are those listed below under Higher Years. For more information, please email the School of the Environment's Undergraduate Student Advisor, David Powell, at [ug.office.env@utoronto.ca](mailto:ug.office.env@utoronto.ca).

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits)

*First Year Courses:* 1.0 credit from ([MAT135H1](#) and [MAT136H1](#))/ [MAT137Y1](#), and 1.0 credit from [CHM138H1](#)/

CHM136H1, CHM139H1/ CHM135H1, CHM151Y1, PHY131H1, PHY132H1, PHY151H1, PHY152H1

All of: ENV221H1, ENV222H1/ GGR223H1 (1.0 credit)

All of: ENV346H1, ENV350H1, ENV450H1 (1.5 credits)

Any two of: GGR332H1/ ENV462H1, GGR310H1/ FOR310H1, GGR314H1, GGR347H1, GGR348H1 (1.0 credit)

Any one of: CHM210H1, CHM310H1, CHM415H1, ENV237H1, ENV238H1, FOR310H1\*/ GGR310H1\*, FOR410H1, GGR203H1, GGR314H1\*, GGR347H1\*, GGR348H1\*, HPS313H1, PHY231H1, PHY250H1 (\* if not taken for the requirement immediately above) (0.5 credit)

## Geography and Planning Courses

### General Geography and Planning Courses

#### JEG100H1 - Introduction to Physical Geography and Earth Science

Hours: 24L/12P

This introduction to Physical Geography and Earth Sciences examines the atmosphere, lithosphere, hydrosphere, cryosphere and biosphere, emphasizing processes, flows of energy and materials, and the interconnectedness of these Earth systems. Specific topics include weather and climate, earth materials, geological and geomorphic processes involved in the genesis of landforms, river systems, glaciers, soils, and biomes.

**Exclusion:** GGR100H1, ESS102H1, EESA06H3

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

#### GGR101H1 - Histories of Environmental Change

Hours: 24L

This course will investigate geological, biological and archaeological evidence of environmental change. We will

## Regarding Geography and Planning Courses

### Prerequisites

Recommended Preparation: The course will be taught in a manner that assumes students have achieved the level of study (e.g., third year standing) and completed courses listed (or equivalent background).

Prerequisites: These are strictly monitored requirements. In some cases, prerequisites may be waived if equivalent background exists. Please consult the Associate Chair, Undergraduate or the course instructor.

examine the processes that have driven and will drive environmental change and how past societies have shaped and responded to these changes. The emphasis is on the current interglacial period, or Holocene, and how shifts in population and technologies have affected human-environment interactions. As language of the Holocene gives way, for many, to that the Anthropocene, the implications of environmental change for present and future human societies will be our concluding concern.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

#### GGR107H1 - Environment, Food and People

Hours: 24L/12T

Examines the relations between food, nature, and society. Food is fundamental to human existence, and central to most cultures; it also has significant and widespread effects on the physical and social environments. Food is used as a lens to explore human-environment interactions locally and globally. Serves as an introduction to environmental and human geography.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

#### GGR112H1 - Geographies of Globalization, Development and Inequality

Hours: 24L/8T

Economic growth, social change and environmental transformation are taking shape in an increasingly interconnected global context. This course introduces and examines critical geographic approaches to international development, economic globalization, poverty, and inequality. It pays particular attention to the roles of rural-urban and international migration in shaping specific landscapes.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR124H1 - Cities and Urban Life

**Hours:** 24L/6T

Offers an introduction to North American cities and urbanization in a global context. It explores social, cultural, political and economic forces, processes, and events that shape contemporary urbanism. The course adopts the lens of 'fixity' and 'flow' to examine how the movement of people, ideas, goods, and capital, as well as their containment in the infrastructure and space of the city, give rise to particular urban forms.

**Exclusion:** GGR207H5  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR196H1 - The Yard: Micro-Geographies of Household Outdoor Spaces

**Hours:** 24S

A "yard" is the area of land immediately adjacent to a building, often a residence. By examining micro-geographies (that is, detailed empirical studies of a small, specific locale) of these ubiquitous, everyday spaces, the course explores how yards are intimately connected with broader ecologies, cultures, and social relations, all of which can be explored using geographic theories and techniques.

The course also serves as an introduction to other subjects that are relevant to navigating post-secondary life, such as: critical reading; conducting university-level research; presenting and communicating ideas in the classroom; teamwork, and how to benefit from it; and developing social networks.

Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR197H1 - Nature, Conservation and Justice

**Hours:** 24S

Every day we read about climate change, species extinction, environmental degradation and the need for nature conservation. It is increasingly becoming apparent that the environmental problems that we face today arise from a deeper crisis relating to human ways of viewing and connecting to nature. This course asks how we can rework human ways of relating to nature, while querying the idea of "nature" and questioning the dominant approaches to nature conservation. It asks how can concerns for nature and for other species be balanced with that for human livelihoods and well-being? How can inequalities with regards to the distribution of environmental goods and bads be reduced? How are citizens and communities in the different parts of the world struggling against environmental injustice and to protect their local environments? How do these place-based movement demand justice and what visions do they articulate for a more just and sustainable world? How do indigenous worldviews offer conceptual resources for rethinking nature and our ways of relating to nature? The course will explore these questions using lectures, class discussion, videos and student presentations. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR198H1 - Mobility and Borders

**Hours:** 24S

This course examines the political geographies of transnational migration. It asks how spaces of migration and mobility are political, and how migration politics are tied to inequalities wrought through intersecting histories of race, class, and gender. It seeks to extend our understandings of migrants, borders, and mobility, and it explores the processes through which mobility is produced, delimited and structured. We will consider the transnational politics of migration, the militarization of border zones, and the political spaces of migrant displacement, dispossession, and dislocation. The seminar readings focus on classical paradigms as well as emerging approaches in immigration studies. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR199H1 - Race, Conflict, and the Urban Landscape

**Hours:** 24S

This course will focus on how racial conflict affects the size, shape, composition, and landscape of cities. It will emphasize Canadian and American cities, but other international examples will be discussed for comparison. Ethno-racial conflict has been, and continues to be, an important force on cities throughout the world. Course topics will include housing and employment discrimination, ethno-racial uprisings, and inequality. The course will be a discussion-oriented blend of academic readings, popular journalism, and film. It will serve as an introduction to concepts that are dealt with in greater depth in second, third, and fourth year geography courses. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR201H1 - Geomorphology

**Hours:** 24L/8P

Introduction to the principles of geomorphology; earth materials; major features of crustal morphology; landforming processes of water, wind, waves and ice; human impact on earth surface processes. One hour laboratory session approximately every other week; a local field trip.

**Exclusion:** GGR201H5

**Recommended Preparation:** [JEG100H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR203H1 - Introduction to Climatology

**Hours:** 36L

Introduction to the large scale processes responsible for determining global and regional climate and atmospheric circulation patterns, as well as the small scale processes responsible for determining the microclimates of specific environments.

**Prerequisite:** Physics SPH3U

**Recommended Preparation:** [JEG100H1](#); [MAT133Y1](#), [MAT135H1](#), [MAT136H1](#), [MAT137Y1](#); [PHY131H1](#), [PHY132H1](#), [PHY151H1](#), [PHY152H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR205H1 - Introduction to Soil Science

**Hours:** 24L/4P

Introduction to soil science dealing with the chemical, physical, and biological properties of soils; soil formation and development; the classification of soils, and the application of soil science to environmental, agricultural and forestry issues. A field trip may be offered, cost: \$20.

**Recommended Preparation:** [CHM138H1/CHM136H1](#), [CHM139H1/CHM135H1](#), [JEG100H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR206H1 - Introduction to Hydrology

**Hours:** 30L/4P

Introduction to the hydrologic cycle with emphasis on the physical processes, including precipitation, interception, evaporation, runoff, ground water and soil water. Basic hydrological models will be practiced. Potential field trip, cost: \$20.

**Recommended Preparation:** [JEG100H1](#); [MAT135H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR217H1 - Urban Landscapes and Planning

**Hours:** 24L/4T

Considers the role of planning in shaping the urban landscape through historical and contemporary examples that illustrate the interplay of modernist and post-modernist approaches to city building. Traces the origins, competing rationalities and lingering effects of planning in the production of urban space. Broaches possibilities for engaging planning critically to address challenges of social and environmental justice in cities today.

**Exclusion:** [GGR361H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR221H1 - New Economic Spaces

**Hours:** 24L/4T

Provides an introduction to economic geography and economic geography theory from the 1970s on, illustrating the different ways that geographers have conceptualized the restructuring of resource industries, manufacturing and services. The crisis of Fordism and the rise of new production models will be given particular attention, along with the reorganization of finance, the rise of cultural industries and the globalization of commodity chains. New regimes of governance of the economy will also be considered.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR223H1 - Environment, Society and Resources

**Previous Course Number:** GGR222H1

**Hours:** 24L/6T

Focuses on society-environment relations and different approaches to resource governance and management. This includes exploration of the spatial, social, and political economic origins and implications of humans' changing relations to nature. Drawing on debates from environmental governance and political ecology literatures, the course also investigates the ways that different actors and institutions have framed and sought solutions to environmental and resource challenges.

**Exclusion:** ENV222H1 (if ENV222H1 was taken before 2012-13)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR225H1 - Power of Maps and Geographic Information

**Hours:** 24L/4P

This course examines the changing role of geographic information and maps in society. It considers how spatial information is produced, organized, and used in different historical, cultural, and political contexts. Topics examined include: the effects of the shift from print to digital mapping; implications of mobile spatial technologies and the geoweb; open source and open access; production and control of spatial data and information; and alternative cartographies. Introduces concepts of Geospatial Literacy, Critical Mapping and Critical GIS.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR240H1 - Geographies of Colonialism in North America

**Hours:** 24L/5T

This course considers the creation and consolidation of settler colonies in the region known to many as North America. With an eye to the colonial present, the course focuses on the period from the 15th century to the early 20th century. Cultural texts and place-specific cases are used to ground themes and processes that also bear on the wider field of historical geography, including narratives of discovery and possession; ecological imperialism and environmental transformation; the (re)settlement of land and colonial government; enslavement and industrialization; frontiers, borders, and resource extraction; and some of the Indigenous geographies that preceded, were transformed by and transformed, and exceeded the reach of colonial power.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## GGR241H1 - Geographies of Urban Social Exclusion

**Hours:** 24L

Introduction to the geographies of urban social exclusion and segregation after 1750. Using a selection of cities from around the world, the course examines the impacts and implications of urban social inequalities.

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR246H1 - Geography of Canada

**Hours:** 24L

Social and economic differences have been, and continue to be, a prominent feature of Canada's geography. In this course these differences are examined at a regional and local scale. The course adopts a thematic approach and considers issues such as historical development, urbanization, industrialization, immigration and population change, Canada's cultural mosaic and native issues. Emphasis will be placed on the evolution of social and economic policies and Canada's incorporation into a global economy.

**Exclusion:** GGR202H5

**Recommended Preparation:** GGR107H1, GGR124H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR251H1 - Geography of Innovation

**Hours:** 24L

Explores how new technologies and industries are generated and sustained, or failed to be. Focuses on the dynamics of leading technological sectors such as electronics, automobiles and biotechnology in their geographical and historical contexts. We critically scrutinise the iconic Silicon Valley along with other major innovative regions/nations, and investigate the key role of universities and finance in driving innovation and entrepreneurship.

**Exclusion:** GGR300H1 (2014-15)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR252H1 - Marketing Geography

**Hours:** 24L/4T

Geography matters in the success of both public and private sector organizations. Using mostly retail examples contemporary location problems are addressed. The geographies of demand and supply are analyzed and trade area and site selection techniques are applied. The relevance of the planning context and utility of geovisualization techniques such as GIS are also briefly considered.

**Exclusion:** GGR252H5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR254H1 - Geography USA

**Hours:** 24L

After a short historical overview of the making of America, this course focuses on contemporary issues in American society, economy, politics, race, regional distinctions and disparities, urban development.

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR270H1 - Introductory Analytical Methods

**Hours:** 24L/12T

Theory and practical application of elementary quantitative techniques in geography emphasizing descriptive, inferential and spatial statistical analysis, probability, and sampling.

**Exclusion:** ECO220Y1/ ECO227Y1/ EEB225H1/ GGR270Y1/ LIN305H1/ POL222H1/ POL242Y1/ PSY201H1/ SOC202H1/ STA220H1/ STA248H1/ STA250H1/ STA261H1

**Recommended Preparation:** 0.5 credit in Geography

**Distribution Requirements:** Social Science, Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR271H1 - Social Research Methods

**Hours:** 24L

Practical course on field methods designed to enable students to carry out their own research projects. Behavioural observation, interviewing, questionnaire design, sampling theory, content analysis of written and graphic material, data coding and focus groups.

**Exclusion:**

SOC200H1/SOC204H1/CRI350H1/ENV223H1

**Distribution Requirements:** Social Science

## GGR272H1 - Geographic Information and Mapping I

**Hours:** 24L/24P

Introduction to digital mapping and spatial analysis using geographic information systems (GIS). Students learn how to use GIS software to find, edit, analyze and map geographic data to create their own maps, analyze geographic problems and use techniques that can be applied to a variety of subject areas.

**Exclusion:** GGRB30H3, GGR272H5

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR273H1 - Geographic Information and Mapping II

**Hours:** 24L/24P

Builds on GGR272H1 by providing students with practical spatial analysis methods and the underlying theory needed to understand how to approach various geographic problems using geographic information system (GIS) software and a variety of data types and sources.

**Prerequisite:** GGR272H1

**Exclusion:** GGRB32H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR274H1 - Introductory Computation and Data Science for the Social Sciences

**Hours:** 24L/12T

Social scientists are increasingly working with big and complex datasets that contain spatial, group-level, and individual-level dimensions to answer questions about society. In this course, students will develop introductory programming knowledge and data acumen in order to create and run computer programs to explore where, when, and why social processes occur, drawing on theories from geography, linguistics, sociology, anthropology, economics, political science, and psychology. Instruction will focus on applying current data analysis libraries, communicating and translating data science methods to both researchers and the public, distinguishing causation from correlation and coincidence, and negotiating tradeoffs between different computational and statistical approaches.

**Exclusion:** CSC111H1, CSC148H1, STA130H1, STA238H1, STA248H1, STA261H1, EEB125H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## GGR301H1 - Fluvial Geomorphology

**Hours:** 24L/4P

Elements of drainage basin morphology and hydrology, classification of rivers, stream patterns and hydraulic geometry. Elements of open channel flow, sediment transport and the paleohydrology of river systems. River channel adjustments to environmental change, human impact and the management/design of river habitats. Exercises include experimentation in a laboratory flume. **Usually offered every other year.**

**Prerequisite:** GGR270H1 (or equivalent), and GGR201H1 or permission of instructor

**Recommended Preparation:** 10.0 credits including JEG100H1/ GGR100H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR305H1 - Biogeography

**Hours:** 24L

Identifies patterns in and explains processes behind plant and animal distributions through space and time. Topics covered include ecological and evolutionary dynamics, disturbance, dispersal, migration, continental drift, speciation, extinction, paleoenvironments and island biogeography. We also examine terrestrial and marine biomes, the meaning of biodiversity, conservation challenges, and recent biogeographic changes associated with human impact.

**Prerequisite:** 8.0 credits

**Exclusion:** GGR305H5

**Recommended Preparation:** JEG100H1 or (BIO120H1, BIO130H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## GGR308H1 - Canadian Arctic and Subarctic Environments

**Hours:** 24L

We will explore the climate geomorphology, soils, hydrology, biogeochemical cycling, limnology and food web structures of the Arctic and Subarctic. Current stresses of climate change and pollution are discussed along with scientific and political solutions.

**Prerequisite:** 8.0 credits

**Recommended Preparation:** JEG100H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR310H1 - Bioenergy from Sustainable Forest Management

**Hours:** 24L/12P

Socio-economic, technical, political and environmental issues associated with the utilization of forest biomass (e.g., harvesting residues, thinnings, salvage, short rotation woody crops) for a source of renewable energy. Field trip cost: \$20.

**Exclusion:** [FOR310H1](#)

**Recommended Preparation:** Completion of at least 6 Science credits

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR314H1 - Global Warming

**Hours:** 30L/6T

A comprehensive examination of the greenhouse warming problem, beginning with economic, carbon cycle, and climate model projections; impacts on and adaptive responses of agriculture, forests, fisheries, and water resources; options and policies to reduce greenhouse gas emissions.

**Exclusion:** GGR377H5

**Recommended Preparation:** 8.0 credits

**Distribution Requirements:** Science, Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR320H1 - Geographies of Transnationalism, Migration, and Gender

**Hours:** 24L

This course examines recent changes in global migration processes. Specifically, the course addresses the transnationalization and feminization of migrant populations and various segments of the global labor force. The coursework focuses on analyzing classical paradigms in migration studies, as well as emerging theoretical approaches to gender and migration. In addition, it traces the shifting empirical trends in gendered employment and mobility patterns. It uses in-depth case study material to query the frameworks employed in migration studies and to understand the grounded implications of gendered migration. It pays particular attention to the interventions made by feminist geographers in debates about work, migration, place, and space.

**Recommended Preparation:** 8.0 credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGE321H1 - Multicultural Perspectives on Environmental Management

**Hours:** 24L

Diverse approaches to environmental issues in a variety of multicultural settings are introduced, compared and analyzed, using case studies. Perspectives on environmental management will be discussed as they emerge from contexts such as Latin America, Asia, or Africa.

**Prerequisite:** [ENV221H1](#)/ [ENV222H1](#)/ [GGR222H1](#)/  
[GGR223H1](#)

**Exclusion:** [ENV321Y1](#)

**Recommended Preparation:** 8.0 credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JIG322H1 - Indigenous Worlds, Worldviews and the Environment

**Hours:** 24L

Explores the diverse ways of understanding and responding to the world that emerge from indigenous cultures around the world. Examines how indigenous ways of being and relating to their natural environment can help us understand and address the current environmental crisis. Using examples of indigenous activism from Canada and around the world, examines how colonial histories shape dispossession and marginalization and inform visions for the future. Topics include traditional ecological knowledge, place-based social movements, environmental concerns of indigenous peoples, bio-cultural restoration and decolonization of nature-human relations.

**Prerequisite:** 8.0 credits including one of [INS200H1](#), [INS201Y1](#), [INS250H1](#), [GGR107H1](#), [GGR124H1](#), [GGR240H1](#), [GGR246H1](#), [GGR254H1](#)

**Exclusion:** [JAG321H1](#), [GGR321H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR323H1 - Commons, Commoning and Nature

**Previous Course Number:** GGR387H1

**Hours:** 24L

This course examines the role of commons and commoning practices in rethinking how we share natural resources, nurture life-in-common and build more meaningful worlds. Topics covered include: the political and economic history of the commons and their erasure; social and environmental movements; geographies of commons governance; urban commons; more-than-human commons; and post-capitalist alternatives to address ecosystem emergencies. The course draws from Institutional and complexity theory; feminist decolonial theory; Indigenous philosophy; Black feminist thought; new materialism and posthumanism to understand the challenges and possibilities of reviving commons and commoning practices.

**Prerequisite:** 8.0 credits

**Exclusion:** [GGR387H1](#) (Special Topics in Environmental Geography: Commons, Commoning and Ecologies of Care in a Post-Covid World), offered in Winter 2021

**Recommended Preparation:** 1.0 credit in GGR, including [GGR223H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR324H1 - Spatial Political Economy

**Previous Course Number:** POL371H1

**Hours:** 24L

This course aims to explore how economic agents act and interact in space and how this creates subdivisions within the global, national and regional political economy. In a largely conceptual and interdisciplinary manner, the course investigates the role of institutions in the relational economy and the spatial construction of the political economy. Institutions are viewed as formal or informal stabilizations of economic interaction. Questions which guide the analysis are related to how institutions are established, how they evolve, how they impact economic action, and how they are changed through political and economic action at different spatial scales. Through this, the course introduces a relational and spatial perspective to the analysis of economic action and institutions. This perspective is based on the assumption that economic action is situated in socio-institutional contexts, evolves along particular paths and, at the same time, remains fundamentally contingent. Topics to be discussed include the social construction of economic space, industrial organization and location, the establishment and maintenance of economic networks, as well as processes of firm formation, learning and knowledge creation.

**Prerequisite:** 8.0 credits

**Exclusion:** [POL371H1](#)

**Recommended Preparation:** One of [ECO101H1](#), [GGR112H1](#), [GGR221H1](#), [GGR251H1](#), [GGR252H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR326H1 - Remaking the Global Economy

**Hours:** 24L

Examines links between global economic integration and geographically uneven economic development. Focuses on debates and empirical studies on global production networks (GPNs), and associated issues such as offshoring, outsourcing, and upgrading. Blends analysis of both theory and practice of business firms and regional development. Seeks to develop an in-depth understanding of the key actors driving contemporary global economic transformation, within the 'transnational space' constituted and structured by transnational firms, state institutions, and ideologies.

**Prerequisite:** 8.0 credits

**Exclusion:** [GGR300H1](#) (Special Topics in Geography I: Remaking the Global Economy), offered in Winter 2014

**Recommended Preparation:**

[GGR112H1](#)/[GGR220H1](#)/[GGR221H1](#)/[GGR251H1](#), 1.0 credit in Geography (SOC SCI/BR=3) at the 200+ level

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR327H1 - Geography and Gender

**Hours:** 24L

Introduction to the work of feminist geographers. The course will explore the relationship between gender and space, emphasizing spatial cognition, architecture, and layout of the city.

**Exclusion:** [GGR313H5](#)

**Recommended Preparation:** 8.0 credits including 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR328H1 - Labour Geographies

**Hours:** 24L

Explores changes in the nature of work and the structure and geography of labour markets. Topics will include globalization, lean production, flexibility and risk, industrial relations, workfare, the body at work, and gender and work.

**Prerequisite:** 8.0 credits including 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR329H1 - The Global Food System

Hours: 24L

Explores the changing global geographies of food by tracing international movements of food through both mainstream and 'alternative' supply chains. The implications for sustainability, food security, community autonomy and health are investigated.

**Exclusion:** GGR287H5

**Recommended Preparation:** 8.0 credits including 1.0 credit in Geography (SOC SCI/BR=3). [GGR107H1](#) recommended.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGE331H1 - Resource and Environmental Theory

Hours: 24L

Introduction to and critical evaluation of major ideas and conceptual traditions underpinning environmental and natural resource politics and regulation. Topics include: parks and protected areas, market-based environmental regulation, property rights and conservation, Malthusianism, and biodiversity conservation. Emphasis is placed on critical reading of primary texts.

**Prerequisite:** [GGR100H1](#)/[JEG100H1](#)/[GGR107H1](#)/[ENV221H1](#)/[ENV222H1](#)/[GGR222H1](#)/[GGR223H1](#)

**Recommended Preparation:** 8.0 credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR332H1 - Social Geographies of Climate Change

**Previous Course Number:** GGR387H1

Hours: 24L

Analyses the social and behavioural geographies of climate change, including: climate change communication (how we interpret and communicate climate science); climate change prevention strategies, from the macro to micro scale; and possibilities for climate change adaptation.

**Exclusion:** [GGR387H1](#) (Special Topics in Environmental Geography: The Social Geographies of Climate Change), offered in Winter 2020

**Recommended Preparation:** 8.0 credits, [GGR223H1](#), [GGR271H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR334H1 - Water Resource Management

Hours: 24L

Managing demand and supply; linkages between water quality and human health. Case studies from the industrial world and from developing countries, rural and urban. Implications of population growth and climate change for water resource management.

**Exclusion:** GGR288H5

**Recommended Preparation:** 8.0 credits including one of [JEG100H1](#)/[GGR100H1](#), [GGR107H1](#), [GGR223H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR336H1 - Urban Historical Geography of North America

Hours: 24L

This course explores the emergence and reproduction of class and racial social spaces, the development of new economic spaces, and the growing importance of the reform and planning movements. Emphasis is on metropolitan development between 1850 and 1950.

**Recommended Preparation:** 8.0 credits including one of [GGR124H1](#), [GGR241H1](#), [GGR254H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR337H1 - Environmental Remote Sensing

Hours: 24L/24P

Principles of optical, active and passive microwave remote sensing; satellite orbit and sensor characteristics; image processing and analysis techniques and software; and environmental remote sensing applications.

**Exclusion:** GGR337H5

**Recommended Preparation:** 8.0 credits, [JEG100H1](#)/[GGR100H1](#), [GGR272H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR338H1 - Environmental Issues in the Global South

**Hours:** 24L

Describes and analyses a range of key environmental issues in the context of the Global South. Topics covered include: air quality and water supply, solid waste management, impacts of and responses to environmental change. Considers factors that influence distribution of environmental costs and benefits in geographic and historical terms. Also examines technologies and policy paradigms that have framed and sought to address environmental issues in the Global South.

**Recommended Preparation:** 8.0 credits including one of [GGR107H1](#), [GGR223H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR339H1 - Urban Geography, Planning and Political Processes

**Hours:** 24L

Investigates North American urban political geography, exploring conflicts over immigration, environment, gentrification, homelessness, labour market restructuring, 'race' and racism, urban sprawl, nature and environment, gender, sexuality, security, and segregation. Explores competing visions of city life and claims on urban space. The course investigates how these struggles connect to economic, social and environmental politics at larger spatial scales, and considers different theoretical frameworks that geographers have developed to make sense of both the persistence of old problems and the emergence of new ones. Potential field trip, cost: \$20.

**Exclusion:** GGR349H5

**Recommended Preparation:** 8.0 credits including [GGR124H1](#), [GGR246H1](#)/[GGR254H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR340H1 - Health Geography

**Hours:** 24L

An exploration of the aspects of health in which place or location matters. Particular attention will be paid to the role of environments (physical, social, etc.) in explaining differences in health between places, the structuring of health-related behaviour in place, and the development of health policy for places.

**Prerequisite:** [GGR270H1](#), or the combination of [STA220H1](#) and [HST250H1](#)

**Recommended Preparation:** 8.0 credits, including [GGR223H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR341H1 - The Changing Geography of Latin America

**Hours:** 24L

Seeks to develop a general understanding of present-day Latin America by focusing on human-environment interactions, past and present. Case studies are used to understand the diversity of Latin American landscapes (physical and cultural), and how they are changing within the context of globalization.

**Recommended Preparation:** 8.0 credits including 1.0 in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR342H1 - The Changing Geography of Southeast Asia

**Hours:** 24L

Examines changes in the social, political and economic geography of Southeast Asian countries. Examples drawn from Thailand, Singapore, Indonesia, Vietnam and the Philippines as these emerging newly industrialized countries enter the 21st century. Emphasis on political-economy, urbanization and environment since 1950.

**Recommended Preparation:** 8.0 credits including 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR343H1 - The Changing Geography of China

**Hours:** 36L

The evolving social, political and economic landscape of China. Focus on development strategies and their effects on agriculture, industry, urbanization, city planning and the environment since 1949. Special attention paid to the interconnected development trajectories shaping urban and rural areas, together with the complex interactions between the built and social environments.

**Prerequisite:** 8.0 credits

**Recommended Preparation:** 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR344H1 - Political Economy of Germany and the EU

**Previous Course Number:** POL372H1

**Hours:** 24L

The goal of this course is to explore the structure and geography of the German political economy in the context of EU integration and economic globalization. This includes providing an understanding of the economic and political system (and its regional manifestations), which was once (and is now again) viewed as a successful socially-balanced alternative to the market-liberal structures in Anglo-Saxon economies. Drawing upon the varieties-of-capitalism approach, the main themes in the course address the institutional conditions for growth. In a comparative perspective, the course explores topics, such as the role of collective agents, corporate governance and finance, collective bargaining, inter-firm co-operation and regional networks, social security systems, and population structure and immigration. In order to understand the heterogeneous challenges to the "German model", the conditions are explored under which regional economies develop. This includes an analysis of the reunification process, and of the economic and political situation in the new Länder. Further, the question is raised as to how the "German model" can adapt to challenges related to globalization, climate change and economic crises.

**Prerequisite:** 8.0 credits

**Exclusion:** POL372H1

**Recommended Preparation:** 1.0 GGR or POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR347H1 - Efficient Use of Energy

**Previous Course Number:** JGE347H1

**Hours:** 24L/6T

Examines the options available for dramatically reducing our use of primary energy with no reduction in meaningful energy services, through more efficient use of energy at the scale of energy-using devices and of entire energy systems. Topics covered include energy use in buildings, transportation, industry, and agriculture. **Offered alternate years from GGR348H1.**

**Prerequisite:** Physics SPH3U

**Exclusion:** GGR333H1, JGE347H1

**Recommended Preparation:** 8.0 credits including first

year Math and/or Physics

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR348H1 - Carbon-Free Energy

**Previous Course Number:** JGE348H1

**Hours:** 24L/6T

Examines the options available for providing energy from carbon-free energy sources: solar, wind, biomass, nuclear, and fossil fuels with capture and sequestration of CO<sub>2</sub>. The hydrogen economy is also discussed. **Offered alternate years from GGR347H1.**

**Prerequisite:** Physics SPH3U

**Exclusion:** GGR333H1, JGE348H1

**Recommended Preparation:** 8.0 credits including first year Math and/or Physics

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR349H1 - Managing Urban Natures

**Hours:** 24L

Recent calls to action by the Intergovernmental Panel on Climate Change and the World Wildlife Fund indicate we are at a crossroads in responding to accelerating global warming and biodiversity loss. Cities are often at the forefront of these transformations, both in feeling their effects but also initiating responses. How might we reimagine our cities in a way that promotes thriving and equitable ecosystems? What tools exist in the policy landscape to initiate needed changes? What innovative responses are emerging to confront the challenges of increased flooding, rising temperatures, habitat fragmentation, and food insecurity? How might we reimagine an urban commons? With a primary focus on Canadian cities, in this course we explore the ways divergent conceptualizations of urban-nature have informed policies and practices drawing largely from critical, political ecology, and Indigenous perspectives; the policy landscape that informs current urban planning; and new and innovative approaches that help us to reshape and reimagine our relationships to urban nature, including initiatives led by municipalities, non-government organizations and citizens groups.

**Prerequisite:** 8.0 credits

**Exclusion:** GGR300H1 (Topics: Managing Urban Natures), offered in Fall 2017

**Recommended Preparation:** GGR223H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR352H1 - Understanding Spatiality

**Hours:** 24L

Investigates the changing nature of space and our thinking about it, introducing students to a wide range of contemporary geographers and spatial theorists such as Lefebvre, Soja, Gregory, Harvey, Massey and others as well as challenges to this thinking - voices from the margins or peripheries. It will explore changing conceptions of spatiality that inform geographic thought and that help us understand the ways in which political, economic and social power is constituted and contested at a range of spatial scales.

**Recommended Preparation:** 8.0 credits including 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR354H1 - Infrastructure

**Previous Course Number:** GGR300H1 (20175)

**Hours:** 24L

Infrastructure is the term that describes the transportation systems, sewers, pipes, and power lines that provide urban dwellers with necessary public services. In recent years, billions of dollars of public money have been spent upgrading existing infrastructure, and planning and delivering new facilities. Infrastructure has many impacts on the way that people in cities live. The way that infrastructure systems are planned, financed, and distributed impact on environmental sustainability, job creation, social equity, economic development, and urban livability. Moreover, infrastructure has the potential to both serve existing populations, and shape the way that future communities are built. Through lectures, discussions, workshops, readings of scholarly articles and case studies, the course will aim to engage students in the key topics and debates related to the provision of urban infrastructure. Topics to be covered will include: project planning, causes and cures for cost overruns, funding models, financing mechanisms such as public-private partnerships, and the politics of facility planning and management.

**Prerequisite:** 8.0 credits

**Exclusion:** GGR300H1 (Topics: Infrastructure), offered in Summer 2017

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR357H1 - Housing and Community Development

**Hours:** 24L

Focuses on the importance of adequate housing and quality neighbourhoods. It roots theoretical explanations and policy debates in realities using Canada and Toronto as examples. Topics covered include the evolution of public policies relating to social housing, rental housing, homeownership, neighborhoods, and homelessness.

**Recommended Preparation:** 8.0 credits including GGR124H1 and 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR359H1 - Comparative Urban Policy

**Hours:** 24L

This course considers urban public policy. Urban policy is not natural or inevitable response to urban problems. It is actively produced (and contested) by an array of voices, institutions, and social forces. Actualized urban policies are thus best understood and evaluated as products of these influences. The first half of the course will cover broad theoretical matters pertaining to the production of urban policy. The second half of the course will focus more intensively on one problem—urban decline—and explore the actualized approaches that have been brought to bear to manage it.

**Prerequisite:** 8.0 credits including 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR360H1 - Culture, History, and Landscape

**Hours:** 24L

The history of approaches to the idea of landscape. A consideration of the origins and uses of the term in geographical inquiry will be followed by a series of case studies, global in scope, from the Early Modern period to the present. Emphasis will be placed on the representational and lived aspects of landscapes, as well as struggles over their definition, interpretation, and use.

**Recommended Preparation:** 8.0 credits including 1.0 credit in Geography (HUM/BR=1 or SOC SCI/BR=3)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GGR363H1 - Critical Geographies: An Introduction to Radical Ideas on Space, Society and Culture

**Hours:** 36L

Introduces a diversity of critical perspectives for geographers and others, including anarchism, Marxism, feminism, sexual politics, postcolonialism, anti-imperialism and anti-racism. In so doing it illustrates how such radical ideas about space, society and culture have contributed to our political thought and action.

**Recommended Preparation:** 8.0 credits including 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR372H1 - GIS for Public Health

**Hours:** 24L/12P

The goal of this course is to leave students with appreciation of the power of Geographic Information Systems (GIS) to explore and analyze spatial health and medical data. The course will focus on organizing health data in a GIS, clustering detection methods, and basic spatial statistics. Other topics like agent-based models and visualization techniques will be touched upon. Lab work will provide hands on experience with example data, leaving students with a firm grasp of contemporary health and medical problems and a skill set of spatial analytical methods that can be used to solve them.

**Prerequisite:** 8.0 credits

**Exclusion:** GGR300H1(2015-2016), GGR335H5

**Recommended Preparation:** GGR270H1, GGR272H1

**Distribution Requirements:** Science, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR373H1 - Advanced Geographic Information Systems

**Hours:** 24L/24P

Advanced theory, techniques, and applications in geographic information systems (GIS), including interpolation, geostatistics, modeling, and raster and vector analysis. GIS project design and implementation.

**Prerequisite:** GGR273H1

**Recommended Preparation:** 8.0 credits

**Distribution Requirements:** Science, Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR374H1 - Urban Dynamics

**Hours:** 24L

This course will focus on the social and economic repercussions associated with the formation and evolution of polynuclear urban regions in response to global economic restructuring. Foci will include the importance of knowledge and innovation in the process of economic development, social and economic polarization at multiple spatial scales, planning interventions to address these polarities, and strategies and tactics in the promotion of more sustainable urban-centred regional economies.

**Recommended Preparation:** 8.0 credits including 2.0 credits in Geography (SOC SCI/BR=3). A statistics course (GGR270H1 or other) will be an asset.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR382H1 - Field Course in Human Geography

Introduction to field studies in human geography. The course includes exercises and a project during a one-week field study in late August or early September, some preparation during the preceding summer and complementary practical work and/or seminars during the Fall Term. Each student is required to pay the costs of their transportation and accommodation (field trip costs: \$600). Students must register with the department in the spring. Course is limited by size. Preference given to Geography SPE/MAJ/MIN. Applications open to all students. Not eligible for CR/NCR option.

**Prerequisite:** Permission of instructor

**Exclusion:** GGR389H5

**Recommended Preparation:** 8.0 credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR385H1 - Special Topics in Geography

**Previous Course Number:** GGR300H1

**Hours:** 24L

Content in any given year varies by instructor. Students must meet the prerequisites set by the department (see the Geography website for details in May). The program in which this course can be used depends on its content.

## GGR386H1 - Special Topics in Geographic Information Systems

**Previous Course Number:** GGR300H1

**Hours:** 24L

Content in any given year varies by instructor. Students must meet the prerequisites set by the department (see the Geography website for details in May). Can be used towards GIS, Human Geography, and Environmental Geography programs.

**Prerequisite:** GGR272H1

## GGR387H1 - Special Topics in Environmental Geography

**Previous Course Number:** GGR300H1

**Hours:** 24L

Content in any given year varies by instructor. Students must meet the prerequisites set by the department (see the Geography website for details in May). Can be used towards Environmental Geography and Human Geography programs.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR388H1 - Special Topics in Physical & Environmental Geography

**Previous Course Number:** GGR300H1

**Hours:** 24L

Content in any given year varies by instructor. Students must meet the prerequisites set by the department (see the Geography website for details in May). Can be used towards Physical & Environmental Geography and Environmental Geography programs.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR389H1 - Special Topics in Human Geography

**Previous Course Number:** GGR300H1

**Hours:** 24L

Content in any given year varies by instructor. Students must meet the prerequisites set by the department (see

the Geography website for details in May). Can be used towards Human Geography programs.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR390H1 - Field Methods

Introduction to field methods in geomorphology, vegetation mapping/analysis, soils, hydrology, and climatology. The course includes exercises and a group project during a one-week field camp, a little preparation during the preceding summer, and complementary practical work and/or seminars during the Fall Term. Each student is required to pay the costs of their transportation and accommodation (field trip costs: \$475). This course meets the field requirement for Physical & Environmental Geography programs. The field camp normally runs for one week at the end of August. Students must register with the Department by April. Consult with the department in case of conflict or concerns. Course may be limited by size. Not eligible for CR/NCR option.

**Prerequisite:** 1.0 credit from JEG100H1, GGR201H1, GGR203H1, GGR205H1, GGR206H1, GGR305H1, ENV234H1, or permission of the instructor

**Recommended Preparation:** 8.0 credits including GGR270H1

**Distribution Requirements:** Science

## GGR398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## GGR398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## GGR399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at

<https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

## GGR400H1 - Special Topics in Geography I

**Hours:** 24S

Content in any given year depends on instructor. The program in which this course can be used depends on its context. Consult Departmental Office in April.

**Prerequisite:** 10.0 credits

**Recommended Preparation:** 2.0 GGR credits (HUM/BR=1 or SOC SCI/BR=3)

**Distribution Requirements:** Social Science

## GGR401H1 - Special Topics in Geography II

Content in any given year depends on instructor. The program in which this course can be used depends on its context. Consult Departmental Office in April.

**Prerequisite:** 10.0 credits

**Recommended Preparation:** 2.0 credits (SCI/BR=4) in any of GGR/ESS/BIO/CHM/EEB/FOR

**Distribution Requirements:** Science

## GGR405H1 - Sustainable Systems for Natural Resources Management

**Hours:** 24S

This seminar examines the scientific foundations of sustainable natural resource management. Will consider frameworks to assess management and production systems for renewable natural resource and energy development in relation to specific landscapes. Constraints and opportunities to achieving sustainability objectives in different systems will be examined through theoretical and case study evaluations drawn from research literatures. Seminar and self-directed inquiry through individual and team projects. Field trip transportation cost: \$100.

**Prerequisite:** 10.0 credits

**Exclusion:** GGR401H1 (2012-13)

**Recommended Preparation:** 2.0 credits (SCI/BR=4) in any of GGR/BIO/CHM/EEB/ESS/FOR

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## GGR406H1 - Geomorphology and the Anthropocene

**Hours:** 12L/12S

In this seminar course, we will explore the nature of geomorphology and the Anthropocene (the proposed geological time interval during which human activities have greatly impacted the global environment) using a combination of lectures, readings, and discussions. We will consider the ways in which hillslope, fluvial, coastal, aeolian, and other domains have been altered or influenced by humans and consider the role of geomorphology as a science for understanding and examining the changes in landscape form and processes.

**Prerequisite:** GGR201H1

**Exclusion:** GGR401H1 (Special Topics in Geography II: Geomorphology and the Anthropocene), offered in Winter 2020

**Recommended Preparation:** 10.0 credits, GGR272H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR413H1 - Watershed Hydroecology

**Hours:** 24L

Modern developments in hydrology and ecology, including form and process models, interactions of hydrology, ecology and geomorphology; the course emphasizes the use of computer simulation models of drainage basin processes.

**Prerequisite:** 10.0 credits

**Recommended Preparation:** GGR201H1, GGR206H1, GGR270H1, GGR272H1 or GGR337H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR414H1 - Advanced Remote Sensing

**Hours:** 18L/8T/4P/2S

Building on GGR337H1 Environmental Remote Sensing with advanced theories and techniques for land cover mapping, vegetation biophysical and biochemical parameter retrievals, optical and thermal remote sensing of urban environment, and application of satellite remote sensing to terrestrial water and carbon cycle estimation. Basic radiative transfer theories as applied to vegetation will be given in some detail as the basis for various remote

sensing applications. Optical instruments for measuring vegetation structural parameters will be demonstrated in the field.

**Prerequisite:** 10.0 credits including [GGR337H1](#)

**Recommended Preparation:** [GGR272H1](#), [GGR273H1](#), [GGR373H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR416H1 - Environmental Impact Assessment

**Hours:** 24L/4T

Environmental impact assessment (EIA) as a mechanism for avoiding or mediating the potential costs of development. The course focuses on the theory and practice of EIA in Canada in general and Ontario in particular. Using a broad definition of environment, various components of EIA are addressed, with an emphasis on principles, legal and institutional frameworks, stages in the process, and specific analytical techniques.

**Prerequisite:** 10.0 credits and 2.0 GGR credits including [GGR270H1](#), [GGR271H1](#)

**Recommended Preparation:** One of [GGR222H1/GGR223H1](#) or [ENV236H1/JGE236H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR418H1 - Political Economy of Natural Resources

**Hours:** 24S

Examines political aspects of the appropriation of natural resources, including policy and regulation, environmental impacts, and social justice. Emphasis is placed on reading contemporary literature on the politics of resource access and control from geography and other social science disciplines.

**Prerequisite:** 10.0 credits including [GGR223H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR419H1 - Environmental Justice

**Hours:** 24S

Examines how environmental problems affect people, communities and societies differentially and how marginalized communities and people often bear the brunt

of environmental costs, while contributing little to their creation. It uses readings and case studies from across the globe to address the production of environmental injustice and the struggle for environmental justice.

**Prerequisite:** 10.0 credits

**Recommended Preparation:** 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR420H1 - Critical Development Geography

**Hours:** 24L

Examines the politics and processes shaping economic globalization and international development. The course will review a range of critical approaches to development, the historical geography of uneven development, and some emerging approaches to critical development studies. The course focuses on recent scholarly discussions about how to define international development and pays particular attention to the relationships between migration and development in theory and practice. It takes seriously the politics of difference (race, ethnicity, class, gender, nationality and sexuality) and inequality in the critical study of international development research and practice.

**Prerequisite:** 10.0 credits

**Recommended Preparation:** [GGR112H1/GGR124H1](#), [GGR320H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR421H1 - Histories of Geographical Thought

**Hours:** 24S

The history of geography as an intellectual subject, focusing primarily on the modern period, and on the genealogies of central concepts. Disciplinary developments will be situated next to broader contexts, including imperialism and militarism, the relationship between culture and nature, and the shifting social role of the academy.

**Prerequisite:** 10.0 credits

**Recommended Preparation:** 2.0 credits in Geography (HUM/BR=1 or SOC SCI/BR=3)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## GGR424H1 - Transportation Geography and Planning

**Previous Course Number:** GGR324H1

**Hours:** 24L

Introductory overview of major issues in interurban and intraurban transportation at the local, national and international scale. Topics include urban transportation, land use patterns and the environment, causes of and cures for congestion, public transit, infrastructure finance, and transport planning and policy setting.

**Prerequisite:** 10.0 credits including one of

GGR124H1/GGR220H1/GGR221H1

**Exclusion:** GGR324H1, CITC18H3

**Recommended Preparation:** GGR270H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR428H1 - Alternative Economies: Another Economy is Possible

**Hours:** 24S

Between neoliberal capitalism and state socialism are many innovative enterprise models to empower people and protect the planet. This course compares the range of such enterprise models across the three factors of production – land, labour, and capital – from community companies to cooperatives, peer-to-peer non-profit technologies, credit unions, community land trusts and beyond. Planning/policy's role in their development in different spaces and places, both urban and rural, is evaluated. Relevant multi-disciplinary and geographical conceptual frameworks -- alternative, diverse, and community economies; the commons/commoning; community control; economic democracy; social and solidarity economies; and feminist and BIPOC economic frameworks -- are also compared.

**Prerequisite:** 10.0 credits

**Recommended Preparation:** Two of: GGR124H1, GGR221H1, GGR324H1, GGR328H1, GGR339H1, GGR357H1, GGR359H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR429H1 - Innovation and Governance

**Previous Course Number:** POL408H1

**Hours:** 24S

The course focuses on a broad range of topics related to innovation and governance, such as (i) technological

change and its social and economic consequences, (ii) the spatial effects which result from this, and (iii) the necessities for economic policies at different territorial levels. Since international competitiveness of industrialized economies cannot be based on cost advantages alone, future growth in the knowledge-based economy will be increasingly associated with capabilities related to creativity, knowledge generation and innovation. As a consequence, questions regarding the performance in innovation and effectiveness of policy support become decisive at the firm level, regional level and national level. The first part of the course deals with conceptual foundations of innovation processes, such as evolutionary and institutional views of innovation. In the second part, national configurations of innovation processes are investigated. The third part deals with innovation at the subnational level, focusing on regional clustering, institution building, multilevel governance, and regionalized innovation systems.

**Prerequisite:** 10.0 credits

**Exclusion:** POL408H1

**Recommended Preparation:** One of GGR221H1, GGR251H1, GGR324H1, GGR326H1, GGR328H1, GGR374H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR430H1 - Geographies of Markets

**Hours:** 36S

Focuses on actually-existing markets and their geographically-mediated formation and assemblage. Explores how markets are produced, stabilized, reshaped and fall apart at multiple geographic scales. We examine issues such as the debates on states versus markets, embeddedness of markets, neoliberalism and moral justification of markets, varieties of capitalism, regionally variegated capitalism, post-socialist market transitions, and the dynamic evolution of market institutions and economic landscapes.

**Prerequisite:** 10.0 credits including at least 1.0 credit in 300+ level Geography (SOC SCI/BR=3)

**Exclusion:** GGR400H1 (2013-14)

**Recommended Preparation:** GGR220H1/GGR221H1, GGR326H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR431H1 - Regional Dynamics

**Hours:** 24L

Economic activity, and related indices of socioeconomic well-being and human capital, have always tended to concentrate in space, leaving specific regions to be

classified as “creative”, “developed”, or “core” regions and others as “have-not”, “less-developed”, “peripheral”, or “marginal” regions. As a result, regional economic change has been very difficult to fully explain (and certainly predict) using conventional (orthodox) theories and methods. This course examines the theoretical linkage between related trends in terms of globalization, vertical disintegration, specialization, innovation, and the locational behaviour of firms. We will focus on the seemingly counter-intuitive finding that regional economic change in a time of increasing global interdependence is increasingly dependent on the local context. Topics will include evolutionary economic geography, path dependence, economic clusters, learning regions, the role of institutions, knowledge spill-overs, and the geography of innovation, among others. We will see why the economic activity is becoming ever more concentrated in space even as it globalizes. The course makes extensive use of empirical case studies from around the globe.

**Prerequisite:** 10.0 credits including [GGR221H1](#)/[GGR251H1](#)

**Recommended Preparation:** [GGR326H1](#), [GGR270H1](#). A statistics course ( [GGR270H1](#) or other) will be an asset.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR433H1 - Built Environment and Health

**Hours:** 36S

Linking across fields that include public health, geography and planning, this course examines the growing evidence and ways in which human health is affected by the design and development of the built environment in which we live, work and play. The course considers how various planning and development decisions impact population and individual health, particularly in relation to chronic diseases, injuries, and mental health. Potential field trip, transportation cost: \$20.

**Prerequisite:** 10.0 credits

**Exclusion:** [GGR400H1](#) (Special Topics in Geography I: Built Environments & Health), offered in Winter 2013

**Recommended Preparation:** 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR434H1 - Building Community Resilience

**Hours:** 36S

Examines concepts of resilience as a way of building the capacity of communities to (a) respond to predicted

disruptions/shocks associated with climate change, global pandemics, anticipated disruptions in global food supply, energy insecurity, and environmental degradation; and (b) nurture the development of alternative spaces that support the emergence of more life-sustaining structures and practices. Includes explicit attention to equity and public health, and explores issues such as: participatory governance of social-ecological systems, the nature of social change, complexity science, the role of social movements, indigenous and political ecology perspectives.

**Prerequisite:** 10.0 credits

**Exclusion:** [GGR400H1](#) (2011-12)

**Recommended Preparation:** 1.0 credit in Geography

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR438H1 - Environment and Development

**Hours:** 36S

Examines the implications of development – as an economic and social project – for how the environment is used, by whom, and to what ends. Draws on literatures in political ecology and critical development geography. Topics include: interpretations of scarcity and degradation, questions of consumption, and the greening of development. Examines expansion of and struggles over new forms of green infrastructure in urban and rural settings.

**Prerequisite:** 10.0 credits

**Recommended Preparation:** 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JIG440H1 - Indigenous Geographies

**Previous Course Number:** GGR400H1 in 20199

**Hours:** 36S

This course draws on theoretical texts of Indigeneity, with a primary focus on Indigenous spaces in the Americas. Course participants will examine how core geographic concepts such as place, territory, land, movement and the scale of the body are sites of colonial dispossession and violence, as well as sites for decolonial and liberatory thought and practice. We will primarily engage with Indigenous-led scholarship within Geography and Indigenous Studies, and creative forms of knowledge production generated across Indigenous communities.

**Prerequisite:** 10.0 credits including one of [INS200H1](#), [INS201Y1](#), [INS250H1](#), [GGR107H1](#), [GGR124H1](#),

GGR240H1, GGR246H1, GGR254H1

**Exclusion:** GGR400H1 (Special Topics in Geography I: Indigenous Geographies), offered in Fall 2019

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR452H1 - Space, Power, Geography: Understanding Spatiality

**Hours:** 24S

Our understanding of space and power has shifted radically in the past half century. Space no longer implies only regions, nations or territory; power is not simply a question of domination, control, or forms of political representation. Space and power are intricately related. This course explores a shift in our ways of thinking about space and power, focusing specifically on the works of Michel Foucault and Gilles Deleuze. Through the works of Deleuze and Foucault, students are introduced to a variety of ways that space and power are organized and contested. The course begins with the maps in our heads: what kinds of spatial systems organize dominant world-views, how have these changed over time? What spatial metaphors do we use to think about power – as hidden and operating at a depth, or as a surface effect? How does the social organization of space figure in the development of different technologies and techniques of power? How do technologies of power become organized, serialized, dispersed, transformed and contested?

**Prerequisite:** 10.0 credits including at least one (or an equivalent) of GGR327H1, GGR328H1, GGR339H1, GGR352H1, GGR360H1, GGR363H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR456H1 - Entanglements of Power: Race, Sexuality and the City

**Hours:** 24S

This course investigates the city as a space sculpted by particular configurations and relations of power, and productive of those forms. It considers shifting urban geographies of identity, economy and desire with a focus on race and racism, settler colonialism, empire, the laboring body, sexuality, and sexual identity. Course participants will engage a series of case studies of particular urban spaces and struggles, drawing on conceptual support from scholarship in urban geography, anti-colonial thought, political economy, black studies, feminist and queer theory, Indigenous and settler colonial studies, as well as literature and other artistic work.

**Prerequisite:** 10.0 credits

**Exclusion:** GGR400H1 (Special Topics in Geography I:

Entanglements of Power: Race, Sexuality and the City), offered in Fall 2018

**Recommended Preparation:** 2.0 credits in GGR

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR457H1 - The Post-War Suburbs

**Hours:** 24L

Investigates post-war suburbs, beginning with an examination of their competing contemporary meanings. It considers images of prosperous private enclaves, of declining and difficult to access places, of racialized and segregated areas, of banality and homogeneity, of precarity and polarization, and of creative social struggles. It assesses these different visions through an analysis of urban growth and change since WWII. The course will focus on themes of public and private space; class, race and segregation; gender and suburban space; immigration; urban sprawl, and the changing social and economic geography of the suburbs. It examines North American areas, with examples from Australia and Europe.

**Prerequisite:** 10.0 credits

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR458H1 - Selected Topics in Urban Geography

**Hours:** 24L

This course focuses on a special topic in urban geography and covers it with more depth than would otherwise be the case in a survey-oriented class. The aim is to utilize this single topic as a vehicle to understanding how urban geographical ideas are produced more widely. Check the department website for the theme (updated each year).

**Prerequisite:** 10.0 credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR460H1 - Global Cities, Urban Planning, Critical Theory

**Previous Course Number:** GGR400H1 (20181)

**Hours:** 36S

This seminar addresses the relationship between urbanization and global economic, political, cultural, social, demographic, technological and ecological dynamics. It does so with an emphasis on the contested

legacies of city planning, urban design, architecture and urban political activism, by drawing on historical studies of global cities as well as critical-theoretical perspectives on the 'production of space'. While broaching the question what's 'production of space' got to do with social justice, we explore—with reference to pioneering thinkers in the fields of planning, architecture and critical theory—such concepts as radical planning, the urban revolution and the right to the city.

**Prerequisite:** 10.0 credits

**Exclusion:** GGR400H1 (Topics: Planning and Global Cities), offered in Winter 2018

**Recommended Preparation:** 1.0 credit in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR462H1 - GIS Research Project

**Hours:** 24L

Students work in groups to develop their own research project and then acquire, organize and analyze geographic data to complete it. Emphasis is placed on research design, project management and the application of GIS concepts and skills learned in previous courses to a practical problem.

**Prerequisite:** GGR373H1

**Recommended Preparation:** 10.0 credits

**Distribution Requirements:** Science, Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR472H1 - Developing Web Maps

**Hours:** 24L

Explores the power of web mapping and CyberGIS, with a focus on hands-on learning and open source software. Students will learn about relevant software (exploring various APIs), data structures, methods, and cartographic and visualization techniques. Finally, students will work in groups to develop and deliver their own online web maps from scratch, on a topic of their choosing.

**Prerequisite:** 10.0 credits including GGR272H1 and GGR273H1

**Exclusion:** GGR400H1 (2015-2016)

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## GGR481H1 - Field Course in Environmental Geography

Introduction to field studies in environmental geography. The course may include individual assignments and group work. Field trips are concentrated during a one-week period in late August or early September. Some preparation during the preceding summer may be required. Periodic course meetings and shorter field trips continue, along with course work, during the Fall Term. Each student is required to pay the costs of their transportation and accommodation (field trip costs: \$100). Students must register with the Department by April. Course may be limited by size. Not eligible for CR/NCR option.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** 10.0 credits including 3.0 credits in Geography (SOC SCI/BR=3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR482H1 - Toronto Field Course

Examines the production of urban landscapes, built environments and social spaces in Toronto and surrounding areas through in-depth case studies. Coverage will vary some depending on instructor. The course consists of local field trips and in-class seminars and lectures. Students must apply with the Department. Contact the Department in January for deadlines. Course is limited by size. Preference given to Geography SPE/MAJ/MIN. Applications open to all students. Not eligible for CR/NCR option. Field trip costs are normally low, but may go up to \$150.

**Prerequisite:** 10.0 credits

**Recommended Preparation:** 2.0 GGR credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## GGR491Y1 - Research Project

Specially designed for students wishing to gain experience in conducting research in their area of specialization. Of particular value for geographers interested in graduate study, or positions in government, planning and consulting firms where research skills may be an asset. Students select a research problem and complete a project under the supervision of a faculty member. Enrolment requires written permission from a faculty supervisor and Associate Chair, Undergraduate; early discussion with a likely supervisor is encouraged. Enrolment may be completed at any time up to September; open to students in a Specialist or Major Program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Prerequisite:** 10.0 credits

**Distribution Requirements:** Social Science

## GGR492Y1 - Senior Practicum

Students design and implement an independent applied geography/planning/GIS project in consultation with an employer (paid or volunteer), who will act as their "client". Enrolment required written permission from a staff supervisor and Associate Chair, Undergraduate. Only open to students who have completed 10.0 credits and who are enrolled in a Specialist, Major or GIS minor program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## GGR492H1 - Senior Practicum

Students design and implement an independent applied geography/planning project in consultation with an employer (paid or volunteer), who will act as their "client." Enrolment requires written permission from a staff supervisor and Associate Chair, Undergraduate. Only open to students who are enrolled in a Specialist or Major program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## GGR493Y1 - Geography Professional Experience

Undertake professional placement matching academic interests and career goals. Students meet regularly during the year in class to cover topics such as: reflective writing, project management, career planning, and the application of academic skills in professional contexts. Research project required that connects a topic related to placement with academic literatures. Normally, one day per week spent at placement site. For students in their final year of a Geography major or specialist program of study, or the GIS Minor. Satisfies program requirements based on placement. Space limited. Applications are reviewed in early spring. Not eligible for CR/NCR option.

**Prerequisite:** 14.5 credits and an application

## GGR496H1 - Independent Research

Independent research extension to one of the courses already completed in Geographic Information Systems. Enrolment requires written permission from a faculty supervisor and Associate Chair, Undergraduate. Only

open to students who are in Year 3 or higher and who are enrolled in the GIS program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Prerequisite:** 10.0 credits

## GGR497H1 - Independent Research

Independent research extension to one of the courses already completed in Environmental Geography. Enrolment requires written permission from a faculty supervisor and Associate Chair, Undergraduate. Only open to students who are in Year 3 or higher and who are enrolled in a Specialist or Major program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Prerequisite:** 10.0 credits

**Distribution Requirements:** Social Science

## GGR498H1 - Independent Research

Independent research extension to one of the courses already completed in Physical Geography. Enrolment requires written permission from a faculty supervisor and Associate Chair, Undergraduate. Only open to students in Year 3 or higher and who are enrolled in a Specialist or Major program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Prerequisite:** 10.0 credits

**Distribution Requirements:** Science

## GGR499H1 - Independent Research

Independent research extension to one of the courses already completed in a social science or humanities branch of Geography. Enrolment requires written permission from a faculty supervisor and Associate Chair, Undergraduate. Only open to students in Year 3 or higher who are enrolled in a Specialist or Major program sponsored by the Department of Geography. Not eligible for CR/NCR option.

**Prerequisite:** 10.0 credits

**Distribution Requirements:** Humanities, Social Science

# National University of Singapore Courses

## NUS250H0 - Cities in Transition

This module is concerned with the changing roles of cities in an age of globalization. The first part examines cities as part of urban networks at the national, regional and international levels, and focuses on the implications arising from the rise of mega-cities and global cities. The second half of the module investigates the challenges facing cities on the ground, including issues of the revitalization and re-imagining of city cores, changing retail landscapes, and the impact of telecommunications on the location of urban activities and peoples' mobility. The module is targeted at students with an interest in urban issues. (Co-listed as GE2204 National University of Singapore)

**Recommended Preparation:** 4.0 credits  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NUS251H0 - Southeast Asia

This module deals with a multi-disciplinary approach to understanding the regional geography of Southeast Asia. Students are expected not only to critically analyze their readings but also to be able to synthesize materials to provide a holistic understanding of the region. Specifically, it looks at the region through historical, cultural, social and political-economic perspectives. The module also discusses sustainable development issues. This is a module that is open to all students in the Faculty of Arts & Social Sciences, Engineering, Law, Science, School of Design & Environment and School of Business. (Co-listed as GE2226 National University of Singapore)

**Exclusion:** [GGR342H1](#)  
**Recommended Preparation:** 4.0 credits  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NUS252H0 - Rice, Spice & Trees: Peasants in Southeast Asia

Southeast Asia has been, and still is comprised of predominantly rural and agrarian societies. This module seeks to develop an understanding of peasant life in the region. Topics to be studied include the village as a construct, the "moral economy" of the peasantry, land and man relations, economic output, and peasant beliefs, consciousness, and cultural expressions. With the peasants' increasing involvement in the world market and the nation-state, it is also important to consider the

penetration of capitalism into the rural economy, as well as the demand for supra-village identification and loyalties. Notions of "development" as they pertain to the peasants, and as postulated by the state, non-governmental organizations and the peasants themselves are also discussed. (Co-listed as SE3213 National University of Singapore)

**Recommended Preparation:** 4.0 credits  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NUS253H0 - Economy and Space

This module examines relationships between economy and space through a focus on 'development'. Through interrogating theories, strategies and trajectories of 'development', students will develop an understanding of the past and contemporary global political economy and its geographies. The course will emphasize the geopolitical and cultural backdrops to 'development' and attendant economic geographies amidst debates about 'globalization', international trade and investment. (Co-listed as GE2202 National University of Singapore)

**Recommended Preparation:** 4.0 credits  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NUS254H0 - Geographies of Social Life

This module explores debates in geography about social issues. It emphasizes the relationship between social identity and social space, and how different places reflect and shape diverse ways of life. The module examines the role of space in the interplay of different social groups (e.g. ethnic groups, men/women), and in relation to different aspects of daily life (e.g. housing, leisure). Its emphasis, however, is on how to think about these issues in different scales/contexts (streets, public spaces, global cities). The course is intended for geography majors, and students throughout NUS with an interest in the relationship between society and space. (Co-listed as SE2224 National University of Singapore)

**Recommended Preparation:** 4.0 credits  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NUS255H0 - Cities and Urban Life in Southeast Asia

Are Southeast Asian urban models unique from those of the West? This module uses historical and emerging developments to re-evaluate debates on Southeast Asian urbanization. The particularities of Southeast Asian

urbanization will be examined both in terms of its intertwined history with the rest of the world as well as the politics of time and space. The module aims at developing a critical understanding of the interaction between historical, political-economic and cultural processes that constitute urbanization in Southeast Asia. (Co-listed as SE2212 National University of Singapore)

**Recommended Preparation:** 4.0 credits  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NUS256H0 - Changing Landscape of Singapore

This module attempts to understand the rationale of changes in Singapore's urban landscape. It places these changes within a framework that considers Singapore's efforts to globalize and examines how policies are formulated with the idea of sustaining an economy that has integral links sub-regionally with Southeast Asia while developing new spatial linkages that will strengthen its position in the global network. Emphasis is also given to recent discussions about how diversity and difference in the perception and use of space pose a challenge to the utilitarian and functional definition adopted by the state. (Co-listed as GEK2001/SSA2202 National University of Singapore)

**Recommended Preparation:** 4.0 credits  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NUS350H0 - Natural Resources: Policy and Practice

This module examines important geographical, ecological and political concepts and approaches to natural resources management. In particular, we focus on ownership regimes, access, exploitation and conservation in different social, economic and cultural contexts. Detailed cases of fisheries, forestry, freshwater and agriculture conflicts and problems are discussed. (Co-listed as GE3210 National University of Singapore)

**Recommended Preparation:** 4.0 credits  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NUS351Y0 - Field Studies in Geography: SE Asia

The module exposes students to different geographical methods, both human and physical, and as such it is an ideal preparation for any student wishing to undertake

further primary research at higher levels in geography, and other social science disciplines. After a series of lectures/seminars on fieldwork methods, fieldwork ethics, and health and safety issues in the field (which may include some basic introductory language classes), students then undertake a 2 – 5 week period of field study overseas, depending on logistical and other constraints. Previous field studies have been for periods of 4-5 weeks overseas in Thailand and Malaysia. While overseas, students undergo orientation workshops, meet peers in host universities, and visit potential field sites before conducting an intensive period of fieldwork in small groups of 3-5 students. (Co-listed as GE3230A at the National University of Singapore)

**Recommended Preparation:** 4.0 credits  
**Distribution Requirements:** Social Science

## NUS352H0 - East Asia

This module examines aspects of the geography of East Asia, which includes China, Hong Kong, Taiwan, Japan and Korea. Emphasis is placed on the developmental processes and the underlying physical, political, socio-cultural and economic factors that account for their development. It evaluates various discourses on East Asian development and also assesses the impact of East Asian development on regional conflicts, patterns of social change, urbanization and sub-regional integration. (Co-listed as GE3209 at the National University of Singapore)

**Recommended Preparation:** 4.0 credits  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NUS353H0 - Globalization and Asian Cities

This module aims to provide students with an in-depth understanding of the social, political, and economic changes at various geographical scales with respect to globalization. More specifically, the module focuses on developing understandings of the complex forces driving globalization and the related urban and regional changes and the relationship between globalization and regionalization. This module is not just for geography students, but for all students who are interested in the urban and regional changes in the Asia-Pacific with respect to globalization and regionalization and the driving forces of the changes. (Co-listed as GE3219 at the National University of Singapore)

**Recommended Preparation:** 4.0 credits  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **NUS354H0 - South Asia: Development, Issues, Debates**

This module is concerned with understanding and assessing the development experiences of the South Asian countries. Students are expected to grapple with concrete case studies of development programs in their work. The coursework covers issues pertaining to rural, agricultural, urban, industrial and human development, as well as their impact upon people and the environment. Particular attention is given to the situation of the poor and the weak, including disadvantaged children, women, and ethnic minorities. (Co-listed as SN3232 at the National University of Singapore)

**Recommended Preparation:** 4.0 credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## Faculty List

### Professors Emeriti

A.P. Dierick, MA, Ph D (V)  
 R.H. Farquharson, MA, Ph D (V)  
 H. Froeschle, MA, Dr Phil (SM)  
 W. Hempel, Dr Phil (SM)  
 H.L.M. Mayer, Dr Phil (V)  
 H.W. Seliger, M.A. Ph D (V)  
 D. W.J. Vincent, MA, Ph D (T)

### Chair of the Department

TBA

### Associate Professor and Associate Chair (Graduate Studies)

TBA

### Associate Chair (Undergraduate Studies)

TBA

### Full Professors

W. Goetschel, Ph D  
 J. Noyes, Ph D (on leave, winter 2020)  
 A. Shternshis, Dr. Phil  
 J. Zilcosky, MA, Ph D (on leave, fall 2019)

### Associate Professors

A. Fenner, Ph D  
 M. Hager, Dr. Phil  
 C. Lehleiter, MA, Ph D  
 S. Soldovieri, MA, Ph D  
 M. Stock, Dr. Phil (on leave, 2019-2020)

### Associate Professor, Teaching Stream

E. Boran, MA, Ph D

### Assistant Professor, Teaching Stream

Hang-Sun Kim, Ph D (on leave, winter 2020)

## Introduction

German-speaking countries enjoy a long tradition at the cultural and political core of Europe. During the last two hundred years their importance has steadily increased, and with the recent developments in Eastern Europe their influence seems certain to expand even more.

The importance of the German language has grown correspondingly: it is the second foreign language after English in the countries of central and Eastern Europe, and its use is spreading within the European Community. Learning German opens the door to many fields of

intellectual, technical and politico-economic endeavor. German scholars have been leaders in philosophy, the sciences, history, archaeology, sociology and political science. German literature is equally distinguished: writers like Goethe, Kafka, Rilke, Brecht, Mann, Wolf, Grass, Jelinek, Özdamar, etc., have dealt with the widest possible range of human problems and concerns, and have been recognized worldwide.

The Department of Germanic Languages and Literatures offers courses on literature from the Middle Ages to the present, so that the student may acquire an overview of this significant element of German life and culture. We offer language courses from beginning and intermediate to advanced levels, with practice in reading, writing, comprehending and speaking German, as well as stylistics, linguistics, and the specialized vocabulary and concepts of business. Language and literature instruction is integrated as far as possible, with the aim of teaching students advanced critical literacy in German. The department offers a minor in Yiddish, with instruction offered from beginning and intermediate to advanced levels. German combines well with other modern languages and literatures, and double-majors are encouraged. Students in a variety of programs, such as Cinema Studies, European Studies, Literary Studies, Drama, Music and others, will benefit from courses in German language, literature and culture. The Department supports opportunities for students to study and work in Germany, by encouraging participation in programs established by the German government, by Canadian universities, and by our own Arts and Science Faculty's Study Elsewhere Program. One of these is the exchange program under which Toronto students can spend the academic year at the Humboldt University in Berlin.

A knowledge of German is a virtual necessity for specialists in many disciplines; it is also very useful in certain career areas (e.g., the foreign service, interpretation and translation, librarianship, business and commerce, music, tourism, and of course teaching). The successful completion of a four-year program, including seven approved courses in German, may entitle the student to enter the M.A. or Ph.D. program in the Graduate Division of the Department.

Students entering with some previous knowledge of German are required to contact the department to write an initial assessment test (placement test) and will then be advised to take courses at the appropriate level. Please check the department's website at [german.utoronto.ca](http://german.utoronto.ca) for more information.

Information on studies in German Language and/or Literature can be obtained from the Associate Chair for Undergraduate Studies at [german.undergrad@utoronto.ca](mailto:german.undergrad@utoronto.ca).

## German Programs

### German Studies in English (Arts Program) - ASMIN1405

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

#### Requirements:

1. The Minor Program requires 4.0 credits, of which 3.0 credits must be GER courses.
2. [GER150H1](#) is required.
3. A maximum of 1.0 credit in cognate courses is allowed (i.e. courses offered by other departments containing a relevant Germanic component and a final paper on a Germanic topic); please inquire at the Department and get approved in advance.

For a list of courses taught in English, please check the German Department website.

Note: Students registered for a German Specialist or Major may not simultaneously be registered for a German Minor program.

### German Studies Specialist (Arts Program) - ASSPE1400

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(10 full courses or their equivalent)

1. [GER100Y1](#), [GER200Y1](#), [GER300Y1](#), [GER400H1](#)
2. [GER150H1](#) (to be taken as early as possible), [GER205H1](#) (should be taken together with

[GER200Y1](#), must be taken prior to completing [GER300Y1](#), [GER305H1](#)

3. At least 2.5 additional F.C.E. in GER courses on the 300-level
4. At least 1.0 additional F.C.E. in GER courses on the 400-level (except [GER401H1](#))
5. No more than 3.0 F.C.E. courses taught in English
6. Up to 2 F.C.E. in identified or preapproved cognate courses may count (i.e. courses offered by other departments containing a relevant Germanic component and a final paper on a Germanic topic); please inquire at the Department and get approved in advance.

Notes: (a) All specialists should schedule an appointment with the Undergraduate Coordinator for personalized counselling as early in their studies as possible; (b) students with prior German knowledge are required to contact the department to take a placement test; self-placement is not allowed; (c) Completion of [GER205H1](#) is a prerequisite for taking ANY 300-level literature courses taught in German; (d) completion of [GER305H1](#) is a prerequisite for taking ANY 400-level literature courses taught in German; (e) 300-level courses may be replaced by 400-level courses (inquire in advance); (f) [GER401H1](#) is not a program requirement, but recommended.

### German Studies Major (Arts Program) - ASMAJ1400

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(7 full courses or their equivalent)

1. [GER100Y1](#), [GER200Y1](#), [GER300Y1](#), [GER400H1](#)
2. [GER150H1](#) (to be taken as early as possible), [GER205H1](#) (should be taken together with [GER200Y1](#), must be taken prior to completing [GER300Y1](#), [GER305H1](#))
3. At least 1.5 additional F.C.E. in GER courses on the 300-level
4. At least 0.5 additional F.C.E. in GER courses on the 400-level (except [GER401H1](#))
5. No more than 1.5 F.C.E. courses taught in English
6. Up to 1.0 F.C.E. in identified or preapproved cognate courses may count (i.e. courses offered by other departments containing a relevant Germanic component and a final paper on a Germanic topic); please inquire at the Department and get approved in advance.

Notes: (a) All majors should schedule an appointment with the Undergraduate Coordinator for personalized counselling as early in their studies as possible; (b) students with prior German knowledge are required to contact the department to take a placement test; self-placement is not allowed; (c) Completion of [GER205H1](#) is a prerequisite for taking ANY 300-level literature courses taught in German; (d) completion of [GER305H1](#) is a prerequisite for taking ANY 400-level literature courses taught in German; (e) 300-level courses may be replaced by 400-level courses (inquire in advance); (f) [GER401H1](#) is not a program requirement, but recommended.

## Al and Malka Green Yiddish Program Minor (Arts Program) - ASMIN1163

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits)

1. ([GER260Y1](#) and [GER360H1](#))/ [GER463Y1](#)
2. [GER460H1](#)/ [GER462H1](#)\*
3. The remaining courses should be taken from: [GER361H1](#), [GER367H1](#), [JGJ360H1](#), [GER100Y1](#), [GER150H1](#), or any course offered by and cross-listed by the Centre for Jewish Studies

### \*NOTE:

1. Students who took [GER463Y1](#) cannot take [GER260Y1](#) or [GER360H1](#); students who took [GER260Y1](#) or [GER360H1](#) cannot take [GER463Y1](#).
2. Students who took [GER462H1](#) cannot take [GER460H1](#).

### Course Groups

*Centre for Jewish Studies Courses:*  
[CJS200H1](#), [CJS201H1](#), [CJS390H1](#), [CJS498Y1](#),  
[CJS499H1](#)

*Anthropology Courses:*  
[ANT384H1](#), [ANT426H1](#)

*Canadian Studies Courses:*  
[CDN380H1](#)

*Diaspora and Transnational Studies Courses:*  
[DTS200Y1](#), [DTS300H1](#), [DTS404H1](#)

*School of the Environment Courses:*  
[ENV382H1](#)

*History Courses:*  
[HIS208Y1](#), [HIS242H1](#), [HIS304H1](#), [HIS317H1](#), [HIS338H1](#),  
[HIS339H1](#), [HIS351Y1](#), [HIS353Y1](#), [HIS361H1](#), [HIS442H1](#),  
[HIS444H1](#), [HIS451H1](#)

*Near and Middle Eastern Civilizations Courses:*  
[NML155H1](#), [NML156H1](#), [HIS303H1](#), [NML255H1](#),  
[NML220Y1](#), [NML256H1](#), [NML350H1](#), [NML355H1](#),  
[NML356H1](#)

*Philosophy Courses:*  
[PHL338H1](#), [PHL362H1](#), [PHL370H1](#), [PHL410H1](#)

*Political Science Courses:*  
[POL345Y1](#), [POL430Y1](#), [POL438H1](#), [POL484H1](#),  
[POL486H1](#)

*Religion Courses:*  
[MHB155H1](#), [MHB156H1](#), [MHB255H1](#), [MHB256H1](#),  
[MHB355H1](#), [MHB356H1](#), [RLG100Y1](#), [RLG202H1](#),  
[RLG220H1](#), [RLG241H1](#), [RLG280Y1](#), [RLG316H1](#),  
[RLG322H1](#), [RLG326H1](#), [RLG336H1](#), [RLG341H1](#),  
[RLG342H1](#), [RLG347H1](#), [RLG389H1](#), [RLG411H1](#),  
[RLG418H1](#), [RLG431H1](#), [RLG452H1](#)

*Slavic Languages and Literatures Courses:*  
[SLA202H1](#), [SLA230H1](#), [SLA495H1](#)

*Sociology Courses:*  
[SOC201H1](#), [SOC251H1](#)

## Business German Minor (Arts Program) - ASMIN2453

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 GER credits)

1. [GER100Y1](#)/ [GER200Y1](#), OR proof of comparable German level
2. [GER370H1](#) and [GER372H1](#)
3. 1.0 credit must be taken from [GER270H1](#)/ [GER272H1](#)/  
[GER290H1](#)/ [GER391H1](#)

4. 1.0 additional GER or JGJ credit excluding [GER150H1](#), [GER194H1](#), [GER195H1](#), [GER197H1](#), [GER198H1](#), [GER199H1](#), [GER220H1](#), [GER251H1](#), [GER275H1](#), [GER354Y0](#), [JGJ360H1](#), [GER361H1](#), and [GER410H1](#). Cognate courses may be substituted with approval of the department.

Note: Students enrolled in the German Studies Specialist of Major Program may not simultaneously enroll for a Business German Minor Program.

## German Studies Minor (Arts Program) - ASMIN1400

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4 full courses or their equivalent)

1. [GER100Y1](#), [GER200Y1](#), [GER300Y1](#)
2. 1.0 F.C.E. in courses with a GER designator, but cannot be [GER400H1](#) or [GER401H1](#).
3. No more than 0.5 F.C.E. may be taken in English

Note: (a) Students registered for a German Specialist or Major may not simultaneously be registered for a German Minor program; (b) students with prior German knowledge are required to take a placement test and to see the adviser; (c) the exclusion of [GER400H1](#) and [GER401H1](#) does not apply if the student's entry level is post-[GER100Y1](#).

## Certificate in Global German Studies (UofT Global Scholar) - ASCER1401

### Enrolment Requirements:

This is an open enrolment Certificate. A student who has completed 4.0 credits may enrol in the Certificate.

### Completion Requirements:

(Total: 2.0 credits)

- 1.0 credit in German language at any level, including [GER100Y1](#), [GER101H1](#), [GER200Y1](#), [GER201H1](#), [GER272H1](#), [GER300Y1](#), [GER301H1](#), [GER370H1](#), [GER372H1](#), [GER400H1](#).

- Students with very advanced previous knowledge of German may in consultation with the Department take a combination of other 300 or 400-level GER topics courses (taught in German) to meet the requirement.
- [GER290H1](#) 'Global Issues / German Contexts'.
- 0.5 credit in global experience. May take the form of an internship course, [GER391H1](#) 'iPRAKTIKUM Experiential Learning and Internationalization Internship'. Students may also complete a study abroad course in a German-speaking country, such as [GER354Y0](#). International Course Modules (ICM) or the [GER398H0](#) Research Excursion Program also fulfil the global experience requirement with the previous consent of the department.

## Faculty of Arts & Science Language Citation

The Department of Germanic Languages and Literatures participates in the Faculty of Arts & Science's Language Citation initiative for German. The study of German is a demanding and intellectually rewarding educational experience, providing students with excellent resources for understanding the culture of the German speaking world. German is now the second foreign language after English in the countries of central and Eastern Europe, and its use is spreading within the European Community. Learning German opens the door to many intellectual, technical, political, and economic fields. Successful study of German demonstrates intelligence, discipline, analytical sophistication, and an excellent memory. The study of any foreign language provides invaluable insights into the varieties of human culture and expression.

The Language Citation recognizes a significant level of achievement in language study with a high level of academic success. The Citation in German is available to students who complete [GER100Y1](#) (or the equivalent prerequisite training) and earn a grade of at least B- in [GER200Y1](#) and [GER300Y1](#).

Students should note that, as explained in the [About Programs of Study](#) section of this Calendar, the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

## Notes:

1. All students with previous knowledge of the German language, as well as students returning from extended stays in German-speaking countries, are REQUIRED to take a placement test offered at the Department.

2. The Department reserves the right to place students in the language course appropriate to their level of language skill.
3. More detailed course descriptions and reading lists for the various courses are available from the instructor.
4. Courses that indicate "(E)" in the title are taught in English.

## German Courses

### GER100Y1 - Introduction to German

**Hours:** 96P

This is the language course to take if you have had no previous experience of the German language. The emphasis is on comprehension, speaking, reading, writing, vocabulary and basic grammar. This course can be counted towards all programs in German.

Note: Students with any previous knowledge of German are REQUIRED to take a placement test offered at the department.

**Exclusion:** Senior high school German or equivalent.  
Note: Students with any previous knowledge of German are required to take a placement test offered at the department.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

### GER101H1 - Introduction to German b

**Hours:** 48P

This course is intended for students with some prior knowledge of German. It is equivalent to the Spring Term of GER100Y1. The emphasis is on comprehension, speaking, reading, writing, vocabulary and basic grammar.

**Exclusion:** Senior high school German or equivalent.  
GER100Y1.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

### GER150H1 - Introduction to German Culture (E)

**Hours:** 24L/12T

This course taught in English is intended for students who are unfamiliar with German culture. It examines historical, political and cultural developments in Germany from about 1871 to the present focusing on literary and non-literary texts. (Note: This course is required for the major and specialist program; it should be taken within the first two years.)

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

### GER194H1 - Our Vampires, Ourselves (E)

**Hours:** 24S

Vampires are among the most fascinating figures of popular culture. Since Bram Stoker's *Dracula* (1897) – and, in fact, well before that – they have been haunting the human imagination in various shapes and forms. This course examines the figure of the vampire as a potent cultural metaphor in the German context and beyond, showing how every age embraces the vampires it needs and gets the vampires it deserves. The goal is to teach students to reflect critically and independently on issues of self and society and to develop a structured approach to critical thinking in general. All readings and class discussions will be in English. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

### GER195H1 - Cities, Real and Imagined (E)

**Hours:** 24S

Cities have been described as places of desire and places of fear. They pulse with life, bringing together people from different class, gender, and ethnic backgrounds, simultaneously giving rise to a sense of freedom and oppression, a sense of belonging and alienation. This course will explore the city as a physical reality that shapes our lives, but is also a projection of our deepest

imaginings. Through readings of philosophical and sociological texts by influential theorists of the city, we will consider various ancient and modern conceptions of urban space and subjectivity. Alongside these theoretical readings, we will also examine literary and filmic representations of the city as a space of desire, memory and power. All readings and class discussions are in English. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER196H1 - "Es war einmal auf Deutsch" - Learning German with Fairy Tales

**Hours:** 24S

Grimms' Fairy Tales – we all know and love them. But what do we *really* know? Which versions are we familiar with? Most likely not the ones by the Brothers Grimm. And certainly not in German! This course is a journey into the mythical German Schwarzwald, a place of wolves and witches, the realm of the fantastic. It is not a traditional language course, as we won't be cramming grammar and vocabulary, at least not excessively. Rather, we will learn German playfully by reading, analyzing and acting out original folk tales, their Romantic adaptations and modern retellings. In the process we will enrich our understanding of German language and culture. Please note that basic knowledge of German is required to participate in this course (i.e. at least one year of solid high school instruction). Restricted to first-year students. Not eligible for CR/NCR option.

**Prerequisite:** One year of German instruction, or equivalent

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER197H1 - Poets and Power: Art under the Nazis (E)

**Hours:** 24S

Did you know that Hitler was a failed artist? Goebbels a poet? Göring a collector of art? That there was an orchestra in Auschwitz?

In this course we will examine the ways in which politics and aesthetics intertwined in Nazism: the fascist cult of beauty; the theatrics of political propaganda; anti-Semitic entertainment films; and the eroticization of the Führer-

figure. We will investigate this marriage of beauty and violence, and ask ourselves: What made the "Third Reich" so attractive to so many? Beginning with the great aesthetic movements from the pre-Nazi era, we will analyze Hitler's 1937 ban on "degenerate," modern art, as well as his return to Greek and Roman images of beauty. Throughout the course, we will consider some of the high points of German culture – in philosophy, music, and literature – and ask: How did a society that produced such works of genius also create Nazism and the Holocaust? Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER198H1 - Technology and the Human in German Literature and Thought (E)

**Hours:** 24S

Technology has changed our lives, and scientific knowledge has enhanced human capacities. At the same time, though, this development is also experienced as a threat. Killing missiles, controlling 'Big Brothers,' and monstrous creatures are often considered the flip-side of technological advancement. This course asks: What is the relationship between technology and the "human"? Can there be progress of technology without a regress of humanity? Or is technology liberating us from the bonds of nature? We will discuss possible answers to these questions by looking at key texts in German literature, philosophy, and cultural history from the eighteenth century to Post-Modernity. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER199H1 - The Pleasure of Reading: Reading as Self-Emancipation in the German Literary Tradition (E)

**Hours:** 24S

In this course we read some of the most enjoyable plots and stories in German Literature and examine how the pleasure of reading sets readers free to re-imagine themselves and the world released from everyday pressures and the repressive weight of the status quo. Readings are all in English translation and include texts by Lessing, Goethe, Schiller, Kleist, Keller, Heine and Kafka. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## GER200Y1 - Intermediate German 1

**Hours:** 96P

This course continues the work done in GER100Y1 / GER101H1. It further expands on basic grammar and vocabulary, practice in comprehension, composition, and conversation.

**Prerequisite:** GER100Y1/GER101H1 or German placement test, Senior high school German or equivalent  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## GER201H1 - Intermediate German 1b

**Hours:** 48P

This course is equivalent to the Spring Term of GER200Y1. It further expands on basic grammar and vocabulary, practice in comprehension, composition, and conversation. The Department reserves the right to place students in the appropriate language course on the 200- and 300 levels.

**Prerequisite:** German placement test  
**Exclusion:** GER200Y1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## GER205H1 - German Literature I

**Hours:** 36S

This course offers a transition from the language courses to the topic courses on the 300-level. It introduces students to German literature and provides them with working methods and analytical tools relevant for the study of German literary texts in the original German.

Note: This course is required for the major and specialist program

**Prerequisite:** GER100Y1  
**Corequisite:** GER200Y1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## GER220H1 - German Literature in Translation (E)

**Hours:** 24L/12T

This course taught in English is an introduction to major authors of German literature, such as J.W. Goethe, F. Kafka, T. Mann, G. Grass, C. Wolf and E.S. Özdamar, focusing on their key works and introducing central topics.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## GER251H1 - German and European Cinema (E)

**Hours:** 24P/24S

This course examines German cinema against the backdrop of European film history. European films share common references points anchored in the cataclysms of two world wars, and have also negotiated analogous postwar transformations in family life, urbanization, the regional and the national, cultural identity, labour relations, post-socialist societies, and state security. A comparative approach enables examination of what binds German cinema to European cinema – shared histories and political concerns--as well as what is nationally unique and distinctive. By matching select films with readings from social theory, cultural studies, and film studies, we will compare and contrast these socio-historical concerns while also attending to the medium specificities of film style, aesthetics, and narrative form.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## GER260Y1 - Elementary Yiddish

**Hours:** 72P

This course introduces Yiddish language, literature, music, theater, and cinema through interactive multi-media seminars, designed to build proficiency in reading, writing and comprehending. No prior knowledge of Yiddish is required.

**Exclusion:** GER463Y1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## GER270H1 - Money and Economy in German Literature and Culture (E)

**Hours:** 24L/12T

In this course, we examine key literary, philosophical, and cultural texts, in order to understand how modern culture approaches problems such as property, debt, and exchange value.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## GER272H1 - Introduction to Business German

**Hours:** 36P

This course introduces students to basic concepts and vocabulary necessary for the German business context. All the language skills (reading, writing, listening, and speaking) will be practiced in appropriate business contexts.

**Corequisite:** GER200Y1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## GER275H1 - Marx, Nietzsche, Freud (E)

**Hours:** 24L/12T

This is an introductory course to the thought of Karl Marx, Friedrich Nietzsche, and Sigmund Freud and their pioneering contributions to the understanding of the individual and society in modernity. Readings include selections from writings of the early Marx, the Communist Manifesto, and Capital, Nietzsche's critique of culture, academe, and nationalism, and Freud's theory of culture, his views on the psychopathology of everyday life, on the meaning of dreams, symptoms, the return of the repressed, and what it might mean to live in a free society.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## GER290H1 - Global Issues - German Contexts (E)

**Hours:** 24S

The movement of cultural products, material goods, capital, people, ideas, and information across national borders has resulted in a new quality of global interdependency. The course explores the contemporary character of globalization patterns and problems as they bear on German-speaking contexts. Readings in globalization history and theory.

**Recommended Preparation:** 2.0 credits of German language instruction in consultation with department  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## GER299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## GER300Y1 - Intermediate German 2

**Hours:** 96P

Continuing the work done in GER100Y1 and GER200Y1, this course offers German at the intermediate level focusing on extension of vocabulary, specific problems of grammar, essay-writing, reading and conversation. The Department reserves the right to place students in the appropriate course in the series GER200Y1 and GER300Y1.

**Prerequisite:** GER200Y1/GER201H1 or German placement test  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## GER301H1 - Intermediate German 2b

**Hours:** 48P

This course is equivalent to the Spring Term of GER300Y1. It further expands on basic grammar and vocabulary, practice in comprehension, composition, and conversation at the intermediate level. The Department reserves the right to place students in the appropriate language course on the 200- and 300 levels.

**Prerequisite:** German placement test  
**Exclusion:** GER300Y1  
**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER305H1 - German Literature II

**Hours:** 36S

Building on the work of GER205H1, this course offers a survey of German literature and culture from the eighteenth to the twentieth century. Within a chronological framework, students read and analyze excerpts from representative works of major German writers. (Note: This course is required for the major and specialist program, and should be taken concurrently with GER300Y1.)

**Prerequisite:** [GER205H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER310H1 - Contemporary German Culture and Media

**Hours:** 24S

This course focuses on contemporary German culture as expressed through a variety of media. It approaches Germany and Germany's position within Europe and the world mainly (but not exclusively) through non-literary texts.

**Prerequisite:** [GER200Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER320H1 - The Age of Goethe

**Hours:** 24S

Goethe and his contemporaries saw themselves faced with a rapidly changing world. This course examines the innovative literary experiments they developed in response to these changing times.

**Prerequisite:** [GER205H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER321H1 - 19th Century German Literature

**Hours:** 24S

This course focuses on German authors of the nineteenth century. Literary, political and philosophical texts are analyzed as a discussion of political uprisings, the industrial revolution and the emergence of German nationalism.

**Prerequisite:** [GER205H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER322H1 - Kafka in Context

**Hours:** 24S

Franz Kafka's texts are read in the literary, historical, and philosophical context of fin-de-siècle Prague and central Europe.

**Prerequisite:** [GER205H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER323H1 - Weimar Culture and Beyond

**Hours:** 24S

Focusing roughly on the period from 1918 to 1945, this course examines literary and artistic movements like Dada, Bauhaus, the Golden Age in German film in the decades between World War I and Nazism.

**Prerequisite:** [GER205H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER326H1 - Writing Memory: Post 1945

**Hours:** 24S

An examination of post-World War II German literature and culture from Zero Hour through to present-day debates about the Holocaust and its memorialization within a German context.

**Prerequisite:** [GER205H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER332H1 - Deviance - Madness - Outsiders

**Hours:** 24S

An analysis of the artistic confrontation with deviance, madness, and outsiders. The course covers expressions of this confrontation in a variety of genres.

**Prerequisite:** [GER205H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER334H1 - Transnational Literatures

**Previous Course Number:** GER423H1

**Hours:** 24S

This course investigates contemporary German culture by paying attention to its other or alternate voices and perspectives, i.e. those not usually prevalent in mainstream cultural and sociopolitical discourses.

**Prerequisite:** [GER205H1](#)

**Exclusion:** [GER423H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER336H1 - Focus On Berlin

**Hours:** 24S

This course offers an exploration of the cultural developments of one of the most exciting capitals of the world, from the Bismarckian era to German reunification and beyond.

**Prerequisite:** [GER205H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER340H1 - German Theater Production

**Hours:** 48S

The course offers close reading, rehearsing and staging of a play. Students will become familiar with the different steps of a theater production, be introduced to basic acting and staging techniques and get acquainted to leading theories of theater.

**Prerequisite:** [GER200Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER350H1 - German Visual Cultures

**Hours:** 24P/24S

This course presents students with a survey of the history and development of the German cinema. It examines major trends of German cinematography focusing on thematic and formal aspects.

**Prerequisite:** [GER205H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER354Y0 - Special Topics Summer Course in Berlin (E)

The topics of this course taught in English and open to students from other disciplines vary from year to year. Interested students can address questions to Woodsworth College.

**Recommended Preparation:** 100-level HIS/POL/GER course/International or European Studies

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER355Y0 - Summer Course in Berlin

Students who wish to petition the department for credit toward a specialist or major program in German will be required to do part of their work in German. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER360H1 - Intermediate Yiddish

**Hours:** 36P

The course conducted in Yiddish offers a review of basic grammar, stylistics, study of short literary texts.

**Prerequisite:** [GER260Y1](#)

**Exclusion:** [GER463Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JGJ360H1 - Holocaust in Literature (E)

**Hours:** 24S

This course examines literary works written in different languages, in ghettos and concentration camps during the Holocaust, as well as those reflecting on the genocide in its aftermath. We focus on literature as a means of engaging with the unimaginable and on the cross analysis of eye-witness and memory writing.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** [CJS220H1](#), [GER367H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER361H1 - Yiddish Literature in Translation (E)

**Hours:** 24S

An overview of the major figures and tendencies in modern Yiddish literature and culture from the beginning of the 19th century to the present. Readings (in English) of modern Yiddish prose, poetry, drama and cinema.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER367H1 - Topics in Yiddish or German Jewish Literature and Culture

**Hours:** 24S

Topics in modern Yiddish or German Jewish literature and culture from the beginning of the 19th century to the present, featuring a selection of readings of modern Yiddish prose, poetry, drama and cinema. Taught in English and open to students across disciplines.

**Prerequisite:** Completion of 4.0 credits

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER370H1 - German Business Culture 1

**Hours:** 36P

This course provides students with a working knowledge of German business culture that allows them to navigate the German workplace. The main focus is to deepen students' knowledge of business concepts.

Note: This course is required for the minor program in Business German

**Prerequisite:** [GER272H1](#)/[GER300Y1](#)/[GER301H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER372H1 - German Business Culture 2

**Hours:** 36P

This course offers an intensive development of the linguistic skills needed in the context of business transactions and management in German-speaking countries. Through materials from various sources, students develop oral and written skills for competence in German business communication as well as cross-cultural awareness.

**Prerequisite:** [GER370H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JFG388H1 - Bilingualism, Multilingualism, and Second Language Acquisition

**Previous Course Number:** FRE388H1

**Hours:** 24L/12T

Knowing and speaking more than one language is the everyday norm of people living in much of the world including in multicultural cities like Toronto. Via an in-depth introduction to the cognitive and social underpinnings of bi- and multilingualism including second language acquisition, this course provides answers to questions such as *How do bilinguals/multilinguals differ from monolinguals in the ways that they process and use language? How does acquiring a language as an adult differ from when we are children? How do an individual's language repertoires interact with those of their peers and local community?*

**Prerequisite:** (1) Any 100-level or higher language course OR introductory linguistics course (e.g., [LIN200H1](#), [FRE272H1](#), [ITA360H1](#), [SLA323H1](#)/ [SLA380H1](#), [SPA322H1](#)), (2) At least 4.0 credits in any subject  
**Exclusion:** [FRE388H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## GER391H1 - iPRAKTIKUM Experiential Learning and Internationalization Internship

**Hours:** 24P

The course provides curricular support for a variety of work and community-engaged, experiential learning placements in the GTA and in German-speaking countries. The placements are designed to deepen linguistic, cultural, and analytical skills acquired in the classroom in work-related environments, create an awareness of the translatability of academic knowledge to other contexts, promote global competency, and foster links to the community. The number of weekly hours spent in the field, the scope of learning objectives, and the nature of reflective activities are determined on an individual basis in consultation with the host institution, the German Department, and other units in which the student is pursuing a program degree (as required). In addition to successfully achieving the formulated learning goals, students must complete assignments such as eJournals and research papers as well as participate in peer-to-peer reporting and post-placement interviews.

**Prerequisite:** [GER100Y1](#) and [GER200Y1](#) or consent of department (equivalent proficiency level B1)

**Recommended Preparation:** 3.0 credits in GER courses

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## GER398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## GER398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## GER399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

## GER400H1 - Advanced German 1

**Hours:** 48P

This is a course for advanced learners of German reviewing complex features of the language and introducing them to aspects of German stylistics. The emphasis lies on oral and written communication.

**Prerequisite:** [GER300Y1](#)/[GER301H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER401H1 - Advanced German 2

**Hours:** 48P

This is a course for advanced learners of German reviewing complex features of the language and introducing them to aspects of German stylistics. The emphasis lies on oral and written communication.

**Prerequisite:** [GER400H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER410H1 - Topics in German Intellectual History (E)

**Hours:** 24S

This course taught in English offers an examination of key moments and themes in German intellectual history from the Enlightenment to the present.

**Prerequisite:** Advanced status: permission of the department

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## GER426H1 - Medieval Language and Culture

**Hours:** 36S

This course offers an introduction to the language, literature and culture of Medieval Germany. The reading and translation of exemplary medieval German texts will introduce students to Middle High German and provide an insight into epochal concepts like courtly love and chivalry as well as courtly and monastic designs of identity.

**Prerequisite:** [GER300Y1](#), [GER205H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER430H1 - Topics in German Literature and Culture

**Hours:** 24S

An open course which explores specific aspects of German literature and culture.

**Prerequisite:** [GER305H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER431H1 - Topics in Germanic Studies

**Hours:** 24S

An open course which explores specific aspects of Germanic Studies.

**Prerequisite:** [GER305H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER460H1 - Advanced Yiddish

**Previous Course Number:** GER462H1

**Hours:** 36P

This course conducted entirely in Yiddish focuses on advanced reading, writing, vocabulary and conversation, the study of poetry, short fiction, and memoir literature by

leading authors. Selected advanced grammatical topics are presented in conjunction with the study of texts.

**Prerequisite:** [GER360H1](#)

**Exclusion:** [GER462H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER463Y1 - Yiddish Language for German Speakers

**Hours:** 48P

The course is designed as an intensive Yiddish language training. The goal is to teach German speakers to read, write and speak in Yiddish. The curriculum relies on the German language skills of the students, and focuses on differences between Yiddish and German grammar and vocabulary. Upon the completion of the course, students should be able to read Yiddish literary texts with a minimal use of dictionary.

Note: Graduate students can take the course in preparation for their Yiddish competency test.

**Prerequisite:** 3.0 credits in German language or fluency in German language

**Exclusion:** [GER260Y1](#), [GER360H1](#), [GER462H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## GER490H1 - Independent Study

**Hours:** 24S

A reading & research project in Germanic literature and/or culture involving a substantive research component. Not eligible for CR/NCR option.

**Prerequisite:** Advanced status: permission of the department. Note: permission needs to be obtained by May 1st for the Fall Term and by Nov. 1st for the Spring Term

**Distribution Requirements:** Humanities

## GER491Y1 - Individual Studies

**Hours:** 48S

A scholarly project chosen by the student and supervised by a member of the staff. The form of the project and the manner of its execution are determined in consultation with the supervisor. Not eligible for CR/NCR option.

**Prerequisite:** Advanced status: permission of the department. Note: project proposals need to be submitted by June 1st

**Distribution Requirements:** Humanities

 R. Woods, MA, Ph D

## Introduction

Historians study the past to understand it on its own terms, to gain insight into how our world has developed, and in order to influence the present. The study of history covers a wide and diverse range of topics, from the history of aboriginal societies, conquistadors, ethnicity, fascism, labour, psychiatry, patterns of settlement and migration, politics, the Renaissance, revolution, to the automobile, slavery, international relations, trade unions, women's studies, and more.

The study of history is at the core of any liberal arts education. In order to make sense of political, social, economic, and cultural development, it is essential to understand historical change and continuities. History is also integral to most area studies (East Asian Studies, Near and Middle Eastern Civilizations, Canadian or American Studies, etc.) and is a crucial part of the study of political science, economics, sociology, international relations, religion, art history, English—nearly every discipline in the humanities and social sciences. History as a discipline partakes of both the humanities and social sciences: it is a social science because it studies societies and the processes of change, but the method and analytical approach are those of the humanities. Close analysis of problems, critical examination of evidence, and persuasive oral and written communication are all hallmarks of historical inquiry.

History graduates will gain both a broad overview of the contours of history and in-depth knowledge of one or more specific regions, time periods, or thematic specializations. They will understand how social processes, political ideologies, economic trends, and environmental changes have intersected with individual and collective human actions to shape historical change and, ultimately, the world we live in today. History graduates will comprehend how history is written, including the skills and methods of historical research, the use and interpretation of textual and other evidence, and the choices involved in various theoretical and analytical frameworks. They will be able to critically read and assimilate large amounts of information, weigh evidence, draw well-informed conclusions, and present cogent, analytical arguments.

The analytical and communication skills one develops by studying history are critical to a great variety of careers. History graduates put their training directly to use in such fields as law, politics, business, government service, museums, libraries and archives, documentary filmmaking, journalism, international relations, urban planning, teaching, and many other areas. With emphasis on how to analyze issues, read critically, do productive research, delineate a case, and present evidence in

support of that case, studying history equips one with both the skills and knowledge for an ever-changing workplace and society.

## Curriculum

The History curriculum is designed to give students a solid grounding in a variety of interpretive and methodological approaches, while allowing them a great deal of flexibility to follow their own particular interests. Breadth requirements (detailed below) ensure that students achieve chronological depth and geographic range. There are courses at most levels in American, Asian, African, Latin American and Caribbean, British, Canadian, European, Russian and East European history. Thematic clusters such as medieval history, gender, international relations, and colonialism/post-colonialism help students pursue areas of particular interest.

The 100-level courses are thematically-based and introduce students to the craft and tools of historical research and writing. The 200-level courses are broad chronological surveys of countries, regions, or time periods. They are open to first-year students and have no prerequisites. The 300-level courses enable students to pursue topics in greater depth and methodological sophistication. They are not open to first-year students and frequently have prerequisites. The 400-level courses represent the culmination of an undergraduate's study of history. They are taught as small-group seminars in which students draw upon the skills they have developed through the course of their History program in research, analysis, and oral and written presentation.

More detailed information concerning the department, history programs and particular courses can be found on our website: [www.history.utoronto.ca](http://www.history.utoronto.ca). There is a [History Students' Association](#) in the Department and there is student participation in the Department meetings and major standing committees.

## History Programs

### History Specialist (Arts Program) - ASSPE0652

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### Variable Minimum Grade

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

- 2.0 HIS credits, including 1.0 credit at the 100-level (non-FYF) or one 0.5 credit at the 200-level + one 0.5 credit from the following First-Year Foundations (FYF) courses: [HIS192H1](#), [HIS194H1](#), [HIS195H1](#), [HIS196H1](#), [HIS197H1](#), [HIS198H1](#), [HIS199H1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 70% in each course will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program.

#### Completion Requirements:

The Specialist program gives students in-depth training in historical research, analysis, and writing for future professional use or graduate study. To tailor the program to your needs, in your third year you have a choice between two pathways: a higher level course-work option in order to further the development of excellent skills via a wider variety of courses or a thesis option where you will be able to do the same while also concentrating on a specific research topic.

(10.0 credits, of which only 1.0 credit at the 100-level may be used to fulfill program requirements)

**First year:** 1.0 HIS credit at the 100-level.

*Note 1: Students may also take 200-level HIS courses in their first year.*

**Higher Years:** Additional HIS courses to a total of 10.0 credits overall, meeting the following requirements:

#### 1. Geographic Distribution (200+ level):

- 2.0 credits in Africa/Asia/Middle East with at least one 0.5 credit in each region
- 1.0 credit in Canada/US/Latin America/The Caribbean
- 1.0 credit in Europe

**2. Temporal Requirement:** 1.0 credit in Pre-1800 history course(s) listed below.

*Note 2: HIS courses listed with (.50) indicate that they fulfill half of the Temporal Requirement.*

**3. Levels:** At least 5.0 credits at the 300+ level, including 1.5 credits at the 400-level to be fulfilled in one of the following ways:

Pathways:

a) Thesis Option: [HIS475H1](#) and [HIS476H1](#) taken in that order (see Note 3)

b) Coursework option: 1.0 credit of Senior (300 or 400-level) Methodology course(s), listed below

*Note 3: Students interested in the Thesis Option should contact the Undergraduate Chair for advice about the pathway, thesis topics, and the selection of an appropriate faculty advisor.*

#### Courses in other departments:

a) Students may take up to 1.0 credit from the Equivalent Courses list below. These courses may not be used to fulfill the 100-level, Geographic, or Temporal requirements.

#### Geographic Area a): Africa, Asia, Middle East

## Focus in Law and History (Specialist) - ASF0C0652A

The Focus in Law and History gives students the critical skill-set to interrogate the 'force of law', not only in the sense of law as enforced, but also as a vehicle of cultural, social, and economic knowledge. Importantly, it will ask students to interrogate assumptions of what counts as law across time and space. At the core of this Focus to the Major are fundamental questions of both law and society: Who has law? What does (or should) it look like? Who decides? What sorts of critical histories can be written from and about legal archives that span time, space, and language tradition?

### Enrolment Requirements:

Enrolment in the History Specialist is required.

### Completion Requirements:

3.0 credits

1. Methodological Training Requirement: [HIS268H1](#): Law and History.
2. Law and History Focus Enrichment: 2.5 credits from the following list, including at least 1.0 credit at the 300+ level.

[HIS101Y1](#), [HIS230H1](#), [HIS231H1](#), [HIS283Y1](#),  
[HIS303H1](#), [HIS308H1](#), [HIS357Y1](#), [HIS379H1](#),  
[HIS390H1](#), [HIS391Y1](#), [HIS397H1](#), [HIS419H1](#),  
[HIS424H1](#), [HIS438H1](#), [HIS443H1](#), [HIS470H1](#),

HIS493H1, JHN323H1

Some offerings of HIS389H1, HIS466H1 and HIS496H1 may also count towards this focus. Check with the department for current offerings.

Up to a 0.5 credit from non-HIS courses may be substituted for requirement 2, with permission of the department. Substitutions will be reviewed based on a copy of the course syllabus.

## History Major (Arts Program) - ASMAJ0652

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### Completed courses

The following courses are required:

- 1.0 HIS credit (non-FYF) or one 0.5 HIS credit at the 200-level + one 0.5 credit from the following First-Year Foundations (FYF) courses: HIS192H1, HIS194H1, HIS195H1, HIS196H1, HIS197H1, HIS198H1, HIS199H1

### Completion Requirements:

(7.0 credits, of which only 1.0 credit at the 100-level may be used to fulfill program requirements)

**First Year:** 1.0 HIS credit at the 100-level.

*Note 1: Students may also take 200-level courses in their first year.*

**Higher Years:** Additional HIS courses to a total of 7.0 credits, meeting the following requirements:

#### 1. Geographic Distribution (200+ level):

a) 2.0 credits Africa/Asia/Middle East with at least 0.5 credit in each region

b) 1.0 credit Canada/US/Latin America/The Caribbean

c) 1.0 credit Europe

**2. Temporal Requirement:** 1.0 credit in Pre-1800 history course(s) listed below.

*Note 2: The HIS courses listed with (.50) indicate that they fulfill half of the Temporal Requirement.*

3. At least 2.0 credits at the 300+ level, including one 0.5 credit at the 400-level.

### Courses in other departments:

a) Students may take up to 1.0 credit from the Equivalent Courses list below. These courses may not be used to fulfill the 100-level, Geographic, or Temporal requirements.

#### Geographic Area a): Africa, Asia, Middle East

*(Sub-group: Africa)*

## Focus in Law and History (Major) - ASFOC0652B

The Focus in Law and History gives students the critical skill-set to interrogate the 'force of law', not only in the sense of law as enforced, but also as a vehicle of cultural, social, and economic knowledge. Importantly, it will ask

students to interrogate assumptions of what counts as law across time and space. At the core of this Focus to the Major are fundamental questions of both law and society: Who has law? What does (or should) it look like? Who decides? What sorts of critical histories can be written from and about legal archives that span time, space, and language tradition?

### Enrolment Requirements:

Enrolment in the History Major is required.

### Completion Requirements:

3.0 credits

1. Methodological Training Requirement: [HIS268H1](#): Law and History.
2. Law and History Focus Enrichment: 2.5 credits from the following list, including at least 1.0 credit at the 300+ level.

[HIS101Y1](#), [HIS230H1](#), [HIS231H1](#), [HIS283Y1](#),  
[HIS303H1](#), [HIS308H1](#), [HIS357Y1](#), [HIS379H1](#),  
[HIS390H1](#), [HIS391Y1](#), [HIS397H1](#), [HIS419H1](#),  
[HIS424H1](#), [HIS438H1](#), [HIS443H1](#), [HIS470H1](#),  
[HIS493H1](#), [JHN323H1](#)

Some offerings of [HIS389H1](#), [HIS466H1](#) and [HIS496H1](#) may also count towards this focus. Check with the department for current offerings.

Up to a 0.5 credit from non-HIS courses may be substituted for requirement 2, with permission of the department. Substitutions will be reviewed based on a copy of the course syllabus.

## History Minor (Arts Program) - ASMIN0652

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

The minor program provides a useful grounding for students interested in the study of the past and contributes to their development of interdisciplinary perspectives from across the Humanities and Social Sciences.

(4.0 credits, of which only 1.0 credit at the 100-level may be used to fulfill program requirements)

**First Year:** 1.0 credit at the 100-level is required. It is recommended that students complete this requirement prior to enrolling in the minor program.

**Higher Years:** Additional HIS courses to a total of 4.0 credits, including at least 1.0 credit at the 300- or 400-level.

**Courses in other departments:** Students may take up to a 0.5 credit from the Equivalent Courses list below.

## Combined Degree Program (CDP) offered with Victoria College and Ontario Institute for Studies in Education (OISE)

- Combined Degree Program in HBA/HBSc and Master of Teaching (MT)

Students enrolled in the Minor in Education and Society and Major in History may apply for this Combined Degree Program. For details about application and program requirements, see the [Combined Degree Programs section](#).

## Regarding History Courses

**Note:** Not all of these courses are taught every year. Please check the [Arts & Science timetable](#) or the [HIS Department website](#) for the list of courses offered in 2021-2022.

### First-Year Foundation Seminars

First-Year Foundation Seminars are open only to newly-admitted, Faculty of Arts & Science students (3.5 credits or less). They are 1.0 credit or 0.5 credit courses that focus on discussion of issues, questions and controversies surrounding a particular discipline (or several disciplines) in a small-group setting that encourages the development of critical thinking, writing skills, oral presentation and research methods. FYF seminars are as rigorous and demanding as any other first-year course and require in addition the acquisition of those skills expected of successful undergraduate students. With a maximum enrolment of 30 students each, they are an ideal way to have an enjoyable and challenging small-class experience in your first year. Details can be found at [www.artsci.utoronto.ca/future/academic-](http://www.artsci.utoronto.ca/future/academic-)

## History Courses

### HIS100Y1 - History of the Arctic

**Hours:** 48L/20T

People have made the Arctic home for millennia, creating circumpolar cultures in its challenging climate. This course compares and examines connections in the contested polar region through several themes: cultures in contact, trade and exploration, environment, crime and punishment, and defense and sovereignty.

**Exclusion:** [HIS101Y1](#), [HIS102Y1](#), [HIS103Y1](#), [HIS106Y1](#), [HIS107Y1](#), [HIS108Y1](#), [HIS109Y1](#), [HIS110Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Living Things and Their Environment (4), Society and its Institutions (3)

### HIS101Y1 - Histories of Violence

**Hours:** 48L/20T

Ranging widely chronologically and geographically, this course explores the phenomenon of violence in history. It examines the role and meanings of violence in particular societies (such as ancient Greece and samurai Japan), the ideological foundations and use of violence in the clash of cultures (as in slavery, holy wars, colonization,

[opportunities/first-year-opportunities/first-year-foundations-seminars](#).

First-Year Foundation Seminars:

- Count as 1.0 or 0.5 of the 20 credits required for an Hon. B.A., Hon B.Sc. or B. Com.
- First-Year Foundation Seminars are not required to get into any Program of Study. However, they may count towards your Program. Please check with your college registrar for further details.
- Can be counted towards the breadth requirement.

### 100-Level Courses

**All 100-series HIS courses are mutually exclusive, with the exception of AP, IB, CAPE, or GCE transfer credits. Students may enrol in only one 100-level History course. Students enrolled in more than one of these courses (or who have completed one of these courses or a previous HIS 100-level course with a mark of 50% or greater) will be removed at any time. First-Year students can also enrol in 200-level HIS courses.**

and genocide), and the effects and memorialization of violence.

**Exclusion:** [HIS100Y1](#), [HIS102Y1](#), [HIS103Y1](#), [HIS106Y1](#), [HIS107Y1](#), [HIS108Y1](#), [HIS109Y1](#), [HIS110Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3), Thought, Belief and Behaviour (2)

### HIS102Y1 - Empires, Encounters and Exchanges

**Hours:** 48L/20T

Interactions among peoples, empires, and cultures, with particular attention to the non-European world. Can we speak of “international relations” before the modern concept of nation-states was established? What forms did globalization take in the pre-modern era? Covering a broad chronological sweep from before the Silk Road to the present day, we will look at exchanges of goods and technologies; dissemination of ideas and religions; voyages of migration and exploration; and episodes of conquest and colonization.

**Exclusion:** [HIS100Y1](#), [HIS101Y1](#), [HIS103Y1](#), [HIS106Y1](#), [HIS107Y1](#), [HIS108Y1](#), [HIS109Y1](#), [HIS110Y1](#), HISA04H3/HISA05H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3), Thought, Belief and Behaviour (2)

## HIS103Y1 - Strategy and Statecraft: War and Diplomacy in European History

**Hours:** 48L/20T

An analysis of the development of the international system, from 1648 to 1945, which highlights the role of war as an instrument of national policy, as a determinant of the system of states and as a threat to international society.

**Exclusion:** [HIS100Y1](#), [HIS101Y1](#), [HIS102Y1](#), [HIS106Y1](#), [HIS107Y1](#), [HIS108Y1](#), [HIS109Y1](#), [HIS110Y1](#)

**Breadth Requirements:** Society and its Institutions (3)

## HIS106Y1 - The African Diaspora in the Americas, 1492-1804

**Hours:** 48L/20T

This course introduces the history of the African Diaspora in the Americas, from 1492-1804. Lectures and readings will draw from primary sources and historical scholarship to focus on a range of topics, including slavery and the slave trade, race relations, gender and sexuality, religious and cultural practices, and liberation struggles.

**Exclusion:** [HIS100Y1](#), [HIS101Y1](#), [HIS102Y1](#), [HIS103Y1](#), [HIS107Y1](#), [HIS108Y1](#), [HIS109Y1](#), [HIS110Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS107Y1 - Approaches to East Asian History

**Hours:** 48L/20T

This course draws on the history of China, Korea and Japan between 1600 to 1950 to explore historical issues of gender, nationalism, war and relations with the West.

**Exclusion:** [HIS100Y1](#), [HIS101Y1](#), [HIS102Y1](#), [HIS103Y1](#), [HIS106Y1](#), [HIS108Y1](#), [HIS109Y1](#), [HIS110Y1](#), [HIS284H5/EAS204Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS108Y1 - What is History?

**Hours:** 48L/20T

This course offers an introduction to history as a discipline - to the history of the discipline itself, to the questions, categories, and methodologies that constitute it, and how

they have evolved in varied times and places, and to the methodologies students need to acquire to engage in historical inquiry and writing. The course will be part methodological workshop, part epistemological reflection.

**Exclusion:** [HIS100Y1](#), [HIS101Y1](#), [HIS102Y1](#), [HIS103Y1](#), [HIS106Y1](#), [HIS107Y1](#), [HIS109Y1](#), [HIS110Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS109Y1 - The Development of European Civilization, 1350-1945

**Hours:** 48L/20T

The shape of traditional society; the forces at work on the social, political, economic, cultural and intellectual structures of Western Europe since the high Middle Ages: the Structure of Traditional Society; the First Period of Challenges, 1350-1650; the Second Period of Challenges, 1650-1815; Confidence, Stability and Progress, 1815-1914; the Collapse of the Old Order and the Condition of Modern Europe, 1914-1945.

**Exclusion:** [HIS100Y1](#), [HIS101Y1](#), [HIS102Y1](#), [HIS103Y1](#), [HIS106Y1](#), [HIS107Y1](#), [HIS108Y1](#), [HIS110Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## HIS110Y1 - History of the Indian Ocean World

**Hours:** 48L/20T

This course introduces you to the connected and interdependent world people who lived between the present day cities of Dakar, in West Africa, and Jakarta, in Indonesia, from about 1000 to the present. We explore in this class the three "C"s which have linked human experience in Africa and Asia via routes which connected the Indian Ocean World: Connectedness, Contingency, and Cosmopolitanism. We study how people who lived more than a thousand years before our time transported ideas, products, and scripts by land and sea via routes that connected large parts of Africa, Central & South Asia, and East and Southeast Asia, and their histories. The land and sea routes connected these communities and the cosmopolitan outlook of the hosts provided the contingent conditions for a Buddhist monks to travel from all over China to Southern and Southeast Asia; Muslim scholars to travel from West Africa to Indonesia; and merchants and writers to move within these worlds. Human migration, economic trade, and religious conversion had linked the lands and the seas, making it possible for our imams, merchants, monks, and servants to traverse these territories, across the Africa and Asia. This vibrant and

wealthy world of African and Asian thinkers, merchants, leaders, and communities became the envy of the world, and as late as the seventeenth century, these crazy rich Africans and Asians dominated the world as it was known. We'll see how history is contingent--and that human migration, economic exploitation, lack of reciprocity, and legacies of European colonial racism have disrupted the cosmopolitan worlds of the Indian Ocean. The world is different today, but more than three quarters of the human population still live in Africa and Asia--see the richness of their worlds as it was for thousands of years, and what will be left for the people of this world as climate change makes the seas rise.

**Exclusion:** [HIS100Y1](#), [HIS101Y1](#), [HIS102Y1](#), [HIS103Y1](#), [HIS106Y1](#), [HIS107Y1](#), [HIS108Y1](#), [HIS109Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS111H1 - Fake S\*\*\* in History: Misinformation, Unreal Authentics, Hidden Figures, and the Telling of Histories**

In the 21st century, the idea of fake news and its rapid circulation via social media shapes how humans perceive events around them. The issue of what counts as authentic, or "fake," is not simply a recent phenomenon, but is central to the idea of history itself. What materials get saved, whose stories get told, and why are some stories represented as more important than others? By examining specific examples of "misinformation"--propaganda, suppression of information, and hidden actors-- in a global context, this course explores how historical narrative and public memory have been shaped by the collection and valuation of texts, experiences, and material objects, all themes central to the craft of history.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS112H1 - Ten Events that Changed the World**

**Hours:** 12L/10T

Ever wonder how and why the founding of Islam in 610, the Mongol conquests of Eurasia in the 13th century, the Trans-Atlantic Slave trade, the Haitian Revolution (1791-1804), or the detonation of the atomic bombs on Hiroshima and Nagasaki changed the world? This course ten events changed the world and continue to have ramifications today. Experts will give guest lectures on the important "events," while students will learn how historians work to understand the significance of these moments, human agency, and the idea of an "event," itself.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS191H1 - Pandemics and Human History**

**Hours:** 24S

We have all just lived through a major historical disruption caused by CoViD-19. In this course, you will be invited to use your experience of the pandemic as a tool for understanding other times, other places, and the study of history itself. We will study plagues and diseases from the ancient world to the Twentieth Century, and introduce methods from social, cultural, and economic history, as well as concepts from the histories of science and medicine.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS192H1 - A History of Queer Asia**

**Hours:** 24L

A first-year seminar on the history of queerness, in all its complexity and diversity, in the no less complex and diverse settings of East, South, and Southeast Asia. Our journey will encompass empires and Indigenous peoples, rulers and rebels, and range from early recorded history down to the twentieth century. Focus will be placed on primary sources and introducing students to the evolving definitions of "queerness" itself. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HIS193H1 - Calls to Action: The TRC and Residential Schools in Canadian History**

**Hours:** 24S

The last Indian Residential School in Canada closed in 1996. For more than a century and half before that, the Canadian state supported church-run residential schools intended to take Indigenous children away from their families, cultures, languages and traditions. Over 150,000 children passed through the doors of these different schools that operated from coast to coast. Using the formal report of the Truth and Reconciliation Commission as a central text, this course explores that history and the ongoing legacy of residential schools in Canada while introducing first year students to historical research

methods and sources. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS194H1 - Power, Resistance, and the Graphic Novel

**Hours:** 24S

This course will look broadly at the question of power and resistance in the Americas (Canada, the United States, and Latin America) through the prism of graphic novels. Each week we will read a graphic novel related to important historical moments or events, drawing on scholarly articles to help us contextualize the novel. We will discuss the medium of graphic novels, their history and place in the broader culture, as well as how they might help or hinder our ability to study and disseminate information about the past. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS195H1 - Drunk History

**Hours:** 24S

Histories of wine or beer or vodka often focus either on the production of these alcoholic beverages and their role in national economies, or the ways that drinking is part of celebrations. But drunkenness enters the historical record in other ways, too--not just as a social lubricant but as a social ill, one associated with intimate violence or violence to the self and with mass protest. From worries about the Gin Craze to the rise of temperance movements and eventually the passing of Prohibition, from tax policies to policing, this class will consider the many ways that drunkenness has been accepted, denounced, and legislated about in societies around the world. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS196H1 - Religion and Violence

**Hours:** 24S

In this seminar we will explore the complex roles of religion in cases of extreme violence. Working chronologically backward from the 1990s (Rwanda, former Yugoslavia), we will consider cases from a number of

locations and decades in the 20th Century (Cambodia in the 1970s, the Holocaust in the 1940s, Armenians in the 1910s, Southwest Africa in the 1900s). Rather than limiting ourselves to the recent past, we will also explore cases from the 19th century (imperialism) and earlier as well as ongoing situations that connect past and present (aboriginal people in the Americas). Students will be expected to do the assigned reading (from personal accounts, primary sources, and scholarly articles), participate actively in discussions, prepare a series of short responses, make and oral presentation individually or with a group, and produce a final paper based on original research. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS197H1 - Microhistory, Global History, and Historical Narrative

**Hours:** 24S

How do historians make arguments and tell stories? How does the scale of their gaze affect their narrative strategies? In this course, we will consider a number of topics and themes related to these questions: the difference between microhistory and biography (or microhistory and regional history); the relationship of microhistory to global history; the role of the historian in these kinds of history; and the ways that microhistory and global history both pose particular problems of narrative. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS198H1 - Decolonizing Women's History

**Hours:** 24S

This course introduces students to the historiographical and theoretical debates in women's and gender history from a global perspective, with emphasis on the local histories of women in the non-western world. Students will study the themes in women's history as articulated by first and second wave feminists. The second part of the class deconstructs the basic assumptions of Western feminism through the perspective of post-colonial feminist writings and empirical studies. The readings are structured so that you consider how examples from Asia disrupt narratives of universality in Western feminist epistemologies. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS199H1 - Soccer: The History of the World's Game

**Hours:** 24S

This seminar proposes to consider the history of the world's most popular sport, soccer, in broader political, social, economic, and cultural context. We will consider the emergence of the modern game in industrializing Britain in the 19th century; its globalization; its mobilization as a vehicle for political expression, as well as social cultural, and gendered identities; supporter culture; and soccer as an industry. Students will read scholarly works from a range of disciplinary perspectives, including history, cultural anthropology, sociology, literature, and economics. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS202H1 - Gender, Race and Science

**Hours:** 24L/10T

This course examines scientific ideas about human difference from the 18th-century to the present. It explores how scientists and their critics portrayed the nature of race, sex difference, and masculinity/femininity in light of debates over nation, citizenship, colonialism, emancipation, knowledge and equality. The course will also introduce students to the uses of gender and race as analytic categories within the practice of history. While the course draws much of its subject matter from the history of the United States, it also explores selective issues in European and colonial contexts.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS205H1 - From Women's History to Gender History

**Hours:** 24L/10T

This course critically examines gender in the context of politics, society, culture, and economics across a range of comparative times and spaces depending on instructor expertise. In what ways have gendered norms and transgressions been part of human societies and lived experiences? How have those norms shifted across historical and geographical contexts? How has

the history of gender impacted gender as it is lived and made political today? Throughout the course, we will be querying the theoretical assumptions underlying and framing the historical texts we are studying, as well as assessing the different kinds of primary sources used to recover women's and gender history.

**Exclusion:** [HIS245Y1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS205Y1 - Topics in Women's History

**Hours:** 48L/20T

This course introduces students to the diverse experiences of women from a comparative perspective. Students will study how women's strategies have shaped the major cultural, economic, political and social processes in the world and how these processes have affected women's experiences in their particular societies. By studying women's history from both local and global perspectives, students will engage critically with claims that women's history is universal. The local focus of the course will rotate between Africa, Asia, Europe, and North America, depending on the expertise of the instructors.

**Exclusion:** [HIS245Y1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3), Thought, Belief and Behaviour (2)

## HIS208Y1 - History of the Jewish People

**Hours:** 48L/20T

An introduction to the history of the Jews throughout the world over the past two thousand years.

**Recommended Preparation:**  
[HIS102Y1/HIS103Y1/HIS109Y1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS218H1 - Environmental History

**Hours:** 24L/8T

A lecture-based course designed to introduce students to key moments and concepts in the field of environmental history since c. 1400. This course will track the reciprocal influence of humans and the non-human world since the so-called "Columbian Exchange," emphasizing the ways in which the non-human world—from plants, animals, and

disease organisms to water, topography, and geography have shaped human endeavours. At the same time, students will engage with many of the ways in which human beings have shaped the world around us, from empire and colonization, to industrial capitalism, nuclear power, and modern wildlife conservation.

**Prerequisite:** any 100-level History course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS220Y1 - The Shape of Medieval Society

**Hours:** 48L/20T

Economic, political, religious, and educational ideas and institutions of the Middle Ages, from the late Roman period to the fifteenth century.

**Exclusion:**

HIS220Y5/HIS220H5/HIS221H5/HISB60H3/HISB61H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS221H1 - African American History to 1865

**Hours:** 24L/10T

An introduction to the history of Africans and people of African descent in the Americas generally, and the United States in particular. Major themes include modernity and the transatlantic slave trade; capitalism and reparations; Atlantic crossings; African women, gender, and racial formations; representation, resistance, and rebellion; nation-building; abolitionism and civil war; historical method and the political uses of the past.

**Exclusion:** [HIS298Y1](#) (2016-17)

**Recommended Preparation:** Any 100-level course in Arts or Humanities

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS222H1 - African American History from 1865 to the Present

**Hours:** 24L/10T

This course examines the history of black people in the United States after the abolition of slavery. Major themes include the promise and tragedy of Reconstruction; gender and Jim Crow; race and respectability; migration,

transnationalism, and 20th century black diasporas; black radical traditions and freedom movements; intersectionality and black feminisms; the drug war and mass incarceration; sexuality and the boundaries of blackness.

**Exclusion:** HIS 298Y1 (2016-17)

**Recommended Preparation:** Any 100 level course in Arts or Humanities

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS230H1 - Indigenous and Early Colonial Caribbean History

**Hours:** 24L/12P

This course introduces students to the study of Caribbean history from first human settlement to the late 18th century. Subject matter covered includes indigenous social structures, cosmology and politics; the process of European conquest; the economics, society and political order of colonial society; the Middle Passage; the everyday lives and struggles of enslaved peoples.

**Exclusion:** [HIS294Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS231H1 - Revolution and Emancipation in the Colonial Caribbean

**Hours:** 24L/12P

This course explores the history of the late eighteenth and nineteenth century Caribbean, from the Haitian Revolution to the U.S. occupation of Cuba and Puerto Rico. Students learn about the first struggles for political independence; the struggle to abolish the slave trade; slave emancipation; indentureship and struggles to define freedom after emancipation.

**Exclusion:** [HIS294Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS240H1 - World War I in Europe

**Hours:** 24L/10T

Many scholars believe that the initial 1900s had only been an extension of the 19th century and that the First World War opened the next age. Many feel that it changed Europe and the entire world and started a long period of military conflicts, genocides, nationalism, and high-speed

modernization. This course will offer the most important facts related to the Great War and discuss their consequences. The course will demonstrate that it is difficult to understand our contemporary world without basic knowledge of World War I, that we are all grandchildren of that war.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS241H1 - Europe in the Nineteenth Century, 1815-1914

**Hours:** 24L/10T

An introduction to modern European history from Napoleon to the outbreak of World War I. Important political, economic, social, and intellectual changes in France, Germany, Austria-Hungary, Italy, and other countries are discussed: revolution of 1848, Italian and German unification, racism and imperialism, the evolution of science, art, and culture, labour protest, and the coming of war.

**Exclusion:**  
EUR200Y1/EUR200Y5/FGI200Y5/HIS241H5/HISB93H3  
**Recommended Preparation:** HIS103Y1/HIS109Y1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS242H1 - Europe in the 20th Century

**Hours:** 24L/10T

The evolution of European politics, culture, and society from 1914: the two world wars, Fascism and Nazism, the post-1945 reconstruction and the movement towards European integration.

**Exclusion:**  
EUR200Y1/EUR200Y5/FGI200Y5/HIS242H5/HISB94H3  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS243H1 - Early Modern Europe, 1450-1648

**Hours:** 24L/10T

The political, social, economic, and intellectual history of continental Europe. The Renaissance, the Reformation, Counter-reformation, growth of the territorial monarchies, the religious wars.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS244H1 - Early Modern Europe, 1648-1815

**Hours:** 24L/10T

The political, social, economic, and intellectual history of continental Europe. Development of royal absolutism, social change and the crisis of the ancient regime, the Enlightenment, the French Revolution, the Napoleonic era.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS245H1 - European Colonialism, 1700- 1965

**Hours:** 24L

This course will introduce students to the history of European colonialism. It will analyze the nature of colonial rule, the impact of empire on both colonies and metropolises, and delve into questions of power, gender and culture. It considers slavery and abolition, imperial networks, colonial capital, colonial competition, colonial cultures, the twilight of colonial rule, and a variety of settings.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS250Y1 - History of Russia

**Previous Course Number:** HIS250H1  
**Hours:** 48L/20T

This course is an introductory survey that examines the political, social, and cultural developments that shaped the Russian empire from the settlement of Kiev in the 9th century to the collapse of the Soviet Union in 1991.

**Exclusion:** HIS250H1/HIS250H5  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS251Y1 - History of East Central Europe

**Hours:** 48L/20T

The Polish, Czech, and Hungarian background; the Balkans in the late medieval and early modern periods. Renaissance, Reformation and Counter-reformation, decline and national awakening to the beginning of the 19th century. Partitioned Poland, nationalism in the 19th century; World War I, Peace Settlement, interwar years and the Communist period.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS262H1 - Canada: A Short History of Here

**Hours:** 24L/10T

Designed for non-history students, this introductory survey fulfills the Society and Its Institutions breadth requirement. It is open to all who want to know more about Canada. Make sense of politics today and develop a deeper understanding of Canadian society and its institutions through study of the major events and demographic trends that have shaped the development of this country. Topics will include First Nations/newcomer relations (including treaties and the Truth & Reconciliation report), French/English relations (including Quebec separatism), regionalism, the North, economic history, constitutional developments, and the development of Canadian identity, including common symbols associated with Canada. No essay requirement. Instead, enhance your critical reading and thinking skills through short writing assignments and weekly discussions of tutorial readings.

\*This course will not count towards History program requirements or as a prerequisite for upper level courses\*

**Exclusion:** [HIS263Y1](#), [HIS264H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS264H1 - Critical Issues in Canadian History

**Hours:** 24L/12T

This course introduces key issues in Canadian history and foundational principles of historical analysis. It is primarily designed for potential History majors/specialists. It is not a comprehensive survey. Examples serve to deepen analysis and introduce important methods and debates, preparing students for upper year courses in Canadian history.

**Exclusion:** [HIS262H1](#), [HIS263Y1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS265Y1 - Black Canadian History

**Hours:** 48L/20T

This course explores the historical experiences of persons of African descent in Canada. We begin by examining the presence of free and enslaved Africans in New France and British North America, moving into twentieth century themes exploring Black liberation, immigration and resistance in Canada. The course brings into sharp focus the historical production of racial categories and racist thought and practice in Canada and examines the experiences of Black Canadians within the context of 'multiculturalism.'

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS266H1 - Asian Canadian History

**Hours:** 24L/10T

The course examines the history of Asian Canadians from the mid-1800s to the present by analyzing their contributions to the socio-cultural, economic, and political development of Canada. It explores how Asian Canadian history reconfigures prevailing understanding of race, migration, multiculturalism, and national identity through intersectional, comparative, and transnational frameworks.

**Exclusion:** [CDN230H1](#), [UNI230H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS267H1 - Business History

**Hours:** 24L/10T

Business, and its history and evolution, is a fundamental aspect of understanding modernity. Capitalism and globalization, two of the most important aspect of business and its history, shape our world in profound ways. Utilizing a "glocal" approach that combines global and Canadian business history cases within a transnational context, this course seeks to interrogate and understand the evolution and development of modern business, capitalism and globalization from the late 19th Century into the early 21st.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS268H1 - Law and History

**Hours:** 24L/10T

The Federal Interpretation Act of Canada states that the 'law is always speaking'. If the law is always speaking, then it must be speaking in present tense. But if it only speaks in present tense, does it have a past? How might we consider the field of law from different historical angles? This course will introduce students to different historical approaches to and uses of law. Using examples from a wide array of legal traditions (e.g. Common Law, Civil Law, Indigenous Law, Islamic Law), the course will help students gain a greater appreciation for the function, study, and development of law across different times and places.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS271Y1 - American History Since 1607

**Hours:** 48L/20T

A survey of the economic, social, cultural, and political history of the United States from the colonial era to present times.

**Exclusion:** HIS271H5/HIS272H5/HISB30H3/HISB31H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS280Y1 - History of China

**Hours:** 48L/20T

A critical history of the place we today call China from prehistoric times to the 21st century, tracing shifting borders, identities, governments, and cultures while challenging any singular definition of "China."

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS282Y1 - History of South Asia

**Hours:** 48L/20T

An introductory survey addressing major themes in the history of South Asia, examining South Asian political economy, social history, colonial power relations and the

production of culture. Emphasis is on the period after 1750, particularly the study of colonialism, nationalism, and postcolonial citizenship and modernity.

**Exclusion:** HIS282H5/HISB57H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS283Y1 - History of Southeast Asia: How the Lands Below the Winds Reshaped the World

**Hours:** 48L/20T

This course examines how the cultural, economic, religious, and social histories of "Southeast Asia" [Brunei, Cambodia, East Timor, Indonesia, Laos, Malaysia, Myanmar (Burma), the Philippines, Thailand, & Vietnam] shaped the world as we see it today. Lectures will demonstrate how the millennia-long cultural and material exchanges Southeast Asians engaged via water across the Indian and Pacific Oceans and the lands across Eurasia affected the lives of its inhabitants and the proximal and distant regions with which it had contact. In Tutorials, students will be trained to read primary sources. Themes to be explored include economic exchange, colonialism and its impact, gender and sexual diversity, and religion and society.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS285H1 - History of Chinese Overseas

**Hours:** 24L/12T

Explores critical historical issues about ethnic Chinese outside of China from the 1500s to the present, emphasizing the 19th, 20th and 21st centuries, and covering six continents. Topics include Chinese migrations, Chinese diasporas, ethnic Chinese identities, communities, cultures, and racializations outside of China, relations with China, impacts on their host societies, and relations with non-Chinese.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS291H1 - Latin America: The Colonial Period

**Previous Course Number:** HIS291Y1

**Hours:** 24L/10T

The evolution of Spanish and Portuguese America from pre-Columbian civilizations to the wars of independence.

**Exclusion:** [HIS291Y1/HIS290H5](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS292H1 - Latin America: The National Period

**Previous Course Number:** HIS292Y1

**Hours:** 24L/10T

A survey of Latin American history from the wars of independence to the present day.

**Exclusion:** [HIS292Y1/HIS290H5](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS293H1 - The Making of the Atlantic World, 1480-1804

**Hours:** 24L/10T

This course introduces students to the social, economic, cultural and political history of the Atlantic world resulting from European exploration and colonization in the Americas beginning in the 1490s and the growth of the transatlantic slave trade. It focuses on interactions between Africans, Europeans, and Amerindians around the Atlantic Ocean.

**Prerequisite:** [HIS102Y1/HIS106Y1/HIS109Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS295Y1 - History of Africa

**Hours:** 48L/24T

An introduction to African history and the methodology of history more broadly, this course sets out to question how historians do history, examine differences in theories of knowledge, and explore the relationship between academic and cultural representations of the past. The course also draws on anthropology and related disciplines.

**Exclusion:** [HIS381H1/HIS382H1/HIS295H5](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Thought, Belief and Behaviour (2)

## HIS297Y1 - History of Africa from a Gender Perspective

**Hours:** 48L/20T

This survey of African history is analytical rather than narrative in its approach. It rethinks the way that African history has hitherto been conceptualized and taught by placing the question of gender at the center of the story of Africa.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS298Y1 - Themes & Issues in History

This is a thematic survey course addressing issues of gender, class, ethnicity, religion, war, economics and political strife through broad-sweep coverage of a region's history. Prepares students for upper-level study through exposure to eyewitness primary sources and conflicting secondary interpretations of events. Consult <http://history.utoronto.ca/undergraduate/fw-courses/> for exact prerequisites and for specific content of the course.

**Prerequisite:** Varies according to particular course offering. See History website for information.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## HIS300H1 - Energy and Environment in North American History

**Hours:** 24L/6T

This course examines the history of energy in North America from the perspective of political economy, environment and social-cultural history. Particular attention is paid to twentieth-century developments and to the relationship between energy and social power. Examples are drawn from both Canada and the United States.

**Prerequisite:** [HIS263Y1](#) / [HIS271Y1](#)/ [HIS264H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JSH300H1 - Literature and History in Russia

**Hours:** 24L

History and Literature were always interconnected in Russia. Writers not only sought to reflect the society around them, but were themselves often social critics and political figures. The course examines key texts in Russian literary tradition both as works of art and as primary sources for the historian. All readings in English.

**Recommended Preparation:** [HIS250H1/HIS250Y1](#) or [SLA240H1/SLA241H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HIS302H1 - Material Culture in Victorian Britain

**Hours:** 24L

An examination of the products of the first and second industrial revolutions in Victorian England. This course focuses on the cultural history of commercialization and consumerism.

**Recommended Preparation:** [HIS109Y1](#) or [HIS241H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS303H1 - The Mediterranean, 600-1300: Crusade, Colonialism, Diaspora

**Hours:** 36L

The course treats contact and conflict between Christians, Muslims, and Jews in the premodern Mediterranean world. Within the framework of broad political and economic developments, the course explores a range of topics, including holy war, slavery, religious polemics, colonialism, the commerce in goods and ideas, and ethnic relations.

**Recommended Preparation:** [HIS220Y1](#) or [NMC273Y1](#) or some medieval history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS304H1 - Topics in Middle East History

**Hours:** 24L

An in-depth examination of Middle East historical issues. Content in any given year depends on instructor. See History Website for more details.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JHP304Y1 - Ukraine: Politics, Economy and Society

**Hours:** 48L

The history of Ukraine from earliest times to the present. Economic, political, and cultural movements; Kievan Rus', Polish-Lithuanian Commonwealth, Cossack state, national revival, twentieth century statehood, and unification. As this course is designed as an introductory course, the professor welcomes first- and second-year students to enroll, as well as upper-level students. (*Given by the Departments of History and Political Science*)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## HIS306H1 - Islam and Muslims in the Balkans

**Hours:** 24L

The course examines the history of the Balkans from the fourteenth century until the present day with a particular focus on Islam, Muslims and Muslim culture. Topics include formation of Muslim communities, relations between Muslims and non-Muslims in the Ottoman and Habsburg empires, Sufi Islam, Muslims as minorities and majorities, and their experiences during the break-up of Yugoslavia. No prior knowledge of Balkan history or Islam is assumed.

**Prerequisite:** 1.0 HIS credit at the 200-level

**Exclusion:** [HIS389H1](#) (Islam and Muslims in the Balkans)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS308H1 - The Mediterranean, 1300-1700

**Hours:** 36L

This course continues with the themes treated in HIS303H1, specifically in the context of relations between the Ottoman empire and European states and the growing impact of the Atlantic world on the Mediterranean.

**Prerequisite:** [HIS303H1](#)

**Exclusion:** [HIS303Y1](#)

**Recommended Preparation:**

[HIS220Y1](#)/[HIS243H1](#)/[NMC273Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS309H1 - The European Reformations

**Hours:** 36L

What happens when a culture changes its religious organization and beliefs? Social and intellectual upheavals beginning in fifteenth century Europe created the split between Catholic and protestant Christians and reshaped the spiritual and political landscape of sixteenth century Europe. Issues covered include religion and politics, toleration, gender, popular piety, class.

**Prerequisite:** [HIS243H1](#)/[REN240Y1](#) or permission of the instructor

**Exclusion:** [HIS340H5](#)/[RLG346H5](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS310H1 - Histories of North American Consumer Culture

**Hours:** 24L/6T

This course examines the emergence of a modern 'consumer society' in North America from about 1850 to recent times. The aim is to combine political, social, economic and cultural history to chart changing relationships between North Americans, consumer commodities, and identities.

**Prerequisite:** [HIS263Y1](#)/[HIS264H1](#)/[HIS271Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS311Y1 - Introduction to Canadian International Relations

**Hours:** 48L/10T

Canadian international affairs in a broader context. Anglo-American as well as Canadian-American relations; the European background to questions such as the League of

Nations, appeasement and rearmament, which directly affected Canada without this country being consulted.

**Exclusion:** [HIS311H5](#)/[HISC46H3](#)

**Recommended Preparation:** A course in Canadian history or politics

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS312H1 - Immigration to Canada

**Hours:** 24L/5T

From the colonial settlement to 21st century, immigration has been a key experience and much debated in Canadian life. Drawing on primary sources, as well as historical and contemporary scholarship, this course will discuss migration, citizenship and belonging as central features in Canada's experience of immigration. This course focuses on the individuals, groups, and collectives who built, defined, contested, and reimagined this country, to help make and remake Canada through immigration.

**Recommended Preparation:** [HIS263Y1](#)/[HIS264H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS313H1 - Animal History

**Hours:** 24L

What happens to history when we take the category of the animal as the subject? This course pursues the history of people and other animals since the early modern period, with a thematic focus located in the Atlantic world.

**Recommended Preparation:** [HIS218H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS314H1 - Language, Empire, and Encounter in Francophone Canada

**Previous Course Number:** [HIS314Y1](#)

**Hours:** 24L

This course will explore the history of Francophone Canada from the late 19th century until today. In addition to looking at more traditional themes focused on nationalism and constitutional politics, we will also look at the history of encounter between groups of different backgrounds and origins. As such, we will place a large emphasis on colonialism and Indigenous history, and the politics of language, race, and immigration. Themes will include, among others, the history of francophone Canada

in an era of British imperialism, jazz, the art world, literature, the Oka Crisis, and Quebec's ties to Haiti and other parts of the non-Western world. For 2021, we will explore these histories through a focus on the city of Montreal.

**Exclusion:** [HIS314Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS315H1 - Vietnamese Histories

**Hours:** 24L

This course introduces students to the narratives that diverse actors have used to talk about Vietnamese histories. We will focus on the histories and perspectives of the indigenous peoples of the peninsula, ethnic minority groups, as well as that of the majority "Kinh people." We'll explore themes which have been central to shaping the geographic space, the socio-political regimes, and the cultural entity we now call "Viet Nam," while examining how varying types of historical method and archival strategies can influence the telling of histories. This course may fulfil the methodology requirement portion of the major.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS316H1 - Competing Colonialism in Northeast China The Harbin Experiment

**Hours:** 24L

This course explores the political, social, and cultural history of Harbin, one of the major cities of Manchuria/Northeast China, the product of competing Russian, Japanese, and international colonialism during the first half of the twentieth century, and an early case of multi-ethnic emigration and multiculturalism.

**Prerequisite:** [HIS250Y1](#) or [HIS280Y1](#) or [HIS281Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS317H1 - 20th Century Germany

**Hours:** 24L

A survey of modern German history in the twentieth century. Topics include World War I and the postwar settlement, the Weimar Republic, the National Socialist dictatorship, the Holocaust, the division of Germany, the Cold War, German reunification, Germany and the

European Union, nationalism, political culture, war and revolution, religious and ethnic minorities and questions of history and memory.

**Prerequisite:** [HIS103Y1/HIS109Y1/\(HIS241H1, HIS242H1\)/EUR200Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS318H1 - The "Wild" West in Canada

**Hours:** 24L/7T

What happens when histories of Canada begin in the West? This course examines the critical challenges that the myths and legacies of the West pose to Canadian history, from pre-contract to 1990. Themes include First Nations and colonialism, immigration, racism, economic development, regionalism, prostitution and illegal economies.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS320H1 - Barbarian Invasions and the Fall of the Roman Empire

**Hours:** 24L/5T

Covers major events and themes for the period 300-600, including decline of Greco-Roman paganism, conversion to Christianity, individual barbarian groups (Ostrogoths, Visigoths, Huns, Burgundians, Vandals, Franks, Lombards), their culture and impact on empire, Justinian's reconquests.

**Recommended Preparation:** [HIS220Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS321H1 - Dark Age Europe, 7th-10th Centuries

**Hours:** 24L/5T

Surveys major events and figures for the period c. 600-1000, including: Pope Gregory the Great, the Merovingian Franks, Lombard Italy, Byzantine civilization, the rise of Islam, Charlemagne, the Carolingian Renaissance, the Vikings, Anglo-Saxon England to King Alfred, the Ottonians.

**Exclusion:** [HIS320Y1](#)

**Recommended Preparation:** Some ancient history, ancient Greek or Latin language, early Christianity, Celtic

history, Old Irish and Old English languages.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JHN323H1 - Indigeneity in the Caribbean

**Hours:** 24L

Explores the legacies of the pre-Columbian era, as well as the post-1492 experiences of people of pre-Columbian Caribbean ancestry. Examines the origins and consequences of the Caribbean's narrative of "indigenous absence", as well as the relationship between indigeneity, globalization and diaspora.

**Prerequisite:** INS201Y1/ HIS230H1/ HIS231H1/ CAR120Y1/ CAR220H1/ CAR221H1/ NEW224Y1/ CAR225H1/ CAR226H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS323H1 - Rites of Passage and Daily Life in the Middle Ages

**Hours:** 24L/5T

Reflecting on the life cycle and rites of passage in the medieval period gives the opportunity to study the daily lives of peasants, nobles, monks, nuns, and burghers, and to observe from an interesting angle the differences between female and male life experiences.

**Recommended Preparation:** A course in the Middle Ages in any discipline

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS324H1 - British Imperial Experience, 1600-2000

**Hours:** 24L

The British empire, at its zenith, covered one-quarter of the earth's land surface. Whatever the rights and wrongs of its history were, the legacies of this global experience continue to influence politics in today's world. Equal coverage is given to early modern and modern history. Some background in British history or international relations is strongly recommended. This course begins at home with English expansionism in the British Isles before moving on to deal with case studies selected from North America, the Caribbean, Africa, South Asia and East Asia. Coherence comes from thematic foci consisting of economics, law, migration, gender and governance.

**Prerequisite:**

HIS103Y1/HIS109Y1/HIS241H1/HIS244H1/HIS245H1/HIS368H1/HIS337H1/HIS349H1

**Exclusion:** HISB02H3

**Recommended Preparation:**

HIS102Y1/HIS103Y1/HIS109Y1/HIS202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS325H1 - Imperial Russia

**Hours:** 24L

This course focuses on Russia's history during a period of remarkable change and turbulence, when the country more firmly established its far-flung empire while simultaneously attempting to define itself as a nation. From the wars and reforms of Peter the Great through the end of the empire during the First World War, the course touches on questions of social and cultural change, and the political events that allowed or constrained them.

**Prerequisite:** HIS250H1/HIS250Y1/permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS326H1 - Topics in Chinese History

**Hours:** 24L

Selected topics on a specific period in Chinese history. Topics in any given year depend on the instructor.

**Prerequisite:** HIS280Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS327H1 - Rome: The City in History

**Hours:** 24L

This course investigates the development of Rome from its mythical foundations, through the Empire, the Middle Ages, Renaissance and Baroque to the modern city, illustrating the shift from the pagan to the papal city and its emergence as the capital of a united Italy after 1870 and a modern European metropolis.

**Prerequisite:** At least 1.0 credit European History course(s)

**Exclusion:** VIC348Y1 (offered in Fall/Winter 2012-2013, 2013-2014, 2014-2015 and 2015-2016) and VIC162H1 (offered in Fall 2016, Fall 2017 and Fall 2018)

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS328H1 - Modern China

**Previous Course Number:** HIS328Y1  
**Hours:** 24L

An examination of political, social and economic developments in modern Chinese history to the present day. Main topics may include the decline of the Imperial order and the challenge of Western imperialism; the Republican period; the rise of the Communist movement; the Peoples Republic of China.

**Prerequisite:** [HIS280Y1](#)/[EAS102Y1](#)  
**Exclusion:** [JMC201Y1](#), [HIS328Y1](#)  
**Recommended Preparation:** [HIS380H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS329H1 - Central Middle Ages (900-1200)

**Hours:** 24L

A chronological survey from 900, with the foundation of Cluny by the Duke of Aquitaine, the last waves of Vikings, and the decline and end of the Carolingian Empire, up to 1200, with the Battle of Bouvines, the more formal organization of the first universities and the construction of the Gothic cathedrals. The main question will be: what happens when there is no real central power? Why did the term "Feudalism," now nicknamed the F word by medievalists, was judged inappropriate to describe the situation?

**Prerequisite:** 9.0 credits including 1.0 HIS credit  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS330H1 - Germany from Frederick the Great to the First World War

**Hours:** 24L

Topics include German reactions to the French Revolution, Napoleonic occupation, the Wars of Liberation, industrial expansion, the Revolutions of 1848, unification in 1871, Bismarck and Kaiser Wilhelm II, everyday life, gender relations, avant-garde culture, nationalism, antisemitism, colonialism, and the Great War of 1914-18.

**Prerequisite:** 1.0 HIS credit at the 100 or 200-level  
**Exclusion:** [HIS341Y1](#)  
**Recommended Preparation:** [HIS241H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS332H1 - Crime in English Society

**Hours:** 24L

The changing nature of crime and criminal justice in early-modern England; the emergence of modern forms of policing, trial and punishment.

**Prerequisite:** 9.0 credits, including 1.0 HIS credit  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS333H1 - Catholic Asia in the Early Modern Era, 1500-1800

**Hours:** 24L

This course examines the impact of Catholicism in Asia, from its introduction to its relevance in the contemporary global order. Students will be introduced to how Catholicism and the technologies accompanying it affected historical transitions in local communities in Asia as well as how the growth of these communities has affected the global Catholic Church.

**Prerequisite:** 1.0 credit in European or Asian history. Students who do not meet the prerequisite are encouraged to contact the Department.  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS336H1 - Medieval Spain

**Hours:** 36L

This course emphasizes the interaction of Christians, Muslims, and Jews, and the cultural and political distinctiveness of Castile and Aragon in the development of state, society, and culture in medieval Spain.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS337H1 - Culture, Politics and Society in 18th Century Britain

**Previous Course Number:** HIS337Y1

**Hours:** 24L

Deals with England, Scotland, Ireland and the Atlantic World. Addresses major political, social, economic, intellectual and cultural highlights of the "long" eighteenth century. Deals with enlightenment, industrialization and the loss of the first British empire. Interrogates Britain's emerging status as a world power.

**Exclusion:** [HIS337Y1](#)

**Recommended Preparation:** [EUR200Y1](#)/ [HIS109Y1](#)/  
[HIS243H1](#)/ [HIS244H1](#)/ [HIS368H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS338H1 - The Holocaust, to 1942

**Previous Course Number:** HIS338Y1, HIS398Y1

**Hours:** 24L/5T

German state policy towards the Jews in the context of racist ideology, bureaucratic structures, and varying conditions in German-occupied Europe. Second Term considers responses of Jews, European populations and governments, the Allies, churches, and political movements.

**Prerequisite:** Completion of 6.0 credits

**Exclusion:** [HIS388Y1](#)/[HIS398Y1](#)/[HIS338H5](#)

**Recommended Preparation:** A course in modern European history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS339H1 - History of Modern Israel

**Hours:** 24L

This course explores the history of the Jewish state from the rise of Zionism to the present. Topics include the Zionist-Arab conflict, immigration, the construction of a new Hebrew identity, interactions between religion and state, the impact of the Holocaust, and the relationship between Israel and the Jewish diaspora.

**Prerequisite:** [HIS208Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS340H1 - The Ottoman Empire, 1800-1922

**Hours:** 24L

The course examines the history of the Ottoman Empire from the beginning of the 19th c. until its dissolution in the course of World War I. Topics include Ottoman reforms, relations between the Empire's populations and the state, the diplomatic interactions known as "the Eastern Question," the Young Turk revolution, gender, and intellectual, cultural and artistic developments.

**Prerequisite:** 1.0 HIS credit at the 200-level

**Exclusion:** [HIS389H1](#) (The Ottoman Empire, 1800-1922)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS341Y1 - Germany Among the Global Empires 1840-2010

**Hours:** 48L

This course places Germany's long national history in a transnational and global context, exploring its place among the global empires of Britain, Russia, France and the United States from the mid-seventeenth century to the present. Events of the German nation-state's political, social and cultural developments are analyzed through a framework focused on both military expansion and the development of the world economy after 1700. Particular attention is paid to the interplay between strategies for a global expansion and transformations in national culture, looking at Germany in the world and the world in Germany.

**Prerequisite:** Two HIS courses from the following:

[HIS102Y1](#)/[HIS103Y1](#)/[HIS107Y1](#)/[HIS109Y1](#)/[HIS241H1](#)/[HIS242H1](#)/[HIS243H1](#)/[HIS244H1](#)/[EUR200Y1](#)/[HIS250Y1](#)/[HIS271Y1](#)

**Recommended Preparation:**

[HIS102Y1](#)/[HIS109Y1](#)/[HIS241H1](#)/[HIS242H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## HIS342H1 - Political and Psychological Liberation in 20th Century Africa

**Hours:** 24L

This course examines the growth of movements for the political liberation of Africa and the psychological liberation of Africans from Western imperialism and cultural hegemony. Postcolonial thinking and art was fundamental

to the project of decolonization. It uses primary text and films to explore African cultural and intellectual history.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS343H1 - History of Modern Intelligence

**Hours:** 24L

This course explores the rise of modern intelligence over the long 20th century, from Anglo-Russian imperial competition before World War I through to the post-9/11 era. Students will study the contribution of intelligence services to victories and defeats in war, peace, and the grey areas in between. The course will also examine the relationship between intelligence services and society.

**Exclusion:** [HIS343Y1](#)

**Recommended Preparation:** [HIS103Y1](#) or an equivalent introduction to modern international relations

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS344H1 - The Global Cold War

**Hours:** 24L

An examination of the conduct and consequences of international politics in an atomic/nuclear age when the stakes of the Great Game were not just the fates of states and nations, but the survival of humanity itself. The diplomatic, strategic and economic aspects of international relations will all receive appropriate elucidation.

**Exclusion:** [HIS344Y1](#)

**Recommended Preparation:**

[EUR200Y1](#)/[HIS103Y1](#)/[HIS241H1](#), [HIS242H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS345H1 - History and Film

**Hours:** 24L/36P

This course is designed to further students knowledge of films relationship to the events they depict and their undeniable power as representational systems to render history effectively. This will necessarily entail both close examination of the formal systems film rely upon and an understanding of the distinction between fictional and non-fictional forms in film.

**Prerequisite:** 2 full courses in history or permission of instructor

**Recommended Preparation:** [INI212Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS346H1 - Rice, Sugar, and Spice in Southeast Asia: a History of Food in the Region

**Hours:** 24L

This course examines the importance of food products in the livelihoods of the inhabitants of Southeast and in the world economy. It traces the circulation of these products within the Southeast Asian region in the pre-modern period, into the spice trade of the early modern era, and the establishment of coffee and sugar plantations in the late colonial period, and the role of these exports in the contemporary global economy.

**Recommended Preparation:** 1.0 credit in Asian or European history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HIS347H1 - The Country House in England 1837-1939

**Hours:** 24L

This course examines class, distinction and community through the lens of the English country house from 1837 to 1939. Topics include owners, servants, houses, collections, gardens and rituals such as fox hunting.

**Prerequisite:** A course in British or European history

**Recommended Preparation:** [HIS349H1](#)/[HIS302H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS348H1 - Topics in Gender History

**Hours:** 24L

An in-depth examination of issues in gender history. Content in any given year depends on instructor. See History website for more details.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS349H1 - History of Britain: Struggle for Power

**Hours:** 24L

An introduction to the history of modern England with emphasis on the search for identity with reference to the nation, the crown, class, gender, age, political parties, race and ethnicity.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS351Y1 - History of Twentieth-Century Russia

**Hours:** 48L

A survey of the history of Twentieth-Century Russia. The social, economic, and political development of Twentieth-Century Russia, with an emphasis on the Russian Revolution and Stalinism. Stress is placed on modern historiographical issues.

**Exclusion:** [HIS351H1](#)/[HIS351H5](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS352H1 - A History of Women in Pre-colonial East Africa

**Hours:** 24L

This course examines the lived experience of women in societies, communities and polities of varying sizes across territories that cover eight contemporary East African states. It encompasses the period from 1000 B.C to the end of the nineteenth century. Topics covered are clustered under four broad themes: a) Ecology, work in commodity production, wealth and exchange relations; b) "Institutional" power, ideology and structures; c) "Creative" power particularly in the areas of healing, resistance/contestation and transformation; and d) Violence, war and vulnerability.

The course challenges present day gender and identity categories applied to Africa's deep past and highlights critical nuances of gender, identity and power dynamics in Africa.

**Prerequisite:** [AFR150Y1](#) or any course in African History

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS353Y1 - Poland: A Crossroads of Europe

**Hours:** 48L

Social and political history of Poland from the 10th to the 20th century. Analysis of the political history in a broader, central European context; consequences of Christianization of medieval Poland and the Polish-Lithuanian union; Sarmatian culture, Antemurale, Polish Messianism and Cordon sanitaire.

**Prerequisite:** [HIS251Y1](#)/permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS355H1 - A History of Pre-modern Medicine

**Hours:** 24L

This course surveys major themes and developments in the history of medicine from c.600 BCE to 1800 CE. Topics include: Hippocrates, Galen and their reception in the Middle Ages; monasteries, medicinal gardens and hospitals; medieval licensing of physicians and pharmacists; medieval scholastic medicine; the Black Death; Renaissance anatomy and charlatans; New World drug discoveries; William Harvey's heart, William Withering's foxglove, the isolation of morphine.

**Prerequisite:** 1.0 credit in medieval or pre-modern history. Students who do not meet the prerequisite are encouraged to contact the Department.

**Recommended Preparation:** [HIS220Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS356H1 - War in Canadian History

**Hours:** 24L

This course examines war as a major force in the history of Canada from the so-called colonial period to recent times. In addition to key dynamics in military history (e.g. battles, military organization), the course will stress the links between war and society, politics, empire and colonialism, technology and environment, memory and commemoration, and identity. Topics may include indigenous warfare and diplomacy, imperial rivalry in early North America, Canada and the British Empire, the world wars, the Cold War, and peacekeeping. Soldiers and peaceniks are both welcome and will be equally happy and annoyed.

**Recommended Preparation:** [HIS264H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS357Y0 - The Renaissance

**Exclusion:** [HIS357Y1/HIS357H1/HIS357Y5/HIS357H5](#)

## HIS357Y1 - A Social History of Renaissance Europe

**Previous Course Number:** HIS357H1  
**Hours:** 48L

A social history of the 15th and 16th centuries set against the cultural and political background. Emphasis on changes in customs and living conditions resulting from economic, legal, intellectual, and religious developments of the period.

**Exclusion:** [HIS357H1/HIS357Y0/HIS357Y5/HIS357H5](#)  
**Recommended Preparation:** A course in Renaissance or Early Modern European history  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS358H1 - Canadian History in 100 Objects

**Hours:** 24L

The Canadian history course focuses on museums and material culture (history of objects). Using museum visits, lectures, and workshops, students in this course have an opportunity to conduct original research on how artefacts (and the institutions that house them) offer us new ways of thinking about the past.

**Prerequisite:** [HIS264H1](#) or [HIS263Y1](#)  
**Exclusion:** [HIS389H1](#) (Material Culture in Canada)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS359H1 - Regional Politics and Radical Movements in the 20th Century Caribbean

**Hours:** 24L

The role of nationalism, race and ethnicity, class conflict and ideologies in the recent development of Caribbean societies; Europe's replacement by the United States as

the dominant imperial power in the Caribbean; how this mixture of regional and international pressures has led to widely differing political systems and traditions.

**Recommended Preparation:** [HIS294Y1](#)/[HIS230H1](#), [HIS231H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS360H1 - Critical Histories of the Black Canadian Experience

**Previous Course Number:** HIS360Y1  
**Hours:** 24L

This course explores the long history and diverse experiences of African Canadians in Canada. Topics may include slavery, the underground railroad, migration, and Black life in rural and urban Canada throughout the 20th century. Discussions will be situated in broad and transnational debates about race.

**Exclusion:** [HIS360Y1](#)  
**Recommended Preparation:** Any 100 or 200 level HIS course  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS361H1 - The Holocaust, from 1942

**Hours:** 24L/5T

Follows on [HIS338H1](#). Themes include: resistance by Jews and non-Jews; local collaboration; the roles of European governments, the Allies, the churches, and other international organizations; the varieties of Jewish responses. We will also focus on postwar repercussions of the Holocaust in areas such as justice, memory and memorialization, popular culture and politics.

**Prerequisite:** Completion of 6.0 credits and [HIS338H1](#)  
**Exclusion:** [HIS338Y1](#)/ [HIS361H5](#)  
**Recommended Preparation:** A course in modern European history  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS363H1 - Dynamics of Gender in Canadian History

**Hours:** 24L

A lecture course which deals thematically with gender issues in Canadian history (including familial roles,

changing patterns of work and employment, and participation in the public sphere).

**Prerequisite:** [HIS263Y1/HIS264H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS364H1 - From Revolution to Revolution: Hungary Since 1848

**Hours:** 24L

This course offers a chronological survey of the history of Hungary from the 1848 revolution until the present. It is ideal for students with little or no knowledge of Hungarian history but who possess an understanding of the main trends of European history in the 19th and 20th centuries. The focus is on the revolutions of 1848-1849, 1918-1919, the 1956 Revolution against Soviet rule and the collapse of communism in 1989. The story has not been invariably heroic, violent and tragic.

**Prerequisite:** A 100 level HIS course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS365H1 - History of the Great Lakes Region

**Hours:** 24L

This course is a survey of the Great Lakes Region as a "trans-national space" from the 1780s to recent times. Attention is focused on the development of the region from indigenous space to industrial heartland and its subsequent deindustrialization. Key themes include economic development, colonialism and re-settlement, environmental history (particularly of the lakes themselves), and the role of the Canada-US border in shaping the region. The course includes material from both Canadian and American history. Considerable attention is paid to Toronto as a Great Lakes city.

**Recommended Preparation:** [HIS264H1](#) or [HIS271Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS366H1 - Indigenous Histories of the Great Lakes from 1815 to the Present

**Hours:** 24L/5T

Explores the history of Aboriginal peoples (Indigenous and Metis) living in the Great Lakes Region after the Great

Lakes were effectively split between British North America (later Canada) to the north and the United States to the south, when a rapidly increasing newcomer population on both sides of the border marginalized Indigenous peoples and settled on their land. Topics include a comparative examination of Indigenous experiences of colonialism, including treaties and land surrenders as well as the development of government policies aimed at removing and/or assimilating Great Lakes peoples. This course will also study resistance by First National and Tribal Councils to those programs over nearly two centuries and assess local strategies used for economic and cultural survival.

**Prerequisite:** [HIS263Y1/HIS264H1/HIS271Y1](#)

**Exclusion:** [HIS369Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS367Y0 - The City in Central Europe – Ideas, Culture, Revolutions and Renewal

**Hours:** 48L

The cities of Central Europe, and most notably those of the Habsburg Empire, were at the forefront of Europe's cultural, artistic and intellectual development until the outbreak of the Second World War. Moreover, these cities remain living monuments to the achievements of European culture to the present day. These cities also represent some of the darker aspects of European history. The goal of this course is to familiarize students with the history of Central Europe, the complex historical role of central European cities, their interaction with imperial and then national cultures, economies and societies, and their importance in creating modern nation states.

Offered in summer only as part of the Summer Abroad Program.

**Prerequisite:** 1.0 credit in History

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS368H1 - Early Modern Britain, 1485-1660

**Hours:** 24L

Introduction to the political, social and religious history of early modern England, Scotland and Ireland. Particular attention will be paid to the history of the monarchy, the Protestant Reformation, gender issues and relations between different parts of the British Isles.

**Recommended Preparation:** [EUR200Y1](#),  
[HIS109Y1/HIS243H1/HIS244H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS369H1 - Indigenous Histories of the Great Lakes, to 1830

**Hours:** 24L/5T

Explores the history of Aboriginal Peoples (Indigenous and Métis) living in the Great Lakes Region from the 16th century to the aftermath of the War of 1812. Weaving together interdisciplinary sources, this course examines central events in Great Lakes history including the formation of the Wendat and Haudenosaunee Confederacies and key Anishinabek alliances, the arrival of European newcomers into an Indigenous landscape, the social-political impact of new diseases, reactions to European missionaries, the fur trade, major conflicts and peace processes including the Great Peace of Montreal, the Treaty of Niagara and the 60 Years War for the Great Lakes; and ending with the period of significant encroachment of new settlers on Indigenous lands. Tutorials, primary source analysis, essay, exam.

**Prerequisite:** [HIS263Y1/ HIS264H1/ INS201Y1](#)

**Exclusion:** [HIS369Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS370H1 - Modern Palestine

**Hours:** 24L

Weekly lectures provide an overview of the political struggles over Palestine between Zionist and Palestinian national movements in the twentieth century in the context of British colonialism, UN negotiations and resolutions, Third-Worldism, superpower rivalry and everyday cooperation and occupation on the ground.

**Exclusion:** [HIS339H1](#)

**Recommended Preparation:** [HIS340H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS371H1 - Canadian Political History

**Hours:** 24L/12T

This course examines the history of Canadian politics from the late colonial period to the recent past. Lectures and tutorials will focus attention on specific political issues (responsible government, Confederation, war, welfare,

battles over voting rights, campaigns for social change, etc) but also consider the deeper structural, social, economic, and cultural dynamics that shaped politics over time. The course takes a broad view of politics (elections and parties but also social movements, interest groups, bureaucracy). A key theme is the nature of political power in a democratic polity.

**Prerequisite:** [HIS264H1/HIS263Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS372H1 - Topics in U.S. History

**Hours:** 24L

In-depth examination of selected periods or themes in U.S. history. Topic in any given year depends on instructor. See History website for more details.

**Exclusion:** [HIS372H5/HISD36H3](#)

**Recommended Preparation:** [HIS271Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS373H1 - Servants and Masters, 1000-1700

**Hours:** 24L

This course will explore the history of all types of servants, from the ladies-in-waiting to the domestic slaves, in Western Europe between 1000 and 1700. The goal will be to observe especially their working and living conditions, as well as the changing perception of service through time.

**Recommended Preparation:** A course on the Middle Ages and/or a course on the Early Modern Period in any discipline

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS376H1 - The United States: Now and Then

**Hours:** 24L

An exploration of some of the historical roots of issues that are of particular importance to understanding the United States of the early 21st century: e.g., the conflicts in Iraq, Afghanistan, and Syria and U.S. global leadership (or hegemony); the impact of globalization on the domestic economy; cultural innovation vs. neo-conservatism.

**Prerequisite:** [HIS271Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS377H1 - 20th-Century American Foreign Relations

**Previous Course Number:** HIS377Y1

**Hours:** 24L

A survey of the history of American foreign relations from 1898 to the present. Themes include imperial expansion and the uses of power; the relationship of business and government in U.S. foreign policy; and the role of culture and ideas in Americas relations with the world.

**Exclusion:** [HIS377Y1](#)

**Recommended Preparation:** [HIS271Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS378H1 - America in the 1960s

**Hours:** 24L

A survey of one of the most turbulent decades in American history. Examines the political, social, economic and cultural revolutions that transformed the face of America.

**Prerequisite:** [HIS271Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS379H1 - Vietnam at War

**Hours:** 24L

This course examines war in modern Vietnam, beginning with Vietnamese nationalism in the 19th century to the conflicts with France, the United States, and China. We will consider the military, political, economic, and cultural contexts of these complex and interconnected wars, especially from the viewpoint of the Vietnamese people.

**Prerequisite:** 1.0 credit in History, any field

**Exclusion:** [HIS400H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS382H1 - China from the Mongols to the Last Emperor

**Hours:** 24L/12T

This course traces the history of Chinese empire from its political reorganization, economic expansion, and cultural efflorescence in the 11th century, through its peak of power in the 18th century, and to its decline during the 19th. We will consider how these centuries broke with as well as continued previous developments, and how they have influenced Chinese and world history in the last 150 years.

**Prerequisite:** [HIS280Y1](#)/[EAS103H1](#)/[EAS209H1](#) or comparable course in E. Asian/Chinese history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS383Y1 - Women in African History

**Previous Course Number:** HIS383H1

**Hours:** 24L

This course subjects our increasing knowledge about African women's history from the mid-19th century to the present to critical analysis. It goes beyond restoring women to history and seeing African women as victims impacted upon and struggling against colonialism and neo-colonialism. It examines how African women's lived experiences have been represented, packaged, and delivered to different audiences.

**Prerequisite:**

[HIS295Y1](#)/[HIS297Y1](#)/[AFR150Y1](#)/[AFR250Y1](#)/[AFR351Y1](#)/[P](#)  
[OL301Y1](#) or permission from the Instructor

**Exclusion:** [HIS383H1](#)/[HISC97H3](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS384H1 - The Baltic Sea Region from the Vikings to the Age of Nationalisms

**Hours:** 24L

This course traces political, cultural and socio-economic developments in North-Eastern Europe, the Baltic Sea region, from the Viking Age to the end of the 19th century. Topics include the crusades, the Hanseatic League and trade, the Reformation, the struggle for hegemony between the Swedish and Russian empires, the Enlightenment, national movements, and industrialization.

**Prerequisite:** 9.0 credits including 1.0 HIS credit

**Recommended Preparation:** A course in European History

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## JHA384H1 - Japan in the World, Mid-16th to Mid-20th century

**Hours:** 24L

This course examines Japan within the context of world history from the mid-16th to the mid-20th century. Rather than seek comprehensive coverage of Japan's national history along a linear timeline, we will use Japan as a lens through which to consider key moments in the history of the modern world.

**Prerequisite:** One course from: [HIS102Y1](#), [HIS103Y1](#), [HIS107Y1](#), [HIS241H1](#), [HIS242H1](#), [HIS244H1](#), [HIS250H1](#), [HIS250Y1](#), [HIS271Y1](#), [HIS280Y1](#), [HIS281Y1](#), [HIS282Y1](#), [HIS283Y1](#), [HIS291H1](#), [HIS291Y1](#), [HIS292H1](#), [HIS292Y1](#), [HIS297Y1](#), or 1.0 credit from [CAS200H1](#), [CAS201H1](#), [CAS202H1](#), [CAS310H1](#), [CAS320H1](#).

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS385H1 - The History of Hong Kong

**Hours:** 24L

A study of political, economic, and social change in the British colony of Hong Kong from 1842 until the present day.

**Exclusion:** Students cannot take both the Y and H version of HIS385

**Recommended Preparation:** [HIS280Y1/JMC201Y1](#)

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS385Y0 - The History of Hong Kong

**Hours:** 48L

A study of political, economic, and social change in the British colony of Hong Kong from 1842 until the present day.

Offered in summer only as part of the Summer Abroad Program.

**Exclusion:** Students cannot take both the Y and H version of HIS385

**Recommended Preparation:** [HIS280Y1/JMC201Y1](#)

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS386H1 - Fascism

**Hours:** 24L

A comparative and transnational examination of fascist movements and regimes in Europe during 1919-1945. Beginning with Mussolini in Italy and Hitler in Germany, this course analyzes manifestations of the phenomenon in various European countries, including France, Spain, the Baltic states, Central Europe and Scandinavia. We analyze the factors that led to fascist movements obtaining power in certain countries and to their failure in others. Collaboration with Nazi Germany during the Second World War is also explored. Finally, we discuss whether the concept of 'generic' fascism can also be applied to other regions and periods.

**Prerequisite:** 9.0 credits including 1.0 HIS credit

**Exclusion:** [HIS389H1](#) (Topics in History: Fascism), offered in Winter 2018 and Winter 2019

**Recommended Preparation:** A course in European History

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS387H1 - France, 1610-1848

**Previous Course Number:** HIS388Y1

**Hours:** 24L

This course considers the history of France, from the rise of absolutist monarchy under the seventeenth-century, Bourbon monarchs, through the Enlightenment, the Revolution and Napoleonic Empire, and the Restoration, to the fall of the constitutional monarchy in 1848.

**Prerequisite:** one HIS/FRE course

**Exclusion:** [HIS388Y1](#)

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS388H1 - France Since 1830

**Previous Course Number:** HIS388Y1

**Hours:** 24L

A study of French society, politics and culture from the Paris Commune to the 1990s. Special attention is paid to watersheds like the Dreyfus Affair and the Vichy regime, to issues of regionalism/nationalism, cultural pluralism, women's rights, intellectual and cultural trends, and decolonization.

**Prerequisite:** [EUR200Y1](#)/one course in HIS/FRE

**Exclusion:** [HIS388Y1](#)

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS389H1 - Topics in History

**Hours:** 24L

In-depth examination of historical issues. Content in any given year depends on the instructor and further prerequisites vary from year to year. See History website for more details.

**Prerequisite:** 4.0 credits including 1.0 HIS credit

**Distribution Requirements:** Humanities

## HIS389Y1 - Topics in History

**Hours:** 48L

In-depth examination of historical issues. Content in any given year depends on instructor. See History website for more details.

**Prerequisite:** 9.0 credits including 1.0 HIS credit. Further prerequisites vary from year to year, consult the department.

**Distribution Requirements:** Humanities

## HIS390H1 - Slavery in Latin America

**Hours:** 24L

This seminar focuses on the history of African slavery in Latin America from its origins in the fifteenth century to its abolition in the nineteenth century. Readings will draw from primary sources and historical scholarship related to a range of topics, including the slave trade, gender, religious and cultural practices, and emancipation.

**Prerequisite:** [HIS106Y1](#)/[HIS231H1](#)/[HIS291H1](#)/[HIS292H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS391Y1 - Black Freedom in the Atlantic World

**Hours:** 72L

Black writers and historical actors were at the vanguard of re-conceiving, implementing, and realizing much of the Enlightenment project of freedom. Africans and people of African descent significantly affected its meaning in the Atlantic world. The course sets out to explore this history as well as the contemporary practice of freedom.

**Prerequisite:** 1.0 credit in African, European, Atlantic World history. Students who do not meet the prerequisite are encouraged to contact the Department.

**Exclusion:** [HIS296Y1](#)/[HIS371H5](#)/[HISC70H3](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JAH391H1 - Topics in Anthropology and History

**Hours:** 24S

Anthropological and Historical perspectives on topics that vary from year to year.

**Recommended Preparation:** [ANT204H1](#) or a course in European History

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JAH391Y0 - Topics in Anthropology and History

**Hours:** 48S

Anthropological and Historical perspectives on topics that vary from year to year.

**Recommended Preparation:** [ANT207H1](#) or a course in European History

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## HIS392Y1 - Screening Freedom

**Hours:** 48L

This course examines how filmmakers in Africa, The Americas, and Europe have dealt with subjects such as slavery, colonialism, racism and postcolonial issues such as illegal immigration or structural adjustment. The course interpolates texts from [HIS391Y1](#) into these films in order to bring new perspectives to questions of freedom in different media, times, and places.

N.B. This course supplements [HIS391Y1](#).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## HIS393H1 - Digital History

**Hours:** 24L

Explores implications for history and its methods of the shift from print to digital sources. Imparts introductory skills in the manipulation digital media, such as the use of maps, GIS and big data.

**Prerequisite:** 200-level History course or one of [DHU235H1](#)/ [DHU236H1](#)

**Exclusion:** [HIS389H1](#) (Topics in History: Digital History), offered in Summer 2015, Winter 2016, and Winter 2017

**Distribution Requirements:** Humanities

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## HIS394H1 - 20th and 21st Century African Icons: Media and Biography

**Hours:** 24L

Superseding 19th century European missionary and explorers' accounts of Africa; media in the 20th and 21st centuries have unequivocally played a key role in shaping the globe's views of Africa and Africans. In 2005, BBC Focus on Africa put out an impressive list of more than 100 "African Icons". Since then, a number of websites have come up with various lists of African icons. Who are the African icons and what makes them icons? How have the media contributed in making them icons?

**Prerequisite:** [HIS295Y1](#)/ [HIS297Y1](#)/ [HIS383H1](#)/ [HIS383Y1](#)/ [HIS386H1](#)/ [HIS481H1](#)/ [NEW160Y1](#)/ [NEW261Y1](#)/ [AFR351Y1](#)/ [POL301Y1](#)/ [POL361H1](#) or by permission from the Instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JHA394H1 - The Asia Pacific War

**Hours:** 24L

This course examines the Second World War in the Asia Pacific region and highlights: (1) how imperialism and colonialism of both the Euro-American and Japanese varieties were central to the War's outbreak, conduct, and "resolution"; (2) various "local" rather than simply national experiences and memories of the War, including those of marginalized groups in Japan and its colonies, "comfort women," victims of war atrocities, Asian North Americans, African Americans, and Pacific Islanders.

**Prerequisite:** One course from: [HIS107Y1](#), [HIS242H1](#), [HIS250H1](#), [HIS251H1](#), [HIS263Y1](#), [HIS271Y1](#), [HIS280Y1](#), [HIS281Y1](#), [HIS282Y1](#), [HIS283Y1](#), [HIS284Y1](#), [HIS292Y1](#),

[HIS311Y1](#), [HIS317H1](#), [HIS328H1](#), [HIS338H1](#), [HIS343H1](#), [HIS343Y1](#), [HIS344H1](#), [HIS344Y1](#), [HIS351Y1](#), [HIS361Y1](#), [HIS377H1](#), [HIS385H1](#), [HIS385Y1](#), or 1.0 credit from [CAS200H1](#), [CAS201H1](#), [CAS202H1](#), [CAS310H1](#), [CAS320H1](#).

**Recommended Preparation:** One or more courses on Japan, China, Korea, or Southeast Asia in any department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS395H1 - Independent Studies

This course provides an opportunity for exceptional third-year students to undertake an independent research project on a topic for which there is not a suitable course offering. Students must find an appropriate supervisor from the Department, submit a proposal, and receive approval for the project. Students must be enrolled in either a History Specialist or Major program; have taken at least 3.0 HIS credits with a B+ average; and have approval of an instructor willing to supervise the project. Not eligible for CR/NCR option.

**Prerequisite:** 9.0 credits (Year 3 or higher) including a 77% average in 3.0 HIS credits

**Distribution Requirements:** Humanities

## HIS395Y1 - Independent Studies

This course provides an opportunity for exceptional third-year students to undertake an independent research project on a topic for which there is not a suitable course offering. Students must find an appropriate supervisor from the Department, submit a proposal, and receive approval for the project. Students must be enrolled in either a History Specialist or Major program; have taken at least 3.0 HIS credits with a B+ average; and have approval of an instructor willing to supervise the project. Not eligible for CR/NCR option.

**Prerequisite:** 9.0 credits (Year 3 or higher) including a 77% average in 3.0 HIS credits

**Distribution Requirements:** Humanities

## HIS396H1 - The Progressive Era and Rise of Big Business in America

**Hours:** 24L

This course examines the rise of big business in America and its relationship to social and economic changes in United States in the so-called Progressive Era (roughly 1880-1920). We will focus on several themes: the evolution and characteristics of big business; rise of organized labor; evolution of business-government

relations; social and economic reform movements; and the changing status of immigrants, African Americans, and women (both white and African-American). In short, we will be studying a pivotal moment in the transformation of modern American society.

**Exclusion:** [HIS389H1](#) (Topics in History: Business and Society), offered in Fall 2016 and [HIS372H1](#) (Topics in U.S. History: The Progressive Era and Rise of Big Business), offered in Winter 2018

**Recommended Preparation:** [HIS271Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS397H1 - Political Violence and Human Rights in Latin America

**Hours:** 24L

This course will explore human rights theory and practice from a Latin American perspective. There will be a focus on the local derivation, development and impact of the movement for human rights in Latin America. The course will focus on the history of organized protest against violence in the twentieth century.

**Prerequisite:** [HIS292H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## HIS398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## HIS399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at

<https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

## HIS400H1 - The American War in Vietnam

**Hours:** 24S

This course examines the French and American Wars (1945-75) in Vietnam and its effects on the population of Vietnam and Southeast Asia. It begins with a brief overview of pre-colonial Vietnamese history and moves into a study of the impact and legacies of colonial rule and centres on the impact of the Wars on the cultures, economies, and societies of Southeast Asia.

**Prerequisite:** By permission of the Instructor

**Exclusion:** [HIS315H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS401H1 - The Cold War through its Archives

**Previous Course Number:** HIS401Y1

**Hours:** 24S

The course reviews the history of the Cold War in light of formerly-secret archival documents. Examples include the US White House Tapes and Venona decrypts; massive declassification of records in the ex-Soviet bloc; and parallel developments in China, Cuba, and other Communist states. Archival discoveries have cast new light, not just on individual episodes (e.g., Cuban Missile Crisis of 1962, Soviet invasion of Afghanistan in 1979) but on the origins, strategies, and driving forces of this 45-year conflict. The focus will be mainly on the superpowers and their alliance systems.

**Prerequisite:** [HIS311Y1](#)/[HIS344H1](#)/[HIS344Y1](#)/[HIS377H1](#)

**Exclusion:** [HIS401Y1](#), [HIS306H5](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS402H1 - Canada and Decolonization

**Hours:** 24S

This course will explore the multi-faceted ways in which Canada was shaped by and was an active participant in global decolonization following the Second World War. An emphasis will be placed on the larger global context in which post-war Canadian history unfolded. Topics will include Indigenous politics, changing migration patterns,

Quebec nationalism, diasporic politics, anti-colonial thought and oppositional social movements.

**Prerequisite:** [HIS263Y1/HIS264H1](#)

**Recommended Preparation:**

[HIS307H1/HIS312H1/HIS314H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS403H1 - Jews and Christians in Medieval and Renaissance Europe

**Previous Course Number:** HIS403Y1

**Hours:** 24S

The course focuses on aspects of Jewish-Christian relations ca.300-1600, such as royal and ecclesiastical Jewish policies; religious polemics; intellectual collaboration; social and economic interaction; anti-Judaism and religious violence. (Joint undergraduate-graduate)

**Exclusion:** [HIS403Y1](#)

**Recommended Preparation:** [HIS208Y1/ HIS220Y1/](#)

[HIS243H1/ HIS322Y1/ HIS357Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS404H1 - Topics in U.S. History

**Hours:** 24S

Selected topics in U.S. history. Topics in any given year depend on the instructor. Please see History website for details.

**Prerequisite:** [HIS271Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS405Y1 - Canadian Foreign Relations

**Hours:** 48S

A course on Canadian external relations since 1945. Topics include Canada and the Cold War, the Korean War, the Suez crisis and the war in Vietnam, membership in international organizations, and bilateral relations with other countries. (Joint undergraduate-graduate)

**Prerequisite:** [HIS311Y1/POL312Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS406H1 - Advanced Topics in Gender History

**Hours:** 24S

An in-depth examination of issues in gender history. Content in any given year depends on instructor. See History website for more details.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS407H1 - Imperial Germany, 1871-1918

**Hours:** 24S

Historiographical controversies and the latest empirical findings concerning social conflict and political mobilization under Bismarck and Wilhelm II. Problems raised by competing schools of interpretation include definitions of the authoritarian state, bourgeois hegemony, localism and regionalism, radical nationalism, workers 'culture, and gender relations. (Joint undergraduate-graduate)

**Prerequisite:** [HIS330H1](#) or permission of the instructor

**Exclusion:** HIS407H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS408H1 - Topics in Environmental History

**Hours:** 24S

This advanced undergraduate seminar will explore themes in environmental history. Thematic focus will vary from year to year, and may include extinction, nuclear power in environmental history, empire and environment, toxicity and contamination, climate change, the Columbian exchange, the Anthropocene, agriculture, animals, and/or other themes. Time period and geographical focus will also vary in keeping with the thematic focus of this course.

**Prerequisite:** [HIS218H1](#) or [HPS316H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS411H1 - Great Trials in History

**Hours:** 24S

This seminar course will study a handful of great trials in close detail. Using materials from the modern period in Europe and North America, we will look at the clash of ideas represented in these high-profile cases, the historical setting in which they were embedded, the human drama, legal and sometimes constitutional issues, and their impact both on their societies and our own.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS413H1 - Slave Emancipation in the Atlantic World

**Hours:** 24S

Examines the process and consequences of slave emancipation in the Atlantic World, beginning with the French and Haitian Revolutions and concluding with slavery and abolition in West Africa in the early 20th century. Students are introduced to the major literature and historiographical debates surrounding emancipation.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS414H1 - Down and Out in Medieval Europe

**Hours:** 24S

Explores the life conditions of individuals on the lower echelons of medieval society (the poor, servants and apprentices, the exiled, prisoners, slaves, foreigners and lepers). In parallel, we will discuss the various conceptions of poverty that prevailed in the Middle Ages. These objectives will allow us to glimpse the European Middle Ages from an unusual angle as well as reflect on important socio-economic and religious changes.

**Recommended Preparation:** A course on the Middle Ages in any discipline

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS415Y1 - Nationalism & Memory in Modern Europe

**Previous Course Number:** HIS415H1

**Hours:** 48S

Investigates the modern concept of the nation and its connections to the idea of collective memory in twentieth-century Europe. Through reading and discussing seminal

works on nationalism and national memory, we will discuss the connections between modern notions of nation and practices of remembering.

**Prerequisite:** Two history courses from the following:

HIS102Y1, HIS103Y1, HIS109Y1, HIS241H1, HIS242H1, HIS243H1, HIS244H1, HIS245H1, EUR200Y1, HIS317H1

**Exclusion:** HIS415H1

**Recommended Preparation:** HIS102Y1, HIS109Y1, HIS241H1, HIS242H1, HIS243H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS416H1 - Orientalism and Nationalism in Nineteenth-Century Germany

**Hours:** 24S

In 1771, with the translation of the Zend-Avesta by the French Scholar Anquetil-Duperron, a new era opened in German national culture. From the philosophy of Johann Gottfried von Herder to the novels of Thomas Mann, this course analyzes the ways in which German writers defined the substance and place of national culture in their writings about India, Central Asia and the East.

**Prerequisite:** HIS241H1, 242H1/317H1/Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS417Y1 - The Oldest Profession in Canada: Sex Work Histories in Comparative Contexts

**Hours:** 48S

This seminar explores the historical effects of the "world's oldest profession" in Canada and beyond. Using a range of texts, including film, memoirs, oral history and visual culture, it seeks to enhance both historical and contemporary discussions of the sex trade by examining its rich, difficult and problematic pasts. Seminar readings and discussions will examine the lives and experiences of multiple sex trade-involved populations, from affluent 19th-century madams to streetwalkers and queer and trans communities.

**Prerequisite:** HIS263Y1/HIS264H1

**Exclusion:** HIS417H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS418H1 - Themes in Canadian Environmental History

**Hours:** 24S

Environmental historians study the reciprocal relationship between humans and nature over time. This course examines key themes in the history of Canada's environment. Possible topics include food, energy, pollution, cities, parks, and environmental movements. Specific themes vary by year, depending on the focus of the instructor. Strong emphasis is placed on reading and research.

**Prerequisite:** [HIS263Y1/HIS264H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS419H1 - Canada By Treaty: Alliances, Title Transfers and Land Claims

**Hours:** 24S

A detailed study of the treaty process between indigenous peoples and newcomers in Canadian history, with examination of the shift between alliance treaties to land surrender agreements from the colonial period through to the signing of recent treaties including the Nunavut Land Claims Agreement and the Nisga'a Final Agreement.

**Prerequisite:** [HIS263Y1/HIS264H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS420H1 - Russia's Great Patriotic Wars

**Hours:** 24S

The course examines Russia's wars with Napoleon and Hitler, both as military campaigns and as important nation-building events, largely through memoir literature.

**Prerequisite:** [HIS250H1/HIS250Y1/HIS325H1/HIS351Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS421H1 - Oral History

**Hours:** 24S

Exploration of oral history interview research methods, their contributions to the History field, and practical training in the skills and art of doing oral history. This is a research workshop course, oriented to developing student research projects, and each student will do oral history research. Topics include: memory, interviewing, ethics, interpreting oral testimonies and issues in community-engaged research.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS422H1 - Early Modern English Popular Culture, 1500-1800

**Hours:** 24L

Deals with issues of orality, literacy, gender, class, cultural bricolage and vernacular epistemology – the constituents of popular, as opposed to elite knowledge - through the study of folklore, magic, religion, drink, sex, riot and festivity in early modern England. Some background in medieval and/or early modern history or literature is highly recommended. Extensive work will be undertaken with primary printed sources.

**Prerequisite:** One of

[HIS101Y1/HIS109Y1/HIS220Y1/HIS243H1/HIS244H1/HIS368H1/HIS337H1/HIS349H1/HIS357Y1](#)

**Exclusion:** [HIS496H1](#) (Topics in History: Early Modern English Popular Culture, 1600-1800), offered in Summer 2018

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS423H1 - Social History of Medicine in the 19th & 20th Centuries

**Hours:** 24S

Introduces students to current issues in the social history of medicine and some of the major developments in the modern history of the discipline. The format is class discussion based on themes covered in the course textbook, covering such topics as the history of the doctor-patient relationship, changes in physicians' social status, changing attitudes toward the body, and the evolution of various medical and surgical specialties including obstetrics and gynecology. (Joint undergraduate-graduate).

**Exclusion:** [HIS423Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS424H1 - Violence in Medieval Society

**Hours:** 24S

This seminar explores the social function and meaning of violence in medieval society, and the development of rituals and institutions to control violence. Among the topics treated: Germanic blood feud, aristocratic violence and chivalry, criminal justice systems, violence against minorities, and violence and gender. (Joint undergraduate-graduate)

**Prerequisite:** [HIS220Y1](#)/[HIS320H1](#)/[HIS321H1](#)/[HIS322H1](#)

**Exclusion:** HIS327Y5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS426H1 - Medieval Italy, 400-1000

**Hours:** 24S

This course surveys the major developments and figures of Italian history by focusing on key primary texts (in translation) with a particular view to urban and legal history which will form the backdrop to understanding artistic and literary achievements in context.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS427H1 - History and Historiography in the Golden Legend

**Hours:** 24S

The Golden Legend or Readings on the Saints, compiled by Jacobus de Voragine c. 1260, serves as the basis for a seminar on the relation of history and legend as understood in the High Middle Ages. (Joint undergraduate-graduate)

**Prerequisite:** [HIS220Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS428H1 - Medieval Institutes of Perfection

**Hours:** 24S

The first goal of this seminar is to help students read the sources with a more critical eye, especially narrative sources (Lives of Saints) and normative sources (rules and customs). The second goal is to study the

evolution of the monastic ideal from its origin to the 12th century. (Joint undergraduate-graduate)

**Prerequisite:** A course specifically on the Middle Ages such as [HIS220Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS429H1 - Canada and Empire in the Twentieth Century

**Hours:** 24S

This course explores the ways in which twentieth century Canada was shaped by its complex relationship to empire. Course readings place Canadian historiography into dialogue with new theoretical and methodological approaches drawn from postcolonial studies, new imperial history, feminist and critical race theory. Topics include the meaning of empire in everyday life, migration, the impact of global decolonization, and Indigenous politics.

**Prerequisite:** [HIS263Y1](#)/ [HIS264H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS432H1 - Topics in Medieval History

**Hours:** 24S

The students define together with the professor eight different topics (e.g. relics, masculinity, leprosy, clothes, recluses, peasants houses, gynecology and the peace of God). Each topic is approached through a class discussion, on the basis of a common corpus of secondary sources, plus presentations by the students.

**Prerequisite:** A course in Medieval history such as [HIS220Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS433H1 - Polish Jews Since the Partition of Poland

**Hours:** 24S

To explore the history of Polish Jews from the Partitions of Poland to the present time, concentrating on the 19th and the first half of the 20th centuries: situation of Polish Jews in Galicia; Congress Kingdom of Poland; Prussian-occupied Poland before 1914; during World War II; and post-war Poland. Focus on an analysis of primary sources. (Joint undergraduate-graduate)

**Prerequisite:** [HIS208Y1/HIS251Y1](#)/permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS434Y1 - Kievan Rus

**Hours:** 48S

The origin of Rus, international trade, the impact of nomadic peoples, the introduction of Christianity, the economic system and the problem of feudalism, the political structure and the dilemma of princely succession; literature and architecture; the displacement of political power centres and depopulation, the preservation of the Kievan heritage. (Joint undergraduate-graduate)

**Prerequisite:**

[HIS220Y1/HIS250H1/HIS250Y1/HIS320H1/HIS321H1/HIS322H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS435H1 - Themes in Toronto History

**Hours:** 24S

This course will examine aspects of Toronto's history. It is not a general survey of Toronto history; instead, the course will normally revolve around a specific theme or group of themes. Specific themes vary by year, depending on the focus of the instructor. Strong emphasis will be placed on reading and research.

**Prerequisite:** [HIS263Y1/ HIS264H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS436H1 - Stalinist Terror

**Hours:** 24S

This research seminar explores topics and issues of violence in the Soviet Union in the 1930s, beginning with forced collectivization and ending with the Great Terror. The seminar focuses on new archivally-based research and aims to contextualize Stalinist terror within larger theories of political and social violence.

**Prerequisite:** [HIS250Y1](#) (B or higher) or [HIS351Y1](#) (B or higher)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS437H1 - Telling Lies About Hitler: Frauds and Famous Feuds Among German Historians

**Hours:** 24S

Examines historiographical controversies and their public reception. Topics include the forged Hitler diaries, the David Irving trial, German responsibility for 1914, Daniel Goldhagen's "eliminationist" thesis, Auschwitz as an "Asiatic deed," Wehrmacht complicity in the Holocaust and retrospective films about East Germany.

**Prerequisite:** [HIS317H1/HIS330H1](#) or permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS438H1 - Inquisition and Society in Medieval and Early Modern Europe

**Hours:** 24S

Focusing on the institution of the inquisition, this seminar explores the response of ecclesiastical and secular authorities to religious heterodoxy. Among the groups prosecuted by the inquisition discussed: Cathar heretics in France, crypto-Jews and crypto-Muslims in Spain, and witches in Italy.

**Recommended Preparation:** [HIS220Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS439H1 - Russia's Empire

**Hours:** 24S

This course examines ways in which the Russian Empire and Soviet Union expanded their territories, the ways they controlled those colonies, and the ways in which they dealt with rising nationalism both at home and abroad.

**Prerequisite:** [HIS250H1/250Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS440H1 - Maps and History

**Hours:** 24S

Examines the use of maps through the ages to depict spatial relationships and political, social, or cultural authority. Explores the visual display of quantitative

information, the evolution of historical atlases, and cartographic crime. Such topics as Lebensraum and gerrymandering illustrate how maps can distort historical processes and communal relationships.

**Recommended Preparation:** At least three History courses at the 200/300 level

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS442H1 - Jews and the Holocaust in the Soviet Union

**Hours:** 24S

This course is an advanced research seminar in Soviet history. It will explore the Jewish experience in the Soviet Union, with a focus on the Holocaust. The seminar will begin with an examination of the history of Jews in the Russian Empire and the Soviet Union in the years leading up to the Second World War. Then the course will pivot directly to the topic of the Holocaust on Soviet soil. How did the Holocaust in the “east” differ from the Holocaust in the “west”? How did the conduct of war condition genocide in the Soviet Union? How did Soviet Jews and non-Jews respond to the German genocide? What was the response of Stalin and the Soviet government to the Holocaust? How is the Holocaust remembered by the states and people of the former Soviet Union.

**Prerequisite:** [HIS351Y1](#) or a course on the Holocaust

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS443H1 - Society, Culture and Religion in the Renaissance and Reformation

**Hours:** 24S

Developments in popular/lay/local religion as expressed in a variety of cultural, political, and social forms from 1400-1600; the relation of these forms to both Catholic and Protestant institutional churches. Impact of Renaissance humanism on notions of kinship, order, community, perfection.

**Prerequisite:** [HIS309H1](#)/[HIS357Y1](#) or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS444H1 - Topics in Jewish History

**Hours:** 24S

Selected topics on a specific period or theme in Jewish history. Topic in any given year will depend on the instructor. Please see History website for details.

**Prerequisite:** A course in modern European or Jewish history

**Recommended Preparation:** A course in Jewish history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS445H1 - Nationalism

**Hours:** 24S

What is a nation? Are nations ancient or modern, unchanging or malleable? Do nations create states, or does the state create the nation? This course seeks to answer these questions through an examination of nationalism, primarily in Europe, from the 1700s through the present.

**Prerequisite:** 2.0 HIS credits in European history.

Students who do not meet the prerequisite are encouraged to contact the Department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS446H1 - Gender and Slavery in the Atlantic World

**Previous Course Number:** HIS446Y1

**Hours:** 48S

The course examines the relationship between gender and the experience of slavery and emancipating several Atlantic world societies from the 17th-19th centuries. Areas to be covered are the Caribbean, Brazil, the U.S. South, West and South Africa and Western Europe.

**Prerequisite:** [HIS291H1](#)/[HIS294Y1](#)/[HIS230H1](#), [HIS231H1](#)/[HIS295Y1](#)

**Exclusion:** [HIS446Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS449Y1 - Ukrainian National Revival

**Hours:** 48S

The role of the intelligentsia in East European national revivals; the ethnographic and literary revival; the language question; the press and cultural organizations; education; religion; and political movements. (Joint undergraduate-graduate)

**Recommended Preparation:** One of the following:

JHP204Y1/HIS241H1/HIS251Y1/HIS445H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS451H1 - World War II in East Central Europe

**Hours:** 24S

The fall of the Versailles system, German and Soviet diplomatic and military activities and their occupational policies in East Central Europe during World War II, economic exploitation, collaboration, resistance, and genocide in the discussed region, its liberation and sovietization in 1944-1945. (Joint undergraduate-graduate)

**Prerequisite:** EUR200Y1/HIS251Y1/HIS334H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS455Y1 - Hacking History: Digital Projects Capstone Class

**Hours:** 48S

This course provides a unique opportunity to grapple with the challenges of public history, while exploring new methods and technologies in the digital humanities. Each year, we partner with one or more community groups to create historical websites which endure well beyond the school year. Topics vary annually.

**Prerequisite:** HIS393H1, equivalent experience, or instructor's permission

**Recommended Preparation:** Basic HTML/CSS skills as learned in self-paced online introductions

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS457H1 - The French Revolution and the Napoleonic Empire

**Hours:** 24S

Explores the central themes in the history of France during the Revolution and the First Empire. We will consider the periods principal political, social and cultural aspects: the causes of the French Revolution; the shift from constitutional monarchy to Republic; the relationship between politics and religion; the invention of a new republican political culture; counterrevolution and Terror; the Directory; Bonaparte's rise to power; the Napoleonic Empire; the nature of war during the Empire; the

Restoration; and the Revolution's legacy in France and beyond today.

**Prerequisite:**

HIS243H1/HIS244H1/HIS319H1/HIS341Y1/HIS387H1

**Exclusion:** HISC26H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS459H1 - Soviet History and Film, 1921-1946

**Hours:** 24S

The history of Soviet cinema and the importance of film as a historical source. Documentary and fiction film; editing, narration, and sound; film distribution and exhibition; the Soviet school of montage and socialist realism; nationality and gender; the Soviet musical comedy of the Stalin era; resistance and dissidence.

**Prerequisite:** CIN105Y1/ HIS250Y1/ HIS250H1/ HIS335H1

**Exclusion:** HIS450Y1/ SLA233H1/ SLA234H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HIS460H1 - Soviet History and Film, 1941-1991

**Hours:** 24S

Soviet film as a historical source and the institutional and ideological history of Soviet film production, distribution, and exhibition. Fiction and documentary film during World War II; the cinema of the Cold War and the Thaw; Soviet new realism and the return of the village; avant-garde cinema of the 1960s-80s; memory and historical revision in late Soviet film. Screenings include never-before-seen archival footage, as well as films and film clips subtitled by the instructor.

**Prerequisite:** CIN105Y1/HIS250Y1/HIS335H1

**Exclusion:** HIS450Y1/SLA233H1/SLA234H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HIS461H1 - Poland in the 20th Century

**Hours:** 24S

The 20th century has been an age of experiments for Poland. Universal, general problems of democracy,

authoritarianism, totalitarianism, communism, socialism, free market and centrally planned economies, are examined, as are the ongoing adjustments made by the Polish people. (Joint undergraduate-graduate)

**Prerequisite:** [HIS334H1/HIS353Y1](#)/permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS463H1 - Cloth in American History to 1865

**Hours:** 24S

Cloth was a major commodity in the early modern world. Positioning early America within a global context and employing a material culture framework, textiles and clothing provide the lens through which to view the social, cultural, economic and industrial development of the United States from pre-European contact until the 1860s.

**Prerequisite:** [HIS271Y1](#)

**Recommended Preparation:** [HIS374H1/VIC224Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS464H1 - Religion and Violence in Comparative Perspective

**Hours:** 24S

Examines varying roles of religion in cases of genocide and extreme violence. Seminar proceeds from recent cases (Darfur, Rwanda, wars associated with break-up of Yugoslavia) backward through the 20th century (Cambodia, Indonesia, the Holocaust, Armenians, Herero) and the 19th century (Belgian Congo, Caucasus, native peoples in the Americas).

**Prerequisite:** one course in HIS/REL/Peace and Conflict

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS465Y1 - Gender and International Relations

**Hours:** 48S

This seminar explores the use of gender as a category of analysis in the study of international relations. Topics include gendered imagery and language in foreign policymaking; beliefs about women's relationship to war and peace; issues of gender, sexuality, and the military;

gender and global governance; gender and the global economy; sexual violence; and contributions of feminist theory to international relations theory.

**Exclusion:** [JHP440Y1](#)

**Recommended Preparation:** 0.5 credit at the 300-level in HIS/POL/WGS

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3), Thought, Belief and Behaviour (2)

## HIS466H1 - Topics in Canadian History

**Previous Course Number:** HIS466Y1

**Hours:** 24S

Selected topics in a specific period of Canadian history. Content in any given year depends on instructor. Please see the History Department website for complete description.

**Prerequisite:** [HIS263Y1/HIS264H1](#) or permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS467H1 - French Colonial Indochina: History, Cultures, Texts, Film

**Previous Course Number:** HIS467Y1

**Hours:** 24S

Examines French colonial Indochina through several different lenses. Themes include the cross-cultural contact zones between colonial and colonized societies, imperial culture, expressions of colonial power, and forms of opposition. Colonial novels, translated resistance literature, documentaries, and films are utilized as primary sources to be examined critically.

**Prerequisite:**

[ANT344Y1/EAS204Y1/GGR342H1/HIS104Y1/HIS107Y1/HIS280Y1/HIS283Y1/HIS284Y1/HIS315H1/HIS388H1/NEW369Y1](#)

**Exclusion:** [HIS467Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS470H1 - History, Rights, and Difference in South Asia

**Hours:** 24S

Addressing South Asian history after 1750, this course examines ideas of rights, contract, and the rule of law in

colonial and postcolonial contexts. Attention is paid to the intellectual history of rights and the central place of colonial and postcolonial questions within that history. Topics include rights and questions concerning indigenous culture, caste and customary practice, gender and capitalist development.

**Prerequisite:** A mark of 73% or higher in [HIS282Y1](#) or instructor's permission

**Recommended Preparation:** Background in political and social theory and some background in South Asia

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS472H1 - Indigenous-Newcomer Relations in Canadian History

**Hours:** 24S

The trajectory of Canadian history has been (and continues to be) shaped significantly by the changing relationships between indigenous peoples and newcomers to what is now Canada. Through discussion of readings on various seminar topics, we will explore the multi-faceted contours of these relationships, from cultural encounters, treaties & alliances, and missionization to colonization, assimilation, residential schools and contemporary issues.

**Prerequisite:** [HIS263Y1](#) (73%)/[HIS264H1](#) (73%)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS473H1 - The United States and Asia since 1945

**Previous Course Number:** HIS473Y1

**Hours:** 24S

This seminar examines strategic, economic, ideological, and cultural factors in U.S. relations with East and Southeast Asia. Major themes include the role of cultural and informal diplomacy and the effect of perceptions and misperceptions on both sides of U.S. - Asian interactions.

**Prerequisite:** 1.0 credit in History, any field

**Exclusion:** [HIS473Y1](#)

**Recommended Preparation:**

[HIS271Y1](#)/[HIS280Y1](#)/[HIS328H1](#)/[HIS344H1](#)/[HIS376H1](#)/[HIS377H1](#)/[HIS379H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS474H1 - Emancipate Yourself from Mental Slavery? Historical Narratives of Caribbean Decolonization

**Hours:** 24S

This course is a critical intellectual history of Caribbean decolonization. It begins with the Haitian Revolution, exploring and comparing how history was mobilized to structure anti-colonial theories about the making of postcolonial Caribbean societies. Key conceptual frameworks to be examined include indigenism, noirism, creolization, métissage; Caribbean interpretations of Marxism, Negritude and Pan-Africanism.

**Prerequisite:** [HIS294Y1](#)/( [HIS230H1](#), [HIS231H1](#))

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS475H1 - Senior Thesis Seminar

**Hours:** 24S

Compulsory for all Specialists undertaking a one-semester dissertation. Weekly seminars provide training in reviewing literature, writing research proposals, formulating hypotheses and oral presentation of findings.

History Specialists only. Students must find topics and thesis supervisors. Not eligible for CR/NCR option. See department website for pre-requisites and specific registration instructions.

(<http://history.utoronto.ca/undergraduate/senior-thesis>)

**Prerequisite:** Consent of supervisor and department

**Exclusion:** [HIS498H1](#), [HIS499Y1](#), [HIS476Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS476H1 - Senior Thesis

**Previous Course Number:** HIS476Y1

**Hours:** 24S

Compulsory for all Specialists undertaking a one-year dissertation.

History Specialists only. Students must find topics and thesis supervisors. Not eligible for CR/NCR option. See department website for prerequisites and specific registration instructions.

**Prerequisite:** [HIS475H1](#) and consent of supervisor and department

**Exclusion:** [HIS476Y1](#), [HIS498H1](#), [HIS499Y1](#)

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS477H1 - Topics in the Social and Cultural History of Victorian Britain

**Hours:** 24S

Examination of the impact of industrialism on Victorian society and values. Concentration on Victorian social critics including Engels, Owen, Mayhew, Dickens and Morris.

**Recommended Preparation:** A course in modern British History/Victorian literature  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS479H1 - US Foreign Policy Since World War II

**Hours:** 24S

An in-depth study of U.S. behaviour in the global arena since World War II. Particular attention will be paid to the origins and evolution of the Cold War, the Vietnam War, the initiatives of the Nixon-Kissinger years, the end of the Cold War, and the relevance of globalization.

**Prerequisite:** [HIS271Y1/HIS377H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS480H1 - Modernity and its Others: History and Postcolonial Critique

**Hours:** 24S

Engaging with influential perspectives in postcolonial historiography, this seminar tracks three major themes in the history of the idea of modernity from the late 18th through the 20th centuries: political freedom, citizenship and the nation-state; capitalism and its critique; and the relationship of history, memory, and identity. (Joint undergraduate-graduate)

**Prerequisite:** A mark of 73% or higher in [HIS282Y1](#), or instructor's permission; [HIS470H1](#)  
**Recommended Preparation:** History of colonialism, political theory, or postcolonial literatures  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS481H1 - Elite Women, Power, and Modernity in Twentieth-Century Africa

**Hours:** 24S

The role of elite women in twentieth-century Africa has been overshadowed by studies of non-elite women so much so as to suggest that all women lacked power. This course aims to show how a very limited but important group of women negotiated power in a century of increasing patriarchy. It combines gender with class analysis.

**Prerequisite:** 300-level African History course or any of the African Studies courses offered at U of T.  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS482H1 - Soccer: The History of the World's Game

**Previous Course Number:** HIS199H1  
**Hours:** 24S

This seminar proposes to explore the history of the world's most popular sport, soccer, in broader political, social, and economic context. We will consider critical approaches to the history of sport; modern soccer's emergence in industrializing Britain; its globalization; its mobilization as a vehicle for political expression, as well as social, cultural, and gendered identities; supporter and soccer as an industry.

**Prerequisite:** Completion of 9.0 credits  
**Exclusion:** [HIS199H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS484H1 - The Car in North American History

**Hours:** 24S

This seminar examines the history of the car in North America from the perspective of technology, business, landscape and popular culture. Particular attention is paid to issues of production, consumption, geography, and daily life, and to the importance of class race, gender, region, and age in shaping the meaning and experience of car culture.

**Prerequisite:** [HIS263Y1/HIS264H1/HIS271Y1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HIS485H1 - Topics in Chinese History

**Previous Course Number:** HIS485Y1

**Hours:** 24S

A seminar on selected aspects of Chinese history from 1368 to the present. Please see History website for detailed description of topic in any given year.

**Prerequisite:** [EAS102Y1/HIS280Y1/JMC201Y1](#)

**Exclusion:** [HIS485Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS486H1 - Writing and Masculinity in Africa

**Hours:** 24S

Introduces African cultural and intellectual history via a series of important primary texts. These texts provide important insights into the gendered nature of African intellectual movements for liberation as well as wider political discourses. It examines how these authors developed and deployed concepts such as authenticity, modernity, nation, and personhood.

**Prerequisite:** [HIS391Y1](#) or an equivalent course in African history

**Exclusion:** [HIS395H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS487H1 - Animal and Human Rights in Anglo-American Culture

**Hours:** 24S

Examines the parallel discourses of animal and human rights in Anglo-American culture from the eighteenth century to the present. The course explores issues of subjectivity and consciousness as well as cruelty and pain. Topics include slavery and abolition, animal welfare and antivivisection, anti-colonial liberation movements, and animal rights campaigns.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS489H1 - The History of Psychiatry and Psychiatric Illness

**Hours:** 24S

Introduces students to current issues in the history of psychiatry and some of the major developments in the evolution of this unique medical specialty. The format is class discussion based on themes covered in the course textbook, covering such topics as changing perspectives on the nature of psychotic illness, the psychoneuroses, disorders of the mind/body relationship, psychiatric diagnosis, and presentations of illness. (Joint undergraduate-graduate).

**Exclusion:** [HIS423Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS490H1 - Everyday Stalinism

**Hours:** 24S

This seminar explores issues of everyday life in Soviet Russia during the Stalin era. What was the Soviet normal? Topics will include belief systems, dreams and myths, terror, fear, repression, and resistance. Texts include a range of different sources, memoirs, diaries, official state documents, and secondary sources.

**Recommended Preparation:** Any course in Russian history, culture or politics

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS492H1 - Empire & Colonization in the French Atlantic World

**Hours:** 16S

The first French empire (1604-1791) is typically considered a failed empire. Beginning with the first French exploratory expeditions in the South Atlantic in the mid-16th century, this course examines the social, economic and political history of French imperial expansion during the *Ancien régime* in order to consider the meaning of success, as applied to empire during this period. The focus is on the development of the two colonial centres of the French New World: New France and the French Caribbean.

**Prerequisite:** [HIS244H1/HIS294Y1/\(HIS230H1, HIS231H1\)](#)

**Recommended Preparation:** [HIS387H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS493H1 - Humanity in War: The Modern Evolution of the Law of Armed Conflict

**Hours:** 24S

This course explores the development of international humanitarian law over the course of the nineteenth and twentieth centuries. Questions asked will include how modern warfare has been understood as a political, cultural, social and legal phenomenon, and the ways in which such perspectives developed into a program of restraint.

**Prerequisite:** [HIS241H1](#)/ [HIS242H1](#)/ [HIS344H1](#)/ [HIS344Y1](#)/ [EUR200Y1](#) or another course in modern history

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HIS494H1 - Gandhi's Global Conversations

**Hours:** 24S

Primary source analysis of global circuits of ethico-political thought via work and life of Gandhi. Charts transnational environment of Gandhian thought (eg. Ruskin and Tolstoy), its critics (advocates of minority rights, also revolutionary violence) and global afterlife (eg. King, Mandela). Teaches methods in intellectual and political history of the global.

**Prerequisite:** [HIS282Y1](#) with a mark of 76% or above

**Distribution Requirements:** Humanities

## HIS495H1 - Topics in History

**Previous Course Number:** HIS495Y1

**Hours:** 48S

An in-depth examination of historical issues. Content in any given year depends on instructor. See History website for more details.

**Prerequisite:** 14.0 credits including 2.0 HIS credits. Further prerequisites vary from year to year, consult the department.

**Recommended Preparation:** Varies from year to year

**Distribution Requirements:** Humanities

## HIS495Y1 - Topics in History

**Hours:** 48S

An in-depth examination of historical issues. Content in any given year depends on instructor. See History website for more details.

**Prerequisite:** 14.0 credits including 2.0 HIS credits.

Further prerequisites vary from year to year, consult the department.

**Recommended Preparation:** Varies from year to year

**Distribution Requirements:** Humanities

## HIS496H1 - Topics in History

**Hours:** 24S

An in-depth examination of historical issues. Content in any given year depends on instructor. See History website for more details.

**Prerequisite:** 14.0 credits including 2.0 HIS credits.

Further prerequisites vary from year to year, consult the department.

**Exclusion:** Students may not take both L0601 ("Critical Histories of the Black Canadian Experience") and L0701 ("Race in Canada") offered in 2016-17 Fall/Winter.

**Distribution Requirements:** Humanities

## HIS497H1 - Animal Politics and Science

**Hours:** 24L

Why is thinking about the animal unsettling for some or strange for others? Especially since Darwin, the question of the animal-what it says about being or not being human-has been at the core of important philosophical and scientific debates. This course examines the ways that question has been answered over time.

**Prerequisite:** 1.0 credit in political theory, history of science, or intellectual history. Students who do not meet the prerequisite are encouraged to contact the Department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HIS498H1 - Independent Studies

History Majors only. These courses result in the production of an independent research project. This may not necessarily take the form of a thesis. Students must find topics and project supervisors. Not eligible for CR/NCR option. See department website for prerequisites and specific registration instructions.

**Distribution Requirements:** Humanities

## **HIS499Y1 - Independent Studies**

History Majors only. These courses result in the production of an independent research project. This may not necessarily take the form of a thesis. Students must find topics and project supervisors. Not eligible for CR/NCR option. See department website for prerequisites and specific registration instructions.

**Distribution Requirements:** Humanities

# History and Philosophy of Science and Technology

## Faculty List

### Associate Professor and Director

E. Jones-Imhotep, BA, PhD (V)

### Associate Professor and Director of Graduate Studies

B. Baigrie, MA, PhD (V)

### Associate Professor and Director of Undergraduate Studies

M. Solovey, BA, MA, MA, PhD (V)

### Professors

C. Fraser, MA, PhD (V)

N. Kremontsov, Diploma Candidate of Sciences/History and Philosophy of Science and Technology (V)

M. Vicedo, BA, MA, PhD, PhD (V)

D. Walsh, BSc, BA, M Phil, PhD, PhD (V)

### Associate Professors

J. Berkovitz, BSc, MA, PhD (V)

L. Dacome, BA, M Phil, PhD (V)

Y. Fehige, BSc, BPhil, BTheol, MPhil, MTheol, PhD, PhD (V)

M. Solovey, BA, MA, MA, PhD (V)

C.-P. Yeang, BS, SM, PhD, Sc D (V)

### Assistant Professors

E.K. Burton, BA, AM, PhD (V)

W. Sung, BA, MS, MS, PhD (V)

K. Vold, BA, PhD (V)

R. Woods, BA, MA, PhD (V)

A. Zakar, MA, MA, MPhil, PhD

### University Professor Emeritus

T.H. Levere, MA, D Phil, D Litt, FRSC (V)

### Professors Emeriti

B.S. Hall, BA, Ph D (V)

P.M.H. Mazumdar, MB, M Tech, Ph D (V)

P. Thompson, MA, Ph D (V)

M.P. Winsor, M Phil, Ph D (V)

## Introduction

How are scientific theories developed? Do values affect science and do scientific theories influence social values? What is the role of science and technology in a democratic society? These are some of the questions that historians and philosophers of science examine. Courses in the philosophy of science engage with the structure of science, its methods, and its special claims to the production of knowledge. Courses in the history of science and technology situate scientific advances in their cultural and socio-economic context.

Students taking HPS courses deepen their understanding of major ideas in science; they learn to think critically about the past and present role of science in human societies, and they improve their skills in oral presentation and debate, research, and writing.

Students pursuing History and Philosophy of Science and Technology programs will be ideally suited to any professional or academic context that requires an understanding of science, science in society, and the relation between the sciences and the humanities.

The Minor programs are designed to complement a wide range of Major or Specialist programs including those in the sciences, history, philosophy, or any program for which the combination of sciences and humanities could prove beneficial. The Major program is useful for elementary and secondary school teaching, museum and library work, science writing and editing, law, medicine and other fields where competence in both science and humanities is valuable.

Director of Undergraduate Studies:

Professor Mark Solovey

## History and Philosophy of Science and Technology Programs

## History and Philosophy of Science and Technology Major (Arts Program) - ASMAJ0667

Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

Students are encouraged to meet with the Director of Undergraduate Studies prior to registering for this program.

(7.0 credits)

First Year (recommended):

0.5 credit from any HPS 100-level courses; up to 1.0 credit at the 100 level will count towards the major.

Higher Years (required):

Additional HPS courses, to a total of 7.0 credits and meeting the following two conditions:

1. At least 1.0 credit at the 200+ level.
2. At least 2.0 credits at the 300+ level, 0.5 of which must be at the 400-level.

JHE353H1, JHE355H1, JPH311H1, PHL245H1, PHL355H1, PHL356H1, or PHL357H1 may also be used in meeting the above two conditions.

## History and Philosophy of Science and Technology Minor (Arts Program) - ASMIN0667

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits)

1. Recommended: 0.5 credit from any HPS 100-level courses. Up to 1.0 credit in HPS courses at the 100-level will be counted towards the minor.
2. Recommended: at least 0.5 credit from any HPS 200-level courses.
3. Additional HPS courses to a total of 4.0 credits, with at least 1.0 credit at the 300+level. JHE353H1, JHE355H1, JPH311H1, PHL245H1, PHL356H1, or PHL357H1 may also be used to fulfill this requirement.

## Science, Technology, and Society Minor (Arts Program) - ASMIN2743

The Minor in Science, Technology, and Society is an interdisciplinary program that focuses on the different ways science and technology shape modern society and, in turn, how society shapes science and technology. From the food we eat to the way we conceive family relations or our obligations to future generations, our daily practices and our beliefs are increasingly influenced by scientific research and its applications. In turn, politics, public opinion, moral beliefs and cultural practices affect scientific and technological development. Courses in this program address such topics as science and values, science-related policy and politics, ethical uses of technology, scientific revolutions and controversies, modeling and communication of scientific research, and knowledge transfer from research to commercial and societal applications.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits, no more than 1.0 credit at the 100-level, at least 1.0 credit at the 300+ level)

1. HPS200H1
2. 1.0 credit from: VIC106H1, VIC121H1, VIC122H1, VIC137H1, VIC170Y1, VIC172Y1, VIC206H1, VIC207H1, REN242H1, VIC245H1, VIC246H1, CRE247H1, VIC274H1, REN343H1, CRE371H1, VIC377H1, VIC493H1
3. 1.0 credit from: HPS110H1, HPS202H1, HPS210H1, HPS211H1, HPS222H1, HPS245H1, HPS260H1, HPS270H1, HPS272H1, HPS307H1, HPS318H1, HPS319H1, HPS324H1, HPS345H1, HPS346H1, HPS351H1, HPS401H1, HPS402H1, HPS430H1, HPS431H1, HPS440H1, HPS450H1
4. An additional 0.5 credit from program requirements (2) and (3) above.
5. An additional 1.0 credit from program requirements (2) and (3) above and/or from the approved list of cognate courses: ANT358H1, ANT364H1, BIO220H1, EEB215H1, ENV200H1, ETH220H1, GGR223H1, JIG322H1, JGE321H1, PHL273H1, PHL281H1, PHL373H1, PHL381H1, PHL384H1, PSY328H1, WGS275H1.

Note: Effective Fall 2021, courses associated with Victoria College's Creative Expression and Society, and Renaissance Studies programs will have the new "CRE" and "REN" designators respectively.

# History and Philosophy of Science and Technology Courses

## HPS100H1 - Introduction to History and Philosophy of Science and Technology

**Hours:** 24L/10T

An investigation of some pivotal periods in the history of science with an emphasis on the influences of philosophy on the scientists of the period, and the philosophical and social implications of the scientific knowledge, theory and methodology that emerged.

**Distribution Requirements:** Humanities, Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS110H1 - The Science of Human Nature

**Hours:** 24L/10T

Why do we do what we do? What factors play a role in shaping our personality? What biological and social elements help configure a person's moral and emotional character? In this course, we examine landmark studies that shook standard beliefs about human nature in their time. We analyze those studies in their historical context and discuss their relevance to social, ethical, and policy debates. The studies may include research on mother love, obedience, conformity, bystander intervention in emergencies, deception, race, and gender stereotypes.

**Distribution Requirements:** Humanities, Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS120H1 - How to Think about Science

**Hours:** 24L/10T

This course addresses the nature of science and its importance to our understanding of ourselves. Questions include: What is a science? Is science objective? What is scientific reasoning? Has our conception of science changed through history? How does science shape our

moral image? Does science reveal our natures as humans?

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS200H1 - Science and Values

**Hours:** 24L

An introduction to issues at the interface of science and society. Including the reciprocal influence of science and social norms, the relation of science and religion, dissemination of scientific knowledge, science and policy. Issues may include: Nuclear, Biological and Chemical Weapons; Genetic Engineering; The Human Genome Project; Climate Change.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HPS202H1 - Technology in the Modern World

**Hours:** 24L/10T

This course examines the reciprocal relationship between technology and society since 1800 from the perspectives of race, class, and gender. From the role of European imperial expansion in 19th-century industrialization and mechanization to the development of nuclear technology, smartphones, and digital computers in the 20th century, we consider cultural responses to new technologies, and the ways in which technology operates as an historical force in the history of the modern world.

**Recommended Preparation:** [HPS201H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HPS203H1 - Making Sense of Uncertainty

**Hours:** 24L

This course examines issues of uncertainty in various contexts of science, technology, and society since the 19th century. Topics may include randomized controlled trials, statistical identification of normal and pathological, biopolitics, philosophical interpretations of probability, Brownian motions, uncertainty principle in quantum

mechanics, cybernetic mind, and chance in avant-garde arts.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS205H1 - Science, Technology, and Empire

**Hours:** 24L/6T

This gateway course introduces the emergence of the modern science and technology and the rise of European mercantile and colonial empires as closely intertwined processes. Beginning with the European discovery of the Americas, this course provides a broad thematic overview of the transformation of scientific practices in imperial contexts, including but not limited to geography and cartography; medical botany and plantation agriculture; biogeography and evolutionary biology; ecology and environmentalism; and race science and anthropology. The course primarily focuses on British and French colonial contexts in South Asia, Africa, Australasia and the Americas, but also considers Iberian, Russian, Dutch, and other imperial formations.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS206H1 - Science and the State: Science and Forming of Modern Nations

**Hours:** 24L/12T

In this course, we will learn about the complicated relations between science and state in the modern world. The state is often the main patronage to scientists. Science and technology have played crucial parts in political, economic, social, and cultural development. For poor countries, science has been a solution to catch up with rich countries. Yet the risk of science and technologies often unequally falls on the developing world. Drawing from anthropological, social, and historical studies of science, we will examine, among other topics, science and nation-building from ethnicity, population control, internet, big data, technocracy, scientists' self-fashioning and global capitalism.

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS210H1 - Scientific Revolutions I

**Hours:** 24L

Case studies in the history of science from antiquity to 1800, including the revolutionary work of Copernicus, Kepler, Galileo, Descartes, Newton, Linnaeus, Lavoisier, and Herschel. The course is designed to be accessible to science students and non-scientists alike.

**Exclusion:** [HPS200Y1](#)

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS211H1 - Scientific Revolutions II

**Hours:** 24L

Case studies in the history of science from 1800 to 2000, including Volta, Lyell, Darwin, Mendel, Einstein, Schrödinger, Watson, and Crick. The course is designed to be accessible to science students and non-scientists alike.

**Exclusion:** [HPS200Y1](#), [HPS300Y0](#)

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS222H1 - Science, Paradoxes, and Knowledge

**Hours:** 24L/10T

What is the nature of science and scientific knowledge? What is the nature of space, time and motion? Does science tell us the truth about the world? What are scientific revolutions and how they occur? The course will address these and various other questions about science. It will focus on the bearings that philosophical views had on science in different periods in history, starting from ancient Greece and concluding in the 20th C.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS240H1 - The Influence of the Eugenics Movement on Contemporary Society

**Hours:** 24L/10T

This course explores present-day topics such as reproductive issues (including "designer babies" and genetic counselling), gender, racism/colonialism, disability and euthanasia through the lens of the history of

eugenics. A “scientific” movement which became popular around the world in the early twentieth century, eugenics was based on the principle that certain undesirable human characteristics were hereditary and could be eliminated by controlled reproduction. It resulted in the enactment of laws in numerous places, including Canada, authorizing coerced reproductive sterilization of certain individuals, and other measures intended to “improve” humanity. Today, we see its influences woven through contemporary debates, a number of which we will consider.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HPS245H1 - Visions of Society and Progress

**Previous Course Number:** HPS352H1  
**Hours:** 24L/12T

This course explores influential visions of society and progress found in the history of the human sciences. It addresses questions such as: Are human beings naturally selfish or cooperative? Is society in harmony with the individual or opposed to the individual? It explores the significance of race, class, population growth, capitalism, and gender in debates about the good society.

**Exclusion:** [HPS352H1](#)  
**Recommended Preparation:** 0.5 credit in any of the following: HPS, history, sociology, economics, political science, anthropology, or another field that intersects with the social sciences such as criminology  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS250H1 - Introductory Philosophy of Science

**Hours:** 24L/10T

This course introduces and explores central issues in the philosophy of science, including scientific inference, method, and explanation. Topics may include underdetermination, realism and empiricism, and laws of nature.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS255H1 - History and Philosophy of Artificial Intelligence

**Hours:** 24L/12T

This course introduces students to the historical and philosophical issues around artificial intelligence (AI). We will cover the geopolitical, economic, and cultural contexts from which the field of AI emerged, as well as the troubled history of the scientific concept of intelligence and how that has influenced the development of AI. The course will also introduce students to foundational and normative questions, such as how we should define and measure AI, how to evaluate the accomplishments of AI systems, and what the benefits and risks of relying on such systems might be.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HPS260H1 - Biology and the Future: Science and Science Fiction

**Hours:** 24L

This lecture course explores the fantastic visions of humanity's future inspired by the advance of the biological sciences during the twentieth century. Biology provided the scientific underpinning for societal hopes and fears embodied in such cultural icons as robots, aliens, "brains in a vat," and super-humans.

**Exclusion:** [HMB444H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## HPS270H1 - Science and Literature

**Hours:** 24L/10T

This course will focus on the interplay between science and literature from ancient Greece to the present day. We'll examine the impact of major scientific paradigm shifts on the literature of their time, and situate literary texts within the context of contemporary scientific discoveries and technological innovations.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS272H1 - Science against Religion? A Complex History

**Previous Course Number:** HPS326H1  
**Hours:** 24L

This course introduces to the central topics arising from the encounter between modern science and religion. It aims to integrate historical and philosophical perspectives about science and religion. Did modern science arise because of Christianity or despite of it? Are science and religion necessarily in conflict? Have they factually always been in conflict throughout history? Are proofs of God's existence obsolete? Has science secularized society? What role should religions play in liberal democracies?

**Exclusion:** [HPS326H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## HPS299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## HPS300Y0 - Britain and the Rise of Modern Science

A Historical exploration of Britain's role in the rise of modern science, from the Renaissance to the double helix. Students will be introduced to the work of Hooke, Newton, Cavendish, Davy, Faraday, Maxwell, Rutherford, and others.

**Exclusion:** [HPS211H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2), Society and its Institutions (3)

## HPS300H1 - Topics in History and Philosophy of Science and Technology

**Hours:** 24L/10T

Topics vary year to year.

**Distribution Requirements:** Humanities

## HPS301H1 - Topics in the History of Science

**Hours:** 24L/10T

This course can concern topics of special interest in the history of science from Antiquity until present. Topics may focus on specific-time periods, fields of inquiry, individuals, scientific institutions, or geographic locations.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## HPS302H1 - Topics in Philosophy of Science

**Hours:** 24L/10T

This course can concern topics of special interest in the philosophy of science from Antiquity until present. Topics may include scientific change, rationality, method, evidence, progress, reduction, scientific laws, models, representation etc. The course may also focus on specific-time periods, fields of inquiry, individuals, scientific institutions, geographic locations, etc.

**Prerequisite:** [HPS250H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS304H1 - A History Lab: Biomedical Sciences, Past and Present

**Hours:** 36S

Offers a hands-on introduction to historical research. Through a close examination of classic scholarly texts, archival materials, and recent media publications, this advanced seminar explores the sources, methods, and approaches in historical studies of biomedical twentieth century-sciences.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## HPS307H1 - History of Energy

**Hours:** 24L/10T

The history of human control of various sources of energy, including technical developments, scientific theories, and

impact on culture and society. Recent debates on fossil fuel and nuclear power examined in historical context. (offered irregularly)

**Recommended Preparation:** HPS201H1/HPS202H1 or any HIS course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS309H1 - Worldviews: Aristotelian-Medieval Worldview

**Hours:** 24L/10T

This course reconstructs the Aristotelian-medieval mosaic of theories including physics, cosmology, theology, astronomy/astrology, optics, and physiology/medicine. We analyze the role of metaphysics in medieval science, including determinism/indeterminism, plenism/vacuism, finitism/infinitism, theism/deism, and teleology/mechanism. Finally, we explicate the Aristotelian-medieval method, by focusing on the notions of demonstrative truth, intuition, and deduction.

**Recommended Preparation:** HPS100H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JPH311H1 - From Universal Gravity to Quantum Information: The Making of Modern Physics

**Hours:** 24L

Topics in the history of physics from antiquity to the 20th century, including Aristotelian physics, Galileo, Descartes, electromagnetism, thermodynamics, statistical mechanics, relativity, quantum physics, and particle physics. The development of theories in their intellectual and cultural contexts.

**Prerequisite:** At least a 0.5 credit PHY course at university level

**Exclusion:** HPS311H1

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## HPS313H1 - Two Hundred Years of Electricity

**Hours:** 24S

A history of the science and technology of electricity in the 19th and 20th centuries in its social, economic, and cultural context.

**Prerequisite:** At least one-half CSC/PHY or Electrical Engineering (ECE) course

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS316H1 - Environment, Technology, and Nature

**Hours:** 24L/10T

This course examines the intersection of technology and environment in the modern world. Whether simple or complex, whether designed for recreation, work, or warfare, our tools and how we use them filter our perceptions of, and engagements with, non-human nature. Emphasis is on case studies from 1800 to the present.

**Prerequisite:** 0.5 credit in HPS or HIS

**Recommended Preparation:** HPS201H1/HPS202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HPS318H1 - History of Medicine I

**Hours:** 24L/10T

This course explores how medicine was practiced, taught and theorized from ancient Greece to the early modern period. It focuses on the historical development of western medicine in relation to societies, politics and culture, and considers topics such as the creation of medical traditions, the transmission and communication of medical knowledge, the pluralistic world of healers, the role of religion, magic and natural philosophy, the cultural meaning of disease, and the emergence of institutions such as the hospital.

**Prerequisite:** First-year students must have instructor's approval

**Exclusion:** HPS314Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS319H1 - History of Medicine II

**Hours:** 24L/10T

This course examines the development of medicine from the seventeenth to the twentieth century. It focuses on the

historical development of western medicine in relation to societies, politics and culture and considers topics such as changing views of the body, the development of medical institutions such as hospitals, asylums and laboratories, the diversifies world of healing and the place of visual and material culture in the production and dissemination of medical knowledge.

**Prerequisite:** First-year students must have instructor's approval

**Exclusion:** [HPS314Y1](#); [HPS315H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS321H1 - Understanding Engineering Practice: From Design to Entrepreneurship

**Hours:** 24S

This course seeks to understand the nature of engineering practice, which comprises complex social, intellectual, and technical actions at various stages from design to entrepreneurship. Building upon the history and social studies of technology, philosophy of engineering, business history, and management science, we introduce ways to analyze such complex actions.

**Prerequisite:** 1.5 credits with any combination of engineering, natural sciences, medical sciences, or commerce courses.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS322H1 - Complexity, Order, and Emergence

**Hours:** 10T/24S

A survey of the history of and recent developments in the scientific study of complex systems and emergent order. There will be particular emphasis on the biological and cognitive sciences. Topics covered may include: mechanism and teleology in the history of science, 19th and 20th century emergentism, complex systems dynamics, order and adaptiveness, self-organization in biology and cognitive development.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS324H1 - Natural Science and Social Issues

**Hours:** 24L

Historical examination of the interactions of science (both as body of knowledge and as enterprise) with ideological, political and social issues. The impact of science; attacks on and critiques of scientific expertise as background to contemporary conflicts. Subjects may vary according to students interests. (offered irregularly)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS325H1 - Modern Science and Holy Texts

**Hours:** 24L

This course explores interdisciplinary topics related to the encounter between modern science and texts accepted as holy by religious communities, such as the Bible in Christianity. What role did holy texts play in the emergence of modern science? Did modern science change the way religious communities interpret their holy texts? What to do with claims such as that the Quran contains quantum physics? Does modern science exhibit the same kind of rationality that we find in rabbinical Judaism? Do holy texts only exist to assist humanity's attempts at understanding the meaning of the world, while modern science actually explains the world? What role do texts play in modern science compared to holy texts in religious communities? And, what has modern science to say about the very idea of holy texts?

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS333H1 - Famous Debates in Science

**Hours:** 24L/10T

The course focuses on famous debates in science, such as the Leibniz-Clarke debate on the nature of space, time and God, the Huxley-Wilberforce debate on evolution and the Bohr-Einstein debate on the nature of the quantum reality. The main aim is to explore the philosophical ideas involved in these debates in their historical context.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS345H1 - Quantifying the World: the Debates on the Ethical and Epistemic Implications of AI and Automation

**Hours:** 24L

The effects of automation, computing, and information technology have had a great impact on our society. The rise of automation and computing the almost cult-like trust in mechanization have transformed our society both at the material and the epistemological level. This course will examine the epistemological and ethical debates that AI and automation have produced in all sectors of society. It will consider a variety of media and instruments from data visualization and mapping, to the use of AI and robotics, contextualizing them within popular and hotly contested examples in the military field and in cybersecurity, in medical diagnostics and epidemiology, in the automotive industry, and in the personal realm.

**Prerequisite:** Completion of 4.0 credits

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS346H1 - Modifying and Optimizing Life: on the Peculiar Alliance between AI, Biology, and Engineering

**Hours:** 24L/12T

Taking cue from the entanglements that historically have pervaded the relation between biology and information technology since the early 20th century, this course interrogates the sociocultural and technological conjuncture that has brought computer science, biology and engineering together into peculiar, ingenious, and often controversial alliances. What do AI, synthetic biology, and biotechnology have in common? How have they come to be associated? What are the debates and ethics emerging from such associations? The course will focus on topics such as: geoengineering and bioremediation; GMO and Robotic insects; the use of expert systems and machine learning to optimize synthetic biology; the flourishing and marketing of precision and personalized medicine/immunotherapy; and the ethics behind CRISPR babies.

**Prerequisite:** Completion of 4.0 credits

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS351H1 - Life Sciences and Society

**Hours:** 24L/12T

This course examines how the contemporary life sciences intersect with global geopolitics through an introduction to the field of science and technology studies (STS). Using interdisciplinary methodologies and global perspectives, the course addresses key questions including: Who benefits from the development of new biotechnologies, and who is exploited in the process? Who sets the international norms of bioethics and medical market regulation? How are biologists and medical practitioners redefining life for different societies and their diverse constituencies? The course predominantly focuses on humans, but also introduces new scholarship on animal studies and synthetic life forms. It has significant coverage of the Middle East, Africa, and East and South Asia.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JHE353H1 - History of Evolutionary Biology

**Hours:** 24L/10T

An examination of major ideas about biological evolution from the 18th century to the 1930s and of their impact on scientific and social thought. Topics include the diversity of life and its classification, the adaptation of organisms to their environment, Wallace's and Darwin's views on evolution by natural selection, sexual selection, inheritance from Mendel to T.H. Morgan, eugenics, and the implications of evolution for religion, gender roles, and the organization of society. Offered by the Institute for the History and Philosophy of Science and Technology.

**Prerequisite:** 6.0 credits

**Exclusion:** EEB353H1/ HPS323H1/ HPS353H1

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS354H1 - History of Medicine and Public Health in the Middle East

**Hours:** 24L/6T

This course provides a broad thematic overview of the history of medicine and public health in the Middle East. Focusing on the modern period, the course highlights the region as a contact zone of medical traditions and a key site in the emergence of colonial medicine and international public health. Students examine the social and cultural effects of new developments in medical thought and practice, including ideas about contagion and disease prevention, the notion of public health and hygiene, and the construction of colonial and postcolonial medical schools and hospitals.

**Recommended Preparation:** A prior course in HPS, HIS, or NMC

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JHE355H1 - History and Philosophy of Evolutionary Biology

**Hours:** 24L/10T

An examination of the place of the organism in evolutionary theory from the early 1900s to the present. Biology is the science of living things, and yet, paradoxically, living things--organisms--have been comprehensively left out of the Modern Synthesis theory of evolution that developed in the twentieth century. This course surveys the reasons--historical, philosophical and empirical--for the marginalisation of organisms from evolutionary theory. It examines the ways in which evolutionary developmental biology attempts to restore the organisms to a central place in evolutionary biology. Offered by faculty in the Institute for the History and Philosophy of Science and Technology.

**Prerequisite:** 6.0 credits, including two 0.5 credits or a 1.0 credit course in any one or more of EEB, BIO or HPS

**Exclusion:** [EEB355H1](#)/ [HPS333H1](#)/ [HPS355H1](#)

**Recommended Preparation:** [JHE353H1](#)

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS356H1 - Child Science: Knowing and Caring for Children in Modern World

**Hours:** 24L/12T

'Childhood' associates with diverse meanings throughout human history. In a western industrial society, the responsibility of childcare mainly falls upon parents' shoulders, with help from various professionals. Also, knowing and caring for children have evolved into distinct fields across life sciences, humanities, and social science. The child science ranges from education, developmental psychology, and child and adolescent psychology, etc. The development of these disciplines further shapes our views of children and modify parenting practices. In this course, we will draw on empirical studies to examine how the science of children and childcare penetrates families and schools to structure the daily life of children in the modern world.

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS360H1 - History of Modern Cosmology

**Hours:** 24L

Conceptions of the universe since 1800 with attention to observational sources of changing ideas. History of large telescopes, stellar spectroscopy and radio astronomy. Relativistic conceptions of space and time, models of stellar evolution, discovery of extra-galactic nebulae, Hubble red-shift and microwave background radiation. Philosophical and religious implications are examined.

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS370H1 - Philosophy of Medicine

**Hours:** 24L

This course introduces students to philosophical issues in the study of medicine. The course will cover foundational questions, such as what constitutes evidence that a therapy is effective, how do we define health and disease, and information derived from research is used to support clinical practice. Students will be introduced to different movements in contemporary clinical medicine, such as Evidence-based Medicine, Person-Centered Healthcare, and Precision Medicine.

**Prerequisite:** Completion of 4.0 credits

**Recommended Preparation:** [HPS250H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS371H1 - COVID-19: Epistemology and Societal Implications

**Hours:** 24L/12T

The COVID-19 pandemic has led to significant changes in our daily lives. This course will examine the pandemic and the public response through a philosophy of science lens. In particular, students will explore philosophical issues about how the healthcare community generates knowledge and how that knowledge is used to inform responses to a major public health crisis. The course will also provide a brief history of pandemics and examine Coronavirus in a historical context. Epistemological issues regarding pandemic modelling and epidemiology, clinical research and generalizability of findings, diagnostic testing, public health response (e.g. border closures, protective masks, social distancing, isolation, testing and tracking), and economic and social impact will be covered. Portrayals of the pandemic by media, government, and

scientists will also be examined. Readings will be drawn from a variety of academic disciplines and popular sources.

**Prerequisite:** 4.0 credits

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS390H1 - The Story of Number: Mathematics from the Babylonians to the Scientific Revolution

**Hours:** 36L

A survey of ancient, medieval, and early modern mathematics with emphasis on historical issues. (Offered in alternate years)

**Prerequisite:** At least 1.0 credit at the 200+level from CSC/MAT/STA

**Exclusion:** HPS310Y1; MAT220Y1

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS391H1 - Rebels Who Count: The History of Mathematics from 1700 to the Present

**Hours:** 24L/10T

A survey of the development of mathematics from 1700 to the present with emphasis on historical issues. (Offered in alternate years)

**Prerequisite:** At least 1.0 credit at the 200+level from CSC/MAT/STA

**Exclusion:** HPS310Y1; MAT220Y1, MAT391H1

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS395Y1 - Science, Development, and Innovation in Contemporary China

**Hours:** 48L/24P

Science and technology not only are vehicles to build a modern state, but also serve impetus for economic development in many countries. In China, the development of science has intertwined with the transformation from self-reliance to an integrated node of global economy, and from planned to market economy. We will use science and technology as a lens to analyze China's recent social changes from Mao era to post-Mao years. Utilizing interdisciplinary research, we will critically

exam the concepts and practices of development, innovation, and science and technology. The course design also includes field trips to key sites of innovations in China, including museums for Chinese medicine, IT and biotech companies, and makers' lab in Shenzhen.

**Exclusion:** EAS328H1

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural

Representations (1), Society and its Institutions (3)

## HPS399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

## HPS401H1 - Scientific Artifacts

**Hours:** 12T/24S

This course explores the history of science through direct engagement with location scientific artifacts within the University of Toronto Scientific Instrument Collection (UTSIC.org). Each student will undertake a research project focused on a single artifact within the collection in order to explore both the local history of science and the methodology of material culture research as it relates to science.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS402H1 - Animals in the Histories of Science and Technology

**Hours:** 24S

What can a focus on nonhuman animals reveal about the knowledge practices and politics of science and technology? This course approaches the history of science from the perspective of nonhuman animals in order to revisit—and retell—the history of various scientific disciplines and practices. We will consider how the various ways in which animals have been enrolled into the formation of scientific knowledge, from laboratory settings to ecological fieldwork, to colonial natural history. Students will learn to interrogate anthropocentric biases in the histories of science and technology, and to assess the significance of nonhuman animals in the formation of scientific knowledge.

**Prerequisite:** Any 300-level HPS course or permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS410H1 - History of Mathematics

**Hours:** 24S

An historical survey from pre-Greek to the present. Various themes are emphasized year to year, to show mathematics as changing and evolving. A student could expect to gain an historical overview as well as a sense of the unity of the mathematical sciences.

**Prerequisite:**

HPS309Y1/HPS310Y1/HPS390H1/HPS391H1/MAT220Y

1 and permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS411H1 - Conceptual Foundations of Mathematics

**Hours:** 24S

An examination of foundational and conceptual aspects of mathematics such as: the nature of mathematical objects, logicism, Church's elementaristic mathematics, Gödel's theorem and formal systems, postulational methods, mathematics and reality, the cardinal, ordinal and abstract approaches to numbers, infinity, and Euclidean and non-Euclidean geometries. Not eligible for CR/NCR option.

**Prerequisite:** PHL245H1/HPS390H1 or HPS391H1 or HPS410H1 or permission of the instructor

**Exclusion:** PHL346H1

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## HPS412H1 - History of the Biological Sciences

**Hours:** 24S

Advanced level survey of biological science from ancient Greece to the 20th century emphasizing primary sources analyses. Not eligible for CR/NCR option.

**Prerequisite:** Permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS413H1 - Reading and Writing about Physics

**Hours:** 24S

Historians, philosophers, and sociologists have produced a wealth of literature on the analysis and examination of physics from the early modern period to the present. In this seminar, we read and discuss in depth a collection of recent classics and cutting-edge works on the historical studies of physics. Students also conduct research based on this literature. We aim to use physics as a lens to understanding key themes in the making of modern science, from incommensurability, epistemic cultures, and historical ontology, to materiality, social construction, pedagogy, and countercultures.

**Prerequisite:** At least one HPS course

**Recommended Preparation:** Develop the ability to read scholarly books and conduct research in history of science

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## HPS430H1 - History of Technology I

**Hours:** 24S

An advanced survey of the history of technology from Antiquity to the Industrial Revolution. Not eligible for CR/NCR option.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** HPS201H1/HPS202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS431H1 - History of Technology II

**Hours:** 24S

An advanced survey of the history of technology from the Industrial Revolution to modern times. Not eligible for CR/NCR option.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** HPS201H1/HPS202H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS440H1 - Topics in History of Medicine

**Previous Course Number:** HPS303H1

**Hours:** 24S

This course offers a focused discussion of several aspects of the history of medicine. Various themes are examined in depth year to year so as to familiarize students with different topics and methodological approaches.

**Prerequisite:** [HPS318H1](#) and/or [HPS319H1](#), or at least 1.0 credit of HPS courses or History courses with a focus on the history of science at the 300-level or higher.

Students who do not meet the prerequisites are encouraged to contact the instructor.

**Exclusion:** [HPS303H1](#)

**Recommended Preparation:** This course assumes some background in the history of medicine and/or history of science, and having engaged in historical research projects.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JPH441H1 - Physical Science in Contemporary Society

**Hours:** 24L

This course will discuss the complex, real-life, ethical, and philosophical issues behind how science gets done, including questions such as how we as scientists strive to determine the truth; who determines what science is done, and on what basis; how we as a community manage science and make decisions about education, authorship, publication, hiring, et cetera (including issues related to equity, inclusivity, and diversity); and how we as a society fund science and apply its discoveries.

**Prerequisite:** [PHY224H1](#)/ [PHY250H1](#)/ [PHY252H1](#)/ [PHY254H1](#)/ [PHY256H1](#), or by permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS442H1 - Sciences of Whiteness in the Middle East & Its Diasporas

**Hours:** 24S

This research seminar traces the historical response of Middle Eastern societies and diasporas to Western scientific discourses of race and ethnicity from the 19th century to the present. We examine notions of racial classification and hierarchy as they emerged in Islamicate and European imperial contexts and their scientific

application to Middle Eastern populations. We further investigate how the nationalist ideologies of modern Middle Eastern nation-states relied on and perpetuated race science. Finally, we consider the experience of Middle Eastern migrants to Europe and North America and their engagement with scientific definitions of Aryan, Caucasian and white racial identity.

**Recommended Preparation:** A prior course in HPS, HIS, or NMC

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS444H1 - Health, Medicine, and Society in the Mediterranean World

**Hours:** 24S

This course examines healing practices and medical knowledge in the Mediterranean world, focusing on the early modern period. We will address topics such as the interplay between medicine and religion, the relationship between patients and practitioners, and the role of women as both healers and patients and across Mediterranean shores. We will also consider how individuals in different Mediterranean regions experienced the relationship between health and the environment, explore the bearings that medical pursuits had on the creation and consolidation of notions of sex and gender, and examine how medical knowledge shaped views of the body and informed health policies.

**Prerequisite:** This course presupposes having some background in the history of medicine and/or history of science and having engaged in historical research projects. It is highly recommended that students have taken one or more courses in History of Medicine (or History of Science and/or Technology)

**Recommended Preparation:** [HPS318H1](#) or [HPS319H1](#), or a 0.5 HPS or HIS credit with a focus on the history of science at the 200-level or higher

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS450H1 - Revolutions in Science

**Previous Course Number:** HPS350H1

**Hours:** 24S

A detailed investigation into a highly celebrated and important philosophical idea concerning the development of scientific knowledge: the notion of scientific revolutions. We will consider the process of theory change, whether theory choice is rational, and whether theoretical terms, such as light and space preserve their meanings across revolutions. In addition to classic work by Kuhn, we shall consider approaches that were inspired by Kuhn's work.

In particular, we will consider the approaches of sociologists of scientific knowledge. The course is taught as a seminar in which the students play an active role in presenting and discussing the readings.

**Prerequisite:** [HPS250H1](#) or by permission of the instructor

**Exclusion:** [HPS350H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## HPS455H1 - Well-being and Policy Analysis

**Hours:** 24L

The research seminar will consider some central questions in the philosophy of economics and political philosophy and their intersection with, and relevance for questions concerning social justice, the environment, well-being, and policy analysis. The aim is to provide some background and analytical tools for policy analysis concerning issues related to well-being, distributive justice, poverty, disability, and environmental sustainability.

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## HPS481H1 - Special Research Opportunity in History of Medicine

**Hours:** 24L/6T

This course offers advanced undergraduate students the opportunity to undertake original research into the history of medicine, under the guidance of a faculty mentor.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** Preparation with instructor

**Distribution Requirements:** Humanities

## HPS482H1 - Special Research Opportunity in History of Science

**Hours:** 24L/6T

This course offers advanced undergraduate students the opportunity to undertake original research into the history of the natural or physical sciences, under the guidance of a faculty mentor.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** Preparation with instructor

**Distribution Requirements:** Humanities

## HPS483H1 - Special Research Opportunity in History of Technology

**Hours:** 24L/6T

This course offers advanced undergraduate students the opportunity to undertake original research into the history of the natural or physical sciences, under the guidance of a faculty mentor.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** Preparation with instructor

**Distribution Requirements:** Humanities, Science

## HPS484H1 - Special Research Opportunity in Philosophy of Science I

**Hours:** 24L/6T

This course offers advanced undergraduate students the opportunity to undertake original research into the philosophy of the natural or physical sciences, under the guidance of a faculty mentor.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** Preparation with instructor

**Distribution Requirements:** Humanities, Science

## HPS485H1 - Special Research Opportunity in Philosophy of Science 2

**Hours:** 24L/6T

This course offers advanced undergraduate students the opportunity to undertake original research into the philosophy of the natural or physical sciences, under the guidance of a faculty mentor.

**Prerequisite:** Permission of instructor

**Recommended Preparation:** Preparation with instructor

**Distribution Requirements:** Humanities

## HPS495Y1 - Individual Studies

A reading and research project in some aspect of history of science and technology, supervised by a faculty member.

**Prerequisite:** Two HPS courses

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## **HPS496H1 - Individual Studies**

A reading and research project in some aspect of the social, cultural or intellectual history of science and technology, supervised by a faculty member.

**Prerequisite:** Two HPS courses

**Distribution Requirements:** Humanities, Science

## **HPS497H1 - Individual Studies**

A reading and research project in some aspect of the social, cultural or intellectual history of science and technology, supervised by a faculty member.

**Prerequisite:** Two HPS courses

**Distribution Requirements:** Humanities

## **HPS498H1 - Individual Studies in HPS**

A reading and research project in some aspect of the development of scientific theory or practice, supervised by a faculty member.

**Prerequisite:** Two HPS courses

**Distribution Requirements:** Humanities

## **HPS499Y1 - Individual Studies**

A reading and research project in some aspect of the development of scientific theory or practice, supervised by a faculty member.

**Prerequisite:** Two HPS courses

**Distribution Requirements:** Humanities

M. Jeffrey, Ph D

## Introduction

**The Human Biology Program is an undergraduate collaborative program between the Faculty of Arts and Science and the Faculty of Medicine.** Our programs examine the biology of our species through interdisciplinary lenses by integrating topics from the biological and medical sciences, social sciences, and the humanities. The overall structure of the collaborative program is designed to expose students to the transdisciplinary field of human biology with opportunities to specialize in selected areas of inquiry in the field.

A central objective to the Human Biology Program (HMB) is to facilitate the development of core competencies in our students: critical and creative thinking, self-directed learning, quantitative and analytical reasoning, and effective communication and research. HMB aims to prepare students for future careers where an interdisciplinary education in biological and health sciences would be an asset. HMB offers diverse experiential learning opportunities for students which includes a faculty that is at the cutting-edge of teaching innovation, strong academic relationships with other department and faculties at the University, service learning with organizations in Toronto, and undergraduate research in laboratories on campus and affiliated hospital research institutes.

After first year life science courses, undergraduate students may enter the Human Biology program in their selected HMB program: Fundamental Genetics and its Applications, Global Health, Health and Disease, Human

Biology, and Neuroscience. HMB students start by taking foundational courses to provide background on their subject area and introduce students to topics integral to the study of human biology. Students then progress to more specialised topics and have more detailed instruction but are also encouraged to participate in self-directed and group learning. In their final year, HMB students are further engaged to practice critical analysis by taking one of our specialized seminar courses in their program, which focuses on expanding the depth of knowledge the student has acquired while studying human biology at the University of Toronto.

## Regarding Human Biology Programs

The Human Biology Program offers five areas of study, all of which offer a major program, and four of which offer a specialist program.

Students are allowed to switch between Human Biology major programs, but should first obtain written permission from the Program Office to determine which of their completed courses will transfer to their new Human Biology major program. Students seeking advice on which HMB major to choose or advice for program completion pathways should view the [HMB Program Pathway Tools webpage](#).

**Students are not permitted to be enrolled in more than one Human Biology major program.**

## Human Biology Programs

### Fundamental Genetics and its Applications Specialist (Science Program) - ASSPE1050

#### HMB: Fundamental Genetics and its Applications

The objective of the HMB: Fundamental Genetics and its Applications specialist and major programs are to provide students with a solid foundation in the biological sciences

with a focus on genetics and its applications in medicine, environment and biotechnology.

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

Note there are different options depending on whether a student has completed between 4.0 and 8.5 credits, or 9.0 or more credits.

### For students who have completed between 4.0 and 8.5 credits:

#### *Variable Minimum Grade*

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO130H1](#)
- ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in [BIO130H1](#) will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program.

### For students who have completed 9.0 or more credits:

#### *Variable Minimum Grade*

Minimum grades are needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO220H1](#)
- [BIO230H1](#)/ [BIO255H1](#)
- [HMB265H1](#)/ [BIO260H1](#)
- [BCH210H1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in either [BIO220H1](#) or ( [BIO230H1](#)/ [BIO255H1](#)) will not be considered for admission. Please note that obtaining the minimum final grades does not guarantee admission to the program.

Students applying for admissions to the program utilizing transfer credits will be considered on a case-by-case basis. Students entering from CEGEP or from another university should contact [hmb.undergrad@utoronto.ca](mailto:hmb.undergrad@utoronto.ca) after their transfer credit assessment has been complete for program enrolment assessment. Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment.

### Completion Requirements:

### Required Courses (12.0 credits, including at least 1.0 credit at the 400 level)

#### Chemical and Physical Foundations of Biological Systems

1. ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)  
*Transfer credits will be accepted in lieu of the chemistry requirements only if they carry a direct exclusion or equivalency to a pre-approved chemistry course*
2. [MAT135H1](#)/ [PHY131H1](#)/ [PHY151H1](#)/ [CSC120H1](#)/  
[CSC148H1](#)
3. [BCH210H1](#)

#### Biological Foundations of Living Systems

4. [BIO120H1](#), [BIO130H1](#)
5. [BIO220H1](#)
6. [BIO230H1](#)/ [BIO255H1](#)

#### Courses in Fundamental Genetics

7. [HMB265H1](#)/ [BIO260H1](#)
8. [HMB321H1](#)

9. 1.5 credits from: [HMB360H1](#)/ [HMB421H1](#)/ [HMB435H1](#)/  
[HMB437H1](#)/ [HMB474H1](#)/ [BCH311H1](#)/ [BCH350H1](#)/

## Global Health Specialist (Science Program) - ASSPE2575

#### HMB: Global Health

The objective of the HMB: Global Health program is to provide students with instruction in fundamental biological sciences and to integrate a broad understanding of the socio-economic and cultural determinants of health to populations around the world.

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

Note there are different options depending on whether a student has completed between 4.0 and 8.5 credits, or 9.0 or more credits.

#### For students who have completed between 4.0 and 8.5 credits:

##### *Variable Minimum Grade*

A minimum grade is needed for entry, and this minimum

changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO130H1](#)
- ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in [BIO130H1](#) will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program.

#### For students who have completed 9.0 or more credits:

##### *Variable Minimum Grade*

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO230H1](#)/ [BIO255H1](#)
- [BIO220H1](#)
- [HMB265H1](#)/ [BIO260H1](#)
- [BCH210H1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in [BIO230H1](#)/ [BIO255H1](#) will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program.

Students applying for admissions to the program utilizing transfer credits will be considered on a case-by-case basis. Students entering from CEGEP or from another university should contact [hmb.undergrad@utoronto.ca](mailto:hmb.undergrad@utoronto.ca) after their transfer credit assessment has been complete for program enrolment assessment. Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment.

#### Completion Requirements:

**Required Courses (13.5 credits, including at least 1.0 credit at the 400-level)**

#### Chemical and Physical Foundations of Biological Systems

1. ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)  
*Transfer credits will be accepted in lieu of the chemistry requirements only if they carry a direct exclusion or equivalency to a pre-approved chemistry course.*

## Health & Disease Specialist (Science Program) - ASSPE2013

### HMB: Health & Disease

The objective of the HMB: Health & Disease program is to provide students with a solid foundation in the biological sciences as it relates to basic human physiology and the mechanisms of disease and to facilitate the integration of concepts from across the life sciences, social sciences and humanities. In addition, students will acquire skills in laboratory science, experience with quantitative approaches, and develop effective communication skills to provide an appropriate background essential to research and problem solving in this field.

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

Note there are different options depending on whether a student has completed between 4.0 and 8.5 credits, or 9.0 or more credits.

### For students who have completed between 4.0 and 8.5 credits:

#### Variable Minimum Grade

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO130H1](#)
- ([CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in BIO130H1 will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program.

#### For students who have completed 9.0 or more credits:

##### Variable Minimum Grade

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- BIO230H1/ BIO255H1
- BIO220H1
- HMB265H1/ BIO260H1
- BCH210H1

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in BIO230H1/ BIO255H1 will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program.

Students applying for admissions to the program utilizing transfer credits will be considered on a case-by-case basis. # Neuroscience Specialist (Science Program) - ASSPE1472

## HMB: Neuroscience

Neuroscience is an interdisciplinary field aimed at understanding the brain and nervous system utilizing integration of research at the molecular, cellular, and organismal levels, and through all stages of human development. The application of neuroscience has important implications for understanding human behaviour and for promoting the development of effective strategies for diagnosing and treating nervous system disorders. The objective of the HMB: Neuroscience specialist and major programs is to provide students with a solid foundation and facilitates the integration of concepts from multiple fields to their understanding of neuroscience.

## Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

Note there are different options depending on whether a student has completed between 4.0 and 8.5 credits, or 9.0 or more credits.

## For students who have completed between 4.0 and 8.5 credits:

### Variable Minimum Grade

Minimum grades in required courses or their equivalents are needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses must be completed:

- [BIO130H1](#)
- ( [CHM135H1](#), [CHM136H1](#) )/ [CHM151Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 70% in [BIO130H1](#), a final grade average lower than 70% in ( [CHM135H1](#), [CHM136H1](#) ), or a final grade lower than 70% in [CHM151Y1](#) will not be considered for admission. Please note that obtaining the minimum grades does not guarantee admission to the program.

## For students who have completed 9.0 or more credits:

### Variable Minimum Grade

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

## Global Health Major (Science Program) - ASMAJ2575

### HMB: Global Health

The objective of the HMB: Global Health program is to provide students with instruction in fundamental biological sciences and to integrate a broad understanding of the socio-economic and cultural determinants of health to populations around the world.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

### Required Courses (8.0 credits, including a 0.5 credit at the 400-level)

To help students proceed through the program, it is recommended that first year life science requirements are completed before entering the program.

### Chemical and Physical Foundations of Biological Systems

1. (CHM135H1 and CHM136H1)/ CHM151Y1  
*Transfer credits will be accepted in lieu of the chemistry requirements only if they carry a direct exclusion or equivalency to a pre-approved chemistry course.*
2. MAT135H1/ PHY131H1/ PHY151H1

### Biological Foundations of Living Systems

3. BIO120H1, BIO130H1
4. BIO230H1/ BIO255H1

## Health & Disease Major (Science Program) - ASMAJ2013

### HMB: Health & Disease

The objective of the HMB: Health & Disease program is to provide students with a solid foundation in the biological sciences as it relates to basic human physiology and the mechanisms of disease and to facilitate the integration of concepts from across the life sciences, social sciences and humanities. In addition, students will acquire skills in laboratory science, experience with quantitative approaches, and develop effective communication skills to provide an appropriate background essential to research and problem solving in this field.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

**Required Courses (8.0 credits, including a 0.5 credit at the 400-level)**

To help students proceed through the program, it is recommended that first year life science requirements are completed before entering the program.

### Chemical and Physical Foundations of Biological Systems

1. ([CHM135H1](#) and [CHM136H1](#))/ [CHM151Y1](#)

# Human Biology Major (Science Program) - ASMAJ2035

## HMB: Human Biology

Human Biology is a transdisciplinary field concerned with the study of human health from a biological, sociological, and evolutionary perspective. Research in human biology focuses on impact that genetic variations, development, physical fitness, and nutrition have on the general health of populations and how this compares across cultures and through history. The objective of the HMB: Human Biology major program is to provide students with a solid foundation in the life sciences as it relates to human biology and to facilitate the integration of concepts from across the social sciences and humanities, and to equip them with quantitative skills essential to research and success in this field.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

**Required Courses (8.0 credits, including a 0.5 credit at the 400-level)**

*\*A research project from a different unit may be accepted with prior written approval from Human Biology if the course is not counting toward a different program.*

### Human Biology Major Notes:

1. Courses can only count toward one requirement, even if listed as options to multiple requisites of the program.
2. Not all courses listed have priority enrolment for Human Biology majors. Students are responsible for checking priority of courses and meeting course prerequisites for courses they wish to take.
3. The Human Biology major cannot be paired with any other Human Biology Program managed major program.

# Neuroscience Major (Science Program) - ASMAJ1472

## HMB: Neuroscience

Neuroscience is an interdisciplinary field aimed at understanding the brain and nervous system utilizing integration of research at the molecular, cellular, and organismal levels, and through all stages of human development. The application of neuroscience has important implications for understanding human behaviour and for promoting the development of effective strategies for diagnosing and treating nervous system disorders. The objective of the HMB: Neuroscience specialist and major programs is to provide students with a solid foundation and facilitates the integration of concepts from multiple fields to their understanding of neuroscience.

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

Note there are different options depending on whether a student has completed between 4.0 and 8.5 credits, or 9.0 or more credits.

### For students who have completed between 4.0 and 8.5 credits:

#### Variable Minimum Grade

Minimum grades in required courses or their equivalents are needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses must be completed:

- [BIO130H1](#)
- ([CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 55% in [BIO130H1](#), a final grade average lower than 70% in ([CHM135H1](#), [CHM136H1](#)), or a final grade lower than 70% in [CHM151Y1](#) will not be considered for admission. Please note that obtaining the minimum final grades does not guarantee admission to the program.

### For students who have completed 9.0 or more credits:

#### Variable Minimum Grade

A minimum grade is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO230H1](#)/ [BIO255H1](#)
- [HMB265H1](#)/ [BIO260H1](#)

- [BCH210H1](#)
- [PSL300H1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 55% in [BIO230H1](#)/ [BIO255H1](#) will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program.

Students applying for admissions to the program utilizing transfer credits will be considered on a case-by-case basis. Students entering from CEGEP or from another university should contact [hmb.undergrad@utoronto.ca](mailto:hmb.undergrad@utoronto.ca) after their transfer credit assessment has been complete for program enrolment assessment. Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment.

### Completion Requirements:

#### Required Courses (8.0 credits, including at least 0.5 credit at the 400-level)

#### Chemical and Physical Foundations of Biological Systems

1. ([CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)

14. 0.5 credit from a higher-year lab course: HMB310H1/ HMB314H1/ PSY369H1

*\* A research project from a different unit may be accepted with prior written approval from Human Biology if the course is not counting toward a different program.*

#### Neuroscience Major Notes:

1. Courses can only count toward one requirement, even if listed as options to multiple requisites of the program.
2. Not all courses listed have priority enrolment for Neuroscience majors. Students are responsible for checking priority of courses and meeting course prerequisites for courses they wish to take.
3. The Neuroscience major cannot be paired with any other Human Biology Program managed major program.
4. Effective Fall 2021, courses associated with New College's Buddhism, Psychology and Mental Health program will have the new "BPM" designator.

### Course Group

Neuroscience Centric Courses:

HMB200H1, HMB300H1, HMB310H1, HMB320H1, CJH332H1, HMB360H1, JHA410H1, HMB420H1, HMB430H1, HMB440H1, HMB442H1, HMB450H1, HMB460H1, HMB473H1

## Important Notes About Human Biology Courses

### Human Biology Course Prerequisites & Corequisites

Students are advised that the Human Biology Program enforces prerequisites and corequisites on all courses offered by the program. Students are expected to know the prerequisites of courses they wish to take and ensure they have the necessary prerequisites prior to enrolment.

Should a student wish to seek a prerequisite waiver, the request must be made prior to enrolling in the course. Please email the program office at [hmb.undergrad@utoronto.ca](mailto:hmb.undergrad@utoronto.ca) with such requests. If a student is enrolled in an Applied Statistics Specialist, or is planning on using transfer credits, or credits obtained from UTSC/UTM, in lieu of stated prerequisites/corequisites, please contact the program office prior to enrolling in courses to ensure your alternate credits will be accepted.

Please note that if a pre-requisite is a credit count, we generally will allow a 0.5 credit difference (i.e. have 13.5 credits complete when 14.0 credits is required). Should a student have all other prerequisites **and** if enrolment pressure is not too high, the credit prerequisite will be waived. An email request for a waiver of this type of prerequisite is not necessary.

Please note that 300-level courses with the following joint course codes are automatically accepted when the prerequisite states "A HMB 300-level course:" CJH, EHJ, JNH.

### Regarding Human Biology 400-level Courses

Given that all students enrolled in a Human Biology program require, at least, 0.5 credit of HMB 400-level courses and due to the popularity of these courses, student entering their 4<sup>th</sup> year of study will be given the opportunity to ballot for 0.5 credit of HMB 400-level fall/winter courses. The balloting process will be conducted during the period immediately preceding course enrolment and students who have successfully completed this process will be pre-enrolled in 0.5 credit of HMB 400-level courses; students will then be able to enrol and/or waitlist for other HMB 400-level courses during the regular course enrolment period. Students who have completed or will completed their HMB 400-level course requirements by the Fall of their 4<sup>th</sup> year are not eligible to participate in balloting.

There are no individual pre-requisite exceptions on any HMB 400-level course. Students are required to check all prerequisites prior to enrolling in HMB 400-level courses. Students who enrol in and do not meet the stated prerequisites of an HMB course will be removed.

Students planning to use transfer credits in lieu of the pre-requisites must email [hmb.undergrad@utoronto.ca](mailto:hmb.undergrad@utoronto.ca) before enrolling in the course to request that transfer credits be accepted in lieu of the stated pre-requisites.

### Regarding Human Biology "Tiered Waitlists"

The Human Biology Program employs "tiered waitlists" on all courses that have the enrolment indicator of R1 or P that has unequal spots. (HMB does not use the R2

enrolment control). For an explanation of how Tiered Waitlists work please visit the [HMB Webpage "HMB Tiered Waitlist Explained."](#)

## Human Biology Courses

### HMB200H1 - Introduction to Neuroscience

**Hours:** 24L/12T

An introductory course that explores the development, physiology and continually changing function of the nervous system as it relates to certain types of human behaviour. Critical analysis of scientific evidence is used to enrich learning.

**Prerequisite:** [BIO120H1](#), [BIO130H1](#)

**Recommended Preparation:** [PSL300H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### HMB201H1 - Introduction to Fundamental Genetics and its Applications

**Hours:** 24L/12T

The course provides a comprehensive introduction to a variety of therapeutic approaches including gene therapy, CRISPR-based gene editing, epigenetic manipulations & regenerative medicine. This course consists of three parts: tools and techniques of gene & genome manipulations; medical, environmental and agricultural biotechnology applications; and ethical, legal and social aspects of modern biotechnology as it pertains to human health and wellbeing.

**Prerequisite:** [BIO120H1](#), [BIO130H1](#)

**Recommended Preparation:** [HMB265H1](#)/ [BIO260H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### HMB202H1 - Introduction to Health and Disease

**Hours:** 24L/12P

An introductory course in Health and Disease using an interdisciplinary approach that integrates bacteriology and virology with other aspects of human biology, including

chronic disease and neoplasia. An exploration of the key concepts and approaches that are necessary for understanding the dynamic nexus of human health and disease. (Lab Fees: \$40)

**Prerequisite:** [BIO120H1](#), [BIO130H1](#)

**Exclusion:** [HMB203H1](#)/ [HMB204H1](#)

**Recommended Preparation:** [BIO230H1](#)/ [BIO255H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### HMB203H1 - Introduction to Global Health

**Hours:** 24L/12T

An introductory course covering the theories, operational components and strategies of implementing health care in resource-poor settings. Topics may include education, control of vector-borne diseases, essential drug provision, maternal and child health, nutrition, incorporation of alternative and complementary technologies, community participation and deployment of health service providers

**Prerequisite:** [BIO120H1](#), [BIO130H1](#)

**Exclusion:** [HMB202H1](#)/ [HMB204H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### HMB204H1 - Introduction to Human Biology

**Hours:** 24L/12T

An introduction to the biological, health, environmental, and sociopolitical issues that influence human health and well-being. Topics include genetic variation within and across human populations, biological variation related to the environment, determinants of health and disease, and human behaviour and development.

**Prerequisite:** [BIO120H1](#), [BIO130H1](#)

**Exclusion:** [HMB202H1](#)/ [HMB203H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB226H1 - Indigenous Holistic Health

**Hours:** 2P/22S

What is holistic health in an Indigenous framework? How can holistic health (physical, mental, emotional, and spiritual) be ethically explored to inform health and healing? What is cultural safety in health care systems? This course explores the effects of traditional practices, culture, activities, arts, land-based healing, music and ceremony in health and healing.

**Corequisite:**

HMB200H1/HMB201H1/HMB202H1/HMB203H1/HMB204H1/HST209H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB265H1 - General & Human Genetics

**Hours:** 24L/12T

An introduction to classical and modern methods of genetic analysis. Topics include Mendelian genetics, the genetics of human population and disease, genomics, and applications of genetics to human society.

**Prerequisite:** BIO120H1, BIO130H1, (CHM135H1/CHM139H1, CHM136H1/CHM138H1)/CHM151Y1

**Exclusion:** BIO260H1/ BIO207H5

**Recommended Preparation:** Recommended Co-requisite: BIO230H1/ BIO255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

## HMB300H1 - Neurobiology of Behaviour

**Hours:** 24L/12T

This neuroscience course focuses on higher brain functions and the mechanisms underlying human and animal behaviours. Topics may include the emerging role of the gut microbiome's impact on behaviour, pathogens that alter neuronal development and the biological basis of

mindfulness and placebos. In addition, the impact that exercise and sleep play in modulating these behaviours are examined. Common experimental techniques used in neuroscience research such as brain imaging and cellular genetics are emphasized.

**Prerequisite:** BIO230H1/BIO255H1, HMB200H1/PSY290H1/ PSL300H1/ CJH332H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB301H1 - Biotechnology

**Hours:** 24L/12T

Students gain an appreciation for how science, government and society drive the development of biotechnology products. Topics include emerging immunotherapies, "living therapeutics", emerging challenges, CRISPR-based therapeutics, emerging diagnostics, and stem cells and regenerative medicine.

**Prerequisite:** HMB265H1/BIO260H1

**Recommended Preparation:** HMB201H1/HMB360H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB302H1 - Vertebrate Histology and Histopathology

**Hours:** 24L/36P

Laboratory and lecture course studying the structure of the cell, various tissues and organ systems. Emphasis is on functional morphology and the adaptive response (including the inflammatory reaction) by comparing histological sections of normal tissues and organs with common diseases including neoplasia, respiratory, and liver disease. (Lab Materials Fee: \$27)

**Prerequisite:** BIO230H1/ BIO255H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB303H1 - Global Health and Human Rights

**Hours:** 28L/8S

The Global Health & Human Rights course uses a multidisciplinary approach to consider the theory and practice of global health as well as human rights from a

global health perspective. The course has an emphasis on the social, historical, economic and political determinants of global health and human rights. The critical approach used in the course will also allow students to begin to consider the limitations and contradictions inherent in the theory and practice of global health and in human rights.

**Prerequisite:** Completion of 9.0 credits, a HST200-level course/ [HMB202H1/HMB203H1/HMB204H1](#)

**Distribution Requirements:** Science, Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## HMB306H1 - Ethical Considerations in Emerging Technology

**Hours:** 14L/10S

Advancing technology increases our ability to intervene in the course of natural events involving human health and well being. Questions arise as whether we ought to and who will benefit or be harmed. This course considers the far-reaching bioethical implications of emerging biotechnology. Topics to be explored include-but are not limited to- ethical considerations in emerging reproductive technologies, genetic alteration/genetic enhancement. Use of life support technologies, synthetic life, life extension.

**Prerequisite:** [BIO230H1](#), [HMB265H1/BIO260H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB310H1 - Laboratory in Neuroscience

**Hours:** 12L/36P

A laboratory course based on current research techniques for students in the Neuroscience program. Lab topics may include human brain imaging and disorders, electrophysiology, cell culture, and changes in gene expression during neuronal development. Labs start in the first week of term. (Lab Materials Fee: \$63)

**Prerequisite:** Completion of 9.0 credits, [HMB200H1/PSY290H1](#), [HMB265H1/BIO260H1](#), [BIO230H1/ BIO255H1](#)

**Corequisite:** [PSL300H1](#)

**Exclusion:**

[HMB311H1/HMB312H1/HMB314H1/PSY359H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB311H1 - Laboratory in Fundamental Genetics and its Applications

**Hours:** 12L/36P

A laboratory course based on current research techniques for students in the Fundamental Genetics and its Applications programs. Lab topics may include molecular biology and animal cell culture techniques, nutrigenomics; an overview of microarrays and a CRISPR module. Labs start in the first week of term. (Lab Materials Fee: \$102)

**Prerequisite:** Completion of 9.0 credits, [HMB201H1](#), [HMB265H1/BIO260H1](#), [BIO230H1/ BIO255H1](#)

**Exclusion:** [HMB310H1/HMB312H1/HMB314H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB312H1 - Laboratory in Health and Disease

**Hours:** 12L/36P

A laboratory course based on current research techniques and topics which may include basic microbiology, molecular biology and animal cell culture techniques, immunocytochemistry, changes in gene expression, and histological techniques. Labs start in the first week of term. (Lab Materials Fee: \$81)

**Prerequisite:** Completion of 9.0 credits, [HMB202H1/HMB203H1/HMB204H1](#), [HMB265H1/BIO260H1](#), [BIO230H1/BIO255H1](#)

**Corequisite:** [BCH210H1](#)

**Exclusion:** [HMB310H1/HMB311H1/HMB314H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB314H1 - Laboratory in Human Biology

**Hours:** 12L/36P

Students analyze whole body, cellular, and molecular responses to stress. Techniques range from those standard in medical practice (e.g., fitness measures, blood pressure, lung function) to current research techniques (cell culture, changes in gene expression). Students gain technical and analytical skills as they work at the bench to design and carry out individual and group experiments. Labs start in the first week of term. (Lab Materials Fee: \$61)

**Prerequisite:** Completion of 9.0 credits, [HMB265H1/BIO260H1](#), [BIO230H1/ BIO255H1](#)  
**Corequisite:** [PSL300H1](#), [PSL301H1](#)  
**Exclusion:** [HMB310H1/HMB311H1/HMB312H1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## HMB320H1 - Neuroanatomy

**Hours:** 24L/4T/10P

This is a rigorous, introductory course that addresses the structure of the vertebrate central nervous system with an emphasis on functional human neuroanatomy. It is designed for students who intend to continue with studies in the Neurosciences and related areas.

**Prerequisite:** Completion of 9.0 credits, [PSL300H1](#), [HMB200H1/PSY290H1](#), [BIO230H1/ BIO255H1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## HMB321H1 - Topics in Genetics

**Hours:** 24L/12T

The overall theme of this course is human genetics in disease. Topics include the molecular basis of human disease, using model organisms to identify disease-related genes, and genetic counseling. Expert guest lectures from clinical and basic sciences as well as small group work in tutorials build in-depth understanding.

**Prerequisite:** Completion of 9.0 credits, [HMB265H1/ BIO260H1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## HMB322H1 - Topics in Health & Disease

**Hours:** 24L/12T

Explore the scientific basis and interdisciplinary healthcare practices of several diseases (diseases vary by year). Discuss current issues related to the biology and the impact of these diseases.

**Prerequisite:** Completion of 9.0 credits, [HMB202H1/ HMB203H1/ HMB204H1](#), [BIO230H1/BIO255H1](#), [PSL300H1](#)  
**Corequisite:** [PSL301H1](#)  
**Recommended Preparation:** [HMB302H1](#)

**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## HMB323H1 - Global Health Research

**Hours:** 24L/12T

Health is a responsibility shared worldwide. Globalization of health has impacted biomedical research. Students will explore current global health research advances and build skills in the design and conduct of global health research studies.

**Prerequisite:** Completion of 9.0 credits, [HMB202H1/ HMB203H1/ HMB204H1](#), [BIO230H1/ BIO255H1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## CJH332H1 - Cellular and Molecular Neurobiology of the Synapse

**Previous Course Number:** CSB332H1

**Hours:** 36L

Examination of all aspects of the synapse in both the peripheral and central nervous systems of invertebrates and vertebrates. Topics include: neuroplasticity, synapse formation, synaptic transmission, synaptic modulation, and the molecular biological basis of neurodegenerative disorders.

**Prerequisite:** [BIO271H1/PSL300H1](#)  
**Exclusion:** [CSB332H1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## HMB342H1 - Epidemiology of Health & Disease

**Hours:** 24L/12T

This course engages students in the fundamental science of epidemiology applied to health and disease. After an introduction to various measures of health and disease, the scientific methods used to investigate, analyze, prevent and control health problems will be illustrated using social, biomedical and public health examples

**Prerequisite:** 9.0 credits complete, ([BIO120H1](#), [BIO130H1](#))/[HST209H1](#)  
**Exclusion:** [HST373H1](#)  
**Recommended Preparation:** [STA220H1/ STA288H1](#)

EEB225H1/ PSY201H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JNH350H1 - AIDS : Challenges and Successes

**Previous Course Number:** NEW350H1

**Hours:** 24L

Explores the pandemic of AIDS in Africa through a social science lens. (Given by Human Biology and New College)

**Exclusion:** NEW350H1

**Recommended Preparation:** AFR150Y1

**Distribution Requirements:** Humanities, Science, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## EHJ352H1 - Evolution of the Human Genome

**Hours:** 24L/12T

Human genome diversity and evolution with a focus on current research. The course integrates applications of human evolutionary genomics to the understanding of human history and adaptation, the causes of disease, and genome structure and function. Topics include: comparative genomics, population genomics of adaptation, association mapping, repetitive/selfish DNA, and gene duplication.

**Prerequisite:** BIO220H1, BIO260H1/HMB265H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB360H1 - Neurogenomics

**Hours:** 24L/12T

Genetic basis of both the normal and abnormal development of the nervous system and its function. Topics include the regulation of neural gene expression, the role of epigenetics on neuron function, genome wide association studies and disorders of brain and behaviour, optogenetic and pharmacogenetic techniques to probe neural circuit function. Tutorials emphasize critical analysis of primary research.

**Prerequisite:** Completion of 9.0 credits, HMB265H1/BIO260H1, HMB200H1/HMB201H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB394Y0 - International Research Project in Human Biology

Your individual, independent research project is supervised by a faculty member in an approved university. This unique opportunity to conduct a lab-based research project is open to students in any Human Biology program. Coordinated by Centre for International Experience. Not eligible for CR/NCR option.

**Prerequisite:** 8.5 credits including relevant courses in human biology.

**Distribution Requirements:** Science

## HMB396Y0 - International Research Project in Human Biology

Your individual, independent research project is supervised by a faculty member in an approved university. This unique opportunity to conduct a lab-based research project is open to students in any Human Biology program. Not eligible for CR/NCR option. Coordinated by Woodsworth College.

**Prerequisite:** An approved 300-series science laboratory course and permission of the Human Biology Program from which application forms may be obtained.

**Distribution Requirements:** Science

## HMB398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

**Prerequisite:** Completion of 9.0 credits and permission of the Human Biology Program from which application forms may be obtained.

**Distribution Requirements:** Science

## HMB399H1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

## HMB399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

## HMB401H1 - Biomedical Advances & Technologies

**Hours:** 24L/12T

This course introduces life science students to biomedical advances and technologies in medicine, including drug patents, medical device implants, diagnostic and medical device software. Limitations of patent protection in commercializing medical products, and limitations to scalability may also be discussed. Specific topics vary from year to year and will be based on the course instructor's area(s) of expertise.

**Prerequisite:** Completion of 14.0 credits, [HMB301H1/HMB321H1/BCH311H1/CSB349H1/MGY311Y1/PSL350H1](#),

[HMB201H1/HMB202H1/HMB203H1/HMB204H1](#)

**Recommended Preparation:** A statistics course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB402H1 - Topics in Translational Medicine

**Hours:** 18L/6S

The bridge between basic scientific research and clinical practice integrates fundamental knowledge about molecular/cellular mechanisms and clinical disorders to increase the potential for new medical treatments, therapies and interventions as well as understanding of disease processes. Specific topics vary from year to year and will be based on the instructor's area(s) of expertise.

**Prerequisite:** Completion of 14.0 credits, [BCH210H1](#), [BIO230H1/BIO255H1](#), [HMB302H1/HMB321H1/HMB322H1/BCH311H1/CSB349H1/MGY311Y1/PSL350H1](#), and [HMB202H1/HMB203H1/HMB204H1](#)

**Recommended Preparation:** [BCH311H1/CSB349H1/PSL350H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB406H1 - Health Care Ethics

**Hours:** 8L/16S

Since research involving human subjects lays the foundation for innovation in modern health care, this course examines health care ethics along a continuum from bench to bedside. Ethical issues are discussed in the context of specific cases involving human research, as well as contemporary clinical practice.

**Prerequisite:** Completion of 14.0 credits, a HMB300-level course, [HMB306H1/PHL281H1](#)/ other ethics course with prior approval from the unit

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## JHA410H1 - Clinical Neuroimaging

**Hours:** 24L/12T

This course focuses on the use of neuroimaging techniques in understanding how trauma, disorders, and disease impact neural structure and function. Lectures will focus on introduction to techniques and clinical/research applications. Lab work will focus on the development of practical skills including image processing, analyses, and experimental design.

**Prerequisite:** Completion of 9.0 credits, [PSL300H1](#), [BIO230H1](#), [HMB200H1/PSY290H1/ANA300Y1](#)

**Recommended Preparation:** [HMB320H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB420H1 - Seminar in Neurobiology of Behaviour

**Hours:** 12L/12S

This seminar course focuses on recent research into the neurobiology underlying human behaviour. A variety of normal and abnormal human behaviours are studied which may include: voluntary action; moral cognition; hedonism; aggression; mental health; addiction; the impact of the gut microbiome on brain development and health.

**Prerequisite:** Completion of 14.0 credits, [HMB200H1](#), [HMB300H1](#), [HMB320H1/ANA300Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB421H1 - Seminar in Fundamental Genetics and its Applications

**Hours:** 12L/12S

Theme based lecture and seminar course underlining current medical research in relation to the areas of genes and genetics. Topics vary yearly.

**Prerequisite:** Completion of 14.0 credits, [HMB265H1/BIO260H1](#), [HMB201H1](#)

**Recommended Preparation:** [HMB321H1/ BCH311H1/ CSB349H1/ MGY311Y1/ PSL350H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB422H1 - Seminar in Health & Disease

**Hours:** 16L/8S

This course focuses on various medical research related to human disease. Topics vary based on course instructor's area(s) of expertise.

**Prerequisite:** Completion of 14.0 credits, [PSL300H1](#), [PSL301H1](#), [HMB302H1/HMB322H1](#), and [HMB202H1/HMB203H1/HMB204H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB430H1 - Trends in Neuroscience

**Hours:** 18L/6S

Current research covering the breadth of neuroscience is showcased by members of the Collaborative Program in Neuroscience. Topics vary yearly, but cover the spectrum from molecular through genetic, cellular, developmental, systems, behavioural and modelling. As well, approaches to studying neurodegenerative diseases and clinical neurophysiology are introduced.

**Prerequisite:** Completion of 14.0 credits, [HMB200H1](#), [CJH332H1](#), [HMB320H1/JHA410H1/ANA300Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB431H1 - Innovation in Applied Genetics

**Hours:** 16L/8S

From bench to bedside, this seminar-based course explores innovation in research and technology and their application in the medical field. Special emphasis on innovative genetic engineering approaches used in combination with stem cell technologies to transform the field of personalized and regenerative medicine.

**Prerequisite:** 14.0 credits complete, [HMB301H1/HMB360H1/HMB321H1](#), [HMB201H1/HMB202H1/HMB203H1/HMB204H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## HMB432H1 - Topics in Histology & Histopathology

**Hours:** 12L/12S

Lecture and seminar course emphasizing current research. Topics may include the digestive system, cardiovascular system, respiratory system, stem cells, and neoplasia. Topics vary depending on class interest.

**Prerequisite:** Completion of 14.0 credits, [HMB302H1/HMB322H1](#)

**Recommended Preparation:**

[BCH311H1/CSB349H1/MGY311Y1/PSL350H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB433H1 - Topics in Global Health

**Hours:** 16L/8S

Seminar and theme based course examining the opportunity to apply basic knowledge of biological determinants of disease to designing health system interventions and informatics that can have a global impact in the near term.

**Prerequisite:** Completion of 14.0 credits, [HMB303H1/ HMB323H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB434H1 - Complementary & Integrative Medicine

**Hours:** 20L/4S

Introduction to complementary and alternative medical therapies. Topics include, Traditional Chinese Medicine, Naturopathy, Ayurvedic, and Mind-Body Practices. Biological mechanisms will be emphasized and therapies will be critically analyzed from an evidence-based research perspective. Integrating alternative therapies into Western practices with a focus on personalized medicine will be discussed.

**Prerequisite:** Completion of 14.0 credits, [BCH210H1](#), [BIO230H1/BIO255H1](#), [HMB302H1/ HMB312H1/ HMB314H1/ HMB322H1/ HMB323H1/ HMB342H1](#), and [HMB202H1/HMB203H1/HMB204H1](#)

**Recommended Preparation:** [HMB342H1/ CSB349H1/ PSL350H1/ BCH311H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB435H1 - Selected Topics in Molecular Cell Biology

**Hours:** 16L/8S

Theme-based lecture and seminar course underlining current basic science research in the area of molecular and cell biology, focusing on cell migration and its relevance to human health and disease. Topics may focus on the impact of fundamental processes underlying the cell biology, physiology and pathophysiology of cell motility in a variety of systems (e.g. immune, nervous system, cancer context).

**Prerequisite:** Completion of 14.0 credits, [BCH311H1/CSB349H1/MGY311Y1/PSL350H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB437H1 - The Biology of the Human Metallome

**Hours:** 24L

This course will discuss how heavy metals are integral to organ function through various biological pathways, the importance of metal regulation and control and its relationship with gene transcription. An introduction of metallo-therapeutics will also be featured, ranging from neurodegenerative therapies to cancer treatment.

**Prerequisite:** Completion of 14.0 credits, [HMB265H1/BIO260H1](#), [BIO230H1/ BIO255H1](#), [BCH210H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB440H1 - Dementia

**Hours:** 24L

This course, featuring a service-learning component, explores dementia. In patients with dementia, intellectual, social and occupational functioning deteriorate. The course addresses the multi-disciplinary aspects of dementia (clinical, genetic, molecular, social) with a focus on the most common cause of dementia, Alzheimer's disease.

*A short application to enrol in this course is required. Information may be found via the [Human Biology Program website](#).*

**Prerequisite:** Completion of 14.0 credits, [HMB265H1/ BIO260H1](#), [PSL300H1](#), [HMB300H1/ HMB302H1/ HMB320H1/ HMB321H1/ ANA300Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB441H1 - Genetics of Human Disease

**Hours:** 24L

This advanced course aims to provide students with current, in-depth knowledge of the genetics of specific human diseases, including single gene (e.g., Huntington disease), multifactorial (e.g. Alzheimer's disease), and non-Mendelian (e.g. mitochondrial DNA-related disease) disorders, and how the use of genetics to elucidate disease mechanisms can lead to treatments and personalized medicine in order to improve healthcare.

**Prerequisite:** Completion of 14.0 credits, [HMB265H1/BIO260H1](#), [BCH210H1](#), [HMB302H1/HMB321H1/HMB322H1/BCH311H1/CSB349H1/MGY311Y1/PSL350H1](#), and [HMB201H1/HMB202H1/HMB203H1/HMB204H1](#)

**Recommended Preparation:** [HMB321H1](#), [PSL300H1](#), [PSL301H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB442H1 - Brain Tumours: From Diagnosis to Treatment Effects

**Hours:** 16L/8S

This course focuses on current insights in brain tumour etiology and pathology as well as treatment options and side-effects. Based on a seminar format, this course is highly discussion-based and collaborative in nature.

**Prerequisite:** 14.0 credits complete, [PSL300H1](#), [HMB302H1](#)/[HMB322H1](#)/[HMB300H1](#)/[CJH332H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB443H1 - Global Hidden Hunger

**Hours:** 18L/6S

Vitamin and mineral deficiencies, termed 'hidden hunger,' affect about half the world's population. Explore the global nature, catastrophic consequences, and causes of these deficiencies. Discuss formulation and implementation of international, national, and local policies to alleviate 'hidden hunger' especially in infants and young children. A service-learning opportunity is integrated. Students will be required to contribute to a local community organization while using course knowledge to develop a project or initiative beneficial to the organization and community.

*A short application to enrol in this course is required. Information may be found via the [Human Biology Program website](#).*

**Prerequisite:** Completion of 14.0 credits, [BIO230H1](#)/[BIO255H1](#), [HMB302H1](#)/[HMB303H1](#)/[HMB312H1](#)/[HMB314H1](#)/[HMB322H1](#)/[HMB323H1](#)/[CJH332H1](#) (formerly [CSB332H1](#))/[NFS382H1](#)

**Recommended Preparation:** [PSL301H1](#), [CSB349H1](#)/[PSL350H1](#)/[BCH311H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## HMB450H1 - Neurodevelopmental Disorders and Diseases

**Hours:** 24L/12T

Proper development of the human brain is essential for human health. This course will examine how neurodevelopment failures contribute to neurological disorders and diseases, such as epilepsy and autism. Current research from basic, translational, and clinical perspectives will be examined using case studies.

**Prerequisite:** Completion of 14.0 credits, [HMB200H1](#), [HMB320H1](#)/[ANA300Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB452H1 - Personalized Medicine

**Hours:** 12L/12S

The bridge between basic scientific research and clinical practice integrates fundamental knowledge about molecular/cellular mechanisms and clinical disorders to increase the potential for new medical treatments and technologies as well as understanding of disease processes. Specific topics vary from year to year and will be based on the course instructor's area(s) of expertise.

**Prerequisite:** 14.0 credits complete, [HMB302H1](#)/[HMB321H1](#)/[HMB322H1](#), [HMB201H1](#)/[HMB202H1](#)/[HMB203H1](#)/[HMB204H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB453H1 - AIDS: A Global Perspective

**Hours:** 6L/18S

Seminars explore the global AIDS crisis. Varying epidemiological profiles of AIDS are placed in broader biological, social, and cultural frameworks. The impact of globalization and structural inequality on local cultures and lifestyles provides a backdrop to the discussions.

**Prerequisite:** 14.0 credits complete, [BIO220H1](#)/[JSU237H1](#)/[PHS300H1](#)/[JNH350H1](#)

**Exclusion:** [HAJ453H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## JEH455H1 - Current Issues in Environment and Health

**Hours:** 16L/8S

This course introduces students to complex issues at the interface between environment and health where health is broadly defined. Each year a current and controversial case study is explored from scientific, medical, political and policy perspectives. The course takes students from the molecular to individual to population and societal levels.

**Prerequisite:** Completion of 14.0 credits, [ENV341H1](#)/[HMB302H1](#)/[HMB312H1](#)/[HMB314H1](#)/[HMB322H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB460H1 - Seminars in Neurobiology of Mental Health

**Hours:** 12L/12S

This seminar course focuses on recent research into the neurobiology underlying mental health issues and is highly discussion-based and collaborative in nature. Specific topics are indicated by subtopic (which may vary yearly).

**Prerequisite:** 14.0 credits complete, [HMB200H1](#), [HMB300H1](#), [HMB320H1/ANA300Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB462H1 - Topics in Epidemiology

**Hours:** 12L/12S

The focus is on the theory and application of biostatistics and epidemiology to current developments in special topics in substantive areas of epidemiology (e.g., chronic disease, environmental & occupational health, infectious disease, methods, social, etc.).

**Prerequisite:** Completion of 14.0 credits, [HMB342H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB470H1 - Exercise and Sports Medicine

**Hours:** 22L/4S

This course considers the health benefits and risks of different forms of exercise, with a goal of understanding how people should exercise, and how much, depending on their athletic and health goals. It introduces elements of exercise science including the biomechanics of tissues and injuries to develop an understanding of how both the quantity and quality of movement and loading contribute to healthy training and/or injury. Some common injuries in sport such as knee injuries and concussions are used as examples of how various patterns of loading can cause injuries.

**Prerequisite:** Completion of 14.0 credits, [PSL300H1](#), [PSL301H1](#),

[HMB200H1](#)/[HMB201H1](#)/[HMB202H1](#)/[HMB203H1](#)/[HMB204H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB471H1 - Performance Enhancement

**Hours:** 24L/4P

Enhancing performance has broad appeal. This course explores current developments for achieving peak performance academically, physically and emotionally. We focus on the scientific basis of the links between performance and stress, and of the benefits and risks of pharmacological methods to achieve performance enhancement. Various stress management skills are introduced.

**Prerequisite:** Completion of 14.0 credits, [PSL300H1](#), [HMB200H1](#)/[HMB201H1](#)/[HMB202H1](#)/[HMB203H1](#)/[HMB204H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB472H1 - Exercise Physiology

**Hours:** 20L/4S

Examine the physiological and biochemical responses of the human body to both acute and chronic bouts of physical activity. The impact of activity on health, and health on physical activity, is explored by examining adaptations from the cellular to the systemic level of bodily function.

**Prerequisite:** Completion of 14.0 credits, [PSL300H1](#), [PSL301H1](#),

[HMB200H1](#)/[HMB201H1](#)/[HMB202H1](#)/[HMB203H1](#)/[HMB204H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB473H1 - Exercise and Mental Health

**Hours:** 18L/10P/6S

This course, featuring a service-learning component, discusses how mental well-being is a critical element of total health. We explore the evidence underpinning the role of physical activity in the avoidance of mental

disorders, recovery from mental disorders, and the quality of life of those with or without mental disorders.

*A short application to enrol in this course is required. Information may be found via the [Human Biology Program website](#).*

**Prerequisite:** Completion of 14.0 credits, [PSL300H1](#), [PSL301H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB474H1 - Dental Sciences

**Hours:** 20L/4S

Dentistry is one of the oldest branches of medicine responsible for the treatment of diseases of oral cavity. This course will introduce students to the key concepts as well as the latest research in the dental sciences, including but not limited to craniofacial structures, bone physiology, odontogenesis, pathogenesis of oral diseases, and technology in dental sciences.

**Prerequisite:** Completion of 14.0 credits, [BIO230H1/BIO255H1](#), [PSL300H1](#), [PSL301H1](#), [HMB200H1/HMB201H1/HMB202H1/HMB203H1/HMB204H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB489H1 - Advanced Laboratory in Human Biology

**Hours:** 36P/12S

Building on their experience in 3rd-year labs, students participate in inquiry-based laboratory experiments in diverse areas of current human biology research. Open to students in any Human Biology program. Labs start in the first week of term. (Lab Materials Fee: \$107)

**Prerequisite:** Completion of 14.0 credits, [HMB310H1/HMB311H1/HMB312H1/HMB314H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## HMB490Y1 - Health in Community

**Hours:** 24L/24T

An experiential learning course exploring health-related challenges and social determinants of health in partnership with local community organizations. Lectures and tutorials will support learning of selected biological and social aspects of health and disease, neuroscience, genetics or population health, and the development of scientific knowledge translation skills relevant to the community agencies. Cannot be taken concurrently with a full year research project course.

**Prerequisite:** [BIO230H1/BIO255H1](#), [HMB265H1/BIO260H1](#), [BCH210H1](#), [PSL300H1](#), [PSL301H1](#), [HMB200H1/HMB201H1/HMB202H1/HMB203H1/HMB204H1](#)

**Exclusion:** [HMB473H1](#)

**Recommended Preparation:** A 300-level science lab course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4), Society and its Institutions (3)

## HMB496Y1 - Research Project in Human Biology

A research project course for students enrolled in a Human Biology program, supervised by a faculty member appointed in a faculty or division at St. George Campus (Faculties of Arts & Science, Medicine, Engineering, Dalla Lana School of Public Health, etc.). Open to third and fourth year students.

Students are responsible for securing their own supervisor. Should a HMB Specialist require help securing a supervisor, the request must be made by email to the Human Biology Program Office no later than July 20 for Academic year projects and January 30 for Summer projects.

Completed applications for this course are due to the Human Biology Program Office by September 1 for Academic year projects and May 1 for Summer projects. Please see the application on the [Special Enrolment Courses page on the HMB Website](#).

Not eligible for CR/NCR option.

**Prerequisite:** Permission of the Human Biology Program; please refer to the Human Biology Program website for more details

**Exclusion:** Students are not permitted to do a HMB research project concurrently with another research project

**Distribution Requirements:** Science

## HMB499Y1 - Research Project in Human Biology II

A research project course for students enrolled in a Human Biology program, supervised by a faculty member appointed in a faculty or division at St. George Campus (Faculties of Arts & Science, Medicine, Engineering, Dalla Lana School of Public Health, etc.).

Students are responsible for securing their own supervisor. Should a HMB Specialist require help securing a supervisor, the request must be made by email to the Human Biology Program Office no later than July 20 for Academic year projects and January 30 for Summer projects.

Completed applications for this course are due to the Human Biology Program Office by September 1 for Academic year projects and May 1 for Summer projects. Please see the application on the [Special Enrolment Courses page on the HMB Website](#).

Not eligible for CR/NCR option.

**Prerequisite:** [HMB496Y1](#), and permission of the program

**Exclusion:** Students are not permitted to do a HMB research project concurrently with another research project.

**Distribution Requirements:** Science

# Hungarian

## Given by the Centre for European, Russian, and Eurasian Studies

Hungarian is spoken by ten and a half million inhabitants of present-day Hungary, about three million people in the neighbouring countries, and perhaps as many as an additional two million around the world. These figures make Hungarian, which is related to Finnish, Estonian, and Lappish, but virtually no other language in Europe, by far the largest minority language in the great Indo-European language territory.

Despite the isolation that might have been imposed by the uniqueness of their language, Hungarians have been engaged with, and participants in, greater European affairs since their arrival in the Carpathian basin more than a thousand years ago. Hungarians have made significant contributions in the fields of arts, science, and mathematics, winning Nobel prizes in Chemistry (4), Medicine (3), Physics (3), Economics, and Literature. In the music world the names Bartók, Kodály, Lehár, Liszt, Széll, Ormandy, Schiff, and many others are internationally famous. Leo Szilárd, Edward Teller, Paul Erdős, and John von Neumann are famous figures in theoretical physics and mathematics. Joseph Biró developed the ball-point pen and to this day the British call a ball-point pen, a biro. Hungarians have also become famous in sports, particularly soccer, boxing, and fencing, and in the world of cinema. And who has not played with the Rubik's cube?

Hungarian studies at the University of Toronto focus on the language, literature, cinema and culture of Hungary and on the international role of Hungary and Hungarians - particularly on Hungarian immigration to Canada. For many of the courses no prior knowledge of the Hungarian language is necessary, making them easily accessible to students in other programs.

Program Coordinator:

## Hungarian Programs

### Hungarian Studies Major (Arts Program) - ASMAJ1124

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(6.0 credits, including 2.0 credits in Hungarian language study)

First Year:

HUN100Y1

Higher Years:

1. HUN200Y1, HUN310Y1, HUN320Y1
2. Two courses from: EUR200Y1, HIS241H1, HIS242H1, HIS251Y1, HIS389H1 (Hungarian History), HIS453H1, HUN355H1, HUN345H1, HUN355H1, HUN356H1, HUN440Y1, HUN450H1, HUN455H1, INI381H1

### Hungarian Studies Minor (Arts Program) - ASMIN1124

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(4 full courses or their equivalent, including at least one at the 300+ level)

Four courses from: HUN100Y1, HUN200Y1, HUN310Y1, HUN320Y1, HUN335H1, HUN345H1, HUN351H1, HUN440Y1, HUN450H1, HUN455H1; HIS241H1, HIS251Y1, HIS389H1 (Hungarian History), HIS453H1; INI381H1

### Faculty of Arts & Science Language Citation

The Hungarian program participates in the Faculty of Arts and Science's Language Citation initiative. Students may achieve this Citation in Hungarian.

Language study is a demanding and intellectually rewarding educational experience. Our students learn to communicate both orally and in writing in other languages and are thus able to experience other parts of the world in more intimate ways. Their access to other cultures opens doors for further study and employment. Students in our department also have the opportunity to read a vast array of world-renowned authors in the original languages, as well as works – normally not available in English – in other

areas of study, for example, cinema studies, drama, folklore, history, intellectual history, philosophy, mathematics, and political science.

The Language Citation recognizes a significant level of achievement in language study. For course selection students should consult the Undergraduate Coordinator as early as possible since not every language course is offered each year. Students who begin language study at the Intermediate level should consult the Undergraduate Coordinator for approval of advanced literature and culture courses that may satisfy the requirements for the Language Citation.

## Hungarian Courses

### HUN100Y1 - Elementary Hungarian

**Hours:** 120P

This course is aimed at students interested in Hungarian but have no prior knowledge of the language. The course emphasizes essential vocabulary, basic comprehension, speaking, reading and writing skills with a balance between communicative activities and grammar practices. Communicative activities will include group and partner work to encourage interactive learning.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### HUN200Y1 - Intermediate Hungarian

**Hours:** 96P

Review of descriptive grammar; studies in syntax; vocabulary building; intensive oral practice; composition; reading and translation.

**Prerequisite:** Permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### HUN310Y1 - Advanced Hungarian

**Hours:** 48S

This course is intended to build on the skills and knowledge acquired by the students in the previous

The Language Citation in Hungarian is available to students who complete [HUN200Y1](#) and [HUN310Y1](#) with a grade of at least B-.

Students should note that, as explained in the [About Programs of Study](#) section of this Calendar, the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

### Note

The Department reserves the right to assign students to courses appropriate to their level of competence in Hungarian.

Hungarian language courses. It will consist of a more advanced study of grammar, more complex vocabulary, higher level of oral skills and longer reading, writing and translation exercises. Communicative activities will include group and partner work to encourage interactive learning.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### HUN320Y1 - A Survey of Hungarian Literature

**Hours:** 48S

A chronological study of the development of Hungarian literature since the 12th century; emphasis both on outstanding writers and on significant movements or themes. Transformations of ideas and changes in language and style. No knowledge of Hungarian required.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### HUN335H1 - Urban vs. Rural: Immigration to and Settlement in North America

**Hours:** 12L/12S

This course will provide an examination of the history of Hungarian Immigration to and settlement in North America. The course will examine the "push" and "pull" factors, the socio-economic factors involved, their patterns of migration and the organizational development of the communities they founded in North America. The course will compare and contrast the reception the immigrants and later refugees received in the United States and

Canada and examine how they adapted to their new homelands.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HUN345H1 - The Dynamic of Hungarian Culture, Ethnography, and Folklore**

**Hours:** 12L/12S

Explore the cultural traditions, historical processes, myths, and figures that have shaped and redefined Hungarian civilization and national identity. Theoretical and practical classes on ethno-genesis, anthropology, and folklore. Readings in English (also available in Hungarian).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **HUN355H1 - One Hundred Years of Dramatic Change: History of the Past Century and Reflections of Society in Hungarian Culture**

**Hours:** 12L/12S

Explore Hungary's rapidly changing place in Europe. Focus on political, sociological, and historical understandings of nationalism and identity as they manifest themselves in literature, history, and culture. Knowledge of Hungarian not required.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## **HUN455H1 - Hungary and Europe: Cultural Adaptation in the Late 20th Century**

**Hours:** 12L/12S

Focus on literature, art, mass media, and popular culture in post-1990 Hungary with special emphasis on the past ties to European culture and the impact of European integration. Readings in English (also available in Hungarian).

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **HUN497Y1 - Independent Study (Hungarian)**

Translation course concentrating on Hungarian prose translation. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

## **HUN498H1 - Independent Study (Hungarian)**

Translation course concentrating on Hungarian prose translation. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

 R. Kaul, MD, Ph D  
 E.C. Keystone, B Sc, Ph D  
 G. Levy, B Sc, MD, FRCP  
 A. Martin, M Sc, Ph D  
 P.S. Ohashi, B Sc, Ph D  
 M. Ostrowski, MD, FRCP  
 C. Paige, B Sc, Ph D  
 J. Penninger, MD (Adjunct)  
 D.J. Philpott, B Sc, Ph D  
 M.J.H. Ratcliffe, B Sc, Ph D  
 C. Roifman, MD  
 R. Rottapel, MD  
 K. Siminovitch, MD, FRCP, ABIM  
 D. Wall, MD  
 T.H. Watts, B Sc, Ph D  
 J. Wither, MD, Ph D  
 M. Woo, MD, Ph D, FRCPC  
 R.S. Yeung, MD, Ph D, FRCPC  
 L. Zhang, MD, Ph D

### Associate Professors

M.K. Anderson, B Sc, Ph D  
 S. Berger, M Sc, Ph D  
 D. Brooks, B Sc, Ph D  
 S. Dunn, B Sc, Ph D  
 G. Ehrhardt, B Sc, Ph D  
 T. Eiwegger, MD, Ph D  
 D.J. Kelvin, M Sc, Ph D  
 T. Mallevaey, B Sc, Ph D  
 T. McGaha, B Sc, Ph D  
 P. Poussier, MD  
 D. Spaner MD, Ph D  
 F.W. Tsui, M Sc, Ph D (Adjunct)  
 P. Vadas, Ph D, MD

### Assistant Professors

M. Butler, MD  
 B. Coburn, MD, Ph D  
 S. Crome, B Sc, Ph D  
 S. Epelman, MD, Ph D, FRCPC  
 A. Gehring, BA, Ph D  
 J. Jongstra-Bilen, M Sc, DEA, Ph D  
 J.P. Julien, B Sc, Ph D  
 S. Juvet, MD, PhD  
 N. Lee, B Sc, Ph D  
 S. MacParland, M Sc, Ph D  
 T. Martinu, MD  
 A. Mortha, M Sc, Ph D  
 C.S. Robbins, B Sc, Ph D  
 L. Serghides, B Sc, Ph D  
 B. Treanor, B Sc, Ph D  
 H. Tsui, Ph D, MD  
 D. Winer, MD

### Lecturers

L. Clemenza, B Sc, Ph D  
 I. Dimitriou, Ph.D  
 W. Tamminen, BSc, PhD

## Introduction

Immunology is an integrative branch of the medical sciences that draws upon the more traditional disciplines of Molecular Biology, Microbiology, Pathology, and Biochemistry. In essence, Immunology is the study of the physiological responses that result when foreign (i.e. non-self) materials are introduced into a vertebrate organism such as humans. Traditionally, the discipline has focussed on the body's response to infectious micro-organisms, with the purpose of developing effective vaccines. However, the scope of modern Immunology now encompasses all aspects of self vs. non-self recognition phenomena including organ transplantation, tumour immunology and autoimmune diseases. Recent major advances in our understanding of the cellular and molecular basis of the immune response promise to provide us with a new generation of prophylactic, therapeutic and diagnostic reagents of relevance to human and animal health.

The Department of Immunology, in collaboration with Trinity College, co-ordinates specialist, major, and minor programs in Immunology. The emphasis of the specialist program is to provide students with a sound theoretical understanding of the cellular and molecular basis of non-self recognition, together with sufficient laboratory experience to enable the students to consider embarking on a career in the discipline. The major and minor programs offer students fundamental training in Immunology and gives them the opportunity to combine Immunology with another program in Life Sciences, Basic Sciences, or within the Arts.

Immunologists may have careers in universities and other centres of learning and research, as well as in the biotechnology industries, diagnostic laboratories and various government agencies. Courses in this specialist program are drawn from offerings by the Department, together with courses from other Departments, taught in some cases by members of the Department of Immunology. As enrolment in the specialist and major programs are restricted, please consult specific requirements outlined in the program description section.

Associate Chair, Undergraduate Studies:  
Dr. T. Mallevaey

## Immunology Programs

### Immunology Specialist (Science Program) - ASSPE1002

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade and Variable Minimum Grade Average*

Minimum grades combined with a minimum grade average in required courses or their equivalents are needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses must be completed:

- [BIO120H1](#) and [BIO130H1](#)
- [CHM135H1](#) and [CHM136H1](#), or [CHM138H1](#) and [CHM139H1](#), or [CHM151Y1](#)

- [MAT135H1](#) and [MAT136H1](#), or [MAT137Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in each course, or a final grade average lower than 70% in these required courses will not be considered for admission. Please note that obtaining the minimum final grades and grade average does not guarantee admission to the program. While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = mid 70s; average = mid 70s. The underlying numeric final mark in each of your courses required for program enrolment will be used by the relevant academic unit to determine your eligibility.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [undergraduate.immunology@utoronto.ca](mailto:undergraduate.immunology@utoronto.ca), specify which program you would like to be considered for, and provide your student number.

Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment. Additional information is also available on the Immunology website at [www.immunology.utoronto.ca](http://www.immunology.utoronto.ca).

#### Completion Requirements:

(13.5 credits)

First Year:  
[BIO120H1](#); [BIO130H1](#); [[CHM135H1](#) (formerly [CHM139H1](#)); [CHM136H1](#) (formerly [CHM138H1](#))]/  
[CHM151Y1](#); ([MAT135H1](#); [MAT136H1](#))/ [MAT137Y1](#)

First Year or upper years:  
([PHY131H1](#); [PHY132H1](#))/ ([PHY151H1](#); [PHY152H1](#))  
(Note 1)

Second Year:  
1. [BCH242Y1](#); [BIO230H1](#); [BIO260H1](#)/ [HMB265H1](#); [IMM250H1](#); [STA288H1](#)  
2. One course from the following list: [BIO220H1](#)/  
[TRN225Y1](#)/ [TRN236H1](#)/ [CHM220H1](#)/ [CHM247H1](#)/  
[CHM249H1](#)

Third Year:  
1. [BCH377H1](#); [IMM341H1](#); [IMM351H1](#); [MGY311Y1](#); [IMM360H1](#)  
2. [MGY377H1](#)/ [MGY378H1](#)

Fourth Year:  
1. [IMM435H1](#)  
2. 1.0 credit from the following list: [IMM428H1](#)/

IMM429H1/ IMM430H1/ IMM431H1/ MIJ485H1

3. IMM450Y1 or 1.0 credit at the 400-series in ANA, BCH, IMM, LMP, MGY, CSB.

Notes:

1. (PHY131H1; PHY132H1)/ (PHY151H1; PHY152H1) may be taken in the first year or subsequent years and are not required for entrance into the specialist program.
2. IMM435H1 is capped at 40 students. Priority will be given to Immunology Specialist students, followed by Immunology Major students.
3. Students considering graduate school are encouraged to take IMM385Y1.

## Immunology Major (Science Program) - ASMAJ1002

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade and Variable Minimum Grade Average*

Minimum grades combined with a minimum grade average in required courses or their equivalents are needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses must be completed:

- BIO120H1 and BIO130H1
- CHM135H1 and CHM136H1, or CHM138H1 and CHM139H1, or CHM151Y1

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 60% in each course, or a final grade average lower than 70% in these required courses will not be considered for admission. Please note that obtaining the minimum final grades and grade average does not guarantee admission to the program. While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = mid 70s; average = mid 70s. The underlying numeric final mark in each of your courses required for program enrolment will be used by the relevant academic unit to determine your eligibility.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or

later are asked to please contact the department directly at [undergraduate.immunology@utoronto.ca](mailto:undergraduate.immunology@utoronto.ca), specify which program you would like to be considered for, and provide your student number.

Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment. Additional information is also available on the Immunology website at [www.immunology.utoronto.ca](http://www.immunology.utoronto.ca).

### Completion Requirements:

(8.0 credits, including 1.0 credit at the 400-series)

First Year:

BIO120H1; BIO130H1; [CHM135H1 (formerly CHM139H1); CHM136H1 (formerly CHM138H1)]/ CHM151Y1

Second Year:

1. BCH210H1; BIO230H1; IMM250H1; BIO260H1/ HMB265H1

2. 0.5 credit from the following list: BIO220H1/ STA288H1/ TRN225Y1/ TRN236H1/ CHM247H1/ CHM249H1

Third Year:

IMM340H1; IMM350H1; CSB349H1/ BCH311H1; 1.0 credit from the following list: BCH370H1/ MGY377H1/ MGY378H1/ PHL281H1

Fourth Year:

1.0 credit from the following list: IMM428H1/ IMM429H1/ IMM430H1/ IMM431H1/ IMM435H1/ MIJ485H1

Notes:

1. Students considering graduate school are encouraged to add the additional non-compulsory IMM450Y1 research course, if space permits.
2. MIJ485H1 requires MGY377H1 & MGY378H1 as pre-requisites.
3. IMM435H1 is capped at 40 students. Priority will be given to Immunology Specialist students, followed by Immunology Major students.

## Immunology Minor (Science Program) - ASMIN1002

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

For more information, refer to the Immunology website at [www.immunology.utoronto.ca](http://www.immunology.utoronto.ca).

(4 full courses or their equivalents)

First Year:

BIO120H1; BIO130H1; [CHM135H1 (formerly CHM139H1); CHM136H1 (formerly CHM138H1)]/CHM151Y1

Second Year:

BIO230H1; IMM250H1

Third Year:

IMM340H1; IMM350H1

## Immunology Courses

### IMM199H1 - Immunology in the News Today

**Hours:** 24S

Why do we get sick? How do vaccines work? Does our diet influence our immunity? This course is intended to inspire curiosity about questions generated by immunology concepts that are prevalent in the news today. Different topics will be explored each week including immunity worldwide, human vaccinations and the mucosal immune system. Topics will be placed in context through real-life case studies, immunology virtual laboratory simulation, interactions with faculty members and extensive coverage of the basic science underlying each topic. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### IMM221H1 - Origins of Immunology

**Hours:** 24L/12T

This course will examine the milestones in the field of immunology from ancient to current times, with specific emphasis on 1880 to 1980. It will observe how the concept of immunity has changed over time and examine the major events and discoveries that shaped how immunology is viewed today. Pioneers, such as Edward Jenner, Louis Pasteur, Robert Koch, Paul Ehrlich and Brigitte Askonas, and their contributions to the field will be discussed in both historical and scientific context as well as their impact on society. Assignments are staggered for students to build upon instructor's feedback.

**Recommended Preparation:** BIO120H1, BIO130H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### IMM250H1 - The Immune System and Infectious Disease

**Hours:** 24L

Students will be introduced to the basic concepts of immunity to infectious disease and how breakdown of the immune response can lead to auto-immunity. We will trace the history of current ideas in immunology and the immune response by examining how bacteria and viruses cause disease and the initial discoveries that led to such developments as vaccination. Current topical and newsworthy infectious diseases (HIV, tuberculosis, SARS, avian flu) will be used as examples of how the immune system copes with microbial infections.

**Recommended Preparation:** BIO120H1, BIO130H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### IMM340H1 - Fundamental Immunology

**Hours:** 24L/12T

This course introduces the basic principles and key players of the immune system: differences and interplay between innate and adaptive immunity, how immune cells develop and function, how immune cells recognize threats and danger and mount an appropriate and measured response. This course is offered in the Fall term with in-class lectures and tutorials, as well as in the Summer term with hybrid delivery (online lectures and in-class tutorials).

**Prerequisite:** BIO230H1

**Exclusion:** IMM334Y1/IMM335Y1/IMM341H1

**Recommended Preparation:** IMM250H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### IMM341H1 - Fundamental Immunology (Advanced)

**Hours:** 24L/12T

This course introduces the fundamental principles and key players of the immune system: differences and interplay between innate and adaptive immunity, how immune cells develop and function, how immune cells recognize threats and danger and mount an appropriate and measured response. Intended for students specializing in Immunology and related programs.

**Prerequisite:** [BIO230H1](#)

**Exclusion:** [IMM334Y1/IMM335Y1/IMM340H1](#)

**Recommended Preparation:** [IMM250H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM350H1 - The Immune System in Action

**Hours:** 24L/12T

This course illustrates how different elements of the immune system come together to mount efficient and measured responses. Topics include response to infectious microorganisms, allergy and autoimmunity, immune responses against cancer, and transplantation immunology.

**Prerequisite:** [IMM340H1/IMM341H1](#)

**Exclusion:** [IMM334Y1/IMM335Y1/IMM351H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM351H1 - The Immune System in Action (Advanced)

**Hours:** 24L/12T

This course illustrates how different elements of the immune system come together to mount efficient and measured responses. Topics include response to infectious microorganisms, allergy and autoimmunity, immune responses against cancer, and transplantation immunology. Intended for students specializing in Immunology and related programs.

**Prerequisite:** [IMM341H1/IMM340H1](#)

**Exclusion:** [IMM334Y1/IMM335Y1/IMM350H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM360H1 - Scientific Methods and Research in Immunology

**Hours:** 24L/24T

This course will provide students with an opportunity to advance their understanding of research in Immunology in accordance with scientific methodology. Students will critically appraise scientific articles, design and analyze scientific experiments, and develop the core skills of data and statistical literacy. This course is well suited for anyone interested in discovering knowledge in Immunology, providing students with a methodology for the achievement of scientific research activities.

**Prerequisite:** [IMM250H1](#), [BCH210H1/BCH242Y1](#), [BIO230H1/BIO255H1](#), [BIO260H1/HMB265H1](#), [STA288H1/STA220H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM385Y1 - Special Research Project in Immunology

**Hours:** 180P

This course provides an opportunity for students to conduct a research project under the supervision of a member of the Faculty. Students are expected to devote a minimum of seven hours per week to the course from the week the fall term lectures begin to the last week of the spring term. Research projects will involve experimental design and work, data analyses, literature reading etc.

**Prerequisite:** [IMM250H1](#)

**Corequisite:** [IMM340H1/IMM341H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM428H1 - Molecular Immunology

**Hours:** 24L

This course will focus on the molecular and cellular biology of immune recognition. The course will emphasize historical and recent experimental evidence leading to our current understanding of immune recognition. Subtopics are subject to change and have recently included mechanisms of diversification of immunoglobulin receptors, T cell –MHC interactions, T cell activation and signaling mechanisms; receptors of the innate immune system, immune recognition by natural killer cells.

**Prerequisite:** BCH210H1/BCH242Y1, BCH311H1/CSB349H1/MGY311Y1/PSL350H1, IMM350H1/IMM351H1/IMM334Y1/IMM335Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM429H1 - Developmental Immunology

**Hours:** 24L

Hematopoiesis, myelopoiesis, lymphopoiesis, a study of the development of cells involved in the immune system including their ontogeny, physical, molecular, and biochemical characteristics, regulation of differentiation and maturation, positive and negative selection of lymphocytes.

**Prerequisite:** IMM350H1/IMM351H1 (IMM334Y1/IMM335Y1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM430H1 - Clinical Immunology

**Hours:** 24L/24T

This course will address the underlying pathogenesis as well as highlight the challenges of treating immune-related conditions such as autoimmunity, cancer, HIV, and transplantation and graft rejection. Half of the lectures will address the genetics and cellular pathogenesis of autoimmune diseases such as multiple sclerosis, type I diabetes and lupus. Other lectures will overview a number of immunological challenges faced in the clinic, such as preventing graft rejection after transplantation or boosting the immune system to fight cancer and HIV.

**Prerequisite:** IMM350H1/IMM351H1 (IMM334Y1/IMM335Y1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM431H1 - Immunotherapy

**Hours:** 24L/12T

Therapies that enhance, or suppress, the body's immune response have proven remarkably efficient for the treatment of human diseases such as cancer, autoimmunity and chronic inflammation. Some of these therapies, such as the so-called checkpoint inhibitors and CAR-T cell therapies have recently leaped from bench to bedside. This course will cover the fundamental immune

principles at play, how they were discovered, as well as the existing and future immune therapies to treat these diseases.

**Prerequisite:** IMM350H1/IMM351H1

**Recommended Preparation:** IMM428H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM435H1 - Practical Immunology

**Hours:** 72P

Application of basic principles acquired from IMM350H1/IMM351H1 (IMM334Y1/IMM335Y1); immunological procedures performed in research and diagnostic laboratories using molecular and cellular approaches; instruction through lectures, video tapes, and practical exercises in the laboratory. (Lab Materials Fee: \$50)

**Prerequisite:** BCH210H1/BCH242Y1, IMM350H1/IMM351H1/IMM334Y1/IMM335Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## IMM450Y1 - Research Project in Immunology

**Hours:** 154P

An opportunity for specialized research in Immunology under the supervision of a member of the Faculty. There are no pre- or co-requisites, although preference is given to Immunology Specialist and Major students. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MIJ485H1 - Vaccines and Immunity

**Hours:** 36L

Analysis of the strategies used by pathogenic microbes to evade specific and innate immune responses, and the strategies used to combat infectious disease using vaccines, with an emphasis on molecular and immunological aspects. Special topics include: molecular basis of pathogenicity and immune-evasion strategies; vaccination strategies; challenges to vaccine

implementation (given jointly by the Departments of Molecular Genetics and Immunology).

**Prerequisite:** (IMM340H1/IMM341H1),  
(IMM350H1/IMM351H1), MGY377H1, MGY378H1

**Exclusion:** MBY480H1, MGY485H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# Indigenous Studies

## Faculty List

### Associate Professors

S. Hill  
R. Kuokkanen  
C. Suzack  
D. Turner

### Assistant Professors

M. Daigle  
R. DeCaire  
H. Dorries  
A. Key Jr.  
B. Wastasecoot  
K. White

## Introduction

Indigenous Studies is an interdisciplinary undergraduate program dedicated to the study and research of Indigenous peoples in Canada and throughout the world. The program offers courses that engender a rigorous and respectful understanding of Indigenous peoples' languages, knowledges, cultures, histories, politics, arts, intellectual traditions and research methodologies. INS offers Specialist, Major, and Minor Programs within the Faculty of Arts & Science. Students are encouraged to seek counselling and information about this program from [indigenous.studies@utoronto.ca](mailto:indigenous.studies@utoronto.ca) or on our website at <https://www.indigenoustudies.utoronto.ca>.

## Indigenous Studies Programs

### Indigenous Studies Specialist (Arts Program) - ASSPE0115

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(10.0 credits, including at least 1.0 credit at the 400-level)

1. [INS201Y1](#)
2. [INS210Y1](#)/ [INS220Y1](#)/( [INS230H1](#)+ [INS231H1](#))
3. [INS300Y1](#)/ [INS301Y1](#), [JPI201H1](#), [JIG322H1](#)
4. [INS390H1](#) and [INS460H1](#)
5. 4.0 credits from Group A (note: some of these courses

have prerequisites)

6. 1.0 credit from Group A or Group B below (note: some of these courses have prerequisites)

7. For numbers 5 and 6 above, 2.0 credits must be at the 300-level and a 0.5 credit must be at the 400-level.

#### Group A:

[INS200H1](#), [INS201Y1](#), [JPI201H1](#), [INS205H1](#), [INS210Y1](#), [INS215Y1](#), [INS220Y1](#), [INS230H1](#), [INS231H1](#), [INS240Y1](#), [INS250H1](#), [INS261H1](#), [INS300Y1](#), [INS301Y1](#), [INS302H1](#), [INS310Y1](#), [INS322H1](#), [JIG322H1](#), [INS323Y1](#), [INS340Y1](#), [INS341H1](#), [INS350H1](#), [INS351Y1](#), [INS352H1](#), [INS355H1](#), [INS352H1](#), [INS353H1](#), [INS354H1](#), [INS360Y1](#), [INS371H1](#), [INS372H1](#), [INS390H1](#), [INS398H0](#), [INS399Y0](#), [INS491Y1](#), [INS402H1](#), [INS403H1](#), [INS404H1](#), [INS405H1](#), [INS407H1](#), [JIG440H1](#), [JFP450H1](#), [INS460H1](#), [INS491Y1](#), [INS493H1](#), [INS494Y1](#), [INS495Y1](#), [INS496H1](#), [INS497H1](#), [INS498Y1](#), [ANT315H1](#), [ANT327H1](#), [ANT384H1](#), [ANT388H1](#), [ANT458H1](#), [ENG254H1](#), [ENG355Y1](#), [HIS262H1](#), [HIS366H1](#), [HIS369H1](#), [HIS419H1](#), [HIS472H1](#), [LIN458H1](#), [WGS395H1](#)

#### Group B:

[ANT200Y1](#), [ANT204H1](#), [ANT319Y1](#), [ANT311Y1](#), [ANT348H1](#), [ANT366H1](#), [ANT410H1](#), [CAR225H1](#), [CAR226H1](#), [CSE240H1](#), [HIS106Y1](#), [HIS263Y1](#), [HIS318H1](#), [HIS365H1](#), [HIS402H1](#), [JHN323H1](#), [LIN351H1](#), [RLG307H1](#)

Note: Effective Fall 2021, courses associated with New College's Caribbean Studies, and Critical Studies in Equity and Solidarity programs will have the new "CAR" and "CSE" designators respectively.

## Indigenous Studies Major (Arts Program) - ASMAJ0115

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(7.0 credits, including at least 2.0 credits at the 300+ level)

1. [INS201Y1](#)
2. [INS210Y1](#)/ [INS220Y1](#)/( [INS230H1](#)+ [INS231H1](#))
3. [INS300Y1](#)/ [INS301Y1](#), [JPI201H1](#), [JIG322H1](#)
4. [INS390H1](#)
5. 2.0 credits from INS, JFP, JIG or JPI (note: some of these courses have prerequisites)
6. One 0.5 credit from Group A or one 0.5 credit from Group B below (note: some of these courses have

prerequisites)

7. Of the courses chosen, at least 2.0 credits must be at the 300+ level, of which a 0.5 credit must be at the 400-level.

*Group A:*

[INS200H1](#), [INS201Y1](#), [JPI201H1](#), [INS205H1](#), [INS210Y1](#),  
[INS215Y1](#), [INS220Y1](#), [INS230H1](#), [INS231H1](#), [INS240Y1](#),  
[INS250H1](#), [INS261H1](#), [INS300Y1](#), [INS301Y1](#), [INS302H1](#),  
[INS310Y1](#), [INS322H1](#), [JIG322H1](#), [INS323Y1](#), [INS340Y1](#),  
[INS341H1](#), [INS350H1](#), [INS351Y1](#), [INS352H1](#), [INS355H1](#),  
[INS352H1](#), [INS353H1](#), [INS354H1](#), [INS360Y1](#), [INS371H1](#),  
[INS372H1](#), [INS390H1](#), [INS398H0](#), [INS399Y0](#), [INS491Y1](#),  
[INS402H1](#), [INS403H1](#), [INS404H1](#), [INS405H1](#), [INS407H1](#),  
[JIG440H1](#), [JFP450H1](#), [INS460H1](#), [INS491Y1](#), [INS493H1](#),  
[INS494Y1](#), [INS495Y1](#), [INS496H1](#), [INS497H1](#), [INS498Y1](#),  
[ANT315H1](#), [ANT327H1](#), [ANT384H1](#), [ANT388H1](#),  
[ANT458H1](#), [ENG254H1](#), [ENG355Y1](#), [HIS262H1](#),  
[HIS366H1](#), [HIS369H1](#), [HIS419H1](#), [HIS472H1](#), [LIN458H1](#),  
[WGS395H1](#)

*Group B:*

[ANT200Y1](#), [ANT204H1](#), [ANT319Y1](#), [ANT311Y1](#),  
[ANT348H1](#), [ANT366H1](#), [ANT410H1](#), [CAR225H1](#),  
[CAR226H1](#), [CSE240H1](#), [HIS106Y1](#), [HIS263Y1](#),  
[HIS318H1](#), [HIS365H1](#), [HIS402H1](#), [JHN323H1](#), [LIN351H1](#),  
[RLG307H1](#)

Note: Effective Fall 2021, courses associated with New College's Caribbean Studies, and Critical Studies in Equity and Solidarity programs will have the new "CAR" and "CSE" designators respectively.

## Indigenous Studies Minor (Arts Program) - ASMIN0115

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits, including at least 1.0 credit at the 300+ level)

1. [INS201Y1](#)
2. [INS300Y1](#)/[INS301Y1](#)/( [JPI201H1](#) and [JIG322H1](#))

3. 1.0 additional credit from INS, JFP, JIG or JPI (note: some of these courses have prerequisites)

4. 1.0 additional credit from Group A below (note: some of these courses have prerequisites)

*Group A:*

[INS200H1](#), [INS201Y1](#), [JPI201H1](#), [INS205H1](#), [INS210Y1](#),  
[INS215Y1](#), [INS220Y1](#), [INS230H1](#), [INS231H1](#), [INS240Y1](#),  
[INS250H1](#), [INS261H1](#), [INS300Y1](#), [INS301Y1](#), [INS302H1](#),  
[INS310Y1](#), [INS322H1](#), [JIG322H1](#), [INS323Y1](#), [INS340Y1](#),  
[INS341H1](#), [INS350H1](#), [INS351Y1](#), [INS352H1](#), [INS355H1](#),  
[INS352H1](#), [INS353H1](#), [INS354H1](#), [INS360Y1](#), [INS371H1](#),  
[INS372H1](#), [INS390H1](#), [INS398H0](#), [INS399Y0](#), [INS491Y1](#),  
[INS402H1](#), [INS403H1](#), [INS404H1](#), [INS405H1](#), [INS407H1](#),  
[JIG440H1](#), [JFP450H1](#), [INS460H1](#), [INS491Y1](#), [INS493H1](#),  
[INS494Y1](#), [INS495Y1](#), [INS496H1](#), [INS497H1](#), [INS498Y1](#),  
[ANT315H1](#), [ANT327H1](#), [ANT384H1](#), [ANT388H1](#),  
[ANT458H1](#), [ENG254H1](#), [ENG355Y1](#), [HIS262H1](#),  
[HIS366H1](#), [HIS369H1](#), [HIS419H1](#), [HIS472H1](#), [LIN458H1](#),  
[WGS395H1](#)

## Faculty of Arts & Science Language Citation

Indigenous Studies participates in the Faculty of Arts & Science Language Citation Initiative for Anishinaabemowin. The study of the Anishinaabe language is a demanding and intellectually rewarding educational experience. Successful study of this language demonstrates intelligence, discipline, analytical sophistication, and an excellent memory. The study of any language provides invaluable insights into the varieties of human culture and expression.

In each language the Language Citation recognizes a significant level of achievement in language study with a high level of academic success. The Citation in Anishinaabemowin is available to students who complete [INS210Y1](#) and earn a grade of at least B- in [INS310Y1](#) and [INS301Y1/INS351Y1](#).

Students should note that, as explained in the [About Programs of Study](#) section of this Calendar, the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

## Indigenous Studies Courses

### INS200H1 - Introduction to Indigenous Truth and Resilience

**Hours:** 24L/12T

This course is an interdisciplinary introduction to the historical and contemporary experiences of Indigenous peoples in Canada, with an emphasis on local lands and peoples. The course will explore Indigenous resilience, relationships with settlers and settler states, and principles and ethics of Indigenous Knowledge. Tutorials will focus on critical discussion and experiential learning.

**Distribution Requirements:** Humanities, Social Science  
**Breadth Requirements:** Society and its Institutions (3)

### INS201Y1 - Introduction to Indigenous Studies: Foundations, History and Politics

**Hours:** 48L/24T

This course is designed to introduce students to the ideas, methods and themes of the discipline of Indigenous Studies. The development of the field of Indigenous Studies in Canada will form an important focus in the first half. The second part of the course will address "history and politics", including an overview of the historical processes of diplomacy, alliances, and treaty-making.

**Exclusion:** [ABS201Y1](#)

**Distribution Requirements:** Humanities, Social Science  
**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

### JPI201H1 - Indigenous Politics in Canada

**Previous Course Number:** POL308H1  
**Hours:** 24L/12T

This course explores key issues in Indigenous politics in Canada. Provides students with an overview of historical and contemporary socio-political issues in Indigenous societies and institutions such as Indigenous self-governance, land claims and treaty negotiations.

**Prerequisite:** 4.0 credits/1.0 POL credit/[INS201Y1](#)  
**Exclusion:** [POL308H1](#)/[POLC56H3](#)  
**Recommended Preparation:** [POL214H1](#) or [POL224H1](#)  
**Distribution Requirements:** Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

### INS205H1 - Indigenous Worldviews, Spiritual and Healing Traditions

**Hours:** 24L

This course will discuss the relationship between spiritual philosophies, beliefs, traditions and practices that contribute to meaning in Indigenous communities. This course will emphasize traditions and teachings and understanding the role of spirituality historically and within contemporary Indigenous societies, including governance, treaties, environment, culture, healing and everyday life.

**Prerequisite:** [INS201Y1](#) or [INS200H1](#)

**Exclusion:** [ABS205H1](#)

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

### INS210Y1 - Introduction to Anishinaabemowin

**Hours:** 72L

An introduction to the Anishinaabe language, including the syllabic writing system.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

### INS215Y1 - Introduction to an Indigenous Language of Canada

**Hours:** 72L

This course will offer an introduction to one of Canada's Indigenous languages, including its writing system. Speaking skills will be emphasized.

**Exclusion:** [ABS215H1](#); [ABS215Y1](#)

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

### INS220Y1 - Introduction to Kanien'kéha (Mohawk Language)

**Hours:** 72L

An introduction to Kanien'kéha (Mohawk Language), a member of the Iroquoian language family.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS230H1 - Introduction to Inuktitut

**Hours:** 24L

An introduction to one dialect of Inuktitut, the language of the Inuit, including aspects of other dialects and the syllabic writing system.

**Exclusion:** [ABS230H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS231H1 - Elementary Inuktitut

**Hours:** 24L

This course builds on the introduction to Inuktitut from ABS230H. Emphasis will be placed on developing grammatical complexity and vocabulary in students oral skills, as well as dialect and cultural awareness.

**Prerequisite:** [INS230H1](#)

**Exclusion:** [ABS231H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS240Y1 - Ecological Interactions: Intro to Indigenous and Western Sciences

**Hours:** 72L/72P

Introduction to methodologies and applications of Indigenous and Western sciences, with an emphasis on environmental change, animal behaviour, evolution, sustainable practices, and implications of intrinsic ecological connections. Exploratory labs, often outdoors, develop literacy and skills in each paradigm as well as critical thought, creative reflection, and synthesis of knowledge.

**Prerequisite:** [INS201Y1](#)

**Exclusion:** [ABS240Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## INS250H1 - Indigenous Environmental Science and Practice

**Hours:** 24L

This course is a study of the ecological and scientific teachings of Indigenous peoples. The course provides and overview of Indigenous peoples' relationships with the natural world in historical and contemporary environmental issues and their implications for Indigenous Peoples and others.

**Prerequisite:** [INS201Y1](#)

**Exclusion:** [ABS250H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS261H1 - Contemporary Challenges Facing Indigenous Communities

**Hours:** 24L

This is a survey course focusing on the contemporary challenges faced by Indigenous peoples in Canada. In this course students research specific challenges facing Indigenous communities today. This includes specific challenges that arise out of the broader topic areas of language and culture, land rights, economics, governance, youth, education, health, social services, environment, violence, healing, community development, repatriation of cultural property, and decolonization.

**Prerequisite:** [INS201Y1](#)

**Exclusion:** [ABS261H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS300Y1 - Worldviews, Indigenous Knowledges, and Oral Tradition

**Hours:** 48L

A study of the languages and culture of Indigenous peoples through exploration of oral histories, from creation stories until present times, including the role of oral history and methods for studying oral history through accounts told by elders.

**Prerequisite:** 5.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Exclusion:** [ABS300Y1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS301Y1 - Indigenous Languages and Cultures

**Hours:** 48L

Examination of the historical interplay of Indigenous languages and cultures in Canada. Particular focus is on the languages and cultures of Indigenous peoples of the Great Lakes.

**Prerequisite:** 5.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Exclusion:** [ABS301Y1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS302H1 - Indigenous Representation in the Mass Media and Society

**Hours:** 24L

A survey of historical and contemporary representations of Indigenous people in the mass media. Introduction to basic techniques for evaluating, analyzing, and understanding the construction of Indigeneity as it is communicated through film, television, and other media. Examination of racial stereotypes and the role of mass communication in perpetuating and challenging stereotypes, cultural appropriation, Indigenous media production, impact of media portrayal of Indigenous peoples.

**Prerequisite:** 8.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Exclusion:** [ABS302H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS303H1 - Indigenous Language and Indigenous Thought

**Hours:** 24S

Examination of original Indigenous values and philosophies as embodied in Indigenous languages through various media forms.

**Prerequisite:** 5.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS304H1 - Exploring Indigenous Thought Through Language Texts

**Hours:** 24L

Examination of original Indigenous values and philosophies as embodied in written Indigenous language texts.

**Prerequisite:** 5.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS310Y1 - Anishinaabemowin II

**Hours:** 72L

Further study of the Anishinaabe language with emphasis on speaking and writing.

**Prerequisite:** [INS210Y1](#)

**Exclusion:** [ABS310Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS320Y1 - Kanien'kéha II

**Previous Course Number:** INS323Y1

**Hours:** 72L

Further study of Kanien'kéha (Mohawk Language), a member of the Iroquoian language family.

**Prerequisite:** [INS220Y1](#)

**Exclusion:** [INS323Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS322H1 - Indigenous Narratives of Empowerment

**Hours:** 24L

This course explores Indigenous decolonization and empowerment by analysing comparatively theoretical and

literary debates that focus on issues of sovereignty, gender, grass-roots activism, and anti-racism. It analyses several emerging paradigm approaches to this set of debates including intersectional critical-race theory, Indigenous feminisms, and decolonization practices in theoretical and literary texts.

**Prerequisite:** 8.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Exclusion:** [ABS322H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## JIG322H1 - Indigenous Worlds, Worldviews and the Environment

**Hours:** 24L

Explores the diverse ways of understanding and responding to the world that emerge from indigenous cultures around the world. Examines how indigenous ways of being and relating to their natural environment can help us understand and address the current environmental crisis. Using examples of indigenous activism from Canada and around the world, examines how colonial histories shape dispossession and marginalization and inform visions for the future. Topics include traditional ecological knowledge, place-based social movements, environmental concerns of indigenous peoples, bio-cultural restoration and decolonization of nature-human relations.

**Prerequisite:** 8.0 credits including one of [INS200H1](#), [INS201Y1](#), [INS250H1](#), [GGR107H1](#), [GGR124H1](#), [GGR240H1](#), [GGR246H1](#), [GGR254H1](#)

**Exclusion:** [JAG321H1](#), [GGR321H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS331H1 - Indigenous Music: Technical and Theoretical Aspects

Contemporary and historical musical theory of sacred spiritual ceremonial music and social-public performance practices of Indigenous people of North America. This course will have a participatory emphasis on the music of the Haudenosaunee (Longhouse People) of the Great Lakes.

**Prerequisite:** 8.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Exclusion:** [ABS331H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS340Y1 - Indigenous Health Science

**Hours:** 48L/48P

This course is themed in six-week quarters addressing four aspects of Western Science (basic, applied, clinical and population health). Within each quarter, the Western Science theme is examined holistically using Indigenous Science and the four aspects of the Medicine Wheel (physical, mental, emotional, spiritual).

**Prerequisite:** 8.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Exclusion:** [ABS340Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## INS341H1 - North American Indigenous Theatre

**Hours:** 24L

An introduction to the evolution of Indigenous theatre in North America, examining traditional oratory, ceremony, community responsibility, and social construct and their impact on current Indigenous theatre.

**Prerequisite:** 8.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Exclusion:** [ABS341H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS350H1 - Indigenous Health Systems

**Hours:** 24L

An overview of Indigenous health systems, internationally, nationally, provincially and locally, with a focus on Ontario. Discussion of health models and strategies, policy, legislation, jurisdictional issues, Indigenous health initiatives.

**Prerequisite:** 8.0 credits including [INS201Y1](#) or [INS200H1](#)

**Exclusion:** [ABS350H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS352H1 - Indigenous Leadership, Policy and Practices in Canada

**Hours:** 24L

A historical and contemporary overview of leadership and politics in First Nation, Inuit and Metis communities in Canada. This course will focus on pre-contact governance structures, contemporary effects of colonization, and processes and strategies for decolonization. Various policy initiatives from Indigenous organizations will be examined.

**Prerequisite:** 5.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Exclusion:** [ABS352H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS353H1 - First Nations Politics in Canada

**Hours:** 24L

This course examines recent trends in First Nations politics and their effects on the social, economic and political lives of First Nations Peoples. It provides students with an in-depth understanding of the socio-political and cultural context for First Nations societies in contemporary settings. It explores the legacies of the *Indian Act*, the tabling of the 1969 White Paper and responses to it, the emergence of current Indigenous political movements, Constitutional issues, and First Nations citizenship.

**Prerequisite:** 5.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Exclusion:** [ABS353H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS354H1 - Indigenous Governance and Self-Determination

**Hours:** 24L

This course examines the theory and practice of Indigenous governance and self-determination in Canada and abroad. It studies forms of Indigenous governance and self-determination past, present and future, with a special section on Indigenous self-government agreements in Canada.

**Prerequisite:** [INS353H1](#) or equivalent or permission of instructor

**Exclusion:** [ABS354H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS355H1 - Current Issues in Indigenous Health

**Hours:** 24L

This course will examine current views about Indigenous peoples' health. The course will focus on Indigenous peoples' perceptions of health and contemporary health systems, including policy, politics and practices.

**Prerequisite:** 8.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS360Y1 - Politics and Process of Reconciliation in Canada

This course uses relationship-building methodologies to develop skills to examine and explore the concept and processes, practice and promises of reconciliation. Through class discussion/seminars, guest speakers, and comparative readings in: Canadian and Indigenous colonial history; the findings of the Canadian Truth and Reconciliation Commission; Canadian Human Rights Tribunal Decisions; and Indigenous solidarity movements in Canada. Students will examine reconciliation and determine whether it is a different process than 'decolonization'.

**Prerequisite:** [INS201Y1](#), or permission of instructor

**Exclusion:** [ABS360Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS371H1 - Topics in Indigenous Literatures

**Hours:** 24S

This seminar provides an in-depth examination of Indigenous literatures in a comparative context. Content in any given year depends on the instructor. See Indigenous Studies website for more details.

**Prerequisite:** 8.0 credits including [INS201Y1](#)

**Exclusion:** [ABS371H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS372H1 - Special Topics in Indigenous Language

**Hours:** 36S

This seminar provides an in-depth examination of Indigenous language revitalization efforts in Canada and internationally. Content in any given year depends on the instructor. See Indigenous Studies website for more information.

**Prerequisite:** 8.0 credits including [INS201Y1](#), and [INS210Y1](#)/[INS220Y1](#)/[INS230H1](#) and [INS231H1](#))

**Exclusion:** [ABS372H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS380H1 - Special Topics in Indigenous Studies

**Hours:** 24L

This seminar provides an in-depth examination of trends and topics within Indigenous Studies. Content in any given year depends on the instructor. See Indigenous Studies website for more detail.

**Prerequisite:** 5.0 credits including [INS201Y1](#), plus 1.0 additional INS credit

## INS390H1 - Research and Ethics in Indigenous Studies

**Hours:** 24S

This course examines research approaches, strategies, methods and techniques used in Indigenous studies. It explores a range of topical issues including research ethics and protocols, intellectual property rights, research agreements and community-based research. This course includes the study of quantitative, qualitative and Indigenous methodologies. Critically examines research theories, methodologies and practices used by academic disciplines to study Indigenous peoples. Decolonized research methodologies will form a focus of this course.

**Prerequisite:** 8.0 credits including [INS201Y1](#), and at least 1.0 additional INS credit

**Exclusion:** [ABS390H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Prerequisite:** 8.0 credits including [INS201Y1](#)

**Exclusion:** [ABS398H0](#)

**Distribution Requirements:** Social Science

## INS398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Prerequisite:** 8.0 credits including [INS201Y1](#)

**Exclusion:** [ABS399Y0](#)

**Distribution Requirements:** Social Science

## INS402H1 - Traditional Indigenous Ecological Knowledge

**Hours:** 36L

An overview of the relationships between Indigenous peoples and their environments, including an exploration of cultural, historical, and contemporary aspects of Indigenous environmental philosophies; the nature, control and transmission of Traditional Ecological Knowledge (TEK), and historical uses of TEK in managing the environment.

**Prerequisite:** 10.0 credits, [INS201Y1](#), plus 2.0 additional INS credits

**Exclusion:** [ABS402H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## INS403H1 - Indigenous Peoples and the Urban Context

**Hours:** 24S

Critically examines Indigenous peoples' experiences, encounters and interactions in urban areas in Canada. This course explores the historical and contemporary conditions of Indigenous peoples, including urban governance and the development of Indigenous organizations. This course will focus on youth

perspectives and how traditions, cultures and knowledges are expressed in urban settings.

**Prerequisite:** 10.0 credits, [INS201Y1](#), plus 2.0 additional INS credits

**Exclusion:** [ABS403H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS405H1 - Indigenous Thought & Expression: Creative Non-fiction

**Hours:** 24S

An investigation of (Anishnaabe, Iroquoian, Athapaskan, Salish), examined through the study of research and writing of creative-nonfiction.

**Prerequisite:** 10.0 credits, [INS201Y1](#), plus 2.0 additional INS credits

**Exclusion:** [ABS405Y1](#); [ABS405H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## INS407H1 - Indigenous Environmental Justice

**Hours:** 36L

In this course, we will examine how Indigenous land and water governance have been impacted by colonial policies and extractive capitalist developments. We will discuss how Indigenous peoples negotiate and resist such impacts while also renewing responsibilities with land, water, and animal and plant relations. The course is primarily focused on the North American context, with many case studies taking place in Canada.

**Prerequisite:** Completion of 14.0 credits, including [INS201Y1](#), and 2.0 additional INS credits or [GGR321H1](#). Permission of the instructor is required.

**Exclusion:** [ABS407H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS410H1 - Anishinaabewin Intellectual Traditions, Narrative and Culture

**Previous Course Number:** INS404H1

**Hours:** 24S

An examination of oral narratives with an emphasis on the significance of language. This course will give students an

in-depth understanding of Anishinaabewin philosophies, teachings and values.

**Prerequisite:** 10.0 credits, including [INS201Y1](#) and at least 2.0 additional INS credits

**Exclusion:** [ABS404H1](#), [INS404H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## JIG440H1 - Indigenous Geographies

**Previous Course Number:** GGR400H1 in 20199

**Hours:** 36S

This course draws on theoretical texts of Indigeneity, with a primary focus on Indigenous spaces in the Americas. Course participants will examine how core geographic concepts such as place, territory, land, movement and the scale of the body are sites of colonial dispossession and violence, as well as sites for decolonial and liberatory thought and practice. We will primarily engage with Indigenous-led scholarship within Geography and Indigenous Studies, and creative forms of knowledge production generated across Indigenous communities.

**Prerequisite:** 10.0 credits including one of [INS200H1](#), [INS201Y1](#), [INS250H1](#), [GGR107H1](#), [GGR124H1](#), [GGR240H1](#), [GGR246H1](#), [GGR254H1](#)

**Exclusion:** [GGR400H1](#) (Special Topics in Geography I: Indigenous Geographies), offered in Fall 2019

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JFP450H1 - Indigenous Issues in Health and Healing

**Hours:** 24L

This course consists of an examination of health and healing from a holistic perspective (mental, physical, emotional, spiritual) and how colonialism, culture, and public policy have impacted the health of Indigenous peoples in the present day. This course is built around a case-based project in which students working in interdisciplinary groups take on the role of a traditional Indigenous healer, and then assess their healing strategy from a biomedical perspective.

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS460H1 - Indigenous Theory, Research and Methods

**Hours:** 36L

This course explores the basis of Indigenous knowledge and how that translates into research theory and methodology. Students will design a research project, consider Indigenous research governance and conduct an ethics review. This is a service learning course. This course is only open to students enrolled in a Specialist or Major in Indigenous Studies.

**Prerequisite:** 10.0 credits, including [INS201Y1](#) and [INS390H1](#), and 1.0 additional INS credit

**Exclusion:** [ABS460Y1](#); [ABS460H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS480H1 - Advanced Special Topics in Indigenous Studies

**Hours:** 24L

This seminar provides an advanced in-depth examination of trends and topics within Indigenous Studies. Content in any given year depends on the instructor. See Indigenous Studies website for more detail.

**Prerequisite:** 10.0 credits, including [INS201Y1](#) and at least 2.0 additional INS credits.

**Breadth Requirements:** Creative and Cultural Representations (1)

## INS491Y1 - Topics in International Indigenous Studies

**Hours:** 48S

This seminar provides an in-depth examination of Indigenous studies in international contexts. Content in any given year depends on the instructors. See Indigenous Studies website for more detail. Not eligible for CR/NCR option.

**Prerequisite:** [INS201Y1](#) and 2.0 additional INS credits

**Exclusion:** [ABS491Y1](#)

**Recommended Preparation:** [INS360Y1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS492H1 - Topics in International Indigenous Studies

**Hours:** 24S

This seminar provides an in-depth examination of Indigenous studies in international contexts. Content in any given year depends on the instructors. See Indigenous Studies website for more detail. Not eligible for CR/NCR option.

**Prerequisite:** [INS201Y1](#) and 2.0 additional INS credits

**Recommended Preparation:** [INS360Y1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## INS493H1 - Independent Experiential Studies

Students design and implement an independent experiential Indigenous studies research project in consultation with an Indigenous organization and a faculty supervisor. Students must be enrolled in a major or specialist program in Indigenous Studies, and require written permission from a faculty supervisor and the Director of Indigenous Studies. Not eligible for CR/NCR option.

**Prerequisite:** 10.0 credits and [INS390H1](#)

**Exclusion:** [ABS493H1](#)

**Distribution Requirements:** Humanities, Social Science

## INS494Y1 - Independent Experiential Studies

Students design and implement an independent experiential Indigenous studies research project in consultation with an Indigenous organization and a faculty supervisor. Students must be enrolled in a major or specialist program in Indigenous Studies, and requires written permission from a faculty supervisor and the Director of Indigenous Studies. Not eligible for CR/NCR option.

**Prerequisite:** 10.0 credits and [INS390H1](#)

**Exclusion:** [ABS494Y1](#)

**Distribution Requirements:** Humanities, Social Science

## INS495Y1 - Independent Research

Supervised independent research on a topic agreed on by the student and the supervisor before enrolment in the course. Available only when someone is willing and able to supervise. Not eligible for CR/NCR option.

**Prerequisite:** [INS201Y1](#) plus 1.0 additional INS credit

**Exclusion:** [ABS495Y1](#)

**Distribution Requirements:** Humanities, Social Science

## **INS496H1 - Independent Research**

Supervised independent research on a topic agreed on by the student and the supervisor before enrolment in the course. Available only when someone is willing and able to supervise. Not eligible for CR/NCR option.

**Prerequisite:** [INS201Y1](#) plus 1.0 additional INS credit

**Exclusion:** [ABS496H1](#)

**Distribution Requirements:** Humanities, Social Science

## **INS497H1 - Independent Research**

Supervised independent research on a topic agreed on by the student and the supervisor before enrolment in the course. Available only when someone is willing and able to supervise. Not eligible for CR/NCR option.

**Prerequisite:** [INS201Y1](#) plus 1.0 additional INS credit

**Exclusion:** [ABS497H1](#)

**Distribution Requirements:** Humanities, Social Science

## **INS498Y1 - Independent Research**

Supervised independent research on a topic agreed on by the student and the supervisor before enrolment in the course. Available only when someone is willing and able to supervise. Not eligible for CR/NCR option.

**Prerequisite:** [INS201Y1](#) plus 1.0 additional INS credit

**Exclusion:** [ABS498Y1](#)

**Distribution Requirements:** Humanities, Social Science

A. Verma, BTech, MBA, PhD\*

\* Cross-appointed

## Introduction

Since 1965, the Centre for Industrial Relations and Human Resources (CIRHR) has brought together professors from many different disciplines and departments at the University of Toronto to teach and conduct research on all aspects of work, the workplace, labour markets and labour relations. The CIRHR's graduate programs rank among the best in North America and its faculty reflects the depth, breadth and diversity of our university.

The overarching goal of the undergraduate program in Industrial Relations and Human Resources is to offer an interdisciplinary learning opportunity in which to study the 'world of work and employment' in a Canadian and global context from the perspectives of economics, history, law, management, political science, psychology and sociology. The program provides students with a theoretical background and knowledge of current

developments in the field that will serve as a basis for careers areas such as: a Human Resources Generalist, Recruitment Specialist, HR Consultant, Employment Equity Officer, Training and Development Consultant, Corporate Trainer, Policy Advisor in the Ministry of Labour, Union Representative and Labour Relations Specialist. The undergraduate program in IRHR is also a perfect platform from which to enter post-graduate programs in Industrial Relations and Human Resources, Law with a specialisation in labour and employment, as well as policy and labour studies programs.

Students are encouraged to use the resources available in both the [CIRHR Library](#) and [Career Centre](#) in order to investigate current labour market trends and career options in Industrial Relations and Human Resources. In Ontario, the [Human Resources Professionals Association \(HRPA\)](#) regulates the HR profession and issues the Certified Human Resources Professional (CHRP) designation, the national standard for excellence in human resources management. IRHR students are also encouraged to explore the services offered by HRPA. The IRHR Program Office is located in Woodsworth College and students continue to benefit from the rich academic support services and facilities available at the College.

Program Office | Woodsworth College  
119 St. George Street - Room 236 | Toronto ON M5S 1A9

## Regarding Program Enrolment

Admission to major and specialist programs will be determined by a student's mark in specific courses. These are limited enrolment programs that can only accommodate a limited number of students. Achieving the marks required does not necessarily guarantee admission to the program in any given year. Requests for admission will be considered in the first program request period only. For detailed program application instructions, please consult the [Arts & Science Program Toolkit](#). Do not change your program after Year 3 if you are required to complete your degree in four years as prerequisites and program requirements will not be waived. Due to the limited enrolment nature of this program students are strongly advised to enrol in backup programs.

## Arts & Science Internship Program

The new Arts & Science Internship Program (ASIP) stream is available to students entering their second year of study in Fall 2021 and enrolled in the Industrial Relations & Human Resources Specialist or Major.

- Enrolment is limited and requires a supplemental application. Students enrolled in the ASIP stream will be required to complete mandatory Professional Development programming plus a minimum of 12 and maximum of 20 months of paid, full-time work experience. The time to degree completion for students enrolled in ASIP will normally be 5 years. There is an additional cost to participate in the ASIP stream.
- Students will typically be admitted to the ASIP stream for the Fall term of Year 2 of study, however starting in Fall 2022, in exceptional circumstances students, including transfer students, who enrolled in an eligible program in the Summer after Year 2 can be admitted to the ASIP stream for the Fall of Year 3. Year 3 entry into the program requires prior approval of the Associate Chair, Undergraduate or their designate and the Experiential Learning & Outreach Support (ELOS) Office.
- Further details about ASIP, including eligibility requirements and application procedures, can be found [here](#). Students may also visit the [ASIP webpage](#) or contact the ELOS office at [asip@utoronto.ca](mailto:asip@utoronto.ca).

## Industrial Relations and Human Resources Programs

### Industrial Relations & Human Resources - Specialist Program (Arts Program) - ASSPE1536

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade or Variable Minimum Grade Average*

A minimum grade/minimum grade average is needed for entry, and this minimum changes each year depending on

available spaces and the number of applicants. The following courses must be completed:

#### Option 1

- ECO101H1 and ECO102H1 with a minimum combined average of 67%, or ECO105Y1 with a minimum grade of 80%
- 1.0 credit from SOC100H1/ SOC150H1/ PSY100H1 with a minimum combined average of 70%

#### Option 2

- ECO101H1 and ECO102H1 with a minimum combined average of 67%, or ECO105Y1 with a minimum grade of 80%
- 1.0 credit from 200+ level SOC courses with a minimum combined average of 73%

To ensure that students admitted to the program will be successful, students with a final grade/grade average lower than the grades listed above will not be considered for admission. Please note that obtaining this minimum grade average does not guarantee admission to the program.

#### Notes:

- Requests for admission will be considered in the first program request period only.
- Due to the limited enrolment nature of this program students are strongly advised to apply to backup programs.

#### Completion Requirements:

(10.0 credits, including 4.0 credits at the 300+ level, of which 1.0 credit must be a 400-level IRE course)

Courses taken as CR/NCR may not be used to satisfy program requirements.

1. ECO101H1 and ECO102H1, or ECO105Y1
2. 1.0 credit from SOC100H1/ SOC150H1/ PSY100H1
3. All of IRE240H1, IRE244H1, IRE260H1, IRE339H1, IRE430H1, IRE431H1
4. 1.0 credit from Group A
5. 1.0 credit from Group B
6. 0.5 credit from Group C
7. 0.5 credit from Group D
8. Additional courses (excluding those already counted) from Groups C and D for a total of 10.0 credits.

**Group A:** ECO321H1/ ECO322H1/ one of HIS262H1 or HIS264H1/ POL214H1

**Group B:** ECO220Y1/ IRE379H1/ PSY201H1/ PSY202H1/ SOC202H1

**Group C:** IRE444H1/ IRE446H1/ IRE447H1/ IRE472H1

**Group D:** GGR221H1/ HIS313H1/ INI300H1/ WRR300H1/ IRE242H1/ IRE332Y0/ IRE342H1/ IRE344H1/ IRE345H1/ IRE346H1/ IRE347H1/ IRE348H1/ IRE349H1/ IRE367H1/ IRE378H1/ IRE395H1/ IRE396H1/ IRE432Y0/ IRE493H1/ IRE494H1/ JGI216H1/ JGU216H1/ SOC207H1/ SOC366H1/ SOC367H1/ SOC439H1

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream.

Notes:

1. A maximum of 1.0 credit in IRE395H1 and IRE396H1 can count toward the IRHR specialist program.
2. ECO program students may use ECO339H1 in lieu of IRE339H1. Please contact the Program Office to have the course counted towards the IRHR program requirements.
3. Non "IRE" coded courses are offered by other departments. These courses may be available only to students who have completed specified prerequisites or who are enrolled in a program sponsored by the department offering the course. Check the Faculty of Arts and Science's timetable for details.

## Industrial Relations & Human Resources - Major (Arts Program) - ASMAJ1536

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade Average*

A minimum grade average is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

#### Option 1

- ( ECO101H1, ECO102H1)/ ECO105Y1
- 1.0 credit from SOC100H1/ SOC150H1/ PSY100H1

To ensure that students admitted to the program will be successful, students with a final grade average in these 2.0 credits lower than 65% will not be considered for

admission. Please note that obtaining this minimum grade average does not guarantee admission to the program.

#### Option 2

- ( ECO101H1, ECO102H1)/ ECO105Y1
- 1.0 credit from 200+ level SOC courses

To ensure that students admitted to the program will be successful, students with a final grade average in these 2.0 credits lower than 70% will not be considered for admission. Please note that obtaining this minimum grade average does not guarantee admission to the program.

Notes:

- Requests for admission will be considered in the first program request period only.
- Due to the limited enrolment nature of this program students are strongly advised to apply to backup programs.

### Completion Requirements:

(7.0 credits, including 2.0 credits at the 300+ level, of which one 0.5 credit must be at the 400-level)

Courses taken as CR/NCR may not be used to satisfy program requirements.

First Year:

1. ECO101H1 and ECO102H1, or ECO105Y1
2. 1.0 credit from SOC100H1/ SOC150H1/ PSY100H1

Higher Years:

3. All of IRE240H1, IRE244H1, IRE260H1, IRE430H1, IRE431H1
4. 0.5 credit in 300-level IRE course from Group A
5. Additional courses from Groups A and B for a total of 7.0 credits

**Group A:** IRE339H1/ IRE346H1/ IRE347H1/ IRE348H1/ IRE367H1/ IRE378H1/ IRE379H1

**Group B:** ECO220Y1/ GGR221H1/ HIS313H1/ INI300H1/ WRR300H1/ IRE242H1/ IRE332Y0/ IRE342H1/ IRE344H1/ IRE345H1/ IRE349H1/ IRE395H1/ IRE396H1/ IRE432Y0/ IRE444H1/ IRE446H1/ IRE447H1/ IRE472H1/ IRE493H1/ IRE494H1/ JGI216H1/ JGU216H1/ PSY201H1/ PSY202H1/ SOC202H1/ SOC207H1/ SOC366H1/ SOC367H1/ SOC439H1

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream.

**Notes:**

1. A maximum of 1.0 credit in [IRE395H1](#) and [IRE396H1](#) may count toward the Industrial Relations and Human Resources (IRHR) major program.
2. ECO program students may use [ECO339H1](#) in lieu of [IRE339H1](#). Please contact the Program Office to have the course counted towards the IRHR major program requirements.
3. Non "IRE" coded courses are offered by other departments. These courses may be available only to students who have completed specified prerequisites or who are enrolled in a program

sponsored by the department offering the course. Check the Faculty of Arts and Science's [timetable](#) for details.

Not all courses are offered every year. Please check the [timetable](#) for current course offerings and enrolment restrictions/conditions. Students without course prerequisites may be removed at any time they are discovered. Course descriptions, prerequisites, corequisites and exclusions are listed below.

## Industrial Relations and Human Resources Courses

### IRE199H1 - Why We Work: Understanding Work Through the Prism of Art & Culture

**Hours:** 24S

Why do we work? What does work mean to the average person? These questions are not as straightforward as they appear. We work for the bulk of our lives and most of our days are spent with coworkers who are neither family nor our closest friends, but we often fail to realize how self-defining work really is. This speaks to work's centrality but also to its invisibility in reflective discourse. However, through "popular" representations of work (e.g., such as in story-telling, cave drawings, hieroglyphs, music, writing, painting, television, film, video games, etc.) we can begin to better understand the meaning of work and how this has changed over time. Readings in anthropology, history, economics, sociology and employment relations plus film and art criticism will help us explore these questions from an interdisciplinary perspective; assignments will encourage students to reflect on their own experience of work. Developing strong analytical and communication skills is an important goal of the course. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

### IRE240H1 - Introduction to Employment Relations

**Hours:** 36L

An introduction to the study of the world of work and employment, the history and development of employment

relations, its central theories and concepts; the behaviours, outcomes, practices and institutions that emerge from or affect the employment relationship; contemporary issues and comparative employment relations systems.

**Prerequisite:** 4.0 credits and a minimum CGPA of 2.3  
**Exclusion:** [WDW240H1](#)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

### IRE242H1 - HRM for Industrial Relations and HR Professionals

**Hours:** 12L/24P

This course explores the relationship between human resource management, employment relations, and industrial relations. Extensive practical course work will expose students to the functions human resource professionals execute to recruit, select, compensate, train, and evaluate the performance of employees. The course prepares students for advanced HR topics in upper level IRE courses.

Note: Course will not count towards Rotman Commerce program requirements.

**Prerequisite:** Enrolment in the Industrial Relations & Human Resources program (ASMAJ1536, ASSPE1536)  
**Exclusion:** [RSM361H1](#), [RSM460H1](#)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

### IRE244H1 - Labour Relations

**Hours:** 36L

Introduction to the institutions, issues and legislation affecting the employment relationship in the public and private sectors in Canada, with emphasis on collective

bargaining. The economic and political environment, history of the labour movement, union organization, certification, contract negotiation, strikes, dispute resolution, contract administration and grievances.

**Prerequisite:** 4.0 credits and a minimum CGPA of 2.3

**Exclusion:** ECO244Y1, WDW244H1, WDW244Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE260H1 - Organizational Behaviour

**Hours:** 36L

Introduction to the nature of organizations and the behaviour of individuals and groups within organizations, including topics such as culture and diversity, reward systems, motivation, leadership, politics, communication, decision-making, conflict and group processes. Not recommended for students in Commerce programs.

**Prerequisite:** 4.0 credits and a minimum CGPA of 2.3

**Exclusion:** MGT262H1, RSM260H1, WDW260H1, WDW260Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

## IRE332Y0 - Topics in Employment Relations (Summer Abroad Program)

Topics in Employment Relations offered in an international setting. The content may vary from year to year. For more information check the Summer Abroad website.

**Exclusion:** WDW332Y0

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE339H1 - Labour Markets and Public Policy

**Hours:** 36L

This course is designed to provide students in the Employment Relations program with knowledge of how

the labour market affects the employment relationship. The basic tools of labour economics are developed and applied to various issues of organizational and government policy such as: the incentive effects of compensation arrangements, government income support programs, and minimum wage policy; the determinants of preferences for hours of work including job-sharing, overtime and retirement; the impacts of unions on compensation and productivity; public-sector employment and alternatives to the right to strike; discrimination in employment on the basis of gender and race as well as related government policies such as pay and employment equity.

Note: IRE339H1 will not count towards an ECO program.

**Prerequisite:** ECO100Y1/ECO105Y1

**Exclusion:** ECO239Y1, ECO339Y1, ECO339H1, WDW339H1, ECO261H5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE342H1 - Finance and Accounting for HR/IR Professionals

**Hours:** 24L/12T

This course introduces Employment Relations students to accounting and finance procedures and concepts used by Human Resources managers and Industrial Relations experts in organizations such as government, trade unions and companies. The course covers both managerial and financial accounting with an applied focus to the employment relations function within organizations. It is geared specifically to students who aspire to become HR/Labour Relations professionals where essential knowledge in finance and accounting is required. Note: Course will not count towards Rotman Commerce program requirements.

**Prerequisite:** 1.0 credit from

IRE240H1/IRE242H1/IRE244H1/IRE260H1

**Exclusion:** MGT201H1, RSM222H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE344H1 - Topics in Employment Relations

**Hours:** 36L

Topics vary from year to year, but the objective of the course is to discuss current employment relations issues and their economic, legal, political and social implications.

**Prerequisite:** IRE244H1, IRE260H1. Additional prerequisites depending on topic.

**Exclusion:** WDW344H1

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## IRE345H1 - Topics in Employment Relations

**Hours:** 36L

Topics vary from year to year, but the objective of the course is to discuss current employment relations issues and their economic, legal, political and social implications.

**Prerequisite:** [IRE244H1](#), [IRE260H1](#). Additional prerequisites depending on topic.

**Exclusion:** [WDW345H1](#)

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## IRE346H1 - HR Planning & Strategy

**Hours:** 36L

An understanding is developed of how essential elements of the human resource planning process support organizational goals and strategies. Topics such as environmental influences, job analysis, forecasting human resource needs and ascertaining supply, succession planning, downsizing and restructuring, mergers and acquisitions, outsourcing, and strategic international issues are examined.

**Prerequisite:** [IRE240H1](#)/[IRE244H1](#)/[IRE260H1](#)

**Exclusion:** [WDW346H1](#)

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## IRE347H1 - Training & Development

**Hours:** 36L

The role of training and development initiatives in organizations. Students acquire the knowledge and skills to conduct a training needs assessment, identify training objectives, explore strategies to increase the transfer of training, design and deliver a training activity using various training methodologies, and evaluate its effectiveness.

**Prerequisite:** [IRE260H1](#)

**Exclusion:** [WDW347H1](#)

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## IRE348H1 - Recruitment & Selection

**Hours:** 36L

The principles, legal issues, and emerging trends affecting the recruitment process and selection of staff in organizations. Development of recruitment strategies, assessment of applications for employment, interviewing candidates, and the role of testing and measurement of competencies in making hiring decisions.

**Prerequisite:** [IRE240H1](#)/[IRE244H1](#)/[IRE260H1](#)

**Exclusion:** [WDW348H1](#)

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## IRE349H1 - Topics in Employment Relations

**Hours:** 36L

Topics vary from year to year, but the objective of the course is to discuss current employment relations issues and their economic, legal, political and social implications.

**Prerequisite:** [IRE244H1](#), [IRE260H1](#). Additional prerequisites depending on topic.

**Exclusion:** [WDW349H1](#)

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## IRE367H1 - Compensation

**Hours:** 36L

The theory and process of developing and administering compensation systems. Through the core compensation principles of efficiency, equity, consistency and competitiveness we consider such topics as: job analysis, job evaluation, pay levels and structures, pay for performance, benefits, and compensating special groups of workers.

**Prerequisite:** [IRE260H1](#)/[RSM260H1](#)

**Exclusion:** [WDW367H1](#)

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## IRE378H1 - Employment Health

**Hours:** 36L

The influence of legislation, the labour market and collective bargaining on health policies and programs in

the workplace. The rights and responsibilities of employers, employees, unions and governments for the regulation and promotion of workplace health and safety; and the implications of evolving demographic, economic, and social factors.

**Prerequisite:** [IRE244H1/IRE260H1](#)

**Exclusion:** [WDW378H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE379H1 - Research & Analytics for Industrial Relations and Human Resources

**Hours:** 24L/12T

Data science is changing the way organizations make decisions. This course introduces a data analytics perspective on employment relations and human resources, including the measurement of performance metrics, analysis of organizational policies, and visualization of data. Students will develop basic data skills in the R statistical computing environment.

**Prerequisite:** [IRE240H1/IRE244H1/IRE260H1](#)

**Exclusion:** [WDW379H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE395H1 - Independent Study

Independent study under the direction of a faculty member. Open only when a faculty member is willing and available to supervise. Application form is due one week before the start of term. Consult the program website for additional information. Not eligible for CR/NCR option.

**Prerequisite:** [IRE244H1](#), [IRE260H1](#) and 1 300H level IRE course. Minimum cgpa of 2.3. Approval of the Program Coordinator.

**Exclusion:** [WDW395H1](#) Employment Relations

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE396H1 - Research Participation

Credit course for supervised participation in a faculty research project. Offered only when a faculty member is willing and available to supervise. Consult the program [website](#) for additional information. Not eligible for CR/NCR option.

**Prerequisite:** [IRE244H1](#), [IRE260H1](#) and 2 300H level IRE courses. Minimum cgpa of 2.5. Approval of the

Program Coordinator.

**Exclusion:** [WDW396H1](#) Employment Relations

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at

<https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

## IRE430H1 - Canadian Employment Law & the Non-Union Workplace

**Hours:** 24L

The course will focus on the law governing employment in a non-unionized workplace. Specifically, it will cover every phase of the employment relationship from hiring to termination and beyond and the rights and obligations of employers and employees as developed by the Courts and under employment-related statutes (namely the [Employment Standards Act, 2000](#) and the [Human Rights Code](#).) The course will also cover provisions from the [Occupational Health and Safety Act](#).

**Prerequisite:** [IRE244H1](#) and 1 300H level IRE course

**Exclusion:** [IRE430Y1](#), [WDW430Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE431H1 - Canadian Labour Law & the Unionized Workplace

**Hours:** 24L

The course will focus on the laws impacting unionized workplaces. It will cover every phase of the Ontario Labour Relations Act, 1995 (the "LRA") from union organizing, certification, negotiation and bargaining, collective agreement arbitration, retention of bargaining rights and decertification and termination of bargaining rights.

**Prerequisite:** [IRE430H1](#)

**Exclusion:** [IRE430Y1](#), [WDW430Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE432Y0 - Advanced Topics in Employment/Labour Relations (Abroad)

Advanced topics in Employment Relations offered in an international setting. The content may vary from year to year. Offered by the [Professional & International Programs Office](#).

**Prerequisite:** 13.0 credits including [IRE244H1](#), [IRE260H1](#) and two 300-level 0.5 credit IRE courses

**Exclusion:** WDW432Y0

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE444H1 - Seminar in Employment Relations

**Hours:** 24S

An advanced seminar examining contemporary issues in the employment relations and human resources field. Topics vary from year to year, but the objective of the course is to discuss current issues and their economic, legal and social implications.

**Prerequisite:** [IRE244H1](#), [IRE260H1](#) and 2 300H level IRE courses

**Exclusion:** [WDW444H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE446H1 - Working as an Internal Organizational Consultant

**Hours:** 24S

This course examines the various elements of the consulting process and the interpersonal skills required to build trust, influence others, contract with clients, and establish and maintain strong working relationships. This seminar may include a compulsory learning format component using a service-learning placement with a community-based agency or organization. Consult the current timetable for details.

**Prerequisite:** [IRE244H1](#), [IRE260H1](#) and 2 300H level IRE courses

**Exclusion:** [WDW446H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE447H1 - Contemporary Challenges Facing Today's Organizations

**Hours:** 24S

An advanced seminar exploring significant developments in organizations, and the challenges and opportunities facing professionals in the employment relations field. Emphasis is placed on developing problem solving and critical thinking skills and examining theories and concepts of employment relations.

**Prerequisite:** [IRE244H1](#), [IRE260H1](#), [IRE379H1](#)

**Exclusion:** [WDW447H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE472H1 - Negotiations

**Hours:** 24S

Resolving conflicts constructively is a challenge faced by all organizations and most individuals. This course will cover fundamentals of the negotiation process and conflict resolution. This course will apply multiple cases and simulations providing students with several opportunities to build their skills.

**Prerequisite:** [IRE244H1](#), [IRE260H1](#) and 1 300H level IRE course

**Exclusion:** [WDW372H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE473H1 - Sociology of Industrial Relations

**Hours:** 24S

This course introduces students to sociological approaches to work and industrial relations. Students are introduced to classical theories and then these perspectives are applied to analyze current labour market and employment relationships. The objective of this course is first to demonstrate how an understanding of industrial relations can be informed and enriched by classical and contemporary sociological perspectives. Second, it is to enable students to familiarise themselves with sociological perspectives so that they can compare and contrast, support or oppose, distinct approaches to industrial relations and the nature of work. This will facilitate a critical view of the theories that will be explored and applied in the course.

**Prerequisite:** [SOC101Y1](#) or equivalent and at least 1 300 IRE half-credit course

**Distribution Requirements:** Social Science

## IRE474H1 - Labour Arbitration

**Hours:** 24S

This course will focus on grievance arbitration and examine both procedural and substantive issues, including the scope of arbitration, pre-arbitration and arbitration processes and select issues in arbitration – discipline and discharge, contract interpretation, disability accommodation, privacy and discrimination.

**Prerequisite:** [IRE244H1](#) and 1 300H level IRE course

**Exclusion:** IRE1260H1

**Distribution Requirements:** Social Science

## IRE493H1 - Advanced Topics in Employment Relations

**Hours:** 24S

Advanced topics vary from year to year, but the objective of the course is to explore theories, concepts and emerging issues in Employment Relations and their impact on internal and external environments.

**Prerequisite:** [IRE244H1](#), [IRE260H1](#) and 2 300H level IRE courses

**Exclusion:** [WDW493H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## IRE494H1 - Advanced Topics in Employment Relations

**Hours:** 24S

Advanced topics vary from year to year, but the objective of the course is to explore theories, concepts and emerging issues in Employment Relations and their impact on internal and external environments.

**Prerequisite:** [IRE244H1](#), [IRE260H1](#) and 2 300H level IRE courses

**Exclusion:** [WDW494H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

# Innis College

## Faculty List

### Associate Professors, Teaching Stream

C. Messenger, MA

D.J. Roberts, PhD

A.L. Williams, PhD

## Introduction

Innis College offers courses that sustain two interdisciplinary academic programs: Urban Studies (designated URB) and Writing and Rhetoric (designated WRR). Innis College is also the home of the Cinema Studies Institute, which offers an impressive collection of courses (designated CIN) listed separately under Cinema Studies Institute. Courses for the Innis One Program have been inspired by the College's two academic programs and its special relationship with the Cinema Studies Institute.

### Innis One: The Creative City

**Innis One: The Creative City** is a first-year foundations program for students who wish to develop their creative and critical capacities by exploring the dynamism of our urban environment. Drawing from the College's two academic programs — [Urban Studies](#) and [Writing and Rhetoric](#) — and its special relationship with the Cinema Studies Institute, Innis One coaxes students to venture beyond the academy walls and engage in an imaginative, inquiry-based, and civic-minded learning experience.

In a small-class setting, students will be encouraged to bring their own experience, passions and history into relationship with the civic issues and landscapes of Toronto, thus gaining a greater appreciation of the interplay between personally driven writing, film, and urban life. Seminars featuring guest lecturers, films and special field trips offer a unique experiential learning opportunity that will also help students to develop writing, research, and analytical skills.

All first-year students in the Faculty of Arts and Science (St. George campus) are eligible for admission. Further information is available at [innis.utoronto.ca/academic-programs/one/](https://innis.utoronto.ca/academic-programs/one/).

Enquiries: Jannie Chien, Innis College Program Coordinator, Room 233E Innis College (416-946-7107), [programs.innis@utoronto.ca](mailto:programs.innis@utoronto.ca).

### Urban Studies

Urban Studies at Innis College provides students with the tools to make sense of their urban world. The Program

examines the complex and dynamic relations among institutions, people, and physical form that create, sustain, or destroy cities.

The Program is suited for those students who wish to study cities using several disciplinary approaches. It is also of interest to those students who wish to become involved in urban issues in Toronto. The Program offers an internship in the office of either a municipal politician, non-profit research group, or other government organization as part of its experiential learning program. Because urban issues are so varied, Urban Studies combines well with many other program areas. Students are advised to consult the Program Director when designing programs that meet their particular interests. The Program encourages students to take advantage of the Study Elsewhere Program at the University of Toronto to broaden their knowledge of cities.

Enquiries: Jannie Chien, Innis College Program Coordinator, Room 233E Innis College (416-946-7107), [programs.innis@utoronto.ca](mailto:programs.innis@utoronto.ca). Also see the Urban Studies website at <https://innis.utoronto.ca/urban-studies/#home>.

### Writing and Rhetoric

Innis College's **Minor Program in Writing and Rhetoric** offers a diverse array of courses that explore the worlds of oral, written, and online discourse.

Writing and rhetoric go hand in hand. In an increasingly digital world, where the variety and sheer number of texts are rapidly proliferating, the ability to produce persuasive and eloquent writing, as well as analyze and interpret texts, couldn't be more foundational. Guiding our program is the premise that students must be equipped to engage both theoretically and practically with the multimedial world of discourse.

**Rhetoric**, one of the oldest disciplines in the humanities, is fundamentally concerned with how *persuasion* circulates in society: what transpires *in* texts necessarily reflects, deflects, and impacts what happens *outside* of them. The study of rhetoric includes analyzing the circulation of influence, identities, seductions, ideologies, narratives, tropes, ideas, compromises, and effects across a wide variety of contexts: for example, digital media environments (digital rhetoric), marketing campaigns (advertising rhetoric), medical and scientific settings (rhetoric of science and technology), and the contemporary world of political activity and activism (rhetoric of social change—including feminist rhetoric, rhetoric of race, and environmental rhetoric).

**Writing**, one of the most important rhetorical skills that anyone can develop, is an invaluable craft both in academic programs and beyond the university. Rhetors—those who can adapt their language to audience and context and use language skillfully—exert a powerful influence in almost any setting. Our writing courses teach students how to write well in the modes, genres, and

styles appropriate to particular disciplinary, institutional, and creative contexts. Each course is oriented towards the specialized writing, reading, research, and editing skills involved in a specific writing genre.

Enquiries: Jannie Chien, Innis College Program Coordinator, Room 233E Innis College (416-946-7107), [programs.innis@utoronto.ca](mailto:programs.innis@utoronto.ca). Also see the Writing and Rhetoric website at <https://innis.utoronto.ca/wr/#home>.

## Innis College Programs

### Urban Studies Specialist (Arts Program) - ASSPE2207

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade Average*

A minimum grade average in required courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

#### For students with 4.0 to 8.5 credits:

2.0 credits from three of the following groups:

- 1.0 credit in Economics: [ECO101H1](#), [ECO102H1](#), [ECO105Y1](#)
- 1.0 credit in Geography: [GGR101H1](#), [GGR107H1](#), [GGR112H1](#), [GGR124H1](#)
- 1.0 credit in Political Science: [POL101H1](#), [POL106H1](#), [POL107H1](#), [POL109H1](#)
- 1.0 credit in Sociology: [SOC100H1](#), [SOC150H1](#)

#### For students with 9.0 or more credits:

[URB235H1](#) (formerly [INI235H1](#)) and [URB236H1](#) (formerly [INI236H1](#)), and:

2.0 credits from three of the following groups:

- 1.0 credit in Economics: [ECO101H1](#), [ECO102H1](#), [ECO105Y1](#)
- 1.0 credit in Geography: [GGR101H1](#), [GGR107H1](#), [GGR112H1](#), [GGR124H1](#)
- 1.0 credit in Political Science: [POL101H1](#), [POL106H1](#), [POL107H1](#), [POL109H1](#)
- 1.0 credit in Sociology: [SOC100H1](#), [SOC150H1](#)

To ensure that students admitted to the program will be successful, applicants with a combined grade average

lower than 70% in the required courses will not be considered for admission. Please note that obtaining this minimum grade average does not guarantee admission to the program.

Students are invited to inquire with the program office about possible appropriate substitutions for the courses above.

#### Completion Requirements:

(11.0 credits including at least 4.0 credits at the 300+ level, 1.0 of which must be at the 400-level)

First Year:

1. Two of the following selections:

- 1.0 credit from the following First year Economics courses: [ECO101H1](#), [ECO102H1](#), [ECO105Y1](#);
- 1.0 credit from the following First year Geography courses: [GGR101H1](#), [GGR107H1](#), [GGR112H1](#), and [GGR124H1](#);
- 1.0 credit from the following First year Political Science courses: [POL101H1](#) (formerly [POL101Y1](#)), [POL106H1](#), [POL107H1](#), [POL109H1](#);
- 1.0 credit from the following First year Sociology courses: [SOC100H1](#), [SOC150H1](#)

Higher Years:

2. [URB235H1](#) and [URB236H1](#)

3. 1.0 credit from [URB342H1](#)/ [ECO220Y1](#)/ [GGR270H1](#)/ [GGR271H1](#)/ [POL222H1](#)/ [POL232H1](#)/ [SOC202H1](#)/ [SOC252H1](#)

4. 2.0 credits in URB or JGU courses at the 300-level or above, including at least 1.0 credit at the 400-level.

5. 5.0 credits in at least three of the following groups, including at least 2.0 credits at the 300-level or above.

Urban Studies:

Any URB or JGU courses not already taken to fulfill requirement 4.

Economics:

[ECO305H1](#)/ [ECO310H1](#)/ [ECO313H1](#)/ [ECO314H1](#)/ [ECO316H1](#)/ [ECO320H1](#)/ [ECO322H1](#)/ [ECO324H1](#)/ [ECO332H1](#)/ [ECO333H1](#)/ [ECO334H1](#)/ [ECO336H1](#)/ [ECO338H1](#)/ [ECO339H1](#)/ [ECO340H1](#)/ [ECO341H1](#)/ [ECO342H1](#)/ [ECO362H1](#)/ [ECO364H1](#)/ [ECO372H1](#)/ [ECO401H1](#)/ [ECO429H1](#)/ [ECO433H1](#)/ [IRE339H1](#)

## Urban Studies Major (Arts Program) - ASMAJ2207

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade Average*

A minimum grade average in required courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

### For students with 4.0 to 8.5 credits:

2.0 credits from two of the following groups:

- 1.0 credit in Economics: ECO101H1, ECO102H1, ECO105Y1
- 1.0 credit in Geography: GGR101H1, GGR107H1, GGR112H1, GGR124H1
- 1.0 credit in Political Science: POL101H1, POL106H1, POL107H1, POL109H1
- 1.0 credit in Sociology: SOC100H1, SOC150H1

### For students with 9.0 or more credits:

URB235H1 (formerly INI235H1) and URB236H1 (formerly INI236H1), and:

2.0 credits from two of the following groups:

- 1.0 credit in Economics: ECO101H1, ECO102H1, ECO105Y1
- 1.0 credit in Geography: GGR101H1, GGR107H1, GGR112H1, GGR124H1
- 1.0 credit in Political Science: POL101H1, POL106H1, POL107H1, POL109H1
- 1.0 credit in Sociology: SOC100H1, SOC150H1

To ensure that students admitted to the program will be successful, applicants with a combined grade average lower than 70% in the required courses will not be considered for admission. Please note that obtaining this minimum grade average does not guarantee admission to the program.

Students are invited to inquire with the program office about possible appropriate substitutions for the courses above.

### Completion Requirements:

(7.0 credits including at least 2.0 credits at the 300+ level, 0.5 of which must be at the 400-level)

## First Year:

## 1. Two of the following selections:

- 1.0 credit from the following First year Economics courses: [ECO101H1](#), [ECO102H1](#), [ECO105Y1](#);
- 1.0 credit from the following First year Geography courses: [GGR101H1](#), [GGR107H1](#), [GGR112H1](#), and [GGR124H1](#);
- 1.0 credit from the following First year Political Science courses: [POL101H1](#) (formerly [POL101Y1](#)), [POL106H1](#), [POL107H1](#), [POL109H1](#);
- 1.0 credit from the following First year Sociology courses: [SOC100H1](#), [SOC150H1](#)

## Higher Years:

2. [URB235H1](#) and [URB236H1](#)

3. 1.5 credits in URB or JGU courses at the 300-level or above, including at least 0.5 credit at the 400-level.

4. 2.5 credits in at least two of the following groups, including at least 0.5 credit at the 300-level or above

## Urban Studies:

Any URB or JGU courses not already taken to fulfill requirement 3.

## Economics:

## Urban Studies Minor (Arts Program) - ASMIN2207

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade Average*

A minimum grade average in required courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

### For students with 4.0 to 8.5 credits:

1.0 credit from one of the following groups:

- Economics: [ECO101H1](#), [ECO102H1](#), [ECO105Y1](#)

- Geography: GGR101H1, GGR107H1, GGR112H1, GGR124H1
- Political Science: POL101H1, POL106H1, POL107H1, POL109H1
- Sociology: SOC100H1, SOC150H1

#### For students with 9.0 or more credits:

URB235H1 (formerly INI235H1) and URB236H1 (formerly INI236H1), and:

1.0 credit from one of the following groups:

- Economics: ECO101H1, ECO102H1, ECO105Y1
- Geography: GGR101H1, GGR107H1, GGR112H1, GGR124H1
- Political Science: POL101H1, POL106H1, POL107H1, POL109H1
- Sociology: SOC100H1, SOC150H1

To ensure that students admitted to the program will be successful, applicants with a combined grade average lower than 70% in the required courses will not be considered for admission. Please note that obtaining this minimum grade average does not guarantee admission to the program.

Students are invited to inquire with the program office about possible appropriate substitutions for the courses above.

#### Completion Requirements:

(4.0 credits, including at least 1.0 credit at the 300+ level)

First Year:

1. One of the following selections:

- 1.0 credit from the following First year Economics courses: ECO101H1, ECO102H1, ECO105Y1;
- 1.0 credit from the following First year Geography courses: GGR101H1, GGR107H1, GGR112H1, and GGR124H1;
- 1.0 credit from the following First year Political Science courses: POL101H1 (formerly POL101Y1), POL106H1, POL107H1, POL109H1;
- 1.0 credit from the following First year Sociology courses: SOC100H1, SOC150H1
- 

Higher Years:

2. URB235H1 and URB236H1

3. 0.5 credit in URB or JGU courses at the 300-level or above.

4. 1.5 credits in at least two of the following groups, including at least 0.5 credit at the 300-level or above.

Urban Studies:

## Writing and Rhetoric Minor (Arts Program) - ASMIN2137

For program information, visit the Writing and Rhetoric website: <https://innis.utoronto.ca/wr/#home>. You may also contact the Writing and Rhetoric Program Coordinator, Room 233E, 2 Sussex Avenue, Innis College (416-946-7107), [programs.innis@utoronto.ca](mailto:programs.innis@utoronto.ca)

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits, including 1.0 credit at the 300/400-level.)

- 2.5 credits in WRR or JWE courses
- 1.5 credits from the following courses not already used to fulfill requirement 1. Courses outside these lists, which include WRR topics and independent study courses, may be included as designated by the Program Director.

#### *Critical Analysis and Reasoning:*

WRR204H1/ WRR304H1/ WRR308H1/ WRR310H1/  
WRR316H1/ WRR409H1/ WRR410H1/ LIN481H1/  
PHL275H1/ POL475Y1/ PSY370H1/ TRN190Y1/  
TRN200Y1

#### *Workplace Writing and Media:*

WRR104H1/ WRR300H1/ WRR301H1/ WRR302H1/

PHL295H1/ SMC219Y1/ SMC228H1/ SMC229H1/  
SMC291H1/ BMS300H1/ CDN221H1

#### *Language and Rhetoric:*

ANT253H1/ ANT329H1/ ENG100H1/ ENG110Y1/  
ENG205H1/ ENG285H1/ ENG385H1/ WRR103H1/  
WRR201H1/ WRR203H1/ WRR211H1/ WRR303H1/  
WRR305H1/ WRR311Y1/ WRR413H1/ WRR414H1/  
JAL328H1/ JAL355H1/ JWE206H1/ LIN200H1/  
LIN201H1/ LIN203H1/ LIN204H1/ CRE279H1/  
REN345H1/ CRE350Y1

### Notes:

- No more than a 0.5 credit in transfer credit may be counted towards the program.
- Effective Fall 2021, courses associated with Innis College's Writing and Rhetoric program will have the new "WRR" designator. Joint JEI courses will also see their designator changed to "JWE."
- Effective Fall 2021, courses associated with Victoria College's Creative Expression and Society, and Renaissance Studies programs will have the new "CRE" and "REN" designators respectively. In addition, active courses associated with St. Michael's College's Book and Media Studies program will have the new "BMS" designator.

## Regarding Innis College Courses

### Note

Courses are listed in this order:

- First-Year Foundations Seminars
- Innis One
- Urban Studies
- Writing and Rhetoric
- Other Innis College courses

For Cinema Studies Courses, see [Cinema Studies Institute](#).

## Innis College Courses

### Innis College First-Year Foundations

#### INI196H1 - Environmental Writing

**Hours:** 24L

From environmental disasters and ecological collapse to climate change denial and celebrations of nature and wilderness, we will explore the diverse ways humans imagine and write about the natural world and the consequences of such writing. We will study a variety of nonfiction texts, images, and videos about ecology, the environment, nature, wilderness, and sustainability as we consider what these terms mean. From the 19th century American transcendentalists to 20th century ecologists, and 21st century scientific, Indigenous, feminist, and anti-racist perspectives, we will analyze the many ways that humans use writing to argue for certain ways of seeing and interacting with our planet and the creatures that inhabit it. Through weekly reading, written reflections, and discussion, students will hone their deep reading, research, and writing skills. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### Innis One Courses

#### INI100H1 - The City Where Movies Are Made

**Hours:** 36S

In this course, first-year students will be introduced to film culture in Toronto from a variety of angles, including: a history of the city onscreen (both as itself and as a popular shooting location for American productions); an account of major Toronto filmmaking sites and institutions; introductions to local directors and producers; and overviews of contemporary local film festival culture (TIFF and beyond) as well as the city's film-critical community. Through a combination of lectures, screenings, field trips and special guest speakers, the students will be moved to consider both the vitality of Toronto's film scene as well as its connections to other aspects of the city. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Munk One, New One, St. Mike's One, Trinity One, Vic One, UC One, Woodsworth One

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

#### INI101H1 - Blogging the Just City

**Hours:** 36S

An introduction to the concept of the city as a creative environment promoting not only growth and wealth but also social justice, equality, cooperation, and civility. Students will learn to build their own blog to help them to observe, interpret, and reflect upon the process of urban interaction and the relationship between creativity and justice. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Munk One, New One, St. Mike's One, Trinity One, Vic One, UC One, Woodsworth One

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

#### INI102H1 - Telling the Stories of the City: Writing Creative Non-Fiction

**Hours:** 36S

An introduction to creative writing techniques and the personal essay form through which students will explore and develop their conscious connection to the natural-urban landscape. The course will include activities such as field trips, readings, interviews, and journaling to generate the material for personal essays on engagement with nature in the city. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Munk One, New One, St. Mike's One, Trinity One, Vic One, UC One, Woodsworth One

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

#### INI106H1 - Writing Literary Journalism: Telling the Stories of the City

**Hours:** 36S

An introduction to literary journalism, in which students study the craft of storytelling along with interviewing, reporting, and the journalist's ethical stance. Guest speakers, field trips, writing activities and course readings will help students engage deeply with their environment and develop the skills and sensitivity required for literary

reporting. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Munk One, New One, St. Mike's One, Trinity One, Vic One, UC One, Woodsworth One

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Urban Studies Courses

### JGU216H1 - Globalization and Urban Change

**Previous Course Number:** JGI216H1

**Hours:** 24L

Focusing on the impacts that global flows of ideas, culture, people, goods, and capital have on cities throughout the globe, this course explores some of the factors that differentiate the experiences of globalization and urban change in cities at different moments in history and in various geographic locations.

**Exclusion:** [JGI216H1](#)

**Recommended Preparation:** [GGR124H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### URB234H1 - Cities in Popular Culture

**Previous Course Number:** INI234H1

**Hours:** 24L

By exploring different popular culture phenomena such as the emergence of hip-hop in the Bronx, Batman's Gotham, and Nollywood, this course works to examine the contributions of popular culture in shaping our understandings of cities (as well as providing different perspectives of the city and the urban experience than is generally captured in scholarly/academic literature). Popular culture becomes a vehicle by which we will explore different aspects of urban life and urban representation.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** [INI234H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### URB235H1 - A Multidisciplinary Introduction to Urban Studies I: Theoretical Foundations of City Building

**Previous Course Number:** INI235H1

**Hours:** 24L

Focuses on the theoretical foundations of urbanization, urban change, and city building, with particular attention on global urban growth, history of contemporary urbanization, urban planning, governance, built form, and economic development. These topics are explored through a multidisciplinary lens, with an emphasis on understanding urban transitions over time and their meaning for contemporary urban experience.

**Prerequisite:** Completion of 4.0 credits, including 1.0 credit from one of the following four course groups.

Economics: [ECO101H1](#), [ECO102H1](#), [ECO105Y1](#);

Geography: [GGR101H1](#), [GGR107H1](#), [GGR112H1](#),

[GGR124H1](#); Political Science: [POL101Y1](#), [POL101H1](#),

[POL106H1](#), [POL107H1](#), [POL109H1](#), [POL214Y1](#);

Sociology: [SOC100H1](#), [SOC150H1](#).

**Exclusion:** [INI235H1](#), [INI235Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### URB236H1 - A Multidisciplinary Introduction to Urban Studies II: Urban Challenges and Theoretical Application

**Previous Course Number:** INI236H1

**Hours:** 24L

Cities are centres of innovation and creative energy, but they also face significant and pressing challenges. This course explores various urban issues including inequality, eroding infrastructure, and concerns arising from globalization, while also examining the ways in which municipal governments and urban citizens are imagining and implementing potential solutions to these challenges.

**Prerequisite:** [URB235H1](#)

**Exclusion:** [INI235Y1](#), [INI236H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### URB333H1 - Critical Approaches in Urban Studies

**Previous Course Number:** INI333H1

**Hours:** 24L

How do power and dominance consolidate in urban settings? How do individuals and communities contest this consolidation, and claim spaces and rights in the city? These questions will be taken up through a range of critical approaches, including Indigenous, critical race feminist, political economy, queer, and anarchist perspectives. Students will have the opportunity to carry out interview-based research on an issue of equality and social justice that matters to them.

**Prerequisite:** [URB235H1](#) and [URB236H1](#)

**Exclusion:** [INI333H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## URB334H1 - Urban Field Course

**Previous Course Number:** INI334H1

**Hours:** 12S

Students will have the opportunity to travel to a destination city for a week-long examination of specific social, economic, physical, and/or environmental issues. The trip will include meetings with municipal representatives and other decision-makers (public and possibly private). The findings of the trip supplemented by bibliographic research and in-class discussion will form the basis of a major research essay. Each student is required to pay the cost of transportation and accommodation. Not eligible for CR/NCR option.

**Prerequisite:** [URB235H1](#) and [URB236H1](#)

**Exclusion:** [INI334H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## URB336H1 - Creative Cities

**Previous Course Number:** INI336H1

**Hours:** 24L

A prominent thesis in the fields of planning and economic geography is that the presence of creative occupations in a city correlates positively with the overall health of urban regions. This course will investigate the nature of this link from theoretical and empirical perspectives and examine its potential usefulness in a planning/policy context.

**Exclusion:** [INI336H1](#), [INI336Y1](#)

**Recommended Preparation:**

[URB235H1](#)/[URB236H1](#)/[GGR124H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## URB337H1 - Studies in Contemporary Urban Problems

**Previous Course Number:** INI337H1

**Hours:** 24L

This course will focus on an examination of the immediate difficulties facing Toronto and by extension all Canadian cities. Instruction will consist of a combination of lectures by the instructor and by noted experts/practitioners in a range of topic areas including urban governance, finance, planning, environmental sustainability and social welfare.

**Exclusion:** [INI337H1](#)

**Recommended Preparation:** [GGR124H1](#)/ ([URB235H1](#), [URB236H1](#))

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## URB338H1 - Advanced Topics in Urban Studies I

**Previous Course Number:** INI338H1

**Hours:** 24L

This course will expose students to a range of contemporary theoretical, analytical, and policy oriented debates in Urban Studies. The emphasis will be on establishing a broad knowledge base in the multifaceted field of urban studies. The exact topics to be covered will fall broadly under the banner of urban socioeconomic change, and specific syllabi, year to year, will follow contemporary and emerging debates. This will be expanded upon in this course's 400 level counterpart.

**Exclusion:** [GGR347H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## URB339H1 - Divided City / United City

**Previous Course Number:** INI339H1

**Hours:** 24L

Focus on the impact of increased economic inequality and economic polarization trends that are reshaping Canada's metropolitan areas, changing neighbourhoods, and affecting the lives of our diverse urban population. Using the Toronto area as an example, students explore the consequences of these trends and the implications for public policy.

**Prerequisite:** Completion of 8.0 credits

**Exclusion:** [INI339H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## URB342H1 - Qualitative Research in Urban Studies

**Previous Course Number:** INI342H1

**Hours:** 24S

This course provides students an opportunity to craft and initiate an Urban Studies capstone research project. Students will gain knowledge, experience and insight in utilizing qualitative research methods including interviewing, focus groups, observational analysis and other techniques. Seminars and assignments focus on the application of qualitative methods to each student's selected urban research question.

**Prerequisite:** [URB235H1](#)

**Exclusion:** [INI342H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGU346H1 - The Urban Planning Process

**Previous Course Number:** JGI346H1

**Hours:** 24L

Overview of how planning tools and practice shape the built form of cities. This course introduces twentieth century physical planning within its historical, social, legal, and political contexts. Community and urban design issues are addressed at local and regional scales and in both central cities and suburbs. The focus is on Toronto and the Canadian experience, with comparative examples from other countries, primarily the United States. Transportation costs: \$20.

**Exclusion:** [JGI346H1](#), [GGR361H5](#)

**Recommended Preparation:** 8.0 credits including

[GGR124H1](#), [URB235H1](#), [URB236H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## URB430H1 - Advanced Topics in Urban Studies II

**Previous Course Number:** INI430H1

**Hours:** 24L

This course is meant to be a senior complement to URB338H1 whereby important theoretical, analytical and/or policy debates are addressed in a research seminar format. Students in URB430H1 will be expected to extend, or refine research topics identified and explored in URB338H1 in a major independent research project.

Students will present their proposals, their progress reports, and their final results to the instructor and the class.

**Prerequisite:** [URB235H1](#), [URB236H1](#), [URB336H1/URB338H1](#). Priority is given to students enrolled in the Urban Studies Major or Specialist Programs. However, consideration may be given to students with suitable course background as determined by the Program Director.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## URB431Y1 - Special Topics in Urban Studies

**Previous Course Number:** INI431Y1

From time to time, the Urban Studies Program organizes community outreach and information sessions. At the discretion of the Director, students may enroll in a special topics course and investigate these issues more deeply under the supervision of an agreeable faculty member. Proposals including a letter from an agreeable faculty member should be submitted to the Director by June 1 for a Fall or Year-long course, or by November 1 for a Spring course. Not eligible for CR/NCR option.

**Prerequisite:** Enrolment in a major or specialist program in Urban Studies.

**Recommended Preparation:** [URB235H1](#), [URB236H1](#), completion of research design and research methods courses, 14.0 credits in an aligned social science program.

**Distribution Requirements:** Social Science

## URB432H1 - Special Topics in Urban Studies

**Previous Course Number:** INI432H1

Special topics courses are offered periodically for senior students in the Urban Studies Program. Offerings in any given year will depend on program priorities, availability of specialized expertise and funding. Not eligible for CR/NCR option.

**Prerequisite:** Enrolment in a major or specialist program in Urban Studies.

**Recommended Preparation:** [URB235H1](#) and [URB236H1](#), completion of research design and research methods courses, 14.0 credits in an aligned social science program.

**Distribution Requirements:** Social Science

## URB433H1 - Special Topics in Urban Studies

**Previous Course Number:** INI433H1

**Hours:** 24S

Special topics courses are offered periodically for senior students in the Urban Studies Program. Offerings in any given year will depend on program priorities, availability of specialized expertise and funding. Not eligible for CR/NCR option.

**Prerequisite:** Enrolment in a major or specialist program in Urban Studies.

**Recommended Preparation:** URB235H1 and URB236H1, completion of research design and research methods courses, 14.0 credits in an aligned social science program.

**Distribution Requirements:** Social Science

## URB434Y1 - Independent Research in Urban Studies

**Previous Course Number:** INI434Y1

Designed to allow strong students in the Major and Specialist programs to extend a piece of urban research under the supervision of a faculty member from any aligned department. Choice of 'H' or 'Y' session pursuant to the scope of the research envisioned, the proposed supervisor's assessment of depth of the inquiry, and the approval of the program director. Proposals, including a letter from an agreeable supervisor should be submitted to the program director by June 1 for a Fall or Year session course and by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** Completion of 14.0 credits including URB235H1 and URB236H1

**Exclusion:** INI434Y1

**Distribution Requirements:** Social Science

## URB435H1 - Independent Research in Urban Studies

**Previous Course Number:** INI435H1

Designed to allow strong students in the Major and Specialist programs to extend a piece of urban research under the supervision of a faculty member from any aligned department. Choice of 'H' or 'Y' session pursuant to the scope of the research envisioned, the proposed supervisor's assessment of depth of the inquiry, and the approval of the program director. Proposals, including a letter from an agreeable supervisor should be submitted to the program director by June 1 for a Fall or Year session

course and by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** Completion of 14.0 credits including URB235H1 and URB236H1

**Exclusion:** INI435H1

**Distribution Requirements:** Social Science

## URB436H1 - Independent Research in Urban Studies

**Previous Course Number:** INI436H1

Designed to allow strong students in the Major and Specialist programs to extend a piece of urban research under the supervision of a faculty member from any aligned department. Choice of 'H' or 'Y' session pursuant to the scope of the research envisioned, the proposed supervisor's assessment of depth of the inquiry, and the approval of the program director. Proposals, including a letter from an agreeable supervisor should be submitted to the program director by June 1 for a Fall or Year session course and by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** Completion of 14.0 credits including URB235H1 and URB236H1

**Exclusion:** INI436H1

**Distribution Requirements:** Social Science

## URB437Y1 - Urban Experiential Learning in Toronto & the GTA

**Previous Course Number:** INI437Y1

**Hours:** 72S

A method of studying city issues that combines readings, seminar discussions, and field trips with an 8 hour / week internship in the office of a municipal politician, local government, or non-profit organization. Readings focus on community development, urban planning, economic development and local governance. Students must fill out a ballot for the course (available by contacting the Urban Studies Program Office) by June 1st. Enrolment in this course is competitive and at the discretion of the Urban Studies Director and/or course instructor.

**Prerequisite:** URB235H1, URB236H1. Priority is given to students enrolled in the Urban Studies Minor, Major, or Specialist Programs. However, consideration may be given to students with suitable course background as determined by the Program Director.

**Exclusion:** INI437Y1, INI306Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## URB438H1 - Advanced Urban Research Project

**Previous Course Number:** INI438H1

**Hours:** 24S

This course will allow students to investigate an urban topic of their choice in a guided seminar environment. This course will guide students through the various steps of the research process including: proposal writing and refinement, secondary research, primary data acquisition, analysis and the production of a senior research paper. The course emphasizes the connections between the design, implementation and write-up of an in-depth research paper. Not eligible for CR/NCR option.

**Prerequisite:** [URB235H1](#) and [URB236H1](#)

**Exclusion:** [INI438H1](#), [INI438Y1](#)

**Recommended Preparation:** [URB342H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## URB439H1 - Cities and Mega-events: Place-making, Contestation and Urban Citizenship

**Previous Course Number:** INI439H1

**Hours:** 24S

Mega-events, like the Olympics, give cities the opportunity to showcase themselves to the world, but the production of television-friendly urban images do much to obscure the processes, compromises and social consequences in host cities. These events are powerful tools for city branding. They are also potential opportunities for social movements and other groups and individuals to highlight their own sets of concerns. This course will explore the challenges and opportunities that cities face in hosting such events.

**Prerequisite:** Completion of 12.0 credits

**Exclusion:** [INI439H1](#); [INI430H1](#) (Advanced Topics in Urban Studies II: Cities and Mega-Events: Conflicts and Opportunity) offered in Winter 2014; [INI332H1](#); [INI432H1](#) (Special Topics in Urban Studies: Cities and Mega-Events), offered in Fall 2016

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JGU454H1 - The Role of the Planner: Making a Difference

**Previous Course Number:** JGI454H1

**Hours:** 24L

Focuses on the role of a planning practitioner in contemporary society using a wealth of examples drawn from recent issues and debates in Canadian cities and regions. The course will walk students through the demands made of planners in terms of both technical expertise as well as political necessity and ask them to think actively about how to prepare for the extraordinary growth of cities during the next century. Examples of issues that will be discussed in some detail include the myths surrounding the city vs. the suburbs, the creativity and passion involved in planning work and the need to see Toronto's future from a regional perspective.

**Prerequisite:** 14.5 credits, 5.0 of which must be GGR/URB

**Exclusion:** [JGI454H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## Writing and Rhetoric Courses

### WRR103H1 - Writing Essays

**Previous Course Number:** INI103H1

**Hours:** 24L/12T

A course on essay writing designed to equip students with the skills required to write on different subjects and in a variety of different genres (including critical analysis, the narrative essay, and argumentative writing). By unpacking the stages of the writing process, this course helps students develop research, critical reading, planning, organization, writing, editing, and proofreading skills.

**Exclusion:** [INI103H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### WRR104H1 - Writing Reports

**Previous Course Number:** INI104H1

**Hours:** 36S

An examination into the practical and theoretical aspects of writing reports. This writing intensive course introduces the fundamentals of report writing within an interdisciplinary context and focuses on improving writing skills appropriate to report writing genres. This course provides students the opportunity to prepare abstracts, literature reviews, qualitative and quantitative research, a formal report and a poster presentation at the end of the term. Focus will be on purpose, audience, structure, style, persuasive strategies and visual rhetoric (tables, charts, graphs) and research methods.

**Exclusion:** [INI104H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## WRR201H1 - Theories of Rhetoric: A Brief History of Persuasion

**Previous Course Number:** INI201H1

**Hours:** 36S

The history of rhetoric, the philosophical art of persuasion, is a complex one bound up with the histories of philosophy, literature, and religion, the rise and fall of empires, and the emergence of modern science and media technology. We will examine the development of rhetoric over time, from the roots of the discipline in classical antiquity to the genesis of modern and postmodern rhetoric, including the New Rhetoric. We will then focus on contemporary rhetorical currents in language philosophy, gender studies, critical race studies, and affect theory.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** [INI201H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## WRR203H1 - Foundations of Written Discourse

**Previous Course Number:** INI203H1

**Hours:** 36S

Designed to teach students to write persuasively and to recognize persuasive strategies at work in writing they analyze. Classical rhetorical terms, elements of style, and modes of argument are central to the course.

Assignments include a rhetorical analysis, in-class close reading exercises, and a term essay. Readings include prose from a variety of disciplines, excluding fiction and poetry. Students who enrol in the course must demonstrate competence in the English language.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** [INI203H1](#), [INI203Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## WRR204H1 - The Academic Writing Process

**Previous Course Number:** INI204H1

**Hours:** 36S

The strategy necessary to write complete pieces of non-fiction prose, especially exposition and argument. Concepts of planning and organization include: focusing, research, outlining, patterns of logical development, introduction, paragraph development, conclusion, argumentation and persuasion, documentation, and revision. Students for whom English is a second language should have an advanced level of fluency in English before enrolling.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** [INI204H1](#), [INI204Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JWE206H1 - Writing English Essays

**Previous Course Number:** JEI206H1

**Hours:** 24L/12T

This course teaches students who already write effectively how to write clear, compelling, research-informed English essays. The course aims to help students recognize the function of grammar and rhetoric, the importance of audience, and the persuasive role of style.

**Prerequisite:** Completion of 1.0 ENG credit or any 4.0 credits

**Exclusion:** [JEI206H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## WRR211H1 - Introduction to Creative Writing

**Previous Course Number:** INI211H1

**Hours:** 36S

This introductory course focuses on the process and craft of creative writing. Students will study short fiction, creative nonfiction and poetry by established writers, and learn to respond to works-in-progress by their peers. A variety of activities will help students generate, develop, and revise a portfolio of original creative work.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** [INI211H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## WRR300H1 - Strategic Writing in Business and the Professions: Theory and Practice

**Previous Course Number:** INI300H1  
**Hours:** 36S

Aims to teach students to recognize the rhetoric of the professional workplace and to communicate strategically and ethically using written and oral discourse appropriate to business, government, and not-for-profit organizations. Case study analysis using ethical reasoning models is a central component of the course.

**Prerequisite:** Completion of 4.0 credits  
**Exclusion:** [INI300H1](#), [INI302H1](#), [WRR302H1](#)  
**Distribution Requirements:** Humanities, Social Science  
**Breadth Requirements:** Creative and Cultural Representations (1)

## WRR301H1 - Contemporary Issues and Written Discourse: Rhetoric and the Print Media

**Previous Course Number:** INI301H1  
**Hours:** 36S

Examines how the language and rhetoric of print media shape social issues. Rhetorical strategies at work in the media reporting of such controversial issues as international crises and military actions are examined. The construction of the columnists persona and the role of editorials are also examined.

**Prerequisite:** Completion of 4.0 credits  
**Exclusion:** [INI301H1](#)  
**Distribution Requirements:** Humanities, Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## WRR302H1 - Writing in Business and the Professions for Rotman Commerce Students

**Previous Course Number:** INI302H1  
**Hours:** 24L/12T

Designed for and restricted to undergraduates in Rotman Commerce. Assignments and course aims reflect the learning goals of the Rotman Commerce program. This course focuses on critical thinking, ethical reasoning, and the rhetoric of the world of business. The theory and

practice of written and oral communication are also central. Case study analysis using ethical reasoning models is a central pedagogical tool.

**Prerequisite:** Completion of 4.0 credits  
**Exclusion:** [INI300H1](#), [INI302H1](#), [WRR300H1](#)  
**Distribution Requirements:** Humanities, Social Science  
**Breadth Requirements:** Creative and Cultural Representations (1)

## WRR303H1 - Digital Rhetoric

**Previous Course Number:** INI303H1  
**Hours:** 36S

Examines the profound impact of digital media on contemporary culture and discourse. Students will explore recent currents in rhetoric and digital media. Students will investigate the rhetorical operation of digital media in domains ranging from academia to politics to popular culture. The class will analyze the role of rhetorical principles, such as persuasion and identification, in a diverse array of online discourse such as discussion forums, social media, and the blogosphere.

**Prerequisite:** Completion of 4.0 credits  
**Exclusion:** [INI303H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## WRR304H1 - The Illusion and Reality of Evidence

**Previous Course Number:** INI304H1  
**Hours:** 24L

This seminar in critical reading, analysis, and writing focuses on the nature, the evaluation, and the use and abuse of evidence in the process of formulating and supporting an argument. The case study method will be employed to assess the level of authority, credibility, and objectivity evident in public discourse, official sources, and academic inquiry.

**Prerequisite:** Completion of 4.0 credits, including 0.5 credit of WRR/JWE courses.  
**Exclusion:** [INI304H1](#)  
**Distribution Requirements:** Humanities, Social Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## WRR305H1 - Word and Image in Modern Writing

**Previous Course Number:** INI305H1

**Hours:** 36S

The rhetorical term Ekphrasis, which refers to writing that is about visual art, is central in the examination of the persuasive power of the conversation or discourse that is produced when the written word attempts the evocation of visual images. Course readings will include ekphrastic texts drawn from several disciplines and genres: journalism, informal essays, poetry, and scholarly writing.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** INI305H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## WRR308H1 - Selected Topics in Writing and Rhetoric

**Previous Course Number:** INI308H1

**Hours:** 24S

Courses on selected topics in Writing and Rhetoric.

**Prerequisite:** Completion of 4.0 credits

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## WRR310H1 - Stylistic Editing and Copy Editing

**Previous Course Number:** INI310H1

**Hours:** 36S

This course introduces students to professional editorial conventions at two later stages of the editorial process. Both stages require analytical skills and sentence expertise. Through stylistic editing, students learn how to improve a writer's literary style; through copy editing, they learn how to ensure both accuracy and consistency (editorial style).

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** INI310H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## WRR311Y1 - Seminar in Creative Writing

**Previous Course Number:** INI311Y1

**Hours:** 72S

This workshop course examines methodological approaches to literary fiction from the perspective of the creator. Through course readings, discussion, and creative writing assignments, student writers will learn how prose writers combine stylistic techniques, point-of-view, setting, character, scenes, and structure to produce literary effects.

**Prerequisite:** Completion of 4.0 credits.

**Exclusion:** INI311Y1

**Recommended Preparation:** Experience or strong interest in writing fiction.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## WRR312H1 - Writing Literary Journalism

**Hours:** 36L

This course introduces students to works by some of the most influential literary journalists of the twentieth and twenty-first centuries. Classes will be devoted to individual literary-journalistic genres: the personal essay, the profile, the polemic, the memoir, literary reportage, and cultural criticism. Students will look closely at key writers who worked across these genres: George Orwell, James Baldwin, Joan Didion, Joyce Carol Oates. Over the semester, students will develop and write a feature-length work of literary journalism in a genre of their choice, to be refined through peer workshop and instructor feedback.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** INI308H1 (Selected Topics in Writing and Rhetoric: Writing Literary Journalism), offered in Summer 2021

**Recommended Preparation:** Experience or strong interest in writing journalism.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## WRR316H1 - Developmental and Substantive Editing

**Previous Course Number:** INI316H1

**Hours:** 36S

This course introduces professional editorial conventions at two early stages of the editorial process. Both stages require editors to think critically and creatively as they assess content, organization, and argument. Students learn how to analyze and evaluate these elements, envision possible improvements, and explain these suggestions persuasively.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** [INI316H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## WRR405Y1 - Independent Studies in Writing and Rhetoric

**Previous Course Number:** INI405Y1

Independent research projects devised by students and supervised by the Writing and Rhetoric staff. Open only to students who are completing the Minor Program in Writing and Rhetoric Program. Applications should be submitted to the Program Director by June 1 for a Fall session course or by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Program Director.

**Exclusion:** [INI405Y1](#)

**Distribution Requirements:** Humanities, Social Science

## WRR406H1 - Independent Studies in Writing and Rhetoric

**Previous Course Number:** INI406H1

Independent research projects devised by students and supervised by the Writing and Rhetoric staff. Open only to students who are completing the Minor Program in Writing and Rhetoric Program. Applications should be submitted to the Program Director by June 1 for a Fall session course or by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Program Director.

**Exclusion:** [INI406H1](#)

**Distribution Requirements:** Humanities, Social Science

## WRR407H1 - Independent Studies in Writing and Rhetoric

**Previous Course Number:** INI407H1

Independent research projects devised by students and supervised by the Writing and Rhetoric staff. Open only to students who are completing the Minor Program in Writing and Rhetoric Program. Applications should be submitted to the Program Director by June 1 for a Fall session course or by November 1 for a Spring session course. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Program Director.

**Exclusion:** [INI407H1](#)

**Distribution Requirements:** Humanities, Social Science

## WRR408Y1 - Special Topics in Writing and Rhetoric

**Previous Course Number:** INI408Y1

Seminars in special topics designed for students who are completing the Minor Program in Writing and Rhetoric.

**Prerequisite:** Permission of instructor.

**Distribution Requirements:** Humanities, Social Science

## WRR409H1 - Special Topics in Writing and Rhetoric

**Previous Course Number:** INI409H1

**Hours:** 36S

Seminars in special topics designed for students who are completing the Minor Program in Writing and Rhetoric.

**Prerequisite:** Completion of 9.0 credits

**Distribution Requirements:** Humanities, Social Science

## WRR410H1 - Special Topics in Writing and Rhetoric

**Previous Course Number:** INI410H1

**Hours:** 36S

Seminars in special topics designed for students who are completing the Minor Program in Writing and Rhetoric.

**Prerequisite:** Completion of 4.0 credits

**Distribution Requirements:** Humanities, Social Science

## WRR413H1 - Visual Rhetoric of the Aesthetic Movement

**Previous Course Number:** INI413H1

**Hours:** 36L

Explores the role of writing and rhetoric in the shaping of material culture and public taste in Victorian illustrated magazines and newspapers in the Aesthetic period (1860-1900). The Great Exhibition of 1851 will provide the context for this study of texts and *objects*, including the decorative arts.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** INI413H1

**Recommended Preparation:** WRR103H1/ WRR203H1/ WRR204H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## WRR414H1 - Writing for Social Change

**Previous Course Number:** INI414H1

**Hours:** 36S

We will read and write a variety of texts focused on effecting social change. Students will be encouraged to engage with different theories of social change and an array of writing genres, ranging from journalism to critical theory to fiction. Ultimately, students will focus on one or several key social issues that they wish to write about for their final project.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** INI414H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Other Innis College Courses

### INI299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

### INI399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

## INI400Y1 - Independent Research

Under the supervision of a faculty member, students explore topics of their own choice and design their own research projects for a course not otherwise available within the Faculty. The student should submit a detailed proposal and a letter of support from the supervisor by June 1 for Y and F courses and by September 1 for S courses. Not eligible for CR/NCR option.

**Prerequisite:** Normally requires completion of 15.0 credits with 3.3 CGPA and permission of the Innis College Vice-Principal.

## INI401H1 - Independent Research

Under the supervision of a faculty member, students explore topics of their own choice and design their own research projects for a course not otherwise available within the Faculty. The student should submit a detailed proposal and a letter of support from the supervisor by June 1 for Y and F courses and by September 1 for S courses. Not eligible for CR/NCR option.

**Prerequisite:** Normally requires completion of 15.0 credits with 3.3 CGPA and permission of the Innis College Vice-Principal.

## INI402H1 - Independent Research

Under the supervision of a faculty member, students explore topics of their own choice and design their own research projects for a course not otherwise available within the Faculty. The student should submit a detailed proposal and a letter of support from the supervisor by June 1 for Y and F courses and by September 1 for S courses. Not eligible for CR/NCR option.

**Prerequisite:** Normally requires completion of 15.0 credits with 3.3 CGPA and permission of the Innis College Vice-Principal.

## Faculty List

### Professors Emeriti

R. Capozzi, MA, Ph D  
 M. Ciavolella, Ph D  
 A. Franceschetti, Dott in Lett, Ph D  
 F. Guardiani, Dott in Lett, MA, Ph D (SM)  
 M. Kuitunen, Dott in Lett, MA, Phil M, Ufficiale Ord. Merit It. Rep.  
 J.A. Molinaro, MA, Ph D, FRSC  
 O.L. Pugliese, MA, Ph D (V)  
 M.W. Ukas, MA, Ph D

### Professor and Chair of the Department

N. Terpstra, MA, PhD, FRSC (V) (Interim Chair)

### Professors

S. Bancheri, MA, PhD (University of Toronto Mississauga)  
 K. Eisenbichler, MA, Ph D (V)  
 M. Lettieri, MA, Ph D (University of Toronto Mississauga)  
 F. Pierno, Dott in Lett, DEA, Doctorat  
 D. Pietropaolo, MA, Ph D (SM), Commend. Rep. It.  
 L. Somigli, Dott in Lett, Ph D

### Associate Professor

E. Brilli, Dott in Lett, Ph D (La Sapienza, Rome; EHESS, Paris)

### Assistant Professors

S. Casini, Dott in Lett, Ph D (Stranieri Siena)  
 E. Morra, Dott in Lett, MA, Ph D  
 A. Zambenedetti, Dott in Lingue e Lett Straniere, MA, Ph D

### Associate Professor Emeritus, Teaching Stream

B. Magliocchetti, MA (SM) (Retired)

### Associate Professors, Teaching Stream

M. Pasquarelli Clivio, MA, Ph D (SM)  
 M. Scarci, MA, Ph D (V)

### Senior Lecturers Emeritae

R. Longo Lavorato, MA, Ph D (SM)  
 A. Urbancic, B Ed, MA, Ph D (V)

## Introduction

To study Italian is not only to acquire a language, but also to study a rich literature and a many-sided culture which

have played an important, and sometimes dominant, role in Western civilization. For Canadians, the Italian contribution bears a special significance: the vast influx of Italians has brought changes in our way of life and a living presence to reinforce traditional Italian influences, thus enriching the meaning of the term Canadian. Italian combines well with other modern languages and literatures, and other programs such as European Studies, Literary Studies, and Mediaeval and Renaissance Studies, but is by no means restricted to these. Students may choose from Specialist, Major and Minor programs in Italian Studies. Italian courses are offered for beginners as well as for students who may have prior knowledge or instruction in Italian. Oral practice is included in all language courses. Students well qualified in the Italian language may be excused from language courses in first year (please see the Undergraduate Coordinator). 300 and 400-level courses are available to qualified third and fourth-year students and may be taken concurrently. These courses offer a wide range of options in language, literature, linguistics, culture and cinema. There are courses in Italian literature, culture and cinema that are given in English and have no language requirement. In conjunction with Woodsworth College, ITA courses may be taken in Italy at the University of Siena during July and August. A number of bursaries are available. Students may apply to take their Third Year in Italy under the Study Abroad Program in conjunction with the Centre for International Experience (<https://studentlife.utoronto.ca/department/centre-for-international-experience/>).

## Italian Programs

### Italian Specialist (Arts Program) - ASSPE2524

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(10.0 credits, including at least 1.0 credit at the 400-level)

1. The following language courses: [ITA100Y1](#), [ITA250Y1](#), [ITA350Y1](#), [ITA450H1](#)
2. An additional 1.0 ITA credit at the 200-level
3. 2.0 credits at the 300+ level in literature, including a 0.5 credit in each of the THREE periods of Italian literature:

Medieval / Renaissance: [ITA300H1](#)/[ITA311H1](#)/[ITA312H1](#)/[ITA320H1](#)/[ITA321H1](#)/[ITA332H1](#)/[ITA370H1](#)/[ITA400H1](#)/[ITA420H1](#)/[ITA455H1](#)

Baroque / Enlightenment: [ITA301H1](#)/[ITA348H1](#)/[ITA390H1](#)/[ITA420H1](#)/[ITA455H1](#)

Modern / Contemporary: [ITA301H1](#)/[ITA310H1](#)/[ITA330H1](#)/[ITA380H1](#)/[ITA381H1](#)/[ITA410H1](#)/[ITA421H1](#)/[ITA455H1](#)

4. One 0.5 credit from the following: [ITA360H1](#)/[ITA363H1](#)/[ITA364H1](#)/[ITA431H1](#)/[ITA432H1](#)/[ITA433H1](#)
5. One 0.5 credit from the following: [ITA311H1](#)/[ITA320H1](#)/[ITA321H1](#)/[ITA330H1](#)/[ITA332H1](#)/[ITA340H1](#)/[ITA341H1](#)/[ITA342H1](#)/[ITA345H1](#)/[ITA348H1](#)/[ITA370H1](#)/[ITA380H1](#)/[ITA400H1](#)/[ITA420H1](#)/[ITA441H1](#)/[ITA445H1](#)
6. 2.0 credits at the 300+ level with at least one 0.5 credit at the 400-level
7. [ITA495H1](#)

NOTE: No more than **2.0 credits** where the language of instruction is English may be counted towards the Specialist Program.

## Italian Major (Arts Program) - ASMAJ2524

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(7 full courses or their equivalent, including at least one half-course equivalent at the 400 level)

1. The following language courses: [ITA100Y1](#), [ITA250Y1](#), [ITA350Y1](#)
2. One additional 200-series ITA full course equivalent
3. One full course or equivalent at the 300+ level in literature
4. One half course from the following: [ITA360H1](#)/[ITA363H1](#)/[ITA364H1](#)/[ITA431H1](#)/[ITA432H1](#)/[ITA433H1](#)
5. One half course from the following: [ITA311H1](#)/[ITA320H1](#)/[ITA321H1](#)/[ITA330H1](#)/[ITA332H1](#)/[ITA340H1](#)/[ITA341H1](#)/[ITA342H1](#)/[ITA345H1](#)/[ITA348H1](#)/[ITA370H1](#)/[ITA380H1](#)/[ITA400H1](#)/[ITA420H1](#)/[ITA441H1](#)/[ITA445H1](#)
6. One additional 300+ series course of which at least one half course must be at the 400 level

## Italian Culture and Communication Studies Minor (Arts Program) - ASMIN1245

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

4 full courses (or equivalent) including one full course equivalent from any of the following:

[ITA340H1](#)/[ITA341H1](#)/[ITA342H1](#)/[ITA345H1](#)/[ITA441H1](#)/[ITA445H1](#) (Italian cinema courses)

[ITA360H1](#)/[ITA363H1](#)/[ITA364H1](#)/[ITA431H1](#)/[ITA432H1](#)/[ITA433H1](#) (Italian linguistics courses)

[ITA356Y0](#)/[ITA357Y0](#)/[ITA358Y0](#)/[ITA359Y0](#) (Italian culture courses)

## Italian Minor (Arts Program) - ASMIN2524

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4 full courses or their equivalent)

Any 4 ITA courses (at least one full course equivalent must be a 300/400-level literature course)

## Faculty of Arts & Science Language Citation

The Department of Italian Studies participates in the Faculty of Arts and Science's Language Citation initiative for Italian. Proficiency in Italian is an invaluable asset for those wishing to pursue a career in social work, business, applied science, government, law, medicine or education.

A knowledge of Italian complements undergraduate studies in other areas, such as music, fine art, literary studies, European history or political science, to name a few.

The Language Citation recognizes a significant level of achievement in language study with a high level of academic success. The Citation in Italian is available to students who, having completed a first year language course in Italian (ITA100Y1/ITA151Y1) (or the equivalent prerequisite training), earn a grade of at least B- in a second year language course (ITA250Y1/ITA251Y1) and in a third year language course (ITA350Y1/ITA351Y1).

Students should note that, as explained in the [About Programs of Study](#) section of this Calendar, the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

## Guidelines for students who wish to begin the study of the Italian language at the university level

ITA100Y1 - Italian Language for Beginners – An introductory course for students with no previous

## Italian Courses

### ITA100Y1 - Italian Language for Beginners

**Hours:** 72S

An introduction to the main elements of the Italian language. The development of speaking, reading, and writing skills. Introduction to Italian culture and texts.

A questionnaire on students' knowledge of and background in Italian will be administered shortly before or during the first class.

**Exclusion:** Grade 11 and/or 12 Italian (U or M level) or previous experience or instruction in Italian.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### ITA102Y0 - Practical Italian

**Hours:** 48L/24P

A course specifically designed for students who wish to take Italian as a breadth requirement. Emphasis will be

knowledge of the Italian language. Not open to students with grade 11 and/or 12 U or M Italian or with previous experience, exposure or instruction in Italian.

ITA250Y1 - Intermediate Italian – The subsequent course for students who have completed ITA100Y1 or ITA151Y1.

This course is also open to students who have completed Grade 11 and/or 12 Italian (U or M level) or with previous experience or instruction in Italian. For this group, the Department may conduct assessment to determine appropriate placement.

Self-placement is not allowed in the Department of Italian Studies. The Department reserves the right to place students in the language course appropriate to their level of language skill. In ITA100Y1 students will be asked to fill out a questionnaire on their knowledge of, past studies and background in Italian. The questionnaire will also be filled out by all other language students who do not have the proper prerequisite in all other languages. The Department may conduct assessment to determine appropriate placement.

given to basic aspects of communication in a functional context. This course cannot be used towards any Minor, Major or Specialist program in Italian. (Offered in Siena only)

**Exclusion:** 4U Italian or any previous university level Italian language course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### ITA135Y0 - Conversation and Culture: An Introduction to Italian

**Hours:** 72S

The course is designed to introduce students to Italian grammar and develop basic oral and comprehension skills. Elements of Italian culture, past and present, are also examined in the context of language and communication. To select the appropriate second-year follow-up course, students are asked to contact the Undergraduate Coordinator. (Offered in Siena only)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA196H1 - Image and Text in Medieval and Renaissance Italian Culture

Hours: 24L

The course will explore various aspects of the interaction between literature and the visual arts in Italy from the Middle Ages to the end of the Renaissance. The focus will be on the intersection between the literary and visual modes of perception in the works of representative Italian authors from the Fourteenth to the Sixteenth Centuries. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA197H1 - The Fine Art of Murder: Reading Detective Fiction

Hours: 24L

Since its inception in the Nineteenth century, detective fiction has been one of the most popular literary genres, proving adept at both entertaining and shining a critical light on social and political problems. This course will explore the many faces of detective fiction addressing questions such as: Why does crime hold such a fascination for modern audiences? What kind of pleasure do we derive from reading stories that often follow established conventions and rules? What do these novels about crime and punishment tell us about broader social and political issues? Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** VIC197H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA198H1 - Machiavelli and Machiavellianism

Hours: 24L

An examination of Machiavelli's political doctrine in *The Prince* and the development of his ideas in politics, ethics and the arts. Special attention will be paid to the enduring relevance of his legacy in the modern world. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** VIC142H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA199H1 - Italian Fascism and Global Responses: The Dark Side of Italianità

Hours: 24L

After WWI, Italian society faced a political, economic, and moral crisis that resulted in the rise of fascism. Using diverse sources (media, literary texts, movies, architecture and design), this course explores various reactions in Italy and abroad to the rise of Mussolini and the totalitarian State. Why did common people, intellectuals, politicians, and business and community leaders around the globe succumb to the seduction of fascism? How did other people denounce fascist violence? After an introduction to Italian fascism, the course will consider global reactions to Italian fascism and diverse responses in Italian communities abroad (e.g. Canada, USA, Argentina). Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ITA200H1 - Major Italian Authors in Translation: from Dante to Tasso

Hours: 24L

The course will focus on authors from the Middle Ages to the Renaissance who had a defining influence on Western literature, such as Dante, Petrarca, Boccaccio, Machiavelli, Ariosto and Tasso. This course includes a component designed to enhance students' research experience. (Given in English)

**Exclusion:** ITA300H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA201H1 - Major Italian Authors in Translation: from Marino to Calvino

Hours: 24L

The course will focus on authors from the Baroque to the Twentieth Century who had a defining influence on Western literature, such as Marino, Goldoni, Manzoni, Pirandello, Calvino. This course includes a component designed to enhance students' research experience. (Given in English)

**Exclusion:** ITA301H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA233H1 - Italian-Canadian Literature

**Hours:** 24L

The course will explore how notions of identity and (self)-representation emerge in literature by Canadian writers of Italian descent, illustrating the critical evolution of the immigrant journey from its historical experience to its current condition. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## ITA235Y0 - Conversation and Culture: Intermediate Italian Intensive Oral Practice

**Hours:** 72S

This course is designed to enhance students oral proficiency in Italian, improve listening and reading comprehension and develop a broad lexical base for more effective communicating skills. Elements of Italian culture are also examined in the context of language and communication through a series of topical readings which form the basis of discussions. (Offered in Siena only)

**Prerequisite:**

ITA100Y1/ITA101Y1/ITA102Y1/ITA135Y0/ITA151Y1/ITA152Y1 or permission of Department

**Exclusion:** ITA252Y1 (and/or higher)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA240Y1 - History of Italian Cinema

**Hours:** 48L/72P

This course surveys the history of Italian cinema and the sociopolitical circumstances surrounding the film industry, from its early days to the present, while also introducing the students to methods of analysis and research appropriate to the field. Emphasis will be placed on films from the silent era to the 1960s, and from the 1960s to the present. This course includes a component designed to introduce students to methods of scholarly research appropriate to the field.

The course is given in English and all films shown have English subtitles.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JCI250H1 - Italian Canadian Communities

**Hours:** 24S

This course examines the past and present settlement patterns of those of Italian descent in Canada, in rural areas and cities, including increasing suburbanization. Students will address issues such as work and employment and political participation. Challenges and opportunities will be examined, with respect to issues such as migration, community-building, belonging, and discrimination.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## ITA250Y1 - Intermediate Italian

**Hours:** 72S

Grammar review, readings of Italian authors and oral practice to enhance comprehension and expressive skills.

Students without the prerequisite will be asked to fill out a questionnaire on their knowledge of and background in Italian.

**Prerequisite:** ITA100Y1/ITA151Y1; Grade 11 and/or 12 Italian (U or M level), or previous experience or instruction in Italian, or permission of the Department.

**Exclusion:** ITA251Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## ITA300H1 - History of Italian Literature: Middle Ages and Renaissance

Hours: 24L

This course provides a chronological, comprehensive view of Italian literature and its major authors and trends, in their socio-historical contexts from its beginnings to the Renaissance. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Exclusion:** [ITA200H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA301H1 - History of Italian Literature: Baroque to Contemporary

Hours: 24L

This course provides a chronological, comprehensive view of Italian literature and its major authors and trends, in their socio-historical contexts from the Baroque period to the present day. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Exclusion:** [ITA201H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA310H1 - The 'Journey' in 19th Century Italian Literature

Hours: 24L

The course illustrates Italy's contribution to the history of the trope during a time when countries became increasingly interdependent and conscious of each other's cultures. Through literary and social analysis the course traces the most vital aspects of the journey motif. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA311H1 - Mediaeval Italian Literature in Translation: Dante

Hours: 24L

A study of the *Vita Nuova* and of the *Divine Comedy* within the literary and cultural contexts of the Middle Ages. This course includes a component designed to enhance students' research experience. (Given in English)

**Exclusion:** [ITA320H1/ITA321H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA312H1 - Mediaeval Italian Literature in Translation: Petrarch and Boccaccio

Hours: 24L

A study of Petrarch's *Canzoniere* and of Boccaccio's *Decameron* in relation to later Middle Ages. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA314H1 - Italian Design: Fashion, Artistry, Genius

Hours: 24S

"Made in Italy" is a global standard for creativity and excellence in fashion, architecture, and industrial design. This course will explore how art, imagination, and craft have intersected in different areas of Italian culture over time. Based on an individual instructor's area of expertise, themes explored may include studies of the Italian fashion industry, food culture, commercial art, and industrial design. Primary materials will include artworks, literary texts, material objects, and mixed media that demonstrate the importance of design culture in Italy and the impact of Italian design culture in the world. This course includes a component designed to enhance students' research experience.

**Prerequisite:** 4.0 credits

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA315H1 - Sex and Gender in Contemporary Italy

Hours: 24S

This course will focus on theoretical and cultural productions that deal with issues of sexuality and gender in (contemporary) Italy. Based on an individual instructor's area of expertise, themes explored may include feminism and women's rights, sexual liberation and LGBTQ+ rights, Queer-of-Colour critique, and other topics within the study of sexual and gender diversity. Primary materials will include manifestos, theoretical essays, novels, short stories, and films that deal with gender and sexual diversity in the Italian-speaking world and from a transnational perspective. Linguistic issues will also be discussed. This course includes a component designed to enhance students' research experience.

**Prerequisite:** 4.0 credits

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## ITA320H1 - Dante: Vita Nuova and Divina Commedia (Inferno)

Hours: 24L

Dante's poetry and great Christian epic of conversion explode with the passions of this world. This course focuses on intertextual and rhetorical strategies used to fashion the author's complex vision of contemporary society within the framework of providential history. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Exclusion:** [ITA311H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA321H1 - Dante: Divina Commedia (Purgatorio and Paradiso)

Hours: 24L

A continuation of ITA320H1, this course examines the *Purgatorio* and the *Paradiso* in the context of Dante's vision of contemporary society. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA320H1](#)

**Exclusion:** [ITA311H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA330H1 - Alessandro Manzoni and the 19th Century

Hours: 24L

Italy's foremost author's conscious attempt to write the great representative ("epic") work of the Risorgimento. This course explores Manzoni's continuing struggle to find the appropriate language, style, and genre to express his vision of history. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA332H1 - Love in the Renaissance

Hours: 24L

An exploration of the theme of love in the Renaissance and its development in a variety of literary forms. Analysis of treatises, poetry, short stories and letters with the purpose of examining intertextuality and the practice of imitation, as well as the social and political aspects of love, such as marriage, women's position in society, pornography, homosexuality and other issues. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA340H1 - Italian Neorealist Cinema

Hours: 24L/36P

The focus of this course is the films of Italian Neorealism, one of the most influential, artistic, and intellectual movements in the history of world cinema. While emphasis will be placed primarily on the work of Roberto Rossellini, Vittorio De Sica, and Luchino Visconti, the course will also offer a detailed discussion of the historical context and of the sociopolitical issues of postwar Italy. This course includes a component designed to enhance students' research experience. (Given in English)

**Recommended Preparation:** [ITA240Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA341H1 - Gender and Genre in Italian Cinema

**Hours:** 24L/36P

The course looks at Italian cinema from the perspective of gender and genre studies. While the focus will be primarily on film, the course will also engage with different media and discuss how these have informed and influenced Italian notions of masculinity and femininity throughout the Twentieth Century. The emphasis on genre will provide the structure to organize a discourse that will embrace very diverse and multifaceted texts, and will enable students to develop their analytical and critical skills in the field. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA342H1 - Popular Italian Cinema

**Hours:** 24L

This course discusses the notion of the *Popolar* as applied to Italian cinema. By focusing on the number of films that have appropriated popular international genres such as *Spaghetti Westerns*, *Horror*, and *Poliziotteschi*, this course will discuss Italian cinema in a global context, drawing parallels and comparisons with other national industries. Students will gain a broader understanding of Italian film culture, and will apply their critical and research skills to a wide range of texts. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA345H1 - Cinema of the Italian Diasporas

**Hours:** 24L/36P

This course will examine how several filmmakers of Italian descent engage with the representation of their diasporic identity. Particular emphasis will be placed on Italian-Canadian and Italian-American cinema, as well as on Italian cineastes working in Argentina, Brazil, and

Australia. The course will analyze films that span from silent to contemporary, from the formation of the stereotypical images to the re-appropriation of archetypes on the part of "ethnic" filmmakers. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA348H1 - Mass Media in Italy: The European Context

**Hours:** 24L

This course investigates Italy's pivotal role in epochal cultural changes: from manuscript to print and from print to computers. The impacts of Print Technology in the Renaissance and of Electronic Technology from Marconi onward are thoroughly analyzed. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA350Y1 - Language Practice

**Hours:** 24P/48S

For students who have completed ITA250Y1/ITA251Y1. Discussion of problems of grammar, style, and composition. Language analysis based on readings of Italian authors. One hour a week of oral practice. This course includes a component designed to enhance students' research experience.

Students without the prerequisite(s) will be asked to fill out a questionnaire on their knowledge of and background in Italian.

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Exclusion:** [ITA351Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JCI350H1 - Italian Canadian Culture and Identity

**Hours:** 24S

This course examines the contributions of Canadians of Italian descent to arts, culture, identity and heritage in Canada, with attention to the diversity of the community with respect to issues such as language, religion, gender, class, sexuality, etc. A core concept addressed by the course is immigration, whether from the experiences of migrants themselves or later generations.

**Recommended Preparation:** JCI250H1/ITA233H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## ITA356Y0 - Italian Culture from the Middle Ages to the Renaissance

**Hours:** 24L/24T

A survey of artists, writers, and thinkers from the time of Dante to the days of Leonardo. During field trips, the streets, squares, churches, and palazzi of many cities serve as living laboratories for a discussion of the topography of mediaeval and Renaissance cities. This course includes a component designed to enhance students' research experience. (Offered in Siena only.)

ITA356Y0: This course is taught in English and is open to students from other disciplines.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## ITA357Y0 - Italian Culture from the Middle Ages to the Renaissance

**Hours:** 24L/24T

A survey of artists, writers, and thinkers from the time of Dante to the days of Leonardo. During field trips, the streets, squares, churches, and palazzi of many cities serve as living laboratories for a discussion of the topography of mediaeval and Renaissance cities. This course includes a component designed to enhance students' research experience. (Offered in Siena only.)

ITA357Y0: Students who wish to petition the Department for credit towards a Specialist or Major in Italian will be required to do the readings in Italian.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## ITA358Y0 - Modern Italian Culture

**Hours:** 24L/24T

Analysis of a selection of philosophical, artistic, musical, and literary works from the age of the Baroque to the present. The main topics of discussion include: Romanticism, Italian unification, theatre, opera, Futurism, fascism, Neorealism, regional differences, and industrialization. Field trips and viewing of movies included. This course includes a component designed to enhance students' research experience. (Offered in Siena only)

ITA358Y0: This course is taught in English and is open to students from other disciplines.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## ITA359Y0 - Modern Italian Culture

**Hours:** 24L/24T

Analysis of a selection of philosophical, artistic, musical, and literary works from the age of the Baroque to the present. The main topics of discussion include: Romanticism, Italian unification, theatre, opera, Futurism, fascism, Neorealism, regional differences, and industrialization. Field trips and viewing of movies included. This course includes a component designed to enhance students' research experience. (Offered in Siena only)

ITA359Y0: Students who wish to petition the Department for credit towards a Specialist or Major in Italian will be required to do the readings in Italian.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## ITA360H1 - Italian Linguistics

**Hours:** 24L

For students having a knowledge of Italian and/or Italian dialects but no background in linguistics. Concepts of general linguistics. Italy as a linguistic entity. The structure of contemporary Italian, with special regard to its sound system and grammatical categories. This course includes a component designed to enhance students' research experience. (Given in English)

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## ITA363H1 - Italian Sociolinguistics

**Hours:** 24L

Starting with a survey of the sociolinguistic situation in Italy before Unification, this course deals with the complex relationship between regional languages and dialects on the one hand and Common Italian on the other. The recent rise of regional variants of Italian and its impact on the dialects are also discussed. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## ITA364H1 - Italian and Social Media

**Hours:** 24L

The aim of this course is to examine how media can influence the evolution of language in contemporary Italy. The first part of this course has an historical goal and will be devoted to the role played by 'traditional' media (television, radio, newspapers) in the linguistic history of Italian. The second part will be devoted to the impact that social media is having on Italian. Empirical quantitative research will be based on the most important databases for contemporary Italian.

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## ITA367H1 - Topics in Italian Linguistics

**Hours:** 2L

An open course that explores specific aspects of Italian Linguistics. This course includes a component designed to enhance students' research experience. (Given in English)

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## ITA370H1 - Power and Success in the Renaissance

**Hours:** 24L

Concepts of power and strategies for success in Renaissance texts including Machiavelli's *Il principe*, Castiglione's *Il libro del cortegiano* and Della Casa's *Galateo*. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## ITA378H1 - Topics in Italian Studies

**Hours:** 24L

An open course that explores specific aspects of Italian Studies. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA379H1 - Topics in Italian Studies

**Hours:** 24L

An open course that explores specific aspects of Italian Studies. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1/ITA252Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA380H1 - The Prose of the World: The Modern Italian Novel and the Realist Tradition

**Hours:** 24L

This course examines the development of modern Italian novel by taking as its focus the question of the relationship between narrative and the world. The course analyzes some of the major figures of Nineteenth-Century realist tradition such as Manzoni and Verga, as well as the resurgence of realist narrative in the post-World War II period with authors such as Pavese and Calvino. This

course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA390H1 - The Commedia dell'Arte

**Hours:** 24L

A study of the conventions of the Commedia dell'Arte tradition in the context of its performance history from the late Renaissance to the present. Issues examined include acting techniques, improvisation, masks and costumes, iconography and adaptation to film. This course includes a component designed to enhance students' research experience. (Given in English)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA395Y0 - Special Topics in Italian Studies

**Hours:** 48S

The area of concentration will depend upon the instructor teaching the course in any given year. (Offered only during the summer through the Summer Abroad Program.) Not available for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## ITA398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## ITA399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

## ITA400H1 - Machiavelli

**Hours:** 24S

An intensive study of Machiavelli's major works in English translation, including his political treatises (*The Prince*, excerpts from *The Discourses*), plays (*The Mandrake Root*), letters, and short story (*Belfagor*), in the context of Renaissance Florence, the history of Machiavelli criticism, and modern ethical debates. This course includes a component designed to enhance students' research experience. (Given in English)

**Prerequisite:** Completion of 10.0 credits

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA410H1 - Masterpieces of Modern Drama

**Hours:** 24L

This course will study works by the major Italian playwrights of the Twentieth Century, including two of Italy's Literature Nobel Prize winners, Luigi Pirandello and Dario Fo. Particular attention will be paid to the relationship between individual works and broader literary and cultural movements, as well as to issues regarding staging and production of the plays under discussion. The course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1](#)/[ITA251Y1](#), and at least 0.5 credit in ITA literature courses at the 300-level

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA420H1 - Spinning a Tale: The Italian Short Story from Boccaccio to Basile

Hours: 24L

The short story genre and its development from the Middle Ages to the Baroque. In addition to Boccaccio's tales, included are some of the most famous stories of Western literature, which later inspired masterpieces in all art forms, such as *Romeo and Juliet*, *Othello* and *Puss in Boots*. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#), and at least one 0.5 credit ITA literature course at the 300-level

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA421H1 - Spinning a Tale: The Italian Short Story after 1800

Hours: 24L

Focusing on short stories by some of the most important authors of the Twentieth Century, such as Pirandello and Calvino, this course will provide an introduction to the major tendencies of contemporary Italian literature. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#), and at least one 0.5 credit ITA literature course at the 300-level

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA425H1 - Special Topics in Italian Studies

Hours: 24L

A course on specific topics in Italian Studies, designed for advanced students. This course includes a component designed to enhance students' research experience. (Given in English)

**Prerequisite:** Completion of 7.0 credits

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA426H1 - Special Topics in Italian Studies

Hours: 24L

A course on specific topics in Italian Studies, designed for advanced students. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA427H1 - Special Topics in Italian Linguistics

Hours: 24L

A course on specific topics in Italian Linguistics, designed for advanced students. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA431H1 - History of Italian Language I- from Middle ages to Cinquecento

Hours: 24L

An historical overview of the Italian language from the first Medieval documents to the texts of the *Questione della Lingua*. It deals with historical grammar and the analyses of early Italian texts. An introduction to notions of linguistic statistics. Empirical quantitative methods are based on the three most important databases of old Italian: TLIO,OVI,BIZ. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#)

**Exclusion:** [ITA430H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA432H1 - History of Italian Language II- from Cinquecento to Contemporary

Hours: 24L

The evolution of the Italian Language from the *Questione della lingua* to Contemporary issues pertaining to reading of literary and non-literary documents and analyses of the social, political and economic conditions which influenced Early Modern, Modern and Contemporary Italian. Introduction to techniques pertaining to notions of linguistic statistics. Quantitative methods will be based on the three most important databases for the Early modern, Modern and Contemporary Italian: *Vocabolario della Crusca* (online), BaDIP and BIZ. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1](#)/ [ITA251Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA433H1 - Italian Language and Italian Dialects in Toronto

**Hours:** 24L

Through an historical overview of Italian immigration in Toronto, the role of Italian and Italian dialects in the city will be examined. As part of the topic studied in course, students will contribute to the website of the OIM by collecting varied forms of empirical linguistic evidence.

**Prerequisite:** [ITA250Y1](#)/[ITA251Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## ITA441H1 - Italian Cinematic Adaptation

**Hours:** 24L

An analysis of the process of adaptation in an exploration of the ideological and narratological perspectives as well as the stylistic elements of literary and cinematic discourse. Selections include novels by Verga, Tomasi di Lampedusa, Moravia, Bassani and their filmic adaptations by directors such as Visconti, De Sica, Bertolucci. This course includes a component designed to enhance students' research experience. (Given in English)

**Recommended Preparation:** One of: [ITA240Y1](#)/[ITA340H1](#)/[ITA341H1](#)/[ITA347H1](#). Knowledge of Italian recommended

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA445H1 - Literature of the Italian Diasporas

**Hours:** 24L

This course examines works by writers of Italian descent, focusing on themes linked to the second-generation experience, such as intergenerational conflict, gender relations, the return journey, and the quest for identity. The comparative approach of this investigation will bring within the same framework the diasporic literatures of Canada, the United States, Argentina, Brazil, Australia, and of other countries. (Texts available in English and in their original language). This course includes a component designed to enhance students' research experience. (Given in English)

**Recommended Preparation:** [ITA233H1](#)/[ITA345H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA450H1 - Advanced Italian

**Hours:** 36S

This advanced-level course is designed to provide students with further study of the Italian language and culture with emphasis on varied methods of expression. This course will improve students' oral and written communication skills.

**Prerequisite:** [ITA350Y1](#) /[ITA351Y1](#)

**Exclusion:** [ITA451H1](#)/[ITA452H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA453H1 - At the Movies: History and Practice of Italian Film Criticism

**Hours:** 24S

This course will provide students with a blend of history, methodology, and practice of Italian film criticism. The first module will survey the primary trends and methodological developments in the long history of Italian film criticism, from the days of silent cinema to the most recent changes caused by online platforming. The second module will offer students the opportunity to write their own criticism, and to collaborate with Italian online film magazines. Given in Italian.

**Prerequisite:** At least 1.0 credit from [ITA240Y1](#), [ITA340H1](#), [ITA341H1](#), or CIN courses, ([ITA350Y1](#)/[ITA351Y1](#))

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA455H1 - Women Writers in Italy

**Hours:** 24L

The course will focus on the writings of women in different periods of Italian history. Spanning a variety of genres, from the novel to autobiography, from poetry to essayism, the course will discuss various aspects of the debate regarding the changing roles of women in society. This course includes a component designed to enhance students' research experience.

**Prerequisite:** [ITA250Y1/ITA251Y1](#), and at least one 0.5 credit ITA literature course at the 300-level

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## ITA460Y1 - Internship in Italian

**Hours:** 48P

Opportunity to apply acquired knowledge in a work placement environment. The placement will take place in local community organizations, Private Business Associations and local media.

**Prerequisite:** [ITA350Y1/ITA351Y1/ITA352Y1](#) or [ITA371Y1](#)

**Corequisite:** Must be enrolled in 4th year. 3.0 CGPA required. Departmental interview.

**Distribution Requirements:** Humanities

## ITA489H1 - Independent Studies

An opportunity to pursue at the 400-level an independent course of study not otherwise available. A written proposal, co-signed by the instructor, must be submitted on the appropriate proposal form for approval by the Department of Italian Studies. Application deadline: April 30 for F courses, November 30 for S courses.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

## ITA490Y1 - Independent Studies

In exceptional circumstances, students may request to pursue at the 400-level an independent course of study not otherwise available. A written proposal, co-signed by

the instructor, must be submitted on the appropriate proposal form for approval by the Department of Italian Studies. Application deadline April 30.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

## ITA495H1 - Directed Research

Based on a professor's research project currently in progress, this course will enable an undergraduate student to play a useful role in the project while receiving concrete training in research. This course is mandatory for all students enrolled in the specialist's program.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

## ITA496H1 - Research Methods

This course, linked to the instructor's research project, will provide training in a variety of research methods. This course includes a component designed to enhance students' research experience.

**Prerequisite:** Permission of Department

**Distribution Requirements:** Humanities

R. Austin, PhD (ERE)  
E. Gold, BA, MA, PhD (LIN)  
S. Goldberg, MA, PhD (CJS, RLG)  
Y. Nizri, PhD (CJS, RLG)

## Introduction

The Anne Tanenbaum Centre for Jewish Studies (ATCJS) offers a unique interdisciplinary undergraduate program where students can gain foundational knowledge of Jewish Studies while pursuing their diverse academic interests by choosing from courses offered by more than 20 collaborating departments, centres, and programs at the University of Toronto.

Our program is organized around four areas of study to reflect the breadth, depth, and relevance of Jewish

Studies as an academic discipline, and builds on the expertise of our world-class faculty. The four areas of study are:

### **I. Classical Judaism**

The civilization of the people of the book has produced a rich, classical literature: the Hebrew Bible, the Dead Sea Scrolls, Hellenistic texts, as well as rabbinic literature from the earliest targumic and midrashic interpretations through the Talmuds and geonic traditions to medieval commentators on Talmudic texts. We situate these texts in their linguistic and cultural contexts, and study them with philological rigour. Our students learn to trace the development of the Jewish imagination in its interactions with surrounding cultures and to appreciate its many expressions: legal, exegetical, mythic, and mystical. Jewish civilization emerges as a highly variegated collection of phenomena and traditions.

### **II. Jewish Philosophy and Thought**

Both in the ancient world and contemporary society, many vital questions have arisen from Jewish experience and its interaction with diverse religions and philosophies. Why would the perfect, all-sufficient God care to speak to human beings? How could God's inner life be described? What is the relationship between law and ethics? What future could a particular, religious identity have in a secular democracy based on universal values? What can traditional Jewish sources contribute to contemporary feminism and what does contemporary feminism have to say about the traditionally gendered view of Jewish commandments? In addressing these questions, we teach students to engage critically with the great figures in the history of Jewish thought, from Philo to Maimonides, from Spinoza to Rosenzweig.

### **III. Jewish History and Social Sciences**

Covering the whole range of Jewish history, from ancient Israelites to modern Israel, from medieval Spain to the Holocaust and beyond, our courses explore both the ideal and material aspects of the many contexts in which Jewish civilization has survived and thrived, while offering a unique perspective on world history. Social sciences such as anthropology, political science, and sociology enrich our comprehension of today as well as yesterday by exploring phenomena such as collective memory, group identity, and inter-group conflict. Our courses give students the tools not only to understand the past but also to shape the future.

### **IV. Jewish Cultures, Languages, and Literatures**

We offer a rich variety of courses in Jewish literature, film, and theatre, as well as Yiddish and Hebrew language. How have Jews expressed their resilience and imagination under the extreme conditions of the Holocaust or within communist societies? What is the Jewish

contribution to North American popular culture? From the social lives of contemporary Russian Jews to the impact of Israeli folk dance on national identity, from experimental Jewish photography to Jewish involvement in Broadway musicals, we investigate the many ways in which Jews express their identity and creativity in cultures around the world.

These areas of study are guidelines to assist you in choosing courses and cultivating a program that is specially tailored to your academic interests. If you are driven to gain special expertise in one area, you can focus your program by taking several courses in that area, or if you interested in gaining a well-rounded understanding of Jewish Studies as a broader field, then you can choose to sample courses from all areas.

The ATCJS offers four to six "CJS" designated courses every year, including our gateway courses on Jewish Culture ([CJS201H1](#)) and Jewish Thoughts ([CJS200H1](#)), that are specialized in one of the four areas. In addition to CJS designated courses, one of the greatest assets of doing a Jewish Studies degree with the ATCJS is the flexibility to take courses from our collaborating units as part of your program; such as Sociology, Anthropology, Political Science, History, English, Classics, Environmental Studies, and more. The ATCJS release an [Undergraduate Handbook](#) every year, which is the master list of all courses from the ATCJS' collaborating units at UofT that count towards your Jewish Studies program in a given year.

All Jewish Studies programs require one of the gateway courses, [CJS200H1](#) or [CJS201H1](#). In addition, the Specialist requires 1.0 credit at the 400-level, at least 4.0 credits at the 300-level, and proficiency in Hebrew, Yiddish, Aramaic, or another Jewish language approved by the Undergraduate Director. The Major requires 0.5 credit at the 400-level, and at least 2.0 credits at the 300-level. The Minor requires at least 1.0 credit at the 300-level. All courses listed in the ATCJS' [Undergraduate Handbook](#) (which changes every academic year) count towards your Jewish Studies program requirements; including courses that do not have a "CJS" designated course code.

Your Jewish Studies degree at the ATCJS is designed to reflect your individual academic interests, while providing you with an academically rigorous education in the foundations of Jewish Studies.

For more information, we encourage students to visit our website and contact us at any time by email or phone:

## Centre for Jewish Studies Programs

### Jewish Studies Specialist (Arts Program) - ASSPE0385

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(10.0 credits, including 4.0 credits at the 300+ level, of which 1.0 credit must be at the 400-level)

1. [CJS200H1/ CJS201H1](#) (See Note)
2. 1.0 credit at the 400-level in any of the four areas of Jewish Studies (see CJS website for the list of approved and available courses: [www.cjs.utoronto.ca/undergraduate/courses](http://www.cjs.utoronto.ca/undergraduate/courses)).
3. 3.0 credits or proof of proficiency in one of the following languages: Aramaic, Hebrew, Yiddish. Other languages are accepted with special permission. Students entering the program with requisite linguistic proficiency in a Jewish language will choose any 3.0 credits in an area of concentration (see below) in addition to the regular requirements described in section 4.
4. 5.0 credits in any of the four areas of Jewish Studies.
5. Note: From section 3 and 4, at least 4.0 credits at the 300+ level.
6. [DTS300H1](#) or a 0.5 credit to satisfy the Quantitative Reasoning competency of the program, to be chosen from courses in Jewish Studies developing this competency. If none is available, a 0.5 credit from Breadth Requirement Category #5: The Physical & Mathematical Universe, or a 0.5 credit approved by the Undergraduate Director.

Note: There are no specific first-year requirements; however, first-year students are welcome to take [CJS200H1](#), [CJS201H1](#), Hebrew Language courses ([MHB155H1](#) and [MHB156H1](#)) and Yiddish ([GER260Y1](#)), which count towards the Jewish Studies Specialist.

### Jewish Studies Major (Arts Program) - ASMAJ0385

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(6.5 credits, including 2.0 credits at the 300+ level, of which a 0.5 credit must be at the 400-level)

1. [CJS200H1/ CJS201H1](#) (See Note)
2. 0.5 credit in a 400-level course in any area of Jewish Studies (see CJS website for the list of available courses for any given year: [www.cjs.utoronto.ca/undergraduate/courses](http://www.cjs.utoronto.ca/undergraduate/courses))
3. 5.0 credits in any of the four areas of Jewish Studies, with at least 2.0 credits at the 300+ level.
4. [DTS300H1](#) or a 0.5 credit to satisfy the Quantitative Reasoning competency of the program, to be chosen from courses in Jewish Studies developing this competency. If none is available, a 0.5 credit from Breadth Requirement Category #5: The Physical & Mathematical Universe, or a 0.5 credit approved by the Undergraduate Director.

Note: There are no specific first-year requirements; however, first-year students are welcome to take [CJS200H1](#), [CJS201H1](#), Hebrew Language courses ([MHB155H1](#) and [MHB156H1](#)), and Yiddish ([GER260Y1](#)), which count towards the Jewish Studies Major.

### Jewish Studies Minor (Arts Program) - ASMIN0385

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(4.0 credits, including 1.0 credit at the 300+ level)

1. [CJS200H1/ CJS201H1](#) (See Note)

2. 3.5 credits in any of the four areas of Jewish Studies, including 1.0 credit at the 300+ level (see CJS website for the list of available courses for any given year: [www.cjs.utoronto.ca/undergraduate/courses](http://www.cjs.utoronto.ca/undergraduate/courses))

## Centre for Jewish Studies Courses

### CJS200H1 - Introduction to Jewish Thought

Hours: 24L

A balanced presentation of the multifaceted approach to the discipline by treating Jewish religion and thought. The course introduces students not only to a chronological and thematic overview of the subject, but also to different methodological approaches.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### CJS201H1 - Introduction to Jewish Culture

Hours: 24S

General introduction to history, literatures and cultures of Jewish people from antiquity to contemporary. A balanced presentation of multi-disciplinary approaches and multi-methodological approaches to Jewish studies, with a special emphasis on Jewish cultural studies and Jewish secularity.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### CJS220H1 - The Holocaust in Fiction

Hours: 24S

The course examines literary works written in different languages, in ghettos and concentration camps during the Holocaust, as well as those reflecting on the genocide in its aftermath. We focus on literature as a means of engaging with the unimaginable and on the cross analysis of eye-witness and memory writing.

Note: There are no specific first-year requirements; however, first-year students are welcome to take [CJS200H1](#), [CJS201H1](#), and Hebrew Language courses ([MHB155H1](#) and [MHB156H1](#)) and Yiddish Language courses ([GER260Y1](#)), which count towards the Jewish Studies Minor.

**Recommended Preparation:** [CJS200H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### CJS230H1 - God, Nation, and Self Transformed: The Secularization of the Jewish Experience

Hours: 24S

The course provides a theoretical background to the issue of secularization and examines the diverse attempts to define on a secular basis the Jew, the Jewish nation, and the Jewish God since the breakdown of traditional Jewish society. A variety of Jewish secularisms are examined in a larger, non-Jewish context.

**Recommended Preparation:** [CJS200H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### CJS290H1 - Topics in Jewish Studies

Hours: 24L/24T

An examination of issues in Jewish Studies. Content in any given year depends on instructor.

**Distribution Requirements:** Humanities

### CJS330H1 - Who's a Jew? Theory, Myth, and Practice

Hours: 24L

This course introduces students to the host of core concepts in terms of which Jewish identity has been and continues to be defined and debated. Topics include: the difference between insiders and outsiders; collective vs individual identity; the nature of the bond between group members; identification across time, space, and disagreements; social and gendered hierarchies; joining and leaving the group; the identities of outsiders.

**Exclusion:** [CJS290H1](#) (Topics in Jewish Studies: Who is a Jew?), offered in Fall 2014 and Fall 2015

**Recommended Preparation:** [CJS200H1](#) or [CJS201H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CJS340H1 - Mizrahim in Israel: History, Politics, and Culture

**Hours:** 24L

What is the significance of the designation “Mizrahi” in Israel today? Does it refer to people who share a common geographical and ethnic origin or does it indicate a shared worldview that draws upon Middle Eastern Arabic culture? What are its relations with other terms, such as “Sephardi,” “Oriental,” or “Levantine”? What kind of political membership does it entail? Does it possess a certain cultural, religious, or political vocabulary? And, ultimately, does the diasporic concept of “Mizrahiyut” (mizrahiness) undermine national homogeneity or rather facilitate and enable its enforcement?

**Exclusion:** [CJS390H1](#) (Special Topics in Jewish Studies: Mizrahim in Israel: History, Politics, and Culture), offered in Summer 2017

**Recommended Preparation:** [CJS201H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## JGJ360H1 - Holocaust in Literature (E)

**Hours:** 24S

This course examines literary works written in different languages, in ghettos and concentration camps during the Holocaust, as well as those reflecting on the genocide in its aftermath. We focus on literature as a means of engaging with the unimaginable and on the cross analysis of eye-witness and memory writing.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** [CJS220H1](#), [GER367H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CJS383H1 - Jews and Power

**Hours:** 24L

This course will explore the relationship of Jews to political power. Among the themes to be covered are: How has the relationship of the Jewish community to political authority

changed over time? What is the Jewish conception of political authority? How did Jews protect their communal and individual rights in the absence of sovereignty? How did the dynamics of antisemitism, philosemitism, and anti-Jewish violence change over time? How did Zionism and the revival of Jewish sovereignty change the position of Jews in the political order? What are the political and moral dilemmas posed by statehood? And what are the implications of Jewish sovereignty for Jews in the Diaspora?

**Prerequisite:** [POL101Y1](#) or [CJS200H1](#) or [CJS201H1](#)

**Exclusion:** [POL383H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CJS389H1 - Jewish Secularism and Messianic Thought: From Spinoza to Derrida

**Hours:** 24S

This course examines the critical role that Messianic thought plays in the emergence of modern Jewish secular thought. A study of the secular dimension of Messianism in the writings of Jewish philosophers, from Spinoza to Derrida, leading to the larger question of its place in the project of Jewish modernity.

**Recommended Preparation:** [CJS200H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CJS390H1 - Special Topics in Jewish Studies

**Hours:** 24L

An examination of issues in Jewish Studies. Content in any given year depends on instructor.

**Prerequisite:** Completion of at least 4.0 credits.

**Distribution Requirements:** Humanities

## CJS391H1 - Special Topics in Jewish Studies

**Hours:** 24L

An examination of issues in Jewish Studies. Content in any given year depends on instructor.

**Prerequisite:** Completion of at least 4.0 credits.

**Distribution Requirements:** Humanities

## CJS392H1 - Special Topics in Jewish Studies

**Hours:** 24L

An examination of issues in Jewish Studies. Content in any given year depends on instructor.

**Prerequisite:** Completion of at least 4.0 credits.

**Distribution Requirements:** Humanities

## CJS396H1 - Independent Study

A scholarly project on an approved topic supervised by a faculty affiliated with the Centre for Jewish Studies. Not eligible for CR/NCR option.

**Prerequisite:** [CJS200H1](#) or [CJS201H1](#), and permission of the CJS Undergraduate Director

**Recommended Preparation:** At least 2.0 credits in Jewish Studies courses (this can include courses listed in the CJS Undergraduate Handbook)

**Distribution Requirements:** Humanities

## CJS400H1 - Research Seminar in Jewish Studies

**Hours:** 24S

An interdisciplinary seminar in which Jewish Studies topics are explored intensively, culminating in a major research paper by each student. Not eligible for CR/NCR option.

**Prerequisite:** [CJS200H1](#) or [CJS201H1](#); permission of the instructor/program

**Distribution Requirements:** Humanities

## CJS401H1 - Community & Identity

**Hours:** 24S

Exploration of Jewish notions of community, identity, and humanity in classic and contemporary sources as well as through experiential learning in which students are placed in internships at organizations and institutions that identify themselves as Jewish and as serving the Jewish community in the GTA. Not eligible for CR/NCR option.

**Prerequisite:** [CJS200H1](#) or [CJS201H1](#) and at least two other half-courses in Jewish Studies; permission of instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CJS401Y1 - Community & Identity

**Hours:** 48S

Exploration of Jewish notions of community, identity, and humanity in classic and contemporary sources as well as through experiential learning in which students are placed in internships at organizations and institutions that identify themselves as Jewish and as serving the Jewish community in the GTA. Not eligible for CR/NCR option.

**Prerequisite:** [CJS200Y1](#) or [CJS201Y1](#) and at least two other half-courses in Jewish Studies; permission of instructor

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CJS430H1 - Encounters between Jewish and Modern Thought

**Hours:** 24L

A detailed exploration of how Jewish thought develops in relationship to key figures or moments in modern European philosophy (e.g., Spinoza, Kant, Hegel, Kierkegaard, Marx, Nietzsche, Heidegger). The particular focus varies from year to year.

**Exclusion:** [CJS490H1](#) (Advanced Topics in Jewish Studies: Kierkegaard and Modern Jewish Philosophy), offered in Fall 2015

**Recommended Preparation:** [CJS201H1](#) or a course in either modern European philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CJS440H1 - The Arab Jew: A History of a Concept

**Hours:** 24L

This course invites students to explore the debates around the term "Arab Jews." A cultural, historical, and historiographical designation, the term encompasses a range of experiences for Arabic-speaking Jews. These Jews lived in diverse cultural worlds across the Middle

East and North Africa, where they developed deep and enduring relationships with non-Jews, and were instrumental in shaping local, regional and national cultures and politics. By engaging with the term “Arab Jews” in its various incarnations, the course offers new perspectives on questions of Zionism and nationalism, colonialism and geography, religion and secularization, as well as historiography and memory.

**Exclusion:** [CJS491H1](#) (Advanced Topics in Jewish Studies: The Arab Jew: A History of a Concept), offered in Winter 2017

**Recommended Preparation:** [CJS201H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CJS444H1 - Topics in the Study of Antisemitism

**Hours:** 24L

This seminar explores in depth one of the many theoretical or methodological issues that confront scholars of antisemitism. Possible topics include: definitions of antisemitism and their purposes; philosemitism and its conceptual and real connection with antisemitism; Jewish self-hatred; contextualist vs eternalist accounts of antisemitism; classic and contemporary theories of antisemitism.

**Recommended Preparation:** [RLG344H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CJS490H1 - Advanced Topics in Jewish Studies

**Hours:** 24S

An in-depth investigation of topics in Jewish Studies. Content in any given year depends on instructor.

**Prerequisite:** Permission of the instructor/program

**Distribution Requirements:** Humanities

## CJS491H1 - Advanced Topics in Jewish Studies

**Hours:** 24S

An in-depth investigation of topics in Jewish Studies. Content in any given year depends on instructor.

**Prerequisite:** Permission of the instructor/program

**Distribution Requirements:** Humanities

## CJS498Y1 - Independent Study

A scholarly project on an approved topic supervised by a faculty affiliated with the Centre for Jewish Studies. Not eligible for CR/NCR option.

**Prerequisite:** [CJS200H1](#) and permission of the Centre

**Recommended Preparation:** [CJS400H1](#)

**Distribution Requirements:** Humanities

## CJS499H1 - Independent Study

A scholarly project on an approved topic supervised by a faculty affiliated with the Centre for Jewish Studies. Not eligible for CR/NCR option.

**Prerequisite:** [CJS200H1](#) and permission of the Centre

**Recommended Preparation:** [CJS400H1](#)

**Distribution Requirements:** Humanities

# Laboratory Medicine and Pathobiology

## Faculty List

### Professor and Chair of the Department

R. Kandel, MD (Professor and Chair)

### Co-Associate Chairs, Undergraduate Life Science Education

J. Lee, PhD

K. Mekhail, PhD

### Professors

M. Bendeck, PhD

M. Cybulsky, MD

D.M. Irwin, PhD

M. Opas, PhD

D.M. Templeton, PhD, MD

S. Girardin, PhD

### Associate Professors

H.P. Elsholtz, PhD

J. Fish, PhD

J. Mogridge, PhD

G. Schmitt-Ulms, PhD

N. Palaniyar MSc, PhD

S. Done MA, MB, BChir, MBA, PhD, FRCPC,

FCAP, FRCPath, FCCMG

W. Lee MD, PhD, FRCPC

### Assistant Professors

A. Krizova MD, MSc, FRCPC

B. Jung PhD, FCACB

J. Herath MD, MSc, DLM, MD (Forensic), FCAP, FRCPC

K. Thu PhD

L. Fu, PhD, DABCC, FACB, FCACB

L. Kyriakopoulou PhD, FCACB, FABMG

L. Sepiashvili PhD

M. Bellis MB BCh BAO, FRCPC

R. Selvaratnam PhD, FAACC, DABCC

S. Ogawa PhD

## Introduction

The Department of Laboratory Medicine and Pathobiology provides a bridge between the basic sciences and medicine. Investigating the molecular mechanisms of disease is an important priority of the department. Faculty are concerned with the biochemical changes that may be associated with cell and tissue injury and with the etiology, pathogenesis and behaviour of disease. Research is carried out in such areas as cardiovascular disease,

immunopathobiology, neuropathology, endocrinology and metabolism, neoplasia, bone and connective tissue disease, clinical and molecular epidemiology, antibiotic resistance, and molecular pathogenesis of infectious disease.

The Pathobiology Specialist program gives students a broad understanding of contemporary medical research and basic scientific insights that have revolutionized our understanding of disease in recent years. Aspects of biochemistry, chemistry, cellular and molecular biology, and genetics are brought to bear upon human pathology. Graduates from the program will frequently pursue graduate studies in medical research and eventual research careers in academic, industrial, pharmaceutical, or governmental laboratories. A knowledge of cellular and molecular mechanisms of disease processes is also useful in a wide variety of multidisciplinary careers in government, regulatory agencies, law, and environment.

Some of the new LMP courses will not be offered until the 2022-2023 or 2023-2024 Academic Year. To help you with your academic planning, please [check our website](#) for more information about these courses.

Co-Associate Chairs, Undergraduate Life Science Education:

Dr. Karim Mekhail and Dr. Jeffrey Lee

([Imp.undergradcoordinator@utoronto.ca](mailto:Imp.undergradcoordinator@utoronto.ca))

Undergraduate Office/General inquiries:

Louella D'Cunha ([Imp.undergrad@utoronto.ca](mailto:Imp.undergrad@utoronto.ca)); Medical Sciences Building, Room 6209; 416-946-0136)

More information is available on our website:

<http://www.lmp.utoronto.ca/>

Consult the [Arts & Science Specialist Program in Pathobiology website](#) for additional contact information aimed at specific LMP courses.

## Laboratory Medicine and Pathobiology Programs

### Pathobiology Specialist (Science Program) - ASSPE2025

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

*Variable Minimum Grade or Variable Minimum Grade Average*

A minimum grade/minimum grade average in required courses or their equivalents is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

- [BIO120H1](#) and [BIO130H1](#)
- ( [CHM135H1](#) and [CHM136H1](#))/ [CHM151Y1](#)
- ( [MAT135H1](#) and [MAT136H1](#))/ [MAT137Y1](#)/[MAT157Y1](#)

The underlying numeric final mark in each of your courses required for program enrolment will be used by the relevant academic unit to determine your eligibility.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [lmp.undergrad@utoronto.ca](mailto:lmp.undergrad@utoronto.ca) and provide your student number.

Please consult the [Arts & Science Program Toolkit](#) for program enrolment information.

### Completion Requirements:

(14.0-15.5 credits, including at least 2.0 credits at the 400-level)

First Year:

- [BIO120H1](#), [BIO130H1](#)
- ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)
- ( [MAT135H1](#), [MAT136H1](#))/ [MAT137Y1](#)/[MAT157Y1](#)

First or Second Year:

- ( [PHY131H1](#), [PHY132H1](#))/ ( [PHY151H1](#), [PHY152H1](#))

## Laboratory Medicine and Pathobiology Courses

### LMP200H1 - Pathobiology of the Cell

Previous Course Number: LMP340H1

Hours: 24L/12T

Second Year:

- [BCH210H1](#)
- [BIO230H1](#)
- [BIO260H1](#)/ [HMB265H1](#)
- [CHM220H1](#)
- [CHM247H1](#)/ [CHM249H1](#)
- [PSL300H1](#), [PSL301H1](#)
- [STA288H1](#)/ [STA220H1](#)/ [BIO220H1](#)
- [LMP200H1](#)

Third Year:

- [BCH370H1](#), [BCH311H1](#)
- [LMP310H1](#), [LMP320H1](#), [LMP330H1](#)

Choose one of the options below:

- Option A: Immunology: ( [IMM340H1](#), [IMM350H1](#))/ ( [IMM341H1](#), [IMM351H1](#))
- Option B: Microbiology: ( [MGY377H1](#), [MGY378H1](#))
- Option C: Anatomy: [ANA300Y1](#)
- Option D: Metabolic and Signaling Pathways: [PSL425H1](#), and [PCL386H1](#)/ [PCL486H1](#)
- Option E: Research: [LMP305Y1](#) and one of the above four options

Fourth Year:

Students should choose four of the following 400-level courses (2.0-2.5 credits):

- [LMP405Y1](#), [LMP410H1](#), [LMP415H1](#), [LMP420H1](#), [LMP430H1](#), [LMP440H1](#), [LMP450H1](#), [LMP460H1](#)

Note: If the research course [LMP405Y1](#) is taken, an additional three 400-level courses from the list are still required (totalling 2.5 credits).

This course builds on concepts in cellular pathobiology to develop an advanced understanding of the function and dynamics of the cell in the context of health and disease. Concepts in cell injury, cell adaptation, migration, cell stress, cell survival, cell death, oxidative stress, endocytosis, ion homeostasis, protein folding, and their implications for disease are covered.

**Prerequisite:** [BIO230H1](#), [PSL300H1](#); enrolment is limited to students in the Pathobiology Specialist program

**Exclusion:** [LMP301H1](#), [LMP363H1](#), [LMP340H1](#)

**Recommended Preparation:** BCH210H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## LMP301H1 - Introduction to the Biochemistry of Human Disease

**Hours:** 24L

Introduces concepts and mechanisms of disease processes as they arise from disturbances of normal biochemical and physiological functions. The rational use of the clinical biochemistry laboratory in the diagnosis and management of disease is explained. Not intended for students in the Pathobiology Specialist program.

**Prerequisite:** BCH210H1/BCH242Y1

**Exclusion:** LMP300Y1

**Recommended Preparation:**

PSL201Y1/PSL300H1/PSL301H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP305Y1 - Pathobiology Research Analysis and Project

**Hours:** 24L/100P

This course is designed to introduce third-year students to biomedical research, and to provide them with the analytical skills required to be a successful scientist. Students will have the opportunity to carry out a full-year research project under the supervision of an LMP faculty member (6-8 hours/week in lab). A lecture component will cover laboratory practice, experimental design, basic logic/argument, statistics, data analysis and scientific communication. The fundamentals taught in these lectures will be used to critique and analyze scientific literature. This course is recommended for students with a general interest in research and especially to students who will conduct additional research projects as part of the LMP summer research program and/or the LMP405Y1 fourth-year research project course.

**Prerequisite:** STA288H1/STA220H1, BCH210H1, BIO230H1 Students are required to secure an LMP supervisor. This course is open to non-Pathobiology Specialist students, but students must carry out a research project under the supervision of an LMP faculty member.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP310H1 - Fundamentals of Pathobiology

**Hours:** 24L/12T

This course covers the major molecular mechanisms that impact human health and disease. Specifically, it is divided into three blocks that focus on the fundamentals of pathobiology in cancer, cardiovascular diseases and infection. It is intended to introduce the cellular and molecular concepts of health and disease that will be explored with more depth in fourth-year LMP courses.

**Prerequisite:** LMP200H1, BCH210H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP320H1 - Pathobiology of Stem Cells

**Hours:** 24L/12T

This course introduces stem cells and their impact on human health and disease. Stem cells are studied from the perspective of development and disease, with a focus on the nervous system, respiratory system and cancer. This course is intended to provide a foundation in the basis of stem cells in preparation for fourth-year courses.

**Prerequisite:** LMP200H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP330H1 - Genetic and Computational Modeling in Human Development and Disease

**Previous Course Number:** LMP408H1

**Hours:** 24L/12T

Introduces the use and impact of genetic model systems and organisms in exploring aspects of human reproduction, development, aging and disease. Ethical issues in animal research, genetic manipulation, and

disease modeling are highlighted. This course also introduces the bioinformatics concepts and methods used in biological data analysis.

**Prerequisite:** LMP200H1, BIO260H1/HMB265H1

**Exclusion:** LMP408H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP340H1 - Introduction to Pathobiology I

**Previous Course Number:** LMP300Y1

**Hours:** 18L/12T/6P

Concepts in pathogenesis, cell injury, adaptation and death; oxidative stress, ion channels and pumps, calcium homeostasis. Molecular basis of diseases affecting iron, blood and the cardiovascular system. The laboratory examines anatomical and histopathological specimens in cardiac disease.

**Prerequisite:** Enrolment is limited to students specializing in Pathobiology who have completed, or are completing, the first and second year requirements of the program.

**Exclusion:** LMP300Y1, LMP301H1, LMP363H1

**Recommended Preparation:** Second Year required courses for the Pathobiology Specialist Program

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP350H1 - Introduction to Pathobiology II

**Previous Course Number:** LMP300Y1

**Hours:** 24L/12T

Molecular basis of tissue repair and fibrosis, endocrine and signaling disorders, introduction to neurodegenerative diseases. Animal models and genetic basis of disease. Mechanisms infection by virus, bacteria and parasites. Topics are chosen to complement LMP340H1 and introduce areas that may be explored in more depth in 400-level LMP courses. Enrolment is limited to students specializing in Pathobiology who have completed LMP340H1.

**Prerequisite:** LMP340H1

**Exclusion:** LMP300Y1, LMP301H1, LMP363H1

**Recommended Preparation:** Second Year required courses for the Pathobiology Specialist Program

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP363H1 - Principles of Pathobiology

**Hours:** 24L

Pathological changes brought on by foreign compounds; mechanisms of pathologic, toxic and carcinogenic change.

**Prerequisite:** BIO230H1, CHM247H1/CHM249H1

**Exclusion:** LMP300Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP365H1 - Neoplasia

**Hours:** 20L/4P

A general introduction to the cellular and molecular aspects of cancer and its etiology. The laboratory component presents the range of benign and malignant tumor types at the gross and histological levels. Pathophysiology of cancer, invasion and metastases, role of the immune system.

**Corequisite:** LMP300Y1 or permission of department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

## LMP402H1 - Inflammation and Infection

**Hours:** 24L

Mechanisms that allow microbial pathogens to cause disease and the host to detect infection, mount an inflammatory response and resolve the infection. Primary research articles are discussed. Topics include commensal bacteria, bacterial toxins, pattern recognition receptors, leukocyte emigration, chemotaxis, and the role of non-coding RNAs in immunity.

**Prerequisite:** (IMM340H1, IMM350H1)/(IMM341H1, IMM351H1)/(MGY377H1, MGY378H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP405Y1 - Project in Pathobiology

**Hours:** 154P

A self-contained research project to be completed under the supervision of a faculty member. The main areas of research are as listed in the description of the Department (above). The student will normally have completed three full years of study, and is expected to devote at least one full day per week to the project. Admission is by arrangement with the Department and with a particular supervisor. A list of potential supervisors is available from the Departmental Office and on our web site. Not eligible for CR/NCR option.

**Prerequisite:** BCH210H1/BCH242Y1, LMP300Y1/(LMP340H1, LMP350H1)/LMP363H1/LMP365H1, and permission of department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP406H1 - Pathobiology of the Cardiovascular System

**Hours:** 24L

Pathobiology of the heart, blood vessels, and lymphatic system. Congenital diseases of the heart, ischemic injury, stroke. Treatments of vascular disease and cardiovascular biomaterials. Major focus on atherosclerosis and hypertension. The emphasis is on the underlying cell biology of these processes.

**Prerequisite:** (PSL300H1, PSL301H1)/PSL302Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP408H1 - Genetic Modelling of Human Development and Disease

**Hours:** 24L

Introduces use of genetic model systems and organisms in exploring aspects of human reproduction, development, and disease. A major focus is on the impact of the genetic models on understanding human health, and disease. Ethical issues in animal research, genetic manipulation, and disease modeling are highlighted.

**Prerequisite:** LMP300Y1/(LMP340H1, LMP350H1)/BIO260H1/HMB265H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP410H1 - Pathobiology of Neurodegenerative Disease

**Hours:** 24L

Molecular basis of neurodegenerative diseases of the central and peripheral nervous systems. Emphasis on the molecular pathobiology of neurodegenerative diseases, current research developments and guidance with writing of research proposals. Mid-term and final exams will practice assembly of a succinct research proposal and query neurodegenerative disease material taught in course.

**Prerequisite:** BCH311H1/(PSL300H1, PSL301H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP415H1 - Forensic Pathobiology

**Hours:** 24L

A thematic review of the major scientific areas and research controversies in forensic medicine. The approach is mechanistic analysis and evidence-based medicine. Classical forensic medicine is critically analyzed with emphasis on experimental methods to resolve controversies. We also explore how the justice system utilizes medical and scientific data.

**Prerequisite:** LMP300Y1/(LMP340H1, LMP350H1)/permission of department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP420H1 - Cancer Pathogenesis

**Previous Course Number:** LMP365H1

**Hours:** 24L/12T

A general introduction to the cellular and molecular aspects of cancer and its etiology. Topics include pathophysiology of cancer, invasion and metastases, role of the immune system, immune evasion, understanding biological targets, chemotherapeutic and immunotherapeutic agents and its mechanism of action, and resistance mechanisms of cancer.

**Prerequisite:** LMP310H1. Life sciences students who do not have all of the required prerequisites are encouraged to contact the academic unit to seek a waiver.

**Exclusion:** LMP365H1

**Recommended Preparation:** PCL486H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP430H1 - Metabolic Disorders

**Hours:** 24L/12T

This is an advanced-level course that focuses on the pathobiology of metabolic disorders, whether inherited or acquired. It covers enzymatic pathways and diseases associated with fat/energy metabolism, dyslipidemia, dysglycemia, aminoacidopathies and lysosomal storage disorders.

**Prerequisite:** BCH210H1, PSL300H1. Life sciences students who do not have all of the required prerequisites are encouraged to contact the academic unit to seek a waiver.

**Recommended Preparation:** PSL425H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP436H1 - Microbial Pathogenesis

**Hours:** 36L

Molecular mechanism involved in pathogenesis of infectious disease. Topics include recurrent themes in the establishment of infectious disease, such as adherence and spread of pathogenic bacteria as well as evasion of host defences. Emphasis is placed on genetic characterization and expression of virulence determinants and on interactions between bacterial pathogens and their hosts.

**Prerequisite:** BCH210H1/BCH242Y1, (IMM340H1, IMM350H1)/(IMM341H1, IMM351H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP440H1 - Mechanisms in Host-Microbe Interactions

**Previous Course Number:** LMP402H1 & LMP436H1

**Hours:** 24L

Mechanisms that allow microbial pathogens to cause disease and the host to detect infection, mount an inflammatory response and resolve the infection. Primary research articles are discussed. Topics include commensal and pathogenic bacteria, microbe recognition, programmed cell death, immunometabolism, inflammatory diseases.

**Prerequisite:** (IMM340H1, IMM350H1)/ (IMM341H1, IMM351H1)/ (MGY377H1, MGY378H1)/ LMP310H1. Life sciences students who do not have all of the required prerequisites are encouraged to contact the academic unit to seek a waiver.

**Exclusion:** LMP402H1, LMP436H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP450H1 - Organogenesis in Health and Disease

**Hours:** 24L/12T

This course introduces advanced topics in stem cell biology and focuses on the latest developments related to the use of stem cells in the design and generation of organoids and organs for use in research. The use of organogenesis within basic and clinical research settings will be highlighted with a focus on several human diseases. This course will build on the third-year courses, through which students will have been introduced to stem cell biology within the context of human diseases.

**Prerequisite:** LMP320H1, LMP330H1. Life sciences students who do not have all of the required prerequisites are encouraged to contact the academic unit to seek a waiver.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## LMP460H1 - Pathobiology of the Cardiovascular System

**Previous Course Number:** LMP406H1

**Hours:** 24L

Pathobiology of the heart, blood vessels, and lymphatic system. Congenital diseases of the heart, ischemic injury, stroke. Treatments of vascular disease and cardiovascular biomaterials. Major focus on atherosclerosis and hypertension. The emphasis is on the underlying cell biology of these processes.

**Prerequisite:** (PSL300H1, PSL301H1)/PSL302Y1. Life sciences students who do not have all of the required prerequisites are encouraged to contact the academic unit

to seek a waiver.

**Exclusion:** LMP406H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# Latin American Studies

## Faculty List

### Professors

Anne-Emanuelle Birn (International Development & Public Health)  
 Gustavo J. Bobonis (Economics)  
 Laura Colantoni (Spanish and Portuguese)  
 Kevin L. O'Neill (Religion)  
 Ana Teresa Pérez-Leroux (Spanish and Portuguese)  
 Jeffrey M. Pilcher (History)  
 Rosa Sarabia (Spanish and Portuguese)  
 Judith Teichman (Political Science)

### Associate Professors

Christian Abizaid (Geography & School for the Environment)  
 Susan Antebi (Spanish and Portuguese)  
 Kevin P. Coleman (Historical Studies)  
 María Cristina Cuervo (Spanish and Portuguese)  
 Rubén Gaztambide-Fernández (OISE)  
 Gustavo Indart (Economics)  
 Eva-Lynn Jagoe (Spanish and Portuguese, Centre for Comparative Literature)  
 Teresa Kramarz (Munk School of Global Affairs and Public Policy)  
 Christopher Krupa (Anthropology)  
 Mariana Mota Prado (Law)  
 Valentina Napolitano (Anthropology)  
 Melanie J. Newton (History)  
 Alejandro Paz (Anthropology)  
 Néstor E. Rodríguez (Spanish and Portuguese)  
 Luisa Farah Schwartzman (Sociology)  
 Edward R. Swenson (Anthropology)  
 Sanda Munjic (Spanish and Portuguese)

### Assistant Professors

Martha Balaguera (Political Science)  
 Laura Doering (Rotman)  
 Jerry Flores (Sociology)  
 Ryan Isakson (Geography and Planning)  
 Suzi Lima (Linguistics)  
 Sharlene Mollet (Critical Development Studies & Human Geography)  
 Lena Mortensen (Anthropology)  
 Jeff Packman (Music History and Culture)  
 Victor Rivas (Spanish and Portuguese)  
 Luis van Isschot (History)

### Associate Professor, Teaching Stream

Manuel Ramírez (Spanish and Portuguese)

### Assistant Professor, Teaching Stream

Juan Carlos Rocha Osornio (Spanish and Portuguese)

### Sessional Lecturers

Bernardo García Domínguez (New College & Latin American Studies)  
 Donald Kingsbury (Political Science & Latin American Studies)

### Professors Emeriti

Albert Berry (Economics)  
 Peter Blanchard (History)  
 Ricardo Sternberg (Spanish and Portuguese)

## Introduction

The Latin American Studies program at the Department of Spanish and Portuguese provides students in the social sciences and humanities an opportunity to engage and deepen their understanding of Latin American regions, their histories, politics, cultures, economies and societies. Courses encourage students to situate both their special interests and the contemporary debates in fields such as anthropology, political science, geography, literature, or history within a broader interdisciplinary framework, while at the same time committing themselves to an understanding of the historical, cultural and political experiences of Spanish and Portuguese America. Through an engagement with different texts and faculty expertise, this program trains students in current themes such as postcolonial thinking, critical readings of colonial histories, literary and anthropological genres, comparative politics, politics of indigeneity and human rights, as well as in environmental policies and political economy of Latin America and the Americas as a transnational whole. With the possibility to carry out curricula experience in Latin America, this program also offers an important lead for career development experiences on Latin America. This knowledge is increasingly necessary for Canada, as the country enters into new trade, political, environmental, and academic agreements with our emerging hemispheric partners.

Students seeking counselling and information should visit our website: <https://www.spanport.utoronto.ca> and/or contact the [Associate Chair, Undergraduate Studies](#)

## Latin American Studies Programs

### Latin American Studies Major (Arts Program) - ASMAJ0552

The Latin American Studies program at the Department of Spanish and Portuguese provides students in the social

sciences and humanities an opportunity to engage and deepen their understanding of Latin American regions, their histories, politics, cultures, economies and societies. Courses encourage students to situate both their special interests and the contemporary debates in fields such as anthropology, political science, geography, literature, or history within a broader interdisciplinary framework, while at the same time committing themselves to an understanding of the historical, cultural and political experiences of Spanish and Portuguese America. Through an engagement with different texts and faculty expertise, this program trains students in current themes such as postcolonial thinking, critical readings of colonial histories, literary and anthropological genres, comparative politics, politics of indigeneity and human rights, as well as in environmental policies and political economy of Latin America and the Americas as a transnational whole. With the possibility to carry out curricula experience in Latin America, this program also offers an important lead for career development experiences on Latin America. This knowledge is increasingly necessary for Canada, as the country enters into new trade, political, environmental, and academic agreements with our emerging hemispheric partners

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

There are no specific first-year requirements. However, first-year students are encouraged to take a Spanish or Portuguese language course ( [SPA100Y1](#), [SPA219Y1](#), [SPA220Y1](#), [SPA320Y1](#), [PRT100Y1](#), [PRT110Y1](#), [PRT219Y1](#), or [PRT220Y1](#)), which counts towards the Latin American Studies Major.

(7.0 credits, including a minimum of 2.0 LAS credits at the 300+ level, of which a 0.5 credit must be at the 400-level)

- [LAS200H1](#) and [LAS201H1](#).
- 1.5 LAS credits at the 300-level.
- 0.5 LAS credit at the 400-level, or an equivalent 0.5 credit at the 400-level, approved by the Associate Chair of Latin American Studies / program administration.
- [JQR360H1](#) or an alternative, but similar, 0.5 credit course on a combination of quantitative and qualitative reasoning/research design can be taken in consultation with the Associate Chair of Latin American Studies/program administration. (Possible options include [POL222H1](#), [GGR270H1](#), [DTS300H1](#))
- 2.5 LAS credits or pre-approved courses from cognate units listed below (List A and List B). As part of the 2.5 credits, students may choose up to one 0.5 credit from the disciplinary group course list (List B), or all 2.5 credits from the thematic group course list (List A).

- Students must successfully complete (with a minimum grade of 65%) at least the second level of language instruction in Spanish or Portuguese by the end of the third year of study. This requirement is normally met through choice of courses from List A. Students can also demonstrate equivalent proficiency in the given language through completion of 1.0 credit of Spanish and/or Portuguese courses in Latin American topics as approved by LAS administration at a second-year level of instruction or higher.

### List A (Thematic Group):

Latin American Societies: [ANT320H1](#), [ANT340H1](#), [ANT407H1](#)

Historical Understandings of Latin America: [HIS291H1](#), [HIS292H1](#), [HIS390H1](#), [HIS397H1](#)

Latin American Politics: [POL305Y1](#), [POL360H1](#), [POL442H1](#)

Latin American Cultural Expressions: [SPA375H1](#), [SPA381H1](#), [SPA382H1](#), [SPA384H1](#), [SPA385H1](#), [SPA386H1](#), [SPA387H1](#), [SPA389H1](#), [SPA467H1](#), [SPA475H1](#), [SPA480H1](#), [SPA482H1](#), [SPA486H1](#), [SPA488H1](#), [SPA489H1](#)

Forest Conservation and Forest Biomaterials Science: [FOR201H1](#)

Geography: [GGR341H1](#)

Music: [MUS305H1](#)

New College Caribbean Studies: [JLN327H1](#), [JLN427H1](#)

Portuguese: [PRT100Y1](#), [PRT120Y1](#), [PRT219Y1](#), [PRT220Y1](#), [PRT368H1](#), [PRT420H1](#)

Spanish: [SPA100Y1](#), [SPA120Y1](#), [SPA196H1](#), [SPA219Y1](#), [SPA220Y1](#), [SPA258H1](#), [SPA259H1](#), [SPA320Y1](#), [SPA323H1](#)

### List B (Disciplinary Group):

Diaspora and Transnational Studies: [DTS200Y1](#)

Economics: [ECO324H1](#), [ECO403H1](#)

Geography: [JGE321H1](#)

Indigenous Studies: [INS200H1](#), [INS205H1](#)

New College Caribbean Studies: [CAR120Y1](#), [CAR220H1](#), [CAR221H1](#), [CAR324H1](#)

New College Critical Studies in Equity and Solidarity: [CSE240H1](#), [CSE270H1](#), [CSE346H1](#)

Course work: Students must successfully complete 7.0 credits sponsored or approved by LAS, as well as satisfy the requirements of their departmental specialization.

Note: Effective Fall 2021, courses associated with New College's Caribbean Studies, and Critical Studies in Equity and Solidarity programs will have the new "CAR" and "CSE" designators respectively.

## Latin American Studies Minor (Arts Program) - ASMIN0552

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

There are no specific first-year requirements. However, first-year students are welcome to take a Spanish or Portuguese language course ( [SPA100Y1](#), [SPA219Y1](#), [SPA220Y1](#), [SPA320Y1](#), [PRT100Y1](#), [PRT110Y1](#), [PRT219Y1](#), or [PRT220Y1](#)), which counts towards the Latin American Studies Minor.

(4.0 credits, including [LAS200H1](#), [LAS201H1](#), and at least 1.0 credit at the 300+ level.)

1. [LAS200H1](#) and [LAS201H1](#) (previously [LAS200Y1](#)).
2. A minimum of 0.5 credit of LAS 300-level courses.
3. 2.5 LAS credits, or pre-approved courses from cognate units listed below (List A). A minimum of one 0.5 credit must be from the Social Sciences/BR=3; another 0.5 credit must be from the Humanities/BR=1 or 2. ([LAS300H1](#) or [LAS370H1](#) can be used to cover the Social Science requirement and [LAS301H1](#), [LAS310H1](#), [LAS320H1](#), [LAS350H1](#) for the Humanities requirement).

## Latin American Studies Courses

### LAS200H1 - Introduction to Latin American Studies I: Foundational Themes

**Hours:** 24L/12T

An introductory course studying the development of Latin American societies from their pre-Columbian past to the 19th century building of modern nations. Cultural, historical, political, and social topics are examined combining historical documents with art, music and other texts from popular culture.

**Exclusion:** [IAS200Y1](#), [LAS200Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

Spanish or Portuguese language study is recommended, but not a requirement.

### List A (Thematic Group):

Latin American Societies: [ANT320H1](#), [ANT340H1](#), [ANT407H1](#)

Historical Understandings of Latin America: [HIS291H1](#), [HIS292H1](#), [HIS390H1](#), [HIS397H1](#)

Latin American Politics: [POL305Y1](#), [POL360H1](#), [POL442H1](#)

Latin American Cultural Expressions: [SPA375H1](#), [SPA381H1](#), [SPA382H1](#), [SPA384H1](#), [SPA385H1](#), [SPA386H1](#), [SPA387H1](#), [SPA389H1](#), [SPA467H1](#), [SPA475H1](#), [SPA480H1](#), [SPA482H1](#), [SPA486H1](#), [SPA488H1](#), [SPA489H1](#)

Forest Conservation and Forest Biomaterials Science: [FOR201H1](#)

Geography: [GGR341H1](#)

Music: [MUS305H1](#)

New College Caribbean Studies: [JLN327H1](#), [JLN427H1](#)

Portuguese: [PRT100Y1](#), [PRT120Y1](#), [PRT219Y1](#), [PRT220Y1](#), [PRT368H1](#), [PRT420H1](#)

Spanish: [SPA100Y1](#), [SPA120Y1](#), [SPA196H1](#), [SPA219Y1](#), [SPA220Y1](#), [SPA258H1](#), [SPA259H1](#), [SPA320Y1](#), [SPA323H1](#)

### LAS201H1 - Introduction to Latin American Studies II: Current Issues

**Hours:** 24L/12T

An introductory course studying the development of Latin American societies from the 20th century to the present. Cultural, historical, political, and social topics are examined combining historical documents with art, music and other texts from popular culture.

**Exclusion:** [IAS200Y1](#) and [LAS200Y1](#)

**Recommended Preparation:** [LAS200H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

### LAS300H1 - Topics in the Social Sciences

**Hours:** 24S

The goal of this course is to critically analyze the current economic, social, and political realities of Latin America, based on an insightful knowledge of its past and present.

Topics of the course vary depending on the needs of the program and the interests of students.

**Prerequisite:** [IAS200Y1/ LAS200Y1/ \(LAS200H1, LAS201H1\)/ POL305Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## LAS301H1 - Topics in the Humanities

**Hours:** 24S

The goal of this course is to critically analyze the Latin American social imaginaries as expressed in art, literature and/or film, based on close readings of texts. Topics of the course vary depending on the needs of the program and the interests of students.

**Prerequisite:** [IAS200Y1/LAS200Y1/LAS201H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## LAS302H1 - Topics in Latin American Studies

**Hours:** 24S

The goal of this course is to critically explore debates and perspectives on development and on the politics of inequality in Latin American contexts. Topics of the course may vary, depending on the needs of the program and the interests of students and instructors.

**Recommended Preparation:** [LAS200H1, LAS201H1, LAS300H1, POL305Y1](#)

**Distribution Requirements:** Humanities, Social Science

## LAS310H1 - The Postcolonial Imaginary in Latin America

**Hours:** 24L

This seminar style course explores the postcolonial status of Latin America as a controversial issue, through critical analysis of the Latin American social imaginary. The course considers works by Simón Bolívar, José Martí, Ernesto Guevara, Pablo Neruda, Rigoberta Menchú, Subcomandante Marcos, Sergei Eisenstein, Walter Salles, Tomás Gutiérrez Alea, as well as films that illustrate the rich visual culture of the continent. Readings and seminar discussions are conducted in English.

**Prerequisite:** [LAS200H1 + LAS201H1](#)

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LAS320H1 - Latin American Thought

**Hours:** 24L

This seminar-style course explores critical thinking about culture, history, politics, and society by some of the most influential Latin American intellectuals of the 20th and 21st centuries. Emphasis on theoretical contributions, in English translation, of Latin American thinkers such as Rodó, Vasconcelos, Mariategui, Zea, Dussel, García Canclini, Cornejo Polar, Quijano and Lugones. Topics covered include questioning identities, cultural diversity, indigenism, liberation theology, colonialism, neocolonialism, postcolonialism, coloniality, and decoloniality. Readings and seminar discussions in English.

**Prerequisite:** [LAS200H1 + LAS201H1](#)

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JLN327H1 - Culture and Modernity in the Hispanic Caribbean

**Hours:** 24L

Explores the Hispanic areas of the Caribbean including the Caribbean areas of continental Spanish-speaking America. Topics may include: regional politics, state and economy; revolutions and authoritarian regimes; popular culture, the arts and media; religion and society; gender and sexuality; state structures; diasporas and migration.

**Prerequisite:** [HIS230H1/ HIS231H1/ CAR120Y1/ CAR220H1/ CAR221H1/ NEW224Y1/ CAR225H1/ CAR226H1/ LAS200H1/ LAS201H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## LAS348H1 - The Renaissance Mexico City

**Hours:** 24S

By exploring history, art, architecture, literature and music of sixteenth century Mexico City as a geographical and cultural point of reference, this course explores the historical event known as "the Renaissance" outside of its traditional localities. By the mid 16th century, colonial Mexico City became the contact zone and the hub for the exchange of peoples, goods and ideas that migrated

across the Atlantic. Mexico City gives an alternative perspective to how local political and social-historical contexts shape ideas and cultural forms and illustrates the processes and effects of cultural cross-fertilization in the Renaissance. Taught in English.

**Recommended Preparation:** [LAS200H1](#), a History course on Early Modern Hispanic world or a course in the Renaissance Studies Program ( [VIC346H1](#), “The Idea of the Renaissance”), or permission of the instructor  
**Breadth Requirements:** Creative and Cultural Representations (1)

## LAS350H1 - Indigenous Realities in Latin America

**Hours:** 24L

This course studies the past and present realities of the diverse indigenous societies of the regions we now call Latin America. Eurocentric texts such as the chronicles of the conquest of Mexico, are critically contrasted with diverse indigenous peoples’ self-representing narratives that respond to more than five hundred years of Spanish and Portuguese occupation of their lands. These texts include Nahuatl poetry and accounts of the conquest of Mexico, literary creations from multiple Maya linguistic groups, multi-lingual chronicles from the colonial Inca period, diverse indigenous political manifestos and movements, indigenous testimonios, and decolonizing indigenous literature and criticism. Taught in English.

**Recommended Preparation:** ([LAS200H1](#) + [LAS201H1](#))/[INS201Y1](#)/ [POL305Y1](#)

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JQR360H1 - The Canadian Census: Populations, Migrations and Demographics

**Hours:** 24L/12T

Examines the Canadian population census through the experience of diasporic groups in Canada. Approaches the census as a statistical tool, an historical source and an ideological project of citizenship and nationalism. Uses census data to explore mathematical and statistical concepts and to integrate numerical ways of thinking with qualitative analysis. (Jointly sponsored by African Studies, Diaspora and Transnational Studies, Caribbean Studies, Equity Studies and Latin American Studies).

**Prerequisite:** [DTS200Y1](#)/ [HIS230H1](#)/ [HIS231H1](#)/ [LAS200H1](#)/ [LAS201H1](#)/ [CAR120Y1](#)/ [AFR150Y1](#)/ [CAR220H1](#)/ [CAR221H1](#)/ [NEW224Y1](#)/ [CAR225H1](#)

[CAR226H1](#)/ [NEW240Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## LAS370H1 - Critical Perspectives of Development in Latin American Contexts

**Hours:** 24L

A seminar-style course that engages in critical analysis of local and global development initiatives in a Latin American context. The seminar is organized around the interrelated themes of health, economics, education, globalization, and infrastructure. Topics of discussion may include: challenges and ethics of sustainable development initiatives in theory and practice, medical missions and global health, community-based transnational public health projects, developing localities and sustainable economics, local infrastructure development and environmental impacts, ethics and implications of volunteerism, local and global cultural perspectives, the colonial legacies of inequality, dependency and sustainability of development projects.

Readings and lectures in English.

**Prerequisite:** 4.0 credits

**Recommended Preparation:** ([LAS200H1](#) + [LAS201H1](#))/[POL305Y1](#)

**Breadth Requirements:** Society and its Institutions (3)

## LAS400H1 - Topics in Latin American Studies

**Hours:** 24S

An upper level seminar. Topics of the course vary from year to year, depending on the needs of the program and the interests of students. Offered in alternate years.

**Prerequisite:** [LAS200Y1](#)/([LAS200H1](#), [LAS201H1](#)) & [LAS300H1](#)/[LAS301H1](#)

**Distribution Requirements:** Humanities, Social Science

## LAS401H1 - Latinos in Canada

**Hours:** 48T/24S

A historical survey of migration from Latin American countries to Canada, this course examines mediation strategies of Latinos as they adjust to a new home: negotiation of national identities, political participation, entrepreneurship, cultural representations, and charitable

work. Students engage in service with organization working with/in LatAm communities.

**Prerequisite:** [LAS200H1](#), [LAS201H1](#), one LAS 300-level course, interview

**Recommended Preparation:** [JQR360H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

[CAR221H1](#)/ [NEW224Y1](#)/ [CAR225H1](#)/ [CAR226H1](#)

**Exclusion:** [NEW427H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## LAS410H1 - Independent Study

This course provides an opportunity for students to do academic research related to Latin American issues under the supervision of a faculty member. The intent is that the student, aided and advised by the supervisor, will read relevant literature, and plan, execute, analyze and report on an original and independent investigation of an appropriate topic. For application forms, please visit the "Resources" section of the program's website. Not eligible for CR/NCR option.

**Prerequisite:** [LAS200Y1](#)/( [LAS200H1](#), [LAS201H1](#)), and [LAS300H1](#)/ [LAS301H1](#)

**Distribution Requirements:** Humanities, Social Science

## LAS411Y1 - Independent Study

This course provides an opportunity for students to do academic research related to Latin American issues under the supervision of a faculty member. The intent is that the student, aided and advised by the supervisor, will read relevant literature, and plan, execute, analyze and report on an original and independent investigation of an appropriate topic. For application forms, please visit the "Resources" section of the programme's website. Not eligible for CR/NCR option.

**Prerequisite:** [LAS200Y1](#)/([LAS200H1](#), [LAS201H1](#)) and [LAS300H1](#)/[LAS301H1](#)/[LAS302H1](#)

**Exclusion:** [LAS410H1](#)

**Distribution Requirements:** Humanities, Social Science

## JLN427H1 - Advanced Topics: The Hispanic Caribbean

**Hours:** 24S

Explores, in depth, a country in the Hispanic Caribbean or a theme relating to the Hispanic Caribbean. Topics vary each year and may include: Cuban society; Hispanic Caribbean revolutions; Hispanic Caribbean music, art and popular cultures; Hispanic Caribbean diasporas.

**Prerequisite:** [HIS230H1](#)/ [HIS231H1](#)/ [JLN327H1](#)/ [LAS200H1](#)/ [LAS201H1](#)/ [CAR120Y1](#)/ [CAR220H1](#)/

# Life Sciences

The following Life Science departments and programs are listed in this Calendar:

- [Biochemistry](#)
- [Biology](#)
- [Cell & Systems Biology](#)
- [Ecology & Evolutionary Biology](#)
- [Human Biology](#)
- [Immunology](#)
- [Laboratory Medicine & Pathobiology](#)
- [Molecular Genetics & Microbiology](#)
- [Nutritional Sciences](#)
- [Pharmaceutical Chemistry](#)
- [Pharmacology & Toxicology](#)
- [Physiology](#)
- [Psychology](#)

Many of the Life Science programs are collaborative programs given by the Faculty of Arts and Science and departments in the Faculty of Medicine. The Life Sciences all focus on the scientific study of life. The study of biological processes has enormous importance for:

- Understanding one's own body and those of other organisms sharing our planet, both in health and sickness;
- Analysing the behaviour of humans and other organisms;
- Understanding the interdependent web of living organisms on the planet, and their evolutionary relationships;
- Preparing for ethical, social and political questions arising from our increasing ability to modify living systems;
- Enhancing our ability to protect the delicate and complex ecological balance that sustains this world.

Today, the biological sciences are experiencing a revolution. Important discoveries occur almost weekly as scientists and students around the world develop and use techniques, theories and approaches. Increasingly, we need people with advanced knowledge and training who can contribute to these discoveries and their application. Equally, we need people who know enough about life sciences generally to make informed judgments about critical issues such as global warming, population growth, the emergence of drug resistance and new diseases, and the degradation of the environment.

On the St. George campus, undergraduate education, graduate education and research in the Life Sciences is

carried out in departments within the Faculty of Arts and Science and the Faculty of Medicine.

The programs offered in the Life Sciences are listed below. Admission to all programs occurs after completion of 4.0 credits. Admission to some programs is limited. Please see individual program listings for admission criteria and procedures. Also check the [Arts & Science Program Toolkit](#) for details and application procedures.

## Specialist Programs

Biochemistry, Biological Chemistry (Chemistry), Bioinformatics and Computational Biology (Cell & Systems Biology), Biology, Biophysics (Physics), Cell and Molecular Biology (Cell & Systems Biology), Ecology and Evolutionary Biology (Ecology & Evolutionary Biology), Environment and Health (School of the Environment), Fundamental Genetics and its Applications (Human Biology), Global Health (Human Biology), Health and Disease (Human Biology), Immunology, Molecular Genetics & Microbiology, Neuroscience (Human Biology), Pathobiology, Pharmaceutical Chemistry (Chemistry), Pharmacology, Physiology, Psychology, Psychology Research, Toxicology.

## Major Programs

Animal Physiology (Cell & Systems Biology), Biochemistry, Biodiversity and Conservation Biology (Ecology & Evolutionary Biology), Biology, Cell and Molecular Biology (Cell & Systems Biology), Ecology & Evolutionary Biology, Environmental Biology (Ecology & Evolutionary Biology), Environment and Health (School of the Environment), Fundamental Genetics and its Applications (Human Biology), Genome Biology (Biology), Global Health (Human Biology), Health & Disease (Human Biology), Human Biology, Immunology, Neuroscience (Human Biology), Nutritional Sciences, Pharmacology, Physiology, Psychology, Toxicology.

## Minor Programs

Biology, Environmental Biology (Ecology & Evolutionary Biology), NUS Biology (Ecology & Evolutionary Biology), Immunology, Physiology, Psychology.

## Animal Use in Laboratories

Laboratory investigations are part of life science programs at the University of Toronto. Programs in life sciences at the University of Toronto include courses that involve observation, handling, or experimentation on animals or on samples derived from animals. The use of animals in teaching and research is regulated by ethical and procedural guidelines and protocols. These are approved on an ongoing basis by the University Animal Care Committee, and follow provincial and federal government rules. We recognize, however, that some students may have strong reservations about personal exposure to any

use of animal material in teaching. Students who want to avoid registration in programs or courses that include such labs are, therefore, encouraged to check in advance with the departments involved.

# Linguistics

## Faculty List

### Professors Emeriti

J.K. Chambers, MA, PhD  
 E.A. Cowper, AM, PhD  
 B.E. Dresher, BA, PhD  
 A. Johns, MA, PhD  
 D. Massam, MA, PhD  
 P.A. Reich, MS, PhD  
 R. Wardhaugh, MA, PhD

### University Professor and Chair

S.A. Tagliamonte, MA, PhD

### Professor and Associate Chair, Undergraduate

A. Kochetov, MA, PhD

### Professors

N. Nagy, PhD  
 A.T. Perez-Leroux, MA, PhD  
 K.D. Rice, MA, PhD

### Associate Professors

M.C. Cuervo, MA, PhD  
 D. Heller, MA, PhD  
 M. Ippolito, MA, PhD  
 P. Jurgec, MA, PhD

### Assistant Professors

S. Bejar, MA, PhD  
 M. Grigoroglou, MA, PhD  
 S. Lima, MA, PhD  
 P. Mateo Pedro, MA, PhD  
 K. Moulton, MA, PhD  
 N. Sanders, MA, PhD  
 G. Thomas, MA, PhD

### Adjunct Professor

M.L. Chasin, MSc, AuD

### Retired Lecturer

E.M. Gold, MA, PhD

## Introduction

Linguistics can trace its roots back to the ancient Sanskrit grammarians, and the study of language is probably as old as language itself. However, the twentieth century has produced an explosion in the scientific study of language. As our understanding of the nature and structure of human language develops, linguistics is becoming relevant to many other areas of research such as Cognitive Science, Artificial Intelligence, Speech-

Language Pathology, Audiology, Psychology, and Philosophy.

On its own, linguistics represents an invaluable key to the nature of the mind and the diverse elements of human culture; as a tool, linguistics is unmatched in preparing one for the learning and teaching of languages and for integrating language with technology.

Part-time students should note that most of the summer and evening courses available to them are offered on a rotating basis only. Consequently, students wishing to take such courses should enrol in them at the earliest opportunity after completing the necessary prerequisites.

In addition to the undergraduate curriculum within the Department of Linguistics, there are courses relating to linguistics offered in other departments such as the language departments, Anthropology, Computer Science, Philosophy, and Psychology, and in the Cognitive Science and Artificial Intelligence program.

Students seeking counselling and information should contact the Undergraduate Administrator ([undergrad.linguistics@utoronto.ca](mailto:undergrad.linguistics@utoronto.ca)) or the Associate Chair, Undergraduate, Prof. Alexei Kochetov ([ugling@chass.utoronto.ca](mailto:ugling@chass.utoronto.ca)).

## Linguistics Programs

### Linguistics Specialist (Arts Program) - ASSPE0506

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(12.0 credits)

#### Required Courses (5.5 credits):

First Year: [LIN101H1](#), [LIN102H1](#)  
 Second Year: [LIN228H1](#), [LIN229H1](#), [LIN232H1](#),  
[LIN241H1](#), [LIN251H1](#)  
 Third and Fourth Years: [LIN322H1](#), [LIN331H1](#),  
[JAL401H1](#), [JLP374H1](#)/ [JLP315H1](#)

#### Elective Courses (4.5 credits):

A total of 4.5 credits in LIN/JAL/JFL/JLP/JLS (excluding [LIN200H1](#), [LIN203H1](#), [LIN204H1](#)) including:  
 - a 1.5 credits at the 300+ level  
 - a 0.5 credit at the 400- level

Up to 1.0 credit may be from other departments. Approved courses include [ANT329H1](#), [ANT425H1](#), [ANT427H1](#); [COG250Y1](#); [CSC384H1](#), [CSC401H1](#), [CSC448H1](#), [CSC485H1](#); [FIN220H1](#), [FIN305H1](#); [FRE272H1](#), [FRE273H1](#), [FRE274H1](#), [FRE376H1](#), [FRE378H1](#), [FRE379H1](#), [FRE379H1](#), [FRE383H1](#), [FRE386H1](#), [FRE387H1](#), [FRE388H1](#), [FRE471H1](#), [FRE487H1](#), [FRE488H1](#), [FRE489H1](#); [GER400H1](#), [GER426H1](#), [GER462H1](#); [HPS250H1](#), [HPS322H1](#), [HPS352H1](#); [ITA360H1](#), [ITA363H1](#); [MCS223H1](#); [NML315H1](#), [NML463H1](#); [PHL210Y1](#), [PHL245H1](#), [PHL310H1](#), [PHL311H1](#), [PHL325H1](#), [PHL326H1](#), [PHL340H1](#), [PHL342H1](#), [PHL345H1](#), [PHL347H1](#), [PHL351H1](#), [PHL355H1](#), [PHL405H1](#), [PHL451H1](#), [PHL479H1](#), [PHL480H1](#), [PHL481H1](#); [PRT364H1](#), [PRT368H1](#); [SLA255H1](#), [SLA380H1](#), [SLA452Y1](#); [SPA322H1](#), [SPA324H1](#), [SPA421H1](#), [SPA422H1](#), [SPA423H1](#); [VIC223Y1](#). Other courses might also qualify; consult the Department of Linguistics for approval.

Language Requirement (2.0 credits):

Two years of study or its equivalent of one non-Germanic, non-Romance language in courses using the spoken language. We encourage you to begin this language study in your first or second year. Approved sequences of courses include [CLT141Y1](#), [CLT251H1](#), and [CLT252H1](#); [EAS100Y1](#) and [EAS200Y1](#); [EAS120Y1](#) and [EAS220Y1](#); [EAS110Y1](#) and [EAS210Y1](#); [EST100H1](#), [EST101H1](#), [EST200H1](#), and [EST201H1](#); [FIN100H1](#), [FIN110H1](#), [FIN200H1](#), and [FIN210H1](#); [HUN100Y1](#) and [HUN200Y1](#); [INS220Y1](#) and [INS323Y1](#); [INS210Y1](#) and [INS310Y1](#); [NEW280Y1](#) and [NEW380Y1](#); [MGR100H1](#), [MGR101H1](#), and [MGR245Y1](#); [NML110Y1](#) and [NML210Y1](#); [NML155H1](#), [NML156H1](#), [NML255H1](#), and [NML256H1](#); [NML260Y1](#) and [NML360Y1](#); [NML270Y1](#) and [NML370Y1](#); [SLA105Y1](#) and [SLA204Y1](#); [SLA106H1](#), [SLA116H1](#), [SLA206H1](#), and [SLA207H1](#); [SLA100H1](#), [SLA101H1](#), and [SLA220Y1](#); [SLA107Y1](#), [SLA257H1](#), and [SLA277H1](#); [SLA108Y1](#) and [SLA208Y1](#). Other courses might also qualify, but must be pre-approved by the Department of Linguistics.

Note: Effective Fall 2021, courses associated with Victoria College's Material Culture and Semiotics program will have the new "MCS" designator.

## Linguistics Major (Arts Program) - ASMAJ0506

**Enrolment Requirements:**

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

**Completion Requirements:**

(7.0 credits)

- 1) All of: [LIN101H1](#), [LIN102H1](#)
- 2) All of: [LIN228H1](#), [LIN229H1](#), [LIN232H1](#), [LIN241H1](#), [LIN251H1](#)
- 3) 0.5 credit from: [JLP374H1](#) or [JLP315H1](#)
- 4) A further 1.0 LIN/JAL/JFL/JLP/JLS credit at the 300+ level
- 5) 0.5 LIN/JAL/JFL/JLP/JLS credit at the 400-level
- 6) An additional 1.5 credits in LIN/JAL/JFL/JLP/JLS (excluding [LIN200H1](#), [LIN203H1](#), [LIN204H1](#))

## Linguistics Minor (Arts Program) - ASMIN0506

**Enrolment Requirements:**

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

**Completion Requirements:**

(4.0 credits)

First Year: [LIN101H1](#), [LIN102H1](#)

Higher Years: 3.0 credits in LIN/JAL/JFL/JLP/JLS (excluding [LIN200H1](#)) of which 1.0 credit must be at the 300+ level

## Linguistics Courses

### LIN101H1 - Introduction to Linguistics: Sound Structure

**Hours:** 24L/12T

Introduction to fundamental principles of linguistics with particular attention to sound structure and its acquisition, processing, and variation; practice in elementary analytic techniques using data from a broad spectrum of languages.

**Exclusion:** LIN100Y1, LIN101H5, LINA01H3, LINA02H3  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

### LIN102H1 - Introduction to Linguistics: Sentence Structure and Meaning

**Hours:** 24L/12P

Introduction to fundamental principles of linguistics with particular attention to sentence and meaning structure, their acquisition, processing, and variation; practice in elementary analytic techniques using data from a broad spectrum of languages.

**Exclusion:** LIN100Y1, LIN102H5, LINA01H3, LINA02H3  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

### LIN192H1 - Sustaining Indigenous Languages

**Hours:** 24S

There has been much publicity in recent years about language shift and language loss and, along with it, language revitalization. In this course we examine shift involving Indigenous languages – and particularly those of Canada – from a variety of perspectives, and looking at reasons why one might want to 'save' a language. Restricted to first-year students. Not eligible for CR/NCR option.

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### LIN194H1 - The Science Behind Our Accents

**Previous Course Number:** TBB199H1  
**Hours:** 24P

When we speak, the sound is transmitted through the air as a complex sound wave. How are various speech sounds – vowels and consonants – manifested acoustically? What does it mean, in physical terms, to have an accent? These and other related questions will be explored through computer-based acoustic analysis and perceptual experimentation. Upon completion of this course, students will (i) have overview knowledge of basic acoustic properties characterizing phonetic variation pertaining to speech, and accents in particular, (ii) be able to conduct simple speech production and perception experiments, and write up results in the form of scientific research reports, (iii) begin to read and understand scientific literature pertaining to acoustic phonetic variation and its relevance for communication. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

### LIN195H1 - Babel: Language in the Mind of Speakers

**Hours:** 24L

What is the relation between language and thought? In this course we examine how language is represented in our minds, and how language and cognitive processes interact. While the link between words and meanings is arbitrary and reflects culture, language is considered to be a universal property of our species. We will examine the place of language in the architecture of the mind; the debates about the universality of language structure vs. linguistic relativism; and how language and thought interact in children's development. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

### LIN196H1 - Language and Communication

**Hours:** 24L

We will explore the ways in which information is communicated in conversation. We will consider systematic ways in which what a speaker intends to

communicate with language goes beyond what one says in conversation. The goal of the course is to investigate the ways in which speakers rely on knowledge of language and implicit “rules” to enrich and transform the literal content of someone’s utterance.

Students will familiarize themselves with some fundamental concepts in linguistic semantics and pragmatics. They will develop analytic skills necessary to analyze a text in an academic context and beyond. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN197H1 - Language and Social Justice

**Hours:** 24L

This course explores how language is used to construct and reinforce unjust social structures. Topics may include: the underlying sexism, classism, racism, and ableism of prestige dialects and prescriptive language education; the history and consequences of national language movements; language endangerment, documentation, and revival; sign languages and language rights for the deaf and hard-of-hearing; popular media representations of linguistic variation, especially vocal fry, uptalk, and regional accents; and the relationships between language and sex, gender identity, and sexuality.

Students will develop research, analytic, and writing skills through critique and discussion of assigned texts, independent research projects, and regular written and oral presentation of their work. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN198H1 - Language Diversity

**Hours:** 24L

There are estimated to be about 7000 languages currently spoken in the world. What do they have in common? In what ways are they different? This course will explore these questions, covering such topics as meaning, sound systems, the structure of words, the order of words in sentences, question formation, concepts such as subject and object, tense systems, pronoun systems. We will also discuss language loss and revival. Students will develop analytic skills as they consult published grammars and

other resources to address these issues. Students will share their findings through oral and written presentation. Examples will be drawn from a wide range of languages. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN199H1 - Exploring Heritage Languages

**Hours:** 24L

We will explore how speakers use Heritage Languages in Toronto, using data recently collected in the GTA, so students should be familiar with one of these languages. We will collect, organize and interpret information about heritage languages in Toronto. We will look for speech patterns that differentiate first, second and third generation speakers in Toronto from corresponding speakers in their countries of origin, and look at the effects of cultural and language attitudes and usage.

Students will develop analytic skills as they explore a range of research methods and resources to address these issues. Students will share their findings through oral and written presentation, including online formats. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN200H1 - Introduction to Language

**Hours:** 24L/12T

Introduction to Language is a general-interest course on language. Possible topics include: the structure of language; how language changes over time, the social and psychological aspects of language, language and culture, the origin of language, writing systems, and language acquisition. (This course cannot be used as an entrance to programs in linguistics, and cannot be used as a prerequisite to any linguistics courses unless otherwise indicated.)

**Exclusion:** LIN100Y1, LIN101H1, LIN102H1, LIN101H5, LIN102H5, LINA01H3, LINA02H3, ANT253H1, LIN200H5  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN201H1 - Canadian English

**Hours:** 24L

A study of English spoken in Canada. Topics include: vocabulary items, usage surveys, non-standard dialect enclaves, regional variation and historical development. Students will develop original research projects in linguistics.

**Prerequisite:** ([LIN101H1](#), [LIN102H1](#))/[LIN200H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN202H1 - Introduction to Indigenous Languages of the Americas

**Hours:** 24L

This is an introduction to Indigenous languages and cultures of Central, North, and South America. Students will be exposed to discussions about what is an indigenous language, social status of indigenous languages as well as indigenous movements towards language documentation and revitalization and language education in the Americas.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN203H1 - English Words

**Hours:** 24L/12T

English has a rich vocabulary. We will learn how it has developed over time, and investigate aspects of the meaning and pronunciation of words. Most of all, we will study how words are put together, so that students will be able to recognize and analyze unfamiliar words.

**Exclusion:** LIN203H5, LIN233H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN204H1 - English Grammar

**Hours:** 24L/12T

How the English language works: students analyze a wide variety of English grammatical structures and learn how they vary across dialects and change through time.

**Exclusion:** LIN204H5, LINB18H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN211H1 - American Sign Language 1

**Hours:** 36L

This course is an introductory language course for students with little or no prior knowledge of American Sign Language (ASL). It provides an immersive introduction to ASL, with a focus on basic vocabulary, grammar, conversation, and appropriate behaviours for everyday interactions in a variety of social situations. The language is taught through various immersive activities, such as lecture/discussion, interactive games, and situational conversations, supplemented with readings and videos. A significant emphasis throughout the course is placed on Deaf culture and issues facing the Deaf community.

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN228H1 - Phonetics

**Hours:** 24L/12T

Phonetics is a linguistics course that investigates the sounds most commonly used in languages from an articulatory and acoustic point of view, with practice in their recognition and production. Students will learn the International Phonetic Alphabet (IPA) and practice transcribing a wide variety of speech sounds.

**Exclusion:** LIN228H5, LINB09H3

**Recommended Preparation:** [LIN101H1](#)/[LIN200H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN229H1 - Sound Patterns in Language

**Hours:** 24L/12T

The nature and organization of phonological systems, with practical work in linguistic analysis.

**Prerequisite:** [LIN101H1](#), [LIN228H1](#)

**Exclusion:** LIN229H5, LINB04H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN232H1 - Syntactic Patterns in Language

**Hours:** 24L/12T

The nature and organization of syntactic systems; their relation to semantic systems and the linguistic organization of discourse; practical work in linguistic analysis.

**Prerequisite:** [LIN102H1](#)

**Exclusion:** LIN232H5, LINB06H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN241H1 - Introduction to Semantics

**Hours:** 24L/12T

An introduction to meaning within linguistics and the interpretation of language in context. Topics include logical and semantic relations, pragmatic concepts such as presupposition and implicature, the nature of thematic roles, quantifiers and scope relations, the expressions of temporal and modal relations in natural language.

**Prerequisite:** [LIN102H1](#)

**Exclusion:** LIN237H5, LIN247H5, LINC12H3, FREC12H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN251H1 - Introduction to Sociolinguistics

**Hours:** 24L/12T

How does linguistic variation construct identity? Introduction to recent sociolinguistic literature on language contact, multilingualism, code-switching, expressions of ethnic solidarity and regional identity, sex and gender differentiation, dialect geography, sociophonetics, perceptual dialectology, diffusion of norms in mobile populations, documentation of variation in lesser studied languages, and changes across the life-span.

**Prerequisite:** [LIN101H1](#), [LIN102H1](#)

**Exclusion:** LIN256H5, LINB20H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## LIN302H1 - South American Indigenous Languages

**Previous Course Number:** PRT368H1

**Hours:** 36L

This course is an overview of linguistic diversity in South America, centred on Brazilian indigenous languages and peoples. Students will be introduced to current practices in the maintenance and revitalization of Brazilian indigenous languages and current strategies for empowering indigenous peoples (such as training indigenous filmmakers and music production). We will study aspects of the grammar of Brazilian languages through the analysis of small data sets, and we will discuss the influence of Brazilian indigenous languages on Brazilian Portuguese. Not offered every year.

**Prerequisite:** ([LIN101H1](#), [LIN102H1](#))/[LIN200H1](#)/[ANT253H1](#)

**Exclusion:** [LIN303H1](#), [PRT368H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN303H1 - Central American Indigenous Languages

**Hours:** 36L

This course is about indigenous languages of Central America, focusing on Mayan languages and culture. Students will be introduced to current movements in the maintenance and revitalization of indigenous languages and current strategies for empowering indigenous people (such as training indigenous linguists, music production in indigenous languages, and intercultural bilingual education). Students will also study grammatical features of indigenous languages through the analysis of small data sets, and discuss the contact between indigenous languages and Spanish. Not offered every year.

**Prerequisite:** ([LIN101H1](#), [LIN102H1](#))/[LIN200H1](#)/[ANT253H1](#)

**Exclusion:** [LIN302H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## LIN305H1 - Quantitative Methods in Linguistics

**Hours:** 36L

Principles of research design, data collection, and a wide variety of statistical techniques for research in various subfields of linguistics.

**Prerequisite:** [LIN101H1](#), [LIN102H1](#), 1.0 credit in LIN/JAL/JFL/JLP

**Exclusion:** LIN318H5, LINB29H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## LIN306H1 - Language Diversity and Language Universals

**Hours:** 24L

This linguistics course examines cross-linguistic typological features found in the languages of the world. Special attention is given to describing morphological and syntactic patterns found cross-linguistically. The goal of the course is to draw on the diversity of languages in order to uncover language universals. (Not offered every year)

**Prerequisite:** [LIN232H1](#)

**Exclusion:** LIN476H5, LINC13H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## JLP315H1 - Language Acquisition

**Hours:** 36L

Infants' abilities at birth, prelinguistic development, the first words, phonological, syntactic and semantic development. Social variables influencing language acquisition, bilingualism, models of development, language play. (Sponsored by the Departments of Linguistics and Psychology, but administered solely by the Dept. of Linguistics).

**Prerequisite:** 1.0 credit at the 200+ level in LIN/JAL/JUP/PSL/PSY/COG

**Exclusion:** PSY315H5, PLIC24H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## LIN322H1 - Phonological Theory

**Hours:** 36L

Basic issues in current phonological theory. Problems focusing on analysis and theory. (Students who want to pursue graduate studies in linguistics are strongly advised to include this course in their program.)

**Prerequisite:** [LIN229H1](#)

**Exclusion:** LIN322H5, LIN329H5, LINC02H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## LIN323H1 - Acoustic Phonetics

**Hours:** 24L

This linguistics course is an introduction to the acoustic phonetics of the vocal tract, including acoustic properties of speech and its analysis using instrumental techniques.

**Prerequisite:** [LIN101H1](#), [LIN102H1](#), [LIN228H1](#)

**Exclusion:** LIN328H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JAL328H1 - Writing Systems

**Hours:** 36L

Introduction to writing systems; their historical development, their relationship to language, and their role in culture and society. (Given by the Departments of Anthropology and Linguistics) (Not offered every year)

**Prerequisite:** [ANT100Y1](#)/[LIN101H1](#)/[LIN200H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## LIN331H1 - Syntactic Theory

**Hours:** 36L

A course in syntactic theory and analysis within a current formal framework. (Students who want to pursue graduate

studies in linguistics are strongly advised to include this course in their program.)

**Prerequisite:** [LIN232H1](#)

**Exclusion:** LIN332H5, LINC11H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN333H1 - Morphological Patterns in Language

**Hours:** 36L

The nature and organization of morphological systems, with practical work in linguistic analysis.

**Prerequisite:** [LIN229H1](#), [LIN232H1](#)

**Exclusion:** LIN231H5, LINB10H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN341H1 - Semantic Theory

**Hours:** 36L

This linguistics course focuses on the study of natural language semantics and the relation between interpretation and syntactic structure. Topics include predication and quantification, scope and anaphora, problems of discourse analysis, the interpretation of different types of pronouns, and ellipsis.

**Prerequisite:** [LIN241H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN351H1 - Sociolinguistic Patterns in Language

**Hours:** 24L/12T

In this sociolinguistics course, we explore linguistic variation and its social implications, especially the quantitative study of phonological and grammatical features and their correlations with age, sex, ethnicity, and other social variables.

**Prerequisite:** [LIN251H1](#), or permission of the instructor

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JAL355H1 - Language and Gender

**Hours:** 24L

An introduction to some of the principal questions of feminist theory, as viewed from sociolinguistics. Topics include: socialization into gendered discourse patterns, cultural and ethnic differences in gendered interactions; the role of language and gender in legal, medical and labour settings; multilingualism, migration, imperialism and nationalism; sexuality, desire and queer linguistics, language, gender and globalization.

**Prerequisite:** 1.0 credit at the 200-level in LIN/ANT/JAL/SOC/WGS

**Recommended Preparation:**

[ANT204H1](#)/[ANT253H1](#)/[SOC200H1](#)/[SOC214H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## LIN362H1 - Historical Linguistics

**Hours:** 24L

An introduction to diachronic linguistics. Theories of language change; the comparative method, internal reconstruction, linguistic geography, the origin of languages; language death.

**Prerequisite:** [LIN229H1](#)

**Exclusion:** LIN360H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JLP374H1 - Psychology of Language

**Hours:** 36L

In Psychology of Language, we investigate human and other animal communication, structure of human language, word meaning and semantic memory, psychological studies of syntax, bilingualism, language and thought, language errors and disorders. (Sponsored by the Departments of Linguistics and Psychology, but administered solely by the Dept. of Linguistics).

**Prerequisite:** 1.0 credit from [LIN228H1](#), [LIN229H1](#), [LIN232H1](#), [LIN241H1](#), [PSY260H1](#), [PSY270H1](#), [PSY280H1](#), [PSY290H1](#), [COG250Y1](#)

**Exclusion:** LIN258H5, PSY374H5, PLIC55H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## LIN398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## LIN399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

## JAL401H1 - Field Linguistics

**Hours:** 48P

Field Linguistics provides practice in language analysis based on elicited data from a native speaker of an indigenous or foreign language, emphasizing procedures and techniques. (Given by the Departments of Anthropology and Linguistics)

**Prerequisite:** Completion of [LIN322H1](#) and [LIN331H1](#) or permission of the instructor

**Exclusion:** LIND46H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN402H1 - Linguistic Typology and Constructed Languages

**Hours:** 36L

This course uses constructed languages (e.g., Esperanto, Klingon, Dothraki) to explore crosslinguistic patterns in language structure. Topics include phonological and

morphosyntactic typology, language change over time, effects of culture and environment on language, history of language construction, standards in writing descriptive grammars, and critical analysis of research on language diversity.

**Prerequisite:** 5 required 200-level courses ([LIN228H1](#), [LIN229H1](#), [LIN232H1](#), [LIN241H1](#), [LIN251H1](#)), AND [LIN322H1](#) Phonological Theory OR [LIN331H1](#) Syntactic Theory, or permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN405H1 - Advanced Quantitative Methods in Linguistics

**Hours:** 36L

This course introduces advanced statistical modeling techniques using the statistical software R, tailored specifically to the needs of linguistic research.

**Prerequisite:** [LIN305H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN409H1 - Structure of a Specific Language

**Hours:** 24L

Topics may include: the phonological, morphological, syntactic, and semantic systems; the writing system; a brief diachronic sketch; linguistic variation and sociolinguistic aspects. (Not offered every year).

**Prerequisite:** [LIN228H1](#), [LIN229H1](#), [LIN232H1](#), 1.0 credit at the 300/400- level in LIN/JAL/JFL/JLP/JLS

**Exclusion:** LIN479H5 or LINC61H3 if the same language was analyzed.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN423H1 - Phonetic Analysis

**Hours:** 36S

This course provides students with hands-on experience with main methods of linguistic phonetic (acoustic and articulatory) analysis through project-based group work and training in writing up experimental results.

**Prerequisite:** [LIN323H1](#)

**Exclusion:** LIND09H3

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## LIN429H1 - Research in Phonology

**Hours:** 24S

Research in Phonological Theory, including guided instruction in how to undertake critical reading of primary literature, develop an original topic, write a research paper, an abstract, a handout, and give an oral presentation. Not eligible for CR/NCR option.

**Prerequisite:** [LIN322H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN432H1 - Advanced Morphology

**Hours:** 24L

Current research involving morphology, including the role of morphology in the grammar, the nature of inflectional paradigms, affixes affecting grammatical relations constitute this linguistics course. Each year one topic will be a special focus and will be dealt with at length. (Not offered every year)

**Prerequisite:** [LIN333H1](#)

**Corequisite:** [LIN331H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN439H1 - Research in Syntax

**Hours:** 24S

Research in Syntactic Theory, including guided instruction in how to undertake critical reading of primary literature, develop an original topic, write a linguistics research paper, an abstract, a handout, and give an oral presentation. Not eligible for CR/NCR option. (Not offered every year)

**Prerequisite:** [LIN331H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN441H1 - Advanced Semantics and Pragmatics

**Hours:** 24S

This course covers current research in formal semantics and pragmatics. Topics may vary from year to year. The course is intended to be a seminar-style course; it includes reading primary literature and writing a research paper.

**Prerequisite:** [LIN341H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN451H1 - Urban Dialectology

**Hours:** 24L

Ways in which urban sub-cultures differ in their use of language. How speakers dialects reflect their ethnicity, group affiliation, and other social categories. Practice in dialect analysis based on data from the speech community, emphasizing procedures and techniques.

**Prerequisite:** [LIN351H1](#) plus 2.0 credits at the 200+ level in LIN/JAL/JLP

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## LIN456H1 - Language Variation and Change: Theory and Analysis

**Hours:** 36L

The theory and practice of sociolinguistics. The inter-relationship between language and society from the perspective of collecting, organizing, and analyzing patterns in natural speech data, including field methods and quantitative methods for correlating linguistic and social variables.

**Prerequisite:** [LIN351H1](#)

**Exclusion:** LIN458H5

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## LIN458H1 - Revitalizing Languages

**Hours:** 24L

A study of language endangerment and language revitalization efforts, focusing on Indigenous languages of

Canada. Topics include language classification and a survey of major features of the languages, what it means for a language to be endangered, the factors that contribute to language shift, and efforts to reverse language shift, including discussion of literacy, documentary linguistics and dictionaries.

**Prerequisite:** [LIN101H1](#), [LIN102H1](#) plus 2.0 credits at the 200+ level in LIN/JAL

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JLP471H1 - Advanced Psycholinguistics

**Hours:** 24S

Seminar in advanced topics in psycholinguistics. Content varies from year to year. (Sponsored by the Departments of Linguistics and Psychology, but administered solely by the Dept. of Linguistics).

**Prerequisite:** [JLP374H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JLS472H1 - Child Language Disorders

**Hours:** 36L

Students are introduced to the etiologies and characteristics of speech and language disorders in children, associated with autism, intellectual disabilities, and specific language impairment. Theoretical underpinnings of the major intervention approaches for children with speech and language disorders are discussed. (Given by the Departments of Linguistics and Speech Language Pathology)

**Prerequisite:** [LIN101H1](#), [LIN102H1](#), [LIN228H1](#), and 1.0 credit at the 300+ level

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## JLS473H1 - Adult Speech and Language Disorders

**Hours:** 36L

Students are introduced to the etiologies and characteristics of speech and language disorders in adults, associated with aphasia, neurodegenerative disorders, and head injuries. The effects of

communication handicaps on the individual and theoretical underpinnings of the major intervention approaches for adults are discussed. Given by the Departments of Linguistics and Speech Language Pathology. (Not offered every year)

**Prerequisite:** [LIN101H1](#), [LIN102H1](#), and 1.0 credit at the 300+ level

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## JLS475H1 - Literacy and Reading Disorders

**Hours:** 36L

Literacy and Reading Disorders is an introduction to the typical development of emergent literacy skills, including oral language, phonological awareness, narratives, and emergent writing in children; a discussion of the effects of language disorders on emergent literacy skills; a survey of approaches to intervention for children's emergent literacy skills. Given by the Departments of Linguistics and Speech Language Pathology. (Not offered every year)

**Prerequisite:** [LIN101H1](#), [LIN102H1](#), and 1.0 credit at the 300+ level

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## JLS476H1 - Linguistics in the Workforce: Clinical Practice and Research

**Hours:** 36S

This course exposes students to research and practical approaches in the context of health professions of relevance to linguistics students, especially audiology and speech-language pathology. Students learn about evidence-informed practice, research methodologies, practice approaches and theories in the health professions. Students will be poised to benefit from optional service learning placements during or following the course, in research laboratories or clinical settings. Successful completion of this course provides students with exposure and experience of use in their applications to audiology, speech-language pathology, and other clinical programs and in their future health or graduate studies. Not eligible for CR/NCR option. (Not offered every year).

**Prerequisite:** [LIN101H1](#), [LIN102H1](#), and 1.0 credit at the 200+ level

**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## LIN481H1 - Introduction to Analysis and Argumentation

**Hours:** 36L

Linguistic argumentation, practice in constructing and evaluating hypotheses, and critical evaluation of representative articles. Emphasis on the structure of arguments rather than on the analysis of a particular language.

**Prerequisite:** [LIN322H1](#)/[LIN331H1](#)

**Exclusion:** LIN411H5, LINC10H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN490H1 - Special Topics in Linguistics

**Hours:** 24S

A specific topic in linguistics will be explored in depth in Special Topics in Linguistics. Students will learn about a narrowly-focused area of linguistics, including guided instruction in how to undertake critical reading of primary literature, develop a research topic and write a linguistics research paper. Not eligible for CR/NCR option. (Not offered every year)

**Prerequisite:** 2.0 LIN credits at the 200+ level, of which 1.0 LIN credit must be at the 300+ level. Permission of the instructor will also be required.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## LIN495Y1 - Individual Project

A research or reading project in linguistics undertaken by the student under the supervision of a staff member. Open only when a faculty member is willing and available to supervise. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the Department

## LIN496H1 - Individual Project

A research or reading project in linguistics undertaken by the student under the supervision of a staff member. Open only when a faculty member is willing and available to supervise. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the Department

**Distribution Requirements:** Humanities, Social Science

## LIN497Y1 - Individual Project

A research or reading project in linguistics undertaken by the student under the supervision of a staff member. Open only when a faculty member is willing and available to supervise. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the Department

**Distribution Requirements:** Humanities, Social Science

## LIN498H1 - Individual Project

A research or reading project in linguistics undertaken by the student under the supervision of a staff member. Open only when a faculty member is willing and available to supervise. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the Department

**Distribution Requirements:** Humanities, Social Science

## LIN499H1 - Individual Project

A research or reading project in linguistics undertaken by the student under the supervision of a staff member. Open only when a faculty member is willing and available to supervise. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the Department

**Distribution Requirements:** Humanities, Social Science

# Materials Science

Materials science is the study of the structure, properties and applications of all types of materials including metals, ceramics, glasses and polymers. Currently many exciting scientific developments are in the materials field. Notable advances have been made recently in studies of amorphous metals, the quasicrystalline state, liquid crystals, semiconductors, nanostructured materials, high critical temperature superconductors, biomaterials, high strength polymers, materials processing techniques such as ion implantation and laser melting, and in new categories of engineered materials such as advanced industrial ceramics or composite materials.

Materials science is interdisciplinary, drawing on the basic sciences of chemistry and physics and on more applied subjects such as metallurgy, ceramics and polymer science. Its tools and techniques include electron microscopy, x-ray diffraction, surface analysis using Auger emission spectroscopy, x-ray photoelectron spectroscopy, etc.

Introduction to Materials Science, [MSE101H1](#), is designed to appeal to a wide variety of student interests. Other materials science courses are available to students having the prescribed prerequisites and the approval of the Undergraduate Student Counsellor. The specialist program in Materials Science is coordinated jointly by the Departments of Chemistry and Materials Science and Engineering. For further information on the program, consult the undergraduate coordinators for both departments.

## Materials Science Programs

### Materials Science Specialist (Science Program) - ASSPE2424

Consult Professor Andrew Dicks, Department of Chemistry.

This program draws both on the basic sciences of chemistry and physics, and on the more applied areas such as metallurgy or ceramics. Courses dealing with these latter fields are offered through the Department of Materials Science in the Faculty of Applied Science and Engineering. This would be an appropriate program for students with career interests in solid-state, polymer or composite materials industries, or for graduate work in either chemistry or materials science, with an appropriate

choice of options. Students may follow the Materials Chemistry path by taking the research course [CHM499Y1](#) or the Materials Science and Engineering path by taking the research courses [MSE492H1](#) and [MSE493H1](#).

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### Completed courses (with minimum grades)

The following courses with the stated minimum grades are required:

- ( [CHM135H1](#) and [CHM136H1](#)) (63% in each)/ [CHM151Y1](#) (63%)

#### Completion Requirements:

(14.0 credits, including 1.0 credit from 400-level courses)

#### First Year:

1. [BIO120H1](#)
2. [CHM151Y1](#) (strongly recommended)/ ( [CHM135H1](#) and [CHM136H1](#))
3. ( [MAT135H1](#) and [MAT136H1](#))/ [MAT137Y1](#)/[MAT157Y1](#)
4. [MSE120H1](#)

#### First or Second Year:

1. [BIO130H1](#)/[BIO220H1](#)
2. ( [PHY131H1](#) and [PHY132H1](#))/ ( [PHY151H1](#) and [PHY152H1](#))

#### Second Year and Higher Years:

1. [CHM220H1](#)/[CHM222H1](#)/[MSE202H1](#),  
[CHM223H1](#), [CHM238Y1](#), [CHM247H1](#)/[CHM249H1](#)
2. [MSE219H1](#), ( [MSE218H1](#)/ [MSE318H1](#)),  
[MSE335H1](#)
3. [CHM327H1](#), [CHM338H1](#), [CHM343H1](#)/  
[CHM348H1](#), [CHM325H1](#)/[CHM355H1](#),  
[CHM434H1](#)/[CHM455H1](#), [CHM426H1](#)/  
[CHM457H1](#)
4. At least 1.5 credits from the following, of which 0.5 credit must be at the 400-level: [MSE302H1](#),  
[MSE316H1](#), [MSE343H1](#), [CHM434H1](#)/  
[CHM455H1](#), [CHM446H1](#)/[CHM456H1](#),  
[CHM458H1](#), [MSE415H1](#), [MSE430H1](#),  
( [MSE432H1](#)/ [MSE443H1](#)), [MSE440H1](#),  
[MSE442H1](#), [MSE451H1](#), [MSE458H1](#),  
[MSE459H1](#), [MSE461H1](#)
5. [CHM499Y1](#)/ ( [MSE492H1](#), [MSE493H1](#))

## Regarding Materials Science Courses

### Notes

1. The MSE courses below are administered by the Faculty of Applied Science and Engineering, and are subject to the rules and regulations of that

- Faculty, including those for term dates, examination periods and deferral practices.
2. The CHM courses listed for the Materials Science program are described in the [Chemistry section](#) of this Calendar.
3. Enrollment in MSE courses is done through your own College Registrar. It is not necessary to petition as the courses listed below have been pre-approved for this Specialist Program.
4. Deferment of Final Exams is NOT generally granted in the Faculty of Applied Science and Engineering.

## Materials Science Courses

### MSE120H1 - Materials Engineering, Processing and Application

**Hours:** 38.4L/6.4T/12.8P

This course covers an introduction to the field of materials science and engineering following a design-led approach. Application areas such as stiffness-limited design, fracture-limited design, strength-limited design will be used to guide further investigations into elements of the processing-structure-properties-performance paradigm. Topics covered will include material property charts, computer-aided design and materials selection, crystallographic planes and directions, crystal structures, stiffness, strength, plasticity, yielding, ductility, fracture and fracture toughness, cyclic loading and fatigue, friction and wear, thermal properties of materials, electrical properties, optical properties, materials corrosion, and materials processing.

### MSE218H1 - Phase Transformations

**Hours:** 39L/13T/20P

A key part of MSE is focused on explaining how material systems transform from one condensed phase to another. These phase transformations are a critical aspect of understanding the behaviour of a material. MSE 218 builds on the thermodynamics and phase stability of MSE 202 and runs in parallel to the rates of transformation seen in MSE 217. In MSE 218 we will consider phase transformations in one component, two component, and multicomponent systems. We will look at both diffusional and diffusionless transformations, focusing on the nucleation and growth aspects of each case. Specific examples will include: solidification, precipitation, recrystallization, spinodal, massive, and order-disorder transformations. Both experimental and computational labs will be used to outline specific transformations in more depth.

### MSE219H1 - Structure and Characterization of Materials

**Hours:** 39L/13T/39P

Introduction to two and three-dimensional crystallography and crystal structures of solids. Topics include: Pearson and Hermann-Mauguin symbols, reciprocal space, point group and space group symmetry analysis, stereographic projections. Introduction to tensor analysis of crystalline material properties, and symmetry breakdown by imperfections in crystals. Experimental techniques used to interpret structure and chemistry of solids and their defects will be covered theoretically and in the laboratory including: X-ray diffractometry, optical, electron and scanning probe microscopy, and surface/bulk spectroscopies based on optical, X-ray, electron and ion-beam analysis methods.

### MSE316H1 - Mechanical Behaviour of Materials

**Hours:** 38.4L/12.8T/25.6P

The mechanical behaviour of engineering materials including metals, alloys, ceramics and polymeric materials. The following topics will be discussed: macro- and micro-structural response of materials to external loads; load-displacement and stress-strain relationships, processes and mechanisms of elastic, visco-elastic, plastic and creep deformation, crystallographic aspects of plastic flow, effect of defects on mechanical behaviour, strain hardening theory, strengthening mechanisms and mechanical testing.

### MSE335H1 - Materials Physics

**Hours:** 39L/13T

Application of solid state physics to describe properties of materials. Thermal properties of solids: lattice vibrations (phonons), heat capacity, thermal conductivity. Electrical properties of metals: simple circuits, resistivity of metals (classical and quantum descriptions), Seebeck, Peltier, and Thomson effects. Electrical properties of semiconductors: band structure and occupancy, conductivity, Hall effect, simple devices. Electrical properties of insulators: polarization, capacitance, optical properties, ferroelectric and piezoelectric materials. Magnetic properties: diamagnetism and paramagnetism, ferromagnetic and ferrimagnetic materials, magnetic domains, B-H curves.

## MSE342H1 - Nanomaterials

**Hours:** 26L/13T

An introduction to nanostructured materials. Topics include: the different classes of nanomaterials, synthesis and characterization methods, changes in physical properties on the nanometer scale, areas of application of nanostructured materials and materials issues in nanotechnology. (Quarter term course taught over the entire Fall term, worth .25 credits).

## MSE343H1 - Biomaterials

**Hours:** 26L/13P

Provides an overview of the field of biomaterials, introducing fundamental biological and materials design and selection concepts, and is open to CHE students. Key applications of materials for biomedical devices will be covered, along with an introduction to the expected biological responses. The concept of biocompatibility will be introduced along with the essential elements of biology related to an understanding of this criterion for biomaterial selection and implant design. In addition, structure-property relationships in both biological and bio-inspired materials will be highlighted.

## MSE351H1 - Design and Sim of Materials Processes

**Hours:** 36L/12T/24P

An overview of computer modeling approaches to analyze various macro-scale phenomena involved in materials processing, product design, and manufacturing. These approaches will include weighted residual methods, finite element and finite difference methods, computational fluid

dynamics, and multiphysics simulations. The students will apply these methods to study heat transfer, fluid flow, stress analysis, structural dynamics, and coupled behavior. Practical experience will be provided on commercial finite element (FE) and computer-aided design (CAD) packages such as ANSYS and SOLIDWORKS.

## MSE430H1 - Electronic Materials

**Hours:** 26L/13T

Materials parameters and electronic properties of semiconductors are discussed as basic factors in the engineering of semiconductor devices. Materials parameters are related to preparation and processing methods, and thus to the electronic properties. The implications of materials parameters and properties on selected simple devices are discussed.

## MSE440H1 - Biomaterial Processing and Properties

**Hours:** 39L/13T

Currently used biomaterials for formation of surgical implants and dental restorations include selected metals, polymers, ceramics, and composites. The selection and processing of these materials to satisfy biocompatibility and functional requirements for applications in selected areas will be presented. Materials used for forming scaffolds for tissue engineering, and strategies for repair, regeneration and augmentation of degenerated or traumatized tissues will be reviewed with a focus on biocompatibility issues and required functionality for the intended applications.

**Prerequisite:** [MSE343H1](#)

## MSE451H1 - Advanced Physical Properties of Structural Nanomaterials

**Hours:** 39L/13T/39P

This course deals with the physical properties of bulk nanostructured materials. Included are mechanical properties (elastic behavior, tensile and compressive strength, creep, wear and fatigue properties) electrical properties (electrical transport phenomena, electrical resistivity) magnetic properties (paramagnetic, diamagnetic, soft and hard ferromagnetic, superparamagnetic and antiferromagnetic properties), thermodynamic properties (interfacial enthalpy, thermal

stability, phase transformations, heat capacity). The considerable differences observed for nanocrystalline solids compared to conventional polycrystalline and amorphous solids will be discussed in terms of the microstructural differences for these materials.

## **MSE459H1 - Synthesis of Nanostructured Materials**

**Hours:** 39L/26P

Various synthesis techniques to produce nanostructured materials will be introduced. These include methods involving the vapor phase (physical and chemical vapor deposition, organometallic chemical vapor deposition), the liquid phase (rapid solidification, spark erosion), the solid phase, (mechanical attrition, equal channel deformation) as well techniques producing these structures from solution (electrodeposition, electroless processing, precipitation). Secondary processing techniques to produce final products or devices will also be discussed.

## **MSE461H1 - Engineered Ceramics**

**Hours:** 39L/24T

The unique combinations of physical, electrical, magnetic, and thermomechanical properties exhibited by advanced technical ceramics has led to a wide range of applications including automobile exhaust sensors and fuel cells, high speed cutting tool inserts and ball bearings, thermal barrier coatings for turbine engines, and surgical implants. This course examines the crystal and defect structures which determine the electrical and mass transport behaviours and the effects of microstructure on optical, magnetic, dielectric, and thermomechanical properties. The influence of these structure-property relations on the performance of ceramic materials in specific applications such as sensors, solid oxide fuel cells, magnets, and structural components is explored.

## **MSE498Y1 - Capstone Project: Design of Materials Processes**

**Hours:** 12.8L/25.6T/12.8P

The students, working in small groups complete a project involving design of a materials processing plant, leading to a design report delivered at the conclusion of the course. The topics covered in the lectures and design process include basic materials processing flowsheet for primary processing and recycling of materials, materials and

energy balance of individual units and of overall process flowsheets, use of computer software for flowsheet evaluation, translating process flowsheets to resource and utility requirements, energy analysis, capital/operating cost, basics of equipment sizing, operation scheduling, safety and HAZOP, plant layout, and design for sustainability.

**Exclusion:** CHM499Y1

# Mathematics

## Faculty List

### Professor and Chair of the Department

J. Quastel, MSc, Ph D, FRSC

### Professor and Associate Chair (Research)

S. Alexakis, BA, Ph D

### Professor and Associate Chair (Graduate)

K. Rafi, B Sc, Ph D

### Professor and Associate Chair (Undergraduate)

J. Repka, B Sc, Ph D (U)

### University Professors

J.G. Arthur, MA, Ph D, FRSC, FRS

J. Friedlander, MA, Ph D, FRSC (UTSC)

I.M. Sigal, BA, Ph D, FRSC

### Professors

D. Bar-Natan, B Sc, Ph D

E. Bierstone, MA, Ph D, FRSC

I. Binder, B Sc, M Sc, Ph D (UTM)

J. Bland, M Sc, Ph D

A. Braverman, B Sc, Ph D

A. Burchard, B Sc, Ph D

G. Elliott, B Sc, Ph D, FRSC

M. Goldstein, B Sc, Ph D (UTSC)

M. Gualtieri, B Sc, Ph D

V. Ivrii, MA, Ph D, Dr Math, FRSC

L. Jeffrey, AB, Ph D, FRSC (UTSC)

R. Jerrard, M Sc, Ph D (U), FRSC

J. Kamnitzer, B Sc, Ph D

I.R. Graham, B Sc, Ph D (UTM)

S. Halperin, M Sc, Ph D, FRSC

V. Jurdjevic, MS, PhD

J.W. Lorimer, M Sc, Ph D (U)

E. Mendelsohn, M Sc, Ph D (UTSC)  
 K. Murasugi, MA, D Sc, FRSC  
 P. Rosenthal, MA, Ph D, LLB  
 P. Selick, B Sc, MA, Ph D (UTSC)  
 D.K. Sen, M Sc, Dr s Sc  
 F. D. Tall, AB, Ph D (UTM)

#### Associate Professors Emeriti

N.A. Derzko, B Sc, Ph D  
 S.M. Tanny, B Sc, Ph D (UTM)

#### Associate Professors Emeriti, Teaching Stream

A. Igelfeld, M Sc  
 A. Lam, M Sc

#### Senior Lecturers Emeriti

P. Kergin, Ph D  
 F. Recio, MSc, Ph D

The **Mathematical Applications in Economics and Finance** specialist program is designed to prepare students for direct entry into the world of finance. It can also serve as a gateway to an MBA or a Master of Finance degree, possibly followed by an eventual doctorate.

The **Mathematics and its Applications** specialist programs offer three areas of concentration: teaching, physical science, and probability/statistics. These specialist programs are designed as 'enhanced double majors.' The required courses for these concentrations are almost identical for the first two years, but they diverge in the upper years. Students in these programs can also continue on to graduate studies.

The **Major** and **Minor** programs are intended for students who want to combine mathematical skills with work in other subjects. These programs require less coursework than the specialist programs, but still require the completion of some upper year mathematics courses.

Students interested in becoming K-12 teachers should consider applying to the combined degree program --- a six-year program that leads to an Honours Bachelor of Science (HBSc) from the University of Toronto and a Master of Teaching (MT) from the Ontario Institute for Studies in Education (OISE). The HBSc part of this program involves completing a Math Major, a Minor in Education and Society (offered by Victoria College) and a Minor in an area that would lead to a second "teachable" subject. Please see the Victoria College website for more information.

#### Co-op and Internship Opportunities

The Professional Experience Year (PEY) Co-op Program is available to eligible full-time Specialist and Major students entering their third year of study in Fall 2021. The PEY Co-op program is an optional 12 to 16-month work term providing industrial experience. It gives students an opportunity to apply their skills in the context of a paid internship. *Note:* September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for the PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

The new Arts & Science Internship Program (ASIP) stream is available to students entering their second year of study in Fall 2021 and enrolled in the Mathematics Specialist, Applied Mathematics Specialist, Mathematics & Physics Specialist, Mathematics & Philosophy Specialist, Mathematical Applications in Economics & Finance Specialist, Mathematics & its Applications Specialist, and Mathematics Major.

- Enrolment is limited and requires a supplemental application. Students enrolled in the ASIP stream

## Introduction

Mathematics is the study of shape, quantity, pattern and structure. It serves as a tool for our scientific understanding of the world. Knowledge of mathematics opens gateways to many different professions such as economics, finance, computing, engineering, and the natural sciences. Aside from practical considerations, mathematics can be a highly satisfying intellectual pursuit, with career opportunities in teaching and research.

The department counts many of Canada's leading research mathematicians among its faculty. Our mathematics programs are flexible, allowing students to select courses based on specialization and interest. Contents range from calculus and linear algebra in the non-specialist programs to more advanced topics such as real and complex analysis, ordinary and partial differential equations, differential geometry, topology, commutative algebra, graph theory, mathematical logic, number theory, and functional analysis.

The department offers eight specialist programs in addition to the major and minor programs.

In the **Mathematics, Applied Mathematics, Mathematics and Physics**, and **Mathematics and Philosophy** specialist programs, students acquire an in-depth knowledge and expertise in mathematical reasoning and the language of mathematics, with its emphasis on rigor and precision. These programs are designed for students wishing to pursue graduate studies; most of the graduates of these programs continue on to graduate school with some of them gaining admission to the world's best graduate schools.

will be required to complete mandatory Professional Development programming plus a minimum of 12 and maximum of 20 months of paid, full-time work experience. The time to degree completion for students enrolled in ASIP will normally be 5 years. There is an additional cost to participate in the ASIP stream.

- Students will typically be admitted to the ASIP stream for the Fall term of Year 2 of study, however starting in Fall 2022, in exceptional circumstances students, including transfer students, who enrolled in an eligible program in the Summer after Year 2 can be admitted to the ASIP stream for the Fall of Year 3. Year 3 entry into the program requires prior approval of the Associate Chair, Undergraduate or their designate and the Experiential Learning & Outreach Support (ELOS) Office.
- Further details about ASIP, including eligibility requirements and application procedures, can be found [here](#). Students may also visit the [ASIP webpage](#) or contact the ELOS office at [asip@utoronto.ca](mailto:asip@utoronto.ca).

## Introductory Courses

The Department of Mathematics offers introductory courses for incoming students to foster the development of mathematics skills.

### PUMP Level 1 and PUMP Level 2 (Preparing for University Mathematics Program)

**Both programs** are non-credit courses that equip students with the necessary background knowledge required to succeed in first year mathematics courses. The content for the courses may be viewed at <http://www.math.toronto.edu/cms/undergraduate-program/current-students-ug/pump-courses-2/>.

**PUMP Level 1** provides a quick math review during the months of July and August, for students who would like to take six weeks prior to the start of the first semester to practice pre-calculus math skills. During other terms, it is scheduled as a longer course, for students who have not taken the appropriate high school mathematics prerequisites for university calculus and linear algebra. This course is recommended for any student who wish to close any existing gap between high school math and University level math courses or anyone who wishes to review high school math before attempting University level math or other science courses.

**PUMP Level 2** is an Introduction to Proofs course. The curriculum provides background knowledge that is a preparation for [MAT137Y1](#), [MAT157Y1](#), [MAT240H1](#), [MAT247H1](#), [MAT237Y1](#), and other proof-oriented advanced courses. The course covers the reading and

comprehension of mathematical statements, analyzing definitions and properties, formulation of arguments, and strategies for proofs. This course is recommended for any student who wish to add to their knowledge by joining the group of students who will commence their preparation for the more challenging concepts in the advance analytical programs, during the months of July and August.

Visit <https://www.math.toronto.edu/cms/undergraduate-program/potential-students-ug/> for up-to-date information on the availability of PUMP Level 1 and PUMP Level 2.

If you have questions about the content of these courses, e-mail [1styear@math.toronto.edu](mailto:1styear@math.toronto.edu).

# Mathematics Programs

## Mathematics Specialist (Science Program) - ASSPE1165

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(12.5 credits, including at least 3.0 credits at the 400-level)

The Specialist Program in Mathematics is directed toward students who hope to pursue mathematical research as a career.

Year 1:  
[MAT157Y1](#), [MAT240H1](#), [MAT247H1](#)

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the 2021-2022 Fall/Winter session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

Year 2:  
MAT257Y1, MAT267H1

Year 2 and Higher Years:

1. 0.5 credit with a significant emphasis on ethics and social responsibility: ANT100Y1/ ANT253H1/ CSC300H1/ EEB215H1/ ENT200H1/ ENV100H1/ ENV200H1/ ENV333H1/ ESS205H1/ ETH201H1/ ETH210H1/ ETH220H1/ FOR200H1/ HMB203H1/ HPS200H1/ HPS250H1/ HPS301H1/ HST209H1/ IMC200H1/ JPH441H1/ PHL240H1/ PHL244H1/ PHL265H1/ PHL271H1/ PHL273H1/ PHL275H1/ PHL281H1/ PHL295H1 or another 0.5 credit course approved by the Department.

NOTE: Students may use the CR/NCR option with this 0.5 credit course and have it count toward the Mathematics Specialist program. Students in the VIC program may also use VIC172Y1.

2. MAT327H1

Years 3 and 4:

1. MAT347Y1, MAT354H1, MAT357H1, MAT363H1/ MAT367H1 ( MAT363H1 can be taken in Year 2, if desired)  
2. 2.0 credits of: MAT309H1, MAT351Y1, ANY 400-level APM/MAT  
3. 3.0 credits of APM/MAT at the 300+ level, including at least 2.0 credits at the 400-level (these may include options above not already chosen)  
4. MAT477H1

NOTES:

1. The Department recommends that PHY151H1 and PHY152H1 be taken in the first year, and that CSC148H1 and STA257H1 be taken during the program. If you do not have a year-long course in programming from high school, the Department strongly recommends that you take CSC108H1 prior to CSC148H1.

2. Students planning to take specific 400-level courses should ensure that they have the necessary prerequisites.

3. Students may apply to have graduate level math courses count towards their 400-level course requirements.

## Applied Mathematics Specialist (Science Program) - ASSPE2053

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(13.0-13.5 credits, including at least 1.5 credits at the 400-level)

The Specialist Program in Applied Mathematics is directed toward students who hope to pursue applied mathematical research as a career.

Year 1:  
MAT157Y1, MAT240H1, MAT247H1, ( CSC108H1, CSC148H1)

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

Year 2:  
MAT257Y1, MAT267H1, STA257H1, STA261H1

Year 2 and Higher Years:

1. 0.5 credit with a significant emphasis on ethics and social responsibility: ANT100Y1/ ANT253H1/ CSC300H1/ EEB215H1/ ENT200H1/ ENV100H1/ ENV200H1/ ENV333H1/ ESS205H1/ ETH201H1/ ETH210H1/ ETH220H1/ FOR200H1/ HMB203H1/ HPS200H1/ HPS250H1/ HPS301H1/ HST209H1/ IMC200H1/ JPH441H1/ PHL240H1/ PHL244H1/ PHL265H1/ PHL271H1/ PHL273H1/ PHL275H1/ PHL281H1/ PHL295H1 or another 0.5 credit course approved by the Department.

NOTE: Students may use the CR/NCR option with this 0.5 credit course and have it count toward the program. Students in the VIC program may also use VIC172Y1.

Years 3 and 4:

1. MAT351Y1, MAT327H1, MAT347Y1, MAT354H1, MAT357H1, MAT363H1/MAT367H1 (MAT363H1 can be taken in the second year, if desired), STA347H1
2. At least 1.5 credits chosen from: MAT332H1, MAT344H1, MAT454H1, MAT457H1, MAT458H1, MAT464H1, STA302H1, STA457H1, CSC336H1, CSC436H1, CSC446H1, CSC456H1
3. 1.0 credit from: APM421H1, APM426H1, APM441H1, APM446H1, APM461H1, APM462H1, APM466H1
4. MAT477H1

NOTES:

1. The Department recommends that PHY151H1 and PHY152H1 be taken in the first year, and that CSC148H1 and STA257H1 be taken during the program. If you do not have a year-long course in programming from high school, the Department strongly recommends that you take CSC108H1 prior to CSC148H1.

2. Students planning to take specific 400-level courses should ensure that they have the necessary prerequisites.

3. Students may apply to have graduate level math courses count towards their 400-level course requirements.

## Mathematics and Physics Specialist (Science Program) - ASSPE0397

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(14.5-15.5 credits, including at least 1.0 credit at the 400-level)

Year 1:

MAT157Y1, MAT240H1, MAT247H1, PHY151H1, PHY152H1

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

Year 2:

MAT257Y1, MAT267H1, PHY224H1, PHY250H1, PHY252H1, PHY254H1, PHY256H1

Year 2 and Higher Years:

1. 0.5 credit with a significant emphasis on ethics and social responsibility: ANT100Y1/ANT253H1/CSC300H1/EEB215H1/ENT200H1/ENV100H1/ENV200H1/ENV333H1/ESS205H1/ETH201H1/ETH210H1/ETH220H1/FOR200H1/HMB203H1/HPS200H1/HPS250H1/HPS301H1/HST209H1/IMC200H1/JPH441H1/PHL240H1/PHL244H1/PHL265H1/PHL271H1/PHL273H1/PHL275H1/PHL281H1/PHL295H1 or another 0.5 credit course approved by the Department.

NOTE: Students may use the CR/NCR option with this 0.5 credit course and have it count toward the program. Students in the VIC program may also use VIC172Y1.

Year 3:

1. MAT351Y1, MAT334H1/MAT354H1, MAT357H1
2. One of: MAT327H1, MAT347Y1, MAT363H1/MAT367H1 (MAT363H1 can be taken in the second year, if desired)
3. PHY324H1, PHY350H1, PHY354H1, PHY356H1

Year 4:

1. Two of: APM421H1, APM426H1, APM446H1, APM441H1
2. Two of: PHY450H1, PHY452H1, PHY454H1, PHY456H1, PHY460H1
3. One of: MAT477H1, PHY424H1, PHY478H1, PHY479Y1

NOTES:

1. Students who are intending to apply to graduate schools in mathematics would be well-advised to take MAT347Y1.
2. Students planning to take specific 400-level courses should ensure that they have the necessary prerequisites.
3. Students may apply to have graduate level math courses count towards their 400-level course requirements.

## Mathematics and Philosophy Specialist (Science Program) - ASSPE1361

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

Consult the Undergraduate Coordinators of the Departments of Mathematics and Philosophy.

(12.0 credits including at least 1.0 credit at the 400-level)

Year 1:

MAT157Y1, MAT240H1, MAT247H1; One of PHL232H1, PHL233H1, PHL255H1

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

Higher Years:

1. MAT257Y1, MAT327H1, MAT347Y1, MAT354H1/  
MAT357H1
2. PHL345H1, MAT309H1/ PHL348H1
3. Four of: PHL325H1, PHL331H1, PHL332H1,  
PHL346H1/ PHL354H1, PHL347H1, PHL349H1,  
PHL355H1, PHL451H1, PHL480H1
4. 1.0 credit from PHL200Y1/ PHL205H1/ PHL206H1/  
PHL210Y1
5. PHL265H1/ PHL275H1
6. 2.0 credits of PHL/APM/MAT at the 300+ level, to a total of 12.0 credits.

NOTE: Students may apply to have graduate level math courses count towards their 400-level course requirements.

## Mathematical Applications in Economics and Finance Specialist (Science Program) - ASSPE1700

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(12.0-12.5 credits, including at least 1.5 credits at the 400-level)

Year 1:

ECO100Y/( ECO101H1, ECO102H1), MAT137Y1/  
MAT157Y1 (see NOTE 1), MAT223H1, MAT224H1

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

***(Please check the requirements for ECO206Y1 to ensure that you pass these first year courses with grades that allow registration in ECO206Y1)***

Year 2:

ECO206Y1, MAT237Y1, MAT244H1, MAT246H1 (see NOTE 1), STA257H1, STA261H1

Year 2 and Higher Years:

0.5 credit with a significant emphasis on ethics and social responsibility: ANT100Y1/ ANT253H1/ CSC300H1/  
EEB215H1/ ENT200H1/ ENV100H1/ ENV200H1/  
ENV333H1/ ESS205H1/ ETH201H1/ ETH210H1/  
ETH220H1/ FOR200H1/ HMB203H1/ HPS200H1/  
HPS250H1/ HPS301H1/ HST209H1/ IMC200H1/  
JPH441H1/ PHL240H1/ PHL244H1/ PHL265H1/  
PHL271H1/ PHL273H1/ PHL275H1/ PHL281H1/  
PHL295H1 or another 0.5 credit course approved by the Department.

Note: Students may use the CR/NCR option with this 0.5 credit course and have it count toward the program. Students in the VIC program may also use VIC172Y1.

Year 3:

1. APM346H1, ECO358H1, ECO359H1, MAT337H1,  
STA302H1/ ECO375H1, STA347H1
2. One of: MAT332H1, MAT344H1, MAT334H1,  
MAT475H1

Year 4:

APM462H1, APM466H1, STA457H1

NOTES:

1. Students who have completed MAT157Y1 are waived from completing MAT246H1.
2. Students planning to take specific 400-level courses should ensure that they have the necessary prerequisites.
3. Please note that STA457H1 lists STA302H1 as one of the prerequisites, so you are encouraged to plan ahead.

## Mathematics & Its Applications Specialist (Physical Science) (Science Program) - ASSPE1758

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(12.0- 13.5 credits, including at least 1.0 credit at the 400-level)

### Core Courses:

#### Year 1:

CSC108H1, CSC148H1, MAT137Y1/ MAT157Y1 (see NOTE 1), MAT223H1/ MAT240H1, MAT224H1/ MAT247H1 (recommended, can also be taken in second year)

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

#### Year 2:

MAT235Y1/ MAT237Y1/ MAT257Y1, MAT246H1 (see NOTE 1), MAT244H1/ MAT267H1, STA257H1

#### NOTE:

1. Students who have completed MAT157Y1 are waived from completing MAT246H1.

#### Year 2 and Higher Years:

0.5 credit with a significant emphasis on ethics and social responsibility: ANT100Y1/ ANT253H1/ CSC300H1/ EEB215H1/ ENT200H1/ ENV100H1/ ENV200H1/ ENV333H1/ ESS205H1/ ETH201H1/ ETH210H1/ ETH220H1/ FOR200H1/ HMB203H1/ HPS200H1/ HPS250H1/ HPS301H1/ HST209H1/ IMC200H1/ JPH441H1/ PHL240H1/ PHL244H1/ PHL265H1/ PHL271H1/ PHL273H1/ PHL275H1/ PHL281H1/ PHL295H1 or another 0.5 credit course approved by the Department.

Note: Students may use the CR/NCR option with this 0.5 credit course and have it count toward the program. Students in the VIC program may also use VIC172Y1.

#### Higher Years:

MAT301H1, MAT334H1

#### NOTE:

2. Students planning to take specific 400-level courses should ensure that they have the necessary prerequisites.

### Physical Sciences Concentration:

1. PHY151H1, PHY152H1, AST221H1
2. Three of: AST222H1, PHY250H1, PHY252H1, PHY254H1, PHY256H1
3. APM346H1/ MAT351Y1
4. Three of: AST320H1, AST325H1, MAT337H1, MAT363H1/ MAT367H1, PHY350H1, PHY354H1, PHY356H1, PHY357H1, PHY358H1
5. Two of: APM421H1, APM426H1, APM441H1, APM446H1, PHY407H1, PHY408H1, PHY456H1

## Mathematics & Its Applications Specialist (Probability/Statistics) (Science Program) - ASSPE1890

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(11.5-13.0 credits, including at least 1.0 credit at the 400-level)

### Core Courses:

#### Year 1:

( CSC108H1, CSC148H1), MAT137Y1/ MAT157Y1 (see NOTE 1), MAT223H1/ MAT240H1, MAT224H1/ MAT247H1

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of

Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

Year 2:

MAT235Y1/ MAT237Y1/ MAT257Y1, MAT246H1 (see NOTE 1), MAT244H1/ MAT267H1, STA257H1

NOTE:

1. Students who have completed MAT157Y1 are waived from completing MAT246H1.

Year 2 and Higher Years:

0.5 credit with a significant emphasis on ethics and social responsibility: ANT100Y1/ ANT253H1/ CSC300H1/ EEB215H1/ ENT200H1/ ENV100H1/ ENV200H1/ ENV333H1/ ESS205H1/ ETH201H1/ ETH210H1/ ETH220H1/ FOR200H1/ HMB203H1/ HPS200H1/ HPS250H1/ HPS301H1/ HST209H1/ IMC200H1/ JPH441H1/ PHL240H1/ PHL244H1/ PHL265H1/ PHL271H1/ PHL273H1/ PHL275H1/ PHL281H1/ PHL295H1 or another 0.5 credit course approved by the Department.

Note: Students may use the CR/NCR option with this 0.5 credit course and have it count toward the program. Students in the VIC program may also use VIC172Y1.

Higher Years:

MAT301H1, MAT334H1

NOTE:

2. Students planning to take specific 400-level courses should ensure that they have the necessary prerequisites.

#### Probability/Statistics Concentration:

1. APM346H1/ MAT351Y1/ APM462H1, MAT337H1, STA261H1, STA302H1, STA347H1, ( STA452H1, STA453H1)/ MAT332H1/ MAT344H1/ APM348H1/ MAT377H1/ APM461H1/any 0.5 or 1.0 credit 300+level course from STA.
2. Additional 1.0 credit at the 300+ level from APM/MAT/STA
3. Two of: STA437H1, STA442H1, STA447H1, STA457H1

## Mathematics & Its Applications Specialist (Teaching) (Science Program) - ASSPE1580

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(11.5-12.0 credits, including at least 1.0 credit at the 400-level)

Core Courses:

Year 1:

CSC108H1, MAT137Y1/ MAT157Y1 (see NOTE 1), MAT223H1/ MAT240H1, MAT224H1/ MAT247H1 (recommended, can also be taken in Year 2)

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

Year 2:

MAT235Y1/ MAT237Y1/ MAT257Y1, MAT246H1 (see NOTE 1), MAT244H1/ MAT267H1, STA257H1

Year 2 and Higher Years:

0.5 credit with a significant emphasis on ethics and social responsibility: ANT100Y1/ ANT253H1/ CSC300H1/ EEB215H1/ ENT200H1/ ENV100H1/ ENV200H1/ ENV333H1/ ESS205H1/ ETH201H1/ ETH210H1/ ETH220H1/ FOR200H1/ HMB203H1/ HPS200H1/ HPS250H1/ HPS301H1/ HST209H1/ IMC200H1/ JPH441H1/ PHL240H1/ PHL244H1/ PHL265H1/ PHL271H1/ PHL273H1/ PHL275H1/ PHL281H1/ PHL295H1 or another 0.5 credit course approved by the Department.

Note: Students may use the CR/NCR option with this 0.5 credit course and have it count toward the program. Students in the VIC program may also use VIC172Y1.

Higher Years:

MAT301H1, MAT334H1

NOTES:

1. Students who have completed MAT157Y1 are waived from completing MAT246H1.
2. MAT237Y1/ MAT257Y1 is a direct or indirect prerequisite for many courses in each of the areas of concentration except the Teaching Concentration. Students are advised to take MAT237Y1/ MAT257Y1 unless they have planned their program and course selection carefully and are certain that they will not need

it.

3. Students planning to take specific 400-level courses should ensure that they have the necessary prerequisites.

### Teaching Concentration:

For course selection, note that OISE requires students to have a second teachable subject.

1. [MAT329Y1](#), [HPS390H1](#)/ [MAT390H1](#), [HPS391H1](#)/[MAT391H1](#)
2. Two of: [MAT332H1](#)/ [MAT344H1](#), [MAT335H1](#), [MAT337H1](#), [MAT363H1](#)/ [MAT367H1](#)
3. Two of: [MAT309H1](#), [MAT315H1](#), [STA302H1](#)/[STA347H1](#)
4. [MAT401H1](#)/ [MAT402H1](#) and 0.5 credit at the 400-level from MAT, APM, STA

## Mathematics Major (Science Program) - ASMAJ1165

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(7.5 credits, including 2.5 credits at the 300+ level, of which one 0.5 credit must be at the 400-level).

Year 1:

( [MAT135H1](#), [MAT136H1](#))/ [MAT137Y1](#)/ [MAT157Y1](#), [MAT223H1](#)/ [MAT240H1](#), [MAT224H1](#)/ [MAT247H1](#)

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the [Arts & Science Internship Program](#) stream.

Year 2:

[MAT235Y1](#)/ [MAT237Y1](#)/ [MAT257Y1](#), [MAT244H1](#), [MAT246H1](#)

Note: [MAT224H1](#) may be taken in first year

Year 2 and Higher Years:

0.5 credit with a significant emphasis on ethics and social responsibility: [ANT100Y1](#)/ [ANT253H1](#)/ [CSC300H1](#)/[EEB215H1](#)/ [ENT200H1](#)/ [ENV100H1](#)/ [ENV200H1](#)/[ENV333H1](#)/ [ESS205H1](#)/ [ETH201H1](#)/ [ETH210H1](#)

[ETH220H1](#)/ [FOR200H1](#)/ [HMB203H1](#)/ [HPS200H1](#)/[HPS250H1](#)/ [HPS301H1](#)/ [HST209H1](#)/ [IMC200H1](#)/[JPH441H1](#)/ [PHL240H1](#)/ [PHL244H1](#)/ [PHL265H1](#)/[PHL271H1](#)/ [PHL273H1](#)/ [PHL275H1](#)/ [PHL281H1](#)/[PHL295H1](#) or another 0.5 credit course approved by the Department.

Note: Students may use the CR/NCR option with this 0.5 credit course and have it count toward the program. Students in the VIC program may use [VIC172Y1](#).

Higher Years:

1. [MAT301H1](#), [MAT309H1](#)/ [MAT315H1](#), [MAT334H1](#)
2. Additional 0.5 credit at the 200+ level from: [ACT240H1](#)/[ACT230H1](#)/ [APM236H1](#), [MAT309H1](#)/ [MAT315H1](#)/[MAT335H1](#)/ [MAT337H1](#), [STA247H1](#)/ [STA257H1](#)
3. Additional 0.5 credit at the 300+ level from: [APM346H1](#), [APM462H1](#), [MAT309H1](#), [MAT315H1](#), [MAT332H1](#)/[MAT344H1](#), [MAT335H1](#), [MAT337H1](#), [MAT363H1](#), [MAT475H1](#), [HPS390H1](#), [HPS391H1](#), [PSL432H1](#)
4. [MAT401H1](#)/ [MAT402H1](#) or any other MAT/APM 400-level course

NOTES:

1. Students using [MAT157Y1](#) towards the first year program requirements must replace the exclusion course [MAT246H1](#) with a different 0.5 credit MAT/APM course at the 200+ level.
2. In the major program, higher level courses within the same topic are acceptable substitutions. With a judicious choice of courses, usually including introductory computer science, students can fulfill the requirements for a double major in mathematics and one of several other disciplines.
3. Students planning to take specific 400-level courses should ensure that they have the necessary prerequisites.
4. Students interested in becoming K-12 teachers should consider applying to the combined degree program --- a six-year program that leads to an Honours Bachelor of Science (HBSc) from the University of Toronto and a Master of Teaching (MT) from the Ontario Institute for Studies in Education (OISE). The HBSc part of this program involves completing a Math Major, a Minor in Education and Society (offered by Victoria College) and a Minor in an area that would lead to a second "teachable" subject. Please see the Victoria College website for more information.

## Mathematics Minor (Science Program) - ASMIN1165

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

**Completion Requirements:**

(4.0 credits)

1. ([MAT135H1](#), [MAT136H1](#))/ [MAT137Y1](#)/ [MAT157Y1](#)2. [MAT221H1](#)(80%+)/ [MAT223H1](#)/ [MAT240H1](#),  
[MAT235Y1](#)/ [MAT237Y1](#)/ [MAT257Y1](#), [MAT224H1](#)/  
[MAT244H1](#)/ [MAT246H1](#)/ [APM236H1](#)/ [MAT247H1](#)Note: [MAT221H1](#)/ [MAT223H1](#) should be taken in first year3. Additional 1.0 credit at the 300+ level from [APM/MAT/HPS390H1](#)/ [HPS391H1](#)/ [PSL432H1](#) [note that [APM306Y1](#) will be counted as a 0.5 credit towards this requirement]**NOTE:**

1. In the minor program, higher level courses within the same topic are acceptable substitutions.
2. Students planning to take specific 300 and 400-level courses should ensure that they have the necessary 100, 200 and 300-level prerequisites.
3. [APM306Y1](#) will be counted as a 0.5 credit for Society and its Institutions (BR=3) and a 0.5 credit for The Physical and Mathematical Universes (BR=5).

## Mathematics Courses

### MAT133Y1 - Calculus and Linear Algebra for Commerce

**Hours:** 72L

Mathematics of finance. Matrices and linear equations. Review of differential calculus; applications. Integration and fundamental theorem; applications. Introduction to partial differentiation; applications.

NOTE: please note Prerequisites listed below. Students without the proper prerequisites for [MAT133Y1](#) may be deregistered from this course.

**Note that MAT133Y is not a valid prerequisite for a number of more advanced quantitative courses. Students who are considering a quantitative non-Commerce program, such as a math minor or a stats minor, may want to consider MAT135H and MAT136H, MAT137Y, or MAT157Y instead of MAT133Y. Specifically, a student who took MAT133Y may need to subsequently take MAT135H and MAT136H as "extra" or take MAT137Y or MAT157Y in order to proceed in non-Commerce programs.**

## Combined Degree Program (CDP) offered with Victoria College and Ontario Institute for Studies in Education (OISE)

- Combined Degree Program in HBA/HBSc and Master of Teaching (MT)

Students enrolled in the Minor in Education and Society and Major in Mathematics may apply for this Combined Degree Program. For details about application and program requirements, see the [Combined Degree Programs section](#).

## Joint Programs

- Economics and Mathematics, see [Economics](#)
- Statistics and Mathematics, see [Statistics](#)
- Combined Degree Program: STG, Honours Bachelor of Science, Major in Mathematics / Master of Teaching

**Prerequisite:** High school level calculus

**Exclusion:** [MAT135H1](#), [MAT135H5](#), [MAT136H1](#), [MAT136H5](#), [MAT137Y1](#), [MAT157Y1](#), [MATA30H3](#), [MATA31H3](#), [MATA32H3](#), [MATA33H3](#), [MATA35H3](#), [MATA36H3](#), [MATA37H3](#), [MAT133Y5](#), [MAT134Y5](#), [MAT135Y5](#), [MAT137Y5](#), [MAT138Y5](#), [MAT186H](#), [MAT187H](#), [MAT196H](#) & [MAT197H](#), [ESC194H](#), [ESC195H](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

### MAT135H1 - Calculus I

**Hours:** 36L/12T

In this first introduction to Calculus, students will be introduced to the tools of differential calculus, the branch of calculus that is motivated by the problem of measuring how quantities change. Students will use these tools to solve other problems, including simplifying functions with straight lines, describing how different types of change are related, and computing maximum and minimum quantities. This course will focus on developing a deep understanding of why the tools of calculus make sense and how to apply them to the social, biological, and physical sciences. It will also emphasize translating between algebraic, graphical, numerical and verbal descriptions of each concept studied.

**Prerequisite:** High school level calculus

**Exclusion:** MAT133Y1, MAT135H5, MAT136H1, MAT136H5, MAT137Y1, MAT157Y1, MATA30H3, MATA31H3, MATA32H3, MATA33H3, MATA35H3, MATA36H3, MATA37H3, MAT133Y5, MAT134Y5, MAT135Y5, MAT137Y5, MAT138Y5, MAT186H, MAT187H, MAT196H, MAT197H, ESC194H, ESC195H

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT136H1 - Calculus II

**Hours:** 36L/12T

This second part of the introductory Calculus sequence focuses on integral calculus beginning with the Fundamental Theorem of Calculus, the connection between two seemingly unrelated problems: measuring changing quantities and finding areas of curved shapes. Students will develop a deep understanding of the integral, and use it to: unpack equations involving derivatives; to make sense of infinite sums; to write complicated functions as 'infinite polynomials'; and to compute areas, volumes, and totals in applied problems. This course will further develop students' abilities to translate between algebraic, graphical, numerical, and verbal descriptions of mathematics in a variety of applied contexts.

**Prerequisite:** MAT135H1

**Exclusion:** MAT133Y1, MAT137Y1, MAT157Y1, MATA32H3, MATA33H3, MATA36H3, MATA37H3, MAT133Y5, MAT134Y5, MAT135Y5, MAT137Y5, MAT138Y5, MAT186H, MAT187H, MAT196H, MAT197H, ESC194H, ESC195H.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT137Y1 - Calculus with Proofs

**Hours:** 72L/24T

A conceptual approach for students with a serious interest in mathematics. Attention is given to computational aspects as well as theoretical foundations and problem solving techniques. Review of Trigonometry. Limits and continuity, mean value theorem, inverse function theorem, differentiation, integration, fundamental theorem of calculus, elementary transcendental functions, Taylor's theorem, sequence and series, power series. Applications.

**Prerequisite:** High school level calculus

**Exclusion:** MAT135H1, MAT135H5, MAT136H1, MAT136H5, MAT157Y1, MATA35H3, MATA36H3, MATA37H3, MAT135Y5, MAT137Y5, MAT138Y5,

MAT187H, MAT196H, MAT197H, ESC194H, ESC195H.

Students will receive credit for both MAT137Y1 and MAT138H1 if MAT138H1 is taken before or along with MAT137Y1.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT138H1 - Introduction to Proofs

**Hours:** 36L/12T

The goal of this course is for students to become comfortable with abstraction, rigour, logic, and proofs. They will practice reading and understanding mathematical statements, analyzing definitions and properties, formulating conjectures and generalizations, providing and writing reasonable and precise arguments, writing and critiquing proofs. The instructor may use specific mathematical content, which could vary from year to year, to practice these skills. The course is aimed at students interested in the creative character of mathematics, particularly those planning to take any of our proof-oriented courses, and is an excellent preparation for MAT137Y1, MAT157Y1, or MAT240H1.

Note: students may take this course concurrently with MAT157Y1 or MAT137Y1, or prior to registering in MAT157Y1 or MAT137Y1. This course can also be used by students who have already taken MAT136H1 and wish to bridge the gap to MAT237Y1.

**Prerequisite:** High school level calculus

**Exclusion:** MAT157Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT157Y1 - Analysis I

**Hours:** 72L/48T

A theoretical course in calculus; emphasizing proofs and techniques, as well as geometric and physical understanding. Trigonometric identities. Limits and continuity; least upper bounds, intermediate and extreme value theorems. Derivatives, mean value and inverse function theorems. Integrals; fundamental theorem; elementary transcendental functions. Techniques of integration. Taylor's theorem; sequences and series; uniform convergence and power series.

**Prerequisite:** High school level calculus

**Exclusion:** MAT137Y1, MATA37H3, MAT137Y5, MAT157Y5, MAT197H1, ESC195H1.

**Recommended Preparation:** Students should consider taking the Preparing for University Math Level II in order to prepare in advance for [MAT157Y1](#). Students may also take [MAT138H1](#) concurrently with [MAT157Y1](#). Students will receive credit for both [MAT157Y1](#) and [MAT138H1](#) if [MAT138H1](#) is taken before or along with [MAT157Y1](#).

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JMB170Y1 - Biology, Models, and Mathematics

**Hours:** 48L/24T

Applications of mathematics to biological problems in physiology, genetics, evolution, growth, population dynamics, cell biology, ecology, and behaviour. Mathematical topics include: power functions and regression; exponential and logistic functions; binomial theorem and probability; calculus, including derivatives, max/min, integration, areas, integration by parts, substitution; differential equations, including linear constant coefficient systems; dynamic programming; Markov processes; and chaos. This course is intended for students in Life Sciences.

**Corequisite:** [BIO120H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT192H1 - Liberating Mathematics

**Hours:** 36L

Currently, mathematics is at a crossroads between tradition and progress. Progress has been led in large part by women mathematicians, in particular Black women, Indigenous women, and women from visible minorities. Intertwined in their studies of mathematics is a daring critique of traditional mathematics, re-imagining of mathematics culture, and more. This course will compare and contrast new forms of accessible mathematics with standard sources that draw dominantly on the experiences and narratives of men. Restricted to first-year students. Not eligible for CR/NCR option.

**Prerequisite:** High school level algebra.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT193H1 - Women's Mathematics

**Hours:** 36S

Mathematics has been shaped in significant ways by the work of outstanding female mathematicians such as Hypatia, Emmy Noether, Sofia Kovalevskaya, and Maryam Mirzakhani. Despite these successes, women still experience barriers to entering the field and participating at the highest levels. This course will blend an exploration of mathematics created by women with a study of the issue of women in mathematics. Students will have the opportunity to examine the complex factors that impact women's participation in STEM, learn about the lives of female mathematicians, create their own mathematics, and sharpen their spatial cognition and logical thinking skills. Restricted to first-year students. Not eligible for CR/NCR option.

**Prerequisite:** High school level algebra.

**Exclusion:** Not intended for students in a Mathematics Specialist or Major program.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT198H1 - Cryptology: The Mathematics of Secrecy and Security

**Hours:** 24S

How do we send our own confidential information through secure channels, and how can we break codes to uncover the secret information of our adversaries? The mathematical field of cryptology is dedicated to answering such questions. In this course we will study breakthroughs in cryptology, from secret messages in the ancient world and the Enigma cipher in World War II, to modern cryptosystems that facilitate online commerce. Along the way, you will develop a sophisticated understanding of how numbers interact and develop the ability to communicate messages secretly and mathematics clearly. Restricted to first-year students. Not eligible for CR/NCR option.

**Prerequisite:** High school level algebra.

**Exclusion:** Not intended for students in a Mathematics Specialist or Major program.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT199H1 - Aha! Mathematical Discovery and Creative Problem Solving

**Hours:** 36S

This course is an exploration into the creative process and use of imagination as they arise in the context of mathematical problem solving. The problems, which are

all at a pre-calculus level, are chosen primarily by the criterion of aesthetic appeal, and emphasize reasoning rather than technique. Still, many of them are quite challenging, and substantial independent thinking will be required, the course is therefore appropriate for students from a variety of backgrounds and disciplines, including hard sciences. Its goal will be to hone each participant's creativity and mathematical problem-solving skills while guiding them towards the 'Aha!' experience which accompanies independent discovery. Restricted to first-year students. Not eligible for CR/NCR option.

**Prerequisite:** High school level algebra

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JUM202H1 - Mathematics as an Interdisciplinary Pursuit

**Hours:** 24L/12T

study of the interaction of mathematics with other fields of inquiry: how mathematics influences, and is influenced by, the evolution of science and culture. Art, music, and literature, as well as the more traditionally related areas of the natural and social sciences may be considered. (Offered every three years)

JUM202H1 is particularly suited as a Science Distribution Requirement course for Humanities and Social Science students.

**Exclusion:** JUM102H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JUM203H1 - Mathematics as a Recreation

**Hours:** 24L/12T

A study of games, puzzles and problems focusing on the deeper principles they illustrate. Concentration is on problems arising out of number theory and geometry, with emphasis on the process of mathematical reasoning. Technical requirements are kept to a minimum. A foundation is provided for a continuing lay interest in mathematics. (Offered every three years)

JUM203H1 is particularly suited as a Science Distribution Requirement course for Humanities and Social Science students.

**Exclusion:** JUM103H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JUM205H1 - Mathematical Personalities

**Hours:** 24L/12T

An in-depth study of the life, times and work of several mathematicians who have been particularly influential. Examples may include Newton, Euler, Gauss, Kowalewski, Hilbert, Hardy, Ramanujan, Gödel, Erdős, Coxeter, Grothendieck. (Offered every three years)

JUM205H1 is particularly suited as a Science Distribution Requirement course for Humanities and Social Science students.

**Exclusion:** JUM105H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT221H1 - Applied Linear Algebra

**Hours:** 36L/12T

An application-oriented approach to linear algebra, based on calculations in standard Euclidean space. Systems of linear equations, matrices, Gauss-Jordan elimination, subspaces, bases, orthogonal vectors and projections. Matrix inverses, kernel and range, rank-nullity theorem. Determinants, eigenvalues and eigenvectors, Cramer's rule, diagonalization. This course has strong emphasis on building computational skills in the area of algebra. Applications to curve fitting, economics, Markov chains and cryptography.

**Prerequisite:** High school level calculus

**Exclusion:** MAT223H1, MATA23H3, MAT223H5, MAT224H1, MAT240H1, MAT240H5, MAT247H1, MAT247H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT223H1 - Linear Algebra I

**Hours:** 36L/12T

Systems of linear equations, matrix algebra, real vector spaces, subspaces, span, linear dependence and independence, bases, rank, inner products, orthogonality, orthogonal complements, Gram-Schmidt, linear

transformations, determinants, Cramer's rule, eigenvalues, eigenvectors, eigenspaces, diagonalization.

**Prerequisite:** High school level calculus

**Exclusion:** MATA22H3, MATA23H3, MAT223H5, MAT224H1, MAT240H1, MAT240H5, MAT247H1, MAT247H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT224H1 - Linear Algebra II

**Hours:** 36L/12T

Fields, complex numbers, vector spaces over a field, linear transformations, matrix of a linear transformation, kernel, range, dimension theorem, isomorphisms, change of basis, eigenvalues, eigenvectors, diagonalizability, real and complex inner products, spectral theorem, adjoint/self-adjoint/normal linear operators, triangular form, nilpotent mappings, Jordan canonical form.

**Prerequisite:**

MAT221H1(80%)/MAT223H1/MAT240H1/MATA22H3

**Exclusion:** MAT247H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT235Y1 - Multivariable Calculus

**Hours:** 72L

Parametric equations and polar coordinates. Vectors, vector functions and space curves. Differential and integral calculus of functions of several variables. Line integrals and surface integrals and classic vector calculus theorems. Examples from life sciences and physical science applications.

**Prerequisite:**

(MAT135H1/MAT135H5/MATA30H3/MATA31H3, MAT136H1/MAT136H5/MATA36H3/MATA37H3)/MAT135Y5/MAT137Y1/MAT137Y5/MAT157Y1/MAT157Y5

**Exclusion:** MAT237Y1, MAT257Y1, MATB41H3, MATB42H3, MAT232H5, MAT233H5, MAT236H5, MAT368H5, MAT291H & MAT294H

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM236H1 - Applications of Linear Programming

**Hours:** 36L

Introduction to linear programming including a rapid review of linear algebra (row reduction, matrix inversion, linear independence), the simplex method with applications, the duality theorem, complementary slackness, the dual simplex method and the revised simplex method.

**Prerequisite:** MAT221H1/MAT223H1/MAT240H1 (Note: no waivers of prerequisites will be granted)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT237Y1 - Multivariable Calculus with Proofs

**Hours:** 72L

Sequences and series. Uniform convergence. Convergence of integrals. Elements of topology in  $\mathbb{R}^2$  and  $\mathbb{R}^3$ . Differential and integral calculus of vector valued functions of a vector variable, with emphasis on vectors in two- and three-dimensional Euclidean space. Extremal problems, Lagrange multipliers, line and surface integrals, vector analysis, Stokes' theorem, Fourier series, calculus of variations.

**Prerequisite:** MAT137Y1/ MAT157Y1/( MAT135H1/MAT135H5, MAT136H1(85%)/ MAT136H5 (85%), MAT138H1), MAT223H1/ MAT240H1

**Exclusion:** MAT235Y1, MAT257Y1, MATB41H3, MATB42H3, MATB43H3 & MAT368H5, MAT232H5 & MAT236H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT240H1 - Algebra I

**Hours:** 36L/24T

A theoretical approach to: vector spaces over arbitrary fields, including  $\mathbb{C}$  and  $\mathbb{Z}_p$ . Subspaces, bases and dimension. Linear transformations, matrices, change of basis, similarity, determinants. Polynomials over a field (including unique factorization, resultants). Eigenvalues, eigenvectors, characteristic polynomial, diagonalization. Minimal polynomial, Cayley-Hamilton theorem.

**Prerequisite:** High school level calculus

**Corequisite:** MAT157Y1

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT244H1 - Introduction to Ordinary Differential Equations

**Hours:** 36L

First order ordinary differential equations: Direction fields, integrating factors, separable equations, homogeneous equations, exact equations, autonomous equations, modeling. Existence and uniqueness theorem. Higher order equations: Constant coefficient equations, reduction of order, Wronskian, method of undetermined coefficients, variation of parameters. Solutions by series and integrals. First order linear systems, fundamental matrices. Non-linear equations, phase plane, stability. Applications in life and physical sciences and economics.

**Prerequisite:**

([MAT135H1](#)/[MAT135H5](#)/[MATA35H3](#)/[MATA30H3](#)/[MATA31H3](#),  
[MAT136H1](#)/[MAT136H5](#)/[MATA36H3](#)/[MATA37H3](#))/[MAT135Y5](#)/[MAT137Y1](#)/[MAT137Y5](#)/[MAT157Y1](#)/[MAT157Y5](#),  
[MAT223H1](#)/[MATA23H3](#)/[MAT223H5](#)/[MAT240H1](#)/[MAT240H5](#)

**Corequisite:** [MAT235Y1](#)/[MAT237Y1](#)/[MAT257Y1](#)

**Exclusion:** [MAT267H1](#), [MAT212H5](#), [MAT258Y5](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT245H1 - Mathematical Methods in Data Science

**Hours:** 36L/24P

An introduction to the mathematical methods behind scientific techniques developed for extracting information from large data sets. Elementary probability density functions, conditional expectation, inverse problems, regularization, dimension reduction, gradient methods, singular value decomposition and its applications, stability, diffusion maps. Examples from applications in data science and big data.

**Prerequisite:** [MAT137Y1](#)/ [MAT157Y1](#), [MAT223H1](#)/[MAT240H1](#), [MAT224H1](#)/ [MAT247H1](#)

**Corequisite:** [MAT237Y1](#)/ [MAT257Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT246H1 - Concepts in Abstract Mathematics

**Hours:** 36L/12T

Designed to introduce students to mathematical proofs and abstract mathematical concepts. Topics may include modular arithmetic, sizes of infinite sets, and a proof that some angles cannot be trisected with straightedge and compass.

**Prerequisite:** [MAT133Y1](#)/([MAT135H1](#)/[MAT135H5](#),  
[MAT136H1](#)/[MAT136H5](#))/[MAT137Y1](#),[MAT223H1](#)/[MAT240H1](#)

**Exclusion:** [MAT157Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT247H1 - Algebra II

**Hours:** 36L

A theoretical approach to real and complex inner product spaces, isometries, orthogonal and unitary matrices and transformations. The adjoint. Hermitian and symmetric transformations. Spectral theorem for symmetric and normal transformations. Polar representation theorem. Primary decomposition theorem. Rational and Jordan canonical forms. Additional topics including dual spaces, quotient spaces, bilinear forms, quadratic surfaces, multilinear algebra.

**Prerequisite:** [MAT240H1](#)/[MAT240H5](#)

**Corequisite:** [MAT157Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT257Y1 - Analysis II

**Hours:** 72L/48T

Topology of  $\mathbb{R}^n$ ; compactness, functions and continuity, extreme value theorem. Derivatives; inverse and implicit function theorems, maxima and minima, Lagrange multipliers. Integration; Fubini's theorem, partitions of unity, change of variables. Differential forms. Manifolds in  $\mathbb{R}^n$ ; integration on manifolds; Stokes' theorem for differential forms and classical versions.

**Prerequisite:** [MAT157Y1](#)/[MAT157Y5](#),  
[MAT247H1](#)/[MAT247H5](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT267H1 - Advanced Ordinary Differential Equations

**Hours:** 36L/12T

A theoretical course on Ordinary Differential Equations. First-order equations: separable equations, exact equations, integrating factors. Variational problems, Euler-Lagrange equations. Linear equations and first-order systems. Fundamental matrices, Wronskians. Non-linear equations. Existence and uniqueness theorems. Method of power series. Elementary qualitative theory; stability, phase plane, stationary points. Oscillation theorem, Sturm comparison. Applications in mechanics, physics, chemistry, biology and economics.

**Prerequisite:** MAT157Y1/MAT157Y5, MAT247H1/MAT247H5

**Corequisite:** MAT257Y1

**Exclusion:** APM288H1, MAT244H1, MATB44H3, MAT242H5, MAT252H5, MAT234H1, MAT292H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT271H1 - Insights from Mathematics

**Hours:** 36L/6T

This breadth course is accessible to students with limited mathematical background. Various mathematical techniques will be illustrated with examples from humanities and social science disciplines. Some of the topics will incorporate user friendly computer explorations to give participants the feel of the subject without requiring skill at calculations.

Note: This course cannot be used to satisfy requirements of program in the math department.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT282H1 - Topics in Mathematics

**Hours:** 36L

A course in mathematics on a topic outside the current undergraduate offerings. For information on the specific topic to be studied and possible additional prerequisites, go to <http://www.math.toronto.edu/cms/current-students-ug/>

**Prerequisite:** 1.0 MAT credit at the 100-level. Possible additional topic-specific prerequisites.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT295H1 - Independent Reading in Mathematics

Independent study under the direction of a faculty member. Topic must be outside undergraduate offerings. Similar workload to a 36L course. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT296H1 - Independent Reading in Mathematics

Independent study under the direction of a faculty member. Topic must be outside undergraduate offerings. Workload equivalent to a 36L course. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT297Y1 - Research Project in Mathematics

Independent research under the direction of a faculty member. Similar workload to a 72L course. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at [https://www.artsci.utoronto.ca/current/academics/research\\_opportunities...](https://www.artsci.utoronto.ca/current/academics/research_opportunities...) Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## MAT301H1 - Groups and Symmetries

**Hours:** 36L

Congruences and fields. Permutations and permutation groups. Linear groups. Abstract groups, homomorphisms, subgroups. Symmetry groups of regular polygons and Platonic solids, wallpaper groups. Group actions, class formula. Cosets, Lagrange theorem. Normal subgroups, quotient groups. Classification of finitely generated abelian groups. Emphasis on examples and calculations.

**Prerequisite:** MAT224H1/MAT247H1, MAT235Y1/MAT237Y1, MAT246H1/MAT157Y1/CSC236H1/CSC240H1. (These Prerequisites will be waived for students who have MAT257Y1.) For FASE students, MAT185H, MAT194H, MAT195H.

**Exclusion:** MAT347Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM306Y1 - Mathematics and Law

**Hours:** 72L

This course examines the relationship between legal reasoning and mathematical logic; provides a mathematical perspective on the legal treatment of interest and actuarial present value; critiques ethical issues; analyzes how search engine techniques on massive databases transform legal research and considers the impact of statistical analysis and game theory on litigation strategies.

### NOTE

This course counts as 0.5 credit in BR=3 and 0.5 credit in BR=5.

This course will only contribute 0.5 credit to the Math Minor program.

**Prerequisite:** (MAT135H1/ MAT135H5/ MAT136H1/ MAT136H5/ MAT137Y1/ MAT157Y1, MAT221H1/

MAT223H1/ MAT240H1

**Exclusion:** JUM206Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5), Society and its Institutions (3)

## MAT309H1 - Introduction to Mathematical Logic

**Hours:** 36L

Predicate calculus. Relationship between truth and provability; Gödel's completeness theorem. First order arithmetic as an example of a first-order system. Gödel's incompleteness theorem; outline of its proof. Introduction to recursive functions.

**Prerequisite:**

MAT223H1/MATA23H3/MAT223H5/MAT240H1/MAT240H5, MAT235Y1/MAT235Y5/(MAT232H5, MAT236H5/MATB41H3, MATB42H3)/MAT237Y1/(MATB41H3, MATB42H3, MATB43H3)/MAT237Y5, MAT246H1/MAT157Y1/CSC236H1/CSC240H1 (These Prerequisites will be waived for students who have MAT257Y1)

**Exclusion:** CSC438H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT315H1 - Introduction to Number Theory

**Hours:** 36L

Elementary topics in number theory: arithmetic functions; polynomials over the residue classes modulo  $m$ , characters on the residue classes modulo  $m$ ; quadratic reciprocity law, representation of numbers as sums of squares.

**Prerequisite:**

(MAT223H1/MATA23H3/MAT223H5/MAT240H1/MAT240H5, MAT235Y1/MAT235Y5/(MAT232H5, MAT236H5)/(MATB41H3, MATB42H3)/MAT237Y1/(MATB41H3, MATB42H3, MATB43H3)/MAT237Y5, MAT246H1/CSC236H1/CSC240H1)/MAT157Y1/MAT157Y5/MAT247H1/MAT247H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT327H1 - Introduction to Topology

**Hours:** 36L

Metric spaces, topological spaces and continuous mappings; separation, compactness, connectedness. Fundamental group and covering spaces. Brouwer fixed-point theorem. Students in the math specialist program wishing to take additional topology courses are advised to obtain permission to take MAT1300H, MAT1301H.

**Prerequisite:**

MAT157Y1/MAT157Y5/(MAT237Y1/(MATB41H3, MATB42H3, MATB43H3)/MAT237Y5, MAT246H1/MAT157Y1 and permission of the instructor)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT329Y1 - Concepts in Elementary Mathematics

**Hours:** 72L

This course is aimed at students intending to become elementary school teachers. Emphasis is placed on the formation and development of fundamental reasoning and learning skills required to understand and to teach mathematics at the elementary level. Topics may include: Problem Solving and Strategies, Sets and Elementary Logic, Numbers and Elements of Number Theory, Introductory Probability and Fundamentals of Geometry.

The course may include an optional practicum in school classrooms.

**Prerequisite:**

(MAT137Y1/MAT157Y1)/MAT138H1/(MAT223H1/MAT240H1)/(MAT246H1/MAT157Y1) and any 5.0 credits with a CGPA of at least 2.5

**Exclusion:** MAT382H5

**Recommended Preparation:** Participation in the practicum requires the presentation of an Ontario Police Report that declares suitability to work with minors and other special groups.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT332H1 - Introduction to Graph Theory

**Hours:** 36L

This course will explore the following topics: Graphs, subgraphs, isomorphism, trees, connectivity, Euler and

Hamiltonian properties, matchings, vertex and edge colourings, planarity, network flows and strongly regular graphs. Participants will be encouraged to use these topics and execute applications to such problems as timetabling, tournament scheduling, experimental design and finite geometries.

**Prerequisite:**

MAT224H1/MATB24H3/MAT224H5/MAT247H1/MAT247H5

**Corequisite:** Recommended Corequisite:

MAT301H1/MAT347Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT334H1 - Complex Variables

**Hours:** 36L

Theory of functions of one complex variable, analytic and meromorphic functions. Cauchy's theorem, residue calculus, conformal mappings, introduction to analytic continuation and harmonic functions.

**Prerequisite:**

MAT223H1/MATA23H3/MAT223H5/MAT240H1/MAT240H5, MAT235Y1/MAT235Y5/(MAT232H5, MAT236H5)/(MATB41H3, MATB42H3)/MAT237Y1/(MATB41H3, MATB42H3, MATB43H3)/MAT237Y5/MAT257Y1

**Exclusion:** MAT354H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT335H1 - Chaos, Fractals and Dynamics

**Hours:** 36L

An elementary introduction to a modern and fast-developing area of mathematics. One-dimensional dynamics: iterations of quadratic polynomials. Dynamics of linear mappings, attractors. Bifurcation, Henon map, Mandelbrot and Julia sets. History and applications.

**Prerequisite:** MAT137Y1/(MATA30H3, MATA31H3, MATA37H3)/MAT137Y5/MAT157Y1/MAT157Y5/MAT235Y1/MAT235Y5/(MAT232H5, MAT236H5)/(MATB41H3, MATB42H3)/MAT237Y1/(MATB41H3, MATB42H3, MATB43H3)/MAT237Y5, MAT223H1/MATA23H3/MAT223H5/MAT240H1/MAT240H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT336H1 - Elements of Analysis

**Hours:** 36L/12T

This course provides the foundations of analysis and rigorous calculus for students who will take subsequent courses where these mathematical concepts are central of applications, but who have only taken courses with limited proofs. Topics include topology of  $\mathbb{R}^n$ , implicit and inverse function theorems and rigorous integration theory.

**Prerequisite:**

MAT223H1/MATA23H3/MAT223H5/MAT240H1/MAT240H5, MAT235Y1/MAT235Y5/(MAT232H5, MAT236H5)/(MATB41H3, MATB42H3)/MAT237Y1/(MATB41H3, MATB42H3, MATB43H3)/MAT237Y5; (for FASE students, MAT185H, MAT195H/ESC195H)

**Exclusion:** MAT257Y1, MAT337H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT337H1 - Introduction to Real Analysis

**Hours:** 36L

Construction of Real Numbers. Metric spaces; compactness and connectedness. Sequences and series of functions, power series; modes of convergence. Interchange of limiting processes; differentiation of integrals. Function spaces; Weierstrass approximation; Fourier series. Contraction mappings; existence and uniqueness of solutions of ordinary differential equations. Countability; Cantor set; Hausdorff dimension.

**Prerequisite:**

MAT224H1/MATB24H3/MAT224H5/MAT247H1/MAT247H5, MAT235Y1/MAT235Y5/(MAT232H5, MAT236H5)/(MATB41H3, MATB42H3)/MAT237Y1/(MATB41H3, MATB42H3, MATB43H3)/MAT237Y5, MAT246H1/MAT157Y1; NOTE: These Prerequisites will be waived for students who have MAT257Y1

**Exclusion:** MAT357H1 & MAT378H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT344H1 - Introduction to Combinatorics

**Hours:** 36L

Basic counting principles, generating functions, permutations with restrictions. Fundamentals of graph theory with algorithms; applications (including network flows). Combinatorial structures including block designs and finite geometries.

**Prerequisite:**

MAT223H1/MATA23H3/MAT223H5/MAT240H1/MAT240H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM346H1 - Partial Differential Equations

**Hours:** 36L

Sturm-Liouville problems, Green's functions, special functions (Bessel, Legendre), partial differential equations of second order, separation of variables, integral equations, Fourier transform, stationary phase method.

**Prerequisite:** MAT235Y1/ MAT235Y5/ ( MAT232H5, MAT236H5)/ ( MATB41H3, MATB42H3)/ MAT237Y1/ MAT237Y5/ MAT257Y1, ( MAT244H1/ MATB44H3/ MAT244H5/ MAT267H1)

**Exclusion:** MAT351Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT347Y1 - Groups, Rings and Fields

**Hours:** 72L/24T

Groups, subgroups, quotient groups, Sylow theorems, Jordan-Hölder theorem, finitely generated abelian groups, solvable groups. Rings, ideals, Chinese remainder theorem; Euclidean domains and principal ideal domains: unique factorization. Noetherian rings, Hilbert basis theorem. Finitely generated modules. Field extensions, algebraic closure, straight-edge and compass constructions. Galois theory, including insolvability of the quintic.

**Prerequisite:** MAT257Y1/(85% in MAT247H1/MAT247H5)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM348H1 - Mathematical Modelling

**Previous Course Number:** MAT482

**Hours:** 36L/22P

An overview of mathematical modelling. A variety of approaches for representing physical situations mathematically followed by analytical techniques and numerical simulations to gain insight. Questions from biology, economics, engineering, medicine, physics, physiology, and the social sciences formulated as problems in optimization, differential equations, and probability. Precise content varies with instructor.

**Prerequisite:** MAT244H1/MAT267H1,

MAT224H1/MAT247H1,

STA237H1/STA247H1/STA257H1/MAT377H1

**Exclusion:** MAT482H1 (Topics in Mathematics: Topics in Mathematical Modelling), offered in Winter 2019

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT351Y1 - Partial Differential Equations

**Hours:** 72L

This is a first course in Partial Differential Equations, intended for Mathematics students with interests in analysis, mathematical physics, geometry, and optimization. The examples to be discussed include first-order equations, harmonic functions, the diffusion equation, the wave equation, Schrodinger's equation, and eigenvalue problems. In addition to the classical representation formulas for the solutions of these equations, there are techniques that apply more broadly: the notion of well-posedness, the method of characteristics, energy methods, maximum and comparison principles, fundamental solutions, Green's functions, Duhamel's principle, Fourier series, the min-max characterization of eigenvalues, Bessel functions, spherical harmonics, and distributions. Nonlinear phenomena such as shock waves and solitary waves are also introduced.

**Prerequisite:** MAT257Y1/85% in MAT237Y1, MAT267H1

**Exclusion:** APM351Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT354H1 - Complex Analysis I

**Hours:** 36L

Complex numbers, the complex plane and Riemann sphere, Möbius transformations, elementary functions and their mapping properties, conformal mapping, holomorphic functions, Cauchy's theorem and integral formula. Taylor and Laurent series, maximum modulus principle, Schwarz' lemma, residue theorem and residue calculus.

Note: Students may take MAT354H1 after they complete MAT334H1, however, in this case, MAT334H1 will count as 'extra'; it will not count as credit towards program requirements.

**Prerequisite:** MAT257Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT357H1 - Foundations of Real Analysis

**Hours:** 36L

Function spaces; Arzela-Ascoli theorem, Weierstrass approximation theorem, Fourier series. Introduction to Banach and Hilbert spaces; contraction mapping principle, fundamental existence and uniqueness theorem for ordinary differential equations. Lebesgue integral; convergence theorems, comparison with Riemann integral,  $L^p$  spaces. Applications to probability.

**Prerequisite:** MAT257Y1/(MAT327H1 and permission of instructor)

**Exclusion:** MAT438H5

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT363H1 - Geometry of Curves and Surfaces

**Hours:** 36L

Curves and surfaces in 3-spaces. Frenet formulas. Curvature and geodesics. Gauss map. Minimal surfaces. Gauss-Bonnet theorem for surfaces. Surfaces of constant curvature.

**Prerequisite:**

MAT224H1/MATB24H3/MAT224H5/MAT247H1/MAT247H5, MAT237Y1/(MATB41H3, MATB42H3,

MATB43H3)/MAT237Y5/MAT257Y1 (MAT257Y1 can be taken concurrently). For FASE students, MAT185H, MAT194H, MAT195H, AER210H.

**Exclusion:** MAT367H1

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT367H1 - Differential Geometry

**Hours:** 36L

Manifolds, partitions of unity, submersions and immersions, vector fields, vector bundles, tangent and cotangent bundles, foliations and Frobenius' theorem, multilinear algebra, differential forms, Stokes' theorem, Poincare-Hopf theorem.

**Prerequisite:** MAT257Y1/( MAT224H1/ MAT247Y1, MAT237Y1, MAT246H1/ MAT157Y1, and permission of instructor)

**Recommended Preparation:** Multivariable calculus ( MAT257Y1), Linear algebra ( MAT240H1, MAT247H1)

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT377H1 - Mathematical Probability

**Hours:** 36L/12T

This course introduces students to various topics in mathematical probability theory. Topics include basic concepts (such as probability, random variables, expectations, conditional probability) from a mathematical point of view, examples of distributions and stochastic processes and their properties, convergence results (such as the law of large numbers, central limit theorem, random series, etc.), various inequalities, and examples of applications of probabilistic ideas beyond statistics (for example, in geometry and computer science).

**Prerequisite:** MAT247H1/MAT247H5, MAT257Y1

**Exclusion:** STA347H1

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT382H1 - Topics in Mathematics

**Hours:** 36L

A course in mathematics on a topic outside the current undergraduate offerings. For information on the specific topic to be studied and possible additional prerequisites, go to <http://www.math.toronto.edu/cms/current-students-ug/>

**Prerequisite:** 2.5 AMP/MAT credits at the 100/200-level. Possible additional topic-specific prerequisites.

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT390H1 - History of Mathematics up to 1700

**Hours:** 36L

A survey of ancient, medieval, and early modern mathematics with emphasis on historical issues. (Offered in alternate years)

**Prerequisite:** 1.0 APM/MAT credit at the 200-level

**Exclusion:** HPS309H1, HPS310Y1, HPS390H1

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT391H1 - History of Mathematics after 1700

**Hours:** 24L/12T

A survey of the development of mathematics from 1700 to the present with emphasis on technical development. (Offered in alternate years)

**Prerequisite:** 1.0 APM/MAT credit at the 200 level

**Exclusion:** HPS309H1, HPS310H1, HPS391H1

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT395H1 - Independent Reading in Mathematics

Independent reading under the direction of a faculty member. Topic must be outside current undergraduate offerings. Similar workload to a 36L course. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM396H1 - Independent Reading in Applied Mathematics

Independent study under the direction of a faculty member. Topic must be outside undergraduate offerings. Similar workload to a 36L course. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA 3.5 for APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor.  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT396H1 - Independent Reading in Mathematics

Independent study under the direction of a faculty member. Topic must be outside undergraduate offerings. Similar workload to a 36L course. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT397Y1 - Research Project in Mathematics

Independent research under the direction of a faculty member. Workload similar to a 72L course. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor.  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## MAT398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## MAT399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

## MAT401H1 - Polynomial Equations and Fields

**Hours:** 36L

Commutative rings; quotient rings. Construction of the rationals. Polynomial algebra. Fields and Galois theory: Field extensions, adjunction of roots of a polynomial. Constructibility, trisection of angles, construction of regular polygons. Galois groups of polynomials, in particular cubics, quartics. Insolvability of quintics by radicals.

**Prerequisite:** MAT301H1

**Exclusion:** MAT347Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT402H1 - Classical Geometries

**Hours:** 36L

Euclidean and non-Euclidean plane and space geometries. Real and complex projective space. Models of the hyperbolic plane. Connections with the geometry of surfaces.

**Prerequisite:** MAT301H1/ MAT347Y1, MAT235Y1/ MAT237Y1/ MAT257Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT409H1 - Set Theory

Hours: 36L

Set theory and its relations with other branches of mathematics. ZFC axioms. Ordinal and cardinal numbers. Reflection principle. Constructible sets and the continuum hypothesis. Introduction to independence proofs. Topics from large cardinals, infinitary combinatorics and descriptive set theory.

Joint undergraduate/graduate course -  
MAT409H1/MAT1404H

**Prerequisite:** [MAT357H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT415H1 - Algebraic Number Theory

Hours: 36L

A selection from the following: finite fields; global and local fields; valuation theory; ideals and divisors; differentials and discriminants; ramification and inertia; class numbers and units; cyclotomic fields; Diophantine equations.

**Prerequisite:** [MAT347Y1](#) or permission of instructor

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT417H1 - Analytic Number Theory

Hours: 36L

A selection from the following: distribution of primes, especially in arithmetic progressions and short intervals; exponential sums; Hardy-Littlewood and dispersion methods; character sums and L-functions; the Riemann zeta-function; sieve methods, large and small; Diophantine approximation, modular forms.

Joint undergraduate/graduate course -  
[MAT417H1](#)/[MAT1202H](#)

**Prerequisite:** [MAT334H1](#)/[MAT354H1](#)/permission of instructor

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM421H1 - Mathematical Foundations of Quantum Mechanics

Hours: 36L

Key concepts and mathematical structure of Quantum Mechanics, with applications to topics of current interest such as quantum information theory. The core part of the course covers the following topics: Schrodinger equation, quantum observables, spectrum and evolution, motion in electro-magnetic field, angular momentum and  $O(3)$  and  $SU(2)$  groups, spin and statistics, semi-classical asymptotics, perturbation theory. More advanced topics may include: adiabatic theory and geometrical phases, Hartree-Fock theory, Bose-Einstein condensation, the second quantization, density matrix and quantum statistics, open systems and Lindblad evolution, quantum entropy, quantum channels, quantum Shannon theorems.

Joint undergraduate/graduate course -  
APM421H1/MAT1723H

**Prerequisite:** ([MAT224H1](#)/[MAT247H1](#),  
[MAT337H1](#))/[MAT357H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT425H1 - Differential Topology

Hours: 36L

Smooth manifolds, Sard's theorem and transversality. Morse theory. Immersion and embedding theorems. Intersection theory. Borsuk-Ulam theorem. Vector fields and Euler characteristic. Hopf degree theorem. Additional topics may vary.

**Prerequisite:** [MAT257Y1](#), [MAT327H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM426H1 - General Relativity

Hours: 36L

Einstein's theory of gravity. Special relativity and the geometry of Lorentz manifolds. Gravity as a manifestation of spacetime curvature. Einstein's equations. Cosmological implications: big bang and inflationary universe. Schwarzschild stars: bending of light and perihelion precession of Mercury. Topics from black hole dynamics and gravitational waves. The Penrose singularity theorem.

Joint undergraduate/graduate course -  
APM426H1/MAT1700H

**Prerequisite:** [MAT363H1/MAT367H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT436H1 - Introduction to Linear Operators

**Hours:** 36L

The course will survey the branch of mathematics developed (in its abstract form) primarily in the twentieth century and referred to variously as functional analysis, linear operators in Hilbert space, and operator algebras, among other names (for instance, more recently, to reflect the rapidly increasing scope of the subject, the phrase non-commutative geometry has been introduced). The intention will be to discuss a number of the topics in Pedersen's textbook *Analysis Now*. Students will be encouraged to lecture on some of the material, and also to work through some of the exercises in the textbook (or in the suggested reference books).

Joint undergraduate/graduate course -  
MAT436H1/MAT1011H

**Prerequisite:** 5.0 MAT credits, including

[MAT224H1/MAT247H1](#) and [MAT237Y1/MAT257Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT437H1 - K-Theory and C\* Algebras

**Hours:** 36L

The theory of operator algebras was begun by John von Neumann eighty years ago. In one of the most important innovations of this theory, von Neumann and Murray introduced a notion of equivalence of projections in a self-adjoint algebra ( $*$ -algebra) of Hilbert space operators that was compatible with addition of orthogonal projections (also in matrix algebras over the algebra), and so gave rise to an abelian semigroup, now referred to as the Murray-von Neumann semigroup.

Later, Grothendieck in geometry, Atiyah and Hirzebruch in topology, and Serre in the setting of arbitrary rings (pertinent for instance for number theory), considered similar constructions. The enveloping group of the semigroup considered in each of these settings is now referred to as the K-group (Grothendieck's terminology), or as the Grothendieck group.

Among the many indications of the depth of this construction was the discovery of Atiyah and Hirzebruch that Bott periodicity could be expressed in a simple way using the K-group. Also, Atiyah and Singer famously showed that K-theory was important in connection with the Fredholm index. Partly because of these developments, K-theory very soon became important again in the theory of operator algebras. (And in turn, operator algebras became increasingly important in other branches of mathematics.)

The purpose of this course is to give a general, elementary, introduction to the ideas of K-theory in the operator algebra context. (Very briefly, K-theory generalizes the notion of dimension of a vector space.)

The course will begin with a description of the method (K-theoretical in spirit) used by Murray and von Neumann to give a rough initial classification of von Neumann algebras (into types I, II, and III). It will centre around the relatively recent use of K-theory to study Bratteli's approximately finite-dimensional  $C^*$ -algebras---both to classify them (a result that can be formulated and proved purely algebraically), and to prove that the class of these  $C^*$ -algebras---what Bratteli called AF algebras---is closed under passing to extensions (a result that uses the Bott periodicity feature of K-theory).

Students will be encouraged to prepare oral or written reports on various subjects related to the course, including basic theory and applications.

Joint undergraduate/graduate course -  
MAT437H1/MAT1016H

**Prerequisite:** 5.0 MAT credits, including

[MAT224H1/MAT247H1](#) and [MAT237Y1/MAT257Y1](#)

**Recommended Preparation:** Students are encouraged to execute basic research that answers the question, what is an abelian group?

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM441H1 - Asymptotic and Perturbation Methods

**Hours:** 36L

Asymptotic series. Asymptotic methods for integrals: stationary phase and steepest descent. Regular perturbations for algebraic and differential equations. Singular perturbation methods for ordinary differential equations: W.K.B., strained co-ordinates, matched asymptotics, multiple scales. (Emphasizes techniques; problems drawn from physics and engineering)

**Prerequisite:** [APM346H1/MAT351Y1](#),  
[MAT334H1/MAT354H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT445H1 - Representation Theory

**Hours:** 36L

A selection of topics from: Representation theory of finite groups, topological groups and compact groups. Group algebras. Character theory and orthogonality relations. Weyl's character formula for compact semisimple Lie groups. Induced representations. Structure theory and representations of semisimple Lie algebras. Determination of the complex Lie algebras.

Joint undergraduate/graduate - MAT445H1/MAT1196H

**Prerequisite:** [MAT347Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM446H1 - Applied Nonlinear Equations

**Hours:** 36L

Partial differential equations appearing in physics, material sciences, biology, geometry, and engineering. Nonlinear evolution equations. Existence and long-time behaviour of solutions. Existence of static, traveling wave, self-similar, topological and localized solutions. Stability. Formation of singularities and pattern formation. Fixed point theorems, spectral analysis, bifurcation theory. Equations considered in this course may include: Allen-Cahn equation (material science), Ginzburg-Landau equation (condensed matter physics), Cahn-Hilliard (material science, biology), nonlinear Schroedinger equation (quantum and plasma physics, water waves, etc). mean curvature flow (geometry, material sciences), Fisher-Kolmogorov-Petrovskii-Piskunov (combustion theory, biology), Keller-Segel equations (biology), and Chern-Simons equations (particle and condensed matter physics).

Joint undergraduate/graduate course -  
[APM446H1/MAT1508H](#)

**Prerequisite:** [APM346H1/ MAT351Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT448H1 - Introduction to Commutative Algebra and Algebraic Geometry

**Hours:** 36L

Basic notions of algebraic geometry, with emphasis on commutative algebra or geometry according to the interests of the instructor. Algebraic topics: localization, integral dependence and Hilbert's Nullstellensatz, valuation theory, power series rings and completion, dimension theory. Geometric topics: affine and projective varieties, dimension and intersection theory, curves and surfaces, varieties over the complex numbers. This course will be offered in alternating years.

Joint undergraduate/graduate course -  
MAT448H1/MAT1155H

**Prerequisite:** [MAT347Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT449H1 - Algebraic Curves

**Hours:** 36L

Projective geometry. Curves and Riemann surfaces. Algebraic methods. Intersection of curves; linear systems; Bezout's theorem. Cubics and elliptic curves. Riemann-Roch theorem. Newton polygon and Puiseux expansion; resolution of singularities. This course will be offered in alternating years.

**Prerequisite:** [MAT347Y1](#), [MAT354H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT454H1 - Complex Analysis II

**Hours:** 36L

Harmonic functions, Harnack's principle, Poisson's integral formula and Dirichlet's problem. Infinite products and the gamma function. Normal families and the Riemann mapping theorem. Analytic continuation, monodromy theorem and elementary Riemann surfaces. Elliptic functions, the modular function and the little Picard theorem.

Joint undergraduate/graduate course -  
MAT454H1/MAT1002H

**Prerequisite:** [MAT354H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT457H1 - Advanced Real Analysis I

**Hours:** 36L

Lebesgue measure and integration; convergence theorems, Fubini's theorem, Lebesgue differentiation theorem, abstract measures, Caratheodory theorem, Radon-Nikodym theorem. Hilbert spaces, orthonormal bases, Riesz representation theorem, compact operators,  $L^p$  spaces, Hölder and Minkowski inequalities.

Joint undergraduate/graduate course -  
[MAT457H1/MAT1000H](#)

**Prerequisite:** [MAT357H1](#)

**Exclusion:** [MAT457Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT458H1 - Advanced Real Analysis II

**Hours:** 36L

Fourier series and transform, convergence results, Fourier inversion theorem,  $L^2$  theory, estimates, convolutions. Banach spaces, duals, weak topology, weak compactness, Hahn-Banach theorem, open mapping theorem, uniform boundedness theorem.

Joint undergraduate/graduate course -  
[MAT458H1/MAT1001H](#)

**Prerequisite:** [MAT457H1](#)

**Exclusion:** [MAT457Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM461H1 - Combinatorial Methods

**Hours:** 36L

A selection of topics from such areas as graph theory, combinatorial algorithms, enumeration, construction of combinatorial identities.

Joint undergraduate/graduate course -  
[APM461H1/MAT1302H](#)

**Prerequisite:** [MAT224H1/MAT247H1](#),  
[MAT137Y1/MAT157Y1](#), [MAT301H1/MAT347Y1](#)

**Recommended Preparation:** [MAT344H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM462H1 - Nonlinear Optimization

**Hours:** 36L

An introduction to first and second order conditions for finite and infinite dimensional optimization problems with mention of available software. Topics include Lagrange multipliers, Kuhn-Tucker conditions, convexity and calculus of variations. Basic numerical search methods and software packages which implement them will be discussed.

**Prerequisite:** ([MAT223H1](#),[MAT224H1](#)) /[MAT247H1](#),  
[MAT235Y1/MAT237Y1/MAT257Y1](#)

**Recommended Preparation:** [MAT336H1/MAT337H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT464H1 - Riemannian Geometry

**Hours:** 36L

Riemannian metrics. Levi-Civita connection. Geodesics. Exponential map. Second fundamental form. Complete manifolds and Hopf-Rinow theorem. Curvature tensors. Ricci curvature and scalar curvature. Spaces of constant curvature.

Joint undergraduate/graduate course -  
[MAT464H1/MAT1342H](#)

**Prerequisite:** [MAT367H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM466H1 - Mathematical Theory of Finance

**Hours:** 36L

Introduction to the basic mathematical techniques in pricing theory and risk management: Stochastic calculus, single-period finance, financial derivatives (tree-approximation and Black-Scholes model for equity derivatives, American derivatives, numerical methods,

lattice models for interest-rate derivatives), value at risk, credit risk, portfolio theory.

Joint undergraduate/graduate course -  
APM466H1/MAT1856H

**Prerequisite:** APM346H1, STA347H1

**Corequisite:** STA457H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT475H1 - Problem Solving Seminar

This course addresses the question: How do you attack a problem the likes of which you have never seen before? Students will apply Polya's principles of mathematical problem solving, draw upon their previous mathematical knowledge, and explore the creative side of mathematics in solving a variety of interesting problems and explaining those solutions to others.

**Prerequisite:** MAT224H1/MAT247H1, MAT235Y1/MAT237Y1/MAT257Y1, and at least 1.0 credit at the 300+ level in APM/MAT

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT477H1 - Seminar in Mathematics

Seminar in an advanced topic. Content will generally vary from semester to semester. Student presentations are required.

**Prerequisite:** MAT347Y1, MAT354H1, MAT357H1; or permission of instructor.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT478H1 - Seminar in Mathematics

Seminar in an advanced topic. Content will generally vary from semester to semester. Student presentations are required.

**Prerequisite:** MAT347Y1, MAT354H1, MAT357H1; or permission of instructor.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT482H1 - Topics in Mathematics

**Hours:** 36L

A course in mathematics on a topic outside the current undergraduate offerings. For information on the specific topic to be studied and possible additional prerequisites, go to <http://www.math.toronto.edu/cms/current-students-ug/>.

Joint undergraduate/graduate course -  
MAT482H1/MAT1901H

**Prerequisite:** 6.0 APM/MAT credits at the 100, 200 and 300-level. Possible additional topic-specific prerequisites.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT483H1 - Topics in Mathematics

**Hours:** 36L

A course in mathematics on a topic outside the current undergraduate offerings. For information on the specific topic to be studied and possible additional prerequisites, go to <http://www.math.toronto.edu/cms/current-students-ug/>.

**Prerequisite:** 6.0 APM/MAT credits at the 100, 200 and 300-level. Possible additional topic-specific prerequisites.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT495H1 - Independent Reading in Mathematics

Independent study under the direction of a faculty member. Topic must be outside undergraduate offerings. Workload equivalent to a 36L course. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## APM496H1 - Independent Readings in Applied Mathematics

Independent study under the direction of a faculty member. Topic must be outside current undergraduate offerings. Similar workload to a course that has 36 lecture hours. Not eligible for CR/NCR option.

**Prerequisite:** minimum GPA 3.5 for APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT496H1 - Independent Reading in Mathematics

Independent study under the direction of a faculty member. Topic must be outside undergraduate offerings. Workload equivalent to a 36L course. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor.  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT497Y1 - Research Project in Mathematics

Independent research under the direction of a faculty member. Not eligible for CR/NCR option. Similar workload to a 72L course.

**Prerequisite:** Minimum GPA of 3.5 in APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## MAT499Y1 - Readings in Mathematics

Independent study under the direction of a faculty member. Topic must be outside undergraduate offerings. Workload equivalent to a 72L course. Not eligible for CR/NCR option.

**Prerequisite:** Minimum GPA of 3.5 in APM and MAT courses. Permission of the Associate Chair for Undergraduate Studies and of the prospective supervisor.

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## Introduction

Molecular biology has revolutionized the fields of genetics and microbiology. The Department of Molecular Genetics offers Specialist and Major programs in Molecular Genetics and Microbiology, which emphasize the molecular aspects of both disciplines. Genetics, the science of heredity, and microbiology, the study of microorganisms (microbes), have long served as meeting grounds for a variety of biological disciplines. Developments in genetics and microbiology have contributed greatly to our basic understanding of the fundamental processes of life as well as to the treatment of genetic and infectious diseases.

Of particular significance in molecular genetics has been the development of techniques that permit the isolation, through cloning, of the genes responsible for specific traits, and the detailed analysis of their regulation, interactions, and products. More recently the advent of genome sequencing has fueled efforts to understand in full the information content of the genome and to assign function to every gene, using methods that allow systematic, genome-scale analyses of gene expression, the phenotypic consequences of gene disruption, and the interactions between genes and gene products. Molecular techniques have increased our ability to diagnose and understand viral and bacterial disease, and the complex microbe/host interactions that are involved. The impact of these and other technological advances extend to such diverse fields as plant and animal developmental biology, virology, immunology, cancer biology, and biotechnology. Studies at a molecular level are essential to understanding the consequences to life when fundamental processes are altered by mutation, by infection, or by the environment.

The Molecular Genetics and Microbiology Specialist program is a research-intensive program and is designed to provide strong in-depth training in science, including critical analyses of scientific concepts and literature, advanced laboratory experience, and detailed understanding and application of molecular biology. Specialists enter the program in 2nd year and then choose one of two Streams, called Genetics and Microbiology, by the start of the third year. Each Stream provides focused training, but there is considerable overlap between the streams, reflective of both the cross-disciplinary requirements of these two rapidly evolving disciplines and the impact of each on areas spanning modern biomedical science.

The Molecular Genetics and Microbiology Major program offers students fundamental training in molecular genetics and microbiology. Students tailor their own program and may focus on a microbiology major, a genetic major, or a combination; they choose a path to suit their specific interests. Students take several advanced courses in these disciplines, but the Major allows them to choose the breadth of their training by combining the MGY Major with another Major of interest.

The Department of Molecular Genetics is also a cosponsor of the Major program in Genome Biology, with the Departments of Cell and Systems Biology (CSB), and Ecology and Evolutionary Biology (EEB). See the Biology program listings for details of the Genome Biology Major.

Career opportunities for graduates include employment in research institutes, universities and other educational institutions, and industry. The programs provide excellent preparation for post-graduate research and professional programs.

## Molecular Genetics and Microbiology Programs

### Molecular Genetics and Microbiology Specialist (Science Program) - ASSPE1387

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade and Variable Minimum Grade Average*

Minimum grades combined with a minimum grade average in required courses or their equivalents are needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses must be completed:

- BIO120H1, BIO130H1
- ( CHM135H1 and CHM136H1)/ CHM151Y1
- ( MAT135H1 and MAT136H1)/ MAT137Y1/MAT157Y1

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 75% in each course, or a grade average lower than 80% in these required courses will not be considered for admission. Please note that obtaining the minimum final grades and grade average does not guarantee admission to the program. While it is difficult to predict what will constitute "competitive" course marks in a given year, based on previous years the estimate is: course marks = mid 80s; average = mid 80s.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [mgy.info@utoronto.ca](mailto:mgy.info@utoronto.ca), specify which program you would like to be considered for, and provide your student number.

Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment. Additional information is also available by contacting the Undergraduate Coordinator.

#### Completion Requirements:

(14.0 credits)

First Year:

BIO120H1, BIO130H1; ( CHM135H1, CHM136H1)/CHM151Y1; ( MAT135H1, MAT136H1)/ MAT137Y1

First or Second Year:

( PHY131H1, PHY132H1)/( PHY151H1, PHY152H1)

Second Year:

BCH242Y1; BIO230H1/ BIO255H1, HMB265H1; MGY280H1, CHM247H1, STA220H1

Third Year:

Genetics Stream:

1. MGY340H1, MGY350H1, MGY311Y1, MGY314H1, MGY315H1
2. 0.5 credit from BCH340H1, BCH377H1; MGY360H1, MGY377H1, MGY378H1

Microbiology Stream

1. IMM341H1, IMM351H1; MGY311Y1, MGY377H1, MGY378H1, MGY379Y1/( MGY380H1, MGY381H1)

Fourth Year:

Genetics Stream:

1. MGY420H1  
plus 2.5 credits from Genetics Lists 1 and 2, distributed as follows:
2. At least 1.5 credits must be taken from list 1: MGY425H1, MGY428H1, MGY460H1, MGY470H1
3. Up to 1.0 credit may be taken from list 2: MGY434H1, MGY440H1, MGY480Y1/one or both of ( MGY481H1 and MGY482H1), BCH428H1, BCH440H1, BCH441H1/CSB472H1, BCH447H1, BCH448H1, EEB460H1

Microbiology Stream:

- 2.5 credits from Microbiology Lists 1 and 2, distributed as follows:
1. At least 1.5 credits must be taken from list 1: BCH449H1; IMM428H1, IMM430H1, IMM435H1; LMP402H1, LMP403H1, LMP436H1; MGY428H1, MGY434H1, MGY440H1, MIJ485H1, NFS485H1
  2. Up to 1.0 credit may be taken from list 2: MGY360H1, MGY420H1, MGY425H1, MGY470H1, MGY480Y1/one or both of ( MGY481H1 and MGY482H1), BCH350H1, BCH428H1, BCH441H1/CSB472H1, BCH445H1

### Molecular Genetics And Microbiology Specialist: Genetics Stream (Science Program) - ASSPE1388

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

*Variable Minimum Grade and Variable Minimum Grade Average*

Minimum grades combined with a minimum grade average in required courses or their equivalents are needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses must be completed:

- [BIO120H1](#), [BIO130H1](#)
- ( [CHM135H1](#) and [CHM136H1](#))/ [CHM151Y1](#)
- ( [MAT135H1](#) and [MAT136H1](#))/ [MAT137Y1](#)/[MAT157Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 75% in each course, or a grade average lower than 80% in these required courses will not be considered for admission. Please note that obtaining the minimum final grades and grade average does not guarantee admission to the program. While it is difficult to predict what will constitute "competitive" course marks in a given year, based on previous years the estimate is: course marks = mid 80s; average = mid 80s.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [mgv.info@utoronto.ca](mailto:mgv.info@utoronto.ca), specify which program you would like to be considered for, and provide your student number.

Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment. Additional information is also available by contacting the Undergraduate Coordinator.

**Completion Requirements:**

(14.0 credits)

First Year:  
[BIO120H1](#), [BIO130H1](#); ( [CHM135H1](#), [CHM136H1](#))/  
[CHM151Y1](#); ( [MAT135H1](#), [MAT136H1](#))/ [MAT137Y1](#)

First or Second Year:  
( [PHY131H1](#), [PHY132H1](#))/( [PHY151H1](#), [PHY152H1](#))

Second Year:  
[BCH242Y1](#); [BIO230H1](#)/ [BIO255H1](#), [HMB265H1](#);  
[MGY280H1](#), [CHM247H1](#), [STA220H1](#)

Third Year (Genetics Stream):

1. [MGY340H1](#), [MGY350H1](#), [MGY311Y1](#), [MGY314H1](#),  
[MGY315H1](#)
2. 0.5 credit from [BCH340H1](#), [BCH377H1](#), [MGY360H1](#),  
[MGY377H1](#), [MGY378H1](#)

Fourth Year (Genetics Stream):

1. [MGY420H1](#),  
plus 2.5 credits from Genetics Lists 1 and 2, distributed as follows:
2. At least 1.5 credits must be taken from list 1:  
[MGY425H1](#), [MGY428H1](#), [MGY460H1](#), [MGY470H1](#)
3. Up to 1.0 credit may be taken from list 2:  
[MGY434H1](#), [MGY440H1](#), [MGY480Y1](#)/one or both of  
( [MGY481H1](#) and [MGY482H1](#)), [BCH428H1](#), [BCH440H1](#),  
[BCH441H1](#)/ [CSB472H1](#), [BCH447H1](#), [BCH448H1](#),  
[EEB460H1](#)

## Molecular Genetics And Microbiology Specialist: Microbiology Stream (Science Program) - ASSPE1389

**Enrolment Requirements:**

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

*Variable Minimum Grade and Variable Minimum Grade Average*

Minimum grades combined with a minimum grade average in required courses or their equivalents are needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses must be completed:

- [BIO120H1](#), [BIO130H1](#)
- ( [CHM135H1](#) and [CHM136H1](#))/ [CHM151Y1](#)
- ( [MAT135H1](#) and [MAT136H1](#))/ [MAT137Y1](#)/[MAT157Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 75% in each course, or a grade average lower than 80% in these required courses will not be considered for admission. Please note that obtaining the minimum final grades and grade average does not guarantee admission to the program. While it is difficult to predict what will constitute "competitive" course marks in a given year, based on previous years the estimate is: course marks = mid 80s; average = mid 80s.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the

availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [mgy.info@utoronto.ca](mailto:mgy.info@utoronto.ca), specify which program you would like to be considered for, and provide your student number.

Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment. Additional information is also available by contacting the Undergraduate Coordinator.

### Completion Requirements:

(14.0 credits)

First Year:

( [BIO120H1](#), [BIO130H1](#) ), ( [CHM135H1](#), [CHM136H1](#) ) / [CHM151Y1](#), ( [MAT135H1](#), [MAT136H1](#) ) / [MAT137Y1](#)

First or Second Year:

( [PHY131H1](#), [PHY132H1](#) ) / ( [PHY151H1](#), [PHY152H1](#) )

Second Year:

[BCH242Y1](#), [BIO230H1](#) / [BIO255H1](#), [HMB265H1](#), [MGY280H1](#), [CHM247H1](#), [STA220H1](#)

Third Year (Microbiology Stream):

1. [IMM341H1](#), [IMM351H1](#), [MGY311Y1](#), [MGY377H1](#), [MGY378H1](#), [MGY379Y1](#) / ( [MGY380H1](#), [MGY381H1](#) )

Fourth Year (Microbiology Stream):

2.5 credits from Microbiology Lists 1 and 2, distributed as follows:

1. At least 1.5 credits must be taken from list 1:

[MGY428H1](#), [MGY434H1](#), [MGY440H1](#), [MIJ485H1](#), [BCH449H1](#), [IMM428H1](#), [IMM430H1](#), [IMM435H1](#), [LMP402H1](#), [LMP403H1](#), [LMP436H1](#), [NFS485H1](#)

2. Up to 1.0 credit may be taken from list 2: [MGY360H1](#), [MGY420H1](#), [MGY425H1](#), [MGY470H1](#), [MGY480Y1](#) / one or both of ( [MGY481H1](#) and [MGY482H1](#) ), [BCH350H1](#), [BCH428H1](#), [BCH441H1](#) / [CSB472H1](#), [BCH445H1](#)

## Molecular Genetics and Microbiology Major (Science Program) - ASMAJ1387

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

*Variable Minimum Grade and Variable Minimum Grade Average*

Minimum grades combined with a minimum grade average in required courses or their equivalents are

needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses must be completed:

- [BIO120H1](#), [BIO130H1](#)
- ( [CHM135H1](#) and [CHM136H1](#) ) / [CHM151Y1](#)
- ( [MAT135H1](#) and [MAT136H1](#) ) / [MAT137Y1](#) / [MAT157Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 60% in each course, or a grade average lower than 70% in these required courses will not be considered for admission. Please note that obtaining the minimum final grades and grade average does not guarantee admission to the program. While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = mid 70s; average = mid 70s. The underlying numeric final mark in each of your courses required for program enrolment will be used by the relevant academic unit to determine your eligibility.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [mgy.info@utoronto.ca](mailto:mgy.info@utoronto.ca), specify which program you would like to be considered for, and provide your student number.

Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment. Additional information is also available by contacting the Undergraduate Coordinator.

### Completion Requirements:

(8.0 credits)

First Year:

[BIO120H1](#), [BIO130H1](#); ( [CHM135H1](#), [CHM136H1](#) ) / [CHM151Y1](#); ( [MAT135H1](#), [MAT136H1](#) ) / [MAT137Y1](#)

Second Year:

[BCH210H1](#); [BIO230H1](#) / [BIO255H1](#), [BIO260H1](#) / [HMB265H1](#), [MGY200H1](#)

Third and Fourth Years:

[BCH311H1](#) / [CSB349H1](#) / [MGY311Y1](#); 2.5 credits from [MGY314H1](#), [MGY315H1](#), [MGY340H1](#), [MGY350H1](#), [MGY360H1](#), [MGY377H1](#), [MGY378H1](#), [MGY379Y1](#) / [MGY380H1](#), [MGY381H1](#), [MGY420H1](#), [MGY425H1](#), [MGY428H1](#), [MGY434H1](#), [MGY440H1](#), [MGY460H1](#), [MGY470H1](#), [MIJ485H1](#), [BCH428H1](#) (at least 0.5 credit must be a laboratory course and at least 0.5 credit must

be a 400-level course, 0.5 credit additional are given if taking MGY311Y1 in lieu of BCH311H1/ CSB349H1)

## Molecular Genetics and Microbiology Courses

### MGY200H1 - An Introduction to Molecular Genetics and Microbiology

**Hours:** 24L

Introduction to the core concepts of genetics and microbiology. Included are also topical biological problems and cutting-edge scientific approaches with some examples from world-class Toronto labs. Historical context is often used to deliver material. Topics include: core concepts in genetics, an introduction to cancer and stem cells; the genetic regulation of aging; core concepts in microbiology; emerging and recurring microbial threats; genetic engineering.

**Prerequisite:** BIO120H1, BIO230H1/BIO255H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

### MGY250H1 - Introduction to Medical Genetics

**Hours:** 36L

An introduction to medical genetics including the “omics” revolution, stem cells, cancer genetics, finding disease-causing mutations, genetic counselling and gene therapy. The course material is delivered online and is approximately equivalent to 36 lecture hours. Midterm and final exam are taken on campus or at a pre-approved site off-campus.

**Prerequisite:** BIO120H1, BIO130H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

### MGY277H1 - Introduction to Medical Microbiology

**Hours:** 36L

An online introductory survey course that explores the agents of infectious disease including bacteria, viruses, and parasites as well as the host immune response. Other topics include the fundamentals of disease diagnosis and

epidemiology. This course will use web-based delivery of lectures and tutorials and utilize a range of communication tools equivalent to approximately three lectures per week. The final exam will require student attendance on the St. George campus.

**Prerequisite:** BIO120H1, BIO130H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

### MGY280H1 - Second Year Specialist Research

**Hours:** 48P/12S

This course gives students enrolled in the Molecular Genetics and Microbiology Specialist or Biochemistry Specialist program an opportunity to conduct an original research project in the second semester of their second year in a research laboratory in either of those Departments. Laboratory assignments are chosen during the first semester of second year by agreement with a Departmental faculty member and the Course Coordinator. Attendance at a weekly meeting is mandatory and students will present a report at the end of term. Details can be found on the departmental website. Not eligible for CR/NCR option.

**Prerequisite:** Students cannot have completed more than 8.5 credits  
**Exclusion:** MGY299Y1 and other ROP299Y1 courses  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

### MGY299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

### MGY311Y1 - Molecular Biology

**Hours:** 72L

This course examines the design and interpretation of experiments that have led to our current understanding of

the biological roles of DNA, RNA and proteins. Intended for students considering graduate or professional work in molecular biology or a related field or wanting a deeper understanding of these topics.

**Prerequisite:** [BIO120H1](#), [BIO230H1/BIO255H1](#), [BCH242Y1](#) (Note: [BCH210H1](#) may be acceptable with permission of instructor)

**Exclusion:** [BCH311H1](#), [CSB349H1](#), [JBC372H5\(UTM\)](#), [PSL350H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY314H1 - Principles of Genetic Analysis I

**Hours:** 12T/36P

Laboratory experiments in genetics, with the focus on microbial and prokaryotic genetics. Topics and experiments include mutagenesis and genetic selection, linkage and recombination, genetic crosses, gene regulation, suppressor analyses, and genetic mapping. (Lab Materials Fee: \$25; Lab Manual Fee: \$7)

**Prerequisite:** [BIO230H1/BIO255H1](#), [BIO260H1/HMB265H1](#)

**Exclusion:** [MGY312H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY315H1 - Principles of Genetic Analysis II

**Hours:** 12T/36P

Laboratory experiments in eukaryotic genetics, using two of the most powerful eukaryotic model systems, the yeast *Saccharomyces cerevisiae* and fruit fly *Drosophila melanogaster*. The course follows [MGY314H1](#); topics include analysis of genetic networks and pathways, meiotic segregation analysis, recombination mapping, genetic crosses, and phenotypic analyses. (Lab Materials Fee: \$25; Lab Manual Fee: \$20)

**Prerequisite:** [BIO230H1/BIO255H1](#), [BIO260H1/HMB265H1](#), [MGY314H1/MGY340H1](#)

**Exclusion:** [MGY312H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY340H1 - Molecular Genetics

**Hours:** 36L

This course gives students an in-depth understanding of how genetics, the study of mutations and their resulting phenotypes, are used to probe and understand a variety of biological phenomena ranging from metabolism, to development, to cancer.

**Prerequisite:** [BIO120H1](#), [BIO130H1](#), [BIO230H1/BIO255H1](#), [BIO260H1/HMB265H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY350H1 - Model Organisms to Disease

**Hours:** 36L

The concepts of genetics in the context of human development, disease and evolution. Topics include genetic interactions and complex traits, variation in disease phenotype, signalling and development, stem cells and epigenetic regulation.

**Prerequisite:** [BIO120H1](#), [BIO230H1/BIO255H1](#), [BIO260H1/HMB265H1](#)

**Corequisite:** [BCH311H1/CSB349H1/MGY311Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY360H1 - Whole-Genome Sequencing and Analysis Laboratory

**Hours:** 36P

The principles and practice of whole-genome sequencing. Each student team will sequence an entire eukaryotic genome and analyze it. Topics will include: modern sequencing technology, yeast husbandry, genomic library construction and quality control, 'next-generation' sequencing, sequence assembly using a reference genome, principles of genome organization, mutation detection and interpretation.

**Prerequisite:** [BIO230H1/BIO255H1](#), [BIO260H1/HMB265H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY377H1 - Microbiology I: Bacteria

Hours: 36L

An in depth study of bacteria including their structure, their biology, their ability to adapt, and their effects on human health. Provides a foundation for advanced studies in bacterial physiology, bacterial genetics, molecular pathogenesis of disease, immunology, and environmental studies.

**Prerequisite:** BCH210H1/BCH242Y1, BIO120H1, BIO230H1/BIO255H1

**Exclusion:** BIO370Y5 (UTM)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY378H1 - Microbiology II: Viruses

Hours: 36L

Detailed study of viruses in terms of structure, classification, replication and interaction with the host. Basis for advanced study in virology. Requires some familiarity with molecular and cellular biology. A concurrent course in immunology (IMM340H1, IMM350H1) or (IMM341H1, IMM351H1) is recommended.

**Prerequisite:** BCH210H1/BCH242Y1; BIO120H1, BIO230H1/BIO255H1; BIO260H1/HMB265H1

**Corequisite:** BCH311H1/CSB349H1/MGY311Y1

**Exclusion:** BIO351Y1, CSB351Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY380H1 - Microbiology Laboratory I: Bacteria

**Previous Course Number:** MGY379Y1

Hours: 12L/36P

A laboratory course in bacteriology. Students will perform a variety of genetic and biochemical experiments to identify and characterize unknown organisms, and learn how bacteria live together in biofilm and become resistance to antibiotics. Students will also learn important research tools and concepts including CRISPRi, transduction, and conjugation through experiments. Valuable not only for advanced work in microbiology but also in related fields that make use of bacteria and bacteriophages as research tools. (Lab Materials Fee: \$25; Lab Manual Fee: \$20)

**Prerequisite:** BIO120H1, BIO230H1/BIO255H1, HMB265H1/BIO260H1

**Corequisite:** MGY377H1

**Exclusion:** MGY379Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY381H1 - Microbiology Laboratory II: Viruses

**Previous Course Number:** MGY379Y1

Hours: 12L/36P

Hands-on experiments provide the opportunity to develop skills in working safely with human viruses. Important concepts are learned through analysis of results. Topics include propagation and assay of viruses, examination of viruses by electron microscopy, replication kinetics, host response to infection and viral vectors. Valuable not only in microbiology but in fields using viruses as vectors. (Lab Materials Fee: \$25; Lab Manual Fee: \$20)

**Prerequisite:** BIO120H1, BIO230H1/BIO255H1, HMB265H1/BIO260H1, MGY380H1

**Corequisite:** MGY378H1

**Exclusion:** MGY379Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at

<https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

## MGY420H1 - Regulation of Gene Expression

Hours: 24L

Regulatory mechanisms controlling gene expression in eukaryotes; students will read, discuss, and present the primary research literature in class. Topics include: assembly of the initiation complex; roles of transcription factors, co-activators and cis-acting regulatory elements; promoter escape; mechanisms that control elongation, termination and anti-termination of transcription; chromatin control of transcription.

**Prerequisite:** [BCH311H1/CSB349H1/MGY311Y1](#)

**Exclusion:** BIO477H5 (UTM)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY425H1 - Signal Transduction and Cell Cycle Regulation

**Hours:** 24L

This course presents and integrates molecular aspects of signal transduction and cell cycle regulation in eukaryotic cells from yeast to humans. Emphasis is on recent advances in growth factor receptor signalling, modular protein domains, and the recurrent role of protein phosphorylation and protein-protein interactions in cell regulation.

**Prerequisite:** [BCH311H1/MGY311Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY428H1 - Functional Genomics

**Hours:** 24L

A broad-ranging course that covers many aspects of genomics and functional genomics, which is the discipline of defining and attributing function to all of the heritable material of an organism on a genome-wide scale, as applied to invertebrates and vertebrates. The primary and review literature will be the basis of all lectures.

**Prerequisite:** [BCH210H1/BCH242Y1](#);

[BIO260H1/HMB265H1](#);

[MGY311Y1/CSB349H1/BCH311H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY440H1 - Virus-Host Interactions

**Hours:** 36L

Analysis of virus/host interactions at the molecular level with a view to understanding how viruses cause disease. Course material is based on recent research publications. Topics will be selected from two or three themes that may include virus entry, intracellular trafficking, activation of host cell signaling pathways in response to infection, assembly and release of progeny virus, viral and host determinants of tissue tropism within the host and virus transmission between hosts.

**Prerequisite:** [BCH311H1/CSB349H1/MGY311Y1](#);  
[CSB351Y1/MGY378H1](#)

**Recommended Preparation:** [IMM340H1/IMM341H1](#),  
[IMM350H1/IMM351H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY460H1 - Genetic Analysis of Development

**Hours:** 24L

Basic and advanced principles of genetic analysis applied to the study of the best-understood eukaryotic model organisms including the nematode worm *Caenorhabditis elegans*, the zebrafish, and the laboratory mouse. We emphasize the use of genetic approaches to address problems in cell biology and development, such as the regulation of cell fate and tissue development. Much of the knowledge gained from these experimentally tractable organisms has proven broadly applicable, and the same principles of developmental genetic analysis underlie efforts to understand the development of humans.

**Prerequisite:** [BIO260H1/HMB265H1](#),  
[MGY311Y1/CSB349H1/BCH311H1](#)

**Exclusion:** [MGY451H1](#), [MGY452H1](#)

**Recommended Preparation:** [MGY340H1](#), [MGY350H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY470H1 - Human and Molecular Genetics

**Hours:** 24L

Current aspects of human and molecular genetics including: chromosome structure and function, inheritance of mutations and disease, the human genome and disease gene mapping, cancer genetics, mouse disease models and gene based diagnostics and therapies.

**Prerequisite:** [BCH311H1/MGY311Y1](#) (Note: [CSB349H1](#) is acceptable with permission of the instructor)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY480Y1 - Special Research Project

An opportunity for specialized individual research in molecular genetics and microbiology by arrangement with the course coordinator. Students are required to perform

an original research project and attend relevant research seminars. Not eligible for CR/NCR option.

**Prerequisite:** ( MGY314H1/ MGY315H1/ MGY379Y1/ MGY380H1/ MGY381H1), ( MGY311Y1/ BCH311H1/ CSB349H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY481H1 - Independent Research Project

**Hours:** 120P

This course provides an opportunity for individual research with a specific topic of study. Students are mentored and supervised by research scientists and faculty associated with the University of Toronto. It provides students an opportunity to enhance and apply their knowledge and understanding learned in other courses. Not eligible for CR/NCR option.

**Prerequisite:**

(MGY314H1/MGY315H1/MGY379Y1/MGY380H1/MGY381H1), (MGY311Y1/BCH311H1/CSB349H1)

**Exclusion:** MGY480Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## MGY482H1 - Independent Research Project

**Hours:** 120L

This course provides an opportunity for individual research with a specific topic of study. Students are mentored and supervised by research scientists and faculty associated with the University of Toronto. It provides students an opportunity to enhance and apply their knowledge and understanding learned in other courses. Not eligible for CR/NCR option.

**Prerequisite:**

(MGY314H1/MGY315H1/MGY379Y1/MGY380H1/MGY381H1), (MGY311Y1/BCH311H1/CSB349H1)

**Exclusion:** MGY480Y1

**Breadth Requirements:** Living Things and Their Environment (4)

## MIJ485H1 - Vaccines and Immunity

**Hours:** 36L

Analysis of the strategies used by pathogenic microbes to evade specific and innate immune responses, and the strategies used to combat infectious disease using vaccines, with an emphasis on molecular and immunological aspects. Special topics include: molecular basis of pathogenicity and immune-evasion strategies; vaccination strategies; challenges to vaccine implementation (given jointly by the Departments of Molecular Genetics and Immunology).

**Prerequisite:** (IMM340H1/IMM341H1),

(IMM350H1/IMM351H1), MGY377H1, MGY378H1

**Exclusion:** MBY480H1, MGY485H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# Munk One

## Faculty List

### Professor

J. Wong, MA, PhD

### Associate Professor

R. Levi, BCL, LLB, LLM, SJD

### Assistant Professor

T. Kramarz, MA, MSc, PhD

## Introduction

Munk One, provided by the Munk School of Global Affairs & Public Policy, provides first-year students with an interdisciplinary program focused on innovation and global problem-solving, investigating the central questions that lie at the heart of teaching and research in the Munk School of Global Affairs, namely issues of global institutions, markets and civil society. Through case studies of some of the most complex challenges worldwide, students in Munk One will examine innovations that have succeeded and failed, when innovation occurs, how innovation can be fostered, and how obstacles to innovation can be overcome. Students, faculty members, and practitioners working together draw on the breadth of interdisciplinary research and teaching in the Munk School to examine problems and solutions for complex global problems.

The Munk One experience integrates small group seminars with hands-on research and analysis of global problems. Limited to an enrolment of 25, students in Munk One enrol in the two (2.0 credits) courses offered in the Program. The seminar courses promote small-group discussion and emphasize research, analytical, and presentation skills. A lab course gives students the unique opportunity to tackle real-world problems with faculty and graduate students, building connections with their coursework through research-based opportunities that identify problems around the globe and seek to address them through innovative and empirically-grounded solutions. Beyond the classroom, Munk One engages students in the dynamic global conversation occurring in the Munk School, and offers students a vast array of co-curricular offerings such as access to the Munk School's 500 events each year, insights from leading practitioners, field visits, leadership events, curated readings and films. In the summer following their first year, Munk One offers students opportunities to apply these skills in the field by taking part in courses offered in places like Argentina, Israel and Singapore.

By focusing on innovation throughout their foundational year, undergraduate students will receive early immersion in leading thinking on the current global architecture across the sciences, professional fields, humanities, and with perspectives drawn from around the world. Because of the intensive intellectual experience that Munk One will provide, we deliver these offerings through collaboration with the School's flagship Master of Global Affairs Program. The result is a unique bridging of foundational year undergraduate education with the insights being developed in the School's professional graduate program. In so doing, we expect that Munk One: Global Innovation will build a community of undergraduate students who are passionate about the increasingly interconnected and multipolar world in which we live, and who are also linked in closely with the graduate and professional student cohorts pursuing related questions across the Munk School.

The course offerings for Munk One are specifically designed to meet these goals. Global Innovation I: Issues and Perspectives emphasizes innovation as a key driver of economic growth, population health, and societal success. Relying on contemporary and historical cases across the globe, this course engages students on the question of when innovation occurs, how to identify moments of innovation, motivates students to explore who benefits from innovation and how innovation can be fostered. Global Innovation II: Challenges and Solutions, pushes students to explore the potential problems that often limit or hamper innovation – such as the challenges of implementation and scale. In so doing, students engage directly with the problem-solving approach that is also core to the Munk School's graduate program, by relying on case studies of some of the most complex challenges worldwide, and examining interventions that have succeeded and failed to address them.

As identified above, in addition to seminar courses and co-curricular activities, students in Munk One will each be placed in research labs working on real-world global problems, such as digital governance, environment, global health, ethnic conflict and security, and economic development. Through these laboratory opportunities students will work with interdisciplinary teams to conduct research, develop reports, participate in roundtables, and learn how to identify and address complex global problems. These labs uniquely provide students a platform to draw from and refine their Foundational Year experience. Students will gain experience in a structured multidisciplinary approach to addressing global problems, engage in innovative global problem-solving, and drill down on substantive areas of interest within the field of global affairs.

All first-year students in the Faculty of Arts and Science (St. George campus) are eligible for admission. Students must submit an online application with a resume and personal statement.

## Munk One Courses

### MUN101H1 - Global Innovation I: Issues and Perspectives

**Hours:** 24L

Innovation has always been a key driver of economic growth, population health, and societal success. Transformative change has historically been linked to major innovations such as urban sanitation, pasteurization, the printing press and the industrial revolution. Currently, the opportunity to enhance life chances worldwide relies on innovating for the poor, social innovation, and the ability to harness scientific and technological knowledge. What precisely is innovation? When does innovation happen? Who benefits from innovation? How can innovation be fostered, and how do innovations spread? Relying on major global transformations and country-specific case studies (for example, South Korea, Taiwan, Israel and India), this course examines the drivers of innovation, the political, social, economic, and scientific and technological factors that are critical to promoting innovation and addressing current global challenges, and the consequences of innovation. Restricted to first-year students. Not eligible for CR/NCR option.

**Prerequisite:** Admission to Munk One  
**Exclusion:** Innis One, New One, St. Mike's One, Trinity One, UC One, Vic One, Woodsworth One  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

### MUN102H1 - Global Innovation II: Challenges and Solutions

**Hours:** 24L

Governing public goods has been an age-old concern for social scientists and policymakers alike. This is not surprising since the provision of global public goods is riddled by problems of collective action. In this course, we focus on how to implement solutions through states, markets and communities.

## Regarding Munk One Courses

Munk One students intending to pursue Peace, Conflict and Justice, Contemporary Asian Studies, and Public Policy programs (undergraduate programs run through the Munk School of Global Affairs & Public Policy), are also eligible to count some of their Munk One coursework toward their degree requirements.

The first objective is to familiarize students with the concept of global public goods, the different mechanisms that can provide these goods and the challenges that emerge from lacking incentives to secure their provision. To this end, the course will introduce theories from sociology, political science, philosophy, and history to help us understand different types of governance mechanisms and how they may be used to scale global solutions. Theories can help us explain the tensions between cooperating for the public good at the expense of sacrificing individual goals, or why certain areas of our lives, like the Internet, seem to produce public goods without any formal mechanism of cooperation.

The second objective is to use the class and subject of study as an arena to model and practice the kind of learning that is expected of university students. The main skills that the course will help students target and develop are: research (finding, evaluating and assimilating reliable information); writing (developing ideas into logically written arguments); and critical analysis of arguments presented in the readings and debated in class (this includes identifying the key assumptions that are implicit in different theories as well as inherent in our own positions on various questions related to governance). Restricted to first-year students. Not eligible for CR/NCR option.

**Prerequisite:** Admission to Munk One  
**Exclusion:** Innis One, New One, St. Mike's One, Trinity One, UC One, Vic One, Woodsworth One  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

### MUN105Y1 - Global Problem-Solving: Laboratory Opportunities

**Hours:** 48L

This course teaches students how to conduct analytically rigorous social science research to improve their insights into complex global problems and devise innovative solutions to address them. A unique feature of this class is that students have the opportunity to learn by doing. Students work hands-on in one of several labs dealing with some of the most intractable global problems of our time in the areas of the environment, health, digital governance, security and the gap between rich and poor. By the end of this course students will be able to:

1. Experience and practice the process of social science **research**
2. **Narrow** the scope of a complex global challenge into a manageable research problem that can be tackled over the course of the semester
3. Improve their knowledge and **insights** on a particular global problem
4. Develop a viable, compelling and implementable **solution** that can help address an aspect of a global problem
5. **Pitch** a solution in a compelling way to a jury of experts in global affairs

Students will work with their peers in small seminar classes and lab group settings, mentored by graduate teaching assistants specializing in global affairs, expert faculty and senior policy advisors dedicated to addressing global issues in the fields of the environment, health, security, digital governance and political economy. Restricted to first-year students. Not eligible for CR/NCR option.

**Prerequisite:** Admission to Munk One

**Exclusion:** Innis One, New One, St. Mike's One, Trinity One, UC One, Vic One, Woodsworth One

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

# Music

## Faculty List

### Faculty: Music History & Culture

#### Professors

C. Clark, MA, Ph D (T)  
R. Elliott, MA, Ph D (M)  
J. Haines, MA, Ph D (T)

#### Associate Professors

F. Hemmasi, MA, Ph D  
S. Lee, MA, Ph D  
K. McLeod, MA, Ph D  
J. Pilzer, MA, Ph D

#### Assistant Professors

S. Gutsche-Miller, MA, Ph D  
E. Lockhart, Ph D  
J. Packman, MA, Ph D

### Faculty: Music Theory

#### Professors

R. McClelland, Ph D  
D. McLean, MA, Ph D

#### Associate Professors

S. Vande Moortele, MA, Ph D

#### Assistant Professor

D. Tan, Ph D

#### Associate Professor, Teaching Stream

M. Sallmen, MA, Ph D

#### Lecturer

L. Kuzmenko, Mus Bac

The courses with the prefix MUS are open to any student of the University. Even students with a strong music background should find them stimulating explorations of the world of music.

Students wishing to enter the Specialist or Major Program should examine the courses listed under HMU History of Music and TMU Theory of Music in the Faculty of Music Calendar. First-year specialist/major courses are available to a small number of students, who are admitted to them by audition and interview during Registration week. Those interested in ethnomusicology and the study of world music may audition on the basis of their comparable accomplishments in a non-Western instrumental or vocal performing tradition. All students are required to have completed Level 8 Theory and Level 9 Harmony from the Royal Conservatory of Music or equivalent as prerequisite, prior to the audition-interview. Knowledge of Western music history and theory ensures that students are not disadvantaged when facing the curricular requirements of the program. In this program the humanistic and historical approach is supported by courses in music theory which provide craft and analytical tools. The Specialist Program provides excellent preparation for a variety of professional activities including music criticism, library science, positions in the publishing, broadcasting, and recording industries, as well as for graduate studies in musicology, ethnomusicology, and music theory, leading to careers in university teaching. The program leads to the degree of Bachelor of Arts (honours). For programs leading to the degree of Bachelor of Music, the student should consult the Calendar of the Faculty of Music.

Students are encouraged to attend events sponsored by the Faculty of Music such as the Thursday Noon and Faculty Artists' Series, opera productions and numerous concerts. For information refer to [www.music.utoronto.ca](http://www.music.utoronto.ca) or telephone 416-978-3740. Faculty of Music Representative: Professor R. McClelland, Associate Dean, Edward Johnson Building, Room 256 (416-946-0802); email: [ryan.mcclelland@utoronto.ca](mailto:ryan.mcclelland@utoronto.ca) Enquiries: Jennifer Panasiuk, Admissions Officer, Edward Johnson Building, Room 145 (416-978-3741); email: [undergrad.music@utoronto.ca](mailto:undergrad.music@utoronto.ca)

## Introduction

In the Faculty of Arts and Science, Music is approached as one of the liberal arts and taught as cultural history. This humanistic emphasis aims at a high degree of correlation with other disciplines such as Fine Art, Cultural Anthropology, Languages and Literatures, History, and Philosophy. Note that unlike students in the Mus.Bac. program at the Faculty of Music, students in the Specialist and Major programs are not given individual applied music instruction (e.g. piano or voice lessons). They are, however, offered a thorough grounding in musicology, and strong training in both ethnomusicology and music theory, with the option of increasing their exposure to the latter two disciplines via their upper-year option courses.

## Regarding Music Programs

Enrolment in HMU and TMU courses, and, therefore, in the Specialist and Major programs, is limited to students who pass the audition-interview, held annually in September. Students are required to complete and submit the Student Profile available on-line, normally prior to mid-August each year. Detailed information is available on the Faculty of Music website. Hard copies are available from the Faculty of Music Registrar's Office. You will then be assigned an audition/interview time. Prospective candidates must perform at the Royal Conservatory of

Music Grade Eight level, and demonstrate that they have RCM Level 8 Theory (formerly Advanced Rudiments) and RCM Level 9 Harmony (formerly Basic Harmony) or equivalents. Students interested in pursuing the Major or Specialist with the Ensemble option are required to pass an additional audition-interview for ensemble placement. Please refer to [MUS120Y1](#). An information sheet is available at the Faculty of Music and online at [www.music.utoronto.ca](http://www.music.utoronto.ca) under "Music for Arts & Science Students". (Note: No audition is required for the Music Minor program, see below.)

## Music Programs

### Music Specialist (Arts Program) - ASSPE2276

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### Special Requirement

- Students must pass an audition-interview to enroll in the program. The audition is held annually in September. Students are required to complete and submit the Student Profile available on-line, normally prior to mid-August each year. Detailed information is available on the [Faculty of Music](#) website.
- Prospective candidates must perform at the Royal Conservatory of Music Grade Eight level, and demonstrate that they have RCM Level 8 Theory (or equivalent) and RCM Level 9 Harmony (or equivalent). Students who do not meet the Level 9 Harmony requirement (or equivalent) will be required to attend an additional hour of tutorial during the fall term of [TMU140Y1](#).

#### Completion Requirements:

(10 credits)

#### First Year:

[HMU111H1](#), [HMU126H1](#), [TMU115H1](#), [TMU140Y1](#) (2.5 credits)

#### Higher Years:

1. [HMU225H1](#), [HMU340H1](#) or [HMU345H1](#), [TMU240Y1](#) (2.0 credits)
2. 3.0 credits from: [HMU425H1](#), [HMU426H1](#), [HMU430H1](#), [HMU431H1](#), [HMU432H1](#), [HMU433H1](#), [HMU435H1](#), [HMU450H1](#)
3. 1.5 credits in music history (HMU) or music theory

(TMU) with at least 1.0 credit at the 300-level

4. 1.0 credits at the 100-level or above in a language other than English

### Music Specialist with Ensemble Option (Arts Program) - ASSPE2027

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### Special Requirement

- Students must pass an audition-interview to enroll in the program. The audition is held annually in September. Students are required to complete and submit the Student Profile available on-line, normally prior to mid-August each year. Detailed information is available on the [Faculty of Music](#) website.
- Prospective candidates must perform at the Royal Conservatory of Music Grade Eight level, and demonstrate that they have RCM Level 8 Theory (or equivalent) and RCM Level 9 Harmony (or equivalent). Students who do not meet the Level 9 Harmony requirement (or equivalent) will be required to attend an additional hour of tutorial during the fall term of [TMU140Y1](#).
- Students interested in pursuing the Major or Specialist with the Ensemble option are required to pass an additional audition-interview for ensemble placement. Please refer to [MUS120Y1](#). An information sheet is available at the Faculty of Music and online at <http://www.music.utoronto.ca/> under "Music for Arts & Science Students"

#### Completion Requirements:

(11.5 full courses or equivalent)

#### First Year:

[HMU111H1](#), [HMU126H1](#), [MUS120Y1](#), [TMU115H1](#), [TMU140Y1](#) (3.5 credits)

#### Higher Years:

1. [HMU225H1](#), [HMU340H1](#) or [HMU345H1](#), [TMU240Y1](#) (2.0 credits)
2. [MUS220Y1](#) (1.0 credits)
3. 3.0 credits from: [HMU425H1](#), [HMU426H1](#), [HMU430H1](#), [HMU431H1](#), [HMU432H1](#), [HMU433H1](#), [HMU435H1](#)
4. 1.0 credit in music history (HMU) or music theory (TMU) at the 300+ level
5. 1.0 credit at the 100-level or above in a language other than English

## Music Major (Arts Program) - ASMAJ2276

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### Special Requirement

- Students must pass an audition-interview to enroll in the program. The audition is held annually in September. Students are required to complete and submit the Student Profile available on-line, normally prior to mid-August each year. Detailed information is available on the [Faculty of Music website](#).
- Prospective candidates must perform at the Royal Conservatory of Music Grade Eight level, and demonstrate that they have RCM Level 8 Theory (or equivalent) and RCM Level 9 Harmony (or equivalent). Students who do not meet the Level 9 Harmony requirement (or equivalent) will be required to attend an additional hour of tutorial during the fall term of [TMU140Y1](#).

### Completion Requirements:

(7 credits)

#### First Year:

[HMU111H1](#), [HMU126H1](#), [TMU115H1](#), [TMU140Y1](#) (2.5 credits)

#### Higher Years:

1. [HMU225H1](#), [TMU240Y1](#) (1.5 credits)
2. 2.0 credits in music history (HMU), including at least one half-course at the 300+ level and one half-course at the 400-level
3. 1.0 credit at the 300+ level in music history (HMU) or music theory (TMU)

## Music Major with Ensemble Option (Arts Program) - ASMAJ2027

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### Special Requirement

- Students must pass an audition-interview to enroll in the program. The audition is held annually in September. Students are required to complete and submit the Student Profile available on-line, normally prior to mid-August each year. Detailed information is available on the [Faculty of Music website](#).
- Prospective candidates must perform at the Royal Conservatory of Music Grade Eight level, and demonstrate that they have RCM Level 8 Theory (or equivalent) and RCM Level 9 Harmony (or equivalent). Students who do not meet the Level 9 Harmony requirement (or equivalent) will be required to attend an additional hour of tutorial during the fall term of [TMU140Y1](#).
- Students interested in pursuing the Major or Specialist with the Ensemble option are required to pass an additional audition-interview for ensemble placement. Please refer to [MUS120Y1](#). An information sheet is available at the Faculty of Music and online at <http://www.music.utoronto.ca/> under "Music for Arts & Science Students"

### Completion Requirements:

(8 credits)

#### First Year:

[HMU111H1](#), [HMU126H1](#), [MUS120Y1](#), [TMU115H1](#), [TMU140Y1](#) (3.5 credits)

#### Higher Years:

1. [HMU225H1](#), [TMU240Y1](#) (1.5 credits)
2. [MUS220Y1](#) (1.0 credit)
3. 1.0 credit in music history (HMU) at the 300+ level, including at least one half-course at the 400-level
4. 1.0 credit at the 300+ level in music history (HMU) or music theory (TMU)

## Music History & Culture Minor (Arts Program) - ASMIN0695

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4 full courses or equivalent)

1. [MUS110H1](#), [MUS111H1](#)
2. [MUS200H1](#) or an alternative 200-level 0.5 credit in world music ( [MUS209H1](#), [MUS211H1](#), [MUS212H1](#), or [MUS215H1](#) )
3. 2.5 credits in MUS courses from the list below, including one credit at the 300+ level. Either [MUS120Y1](#)

or [MUS220Y1](#) can be counted towards the 2.5 credits in MUS courses

HMU111H1, TMU115H1, and TMU140Y1 are Prerequisites for all other HMU/TMU courses which are offered annually. Full details on these, and other HMU/TMU courses may be found in the Calendar of the Faculty of Music. (The link can be found here: <https://music.utoronto.ca/#students>.)

## Regarding Music Courses

### HMU and TMU Courses

HMU111H, TMU115H1, and TMU140Y1, for the purposes of an Arts & Science degree, are considered category 1 (Creative and Cultural Representations) for breadth requirements, and are considered as Humanities courses for distribution requirements.

## Music Courses

### MUS110H1 - Introduction to Music History and Culture

**Hours:** 24L

Introduction to form, style and the interrelationship of music and culture. A basic ability to read music is required.

**Exclusion:** [HMU111H1](#), VPMA80H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### MUS111H1 - Historical Survey of Western Music

Historical survey of Western art music from the Middle Ages to the present. A basic ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### HMU111H1 - Introduction to Music and Society

An examination of musical thought and practice in non-Western and Western traditions.

**Exclusion:** Does not count as an HMU elective.

### MUS120Y1 - Vocal and Instrumental Ensembles I

**Hours:** 144P

Students rehearse and perform in concerts and reading sessions as assigned by the Faculty of Music. Provides experience in choral groups, orchestra, or in concert band and large wind groups of diverse instrumentation. Development of musicianship skills through performance of large ensemble works; emphasis on sight-reading, ear-training, and musical knowledge.

Attendance at all sessions is required. Placement audition and permission of the Department required.

Download the excerpt that is relevant to the instrument you would like to audition on; excerpts will be available at [www.music.utoronto.ca](http://www.music.utoronto.ca) beginning early July.

**Exclusion:** [MUS291Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### HMU126H1 - Historical Survey II

Western music from 1750 to the present.

**Exclusion:** [HMU226H1](#). Does not count as an HMU elective.

### MUS200H1 - Music of the World's Peoples

**Hours:** 24L

A survey of musical traditions from various regions of the world, with particular emphasis on the sociocultural contexts in which those musics are created and appreciated. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#), VPMA99H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS202H1 - Beethoven

**Hours:** 24L

A study of Beethoven's musical style in historical context, including a non-technical consideration of Beethoven's innovations based on listening to music and reading history. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#), VPMC85H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS204H1 - The Age of Bach & Handel

**Hours:** 24L

A study of the representative major works in their social and cultural setting with emphasis on the high baroque style of Bach and Handel. No prior background in music or the ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS206H1 - The World of Opera

**Hours:** 24L

Examination of selected operas from the eighteenth to the early twentieth century. Musical and dramatic styles will be considered in their cultural context. The ability to read music is not required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS207H1 - Music for Orchestra

**Hours:** 24L

Study of selected orchestral works from 1700 to the present. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS209H1 - Performing Arts of South Asia

**Hours:** 24L

Survey of classical, devotional, folk and popular musics and dances from the Indian subcontinent and their toll in the sociocultural life of the region. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS210H1 - Music in Film

**Hours:** 24L

The theory and practice of how music is used in a variety of film genres, drawing on case studies from different eras in film history. Examples will be drawn primarily from European and North American cinema.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS211H1 - The World of Popular Music

**Hours:** 24L

A survey of popular music traditions from various regions of the world with particular emphasis on the sociocultural contexts in which those musics are created and appreciated. Explores the role of the recording industry, media, festivals, and local institutions in shaping these music cultures both at home and in the international arena. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS212H1 - Music, Sound & Power in the Middle East

**Hours:** 24L

An investigation of the social life of classical, devotional, folk and popular music and dance from across the Middle East, North Africa and Central Asia.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS215H1 - Performing Arts of East Asia

**Hours:** 24L

An investigation of the social life of classical, devotional, theatrical, folk, and popular music and dance across East Asia.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS220Y1 - Vocal and Instrumental Ensembles II

**Hours:** 144P

Students rehearse and perform in concerts and reading sessions as assigned by the Faculty of Music. Provides experience in choral groups, orchestra, or in concert band and large wind groups of diverse instrumentation. Development of musicianship skills through performance of large ensemble works; emphasis on sight-reading, ear-training, and musical knowledge.

Attendance at all sessions is required. Placement audition and permission of the Department required.

Download the excerpt that is relevant to the instrument you would like to audition on; excerpts will be available at [www.music.utoronto.ca](http://www.music.utoronto.ca) beginning early July.

**Prerequisite:** MUS120Y1. Placement audition and permission of the Department required.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HMU225H1 - Historical Survey I

Western music up to 1750.

**Prerequisite:** In Year 2.

**Exclusion:** Does not count as an HMU elective.

## MUS225H1 - Music: Islamic World

**Hours:** 24L

A survey of the musical systems of Muslim societies from North Africa to Southeast Asia, with special focus on the broader cultural contexts in which they are created, used, and appreciated. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS230H1 - Music of the 1960s

**Hours:** 24L

Examination of musical and cultural aspects of the decade, with emphasis on North America. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS235H1 - Survivors' Music

**Hours:** 24L

Investigating music's myriad roles in the lives of survivors of violence and traumatic experience, for example, in health and recovery, witnessing, and advocacy—and the hidden histories these musics reveal. We encounter survivors of the Holocaust, Hiroshima, the Japanese “comfort women” system, and quotidian domestic and sexual violence.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS240H1 - Heavy Music

An investigation of different world genres of “heavy music” as creations of sounding figures of social order, practices of destruction, practices of personal and collective power, social critique, parody, and so on. Includes obvious suspects—metal, punk, gangsta rap—but also opera, military musics, ritual musics, and others.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS300H1 - Music, Media and Technology

**Hours:** 24L

This course explores some of the ways in which music has been shaped through history, and particularly during the last 100 years, by technology and the media. Special attention will be paid to the record industry, broadcasting, and cinema. Examples from popular and art music traditions of the world will be used to illustrate the symbolic relationship between music and media. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS301H1 - African Popular Music

**Hours:** 24L

A survey of popular music in Sub-Saharan Africa from the 1920s to today. Students will listen to and think critically about a range of musical genres in their historical and social contexts. Case studies include Ghanaian highlife, Congolese rumba, Ethiopian jazz, South African kwaito, and Nigerian afrobeat(s). In our exploration of popular genres, we will engage topics of colonialism, nationalism, ethnicity, aesthetics, commodification, and appropriation, among others. No prior background in music is required.

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS302H1 - Symphony

**Hours:** 24L

Masterpieces in the symphonic genre from the eighteenth to the twentieth centuries. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS303H1 - Music in the Contemporary World

**Hours:** 24L

The modern musical repertoire, including popular and traditional music from various parts of the world, will be studied from a variety of theoretical perspectives. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS305H1 - Latin American and Caribbean Music

**Hours:** 24L

A survey of popular, folk, and religious music from Latin America and the Caribbean. Each practice will be considered in its socio-cultural context with attention to the histories and discourses of racial and cultural mixing that deeply inform everyday life in nation-states including Peru, Brazil, Haiti, and Jamaica among others.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS306H1 - Popular Music in North America

**Hours:** 24L

A selected survey of North American popular music from the 1930s through present. Students will develop a critical framework for listening to and analyzing popular music in historical and social context by focusing on aspects of performance, representation, composition, mass media, aesthetics, and commodification. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS308H1 - Handel

**Hours:** 24L

Handel's life and music will be examined in its cultural contexts.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS315H1 - North American Vernacular Music

**Hours:** 24L

Explores vernacular music in North America, considering how musical performances and festivals of vernacular music map local, regional, and ethnic identities in North America. Specific case studies will include Scottish Highland, Tejano Conjunto, Métis Fiddling, Powwow, and Zydeco. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS321H1 - The Beatles

**Hours:** 24L

In The Ultimate Encyclopedia Of Rock, it was written of the The Beatles that "From three-minute pop classics to the psychedelic extravaganza of 'Sgt. Pepper', their songs soundtracked the Sixties. They were the greatest group in history. They probably always will be". In addition to a survey of the group's history, their recordings, and their films, this course aims to answer two basic questions: (1) what made the songs of The Beatles so successful? (2) in what ways did the band's artistic output "soundtrack" the 1960s? No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS325H1 - The Age of Haydn & Mozart

**Hours:** 24L

Selected works from the second half of the eighteenth century by Haydn, Mozart, and their contemporaries will be examined in cultural and historical context. No prior background in music or ability to read music is required.

**Exclusion:** [HMU111H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS330H1 - Music, Violence, and War

**Hours:** 24L

An inquiry into the social life of music in situations of violence, war, social domination, and traumatic experience. Case studies include music and African-American slavery, the First World War, Nazi Germany and the Holocaust, the Asia-Pacific War, Khmer Rouge Cambodia, the Iraq Wars and others.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## MUS335H1 - A Social History of the Piano

**Hours:** 24L

A survey of the changing roles and gendered associations of the piano c.1700 to the present day. Examples from the western art music tradition are compared to the acculturating force of the piano in other cultures, representations in the visual arts and film, and contemporary contexts of piano performance.

**Exclusion:** [VPMB76](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HMU340H1 - Music in North America

Study of music in North American life. Topics may include folk and popular music, jazz and art music.

**Prerequisite:** [HMU111H1](#), [HMU126H1](#), [HMU225H1](#)

## MUS340H1 - 20th Century Music for Theatre

**Hours:** 24L

An examination of the role that music has played in modern Western theatre, with specific case studies drawn from one or more of the following genres: ballet, modern dance, musical theatre, opera, spoken theatre.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HMU345H1 - Global Popular Musics

Global Popular Musics is an introduction to popular music in its social and cultural context in a variety of international settings. Genres to be covered may include, but are not limited to, rock, hip-hop, country, and "world music". The course will take an issues-based approach to the study of popular music, focusing on topics such as the interplay of tradition and modernity; media and technology; race, gender, sexuality, class, and other facets of identity; urbanization and migration; and the markets and legal structures surrounding music.

**Prerequisite:** HMU111H1, HMU126H1, HMU225H1

**Exclusion:** HMU245H1

## MUS408H1 - Wagner

**Hours:** 24L

A study of the life and works of the composer Richard Wagner, and of his influence on European cultural life from his time to the present day.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## HMU425H1 - Topics: Medieval Music

Plainchant and polyphony, including topics for individual research.

**Prerequisite:** Completion of 4-course History requirement and one additional HMU elective, or P.I.

**Exclusion:** HMU330H1

## HMU426H1 - Topics: Renaissance Music

A comprehensive survey of sacred and secular polyphony (1400-1600), including topics or independent research.

**Prerequisite:** Completion of 4-course History requirement and one additional HMU elective, or P.I.

**Exclusion:** HMU331H1

## HMU430H1 - Topics: Classical Music

Pre-classical composers, Haydn, Mozart, Beethoven (1720-1830), including topics for individual research.

**Prerequisite:** Completion of 4-course History requirement and one additional HMU elective, or P.I.

## HMU431H1 - Topics: Romantic Music

Instrumental and vocal genres, including topics for individual research.

**Prerequisite:** Completion of 4-course History requirement and one additional HMU elective, or P.I.

## HMU432H1 - Topics: 20th Century Music

Developments and trends since 1910, including topics for individual research.

**Prerequisite:** Completion of 4-course History requirement and one additional HMU elective, or P.I.

## HMU433H1 - Topics: Ethnomusicology

The history of the discipline from its roots in Comparative Musicology in the 1880s to the modern, holistic study of music and society. Other topics include transcription, transmission, and cultural appropriation. A variety of the world's traditions are illustrated with audio-visual materials, and students contribute personal surveys, analyses and debates.

**Prerequisite:** Completion of 4-course History requirement and one additional HMU elective, or P.I.

## HMU435H1 - Topics in Ethnomusicology: Current Issues

An undergraduate seminar devoted to exploring an emergent sub-field of ethnomusicology. The sub-field to be explored will rotate, but some examples are: the study of music and gender, race, or class; music and language; music and violence; sociomusicology; medical ethnomusicology; the ethnomusicology of popular music

and technology; analytical approaches in ethnomusicology.

**Prerequisite:** Completion of 4-course History requirement and one additional HMU elective, or P.I.

A. Ali, MA, PhD  
 G. Mercan, MPhil, DPhil

### Royal Ontario Museum (Status Only)

L. V. Golombek, MA, PhD, FRSC, Professor Emerita  
 K. A. Grzymiski, MA, PhD, Associate Professor  
 R. Mason, MA, PhD, Associate Professor  
 F. Suleman, MSt, DPhil, Assistant Professor  
 K. Sunahara, MA, PhD, Assistant Professor

## Introduction

The Department is concerned with the interdisciplinary study of the civilizations and cultures of the Near and Middle East from Neolithic times until the present, including their archaeology, history, mythology, religion and thought, art and architecture, and language and literature (Akkadian, Ancient Egyptian, Arabic, Aramaic, Coptic, Ge'ez, Hebrew, Persian, Sumerian, Syriac, and Turkish). The Department's programs provide students with a unique opportunity to study non-Western complex societies and civilizations.

The term Near East has been used in scholarship to refer to the region of Southwest Asia at the eastern end of the Mediterranean, including the Levant, Mesopotamia, Egypt, and Anatolia, from ancient times until the advent of Islam in the seventh century AD. The term Middle East refers to a broader geographical area stretching from North Africa to West and Central Asia. Although Islam became the predominant religious culture and remains so to the present day, the Middle East has been home to many religious communities, including Christians, Jews, Zoroastrians, and others. And while Arabic functioned as the interlanguage in much the same way as Latin did in the Christian West, many other languages and cultures (notably Persian and Turkish) contributed to the formation of Islamic civilization.

The Department welcomes students of all academic backgrounds who wish to learn about the Near and Middle East. Many courses do not require knowledge of the languages of the region. However, the Department strongly believes that a deeper understanding of the cultures of the Near and Middle East can be achieved through the study of one or more of its languages.

Additional information about programs and courses offered in a particular year, as well as about the NMC Students' Union, can be found on the Department's website: [www.nmc.utoronto.ca](http://www.nmc.utoronto.ca). Undergraduate enquiries should be directed to the Associate Chair, Undergraduate,

Bancroft Building, 4 Bancroft Ave., Rm. 200  
([nmc@utoronto.ca](mailto:nmc@utoronto.ca)).

## Near and Middle Eastern Civilizations Programs

### Near and Middle Eastern Civilizations Specialist (General) (Arts Program) - ASSPE1019

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(11.0 credits, including at least 4.0 credits at the 300+ level, of which 1.0 credit must be at the 400-level.)

At least 9.0 credits must be NMC and/or NML courses. Others may be taken only from a list of pre-approved courses offered by other departments.

1. First Year: 1.0 credit from [NMC101H1](#)/ [NMC102H1](#)/ [NMC103H1](#)/ [NMC104H1](#).

2. 4.0 credits in one or two primary source languages (with NML designator) from among the following languages: Akkadian, Ancient Egyptian, Arabic, Aramaic, Coptic, Ge'ez, Hebrew, Persian, Syriac, Turkish.

3. Higher years: 3.0 credits from [NMC241H1](#), [NMC245H1](#), [NMC248H1](#), [NMC270H1](#), [NMC273Y1](#), [NMC274H1](#), [NMC275H1](#), [NMC276H1](#), [NMC277H1](#), [NMC278H1](#), [NMC342H1](#), [NMC343H1](#), [NMC344H1](#), [NMC346H1](#), [NMC347H1](#), [NMC348Y1](#), [NMC355H1](#), [NMC356H1](#), [NMC358H1](#), [NMC359H1](#), [NMC370H1](#), [NMC373H1](#), [NMC374H1](#), [NMC376H1](#), [NMC377Y1](#), [NMC378H1](#), [NMC386H1](#), [NMC446H1](#), [NMC447H1](#), [NMC449H1](#), [NMC452H1](#), [NMC471H1](#), [NMC472H1](#), [NMC473H1](#), [NMC475H1](#), [NMC476H1](#), [NMC477H1](#), [NMC478H1](#), [NMC479H1](#) (History & Society courses) and [NMC247H1](#), [NMC254H1](#), [NMC271H1](#), [NMC284H1](#), [NMC289H1](#),

[NMC380H1](#), [NMC381H1](#), [NMC382Y1](#), [NMC384H1](#), [NMC385H1](#), [NMC484H1](#) (Religion & Thought courses).

2.0 credits from [NMC260H1](#), [NMC261Y0](#), [NMC262H1](#), [NMC263H1](#), [NMC264H1](#), [NMC265H1](#), [NMC266H1](#), [NMC360H1](#), [NMC361H1](#), [NMC362Y1](#), [NMC363H1](#), [NMC364H1](#), [NMC367H1](#), [NMC368H1](#), [NMC398Y0](#), [NMC445H1](#), [NMC461H1](#), [NMC462H1](#), [NMC463H1](#), [NMC464H1](#), [NMC465H1](#), [NMC466H1](#), [NMC467H1](#), [NMC468H1](#), [NMC469Y1](#), [NMC470H1](#), [NMC474H1](#) (Archaeology courses) and [NMC243H1](#), [NMC246H1](#), [NMC251H1](#), [NMC252H1](#), [NMC253H1](#), [NMC255H1](#), [NMC256H1](#), [NMC258H1](#), [NMC259H1](#), [NMC315H1](#), [NMC316H1](#), [NMC350H1](#), [NMC351H1](#), [NMC352H1](#), [NMC353H1](#), [NMC357H1](#), [NMC394H1](#), [NMC395H1](#), [NMC396H1](#), [NMC450H1](#), [NMC480H1](#), [NMC491H1](#) (Art, Architecture, & Literature courses).

4. 1.0 credit of NMC or NML courses or those from a list of pre-approved courses offered by other departments.

### Near and Middle Eastern Civilizations Specialist (Ancient) (Arts Program) - ASSPE2665

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(11.0 credits, including at least 4.0 credits at the 300+ level, of which 1.0 credit must be at the 400-level.)

At least 9.0 credits must be NMC and/or NML courses. Others may be taken only from a list of pre-approved courses offered by other departments.

1. First Year: 1.0 credit from [NMC101H1](#)/ [NMC102H1](#)/ [NMC103H1](#)/ [NMC104H1](#).

2. 4.0 credits in one or two primary source languages (with NML designator) from among the following languages: Akkadian, Ancient Egyptian, Aramaic, Coptic, Ge'ez, Hebrew (Biblical, Middle), Persian (Old Persian, Avestan, Pahlavi), Syriac.

3. Higher years:

3.0 credits from [NMC245H1](#), [NMC248H1](#), [NMC270H1](#), [NMC276H1](#), [NMC277H1](#), [NMC343H1](#), [NMC344H1](#),

## Near and Middle Eastern Civilizations Minor (Arts Program) - ASMIN1019

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

4.0 credits, including at least 1.0 credit at the 300+ level. All 4.0 credits must be NMC and/or NML courses.

## Faculty of Arts & Science Language Citation

The Department of Near and Middle Eastern Civilizations participates in the Faculty of Arts & Science's Language Citation for Arabic, modern Hebrew, Persian, Turkish, Biblical Hebrew, and Ancient Egyptian. The study of languages is a demanding and intellectually rewarding educational experience that provides access to the varieties of human culture and expression. The Language Citation requires the completion of 3.0 credits and recognizes a significant level of achievement in the advanced study of a language.

The Citation in Arabic is available to students who, having completed the introductory course in Arabic ([NML110Y1](#) or the equivalent prerequisite training), earn a grade of at least B- in two additional credits in Arabic language ([NML210Y1](#), [NML310Y1](#), or [NML410Y1](#)).

The Citation in modern Hebrew is available to students who, having completed the introductory courses in modern Hebrew ([NML155H1](#) and [NML156H1](#) or the equivalent prerequisite training), earn a grade of at least B- in two additional credits in modern Hebrew language ([NML255H1](#), [NML256H1](#), [NML355H1](#), and [NML356H1](#)).

The Citation in Persian is available to students who, having completed the introductory Persian language course ([NML260Y1](#) or the equivalent prerequisite training), earn a grade of at least B- in two additional credits in Persian language/literature ([NML360Y1](#), [NML461H1](#), [NML462H1](#), [NML466H1](#), [NML467H1](#), or [NML468H1](#)).

The Citation in Turkish is available to students who, having completed the introductory course in Turkish ([NML270Y1](#) or the equivalent prerequisite training), earn a grade of at least B- in two additional credits in Turkish language ([NML370Y1](#) and [NML470Y1](#)).

The Citation in Biblical Hebrew is available to students who, having completed the introductory course in Biblical Hebrew ([NML250Y1](#) or the equivalent prerequisite training), earn a grade of at least B- in two additional credits in Biblical Hebrew language ([NML350H1](#), [NML351H1](#), [NML450H1](#), and [NML459H1](#)).

The Citation in Ancient Egyptian is available to students who, having completed the introductory course in Ancient Egyptian ([NML240Y1](#) or the equivalent prerequisite training), earn a grade of at least B- in two additional credits in Ancient Egyptian language/literature ([NML340Y1](#), [NML440H1](#), and [NML441H1](#)).

Students should note that, as explained in the [About Programs of Study](#) section of this Calendar, the Language Citation is not equivalent to an academic program for purposes of degree completion; however, language courses taken as part of the Requirements for an NMC

Program of study may count towards a Language Citation in the relevant language(s).

## Regarding Near and Middle Eastern Civilizations Courses

**Note Regarding Courses:** Not all courses are taught every year. Please check the Faculty of Arts & Science Timetable for the list of courses offered in 2021–2022. Courses with the designator NML indicate courses devoted to the study of the languages of the Near and Middle East (at Introductory, Intermediate, and Advanced levels), as well as courses that study texts written in the original languages. The Department reserves the right to place students in the course level best suited to their linguistic preparation.

### First-Year Foundation Courses

First-Year Foundation Seminars are open only to newly-admitted Faculty of Arts & Science students. They offer the opportunity to explore interesting and often controversial topics in a small-group setting with professors who are among the Faculty's leading scholars. Students engage in academically rigorous discussions

## Near and Middle Eastern Civilizations Courses

### NMC First-Year Foundations

#### NMC195H1 - Rebels, Misfits, and Outcasts in Modern Arabic Literature

**Previous Course Number:** NMC242H1  
**Hours:** 36S

This course examines modern Arabic literary texts that portray marginalized social figures and groups who have been excluded from a protective system of resources and privileges. Students will read novels and short stories by prominent Arab authors who have represented marginal social groups in their fiction, including representations of the urban poor, the peasantry, the delinquent, the prostitute, sexual minorities, women who reject normative roles, and the political rebel. These fictional texts address issues such as political resistance and rebellion, economic precarity, and social exclusion. Students will engage with these texts by critically examining the role of literature in narrating unspoken and suppressed histories. The class will also introduce students to theoretical modes of literary analysis and interpretation. All texts will be read in English translation. Authors include Mohamed Choukri, Hanan al-Shaykh, Alifa Rifaat, Sonallah Ibrahim, and Arwa Salih.

and develop strong written and oral communication skills in the process. The Department offers five FYF Seminars on topics ranging from the ancient to the modern. First-Year Foundation Seminars:

- Count as 0.5 of the 20.0 credits required for an Hon. B.A., Hon B.Sc. or B. Com.
  - First-Year Foundation Seminars may count towards your Program. Please check with your college registrar or the NMC Department for further details.
  - Can be counted towards the breadth requirement.
- For the list of NMC [First-Year Foundation Seminars](#) see the Faculty of Arts & Science Calendar.

### Gateway Courses

These courses are designed to introduce students to the major civilizations and cultures of the Near and Middle East—ancient, medieval, and modern—and to present students with the range of possibilities for further study in their chosen area of interest. These courses provide an opportunity for students to improve their writing skills under the supervision of the Writing Integrated Teaching (WIT) program of the Faculty of Arts & Science. Students pursuing any one of the NMC Specialist Programs are required to take two of these Gateway courses, whereas students opting to do any one of the Major Programs are required to take only one.

Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** [NMC242H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

#### NMC196H1 - Law and Order in the Ancient Near East

**Hours:** 24S

Are human beings basically evil or good? What creates order in society? Coercion? Religion? Can societies operate without law? This course explores different systems of authority and control through ancient texts, focusing on the very first ideas of law in human history. We examine actual law codes, court cases on real estate disputes and conspiracy to commit murder and rape, as well as alternative means of regulating communities such as ideology, ritual and magic. While most courses on ancient law approach the topic from the perspective of modern concerns, this course situates the first law in its own historical, social and political context. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC197H1 - Myth and History in the Bible

Hours: 24S

Reading the Bible is easy, but reading it well isn't. Should we read its stories as history? All of it? Or perhaps only part of it? If so, which parts? And if some parts aren't meant to be read as history, then what are they? Was Jonah really swallowed by a large fish? Did the sun and moon stand still for Joshua? Did Moses really part the Red Sea? Did Jesus really raise Lazarus from the dead? Are miracles necessarily fiction? In this seminar, we will read together many of the most colourful stories of the Bible, sometimes alongside similar stories from the cultural context of ancient Israel, and discuss what genre (history, myth, legend, folktale) they belong to and how this affects our reading of these texts. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC198H1 - Iranian Women Reveal Their Lives: The First Generation

Hours: 24S

The course focuses on Iranian women born in the late 19th and early decades of the 20th centuries. *Making of the Modern Iranian Woman, 1865-1946* introduces the context of social, cultural, and governmental change that encouraged educated females to think beyond the dominant conservative ideal of a woman's place. Primarily we will use writings by women themselves, such as *Memoirs of a Persian Princess: From the Harem to Modernity, 1884-1914*, to examine their lives. Interviews with women in *Exiled Memories* give voice to repressed memories that inhibited female self-development. The memoir *Reveille for a Persian Village* reveals the challenge of introducing change for females into an isolated rural community. Poems by this early generation vividly reveal their anger, regret, difficulties, and hopes for the future. *Memories of a Persian Childhood* helps us to appreciate the important role of childhood experience in later choices. Each woman is discussed as an individual and as a product of a period of turbulent social and cultural change in the history of Iran. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC199H1 - Babylon: Fact vs. Fiction

Hours: 24S

The ancient city of Babylon, now a vast archaeological site in Iraq about 100km south of Baghdad, has captured people's imagination up to this day. Who has not heard of the Hanging Gardens of Babylon, the Biblical Tower of Babel, or the sci-fi TV series *Babylon 5*? Yet, how much of that reflects the reality of ancient Babylon? This course will explore the city of Babylon through its texts and archaeology and contrast this data with the way the city has been remembered over the past two thousand years. However, the goal of the course is not only to investigate how myths about Babylon have been constructed throughout the centuries. It will also look at the shortcomings of contemporary academic research on Babylon, and how difficult it is to reconstruct humankind's distant past. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Gateway Courses

### NMC101H1 - Land of the Pharaohs

Hours: 24L/12T

Egypt is one of the oldest known civilizations on the African continent. Deeply embedded within early African history, Egypt was also inextricably linked with the history of many civilizations in the Ancient Near East. From pyramids to mummies and from King Tut to the Hanging Gardens of Babylon, the course will trace the history of ancient Egypt from its foundation around 3050 BCE to its incorporation into the Roman Empire in the 1st Century BCE. The focus will be on various aspects of Egyptian culture, including the institution of kingship, the role of women, and the characteristic features of Egyptian art, literature, and religion. Emphasis will be placed on the methods by which knowledge about this ancient civilization can be obtained.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

### NMC102H1 - Heartland of Ancient Empires

Hours: 24L/12T

Mesopotamia and the ancient Near East—the area of modern Iraq and adjacent regions—witnessed the rise of

the first cities in the fourth millennium BC and the emergence of the world's first empires in the first millennium BC. This course traces Mesopotamian history from the beginnings of agriculture through to the earliest cities, following the trajectory of political development from city states, to territorial states, and finally to the great empires of Assyria, Babylonia, and Achaemenid Persia and their aftermath. It studies the peoples and polities of the ancient Near East, including the Sumerians, Assyrians, Babylonians, and Persians. It also examines their cultural contributions, from the development of cuneiform writing to their achievements in law, administration, science, art and architecture, religion, and literature.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## NMC103H1 - The Islamic World

**Hours:** 24L/12T

A broad introduction to Islam, including the history, culture, and religion of the people and places that came to be influenced by Islam and that constitute a world civilization. What makes something (an empire or state, or a work of art or music) Islamic? When and how did that which we think of today as Islamic come about? How has "the Islamic" changed over time? With these questions in mind, this course introduces students to major figures, events, themes, institutions, and intellectual currents in Islamic history, from its beginnings in the 7th century to the modern period. Key topics to be covered include the rise and spread of Islam, the Qur'an and the role of Arabic, political thought, law and society, and literary and artistic expressions. Attention is paid to the geographical and ethno-linguistic scope of the Muslim world, demonstrating the diversity of peoples and traditions that make up Islamic civilizations.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## NMC104H1 - The Biblical World

**Hours:** 24L/12T

Examine the history, lands, peoples, religions, literatures and cultures that produced the Hebrew Bible/Old Testament. Topics to be covered include an overview of the geography and history of Ancient Israel and Judea, the role of the Hebrew, Aramaic, and Greek languages, the literary genres reflected in biblical and some contemporary non-biblical texts, and the scholarly methods by which the Bible is studied.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## Culture and Civilization Courses

### NMC241H1 - Anthropology of the Middle East

**Hours:** 24L

This course aims to familiarize students with the anthropological study of the contemporary Middle East. It introduces key questions and concepts for anthropological study: who speaks for the Middle East? What is culture? What is ethnography? It analyzes systems of power and exclusion, and everyday life and relations in countries like Egypt, Turkey, Iran, Iraq, Syria, Lebanon, Palestine, Israel, and Kuwait. The course will provide critical perspectives on gender, religion, family relations, national belonging, migrant workers, and refugees. Students will apply anthropological methods learned in class to do an independent project.

**Exclusion:** RLG355H1  
**Recommended Preparation:** NMC278H1/ANT207H1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

### NMC243H1 - The Arabic Novel

**Hours:** 24L

This course focuses on the origins and development of the novel genre in the modern Arabic literary tradition. The course examines the aesthetic qualities of the novel as an artistic form as well as the ways it has represented and intervened in the modern social, political, and cultural upheavals that have shaped the Arabic-speaking world from the mid 19th century to the 21st century. Students will read literary criticism that addresses the Arabic novel's emergence and consolidation as a major literary form and will engage with contemporary methods of literary analysis and interpretation. Topics addressed in the course include textual representations of colonialism and post-colonialism, gender and sexuality, representations of the peasantry, the nation-state and Arab nationalism, and discourses of progress and modernity. Authors include Ahmad Faris al-Shidyaq, Yahya Haqqi, Naguib Mahfouz, Tayeb Salih, Latifa al-Zayyat, Mohamad Choukri, and Hanan al-Shaykh. Readings of novels and criticism in English translation.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC245H1 - Women in the Ancient Near East

**Hours:** 24L

The course examines written and archaeological sources to discuss the status and role of women in the ancient Near East, focusing in particular on the first millennium BCE.

**Recommended Preparation:** [NMC101H1](#), [NMC102H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC246H1 - Sumerian and Babylonian Literature in Translation

**Hours:** 24L

This course explores some of the world's oldest literature, including the Epic of Gilgamesh and the Babylonian Epic of Creation. It surveys the major literary genres from ancient Mesopotamia, including epics, myths, lyrical poetry, wisdom literature, and humorous tales. It covers literary compositions written in the Sumerian and Babylonian languages using the cuneiform script, ranging in date from the third millennium BC through to the first millennium BC. The course also examines the scholarly and cultural context in which these works were created and preserved for posterity, including the role of scribal training, the nature of Mesopotamian scholarship, royal sponsorship, and the formation of ancient libraries.

**Recommended Preparation:** [NMC102H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC247H1 - The Intellectual History of the Ancient Near East

**Hours:** 24L

Survey of the intellectual life in the Ancient Near East from the emergence of writing in Mesopotamia and Egypt at the end of the third millennium BCE until the Hellenistic and Roman periods. Covers issues of orality vs. literacy, state and scribal control, notions of progress, origins and purpose of knowledge, as well as areas such as taxonomy of the natural world, astronomy, mathematics, medicine, divination.

**Recommended Preparation:** [NMC101H1](#), [NMC102H1](#), or [NMC104H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC248H1 - Ancient Bureaucracies

**Hours:** 24L

Where were taxes first collected? When was the first receipt issued? What did the first account ledgers look like? This course offers an introduction to the development of early bureaucracies in ancient Mesopotamia (Iraq), Iran and Syria. Find out how accounting procedures evolved after 6,500 BC, from closing storage containers in Neolithic villages with seals and sealings to complex recording procedures in urban settings that ultimately led to the development of writing on clay tablets around 3,100 BC. Learn how different patterns of irrigation in river-based agricultural societies such as Mesopotamia, Egypt, and China led to similar yet distinct systems of resource management and administration, using different writing materials (e.g. clay tablets, papyrus) based on available raw materials. And see how bureaucratic procedures, while helping to maximize efficiency in an ancient society, could also create a lack of flexibility, ultimately leading to political decline or collapse.

**Recommended Preparation:** [NMC102H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC251H1 - Voices from Ancient Egypt

**Hours:** 24L

This course introduces students to the culture of ancient Egypt through the study of "functional" textual materials. After a brief introduction to the Ancient Egyptian language and writing system, we will read texts from domestic, religious (comprising funerary and ritual), historical, and scientific backgrounds to paint a rich picture of the daily life and experiences of the ancient Egyptians. By way of example, we will illustrate Egyptian funerary beliefs on the basis of texts found in tombs, such as autobiographies, offering formulae, and letters left there for the dead by their families; or the role of the pharaoh for the Egyptian state by studying monumental inscriptions left on temple walls, boundary stelae, and in the tombs of the Egyptian elite. No knowledge of Ancient Egyptian required; all texts read in translation.

**Recommended Preparation:** [NMC101H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC252H1 - Hebrew Bible

Hours: 24L

An introduction to the critical study of the Hebrew Bible/Old Testament and the related literature of ancient Jewish communities (Apocrypha, Pseudepigrapha, Dead Sea Scrolls). English translations used; no knowledge of Hebrew is required.

**Recommended Preparation:** [NMC104H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC253H1 - Egyptian Myths

Hours: 24L

This course explores ancient Egyptian mythical writings and representations, starting with the myths contained in the Pyramid Texts of the 3rd millennium BCE and ending with the narrative mythical tales of the 1st millennium BCE and beyond. Definitions and theories of ancient Egyptian myth as well as historical developments will be discussed, and we will attempt to explain why religious beliefs and stories changed. The course is structured systematically, focusing in particular on mythical accounts that elucidate Egyptian cosmic, royal, and funerary beliefs as well as the intersection of these domains. All texts read in translation.

**Recommended Preparation:** [NMC101H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC254H1 - The Mummy: Technology and Transformation

Hours: 24L

This course explores the significance of mummies in contexts ranging from ancient Egyptian to modern, tracing the development of Egyptian mummification techniques and the roles and uses of mummies as transformative elements allowing access to the afterlife, sources of information about ancient individuals, characters in literature and film, and objects for display in museums.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NMC255H1 - Love, Battle, and Wit: Classics of Premodern Arabic Literature

Hours: 24L

This course surveys the premodern Arabic literary heritage, from pre-Islamic poetry to literature of the Mamluk period, focusing on texts that remained influential sometimes until the present day. Students read classic works in translation each week, while discussion focuses on social context and close reading. Throughout, we note the development of literary forms over time, and the way authors reference previous works. Readings include: the animal fable book *Kalila wa Dimna*, excerpts from anecdote collections (*adab*), multilingual Andalusí songs called *maqamat*, an obscene shadow play by Ibn Daniyal, popular epic, and some of the most famous poems by Labid, Jarir, Abu Nuwas, Abu Tammam, al-Mutanabbi, and Ibn Nubata.

**Recommended Preparation:** 1.0 credit in Humanities/BR=1 or 2

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC256H1 - 1001 Nights Around the World

Hours: 24L

The 1001 Nights has had many lives, in many languages, and across many media. This course starts off with a detailed reading, in translation, of one of the oldest surviving Arabic versions of the text, with consideration of its literary and social context, and its sources. We then move forward in time to examine how the 1001 Nights was expanded, adapted, and disseminated from then until today. A key transformation moment occurred between 1704-1717 with the publication of Antoine Galland's French version, composed with the input of Syrian storyteller Hanna Diab. This version was widely disseminated and became a basis for most subsequent modern adaptations. We consider adaptations both before and after this turning point, including manuscripts, translations, novels, ballets, short stories, and films produced around the world. Throughout, we consider the politics and aesthetics of these historical translations, adaptations, and transformations.

**Recommended Preparation:** 1.0 credit in Humanities/BR=1 or 2

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC258H1 - The Book of Kings: Persian Myth, History, and Art

Hours: 24L

The *Shahnameh*, or Book of Kings, is the single most important book in Iranian national culture and one of the great epics of world literature. Composed in Persian by the poet Ferdowsi in the late 10th–early 11th centuries, it had a deep and lasting impact not only on Iran, but also on those cultures that came under the influence of Persian language, literature, and courtly traditions. The course examines, in English translation, the *Shahnameh's* presentation of the history of the mythical dynasties of the ancient kings of Iran from the creation of the world to the Sasanians, the last historical dynasty to rule Iran before the Muslim Arab conquests. As the *Shahnameh* was frequently illustrated, attention will also be devoted to the manuscript tradition, which exhibits some of the finest examples of medieval Persian painting.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC259H1 - Literature of Ancient and Late Antique Iran

Hours: 24L

This course explores the most important texts of the Zoroastrian literature of ancient and late antique Iran and serves as a broad introduction to the mythical and ritual world of Zoroastrianism and the contours of pre-Islamic Iranian thought. The course is divided into two parts: a) Old Iranian literature, such as the Avestan religious literature and the Old Persian inscriptions, and b) Middle Persian (Pahlavi) literature, including epic poetry (Chronicle of Ardakhshir, narrating the deeds of the first Sasanian king), didactic and wisdom literature (Memorial of the Vizier Wuzurgmihr; Explanation of Chess and Backgammon), apocalyptic and visionary literature (Book of the Righteous Wiraz, describing his journey to heaven and hell), texts on cosmology (Primordial Creation), and encyclopaedic works (Acts of the Zoroastrian Religion), as well as specimens of Manichaean literature in Middle Iranian languages. All readings are in English translation.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC260H1 - Why the Ancient Near East? Investigating the Great Transformations in Pre- and Proto-History

Hours: 48L

This is an experiential course that asks what it would have been like for people in the ancient Near East as their world underwent the profound changes wrought by domestication, farming, urbanism, and state formation. We focus on the sensory experiences of the body, and their effect upon the mind, by reconstructing and using spaces and objects that have come to define the archaeological periods from 10,000 to 2500 BCE. From circular communal buildings and the constraints and possibilities they offer, to replastering skulls and making hand-held figurines, to the performance of a ritual text, we link traditional teaching with walking a mile in ancient footwear. Participation in this course requires an active imagination and a willingness to get physical.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC261Y0 - Field Archaeology

Participation for 4 - 7 weeks during the summer in an approved archaeological excavation in the eastern Mediterranean/Middle East. This experience is then critiqued in a previously assigned essay researched and written under guidance upon return. Departmental permission is required in December-February prior to the fieldwork. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC262H1 - Why the Ancient Near East? The Historic Periods

Hours: 48L

From 2500 to 333 BCE, the ancient Near East saw the world's first empire, the birth of international diplomacy, burgeoning sea-trade and piracy, perennial warfare and the emergence of new ethnic identities like the Philistines and Israelites. Explore the archaeological evidence for these events in Mesopotamia, Egypt, Anatolia and the Levant.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC263H1 - The Archaeology of Gods, Ghosts, Witches and Demons

**Hours:** 24L

This class investigates archaeological traces of human interaction with the supernatural world in the ancient Near East, including figurines, temples, skulls, statues, and cylinder seals. In order to contextualize different ways of thinking about other worlds, we also look at cross-cultural comparisons ranging from Africa to the Americas.

**Recommended Preparation:** [NMC102H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NMC264H1 - The Archaeology of Stuff

**Previous Course Number:** NMC369Y1

**Hours:** 24L

Discover how the structure of animal skin enables the making of leather and tattoos; why mighty kings boasted about tree-cutting expeditions; how chariots, stirrups, and gunpowder changed the very structure of contemporary societies; why spears are better than swords. Understand and appreciate the materials in the world around you.

**Exclusion:** [NMC369Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC265H1 - Archaeology in War Zones: Syria, Iraq, Afghanistan

**Hours:** 24L

Focusing on Syria, Iraq and Afghanistan, this course raises some controversial issues in coming to grips with the impact of war on retrieving, interpreting, and preserving the past. Find out the many ways we can work to preserve the history and culture of places at risk, now and in the future.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC266H1 - Archaeologies of Power

**Hours:** 36L

Who were the first powerful leaders? How did they portray themselves, and what was the source and basis of their power? This course provides a comprehensive survey of the origins and rise of political leadership in the Near East from its beginnings in the Neolithic period to the famous kings and military leaders of Sumer, Assyria, and Babylon. Sources consulted include archaeological data (architecture, monuments, narrative art) as well as historical sources. The course is intended as an introduction to a broader understanding of the mechanisms that result in the formation of political power structures. Although it focuses on the ancient Near East, the course will discuss parallels from other parts of the world, both ancient and modern, that are relevant to understanding manifestations of political power in our present-day world.

**Recommended Preparation:** [NMC102H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC270H1 - Christians of the Middle East

**Hours:** 24L

The course will introduce students to the Christian communities living in the Middle East since the distant past, identified by ecclesiastical and or ethnic terms, including Armenian, Copt, Greek-Melkite, Maronite, and Syriac. The course will discuss the plurality of their cultural, literary, and theological traditions, the social and intellectual roles of their monasteries, the contributions of their top religious authorities in diplomacy between Byzantium and the Sassanians, their position in the Islamic world and contributions to Islamic culture, philosophy, sciences, and theology, interreligious dialogues and polemics with Islam.

**Recommended Preparation:** [NMC102H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC271H1 - The Sufi Tradition in Islam

**Hours:** 24L

The history of asceticism and mysticism in the Islamic tradition, with particular attention to the formative period as well as the breadth and diversity of Sufism across the Islamic world, from West Africa and Spain, to the Balkans and Central Asia, to China and Southeast Asia. We begin with the origins of the piety movement in early Islam, and the ways in which it responded to late antique Christian monasticism. We then examine the emergence of classical Sufism in the 9th century, its basic concepts and practices, the rise of saints, the formation of Sufi orders,

the social and cultural context for key developments, as well as the reasons for the contested legacy of Sufism in the modern world. Major figures for discussion include Rabi'a, Junayd, Hallaj, Ghazali, Ibn Arabi, and Rumi.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NMC273Y1 - Early Islamic History: The Prophet and the Caliphates

**Hours:** 72L

The formative period of Islam, from its origins in the late antique Near East to the fall of Baghdad in the mid-13th century. This course serves to build a solid foundation in Middle East and Islamic Studies, giving students an understanding of the key topics, events, movements and figures in medieval Islamic history. The major early Islamic dynasties (including the Umayyads, Abbasids, Buyids, and Fatimids) are covered, with attention to broader themes of importance, such as historiography, change and continuity, imperial power and politics, revolt and resistance, religious authority and tradition, cultural and intellectual developments, military organization and slavery, and the encounters between nomadic and sedentary peoples. Students will also gain an awareness of the sources and methods available for the study of Islamic history, the challenges they pose for modern historians, various interpretive approaches in using them, and the debates they have inspired in the scholarship.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC274H1 - The Turks in History: From Nomads of the Steppe Frontier to Islamic Rulers

**Hours:** 24L

The course examines the roles of Turks and other primarily nomadic peoples as raiders, migrants, slave-soldiers, and empire-builders in the ancient and medieval history of Eurasia (including Central Asia, the Middle East, and Eastern Europe) and in the formation of the Islamic world. Topics covered include long-distance economic and cultural contacts ("silk roads") facilitated by "steppe empires"; the Islamization of the Turks and their gradual takeover of Iranian, Arab, and other Muslim lands; lifeways (especially pastoral nomadism); the relationship between nomadic and sedentary societies; political structures; steppe warfare; the role of physical geography and the environment. Students explore the histories and landscape geographies of Turks through fascinating primary sources and internet resources. The course

illustrates the key role that Turks played in the formation of the modern world on the Eurasian continent.

**Exclusion:** [NMC274Y1](#)

**Recommended Preparation:** [NMC103H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC275H1 - The Mongol Empire and the World It Made

**Hours:** 24L

Most of Eurasia (the Middle East, East and South Asia, Eastern Europe) was once incorporated into the Mongol Empire and greatly influenced by Mongol rule. It may be said that the beginnings of modern history on the Eurasian continent were shaped by the impact of the Mongols and their non-Mongol (mainly Turkic) partners. This course explores the history of the pan-Eurasian empire founded by Chinggis Khan (Genghis Khan) in the 13th century and the smaller empires into which it devolved: Yuan China-Mongolia, Chaghatayid Mongolia-Central Asia, Ilkhanid Iran-Anatolia, and the Golden Horde Eastern Europe-Western Siberia. The course also surveys various post-Mongol successor states, such as the Timurid and Mughal Empires, and the Kazakh, Uzbek, and Crimean Tatar Khanates, as well as touches upon important non-Chinggisid successor polities, such as Muscovy-Russia and Slavic Cossacks. Students explore the history and landscape geographies of the Mongol venture through fascinating primary sources and internet resources.

**Exclusion:** [NMC274Y1](#)

**Recommended Preparation:** [NMC103H1](#), [NMC274H1](#)

## NMC276H1 - Topics in Near & Middle Eastern Civilizations

Topics vary from year to year, depending on instructor.

**Distribution Requirements:** Humanities

## NMC277H1 - Topics in Near & Middle Eastern Civilizations

Topics vary from year to year, depending on instructor.

**Distribution Requirements:** Humanities

## NMC278H1 - Introduction to the Modern Middle East

**Hours:** 36L

The emergence of modern states in the Middle East, against a background of empire, world wars, and national and religious movements. Students will learn why the modern map looks the way it does, and how Middle Eastern peoples' self-identifications have changed over the past 200 years.

**Recommended Preparation:** [NMC103H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC284H1 - Topics in Judaism and Feminism: Conflict, Competition, Complement

**Hours:** 24L

Agitation for change exists in religious practice worldwide in areas of access, status, inclusion, and egalitarianism. Traditional religion is often in conflict with egalitarian modernity. This sometimes results in difficulties with religious identification. This course will explore the interaction between feminism and Judaism. We will examine how Jewish law (*halakhah*) sometimes conflicts with ideas of egalitarianism particularly in legal disabilities for women such as divorce, lack of access to high-level Torah study, and discrimination in public religious roles. The traditional exemption of women from the obligation of Torah study had great impact on women's religious responsibility and status. Various movements within Judaism competed in efforts to resolve these difficulties. In this course we will consider to what extent inclusion and egalitarianism have become complementary to traditional Judaism.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NMC289H1 - Introduction to Coptic Studies

**Hours:** 24L

Overview of the history of the Copts from political, religious, social and economic perspectives. Literary and documentary sources will illustrate these different aspects of Coptic Civilization. The focus on Coptic Monasticism will underline the role of monasteries as conservers of the Coptic Orthodox Church tradition.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NMC315H1 - The Structure of Arabic Language

**Previous Course Number:** NML315H1

**Hours:** 24L

This course investigates formal properties of Arabic language. It provides students with an in-depth knowledge of the grammar of the language focussing on the areas of phonetics, phonology, morphology, syntax, and the interaction between phonology and morphology.

**Prerequisite:** [NML210Y1](#) or [LIN100Y1](#), or permission of the instructor

**Exclusion:** [NML315H1](#)

**Recommended Preparation:** [LIN229H1](#), [LIN232H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC316H1 - Cultural Encounter in Arabic Narrative

**Hours:** 36S

This course examines historical and literary texts that narrate Muslim and Arab encounters with cultural difference. Students will read travel narratives, autobiographies, and fictional texts that chronicle encounters with the Arab-Islamic world's cultural "others." The course first examines travel narratives from the medieval Islamic period, including al-Sirafi's travels to India and China, and Ibn Fadlan's encounters with peoples inhabiting lands north of the Abbasid Empire, such as the Vikings. Students then consider how travel narratives in the modern period are transformed due to radical changes in the balance of power between Europe and the Middle East, first reading 19th-century travel narratives to Paris (al-Tahtawi), and then focusing on 20th-century texts that narrate the travels of Arab men and women to Europe and North America (Leila Ahmed, Sayyid Qutb, Nawal El Saadawi). Students will also read texts that depict encounters with non-Arabs within the modern Arab world, such as literary depictions of American oil workers in the Arab Gulf (Munif). All readings are in English translation.

**Prerequisite:** 3.0 credits in BR 1/BR 2

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC342H1 - History & Sources of Egyptian Monasticism

**Hours:** 24L

Presents an historical overview on the origins of Egyptian monasticism based on written sources. Comparison of written sources with archaeological artifacts reveals the relation between spiritual and material aspects of monastic life. Literary sources produced for different monastic orders -- such as sermons, canons and biographies -- will be studied.

**Recommended Preparation:** NMC289H1/NMC368H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC343H1 - Farmers to Pyramid Builders: Cultural and Political History of Ancient Egypt I

**Hours:** 24L/12T

Exploration of the primary archaeological, architectural, and inscriptional sources, questioning and analyzing ideas about Egypt's development from farming communities at the dawn of history to an early state that built great pyramids for its kings, collapsed into civil war, and grew to become a colonizing power in the Middle Kingdom.

**Prerequisite:** 5.0 credits in any field or 1.0 credit in NMC

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC344H1 - Hyksos Subjects to Empire Builders: Cultural and Political History of Ancient Egypt II

**Hours:** 24L/12T

Exploration of the primary archaeological, architectural, and inscriptional sources, questioning interpretations and analyzing how Egypt confronted foreign domination and developed into a major empire in the New Kingdom under Thutmose III, Hatshepsut, Akhenaten, and Ramesses II, then fragmented politically in the Third Intermediate Period and ultimately became a colony itself.

**Prerequisite:** 5.0 credits in any field or 1.0 credit in NMC

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC346H1 - Ancient Mesopotamia I: Sumerians and Akkadians

**Hours:** 24L

The political and cultural history of the peoples of ancient South-Western Asia from 3000 BCE to the destruction of Babylon by the Hittites ca. 1600 BCE. (Offered in alternate years)

**Prerequisite:** 3.0 credits in Humanities/BR= 1 or 2

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC347H1 - Ancient Mesopotamia II: Assyrians and Babylonians

**Hours:** 24L

This course traces the political development and cultural history of Mesopotamia, from the territorial states of the Late Bronze Age to the world's first empires in the 1st millennium BC, those of Assyria, Babylonia, and Achaemenid Persia. It also traces the subsequent history of Mesopotamia through the Seleucid and early Parthian eras, down to the end of cuneiform writing around the end of the 1st millennium BC. The course emphasizes the critical analysis of primary written sources (in translation) for reconstructing the history of the peoples of Mesopotamia. It also examines their achievements in literature, science and scholarship, and art and architecture.

**Prerequisite:** 3.0 credits in Humanities

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC348Y1 - History of Iran: From the Sasanians to the Safavids

**Hours:** 48L/24T

This course studies the political, religious, and cultural history of greater Iran from Late Antiquity through the Islamic period to the early modern era. Following an overview of the history of the Sasanian empire, the course traces the progress of the Muslim Arab conquests of Iran in the 7th century and surveys the rise of regional Iranian dynasties that contributed to the formation of a new Perso-Islamic cultural identity. From the 11th–15th centuries Iran was dominated politically by Turkic and Turko-Mongolian dynasties, the most significant of which—the Ghaznavids, Seljuqs, Ilkhanids, and Timurids—are examined, including their patronage of Persianate literature and art. Particular attention is devoted to the Safavid polity established in the early 16th

century, which represented a watershed in the political and cultural history of Iran due to its adoption of Shi'ism as the state religion.

**Recommended Preparation:** [NMC273Y1](#) or [NMC274H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC350H1 - Christian Literature from the Middle East in Translation

**Hours:** 24L

Survey of various literary genres from works produced by Armenian, Coptic, Maronite, Melkite, and Syriac authors between the 3rd and the 19th centuries CE. Genres include theology in poetry, biblical commentaries, historiography and chronicles, hagiography, songs and epics, apologetics, and travel accounts.

**Prerequisite:** [NMC270H1](#)

**Recommended Preparation:** [NMC102H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC351H1 - Dead Sea Scrolls

**Hours:** 24L

This course provides an examination of the historical and cultural context in which the Dead Sea Scrolls were authored and copied, the types of writings included in the Scrolls, and the ancient Jewish groups behind these texts. It also discusses the significance of the Scrolls for understanding the textual development of the Hebrew Bible, ancient scriptural interpretation, and the thought world of the Jews during the period that gave birth to both Rabbinic Judaism and early Christianity. No knowledge of Hebrew or Aramaic is required. (Offered alternate years)

**Prerequisite:** 9.0 credits

**Recommended Preparation:** [NMC104H1](#) or [NMC252H1](#), or equivalent in another humanities department

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC352H1 - Ancient Egyptian Literature

**Hours:** 24L

This course focuses on the analysis of Ancient Egyptian literary texts from a variety of different genres. We will

read examples of instructional and wisdom literature, poetry, literary narratives, and mythical tales. Issues such as how to best define terms like "literature" or "genre" for such an ancient culture will be discussed, and we will try to trace the development of literary texts in pharaonic Egypt—from the earliest attestations of coherent prose in the tombs of the Egyptian Old Kingdom (around 2500 BCE), via the full-blown Late Egyptian narratives of the Ramesside Period (around 1200 BCE), to instances of reiterations of the older genres in the Late and Ptolemaic Periods (to about 300 BCE). No knowledge of Ancient Egyptian is required; all texts will be read in translation

**Prerequisite:** Any 0.5 credit on ancient Egypt offered by academic units within the Faculty of Arts & Science

**Recommended Preparation:** [NMC101H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC353H1 - Possible Worlds: Arabic Speculative Fiction

**Hours:** 24S

This course examines the relationship between political critique and the textual production of *possible worlds*, taking the Arabic literary canon as its example. Among the key concepts analyzed will be history, time, language, and selfhood. Students will experiment with appropriately using concepts from modern critical theory in the analysis of premodern and modern Arabic literary texts. Readings include Qur'anic apocalyptic *suras*, the philosophical novel *Hayy ibn Yaqzan*, *Sindbad the Sailor* and other travel narratives, al-Ma'arri's satirical narrative of a visit to the afterlife, trickster tales of the *maqama* genre. We then turn to the merging of novelistic forms, selfhoods, and conceptions of political organization with those of the *maqama* in early novels by al-Muwaylihi and al-Shidyaq, ending with contemporary conceptual art and a dystopic novel.

**Prerequisite:** 4.0 credits in Humanities/BR= 1 or 2

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC355H1 - Ottoman Empire: The Age of Reform

**Hours:** 24L

The course examines the history of the Ottoman Empire beginning with the inauguration of the first Western-inspired reforms at the end of the 18th century until the empire's dissolution over the course of World War I. It explores the transformation of Ottoman politics, society,

and intellectual and cultural life during a period marked by active reform efforts and increasing contacts with the West, which had an impact on the empire's diverse populations. Topics include the Nizam-i Cedid (New Order), the Tanzimat, the Hamidian era, the Young Turk revolution, constitutionalism, women, and the emergence of artistic expressions of modernity, such as theatre and painting. The course also provides insights into the Ottoman legacy in modern Turkey, the Middle East, and the Balkans, and seeks to situate the Ottoman experience in a global context.

**Prerequisite:** 4.0 credits

**Recommended Preparation:** [NMC278H1](#), [NMC377Y1](#), [NMC378H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC356H1 - Anthropology of Islam

**Hours:** 24L

This course introduces students to studies of contemporary Islam that are based on extensive periods of research with Muslim communities in their own languages using anthropological methods. What do such studies teach us about the varied ways Muslims engage with their religious tradition in the modern world? And how can such studies make us think differently about gender, economy, science, and secularism? We will discuss examples from Nigeria to Somalia, Egypt, Turkey, and Iran, to India, Pakistan, and Indonesia, to Canada, the US, and Europe. Students will apply anthropological methods learned in class to do research among a Muslim community in Toronto or online.

**Exclusion:** [RLG355H1](#)

**Recommended Preparation:**

[NMC103H1](#)/[RLG204H1](#)/[NMC241H1](#)/[ANT207H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## NMC357H1 - Gender and Sexuality in Premodern Arabic Literature

**Hours:** 24S

Students read translations of Arabic literary texts composed by women or dealing with gender and sexuality. Class discussion considers debates in the field about how to analyze these texts in their historical context and in a theoretically grounded manner. Topics addressed include: popular and elite narrative representations of gender and sexuality; pre-Islamic and Abbasid poetry and remarks composed by women, and their transmission in male-authored anthologies; hetero- and homoerotic obscenity and eroticism in Arabic poetry, epistles, and

scientific texts; and literary representations of sexual minorities like eunuchs, intersex people, and *mukhannathūn* (people with apparently male biology who dressed and behaved as women, and had a specific social position at certain times).

**Recommended Preparation:** 4.0 credits in Humanities

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC358H1 - Gender and Sexuality in Modern Middle Eastern Cultures

**Hours:** 24L

This course examines questions of gender and sexuality in the broader Middle East (Iran, Turkey, and the Arab world) from the colonial period (19th to early 20th centuries) to the present through readings of religious, cultural, historical, visual, and literary texts. We will begin the course by thinking critically about colonial and Orientalist legacies that continue to structure contemporary debates on representations of women, gender, and sexuality in the Middle East and North Africa. Students will read and analyze a range of primary historical texts written by Middle Eastern women reflecting the ways in which women of different backgrounds (religious, class, urban/rural) and generations have conceptualized and inhabited their gendered and sexual identities. Topics students will explore include the development of modern secular and religious feminist thought; cultural representations of gender, sexuality, and queerness; fictional texts that represent non-normative expressions of gender and sexuality; and critical approaches to theorizing gender and sexuality in the Middle East. All readings are in English translation.

**Prerequisite:** 3.0 credits in Humanities/BR= 1 or 2

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC359H1 - Nomads in the Ancient Near East

**Hours:** 24L

Using ancient archaeological and textual sources as well as modern ethnographies and political theories, this class takes a critical look at the role of mobile populations in Near Eastern history from the fourth to first millennium BCE, assessing modern perspectives as well as the ancient evidence.

**Recommended Preparation:** [NMC102H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## NMC360H1 - The Archaeology of the Biblical World I: The Bronze Age

**Hours:** 24L

The archaeology of Syria-Palestine from prehistoric times until the end of the Late Bronze Age (ca. 1200 BCE), with a special emphasis on the development of complex society, and inter-relations with the neighboring regions of Egypt and Syro-Mesopotamia. Attention will also be given to the history of archaeological research in the region, current field techniques and methods of archaeological analysis, and the relationship between archaeological evidence and contemporary written records, including the Hebrew Bible.

**Prerequisite:** 1.0 credit in Humanities/BR= 1 or 2  
**Recommended Preparation:** [NMC102H1](#)/ [NMC104H1](#)/  
[NMC260H1](#)/ [NMC262H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC361H1 - The Archaeology of the Biblical World II: The Iron Age

**Hours:** 24L

The archaeology of Syria-Palestine from the collapse of the Late Bronze Age until the Persian Period, with a special emphasis on the emergence of Israel and the small territorial nation-states of the eastern Mediterranean seaboard. Particular attention will be given to the relationship between the archaeological evidence and contemporary written records, including the Hebrew Bible.

**Prerequisite:** 1.0 credit in Humanities/BR= 1 or 2  
**Recommended Preparation:** [NMC102H1](#) or [NMC104H1](#)  
or [NMC260H1](#) or [NMC262H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC362Y1 - Ancient Egyptian Sites

**Hours:** 48L

Detailed examination of significant sites for the understanding of ancient Egyptian cultural development, encompassing the study of spatial organization,

architecture, artifactual material, and archaeological evidence from each site.

**Prerequisite:** [NMC343H1](#) and [NMC344H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## NMC363H1 - Archaeology of Mesopotamia

**Hours:** 36L

A comprehensive survey of the origins of complex societies, urbanism and early states in Mesopotamia from the beginning of the Neolithic period to the end of the Achaemenid Empire. Learn about the rise of villages in the Fertile Crescent (Neolithic period, 10,000–5,000 BC); the foundation of cities and the invention of writing (Chalcolithic period, 5000–3000 BC); the formation of states headed by mighty kings (Early and Middle Bronze Age, 3,000–1,200 BC), and the splendour and awe that defined the empires of Assyria, Babylon, and Persia (1,000–330 BC). While focusing geographically on the archaeology and material culture of Iraq this course will also address sites and related archaeological materials from western Iran, eastern Syria, and south-eastern Turkey.

**Prerequisite:** [NMC102H1](#)  
**Recommended Preparation:** [NMC260H1](#), [NMC262H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## NMC364H1 - Art and Archaeology of Syria

**Hours:** 36S

Discover the wonders of Syria's past, from 10,000 year-old burials to the world heritage sites of Palmyra and the Citadel of Aleppo. Explore headless skeletons, royal marriages, desert castles and Roman streetscapes.

**Prerequisite:** 3.0 credits in any field  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC367H1 - Archaeology & Architecture of Egyptian Monasticism

**Hours:** 24L

Underlines the role of some Egyptian monasteries as active institutions carrying out numerous economic activities, and reveals the forces that enabled their survival and changing function. Exploration of these rich sites of cultural exchange, as manifested in their architecture and religious art and written material.

**Recommended Preparation:** [NMC260H1](#), [NMC262H1](#), [NMC342H1](#), [NMC368H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC368H1 - Coptic Art & Archaeology

**Hours:** 24L

A survey of Coptic art, archaeology and architecture. The course will cover aspects of the religious, civil and daily life of the Copts: their houses, religious architecture, funerary monuments, art and artefacts

**Recommended Preparation:** [NMC260H1](#), [NMC262H1](#), [NMC289H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC370H1 - History of Ancient Israel

**Hours:** 24L

The course is concerned with the political and cultural history of ancient Israel and the Hebrew people from origin stories set in the pre-monarchic period to early Roman Palestine. Israel is the land that bequeathed the Bible, the Jewish people, and hosted the birth of Christianity. Much of its history witnessed hostile interactions with imperial forces, from Babylon to Rome. While the focus is on key people, events, and essential chronology, the course also addresses critical questions concerning the use of sources (primary among which is the Hebrew Bible/Old Testament); differences between ancient history-writing and modern history-writing; and the assumptions and methods involved in reconstructing historical events.

**Prerequisite:** [NMC104H1](#), [NMC252H1](#)

**Recommended Preparation:** [NMC101H1](#), [NMC102H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC373H1 - Modern Iran

**Hours:** 24L

This course covers the history of Iran from the early modern period to the present. Following an overview of the Safavid revolution and the empire it created (1501–1722), we examine the political upheavals experienced in post-Safavid Iran throughout the 18th century that culminated in the rise of the Qajar polity. This review of early modern Iranian history will set the stage for our investigation of the defining moments in the modern history of Iran, including the Constitutional Revolution (1905–1911), the subsequent toppling of the Qajar dynasty, and the establishment of Pahlavi rule under Reza Shah. We then focus on the events leading up to and including the Islamic Revolution of 1979 and the making of the Islamic Republic. The course concludes with an exploration of society and culture in contemporary Iran.

**Recommended Preparation:** [NMC348Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC374H1 - The Mamluks: from Slaves to Sultans

**Hours:** 24L

Engages with fundamental themes of Islamic civilization that played out in the Mamluk sultanate of Egypt and Syria: slavery, plague, the role of women, military patronage, global trade networks, the emergence of a “discourse” society, science and medicine, material culture and architecture, and the impact of Crusades and Mongol invasions.

**Prerequisite:** [NMC273Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC376H1 - History of Islamic Spain and North Africa (640-1492)

**Hours:** 24L

Muslim conquest of North Africa and Spain, history of Spain under Muslim rule to 1492. Attention given to institutional and cultural development, Islamic Spain's relations with the Islamic east and neighbours in Europe.

**Prerequisite:** [NMC273Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC377Y1 - Ottoman Empire: The Classical Age

**Hours:** 48L

A survey of the Ottoman Empire from its late 13th–early 14th century origins as a border principality through the classical age of Mehmed the Conqueror and Süleyman the Magnificent when, as a mature Islamic empire, it ruled lands in Europe, Asia, and Africa, to the internal and external challenges it faced during the 17th and 18th centuries that forced it to either transform or decline. Attention is also paid to the immediate predecessors of the Ottomans—the Anatolian Seljuk Sultanate, the Mongols, and the principalities known as *beyliks* that came into being with the decline of the Seljuks and led to the rise of the Ottomans. Coverage includes topics in Ottoman institutions, economy, society, and culture.

**Exclusion:** [NMC377H1](#)

**Recommended Preparation:** [NMC273Y1](#), [NMC274H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC378H1 - Modern Arab History

**Hours:** 36L

A thematic treatment of the Arab lands of the Middle East and North Africa from 1700 onward, focusing on the Ottoman and colonial periods.

**Prerequisite:** [NMC278H1](#) and permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC380H1 - Religion in the Ancient Near East

**Hours:** 48S

Primary sources from Mesopotamia, Syria and the Levant reveal profound awareness of the human condition. What do they tell us about religion in the ancient Near East, and why do Judaism, Christianity and Islam share some stories? Takes a critical approach to the ways we read texts and reconstruct beliefs.

**Prerequisite:** 3.0 credits in any field

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NMC381H1 - Modern Islamic Thought

**Hours:** 24L

Survey of major intellectual trends in the Islamic tradition, particularly those identified with Middle Eastern Muslim thinkers, from the early 19th century to the present. Topics

include reformism, modernism, hermeneutics, feminism, Islamism, and liberal and progressive trends in contemporary Muslim thought. Readings in English translation.

**Prerequisite:** [NMC103H1](#)

**Recommended Preparation:** [NMC278H1](#), [NMC283Y1](#), [RLG204Y1/RLG204H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NMC382Y1 - Mummies, Myth and Magic: The Religion of Ancient Egypt

**Hours:** 72L

Religious belief and practice in ancient Egypt. The course will focus on gods and mythology, which will be studied through primary sources in translation.

**Prerequisite:** [NMC101H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NMC384H1 - Life Cycle and Personal Status in Judaism

**Hours:** 24S

This course will examine certain aspects of status and family law in Judaism, as well as Zoroastrianism, Eastern Christianity, and Islam. We will review some literature in legal theory to test its applicability to religious-based law. Our main topics include virginity (marital age, proof of virginity or its absence, rape or seduction of virgins, economics and theology of virginity); menstrual laws (impurity, punishment, sexuality, purification); mysticism (practitioners, purity requirements, theology); and sexuality (marriageability, prohibited partners, sex acts). Sectarian approaches to these legal issues will be examined, for example, how biblical law is interpreted in Qumran, by the rabbis, and how these topics are addressed by Zoroastrian law, the Eastern Church Fathers and the Four Schools in Islamic law.

**Prerequisite:** Completion of 4.0 credits in Humanities/BR=1 or 2

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NMC385H1 - Islamic Law in Historical Perspective and Contemporary Debate

**Hours:** 24L

The course surveys the history, theory, and doctrines of Islamic law, and addresses issues that are at the center of public debate across the world. Students will closely read primary sources, provide oral and written responses, and reflect on their own positionality vis-à-vis debates on Islamic law. The course introduces students to the dynamics of Islamic legal reasoning in a historical and comparative perspective.

**Prerequisite:** [NMC103H1/RLG204H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NMC386H1 - Muslims, Christians, and Jews in the Ottoman Empire

**Hours:** 24L

Although ruled by a Muslim dynasty and frequently characterized as an Islamic empire, the Ottoman state was inhabited by diverse religious and ethnic populations, many of them non-Muslim. This course examines how the Ottoman Empire governed and organized its subjects, Muslims and non-Muslims alike, of various ethnic backgrounds. It explores the relations among these communities and their interactions with the state, raising questions about tolerance, co-existence, conflict, loyalty, and identity. By looking into a selection of topics from the wide territorial span of the Ottoman Empire (Anatolia, the Balkans, and the Arab Middle East) the course seeks to provide insights into the organization, functioning, and transformation of a multi-confessional state and society in the premodern and modern eras.

**Recommended Preparation:** [NMC241H1](#), [NMC278H1](#), [NMC355H1](#), [NMC377Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC394H1 - Persianate Art and Architecture

**Hours:** 24L

Covering art and material culture in the eastern Islamic lands from the late 13th century to the modern period. Objects from the collections of Islamic art in the Royal Ontario Museum will also be studied.

**Prerequisite:** 1.0 credit from FAH or NMC in medieval art/history/culture

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC395H1 - Iconography of the Art and Material Culture of the Islamic World

**Hours:** 24S

The art and material culture of the Islamic world is rich in iconography - from Persian paintings to Afghan war rugs - with complex layers of meaning that are not necessarily understood at first glance. Such imagery can be comprehended through numerous lenses, from pre-Islamic concepts and literary themes to politically-driven motivations or religious beliefs and practices. Through a series of case studies of examples of painting, ceramics, metalwork, textiles, and contemporary art, the course examines the meanings behind the iconography on objects from across the Middle East and Central Asia, dating from the medieval period to the present day.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC396H1 - The Art of the Qur'an

**Hours:** 24L

The holy Qur'an, believed by Muslims to be the Word of God, has been a source of creative and artistic inspiration for Muslims around the world and through the ages. The language and interpretation of the Qur'an have engaged the minds of artists, craftspeople, and patrons of the arts as much as the minds of theologians and jurists. This course explores expressions of the Qur'an through a wide range of visual and material culture—from illuminated manuscripts to the use of the sacred text on coins, amulets, architecture, ceramics, metalwork, textiles, and modern and contemporary works of art. The course will include visits to the Royal Ontario Museum to examine Qur'ans in its Islamic collection.

**Prerequisite:** Completion of 4.0 credits in Humanities/BR=1 or 2

**Recommended Preparation:** Knowledge of Arabic or the Arabic script beneficial though not essential.

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC445H1 - Sacred versus Secular Space: Mesopotamian Architecture in Context

**Hours:** 36L

When and where did the first buildings come about? Learn how some 10,000 years ago, the first permanent dwellings were constructed in the ancient Near East. Discover how the agricultural revolution and the domestication of animals resulted in the formation of villages during the Neolithic period (9,000–5,000 BC) with house types that grew in size and complexity. Observe how religious architecture evolved from simple, household-based cultic installations to large public complexes that dominated cities during the Uruk and Early Dynastic periods (4,000–2,300 BC). See how the rise and manifestation of powerful political leaders is reflected in the development, layout and decoration of their palaces. Beyond a typological approach to architecture, this course will also address challenges created by environmental conditions and limitations in available building materials. While focusing on Mesopotamia and Syria, it will also incorporate examples from Iran, Anatolia and the Levant.

**Prerequisite:** Students in other areas of study are encouraged to contact the Department.

**Recommended Preparation:** [NMC260H1](#) or [NMC363H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC446H1 - The Babylonian City

**Hours:** 24L

Ancient Mesopotamia is well known as the birthplace of some of the world's earliest cities. This course investigates the physical form of the city in 2nd and 1st millennium BC Babylonia (southern Mesopotamia) as the setting for the daily activities of its inhabitants. It examines the key components of the Babylonian city: houses; neighbourhoods and city districts; palaces; temples and ziggurats; streets and alleys; shops and markets; city walls, gates, and moats, as well as canals, orchards and gardens. The course emphasizes the reading and critical evaluation of written sources in translation, including selected royal inscriptions, topographical texts, and legal and administrative documents. It also considers ways of approaching the study of ancient cities and addresses the integration of textual and archaeological evidence. The focus is on investigating the relationship between Babylonian city form and contemporary social structure.

**Prerequisite:** 9.0 credits in any field

**Recommended Preparation:** [NMC102H1](#), [NMC346H1](#)/[NMC347H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC447H1 - The Neo-Assyrian Empire

**Hours:** 24L

The course offers a detailed introduction to the Neo-Assyrian empire and how it functioned, based on study of a representative selection of written sources (in translation). It examines Assyrian kingship, imperial administration, and daily life as reflected in the texts, including the royal inscriptions, official correspondence, astrological reports, and everyday legal and administrative documents. The course studies a cross-section of Assyrian society taking into account various perspectives, from the king and his highest officials and court scholars to the lowest-ranking subjects and deportees. It also investigates the economic basis of the Assyrian empire, including taxation and tribute, booty from military conquest, specialist craft production, and agriculture. The course emphasizes the historical evaluation and interpretation of the primary written sources.

**Prerequisite:** 9.0 credits in any field

**Recommended Preparation:** [NMC102H1](#), [NMC346H1](#)/[NMC347H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC449H1 - Mesopotamian Society and Economy

**Hours:** 24L

This course presents a thematic overview of Mesopotamian society and economy from the third millennium to the 1st millennium BC. The emphasis is on critical evaluation of the primary sources (in translation), such as everyday legal contracts and the so-called "Laws". It also explores different approaches to the study of ancient social structures and economies. Topics include: freedom, slavery, and social class; ethnicity; women, children, and the elderly; marriage, family, and household; crime and punishment, and the judicial system; the priesthood; palace and temple, private and state; merchants and trade; money, markets, and prices, and the question of whether there was a market economy; labour and wages; land ownership and tenure, and wealth and social inequality.

**Prerequisite:** 9.0 credits in any field

**Recommended Preparation:** [NMC102H1](#), [NMC346H1](#)/[NMC347H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC450H1 - Research Seminar on Ancient Jewish Literature

**Hours:** 24S

A seminar focusing on the critical analysis of the Hebrew Bible and related ancient Jewish texts. Literary genre and critical topics will vary according to instructor's research interests. Focus will be given to developing research skills by working with accepted critical methodologies. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC452H1 - Iranian Modernity

**Hours:** 36S

This course explores competing conceptions of Iranian modernity within a comparative historical framework on "multiple modernities." A major theme is the exploration of the temporality and historicity in discussions of Iranian modernity.

**Prerequisite:** Completion of 9.0 credits

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC461H1 - The History and Archaeology of the Horn of Africa and South Arabia

**Previous Course Number:** NMC461Y1

**Hours:** 24S

The cultures of the Horn of Africa and South West Arabia, separated by the Red Sea, have long been intertwined. This course explores the history and archaeology from the emergence of the hominids in Ethiopia, to the rise of the Sabeen and Axumite kingdoms, until the Middle Ages, highlighting their interactions and the roles they played in the development of their respected cultures.

**Prerequisite:** NMC260H1 or NMC262H1

**Exclusion:** NMC461Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC462H1 - Polarized-light Microscopy in Archaeology I: Foundations

**Hours:** 24L/24P

This course provides students with training in the use of polarized-light microscopy in the examination of archaeological materials, particularly pottery (ceramic petrology). Students will apply the knowledge they gain from lectures to hands-on work with materials in the lab, covering instruction in crystallography, optics, mineralogy, lithology, and other aspects of the petrology of ceramics and other materials. Labs comprise eight three-hour sessions during the term, working with the polarized-light microscope to examine and analyze thin-sections. No prior knowledge of geology is required. Students should plan to take NMC470H1 Polarized-light Microscopy in Archaeology II: Applications, in the following term to complete their training.

**Prerequisite:** NMC264H1 or permission of the instructor.

**Exclusion:** NMC462Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## NMC463H1 - Warfare: The Archaeology of Conflict in the Ancient Near East

**Hours:** 36L

When did humans start fighting each other, and how far back can we trace the history of warfare? This course investigates the origin, nature, and manifestation of military conflicts in the ancient Near East and studies their impact on political, economic, and social developments in the region. Following a review of the relevant terminology (e.g., "warfare" vs "skirmish") in archaeological literature, we will investigate the archaeological and historical data for a time span that extends from 9,000 to 300 BC. Evidence from archaeological sites (notably violent destructions of ancient settlements) will be compared with available artistic representations of warfare in sculpture, reliefs, inlays, and glyptics, complemented by textual accounts. While the course focuses on Mesopotamia, evidence from Syria, Turkey, Iran, the Levant, and Egypt will also be included.

**Prerequisite:** NMC260H1

**Recommended Preparation:** NMC102H1, NMC363H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC464H1 - The Archaeology of Stuff at the ROM

**Previous Course Number:** NMC369Y1  
**Hours:** 36P

Hands-on analysis of actual materials from the Middle and Near East, including Egypt, Iraq, Iran, Syria, and Turkey. Students learn the techniques by which archaeologists understand objects from the past: what they are made of, how they were made, and what they reveal about the people who made them.

**Prerequisite:** NMC264H1

**Exclusion:** NMC369Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC465H1 - Ceramic Analysis

**Hours:** 6P/24S

A survey of methods of classification and analysis (form, fabric and style) involved in the study of archaeological ceramics, and the use of ceramics to infer patterns of production, distribution, and social organization; linking research questions with appropriate analytical techniques.

**Prerequisite:** 9.0 credits in any field

**Distribution Requirements:** Social Science

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC466H1 - Near Eastern Ceramics

**Hours:** 6P/24S

An introduction to the basic corpus of Near Eastern ceramics, from the invention of pottery production in the Neolithic until the Persian period, utilizing existing collections at the University and in the Royal Ontario Museum.

**Prerequisite:** 9.0 credits in any field

**Recommended Preparation:**

ARH312Y1/NMC264H1/NMC360H1/NMC361H1/NMC464H1/NMC465H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC467H1 - Seminar in Egyptian Archaeology I

**Hours:** 24S

Seminar focuses on the social and cultural development of Egypt from the Predynastic Period through the Middle Kingdom, engaging with major theories regarding social complexity, state formation, urbanism, social organization, and regionalism. An independent research project and hands-on experience with artifacts at the ROM are important features of the course.

**Prerequisite:** NMC101H1 or NMC343H1. Students who do not meet these prerequisites are encouraged to contact the Department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC468H1 - Seminar in Egyptian Archaeology II

**Hours:** 24S

Seminar focuses on the social and cultural development of Egypt from the Middle Kingdom through the Ptolemaic Period, engaging with major theories regarding urbanism, ethnicity, core-periphery relationships, cultural interaction, and social organization. An independent research project and hands-on experience with artifacts at the ROM are important features of the course.

**Prerequisite:** NMC101H1 or NMC344H1. Students who do not meet these prerequisites are encouraged to contact the Department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC469Y1 - Medieval Middle Eastern Ceramics

**Hours:** 72S

An introduction to the ceramics of the Middle or Near East from the time of Alexander until recent times. A particular emphasis will be the elite glazed wares of the mediaeval and Islamic periods. Apart from providing a history of the production of ceramics and their social and archaeological context, this course is intended to train archaeologists and art-historians in the fundamental field recognition and identification of the various types and their production origins, and the course will rely heavily on the collections of the ROM.

**Prerequisite:** [NMC260H1](#), [NMC262H1](#), and at least one other 0.5 credit 300- or 400-level course in archaeological materials

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## NMC470H1 - Polarized-light Microscopy in Archaeology II: Applications

**Previous Course Number:** NMC462Y1

**Hours:** 24L/24P

This course explores further applications of polarized-light microscopy in the examination of archaeological materials, particularly pottery (ceramic petrology). The focus is on foundational research and case-studies of materials from around the world with particular attention to material culture from the Middle East, Central America, and East Asia, where University of Toronto researchers have worked, ranging in date from the Neolithic period to the modern day. Class and lab discussions will include critical examination of the application and integration of ceramic petrology in archaeological research design and how petrology can address relevant research questions successfully. Labs comprise eight three-hour sessions during the term, working with the polarized-light microscope to examine and analyze thin-sections.

**Prerequisite:** [NMC462H1](#)

**Exclusion:** [NMC462Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## NMC471H1 - Advanced Topics in Near and Middle Eastern Civilizations

**Hours:** 24S

An advanced seminar organized around readings on a topic selected by the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC472H1 - Theory & Method in Middle East Studies

**Hours:** 24S

Examines current theoretical and methodological trends in the study of the Near/Middle East. A seminar course, it consists of presentations, discussions, lectures, guest speakers, and documentaries. No previous knowledge of

methodology required. Special attention will be paid to the politics, culture, political economy, gender, and ethics of various research practices. Intended for 4th year students only.

**Prerequisite:** Permission of the instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC473H1 - Intellectuals of the Modern Arab World

**Hours:** 24S

The course is designed to re-examine the role of intellectuals in the Arab world and political events that shaped their thinking. It introduces the life and thought of some leading thinkers of the Arab world and relates their thought to the lived experience of political, social, economic and cultural change in the Middle East.

**Prerequisite:** 1.0 credit from [NMC278H1](#), [NMC377Y1](#), [NMC378H1](#)

**Recommended Preparation:** Fluency in reading Arabic

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC474H1 - The Archaeology of Death

**Hours:** 36S

This is an intensive education in the archaeology of death. Working as a study group, the participants in this class will examine in detail the primary archaeological data for mortuary practices in the third millennium in the Big Bend region of the Euphrates River.

**Prerequisite:** [ANT200Y1](#) or [NMC260H1](#) or [NMC262H1](#)

**Recommended Preparation:** [ANT334H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC475H1 - Orientalism & Occidentalism

**Hours:** 24S

This course probes the contemporaneous formation of modern Oriental Studies in Europe and the emergence of discourses on Europe (Ifraanj/Farang) in the Middle East from the eighteenth century to the present. Special emphasis will be devoted to encounters between scholars in Western Europe, Iran, India, and the Ottoman Empire. This seminar-style course explains that Orientals gazed

and returned the gaze, and in the process of cultural looking, they, like their Occidental counterparts, exoticized and eroticized the Farangi-Other. In the interplay of looks between Orientals and Occidentals, there was no steady position of spectatorship, no objective observer, and no aperspectival position. Intended for upper year students.

**Prerequisite:** Permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC476H1 - Politics of Archaeology in the Modern Middle East

**Hours:** 24S

This course examines the role nineteenth and twentieth-century archaeology played in Middle Eastern politics, the culture of colonialism and in nationalist struggles. The course will first familiarize the students with the diplomatic and intellectual context of the formation of archaeology as a field of study in Europe and analyse the role archaeology played in the production of knowledge about the Middle East. Next, the course will examine the archaeological practices on the ground (and underground) and inquire what happens in the contact zone between foreign and local archaeologists. Finally, we will trace the ways in which emergent nationalist discourse challenge, appropriate and imitate the historical narratives of Western archaeology.

**Prerequisite:** Permission of instructor is required.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC477H1 - Modern Turkey

**Hours:** 24S

The course examines the history of modern Turkey from the beginning of the 20th century until the present day. Topics include transition from empire to nation-state; the establishment of the Turkish republic; the Kemalist reforms and legacy; nationalism and nation-building; Islam and politics; gender and sexuality; as well as recent political, social, and cultural developments. The course seeks to situate the history of Turkey in a broader regional context and introduces students to some historiographical debates. In seminar discussions, students are encouraged to explore topics from a critical post-nationalist perspective and to think about current events in a historical context.

**Recommended Preparation:** [NMC278H1](#), [NMC355H1](#), or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC478H1 - Modern Arab Societies

**Hours:** 24S

A weekly seminar built around thematic readings of social and economic history of the modern Arab world. Sometimes, the course is geographically extensive, encompassing the predominantly Arabic-speaking lands of North Africa and the Middle East from Morocco in the west to Iraq in the east. At other times, the course focuses on a more narrowly defined geographic region—one country or a group of countries in the Arabic-speaking lands. Readings and discussions emphasize the experiences of broad sectors of the population, not just of elites. This framework of “history from below” also invites scrutiny of historically-marginalized populations (“subalterns”), or at least of silences in the literature about these populations.

**Prerequisite:** [NMC378H1](#). Students who do not meet the prerequisite are encouraged to contact the Department.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC479H1 - Nationalism in the Arab World

**Hours:** 24S

A seminar that critically examines the types and varieties of national expression in Arab societies of the Middle East and North Africa, through a reading of common texts and students' individual research projects.

**Prerequisite:** [NMC378H1](#) and permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NMC480H1 - Structural Development of the Iranian Languages

**Previous Course Number:** [NML463H1](#)

**Hours:** 24S

This interdisciplinary course focuses on the structural development of the Persian language from Old Persian (6th century BC) to Modern Persian (7th century AD) with emphasis on word formation and grammar. The course consists of two main parts: The first focuses on an overview of the Old Persian and Middle Persian languages, their linguistic features and writing systems and the factors that changed Old Persian to Middle and then Modern Persian; the second part concentrates on the structural analysis of Iranian languages, including Dari,

Tajiki, Balochi, Kurdish, Pashto, and others. The lectures are based on texts and articles written by theoretical linguists, historians, sociolinguists, descriptive and historical linguists. The course also examines the role of language in maintaining cultural identity and demonstrates the type and mechanism of the development of Iranian languages in general and of Persian in particular.

**Prerequisite:** Completion of 9.0 credits in Humanities/BR= 1 or 2

**Exclusion:** NML463H1

**Recommended Preparation:** 1.0 credit from (LIN232H1/LIN232H5), (LIN333H1/LIN231H5), (LIN362H1/LIN360H5)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NMC484H1 - Gender-related Topics in Jewish Law and Religion

**Hours:** 36S

Among the topics addressed in this course in various years are the requirement for women divorced or widowed (either from betrothal or marriage) to wait three months before remarriage to determine paternity or for pregnant or nursing women to protect the fetus or infant; legal disabilities for women in marriage and divorce (consent, unilateral acquisition, power differentials, exit options); legal status according to age (fetus, infant, before and after age six, approaching legal majority, legal majority, anomalies); sexuality (age, sexual acts and their legal repercussions, prohibitions, consent, intergenerational sexual connections, homosexuality); rabbinic ordination of women in the various streams of Judaism; and abortion (contraception, status of embryo or fetus, viability, reasons). These issues will be discussed in terms of gender and modern law.

**Prerequisite:** Completion of 9.0 credits in Humanities/BR=1 or 2

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NMC491H1 - Mesopotamian Material Culture: Art versus Artifact

**Hours:** 36L

What is an artifact, and to what degree does it represent art? At what point in the evolution of ancient human society does art emerge? What does it express, what is its purpose, and who are the agents that create and propagate it? This course addresses these questions by examining artifacts from the Palaeolithic to the Iron Age

(15,000-300 BC). Students will learn to categorize works of ancient Near Eastern art using descriptive (materials, size, object type) as well as interpretive (iconography, style, themes) parameters, in order to engage critically with art-historical studies. Techniques of reading visual narratives will be exemplified by discussing selected examples in detail, showing ways of identifying a messenger and the message that they are trying to convey, the selective inclusion or omission of elements within a visual narrative, and the possible propagandistic intent in doing so.

**Prerequisite:** Permission of the instructor

**Recommended Preparation:** NMC260H1 or NMC363H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## Research Courses

### NMC299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

### NMC398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-excursions-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

### NMC399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

## NMC495Y1 - Independent Studies

The student must obtain the consent of an appropriate full-time NMC faculty member to supervise the proposed topic, which is subject to approval by the Associate Chair, Undergraduate. The course application form is available from the NMC Undergraduate Administrator. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the Department

**Distribution Requirements:** Humanities

## NMC496H1 - Independent Studies

The student must obtain the consent of an appropriate full-time NMC faculty member to supervise the proposed topic, which is subject to approval by the Associate Chair, Undergraduate. The course application form is available from the NMC Undergraduate Administrator. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the Department

**Distribution Requirements:** Humanities

## NMC497H1 - Independent Studies

The student must obtain the consent of an appropriate full-time NMC faculty member to supervise the proposed topic, which is subject to approval by the Associate Chair, Undergraduate. The course application form is available from the NMC Undergraduate Administrator. Not eligible for CR/NCR option.

**Prerequisite:** Permission of the Department

**Distribution Requirements:** Humanities

## NMC499Y1 - Senior Thesis

A 40-60 page (15,000-20,000 word) research paper (100% of the final mark) written under the supervision of a full-time NMC faculty member. Not eligible for CR/NCR option.

**Prerequisite:** 4th year status in NMC Specialist program; supervisor's approval; departmental approval.

**Exclusion:** NMC495Y1/NMC496H1/NMC497H1 may not be taken in the same session

**Distribution Requirements:** Humanities

## Language and Literature Courses

### NML110Y1 - Elementary Standard Arabic

**Hours:** 96L/24P

This course is designed for students with no prior knowledge of Arabic. It places equal emphasis on the development of all language skills: reading, writing, listening, and speaking. The learning philosophy underlying this approach is that proficiency in a foreign language is best achieved through consistent, deliberate, and systematic practice. From the outset, students are strongly encouraged to develop the habit of consistently practicing learned material.

**Prerequisite:** Priority enrollment will be given to declared NMC majors/specialists.

**Exclusion:** Native speakers/NML210Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### NML155H1 - Elementary Modern Hebrew I

**Hours:** 48L

See MHB155H1 in Religion.

### NML156H1 - Elementary Modern Hebrew II

**Hours:** 48L

See MHB156H1 in Religion.

### NML210Y1 - Intermediate Standard Arabic I

**Previous Course Number:** NML211Y1

**Hours:** 96L/24P

This course assumes active knowledge of the content covered in NML110Y. It places equal emphasis on the development of all language skills. As the course progresses, students are introduced to the fundamentals

of Arabic morphology and syntax. This is achieved through analysis of texts covering a wide range of topics. By the end of the course, students are expected to achieve upper intermediate level of proficiency.

**Prerequisite:** [NML110Y1](#) or permission of the instructor.

**Exclusion:** Native speaker. Priority enrollment will be given to declared NMC majors/specialists.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML220Y1 - Introductory Aramaic

**Hours:** 72S

Introduction to Aramaic grammar. Readings from biblical Aramaic.

**Prerequisite:** [NML250Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML230H1 - Elementary Coptic I

**Hours:** 48S

Introduces the student to the last stage of the Egyptian language, written mostly in Greek characters. The course will first concentrate on the grammar of the language and go on to read short texts.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML231H1 - Elementary Coptic II

**Hours:** 48S

A continuation of NML230H1.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML240Y1 - Introduction to Middle Egyptian

**Hours:** 72S

This course introduces students to the hieroglyphic script and the classical form of the Ancient Egyptian language. After the basic elements of grammar are mastered, the class will begin reading simple hieroglyphic texts.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML250Y1 - Introductory Biblical Hebrew

**Hours:** 72S

An introduction to biblical Hebrew prose. Grammar and selected texts. For students with no previous knowledge of Hebrew.

**Exclusion:** Those who have completed Grade 8 Hebrew (or Grade 6 in Israel)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML255H1 - Intermediate Modern Hebrew I

**Hours:** 48L

See [MHB255H1](#) in Religion.

**Prerequisite:** [MHB156H1](#)/ [NML156H1](#)

**Exclusion:** Those who have completed Grade 8 Hebrew (or Ulpan level 2 in Israel), [MHB255H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML256H1 - Intermediate Modern Hebrew II

**Hours:** 48L

See [MHB256H1](#) in Religion.

**Prerequisite:** [NML255H1](#)/ [MHB255H1](#)

**Exclusion:** Those who have completed Grade 8 Hebrew (or Ulpan level 2 in Israel), [MHB256H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML260Y1 - Introductory Persian

**Hours:** 72L/24T

This course is for students who have minimal or no prior knowledge of Persian focusing on reading, writing and conversation. Students start by learning how to write and pronounce the sound and alphabet, how to connect letters to form basic vocabulary in Persian in order to express basic ideas orally and in writing; then they develop their language comprehension through expanding their vocabulary and grammar. By the end of the course, students' skills in listening, speaking, reading, and writing in Persian improves and they should be able to read, write and translate sentences in Persian at intermediate low level.

**Exclusion:** Native speakers, PRS210Y5, PRS210H5, PRS211H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML270Y1 - Introductory Turkish

**Hours:** 96L

This course is designed to provide an introduction to Turkish for learners with no previous experience with the language. A variety of speaking, listening, reading, and writing activities will be included to develop both spoken and written language skills. By the end of the course, students will be able to carry out basic conversations in Turkish in everyday social encounters, have a grasp of the basics of the Turkish grammar, and understand elementary texts such as simple excerpts from news articles or literary works. They will also have gained a basic understanding of the cultural contexts in which Turkish is spoken.

**Exclusion:** Native speakers

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML305Y1 - Introductory Akkadian

**Hours:** 48S

Introduction to Old Babylonian. Grammar and the reading of selected texts.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML310Y1 - Intermediate Standard Arabic II

**Hours:** 96L/24P

This course assumes active knowledge of the content covered in NML210Y. As the course progresses, students are introduced to increasingly complex morphological and syntactic patterns of Arabic. This is achieved through analysis of texts covering a wide range of genres. By the end of the course, students are expected to achieve advanced level of proficiency.

**Prerequisite:** NML210Y1 or permission of the instructor.

**Exclusion:** Native speakers. Priority enrollment will be given to declared NMC majors/specialists.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML320H1 - Aramaic Bible Translations

**Hours:** 36S

This course is an intensive study of various Aramaic Bible translations (Targumim) to the Pentateuch: Onkelos, Pseudo-Jonathan, Neophyti, Samaritan and Syriac (both transliterated into Hebrew letters), and Fragment Targumim. A comparative study of the Targumim will be made in reference to vocabulary, syntax, verb usage, and translation strategies. We will address their relationship to the Palestinian midrashim. Students will learn to use the online Comprehensive Aramaic Lexicon and the relevant dictionaries and grammars. The texts studied will be from legal sections of the Pentateuch, generally from Deuteronomy on levirate marriage or war captives, Exodus on abortion and personal injury, as well as narrative sections from Genesis such as the Garden of Eden, the binding of Isaac, and the accounts of the Matriarchs.

**Prerequisite:** Intermediate-level Hebrew or experience in Babylonian Talmud or NML220Y1.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NML340Y1 - Intermediate Middle Egyptian

**Hours:** 72S

A continuation of NML240Y1, in which the student is exposed to a wide range of hieroglyphic texts in the Middle Egyptian dialect. Sources of historical, literary, religious, and economic significance will be studied. The

grammar and syntax covered in NML240Y1 are reviewed intensively.

**Prerequisite:** [NML240Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML350H1 - Intermediate Biblical Hebrew I

**Hours:** 24S

A continuation of the study of ancient Hebrew grammar and texts. Focus is given to covering a wide variety of genres, e.g., narrative, chronicle, genealogy, oracle, prayer, hymn, and proverb.

**Prerequisite:** [NML250Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML351H1 - Intermediate Biblical Hebrew II

**Hours:** 24S

A continuation of the study of ancient Hebrew grammar and texts. Focus is given to covering a wide variety of genres, e.g., narrative, chronicle, genealogy, oracle, prayer, hymn, and proverb.

**Prerequisite:** [NML350H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML355H1 - Advanced Modern Hebrew I

**Hours:** 48S

See [MHB355H1](#) in Religion.

**Prerequisite:** [MHB256H1](#)/ [NML256H1](#)

**Exclusion:** OAC Hebrew, [MHB355H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML356H1 - Advanced Modern Hebrew II

**Hours:** 48S

See [MHB356H1](#) in Religion.

**Prerequisite:** [NML355H1](#)/ [MHB355H1](#)

**Exclusion:** OAC Hebrew, [MHB356H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML357H1 - Legends of the Jews (Aggadah)

**Hours:** 24S

This course is an introduction to the exegetical methods of the rabbinic sages in their analysis of biblical texts, with special attention to issues of intertextuality. After a quick overview of the genres of midrashic literature, we shall examine the midrashic methods used to transition from the biblical text to the midrash. Our main focus will be on Original Sin in the Garden of Eden and its repercussions. Our primary texts will be *Bereishit Rabbah*, *Avot de Rabbi Natan*, and *Alphabeta deBen Sirah*. We shall follow these midrashim in other midrash collections such as *Midrash HaGadol*, *Tanhuma*, *Bereishit Rabbati*, and *Aggadat Bereishit*. The motif of Original Sin has had significant reverberations in Judaism and Christianity and societies influenced by these traditions.

**Prerequisite:** Intermediate-level Hebrew (Modern or Biblical)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NML358H1 - Middle Hebrew: Mishnah and Tosefta

**Hours:** 24S

This course introduces Mishnah and Tosefta which are two of the three foundational documents of Middle Hebrew I from the Tannaitic period ending *circa* 250 CE in the Galilee. In addition to studying specific features of this level of Hebrew (e.g. syntax, grammar, vocabulary), we shall examine these compositions independently and analyze their interaction (textuality and intertextuality). Students will read recent scholarly literature on these documents and their relationship to each other and to orality. Students will be introduced to the manuscripts of these documents and the variant readings will be studied philologically. Decisions on original readings will be made.

Finally, we shall explore redaction and source critical issues allowing identifications of anonymous statements with specific authorities (sages). The Tractate may vary from year to year.

**Prerequisite:** Intermediate Hebrew (Modern or Biblical)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NML359Y1 - Babylonian Talmud

**Hours:** 72S

This course introduces the student to Talmudic texts through selections from a particular tractate for representative study. We shall study the Mishnah of the chapter in preparation for the Talmud. Recognition of the dialogic structure of the legal discussions centered on the Mishnah and its elucidation is emphasized. The classical commentaries (Rashi, Tosafot, R. Hananel), the use of dictionaries, concordances, biographies of sages, parallels and other sources will gradually become familiar to the student as aids in understanding the text under consideration. A brief presentation of the essential features of Babylonian Aramaic will be included in the course to facilitate study. Students will also be taught to make use of the Bar Ilan Responsa Project, the Lieberman database, and the Friedberg Jewish Manuscript Society database. We shall also discuss redactional issues as they appear.

**Prerequisite:** Intermediate-level Hebrew or experience in Babylonian Talmud  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NML360Y1 - Intermediate Persian

**Hours:** 96L

This course is an intermediate/advanced level of Persian language for students who passed NML260Y1 or demonstrate commensurate Persian skills. The course continues to develop students' Persian language knowledge by focusing on more complex readings, writing, grammatical structure, translation, audio/visual, and conversational activities such as group discussion, language games, movies, dialogue, and playing roles at an advanced level. By the end of this course, students are able to reach the intermediate high/advanced level of proficiency in Persian. The course also serves as preparation for courses on classical and contemporary Persian literature.

**Exclusion:** Native speakers, PRS310H5  
**Recommended Preparation:** NML260Y1 and/or adequate knowledge of modern Persian  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## NML362Y1 - Middle Persian (Pahlavi)

**Hours:** 48L

An introduction to the grammar and syntax of Middle Persian, or Pahlavi, language; the special script it was written in; and the connections of Pahlavi to Old Persian and New Persian languages. Knowledge of Pahlavi provides access to the most important Zoroastrian religious texts, and the epic and wisdom literature composed during the period of the Sasanian empire (3rd–7th centuries CE) and early Islamic Iran (8th–10th centuries CE). Students will read excerpts, in the original Pahlavi, from such works as *Arda Wiraz Namag* (Book of the Righteous Wiraz, describing his journey to heaven and hell), *Karnamag i Ardakhshir i Pabagan* (Chronicle of Ardakhshir, Son of Pabag, narrating the deeds of the first Sasanian king), and *Bundahishn* (Primordial Creation, on Zoroastrian cosmology).

**Recommended Preparation:** NML260Y1/NML360Y1/NMC259H1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## NML370Y1 - Intermediate Turkish

**Hours:** 96L

This course is designed for students who have already completed NML270Y1 Introductory Turkish or have an equivalent level of proficiency in Turkish. It aims to expand students' communicative skills, grammatical knowledge, and vocabulary. A variety of intermediate-level speaking, listening, reading, and writing activities will be included to further develop both spoken and written language skills. By the end of the course, students will be able to read, understand, and translate various authentic texts of intermediate difficulty. They will be able to write short essays and talk about a wide range of general topics. They will also have gained a deeper understanding of the cultural contexts in which Turkish is spoken. The course also serves as a preparation for the advanced study of Turkish.

**Prerequisite:** NML270Y1 or permission of instructor based on previous language knowledge.  
**Exclusion:** Advanced speakers of Turkish  
**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML380H1 - Introduction to Ge'ez (Classical Ethiopic)

**Hours:** 36L

This course covers the essentials of Ge'ez (Classical Ethiopic) grammar, and introduces students to Ge'ez texts of elementary to intermediate difficulty.

Designed for students with no previous knowledge of Ge'ez.

**Prerequisite:** NML110Y1/NML220Y1/NML250Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML381H1 - Intermediate Ge'ez

**Hours:** 36L

This course continues the study of Ge'ez (Classical Ethiopic) grammar and progresses to a survey of classical Ge'ez literature. Linguistic connections to Amharic and Tigrinya will also be introduced.

**Prerequisite:** NML380H1 or permission of instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML405Y1 - Intermediate Akkadian

**Hours:** 48S

(Offered in alternate years)

**Prerequisite:** NML305Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML410Y1 - Advanced Standard Arabic

**Hours:** 96S

This course assumes active knowledge of the content covered in NML310Y. Its goal is to strengthen the students reading and writing skills, refine their knowledge of syntax and morphological patterns, and enrich their cultural background. This is achieved through analysis of sophisticated authentic texts covering a wide range of genres. In addition, Classical Arabic literary texts will be incrementally introduced. By the end of the course,

students are expected to reach a superior level of proficiency.

**Prerequisite:** NML310Y1 or permission of instructor.

**Exclusion:** Native speakers.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML411H1 - Media Arabic

**Hours:** 24S

This course familiarizes advanced students of Arabic with structural properties, styles, and discourse features of the language used in the Arabic media. Class time is devoted to analysis of authentic texts covering a wide range of topics and drawn from various online media outlets.

**Prerequisite:** NML310Y1 or adequate reading knowledge of Arabic.

**Exclusion:** Native speakers of Arabic must obtain permission of instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML412H1 - Adab and Arabic Literary Prose

**Hours:** 24L

This class surveys the rich and varied literary prose tradition in the Arabic language to the Mamluk period. These works are frequently referenced in modern Arabic literature, in addition to being beautiful and intellectually challenging in their own right. We will read essayistic epistles, advice guides, debates, sermons, and narrative works of a variety of genres, including, *maqamat*, anecdotes, and fables. All readings are in the original Arabic. The course focuses equally on developing reading skills specific to classical Arabic texts, and on developing an ability to analyze the themes, literary techniques, generic features, and ideas within those texts. We also consider the historical development of a distinct branch of knowledge called *adab*, that canonized many of these works.

**Prerequisite:** NML310Y1. Heritage speakers are encouraged to take this class.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML413H1 - Premodern Arabic Poetry

**Hours:** 24L

The main focus for this course is reading poems by a variety of poets in the original Arabic. Class discussion focuses on how to decipher the lines of poetry using appropriate reference works, as well as close reading, rhetorical figures, historical context, and the shifting aesthetics of various poetic movements. Weekly exercises build to the study of the Arabic metric system. The course usually addresses a specific theme: for example, early Abbasid love poems selected to study the development of the concept of a culturally refined individual (*zarif*) in the context of the “rhetorical style” (*badi'*) of “new” (*muhdath*) poetry.

**Prerequisite:** [NML310Y1](#). Heritage speakers are encouraged to take this class.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML415H1 - The Arabic Short Story

**Hours:** 24S

This course examines the origins and development of the modern Arabic short story as a literary genre by reading selected works in Arabic of major figures in the genre. The course historicizes the emergence of the short story, exploring the genre's consolidation as a major literary form in Arabic in the early 20th century. As part of an exploration of modern narrative in Arabic, students will read literary criticism that theorizes the emergence of modern Arabic narrative prose, paying close attention to questions of language, form, style and theme. The course also focuses on issues such as innovations in narrative technique, plot structure, complexity of characterization, and point of view. Authors include Mahmud Tahir Lashin, Yusif Idris, Zakariyya Tamir, Ghada al-Samman, Hanan al-Shaykh, and Fu'ad al-Takarli.

**Prerequisite:** [NML310Y1](#) or permission of instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML420Y1 - Jerusalem Talmud

**Hours:** 72S

The Talmud of the Land of Israel, also called Talmud Yerushalmi or Palestinian Talmud, is written in a mixture of Jewish Western Aramaic and Middle Hebrew. It is the principal document of the Land of Israel in Late Antiquity. The course examines the legal argumentation,

terminology and language which differ from those of the Babylonian Talmud. Recognition of the dialogical structure of the legal discussions concerning the Mishnah and its elucidation will be emphasized. Terminology, grammar, and syntax of Western Aramaic will be addressed. We shall also investigate when the text uses Hebrew versus Aramaic. Students will be taught the use of the Bar Ilan Responsa Project and the Lieberman bibliographic database. Close attention will be paid to its relationship to Tosefta.

**Prerequisite:** Intermediate-level Hebrew (Modern or Biblical)

**Recommended Preparation:** [NML220Y1](#)/[NML320H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Thought, Belief and Behaviour (2)

## NML421Y1 - Classical Syriac

**Hours:** 48S

This course is primarily a reading course in Syriac literature with reference to specific points in grammar and syntax as contrasted with Aramaic. The texts are read with reference to the history of Syriac literature.

**Prerequisite:** [NML220Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML440H1 - Ancient Egyptian Historical Texts

**Hours:** 36S

This is an advanced language seminar that introduces the student to the analysis, in terms of both language/grammar and content, of Ancient Egyptian texts of historical significance. Texts from the periods of the Old Kingdom up to the Late Period will be studied, and all texts will be read in the (mostly Middle Egyptian) original. Particular attention will be paid to the cultural and social context of the texts, and questions such as how to best define “historical texts,” and to what extent literary texts may be used as historical sources, will be discussed.

**Prerequisite:** [NML340Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML441H1 - Ancient Egyptian Religious and Funerary Texts

**Hours:** 36S

This is an advanced language seminar that introduces the student to the analysis, in terms of both language/grammar and content, of texts that elucidate ancient Egyptian religious conceptions. Texts from all periods of Pharaonic history will be studied and all texts will be read in the original. While the focus will be on texts from funerary contexts, for which the most complete sources can be found, cultic, magical, and theological sources will also be studied.

**Prerequisite:** NML340Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML450H1 - Advanced Biblical Hebrew

**Hours:** 24S

Continuation of the study of Biblical Hebrew language. Combination of reading more advanced texts and Hebrew composition exercises. Introduction to the standard reference works for advanced study of the phonology, morphology, syntax, and semantics of Biblical Hebrew.

**Prerequisite:** NML350H1 or NML351H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML452H1 - Halakhic Midrashim

**Hours:** 36S

Halakhic Midrash, the rabbinic continuation of biblical law, is written in Middle Hebrew I and is one of the three major literary creations of the Tannaitic period. It is an important part of ancient Jewish biblical interpretation which often differs from sectarian interpretation as found in Qumran. A study of the terminology and methodology indicates the existence of two midrashic systems: Devei R. Akiba and Devei R. Ishmael. This course familiarizes students with the methodology and terminology of these two midrashic schools. We will examine the scholarly debate concerning the exact time in which the halakhic midrashim were composed and redacted as well as the transfer of terminology and material between the schools. Sections from all the midrash halakhah (*Mekhiltot*, *Sifra* and *Sifre*) are studied and compared to other tannaitic materials.

**Prerequisite:** Intermediate-level Hebrew (Modern or Biblical)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NML455H1 - Modern Hebrew Poetry

**Hours:** 24S

This course is designed for the advanced students of Modern Hebrew who wish to pursue the study of Hebrew literature. We will examine the way in which this literature relates to ideas of land, homeland, peoplehood, and religious identities. We will continue with Yehuda Amichai's poetry with particular attention to his love poetry. Our major concentration will be on Haim Nahman Bialik's poetry and include at least one of his major epic poems. We shall focus on what makes Amichai and Bialik national poets. Our method of poetic analysis will include an inter-textual examination of the sources of poetic inspiration. Students will be taught to use the Bar Ilan Responsa Project as an aid to tracking allusions. We will also use historical Hebrew dictionaries.

**Prerequisite:** High Intermediate-level Modern Hebrew

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML456H1 - Modern Hebrew Prose

**Hours:** 24S

This course is designed to introduce advanced students of Modern Hebrew to modern prose written primarily in today's state of Israel. To this end we will spend two weeks looking at the motifs and styles available in contemporary children's literature with an eye to their use of biblical allusions. This serves as background to a study of short stories by the Nobel laureate Agnon. The sources of the stories will be studied from the perspective of intertextuality where the source is both inspirational and in turn explicated by the novelist. The use of online search engines and databases will facilitate this analysis. The course teaches advanced reading skills in prose literature in Hebrew with emphasis on interpreting the texts, close readings, and tracking allusions. Use will be made of historical Hebrew dictionaries.

**Prerequisite:** High Intermediate-level Modern Hebrew

**Recommended Preparation:** NML225H1, NML256H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML459H1 - Readings in Second Temple Period Texts

**Hours:** 24S

This course provides an advanced investigation of selected issues in ancient Jewish texts stemming from the Second Temple Period (5th cent. BCE 1st cent. CE), and includes comparative study of biblical writings, apocrypha and pseudepigrapha, the Dead Sea Scrolls, and writings of ancient Jewish historians and philosophers. The specific topic for the course varies from one semester to another. The course has a strong research and writing component.

**Prerequisite:** [NML350H1](#) or [NML351H1](#). Depending on the specific topic of the semester, knowledge of Greek or Aramaic may be recommended.

**Recommended Preparation:** [NMC252H1](#), [NMC351H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## NML461H1 - Modern Persian Poetry

**Hours:** 36S

This course examines Persian literature, mainly modern Persian poetry from the 19th to the 21st centuries, focusing on linguistics and literary approaches in contemporary poetry. The course includes a brief overview of different factors which shaped modern Persian poetry, then concentrates on the works of well-known modern poets who had great influence on establishing and developing Persian contemporary poets such as Nima Yushij, Ahmad Shamlu, Mehdi Akhavan Sales, Sohrab Sepehri, Forugh Farrokhzad, Hushang Ebtehaj, Simin Behbahani, and Mohammad Reza Shafi'i-Kadkani. After presenting a short biography and the works of each poet, students read selected poems of each poet and discuss the structure, poetic styles, figures of speech, themes and motifs in the poems. (Conducted in Persian)

**Prerequisite:** [NML360Y1](#) or permission of instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML462H1 - Modern Persian Prose

**Hours:** 36S

This course examines contemporary Persian prose, focusing on fiction, especially the novel and short story. After an overview of different genres of prose writing, the main elements of a story, such as plot, scene, character, theme, topic, point of view, and conflict, are discussed.

The literary knowledge and abilities of students will be developed by analyzing different genres of prose writing, especially Persian short stories. At the end of this course students will be able to examine and analyze any form of story-writing and compose their own short stories. (Conducted in Persian.)

**Prerequisite:** [NML360Y1](#) or permission of instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NML464Y1 - Old Persian

**Previous Course Number:** NML262Y1

**Hours:** 36L

This course introduces students to the grammar and syntax of Old Persian, the language of the main epigraphical texts dating from the period of the Achaemenid Empire (550–330 BCE); the simplified cuneiform script it was written in; as well as its connections with Old and Young Avestan (belonging, like Old Persian, to the Old Iranian linguistic group), Middle Persian (Pahlavi), and New Persian languages. Students will read the Old Persian version of the famous trilingual inscription of Darius I at Bisotun, dated 520–519 BCE, and related inscriptions in the original Old Persian cuneiform script, and discuss the Achaemenid historical context and political ideology they reflected.

**Recommended Preparation:**

[NML260Y1](#)/[NML360Y1](#)/[NML362Y1](#)/[NML465Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## NML465Y1 - Avestan

**Hours:** 48L

This course surveys the grammar and syntax of the language of the Young Avestan corpus, belonging to the Old Iranian linguistic group. The *Avesta* was a compendium of Zoroastrian texts composed orally in northern Iran and Central Asia in two dialects spoken in different periods: Old Avestan (2nd millennium BCE) and Young Avestan (1st millennium BCE). Most foundational texts of Zoroastrianism were composed in Young Avestan language, which attests a more simplified grammar than Old Avestan and in this regard is closer to Old Persian. Knowledge of Young Avestan provides access to the mythical and ritual context of pre-Islamic Iran and Central Asia. Students will be introduced to the main phonological, morphological, and syntactical features of the Young Avestan language; its script; its most important texts; and its connections with Old Persian and Middle Persian, or Pahlavi.

**Recommended Preparation:**NML260Y1/NML360Y1/NML464Y1**Distribution Requirements:** Humanities**Breadth Requirements:** Creative and Cultural Representations (1)**NML466H1 - Theory and Practice of Translation from and into Persian****Hours:** 24S

An introduction to theories and techniques involved in English/Persian translation, focusing on translation practice and theoretical discussions on linguistic, cognitive, socio-political, and cultural aspects of translation. Through analysis and application of translation theory, students practice the art of translation and develop awareness of issues that translators face.

**Prerequisite:** NML360Y1 or permission of instructor based on previous language knowledge.**Distribution Requirements:** Humanities**Breadth Requirements:** Creative and Cultural Representations (1)**NML467H1 - Persian Literature: The Epic Tradition****Previous Course Number:** NML460Y1**Hours:** 36S

Selected representative readings from the iconic masterpieces of classical heroic and romantic epic poetry, including the Persian national epic, *Shahnameh*, or Book of Kings; the magisterial ode of Khaqani on the ruins of a Sasanian palace; and tales from the *Khamseh*, or Quintet, of Nezami about the star-crossed lovers Laili and Majnun and the world-conqueror Iskandar, or Alexander the Great. Emphasis is on close reading and analysis of the linguistic and literary content and style of these works, and discussion of their historical and cultural backgrounds. All readings are in the original Persian. During the course, students will acquire essential skills in the technical requirements of classical Persian poetry, such as prosody, rhyme, and poetic devices.

**Prerequisite:** NML360Y1 or adequate knowledge of Persian**Exclusion:** NML460Y1**Distribution Requirements:** Humanities**Breadth Requirements:** Creative and Cultural Representations (1)**NML468H1 - Persian Literature: Ethical, Erotic, and Mystical****Previous Course Number:** NML460Y1**Hours:** 36S

The companion course to NML467H1 (Persian Literature: The Epic Tradition). Selected representative readings from the ethical works of Sa'di (*Bustan* and *Gulistan*); the mystical parable *Mantiq al-tayr* of 'Attar and the *Masnavi-ma'navi* of Rumi; and the *ghazals*, or mystico-erotic lyrical poems, of Rumi and Hafiz. Emphasis is on close reading and analysis of the linguistic and literary content and style of these works, and discussion of their historical, cultural, and religious backgrounds. All readings are in the original Persian. During the course, students will acquire essential skills related to the technical requirements of classical Persian poetry, such as prosody, rhyme, and poetic devices, as well as an understanding of the key concepts and terminology of Persian Sufism.

**Prerequisite:** NML360Y1 or adequate knowledge of Persian**Exclusion:** NML460Y1**Distribution Requirements:** Humanities**Breadth Requirements:** Creative and Cultural Representations (1)**NML470Y1 - Advanced Turkish****Hours:** 96L

This course is designed for students who have already completed NML370Y1 Intermediate Turkish or have an equivalent level of proficiency in Turkish. It aims to build upon the existing competence of the students in Turkish and to further improve their four skills through a variety of advanced speaking, listening, reading, and writing activities. By the end of this comprehensive course, students will be able to read, understand and translate various authentic texts of different genres such as literary works. They will be able to write essays on a wide range of topics. They will demonstrate the ability to express themselves both orally and in writing through complex grammatical structures and a rich vocabulary. They will also have gained thorough understanding of the social and cultural contexts in which Turkish is spoken. The course will enable students to pursue independent studies in Turkish.

**Prerequisite:** NML370Y1 or permission of instructor based on previous language knowledge.**Distribution Requirements:** Humanities**Breadth Requirements:** Creative and Cultural Representations (1)

## **NML471H1 - Modern Turkish Literature in Perspective**

**Hours:** 36L

This course surveys the main literary currents, figures, major themes, and motifs that define modern Turkish literature. Selected readings, including a variety of genres, such as short story, poetry, and the novel, will be used to map out a possible trajectory of modern Turkish literature, ranging from national allegories that pervaded early Republican Period to postmodern orientations.

**Prerequisite:** [NML370Y1](#)

**Recommended Preparation:** [NMC278H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## **NML490H1 - Topics in Near and Middle Eastern Languages**

**Hours:** 36S

An advanced language seminar organized around grammatical issues or texts selected by the instructor.

**Prerequisite:** Permission of the Instructor

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### Assistant Professors, Teaching Stream (Term-Limited)

K. Edmonds, BA (Hons), MA, Ph D (Caribbean Studies)  
 S. Teclé, BA (Hons), B Ed, M Ed (Community Engaged Learning)

### Assistant Professors, Teaching Stream (Part-Time)

K. Ahmed, BA (Hons), MA, Ph D (African Studies)  
 A. Guerson, Ph D (International Foundation Program/New One)  
 M. Levin, BA, MSc, Ph D (African Studies)

examining relationships among academic disciplines. We offer four degree programs: African Studies; Buddhism, Psychology and Mental Health; Caribbean Studies; and Critical Studies in Equity and Solidarity. These programs are open to all students in the Faculty of Arts and Science.

We also offer interdisciplinary courses that can enhance any degree program. Integration of student experience is a major priority in a college with students from all faculties in the University. The Independent Studies courses provide an opportunity for students to design their own programs and to test their research, analytic, synthetic, and creative skills by writing a major research paper. The Community Engaged Learning program supports course-based service learning and independent community engaged learning opportunities. These allow students to integrate their theoretical knowledge with practical experience, while engaging in meaningful work in campus and community organizations.

### New One: Learning Without Borders

New One provides first year students with a comprehensive foundation for successful undergraduate study. It encourages active, engaged learning and creative forms of inquiry, and supports students in developing their research, writing and oral communication abilities. In New One, students develop skills in research and knowledge presentation, showcasing their projects at our Knowledge Fair.

New One offers up to ten interdisciplinary small-class seminars annually. Students join the program by simply registering in one of our courses, whether in the Fall or Winter term. The courses explore themes that connect to our daily lives such as the food we eat, the languages we speak, the technology we use, the art that we create and surrounds us, and the science that impacts our lives. We encourage students to take a course in both the Fall and Winter terms for a more complete experience.

New One gives students the tools to think deeply, critically, and creatively and to see the ways our lives are connected "beyond borders." Inspired by the social advocacy focus of New College's academic programs, the program grapples with the core question: how do we imagine responsible global citizenship and build a more equitable and just society?

## Introduction

New College courses have in common a commitment to socially engaged learning and to explorative and inventive pedagogy that widens students' experience by critically

New One courses meet for 3 hours each week. The first two hours are usually dedicated to course content, while the third hour is allocated to "Learning Labs." All students come together in these Learning Labs to engage in joint activities and explore issues that are common to the themes of the courses. Both in seminars and Learning Labs, students will experience a variety of ways of learning (through, for example, guest lectures, group work, workshops, field trips to local community organizations, and panels of senior students sharing their experience and insights).

New One does not require a specific application. All first-year students in the Faculty of Arts and Science on the St. George campus are eligible to register in our courses. Students, however, can only take courses in one College One program in the same term. For more information about the program, go to <http://uoft.me/NewOne> or contact [new.one@utoronto.ca](mailto:new.one@utoronto.ca).

### **The African Studies Program**

(Specialist, Major, Minor) How has the evolution of societies on the African continent been integral to universal human history? What factors, in the past and in our time, account for similarities and differences among Africa societies? How are patterns and challenges of development in African societies shaped by their location within the global political economy? How do representations of Africa in popular media influence our knowledge of African societies? What are the ethical dilemmas of the various ways in which we engage with African societies?

The African Studies Program provides students opportunities to study the complexity and dynamism of African societies, the dynamics, challenges and processes of socio-economic, environmental and political transformations in Africa, the varied histories, societies, ideas, institutions of Africa and its diasporas through interdisciplinary lenses. Cutting across disciplines, the program offers a path to exploring how the organization of African societies has and continues to be shaped by the complex interaction of global and regionally-specific forces, encounters, and processes. The curriculum has three areas of emphasis: dynamics and challenges of socio-economic and political transformations in Africa's "modern era"; social and political thought of Africa and its Diasporas in Europe, North America and elsewhere; and African popular cultures.

The interdisciplinary courses, through innovative and critical pedagogies, deal with cutting edge subjects such as political economy, African inventions, development, aid, humanitarianism, NGOs, conflict and peacemaking, activism and political struggles, politics, African cultures, migration and displacement, gender and development, environment, health, black freedom, urbanization, African systems of thought, the slave trade, colonialism, the post-colonial state, Africa and its diaspora, Pan-Africanism, and globalization. Innovative pedagogies nurturing students'

intellectual curiosity, cultivating engaged, creative and critical thinking and teaching cutting edge courses that recognize Africa as a living place rather than merely as a site for intellectual speculation and study inform our teaching. The program also offers practical courses in African languages. These areas of emphasis are supported by a rich menu of program courses that form the spin of the curriculum. Additional cross-listed courses with cognate disciplines and other interdisciplinary programs, drawn from disciplines in humanities, social sciences and sciences, complement the program offerings.

Consult Program Director, Prof. M. Lo, 416-946-3218 or [marieme.lo@utoronto.ca](mailto:marieme.lo@utoronto.ca). For general enquiries call 416-978-5404 or email [nc.undergradadmin@utoronto.ca](mailto:nc.undergradadmin@utoronto.ca).

### **The Buddhism, Psychology and Mental Health Program**

(Minor) An interdisciplinary Minor program, BPMH focuses on the growing convergence between western psychology and the psychological aspects of Buddhism as expressed in the recent interest in mindfulness meditation as a means of enhancing health and wellness. The program allows students to investigate the diverse ways that Buddhist and western psychology and science intersect, bringing together academic, clinical and contemplative traditions. Students choose from a wide range of courses on mind, consciousness, mindfulness meditation, social implications and applications of Buddhism, cognitive science, psychotherapy and the psychology of religion. The program encourages a critical examination of the ways that Buddhist psychology can contribute to the modern understanding of consciousness, wisdom, mental health and physical health.

For general enquiries, call 416-978-5404 or email [nc.undergradadmin@utoronto.ca](mailto:nc.undergradadmin@utoronto.ca).

### **The Caribbean Studies Program**

(Specialist, Major, Minor) Caribbean Studies is an interdisciplinary undergraduate program that consists of courses on Caribbean history and society, politics and economic development, literature and thought. Our courses deal with a wide range of issues including gender, religion, culture, ethnicity, race, development, language, colonialism, the environment and regional common markets. Caribbean Studies equips students to think about broad, theoretical and challenging intellectual issues and, at the same time, to ground that expansive thinking in deep understanding of the particular historical, political, economic, geographical, cultural and linguistic realities of the Caribbean and its diasporas. This combined interdisciplinary and area studies approach prepares students to think across disciplines about these kinds of questions, and to base their comparative, transnational and interdisciplinary thinking in concrete knowledge of the Caribbean and its people. The study of the Caribbean equips students to question the order of things, reflect on their own place in the world, and see

past the Caribbean's size or current level of geo-political influence to recognize the inherent value and intellectual significance of all places and all people.

Consult Program Director, Prof. N. Rodríguez, 416-585-4438 or email [crb.program@utoronto.ca](mailto:crb.program@utoronto.ca). For general enquiries, call 416-978-5404 or email [nc.undergradadmin@utoronto.ca](mailto:nc.undergradadmin@utoronto.ca).

### **Critical Studies in Equity and Solidarity**

(Major, Minor) Critical Studies in Equity and Solidarity (CSES) is an interdisciplinary program that explores how social relations and practices of power and privilege are (re)produced locally and transnationally. In CSES we question the dominant conceptualization of equity by the state, educational programs, the non-profit sectors and community organizations as individualized and de-historicized social differences. CSES is a hub of critical disability studies teaching and learning. The program provides students with theoretical and practical tools to study social, political, economic and historical injustices. CSES takes a unique approach to undergraduate education that values student experiential learning and community knowledge. The learning goal of CSES is to provide frameworks on theories of transformative social change rooted in political activism and formations of solidarity. The program encourages students to apply theory in action through organizing and practicing solidarity in making a more just world. CSES creates a dynamic learning environment that extends far beyond the university walls. With a vibrant student body, dynamic faculty members, connection with a wide range of community partners and a bold curriculum, CSES at New College is a leader in studies of social justice, settler colonialism, race, gender, sexuality, disability, land/water and sustainability, activism, solidarity and the art of resistance, and global food equity and security.

For general enquiries, call 416-978-5404 or email [nc.undergradadmin@utoronto.ca](mailto:nc.undergradadmin@utoronto.ca).

### **Community Engaged Learning (CEL)**

New College offers several community engaged courses. These provide students the opportunity to integrate academic, experiential and practice-based learning as they participate in meaningful work in community or campus organizations.

Two forms of community engaged learning courses are offered: embedded and independent. In the former, a community service component is either a mandatory or optional component of the course syllabus. (Examples of such courses are [CSE342H1](#) and [BPM232H1](#)). In the *independent* community engaged learning courses, upper level students, with various academic backgrounds, are placed with a social purpose community or campus-based organization for several hours per week, contributing to the mission of that organization in program support work or research. Through seminar discussions and critical

reflection on their experiences, students learn how to mobilize their academic knowledge, deepen their appreciation of community engagement and social justice, explore social and ethical issues, and build professional dispositions and work-place skills relevant to the social sector.

Information about CEL can be found at <http://www.newcollege.utoronto.ca/academics/new-college-academic-programs/community-engaged-learning>.

Enquiries: [nc.engagedlearning@utoronto.ca](mailto:nc.engagedlearning@utoronto.ca).

### **Independent Studies**

New College Independent Study courses are designed both to complement regular offerings in New College Programs and to provide an opportunity for New College students in any program to enrich their studies. The normal expectation of a project course is that the student, aided and advised by their supervisor, will read relevant literature, and plan, analyze and report on an original and independent investigation of an appropriate topic. Written applications, including a detailed proposal, should be made through the Programs Office for approval by the Vice Principal of New College or a designate by April 15 for the Summer Session; by July 15 for the Fall Term; or by November 15 for the Winter Term. Should the deadline fall on a weekend, applications will be accepted until the following Monday. Students will be notified of the acceptance or rejection of an application. If the project requires ethics approval, please be advised that you should find and consult with a supervisor about meeting this requirement at least a semester in advance of these deadlines. For more information and application forms, please see the Independent Studies website: <http://www.newcollege.utoronto.ca/new-college-academic-programs/independent-studies>.

Enquiries: New College Program Administrator - Wetmore Hall, room 133; [nc.undergradadmin@utoronto.ca](mailto:nc.undergradadmin@utoronto.ca) or 416-978-5404.

### **Interdisciplinary Courses on Jungian Theory**

This suite of courses offers students opportunities for sustained, interdisciplinary engagement with the thought of Carl Jung. Courses invite students to consider Jung's thought and practice in relation to a range of disciplinary and cultural issues in order to open up conversations about models of consciousness and mind.

Enquiries: New College Program Administrator - Wetmore Hall, room 133; [nc.undergradadmin@utoronto.ca](mailto:nc.undergradadmin@utoronto.ca) or 416-978-5404.

### **The International Foundation Program**

is designed for international students who need to meet the University's English language requirement. Students

will acquire the academic and language skills necessary for full admission to undergraduate studies. Core courses include one first year history credit course (IFP100Y1), three non-credit language courses and one non-credit discipline-specific course. Courses are open only to students admitted to the program. For program and admission information, please see <https://internationalprograms.utoronto.ca>.

### The Human Biology Programs

offer a broad education in life sciences with courses offered by departments in both the Faculties of Arts and Science, and Medicine (see [Human Biology](#) section of the Calendar.)

### The Women and Gender Studies Program

(Specialist, Major, Minor) provides an interdisciplinary and culturally inclusive approach to understanding gender (see [Women and Gender Studies](#) section of the Calendar.)

## New College Programs

### African Studies Specialist (Arts Program) - ASSPE1707

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

Consult Program Administrator:  
[nc.undergradadmin@utoronto.ca](mailto:nc.undergradadmin@utoronto.ca) or 416-978-5404.

(11.0 credits, including at least 4.0 credits at the 300+ level, with at least 1.0 credit at the 400-level)

First Year:  
1. [AFR150Y1](#)

Higher Years:  
2. [JQR360H1](#)  
3. [AFR450Y1](#)  
4. 2.5 credits from Group A, to be chosen from at least two different course designators.  
5. 2.0 credits from Group B.  
6. 2.0 credits from Groups A or B  
7. 2.0 credits in language courses from Group C (a *progression in one language*) or 2.0 credits in a major African language approved by the Program Committee.

#### Group A:

[AFR250Y1](#), [AFR322H1](#), [AFR351Y1](#), [AFR352H1](#),  
[AFR353H1](#), [AFR354H1](#), [AFR355H1](#), [AFR357H1](#),

[AFR358H1](#), [AFR450Y1](#), [AFR451H1](#), [AFR453Y1](#),  
[AFR454H1](#), [AFR455H1](#), [AFR459H1](#), [ENG367H1](#),  
[FCS392H1](#), [HIS295Y1](#), [HIS297Y1](#), [HIS383Y1](#), [HIS394H1](#),

Note: Effective Fall 2021, courses associated with New College's African Studies, Caribbean Studies, and Critical

Studies in Equity and Solidarity programs will have the new "AFR," "CAR," and "CSE" designators respectively.

## Caribbean Studies Minor (Arts Program) - ASMIN1545

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

Consult Program Administrator:  
[nc.undergradadmin@utoronto.ca](mailto:nc.undergradadmin@utoronto.ca) or 416-978-5404.

(4.0 credits including at least 1.0 credit at the 300+level)

First Year:

1. [CAR120Y1](#)

Higher Years:

2. 1.0 credit from: [HIS230H1](#), [HIS231H1](#), [CAR220H1](#), [CAR221H1](#), [CAR225H1](#), [CAR226H1](#).
3. 1.0 credit from the Core Group: [HIS230H1](#), [HIS231H1](#), [HIS474H1](#), [JHN323H1](#), [JLN327H1](#), [JLN427H1](#), [CAR220H1](#), [CAR221H1](#), [CAR225H1](#), [CAR226H1](#), [CAR315H1](#), [CAR316H1](#), [CAR317H1](#), [CAR321H1](#), [CAR324H1](#), [CAR325H1](#), [CAR328H1](#), [CAR329H1](#), [CAR421H1](#), [CAR423H1](#), [CAR426H1](#), [CAR426Y1](#), [CAR428H1](#), [CAR429H1](#), [SPA486H1](#).
4. 1.0 credit from the Core Group or Group A:

### Group A:

[ENG356Y1](#), [ENG369H1](#), [HIS106Y1](#), [HIS221H1](#), [HIS222H1](#), [HIS291H1](#), [HIS292H1](#), [HIS359H1](#), [HIS360H1](#), [HIS391Y1](#), [HIS392Y1](#), [HIS413H1](#), [HIS446H1](#), [HIS474H1](#), [POL442H1](#), [POL467H1](#), [SPA220Y1](#), [WGS450H1](#)

Note: Effective Fall 2021, courses associated with New College's Caribbean Studies program will have the new "CAR" designator.

## Critical Studies in Equity and Solidarity Major (Arts Program) - ASMAJ1141

Critical Studies in Equity and Solidarity (CSES) is an interdisciplinary program that explores how social relations and practices of power and privilege are (re)produced locally and transnationally. In CSES we question the dominant conceptualization of *equity* by the state, educational programs, the non-profit sectors and community organizations as individualized and de-historicized social differences. CSES is a hub of critical

disability studies teaching and learning. The program provides students with theoretical and practical tools to study social, political, economic and historical injustices. CSES takes a unique approach to undergraduate education that values student experiential learning and community knowledge. The learning goal of CSES is to provide frameworks on theories of transformative social change rooted in political activism and formations of solidarity. The program encourages students to apply theory in action through organizing and practicing solidarity in making a more just world. Equity Studies creates a dynamic learning environment that extends far beyond the university walls. With a vibrant student body, dynamic faculty members, connection with a wide range of community partners and a bold curriculum, CSES at New College is a leader in studies of social justice, settler colonialism, race, gender, sexuality, disability, land/water and sustainability, activism, solidarity and the art of resistance, and global food equity and security.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

Consult Program Administrator:  
[nc.undergradadmin@utoronto.ca](mailto:nc.undergradadmin@utoronto.ca) or 416-978-5404.

(7.0 credits, including 2.0 credits at the 300+ level)

First Year:

No specific first-year courses required.

Higher Years:

1. [CSE240H1](#)
2. [CSE341H1](#)
3. [JQR360H1](#)
4. 2.0 additional credits from the core group, including at least 0.5 at the 400-level: [JNS450H1](#), [CAR315H1](#), [CSE241Y1](#), [CSE270H1](#), [CSE340H1](#), [CSE342H1](#), [CSE344H1](#), [CSE344Y1](#), [CSE345H1](#), [CSE346H1](#), [CSE347H1](#), [CSE348H1](#), [CSE349H1](#), [CSE440Y1](#), [CSE441H1](#), [CSE442H1](#), [CSE443H1](#), [CSE444H1](#), [CSE446H1](#), [CSE447H1](#), [CSE448H1](#), [CSE449H1](#), [CSE469Y1](#)
5. 3.5 credits from Groups A, B, C, D (including one or more credits from at least three of the four groups)

### Group A: Gender

[ANT343H1](#), [ANT460H1](#), [CAR317H1](#), [CAR325H1](#), [CAS360H1](#), [CHC322H1](#), [CLA219H1](#), [CLA319H1](#), [EAS380H1](#), [EAS388H1](#), [ENG355Y1](#), [FRE304H1](#), [GGR320H1](#), [GGR327H1](#), [HIS202H1](#), [HIS205H1](#), [HIS297Y1](#), [HIS348H1](#), [HIS354H1](#), [HIS363H1](#), [HIS383Y1](#), [HIS406H1](#), [HIS417Y1](#), [HIS446H1](#), [HIS465Y1](#), [HIS481H1](#), [HIS486H1](#), [ITA455H1](#), [JAL355H1](#), [NMC245H1](#), [NMC284H1](#), [NMC484H1](#), [PHL367H1](#), [POL303H1](#), [POL351H1](#), [POL432H1](#), [POL450H1](#), [REN341H1](#),

### Notes:

- Effective Fall 2021, courses associated with New College programs will have new three-letter designators based on the area of study: "AFR" (African Studies), "BPM" (Buddhism, Psychology and Mental Health), "CAR" (Caribbean Studies), and "CSE" (Critical Studies in Equity and Solidarity).
- Effective Fall 2021, courses associated with St. Michael's College's Christianity and Culture program will have the new "CHC" designator. In addition, courses associated with Victoria College's Renaissance Studies and Education and Society programs will have the new "REN" and "EDS" designators respectively.

## Critical Studies in Equity and Solidarity Minor (Arts Program) - ASMIN1141

Critical Studies in Equity and Solidarity (CSES) is an interdisciplinary program that explores how social relations and practices of power and privilege are (re)produced locally and transnationally. In CSES we question the dominant conceptualization of *equity* by the state, educational programs, the non-profit sectors and community organizations as individualized and de-historicized social differences. CSES is a hub of critical disability studies teaching and learning. The program provides students with theoretical and practical tools to study social, political, economic and historical injustices. CSES takes a unique approach to undergraduate education that values student experiential learning and community knowledge. The learning goal of CSES is to provide frameworks on theories of transformative social change rooted in political activism and formations of solidarity. The program encourages students to apply theory in action through organizing and practicing solidarity in making a more just world. Equity Studies creates a dynamic learning environment that extends far beyond the university walls. With a vibrant student body, dynamic faculty members, connection with a wide range of community partners and a bold curriculum, CSES at New College is a leader in studies of social justice, settler colonialism, race, gender, sexuality, disability, land/water and sustainability, activism, solidarity and the art of resistance, and global food equity and security.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

**Completion Requirements:**

Consult Program Administrator:  
[nc.undergradadmin@utoronto.ca](mailto:nc.undergradadmin@utoronto.ca) or 416-978-5404.

(4.0 credits, including at least 1.0 credit at the 300+ level)

First Year:

No specific first-year courses required.

Higher Years:

1. [CSE240H1](#)

2. 1.0 credit in any area from the Core Group: [JNS450H1](#),  
[CAR315H1](#), [CSE241Y1](#), [CSE270H1](#), [CSE340H1](#),  
[CSE341H1](#), [CSE342H1](#), [CSE344H1](#), [CSE344Y1](#),

Notes:

- Effective Fall 2021, courses associated with New College programs will have new three-letter designators based on the area of study: "AFR" (African Studies), "BPM" (Buddhism, Psychology and Mental Health), "CAR" (Caribbean Studies), and "CSE" (Critical Studies in Equity and Solidarity).
- Effective Fall 2021, courses associated with St. Michael's College's Christianity and Culture program will have the new "CHC" designator. In addition, courses associated with Victoria College's Renaissance Studies and Education and Society programs will have the new "REN" and "EDS" designators respectively.

## New College Courses

### New College First-Year Foundations

#### NEW197H1 - Public Intellectual Activism: Theory and Practice

**Hours:** 24S

Explores the role of the public intellectual in modern and contemporary societies from a theoretical and practical lens. Specifically, investigates the interventions of this capital actor of the social fabric in specific historical junctures of the 20th century and the new millennium with the idea of informing a hands-on approach to participation in civil society debates. Students will be encouraged to examine how “marginalized communities” intervene in the public sphere to effect social change. Term work will include the writing and publishing of an op-ed article, blog, social media posts and a podcast interview. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

#### NEW198H1 - Myths of French Sensuality

**Hours:** 24S

A study of French cultural history with respect to the French reputation for the indulgence and refinement of all the senses in visual arts, music, cuisine, perfume and fashion. Supporting mythologies are investigated, along with stereotype formation, exoticism and cultural appropriation. Through various research, writing and presentation techniques, including mini-essays, poster displays and pecha kucha, students will explore what is left of this reputation in an era of globalization. No knowledge of French is necessary. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

#### NEW199H1 - We Are What We Eat: The Example of French Cuisine

**Hours:** 24S

The historical study of French cuisine reveals a culture rich in controversy and conflicting narratives. These include contested origins, court intrigues, sensual delight, revolutions, colonialism and slavery, controversial farm practices, haute cuisine, cuisine bourgeoise, regionalism, European regulation. Through various research, writing and presentation techniques, including mini-essays, wikis and pecha kucha, students will explore what is left of French food culture in an era of globalization. No knowledge of French is necessary. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

### New One: Learning Without Borders

#### NEW101H1 - The Everyday Politics of Food

**Hours:** 12L/24S

How often do we reflect on the environmental, social and economic impact of our everyday food choices? This course offers an introduction to the key concepts, terms and theories that underlie our current food system. The course links the food we eat to global forces and considers how these forces affect food distribution, access and consumption. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

#### NEW102H1 - Exploring Multilingual Toronto

**Hours:** 12L/24S

How does language connect and divide people, places and communities? This course considers how interactions between people in Toronto are shaped by language as well as history, economy, architecture and urban landscapes. Students engage with the city both in and out of class to think about a range of questions linked to gender and sexuality, indigeneity, migration, race, ethnicity, and public/private space. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Society and its Institutions (3)

## NEW103H1 - Digital Technology and Society

**Hours:** 12L/24S

While the internet and other forms of digital technology have created new forms of social relationships and widened access to information, they have also raised concerns. This course explores issues such as surveillance, addiction and bullying as well as the potential of digital technologies (e.g. smart cities, Big Data, and the internet of things). The course engages students' own experience of digital technology. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NEW104H1 - Creating Community: Art, Identity and Belonging

**Hours:** 12L/24S

How is art implicated in the process of community building? How does art foster a sense of community identity and belonging? This course explores how communities, in Toronto and beyond, engage a variety of art forms including graffiti, spoken-word, hip-hop, digital art, traditional dance and music to connect people and express community identity. Students will have the opportunity to visit community arts projects. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## NEW105H1 - Current Issues Without Borders I

**Hours:** 12L/24S

This interdisciplinary course addresses a current issue that exemplifies the themes of "Learning Without Borders" in New One. It investigates how this issue is implicated in connecting us with others around the globe; it engages different kinds of knowledge and community perspectives; and integrates students' own experience as related to the

issue. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NEW106H1 - Science, Health and Social Justice

**Hours:** 12L/24S

How can scientific knowledge and research be mobilized to impact individual and global health? How is health impacted by social, racial and economic inequalities? This course explores scientific research and practice with special attention to the translation of scientific knowledge in the public sphere, and its ability to inform policies, practices and laws. Students have the opportunity to meet with clinician-scientists, policy-makers, and other professionals connected to the health care system. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NEW111H1 - Food, Ethics and Sustainability

**Hours:** 12L/24S

How do we produce and ensure access to nutritious and environmentally sustainable food for all? This course explores what is involved in achieving ethical food production and food security, examining topics such as: the paradox of food waste amidst scarcity, the relationship between food production and climate change, community-led alternatives to dominant food systems, and the role of biotechnology. Research projects allow students to focus on an issue of particular interest. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## NEW112H1 - Language Freedom and Power

**Hours:** 12L/24S

How do we imagine a balance between the need for communication, freedom of expression, and protection for marginalized groups? This course considers how language shapes and is shaped by the relations of power not only in such sites as colonies, nations and institutions, but also in popular culture and how we communicate online. It explores the key role of language in activism and youth cultures and allows students to focus on an issue of particular interest. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## NEW113H1 - Unpacking Digital Technology

**Hours:** 12L/24S

What are the social and material implications of the digital technologies we use every day - for the present and for the future? This course explores how digital technologies have been remaking the world and affecting our lives by tracing their historical development, their social effects, and the impact of their physical presence. It also peers into scenarios of the future in this digital world. Students engage in research on a topic of their own interest. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## NEW114H1 - Art for Social Change

**Hours:** 12L/24S

How does art contribute to social change? Artistic productions can draw attention to social problems, mobilize support for and symbolize social movements, and inspire new visions for imagined futures. This course will explore case studies of the role of various art forms in relation to past and current social change initiatives. Students will have the opportunity to engage in research on an art project of their choice. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## NEW115H1 - Current Issues Without Borders II

**Hours:** 12L/24S

Explores the social and ethical implications of a current issue exemplifying the themes of "Learning Without Borders." Also considers examples of policy and community organizing responses. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## NEW116H1 - Science and Global Threats

**Hours:** 12L/24S

What is the role of science in addressing current global threats? What are the possibilities and the limitations of scientific research and knowledge in tackling complex problems such as climate change, pandemics and pollution? In this course, students explore these questions by examining case studies, meeting with specialists in various scientific fields, and engaging in research on a topic of their own choice. Restricted to first-year students. Not eligible for CR/NCR option.

**Exclusion:** Cannot be enrolled in concurrent College One courses.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## African Studies Courses

### AFR150Y1 - Introduction to African Studies

**Previous Course Number:** NEW150Y1

**Hours:** 48L/24T

A multi-disciplinary study of Africa, emphasizing inquiry and critical analysis. Pre-colonial, colonial and contemporary African history, anthropology, politics, African humanism and society, religion, art, music, race, resistance, gender and Pan-Africanism.

**Exclusion:** NEW150Y1, AFSA01H3

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## AFR250Y1 - Africa in the 21st Century: Challenges and Opportunities

**Previous Course Number:** NEW250Y1

**Hours:** 48L

A critical examination of Africa as a living space rather than merely a site of intellectual speculation and study. Uses scholarly and popular literature to explore the issues that engage the attention of ordinary Africans, ranging from the dramatic to the seemingly trivial, as they struggle to fashion meaningful lives in fast-changing societies. Topics include urban transition and city life; economic, political and cultural impacts of globalization; new religious movements and changing conceptions of selfhood; new African diasporas in the West; dynamics of gender relations, kinships and identities; and the politics of liberalization. Materials studied will include print and electronic news media and other mass media resources from Africa and across the world.

**Exclusion:** [NEW250Y1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## AFR280Y1 - Introductory Swahili

**Previous Course Number:** NEW280Y1

**Hours:** 24L/72T

Introduction to grammar and basic vocabulary of Swahili. Emphasis on comprehension and oral practice. Reading of selected texts. Relation of the language to its East African cultural context.

**Exclusion:** [NEW280Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## AFR322H1 - The Contemporary African Novel

**Previous Course Number:** NEW322H1, NEW322Y1

**Hours:** 24S

Novels written in the last forty years by English, French and Portuguese-speaking Africans. Ideological views concerning colonialism and neo-colonialism. Tradition, religious and secular; the use of African symbolism. A small number of historical and sociological texts are recommended as essential background reading. Works not written in English are read in translation. (Offered in alternate years)

**Exclusion:** [NEW322H1](#), [NEW322Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JNH350H1 - AIDS : Challenges and Successes

**Previous Course Number:** NEW350H1

**Hours:** 24L

Explores the pandemic of AIDS in Africa through a social science lens. (Given by Human Biology and New College)

**Exclusion:** [NEW350H1](#)

**Recommended Preparation:** [AFR150Y1](#)

**Distribution Requirements:** Humanities, Science, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## AFR351Y1 - African Systems of Thought

**Previous Course Number:** NEW351Y1, NEW252Y1

**Hours:** 48L

The exploration of a range of African cosmologies, epistemologies, and theologies, as well as specific case studies on justice, the moral order, and gender relations. The influence of these richly diverse traditions is traced as well in the writings of African thinkers in the Diaspora.

**Exclusion:** [NEW351Y1](#), [NEW252Y1](#), [JAP256H1/JAP356H1](#)

**Recommended Preparation:** [AFR150Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3), Thought, Belief and Behaviour (2)

## AFR352H1 - International Organizations, NGOs, Development and Change in Africa

**Previous Course Number:** NEW352H1

**Hours:** 24L

Critically explores the role of international organizations such as the World Bank Group, the UN and NGOs in the economic development of Africa.

**Prerequisite:** [AFR150Y1/AFR250Y1](#)

**Exclusion:** [NEW352H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## AFR353H1 - International Relations of Africa

**Previous Course Number:** NEW353H1

**Hours:** 24L

Explores inter-state relations in Africa, African states' relations with the West, China, India, Brazil, and international political, economic and financial institutions.

**Prerequisite:** [AFR150Y1/AFR250Y1](#)

**Exclusion:** [NEW353H1](#), [POLC80H3](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## AFR354H1 - African Cultures and Development

**Previous Course Number:** NEW354H1

**Hours:** 24L

Critically examines scholarly debates on the relationships between African cultures and development in various regions of the continent. Draws on interdisciplinary scholarship and development discourses to enhance students' understanding of African conditions and cultures in the context of development thinking.

**Prerequisite:** [AFR150Y1/AFR250Y1](#)

**Exclusion:** [NEW354H1](#), [NEW358H1](#) (Special Topics in African Studies: Culture and Development in Postcolonial Africa), offered in Winter 2015, Winter 2016, Fall 2016, Fall 2017, Fall 2018, Fall 2019

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## AFR355H1 - African Youth Languages and Cultures

**Previous Course Number:** NEW355H1

**Hours:** 24L

Examines the nature of youth languages and cultures in contemporary Africa with a focus on their characteristics and the conditions under which they develop. Also considers similarities and/or differences between youth languages and cultures in different regions of Africa and the general youth condition. Includes urban youth languages such as Sheng, English, Tsotsitaal, etc. and music genres associated with youth such as hip hop, Bongo flava, etc. Discusses challenges and opportunities associated with African youth languages as they relate to questions of identity, national integration, regional integration, and development.

**Prerequisite:** [AFR150Y1/AFR250Y1/AFR280Y1](#)

**Exclusion:** [NEW355H1](#), [NEW358H1](#) (Special Topics in African Studies: African Youth Languages and Cultures), offered in Winter 2018

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## AFR357H1 - Special Topics in African Studies

**Previous Course Number:** NEW357H1

**Hours:** 24L

An upper level course. Topics of study vary from year to year.

**Prerequisite:** [AFR150Y1/AFR250Y1](#)

## AFR358H1 - Special Topics in African Studies

**Previous Course Number:** NEW358H1

**Hours:** 24L

An upper level course. Topics of study vary from year to year.

**Prerequisite:** [AFR150Y1/AFR250Y1](#)

**Distribution Requirements:** Humanities, Social Science

## AFR359H1 - The Horn of Africa - Critical Perspectives

**Previous Course Number:** NEW359H1

**Hours:** 24L

Examines the Horn of Africa, its diversity, geopolitics, cultural politics, present conditions and current debates through a critical and comparative lens. Considers social forces in contemporary politics within the region including competing claims, explanations of the underpinnings of the Horn's conflict, and the promise of peace. Draws upon interdisciplinary scholarship, public discourse, texts and media to reflect on the future of the Horn of Africa at this historical moment.

**Prerequisite:** Completion of at least 4.0 credits

**Exclusion:** [NEW359H1](#), [NEW357H1](#) (Special Topics in African Studies: The Horn of Africa: Critical Perspectives) offered in Fall 2018, Fall 2019

**Recommended Preparation:** [AFR150Y1/AFR250Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

**Prerequisite:** [AFR150Y1/AFR250Y1](#)**Distribution Requirements:** Humanities, Social Science

## AFR380Y1 - Intermediate Swahili

**Previous Course Number:** NEW380Y1**Hours:** 24L/72T

Grammar and syntax. Conversation and written composition. Reading of texts: literary, journalistic. Relation of the language to its East African context.

**Prerequisite:** [AFR280Y1](#)**Exclusion:** [NEW380Y1](#)**Distribution Requirements:** Humanities**Breadth Requirements:** Creative and Cultural Representations (1)

## AFR450Y1 - African Studies Honours Research Seminar

**Previous Course Number:** NEW450Y1**Hours:** 24S

This honours research seminar required of all specialists and majors in African Studies offers critical explorations of the genealogy of African Studies, the transnational study of Africa, Africa's place in a globalized world, the historical, intellectual and institutional contexts of Africanist knowledge production, its dissemination and consumption in Africa, Europe, the Americas and emerging academic sites in Asia. It engages with the paradigm shifts and vibrant scholarly and epistemic debates across disciplines and geographies as well as unfolding events, public discourses, geopolitics, African popular cultures and the reimagining of African futures through canonical, emergent scholarship and creative media and emphasizes students' original and creative research explorations, engaged praxis and search for alternative theorizing and decolonial epistemologies.

**Prerequisite:** [AFR150Y1/AFR250Y1](#)/400-level Group A Course**Exclusion:** [NEW450Y1](#)**Distribution Requirements:** Social Science**Breadth Requirements:** Society and its Institutions (3)

## AFR451H1 - Special Topics in African Studies

**Previous Course Number:** NEW451H1**Hours:** 24L

An upper level course. Topics of study vary from year to year.

## AFR453H1 - Language and Postcolonial Education in East Africa

**Previous Course Number:** NEW453H1**Hours:** 24S

Examines the choice of languages for education in East Africa using critical perspectives. Pays particular attention to the influences of the historical experience of colonialism, the socio-linguistic contours of each country and the strength of linguistic and educational lobby groups in East African countries.

**Prerequisite:** [AFR150Y1/AFR250Y1](#)**Exclusion:** [AFR453Y1](#), [NEW453H1](#), [NEW453Y1](#)**Distribution Requirements:** Humanities**Breadth Requirements:** Creative and Cultural Representations (1)

## AFR453Y1 - Language and Postcolonial Education in East Africa

**Previous Course Number:** NEW453Y1**Hours:** 48S

Examines the choice of languages for education in East Africa using critical perspectives. Pays particular attention to the influences of the historical experience of colonialism, the socio-linguistic contours of each country and the strength of linguistic and educational lobby groups in East African countries.

**Prerequisite:** [AFR150Y1/AFR250Y1](#)**Exclusion:** [AFR453H1](#), [NEW453H1](#), [NEW453Y1](#)**Distribution Requirements:** Humanities**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## AFR454H1 - Migration, Mobility, and Displacement in Contemporary Africa

**Previous Course Number:** NEW454H1**Hours:** 24S

Why do people move voluntarily or involuntarily? What are the causes and consequences of migration and displacement in Africa? This course critically examines the multifaceted dimensions of migration, mobility, and displacement, with a specific focus on communities and populations displaced by war, environmental destruction and disaster, economic failings, and the quest for

economic opportunities, love, education, or individual freedom.

**Prerequisite:** [AFR150Y1/AFR250Y1](#) or permission of the instructor.

**Exclusion:** [NEW454H1](#), [NEW451H1](#) (Special Topics in African Studies: Migration, Mobility, and Displacement in Contemporary Africa), offered in Fall 2016

**Recommended Preparation:** [JQR360H1/AFR351Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## AFR455H1 - Conflicts, Negotiations and Peacebuilding in Africa

**Previous Course Number:** NEW455H1

**Hours:** 24S

Examines conflicts and peace negotiations in African contexts such as Somalia, Sudan, the Democratic Republic of Congo, and North Africa through public discourse, citizen actions, policy debates and mobilizations. Explores formal, informal, indigenous and institutional mediation and peace negotiation platforms, strategies, and impulses. Analyzes various conflict zones, case studies and intervention strategies for negotiating and sustaining peace in Africa in the broader context of the war on terror, increasing militarism, and securitization in peacebuilding.

**Prerequisite:** [AFR150Y1/AFR250Y1](#)

**Exclusion:** [NEW455H1](#), [NEW451H1](#) (Special Topics in African Studies: Conflicts, Negotiations and Peacebuilding in Africa), offered in Winter 2019, Winter 2020; [NEW452H1](#)

**Recommended Preparation:** [AFR353H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## AFR459H1 - Advanced Special Topics in African Studies

**Previous Course Number:** NEW459H1

**Hours:** 24L

An upper-level course. Topics of study vary from year to year.

**Prerequisite:** [AFR150Y1/AFR250Y1](#)

**Distribution Requirements:** Humanities, Social Science

## Buddhism, Psychology and Mental Health Courses

### BPM214H1 - Socially Engaged Buddhism

**Previous Course Number:** NEW214H1

**Hours:** 24L

Socially Engaged Buddhism applies traditional Buddhist spiritual, ethical and social teachings to improve society. This course will focus on contemporary movements in Vietnam, Tibet, China & Taiwan, Sri Lanka, Thailand and India, as well as its ramifications in the West that have inspired movements such as Buddhist prison ministries and the Peacemaker Order.

**Exclusion:** [NEW214H1](#), [NEW214Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

### BPM232H1 - Buddhist Psychology

**Previous Course Number:** NEW232H1, NEW232Y1

**Hours:** 36L

Describes the psychology inherent within the original teachings of Buddhism. Primary focus is on the understanding of the causes of suffering and happiness, the nature of cognition and emotion, characteristics of the self/ego, personality transformation, the role of the unconscious, and mindfulness meditation. Includes an option for Community Engaged Learning experience.

**Exclusion:** [NEW232H1](#), [NEW232Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### JNR301H1 - The History of Buddhist Meditation

**Hours:** 36L

This course will survey historical, cultural, and textual contexts for Buddhist meditative and contemplative practices and techniques.

**Prerequisite:** [RLG206H1/NEW232Y1/BPM232H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## BPM330H1 - Mindfulness-Informed Interventions for Mental Health

**Previous Course Number:** NEW330H1

**Hours:** 36L

An exploration of the current interest in incorporating mindfulness into western mental health interventions. Examines the concept of mindfulness closely to show how mindfulness is implicitly a component of western psychological theories and interventions. Also discussed is how mindfulness is used directly and indirectly as a psychological intervention.

**Prerequisite:** Completion of 9.0 credits

**Exclusion:** NEW330H1

**Recommended Preparation:** BPM232H1/NEW232Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## BPM332H1 - Buddhism and Psychotherapy

**Previous Course Number:** NEW332H1

**Hours:** 36L

Evaluates the relationship between Buddhist psychology and the practice of Western psychotherapy. Areas that will be studied include positive psychology, psychoanalysis, cognitive-behaviour therapy, mindfulness meditation and Jungian psychology. Comparisons with original Buddhist teachings and commentaries will be made.

**Exclusion:** NEW332H1

**Recommended Preparation:** BPM232H1/NEW232Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## BPM333H1 - Buddhism and Cognitive Science

**Previous Course Number:** NEW333H1

**Hours:** 36L

Explores some important connections between Cognitive Science and Buddhism. In particular it will examine the insights of cognitive science into central Buddhist concepts such as wisdom, mindfulness, meditation, insight and self-control, as well as related concepts such as flow and mystical experience.

**Exclusion:** NEW333H1

**Recommended Preparation:**

BPM232H1/NEW232Y1/RLG206H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## BPM334H1 - Science of Wisdom: Buddhist and Western Traditions

**Previous Course Number:** NEW334H1

**Hours:** 36L

Provides a conceptual and practical exploration of several ancient wisdom traditions. Buddhist approaches to self-actualization and wisdom will be compared to several other wisdom traditions (e.g. Mesopotamia, classical Greece, Christianity, Renaissance, etc.) Includes guided experiential exercises for each of the wisdom traditions.

**Exclusion:** NEW334H1

**Recommended Preparation:** BPM232H1/NEW232Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## BPM335H1 - Meditation and the Body

**Previous Course Number:** NEW335H1

**Hours:** 36L

In recent years, the effects of meditation on the body have been widely researched. There is an increasing body of evidence that mindfulness meditation can affect brain activity, brain structure, neurochemistry and other psychobiological processes (e.g. blood pressure, cardiac function). This course will examine the research in this emerging field.

**Prerequisite:** Completion of 9.0 credits

**Exclusion:** NEW335H1

**Recommended Preparation:** BPM232H1/NEW232Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## BPM336H1 - Special Topics in Buddhism, Psychology and Mental Health

**Previous Course Number:** NEW336H1

**Hours:** 36L

Topics vary from year to year depending on the instructor.

**Recommended Preparation:** BPM232H1/NEW232Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **BPM337H1 - Special Topics in Buddhism, Psychology and Mental Health**

**Previous Course Number:** NEW337H1  
**Hours:** 36L

Topics vary from year to year.

**Prerequisite:** 0.5 credits from the Buddhism, Psychology and Mental Health Core Course Group.

**Recommended Preparation:** BPM232H1/NEW232Y1

**Distribution Requirements:** Social Science

## **BPM338H1 - Exploring Mindful Awareness**

**Previous Course Number:** NEW338H1  
**Hours:** 36L

Mindfulness meditation is a systematic investigation of subjective experience. Classic and modern descriptions of mindfulness and the recent scientific literature are surveyed. In addition to exploring a variety of meditative practices in the class, students are also required to maintain an ongoing meditation practice outside of class time over the duration of the course.

**Prerequisite:**

BPM232H1/NEW232Y1/BPM332H1/BPM333H1/BPM334H1/BPM335H1/BPM339H1

**Exclusion:** NEW338H1, NEW432H1 (Advanced Special Topics in Buddhism, Psychology and Mental Health: Cultivating Consciousness), offered in Fall 2012, Fall 2013, Fall 2014, Summer 2015, and Winter 2016

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **BPM339H1 - Yogacara Buddhism and Western Psychology**

**Previous Course Number:** NEW339H1  
**Hours:** 36L

A comparative study of the nature of mind in Indian Yogacara Buddhism and modern psychology. Yogacara Buddhist teachings address the three aspects of mind, the storehouse consciousness, and the theory of consciousness-only, allowing an interdisciplinary dialogue

with modern scientific understandings of the mind in psychology.

**Exclusion:** NEW339H1

**Recommended Preparation:** BPM232H1/NEW232Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **BPM381H1 - Buddhist Perspectives on Current Social Issues**

**Hours:** 36L

Explores Buddhist approaches to a wide range of current social, political and environmental issues (e.g., abortion, euthanasia, animal rights, suicide, sexuality). Through critical examination, students draw contrasts and comparisons with the more familiar Western approaches to these ethical and moral dilemmas.

**Exclusion:** NEW214Y1

**Recommended Preparation:**

NEW214H1/NEW232H1/NEW232Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **BPM430H1 - Jungian Psychology and Tantric Buddhism**

**Previous Course Number:** NEW430H1  
**Hours:** 36L

Jung wrote extensively on the benefits of Buddhism to personal development and transformation. This course explores the contribution of Jungian psychology to understanding Tantric (or Vajrayana) Buddhism. Through experiential exercises, students will investigate the role of archetypal psychology as a mediator of the spiritual transformation described in Tantric Buddhism.

**Prerequisite:** BPM232H1/NEW232Y1

**Exclusion:** NEW430H1, NEW433H1 (Advanced Special Topics in Buddhism, Psychology and Mental Health: The Psychology of Tantric Buddhism), offered in Winter 2015 and Winter 2016

**Recommended Preparation:** NEW302Y1/NEW303H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## BPM432H1 - Advanced Special Topics in Buddhism, Psychology and Mental Health

**Previous Course Number:** NEW432H1

**Hours:** 36L

An upper-level seminar. Topics vary from year to year, depending on the instructor.

**Recommended Preparation:**

BPM232H1/NEW232Y1/RLG206H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## BPM433H1 - Advanced Special Topics in Buddhism, Psychology and Mental Health

**Previous Course Number:** NEW433H1

**Hours:** 36S

An upper-level seminar. Topics vary from year to year, depending on the instructor.

**Recommended Preparation:**

BPM232H1/NEW232Y1/RLG206H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## BPM438H1 - Mindfulness Meditation: Science and Research

**Previous Course Number:** NEW438H1

**Hours:** 36S

Critically evaluates the empirical research literature relevant to the study of mindfulness meditation. Conceptual, methodological and interpretive limitations of the scientific literature are discussed. Comparisons between the scientific models of mindfulness meditation and Buddhist descriptions will be made.

**Prerequisite:** A statistics course (e.g. PSY201H1, SOC202H1, STA220H1)

**Exclusion:** NEW438H1

**Recommended Preparation:**

BPM232H1/NEW232Y1/NEW331H1/BPM333H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## Caribbean Studies Courses

### CAR120Y1 - Introduction to Caribbean Studies

**Previous Course Number:** NEW120Y1

**Hours:** 48L/24T

Explores the complex and diverse languages, geographies, regional and national histories, cultural practices, intellectual traditions and political and economic landscapes of the Caribbean region, its people and its diasporas. Students will be introduced to the main questions, themes, and debates in Caribbean Studies. Lectures and readings develop the skills to take an interdisciplinary approach to Caribbean Studies.

**Exclusion:** NEW120Y1

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

### CAR220H1 - Comparative Caribbean Literature I: Canonical Readings

**Previous Course Number:** NEW220H1

**Hours:** 24L

Introduction to the rich and multi-linguistic literary traditions of the Caribbean and its diaspora, focusing on canonical texts of Caribbean literature. Texts not originally written in English are read in translation.

**Exclusion:** NEW220H1, NEW222H1, NEW222Y1, NEW223Y1

**Recommended Preparation:** CAR120Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### CAR221H1 - Comparative Caribbean Literature II: Contemporary Readings

**Previous Course Number:** NEW221H1

**Hours:** 24L

Focuses on recent literary production, written in the last decade, from the Caribbean, insular and continental, and its diaspora. Texts not originally written in English are read in translation. While CAR220H1 is an excellent companion course, CAR221H1 can be taken independently.

**Exclusion:** NEW221H1, NEW222H1, NEW222Y1, NEW223Y1

**Recommended Preparation:** CAR120Y1

**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## CAR225H1 - Caribbean Societies

**Previous Course Number:** NEW225H1  
**Hours:** 24L/12T

Offers an interdisciplinary introduction to Caribbean sociology, focusing on the writings of thinkers and scholars from the era of decolonization to the more contemporary period. Themes may include: colonial encounters in the making of Caribbean societies; the role of religion; popular consciousness; histories of capitalism and exploitation; the relationship between political institutions and the wider society; "development", dependency and "underdevelopment".

**Exclusion:** [NEW225H1](#), [NEW224Y1](#)  
**Recommended Preparation:** [CAR120Y1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CAR226H1 - Caribbean Political Thought

**Previous Course Number:** NEW226H1  
**Hours:** 24L/12T

Examines currents of Caribbean political thought from the Haitian Revolution to the present. Themes may include: struggles for independence and liberation, particularly the Haitian and Cuban Revolutions; theories of dependency; Caribbean political systems; regional integration; contemporary political issues facing Caribbean societies today; analyses of capitalism by Caribbean thinkers.

**Exclusion:** [NEW226H1](#), [NEW224Y1](#)  
**Recommended Preparation:** [CAR120Y1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CAR315H1 - Caribbean Foodways Across History, Culture and Diaspora

**Previous Course Number:** NEW315H1  
**Hours:** 24L

Examines the historical roots of regional Caribbean food from the colonial period to the present day, and then moves to study Caribbean food in the global and Caribbean-Canadian diasporas, in the literary imagination,

as a marker of personal, group and national identity, and as cultural expression.

**Prerequisite:** Completion of 4.0 credits.  
**Exclusion:** [NEW315H1](#)  
**Recommended Preparation:**  
[HIS230H1/HIS231H1/CAR120Y1/CAR220H1/CAR221H1/NEW224Y1/CAR225H1/CAR226H1/CSE240H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CAR316H1 - Caribbean Religions

**Previous Course Number:** NEW316H1  
**Hours:** 24L

Explores the complex and dynamic practices, philosophies and political and cultural contexts of Caribbean religions. Topics may include the profound impact - in both the Caribbean and its diasporas - of Caribbean Christianities, Hinduism and Islam as well as Afro-Creole religions such as Vodun, Rastafari and Santeria.

**Prerequisite:** [HIS230H1/ HIS231H1/ CAR120Y1/ CAR220H1/ CAR221H1/ NEW224Y1/ CAR225H1/ CAR226H1](#)  
**Exclusion:** [NEW316H1](#), [NEW329H1](#) (Special Topics in Caribbean Studies: Caribbean Religions), offered in Fall 2014 and Fall 2015  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## CAR317H1 - Caribbean Women Writers

**Previous Course Number:** NEW317H1  
**Hours:** 24L

A critical feminist reading of selected works of fiction, poetry and essays by Caribbean women writers. The aim is to appraise the development of this literature, situate texts within the key social and political debates which have influenced the region's literary output, as well as to consider the implications of the environments within which these writers function.

**Prerequisite:** Completion of 4.0 credits.  
**Exclusion:** [NEW317H1](#), [WGS330H1](#)  
**Recommended Preparation:**  
[CAR120Y1/CAR220H1/CAR221H1/WGS160Y1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Creative and Cultural Representations (1)

## CAR321H1 - Caribbean Visual Arts, Social Media and Performance

**Previous Course Number:** NEW321H1

**Hours:** 24L

Explores themes relating to visual arts, social media and theatre in the Caribbean. Topics may include: theatre, film, mixed media arts, the role of the internet and online publishing in the arts and the relationship between artists, the state and wider society.

**Prerequisite:**

HIS230H1/HIS231H1/CAR120Y1/CAR220H1/CAR221H1/NEW224Y1/CAR225H1/CAR226H1

**Exclusion:** NEW321H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JHN323H1 - Indigeneity in the Caribbean

**Hours:** 24L

Explores the legacies of the pre-Columbian era, as well as the post-1492 experiences of people of pre-Columbian Caribbean ancestry. Examines the origins and consequences of the Caribbean's narrative of "indigenous absence", as well as the relationship between indigeneity, globalization and diaspora.

**Prerequisite:** INS201Y1/ HIS230H1/ HIS231H1/ CAR120Y1/ CAR220H1/ CAR221H1/ NEW224Y1/ CAR225H1/ CAR226H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CAR324H1 - Capitalism and Crisis in the Caribbean

**Previous Course Number:** NEW324H1

**Hours:** 24L

This upper level course examines the interplay between wider global processes and intra-regional responses that together help shape contemporary Caribbean realities. Topics include: economic crisis and structural adjustment; tourism; the agricultural sector; the Caribbean Single Market and Economy; migration and diaspora.

**Prerequisite:**

HIS230H1/HIS231H1/CAR120Y1/CAR220H1/CAR221H1/NEW224Y1/CAR225H1/CAR226H1

**Exclusion:** NEW324H1, NEW324Y1

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CAR325H1 - Caribbean Women Thinkers

**Previous Course Number:** NEW325H1

**Hours:** 24L

An examination of the historical and political significance of writings (literary, political, scholarly) by Caribbean women who engage problems within Caribbean culture and provide insights into the endeavours of the peoples of the region.

**Prerequisite:** Completion of 4.0 credits.

**Exclusion:** NEW325H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## JLN327H1 - Culture and Modernity in the Hispanic Caribbean

**Hours:** 24L

Explores the Hispanic areas of the Caribbean including the Caribbean areas of continental Spanish-speaking America. Topics may include: regional politics, state and economy; revolutions and authoritarian regimes; popular culture, the arts and media; religion and society; gender and sexuality; state structures; diasporas and migration.

**Prerequisite:** HIS230H1/ HIS231H1/ CAR120Y1/ CAR220H1/ CAR221H1/ NEW224Y1/ CAR225H1/ CAR226H1/ LAS200H1/ LAS201H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CAR328H1 - Caribbean Indentureship and its Legacies

**Previous Course Number:** NEW328H1

**Hours:** 24L

Explores indentured migration and its legacies from the 17th century through to the present. Encourages students to think comparatively and transnationally about indentureship and diaspora, as well as indentured migration's relationship to contract and labour law.

**Prerequisite:**

HIS230H1/HIS231H1/CAR120Y1/CAR220H1/CAR221H1/NEW224Y1/CAR225H1/CAR226H1

**Exclusion:** [NEW328H1](#), [NEW326Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CAR329H1 - Special Topics in Caribbean Studies

**Previous Course Number:** NEW329H1

**Hours:** 24L

An upper level course. Topics of study vary from year to year.

**Distribution Requirements:** Humanities, Social Science

## CAR421H1 - Global Perspectives on the Haitian Revolution

**Previous Course Number:** NEW421H1

**Hours:** 24S

Examines the colonial pre-history of the Haitian Revolution (1791-1804). Explores how this transatlantic revolution unfolded, including the emancipation of slaves, Toussaint, Louverture, and the roles played by Spain, the United States and Britain. A reflection on the Revolution in contemporary literature and film.

**Prerequisite:**

[HIS230H1/HIS231H1/CAR120Y1/CAR220H1/CAR221H1/NEW224Y1/CAR225H1/CAR226H1](#)

**Exclusion:** [NEW421H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CAR422H1 - Caribbean Regionalism

**Previous Course Number:** NEW422H1

**Hours:** 24S

In a public lecture in 1958, Trinidadian CLR James described Federation as the means to "accomplish the transition from colonialism to national independence." This course explores the shift from James' vision to Jamaican economist Norman Girvan's observation that contemporary "...governments tend to perceive supranationality as less an exercise in collective sovereignty and more a diminution of national sovereignty." Among the topics to be considered are: histories of regionalism; formal and informal dimensions of regional identity-making practices; freedom of movement; governance mechanisms; and widening and deepening debates, with particular reference to the non-Anglophone Caribbean and Latin America.

**Prerequisite:** Completion of at least 1.0 credit at the 300-level.

**Exclusion:** [NEW422H1](#), [NEW329H1](#) (Special Topics in Caribbean Studies: Caribbean Regionalism), offered in Winter 2018; [NEW423H1](#) (Special Topics in Caribbean Studies: Caribbean Regionalism), offered in Winter 2019

**Recommended Preparation:**

[CAR120Y1/CAR220H1/CAR221H1/HIS231H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CAR423H1 - Special Topics in Caribbean Studies

**Previous Course Number:** NEW423H1

**Hours:** 24S

An upper-level seminar. Topics vary from year to year, depending on the instructor.

**Prerequisite:**

[HIS230H1/HIS231H1/CAR120Y1/CAR220H1/CAR221H1/NEW224Y1/CAR225H1/CAR226H1](#)

**Distribution Requirements:** Humanities

## CAR426Y1 - Special Topics in Caribbean Studies

**Previous Course Number:** NEW426Y1

**Hours:** 72S

An upper level seminar. Topics vary from year to year, depending on the instructor.

**Distribution Requirements:** Humanities

## CAR426H1 - Special Topics in Caribbean Studies

**Previous Course Number:** NEW426H1

**Hours:** 36S

An upper level seminar. Topics vary from year to year, depending on the instructor.

**Distribution Requirements:** Humanities

## JLN427H1 - Advanced Topics: The Hispanic Caribbean

**Hours:** 24S

Explores, in depth, a country in the Hispanic Caribbean or a theme relating to the Hispanic Caribbean. Topics vary each year and may include: Cuban society; Hispanic Caribbean revolutions; Hispanic Caribbean music, art and popular cultures; Hispanic Caribbean diasporas.

**Prerequisite:** [HIS230H1](#)/[HIS231H1](#)/[JLN327H1](#)/[LAS200H1](#)/[LAS201H1](#)/[CAR120Y1](#)/[CAR220H1](#)/[CAR221H1](#)/[NEW224Y1](#)/[CAR225H1](#)/[CAR226H1](#)

**Exclusion:** [NEW427H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CAR428H1 - Caribbean Migrations and Diasporas

**Previous Course Number:** NEW428H1

**Hours:** 24S

Examines Caribbean migration in the post-slavery era. Topics include: Caribbean diasporas in the West; labour migrations such as the Panama Canal migration; Caribbean migrant communities in Central America; intra-regional migrations between the Caribbean islands; 'guest worker' programs; remittances and their impact; heritage tourism and 'return' migrations.

**Prerequisite:**

[HIS230H1](#)/[HIS231H1](#)/[CAR120Y1](#)/[CAR220H1](#)/[CAR221H1](#)/[NEW224Y1](#)/[CAR225H1](#)/[CAR226H1](#)

**Exclusion:** [NEW428H1](#), [HISC70H3](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CAR429H1 - Caribbean Diaspora in Canada

**Previous Course Number:** NEW429H1

**Hours:** 24S

Explores the transnational circuits through which the Caribbean diaspora makes a living and makes life in contemporary Canada. How do we make sense of the Caribbean experience in Canada? What might an engagement with the Caribbean teach us about Canada as a diasporic space?

**Prerequisite:**

[CDN355H1](#)/[HIS230H1](#)/[HIS231H1](#)/[CAR120Y1](#)/[CAR220H1](#)/[CAR221H1](#)/[NEW224Y1](#)/[CAR225H1](#)/[CAR226H1](#)

**Exclusion:** [NEW429H1](#), [NEW329H1](#) (Special Topics in Caribbean Studies: Travels and Tribulations), offered in Summer 2013 and Summer 2014

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## Critical Studies in Equity and Solidarity Courses

### CSE240H1 - Introduction to Critical Equity and Solidarity Studies

**Previous Course Number:** NEW240H1, NEW240Y1

**Hours:** 24L/12T

An interdisciplinary intersectional interrogation and examination of systemic inequity and social justice in local and global contexts. Provides a foundation for the field of critical equity and solidarity studies through a concentrated focus on theory and practice as it relates to major concepts, historical perspectives, key debates and radical grassroots community resistance to inequity. Introduces and foregrounds the concept of critical equity as both a theoretical framework and as a lived contestation of the structural nature and effects of systemic inequity.

**Exclusion:** [NEW240H1](#), [NEW240Y1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

### CSE241Y1 - Introduction to Critical Disability Studies

**Previous Course Number:** NEW241Y1

**Hours:** 48L/24T

Draws on an intersectional history and politics of normativity and bodily difference to understand disability as a diverse and materially salient social category that can be used as a lens to better understand systems and experiences of colonization, race, class, gender, age, etc. Explores scenes of disability or 'crip' solidarity, resistance and cultural production, disability D/deaf and mad arts, coalitional movements for disability justice, collective approaches to access and other non-normative ways of knowing and being.

**Exclusion:** [NEW241Y1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

### CSE270H1 - Community (dis)Engagement and Solidarity

**Previous Course Number:** NEW270H1

**Hours:** 24L/12T

An introduction to issues and questions arising from the field of 'community engagement'. Explores the meaning, practices and implications of/for 'community' and 'community (dis)engagement' from multiple perspectives (e.g. the State and its agencies, institutional power, colonial discourse, communities of embodied difference, etc.) Takes a multi-media and arts-based approach to examining self-care from an anti-colonial perspective of central importance in the practice and pedagogy of critical equity and solidarity in the collective struggle for freedom and transformation.

**Exclusion:** [NEW270H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE339H1 - Special Topics in Equity and Solidarity Studies

**Hours:** 24L

An upper-level course. Topics of study vary from year to year, depending on the instructor.

**Prerequisite:** [CSE240H1/NEW240H1/NEW240Y1](#)

## CSE340H1 - Abolition in the Global Context: Theorizing Uprisings and Youth Activism against Policing and Prisons

**Previous Course Number:** NEW340H1

**Hours:** 24L

Considers the question: what does abolition mean in a global context? An analysis of how nation-states use prisons, (im)migrant detention centers, black sites, detention camps, military prisons, border checkpoints, refugee camps, walls, and concentration camps, to surveil, contain, and lock up disposable populations, and/or to suppress those that resist state violence. Explores these carceral spaces through a historical and political economic investigation of the processes that have produced these sites. Draws on anti-carceral perspectives on abolition and reform to examine uprisings and political activism, particularly youth activism, against prisons, policing, and forms of militarized, capitalist violence transnationally.

**Prerequisite:** [CSE240H1/ NEW240H1/ NEW240Y1](#)

**Exclusion:** [NEW340H1](#) (Special Topics in Equity Studies: Youth, Activism and Social Change), offered in Fall 2017, Fall 2018, Fall 2019 and Fall 2020

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE341H1 - Theorizing Settler Colonialism, Capitalism and Race

**Previous Course Number:** NEW341H1

**Hours:** 24S

Provides students with a theoretical background for understanding settler colonialism, capitalist social relations and difference (including race, class, gender, disability and sexuality) and solidarity. Provides an analysis of state violence and the formation of hegemonic power relations. Introduces students to the method of thinking *dialectically* to examine the social world as a set of relations between multiple phenomena occurring at the same time. Articulates an emancipatory politics of knowledge production and strategies of building solidarities to enable the imagination of a different future.

**Prerequisite:** [CSE240H1/NEW240Y1](#)

**Exclusion:** [NEW341H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE342H1 - Theory and Praxis in Food Security

**Previous Course Number:** NEW342H1

**Hours:** 24S

Explores the concept of food security in the context of equity issues related to global food systems. Students participate in food-related field work activities outside of regular classroom time.

**Prerequisite:** [CSE240H1/NEW240Y1](#)

**Exclusion:** [NEW342H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE344Y1 - Body Matters: Oppression, Solidarity and Justice

**Previous Course Number:** NEW344Y1

**Hours:** 48L

Through lectures, small-group discussions and experiential activities, explores how intersecting cultural stories impact our bodies and how stories inscribed upon us shape and constrain our relations, perceptions, experiences and vulnerabilities as embodied subjects. Draws on work in cultural studies, critical race and decolonial theory, gender studies, queer, trans and disability theory and fat studies to ask: Whose bodies matter? How do bodies come to matter? And, how are we - as embodied beings - engaged in acts of rewriting,

resisting and otherwise transforming the body means and what it can do?

**Prerequisite:** [CSE240H1/ NEW240Y1/ CSE241Y1](#)

**Exclusion:** [NEW344Y1, NEW344H1, CSE344H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## CSE344H1 - Body Matters: Oppression, Solidarity and Justice

**Previous Course Number:** NEW344H1

**Hours:** 24L

Through lectures, small-group discussions and experiential activities, explores how intersecting cultural stories impact our bodies and how stories inscribed upon us shape and constrain our relations, perceptions, experiences and vulnerabilities as embodied subjects. Draws on work in cultural studies, critical race and decolonial theory, gender studies, queer, trans and disability theory and fat studies to ask: Whose bodies matter? How do bodies come to matter? And, how are we - as embodied beings - engaged in acts of rewriting, resisting and otherwise transforming the body means and what it can do?

**Prerequisite:** [CSE240H1/ NEW240Y1/ CSE241Y1](#)

**Exclusion:** [NEW344H1, NEW344Y1, CSE344Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## CSE345H1 - Equity and Activism in Education

**Previous Course Number:** NEW345H1

**Hours:** 24L

Examines contemporary issues in education and schooling from a social justice and equity perspective. Engages with a variety of theoretical frameworks including anti-homophobia education, critical pedagogy, critical race theory, decolonizing knowledges, and intersectionality. Includes an overview of educational activist projects.

**Prerequisite:** [CSE240H1/NEW240Y1](#)

**Exclusion:** [NEW345H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE346H1 - Community Organizing and Global Solidarity

**Previous Course Number:** NEW346H1

**Hours:** 24L

Considers, from an interdisciplinary perspective, the evolution of community organizations and non-profits in the context of neoliberalism, settler colonialism, and imperialism. Examines the inter-woven relations of political economy, local community development, marginalized communities in Canada, and emergent forms of global/local solidarity.

**Prerequisite:** [CSE240H1/NEW240Y1](#)

**Exclusion:** [NEW346H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE347H1 - Critical Race and Anti-Racism Studies

**Previous Course Number:** NEW347H1

**Hours:** 36L

Considers what it means to pursue integrative anti-racism in organizational/institutional settings such as the workplace, justice system, media and education through a study of theories on race and philosophical tenets of anti-racism. Examines the concept of race as a pedagogical discourse and social-political practice across local, national and global contexts.

**Prerequisite:** [CSE240H1/NEW240Y1](#)

**Exclusion:** [NEW347H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE348H1 - Special Topics in Equity Studies

**Previous Course Number:** NEW348H1

**Hours:** 24L

An upper level course. Topics of study vary from year to year.

**Prerequisite:** [CSE240H1/NEW240Y1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE349H1 - Disability Arts and Culture

**Previous Course Number:** NEW349H1  
**Hours:** 24S

Explores the work of disabled, mad, sick and/or Deaf artists and considers how disability disrupts - or 'crips' - artistic spaces and cultural movements. Engages with contemporary debates emanating from within these spaces and movements to reveal disability as a dynamic range of bodily practices, aesthetics and relations.

**Prerequisite:** [CSE240H1/NEW240Y1](#)  
**Exclusion:** [NEW349H1](#)

**Distribution Requirements:** Humanities, Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## CSE439H1 - Advanced Topics in Equity and Solidarity Studies

**Hours:** 24S

An upper-level seminar course. Topics of study vary from year to year, depending on the instructor.

**Prerequisite:** [CSE240H1/NEW240H1/NEW240Y1](#) and a 300+ level 0.5 credit from Critical Studies in Equity and Solidarity Core Group  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## CSE440Y1 - Advanced Special Topics in Equity Studies

**Previous Course Number:** NEW440Y1  
**Hours:** 72L

An advanced level seminar course. Topics of study vary from year to year.

**Prerequisite:** [CSE240H1/NEW240Y1](#) and an additional 0.5 credit at the 300+ level from the Critical Studies in Equity and Solidarity Core Group  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3), Thought, Belief and Behaviour (2)

## CSE441H1 - Advanced Topics in Equity Studies

**Previous Course Number:** NEW441H1  
**Hours:** 24S

An advanced level seminar course. Topics vary from year to year.

**Prerequisite:** [CSE240H1/NEW240Y1](#)  
**Distribution Requirements:** Humanities

## CSE442H1 - Food Systems and the Politics of Resistance

**Previous Course Number:** NEW442H1  
**Hours:** 36L

Examines the food we eat in the local and global context of food systems, food sovereignty and food movements. Explores the possibilities for food as a catalyst for learning, resistance and social change. Consult the Program Office for course enrolment procedures.

Note: This is a joint graduate/undergraduate course.

**Prerequisite:** 14.0 credits, [CSE240H1/NEW240Y1](#), [CSE342H1](#), an additional 0.5 credit at the 300+ level from the Critical Studies in Equity and Solidarity Studies Core Group, a GPA of at least 3.5 in CSE courses  
**Exclusion:** [NEW442H1](#)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## CSE443H1 - Advanced Special Topics in Equity Studies

**Previous Course Number:** NEW443H1  
**Hours:** 36S

An advanced level seminar course. Topics of study vary from year to year.

**Prerequisite:** [CSE240H1/NEW240Y1](#) and an additional 0.5 Critical Studies in Equity and Solidarity Core Group 300+ level course.  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## CSE444H1 - Anti-Colonization and the Politics of Violence

**Previous Course Number:** NEW444H1  
**Hours:** 36S

This advanced seminar interrogates how the theorizations, embodied lived experiences and lived resistance to structural violence can create social, epistemological, ontological and political decolonizing/anti-colonial transformation. The work of Frantz Fanon, John

Akomfrah, The Black Panther Party for Self-Defense, Elaine Brown and Assata Shakur amongst others are utilized to search for alternative and oppositional ways to rethink and re-respond to violence. The seminar pursues a nuanced understanding of violence as it relates to de/anticolonization as a lived praxis of resistance and as a practice of self-defense that is grounded in the assertion that there can be no *decolonization* without *anticolonization*.

**Prerequisite:** [CSE240H1/NEW240Y1](#) and an additional 0.5 credit at the 300+ level from the Critical Studies in Equity and Solidarity Core Group.

**Exclusion:** [NEW444H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## CSE445H1 - Geographies of Military Occupation, (Un)Freedom and Transnational Solidarity

**Hours:** 24S

Examines how some of the longest military occupations in history have produced forms of inequality, injustice, and violence that have given rise to mass resistance and global solidarity on an unprecedented scale. Through a comparison of cases such as Palestine/Israel and Kashmir analyzes concepts such as imperialism, settler colonialism, militarism, occupation, nationalism, indigeneity, demography, sovereignty, collective memory, resistance, liberation and transnational solidarity. Draws on memoirs, oral histories, films, poetry, music, and literature to understand the historical and political economic foundations that have produced these occupations and the forms of resistance and liberation struggles that have shaped international solidarity.

**Prerequisite:** [CSE240H1/NEW240H1/NEW240Y1](#), [CSE341H1/NEW341H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE446H1 - Community Development and Social Change

**Previous Course Number:** NEW446H1

**Hours:** 36L

Explores the significance of community development as a social change strategy, through a critical social analysis of local and global case studies and policies. Consult the Program Office for course enrolment procedures.

Note: This is a joint graduate/undergraduate course.

**Prerequisite:** 14.0 credits, [CSE240H1/NEW240Y1](#), [CSE346H1](#), an additional 0.5 credit at the 300+ level from the Critical Studies in Equity and Solidarity Studies Core Group, a GPA of at least 3.5 in CSE courses.

**Exclusion:** [NEW446H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE447H1 - Race, Ethnicity and Educational Praxis

**Previous Course Number:** NEW447H1

**Hours:** 36L

An application of critical race, ethnicity and social difference discourse to educational praxis. Examines the articulation of theoretical perspectives to explain particular incidents in society, and to understand forms of institutional racism and emerging minority responses. Explores the implications for pedagogical practices in education.

**Prerequisite:** [CSE240H1/NEW240Y1](#), [CSE347H1](#) and one additional 0.5 credit at the 300+ level in CSE courses; permission of Program Director

**Exclusion:** [NEW447H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE448H1 - Disability and the Child

**Previous Course Number:** NEW448H1

**Hours:** 24S

Examines a range of historical and present-day meanings associated with the figure of the disabled child. Draws on work emanating from a variety of disciplines, including history, psychology, neuroscience, visual arts, film and literature, and engaging with critical theories of race, class, gender, sexuality and disability, to discuss ideas and issues relevant to the construction of 21st century disabled childhoods. Counters the near monolithic story of disability as threat to the presumed goodness of normative childhood by asking: what alternate depictions and narratives of disabled childhood exist and what can they teach us?

**Prerequisite:** [CSE240H1/NEW240Y1/CSE241Y1](#) and an additional 0.5 Critical Studies in Equity and Solidarity Core Group 300+ level course

**Exclusion:** [NEW448H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE449H1 - Contemporary Theories in Critical Disability Studies

**Previous Course Number:** NEW449H1

**Hours:** 24S

Explores competing conceptions, definitions and practices of disability through a range of critical disability theories, including crip-of-colour critique, decolonial theories of disability studies and black feminist disability frameworks. Enacts disability studies as a justice-oriented methodology or practice that has value for understanding and responding to colonial systems of race, class, gender and disability. Interrogates the shape and limits of disability and disability studies to ask the provocative question: what can disability studies do?

**Prerequisite:** [CSE240H1/NEW240Y1](#) and 0.5 credit from [CSE241Y1/CSE344Y1/CSE349H1/CSE448H1](#)

**Exclusion:** [NEW449H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JNS450H1 - Sexuality & Disability

**Hours:** 24S

An interdisciplinary and intersectional approach to the study of disability and sexuality. Students will engage with historical, mainstream and critical discourses and explore complex issues and representations pertaining to disability, sexuality, sexual practices and desire. Draws from a range of writings and cultural texts in queer, crip and sexuality studies.

**Prerequisite:** [SDS255H1/ SDS256H1 \( UNI255H1/ UNI256H1\)](#) or [NEW240Y1/ CSE241Y1](#) or permission of the instructor

**Exclusion:** [SDS455H1](#) (Special Topics in Sexual Diversity Studies: Sexuality & Disability), offered in Fall 2015

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## CSE469Y1 - Decolonizing Research Methodologies for New Researchers

**Previous Course Number:** NEW469Y1

**Hours:** 48S

A feminist/anti-racist/anti-colonial/anti-imperialist exploration of research methods. Examines the work of researchers and scholar-activists who seek to humanize research with communities detrimentally impacted by colonial, imperialist, heteropatriarchal research agendas and processes. Supports students' independent research

projects through guidance from the course instructor. Prepares students for graduate studies or research-oriented careers. Not eligible for CR/NCR option.

**Prerequisite:** [CSE240H1/NEW240Y1](#), 1.0 credit from Critical Studies in Equity and Solidarity Core Group 300+ level courses and a GPA of 3.0 from Critical Studies in Equity and Solidarity Core courses.

**Exclusion:** [NEW469Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Creative and Cultural Representations (1), Society and its Institutions (3)

## Community Engaged Learning (CEL) Courses

### NEW495Y1 - Community Engaged Learning: Critical and Creative Perspectives on the Non-Profit Sector

**Hours:** 96P/24S

A placement-based course in which students develop knowledge, practice and professional skills appropriate to the social purpose sector while working to support programming for community partners. The accompanying seminar considers critical social justice issues and creative models of community-engagement practice from grassroots, community and non-profit organizations and other perspectives that support students' experiential, participatory and reflective learning. Not eligible for CR/NCR option.

**Recommended Preparation:** [CAR120Y1/ AFR150Y1/ CAR220H1/ CAR221H1/ NEW224Y1/ CAR225H1/ CAR226H1/ BPM232H1/ NEW232Y1/ CSE240H1/ NEW240Y1/ CSE241Y1/ CSE270H1/ HIS230H1/ HIS231H1/](#) other New College courses

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

### NEW496H1 - Community Engaged Learning: Critical and Creative Perspectives on the Non-Profit Sector

**Hours:** 48P/12S

A placement-based course in which students develop knowledge, practice and professional skills appropriate to the social purpose sector while working to support programming for community partners. The accompanying seminar considers critical social justice issues and creative models of community-engagement practice from grassroots, community and non-profit organizations and

other perspectives that support students' experiential, participatory and reflective learning. Not eligible for CR/NCR option.

**Recommended Preparation:** CAR120Y1/ AFR150Y1/ CAR220H1/ CAR221H1/ NEW224Y1/ CAR225H1/ CAR226H1/ BPM232H1/ NEW232Y1/ CSE240H1/ NEW240Y1/ CSE241Y1/ CSE270H1/ HIS230H1/ HIS231H1/ other New College courses

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **NEW497Y1 - Critical and Creative Perspectives on Community Based Research (CBR): An Advanced Seminar**

**Hours:** 96P/24S

Explores how research is conducted and mobilized by marginalized communities as a form of resistance, knowledge production and social change. Examines the foundations of empirical research, the role of the university as a site of research activity and the ethics and methods of community-based research. Informed by examples of grassroots research projects from Black, Indigenous and racialized communities locally, nationally and globally. In this course, students engage in community-based and participatory action research projects with community partners. Not eligible for CR/NCR option.

**Prerequisite:** Completion of 9.0 credits and successful completion of the application process.

**Recommended Preparation:** CAR120Y1/ AFR150Y1/ CAR220H1/ CAR221H1/ NEW224Y1/ CAR225H1/ CAR226H1/ BPM232H1/ NEW232Y1/ NEW240Y1/ CSE241Y1/ CSE270H1/ HIS230H1/ HIS231H1/ other New College courses

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **NEW498H1 - Critical and Creative Perspectives on Community Based Research (CBR): An Advanced Seminar**

**Hours:** 48P/12S

Explores how research is conducted and mobilized by marginalized communities as a form of resistance, knowledge production and social change. Examines the foundations of empirical research, the role of the university as a site of research activity and the ethics and methods of community-based research. Informed by examples of grassroots research projects from Black, Indigenous and racialized communities locally, nationally and globally. In this course, students engage in

community-based and participatory action research projects with community partners. Not eligible for CR/NCR option.

**Prerequisite:** Completion of 9.0 credits and successful completion of the application process.

**Recommended Preparation:** CAR120Y1/ AFR150Y1/ CAR220H1/ CAR221H1/ NEW224Y1/ CAR225H1/ CAR226H1/ BPM232H1/ NEW232Y1/ NEW240Y1/ CSE241Y1/ CSE270H1/ HIS230H1/ HIS231H1/ other New College courses

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **Independent Studies Courses**

### **NEW299Y1 - Research Opportunity Program**

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...> Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

### **NEW390Y1 - New College Independent Studies**

New College Independent Studies. Not eligible for CR/NCR option.

**Prerequisite:** Completion of 8.0 credits and permission of the College

### **NEW391H1 - New College Independent Studies**

New College Independent Studies. Not eligible for CR/NCR option.

**Prerequisite:** Completion of 8.0 credits and permission of the College

### **NEW490Y1 - New College Independent Studies**

New College Independent Studies. Not eligible for CR/NCR option.

**Prerequisite:** Completion of 12.0 credits and permission of the College

## NEW491H1 - New College Independent Studies

New College Independent Studies. Not eligible for CR/NCR option.

**Prerequisite:** Completion of 12.0 credits and permission of the College

## Interdisciplinary Courses

### NEW271H1 - Interdisciplinary Special Topics

**Hours:** 24L

Topics vary from year to year depending on the instructor. Consult timetable for current offering information.

### JQR360H1 - The Canadian Census: Populations, Migrations and Demographics

**Hours:** 24L/12T

Examines the Canadian population census through the experience of diasporic groups in Canada. Approaches the census as a statistical tool, an historical source and an ideological project of citizenship and nationalism. Uses census data to explore mathematical and statistical concepts and to integrate numerical ways of thinking with qualitative analysis. (Jointly sponsored by African Studies, Diaspora and Transnational Studies, Caribbean Studies, Equity Studies and Latin American Studies).

**Prerequisite:** DTS200Y1/ HIS230H1/ HIS231H1/ LAS200H1/ LAS201H1/ CAR120Y1/ AFR150Y1/ CAR220H1/ CAR221H1/ NEW224Y1/ CAR225H1/ CAR226H1/ NEW240Y1

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

### NEW370Y1 - Interdisciplinary Special Topics

**Hours:** 48L

Topics vary from year to year depending on the instructor.

### NEW371H0 - International Field Course

Provides opportunities for students to engage in an international experiential learning program related to their academic areas of study. The course involves seminars, group exercises, site visits and a final project. Some sessions will be held in Toronto prior to and following the trip. Not eligible for CR/NCR option.

**Prerequisite:** Foundational course from participating programs (Indigenous Studies; African Studies; Buddhism, Psychology and Mental Health; Caribbean Studies; Equity Studies; Human Biology)  
**Distribution Requirements:** Social Science

### NEW372H1 - Interdisciplinary Special Topics

**Hours:** 24L

Topics vary from year to year depending on the instructor. Consult timetable for current offering information.

### NEW398Y0 - Research Excursion

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities...>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science, Humanities

### NEW471H1 - Interdisciplinary Special Topics

**Hours:** 24S

Topics vary from year to year depending on the instructor.

**Distribution Requirements:** Humanities

## Interdisciplinary Courses in Jungian Theory

### NEW302Y1 - C.G. Jung: Stories, Patterns, Symbols

**Hours:** 48L/24S

Impact of Jung's analytical psychology, critical methodology and interpretative practice on issues in religion, anthropology, art and literature, popular culture, gender studies and postmodernist critique. Theoretical studies include traditional Jungian and contemporary post-Jungian texts together with feminist and non-Jungian sources.

**Prerequisite:** 4.0 credits, at least 1.0 of which should be in the HUM/BR=1/2

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1), Thought, Belief and Behaviour (2)

### NEW303H1 - Hypotheses of the Unconscious

**Hours:** 12L/12S

Current discussions of the hypotheses, starting with Freud's and Jung's hypotheses, especially Jung's collective unconscious; critical examination through retrospective analysis of the evolution and development of the concept in works from philosophy, psychology, poetry, ethnology, science and popular culture that anticipated, influenced or were influenced by the work of Freud and Jung, post-Freudians and post-Jungians.

**Prerequisite:** 4.0 credits, at least 1.0 of which should be in the HUM/BR=1/2

**Recommended Preparation:** [NEW302Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### NEW402Y1 - Advanced Special Topics in Jungian Theory

**Hours:** 48S

Topics vary from year to year, depending on the interests of students and instructors.

**Prerequisite:** Permission of instructor

**Distribution Requirements:** Humanities

### NEW403H1 - Advanced Special Topics in Jungian Theory

**Hours:** 24S

Topics vary from year to year depending on the interests of students and instructors.

**Prerequisite:** Permission of instructor

**Distribution Requirements:** Humanities

## International Foundation Program Courses

### UTP100H1 - Themes in World History

**Hours:** 24L

Surveys the development of human societies from their origins to the present. Topics may include the environment, cultural development and interaction, the creation and nature of belief systems, political, economic and social structures, gender relations, and the relationship between global patterns and local development. Restricted to students enrolled in the UTPrep program.

**Exclusion:** IFP100H1/IFP100Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

### IFP100Y1 - Themes in World History

**Hours:** 48L/36T

Surveys the development of human societies from their origins to the present using examples from across the world. Topics may include the environment, cultural development and interaction, the creation and nature of belief systems, political, economic and social structures, gender relations, and the relationship between global patterns and local developments. Enrolment is restricted to students registered in the International Foundation Program. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3), Thought, Belief and Behaviour (2)

### IFP100H1 - Themes in World History

**Hours:** 24L

Surveys the development of human societies from their origins to the present. Topics may include the environment, cultural development and interaction, the creation and nature of belief systems, political, economic and social structures, gender relations, and the relationship between global patterns and local development. Restricted to students enrolled in the summer offering of the International Foundation Program (IFP). Not eligible for CR/NCR option.

**Exclusion:** IFP100Y1/UTP100H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## Faculty List

### Professors Emeriti

M.C. Archer, MA, Ph D, D Sc  
 W.R. Bruce, MD, Ph D  
 G.E. Eyssen, M Sc, PhD  
 C.E. Greenwood, M Sc, Ph D  
 K.N. Jeejeebhoy, Ph D  
 M. Kronl, Ph D  
 P.B. Pencharz, MB, ChB, Ph D, FRCPC  
 A.V. Rao, M Sc, Ph D  
 L.U. Thompson, M Sc, Ph D  
 T.M.S. Wolever, MA, BM, BCh, M Sc, Ph D

### Chair

D.L. O'Connor, Ph D, RD

### Professors

G.H. Anderson, M Sc, Ph D  
 R.P. Bazinet, Ph D  
 A. El-Sohemy, Ph D  
 A.J. Hanley, Ph D  
 D.J.A. Jenkins, MA, DM, D Phil, D Sc  
 M.R. L'Abbé, Ph D  
 V. Tarasuk, Ph D  
 V. Vuksan, M Sc, D Sc

### Associate Professors

E.M. Comelli, Ph D  
 J. Sievenpiper MD, Ph D, FRCPC

### Associate Professor, Teaching Stream

D. Gurfinkel, PhD

### Assistant Professors

J. Beaudry, PhD  
 V. Malik, ScD

## Introduction

Nutritional Sciences represents an exciting and challenging area of study of a truly interdisciplinary nature. Understanding of the impact of nutrition on health and its role in disease is based upon a knowledge of the metabolic processes involved (nutrient requirements and utilization, food additive metabolism and safety), of the chemistry of foods (food preservation, food production) and of social and behavioural factors (determinants of food selection). Thus, in this program, the physical, biological and social sciences are integrated in consideration of the national and international goals of achieving optimal health through proper nutrition.

Most career opportunities in Nutritional Sciences require training beyond the undergraduate level. The Major Program provides excellent preparation for entry into postgraduate studies in nutrition research or for a professional faculty such as Medicine and Dentistry.

Please note that this Department does not offer an undergraduate dietetics program. Students interested in this qualification should contact Dietitians of Canada for information ([www.dietitians.ca](http://www.dietitians.ca)).

Students interested in applying to the MPH: Nutrition and Dietetics Program, through the Dalla Lana School of Public Health, are advised to contact the program director during their second year of undergraduate studies.

Undergraduate Coordinator:  
 Dr. Ahmed El-Sohemy

Enquiries:  
 Medical Sciences Building, 5th Floor, Room 5255 (416-978-2747)

## Nutritional Sciences Programs

### Nutritional Sciences Major (Science Program) - ASMAJ1068

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade/Grade Average*

A minimum grade average in required courses or their equivalents is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

- [BIO120H1](#), [BIO130H1](#)
- ( [CHM135H1](#), [CHM136H1](#) ) / ( [CHM138H1](#), [CHM139H1](#) ) / [CHM151Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 60% in each course, or a final grade average lower than 70% in these required courses will not be considered for admission. Please note that obtaining this minimum grade average does not guarantee admission to the program. The underlying numeric final mark in each of your courses required for program enrolment will be used by the relevant academic unit to determine your eligibility.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [dns.admin@utoronto.ca](mailto:dns.admin@utoronto.ca), specify which program you would like to be considered for, and provide your student number.

Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment.

### Completion Requirements:

First Year:  
( [BIO120H1](#), [BIO130H1](#)); ( [CHM135H1](#), [CHM136H1](#))/( [CHM138H1](#), [CHM139H1](#))/ [CHM151Y1](#)

## Nutritional Sciences Courses

### NFS284H1 - Basic Human Nutrition

**Hours:** 36L

An introductory course to provide the fundamentals of human nutrition to enable students to understand and think critically about the complex interrelationships between food, nutrition, health and the environment.

**Exclusion:** HLTB11H3

**Recommended Preparation:** ( [BIO120H1](#), [BIO130H1](#))/ [BIO150Y1](#); ( [CHM138H1](#), [CHM139H1](#))/( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### NFS301H1 - Nutrition Literacy: Sorting Science from Snake Oil

**Hours:** 36L

This course will help students learn how to recognize the strengths and limitations of various nutrition research methods, find reliable nutrition information on the Internet and develop systematic thinking skills to critically evaluate the quality of nutrition information in both the scientific literature and popular media.

**Prerequisite:** [NFS284H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

Second Year:

[NFS284H1](#); [BCH210H1](#); ( [STA220H1](#), [STA221H1](#))/( [PSY201H1](#), [PSY202H1](#))

Third Year:

( [PSL300H1](#), [PSL301H1](#))/ [PSL302Y1](#); [CSB349H1](#)/ [PSL350H1](#)/ [BCH311H1](#); any two of: [NFS382H1](#), [NFS386H1](#), [NFS301H1](#); [NFS302H1](#); [NFS394Y1](#)

Fourth Year:

Any three of: [NFS400H1](#), [NFS484H1](#), [NFS485H1](#), [NFS486H1](#), [NFS487H1](#), [NFS488H1](#), [NFS489H1](#), [NFS490H1](#), [NFS494Y1](#)

### NFS302H1 - Nutrition, Athletics, Performance and Behaviour

**Hours:** 36L

This course will give an overview of the emerging and advancing role of chronic diet and supplements in athletics, performance and behavior.

**Prerequisite:** [NFS284H1](#)

**Exclusion:** [KPE328H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### NFS382H1 - Vitamin and Mineral Metabolism Throughout the Life Cycle

**Hours:** 36L

Micronutrients are essential for health throughout the life cycle. This course examines the role of micronutrients during development and ageing with some emphasis on disease prevention and pathogenesis. Students develop critical appraisal skills, an understanding of the principles of study design and learn to write in a scientific style.

**Prerequisite:** [NFS284H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NFS386H1 - Food Chemistry

**Hours:** 36L

Structure, composition and chemical and biochemical reactions in foods during postharvest/postmortem, processing, storage and utilization. Implications for organoleptic properties, nutritional value, toxicity and human health.

**Prerequisite:** [CHM138H1](#)/ [CHM139H1](#)/ [CHM135H1](#)/  
[CHM136H1](#)

**Recommended Preparation:** [NFS284H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NFS394Y1 - Research Course in Nutritional Science

**Hours:** 144P

Research experience under the supervision of a Departmental staff member. The course entails designing and carrying out a small research project and the preparation and presentation of both a research proposal and a final report. Note that the research project NFS394Y1 requires the prior consent of a staff member who will supervise the project and departmental approval before enrolment. The student is responsible for locating a supervisor. Not eligible for CR/NCR option.

**Prerequisite:** [NFS284H1](#), Permission of Department and Project Supervisor

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NFS400H1 - Functional Foods and Nutraceuticals in Human Nutrition

**Hours:** 36L

This course will demonstrate the rationale, including health benefits, development and marketing of functional foods and nutraceuticals.

**Prerequisite:** [BCH210H1](#), [NFS284H1](#), ([PSL300H1](#),  
[PSL301H1](#))/[PSL302Y1](#)

**Recommended Preparation:**

[CSB349H1](#)/[PSL350H1](#)/[BCH311H1](#), [NFS386H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NFS484H1 - Advanced Nutrition

**Hours:** 24L/12T

Physiological and biochemical features of nutrient needs. The roles of nutrients in the development and adaptability of the whole body, organs and cells. Interpretation of current research data.

**Prerequisite:** [BCH210H1](#),  
[CSB349H1](#)/[PSL350H1](#)/[BCH311H1](#), [NFS284H1](#),  
([PSL300H1](#), [PSL301H1](#))/[PSL302Y1](#), ([STA220H1](#),  
[STA221H1](#)/[JBS229H1](#)) or permission of instructor

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NFS485H1 - Diet, Microbiome & Health

**Hours:** 36L

Provides an integrated approach to how prokaryotes modulate nutrient availability and how they interact with the host to impact human health from a molecular perspective.

**Prerequisite:** [BCH210H1](#),  
[CSB349H1](#)/[PSL350H1](#)/[BCH311H1](#)/[MGY311Y1](#),  
[NFS284H1](#), ([PSL300H1](#), [PSL301H1](#))/[PSL302Y1](#) or  
permission of the instructor

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NFS486H1 - Obesity: Metabolic and Clinical Aspects

**Hours:** 36L

Obesity and its co-morbidities illustrated with pathophysiological and biochemical principles and clinical case studies.

**Prerequisite:** [BCH210H1](#), [NFS284H1](#), ([PSL300H1](#),  
[PSL301H1](#))/[PSL302Y1](#)

**Recommended Preparation:** [CSB349H1](#)/ [PSL350H1](#)/  
[BCH311H1](#), ([STA220H1](#), [STA221H1](#))

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NFS487H1 - Nutrigenomics and Personalized Nutrition

**Hours:** 36L

The impact of the human genome on nutrition research. Experimental approaches to investigating gene-diet interactions. Understanding how genetic variability affects nutrient response, and how dietary factors regulate gene expression. Application of the various 'omics' technologies to nutrition research as well as exploring the social, legal and ethical issues associated with direct-to-consumer marketing of genetic tests for personalized nutrition.

**Prerequisite:** NFS284H1, CSB349H1/PSL350H1/BCH311H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NFS488H1 - Nutritional Toxicology

**Hours:** 36L

Occurrence, mechanism of action, safety and health implications of chemicals naturally present in or added to foods. Interactions of nutrients and toxicants and the effects on their metabolism and utilization. Food safety evaluation and regulatory control.

**Prerequisite:** BCH210H1, NFS284H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NFS489H1 - Nutritional Neurosciences

**Hours:** 36L

This course provides an integrated approach to how brain function regulates and in turn is regulated by nutrition from a biochemical perspective.

**Prerequisite:** BCH210H1, BCH311H1/CSB349H1/PSL350H1, NFS284H1, PSL302Y1/(PSL300H1, PSL301H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## NFS490H1 - International and Community Nutrition

**Hours:** 36L

This course focuses on current issues in international and community nutrition including global and domestic food security, micronutrient deficiencies and other forms of undernutrition, maternal and infant/child nutrition, dietary guidance, and food and nutrition policy. The course will consider the environmental, sociopolitical, cultural and biosocial contexts of nutrition.

**Prerequisite:** NFS284H1

**Recommended Preparation:**

GGR107Y1/POL103Y1/SOC101Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## NFS494Y1 - Research Projects in Nutritional Sciences

**Hours:** 144P

Research experience under the supervision of a Departmental staff member. The course entails designing and carrying out a small research project and the preparation and presentation of both a research proposal and a final report. Note that the research project NFS494Y1 requires the prior consent of a staff member who will supervise the project and departmental approval before enrolment. The student is responsible for locating a supervisor. Not eligible for CR/NCR option.

**Prerequisite:** NFS284H1, Permission of Department and Project Supervisor

**Distribution Requirements:** Science

# Peace, Conflict and Justice

## Faculty List

### Associate Professors

Courtney Jung, MA, PhD (George Ignatieff Chair of Peace and Conflict Studies)

Nancy Bertoldi, MEd, MA, PhD (on leave for 2021-2022)

Teresa Kramarz, MA, MSc, PhD

### Assistant Professor

Paola Salardi, BA, MA, PhD

## Introduction

The Trudeau Centre for Peace, Conflict and Justice administers the program in Peace, Conflict and Justice at the Munk School of Global Affairs & Public Policy.

The Peace, Conflict and Justice program provides undergraduates with an interdisciplinary education covering three central pillars: the meanings and causes of conflict, peace, and justice; the lived experiences of living in the context of conflict and struggles for peace and justice; and approaches to resolving conflict and producing peace and/or justice. The topics of study are wide-ranging, including the study of peacemaking and peace-building, interstate war and intrastate conflicts, insurgencies, revolutions and rebellions, ethnic strife, global justice, and negotiation theory. In doing so, we address some of the world's most urgent humanitarian problems, and train students to deeply analyze these issues across several levels of analysis, from the local through the national and the global. Students interested in this program are strongly encouraged to consider pursuing a double major in related fields, especially International Relations. Other related fields include: Economics, Political Science, Sociology, Psychology, Anthropology, Geography, History, Diaspora and Transnational Studies, Ethics, Society and Law and Women and Gender Studies

## Peace, Conflict and Justice Programs

### Peace, Conflict and Justice Specialist (Arts Program) - ASSPE1228

#### Enrolment Requirements:

This is a limited enrollment program that can only accommodate a limited number of students. Admission is determined by a range of criteria, including at the initial stage a student's academic background, a statement of interest in the program, and as a later stage of the process, a personal interview on invitation of the Program Director. In the past, enrollment in Peace, Conflict and Justice has proven to be extremely competitive across all these dimensions, and an applicant's success in any one of these dimensions does not necessarily guarantee admission to the program in any given year.

#### Completion Requirements:

(12.0 credits, including at least 1.0 credit at the 400-level)

1. ( ECO101H1+ ECO102H1)/ ECO105Y1/ HIS103Y1, ( PSY100H1+ PSY220H1)/ ( SOC100H1+ SOC150H1), POL208H1, 0.5 credit in quantitative methods from one of the following courses: ECO220Y1, EEB125H1, GGR270H1, GGR274H1, POL222H1, PSY201H1, PSY202H1, SOC202H1, STA201H1, STA220H1, STA221H1, or an appropriate substitution on the approval of the Program Director.

Except for POL208H1, substitutions may be permitted for other introductory courses in relevant disciplines, based on a student's rationale and on approval of the Program Director.

2. PCJ260Y1, PCJ360H1, PCJ362H1, PCJ460H1, PCJ461H1

3. 3.0 credits from one of Groups A, B, C, D, E or F (below), or substitutions with a rationale that must be approved by the Program Director. Students may substitute from different disciplines or with different courses from within these disciplines. At least 1.0 credit must be at the 300+ level.

4. 3.0 complementary credits with either a disciplinary, regional, or thematic focus relevant to Peace, Conflict and Justice (on approval of the Director, based on the needs

of students interdisciplinary programs of study). At least 2.0 credits must be at the 300+ level. Up to 1.0 credits of MUN courses may be used to fulfill this requirement, subject to approval by the Director.

*Disciplinary focus:*

3.0 credits from one of ANT, ECO, GGR and Environmental Studies (combined), HIS, PHL, POL, PSY, RLG, SLA, SOC, or from other units with a rationale approved by the Program Director.

(Note: The disciplinary focus in this cluster must be different from the discipline chosen in requirement 3. For instance, HIS is excluded for students who have taken 3.0 HIS credits to meet requirement 3; POL is excluded for students who have taken 3.0 POL credits, etc.)

*Regional Studies focus:*

3.0 credits on, for example, Canada, Southern Africa, the Middle East, Latin America, or the Slavic countries.

*Thematic focus:*

3.0 credits on a thematic topic proposed by the student and approved by the Program Director. Examples include negotiation and conflict resolution, diplomatic history, gender and conflict, morality of war, quantitative analysis, group-identity conflict, economic development and conflict, literature, culture, and everyday life of conflict, or environmental change and conflict.

SOC495H1, SOC498H1

Note: Effective Fall 2021, courses associated with New College's African Studies, Caribbean Studies, and Critical Studies in Equity and Solidarity programs will have the new "AFR," "CAR," and "CSE" designators respectively.

# Peace, Conflict and Justice Major (Arts Program) - ASMAJ1228

## Enrolment Requirements:

While we welcome students with diverse experiences, this is a limited enrollment program that can accommodate a limited number of students. Admission is determined by a range of criteria, including at the initial stage a student's academic background, a short essay, a writing sample, a resume, and as a later stage of the process, a personal interview on invitation of the Program Director. In the past, enrollment in Peace, Conflict and Justice has proven to be extremely competitive across all of these dimensions, and an applicant's success in any one of these dimensions does not necessarily guarantee admission to the program in any given year. While it is not a prerequisite for program admission, students in their first year who are interested in the program in Peace, Conflict and Justice are advised to take three introductory courses in History, Economics, Psychology, Sociology and/or Political Science (courses listed in Cluster 1 for the major and specialist).

## Completion Requirements:

(7.5 credits)

## Peace, Conflict and Justice Courses

### PCJ260Y1 - Introduction to Peace and Conflict Studies

**Previous Course Number:** PCS260Y1, UNI110Y1,  
UNI260Y1

**Hours:** 48L/24S

The course reviews theories exploring the causes of conflict, the possibilities for the pursuit of peace, and the role of justice in both. Drawing on a wide range of disciplines and perspectives, including political science, psychology, sociobiology, economics, and religion, it offers an introduction to diverse approaches to conflict resolution and peace-building. After examining the role of individual characteristics, social group dynamics, and structural processes in generating conflict, the course interrogates different conceptions of peace and justice as well as the dilemmas involved in pursuing them in practice. Case studies and examples are used to help students apply the conceptual tools they acquire to prominent world conflicts.

1. ( ECO101H1+ ECO102H1)/ ECO105Y1/ HIS103Y1, ( PSY100H1+ PSY220H1)/ ( SOC100H1+ SOC150H1), POL208H1, 0.5 credit in quantitative methods from one of the following courses: ECO220Y1, EEB125H1, GGR270H1, GGR274H1, POL222H1, PSY201H1, PSY202H1, SOC202H1, STA201H1, STA220H1, STA221H1, or an appropriate substitution on the approval of the Program Director.

Except for POL208H1, substitutions may be permitted for other introductory courses in relevant disciplines, based on a student's rationale and on approval of the Program Director.

2. PCJ260Y1, PCJ360H1, PCJ362H1, PCJ460H1

3. 2.0 credits of complementary courses, at least 1.0 credit of which must be at the 300+ level, from: CRI429H1, ECO200Y1, ECO202Y1, ECO220Y1, GGR240H1, GGR241H1, GGR419H1, HIS241H1, HIS242H1, HIS401H1, JPR364Y1, MUN101H1/ MUN102H1, PHL378H1, POL201Y1, POL326Y1, POL340Y1, POL345Y1, PHL373H1, POL412H1, POL417Y1, POL459Y1, PSY220H1, PSY270H1, PSY322H1, RLG280Y1, RLG309H1, SOC210H1, SOC260H1, SOC249H1, SOC367H1 or alternative courses on the approval of the Program Director, based on the needs of students interdisciplinary programs of study.

**Prerequisite:** Only for current PCJ program students in second year and higher/permission of the Program Director

**Exclusion:** PCS260Y1, UNI110Y1, UNI260Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### PCJ299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

### PCJ360H1 - Topics in Peace, Conflict and Justice

**Hours:** 24L

This course explores selected issues in the field of peace, conflict and justice. Topics may vary from year to year. Through a suite of recent readings, students will strive to

critically examine implications and challenges of, and solutions to the issues being studied. Please visit the [Trudeau Centre for Peace, Conflict and Justice website](#) for current offering information.

**Prerequisite:** [PCJ260Y1](#) or permission of the Program Director.

**Exclusion:** [PCS360Y1](#), [UNI360Y1](#)

**Recommended Preparation:** [POL208H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## PCJ361H1 - Special Topics in Peace, Conflict and Justice Studies

**Hours:** 24S

An exploration of selected issues in the field of Peace, Conflict and Justice involving an overseas and/or practicum component.

**Exclusion:** [PCS361H1](#), [UNI361Y1](#)

**Recommended Preparation:** [POL208Y1](#)

**Distribution Requirements:** Social Science

## PCJ361Y1 - Special Topics in Peace and Conflict Studies

**Previous Course Number:** PCS361Y1, UNI361Y1

**Hours:** 48S

An exploration of selected issues in the field of Peace, Conflict and Justice involving an overseas and/or practicum component.

**Prerequisite:** [PCJ260Y1](#) or permission from the Program Director

**Exclusion:** [PCS361H1](#), [PCS361Y1](#), [UNI361Y1](#)

**Recommended Preparation:** [POL208Y1](#)/[POL208H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## PCJ362H1 - Service Learning

**Hours:** 24S

Students are given a service learning placement in the GTA in partnership with local, national, or international not-for-profits or governmental organizations. Students work in teams of 2-7 students, and help partner organizations solve important problems. Student teams mostly work independently of the organization, while receiving some mentoring, critique, and advice from the organizations. Students are expected to invest 5-7 hours per week in course projects, in addition to class time. In

this non-competitive course, students are asked to engage in deep personal reflection, help teammates, advise other teams, and contribute their skills and talents to their community partners. The course will emphasize how groups work to achieve community goals, how grassroots politics works, the power of social capital, and how these topics link to questions of conflict resolution, brokering peace, and achieving justice.

**Prerequisite:** [PCJ260Y1](#)

**Exclusion:** [PCJ361H1](#), [PCJ363H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## PCJ363H1 - Study Abroad Module

**[This course will not be offered in 2021-22]**

Using Quercus, Skype, and email, students meet weekly in a virtual class that will assign readings, provide written assignments, and require a final assignment. Students are asked to situate their training from the PCJ program within the context of their academic study abroad experiences, though they may also have the opportunity to reflect on volunteer, activist, and social experiences. In written assignments, students are required to reflect on how their thinking has been influenced by their study abroad experiences, what they will do with their new perspectives upon returning to the University of Toronto, and how these affect how they think about peace, conflict, and justice.

**Prerequisite:** [PCJ260Y1](#)

**Exclusion:** [PCJ361H1](#), [PCJ362H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## PCJ399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

## PCJ444H1 - Special Topics in Peace and Conflict Studies

**Previous Course Number:** PCS444H1

Topics vary annually. The objective of the course is to explore emerging issues in Peace and Conflict Studies. The focus of the course will be on a specific topic, rather than a broad survey of the field.

**Prerequisite:** [PCJ260Y1](#), [PCJ360Y1](#) or permission of the instructor

**Exclusion:** [PCS444H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## PCJ460H1 - Advanced Topics in Peace, Conflict and Justice

**Previous Course Number:** PCS460H1, UNI460H1

**Hours:** 24S

This course explores selected issues in the field of peace, conflict and justice. Topics may vary from year to year. Through a suite of recent readings, students will strive to critically examine implications and challenges of, and solutions to the issues being studied. This course is restricted to students enrolled in the Peace, Conflict and Justice Major or Specialist programs. Please visit the [Trudeau Centre for Peace, Conflict and Justice website](#) for current offering information.

**Prerequisite:** [PCJ360H1](#) and [PCJ362H1](#), or permission of the Program Director

**Exclusion:** [PCS460H1](#), [PCS460Y1](#), [UNI460H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## PCJ461H1 - Research Methods in Peace, Conflict and Justice

**Previous Course Number:** PCS461H1, UNI460Y1

**Hours:** 48S

This course guides each student through their own individual research project, embedded in an interactive group learning process, in order to offer an applied introduction to research methods for peace, conflict and justice studies. Students work through the full research process, including: identifying a research question, learning how to conduct effective literature reviews, developing a rigorous research design, and applying quantitative and qualitative methods to answering questions. Rather than conducting research independently or studying research methods in isolation, the course combines the two: students learn collectively about the different steps in the research process while simultaneously applying those steps to their own research project. This is then complemented by presenting that research and discussing different research projects in class, so as to receive continuous feedback and be exposed to a variety of research methods and approaches.

**Prerequisite:** Enrolment restricted to students enrolled in the Peace, Conflict and Justice Specialist program

**Corequisite:** [PCJ460H1](#)

**Exclusion:** [PCS460Y1](#), [PCS461H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## PCJ499H1 - Peace and Conflict Studies Independent Study Course

**Previous Course Number:** PCS499H1

This course is designed to provide students with the opportunity to explore topics not covered in the curriculum, or to develop a more detailed focus on topics covered. Approval of the program director is required. The student must obtain written agreement of the instructor who will supervise the independent study, submit the proposal to and obtain approval from the director and program administrator, who will then add the student to the course. Not eligible for CR/NCR option.

Applications are due two weeks before course enrollment deadlines for each semester.

**Prerequisite:** [PCJ260Y1](#)

**Exclusion:** [PCS499H1](#)

**Recommended Preparation:** For students enrolled in the Peace, Conflict and Justice Major or Specialist program.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## PCJ499Y1 - Peace and Conflict Studies Independent Study Course

This course is designed to provide students with the opportunity to explore topics not covered in the curriculum, or to develop a more detailed focus on topics covered. Approval of the program director is required. The student must obtain written agreement of the instructor who will supervise the independent study, submit the proposal to and obtain approval from the director and program administrator, who will then add the student to the course. Not eligible for CR/NCR option.

Applications are due two weeks before course enrollment deadlines for each semester.

**Prerequisite:** [PCJ260Y1](#)

**Exclusion:** [PCS499H1](#)

**Recommended Preparation:** For students enrolled in the Peace, Conflict and Justice Major or Specialist program.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

# Pharmaceutical Chemistry

## Collaborative Program of the Faculty of Arts & Science and the Leslie Dan Faculty of Pharmacy

Pharmaceutical Chemistry combines knowledge of the biological, medical, and physical sciences in the study of drug therapy. The emphasis is on the chemical nature of the reactions and interactions involved in drug therapy. The students will receive a solid background in the facets of chemistry the most relevant to drugs: physical, organic, and analytical chemistry. They will also learn the fundamental aspects of the synthesis, manufacture, use, and mode of action of drugs.

Undergraduate Office – General Enquiries: Nicole Treston, (416-978-6033), [chem.undergrad@utoronto.ca](mailto:chem.undergrad@utoronto.ca)

Program Director: Dr. David Dubins, (416-976-5303), [d.dubins@utoronto.ca](mailto:d.dubins@utoronto.ca)

## Regarding Pharmaceutical Chemistry Programs

Pharmaceutical Chemistry combines knowledge of the biological, medical and physical sciences in the study of the scientific aspect of drug therapy. The emphasis is on the chemical nature of the reactions and interactions involved in drug therapy.

This program is offered jointly by the Leslie Dan Faculty of Pharmacy and the Faculty of Arts and Science. Students in the Pharmaceutical Chemistry Specialist program will receive a solid background in physical, organic and analytical chemistry, and will also learn the fundamental aspects of the synthesis, manufacture, use, and mode of action of drugs. The fourth-year project course gives students direct involvement in research.

We also offer an internship in which qualified students may spend 12 or 16 months working at a pharmaceutical company or research lab. This is a project-based, paid employment placement that takes place between the third and fourth years of undergraduate study. It provides the student with an opportunity to apply the knowledge acquired in the first three years of university to private- or public-sector settings. Placements are available in pharmaceutical and biotechnology companies, university research labs, university-affiliated organizations, or

government research agencies. *Note:* September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for the PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

## Arts & Science Internship Program

The new Arts & Science Internship Program (ASIP) stream is available to students entering their second year of study in Fall 2021 and enrolled in the Pharmaceutical Chemistry Specialist.

- Enrolment is limited and requires a supplemental application. Students enrolled in the ASIP stream will be required to complete mandatory Professional Development programming plus a minimum of 12 and maximum of 20 months of paid, full-time work experience. The time to degree completion for students enrolled in ASIP will normally be 5 years. There is an additional cost to participate in the ASIP stream.
- Students will typically be admitted to the ASIP stream for the Fall term of Year 2 of study, however starting in Fall 2022, in exceptional circumstances students, including transfer students, who enrolled in an eligible program in the Summer after Year 2 can be admitted to the ASIP stream for the Fall of Year 3. Year 3 entry into the program requires prior approval of the Associate Chair, Undergraduate or their designate and the Experiential Learning & Outreach Support (ELOS) Office.
- Further details about ASIP, including eligibility requirements and application procedures, can be found here. Students may also visit the ASIP webpage or contact the ELOS office at [asip@utoronto.ca](mailto:asip@utoronto.ca).

## Pharmaceutical Chemistry Programs

### Pharmaceutical Chemistry Specialist (Science Program) - ASSPE1211

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade Average*

A minimum grade average is needed for entry, and this minimum changes each year depending on available

spaces and the number of applicants. The following courses must be completed:

- BIO120H1 and BIO130H1
- ( CHM135H1 and CHM136H1)/ CHM151Y1
- ( PHY131H1 and PHY132H1)/ ( PHY151H1 and PHY152H1 )

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 60%, or a grade average lower than 70% will not be considered for admission. Please note that obtaining this minimum final grade or minimum grade average does not guarantee admission to the program.

### Completion Requirements:

(13.0 credits, including 1.0 credit from 400-level courses)

NOTE: Some of the courses listed below may have prerequisites.

First Year:

1. BIO120H1, BIO130H1
2. ( CHM135H1 and CHM136H1)/ CHM151Y1
3. ( PHY131H1 and PHY132H1)/ ( PHY151H1 and PHY152H1 )

Second Year:

1. BCH210H1
2. BIO230H1
3. CHM220H1/ CHM222H1, CHM223H1, CHM247H1/ CHM249H1
4. PCL201H1
5. PHC230H1

## Pharmaceutical Chemistry Courses

### PHC230H1 - Pharmaceutics 1

Hours: 36L/12T

An introduction to the key concepts in the design, manufacture, and use of efficacious dosage forms. The course covers the characteristics of different delivery routes.

**Prerequisite:** ( CHM135H1, CHM136H1)/ ( CHM138H1, CHM139H1)/ CHM151Y1; CHM220H1/ CHM222H1

**Exclusion:** PHM141H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

Third Year:

1. CHM217H1
2. PHC300H1, PHC301H1, PHC320H1, PHC330H1, PHC340Y1

Fourth Year:

1. PHC489Y1/ CHM499Y1
2. 2.0 credits from: CHM317H1, CHM342H1, CHM347H1, CHM379H1, CHM410H1, CHM414H1, CHM417H1, CHM427H1, CHM440H1, JPM300H1, JPM400Y1, PCL362H1, PCL486H1, PHC331H1, PHC401H1, PHC420H1, PHC421H1, PHC430H1, PHC431H1, PHC432H1, PHC435H1, PHC460H1, PHC462H1, PHC470H1, PSL300H1, PSL301H1

Note that not all of the 400-level PHC courses are offered every academic year.

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

### PHC300H1 - Molecular Pharmacology 1

Hours: 24L/12T

Structural and mechanistic determinants of drug action at the molecular level. Topics include the physical-chemical properties of drugs per se as they relate to therapeutic intervention and the biophysical and biochemical properties of enzymes and nucleic acids that underlie and are affected by their interactions with drugs.

**Prerequisite:** ( CHM135H1, CHM136H1)/ ( CHM138H1, CHM139H1)/ CHM151Y1; CHM220H1/ CHM222H1

**Exclusion:** PCL302H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC301H1 - Molecular Pharmacology 2

Hours: 36L/12T

Structural and mechanistic determinants of drug action via macromolecules that effect cellular signalling. Neurohumoral receptors and other signalling proteins are grouped according to their structure and mechanism of action. Native properties and their modulation by drugs are discussed in the context of basic principles of molecular pharmacology.

**Prerequisite:** (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; CHM220H1/CHM222H1; BCH210H1

**Exclusion:** PCL302H1, PHM140H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC320H1 - Medicinal Chemistry

Hours: 36L

Modern discovery and synthesis of antibiotics, antineoplastics, antiviral and other therapeutic agents.

**Prerequisite:** BCH210H1, CHM247H1/CHM249H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC330H1 - Pharmaceutics 2

Hours: 36L/12T

This course presents a detailed examination of the material properties of pharmaceuticals and the role of cellular processes in delivery of a drug to its site of action.

**Prerequisite:** (CHM135H1, CHM136H1)/(CHM138H1, CHM139H1)/CHM151Y1; CHM220H1/CHM222H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC331H1 - Establishing the Bioequivalence of Pharmaceutical Products

Hours: 48L

Introduction to human clinical trial design for the demonstration of pharmaceutical bioequivalence of drug products. Students will learn the principles underlying the regulations and methods employed in bioequivalence studies.

**Prerequisite:** BCH210H1, CHM247H1/CHM249H1, (MAT135H1, MAT136H1)/MAT137Y1, PHC230H1, PHC330H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC340Y1 - Pharmaceutical Chemistry Laboratory

Hours: 24L/96P

The scientific basis and practical techniques relevant to modern pharmaceutical development. This course is restricted to Pharmaceutical Chemistry Specialist program students.

**Prerequisite:** CHM247H1/CHM249H1; (CHM220H1/CHM222H1), CHM223H1; BCH210H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC401H1 - Drug Transport across Biological Membranes

Hours: 24L

The goal of this course is to provide students with knowledge of the molecular processes involved in drug transport across biological cell membranes with emphasis on their physiological and clinical significance. This course is restricted to Pharmaceutical Chemistry Specialist program students.

**Prerequisite:** PHC301H1, and enrolled as a Year 4 student in the Pharmaceutical Chemistry specialist program.

**Corequisite:** PHC300H1

**Exclusion:** JFK1122H

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC420H1 - Application of Medicinal Chemistry to Pharmacology

Hours: 24L

This course shows students the links between basic science and the drugs used therapeutically to treat clinical problems. This course is restricted to Pharmaceutical Chemistry specialist program students.

**Prerequisite:** [PHC301H1](#), [PHC320H1](#), and enrolled as a Year 4 student in the Pharmaceutical Chemistry specialist program.

**Exclusion:** [PHM240H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC421H1 - Biomolecular Interactions and Thermodynamics I

**Hours:** 36L

This course will consider many of the topics presented in the first half in much greater detail including a rigorous examination of the interpretation of experimental data. This course is intended for students whose research or interest is in the thermodynamics of biological molecules. This course is restricted to Pharmaceutical Chemistry specialist program students.

**Prerequisite:** Enrolled as a Year 4 student in the Pharmaceutical Chemistry specialist program.

**Exclusion:** PHM1130H

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC430H1 - Recent Developments in Dosage Form Design

**Hours:** 24L

Introduction to controlled drug delivery: Mechanisms and kinetics of controlled drug release. Fundamental theories and mathematical tools for the design of modern dosage forms. Development and applications of controlled drug delivery dosage forms. This course is restricted to Pharmaceutical Chemistry specialist program students.

**Prerequisite:** Enrolled as a Year 4 student in the Pharmaceutical Chemistry specialist program.

**Exclusion:** [PHM324H1](#), [PHM1109H](#)

**Recommended Preparation:** [PHC230H1](#), [PHC330H1](#), [PHC340Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC431H1 - Selected Topics in Drug Development

**Hours:** 24L

In-depth discussion of implementation of pharmaceutical sciences in drug development strategies. Students will apply fundamental principles of pharmaceutics and drug delivery to current problems in the pharmaceutical industry. This course is restricted to Pharmaceutical Chemistry specialist program students.

**Prerequisite:** Enrolled as a Year 4 student in the Pharmaceutical Chemistry specialist program.

**Exclusion:** JFK1120H

**Recommended Preparation:** [PHC230H1](#), [PHC330H1](#), [PHC340Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC432H1 - Nanomedicines in Oncology

**Hours:** 24L

This course covers a range of topics that pertain to the development and application of nanomedicines in oncology. Students will gain an understanding of the biological barriers to drug delivery in oncology as well as the tremendous heterogeneity in cancer and the challenge this presents for treatment. The concepts of passive and active targeting of nanomedicines will be covered with critical assessment of the enhanced permeability and retention effect. A detailed overview of the most advanced nanotechnology-platforms for drug delivery (i.e., liposomes, block copolymer micelles and polymer-drug conjugates) will be provided with additional discussion of new emerging platforms. The integration of imaging in drug development and development of theranostics and therapeutic-diagnostic pairs will also be discussed. Special emphasis on critical evaluation of scientific literature and pre-clinical/clinical studies will be made throughout the course.

**Prerequisite:** [PHC230H1](#), [PHC330H1](#) and enrolled as a Year 4 student in the Pharmaceutical Chemistry specialist program.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC435H1 - Pharmaceutical Data Acquisition and Analysis

**Hours:** 26P

Application and development of devices for the purpose of collecting and analyzing experimental data in pharmaceutical development and manufacture.

**Prerequisite:** BCH210H1, CHM247H1/CHM249H1, (MAT135H1, MAT136H1)/MAT137Y1, PHC340Y1 and enrolled as a Year 4 student in the Pharmaceutical Chemistry specialist program.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHC460H1 - Fundamentals of Drug Discovery

**Hours:** 24L

Lectures by scientists from academia and industry, and student seminars based on journal articles dealing with strategies for discovering new drugs for therapy and diagnosis. This course is restricted to Pharmaceutical Chemistry specialist program students.

**Prerequisite:** BIO120H1, BIO130H1, PHC301H1 and enrolled as a Year 4 student in the Pharmaceutical Chemistry program.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PHC462H1 - Clinical Drug Development

**Hours:** 24L

This course is designed to broaden student's understanding of the development and licensing of new drugs and how scientific principles, ethics, governmental regulations and commercial considerations are coordinated for designing clinical trials. The format involves lectures, group discussion and student presentations. This course is restricted to Pharmaceutical Chemistry specialist program students.

**Prerequisite:** PHC230H1, PHC301H1, PHC340Y1 and enrolled as a Year 4 student in the Pharmaceutical Chemistry specialist program.

**Exclusion:** JFK1120H

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## PHC470H1 - Global Pharmaceutical Policy

**Hours:** 24L/2T

This course is designed for students who are interested in the critical analysis of global health policy and the interrelationship between global and domestic policy issues. The course will introduce students generally to the basic concepts and issues in global health with a particular focus on pharmaceutical policy. We will address key issues in health and discuss core institutional and transnational actors, how governments in different jurisdictions manage public health responsibilities, the tension between economic imperatives and health objectives, global obligations, and pressure from special interest groups. More narrowly, we will analyze a breadth of complex policies questions. Examples include: the research and development global divide, political issues influences on pharmaceutical policy, how global commitments, such as membership in the World Trade Organization, conflict with or correspond to domestic policy directions and national sovereignty. Guest speakers will lead some sessions. This course will consist of lectures, guest discussions, case studies and student-led presentations. This is restricted to students in the Pharmaceutical Chemistry specialist program.

**Prerequisite:** Enrolled as a Year 4 student in the Pharmaceutical Chemistry specialist program.

**Exclusion:** PHM320H1, PHM1124H

**Breadth Requirements:** Society and its Institutions (3)

## PHC489Y1 - Pharmaceutical Chemistry Research

**Hours:** 165P

This course will provide research experience under the supervision of a Departmental staff member. The goal is to deepen the student's understanding of the scientific basis and practical techniques relevant to modern pharmaceutical development. This course is restricted to Pharmaceutical Chemistry specialist program students. Not eligible for CR/NCR option.

**Prerequisite:** Permission from the Course Coordinator and enrolled as a Year 4 student in the Pharmaceutical Chemistry specialist program.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

 Medical Sciences Building, Room 4219 (416-978-3164)

## Introduction

Pharmacology and Toxicology are integrative biological sciences that examine the properties of chemical compounds and their interactions with living systems. They provide the scientific basis for the study of chemical actions in the health sciences, the use of drugs as therapeutic agents or as tools in scientific research, the development and control of pharmaceutical products, and the investigation and control of pollutants and poisons in natural and social environments. The Department of Pharmacology and Toxicology offers four Specialist and two Major undergraduate programs of study that are jointly sponsored by the Faculties of Arts and Science and Medicine. The Specialist programs have the added benefit of providing students with opportunities to learn advanced laboratory techniques and to gain real-world experience through supervised independent research projects and participation in the Professional Experience Year Co-op or the [Arts & Science Internship Program](#) (see below). Students who intend to pursue graduate research and/or careers in pharmacology or toxicology are encouraged to enrol in a Specialist program because of the opportunities for additional experiential learning.

**Students wishing to enrol in the Biomedical Toxicology Specialist (ASSPE2573) or in the Pharmacology Specialist (ASSPE2082) will initially apply to the Joint Pharmacology and Biomedical Toxicology Specialist (ASSPE2340) at the end of their first year of study. Students wishing to enrol in the Biomedical Toxicology Major (ASMAJ2573) or in the Pharmacology Major (ASMAJ2082) will initially apply to a general departmental Major (ASMAJ2675) at the end of their first year of study and then select the focus for their future studies (Biomedical Toxicology or Pharmacology) prior to the start of the third year of**

## Regarding Pharmacology and Toxicology Programs

### Professional Experience Year Co-op

The Professional Experience Year Co-op (PEY Co-op) program is a 12-16 month paid employment placement within pharmaceutical/biotechnology/chemical companies, university research laboratories, university-affiliated organizations, consulting companies or government research agencies. The PEY Co-op takes place between the 3rd and 4th years of undergraduate study and is open to Specialists in Pharmacology, Biomedical Toxicology and Environment and Toxicology who have a cGPA of at least 3.0. Students who participate in this program agree to return to their Specialist program within the Department to complete their 4th year and degree program as enrolled prior. The PEY Co-op provides an excellent opportunity for real-world experience in drug development, project management, client relations, basic and clinical research, information management and regulatory affairs. Note: September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for the PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the [Arts & Science Internship Program](#) stream.

## Arts & Science Internship Program

The new [Arts & Science Internship Program](#) (ASIP) stream is available to students entering their second year of study in Fall 2021 and enrolled in the Biomedical Toxicology Specialist, Environment & Toxicology Specialist, Pharmacology Specialist, and the Specialist in Pharmacology and Biomedical Toxicology.

- Enrolment is limited and requires a supplemental application. Students enrolled in the ASIP stream will be required to complete mandatory Professional Development programming plus a minimum of 12 and maximum of 20 months of paid, full-time work experience. The time to degree completion for students enrolled in ASIP will normally be 5 years. There is an additional cost to participate in the ASIP stream.
- Students will typically be admitted to the ASIP stream for the Fall term of Year 2 of study, however starting in Fall 2022, in exceptional circumstances students, including transfer students, who enrolled in an eligible program in the Summer after Year 2 can be admitted to the ASIP stream for the Fall of Year 3. Year 3 entry into the program requires prior approval of the Associate Chair, Undergraduate or their designate and the Experiential Learning & Outreach Support (ELOS) Office.
- Further details about ASIP, including eligibility requirements and application procedures, can be found [here](#). Students may also visit the [ASIP webpage](#) or contact the ELOS office at [asip@utoronto.ca](mailto:asip@utoronto.ca).

NOTE: Students cannot combine any MAJOR or SPECIALIST from this program with another MAJOR or SPECIALIST from this program for their degree.

## Pharmacology and Toxicology Programs

### Biomedical Toxicology Specialist (Science Program) - ASSPE2573

Biomedical toxicology has emerged as an important science addressing drug safety and the adverse consequences of chemical exposure. The Biomedical Toxicology Specialist program examines the harmful effects of chemicals on the health and behaviour of individuals and society. The safety/toxicity of a wide array

of chemicals is examined including pharmaceutical preparations, herbal products, natural toxins and environmental contaminants, with a focus on their effects on human health. This program emphasizes the application of toxicological knowledge and risk assessment and prepares students for a variety of job opportunities following its completion as well as for further study in graduate research or professional programs such as Medicine, Dentistry, and Pharmacy. (Note: Students interested in professional programs should contact the respective faculties to inquire about specific transfer credits.) Many graduates of the Biomedical Toxicology Specialist program pursue careers in scientific research, forensic science, nutrition and food sciences, governmental agencies, consulting agencies, and industrial settings including the pharmaceutical and chemical industries. Students learn about basic and clinical toxicology and related areas through lectures, tutorials, laboratories, and independent research projects. The senior research project course enables students to gain valuable research experience while working under the supervision of an individual faculty member in either a laboratory-based or a non-laboratory-based setting.

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 8.0 credits and meet the requirements listed below to enroll. **NOTE:** Students interested in this program should initially apply to the Specialist in Pharmacology & Biomedical Toxicology Program (ASSPE2340) after their first year of study. Students in ASSPE2340 will have the opportunity to move into the Biomedical Toxicology Specialist (ASSPE2573) following their second year of study.

#### *Variable Minimum Grade or Variable Minimum Grade Average*

A minimum grade/minimum grade average in required courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO120H1](#) and [BIO130H1](#)
- ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)
- 1.0 credit from ( [MAT135H1](#) and [MAT136H1](#))/ [MAT137Y1](#)/ [MAT157Y1](#)/ ( [PHY131H1](#) and [PHY132H1](#))/ ( [PHY151H1](#) and [PHY152H1](#) )

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in any of these courses, or a combined grade average lower than 75% in these required courses will not be considered for admission. Please note that obtaining this minimum final grade or minimum grade average does not guarantee admission to the program.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying

through ACORN, students applying in their second year or later are asked to please contact the department directly at [undergrad.pharmtox@utoronto.ca](mailto:undergrad.pharmtox@utoronto.ca), specify which program you would like to be considered for, and provide your student number. Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment.

**Notes:**

- While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = mid 80s; average = mid 80s.
- **Students wishing to enroll in the Biomedical Toxicology Specialist will initially apply to the Joint Specialist in Pharmacology and Biomedical Toxicology (ASSPE2340). After admission, students can then choose to transfer to the Biomedical Toxicology Specialist.** First and second year courses are the same for all Specialist programs within the Department (ASSPE2082/ASSPE2340/ASSPE2573).
- Students cannot combine the Biomedical Toxicology Specialist with either departmental Major programs (Biomedical Toxicology or Pharmacology).
- Students wishing to enroll **after** their second year who have taken [PCL201H1](#) will be considered on a case by case basis. Successful completion of required pre-requisite courses is required to further enroll in upper level program courses. Students may not transfer to the Major program from the Specialist after completion of [PCL474Y1](#) or the Arts & Science Internship Program (ASIP).

**Completion Requirements:**

(14.5 credits)

First Year: [BIO120H1](#), [BIO130H1](#), ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#), and 1.0 credit from any combination of ( [MAT135H1](#), [MAT136H1](#)), [PHY131H1](#)/ [PHY151H1](#), [PHY132H1](#)/ [PHY152H1](#) (see NOTE 1)

Students in this program have the option to enrol in the Arts & Science Internship Program (ASIP) stream.

Second Year: [BCH210H1](#), [BIO230H1](#)/ [BIO255H1](#), [BIO260H1](#)/ [HMB265H1](#), [CHM247H1](#)/ [CHM249H1](#), [STA288H1](#), [PCL201H1](#), ( [PSL300H1](#), [PSL301H1](#)) (NOTE: [PSL201Y1](#) is not acceptable)

Third Year: [PCL302H1](#), [PCL362H1](#), at least one 0.5 credit from [PCL367H1](#) or [PCL368H1](#)

Third or Fourth Year: [LMP363H1](#) and 2.5 credits at least 1.5 credits from PCL courses: [JPM300H1](#)/ [PCL345H1](#)/ [PCL367H1](#) or [PCL368H1](#) (see NOTE 2)/ [PCL386H1](#)/ [PCL389H1](#)/ [PCL475H1](#)/ [PCL476H1](#)/ [PCL475Y1](#)/

[PCL477H1](#)/ [PCL484H1](#)/ [PCL490H1](#)/ [JPM400Y1](#)/ [ANA301H1](#)/ [CHM310H1](#)/ [ESS463H1](#)/ [LMP301H1](#)

Fourth Year: [PCL402H1](#), ( [PCL482H1](#), [PCL483H1](#))/ [PCL473Y1](#), [PCL474Y1](#)/ [JPM400Y1](#) (see NOTE 3), [PCL481H1](#)

An Integrative, Inquiry-Based Activity Requirement must be satisfied.

The requirement for an integrative, inquiry-based and/or experiential activity must be met by completing at least one of the following: [PCL297H1](#), [PCL389H1](#), [PCL397Y0](#), [PCL472Y1](#), [PCL474Y1](#), [JPM400Y1](#). Students who complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op will also meet this requirement.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the [Arts & Science Internship Program](#) stream.

**NOTES:**

1. Any PHY/MAT courses should be completed during the first year and included for program enrolment.
2. At least 0.5 credit from [PCL367H1](#) or [PCL368H1](#) is required for the program, however if desired the alternative course can be taken as a program elective.
3. Enrolment in any of [PCL474Y1](#) or [JPM400Y1](#) is limited and requires permission from the Department of Pharmacology and Toxicology. Students must receive prior consent from the course coordinator according to Departmental guidelines before the Department will register them in the course. Students can take either course as their required independent project, or may take [JPM400Y1](#) as an additional elective. It is the student's responsibility to make all necessary preparations before the session starts (see course description).

## Environment & Toxicology Specialist (Science Program) - ASSPE0605

This program is jointly sponsored by the Department of Pharmacology and Toxicology and the School of the Environment. For additional information see "School of the Environment" ([www.environment.utoronto.ca](http://www.environment.utoronto.ca)) or consult our website: [www.pharmtox.utoronto.ca](http://www.pharmtox.utoronto.ca).

The Environment and Toxicology Specialist program is an interdisciplinary program which spans the social, physical and life sciences and integrates study of the effects of chemicals not only on the health and behaviour of human beings but on whole ecosystems as the adverse effects associated with therapeutic and environmental chemicals are discussed. This program emphasizes the application of knowledge of environmental toxicology and risk assessment and prepares students for a variety of job opportunities following its completion. Graduates of the Environment and Toxicology program may pursue careers in scientific research, environmental science, conservation science, governmental agencies, consulting agencies, and within chemical, manufacturing or agriculture industries. Students learn to integrate basic environmental and life science with particular aspects of clinical toxicology and related areas through lectures, tutorials, and laboratory and independent research project experience. The senior independent research project course enables students to gain valuable research experience while working under the supervision of an individual faculty member in either a laboratory-based or a non-laboratory-based setting.

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enroll.

#### *Variable Minimum Grade Average*

A minimum grade average in required courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO120H1](#) and [BIO130H1](#)
- ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)
- 1.0 credit from ( [MAT135H1](#) and [MAT136H1](#))/ [MAT137Y1](#)/ [MAT157Y1](#)/ ( [PHY131H1](#) and [PHY132H1](#))/( [PHY151H1](#) and [PHY152H1](#))

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in each course, or a combined grade average lower than 70% in these required courses will not be considered for admission. Please note that obtaining this minimum final grade or minimum grade average does not guarantee admission to the program. The underlying numeric final mark in each of your courses required for program enrolment will be used by the relevant academic unit to determine your eligibility.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [undergrad.pharmtox@utoronto.ca](mailto:undergrad.pharmtox@utoronto.ca), specify which program you would like to be considered for, and provide

your student number. Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment.

### Notes:

- Students cannot combine a Biomedical Toxicology Major program with an Environment and Toxicology Specialist program for their degree.
- Students who wish to enroll in the program **after** their second year will be considered on a case-by-case basis. Successful completion of required prerequisite courses is required to enroll in further upper-level program courses.

### Completion Requirements:

(14.0 credits, including 4.0 credits at the 300+level, 1.0 credit of which must be at the 400-level).

First Year: [BIO120H1](#), [BIO130H1](#), ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#), and at least 1.0 credit from [MAT135H1](#), [MAT136H1](#), [MAT137Y1](#), [MAT157Y1](#), [PHY131H1](#), [PHY132H1](#), [PHY151H1](#), [PHY152H1](#)

Students in this program have the option to enrol in the Arts & Science Internship Program (ASIP) stream.

Second Year: [BCH210H1](#), [BIO230H1](#)/ [BIO255H1](#), [ENV221H1](#), [ENV222H1](#), [PCL201H1](#) and [CHM247H1](#). 1.0 credit from ( [BIO270H1](#), [BIO271H1](#))/ ( [PSL300H1](#), [PSL301H1](#)) (see NOTE 1)

Third and Fourth Years:

[BIO220H1](#), [ENV234H1](#), [JGE321H1](#), [ENV334H1](#), [CHM210H1](#), [PCL302H1](#), [PCL362H1](#), ( [PCL482H1](#), [PCL483H1](#))/ [PCL473Y1](#)

One of: [STA220H1](#)/ [STA221H1](#)/ [STA288H1](#)/ [EEB225H1](#) (see NOTE 2)

One of: [ENV421H1](#)/ [PCL367H1](#)/ [PCL474Y1](#) (see NOTE 2)

At least 1.0 credit from: [ENV341H1](#), [PHY231H1](#), [ENV337H1](#)/ [JEE337H1](#), [CHM310H1](#), [ESS463H1](#), [JPM300H1](#), [PCL386H1](#), [PCL477H1](#), [PCL481H1](#), [PCL484H1](#), [PCL490H1](#), [LMP301H1](#), [LMP363H1](#) (see NOTE 3)

An Integrative, Inquiry-Based Activity Requirement must be satisfied.

The requirement for an integrative, inquiry-based and/or experiential activity must be met by completing at least one of the following: [PCL297H1](#), [PCL367H1](#), [PCL397Y0](#), [ENV421H1](#), [PCL474Y1](#). Students who complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op will also meet this requirement.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

#### Notes:

1. PSL300H1 and PSL301H1 require MAT 100-level/ PHY 100-level courses.
2. PCL201H1, and PCL302H1 are pre-requisites for students intending to take PCL474Y1. Students intending to take PCL474Y1 must obtain permission from the Undergraduate Student Advisor of the School of the Environment 3 months prior to the intended date of enrolment. Students must also consult with the Department of Pharmacology and Toxicology at least 3 months prior to the intended date of enrolment.
3. Students taking PCL481H1 must take PCL302H1 and PCL362H1 as prerequisites. Students taking PCL477H1 must take BCH210H1 prior. **Students taking ENV421H1 or PCL367H1 must take 1.5 credits from program electives requirement list of courses to ensure 14.0 program credits.**

## Pharmacology Specialist (Science Program) - ASSPE2082

Pharmacology is an integrative medical science that builds upon the core foundational disciplines of the basic life sciences. The Pharmacology Specialist program aims to provide students with an understanding of the therapeutic properties and clinical uses of externally administered chemical substances in the whole body, as well as the mechanisms of their actions and interactions with molecular, cellular and tissue targets. This understanding prepares students for a variety of either research-based or non-research-based careers, including positions in the pharmaceutical and biotechnology industries, in government agencies, in research institutes and in universities. Students learn about both basic and clinical pharmacology through lectures, tutorials, laboratories and independent research projects. The senior research project course enables students to gain valuable research experience while working under the supervision of an individual faculty member in either a laboratory-based or a non-laboratory-based setting.

Pharmacology (and its application in clinical therapeutics) plays a prominent role in society, and a comprehension of drug mechanisms and uses is fundamental to career success in the fields of medicine, dentistry, pharmacy and nursing. While some students take the Pharmacology Specialist program in preparation for these professional

programs, students are advised to contact the respective Faculties directly for questions related to transfer credits.

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 8.0 credits and meet the requirements listed below to enroll. **NOTE:** Students interested in this program should initially apply to the Specialist in Pharmacology & Biomedical Toxicology Program (ASSPE2340) after their first year of study. Students in ASSPE2340 will have the opportunity to move into the Pharmacology Specialist (ASSPE2082) following their second year of study.

#### *Variable Minimum Grade or Variable Minimum Grade Average*

A minimum grade/minimum grade average in required courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- BIO120H1 and BIO130H1
- ( CHM135H1, CHM136H1)/ CHM151Y1
- 1.0 credit from ( MAT135H1 and MAT136H1)/ MAT137Y1/ MAT157Y1/ ( PHY131H1 and PHY132H1)/( PHY151H1 and PHY152H1)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in each course, or a combined grade average lower than 75% in these required courses will not be considered for admission. Please note that obtaining this minimum final grade or minimum grade average does not guarantee admission to the program. The underlying numeric final mark in each of your courses required for program enrolment will be used by the relevant academic unit to determine your eligibility.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [undergrad.pharmtox@utoronto.ca](mailto:undergrad.pharmtox@utoronto.ca), specify which program you would like to be considered for, and provide your student number. Please consult the Arts & Science Program Toolkit for more information on program enrolment.

#### Notes:

- While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = mid 80s; average = mid 80s.
- **Students wishing to enroll in the Pharmacology Specialist will initially apply to**

**the Joint Specialist in Pharmacology and Biomedical Toxicology (ASSPE2340). After admission, students can then choose to transfer to the Biomedical Toxicology Specialist.** First and second year courses are the same for all Specialist programs within the Department (ASSPE2082/ASSPE2340/ASSPE2573).

- Students cannot combine the Biomedical Toxicology Specialist with either departmental Major programs (Biomedical Toxicology or Pharmacology).
- Students wishing to enroll **after** their second year who have taken PCL201H1 will be considered on a case by case basis. Successful completion of required pre-requisite courses is required to further enroll in upper level program courses. Students may not transfer to the Major program from the Specialist after completion of PCL472Y1 or the Arts & Science Internship Program (ASIP).

### Completion Requirements:

(14.5 credits)

First Year: BIO120H1, BIO130H1, (CHM135H1, CHM136H1)/ CHM151Y1, and 1.0 credit from any combination of (MAT135H1, MAT136H1), PHY131H1/PHY151H1, PHY132H1/PHY152H1 (see NOTE 1)

Students in this program have the option to enrol in the Arts & Science Internship Program (ASIP) stream.

Second Year: BCH210H1, BIO230H1/BIO255H1, BIO260H1/HMB265H1, CHM247H1/CHM249H1, STA288H1, PCL201H1, (PSL300H1, PSL301H1) (NOTE: PSL201Y1 is not acceptable)

Third Year: BCH311H1/PSL350H1, PCL302H1, at least one 0.5 credit from PCL367H1 or PCL368H1

Third or Fourth Year: PCL469H1 and 3.5 credits with at least 1.5 credits from PCL courses: JPM300H1/PCL345H1/PCL367H1 or PCL368H1 (see NOTE 2)/PCL386H1/PCL389H1/PCL475H1/PCL476H1/PCL475Y1/PCL477H1/PCL484H1/PCL490H1/JPM400Y1/ANA300Y1/BCH340H1/BCH450H1

Fourth Year: PCL402H1, PCL470H1/PCL470Y1, PCL472Y1/JPM400Y1 (see NOTE 3)

An Integrative, Inquiry-Based Activity Requirement must be satisfied.

The requirement for an integrative, inquiry-based and/or experiential activity must be met by completing at least one of the following: PCL297H1, PCL389H1, PCL397Y0, PCL472Y1, PCL474Y1, JPM400Y1. Students who complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op will also meet this requirement.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

### NOTES:

1. Any PHY/MAT courses should be completed during the first year and included for program enrolment.
2. At least one 0.5 credit from PCL367H1 or PCL368H1 is required for the program, however if desired the alternative course can be taken as a program elective.
3. Enrolment in either PCL472Y1 or JPM400Y1 is limited and requires permission from the Department of Pharmacology and Toxicology. Students must receive prior consent from course coordinator according to Departmental guidelines before the Department will register them in the course. Students can take either course as their required independent project, or may take JPM400Y1 as an additional elective. It is the student's responsibility to make all necessary preparations before the session starts (see course description).

## Specialist in Pharmacology and Biomedical Toxicology (Science Program) - ASSPE2340

Pharmacology and Biomedical Toxicology are complementary sciences, and the Pharmacology and Biomedical Toxicology Specialist combines the requirements of the two distinct specialist programs. The Specialist program integrates knowledge of pharmacology – the understanding of the therapeutic properties and clinical applications of externally administered chemical substances in the whole body and the mechanisms of their actions and interactions with their intended targets, while biomedical toxicology examines the harmful effects of exogenous chemicals on the health and behaviour of individuals and society, addressing drug safety and the adverse consequences of chemical exposure. Biomedical toxicology includes understanding the safety/toxicity of a wide array of chemicals (pharmaceutical preparations, herbal products, natural toxins and environmental contaminants) with a focus on their effects and adverse consequences on human health.

Both Pharmacology and Biomedical Toxicology are integrative life sciences which build on the core foundational disciplines of the basic life sciences and the

prominent role each science plays in society. A comprehension of the biological mechanisms of action and potential uses of chemicals are key to career success in the fields of medicine, dentistry, pharmacy and nursing. The Specialist program prepares students for a variety of job opportunities following its completion as well as for further study in graduate research or professional programs such as Medicine, Dentistry, and Pharmacy. (Note: Students interested in professional programs should contact the respective faculties to inquire about specific transfer credits.) Graduates of this rigorous program will have access to an impressive variety of job opportunities in either research-based or non-research-based careers, including scientific research in research institutes and in universities, positions in the pharmaceutical, biotechnology and chemical industries, forensic science, nutrition and food sciences, government or consulting agencies. Students learn about both basic and clinical pharmacology and biomedical toxicology through lectures, tutorials, small group sessions, laboratories and independent research projects. The senior research project course enables students to gain valuable research experience while working under the supervision of an individual faculty member in either a laboratory-based or a non-laboratory-based setting.

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade or Variable Minimum Grade Average*

A minimum grade/minimum grade average in required courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- BIO120H1 and BIO130H1
- ( CHM135H1, CHM136H1)/ CHM151Y1
- 1.0 credit from ( MAT135H1 and MAT136H1)/ MAT137Y1/ MAT157Y1/ ( PHY131H1 and PHY132H1)/( PHY151H1 and PHY152H1)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in each course, or a combined grade average lower than 75% in these required courses will not be considered for admission. Please note that obtaining this minimum final grade or minimum grade average does not guarantee admission to the program. The underlying numeric final mark in each of your courses required for program enrolment will be used by the relevant academic unit to determine your eligibility.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the

availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [undergrad.pharmtox@utoronto.ca](mailto:undergrad.pharmtox@utoronto.ca), specify which program you would like to be considered for, and provide your student number. Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment.

### Notes:

- While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = mid 80s; average = mid 80s.
- **Students wishing to enroll in the Pharmacology Specialist (ASSPE2082) or Biomedical Toxicology Specialist (ASSPE2573) will initially apply to the Joint Specialist in Pharmacology and Biomedical Toxicology (ASSPE2340). After admission, students can then choose to transfer to the Biomedical Toxicology Specialist.** First and second year courses are the same for all Specialist programs within the Department (ASSPE2082/ASSPE2340/ASSPE2573).
- Students cannot combine the Biomedical Toxicology Specialist with either departmental Major programs (Biomedical Toxicology or Pharmacology).
- Students wishing to enroll **after** their second year who have taken PCL201H1 will be considered on a case by case basis. Successful completion of required pre-requisite courses is required to further enroll in upper level program courses. Students may not transfer to the Major program from the Specialist after completion of PCL472Y1/PCL474Y1 courses or the Arts & Science Internship Program (ASIP).

### Completion Requirements:

(15.0 credits)

First Year: BIO120H1, BIO130H1, ( CHM135H1, CHM136H1)/ CHM151Y1, and 1.0 credit from any combination of ( MAT135H1, MAT136H1), PHY131H1/PHY151H1, PHY132H1/PHY152H1 (see NOTE 1)

Students in this program have the option to enrol in the Arts & Science Internship Program (ASIP) stream.

Second Year: BCH210H1, BIO230H1/BIO255H1, BIO260H1/HMB265H1, CHM247H1/CHM249H1, STA288H1, PCL201H1, ( PSL300H1, PSL301H1) (NOTE: PSL201Y1 is not acceptable)

Third Year: BCH311H1/PSL350H1, PCL302H1, PCL362H1, at least one 0.5 credit from PCL367H1 or PCL368H1 (see NOTE 2)

Third or Fourth Year: [LMP363H1](#), [PCL469H1](#), and 1.5 credits from the following courses: [JPM300H1](#)/[PCL345H1](#)/[PCL367H1](#) or [PCL368H1](#) (see NOTE 2)/[PCL386H1](#)/[PCL389H1](#)/[PCL475H1](#)/[PCL476H1](#)/[PCL475Y1](#)/[PCL477H1](#)/[PCL484H1](#)/[PCL490H1](#)/[JPM400Y1](#)/[LMP301H1](#). Additional courses that may strengthen your background in this program can be taken, but will not count towards your program: [ANA300Y1](#)/[ANA301H1](#)/[BCH340H1](#)/[CHM310H1](#)/[ESS463H1](#)

Fourth Year: [PCL402H1](#); [PCL470H1](#)/[PCL470Y1](#); ([PCL482H1](#), [PCL483H1](#))/[PCL473Y1](#); [PCL472Y1](#)/[PCL474Y1](#)/[JPM400Y1](#) (see NOTE 3); [PCL481H1](#)

An Integrative, Inquiry-Based Activity Requirement must be satisfied.

The requirement for an integrative, inquiry-based and/or experiential activity must be met by completing at least one of the following: [PCL297H1](#), [PCL389H1](#), [PCL397Y0](#), [PCL472Y1](#), [PCL474Y1](#), [JPM400Y1](#). Students who complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op will also meet this requirement.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the [Arts & Science Internship Program](#) stream.

#### NOTES:

- Any PHY/MAT courses should be completed during the first year and included for program enrolment.
- At least one 0.5 credit from [PCL367H1](#) or [PCL368H1](#) is required for the program, however if desired the alternative course can be taken as a program elective.
- Enrolment in any of [PCL472Y1](#)/[PCL474Y1](#) or [JPM400Y1](#) is limited and requires permission from the Department of Pharmacology and Toxicology. Students must receive prior consent from the course coordinator according to Departmental guidelines before the Department will register them in the course. Students can take either course as their required independent project, or may take [JPM400Y1](#) as an additional elective. It is the student's responsibility to make all necessary preparations before the session starts (see course description).

## Biomedical Toxicology Major (Science Program) - ASMAJ2573

Biomedical toxicology has emerged as an important science addressing drug safety and the adverse consequences of chemical exposure. The Biomedical Toxicology Major program examines the harmful effects of chemicals on the health and behavior of individuals and society. The safety/toxicity of a wide array of chemicals is examined including pharmaceutical preparations, herbal products, natural toxins, and environmental contaminants, with a focus on their effects on human health. Students learn about basic and clinical toxicology and related areas through lectures, tutorials and class discussions/debates.

This program includes the application of toxicological knowledge and risk assessment and prepares students for a variety of job opportunities following its completion as well as for further study in graduate research or professional programs such as Medicine, Dentistry, and Pharmacy. (Note: Students interested in professional programs should contact the respective faculties to inquire about specific transfer credits.) Many graduates of the Biomedical Toxicology major program pursue careers in scientific research, forensic science, nutrition and food sciences, governmental agencies, consulting agencies, and industrial settings including the pharmaceutical and chemical industries.

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 8.0 credits and meet the requirements listed below to enroll. **NOTE:** Students interested in this program should initially apply to the general Major (ASMAJ2675) after their first year of study. Following their second year of study, students in ASMAJ2675 must choose to pursue either the Pharmacology Major (ASMAJ2082) or the Biomedical Toxicology Major (ASMAJ2573).

#### *Variable Minimum Grade or Variable Minimum Grade Average*

A minimum grade/minimum grade average in required courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO120H1](#) and [BIO130H1](#)
- ([CHM135H1](#), [CHM136H1](#))/[CHM151Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in any of these courses, or a combined grade average lower than 70% in these required courses will not be considered for admission. Please note that obtaining this minimum

final grade or minimum grade average does not guarantee admission to the program.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [undergrad.pharmtox@utoronto.ca](mailto:undergrad.pharmtox@utoronto.ca), specify which program you would like to be considered for, and provide your student number. Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment.

Notes:

- While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = mid 80s; average = mid 80s.
- Students wishing to enroll in this program will initially apply to a general departmental Major (ASMAJ2675) after their first year. After admission, and prior to the start of their third year of study, students will select the focus for their future studies (Biomedical Toxicology or Pharmacology). First and second year courses are the same for all Major programs within the Department (ASMAJ2675/ASMAJ2082/ASMAJ2573).
- Students cannot combine a Biomedical Toxicology Major program with a Pharmacology Major or Specialist program for their degree.
- Students wishing to enroll **after** their second year who have taken [PCL201H1](#) will be considered on a case by case basis. Successful completion of required pre-requisite courses is required to further enroll in upper level program courses.

### Completion Requirements:

(8 credits)

First Year: [BIO120H1](#); [BIO130H1](#); ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)

Second Year: [BCH210H1](#); [BIO230H1](#)/ [BIO255H1](#); [PCL201H1](#); [CHM247H1](#)/ [CHM249H1](#); ( [PSL300H1](#), [PSL301H1](#)) (NOTE: [PSL201Y1](#) is not acceptable)

Third Year: [PCL302H1](#); [PCL362H1](#)

Third or Fourth Year: 1.0 credit with at least 0.5 credit from PCL courses: [JPM300H1](#)/ [JPM400Y1](#)/ [PCL345H1](#)/ [PCL367H1](#)/ [PCL368H1](#)/ [PCL386H1](#)/ [PCL389H1](#)/ [PCL402H1](#)/ [PCL475H1](#)/ [PCL476H1](#)/ [PCL475Y1](#)/ [PCL477H1](#)/ [PCL481H1](#)/ [PCL484H1](#)/ [PCL490H1](#)/ [ANA301H1](#)/ [LMP301H1](#)/ [LMP363H1](#)

Fourth Year: ( [PCL482H1](#), [PCL483H1](#))/ [PCL473Y1](#)

### Notes:

1. Students are not allowed to enroll concurrently in the Major Program in Pharmacology and the Major Program in Toxicology.
2. Students are not allowed to enroll concurrently in the Major Program in Pharmacology and a Specialist Program in Toxicology.
3. Students are not permitted to take [PCL472Y1](#) or [PCL474Y1](#).

## Pharmacology Major (Science Program) - ASMAJ2082

Pharmacology is an integrative medical science that builds upon the core foundational disciplines of the basic life sciences. This program is intended for students who want to gain knowledge in Pharmacology in combination with a separate and complementary area of study and is designed for students interested in broad, multidisciplinary training. The Pharmacology Major program is designed to provide students with a broad understanding of the therapeutic properties and clinical uses of externally administered chemical substances in the whole body, as well as the mechanisms of their actions and interactions with molecular, cellular and tissue targets. Students learn about both basic and clinical pharmacology through lectures, tutorials and small group sessions.

This understanding prepares students for a variety of either research-based or non-research-based careers, including positions in the pharmaceutical and biotechnology industries, in government agencies, in research institutes and in universities. Pharmacology (and its application in clinical therapeutics) plays a prominent role in society, and a comprehension of drug mechanisms and uses is fundamental to career success in the fields of medicine, dentistry, pharmacy and nursing. While some students take the Pharmacology Major program in preparation for these professional programs, students are advised to contact the respective Faculties directly for questions related to transfer credits.

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 8.0 credits and meet the requirements listed below to enroll. **NOTE:** Students interested in this program should initially apply to the general Major (ASMAJ2675) after their first year of study. Following their second year of study, students in ASMAJ2675 must choose to pursue either the Pharmacology Major (ASMAJ2082) or the Biomedical Toxicology Major (ASMAJ2573).

*Variable Minimum Grade or Variable Minimum Grade Average*

A minimum grade/minimum grade average is required

courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO120H1](#) and [BIO130H1](#)
- ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 65% in each course, or a combined grade average lower than 70% in these required courses will not be considered for admission. Please note that obtaining this minimum final grade or minimum grade average does not guarantee admission to the program. The underlying numeric final mark in each of your courses required for program enrolment will be used by the relevant academic unit to determine your eligibility.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [undergrad.pharmtox@utoronto.ca](mailto:undergrad.pharmtox@utoronto.ca), specify which program you would like to be considered for, and provide your student number. Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment.

Notes:

- While it is difficult to predict what will be competitive course marks and average in a given year, based on previous years, the estimate is: course marks = mid 80s; average = mid 80s.
- Students wishing to enroll in this program will initially apply to a general departmental Major (ASMAJ2675) after their first year. First and second year courses are the same for all Major programs within the

## Pharmacology and Toxicology Courses

### PCL102H1 - The Art of Drug Discovery

Hours: 24L

This course introduces students to the processes and strategies for discovering new drugs with a special focus on current and emerging approaches for the rational design of drugs that are both effective and safe.

Department

(ASMAJ2675/ASMAJ2082/ASMAJ2573).

Students cannot combine a Pharmacology Major program with a Pharmacology Major or Specialist program for their degree.

- Students wishing to enroll **after** their second year who have taken [PCL201H1](#) will be considered on a case by case basis. Successful completion of required pre-requisite courses is required to further enroll in upper level program courses.

### Completion Requirements:

(8 credits)

First Year: [BIO120H1](#); [BIO130H1](#); ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)

Second Year: [BCH210H1](#); [BIO230H1](#)/ [BIO255H1](#); [PCL201H1](#); [CHM247H1](#)/ [CHM249H1](#); ( [PSL300H1](#), [PSL301H1](#)) (NOTE: [PSL201Y1](#) is not acceptable)

Third Year: [PCL302H1](#); [BCH311H1](#)/ [PSL350H1](#)

Third or Fourth Year: [PCL469H1](#) and 1.0 credit from: [JPM300H1](#)/ [JPM400Y1](#)/ [PCL345H1](#)/ [PCL367H1](#)/ [PCL368H1](#)/ [PCL386H1](#)/ [PCL389H1](#)/ [PCL402H1](#)/ [PCL475H1](#)/ [PCL476H1](#)/ [PCL475Y1](#)/ [PCL477H1](#)/ [PCL484H1](#)/ [PCL490H1](#)

Fourth Year: [PCL470H1](#)/ [PCL470Y1](#)

Notes:

1. Students are not allowed to enroll concurrently in the Major Program in Pharmacology and the Major Program in Toxicology.
2. Students are not allowed to enroll concurrently in the Major Program in Pharmacology and a Specialist Program in Toxicology.
3. Students are not permitted to take [PCL472Y1](#) or [PCL474Y1](#).

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### PCL200H1 - Drugs & the Brain

Hours: 24L

Lectures introduce students to prescribed and illicit drugs that affect the brain. Lectures cover drug pharmacology and explain how drugs alter mood, perception, cognition, and arousal by affecting different aspects of brain

function. The societal impact of these prescribed and illicit drugs is also discussed.

**Note:** This course is not intended for upper-year students who have already completed [BCH210H1](#) or other exclusion courses. Upper-year Life Science students who are excluded and are interested in this content should look into [PCL475H1](#) and/or [PCL476H1](#) as the more appropriate choice.

**Exclusion:** [PSY396H1](#), [PCL302H1](#), [BCH210H1](#), [BCH242Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL201H1 - Introduction to Pharmacology and Pharmacokinetic Principles

**Hours:** 36L/6T

A general introduction to the principles of pharmacology and pharmacokinetics. Topics include chemical (drug) absorption, distribution, biotransformation, elimination; the calculation of dosages and pharmacokinetic parameters, variability in drug response, adverse drug reactions and special interest topics.

**Prerequisite:** [BIO130H1](#)/BIOA01H3/BIO152H5

**Corequisite:** Recommended Co-requisites:

[BIO230H1](#)/BIO255H1, [PSL300H1](#)/PSL301H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL218H1 - Cannabis the Drug

**Hours:** 24L

There is a critical need for a breadth of understanding regarding its mechanism of action, pharmacological effects and its potential benefits and harms (short- and long-term). Students will gain a breadth of understanding in cannabis-related topics including pharmacology and toxicology, its role in mental health and addictions, medical use, drug policy and new drug development that stems from increased access to cannabis constituents. They will learn to differentiate myths and anecdotes from evidence-based knowledge. Going forward it is imperative that students spanning basic sciences through business, arts and engineering have a comprehensive understanding of these topics. PCL218H1 will give students for a variety of academic backgrounds a basic understanding of the health implications of cannabis which have broad implications for both our professional and personal lives.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL297H1 - Research Experience in Pharmacology & Toxicology

**Hours:** 60P

A formal opportunity to gain hands-on experience and develop their skills within a research laboratory setting. Students will have a chance to become familiar and efficient at good lab practices, develop critical thinking and evaluation skills while applying their knowledge and developing troubleshooting skills to practical research questions. This course is Pass/Fail. Not eligible for CR/NCR option.

**Prerequisite:** Permission of Faculty Supervisor and Departmental Undergraduate Coordinator required.

**Recommended Preparation:** Completion of at least first year of Life Sciences program.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## JPM300H1 - Research Readiness and Advancing Biomedical Discoveries

**Hours:** 12L/24T

Explore how scientists leverage their knowledge and skills to advance academic biomedical discoveries from the laboratory to improve patient health through either commercialization or not-for-profit approaches. Students will learn about innovation and develop key research and industry skills including intellectual property, ethics, budget and project management; learn how to critically evaluate scientific evidence and effectively communicate to a wide audience. This hybrid student-centered course will include interactive online modules and in-class group work. Course work will focus on developing skills and knowledge to help you be successful in diverse research courses and future careers. Not eligible for CR/NCR.

**Prerequisite:** Completion of 10.0 credits, BCH210H1/BCH242Y1

**Recommended Preparation:** PSL300H1, PSL301H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL302H1 - Pharmacodynamic Principles

**Hours:** 36L

Topics include biological action of drugs on membranes, enzymes, receptors, neural and hormonal systems, transmission and modulation.

**Prerequisite:** (PSL300H1, PSL301H1)

**Exclusion:** PHC300H1, PHC301H1

**Recommended Preparation:** PCL201H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL345H1 - Experimental Approaches in Drug Discovery

**Hours:** 24L

Lecturers use their own research to demonstrate how they approach a biological question. The lectures emphasize why one approach is chosen over other possible approaches, and explain the strengths and limitations of techniques. Following the one-hour lecture there is an interactive discussion of the experimental approach covered in the lecture.

**Prerequisite:** One of PSL300H1/PSL301H1/BIO270H1/BIO271H1, and completion of 10.0 credits. Students who do not meet the prerequisite are encouraged to contact the Department.

**Recommended Preparation:** BCH210H1, PCL201H1, PCL302H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL362H1 - Introductory Toxicology

**Hours:** 27L/5T

Toxicological problems encountered in animals and humans; biochemical mechanisms and clinical factors of toxicological significance; models of drug-related diseases.

**Prerequisite:** BIO130H1/BIOA01H3/BIO152H5, PCL201H1 or Permission of the Department

**Corequisite:** Recommended Co-requisite: PCL302H1, BCH311H1/CSB349H1

**Recommended Preparation:** BCH210H1, CHM247H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL367H1 - Drug Development Pipeline I: In vitro

**Hours:** 8T/40P

This course will provide a learning experience that simulates the process, techniques, analysis and evaluation methods used for early-stage *in vitro* drug development. Modules will build on the student's fundamental knowledge and will simulate and illustrate the thought processes and techniques that are used during new drug development in academic research institutes, clinical research organizations and pharmaceutical and biotechnology companies worldwide. Modules include target screening, cytotoxicity assays, transcriptional activation testing and metabolizing enzyme identification experiments. This experience will allow students to leverage their learned knowledge to improve their employability in this area, while honing their critical thinking and analytical skills.

**Prerequisite:** PSL300H1, PSL301H1

**Corequisite:** PCL302H1

**Recommended Preparation:** PCL201H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL368H1 - Drug Development Pipeline II: In vivo

**Hours:** 8T/40P

This course will provide a learning experience that parallels and simulates the process, protocols, methods and evaluation tools used for later-stage *in vivo* drug development. Modules will build on the student's fundamental knowledge and simulate the thought processes and techniques used during drug development in research institutes, clinical research organizations and pharmaceutical and biotechnology companies worldwide. Modules will include pharmacokinetic and pharmacodynamic analyses and pharmacogenetic screening approaches in model systems and humans. This experience will allow students to leverage their learned skills and knowledge to improve their comprehension and employability in this area, while honing critical thinking and analytical skills.

**Prerequisite:** PSL300H1, PSL301H1, PCL201H1, PCL302H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL376H1 - Experimental Design and Data Analysis for Pharmacology and Toxicology

**Hours:** 30L/6T

This course includes lectures focused on experimental design and the analysis of pharmacological and toxicological data. Topics include: principles of experimental design, data analysis and statistical tests appropriate for each type, use of computing statistical packages, analysis of dose-response and time-response curves and analysis of receptor binding assays. Practical applications and problem sets will be taken up in class and in tutorials.

**Prerequisite:** PCL201H1

**Corequisite:** PCL302H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL386H1 - Pharmacology of Cancer Signaling

**Previous Course Number:** PCL486H1

**Hours:** 24L

This course will expand on both classical and cutting edge pharmacological strategies proposed to mitigate the consequences of altered signal transduction in cancer. Students will have the opportunity to develop knowledge on these molecular events and how they can be targeted to improve clinical outcomes. Students will integrate lecture material with assigned readings and assignments.

**Prerequisite:** BCH210H1/BCH242Y1, and completion of at least 10.0 credits, or Permission of the Department

**Exclusion:** PCL486H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL389H1 - Understanding the Role of Pharmacology and Toxicology in Society

**Hours:** 24L

This service learning course explores issues surrounding the effects that pharmaceuticals and chemicals have in society. Specifically, it integrates pharmacology and toxicology with social, health and political issues as they relate to drug abuse and addiction. Students are required to interact and work with community partners during the semester (approx. 20hrs). Classroom discussions will integrate community experiences with lecture material.

**Prerequisite:** PCL201H1

**Corequisite:** PCL302H1; ( PSL300H1, PSL301H1)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL397Y0 - Research Abroad in Pharmacology and Toxicology

**Hours:** 200P

An independent research project in a pharmacology and/or toxicology laboratory in an approved partner university. This international research experience will be supervised by a faculty member at the partner institution and will allow students to develop critical thinking and evaluation skills while applying their knowledge and trouble shooting skills to practical research questions. Not eligible for CR/NCR option.

**Prerequisite:** PCL201H1 (65%), PSL300H1 (65%), PSL301H1 (65%); permission from the Undergraduate Coordinator

**Recommended Preparation:** PCL302H1 (65%)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

## JPM400Y1 - Biomedical Incubator Capstone Project

**Hours:** 240P/16S

Discover what it is like to be part of a biomedical innovation team. Develop and engage in biomedical research in a simulated small business/incubator setting

under the guidance of a faculty mentor. Bring your proposed JPM300H1 project to life, while acquiring budget management, research, business and communication workplace skills for future careers. Enrolment is application-based. Proposals will be reviewed by committee and successful proposals will be matched to a mentor. Not eligible for CR/NCR option.

*Students will form teams and develop a research proposal based on either:*

*1. Faculty led concept requiring further development and testing, which would not normally be funded grants and would be tangential to ongoing research in the lab.*

*2. Student developed innovative idea that requires further development and testing. This should be a project that is not being investigated in a UofT research lab.*

**Prerequisite:** A minimum of 75% in JPM300H1; completion of any of PCL367H1/PCL368H1/PSL372H1/BCH370H1/BCH377H1. Application required; see department for more information.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL402H1 - Pharmacology and Toxicology in Drug Development

**Hours:** 24L

This course provides the basic principles of drug development, with a primary focus on the application of fundamental principles of pharmacology and toxicology to the design and conduct of early phase clinical trials. This is the phase of the drug development process where much of the innovation and science occurs.

**Prerequisite:** PCL201H1, PCL302H1

**Corequisite:** PCL470H1 or PCL482H1

**Recommended Preparation:** PSL300H1, PSL301H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL469H1 - Systems Pharmacology I

**Previous Course Number:** PCL470Y1

**Hours:** 31L/4T

A culmination of pharmacological principles discussing concepts of drug properties and their interactions within

the body. The mechanism of action, pharmacological properties including clinical use and adverse effects of drugs acting on the autonomic nervous systems, cardiovascular, renal, respiratory, gastrointestinal and endocrine systems will be examined. Critical evaluation of primary literature and examination of clinical problem-based case studies will be integrated with lecture material through small group sessions.

**Prerequisite:** PCL201H1, PCL302H1, (PSL300H1, PSL301H1)

**Exclusion:** PCL470Y1

**Recommended Preparation:** BCH210H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL470H1 - Systems Pharmacology II

**Previous Course Number:** PCL470Y1

**Hours:** 31L/4T

A culmination of pharmacological principles discussing concepts of drug properties and their interactions within the body. The mechanism of action, pharmacological properties including clinical use and adverse effects of drugs acting on the central nervous systems and immunological system; antimicrobial and cancer chemotherapeutic agents as well as the potential therapeutic use of endogenous/herbal compounds will be examined. Critical evaluation of primary literature and examination of clinical problem-based case studies will be integrated with lecture material through small group sessions.

**Prerequisite:** PCL201H1, PCL302H1, (PSL300H1, PSL301H1), and 14.0 credits. Students who do not meet the prerequisite are encouraged to contact the Department.

**Exclusion:** PCL470Y1

**Recommended Preparation:** BCH210H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL472Y1 - Project in Pharmacology

This course affords students an opportunity for hands-on research experience in a laboratory or applied pharmacology setting. Students will work under the supervision of a faculty member and will submit a final written report and oral presentation. Enrollment is limited and requires permission from the Department of Pharmacology and Toxicology. It is the student's responsibility to secure a placement with an approved supervisor before the course begins (a list of potential supervisors can be obtained from the Department of Pharmacology and Toxicology). Students will be

registered in the course once their ballot form (obtained from the Department of Pharmacology and Toxicology) is signed by an approved supervisor and approved by the Department of Pharmacology and Toxicology. Students are expected to spend approximately 200 hours towards this project but this will be project/supervisor dependent. Not eligible for CR/NCR option.

**Prerequisite:** [PCL201H1](#), [PCL302H1](#), [PCL366H1/PCL367H1/PCL368H1](#), [STA288H1/PCL376H1/STA220H1/PSY201H1](#), and permission of Department  
**Exclusion:** [PCL474Y1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## PCL474Y1 - Project in Toxicology

This course affords students an opportunity for hands-on research experience in a laboratory or applied toxicology setting. Students will work under the supervision of a staff member and will submit a final written report and oral presentation. Enrollment is limited and requires permission from the Department of Pharmacology and Toxicology. It is the student's responsibility to secure a placement with an approved supervisor before the course begins (a list of potential supervisors can be obtained from the Department of Pharmacology and Toxicology). Students will be registered in the course once their ballot form (obtained from the Department of Pharmacology) is signed by an approved supervisor and approved by the Department of Pharmacology and Toxicology. Students are expected to spend approximately 200 hours towards this project but this will be project/supervisor dependent. Not eligible for CR/NCR option.

**Prerequisite:** [PCL201H1](#), [PCL302H1](#), [PCL366H1/PCL367H1/PCL368H1](#), [STA288H1/PCL376H1/STA220H1/PSY201H1](#), and permission of Department  
**Exclusion:** [PCL472Y1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## PCL475H1 - Neuropsychopharmacology 1

**Previous Course Number:** PCL475Y1  
**Hours:** 36L/12T

Students will explore the major CNS neurological syndromes, examples include pain, epilepsy, the sleep-wake cycle and relate neurological abnormalities. Lectures will discuss major classes of drugs used to mitigate and treat these disorder, their mechanisms of

action, clinical use and unwanted effects. This course was previously offered as PCL475Y1.

**Prerequisite:** Completion of 9.0 credits  
**Exclusion:** [PCL475Y1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## PCL476H1 - Neuropsychopharmacology 2

**Previous Course Number:** PCL475Y1  
**Hours:** 36L/12T

Students will explore the major CNS neurological syndromes which may include anxiety, schizophrenia and depression/mania and their relate neurological abnormalities. Lectures will discuss major classes of drugs used to mitigate and treat these disorders, their mechanisms of action, clinical use and unwanted effects.

**Prerequisite:** Completion of 9.0 credits, and [PCL475H1](#). Students who do not meet the prerequisite are encouraged to contact the Department.  
**Exclusion:** [PCL475Y1](#), [PSY396H1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## PCL477H1 - The DNA Damage Response in Pharmacology and Toxicology

**Hours:** 24L

Many anticancer drugs and environmental agents exert their cytotoxic effects through DNA damage. This course explores specific pharmacological and toxicological agents that damage DNA and discusses how mammalian cells respond to this DNA damage.

**Prerequisite:** [BCH210H1/BCH242Y1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## PCL481H1 - The Molecular and Biochemical Basis of Toxicology

**Hours:** 24L

The biochemical principles and molecular mechanisms underlying the toxicity of drugs and foreign agents. The

sequence of events at the molecular level leading to impairment of cell function and the factors which determine and affect toxicity.

**Prerequisite:** [PCL302H1](#)

**Recommended Preparation:** [PCL362H1](#),  
[BCH210H1](#)/[BCH242Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL482H1 - Biomedical Toxicology

**Previous Course Number:** PCL473Y1

**Hours:** 24L

This course explores several contemporary topics in biomedical toxicology with emphasis on how chemicals affect human health. Lectures cover principles of toxicology, the mechanisms of toxicity of a wide variety of toxic agents and the associated toxicities, methodologies used to examine chemical toxicities, risk assessment, and the applications of toxicology.

**Prerequisite:** ([PCL201H1](#), [PCL302H1](#), [PCL362H1](#)), and completion of 14.0 credits. Students who do not meet the prerequisite are encouraged to contact the Department.

**Exclusion:** [PCL473Y1](#)

**Recommended Preparation:** [BCH210H1](#) and [BCH311H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL483H1 - Interdisciplinary Toxicology

**Previous Course Number:** PCL473Y1

**Hours:** 24L

This course explores several contemporary topics in biomedical and environmental toxicology with emphasis on how chemicals affect human health. Lectures cover principles of toxicology, the mechanisms of toxicity of a wide variety of toxic agents and the associated toxicities, methodologies used to examine chemical toxicities, risk assessment, and the applications of toxicology.

**Prerequisite:** ([PCL201H1](#), [PCL302H1](#), [PCL362H1](#)) or Permission of the Course Coordinator

**Exclusion:** [PCL473Y1](#)

**Recommended Preparation:** [BCH210H1](#) + [BCH311H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL484H1 - Seminars in Pharmacokinetics and Toxicokinetics

**Hours:** 24S

Each week a scientist affiliated with the Department of Pharmacology and Toxicology will discuss the application of pharmacokinetic and/or toxicokinetic principles to their research. This area of study plays an important role in clinical medicine and drug development

**Prerequisite:** [PCL201H1](#)

**Recommended Preparation:** [PCL302H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PCL490H1 - Advanced Topics in Pharmacology and Toxicology

**Hours:** 12L/12S

An opportunity to expand on innovative and unique topics in Pharmacology and Toxicology that are not already extensively addressed. The course will reveal the dynamic nature of the field and the diverse interests of our faculty. Students will be introduced to leading edge topics and research within the discipline of Pharmacology and Toxicology.

**Prerequisite:** [PCL302H1](#), and one of [STA288H1](#)/[STA220H1](#)/[PCL376H1](#), and completion of 14.0 credits. Students who do not meet the prerequisite are encouraged to contact the Department.

**Recommended Preparation:**

[PCL469H1](#)/[PCL470H1](#)/[PCL482H1](#)/[PCL483H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# Philosophy

## Faculty List

### University Professors Emeriti

I. Hacking, OC, MA, Ph D, FRSC (V)  
 B.C. Inwood, MA, PhD, FRSC  
 L.W. Sumner, MA, Ph D, FRSC

### Professors Emeriti

D.P.H. Allen, MA, B Phil, D Phil (T)  
 J.R. Brown, MA, Ph D, FRSC  
 F.A. Cunningham, MA, Ph D, FRSC  
 R.B. DeSousa, BA, Ph D, FRSC  
 D. Goldstick, BA, D Phil  
 P.W. Gooch, MA, Ph D (V)  
 W.C. Graham, MA, Ph D (UTSC)  
 C.M.T. Hanly, BA, MS L, D Phil  
 W.R.C. Harvey, MA, LL B, Ph D (V)  
 H.G. Herzberger, AM, Ph D  
 D.S. Hutchinson, BA, B Phil, D Phil (T)  
 R.A. Imlay, MA, Ph D (U)  
 E.J. Kremer, AB, Ph D (SM)  
 I. Leman Stefanovic MA, Ph D  
 K.P. Morgan, MA, M Ed, Ph D (N)  
 J.C. Morrison, MA, Ph D (SM)  
 T.M. Robinson, BA, BLitt, DLitt  
 J.G. Slater, MA, Ph D (W)  
 J.T. Stevenson, MA (U)  
 M.T. Thornton, B Phil, MA, Ph D (V)  
 R. E. Tully, BA, D Phil (SM)  
 A.I.F. Urquhart, MA, Ph D  
 J.M. Vertin, MA, STL, Ph D (SM)  
 F.F. Wilson, B Sc, MA, Ph D, FRSC (U)

### Associate Professors Emeriti

B. Brown, BA, MA, Ph D (SM)  
 R. V. Friedman, BA, MA, Ph D (SM)  
 J. Hartley B Ph, BA, MA, Ph D (SM)  
 P. Hess, BA, AM, Ph D (V)  
 L. Lange, MA, Ph D (UTSC)  
 A. Wingell, BA, MA, MSL, Ph D (SM)

### Professor and Chair

M. Pickavé, MA, Ph D

### Associate Professor and Associate Chair (Graduate)

A. Mullin, Ph D (UTM)

### Associate Professor and Associate Chair (Undergraduate)

J. John, BA, Ph D

### University Professors

D. Dyzenhaus, BA, LLB, D Phil, FRSC

T.M. Hurka, BA, B Phil, D Phil, FRSC  
 C. Misak, MA, D Phil, FRSC  
 A. Ripstein, MA, Ph D, FRSC

### Professors

D.C. Ainslie, B Sc, MA, Ph D (U)  
 J. Allen, Ph D (UTM)  
 R. Barney, BA, Ph D  
 D.L. Black, MA, Ph D (SM)  
 G. Boys-Stones, MA, D Phil  
 R. Comay, MA, Ph D (V)  
 I. Dickie, BA (Hons), B Phil, D Phil  
 C.J. Fraser, BA, MA, Ph D  
 J. Ganeri, MA, M Matt, M Phil, D Phil  
 L. Gerson, AM, Ph D, FRSC (SM)  
 R.B. Gibbs, MA, Ph D (U)  
 W. Goetschel, Lic Phil, Ph D  
 J.M. Heath, MA, Ph D, FRSC (U)  
 B. Hellie, BA, Ph D (UTSC)  
 B.D. Katz, MA, Ph D (UTM)  
 P. King, BA, Ph D  
 M. Kingwell, BA, M Litt, Ph D (T)  
 P. Kremer, BSc, Ph D (UTSC)  
 M. Matthen, B Sc, MA, Ph D (UTM)  
 S.R. Moreau, BA, B Phil, Ph D, JD  
 G.S. Rattan, B Sc, Ph D (UTM)  
 J. Nagel, MA, Ph D (UTM)  
 D. Novak, MHL, Ph D (U)  
 D. Raffman, BA, Ph D (UTM)  
 M. Rosenthal, BA, MA, Ph D  
 M. Rozemond, Kand., Ph D (UTM)  
 W.E. Seager, MA, Ph D (UTSC)  
 S. Tenenbaum, BA, MA, Ph D (UTM)  
 D. Walsh, BSc, Ph D, BA, M Phil, Ph D  
 J. Wilson, BA, Ph D (UTSC)  
 B. Yi, MA, Ph D (UTM)

### Associate Professors

M. Caie, BA, Ph D  
 N. Charlow, BA, MA, Ph D (UTM)  
 P. Clark, BA, Ph D (UTM)  
 F. Huber, MA, Ph D  
 K. Hübner, BA, MA, Ph D (UTSC)  
 S.A. Sedivy, BA, Ph D (UTSC)  
 A. Sepielli, AB, JD, Ph D (UTM)  
 N. Stang, AB, Ph D  
 J. Weisberg, BA, Ph D (UTM)

### Assistant Professors

B. Babic, BA, JD, MS, Ph D  
 D. Barnett, BA, Ph D  
 B. De Kenessey, BA, Ph D  
 A. Franklin-Hall, BA, Ph D  
 E. Freschi, BA, MA, Ph D  
 J. Gelber, BA, Ph D  
 M. Miller, BA, MA, Ph D  
 J. Nefsky, BA, Ph D (UTSC)  
 C. Pfeiffer, MA, D. Phil (UTSC)  
 S. Swarup, BA, MA, Ph D  
 T. Teitel, BA B Phil, Ph D  
 O. Ware BA, Ph D (UTM)

**Assistant Professors, Teaching Stream**

A. Koo, BA, Ph D

**Lecturer**

J.A. Thomson BA, PhD

## Introduction

The Greek words from which “Philosophy” is formed mean “love of wisdom” and all great philosophers have been moved by an intense devotion to the search for wisdom. Philosophy takes no belief for granted, but examines the grounds for those beliefs which make up people’s fundamental views of the world. Philosophers think about these beliefs as thoroughly and systematically as possible, using methods of conceptual analysis, reasoning, and detailed description.

What distinguishes Philosophy from the physical and social sciences is its concern not only with the truths which are discovered by means of specialized methods of investigation, but with the implications that such discoveries have for human beings in their relations with one another and the world. Moreover, Philosophy has an abiding interest in those basic assumptions about the nature of the physical and social world, and about the nature of enquiry itself, which underlie our scientific and practical endeavours.

The Philosophy Department at the University of Toronto offers courses in most of the main periods and areas of Philosophy, which are listed here with a typical question or the name of one or two central figures: Ancient Philosophy (Plato, Aristotle); Mediaeval Philosophy (Augustine, Aquinas); Early Modern Philosophy (Descartes, Hume, Kant); Nineteenth-Century Philosophy (Hegel, Mill, Marx); Global Philosophy (Chinese, Islamic, Jewish, Sanskrit, South Asian Philosophies), Continental Philosophy and Phenomenology (Husserl, Heidegger, Sartre); Analytic Philosophy (Quine, Russell, Wittgenstein); Epistemology and Metaphysics (What can be known? What is the ultimate nature of reality?); Moral Philosophy (How should we argue rationally about right and wrong?); Philosophy of Mind (What is mind? Is there free will?); Logic and Philosophy of Mathematics (What is sound reasoning? Do numbers exist?); Philosophy of Language (What is the meaning of “meaning”?); Philosophy of Natural Science (What is scientific method?); Social and Political Philosophy (What justifies the state?); Aesthetics (What is art? Must it be beautiful?). In addition, the Department offers Seminars (numbered [PHL400H1](#) - [PHL488H1](#)), Individual Studies courses (numbered [PHL495H1](#) - [PHL499H1](#)) and the Socrates Project ([PHL489Y1](#)).

Counselling is available in the main departmental office, 170 St. George St., 4th floor. In particular, students may wish to get advice about how best to combine philosophy programs with other majors or minors, given that various co-specialist programs with other disciplines have been

discontinued. In addition, the Department publishes an annual Bulletin. It contains full and up-to-date information on programs and courses, including names of instructors and descriptions of particular course sections. The Bulletin is published in the summer (for the succeeding year) and is available on the Department’s website and at 170 St. George Street.

Undergraduate Coordinator:

Prof. Jim John, 170 St. George Street, Room 521 (416-978-3314), [undergrad.phil@utoronto.ca](mailto:undergrad.phil@utoronto.ca)

Undergraduate Counsellor:

Mr. Eric Correia, 170 St. George Street, Room 403 (416-978-3314), [eric.correia@utoronto.ca](mailto:eric.correia@utoronto.ca)

## Philosophy Programs

### Bioethics Specialist (Arts Program) - ASSPE1001

**Enrolment Requirements:**

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

**Completion Requirements:**

10.0 credits, including at least 4.0 credits at the 300+ level, of which 1.0 credit must be at the 400-level

First year (recommended):

[PHL100Y1](#)/ [PHL101Y1](#)  
[BIO120H1](#), [BIO220H1](#)

Higher Years (required):

1. [PHL281H1](#), [PHL271H1](#), [PHL275H1](#)
2. [PHL245H1](#)/ [PHL246H1](#)
3. 1.5 credits from Group 1 (Advanced Bioethics)
4. 1.0 credit from Group 2 (Value Theory)
5. 0.5 credit from Group 3 (Metaphysics and Epistemology)
6. Additional philosophy courses, to a total of 10.0 credits, or else additional philosophy courses to a total of 9.0 credits and 1.0 credit from Group 4 (Interdisciplinary)

*Group 1 - Advanced Bioethics:*

[PHL380H1](#), [PHL381H1](#), [PHL382H1](#), [PHL383H1](#),  
[PHL384H1](#), [PHL440H1](#), [PHL470H1](#)

**Group 2 - Value Theory:**

PHL265H1, PHL295H1, PHL365H1, PHL366H1,  
PHL370H1, PHL375H1, PHL407H1, PHL412H1,  
PHL413H1, PHL483H1

**Group 3 - Metaphysics and Epistemology:**

PHL232H1, PHL233H1, PHL240H1, PHL331H1,  
PHL332H1, PHL340H1, PHL341H1, PHL342H1,  
PHL355H1, PHL357H1, HPS250H1

**Group 4 - Interdisciplinary:**

ANT348H1, GER338H1, GGR340H1, HIS423H1,  
HIS489H1, HMB201H1, HMB202H1, HPS318H1,  
HPS319H1, JHE353H1, SOC243H1, SOC309H1,  
SOC363H1, SOC427H1, WGS367H1

## Philosophy Specialist (Arts Program) - ASSPE0231

**Enrolment Requirements:**

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

**Completion Requirements:**

(10.0 credits, including PHL100Y1/ PHL101Y1 if taken)

First year (recommended):

PHL100Y1/ PHL101Y1

Higher Years (required):

- 2.0 credits from the following: PHL200Y1/( PHL205H1, PHL206H1)/ PHL210Y1
- 1.0 credit from the following: PHL217H1/ PHL232H1/ PHL233H1/ PHL240H1
- PHL265H1/ PHL275H1
- PHL245H1/ PHL246H1
- Additional philosophy courses, to a total of 10.0 credits, including 4.0 PHL credits at the 300+ level, of which 1.0 credit must be at the 400-level.

## Physics and Philosophy Specialist (Science Program) - ASSPE2584

Physics has deep historical roots in natural philosophy and many aspects of contemporary Physics raise profound philosophical questions about the nature of reality. The interdisciplinary Physics and Philosophy Program allows the student to engage with both Physics and Philosophy at their deepest levels, and to more fully explore the connections between them.

Consult Associate Chair (Undergraduate Studies), Department of Physics or Philosophy.

**Enrolment Requirements:**

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

**Completion Requirements:**

(15.0 credits, including at least 1.5 credits at the 400-level)

First Year: (2.5 credits)

( MAT135H1, MAT136H1)/ MAT137Y1/ MAT157Y1,  
MAT223H1/ MAT240H1, PHY131H1/ PHY151H1,  
PHY132H1/ PHY152H1 (The courses MAT137Y1,  
MAT223H1, PHY151H1, PHY152H1 are recommended.)

First or Second Year: (1.5 credits)

1.5 credits of: PHL232H1/ PHL233H1/ PHL240H1/  
PHL245H1/ HPS250H1/ PHL255H1 ( PHL245H1 may  
only be counted here if MAT157Y1 is not taken)

Second Year: (3.0 credits)

MAT237Y1/ MAT257Y1/ MAT235Y1, MAT244H1/  
MAT267H1, PHY250H1, PHY254H1, PHY256H1 (The  
courses MAT237Y1, MAT244H1 are recommended.)

Third Year: (2.0 credits)

MAT334H1/ MAT354H1, PHY252H1, ( PHY350H1/  
PHY354H1), PHY356H1

Fourth Year: (1.0 credit)

PHY456H1, PHY491H1

Any Year: (5.0 credits)

( PHL345H1/ PHL347H1), PHL355H1, PHL356H1,  
( PHL415H1/ PHL455H1/ PHL482H1), plus 1.0 credit of  
( PHL325H1/ PHL331H1/ PHL332H1/ PHL346H1/  
PHL354H1/ PHL357H1) plus 2.0 additional PHL credits, at  
least 0.5 credit of which must be from Course Group 2 -  
Value Theory (The courses PHL265H1, PHL275H1 are  
recommended.)

**Group 2 - Value Theory:**

PHL265H1, PHL295H1, PHL365H1, PHL366H1,  
PHL370H1, PHL375H1, PHL407H1, PHL412H1,  
PHL413H1, PHL483H1

## Bioethics Major (Arts Program) - ASMAJ1001

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

7.0 credits, including at least 2.0 credits at the 300+ level, of which one 0.5 credit must be at 400-level.

First year (recommended):

PHL100Y1/ PHL101Y1  
BIO120H1, BIO220H1

Higher Years (required):

1. PHL281H1
2. PHL245H1/ PHL246H1
3. 1.0 credit from Group 1 (Advanced Bioethics)
4. 1.5 credits from PHL271H1 / PHL275H1 / Group 2 (Value Theory)
5. 0.5 credit from Group 3 (Metaphysics and Epistemology)
6. Additional philosophy courses, to a total of 7.0 credits, or else additional philosophy courses to a total of 6.5 credits, plus one 0.5 credit from Group 4 (Interdisciplinary)

*Group 1 - Advanced Bioethics:*

PHL380H1, PHL381H1, PHL382H1, PHL383H1,  
PHL384H1, PHL440H1, PHL470H1

*Group 2 - Value Theory:*

PHL265H1, PHL295H1, PHL365H1, PHL366H1,  
PHL370H1, PHL375H1, PHL407H1, PHL412H1,  
PHL413H1, PHL483H1

*Group 3 - Metaphysics and Epistemology:*

PHL232H1, PHL233H1, PHL240H1, PHL331H1,  
PHL332H1, PHL340H1, PHL341H1, PHL342H1,  
PHL355H1, PHL357H1, HPS250H1

*Group 4 - Interdisciplinary:*

ANT348H1, GER338H1, GGR340H1, HIS423H1,  
HIS489H1, HMB201H1, HMB202H1, HPS318H1,  
HPS319H1, JHE353H1, SOC243H1, SOC309H1,  
SOC363H1, SOC427H1, WGS367H1

## Philosophy Major (Arts Program) - ASMAJ0231

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(7.0 credits, including PHL100Y1/ PHL101Y1 if taken)

First year (recommended):

PHL100Y1/ PHL101Y1

Higher Years (required):

1. 1.0 credit from the following: PHL200Y1/ ( PHL205H1, PHL206H1)/ PHL210Y1
2. 1.0 credit from the following: PHL217H1/ PHL232H1/ PHL233H1/ PHL240H1
3. PHL265H1/ PHL275H1
4. PHL245H1/ PHL246H1
5. Additional philosophy courses, to a total of 7.0 credits, including 2.0 PHL credits at the 300+ level, of which one 0.5 credit must be at the 400-level.

## Bioethics Minor (Arts Program) - ASMIN1001

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits including at least 1.0 credit at the 300+ level)

1. PHL281H1
2. PHL245H1/ PHL246H1
3. 0.5 credit from Group 1 (Advanced Bioethics)
4. 1.0 credit from PHL271H1 / PHL275H1 / Group 2 (Value Theory)
5. Additional philosophy courses to a total of 4.0 credits

*Group 1 - Advanced Bioethics:*

PHL380H1, PHL381H1, PHL382H1, PHL383H1,  
PHL384H1, PHL440H1, PHL470H1

*Group 2 - Value Theory:*

PHL265H1, PHL295H1, PHL365H1, PHL366H1,  
PHL370H1, PHL375H1, PHL407H1, PHL412H1,  
PHL413H1, PHL483H1

## Mathematics and Philosophy Specialist (Science Program) - ASSPE1361

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

Consult the Undergraduate Coordinators of the Departments of Mathematics and Philosophy.

(12.0 credits including at least 1.0 credit at the 400-level)

Year 1:

MAT157Y1, MAT240H1, MAT247H1; One of PHL232H1, PHL233H1, PHL255H1

Students in this program have the option to complete the Arts & Science Internship Program (ASIP) stream or PEY Co-op.

**Note:** September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op. Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in PEY Co-op. Students starting Year 2 in Fall 2021 or later will only be eligible to participate in the Arts & Science Internship Program stream.

Higher Years:

- MAT257Y1, MAT327H1, MAT347Y1, MAT354H1/MAT357H1
- PHL345H1, MAT309H1/PHL348H1
- Four of: PHL325H1, PHL331H1, PHL332H1, PHL346H1/PHL354H1, PHL347H1, PHL349H1, PHL355H1, PHL451H1, PHL480H1
- 1.0 credit from PHL200Y1/PHL205H1/PHL206H1/PHL210Y1
- PHL265H1/PHL275H1
- 2.0 credits of PHL/APM/MAT at the 300+ level, to a total of 12.0 credits.

NOTE: Students may apply to have graduate level math courses count towards their 400-level course requirements.

## Philosophy Minor (Arts Program) - ASMIN0231

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits, including PHL100Y1/PHL101Y1 if taken)

- 1.0 credit from the following: PHL200Y1/PHL205H1/PHL206H1/PHL210Y1/PHL217H1/PHL232H1/PHL233H1/PHL240H1/PHL265H1/PHL275H1
- Additional philosophy courses, to a total of 4.0 credits, including 1.0 credit at the 300+ level.

## Environmental Ethics (Arts Program): see School of the Environment

## Regarding Philosophy Courses

The following courses do not have PHL prefixes but may still be counted towards a philosophy program. Students should consult the primary listings for their course descriptions: COG250Y1, COG401H1, HPS250H1, TRN200Y1.

### 300-LEVEL COURSES

All 300-level courses have a prerequisite of 1.5 credits (or equivalent) in philosophy, with the exception of PHL345H1 - PHL349H1 and PHL356H1. There is also a general prerequisite of 7.5 credits (in any field). Only specific courses required or recommended are listed below. Students who do not meet the prerequisite for a particular course but believe that they have adequate preparation must obtain the permission of the instructor to gain entry to the course.

### 400-LEVEL COURSES

- The general prerequisite for ALL 400-level courses is 4.0 credits in philosophy. Most courses also have specific prerequisites. Students who do not meet the prerequisite for a particular course but believe that they have adequate preparation must obtain the permission of the instructor in order to gain entry to the course.
- PHL400H1-PHL451H1 are undergraduate-level courses. PHL470H1-PHL488H1 are cross-listed graduate courses, available to undergraduates as well. Enrolment in cross-listed graduate courses requires the permission of the instructor and the Department in addition to the completion of the prerequisites indicated below.

3. Students in 400-level courses must attend the first class, or contact the instructor to explain their absence. Failure to do so may result in removal from the course.
4. Individual Studies courses (PHL495H1/PHL496H1/PHL497H1), which involve directed study and research, are available to advanced students. Arrangements must be made with a faculty supervisor, and approval of the Undergraduate Coordinator obtained before registration.
5. No more than one individual studies credit can be counted towards any philosophy program and normally, no more than one individual studies half credit can be counted towards the 400-level course requirement for any Specialist or Combined Specialist Philosophy program.
6. The Socrates Project (PHL489Y1) is a special enrolment course. If you are interested in this course, please contact the department.

## Philosophy Courses

### PHL100Y1 - Introduction to Philosophy (Historical)

**Hours:** 48L/24T

An introduction to the central branches of philosophy, such as logic, theory of knowledge, metaphysics, ethics, and political philosophy. Writings from the central figures in the history of Western and non-Western philosophy, as well as contemporary philosophers, may be considered.

**Exclusion:** PHL101Y1, PHL201H1, PHLA10H3, PHLA11H3, PHL101H5, PHL102H5, PHL105Y5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### PHL101Y1 - Introduction to Philosophy (Thematic)

**Hours:** 48L/24T

An introduction to some of the central problems of philosophy. Examples of questions that may be considered include: What is sound reasoning? What can we know? What is ultimately real? Is morality rational? Do humans have free will? Is there a God? What is consciousness? Should we fear death? What is justice?

**Exclusion:** PHL100Y1, PHL201H1, PHLA10H3, PHLA11H3, PHL101H5, PHL102H5, PHL105Y5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

### PHL196H1 - Multiculturalism, Philosophy and Film

**Hours:** 48S

This course will critically examine the role of cinema in the construction and exploration of the figure of the racial, ethnic, cultural and social "other". Our topics will include (1) racial, ethnic and cultural identity and its reciprocal relationship with cinema, (2) the notion of realism in relation to the representation of race and ethnicity in film, (3) the cinematic representation of inter-ethnic and intra-ethnic conflict, (4) the position of cinema in the debate between assimilation and multiculturalism, and (5) the ways in which cinema can help illuminate a cluster of relevant notions in political philosophy including citizenship, communitarianism, cosmopolitanism, and the relation between individual rights and group rights. Films will be screened in class and discussed against the background of focused critical readings. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### PHL197H1 - Introduction to Philosophical Anthropology

**Hours:** 24S

Philosophical anthropology is the subject that poses the most fundamental questions about human nature and the human condition. Taking as its point of departure the most up-to-date scientific understanding of human nature, from anthropology broadly conceived, it goes on to inquire, in a disciplined fashion, about the implications of these views for perennial philosophical questions about human rationality, morality, the possibility of progress, the existence of god and the meaning of life. This course will examine one or more topics in this domain, as a more general introduction to the discipline. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL198H1 - Philosophy of Time

**Hours:** 24S

The passage of time is a fundamental aspect of human experience: we are born, we grow older, and eventually we pass away. During our lives our experience of the past, present, and future are distinct. We can influence the world in the present and the future, but it does not seem that we can influence the past. We have hopes about the future, memories of the past, and experiences of the present. In this seminar we will explore insights from contemporary philosophy and physics concerning the nature of the passage of time. Questions to be considered may include the following: What does it mean to say that time passes? Does time really pass at all? How do we experience time? Why can we influence the future but not the past? Is it possible to travel backward in time? Is time even real? What is time? Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHL199H1 - Ethics and Fiction

**Hours:** 24S

The goal of this seminar is to investigate ethical questions via works of fiction, primarily novels. The idea is not to see fiction as a pedantic vehicle for ethical argument, but rather to consider how, and with what effect, fiction functions as an ethical medium. We will not judge characters as 'likeable' or 'relatable'; rather, we will reflect on what fiction can teach us about the pressing challenges of choice and responsibility, and how it can (perhaps) enhance empathy.

The focus is on issues of individual identity and integrity: creating and maintaining oneself as a moral whole within environments hostile or indifferent to that end. All the works considered are novels or plays from the period between about 1900 and 2020—for convenience, the 'modern' and 'postmodern' ages, though we will query those notions. A running theme in the chosen readings is what is usually called 'existential' philosophy, but we will query the validity of that label as well. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL200Y1 - Ancient Philosophy

**Hours:** 72L

Central texts of the pre-Socratics, Plato, Aristotle, and post-Aristotelian philosophy.

**Exclusion:** PHLB31H3, PHL202H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL201H1 - Introductory Philosophy

**Hours:** 36L

An introduction to philosophy focusing on the connections among its main branches: logic, theory of knowledge, metaphysics, and ethics. This course is intended for those with little or no philosophy background but who have completed Year 1 in any area of study.

**Prerequisite:** 4.0 credits in any subject

**Exclusion:** [PHL100Y1](#), [PHL101Y1](#), or more than 1.0 PHL course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL205H1 - Early Medieval Philosophy

**Hours:** 36L

A study of issues such as the relations of reason and faith, the being and the nature of God, and the problem of universals, in the writings of such philosophers as Augustine, Boethius, Anselm and Abelard.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL206H1 - Later Medieval Philosophy

**Hours:** 36L

A study of issues such as the relations of reason and faith, the being and the nature of God, and the structure of the universe, in the writings of such philosophers as Aquinas and Ockham.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL210Y1 - 17th-and 18th-Century Philosophy

**Hours:** 72L

Central texts of such philosophers as Hobbes, Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant.

**Exclusion:** PHLB35H3, PHL210Y5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL217H1 - Introduction to Continental Philosophy

**Hours:** 36L

An introduction to some of the post-Hegelian thinkers who inspired the various philosophical movements broadly referred to as continental, such as phenomenology, existentialism, deconstruction, and post-modernism. Questions include the will, faith, death, existence, history and politics, rationality and its limits, encountering an other. Authors studied may include: Kierkegaard, Schopenhauer, Nietzsche, Marx, Freud, Heidegger, Sartre.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL232H1 - Knowledge and Reality

**Hours:** 36L

An introduction to issues in the fundamental branches of philosophy: metaphysics, which considers the overall framework of reality; epistemology, or the theory of knowledge; and related problems in the philosophy of science. Topics in metaphysics may include: mind and body, causality, space and time, God, freedom and determinism; topics in epistemology may include perception, evidence, belief, truth, skepticism.

**Exclusion:** PHLB20H3, PHLB60H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL233H1 - Philosophy for Scientists

**Hours:** 24L/12T

An introduction to philosophy tailored for students with backgrounds in mathematics and science. Topics include causation, explanation, the relation between scientific and mathematical theories and reality, the role of mathematics in scientific theories, the relevance of scientific and mathematical discoveries to 'big' traditional philosophical questions such as the nature of consciousness, whether we have free will, and the meaning of life.

**Corequisite:** 1.0 credit in Mathematics, Physics, Chemistry, Engineering, or Computer Science

**Recommended Preparation:** Background in science and/or mathematics will be presupposed.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL235H1 - Philosophy of Religion

**Hours:** 36L

Some central issues in the philosophy of religion such as the nature of religion and religious faith, arguments for the existence of God, the problem of evil, varieties of religious experience, religion and human autonomy.

**Exclusion:** PHL235H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL237H1 - Introduction to Chinese Philosophy

**Hours:** 36L

A historical introduction to Chinese philosophy, covering selected figures and texts from the Warring States period through the Qīng dynasty. Schools of thought covered include Confucianism, Mohism, Daoism, Legalism, "Profound Learning," Neo-Confucianism, and "Evidential Learning." Texts and thinkers include the Confucian Analects, Mòzǐ, Mèngzǐ, Xúnzǐ, Dàodéjīng, Zhuāngzǐ, Hán Fēi, Guō Xiàng, Zhū Xī, Wáng Yángmíng, and Dài Zhèn.

**Exclusion:** [EAS241H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL238H1 - Critical Reasoning

**Previous Course Number:** PHL247H1

**Hours:** 36L

The area of informal logic - the logic of ordinary language, usually non-deductive. Criteria for the critical assessment of arguments as strong or merely persuasive. Different types of arguments and techniques of refutation; their use and abuse.

**Exclusion:** TRN200Y1, PHL247H1, PHL145H5, PHL238H5, PHL247H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL239H1 - Introduction to South Asian Philosophy

**Hours:** 36L

An introduction to the main schools, thinkers, and topics in the philosophical thought of the Sanskrit world, covering various topics, from epistemology to philosophy of religion. Students will get acquainted with one of the world's richest philosophical traditions and its challenges.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL240H1 - Persons, Minds and Bodies

**Hours:** 36L

Consciousness and its relation to the body; personal identity and survival; knowledge of other minds; psychological events and behaviour.

**Exclusion:** PHLB81H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL243H1 - Philosophy of Human Sexuality

**Hours:** 36L

Philosophical issues about sex and sexual identity in the light of biological, psychological and ethical theories of sex and gender; the concept of gender; male and female sex roles; perverse sex; sexual liberation; love and sexuality.

**Exclusion:** PHLB12H3, PHL243H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL244H1 - Human Nature

**Hours:** 36L

Aspects of human nature, e.g., emotion, instincts, motivation. Theories of human nature, e.g., behaviourism, psychoanalysis.

**Exclusion:** PHLB91H3, PHL244H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL245H1 - Modern Symbolic Logic

**Hours:** 36L

An introduction to formal deductive logic. Semantics, symbolization, and techniques of natural deduction in sentential logic. Symbolization, natural deduction, and models in monadic predicate logic. Symbolization and natural deduction with polyadic predicates. Introduction to advanced concepts in first-order logic, such as operations, identity, and models.

**Exclusion:** PHLB50H3, PHL245H5

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL246H1 - Probability and Inductive Logic

**Hours:** 36L

The elements of axiomatic probability theory and its main interpretations (frequency, logical, and subjective). Reasoning with probabilities in decision-making and science.

**Exclusion:** PHL246H5

**Recommended Preparation:** PHL245H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL255H1 - Philosophy of Science

**Hours:** 24L/12T

This course is an introduction to contemporary topics in the philosophy of science which serves as preparation for more advanced study in general philosophy of science and philosophy of the particular sciences. Topics may include the rise and fall of logical positivism, the problem

of demarcation, falsificationism, confirmation, the connection between theory and observation, the value free ideal, and the epistemic authority of scientists.

**Exclusion:** [HPS250H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHL256H1 - Philosophy in the Age of the Internet

**Hours:** 36L

The internet and digital technology have had a transformative impact on the economy, society and politics, art and culture, and everyday life. This course explores the fascinating, often urgent, new philosophical questions raised by these changes as well as the way they invite a rethinking of many older philosophical questions. Topics to be addressed may include artificial intelligence and the singularity; identity through social media; digital ownership and privacy; and collective/distributed knowledge its relation to information, among others.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL265H1 - Introduction to Political Philosophy

**Hours:** 36L

An introduction to central issues in political philosophy, e.g., political and social justice, liberty and the criteria of good government. The writings of contemporary political philosophers, as well as major figures in the history of philosophy, may be considered.

**Exclusion:** [PHLB17H3](#), [PHL265H5](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## PHL268H1 - Philosophy and Social Criticism

**Hours:** 36L

Is the objective of philosophy to understand and interpret the world, or to change it? A study of theorists who have taken philosophy to be a tool for social criticism. Topics studied may include feminism, critical race theory, anti-

consumerism, the critique of mass society, and conservative cultural criticism.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## PHL271H1 - Law and Morality

**Hours:** 36L

Justifications for the legal enforcement of morality; particular ethical issues arising out of the intersection of law and morality, such as punishment, freedom of expression and censorship, autonomy and paternalism, constitutional protection of human rights.

**Exclusion:** [PHLB11H3](#), [PHL271H5](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## PHL273H1 - Environmental Ethics

**Hours:** 36L

A study of environmental issues raising questions of concern to moral and political philosophers, such as property rights, responsibility for future generations, and the interaction of human beings with the rest of nature. Typical issues: sustainable development, alternative energy, the preservation of wilderness areas, animal rights.

**Exclusion:** [PHLB02H3](#), [PHL273H5](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## PHL275H1 - Introduction to Ethics

**Hours:** 36L

An introduction to central issues in ethics or moral philosophy, such as the objectivity of values, the nature of moral judgements, rights and duties, the virtues, and consequentialism. Readings may be drawn from a variety of contemporary and historical sources.

**Exclusion:** [PHLB07H3](#), [PHL275H5](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL281H1 - Bioethics

**Hours:** 36L

An introduction to the study of moral and legal problems in medical practice and in biomedical research; the development of health policy. Topics include: concepts of health and disease, patient rights, informed consent, allocation of scarce resources, euthanasia, abortion, genetic and reproductive technologies, human research, and mental health.

**Exclusion:** PHLB09H3, PHL283H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## PHL285H1 - Aesthetics

**Hours:** 36L

An historical and systematic introduction to the main questions in the philosophy of art and beauty from Plato to the present. These include the relation between art and beauty, the nature of aesthetic experience, definitions and theories of art, the criteria of excellence in the arts, and the function of art criticism.

**Exclusion:** PHLB03H3, PHL285H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## PHL295H1 - Business Ethics

**Hours:** 36L

Philosophical issues in ethics, social theory, and theories of human nature insofar as they bear on contemporary conduct of business. Issues include: Does business have moral responsibilities? Can social costs and benefits be calculated? Does modern business life determine human nature or the other way around? Do political ideas and institutions such as democracy have a role within business?

**Exclusion:** PHLB06H3, PHL295H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## PHL299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research>

-opportunities/research-opportunities-program. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## PHL301H1 - Early Greek Philosophy

**Hours:** 36L

A study of selected Greek philosophers before Plato. Topics may include the Pre-Socratic natural philosophers, Parmenides and the Eleatics, and the so-called sophistic movement.

**Prerequisite:** PHL200Y1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL302H1 - Ancient Philosophy After Aristotle

**Hours:** 36L

A study of selected themes in post-Aristotelian philosophy. Topics may include Stoicism, Epicureanism, Neoplatonism, and various forms of scepticism.

**Prerequisite:** PHL200Y1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL303H1 - Plato

**Hours:** 36L

Selected metaphysical, epistemological, and ethical themes in Plato's dialogues.

**Prerequisite:** PHL200Y1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHL301H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL304H1 - Aristotle

**Hours:** 36L

Selected anthropological, ethical and metaphysical themes in the works of Aristotle.

**Prerequisite:** PHL200Y1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHL302H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL307H1 - Augustine

**Hours:** 36L

Central themes in St. Augustine's Christian philosophy, such as the problem of evil, the interior way to God, the goal of human life and the meaning of history.

**Prerequisite:** PHL200Y1/PHL205H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL308H1 - Aquinas

**Hours:** 36L

Philosophical innovations that St. Thomas Aquinas made in the course of constructing a systematic theology: essence and existence, the Five Ways, separate intelligences, the human soul and ethics.

**Prerequisite:** PHL200Y1/PHL205H1/PHL206H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL309H1 - Topics in Medieval Philosophy

**Hours:** 36L

Study of a major philosophical figure from the medieval period, such as Anselm, Abelard, Bonaventure, Maimonides, Avicenna, Duns Scotus, William of Ockham; or consideration of a central philosophical topic in a variety of medieval authors, for example, universals, individuation, the existence of God, free will and free choice, eternity and creation.

**Prerequisite:** PHL200Y1/PHL205H1/PHL206H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL310H1 - The Rationalists

**Hours:** 36L

Central philosophical problems in philosophers such as Descartes, Spinoza, Leibniz, and their contemporaries.

**Prerequisite:** PHL210Y1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHLC35H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL311H1 - The Empiricists

**Hours:** 36L

Central philosophical problems in philosophers such as Locke, Berkeley, Hume, and their contemporaries.

**Prerequisite:** PHL210Y1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHLC36H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL313H1 - Topics in 17th and 18th Century Philosophy

**Hours:** 36L

Central philosophical problems arising in the early modern period.

**Prerequisite:** PHL210Y1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHL313H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL314H1 - Kant

**Hours:** 36L

A systematic study of The Critique of Pure Reason.

**Prerequisite:** [PHL210Y1](#), 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHLC37H3, PHL314H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL315H1 - Topics in 19th-Century Philosophy

**Hours:** 36L

Central philosophical problems arising in the 19th century.

**Prerequisite:** [PHL210Y1](#), 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHL315H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL316H1 - Hegel

**Hours:** 36L

An examination of Hegel's project of absolute knowing, its philosophical assumptions, and its implications for history, science and experience.

**Prerequisite:** [PHL210Y1](#), 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL317H1 - Marx and Marxism

**Hours:** 36L

An examination of some of the leading themes in the philosophy of Karl Marx. Developments of Marxist philosophy by later thinkers, and critics of Marxism, may also be considered.

**Prerequisite:** 7.5 courses (in any field) with at least 1.5 in philosophy

**Recommended Preparation:** [PHL265H1](#)/[POL200Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL319H1 - Philosophy and Psychoanalytic Theory

**Hours:** 36L

A study of the fundamentals of psychoanalytic theory from a philosophical perspective, focusing on the works of Freud and others. Topics include mind (conscious and unconscious), instinctual drives, mechanisms of defence, the structure of personality, civilization, the nature of conscience, and the status of psychoanalysis.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL320H1 - Phenomenology

**Hours:** 36L

Phenomenology is a method used in the analysis of human awareness and subjectivity. It has been applied in the social sciences, in the humanities, and in philosophy. Texts studied are from Husserl and later practitioners, e.g., Heidegger, Sartre, Merleau-Ponty, Gurwitsch, and Ricoeur.

**Prerequisite:** [PHL210Y1](#)/[PHL217H1](#), 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL321H1 - Heidegger

**Hours:** 36L

Some work from the 1920s (either *Being and Time* or contemporary lectures) and selections from Heidegger's later work on poetry, technology, and history are studied. Heidegger's position within phenomenology and within the broader history of thought is charted.

**Prerequisite:** [PHL217H1](#), 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL322H1 - Contemporary Continental Philosophy

**Hours:** 36L

German and French philosophy after World War II, focusing on such topics as: debates about humanism, hermeneutics, critical theory, the structuralist movement, its successors such as deconstruction. Typical authors: Heidegger, Gadamer, Habermas, Levi-Strauss, Foucault, Derrida.

**Prerequisite:** PHL217H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHL324H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL323H1 - Social and Cultural Theory

**Hours:** 36L

A study of philosophical approaches to understanding various aspects of contemporary culture and/or society. Topics may include theories of modernity, capitalism and consumerism, architecture and design, cultural pluralism, globalization, media and internet.

**Prerequisite:** 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## PHL325H1 - Early Analytic Philosophy

**Hours:** 36L

An examination of some of the classic texts of early analytic philosophy, concentrating on the work of Frege, Russell, and Wittgenstein.

**Prerequisite:** PHL245H1/MAT157Y1 and one of PHL232H1/PHL233H1/PHL240H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHLC43H3, PHL325H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL331H1 - Metaphysics

**Hours:** 36L

Historical and systematic approaches to topics in metaphysics, such as the nature of reality, substance and existence, necessity and possibility, causality, universals and particulars.

**Prerequisite:** 7.5 credits with at least 1.5 PHL credits, including (PHL245H1/MAT157Y1), (PHL232H1/PHL233H1/PHL240H1)

**Exclusion:** PHLC60H3, PHL332H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL332H1 - Epistemology

**Hours:** 36L

Historical and systematic approaches to topics in the theory of knowledge, such as truth, belief, justification, perception, a priori knowledge, certitude, skepticism, other minds.

**Prerequisite:** PHL232H1/PHL233H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHLC20H3, PHL333H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL333H1 - Puzzles and Paradoxes

**Hours:** 36L

Time travel, truth, infinity, rational decision making: each of these topics gives rise to philosophical puzzles and paradoxes. In this class we'll consider a variety of such paradoxes. Using logic and other philosophical tools, we'll show how these paradoxes can lead to deep and important philosophical conclusions.

**Prerequisite:** 7.5 credits, with at least 1.5 credits in philosophy, PHL245H1/MAT157Y1

**Exclusion:** PHLB55H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL334H1 - Mind and Language in Chinese Thought

Issues in the philosophy of mind and language played a crucial role in the philosophical discourse of classical China. This course will guide students in reconstructing this role and exploring its philosophical significance by interpreting and critically evaluating selected early Chinese philosophical texts that treat mind, language, and interrelated aspects of psychology. Topics to be discussed include the nature and functions of names and speech; the role of "correcting names"; semantic theory and argumentation; perception and knowledge; the role of language in knowledge and action; and the ontological

grounds of linguistic distinctions. Texts to be discussed include the Analects, Guānzǐ, Mòzǐ, Mèngzǐ, Dàodéjīng, Xúnzǐ, Zhuāngzǐ, and Annals of Mr. Lǚ.

**Prerequisite:** 7.5 credits, with at least 1.5 PHL credits including [PHL237H1](#)

**Exclusion:** [EAS338H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL335H1 - Issues in Philosophy of Religion

**Hours:** 36L

Some specific problem(s) in the philosophy of religion, such as the relationship of religious faith and religious belief, the ontological argument for the existence of God, theories about divine transcendence, the philosophical presuppositions of religious doctrines, the modern critique of religion.

**Prerequisite:** 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL336H1 - Islamic Philosophy

**Hours:** 36L

An introduction to the major thinkers in classical Islamic philosophy, with emphasis placed on developing a properly philosophical understanding of the issues and arguments. Topics include the existence of God; creation and causality; human nature and knowledge; the nature of ethical obligations; and the constitution of the ideal political state.

**Prerequisite:** [PHL200Y1](#), 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL337H1 - Classical Chinese Ethics

**Hours:** 36L

This course explores and critiques personal and social ethical ideals as presented in early Chinese Confucian, Mohist, and Daoist writings and considers their relevance to issues in contemporary ethics. Major texts discussed

include the Analects, Mèngzǐ, Xúnzǐ, Mòzǐ, Dàodéjīng, and Zhuāngzǐ. Central questions examined include: What is the way (dào)? What standards can guide us in following the way? What grounds can we have for confidence that these are the correct standards? What kind of person should we strive to be? What is virtue (dé)? What values take priority in a life of virtue? How does the person of virtue act?

**Prerequisite:** 7.5 credits, with at least 1.5 PHL credits including [PHL237H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL338H1 - Jewish Philosophy

**Hours:** 36L

A selection of texts and issues in Jewish philosophy, for example, Maimonides' Guide of the Perplexed, Buber's The Prophetic Faith, prophecy and revelation, Divine Command and morality, creation and eternity, the historical dimension of Jewish thought.

**Prerequisite:** 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL339H1 - Topics in South Asian Philosophy

**Hours:** 36L

An intermediate level study of one or more topics in South Asian Philosophy.

**Prerequisite:** 7.5 credits (in any field) with at least 1.5 credits in Philosophy

**Recommended Preparation:** [PHL239H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL340H1 - Issues in Philosophy of Mind

**Hours:** 36L

Typical issues include: the mind-brain identity theory; intentionality and the mental; personal identity.

**Prerequisite:** One of [COG250Y1/PHL240H1](#), 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHLC95H3, PHL340H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL341H1 - Freedom, Responsibility, and Human Action

**Hours:** 36L

Human action, and the nature of freedom and responsibility in the light of contemporary knowledge concerning the causation of behaviour.

**Prerequisite:**

[PHL210Y1/PHL232H1/PHL233H1/PHL240H1](#), 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHL341H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL342H1 - Minds and Machines

**Hours:** 36L

Topics include: philosophical foundations of artificial intelligence theory; the computational theory of the mind; functionalism vs. reductionism; the problems of meaning in the philosophy of mind.

**Prerequisite:** 7.5 courses (in any field) including [COG250Y1](#) or at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL344H1 - Philosophy of Emotions

**Hours:** 36L

A survey of philosophical topics related to the emotions, from a range of philosophical perspectives. Questions to be considered may include the following: What exactly is an emotion? Are emotions feelings? What emotions are there, and how are they shaped by culture and society? How are emotions related to reason, the brain and the body? What role do -- and should -- the emotions play in decision-making? Can an emotion be morally right or wrong, and what makes it so?

**Prerequisite:** [PHL240H1/PHL244H1/PHL342H1](#), 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL345H1 - Intermediate Logic

**Hours:** 36L

A continuation of PHL245H1, requiring no other prior knowledge of philosophy or mathematics. First-order logic, including basic metalogical results such as soundness and completeness. An introduction to basic set theory and metalogic. Topics may include the Loewenheim-Skolem theorems for first-order logic, Goedel's incompleteness theorems.

**Prerequisite:** [PHL245H1/MAT157Y1](#) and a full course in PHL/CSC/MAT

**Exclusion:** PHLC51H3, PHL345H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL347H1 - Modal Logic and Philosophical Applications of Logic

**Hours:** 36L

Formal study of the concepts of necessity and possibility, modal, propositional and quantificational logic, possible-worlds semantics, and the metaphysics of modality. Other topics may include counterfactuals, truth, vagueness, epistemic logic, temporal logic, or non-classical logic.

**Prerequisite:** [PHL245H1/MAT157Y1](#) and a full course in PHL/CSC/MAT

**Exclusion:** PHL347H5

**Recommended Preparation:** [PHL345H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL348H1 - Logic and Computation

**Hours:** 36L

Topics will include Kurt Gödel's celebrated incompleteness theorems, the technical ideas and methods involved in proving them, their relation to the abstract theory of computation, and their philosophical implications. Are there mathematical truths that cannot be known? Are mathematical concepts such as number and set indeterminate to some extent? Are there limits to what can be modeled formally?

**Prerequisite:** [PHL245H1/MAT157Y1](#) and a full course in PHL/CSC/MAT

**Exclusion:** [MAT309H1/CSC438H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL349H1 - Set Theory

**Hours:** 36L

An introduction to set theory emphasizing its philosophical relevance as a unifying framework for mathematics and logic. Topics examined may include the paradoxes of the 'naïve' conception of sets and their resolution through axiomatization, the construction of natural numbers and real numbers in set theory, equivalents of the axiom of choice, and model theory.

**Prerequisite:** [PHL245H1/MAT157Y1](#) and a full course in PHL/CSC/MAT

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL351H1 - Philosophy of Language

**Hours:** 36L

The nature of language as a system of human communication, theories of meaning and meaningfulness, the relation of language to the world and to the human mind.

**Prerequisite:** [PHL245H1/MAT157Y1](#) and one of [PHL232H1/PHL233H1/PHL240H1](#), 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHLC80H3, PHL350H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL354H1 - Philosophy of Mathematics

**Previous Course Number:** PHL346H1

**Hours:** 36L

Platonism versus nominalism, the relation between logic and mathematics, implications of Gödel's theorem, formalism and intuitionism.

**Prerequisite:** [PHL245H1/MAT157Y1](#) and a full course in PHL/CSC/MAT

**Exclusion:** [PHL346H1](#), PHL346H5, PHL344H5, PHL354H5

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL355H1 - Philosophy of Natural Science

**Hours:** 36L

The structure and methods of science: explanation, methodology, realism and instrumentalism.

**Prerequisite:** 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHL355H5

**Recommended Preparation:** A solid background in science or [HPS250H1/PHL246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL356H1 - Philosophy of Physics

**Hours:** 36L

Introduction to philosophical issues which arise in modern physics, especially in relativity and quantum mechanics. This course will be accessible to students without a significant background in physics, but with an interest in the philosophical challenges that modern physics poses.

**Prerequisite:** One full course in MAT/PHY; two full courses are recommended.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHL357H1 - Philosophy of Biology

**Hours:** 36L

Philosophical issues in the foundations of biology, e.g., the nature of life, evolutionary theory; controversies about natural selection; competing mechanisms, units of selection; the place of teleology in biology; biological puzzles about sex and sexual reproduction; the problem of species; genetics and reductionism; sociobiology; natural and artificial life.

**Prerequisite:** 7.5 courses (in any field) with at least 1.5 in philosophy. Students with a background in Biology are exempt from the prerequisite of 1.5 courses in Philosophy

**Exclusion:** PHL357H5

**Recommended Preparation:** [HPS250H1/PHL246H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL362H1 - Philosophy of History

**Hours:** 36L

Typical questions include: Has history any meaning? Can there be general theories of history? How are the findings of historians related to the theories of metaphysics and of science? Is history deterministic? Must the historian make value judgements? Is history science or an art? Are there historical forces or spirits of an epoch?

**Prerequisite:** 7.5 courses (in any field) with at least 1.5 in philosophy  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL365H1 - Political Philosophy

**Hours:** 36L

A study of some of the central problems of political philosophy, addressed by historical and contemporary political theorists.

**Prerequisite:** PHL265H1/POL200Y1, 7.5 courses (in any field) with at least 1.5 in philosophy  
**Exclusion:** PHLC92H3  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL366H1 - Topics in Political Philosophy

**Hours:** 39L

A focused examination of a selected issue in political philosophy.

**Prerequisite:** PHL265H1/POL200Y1, 7.5 courses (in any field) with at least 1.5 in philosophy  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL367H1 - Philosophy of Feminism

**Hours:** 36L

Selected issues and topics in the philosophy of feminism.

**Prerequisite:** PHL265H1/PHL268H1, 7.5 courses (in any field) with at least 1.5 in philosophy  
**Exclusion:** PHLC13H3, PHL367H5  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL370H1 - Issues in Philosophy of Law

**Hours:** 36L

Major issues in philosophy of law, such as legal positivism and its critics, law and liberalism, feminist critiques of law, punishment and responsibility.

**Prerequisite:** PHL271H1, 7.5 courses (in any field) with at least 1.5 in philosophy  
**Exclusion:** PHL370H5  
**Recommended Preparation:** PHL265H1  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL373H1 - Issues in Environmental Ethics

**Hours:** 36L

An intermediate-level examination of key issues in environmental philosophy, such as the ethics of animal welfare, duties to future generations, deep ecology, ecofeminism, sustainable development and international justice.

**Prerequisite:** PHL273H1, 7.5 courses (in any field) with at least 1.5 in philosophy  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL375H1 - Ethics

**Hours:** 36L

An intermediate-level study of selected issues in moral philosophy, or of influential contemporary or historical works in ethical theory.

**Prerequisite:** PHL275H1, 7.5 courses (in any field) with at least 1.5 in philosophy  
**Exclusion:** PHLC05H3  
**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL376H1 - Topics in Moral Philosophy

**Hours:** 36L

A focused examination of a selected issue in moral philosophy.

**Prerequisite:** PHL275H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHLC06H3

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL377H1 - Ethical Issues in Big Data

**Hours:** 36L

An introduction to the ethical dimensions arising in the practice of statistics and data science, including moral puzzles, problems and dilemmas that arise in the application of machine learning and artificial intelligence to every day decision making in politics, business, and ordinary life.

**Prerequisite:** 7.5 credits, including 1.5 PHL credits and a 0.5 credit from

STA221H1/STA238H1/STA248H1/STA255H1/STA261H1

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL378H1 - War and Morality

**Hours:** 36L

Moral and political issues concerning warfare: the theory of the just war, pacifism, moral constraints on the conduct of war, war as an instrument of foreign policy, the strategy of deterrence. Special attention to the implications of nuclear weapons.

**Prerequisite:** PHL265H1/PHL275H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL380H1 - Global Bioethics

**Hours:** 36L

An intermediate-level study of moral problems that arise in international contexts, including issues of special interest in bioethics: moral universalism and relativism; global distributive justice; poverty relief and international aid; international health disparities; globalization and health; HIV/AIDS; intellectual property and access to essential medicines; clinical trials in developing countries; exploitation and the 10/90 gap.

**Prerequisite:** PHL281H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL381H1 - Ethics and Medical Research

**Hours:** 36L

An intermediate-level study of problems in biomedical and behavioural research with human subjects: informed voluntary consent, risk and benefit, experimental therapy, randomized clinical trials, research codes and legal issues, dependent groups (human embryos, children, the aged, hospital patients, the dying, prisoners, the mentally ill).

**Prerequisite:** PHL281H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL382H1 - Ethics: Death and Dying

**Hours:** 36L

An intermediate-level study of moral and legal problems, including the philosophical significance of death, the high-tech prolongation of life, definition and determination of death, suicide, active and passive euthanasia, the withholding of treatment, palliative care and the control of pain, living wills; recent judicial decisions.

**Prerequisite:** PHL281H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL383H1 - Ethics and Mental Health

**Hours:** 36L

An intermediate-level study of moral and legal problems, including the concepts of mental health and illness, mental competence, dangerousness and psychiatric confidentiality, mental institutionalization, involuntary treatment and behaviour control, controversial therapies; legal issues: the Mental Health Act, involuntary commitment, the insanity defence.

**Prerequisite:** PHL281H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL384H1 - Ethics, Genetics and Reproduction

**Hours:** 36L

An intermediate-level study of moral and legal problems, including the ontological and moral status of the human embryo and fetus; human newborn, carrier and prenatal genetic screening for genetic defect, genetic therapy; the reproductive technologies (e.g., artificial insemination, in vitro fertilization); recent legislative proposals and judicial decisions.

**Prerequisite:** PHL281H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL385H1 - Issues in Aesthetics

**Hours:** 36L

Selected topics in the philosophy of art. Such issues as the following are discussed: whether different arts require different aesthetic principles; relations between art and language; the adequacy of traditional aesthetics to recent developments in the arts; art as an institution.

**Prerequisite:** 7.5 courses (in any field) with at least 1.5 in philosophy

**Exclusion:** PHLC03H3

**Recommended Preparation:** PHL285H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## PHL388H1 - Literature and Philosophy

**Hours:** 36L

The literary expression of philosophical ideas and the interplay between literature and philosophy. Such philosophical issues as the nature and origin of good and evil in human beings, the nature and extent of human freedom and responsibility, and the diverse forms of linguistic expression. Such authors as Wordsworth, Mill, Dostoyevsky, Tolstoy, Miller, Camus, and Lawrence are studied.

**Prerequisite:** 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## PHL394H1 - Markets and Morals

**Hours:** 36L

A study of the standards that can be used to judge the performance of economic systems, e.g., efficiency, fairness, maximization, along with the different institutional mechanisms that can be used to organize economic activity, e.g., markets or hierarchies, public or private ownership.

**Prerequisite:** One of PHL265H1/PHL275H1/POL200Y1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## PHL395H1 - Issues in Business Ethics

**Hours:** 36L

A focused examination of moral issues that arise in the conduct of business, in areas such as accounting and finance, corporate governance, human resources, environmental conduct, business lobbying and regulatory compliance.

**Prerequisite:** PHL295H1, 7.5 courses (in any field) with at least 1.5 in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## PHL398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at [https://www.artsci.utoronto.ca/current/academics/research\\_opportunities/research-excursions-program](https://www.artsci.utoronto.ca/current/academics/research_opportunities/research-excursions-program). Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## PHL398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-excursions-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## PHL399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

## PHL400H1 - Seminar in Ancient/Medieval Philosophy

**Hours:** 36S

Advanced discussion of the principal figures and themes in ancient and/or medieval philosophy.

**Prerequisite:** [PHL200Y1](#), 4.0 credits in philosophy  
**Distribution Requirements:** Humanities

## PHL401H1 - Seminar in the History of Philosophy

**Hours:** 36S

Advanced study of some of the principal figures in a particular historical, philosophical tradition.

**Prerequisite:** [PHL200Y1/PHL210Y1](#)  
**Distribution Requirements:** Humanities

## PHL402H1 - Seminar in Early Modern Philosophy

**Hours:** 36S

Advanced discussion of the principal figures and themes in the philosophy of the 17th and/or 18th centuries.

**Prerequisite:** [PHL210Y1](#), 4.0 credits in philosophy  
**Distribution Requirements:** Humanities

## PHL403H1 - Seminar in 19th-Century Philosophy

**Hours:** 36S

Advanced discussion of some principal figures and themes in 19th century philosophy.

**Prerequisite:** [PHL210Y1/PHL217H1/PHL315H1/PHL316H1](#), 4.0 credits in philosophy  
**Distribution Requirements:** Humanities

## PHL404H1 - Seminar in Epistemology

**Hours:** 36S

Typical problems include the nature of knowledge and belief; perception; theories of truth and necessity; skepticism.

**Prerequisite:** [PHL232H1/PHL233H1](#), 4.0 credits in philosophy  
**Distribution Requirements:** Humanities

## PHL405H1 - Seminar in Philosophy of Mind

**Hours:** 36S

Advanced study of a problem in the philosophy of mind.

**Prerequisite:** [PHL240H1/PHL342H1/COG250Y1](#), 4.0 credits in philosophy  
**Distribution Requirements:** Humanities

## PHL406H1 - Seminar in Metaphysics

**Hours:** 36S

Typical problems include causality and determinism; ontological categories; mind and body; the objectivity of space and time.

**Prerequisite:** 4.0 credits in Philosophy including (one of [PHL245H1/MAT157Y1](#)) and ([PHL232H1/PHL233H1/PHL240H1](#))  
**Distribution Requirements:** Humanities

## PHL407H1 - Seminar in Ethics

**Hours:** 36S

Advanced discussion of issues in moral philosophy, including issues of applied ethics.

**Prerequisite:** PHL275H1, 4.0 credits in philosophy

**Distribution Requirements:** Humanities

## PHL408H1 - Seminar in Philosophy

**Hours:** 36S

Topics vary but bridge two or more areas or traditions of philosophy.

**Prerequisite:** 4.0 credits in philosophy

**Distribution Requirements:** Humanities

## PHL409H1 - New Books Seminar

**Hours:** 36S

Advanced study of key philosophical works published within the last five years.

**Prerequisite:** 4.0 credits in philosophy

**Distribution Requirements:** Humanities

## PHL410H1 - Seminar in Continental Philosophy

**Hours:** 36S

Advanced study of recent philosophical discussions within the continental tradition.

**Prerequisite:**

PHL217H1/PHL315H1/PHL316H1/PHL319H1/PHL320H1/PHL321H1/PHL322H1, 4.0 credits in philosophy

**Distribution Requirements:** Humanities

## PHL411H1 - Seminar in Analytic Philosophy

**Hours:** 36S

Advanced study of some topic of current philosophical interest within the analytic tradition.

**Prerequisite:** PHL245H1/MAT157Y1 and one of PHL232H1/PHL233H1/PHL240H1, 4.0 credits in philosophy

**Distribution Requirements:** Humanities

## PHL412H1 - Seminar in Political Philosophy

**Hours:** 36S

Advanced study of some topic in social or political philosophy.

**Prerequisite:** PHL265H1/PHL271H1, 4.0 credits in philosophy

**Distribution Requirements:** Humanities

## PHL413H1 - Seminar in Applied Ethics

**Hours:** 36S

Advanced study of some topic in an area of applied ethics, including bioethics, environmental ethics, and so on.

**Prerequisite:**

PHL271H1/PHL273H1/PHL275H1/PHL281H1, 4.0 credits in philosophy

**Distribution Requirements:** Humanities

## PHL414H1 - Seminar in Philosophy of Religion

**Hours:** 36S

Advanced study of topics in the philosophy of religion.

**Prerequisite:** PHL235H1/PHL335H1, 4.0 credits in philosophy

**Distribution Requirements:** Humanities

## PHL416H1 - Seminar in Philosophy of Law

**Hours:** 36S

Advanced discussion of issues in the philosophy of law.

**Prerequisite:** PHL265H1/PHL271H1, one of PHL365H1/PHL370H1/PHL375H1, 4.0 credits in philosophy

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL417H1 - Seminar in History of Analytic Philosophy

**Hours:** 36S

Advanced study of a figure or topic from the history of analytic philosophy.

**Prerequisite:** [PHL325H1](#), 4.0 credits in philosophy  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL418H1 - Seminar in South Asian Philosophy

**Hours:** 36S

Advanced study of one or more topics in South Asian Philosophy.

**Prerequisite:** 4.0 PHL credits or permission of the instructor  
**Recommended Preparation:** [PHL339H1](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL440H1 - Clinical Bioethics

**Hours:** 36S

Advanced study of topics in bioethics, taught in conjunction with clinical bioethicists associated with the health care organization partners of the University of Toronto Joint Centre for Bioethics.

**Prerequisite:** [PHL281H1](#), 4.0 credits in philosophy. Limited to students enrolled in the Bioethics Specialist or Bioethics Major programs.  
**Distribution Requirements:** Humanities

## PHL445H1 - Metalogic

**Hours:** 36S

A continuation of [PHL345H1](#), this is a course in the mathematical study of logic, also known as metalogic. We will investigate and prove theorems about logical systems. Topics covered may include: important results in

metalogic, second and higher-order logic, or lambda-calculus.

**Prerequisite:** [PHL345H1](#)/[MAT309H1](#); 4.0 credits in philosophy  
**Exclusion:** [PHL445H5](#); [PHLD51H3](#)  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL446H1 - Seminar in Decision Theory

**Hours:** 36S

Decision theory studies what one ought to do when some more or less desirable outcomes of one's actions depend on external facts about which one is uncertain. Uncertainty is characterized in terms of probabilities, desires are characterized in terms of utilities, and together they determine the expected utility of one's actions. This course introduces these notions and their mathematical representations, as well as critically reflects on philosophical questions such as whether one should always take the action that maximize one's expected utility, whether uncertainty is subjective or objective, and why uncertainty does, or ought to, obey the laws of probability.

**Prerequisite:** [PHL246H1](#), 4.0 Credits in Philosophy  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL447H1 - Seminar in Philosophical Logic

**Hours:** 36S

Advanced discussion of some topic in philosophical logic.

**Prerequisite:** [PHL245H1](#)/[MAT157Y1](#); one of [PHL246H1](#)/[PHL345H1](#)/[PHL347H1](#)/[PHL445H1](#)/[MAT309H1](#); 4.0 credits in philosophy  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PHL451H1 - Seminar in Philosophy of Language

**Hours:** 36S

Advanced study of some topic in the philosophy of language.

**Prerequisite:** 4.0 PHL credits, including (PHL245H1/MAT157Y1), (PHL232H1/PHL233H1/PHL240H1)  
**Distribution Requirements:** Humanities

## PHL455H1 - Seminar in Philosophy of Science

**Previous Course Number:** PHL415H1  
**Hours:** 36S

Advanced study of some area or problem in the philosophy of science.

**Prerequisite:** One of PHL355H1, PHL357H1 or HPS250H1, 4.0 credits in philosophy  
**Distribution Requirements:** Humanities

## PHL470H1 - Advanced Bioethics

**Hours:** 36S

Philosophical exploration of the foundations and methodology of bioethics. Offered jointly with PHL2145H.

**Prerequisite:** PHL281H1 and one of PHL380H1/PHL381H1/PHL382H1/PHL383H1/PHL384H1, and permission of the instructor and Department (by ballot). Limited to students enrolled in the Bioethics Specialist or Bioethics Major programs.  
**Distribution Requirements:** Humanities

## PHL471H1 - Advanced Topics in Greek Philosophy

**Hours:** 36S

Advanced Topics in Greek Philosophy

**Prerequisite:** PHL200Y1 and permission of the instructor and Department (by ballot)  
**Distribution Requirements:** Humanities

## PHL472H1 - Advanced Topics in Medieval Philosophy

**Hours:** 36S

Advanced Topics in Medieval Philosophy

**Prerequisite:** PHL200Y1/PHL205H1/ PHL206H1 and permission of the instructor and Department (by ballot)  
**Distribution Requirements:** Humanities

## PHL473H1 - Advanced Topics in Modern Philosophy

**Hours:** 36S

Advanced Topics in Modern Philosophy

**Prerequisite:** PHL210Y1 and permission of the instructor and Department (by ballot)  
**Distribution Requirements:** Humanities

## PHL475H1 - Advanced Topics in Moral Philosophy

**Hours:** 36S

Advanced Topics in Moral Philosophy

**Prerequisite:** PHL275H1 and permission of the instructor and Department (by ballot)  
**Distribution Requirements:** Humanities

## PHL476H1 - Advanced Topics in Epistemology

**Hours:** 36S

Advanced Topics in Epistemology

**Prerequisite:** PHL232H1/PHL233H1 and permission of the instructor and Department (by ballot)  
**Distribution Requirements:** Humanities

## PHL477H1 - Advanced Topics in Metaphysics

**Hours:** 36S

Advanced Topics in Metaphysics

**Prerequisite:** PHL232H1/PHL233H1 and permission of the instructor and Department (by ballot)  
**Distribution Requirements:** Humanities

## PHL478H1 - Advanced Topics in Philosophy of Religion

Hours: 36S

Advanced Topics in Philosophy of Religion

**Prerequisite:** PHL235H1/PHL335H1 and permission of the instructor and Department (by ballot)

**Distribution Requirements:** Humanities

## PHL479H1 - Advanced Topics in Philosophy of Mind

Hours: 36S

Advanced Topics in Philosophy of Mind

**Prerequisite:** COG250Y1/PHL240H1/PHL340H1/PHL341H1/PHL342H1 and permission of the instructor and Department (by ballot)

**Distribution Requirements:** Humanities

## PHL480H1 - Advanced Topics in Logic

Hours: 36S

Advanced Topics in Logic

**Prerequisite:** Two of PHL344H1 - PHL349H1 and permission of the instructor and Department (by ballot)

**Distribution Requirements:** Humanities

## PHL481H1 - Advanced Topics in the Philosophy of Language

Hours: 36S

Advanced Topics in the Philosophy of Language

**Prerequisite:** PHL351H1 and permission of the instructor and Department (by ballot)

**Distribution Requirements:** Humanities

## PHL482H1 - Advanced Topics in Philosophy of Natural Science

Hours: 36S

Advanced Topics in Philosophy of Natural Science

**Prerequisite:** One of PHL355H1, PHL357H1 or HPS250H1, and permission of the instructor and Department (by ballot)

**Distribution Requirements:** Humanities

## PHL483H1 - Advanced Topics in Social and Political Philosophy

Hours: 36S

Advanced Topics in Social and Political Philosophy

**Prerequisite:** PHL265H1 and permission of the instructor and Department (by ballot)

**Distribution Requirements:** Humanities

## PHL484H1 - Advanced Topics in the Philosophy of Law

Hours: 36S

Advanced Topics in the Philosophy of Law

**Prerequisite:** PHL271H1 and permission of the instructor and Department (by ballot)

**Distribution Requirements:** Humanities

## PHL485H1 - Advanced Topics in Aesthetics

Hours: 36S

Advanced Topics in Aesthetics

**Prerequisite:** PHL285H1/PHL385H1 and permission of the instructor and Department (by ballot)

**Distribution Requirements:** Humanities

## PHL486H1 - Advanced Topics in Philosophy of History

Hours: 36S

Advanced Topics in Philosophy of History

**Prerequisite:** PHL362H1 and permission of the instructor and Department (by ballot)

**Distribution Requirements:** Humanities

## **PHL487H1 - Advanced Topics in Philosophy**

Advanced Topics in Philosophy

**Prerequisite:** Permission of the instructor and Department

**Distribution Requirements:** Humanities

## **PHL488H1 - Advanced Topics in Philosophy**

Advanced Topics in Philosophy

**Prerequisite:** Permission of the instructor and Department

**Distribution Requirements:** Humanities

## **PHL489Y1 - Advanced Topics in Philosophy**

Advanced Topics in Philosophy

**Prerequisite:** Permission of the instructor and Department

**Distribution Requirements:** Humanities

## **PHL490Y1 - Individual Studies**

Individual Studies. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## **PHL495H1 - Individual Studies**

Individual Studies. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## **PHL496H1 - Individual Studies**

Individual Studies. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## **PHL497H1 - Individual Studies**

Individual Studies. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## **PHL498H1 - Individual Studies**

Individual Studies. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## **PHL499H1 - Individual Studies**

Individual Studies. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

# Physics

## Faculty List

### Professor and Chair of the Department

K. Strong, BSc, DPhil, FRSC

### Professor and Associate Chair (Undergraduate Studies)

P. Krieger, BSc, MSc, PhD

### Professor and Associate Chair (Graduate Studies)

J. Thywissen, BS, SM, PhD

### University Professors

J.R. Bond, MS, PhD, OC, FRSC, FRS (cross-appointed)

S. John, SB, PhD, FRSC

R.J.D. Miller, BSc, PhD, FRSC

W.R. Peltier, BSc, MSc, PhD, FRSC

A.M. Steinberg, BS, MA, PhD, FRSC

### Professors

V. Barzda, MSc, PhD (UTM)

C. Gradinaru, BSc, MSc, PhD (UTM)

D.F.V. James, BA, PhD

D.B.A. Jones, BA, SM, PhD

S.R. Julian, BSc, MSc, PhD

H.-Y. Kee, BSc, MSc, PhD

Y.B. Kim, BSc, MSc, PhD

Y.-J. Kim, BS, PhD

P.J. Kushner, BSc, MSc, PhD

H-K. Lo, BA, MSc, PhD

J. Lowman, BSc, MSc, PhD (UTSC)

M. Luke, BSc, AM, PhD

G.W.K. Moore, BSc, PhD (UTM)

S.W. Morris, BSc, MSc, PhD

B. Netterfield, BS, PhD

R.S. Orr, BSc, PhD, FRSC

A. Paramekanti, BTech, PhD

A.W. Peet, BSc, PhD

E. Poppitz, MSc, MA, PhD

P. Savard, BSc, MSc, PhD

P.K. Sinervo, BSc, PhD, FRSC, CM

J.E. Sipe, ScB, MSc, PhD, FRSC

R. Teuscher, BSc, MSc, PhD

W. Trischuk, BSc, PhD

K. Walker, BSc, PhD

### Associate Professors

D.C. Bailey, BSc, PhD

S. Goyal, BTech, MS, PhD

Q. Liu, BSc, PhD

R.S. Marjoribanks, BSc, MSc, MS, PhD

J.N. Milstein, BS, PhD (UTM)

W. Ryu, AB, PhD

A. Vutha, MSc, PhD

J.T. Wei, BA, MS, MPhil, PhD

A. Zilman, BSc, MSc, PhD

### Associate Professors, Teaching Stream

V.B. Deyirmenjian, BSc, PhD

J. Harlow, BSc, PhD

### Assistant Professors

D. Curtin, BSc, PhD

M. Diamond, BSc, MSc, PhD

N. Grisouard, BSc, MSc, PhD

A. Hilfinger, MSc, PhD (UTM)

Z. Hong, BSc, MSc, PhD

N. Ilic, BSc, PhD

C. Lee, MPhys, DPhil

S. Rauscher, BSc, PhD (UTM)

T. Scaffidi, BE, BSc, MSc, DPhil

Z. Su, BS, PhD

D. Wunch, BSc, MSc, PhD

### Assistant Professors, Teaching Stream

C. Sealton, BA, MS, PhD

B. Wilson, BSc, MSc, PhD

### Cross-Appointed Faculty

J. Abbatt, BSc, PhD, FRSC

A.-A. Dhirani, BSc, PhD

D.J. Donaldson, BSc, PhD

J. Kollmeier, BS, PhD

D. McMillen, BSc, MSc, PhD (UTM)

K. Menou, PhD (UTSC)

N. Murray, PhD

U.-L. Pen, MSc, PhD

R. Pysklywec, MSc, PhD

H. Rein, PhD (UTSC)

D. Segal, BSc, PhD

A.C. Thompson, BS, PhD, FRSC

D. Valencia, PhD (UTSC)

K. Vanderlinde, BSc, PhD

M. Wells, BSc, PhD (UTSC)

N. Wiebe, BSc, MSc, PhD

### Adjunct and Status Only

J. Arkani-Hamed, PhD

N. Dalal, BS, PhD

Z. Mariani, BSc, MSc, PhD

R. Nassar, BSc, BEd, PhD

H. Pfeiffer, MSc, PhD

S. Polavarapu, BSc, MSc, PhD

P. Savaria, BA, BSc, MSc, PhD

H. Tanaka, AB, PhD

F. Vogel, MSc, PhD

C. Whaley, BSc, MSc, MSc, PhD

L. Yang, BS, MA, PhD

### University Professors Emeriti

A.E. Litherland, BSc, PhD, FRSC, FRS

**Professors Emeriti**

R.L. Armstrong, MA, PhD, FRSC  
 R.C. Bailey, BSc, PhD  
 R.F. Code, AM, PhD (UTM)  
 T.E. Drake, MSc, PhD  
 J.R. Drummond, MA, DPhil, FRSC  
 D.J. Dunlop, MA, PhD, FRSC (UTM)  
 C. Dyer, PhD (UTSC)  
 R.N. Edwards, BSc, PhD, CPhys, FInstP  
 R.M. Farquhar, MA, PhD, FRSC (UTM)  
 G.M. Graham, MSc, PhD  
 R. Holdom, MA, PhD  
 A. Jacobs, BSc, MSc, PhD  
 M.L.G. Joy, MSc, PhD  
 A.W. Key, MA, DPhil  
 J.D. King, BA, DPhil (UTSC)  
 P.P. Kronberg, MSc, PhD, DSc  
 R.K. Logan, BSc, PhD  
 J. Martin, BSc, DPhil  
 A.D. May, MA, PhD  
 B. Milkereit, MSc, PhD  
 J.W. Moffat, PhD, DSc  
 K.H. Norwich, MSc, MD, PhD  
 D.A.L. Paul, BA, PhD  
 J.M. Perz, MSc, PhD (UTSC)  
 H.M. van Driel, MSc, PhD, FRSC  
 G.F. West, MA, PhD, FRSC  
 S.S.M. Wong, MSc, PhD  
 T.S. Yoon, MSc, PhD

**Associate Professors, Teaching Stream Emeriti**

R.M. Serbanescu, MSc, PhD

**Senior Lecturers Emeriti**

D. Harrison, BSc, PhD

## Introduction

Physics forms the bedrock of our understanding of Nature. Any physical object or process, or even the structure of the whole universe itself, can be the subject of physics. Physicists study an extremely diverse array of systems, from the simplest subatomic particles to the most complex processes found in biological cells or in the Earth's climate. Physics provides a comprehensive set of fundamental tools that can be brought to bear on many problems across a wide variety of fields.

Students can choose between Specialist Programs in Physics or Physics combined with numerous other sciences, as well as Philosophy. In addition, the Physics Major and Minor programs give the student the option of mixing Physics with the nearly limitless array of science and non-science programs available across the University. As well, students have the opportunity to do original research and to undertake independent supervised studies for course credit.

A program in physics has much to offer. Beyond the

traditional careers of teaching and research, a knowledge of physics is a powerful asset in professions like Medicine or Law, or for careers involving the environmental, geological or biological sciences. An understanding of physics is essential for those who are concerned about how society is affected by climate change or advanced technology. The conceptual problem-solving tools one acquires as a physicist can be applied with great success to many occupations.

The Physics Specialist Program offers intensive training in all aspects of physics. Courses can be selected in order to emphasize the experimental, theoretical or applied sides of physics. In fourth year, students intending to undertake graduate studies are encouraged to take advanced optional courses. These courses, which reflect the excellence and research diversity of the faculty, are offered in areas such as Relativity, High Energy Physics, Quantum Optics, Condensed Matter, Geophysics and Atmospheric Physics.

The Specialist Program in Biological Physics combines the analytical problem solving skills of the physicist with sound backgrounds in relevant biology and biochemistry. The interface between biology and physics lies at the forefront of the rapidly growing field of quantitative biology.

The Professional Experience Year Co-op program ("PEY Co-op": see also <https://engineeringcareers.utoronto.ca/>) is available to eligible, full-time Arts & Science Specialist students after their second year of study. Physics students are encouraged to take advantage of this opportunity to apply their scientific and mathematical skills in a 12-16-month professional internship. *Note:* Students in Year 3 in the Fall/Winter 2021-2022 session will be the last group of Faculty of Arts & Science students eligible to participate in the PEY Co-op. September 2021 or January 2022 will be the last opportunity for Faculty of Arts & Science students to register for PEY Co-op.

The Departmental website gives detailed information on programs and courses, and describes the operation of the Department and the counseling services available. All students, most particularly those entering first year, are strongly urged to consult the web site before term begins.

Associate Chair (Undergraduate Studies):  
 Professor P. Krieger, Room 328, McLennan Physical Laboratories (416-978-6674);

## Physics Programs

### Biological Physics Specialist (Science Program) -

The Biological Physics specialist program focuses on the physical principles that organize complex biological phenomena. How do cells use chemical energy to generate motion? How does diffusion limit the ability of cells to measure the concentration of chemicals? How do neurons transmit and process information? How does blood flow through a beating heart? Biological Physics deals with problems at the interface of Physics, Molecular Biology, and Physiology, and covers the full range of scales, from the molecular, to the organismic. Students in this program will be trained to think rigorously and quantitatively about a wide range of interdisciplinary problems, will be well prepared to work in a variety of fields such as medicine and biotechnology, and will be ready to undertake graduate work in the fast-emerging field of Biological Physics and its related specialties including Immunology, Physiology, Neuroscience, and Bioengineering.

The program is offered as a partnership between the Departments of Physics, Biochemistry, Chemistry, Immunology, and Physiology (referred to as "partner departments"). All students take the Core courses in Physics, Mathematics, Biology, Biochemistry, and Chemistry. The Core also includes a specialized course in Biological Physics ( [PHY331H1](#)) and a third-year laboratory course from one of the partner departments. Students then choose one of four Streams (below) consisting of additional courses from the partner departments.

### Biological Physics Specialist: Advanced Physics Stream (Science Program) - ASSPE2739

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

#### Core Biological Physics Courses (11.5 credits)

First Year (3.0 credits): ( [CHM138H1](#)/ [CHM136H1](#), [CHM139H1](#)/ [CHM135H1](#))/ [CHM151Y1](#), ( [MAT135H1](#), [MAT136H1](#))/ [MAT137Y1](#), [PHY131H1](#)/ [PHY151H1](#), [PHY132H1](#)/ [PHY152H1](#) ( [PHY151H1](#), [PHY152H1](#) recommended)

First or Second Year (1.0 credit): [BIO130H1](#), [MAT223H1](#)

Second Year (3.0 credits): [BCH210H1](#), ( [MAT235Y1](#)/ [MAT237Y1](#)), [MAT244H1](#), [PHY250H1](#), [PHY252H1](#)

Second or Third Year (0.5 credit): [BIO230H1](#)/ [BIO255H1](#)

Third Year (2.0 credits): [PHY224H1](#), [PHY254H1](#), [PHY256H1](#), [PHY354H1](#)

Third or Fourth Year (2.0 credits):

1. [PHY331H1](#)
2. [PHY324H1](#)/ [BCH370H1](#)/ [CHM327H1](#)/ [PSL372H1](#)
3. 1.0 credit, including at least 0.5 credit at the 400-level, from [APM346H1](#)/ [MAT334H1](#)/ [MAT354H1](#)/PHY 300-level courses/PHY 400-level courses.

#### Additional Requirements for the Advanced Physics Stream (2.5 credits):

1. ( [BCH311H1](#), [BCH340H1](#))/( [PSL300H1](#), [PSL301H1](#))
2. [PHY431H1](#) and 1.0 credit from additional courses from [APM346H1](#)/ [MAT334H1](#)/ [MAT354H1](#)/PHY 300-level courses /PHY 400-level courses/ [JPE395H1](#)/ [JPE493H1](#)

#### *Integrative, Inquiry-Based Activity Requirement*

The choices in the program must satisfy the requirement for an integrative, inquiry-based activity by including at least one of the following courses: [IMM435H1](#), [PHY371Y1](#), [PHY372H1](#), [PHY396Y0](#), [PHY397Y0](#), [PHY398H0](#), [PHY399Y0](#), [PHY407H1](#), [PHY424H1](#), [PHY426H1](#), [PHY428H1](#), [PHY429H1](#), [PHY471Y1](#), [PHY472H1](#), [PHY478H1](#), [PHY479Y1](#), [PSL304H1](#), [PSL305H1](#), and [PSL372H1](#)

#### Notes:

Students are encouraged but not required to enrol in the independent project courses [PHY478H1](#)/ [PHY479Y1](#). These students may be supervised by faculty in the Departments of Physics, Biochemistry, Chemistry, Immunology, and Physiology. Students are required to have a B average in the program courses, identify a supervisor, and consult the Associate Chair of Physics (Undergraduate Studies) before enrolling in [PHY478H1](#)/ [PHY479Y1](#).

Students might wish to enrol in 300- and 400-level courses in the partner life science departments that are not listed above. These students will need approval to take these courses from the Associate Chair (Undergraduate Studies) prior to enrolment in the course.

## Biological Physics Specialist: Biochemistry Stream (Science Program) - ASSPE2737

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

### Core Biological Physics Courses (11.5 credits):

First Year (3.0 credits): ( [CHM138H1](#)/ [CHM136H1](#), [CHM139H1](#)/ [CHM135H1](#))/ [CHM151Y1](#), ( [MAT135H1](#), [MAT136H1](#))/ [MAT137Y1](#), [PHY131H1](#)/ [PHY151H1](#), [PHY132H1](#)/ [PHY152H1](#) ( [PHY151H1](#), [PHY152H1](#) recommended)

First or Second Year (1.0 credit): [BIO130H1](#), [MAT223H1](#)

Second Year (3.0 credits): [BCH210H1](#), ( [MAT235Y1](#)/ [MAT237Y1](#)), [MAT244H1](#), [PHY250H1](#), [PHY252H1](#)

Second or Third Year (0.5 credit): [BIO230H1](#)/ [BIO255H1](#)

Third Year (2.0 credits): [PHY224H1](#), [PHY254H1](#), [PHY256H1](#), [PHY354H1](#)

Third or Fourth Year (2.0 credits):

1. [PHY331H1](#)
2. [PHY324H1](#)/ [BCH370H1](#)/ [CHM327H1](#)/ [PSL372H1](#)
3. 1.0 credit, including at least 0.5 credit at the 400-level, from [APM346H1](#)/ [MAT334H1](#)/ [MAT354H1](#)/PHY 300-level courses/PHY 400-level courses.

### Additional Courses for the Biochemistry Stream (2.5 credits):

1. [BCH311H1](#), [BCH340H1](#)
2. 1.5 credits from [BCH370H1](#)/ [CSB428H1](#)/BCH 400-level courses. Excludes [BCH472Y1](#), [BCH473Y1](#), [BCH478H1](#), [BCH479H1](#)

### *Integrative, Inquiry-Based Activity Requirement*

The choices in the program must satisfy the requirement for an integrative, inquiry-based activity by including at least one of the following courses: [IMM435H1](#), [PHY371Y1](#), [PHY372H1](#), [PHY396Y0](#), [PHY397Y0](#), [PHY398H0](#), [PHY399Y0](#), [PHY407H1](#), [PHY424H1](#), [PHY426H1](#), [PHY428H1](#), [PHY429H1](#), [PHY471Y1](#), [PHY472H1](#), [PHY478H1](#), [PHY479Y1](#), [PSL304H1](#), [PSL305H1](#), and [PSL372H1](#)

### Notes:

Students are encouraged but not required to enroll in the independent project courses [PHY478H1](#)/ [PHY479Y1](#). These students may be supervised by faculty in the Departments of Physics, Biochemistry, Chemistry, Immunology, and Physiology. Students are required to have a B average in the program courses, identify a supervisor, and consult the Associate Chair of Physics (Undergraduate Studies) before enrolling in [PHY478H1](#)/ [PHY479Y1](#).

Students might wish to enrol in 300- and 400-level courses in the partner life science departments that are not listed above. These students will need approval to take these courses from the Associate Chair (Undergraduate Studies) prior to enrolment in the course.

On approval of the Department of Physics, students who take [CHM222H1](#)/ [CHM225Y1](#) will not have to take [PHY252H1](#).

## Biological Physics Specialist: Immunology Stream (Science Program) - ASSPE2740

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

### Core Biological Physics Courses (11.5 credits)

First Year (3.0 credits): ( [CHM138H1](#)/ [CHM136H1](#), [CHM139H1](#)/ [CHM135H1](#) ) / [CHM151Y1](#), ( [MAT135H1](#), [MAT136H1](#) ) / [MAT137Y1](#), [PHY131H1](#)/ [PHY151H1](#), [PHY132H1](#)/ [PHY152H1](#) ( [PHY151H1](#), [PHY152H1](#) recommended)

First or Second Year (1.0 credit): [BIO130H1](#), [MAT223H1](#)

Second Year (3.0 credits): [BCH210H1](#), ( [MAT235Y1](#)/ [MAT237Y1](#)), [MAT244H1](#), [PHY250H1](#), [PHY252H1](#)

Second or Third Year (0.5 credit): [BIO230H1](#)/ [BIO255H1](#)

Third Year (2.0 credits): [PHY224H1](#), [PHY254H1](#), [PHY256H1](#), [PHY354H1](#)

Third or Fourth Year (2.0 credits):

1. [PHY331H1](#)
2. [PHY324H1](#)/ [BCH370H1](#)/ [CHM327H1](#)/ [PSL372H1](#)
3. 1.0 credit, including at least 0.5 credit at the 400-level, from [APM346H1](#)/ [MAT334H1](#)/ [MAT354H1](#)/PHY 300-level courses/PHY 400-level courses.

### Additional Courses for the Immunology Stream (2.0 credits):

1. IMM341H1, IMM351H1 (Students in the Biological Physics Specialist Immunology Stream are permitted to take [BIO230H1](#) as a co-requisite to IMM341H1, instead of as a prerequisite, by permission of the Department of Immunology)
2. 1.0 credit from IMM 400-level courses.

#### *Integrative, Inquiry-Based Activity Requirement*

The choices in the program must satisfy the requirement for an integrative, inquiry-based activity by including at least one of the following courses: [IMM435H1](#), [PHY371Y1](#), [PHY372H1](#), [PHY396Y0](#), [PHY397Y0](#), [PHY398H0](#), [PHY399Y0](#), [PHY407H1](#), [PHY424H1](#), [PHY426H1](#), [PHY428H1](#), [PHY429H1](#), [PHY471Y1](#), [PHY472H1](#), [PHY478H1](#), [PHY479Y1](#), [PSL304H1](#), [PSL305H1](#), and [PSL372H1](#)

#### Notes:

Students are encouraged but not required to enrol in the independent project courses [PHY478H1](#)/ [PHY479Y1](#). These students may be supervised by faculty in the Departments of Physics, Biochemistry, Chemistry, Immunology, and Physiology. Students are required to have a B average in the program courses, identify a supervisor, and consult the Associate Chair of Physics (Undergraduate Studies) before enrolling in [PHY478H1](#)/ [PHY479Y1](#).

Students might wish to enrol in 300- and 400-level courses in the partner life science departments that are not listed above. These students will need approval to take these courses from the Associate Chair (Undergraduate Studies) prior to enrolment in the course.

On approval of the Department of Physics, students who take [CHM222H1](#)/ [CHM225Y1](#) will not have to take [PHY252H1](#).

## Biological Physics Specialist: Physiology Stream (Science Program) - ASSPE2738

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

### Core Biological Physics Courses (11.5 credits):

First Year (3.0 credits): ( [CHM138H1](#)/ [CHM136H1](#), [CHM139H1](#)/ [CHM135H1](#))/ [CHM151Y1](#), ( [MAT135H1](#), [MAT136H1](#))/ [MAT137Y1](#), [PHY131H1](#)/ [PHY151H1](#), [PHY132H1](#)/ [PHY152H1](#) ( [PHY151H1](#), [PHY152H1](#) recommended)

First or Second Year (1.0 credit): [BIO130H1](#), [MAT223H1](#)

Second Year (3.0 credits): [BCH210H1](#), ( [MAT235Y1](#)/ [MAT237Y1](#)), [MAT244H1](#), [PHY250H1](#), [PHY252H1](#)

Second or Third Year (0.5 credit): [BIO230H1](#)/ [BIO255H1](#)

Third Year (2.0 credits): [PHY224H1](#), [PHY254H1](#), [PHY256H1](#), [PHY354H1](#)

Third or Fourth Year (2.0 credits):

1. [PHY331H1](#)
2. [PHY324H1](#)/ [BCH370H1](#)/ [CHM327H1](#)/ [PSL372H1](#)
3. 1.0 credit, including at least 0.5 credit at the 400-level, from [APM346H1](#)/ [MAT334H1](#)/ [MAT354H1](#)/PHY 300-level courses/PHY 400-level courses.

### Additional Courses for the Physiology Stream (2.5 credits):

1. [PSL300H1](#), [PSL301H1](#)
2. 1.5 credits, including at least 0.5 credit at the 400-level, from [PSL304H1](#)/ [PSL305H1](#)/ [PSL372H1](#)/PSL 400-level courses

#### *Integrative, Inquiry-Based Activity Requirement*

The choices in the program must satisfy the requirement for an integrative, inquiry-based activity by including at least one of the following courses: [IMM435H1](#), [PHY371Y1](#), [PHY372H1](#), [PHY396Y0](#), [PHY397Y0](#), [PHY398H0](#), [PHY399Y0](#), [PHY407H1](#), [PHY424H1](#), [PHY426H1](#), [PHY428H1](#), [PHY429H1](#), [PHY471Y1](#), [PHY472H1](#), [PHY478H1](#), [PHY479Y1](#), [PSL304H1](#), [PSL305H1](#), and [PSL372H1](#)

#### Notes:

Students are encouraged but not required to enrol in the independent project courses [PHY478H1](#)/ [PHY479Y1](#). These students may be supervised by faculty in the Departments of Physics, Biochemistry, Chemistry, Immunology, and Physiology. Students are required to have a B average in the program courses, identify a supervisor, and consult the Associate Chair of Physics (Undergraduate Studies) before enrolling in [PHY478H1](#)/ [PHY479Y1](#).

Students might wish to enrol in 300- and 400-level courses in the partner life science departments that are

not listed above. These students will need approval to take these courses from the Associate Chair (Undergraduate Studies) prior to enrollment in the course.

On approval of the Department of Physics, students who take CHM222H1/ CHM225Y1 will not have to take PHY252H1.

## Physics and Philosophy Specialist (Science Program) - ASSPE2584

Physics has deep historical roots in natural philosophy and many aspects of contemporary Physics raise profound philosophical questions about the nature of reality. The interdisciplinary Physics and Philosophy Program allows the student to engage with both Physics and Philosophy at their deepest levels, and to more fully explore the connections between them.

Consult Associate Chair (Undergraduate Studies), Department of Physics or Philosophy.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(15.0 credits, including at least 1.5 credits at the 400-level)

First Year: (2.5 credits)

(MAT135H1, MAT136H1/ MAT137Y1/ MAT157Y1, MAT223H1/ MAT240H1, PHY131H1/ PHY151H1, PHY132H1/ PHY152H1 (The courses MAT137Y1, MAT223H1, PHY151H1, PHY152H1 are recommended.)

First or Second Year: (1.5 credits)

1.5 credits of: PHL232H1/ PHL233H1/ PHL240H1/ PHL245H1/ HPS250H1/ PHL255H1 (PHL245H1 may only be counted here if MAT157Y1 is not taken)

Second Year: (3.0 credits)

MAT237Y1/ MAT257Y1/ MAT235Y1, MAT244H1/ MAT267H1, PHY250H1, PHY254H1, PHY256H1 (The courses MAT237Y1, MAT244H1 are recommended.)

Third Year: (2.0 credits)

MAT334H1/ MAT354H1, PHY252H1, ( PHY350H1/ PHY354H1), PHY356H1

Fourth Year: (1.0 credit)

PHY456H1, PHY491H1

Any Year: (5.0 credits)

(PHL345H1/ PHL347H1), PHL355H1, PHL356H1, ( PHL415H1/ PHL455H1/ PHL482H1), plus 1.0 credit of ( PHL325H1/ PHL331H1/ PHL332H1/ PHL346H1/ PHL354H1/ PHL357H1) plus 2.0 additional PHL credits, at least 0.5 credit of which must be from Course Group 2 - Value Theory (The courses PHL265H1, PHL275H1 are recommended.)

### Group 2 - Value Theory:

PHL265H1, PHL295H1, PHL365H1, PHL366H1, PHL370H1, PHL375H1, PHL407H1, PHL412H1, PHL413H1, PHL483H1

## Physics Specialist (Science Program) - ASSPE1944

The Physics Specialist Program offers rigorous training in the full spectrum of core physics subfields, as well as their numerous important applications. Practical courses treat the experimental and computational aspects and complement the lecture courses. Physics concerns many of the most fundamental questions in our scientific understanding of the universe. What is the nature of matter and energy at the smallest scales? What are the physical processes that govern the Earth's climate? What is the nature of light and how can it be controlled? How do the collective properties of solids emerge from those of individual atoms? How do biological processes organize themselves to maintain their survival? What is the structure and evolution of the Earth and the other planets? How can quantum information be used for computation? Physics seeks answers to these questions using a combination of theory, computation and precise experimental work, and the results find application across all of science.

Consult the Associate Chair (Undergraduate Studies), Department of Physics.

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(13.5 credits, including 1.0 credit at the 400-level)

First Year: (2.5 credits)

( [MAT135H1](#), [MAT136H1](#)/ [MAT137Y1](#)/ [MAT157Y1](#),  
[MAT223H1](#)/ [MAT240H1](#), [PHY131H1](#)/ [PHY151H1](#),  
[PHY132H1](#)/ [PHY152H1](#))

(The courses [MAT137Y1](#), [MAT223H1](#), [PHY151H1](#),  
[PHY152H1](#) are recommended.)

Second Year: (4.0 credits)

[MAT237Y1](#)/ [MAT257Y1](#)/ [MAT235Y1](#), [MAT244H1](#)/  
[MAT267H1](#), [PHY224H1](#), [PHY250H1](#), [PHY252H1](#),  
[PHY254H1](#), [PHY256H1](#))

(The courses [MAT237Y1](#), [MAT244H1](#) are recommended.)

Second or Third Year: (0.5 credit)

[PHY324H1](#)

Third Year: (3.0 credits)

1. [APM346H1](#), [MAT334H1](#)/ [MAT354H1](#), [PHY350H1](#),  
[PHY354H1](#), [PHY356H1](#))

2. Additional 0.5 credit from PHY 300-level courses/PHY  
400-level courses/ [JPE395H1](#)/ [JPE493H1](#), excluding  
[JPH311H1](#), [JPH441H1](#))

Third or Fourth Year: (3.5 credits)

1. [PHY424H1](#))

2. 1.0 credit from [PHY450H1](#), [PHY452H1](#), [PHY454H1](#),  
[PHY456H1](#), [PHY460H1](#))

3. [PHY405H1](#)/ [PHY407H1](#)/ [PHY408H1](#)/ [PHY426H1](#)/  
[PHY478H1](#). See Note 2.

4. 1.0 credit, including at least a 0.5 PHY credit at the 400-  
level, from PHY 300-level courses/PHY 400-level courses/  
[JPE395H1](#)/ [JPE493H1](#), excluding [JPH311H1](#), [JPH441H1](#))

5. Ethics and Social Responsibility Requirement: The  
Physics course [JPH441H1](#) meets this requirement as well  
as any of the following courses: [ETH201H1](#)/ [ETH210H1](#)/  
[ETH220H1](#)/ [ETH230H1](#)/ [HPS200H1](#)/ [PHL233H1](#)/  
[PHL265H1](#)/ [PHL273H1](#)/ [PHL275H1](#)/ [PHL281H1](#)/  
[IMC200H1](#)/ [VIC172Y1](#)/ [ENV333H1](#). See Note 3.

Notes:

1. Students are encouraged but not required to enrol in  
the independent study and project courses such as  
[PHY371Y1](#), [PHY478H1](#), etc.

2. [PHY479Y1](#) (Undergraduate Research Project) satisfies  
Requirement 3 in Third or Fourth Year and counts as a  
0.5 credit at the PHY 400-level for Requirement 4 in Third

or Fourth Year. Students may use [MAT351Y1](#) instead of  
[APM346H1](#) for Requirement 1 in Third Year.

3. Requirement 5 in Third or Fourth Year represents a 0.5  
credit with a significant emphasis on "Ethics and Social  
Responsibility". Students may use the CR/NCR option  
towards any of the courses listed in Requirement 5.  
Another Arts & Science course with a significant emphasis  
on "Ethics and Social Responsibility" may be substituted  
subject to approval from the Associate Chair  
(Undergraduate Studies).

4. The requirement for an integrative, inquiry-based  
activity is satisfied by the required course [PHY424H1](#).

## Physics Major (Science Program) - ASMAJ1944

A Physics Major program is appropriate for students  
interested in a more flexible and diverse undergraduate  
physics program. A Physics Major may be tailored to be a  
natural counterpart to a second Major in mathematics,  
astronomy, computer science, environmental science,  
geology or the life sciences. Students should consult the  
Associate Chairs (Undergraduate Studies) of Physics and  
the respective departments for advice on course  
selections.

### Enrolment Requirements:

This is an open enrolment program. A student who has  
completed 4.0 credits may enrol in the program.

### Completion Requirements:

(8.0 credits, including 2.0 credits at the 300+ level, with at  
least one 0.5 credit at the 400-level)

First Year: (2.0 credits)

( [MAT135H1](#), [MAT136H1](#)/ [MAT137Y1](#)/ [MAT157Y1](#),  
[PHY131H1](#)/ [PHY151H1](#), [PHY132H1](#)/ [PHY152H1](#))

Second Year: (3.0 credits)

1. [MAT235Y1](#)/ [MAT237Y1](#)/ [MAT257Y1](#), [MAT223H1](#)/  
[MAT240H1](#), [PHY224H1](#))

2. 1.0 credit from [PHY231H1](#), [PHY331H1](#), [PHY250H1](#),  
[PHY252H1](#), [PHY254H1](#), [PHY256H1](#))

Third Year: (2.5 credits)

1. MAT244H1/ MAT267H1, PHY324H1/ PHY405H1/ PHY407H1/ PHY408H1

2. 1.5 credits, including at least a 0.5 credit at the PHY 400-level, from APM346H1/ MAT334H1/ MAT354H1/PHY 300-level courses/PHY 400-level courses/ JPE395H1/ JPE493H1, excluding JPH311H1, JPH441H1. A maximum of a 0.5 credit from APM346H1/ MAT334H1/ MAT354H1 may be used to fulfil this requirement

Third or Fourth Year: (0.5 credit)

1. Ethics and Social Responsibility Requirement: The Physics course JPH441H1 meets this requirement as well as any of the following courses: ETH201H1/ ETH210H1/ ETH220H1/ ETH230H1/ HPS200H1/ PHL233H1/ PHL265H1/ PHL273H1/ PHL275H1/ PHL281H1/ IMC200H1/ VIC172Y1/ ENV333H1. See Note 2.

Notes:

1. Students in the Physics Major program who are intending to pursue graduate studies in Physics should consult with the Associate Chair (Undergraduate Studies).

2. Requirement 1 in Third or Fourth Year represents a 0.5 credit with a significant emphasis on "Ethics and Social Responsibility". Students may use the CR/NCR option towards any of the courses listed in Requirement 1. Another Arts & Science course with a significant emphasis on "Ethics and Social Responsibility" may be substituted subject to approval from the Associate Chair (Undergraduate Studies).

## Physics Minor (Science Program) - ASMIN1944

Enrolment Requirements:

## Physics Courses

### PHY100H1 - The Magic of Physics

Hours: 24L/12T

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(4.0 credits)

First Year: (1.0 credit)

PHY131H1/ PHY151H1, PHY132H1/ PHY152H1

Second Year: (2.0 credits)

1. PHY224H1

2. 1.5 credits from PHY231H1, PHY250H1, PHY252H1, PHY254H1, PHY256H1

Third Year: (1.0 credit)

1. PHY324H1/ PHY405H1/ PHY407H1/ PHY408H1

2. 0.5 credit from: PHY 300-level course/PHY 400-level course/ JPE395H1/ JPE493H1, excluding JPH311H1, JPH441H1

## Regarding Physics Courses

#### Note

More detailed and current information on courses is available through the Physics Department website. Many course numbers have changed in recent years: check the course descriptions and exclusions below for course equivalencies. Pre- and co-requisites are strictly enforced and may only be waived in special circumstances. Students should consult the Physics Associate Chair (Undergraduate Studies) with questions about pre- and co-requisites prior to the beginning of term if they are requesting a waiver. Students without the required pre- and co-requisites will be removed from courses.

This course provides a survey of Physics, including both Classical and Modern Physics. It is designed for non-scientists, and assumes no background in either science or mathematics. The approach to the course is broad rather than deep. We will concentrate on the concepts underlying such fascinating topics as planetary motion, chaos, the nature of light, time travel, black holes, matter waves, Schrodinger's cat, quarks, and climate change. We will uncover the wonders of the classical and the

quantum worlds courtesy of Galileo, Newton, Maxwell, Einstein, Heisenberg and many others.

(PHY100H1 is primarily intended as a Breadth Requirement course for students in the Humanities and Social Science)

**Exclusion:**

PHY131H1/PHY132H1/PHY151H1/PHY152H1 (or equivalent) taken previously or concurrently

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY131H1 - Introduction to Physics I

**Hours:** 36L/20P

A first university physics course primarily for students not intending to pursue a Specialist or Major program in Physical or Mathematical Sciences. Topics include: classical kinematics & dynamics, momentum, energy, force, friction, work, power, angular momentum, oscillations, waves, sound.

**Corequisite:** MAT135H1/MAT137Y1/MAT157Y1 recommended, but may be required prerequisite in 2nd year Physics courses

**Exclusion:** PHY151H1

**Recommended Preparation:** MCV4U Calculus & Vectors / MHF4U Functions & Calculus, SPH4U Physics

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY132H1 - Introduction to Physics II

**Hours:** 36L/20P

The second university physics course primarily for students not intending to pursue a Specialist or Major program in Physical or Mathematical Sciences. Topics include: electricity, magnetism, light, optics, special relativity.

**Prerequisite:** PHY131H1/PHY151H1

**Corequisite:** MAT136H1/MAT137Y1/MAT157Y1 recommended, but may be required prerequisite in 2nd year Physics courses

**Exclusion:** PHY152H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY151H1 - Foundations of Physics I

**Hours:** 36L/30P

The first physics course in many of the Specialist and Major Programs in Physical Sciences. It provides an introduction to the concepts, approaches and tools the physicist uses to describe the physical world while laying the foundation for classical and modern mechanics. Topics include: mathematics of physics, energy, momentum, conservation laws, kinematics, dynamics, and special relativity.

**Prerequisite:** MCV4U Calculus & Vectors / MCB4U Functions & Calculus; SPH4U Physics

**Corequisite:** MAT137Y1/MAT157Y1

**Exclusion:** PHY131H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY152H1 - Foundations of Physics II

**Hours:** 36L/30P

The concept of fields will be introduced and discussed in the context of gravity and electricity. Topics include rotational motion, oscillations, waves, electricity and magnetism.

**Prerequisite:** PHY131H1/PHY151H1/PHY180H1

**Corequisite:** MAT137Y1/MAT157Y1

**Exclusion:** PHY132H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY196H1 - Emergence in Nature

**Hours:** 24S

The universe is not a rigid clockwork, but neither is it formless and random. Instead, it is filled with highly organized, evolved structures that have somehow emerged from simple rules of physics. Examples range from the structure of galaxies to the pattern of ripples on windblown sand, to biological and even social processes. These phenomena exist in spite of the universal tendency towards disorder. How is this possible? Self-organization challenges the usual reductionistic scientific method, and begs the question of whether we can ever really understand or predict truly complex systems. Restricted to first-year students. Not eligible for CR/NCR.

**Prerequisite:** No prior experience with physical science will be required, but familiarity with Grade 10 mathematics will be assumed.

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY197H1 - Modern Physics for the Curious

**Hours:** 24S

Have you wondered about the origin and workings of the natural world around us? Have you found physical science interesting but inaccessible because it was too full of math and jargon? Have you felt a pull to become more science-literate? If so, this seminar course is for you -- or for anyone interested in understanding more about the universe, including our planet, seen through the lens of modern physics. Ideas on the menu will include: particle physics, space and time, relativity, black holes, quantum physics, unification forces, string theory, and big bang cosmology. The intriguing story of these integrated phenomena unfolds over a wide distance and a long time. Students from diverse academic backgrounds are warmly welcome. Restricted to first-year students. Not eligible for CR/NCR option.

**Prerequisite:** No prior experience with physical science will be required, but familiarity with Grade 10 mathematics will be assumed.

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY198H1 - Physics at the Cutting Edge

**Previous Course Number:** PHY289H1

**Hours:** 24L/12S

A limited enrollment seminar course for First Year Science students interested in current research in Physics. Students will meet active researchers studying the universe from the centre of the earth to the edge of the cosmos. Topics may range from string theory to experimental biological physics, from climate change to quantum computing, from superconductivity to earthquakes. The course may involve both individual and group work, essays and oral presentations. Restricted to first-year students. Not eligible for CR/NCR option.

**Prerequisite:** [PHY151H1](#)  
**Corequisite:** [PHY152H1](#), [MAT137Y1](#)/[MAT157Y1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY199H1 - Dark Matter and Dark Energy are the New Black

**Hours:** 24S

It is now 90 years since astronomers found the first evidence for a form of matter that wasn't part of the stars in our galaxies, but rather is "dark" and has a gravitational attraction to ordinary matter. Other lines of evidence lead us to believe that there is six times more dark matter than the ordinary matter we are familiar with. Despite this, we have no credible, direct evidence for what this dark matter might be. It is one of the biggest puzzles in particle physics and cosmology. In the last decade, we have also discovered that something else is going on -- the universe appears to be filled with "dark energy" that causes the expansion of our universe to speed up instead of slowdown. We will discuss what we know about the hypotheses of dark matter and dark energy, and the debates about what might really be going on. Are we seeing science in crisis, with a revolution just around the corner, or is this just the "normal science" talked about by Kuhn and other philosophers of science? Participants will be expected to participate in seminar-style discussions, as well as take the lead on at least one topic of discussion. Restricted to first-year students. Not eligible for CR/NCR option.

**Prerequisite:** No prior experience with physical science will be required, but familiarity with Grade 10 mathematics will be assumed.

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY202H1 - The Physics of Science Fiction and Gaming

**Hours:** 24L/12T

The physics of time travel, teleportation, levitation, invisibility, special effects, and other physics related topics found in literature, film, and gaming. The course will analyze the realism of physical phenomena in these media, and consider the impact of these concepts on science and society.

PHY202H1 is primarily intended as a Breadth Requirement course for students in the Humanities and Social Sciences.

**Exclusion:**  
[PHY131H1](#)/[PHY132H1](#)/[PHY151H1](#)/[PHY152H1](#) (or equivalent) taken previously or concurrently.  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY205H1 - The Physics of Everyday Life

**Hours:** 24L/12T

An introduction to the physics of everyday life. This conceptual course looks at everyday objects to learn about the basis for our modern technological world. Topics may include anything from automobiles to weather.

PHY205H1 is primarily intended as a Breadth Requirement course for students in the Humanities and Social Sciences.

**Exclusion:**

PHY131H1/PHY132H1/PHY151H1/PHY152H1 or equivalent, taken previously or concurrently

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY207H1 - The Physics of Music

**Hours:** 24L/12T

An online course intended to provide non-science students with a basic understanding of the science behind sound and music. Topics include oscillations, waves, human hearing and perception of music, musical scales, musical instruments, recording and storing sound digitally, producing sound and broadcasting. Lectures will be delivered via the web and mandatory tutorials will require live webinar participation. The final exam will require attendance on the St. George campus.

**Exclusion:**

PHY131H1/PHY132H1/PHY151H1/PHY152H1 or equivalent, taken previously or concurrently

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY224H1 - Practical Physics I

**Hours:** 72P

Develops the core practical experimental and computational skills necessary to do physics. Students tackle simple physics questions involving mathematical models, computational simulations and solutions, experimental measurements, data and uncertainty analysis.

**Prerequisite:** PHY132H1/PHY152H1, (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Corequisite:**

PHY231H1/PHY250H1/PHY252H1/PHY254H1/PHY256H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY231H1 - Physics of Living Systems

**Hours:** 24L/18P

An introductory course for students interested in understanding the physical phenomena occurring in biological systems and the applications of physics in life sciences. Topics may include physical processes inside living cells and systems, medical physics and imaging.

**Prerequisite:**

PHY132H1/PHY152H1, (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Recommended Preparation:** BIO130H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ENV237H1 - Physics of the Changing Environment A

**Hours:** 24L/24P

The course will cover basic physics of environmental processes and of measurement techniques in the atmosphere, the ocean, lake-land-forest systems, and other biological systems. It will place its work in the context of climate change and other aspects of environmental change. This course is solely intended for students who have NOT completed a previous first year physics core course, who are in one of the following programs: Environmental Science Major or Minor, Environmental Geosciences Specialist or Earth and Environmental Systems Major.

**Prerequisite:** MAT135H1/ MAT136H1/ MAT137Y1/ MAT157Y1/ JMB170Y1, CHM136H1/ CHM138H1/ CHM135H1/ CHM139H1/ CHM151Y1

**Exclusion:** ENV238H1, PHY131H1/ PHY132H1/ PHY151H1/ PHY152H1

**Recommended Preparation:** Any high school physics

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## ENV238H1 - Physics of the Changing Environment B

**Hours:** 24L/24P

The course will cover basic physics of environmental processes and of measurement techniques in the atmosphere, the ocean, lake-land-forest systems, and other biological systems. It will place its work in the context of climate change and other aspects of environmental change. This course is solely intended for students who have completed a previous first year physics core course, who are in one of the following programs: Environmental Science Major or Minor, Environmental Geosciences Specialist or Earth and Environmental Systems Major.

**Prerequisite:** MAT135H1/ MAT136H1/ MAT137Y1/ MAT157Y1/ JMB170Y1, CHM136H1/ CHM138H1/ CHM135H1/ CHM139H1/ CHM151Y1, PHY131H1/ PHY132H1/ PHY151H1/ PHY152H1

**Exclusion:** ENV237H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY250H1 - Electricity and Magnetism

**Hours:** 24L/12T

An introductory course in Electromagnetism. Topics include: Point charges, Coulomb's law, electrostatic field and potential, Gauss's Law, conductors, electrostatic energy, magnetostatics, Ampere's Law, Biot-Savart Law, the Lorentz Force Law, Faraday's Law, Maxwell's equations in free space.

**Prerequisite:** PHY132H1/PHY152H1, (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Corequisite:** MAT235Y1/MAT237Y1/MAT257Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY252H1 - Thermal Physics

**Hours:** 24L/12T

The quantum statistical basis of macroscopic systems; definition of entropy in terms of the number of accessible states of a many particle system leading to simple expressions for absolute temperature, the canonical distribution, and the laws of thermodynamics. Specific effects of quantum statistics at high densities and low temperatures.

**Prerequisite:** PHY132H1/PHY152H1, (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Corequisite:** MAT235Y1/MAT237Y1/MAT257Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY254H1 - Classical Mechanics

**Hours:** 24L/12T

The course analyzes the linear, nonlinear and chaotic behaviour of classical mechanical systems such as harmonic oscillators, rotating bodies, and central field systems. The course will develop the analytical and numerical tools to solve such systems and determine their basic properties. The course will include mathematical analysis, numerical exercises using Python, and participatory demonstrations of mechanical systems.

**Prerequisite:** PHY132H1/PHY152H1 (PHY152H1 recommended), (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Corequisite:** MAT235Y1/MAT237Y1/MAT257Y1

**Recommended Preparation:** MAT244H1/MAT267H1, PHY224H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY256H1 - Introduction to Quantum Physics

**Hours:** 24L/12T

Failures of classical physics; the Quantum revolution; Stern-Gerlach effect; harmonic oscillator; uncertainty principle; interference packets; scattering and tunneling in one-dimension.

**Prerequisite:** PHY132H1/PHY152H1, (MAT135H1, MAT136H1)/MAT137Y1/MAT157Y1

**Corequisite:** MAT235Y1/MAT237Y1/MAT257Y1, (MAT223H1/MAT240H1 recommended)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## JPH311H1 - From Universal Gravity to Quantum Information: The Making of Modern Physics

**Hours:** 24L

Topics in the history of physics from antiquity to the 20th century, including Aristotelian physics, Galileo, Descartes, electromagnetism, thermodynamics, statistical mechanics, relativity, quantum physics, and particle physics. The development of theories in their intellectual and cultural contexts.

**Prerequisite:** At least a 0.5 credit PHY course at university level

**Exclusion:** [HPS311H1](#)

**Distribution Requirements:** Humanities, Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY324H1 - Practical Physics II

**Hours:** 72P

A modular practical course that further develops the core experimental and computational skills necessary to do physics. Modules include: experimental skills building, computational tools in data and uncertainty analysis, and independent experimental projects.

**Prerequisite:** [PHY224H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY331H1 - Introduction to Biological Physics

**Hours:** 24L/18P

A course for students interested in a deeper understanding of physical phenomena occurring in biological systems. Thermodynamics, diffusion, entropic forces, fluids, biological applications.

**Prerequisite:** [PHY252H1/CHM222H1/CHM225Y1](#), [PHY231H1/PHY250H1/PHY254H1/PHY256H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY350H1 - Electromagnetic Theory

**Hours:** 24L/12T

This course builds upon the knowledge and tools developed in PHY250H1. Topics include: solving Poisson and Laplace equations via method of images and separation of variables, multipole expansion for electrostatics, atomic dipoles and polarizability, polarization in dielectrics, multipole expansion in magnetostatics, magnetic dipoles, magnetization in matter, Maxwell's equations in matter, conservation laws in electrodynamics, and electromagnetic waves.

**Prerequisite:** [MAT223H1/MAT240H1](#), [MAT244H1/MAT267H1](#), [MAT235Y1/MAT237Y1/MAT257Y1](#), [PHY250H1](#), [PHY254H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY354H1 - Advanced Classical Mechanics

**Hours:** 24L/12T

Symmetry and conservation laws, stability and instability, generalized coordinates, Hamilton's principle, Hamilton's equations, phase space, Liouville's theorem, canonical transformations, Poisson brackets, Noether's theorem.

**Prerequisite:** [MAT244H1/MAT267H1](#), [PHY254H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY356H1 - Quantum Mechanics I

**Hours:** 24L/12T

The general structure of wave mechanics; eigenfunctions and eigenvalues; operators; orbital angular momentum; spherical harmonics; central potential; separation of variables; hydrogen atom; Dirac notation; operator methods; harmonic oscillator and spin.

**Prerequisite:** [MAT223H1/MAT240H1](#), [PHY250H1](#), [PHY256H1/\(CHM222H1,CHM223H1\)/CHM225Y1](#), ([PHY256H1](#) recommended)

**Corequisite:** [MAT244H1/MAT267H1](#)

**Exclusion:** [CHM326H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY357H1 - Nuclear and Particle Physics

**Hours:** 24L/12T

The subatomic particles; nuclei, baryons and mesons, quarks, leptons and bosons; the structure of nuclei and hadronic matter; symmetries and conservation laws; fundamental forces and interactions, electromagnetic, weak, and strong; a selection of other topics: CP violation, nuclear models, standard model, proton decay, supergravity, nuclear and particle astrophysics. This course is not a prerequisite for any PHY400-level course.

**Prerequisite:** PHY356H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY358H1 - Atoms, Molecules and Solids

**Hours:** 24L/12T

Quantum theory of atoms, molecules, and solids; variational principle and perturbation theory; hydrogen and helium atoms; exchange and correlation energies; multielectron atoms; simple molecules; bonding and antibonding orbitals; rotation and vibration of molecules; crystal binding; electron in a periodic potential; reciprocal lattice; Bloch's theorem; nearly-free electron model; Kronig-Penney model; energy bands; metals, semiconductors, and insulators; Fermi surfaces.

**Prerequisite:** PHY356H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY365H1 - Quantum Information

**Hours:** 24L/12T

Introduction to quantum computing and other quantum information topics; Quantum states of multi-particle systems; Entanglement, Bell inequalities and Teleportation; Quantum Key Distribution; Quantum Computing Algorithms; Quantum Information Processing Technologies; other applications to metrology and illumination.

**Prerequisite:**

PHY256H1/PHY294H1/CHM223H1/ECE330H1 (Students who do not meet these prerequisites are encouraged to contact the Department.)

**Recommended Preparation:** MAT223H1/MAT240H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY371Y1 - Supervised Study in Physics

An individual study program chosen by the student with the advice of, and under the direction of, a staff member. A student may take advantage of this course either to specialize further in a field of interest or to explore interdisciplinary fields not available in the regular syllabus. Consult the department web pages for some possible topics. This course may also be available in the summer. Not eligible for CR/NCR option.

**Prerequisite:** Consult the Physics Associate Chair (Undergraduate Studies)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY372H1 - Supervised Study in Physics

An individual study program chosen by the student with the advice of, and under the direction of, a staff member. A student may take advantage of this course either to specialize further in a field of interest or to explore interdisciplinary fields not available in the regular syllabus. Consult the department web site for some possible topics. This course may also be available in the summer. Not eligible for CR/NCR option.

**Prerequisite:** Consult the Physics Associate Chair (Undergraduate Studies)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY385H1 - Introductory Optics

**Hours:** 24L/20P

An introduction to the physics of light. Topics covered include: electromagnetic waves and propagation of light; the Huygens and Fermat principles; geometrical optics and optical instruments; interference of waves and diffraction; polarization; introduction to photons, lasers, and optical fibers.

**Prerequisite:** PHY250H1, PHY254H1

**Exclusion:** ECE318H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY392H1 - Physics of Climate

**Hours:** 24L

This course provides an introduction to climate physics and the earth-atmosphere-ocean system. Topics include solar and terrestrial radiation; global energy balance; radiation laws; radiative transfer; atmospheric structure; convection; the meridional structure of the atmosphere; the general circulation of the atmosphere; the ocean and its circulation; and climate variability.

**Prerequisite:** PHY250H1/PHY252H1, MAT235Y1/MAT237Y1/MAT257Y1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JPE395H1 - Physics of the Earth

**Hours:** 24L

Designed for students interested in the physics of the Earth and the planets. Study of the Earth as a unified dynamic system; determination of major internal divisions in the planet; development and evolution of the Earth's large scale surface features through plate tectonics; the age and thermal history of the planet; Earth's gravitational field and the concept of isostasy; mantle rheology and convection; Earth tides; geodetic measurement techniques, in particular modern space-based techniques.

**Prerequisite:**

PHY132H1/PHY152H1/PHY180H1/MIE100H1, MAT235Y1/MAT237Y1/MAT291H1/AER210H1, PHY254H1/PHY293H1/MAT244H1/MAT267H1/MAT290H1/MAT292H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY396Y0 - Research Topic Abroad

Course credit for research or field studies abroad under the supervision of a faculty member. Not eligible for CR/NCR option.

**Prerequisite:** A minimum of 8.5 credits and no more than 14.0 credits completed

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY397Y0 - Exchange Research Project Abroad

Course credit for research or field studies abroad under the supervision of a faculty or staff member from an exchange institution. Consult the Physics Department web pages for information about opportunities. Not eligible for CR/NCR option.

**Prerequisite:** Consult the Physics Associate Chair (Undergraduate Studies)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-excursions-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## PHY398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-excursions-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## PHY399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

## PHY405H1 - Electronics Lab

**Hours:** 12L/36P

Electrical circuits, networks and devices are all-pervasive in the modern world. This laboratory course is an introduction to the world of electronics. Students will learn the joys and perils of electronics, by designing,

constructing and debugging circuits and devices. The course will cover topics ranging from filters and operational amplifiers to micro-controllers, and will introduce students to concepts such as impedance, transfer functions, feedback and noise.

**Prerequisite:** [PHY224H1](#), [PHY250H1](#). Note that [PHY405H1](#) may be taken in third or fourth year.

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY407H1 - Computational Physics

**Hours:** 12L/36P

This is an introduction to scientific computing in physics. Students will be introduced to computational techniques used in a range of physics research areas. By considering select physics topics, students will learn basic computational methods for function analysis (computing integrals and derivatives; finding roots and extrema), resolution of linear and non-linear equations, eigenvalue problems, Fourier analysis, ODEs, PDEs and Monte Carlo techniques. As the course progresses, students will develop their skills at debugging, solution visualization, computational efficiency and accuracy. The course is based on python and will involve working on a set of computational labs throughout the semester as well as a final project.

**Prerequisite:** [PHY224H1](#)/[PHY254H1](#)

**Corequisite:** Any third or fourth year course in Physics

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY408H1 - Time Series Analysis

**Hours:** 12L/24P

The analysis of digital sequences; filters; the Fourier Transform; windows; truncation effects; aliasing; auto and cross-correlation; stochastic processes, power spectra; least squares filtering; application to real data series and experimental design.

**Prerequisite:**

[PHY407H1](#)/[PHY224H1](#)/[PHY250H1](#)/[PHY254H1](#)/[PHY324H1](#)

1. [PHY408H1](#) may be taken in third or fourth year

**Corequisite:** Any third or fourth year lecture course in Physics

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY424H1 - Advanced Physics Laboratory

**Hours:** 72P

Experiments in this course are designed to form a bridge to current experimental research. A wide range of exciting experiments relevant to modern research in physics is available. The laboratory is normally open from 9 a.m. - 4 p.m., Monday to Friday.

**Prerequisite:** [PHY250H1](#), [PHY256H1](#), [PHY324H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY426H1 - Advanced Practical Physics I

**Hours:** 72P

This course is a continuation of PHY424H1, but students have more freedom to progressively focus on specific areas of physics, do extended experiments, projects, or computational modules.

**Prerequisite:** [PHY424H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY428H1 - Advanced Practical Physics II

**Hours:** 72P

This course is a continuation of PHY426H1, but students have more freedom to progressively focus on specific areas of physics, do extended experiments, projects, or computational modules.

**Prerequisite:** [PHY426H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY429H1 - Advanced Practical Physics III

**Hours:** 72P

This course is a continuation of PHY428H1, but students have more freedom to progressively focus on specific

areas of physics, do extended experiments, projects, or computational modules.

**Prerequisite:** [PHY428H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY431H1 - Topics in Biological Physics

**Hours:** 24L/12T

An introduction to the physical phenomena involved in the biological processes of living cells and complex systems. Models based on physical principles applied to cellular processes will be developed. Biological computational modeling will be introduced.

**Prerequisite:** [PHY250H1](#),

[PHY252H1/CHM222H1/CHM225Y1](#), [PHY331H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JPH441H1 - Physical Science in Contemporary Society

**Hours:** 24L

This course will discuss the complex, real-life, ethical, and philosophical issues behind how science gets done, including questions such as how we as scientists strive to determine the truth; who determines what science is done, and on what basis; how we as a community manage science and make decisions about education, authorship, publication, hiring, et cetera (including issues related to equity, inclusivity, and diversity); and how we as a society fund science and apply its discoveries.

**Prerequisite:** [PHY224H1/PHY250H1/PHY252H1/PHY254H1/PHY256H1](#), or by permission of the instructor.

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## PHY450H1 - Relativistic Electrodynamics

**Hours:** 24L/12T

An introduction to relativistic electrodynamics. Topics include: special relativity, four-vectors and tensors, relativistic dynamics from the Principle of Stationary

Action and Maxwell's equations in Lorentz covariant form. Noether's theorem for fields and the energy-momentum tensor. Fields of moving charges and electromagnetic radiation: retarded potential, Lienard-Wiechert potentials, multipole expansion, radiation reaction.

**Prerequisite:** [PHY350H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY452H1 - Statistical Mechanics

**Hours:** 24L/12T

Classical and quantum statistical mechanics of noninteracting systems; the statistical basis of thermodynamics; ensembles, partition function; thermodynamic equilibrium; stability and fluctuations; formulation of quantum statistics; theory of simple gases; ideal Bose and Fermi systems.

**Prerequisite:** [PHY252H1](#), [PHY356H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY454H1 - Continuum Mechanics

**Hours:** 24L/12T

The theory of continuous matter, including solid and fluid mechanics. Topics include the continuum approximation, dimensional analysis, stress, strain, the Euler and Navier-Stokes equations, vorticity, waves, instabilities, convection and turbulence.

**Prerequisite:** [PHY254H1](#), [MAT235Y1/MAT237Y1/MAT257Y1](#), [APM346H1/APM351Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY456H1 - Quantum Mechanics II

**Hours:** 24L/12T

Quantum dynamics in Heisenberg and Schrödinger pictures; WKB approximation; variational method; time-independent perturbation theory; spin; addition of angular momentum; time-dependent perturbation theory; scattering.

**Prerequisite:** [PHY356H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY460H1 - Nonlinear Physics

**Hours:** 24L/12T

The theory of nonlinear dynamical systems with applications to many areas of physics. Topics include stability, bifurcations, chaos, universality, maps, strange attractors and fractals. Geometric, analytical and computational methods will be developed.

**Prerequisite:** [PHY354H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY471Y1 - Supervised Study in Physics

An individual study program chosen by the student with the advice of, and under the direction of, a staff member. A student may take advantage of this course either to specialize further in a field of interest or to explore interdisciplinary fields not available in the regular syllabus. Consult the department web pages for some possible topics. This course may also be available in the summer. Not eligible for CR/NCR option.

**Prerequisite:** Consult the Physics Associate Chair (Undergraduate Studies).

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY472H1 - Supervised Study in Physics

An individual study program chosen by the student with the advice of, and under the direction of, a staff member. A student may take advantage of this course either to specialize further in a field of interest or to explore interdisciplinary fields not available in the regular syllabus. Consult the department web pages for some possible topics. This course may also be available in the summer. Not eligible for CR/NCR option.

**Prerequisite:** Consult the Physics Associate Chair (Undergraduate Studies).

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY478H1 - Undergraduate Research Project

An individual experimental or theoretical research project undertaken with the advice of, and under the direction of, a staff member. A student may take advantage of this course either to specialize further in a field of interest or to explore independent research. Consult the department web site for some possible topics. This course may also be available in the summer. Not eligible for CR/NCR option.

**Prerequisite:** Consult the Physics Associate Chair (Undergraduate Studies)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY479Y1 - Undergraduate Research Project

An individual experimental or theoretical research project undertaken with the advice of, and under the direction of, a faculty member. A student may take advantage of this course either to specialize further in a field of interest or to explore independent research. Consult the department web site for possible topics. This course may also be available in the summer. Not eligible for CR/NCR option.

**Prerequisite:** Consult the Physics Associate Chair (Undergraduate Studies)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY483H1 - Relativity Theory I

**Hours:** 24L/12T

Basis of Einstein's theory: differential geometry, tensor analysis, gravitational physics leading to General Relativity. Theory starting from solutions of Schwarzschild, Kerr, etc.

**Prerequisite:** [PHY350H1](#), [PHY354H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY484H1 - Relativity Theory II

**Hours:** 24L/12T

Applications of General Relativity to Astrophysics and Cosmology. Introduction to black holes, large-scale structure of the universe.

**Prerequisite:** [PHY483H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY485H1 - Laser Physics

**Hours:** 24L

This course, which is intended to be an introduction to research in optical sciences, covers the statistics of optical fields and the physics of lasers. Topics include the principles of laser action, laser cavities, properties of laser radiation and its propagation, the diffraction of light, and spatial and temporal coherence.

**Prerequisite:** [PHY350H1](#), [PHY358H1](#), [PHY385H1/ECE318H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY487H1 - Condensed Matter Physics

**Hours:** 24L

Introduction to foundational concepts of condensed matter physics in the solid state. Main topics to be covered: crystal structure, reciprocal lattice, x-ray diffraction, crystal binding, lattice vibrations, phonons and electrons in solids, Fermi surfaces, energy bands, semiconductors and magnetism. Special topics to be surveyed: superconductivity and nanoelectronic transport.

**Prerequisite:** [PHY250H1](#), [PHY252H1](#), [PHY356H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY489H1 - Introduction to High Energy Physics

**Hours:** 24L

This course introduces the basics of fundamental particles and the strong, weak and electromagnetic forces that govern their interactions in the Standard Model of particle physics. Topics include relativistic kinematics, conservation laws, particle decays and scattering processes, with an emphasis on the techniques used for calculating experimental observables.

**Prerequisite:** [PHY354H1](#), [PHY356H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY491H1 - Current Interpretations of Quantum Mechanics

**Hours:** 24L/24T

Different interpretations of quantum mechanics are presented and discussed, comparing and contrasting the various approaches to understanding the formalism of the theory. We begin with "textbook quantum mechanics" and then discuss the Copenhagen view, operationalist quantum mechanics, hidden variable theories, Bohm-de Broglie theory, consistent histories, relational quantum mechanics, relative state approaches (many minds and many worlds), QBism, the interactional interpretation, and collapse theories.

**Prerequisite:** [PHY456H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PHY492H1 - Advanced Atmospheric Physics

**Hours:** 24L/12T

A preparatory course for research in experimental and theoretical atmospheric physics. Content will vary from year to year. Themes may include techniques for remote sensing of the Earth's atmosphere and surface; theoretical atmosphere-ocean dynamics; the physics of clouds, precipitation, and convection in the Earth's atmosphere.

**Prerequisite:** [PHY250H1](#),

[MAT235Y1/MAT237Y1/MAT257Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## JPE493H1 - Seismology

**Hours:** 24L

Why do earthquakes occur and how are they related to tectonic motion of the Earth's surface? What is the physics behind the propagation of seismic waves through the Earth, and how can it be used to determine the internal structures of the Earth? This introductory course is aimed at understanding the physics behind seismic wave propagation, as well as asymptotic and numerical

solutions to the elastodynamic equation. Travel time and amplitude of seismic waves are discussed based on seismic ray theory, while numerical methods are introduced to obtain accurate solutions to more complex velocity structures. Seismic tomographic methods, including their applications to hydrocarbon reservoir imaging, are also covered.

**Prerequisite:** JPE395H1,  
APM346H1/APM351Y1/MAT351Y1

**Exclusion:** PHY493H1

**Recommended Preparation:** ESS345H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## Introduction

Physiology is the study of living matter in action. It integrates physical and life science disciplines in order to understand body functions and the origins of disease. Beyond the study of control mechanisms, compensations, and cooperation among body molecules, cells, tissues and organs, the interaction between the body's external and internal environments is a key theme in Physiology. Most importantly, Physiology unifies the life sciences from molecule to organism, providing the link from genomics and molecular signaling pathways to behaviour and disease. Emerging fields for physiologists are the analysis of the functional implications of genomic sequence variation, developmental factors leading to chronic illness, and novel approaches for regenerative medicine.

Biological function -- of molecules, cells, and organs -- is at the heart of Physiology, and this knowledge is fundamental to the life sciences in general. Accordingly, Physiology provides an excellent and often necessary background for subsequent training in Medicine, Dentistry, Pharmacy, Nursing, Physical or Occupational Therapy, and other health-related professions. It is also excellent preparation for graduate work in Physiology and related areas; or for the teaching of Biological Science in secondary schools. Physiologists are needed in hospitals and departments of medicine as teachers and research personnel. Other outlets would be in agriculture and veterinary medicine, in military research establishments and in life science-based industry. The development of air and space travel, the exploration of the continental shelf,

the development of Northern regions, and increased emphasis on exercise and fitness, all provide business and research opportunities for the person trained in Physiology.

Physiology at the research level covers a variety of specialties (e.g. Endocrinology, Cardiovascular Physiology, Neurophysiology, Respiratory Physiology, Reproductive Physiology, Sensory Physiology), each with a wide variety of technical and analytical methods. More information is available on the departmental website ([www.physiology.utoronto.ca](http://www.physiology.utoronto.ca)).

Undergraduate Assistant: Eva Eng, Medical Sciences Building, Room 3368, [physiology.undergrad@utoronto.ca](mailto:physiology.undergrad@utoronto.ca), (416-978-5077)

## Physiology Programs

### Physiology Specialist (Science Program) - ASSPE0482

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Variable Minimum Grade Average*

A minimum grade average in required courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO130H1](#)
- ( [CHM135H1](#) and [CHM136H1](#))/ [CHM151Y1](#)
- 1.5 credits from [BIO120H1](#), [MAT135H1](#), [MAT136H1](#), [MAT137Y1](#), [MAT157Y1](#), [PHY131H1](#), [PHY132H1](#), [PHY151H1](#), [PHY152H1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 60% in each course, or a grade average lower than 70% in these required courses will not be considered for admission. Please note that obtaining this minimum final grade or minimum grade average does not guarantee admission to the program. The underlying numeric final mark in each of your courses required for program enrolment will be used by the relevant academic unit to determine your eligibility.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or

later are asked to please contact the department directly at [physiology.undergrad@utoronto.ca](mailto:physiology.undergrad@utoronto.ca), specify which program you would like to be considered for, and provide your student number.

Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment, or the Physiology website at [www.physiology.utoronto.ca](http://www.physiology.utoronto.ca).

### Completion Requirements:

(14 credits)

First Year:

[BIO120H1](#), [BIO130H1](#); ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#); ( [PHY131H1](#), [PHY132H1](#))/( [PHY151H1](#), [PHY152H1](#))

First Year or Upper Years:

( [MAT135H1](#), [MAT136H1](#))/ [MAT137Y1](#)/ [MAT157Y1](#)\*

Second Year:

1. 2.5 credits from [BCH210H1](#); [BIO230H1](#)/ [BIO255H1](#); [CHM220H1](#)/ [CHM247H1](#)/ [CHM249H1](#); [PSL300H1](#), [PSL301H1](#)

2. 1.5 credits from [BIO220H1](#), [BIO260H1](#)/ [HMB265H1](#); [MAT235Y1](#), [PHY231H1](#), [PSL299Y1](#)/ [PSL399Y1](#), [STA220H1](#)/ [STA250H1](#)

Third Year:

1. 3 credits from [BCH370H1](#); [PSL304H1](#), [PSL305H1](#), [PSL350H1](#)/ [CSB349H1](#)/ [BCH311H1](#), [PSL372H1](#), [PSL374H1](#)

2. 1 credit from the following list: [ANA300Y1](#), [ANA301H1](#); [BME498Y1](#); [CSB325H1](#), [CSB332H1](#)/ [CJH332H1](#), [CSB343H1](#), [CSB345H1](#)/ [CSB445H1](#), [CSB346H1](#), [CSB347H1](#); [IMM340H1](#)/ [IMM341H1](#), [IMM350H1](#)/ [IMM351H1](#); [JPM300H1](#); [PCL201H1](#), [PCL285H1](#), [PCL302H1](#); [PHY331H1](#), [PSL310H1](#); [PSL378H1](#)/ [PSL379H0](#)/ [PSL398H0](#); [PSY397H1](#)

Fourth Year: (at least 2 credits at 400-level)

1. [PSL496Y1](#)/ [PSL497H1](#)/ [PSL498Y1](#)/ [PSL499H1](#)/ [JPM400Y1](#)

2. 1-1.5 credits from [PSL400-series](#) or [HMB430H1](#)/ [HMB470H1](#)/ [HMB472H1](#)

\* These courses may be taken in the first year or subsequent years, and are not required for entrance into the specialist program.

## Physiology Major (Science Program) - ASMAJ0482

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

### Variable Minimum Grade Average

A minimum grade average in required courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses or their equivalents must be completed:

- [BIO120H1](#) and [BIO130H1](#)
- ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)
- 1.0 credit from [MAT135H1](#), [MAT136H1](#), [MAT137Y1](#), [MAT157Y1](#), [PHY131H1](#), [PHY132H1](#), [PHY151H1](#), [PHY152H1](#)

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 60% in each course, or a grade average lower than 70% in these required courses will not be considered for admission. Please note that obtaining this minimum final grade or minimum grade average does not guarantee admission to the program. The underlying numeric final mark in each of your courses required for program enrolment will be used by the relevant academic unit to determine your eligibility.

Applications from students lacking numerical grades in one or more of the specified prerequisites, or students applying in their second or later years, may be considered on the basis of their entire academic record and the availability of space in the program. In addition to applying through ACORN, students applying in their second year or later are asked to please contact the department directly at [physiology.undergrad@utoronto.ca](mailto:physiology.undergrad@utoronto.ca), specify which program you would like to be considered for, and provide your student number.

Please consult the [Arts & Science Program Toolkit](#) for more information on program enrolment.

### Completion Requirements:

(8 credits, including 0.5 credits at the 400-level)

First Year:

1. 2 credits from ( [BIO120H1](#), [BIO130H1](#))/[BIO150Y](#); ( [CHM135H1](#), [CHM136H1](#))/ [CHM151Y1](#)

2. 1 credit from any of the following: [MAT135H1](#), [MAT136H1](#), [MAT137Y1](#), [MAT157Y1](#), [PHY131H1](#), [PHY132H1](#), [PHY151H1](#), [PHY152H1](#)

Second Year:

2 credits from [BCH210H1](#); [BIO230H1](#)/ [BIO255H1](#); [PSL300H1](#), [PSL301H1](#)

Higher Years:

1. 1 credit from [PSL372H1](#), [PSL350H1](#)/ [BCH311H1](#)/ [CSB349H1](#)

2. 1 credit from [ANA300Y1](#), [ANA301H1](#); [CSB325H1](#), [CSB330H1](#), [CSB332H1](#)/ [CJH332H1](#), [CSB343H1](#), [CSB345H1](#)/ [CSB445H1](#), [CSB346H1](#), [CSB347H1](#); [IMM340H1](#)/ [IMM341H1](#), [IMM350H1](#)/ [IMM351H1](#); [JPM300H1](#); [NFS284H1](#); [PCL201H1](#), [PCL285H1](#), [PCL302H1](#); [PSY201H1](#); [PSY397H1](#); [STA220H1](#)

3. 1 credit from HMB430H1/ HMB470H1/ HMB472H1; JPM400Y1; PSL304H1, PSL305H1, PSL310H1, PSL374H1, PSL378H1/ PSL379H1/ PSL379H0/ PSL398H0, PSL399Y1, PSL400-series courses

## Physiology Minor (Science Program) - ASMIN0482

### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

### Completion Requirements:

(4.0 credits, including 1.0 credit at the 300+ level)

## Physiology Courses

### PSL190H1 - Biomedical Research at the Cutting Edge

**Hours:** 24L/6S

Explore the thought processes, logic, motivation, techniques, analysis and impact of recent high-profile publications to gain insight into the enterprise of science. Outstanding scientists present recent high-impact papers, and students will examine the research in depth, focusing on the underlying questions, experimental approach, results and significance. Restricted to first-year students. Not available for CR/NCR option.

**Prerequisite:** SBI4U and SCH4U (Grade 12 University Preparation Biology and Chemistry); permission of Department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### PSL201Y1 - Basic Human Physiology

**Hours:** 44L/24P

A survey course covering all organ systems intended for students who are not proceeding further in Physiology.

**Exclusion:** Any 300-level PSL course taken previously or concurrently

**Recommended Preparation:** 100-level course in BIO or equivalent

**Distribution Requirements:** Science

1. 2.0 credits from: ( BIO120H1, BIO130H1); PSL201Y1/ ( PSL300H1, PSL301H1)

2. 2.0 credits from: BIO251H1, BIO270H1, BIO271H1; CSB325H1, CSB332H/ CJH332H1, CSB343H1, CSB344H, CSB345H1/ CSB445H1, CSB346H1, CSB347H; EEB328H1; HMB200H1/HMB220H, HMB430H1, HMB470H1, HMB472H1; PSL280H1, PSL299Y1, PSL300-series (excluding PSL300H1, PSL301H1), PSL400-series; PSY290H1, PSY396H1, PSY397H1, PSY369H1/PSY399H, PSY490H1, PSY492H1, PSY494H1, PSY497H1

## Biological Physics: see Physics

**Breadth Requirements:** Living Things and Their Environment (4)

### PSL280H1 - Introduction to Physiologic Adaptations of Marine Mammals

**Hours:** 24L/14P

Systems approach to physiology of marine mammals in their aquatic environment. Highlights unique features of cardiovascular, respiratory, renal, urinary, and reproductive systems. Introduces relevant physiology, and makes comparisons to human condition and disease.

**Prerequisite:** (BIO120H1, BIO130H1), CHM136H1/CHM138H1/CHM151Y1 or permission of the course coordinator.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

### PSL299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## JPM300H1 - Research Readiness and Advancing Biomedical Discoveries

**Hours:** 12L/24T

Explore how scientists leverage their knowledge and skills to advance academic biomedical discoveries from the laboratory to improve patient health through either commercialization or not-for-profit approaches. Students will learn about innovation and develop key research and industry skills including intellectual property, ethics, budget and project management; learn how to critically evaluate scientific evidence and effectively communicate to a wide audience. This hybrid student-centered course will include interactive online modules and in-class group work. Course work will focus on developing skills and knowledge to help you be successful in diverse research courses and future careers. Not eligible for CR/NCR.

**Prerequisite:** Completion of 10.0 credits, [BCH210H1/BCH242Y1](#)

**Recommended Preparation:** [PSL300H1](#), [PSL301H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL300H1 - Human Physiology I

**Hours:** 36L/5T

Principles of neurophysiology, endocrinology and reproductive physiology for students enrolled in Life Science programs.

**Exclusion:** [PSL201Y1](#), [PSL302Y1](#)

**Recommended Preparation:** [BIO130H1](#); [CHM136H1/CHM138H1/CHM151Y1](#); and 1.0 credit from any of the following: [MAT135H1](#), [MAT136H1](#), [MAT137Y1](#), [MAT157Y1](#), [PHY131H1](#), [PHY132H](#), [PHY151H1](#), [PHY152H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL301H1 - Human Physiology II

**Hours:** 36L/4T

Principles of respiratory, cardiovascular, gastrointestinal, and renal physiology for students enrolled in Life Science programs.

**Exclusion:** [PSL201Y1](#), [PSL302Y1](#)

**Recommended Preparation:** [BIO130H1](#); [CHM136H1/CHM138H1/CHM151Y1](#); and 1.0 credit from any of the following: [MAT135H1](#), [MAT136H1](#), [MAT137Y1](#),

[MAT157Y1](#), [PHY131H1](#), [PHY132H](#), [PHY151H1](#), [PHY152H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL304H1 - Topics in Cellular, Molecular and Organismic Physiology I

**Hours:** 32L/16T

Control systems, feedback, networks, and both neonatal and adult cardiovascular and respiratory control are the topics examined in detail using homeostasis as a unifying theme. Tutorials involve computer simulations, case studies and/or experimental design. This course is designed for students in the Physiology Specialist and Biological Physics Specialist Programs, although permission is granted to students in other programs upon approval by the Department.

**Prerequisite:** [BCH210H1](#), [PSL300H1](#), [PSL301H1](#), MAT100-series

**Exclusion:** [PSL303Y1](#)

**Recommended Preparation:** [PSL372H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL305H1 - Topics in Cellular, Molecular and Organismic Physiology II

**Hours:** 32L/16T

Molecular, cellular and organismic physiology of the central nervous system, gut, pancreas and glucose-sensing tissues; CNS diseases, obesity and diabetes are used as model systems. Tutorials involve computer simulations. This course is designed for students in the Physiology Specialist and Biological Physics Specialist Programs, although permission is granted to students in other programs upon approval by the Department.

**Prerequisite:** [BCH210H1](#), [PSL300H1](#), [PSL301H1](#), MAT100-series

**Exclusion:** [PSL303Y1](#)

**Recommended Preparation:** [PSL372H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL310H1 - Clinical Reasoning

**Hours:** 24L/12S

Improved clinical reasoning will reduce the current likelihood that most people will suffer at least one medical diagnostic error, errors that contribute to ~10% of patient deaths. Learn to apply strategies of critical thinking and principles of physiology to solve clinical cases. Shadow a healthcare professional. Not eligible for CR/NCR option.

**Prerequisite:** BCH210H1, BIO230H1/ BIO255H1, PSL300H1, PSL372H1, PSL301H1

**Corequisite:** PSL301H1

**Exclusion:** HMB322H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL350H1 - Mammalian Molecular Biology

**Hours:** 18L/12T/6S

Extend molecular biology concepts to current scientific literature in mammalian physiology. Apply these principles to disease and complex behaviours. Discuss bioethical issues raised by these techniques and their application. Benefit from three weeks in small group seminars lead by research professors focusing on current advances in mammalian molecular biology.

**Prerequisite:** BIO230H1/BIO255H1, PSL300H1, BCH210H1

**Corequisite:** PSL301H1

**Exclusion:**

BCH311H1/BIO349H1/CSB349H1/MGY311Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL372H1 - Mammalian Physiology Laboratory

**Hours:** 12L/36P

A laboratory course covering selected topics in physiology. An ancillary fee of \$50 will be charged for lab materials.

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1, BCH210H1/BCH242Y1, MAT100-series/PHY100-series, PSL300H1, PSL301H

**Corequisite:** BCH370H1 (recommended)

**Exclusion:** CSB348H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL374H1 - Advanced Physiology Laboratory

**Hours:** 12L/36P/12S

A problem-based laboratory course focused on the integration and control of organ systems to understand body functions. Enrollment in this course is restricted to students in the Physiology Specialist and Major Programs although permission is granted to students in other programs upon approval by the Department. An ancillary fee of \$50 will be charged for lab materials.

**Prerequisite:** BIO230H1/(BIO240H1, BIO241H1)/BIO255H1, PSL300H1, PSL301H1, PSL372H1

**Exclusion:** CSB348H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL378H1 - Field Physiology: Marine Mammal Autopsy

**Hours:** 12L/24T/36P

An opportunity to go outside of the traditional university classroom and actively participate in a marine mammal autopsy. Learn the diversity and adaptive nature of marine mammalian physiology/anatomy as it compares to human. The course is 2 weeks (in May), one week of hands-on tissue dissection, and one week of group discussions of the findings and draft report preparation. Not eligible for CR/NCR option.

An additional fee is required to help cover the cost of delivery for this course. Please see <https://physiology.utoronto.ca/psl378h1f> for details.

**Prerequisite:** BIO270H1, BIO271H1/PSL201Y1/PSL280H1/PSL300H1, PSL301H1 or permission of the course coordinator

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL379H0 - Comparative Marine Mammal Physiology in the Field

**Hours:** 24T/36P

Hands-on monitoring of physiological measures with live dolphins, manatee and sea lions; field observations and applied learning to a physiology project. Two-weeks at the end of April early May: 1st week is spent at the marine research center in Mexico, 2nd week of wrap-up

discussion and integration of data at U of T. Not eligible for CR/NCR option.

An additional fee is required to help cover the cost of delivery for the course.  
See <https://physiology.utoronto.ca/psl379h> for details.

**Prerequisite:**

BIO220H1/BIO230H1/BIO270H1/BIO271H1/CSB343H1/PSL280H1/PSL201Y1/PSL300H1/PSL301H1/PSY362H1/any other relevant course

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-excursions-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## PSL399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

## JPM400Y1 - Biomedical Incubator Capstone Project

**Hours:** 240P/16S

Discover what it is like to be part of a biomedical innovation team. Develop and engage in biomedical research in a simulated small business/incubator setting under the guidance of a faculty mentor. Bring your proposed JPM300H1 project to life, while acquiring budget management, research, business and communication workplace skills for future careers. Enrolment is application-based. Proposals will be reviewed by committee and successful proposals will be matched to a mentor. Not eligible for CR/NCR option.

*Students will form teams and develop a research proposal based on either:*

1. *Faculty led concept requiring further development and testing, which would not normally be funded grants and would be tangential to ongoing research in the lab.*

2. *Student developed innovative idea that requires further development and testing. This should be a project that is not being investigated in a UofT research lab.*

**Prerequisite:** A minimum of 75% in JPM300H1; completion of any of

PCL367H1/PCL368H1/PSL372H1/BCH370H1/BCH377H1

. Application required; see department for more information.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL404H1 - Regenerative Medicine

**Hours:** 24L/12T

Regenerative medicine promises to restore body function that has been lost due to disease, damage or age. Students will explore selected molecular, stem cell and tissue engineering developments to better understand how the body normally functions and how cells, tissues, and organs can be repaired or replaced.

**Prerequisite:** PSL300H1, PSL301H1

**Recommended Preparation:**

PSL350H1/BCH311H1/CSB349H1/MGY311Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL420H1 - Reproduction: Development and Function

**Hours:** 24L

This course provides an in-depth review of the development and function of the male and female reproductive systems. Topics include sex determination and differentiation, steroidogenesis, gametogenesis, hormonal control of the reproductive axis, the female ovulatory cycle, fertilization and implantation, infertility and assisted reproduction approaches.

**Prerequisite:** PSL300H1, PSL301H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL421H1 - Pregnancy and Birth: From Implantation to Newborn Life

**Hours:** 24L

General overview of the integrated physiological events associated with fetal development, pregnancy and birth. The approach emphasizes physiological processes using insights gained from studies of humans, animals, cells and genes. Where appropriate the clinical consequences of aberrant development are reviewed.

**Prerequisite:** [PSL300H1](#), [PSL301H1](#)

**Recommended Preparation:** [PSL420H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL424H1 - Cellular and Molecular Basis of Endocrine Disorders

**Hours:** 24S

Explore how researchers uncover the molecular and cellular basis of endocrine disorders. Learn about experimental design, state-of-the-art research tools, and data interpretation. Topics include disorders in: hormone regulation, secretion and action; circadian rhythms; and sexual development and reproduction. Each week students engage in class discussion related to research seminars delivered by faculty.

**Prerequisite:** [PSL300H1](#), [PSL301H1](#), [PSL350H1](#)/[BCH311H1](#)/[CSB349H1](#)/[MGY311Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL425H1 - Integrative Metabolism and its Endocrine Regulation

**Hours:** 24L

This course integrates the newest findings and experimental approaches from cellular and molecular biology into metabolic function at the tissue, organ and whole body level.

**Prerequisite:** [BCH210H1](#), [PSL300H1](#), [PSL301H1](#)

**Recommended Preparation:** [PSL305H1](#)/[PSL303Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL432H1 - Theoretical Physiology

**Hours:** 24L

Theoretical treatment of neurophysiology. Mathematical modeling and analysis of neurophysiological systems.

**Prerequisite:** [MAT235Y1](#)/[MAT237Y1](#);

[APM346H1](#)/[MAT244H1](#)

**Recommended Preparation:** PHY200-series;

[PSL201Y1](#)/[PSL300H1](#)/[\(BIO270H1, BIO271H1\)](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL440Y1 - Neuroscience: Systems and Behaviour

**Hours:** 96L

Introduction to systems neuroscience. A review of basic neuroanatomy and physiology followed by in-depth study of selected sensory and motor systems, with an emphasis on clinical applications in the second term. Students with an elementary neuroscience background progress to reading neuroscience literature on their own.

**Prerequisite:** [PSL300H1](#)/[PSY290H1](#)/[CSB332H1](#) or equivalent

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL445H1 - Neuroscience: Cellular and Molecular

**Previous Course Number:** PSL444Y1

**Hours:** 36L

Overview of the fundamentals of cellular and molecular aspects of brain function. Course material is updated yearly to reflect the rapid evolution of ideas in Neuroscience.

**Prerequisite:** [PSL300H1](#), [PSL301H1](#), [CJH332H1](#) or permission of instructor

**Exclusion:** [PSL444Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL446H1 - Neural Disorders

**Previous Course Number:** PSL444Y1

**Hours:** 36L

Explore topics in neurological disorders and treatments to reinforce and expand your knowledge of cellular and molecular neurophysiology. Course material is updated yearly to reflect the rapid evolution of ideas in this area.

**Prerequisite:** [PSL300H1](#), [PSL301H1](#), [CJH332H1](#) or permission of instructor

**Exclusion:** [PSL444Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL450H1 - Mechanisms of Neural and Endocrinal Secretion

**Hours:** 24L

Exocytosis and other aspects of secretion mainly in neurons and neuroendocrine cells, but also in pancreatic cells. Topics include synapse anatomy and physiology, synaptic plasma membrane and vesicle proteins, membrane fusion, genetic tools, endocrine secretion, plasticity in neurotransmitter release, diseases arising from secretion defects.

**Prerequisite:** [BCH210H1](#), [PSL300H1](#)/([BIO240H1](#), [BIO241H1](#)),

[PSL350H1](#)/[CSB349H1](#)/[BCH311H1](#)/[MGY311Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL452H1 - Membrane Physiology

**Hours:** 24L

Biophysics and molecular biology of ion channels. Topics include equivalent circuits for cells, molecular structure of voltage-gated channels, distribution of channels, relationship between single-channel and whole-cell recording, and regulation of channel function by voltage, phosphorylation, G-proteins and metabolites.

**Prerequisite:** [PSL300H1](#), [PSL301H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL462H1 - Molecular Aspects of Cardiovascular Function

**Hours:** 36L

Heart anatomy and development, ion channels and contractile proteins involved in cardiac and smooth muscle contraction are studied. Emphasis is on regulation of electrical and contractile function of kinases, metabolism, volume and ions.

**Prerequisite:** [PSL300H1](#), [PSL301H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL470H1 - Cardiovascular Physiology

**Hours:** 24L

Development of the cardiovascular system from conception to adulthood with particular emphasis on maturational changes, age-related differences and developmental problems from cellular/molecular to whole organ/system.

**Prerequisite:** [PSL300H1](#), [PSL301H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL472H1 - Sleep Physiology and Chronobiology

**Hours:** 24L

This course covers the physiology underlying sleep and circadian rhythms, and their impact on important physiological processes and health. The integrative nature of the basic physiological processes is emphasized via discussions and clinical presentations. Overall, the aim is to present the full spectrum of integrative physiology from molecules and cells to understanding the sick patient.

**Prerequisite:** [PSL300H1](#), [PSL301H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL480H1 - Diving Physiology of Marine Mammals

**Hours:** 24L/6T

This course compares and contrasts the physiological and anatomical adaptations exhibited by the different species of marine mammals in relationship to humans, with respect to diving.

**Prerequisite:** [\(BIO270H1, BIO271H1\)/PSL201Y1/PSL300H1, PSL301H1; PSL280H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL495H1 - Communicate Biomedical Science

**Hours:** 6L/2T/18S

Research, critique and write a manuscript on a topic of your choice in the scientific literature while guided by classes and assignments that develop advanced science communication skills; and by a mentor expert in your area of clinical or basic physiology.

**Prerequisite:** [PSL300H1; PSL301H1; PSL372H1](#); 13.5 additional credits; and permission of Department

**Exclusion:** [BCH479H1; HMB490H1; HMB491H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL496Y1 - Translational Physiology Research Project

**Hours:** 144P

Engage in supervised original science research, either basic or clinical, combined with a healthcare placement. Develop skills in defining scientific questions, designing experiments, analyzing data, and communicating your results. Gain insight into the power of translational bench-to-bedside research. Discover your interest in becoming a science researcher. Not eligible for CR/NCR option.

**Prerequisite:** [PSL300H1, PSL301H1, PSL310H1, PSL372H1](#), permission of Department.

**Exclusion:** [PSL497H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL497H1 - Translational Physiology Research Project

**Hours:** 72P

Engage in original science research, either basic or clinical, combined with a healthcare placement. Develop skills in defining scientific questions, designing experiments, analyzing data, and communicating your results. Gain insight into the power of translational “bench-to-bedside” research. Discover your interest in becoming a science researcher. Not eligible for CR/NCR option.

**Prerequisite:** [PSL300H1, PSL301H1, PSL310H1, PSL372H1](#), permission of Department.

**Exclusion:** [PSL496Y1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL498Y1 - Project in Physiology

**Hours:** 144P

Laboratory research project with reading assignments leading to a final report. By special arrangement with a Physiology staff member after admission to course. PSL498Y1 is recommended for students applying to the Physiology graduate program. Enrollment in this course is restricted to students in the Physiology Specialist and Major Programs, although permission is granted to students in other programs upon approval by the Department. Not eligible for CR/NCR option.

**Prerequisite:** [\(PSL304H1, PSL305H1\)/PSL303Y1, PSL372H1, PSL374H1](#), permission of Department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSL499H1 - Project in Physiology

**Hours:** 72P

Laboratory research project with reading assignments leading to a final report. By special arrangement with a Physiology staff member after admission to course. PSL499H1 is recommended for students applying to the Physiology graduate program. Enrollment in this course is restricted to students in the Physiology Specialist and Major Programs, although permission is granted to students in other programs upon approval by the Department. Not eligible for CR/NCR option.

**Prerequisite:** [\(PSL304H1, PSL305H1\)/PSL303Y1, PSL372H1, PSL374H1](#), permission of Department

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

# Planetary Science

MAT136H1)/ MAT137Y1, ( PHY131H1, PHY132H1)/( PHY151H1, PHY152H1) ( MAT137Y1 and PHY151H1, PHY152H1 preferred)

First or Second Year:  
MAT223H1/ MAT240H1

Second or Third Year:  
AST221H1, AST222H1, ( CHM222H1, CHM223H1)/( PHY252H1, PHY256H1), CHM238Y1, ESS223H1, ESS261H1, ESS262H1; MAT235Y1/MAT237Y1 ( MAT237Y1 preferred), MAT244H1/MAT267H1, PHY250H1, PHY254H1

Third and/or Fourth Years:

JPE395H1

At least four of (2.0 credits) AST325H1, CHM327H1, CHM338H1, PHY354H1, PHY407H1, PHY408H1, GGR201H1, ESS223H1, ESS241H1, ESS445H1, ESS462H1

Fourth Year:  
PLN420H1, PLN425H1

Students must enrol with the course coordinator. Not eligible for CR/NCR option.

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## Planetary Science Programs

### Planetary Science Specialist (Science Program) - ASSPE1073

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(14.0 credits, including 2.0 credits at the 300+ level, of which 1.0 credit must be a the 400-level)

First Year:  
( CHM135H1, CHM136H1)/ CHM151Y1, ( MAT135H1,

## Planetary Science Courses

### PLN420H1 - Interdisciplinary Seminar in Planetary Science

**Hours:** 24S

Discussion of topics of current interest in planetary science with emphasis on papers published in scientific journals. This course is intended for students in the final year of the Planetary Science specialist program. Students must enrol with the course coordinator.

**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

### PLN425H1 - Research in Planetary Science

**Hours:** 120P

Research report by student in consultation with individual staff member in Astronomy, Chemistry, Geology or Physics. This course is intended for students in the final year of the Planetary Science specialist program.

# Political Science

## Faculty List

### University Professor Emeritus

P.H. Russell, DSc, MA, LL.D., FRSC, OC (I, T)

### University Professor

† D. Breznitz, BA, PhD

J.G. Stein, MA, PhD, LL.D., FRSC, OC, OOnt (U)

### Professors Emeriti

E. Adler, MA, PhD, FRSC

E.G. Andrew, BA, PhD

J.S. Barker, MA, PhD (N)

R.S. Beiner, BA, DPhil, FRSC (University of Toronto Mississauga)

† S. Borins, BA, MPP, PhD

† A.S. Brudner, LL.B., MA, PhD, FRSC

J.H. Carens, MPhil (Theol), MPhil, PhD, FRSC

† F.A. Cunningham, MA, PhD, FRSC (I)

M.W. Donnelly, MA, PhD

V.C. Falkenheim, MA, PhD

J.F. Fletcher, MA, PhD

H.D. Forbes, MA, PhD

F.J.C. Griffiths, MIA, PhD (U)

G. Horowitz, MA, PhD

B. Kovrig, MA, PhD (T)

† A.M. Kruger, BA, PhD

L. LeDuc, MA, PhD (SM)

R.A. Manzer, MA, PhD (University of Toronto Scarborough)

R.O. Matthews, BA, MIA, PhD (T)

† J. Nedelsky, MA, PhD

N. Nevitte, MA, PhD, FRSC

D.M. Rayside, AM, PhD, FRSC (U)

A.G. Rubinoff, MA, PhD (University of Toronto Scarborough)

K.R.J. Sandbrook, MA, DPhil, FRSC

D.V. Schwartz, MA, PhD

P.H. Solomon, MA, PhD

S.G. Solomon, MA, PhD (University of Toronto Scarborough)

R.E. Stren, MA, PhD, Dhc (I)

C. Tuohy, MA, PhD, FRSC

G. White, MA, PhD (University of Toronto Mississauga)

N. Wiseman, MA, PhD (U)

### Associate Professor Emeritus, Teaching Stream

M. Lippincott, MA, PhD (University of Toronto Mississauga)

### Professor and Acting Chair

R.K. Balot, MA, PhD

### Professor and Associate Chair (Graduate Studies)

J. Bertrand, MSc, MA, PhD

### Associate Professor and Associate Chair (Undergraduate Studies)

† D.L. Eyoh, MA, PhD (N)

### Professors

† A.B. Bakan, BAH, MA, PhD

S. Bashevkin, MA, PhD, FRSC (U)

S. Bernstein, MA, PhD (University of Toronto Mississauga)

A. Braun, MA, PhD (University of Toronto Mississauga) (T)

D.R. Cameron, MSc, PhD, FRSC, CM

J.A. Clark, MA, PhD (University of Toronto Mississauga)

† D.B. Cook, MA, PhD (V)

R.B. Day, Dip REES, MA, PhD (University of Toronto Mississauga)

† R.B. Deber, SM, PhD, FRSC

† R.J. Deibert, MA, PhD, OOnt (T)

† K.H. Green, MA, PhD (U)

R.S. Haddow, MSc, PhD

A. Handley, MPhil, PhD

R. Hansen, MPhil, DPhil (T)

† R. Hirschl, LL.B., MA, MPhil, PhD, FRSC

M.J. Hoffmann, MPhil, PhD (University of Toronto Scarborough)

C. Jung, MA, PhD

P.W.T. Kingston, MA, MPhil, DPhil (University of Toronto Scarborough)

R.E. Kingston, MA, PhD

J.J. Kirton, MA, PhD (T)

M. Kohn, MA, PhD (University of Toronto Scarborough)

† R. Levi, BCL, LL.B., LL.M., SJD

† P.J. Loewen, BA, PhD

P.R. Magocsi, MA, MA, PhD, FRSC

C. Orwin, AM, PhD (SM)

L.W. Pauly, MA, MSc, PhD, FRSC (T)

† I. Peng, MA, PhD (T)

† K. Roach, LL.B., LL.M., FRSC

A. Sabl, AB, PhD

E. Schatz, MA, PhD, (University of Toronto Mississauga)

† D. Schneiderman, LL.B., LL.M.

† A. Shachar, BA, LL.B., LL.M., JSD, FRSC

G. Skogstad, MA, PhD (University of Toronto Scarborough)

† A. Stark, MSc, AM, PhD

J.A. Teichman, MA, PhD, FRSC (University of Toronto Scarborough)

R. Vipond, AM, PhD (V)

L. Way, MA, PhD (University of Toronto Scarborough)

† L.E. Weinrib, BA, LL.B., LL.M.

† Cross-appointed

## Introduction

The study of Political Science at the University of Toronto is wide-ranging and diverse. Courses are offered in political theory, Canadian government, international relations, and the politics of societies that are industrialized, developing, and in transition. Many courses deal with issues (such as environmental politics, diversity, peace and conflict, globalization) that cut across fields. Course offerings are designed to introduce students to Political Science at the first year level, provide the foundations for further study at the second year level, and provide specialized lecture and seminar courses at the intermediate and advanced levels. Studies in Political Science provide students with a good grounding in one of the chief social science disciplines and an opportunity to explore the issues that confront us as individuals, groups, societies and on the international level in the twenty-first century. In addition to the materials covered, Political Science courses are set up to offer students an opportunity to learn writing and analytical skills to support a challenging and diverse career.

Courses in Political Science dovetail with programs in many other disciplines of the social sciences and the

humanities: Economics, Sociology, History, Philosophy, and Psychology. A student interested in Canadian studies or urban problems, for example, would be well advised to choose courses from all these disciplines, as would someone interested in international affairs or environmental studies. A student planning graduate work in the social sciences should seek to obtain a basic understanding of each of these disciplines.

Detailed information on our programs, extended descriptions of courses, and background information on the interests of our instructors can be found on our website. The Association of Political Science Students, the students' organization for Political Science undergraduates, has an office in Room 1091, Sidney Smith Hall.

Undergraduate Director: Professor Dickson Eyoh, Sidney Smith Hall, Room 3018, (416) 978-3342, [dickson.eyoh@utoronto.ca](mailto:dickson.eyoh@utoronto.ca)

Student and Alumni/Advancement Coordinator: Elizabeth Jagdeo, Sidney Smith Hall, Room 3027, (416) 978-0900, [e.jagdeo@utoronto.ca](mailto:e.jagdeo@utoronto.ca)

## Political Science Programs

### Political Science Specialist (Arts Program) - ASSPE2015

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Completed courses (with minimum grades)*

The following courses with the stated minimum grades are required for students who have completed 4.0 to 8.5 credits:

- 1.0 credit from [POL101H1](#), [POL106H1](#), [POL107H1](#), [POL109H1](#) with a grade of 65% in each; or
- 0.5 credit from [POL101H1](#), [POL106H1](#), [POL107H1](#), [POL109H1](#) with a grade of 65%, and 0.5 credit from [POL193H1](#), [POL194H1](#), [POL195H1](#), [POL196H1](#), [POL197H1](#), [POL198H1](#) with a grade of 65%; or

- 0.5 credit from [POL101H1](#), [POL106H1](#), [POL107H1](#), [POL109H1](#) with a grade of 65%, and 0.5 credit from [MUN101H1](#), [MUN102H1](#), [TRN151Y1](#), [TRN160Y1](#), [TRN162Y1](#), [TRN172Y1](#), [VIC110H1](#), [VIC121H1](#), [VIC167H1](#), [VIC168H1](#), [VIC181H1](#), [VIC183H1](#), [VIC184H1](#), [VIC185H1](#), [WDW151H1](#), [WDW152H1](#) with a grade of 65%

For students who have completed 9.0 or more credits:

- 2.0 credits in non-FYF POL courses with a grade of 70% in each; or
- 1.5 credits in non-FYF POL courses with a grade of 70% in each, and 0.5 credit from [POL193H1](#), [POL194H1](#), [POL195H1](#), [POL196H1](#), [POL197H1](#), [POL198H1](#) with a grade of 70%; or
- 1.5 credits in non-FYF POL courses with a grade of 70% in each, and 0.5 credit from [MUN101H1](#), [MUN102H1](#), [TRN151Y1](#), [TRN160Y1](#), [TRN162Y1](#), [TRN172Y1](#), [VIC110H1](#), [VIC121H1](#), [VIC167H1](#), [VIC168H1](#), [VIC181H1](#), [VIC183H1](#), [VIC184H1](#), [VIC185H1](#), [WDW151H1](#), [WDW152H1](#) with a grade of 70%

#### Completion Requirements:

(10.0 POL credits. Of these, 3.0 credits must be 300+ level courses and 1.0 credit must be 400 level.)

First Year:

- 1.0 credit in POL courses at the 100-level (of which only a maximum of 0.5 credit may come from: [POL193H1](#), [POL194H1](#), [POL195H1](#), [POL196H1](#), [POL197H1](#), [POL198H1](#), or other first-year seminars in relevant topics such as [MUN101H1](#), [MUN102H1](#), [TRN151Y1](#), [TRN160Y1](#), [TRN162Y1](#), [TRN172Y1](#), [VIC110H1](#), [VIC121H1](#), [VIC167H1](#), [VIC168H1](#), [VIC181H1](#), [VIC183H1](#), [VIC184H1](#), [VIC185H1](#), [WDW151H1](#), [WDW152H1](#))

Higher Years:

1. [POL200Y1](#)
2. 0.5 credit from: [POL201H1](#)/ [POL208H1](#)/  
[POL218H1](#)
3. [POL214H1](#)/ [POL224H1](#) and 0.5 credit at the 200+ level in Canadian Politics from [JPI201H1](#), [POL220H1](#), [POL312H1](#), [POL312Y1](#), [POL313H1](#), [POL316H1](#), [POL316Y1](#), [POL334H1](#), [POL336H1](#), [POL337H1](#), [POL337Y1](#), [POL344H1](#), [POL344Y1](#), [POL351H1](#), [POL353H1](#), [POL356H1](#), [POL356Y1](#), [POL363H1](#), [POL382H1](#), [POL404Y1](#), [POL428H1](#), [POL439H1](#), [POL450H1](#), [POL467H1](#), [POL474H1](#), [POL490H1](#), [POL491H1](#)

Some offerings of other POL Special Topics

courses that cover Canadian politics may also be eligible as determined by the department. Please see Department's website <https://politics.utoronto.ca/undergraduate/courses/canadian-politics-co...> for a full listing of Canadian politics courses.

4. [POL222H1](#)
5. [POL232H1](#)
6. 1.0 credit in Diversity and Identity. The following courses fulfill the Diversity and Identity requirement: [POL194H1](#), [POL195H1](#), [POL197H1](#), [POL198H1](#), [POL198Y1](#), [JPI201H1](#), [POL220H1](#), [POL303H1](#), [JPS315H1](#), [POL344H1](#), [POL344Y1](#), [POL351H1](#), [POL353H1](#), [JPR374H1](#), [JPS378H1](#), [POL428H1](#), [POL432H1](#), [POL450H1](#), [JPR458H1](#), [POL467H1](#).

Some offerings of other POL Special Topics courses may also be eligible as determined by the department. Please see Department's website <https://politics.utoronto.ca/undergraduate/courses/diversity-identity-p...> for a full listing of Diversity and Identity courses.

7. [POL320Y1](#), or 0.5 credit in Quantitative Methods or Qualitative Methods at the 300+ level from: [POL304H1](#), [POL419H1](#), [POL478H1](#)
8. Additional POL courses to a total of 10.0 credits.

Note:

- No more than 1.0 credit of 100-level courses may be used to fulfill the program requirements.
- No more than 1.0 credit of NON-POL courses may be used to fulfill the POL program requirements. [MUN101H1](#), [MUN102H1](#), [TRN151Y1](#), [TRN160Y1](#), [TRN162Y1](#), [TRN172Y1](#), [VIC110H1](#), [VIC121H1](#), [VIC167H1](#), [VIC168H1](#), [VIC181H1](#), [VIC183H1](#), [VIC184H1](#), [VIC185H1](#), [WDW151H1](#), [WDW152H1](#), [GER275H1](#), [GGR324H1](#), [GGR344H1](#), [GGR429H1](#), [INI339H1](#), [URB339H1](#), [NEW324H1](#)/ [CAR324H1](#), [NEW353H1](#)/ [AFR353H1](#), [NEW455H1](#)/ [AFR455H1](#), [PCJ260Y1](#), [RLG434H1](#), [VIC476H1](#) are examples of such NON-POL courses.
- Some courses may contribute to both the Canadian Politics and Diversity and Identity requirements (in requirements 3 and 6). Refer to the Department website for a full list of courses that meet these requirements.

## Political Science Major (Arts Program) - ASMAJ2015

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Completed courses (with minimum grades)*

The following courses with the stated minimum grades are required for students who have completed 4.0 to 8.5 credits:

- 1.0 credit from [POL101H1](#), [POL106H1](#), [POL107H1](#), [POL109H1](#) with a grade of 65% in each; or
- 0.5 credit from [POL101H1](#), [POL106H1](#), [POL107H1](#), [POL109H1](#) with a grade of 65%, and 0.5 credit from [POL193H1](#), [POL194H1](#), [POL195H1](#), [POL196H1](#), [POL197H1](#), [POL198H1](#) with a grade of 65%; or
- 0.5 credit from [POL101H1](#), [POL106H1](#), [POL107H1](#), [POL109H1](#) with a grade of 65%, and 0.5 credit from [MUN101H1](#), [MUN102H1](#), [TRN151Y1](#), [TRN160Y1](#), [TRN162Y1](#), [TRN172Y1](#), [VIC110H1](#), [VIC121H1](#), [VIC167H1](#), [VIC168H1](#), [VIC181H1](#), [VIC183H1](#), [VIC184H1](#), [VIC185H1](#), [WDW151H1](#), [WDW152H1](#) with a grade of 65%

For students who have completed 9.0 or more credits:

- 2.0 credits in non-FYF POL courses with a grade of 70% in each; or
- 1.5 credits in non-FYF POL courses with a grade of 70% in each, and 0.5 credit from [POL193H1](#), [POL194H1](#), [POL195H1](#), [POL196H1](#), [POL197H1](#), [POL198H1](#) with a grade of 70%; or
- 1.5 credits in non-FYF POL courses with a grade of 70% in each, and 0.5 credit from [MUN101H1](#), [MUN102H1](#), [TRN151Y1](#), [TRN160Y1](#), [TRN162Y1](#), [TRN172Y1](#), [VIC110H1](#), [VIC121H1](#), [VIC167H1](#), [VIC168H1](#), [VIC181H1](#), [VIC183H1](#), [VIC184H1](#), [VIC185H1](#), [WDW151H1](#), [WDW152H1](#) with a grade of 70%

#### **Completion Requirements:**

(7.0 POL credits. Of these, 1.5 credits must be 300+ level courses and a 0.5 credit must be 400 level.)

First Year:

- 1.0 credit in POL courses at the 100-level (of which only a maximum of 0.5 credit may come from: [POL193H1](#), [POL194H1](#), [POL195H1](#), [POL196H1](#), [POL197H1](#), [POL198H1](#), or other first-year seminars in relevant topics such as [MUN101H1](#), [MUN102H1](#), [TRN151Y1](#), [TRN160Y1](#), [TRN162Y1](#), [TRN172Y1](#), [VIC110H1](#), [VIC121H1](#), [VIC167H1](#), [VIC168H1](#), [VIC181H1](#),

VIC183H1, VIC184H1, VIC185H1, WDW151H1, WDW152H1)

- Some courses may contribute to both the Canadian Politics and Diversity and Identity requirements (in requirements 3 and 5). Refer to the Department website for a full list of courses that meet these requirements.

Higher Years:

1. POL200Y1
2. 0.5 credit from: POL201H1/ POL208H1/ POL218H1
3. POL214H1/ POL224H1 and 0.5 credit at the 200+ level in Canadian Politics from JPI201H1, POL220H1, POL312H1, POL312Y1, POL313H1, POL316H1, POL316Y1, POL334H1, POL336H1, POL337H1, POL337Y1, POL344H1, POL344Y1, POL351H1, POL353H1, POL356H1, POL356Y1, POL363H1, POL382H1, POL404Y1, POL428H1, POL439H1, POL450H1, POL467H1, POL474H1, POL490H1, POL491H1

Some offerings of other POL Special Topics courses that cover Canadian politics may also be eligible as determined by the department. Please see Department's website <https://politics.utoronto.ca/undergraduate/courses/canadian-politics-co...> for a full listing of Canadian politics courses.

4. POL222H1
5. 1.0 credit in Diversity and Identity. The following courses fulfill the Diversity and Identity requirement: POL194H1, POL195H1, POL197H1, POL198H1, POL198Y1, JPI201H1, POL220H1, POL303H1, JPS315H1, POL344H1, POL344Y1, POL351H1, POL353H1, JPR374H1, JPS378H1, POL428H1, POL432H1, POL450H1, JPR458H1, POL467H1.

Some offerings of other POL Special Topics courses may also be eligible as determined by the department. Please see Department's website <https://politics.utoronto.ca/undergraduate/courses/diversity-identity-p...> for a full listing of Diversity and Identity courses.

6. Additional POL courses to a total of 7.0 credits.

Note:

- No more than 1.0 credit of 100-level courses may be used to fulfill the program requirements.
- No more than 1.0 credit of NON-POL courses may be used to fulfill the POL program requirements. MUN101H1, MUN102H1, TRN151Y1, TRN160Y1, TRN162Y1, TRN172Y1, VIC110H1, VIC121H1, VIC167H1, VIC168H1, VIC181H1, VIC183H1, VIC184H1, VIC185H1, WDW151H1, WDW152H1, GER275H1, GGR324H1, GGR344H1, GGR429H1, INI339H1/ URB339H1, NEW324H1/ CAR324H1, NEW353H1/ AFR353H1, NEW455H1/ AFR455H1, PCJ260Y1, RLG434H1, VIC476H1 are examples of such NON-POL courses.

## Political Science Minor (Arts Program) - ASMIN2015

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### *Completed courses (with minimum grades)*

The following courses with the stated minimum grades are required for students who have completed 4.0 to 8.5 credits:

- 1.0 credit from POL101H1, POL106H1, POL107H1, POL109H1 with a grade of 65% in each; or
- 0.5 credit from POL101H1, POL106H1, POL107H1, POL109H1 with a grade of 65%, and 0.5 credit from POL193H1, POL194H1, POL195H1, POL196H1, POL197H1, POL198H1 with a grade of 65%; or
- 0.5 credit from POL101H1, POL106H1, POL107H1, POL109H1 with a grade of 65%, and 0.5 credit from MUN101H1, MUN102H1, TRN151Y1, TRN160Y1, TRN162Y1, TRN172Y1, VIC110H1, VIC121H1, VIC167H1, VIC168H1, VIC181H1, VIC183H1, VIC184H1, VIC185H1, WDW151H1, WDW152H1 with a grade of 65%

For students who have completed 9.0 or more credits:

- 1.0 credit in non-FYF POL courses with a grade of 65% in each; or
- 0.5 credit from non-FYF POL courses with a grade of 65%, and 0.5 credit from POL193H1, POL194H1, POL195H1, POL196H1, POL197H1, POL198H1 with a grade of 65%; or
- 0.5 credit from non-FYF POL courses with a grade of 65%, and 0.5 credit from MUN101H1, MUN102H1, TRN151Y1, TRN160Y1, TRN162Y1, TRN172Y1, VIC110H1, VIC121H1, VIC167H1, VIC168H1, VIC181H1, VIC183H1, VIC184H1, VIC185H1, WDW151H1, WDW152H1 with a grade of 65%

### Completion Requirements:

(4.0 POL credits)

- 4.0 POL credits. Of these, at least 1.0 credit must be 300+ level courses.

Note:

- No more than 1.0 credit of 100-level courses may be used to fulfill the program requirements.
- No more than 1.0 credit of NON-POL courses may be used to fulfill the POL program requirements. [MUN101H1](#), [MUN102H1](#), [TRN151Y1](#), [TRN160Y1](#), [TRN162Y1](#), [TRN172Y1](#), [VIC110H1](#), [VIC121H1](#), [VIC167H1](#), [VIC168H1](#), [VIC181H1](#), [VIC183H1](#), [VIC184H1](#), [VIC185H1](#), [WDW151H1](#), [WDW152H1](#), [GER275H1](#), [GGR324H1](#), [GGR344H1](#), [GGR429H1](#), [INI339H1](#), [URB339H1](#), [NEW324H1](#)/ [CAR324H1](#), [NEW353H1](#)/ [AFR353H1](#), [NEW455H1](#)/ [AFR455H1](#), [PCJ260Y1](#), [RLG434H1](#), [VIC476H1](#) are examples of such NON-POL courses.

## Political Science Courses

### POL101H1 - The Real World of Politics: An Introduction

**Previous Course Number:** POL101Y1  
**Hours:** 24L/12T

This course introduces students to compelling issues of contemporary politics through the lens of classic and important texts in political science. The course covers the politics of climate change, Indigenous rights, elections and electoral systems, terrorism, social movements and political activism, voting, democracy, and power.

**Exclusion:** [POL101Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### POL106H1 - Contemporary Challenges to Democracy: Democracy in the Social Media Age

**Hours:** 24L/12T

This course examines the latest evidence-based research on the effects of social media on democracy. We cover surveillance capitalism, privacy, disinformation, and the often-overlooked ecological implications of data

## Regarding Political Science Courses

### PLEASE NOTE:

- Not all courses listed in the calendar are offered every year. Please check the Department's website for the list of courses offered.
- Prerequisites and exclusions are enforced for all 2nd, 3rd and 4th year courses. Please consult the POL section of the Faculty of Arts & Science [Registration Instructions](#) and [Course Enrolment Instructions](#) for details. **Students without course prerequisites will be removed at any time they are discovered.**
- Enrolment is limited for all 300-level and 400-level courses. See the [Registration Instructions](#) and [Course Enrolment Instructions](#) for details.
- Nearly all POL 400-level courses are offered as joint undergraduate-graduate seminars with class sizes ranging from 15-25.

consumption. We also examine targeted digital espionage against civil society, Citizen Lab research reports, and explore solutions and alternatives to social media.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### POL107H1 - What Went Wrong? A Post Mortem of Political Disasters, Catastrophic Policy Failures, and Epic Marches of Folly

**Hours:** 24L/12T

Why do individuals, groups, and societies make repeated, and often easily predictable mistakes? Why do they persist in courses of action that produce disastrous results? Why is it that in the political world good intentions are insufficient to ensure good results? This course employs the political science analytical toolkit to answer these questions and examines an array avoidable disasters, from the local to the international.

**Exclusion:** [POL486H1](#) (Topics in International Politics I: What Went Wrong? A Post Mortem of Political Disasters, Policy Failures and Marches of Folly), offered in Winter 2019 and Winter 2020; [POL487H1](#) (Topics in International Politics II: What Went Wrong? A Post Mortem of Political Disasters, Catastrophic Policy Failures), offered in Winter 2018

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL109H1 - Might and Right: Power and Justice in International Relations

**Hours:** 24L/12T

This course explores the relationship between justice, power, and interests in the works of prominent ancient, modern, and contemporary thinkers. It adopts a problem-driven approach and engages with current controversies in international relations in light of insights from classic books. Special attention is paid to the prospects of a just world order, the causes and justifications of war, the construction of images of citizens and enemies, and the nature of duties to outsiders.

**Exclusion:** [POL323Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL193H1 - First-Year Foundation Seminar: The Politics of Representation

**Hours:** 24S

This course examines the politics of representation in Canada from a political science perspective. What is representation? Why are some groups under-represented? How can we increase the representation of marginalized groups? Students will learn to evaluate qualitative, quantitative and normative scholarship; develop their own arguments; and communicate their arguments effectively.

Restricted to first-year students.

Not available for CR/NCR option.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL194H1 - First-Year Foundation Seminar: Race

**Hours:** 24S

This course is an introduction to the history, politics, economics, and psychology of race and racism, as well as intersections between race and class, gender, and indigeneity. The course focuses attention on the ways that states structure race, and the ways race is differently conceptualized around the world.

Restricted to first-year students.

Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL195H1 - First-Year Foundation Seminar: Settler Colonialism and Enduring Indigeneity

**Hours:** 24S

What is settler colonialism and how does Indigeneity endure it? This course explores the many, diverse ways that Indigenous peoples resist settler colonization and persist beyond it. We will examine Indigenous activisms, legal orders, political philosophies, and cultural productions that demonstrate settler colonialism is indeed a failing project.

Restricted to first-year students.

Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL196H1 - First-Year Foundation Seminar: The China Challenge

**Hours:** 24S

China's meteoric rise to great power status has triggered an intense international debate over its global implications. While many analysts see Beijing's rise as posing a threat to global political and economic stability, Chinese leaders have argued forcefully that China's efforts to regain its historic preeminence will result in a 'win-win' outcome for all states. This course will assess the merits of these contending positions through an historical examination of China's 20th century renaissance. The course will begin by tracing the long period of imperial decline in the 19th century, culminating in China's revolutionary rebirth as a Marxist state in 1949. A major focus will be on the Mao-era legacy of revolutionary diplomacy and the foreign policy consequences of its later transformation into a market-authoritarian powerhouse.

Restricted to first-year students.

Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **POL197H1 - First-Year Foundation Seminar: Solidarity in Diverse Societies**

**Hours:** 24S

Liberal democracies in the “populist” age are increasingly defined by polarization. Many observers fear that liberal democracies are having trouble accommodating diversity and protecting the rule of law and the integrity of their elections. This course will explore how these societies can better accommodate diversity and preserve liberal democracy. It will consider patriotism and nationalism, as well as arguments that seek to empower citizens with the techniques of “political friendship” required to manage difference and disagreement. The course will also consider critical arguments, that solidarity can only be attained by juxtaposing the political community against an “enemy.”

Restricted to first-year students.

Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## **POL198H1 - First-Year Foundation Seminar: Social Justice and the City**

**Previous Course Number:** POL198Y1  
**Hours:** 24S

An introduction to the concept of social justice from an urban perspective. It will highlight how unequal relations of race, class, gender, sexuality, and ability operate through the urban environment, and how these conditions can be contested through political mobilization.

Restricted to first-year students.

Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **POL200Y1 - Political Theory: Visions of the Just/Good Society**

**Hours:** 48L/24T

A selective presentation of critical encounters between philosophy and politics, dedicated to the quest for articulation and founding of the just/good society. Among the theorists examined are Plato, Aristotle, Machiavelli, Hobbes and Locke.

**Exclusion:** POL200Y5/POLC70H3/POLC71H3  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3), Thought, Belief and Behaviour (2)

## **JPI201H1 - Indigenous Politics in Canada**

**Previous Course Number:** POL308H1  
**Hours:** 24L/12T

This course explores key issues in Indigenous politics in Canada. Provides students with an overview of historical and contemporary socio-political issues in Indigenous societies and institutions such as Indigenous self-governance, land claims and treaty negotiations.

**Prerequisite:** 4.0 credits/1.0 POL credit/INS201Y1  
**Exclusion:** POL308H1/POLC56H3  
**Recommended Preparation:** POL214H1 or POL224H1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Creative and Cultural Representations (1)

## **POL201H1 - Politics of Development**

**Previous Course Number:** POL201Y1  
**Hours:** 24L/12T

This course offers an introduction to the history and politics of economic and political development, starting with the Industrial Revolution and then turning to a critical analysis of the politics of economic growth, international trade, debt, state intervention, protectionism, and neo-liberalism in the global periphery, including Africa, Asia, and Latin America.

**Prerequisite:** 4.0 credits/1.0 POL credit  
**Exclusion:** POL201Y1/POLB90H3/POLB91H3  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **POL205H1 - International Relations in the Anthropocene**

**Hours:** 24L/12T

Humans have altered the planet so dramatically that some geologists have coined a new epoch: the Anthropocene.

Is our study of global politics up to the challenge of human-driven environmental change? In this course, we consider multiple perspectives on IR to make sense of geopolitics on a changing planet.

**Prerequisite:** 4.0 credits/1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Living Things and Their Environment (4)

## POL208H1 - Introduction to International Relations

**Previous Course Number:** POL208Y1

**Hours:** 24L/12T

This introductory course examines some key themes and issues in global politics, including interstate war, human rights, international institutions, and the evolution of the global order.

**Prerequisite:** 4.0 credits/1.0 POL credit

**Exclusion:**

POL208Y1/POL208Y5/POL209H5/POLB80H3/POLB81H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL211H1 - Intelligence, Disinformation, and Deception: Challenges of Global Governance in the Digital Age

**Hours:** 24L/12T

Knowledge is power, but knowledge is often unreliable in the digital world. This course introduces students to the challenges of global governance and decision making in the face of ambiguous evidence, information overload, political spin, disinformation, subversion, and deception. Students will learn conceptual tools for understanding and solving complex problems.

**Prerequisite:** 4.0 credits/1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL214H1 - Canadian Government

**Previous Course Number:** POL214Y1

**Hours:** 24L/12T

An introduction to the study of Canadian government. Topics include institutions of governance: the constitution,

machinery of government, charter of rights and freedom, and the electoral system.

**Prerequisite:** 4.0 credits/1.0 POL credit

**Exclusion:**

POL214Y1/POL214Y5/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL218H1 - State, Society and Power in Comparative Perspective

**Hours:** 24L/12T

This course is designed to introduce students to major issues and challenges that shape states, determine how they are governed, and how they change. The course helps to explain major events such as state transformation, democratization, authoritarian rule, civil conflict and social mobilization.

**Prerequisite:** 4.0 credits/1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL219H1 - Unpacking Political Systems: Institutions and Behavior in Comparative Perspective

**Hours:** 24L/12T

This course aims to unpack the institutional and behavioral variation within political systems. The goal is to expose students to the key questions and theories in comparative politics around three themes: a) the origins and effects of political institutions (federalism, electoral rules, bicameralism, courts...); b) party and electoral behavior across democracies and authoritarian regimes; and c) explaining quality of governance (issues of representation, accountability, trust, corruption). We will draw on cutting edge research and touch on current events and a variety of cases.

**Prerequisite:** 4.0 credits/1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL220H1 - Immigration, Multiculturalism, and Citizenship in Canada

**Hours:** 24L/12T

This course deals with three inter-related themes – immigration, multiculturalism, and citizenship – by focusing on a single unifying question: What does it mean to “belong” to the Canadian political community? Who belongs, on what terms, and to what ends? A range of materials – normative, empirical, historical, and contemporary – will be used.

**Prerequisite:** 4.0 credits/1.0 POL credit

**Recommended Preparation:** POL214H1/POL224H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL222H1 - Introduction to Quantitative Reasoning I

**Hours:** 24L/12T

Introduces the foundations of quantitative empirical research methods - increasingly popular and important part of political science research and public policy debates - to enable you to interpret and evaluate the results of the studies that employ these methods. Topics include scientific study of politics, empirical research designs, and regression analysis.

**Prerequisite:** 1.0 POL credit

**Exclusion:**

POL242Y5/ECO220Y1/GGR270H1/PSY201H1/SOC202H1/STA220H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL223H1 - Globalization and Development: Issues and Challenges

**Hours:** 24L/12T

This course examines how globalization creates opportunities and challenges to development in the Global South. Key issues considered include globalization and dynamics of inequality amongst and within nations, human rights and democratic struggles, environmental sustainability and justice, gender and racialized patterns of inequality, trade, foreign aid and poverty alleviation.

**Prerequisite:** 4.0 credits/1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL224H1 - Canada in Comparative Perspective

**Previous Course Number:** POL224Y1

**Hours:** 24L/12T

This course introduces students to aspects of Canadian political life by comparing them with those that prevail in other advanced democracies. Themes covered will include the Canadian constitution, federalism, parties and elections, political culture and social and economic institutions and policies.

**Prerequisite:** 4.0 credits/1.0 POL credit

**Exclusion:**

POL111H5/POL214H1/POL214Y1/POL214Y5/POL215H5/POL216H5/POL224Y1/POLB50Y3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL232H1 - Introduction to Quantitative Reasoning II

**Hours:** 24L/12T

Building up on POL222H1, students will continue to build theoretical foundations of quantitative empirical research, such as probability theory and statistical inference. They will also learn the basic use of statistical software and have become able to conduct a basic data analysis by themselves by the end of semester.

**Prerequisite:** POL222H1

**Exclusion:** POL242Y5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL252H1 - Introduction to Qualitative Research Methods

**Hours:** 24L/12T

This course introduces students to qualitative research methods in political science (e.g. interviews, participant observation, case studies). It provides opportunities to acquire hands-on experience with these methods and prepares students to carry out their own research projects.

Note: POL252H1 cannot be used as a substitute for POL222H1 for POL major/specialist.

**Prerequisite:** 1.0 POL credit

**Exclusion:** SOC204H1, GGR271H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## POL300Y0 - Topics in Comparative Politics

**Hours:** 48L

An introduction to the field of comparative politics. Content in any given year depends on instructor.

(Offered as part of the [Summer Abroad Program](#))

**Prerequisite:** 1.0 POL credit  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL301H1 - Colonial Legacies and Post-Independence African Politics

**Previous Course Number:** POL301Y1  
**Hours:** 24L

This course highlights the critical roles of pre-colonial and colonial histories in shaping contemporary political and economic developments in Africa. It covers the emergence of colonial states, the central legacies of colonial rule, and the impact of colonialism in shaping process of state and nation building from independence to the present.

**Prerequisite:** 1.0 POL credit  
**Exclusion:** [POL301Y1](#)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL302H1 - Politics and Society in 20th Century China

**Previous Course Number:** POL302Y1  
**Hours:** 24L

This course examines China's efforts to reconstitute its political institutions following the collapse of the imperial system in 1911. Particular attention is paid to the clash

between competing conceptions of political development and the rival political movements and forces that espoused them. The search for an effective and stable political order is a major focus of the course.

**Exclusion:** [POL302Y1](#)/[POLC16H3](#)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL303H1 - Women in Western Political Thought

**Hours:** 24L

Examines contemporary feminist perspectives in political theory as responses to the limitations of western tradition of modern political theory.

**Prerequisite:**  
[PHL265H1](#)/[POL200Y1](#)/[POL200Y5](#)/[POLC70H3](#)/[POLC71H3](#)  
**Exclusion:** [POLC76H3](#)/[POLC77H3](#)  
**Distribution Requirements:** Humanities, Social Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JHP304Y1 - Ukraine: Politics, Economy and Society

**Hours:** 48L

The history of Ukraine from earliest times to the present. Economic, political, and cultural movements; Kievan Rus', Polish-Lithuanian Commonwealth, Cossack state, national revival, twentieth century statehood, and unification. As this course is designed as an introductory course, the professor welcomes first- and second-year students to enroll, as well as upper-level students. (*Given by the Departments of History and Political Science*)

**Distribution Requirements:** Humanities, Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL304H1 - Topics in Methods

**Hours:** 24L

Various topics are taken up each year, the content of which depends on the instructor.

**Prerequisite:** [POL232H1](#) or equivalent  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL305H1 - Introduction to Latin American Politics and Societies

**Previous Course Number:** POL305Y1  
**Hours:** 24L

This course introduces students to histories and concepts necessary to understand developments in Latin American politics. Substantive issues will include the changing face of state sovereignty; human rights and social movements; the legacies of (neo)colonialism and indigenous resistance; neoliberalism, 21st century socialism, and beyond.

**Prerequisite:** 1.0 POL credit

**Exclusion:**

POL305Y1/POL360H5/POLC91H3/POLC99H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL307H1 - Japanese Politics

**Hours:** 24L

The politics, political economy, and international relations of Japan. The role of political parties, the bureaucracy, and private actors; economic development and stagnation; relations with the USA and regional neighbors. Contemporary challenges facing Japan, including energy policy and climate change, contributions to the liberal order, and response to geopolitical challenges.

**Prerequisite:** 1.0 POL 200-level credit

**Exclusion:** POL380H1 (Topics in International Politics: Japanese Politics), offered in Winter 2020 and Winter 2021

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL309H1 - Contemporary Africa Politics: Dynamics and Challenges

**Previous Course Number:** POL301Y1  
**Hours:** 24L

This course explores main drivers of political organization and change in contemporary Africa, focusing on how national, regional, and international factors shape institutions, patterns of participation and political change. It considers major scholarly debates in the study of African politics and political economy and develops analytical skills for comparative study of this diverse continent.

**Prerequisite:** 1.0 POL credit

**Exclusion:** POL301Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL310H1 - The People from Nowhere

**Previous Course Number:** JHP451Y1  
**Hours:** 24L

This course is a case study of nationalism based on the experience of a stateless people in Europe called Carpatho-Rusyns. Emphasis is on how factors such as historical ideology, language, education, religion, and politics are used by the intelligentsia to create a national consciousness among the inhabitants.

**Prerequisite:** Completion of 4.0 credits

**Exclusion:** JHP451Y1

**Recommended Preparation:** A course in modern European, East European or Russian history of politics.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL312H1 - Canadian Foreign Policy Performance

**Previous Course Number:** POL312Y1  
**Hours:** 24L

The literature, competing theories, basic interests and values, and instruments of Canadian foreign policy, as they have developed and performed under successive Liberal, Progressive Conservative and Conservative party governments since 1945 and especially from 2015 to 2021.

**Prerequisite:**

POL208H1/POL208Y1/POL209H5/POLB80H3

**Exclusion:** POL312Y1

**Recommended Preparation:** Courses in International Relations and/or Canadian government would be useful.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL313H1 - Canadian Foreign Policy Process

**Previous Course Number:** POL312Y1  
**Hours:** 24L

The external, societal, governmental and individual influences determining Canadian foreign policy making toward all global regions in the developed, emerging and developing world and central security, ecological, health, societal and economic issues, including the use of force,

climate change, infectious disease, gender equality, relations with Indigenous peoples and trade.

**Prerequisite:**

POL208H1/POL208Y1/POL209H5/POLB80H3

**Exclusion:** POL312Y1

**Recommended Preparation:** Courses in International Relations and/or Canadian government would be useful.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JPS315H1 - Sexual Diversity Politics

**Hours:** 24L

This is an interdisciplinary course examining the development of the Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) movement and its interaction with the state in the US and Canada. (*Given by the Department of Political Science and the Sexual Diversity Studies Program*)

**Prerequisite:**

SDS255H1/SDS256H1/UNI255H1/UNI256H1/one full course on the politics of 20th century Europe, U.S., or Canada/one full course on gender or sexuality/permission of the instructor

**Exclusion:** JPU315H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL316H1 - Contemporary Canadian Federalism

**Previous Course Number:** POL316Y1

**Hours:** 24L

Constitutional, political, administrative, and financial aspects of federal-provincial relations, regionalism, and cultural dualism.

**Prerequisite:**

POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3

**Exclusion:**

POL316Y1/POL316Y5/POL353Y5/POLC54H3/POLC57H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL317H1 - Comparative Public Policy

**Hours:** 24L

Draws from the major theoretical traditions in public policy and policymaking of the advanced industrial world, and applies these theories in understanding the developing world context and the new challenges of global change.

**Prerequisite:** 1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL320Y1 - Modern Political Thought

**Hours:** 48L/24T

The development of political thought from the Enlightenment and through the 19th century; implications for political thought in the 20th century. Democratic and anti-democratic tendencies.

**Prerequisite:** POL200Y1/POL200Y5/(POLC70H3, POLC71H3)

**Exclusion:** POL320Y5/POLC73H3/POLC74H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL324H1 - European Union: Politics, Institutions and Society

**Hours:** 24L

The course provides an in-depth understanding of the history, political institutions, and policies of the European Union. It also explores the key contemporary social and political debates facing the European Union today such as the eurozone crisis, the rise of Euroskepticism, issues of democratic legitimacy, Brexit, issues of enlargement, immigration and the recent migrant crisis.

**Prerequisite:** POL207Y1/ POL218H1/ POL219H1/ EUR200Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL325H1 - Contemporary Latin American Politics

**Previous Course Number:** POL305Y1

**Hours:** 24L

This course focuses on 21st century Latin American Politics. Specific attention will be paid to the 'Pink Tide' of left of centre governments and their aftermaths; enduring legacies of resource extraction driven development models, and Latin America's position in shifting geopolitical contexts.

**Prerequisite:** 1.0 POL credit

**Exclusion:**

POL305Y1/POL360H5/POLC91H3/POLC99H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL326H1 - The Politics of U.S. Foreign Policy

**Previous Course Number:** POL326Y1

**Hours:** 24L

This course explores the making of foreign policy in the U.S. through a detailed examination of the institutions of the U.S. government involved, as well as the forces acting upon them to shape policy. After exploring theoretical approaches to the subject, it examines the evolution of the constitutional context within which U.S. foreign policy has been articulated, the bureaucracies involved in shaping policy, the impact of elections, groups and the mass media.

**Prerequisite:**

POL208H1/POL208Y1/POL209H5/POLB80H3

**Exclusion:** POL326Y1/POL327Y5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL327H1 - U.S. Foreign Policy in a Complex World

**Previous Course Number:** POL326Y1

**Hours:** 24L

This course explores the foreign policy of the U.S. through a series of regional and thematic case studies. It begins with a historical review of U.S. foreign policy in the evolution of the U.S. as a major global power, prior to WWII. Among the case studies of U.S. foreign policy included are international organization and law, terrorism, environment (climate), Latin America, Europe, Middle East, China/East Asia, Africa and Russia.

**Prerequisite:**

POL208H1/POL208Y1/POL209H5/POLB80H3

**Exclusion:** POL326Y1/POL327Y5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL328H1 - Politics and Government in South Asia

**Previous Course Number:** POL328Y1

**Hours:** 24L

This course introduces students to politics in South Asia in the period after independence from colonial rule. It focuses on India, Pakistan, Sri Lanka and Bangladesh. The themes discussed in the course are important both to South Asia as well as to a general study of politics in developing countries.

**Prerequisite:**

POL201H1/POL201Y1/POLB90H3/POLB91H3

**Exclusion:** POL328Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL329H1 - Experiences of Conflict

**Hours:** 24L

The course reviews selected novels that deal with personal and collective experiences of conflict. It focuses on representations of how conflict is experienced. It gives students a practical understanding of the human dimension of selected major conflicts and explores possibilities for personal and social resistance to injustice and violence. Special attention is paid to questions of identity formation and moral choice in contexts of war and nationalism.

**Prerequisite:**

POL208H1/POL208Y1/POL209H5/POLB80H3/POLB81H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JPA331H1 - Rise of China as a Global Power

**Previous Course Number:** JPA331Y1

**Hours:** 24L

This course will take students through important domestic institutions and events in China that shape its current political landscape. Students will be prompted to think about the implications of domestic political factors for China's rise as a global power. The course examines major China's adventurism abroad, such as the Belt-and-Road Initiative, and what increasing footprints of Chinese state and private firms overseas mean for international politics.

*(Given by the Department of Political Science and the Contemporary Asian Studies Program)*

**Prerequisite:** 2.0 POL credits/1.0 CAS credit

**Exclusion:** JPA331Y1/POLC16H3

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL334H1 - Ontario and Quebec Politics

**Hours:** 24L

An examination of politics in Canada's two most populous provinces. Drawing insights from comparative political economy scholarship, the course compares their politics in term of their distinctive historical origins, and their political economies, party systems, cultures, and relations with the federal government.

**Prerequisite:**

POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3

**Exclusion:** POLC55H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL336H1 - Topics in Provincial Politics

**Hours:** 24L

Content in any given year depends on instructor.

**Prerequisite:**

POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3

**Exclusion:** POL336Y5

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL337H1 - The Canadian Constitution

**Previous Course Number:** POL337Y1

**Hours:** 24L

The moral foundations, historical events, political forces and legal ideas that have shaped the Canadian constitution; the roots, legacies, and judicial interpretation of the Constitution Act 1867, the Constitution Act 1982, and in particular the Charter of Rights and Freedoms; the constitutional framework of federalism; the politics of constitutional change; multiculturalism, 'rights talk', and the judicialization of politics.

**Prerequisite:**

POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3

**Exclusion:** POL337Y1/POLC68H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL339H1 - Ethnic Mobilization and Conflict

**Hours:** 24L

The course introduces students to the politics of ethnic identity and the circumstances under which ethnicity is mobilized for political goals. It includes a discussion of ethnic and religious identity, their politicization, the causes of conflict, and institutional solutions to the management of ethnic conflict.

**Prerequisite:** 1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL340H1 - International Law: Foundations

**Previous Course Number:** POL340Y1

**Hours:** 24L

This course will introduce students to the primary sources of international law (treaties and customary international law) and the legal attributes of the core actors in the international system, including states, international organizations and individuals. Related topics will include governance of territory and the seas.

**Prerequisite:**

POL208H1/POL208Y1/POL209H5/POLB80H3

**Exclusion:** POL340Y1/POL340Y5/POLC38H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL341H1 - International Law: Operation of the International Legal Order

**Previous Course Number:** POL340Y1

**Hours:** 24L

This course will expose students to the operation of international legal order with respect to the use of armed force, the law of armed conflict, and the protection of human rights. Students will also be introduced to how dispute settlement works between states.

**Prerequisite:** POL208H1/ POL208Y1/ POL209H5/ POLB80H3

**Exclusion:** POL340Y1/ POL340Y5/ POLC38H3

**Recommended Preparation:** It is highly recommended that students take POL340H1 (International Law: Foundations) before taking this course.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL344H1 - Social Movements in Europe and North America

**Hours:** 24L

A comparative examination of the development of a variety of social movements and their engagement with state institutions. Among the activist movements examined are civil rights, women's rights, sexual orientation rights, environmental and Indigenous rights mobilization.

**Exclusion:** [POL344Y1](#)

**Recommended Preparation:** 1.0 credit on 20th century politics or history of Europe, U.S. or Canada/1.0 credit on gender or sexuality

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL347H1 - U.S. Government and Politics: Constitutional Structure and Development

**Previous Course Number:** POL386Y1  
**Hours:** 24L

This course examines the constitutional foundations of American politics—the separation of powers, federalism, and rights. Major themes include the historical origins of the American constitution, the transformation of American constitutionalism from the Civil War to the New Deal, and the struggle over the meaning of American constitutionalism in the 21st century.

**Prerequisite:** 1.0 POL credit

**Exclusion:**  
[POL203Y1](#)/[POL203Y5](#)/[POL386Y1](#)/[POLC92H3](#)/[POLC93H3](#)

**Recommended Preparation:**  
[POL214H1](#)/[POL224H1](#)/[POL200Y1](#) and/or a course in U.S. history

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL349H1 - Global Urban Politics

**Hours:** 24L

An examination of how political life is being transformed in the global urban age. Concepts such as territory, the state, citizenship, agency, sovereignty, and power will be reconsidered through a particularly urban lens.

**Prerequisite:** 1.0 POL credit  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL351H1 - Gender, Politics, and Public Policy in Comparative Perspective

**Hours:** 24L

An introduction to gender and politics that examines women as political actors and their activities in formal and grassroots politics. The course also explores the impact of gender in public policy and how public policies shape gender relations. Cases to be drawn on include Canada, other countries in North America and Europe, and the developing world.

**Prerequisite:** 1.0 POL credit  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL353H1 - Protest Counter-Movements in Europe and North America

**Previous Course Number:** POL344Y1  
**Hours:** 24L

A comparative examination of the development of a variety of protest counter-movements and their engagement with state institutions. Among the counter-movements being examined are those opposed to civil rights, women's rights, sexual orientation rights, environmental and Indigenous rights mobilization.

**Exclusion:** [POL344Y1](#)

**Recommended Preparation:** 1.0 credit on 20th century politics or history of Europe, U.S. or Canada/1.0 credit on gender or sexuality/[POL344H1](#)

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL354H1 - Politics and Society in Russia

**Hours:** 24L

Explores tensions between democracy and authoritarianism after communist rule. Topics include: legacy of Soviet Union; political leadership; presidential power and executive - legislative conflict; federalism; elections and parties; civil society; ethnonationalism; corruption and organized crime.

**Prerequisite:** 1.0 POL credit  
**Exclusion:** POL354Y5  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL356H1 - Canadian Political Parties

**Hours:** 24L

The evolution and setting of Canada's federal and provincial party systems. Topics include historical and theoretical perspectives, ideology, leadership selection, elections, financing, media, and representing interests.

**Prerequisite:**  
POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1  
/POL224Y1/POLB50Y3  
**Exclusion:** POL356Y1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL357H1 - Topics in South Asian Politics

**Previous Course Number:** POL357Y1  
**Hours:** 24L

Selected issues in South Asian politics. Content in any given year depends on instructor.

**Prerequisite:**  
POL201H1/POL201Y1/POLB90H3/POLB91H3  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL358H1 - Conflicts, Minority Rights and Para-States in Europe

**Previous Course Number:** POL359Y1  
**Hours:** 24L

This course examines a number of unresolved issues in Europe that are largely shaped by real and perceived shortcomings in minority rights. After a section on Roma Rights in Central Europe, our focus turns to the origins and outcomes of largely separatist wars in Azerbaijan, Cyprus, Georgia, Moldova and Ukraine and the peace agreements that followed.

**Prerequisite:** 1.0 POL credit  
**Exclusion:** POL359Y1  
**Recommended Preparation:** Students will be expected to be completely familiar with the historical context of the region we study.

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL359H1 - Enlarging Europe: The European Union and Its Applicants

**Previous Course Number:** POL359Y1  
**Hours:** 24L

European integration remains one of the most important and successful political experiments in recent history. This course looks at the historical impetus for European integration after the Second World War and to the recent trends in this process, as well as its future prospects as the Union's borders enlarge and it confronts new challenges.

**Prerequisite:** 1.0 POL credit  
**Exclusion:** POL359Y1  
**Recommended Preparation:** Interest in European History and Politics.  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL360H1 - Topics in Latin American Politics

**Hours:** 24L

Selected issues in Latin American politics. Content and instructor vary from year to year.

**Prerequisite:** 1.0 POL credit  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL361H1 - Global Political Economy: History and Theory

**Hours:** 24L

The course introduces the contemporary history of world economic order and the ideas underpinning that order. It also provides an orientation to the field of study devoted to understanding and explaining underlying political dynamics.

**Prerequisite:** 1.0 POL credit; ECO100Y1/(ECO101H1, ECO102H1)/ECO105Y1  
**Exclusion:** POLC69H3  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL362H1 - Global Political Economy: Policy and Analysis

**Hours:** 24L

This course focuses on key aspects of world economic order, like policies governing trade, capital flows, migration, development, and telecommunications. Methods for analyzing the background and implications of such policies are introduced.

**Prerequisite:** 1.0 POL credit; ECO100Y/(ECO101H1, ECO102H1)/ECO105Y1

**Recommended Preparation:** POL361H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL363H1 - Canadian Political Development

**Hours:** 24L

This course introduces students to Canadian political development – an approach that shows how attention to history can illuminate and explain patterns of Canadian politics. The course introduces students to core theories and tools of a developmental approach, then applies this approach to key moments, contestations, and institutions in Canadian politics.

**Prerequisite:**

POL214H1/POL224Y1/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3

**Exclusion:** POL382H1 (Topics in Canadian Politics: Canadian Political Development), offered in Winter 2018, Winter 2019

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JPR364H1 - Religion and Politics in the Nation State

**Previous Course Number:** JPR364Y1

**Hours:** 24L

This course will engage with contemporary debates on religion and politics in the context of the nation-state in our post-9/11 world, and will do so comparatively across a wide range of contexts.

The emphasis will be on understanding the evolving relationship between religion and politics in liberal democracies, and examining challenges facing democratic politics from the religious sphere, both in the West, where secular liberalism is the dominant framework for discussing these questions, and in Africa, India, and

the Middle East, where such a framework is more likely to be contested. The themes explore will include secularization, religious pluralism and tolerance, human rights regimes, the idea of “civil religion,” the impact of religion on party politics, the formation of identity and political community, the legal regulation of sometimes-competing claims based on religious faith, gender, and sexuality, and the rise of extremist forms of religious politics, conspiracy thinking, new online communities that lead to dangerous political outcomes, such as ‘QAnon’ and ‘Plandemic’. Cases studies will include the USA, Canada, France, Turkey, Egypt, Nigeria.

*(Given by the Departments of Political Science and Religion)*

**Prerequisite:** 0.5 POL 200-level credit/0.5 RLG 200-level credit/1.0 HIS 200-level credit/1.0 PHL 200-level credit/1.0 SOC 200-level credit

**Exclusion:** JPR364Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JPR365H1 - Global Religion and Politics

**Previous Course Number:** JPR364Y1

**Hours:** 24L

This course will engage with contemporary debates on religion and politics in the international context in our post-9/11 world, and will do so comparatively across a wide range of contexts.

The emphasis will be on understanding the evolving role transnational religion has played in the past three decades, where new global networks have emerged as central global actors. We will focus empirically on the rise of radical reformist Islam and evangelical Christianity, the two most dramatically successful forms of religiosity around the world today. We will study the implications for the foreign policies of key nation-states, as well as the forces that have contributed to the prevalence of contestatory religious politics and networks as new and poorly understood global actors. International religious freedom, human rights, the role of media and mediation, the place of religious or theological doctrines or imaginaries in constructing and motivating a range of political goals, many involving the use of violence. We will focus as well on the global spread of extremist forms of religious politics, conspiracy thinking, new online communities that lead to dangerous political outcomes, such as ‘QAnon’ and ‘Plandemic’. Many of the cases will focus on the non-Western world, especially the Middle East and Africa. *(Given by the Departments of Political Science and Religion)*

**Prerequisite:** 0.5 POL 200-level credit/0.5 RLG 200-level credit/1.0 HIS 200-level credit/1.0 PHL 200-level credit/1.0

SOC 200-level credit

**Exclusion:** [JPR364Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## POL373H1 - Emotions in Political Theory

**Hours:** 24L

Emotions are central to political life but have often been marginalized in political theory. This course explores various ways in which emotions are relevant to political theory and examines a number of contemporary debates around the new possibilities in bringing a positive consideration of the emotions back into political theory.

**Prerequisite:** [POL200Y1](#)/[POL200Y5](#)/[POLC70H3](#),  
[POLC71H3](#))

**Recommended Preparation:** [POL320Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## JPR374H1 - Religion and Power in the Postcolony

**Hours:** 24L

This course examines the role of a variety of religious forms and spiritual practices in the politics of postcolonial societies, tracing their genealogies from the colonial period to the present. Cases taken principally from Africa and Asia.

*(Given by the Departments of Political Science and Religion)*

**Prerequisite:** 1.0 POL 200-level credit/1.5 credits in Religious Studies

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JPA376Y0 - Transforming Global Politics: Comparative and Chinese Perspectives

**Hours:** 48L

Set against the backdrop of the rise of China, this course examines the dynamics of global change from comparative and Chinese perspectives. Themes include international security, political economy, political

development and democracy, global climate change, economic development, poverty and inequality, corruption, technology innovation, among others.

*(Given by the Department of Political Science and the Contemporary Asian Studies Program)*

**Prerequisite:** [POL208H1](#)/[POL208Y1](#)/[POL209H5](#)/[POLB80H3](#)/[POLB81H3](#)/[POL224H1](#)/[POL224Y1](#)/[CAS200Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL377H1 - Topics in Comparative Politics I

**Hours:** 24L

An introduction to the field of comparative politics. Content in any given year depends on instructor.

**Prerequisite:** 1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL378H1 - Topics in Comparative Politics II

**Hours:** 24L

An introduction to the field of comparative politics. Content in any given year depends on instructor.

**Prerequisite:** 1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JPS378H1 - Sex and the State

**Hours:** 24L

What role have sex and sexuality played in the formation of the modern nation State? How has the State regulated sex? This course explores these questions with a theoretical focus on biopolitics. We will proceed in two parts. First, we engage Foucault's *History of Sexuality* and its reception by postcolonial theorists, focusing on questions of state building. The second part of the course shifts examination from State formation to contemporary forms of sexual regulation by the State. This includes maintenance of the public/private divide, citizenship law and nationalism, administrative violence and the prison industrial complex, and neoliberalism and BDSM. By the end of the course, students are able to apply core theoretical concepts and identify forms of contemporary

sexual regulation in a variety of Western and non-Western contexts.

*(Given by the Department of Political Science and the Mark S. Bonham Centre for Sexual Diversity Studies.)*

**Prerequisite:** A combined minimum of 1.0 credit from POL and/or SDS courses

**Exclusion:** POL378H1 (Topics in Comparative Politics II: Sex and the State), offered in Fall 2017 and Fall 2018; SDS375H1 (Special Topics in Sexual Diversity Studies A: Sex and the State), offered in Fall 2017 and Fall 2018

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL379H1 - Topics in Comparative Politics III

**Hours:** 24L

An introduction to the field of comparative politics. Content in any given year depends on instructor.

**Prerequisite:** 1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL380H1 - Topics in International Politics

**Hours:** 24L

Content in any given year depends on instructor.

**Prerequisite:**

POL208H1/POL208Y1/POL209H5/POLB80H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL381H1 - Topics in Political Theory

**Hours:** 24L

A detailed examination of particular authors or topics in political theory. Content in any given year depends on instructor.

**Prerequisite:** POL200Y1/POL200Y5/(POLC70H3, POLC71H3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL382H1 - Topics in Canadian Politics

**Hours:** 24L

Examines in depth enduring and emerging issues in Canadian politics. Content in any given year depends on instructor.

**Prerequisite:**

POL214H1/POL214Y1/POL214Y5/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL384H1 - Global Environmental Governance from the Ground Up

**Hours:** 24L

This course focuses on non-state actors in global environmental governance, considering the motivations, actions, and strategies of non-governmental organizations, grassroots communities, and corporations. The course uses analytic tools from international relations and comparative politics to understand patterns of environmental protest, resistance, and change over time.

**Prerequisite:** 1.0 POL credit at the 200+ level

**Recommended Preparation:** POL201H1/POL208H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL385H1 - Issues in Contemporary Greece

**Hours:** 24L

This course is designed to comprehensively explore the theoretical, conceptual and empirical dimensions through the political history of the Greek state from the 19th c. to the present, and, to provide students with the critical skills to follow, understand and systematically analyze contemporary Greek politics. The class will alternate between highlights of Greek political history, theoretical foundations of major themes in Comparative Politics, and their empirical application to the politics of the Modern Greek state.

**Prerequisite:** 1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL386H1 - U.S. Government and Politics

**Previous Course Number:** POL386Y1  
**Hours:** 24L

Who rules the United State of America? This course will investigate this question by examining how power is attained and how power is exercised in American elections, the legislative process, the bureaucracy, and the federal courts. Particular attention will be paid to the role of national interest groups, regional economic interests, and new modes of political mobilization.

**Prerequisite:** 1.0 POL credit

**Exclusion:**

POL203Y1/POL203Y5/POL386Y1/POLC92H3/POLC93H3

**Recommended Preparation:**

POL214H1/POL224H1/POL200Y1 and/or a course in U.S. history

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL387H1 - Politics in Europe

**Previous Course Number:** POL207Y1  
**Hours:** 24L

This course applies the basic concepts in comparative politics to the political systems of Europe. We will cover theories of transitions to democracy, formation and development of the nation-state, political institutions and their effects, parties and party systems and elections and electoral behaviour. We will use these theories to gain a better understanding of politics in Europe. We will also address some of the major challenges that Europe and the EU have recently faced such as the eurozone crisis, Brexit, the rise of populism and extreme right parties and the challenges of immigration and incorporation of minorities. The goal is for students to become familiar with the politics and governments of contemporary Europe through the lens of current and classic themes in comparative politics.

**Prerequisite:** 1.0 POL credit/EUR200Y1

**Exclusion:** POL207Y1/POL302Y5

**Recommended Preparation:** POL218H1/POL219H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL388H1 - Politics and Government of Southeast Asia

**Hours:** 24L

This course provides an overview of political regimes in Southeast Asia, as well as some of the main issues that shape its political life. It includes legacies of colonial rule, nationalist struggles, democratization, ethnic and secessionist conflict, as well as social movement.

**Prerequisite:** 1.0 POL credit

**Recommended Preparation:** POL218H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL395H1 - Research Participation

Credit course for supervised participation in a faculty research project. Offered only when a faculty member is willing and available to supervise. Interested faculty review plans with the Undergraduate Director, and then make the opportunity known to students as appropriate. Check with Undergraduate Office for more details and faculty proposal form.

Not eligible for CR/NCR option.

**Prerequisite:** Available to students in their third year of study (who have completed at least 9.0 credits)

**Exclusion:** POL299Y1

**Distribution Requirements:** Social Science

## POL396H1 - Research Participation

Credit course for supervised participation in a faculty research project. Offered only when a faculty member is willing and available to supervise. Interested faculty review plans with the Undergraduate Director, and then make the opportunity known to students as appropriate. Check with Undergraduate Office for more details and faculty proposal form.

Not eligible for CR/NCR option.

**Prerequisite:** Available to students in their third year of study (who have completed at least 9.0 credits)

**Exclusion:** POL299Y1

**Distribution Requirements:** Social Science

## POL397Y1 - Research Participation

Credit course for supervised participation in a faculty research project. Offered only when a faculty member is willing and available to supervise. Interested faculty review plans with the Undergraduate Director, and then make the opportunity known to students as appropriate. Check with Undergraduate Office for more details and faculty proposal form.

Not eligible for CR/NCR option.

**Prerequisite:** Available to students in their third year of study (who have completed at least 9.0 credits)

**Exclusion:** POL299Y1

**Distribution Requirements:** Social Science

## POL398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-excursions-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## POL398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-excursions-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Social Science

## POL399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

## JRA401H1 - Topics in Comparative Politics V

**Hours:** 24S

Selected issues in comparative politics. Content and instructor vary from year to year.

*(Given by the Department of Political Science and the Centre for European, Russian, and Eurasian Studies)*

**Prerequisite:** 2.0 POL credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL401H1 - Political Parties in Comparative Perspective

**Hours:** 24S

Course surveys the main puzzles and theories on the origins, nature and effects of parties and party systems. We explore how institutions, societal cleavages and strategic action shape parties. We study the impact of parties on policy outcomes, and we examine issues of party collapse, ethnic parties, clientelism, and dominant parties.

**Prerequisite:** 2.0 POL credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JRA402H1 - Topics in Comparative Politics VI

**Hours:** 24S

Selected issues in comparative politics. Content and instructor vary from year to year.

*(Given by the Department of Political Science and the Centre for European, Russian, and Eurasian Studies)*

**Prerequisite:** 2.0 POL credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL402H1 - Problems in the Political Thought of the Socratic School

**Hours:** 24S

Study of a small number of texts illuminating the origins and/or legacy of Socratic political philosophy.

**Prerequisite:** POL200Y1/POL200Y5/(POLC70H3, POLC71H3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL405H1 - The Military Instrument of Foreign Policy: Concepts and Approaches

**Previous Course Number:** POL459Y1

**Hours:** 24S

In light of endemic international threats and conflicts, the seminar analyses the use of the military instrument of foreign policy. We meld theoretical and pragmatic approaches. Among the subjects covered are civil-military relations, the development of nuclear weapons, deterrence and nuclear deterrence, arms control and war termination strategies.

**Prerequisite:**

POL208H1/POL208Y1/POL209H5/POLB80H3

**Exclusion:** POL459Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **POL409H1 - Political Economy of Technology: From the Auto-Industrial to the Information Age**

**Hours:** 24S

The course explores the centrality of science and technology in political affairs generally and its current significance for public policy in particular. It applies the conceptual tools of political economy to analyze the nature of technological change in industrial democracies. It assesses the social and political consequences of the current wave of technological innovation and alternative responses of industrial democracies.

(Offered in alternate years)

**Prerequisite:**

CSC300H1/GGR431H1/HPS201H1/HPS202H1/HPS431H1/POL218Y5/a POL 300 or 400 level course in comparative politics. See the Department's website <http://politics.utoronto.ca/undergraduate/courses/fallwinter-timetable/> for POL courses by area group/SOC356Y1.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **POL410H1 - Topics in Comparative Politics III**

**Hours:** 24S

Selected issues in comparative politics. Vary from year to year.

**Prerequisite:** 2.0 POL credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **POL412H1 - Human Rights and International Relations**

**Hours:** 24S

Human rights have become dominant in international politics since the end of World War II. The process of creating and implementing human rights is political. We explore historical, philosophical, and empirical explanations of the roots, effects, and implications of human rights today through a variety of topics.

**Prerequisite:**

POL201H1/POL201Y1/POL208H1/POL208Y1/POL209H5/POLB80H3/POLB90H3/POLB91H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **POL413H1 - Global Environmental Politics**

**Hours:** 24S

Examines the challenges faced by humanity in dealing with global environmental problems and the politics of addressing them. Focuses on both the underlying factors that shape the politics of global environmental problems such as scientific uncertainty, North-South conflict, and globalization and explores attempts at the governance of specific environmental issues.

**Prerequisite:**

POL208H1/POL208Y1/POL209H5/POLB80H3

**Exclusion:** POLD89H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## **POL416H1 - Civil War and Counterinsurgency**

**Hours:** 24S

This course overviews the origins, dynamics, and outcomes of civil war and counterinsurgency. It provides a theoretical, empirical, and methodological foundation for understanding these forms of conflict, the logic of their violence, and the determinants of their duration and outcomes.

**Prerequisite:**

POL208H1/POL208Y1/POL209H5/POL210H5/POLB80H3

**Exclusion:** POL487H1 (Topics in International Politics II: Civil War and Counterinsurgency), offered in Winter 2018 and Winter 2019; POL487H5 (Topics in International Relations: Insurgents, Criminals, Warlords: Understanding

Violent Non-State Actors in International Politics), offered in Fall 2020

**Recommended Preparation:** Familiarity with quantitative methods is strongly recommended (example: [POL222H1](#), [POL232H1](#), [POL419H1](#))

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL417H1 - Politics of North-South Relations

**Previous Course Number:** POL417Y1

**Hours:** 24S

This course explores the complex relations between the developed world and Global South in historical and contemporary settings. It engages critical scholarship within International Politics and International Political Economy to examine salient factors in North-South relations such as dependency and interdependence, trade, development aid, global governance architecture, and South-South cooperation.

**Prerequisite:**

[POL201H1](#)/[POL201Y1](#)/[POL208H1](#)/[POL208Y1](#)/[POL209H5](#)/[POLB80H3](#)/[POLB90H3](#)

**Exclusion:** [POL417Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL418H1 - Human Security and Intra-state Conflicts in the Global South

**Previous Course Number:** POL417Y1

**Hours:** 24S

What are the underlying causes of insecurity and instability, and what factors support or undermine attainment of durable peace after episodes of violent conflict in the Global South? This course explores these questions using comparative case studies and theoretical perspectives from political science and other disciplines.

**Prerequisite:**

[POL201H1](#)/[POL201Y1](#)/[POL208H1](#)/[POL208Y1](#)/[POL209H5](#)/[POLB80H3](#)/[POLB90H3](#)

**Exclusion:** [POL417Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JPR419H1 - Secularism and Religion

**Previous Course Number:** RLG419H1

**Hours:** 24S

Themes considered include what notion of religion is necessary for secular governance, and how secularity relates to particular discourses of citizenship and practices of political rule. Case studies include the effects of colonial rule on religious life; Jewish emancipation in Europe; and religious freedom in France and North America.

*(Given by the Departments of Political Science and Religion)*

**Prerequisite:** 2.0 200-level (or above) credits in Political Science or Study of Religion/permission of the instructor

**Exclusion:** [RLG419H1](#)

**Distribution Requirements:** Humanities, Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL419H1 - Quantitative Methods and Data Analysis

**Hours:** 24S

Covers advanced level treatment of quantitative empirical research methods in political science. The emphasis is given to theoretical foundations, various research designs, and statistical methods of "causal inference." Students will also be exposed to prominent applications of these methods and learn how to use statistical software to apply these methods in data analysis.

**Prerequisite:** [POL232H1](#)/0.5 credit in STA at the 200+ level

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL421H1 - Maimonides and His Modern Interpreters

**Hours:** 24S

The course offers an introduction to the seminal work of Jewish philosophy, 'The Guide of the Perplexed' by Moses Maimonides. We will delve into some of the basic themes of Jewish philosophical theology and religion as they are treated by Maimonides.

**Prerequisite:** [POL200Y1](#)/[POL200Y5](#)/([POLC70H3](#), [POLC71H3](#))

**Exclusion:** [RLG433H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL426H1 - Democracy and Dictatorship

**Hours:** 24S

The course provides an in-depth introduction to theories of the origins of democracy and dictatorship. In the first part of the course, we examine and compare theories rooted in economic development, voluntarism, institutional design, and historical institutionalism. The latter half of the course applies these different approaches to debates over the origins of Nazi rule in Germany in the 1930s, military dictatorship in Chile in the 1970s, and non-democratic rule in contemporary Russia.

**Prerequisite:** 1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL428H1 - Federalism and Diversity in Canada (and Beyond)

**Hours:** 24S

Canada as a key case in comparative federalism studies, with a particular focus on the management of diversity and conflict. Federal theory is applied to analyze federal institutions and dynamics in Canada (and other cases). Topics include the distribution of power, the judiciary's role and group representation.

**Prerequisite:** [POL214H1](#), [POL316H1](#)

**Recommended Preparation:** [POL224H1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL430Y1 - Comparative Studies in Jewish and Non-Jewish Political Thought

**Hours:** 48S

A comparative examination of major texts of the Jewish tradition, ranging from the Torah to modernity, and texts of the classical or Western traditions raising similar questions. Close reading of a small number of capital works, with special attention to the problem of reason and revelation.

**Prerequisite:** [POL200Y1](#)/[POL200Y5](#)/([POLC70H3](#), [POLC71H3](#))

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3), Thought, Belief and Behaviour (2)

## POL431H1 - Dynamics of Political Change in Contemporary China

**Previous Course Number:** POL431Y1

**Hours:** 24S

This course will explore processes of political change in post-Mao China through an examination of selected systemic challenges and regime responses. The primary focus will be on processes of institutional development and decay as the Party-State regime evolves from hard to soft authoritarianism.

**Exclusion:** [POL431Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL432H1 - Feminist Theory: Challenges to Legal and Political Thought

**Hours:** 24S

Feminist theory offers basic challenges to the foundations of modern political and legal thought. It suggests a different conception of human nature and a different model of epistemology and of appropriate forms of argument about the traditional issues of legal and political theory: justice, power, equality and freedom. Introduction to the foundations of feminist theory, an analysis of its implications for traditional liberal theory, and an application of feminist theory to law.

**Prerequisite:** [POL200Y1](#)/[POL200Y5](#)/([POLC70H3](#), [POLC71H3](#))

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL433H1 - Topics in United States Government and Politics

**Hours:** 24S

Selected issues and topics in U.S. politics. Vary from year to year.

**Prerequisite:** 1.0 POL credit

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL434H1 - Enlightenment and its Critics

**Hours:** 24S

This course explores, through the writings of its foremost advocates and adversaries, the Enlightenment, the movement to found political life on the principles of scientific reason, universally applicable and accessible to human beings.

**Prerequisite:** POL200Y1/POL200Y5/(POLC70H3, POLC71H3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL435H1 - Business and Politics: Power in a Global World

**Hours:** 24S

This seminar course examines the political power of business from an international and comparative perspective. Topics include the role of public authority in governing business behavior, the formation of business interests, corporate lobbying, structural and ideational business power, corporate social responsibility, and transnational private governance.

**Prerequisite:** 2.0 POL credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL438H1 - Topics in Comparative Politics I

**Hours:** 24S

Selected issues in comparative politics. Vary from year to year.

**Prerequisite:** 2.0 POL credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL439H1 - The Canadian Welfare State in Comparative Perspective

**Hours:** 24S

The course examines contemporary Canadian social policy in light of the scholarly literature on the welfare

states of advanced industrial societies. Topics include the variety of welfare state regimes in rich nations, and their comparative performance in reducing inequality and poverty, in labour market and economic outcomes, and in addressing the specific circumstances of women. Specific Canadian policy fields examined will include pensions, social assistance, child care and health insurance.

**Prerequisite:**

POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL441H1 - Topics in Asian Politics

**Hours:** 24S

Selected issues in Asian politics. Content in any given year depends on instructor.

**Prerequisite:**

POL201H1/POL201Y1/POLB90H3/POLB91H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL442H1 - Topics in Latin American Politics

**Hours:** 24S

The seminar focuses on five countries in the Andean region of Latin America: Venezuela, Colombia, Ecuador, Peru and Bolivia. First part deals with the challenges to democracy in the region. Second part explores potential solutions - in particular the drafting of new constitutions by popularly elected constituent assemblies.

**Prerequisite:**

(POL201H1/POL201Y1/POLB90H3/POLB91H3), (POL305H1/POL305Y1)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL443H1 - Topics in Comparative Politics II

**Hours:** 24S

Selected issues in comparative politics. Vary from year to year.

**Prerequisite:** 2.0 POL credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL445H1 - Politics of Growth in Developing Countries

Hours: 24S

The course examines the politics of economic growth in developing countries. It focuses on political factors to analyze why some developing countries have done better in terms of growth than others. Conceptual frameworks of growth and related themes such as regime type, institutions, inequality and ethnicity will be addressed.

**Prerequisite:**

POL201H1/POL201Y1/POLB90H3/POLB91H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL446H1 - 20th-Century Political Thought

Hours: 24S

The goal of this course is to introduce students to some of the themes and approaches of critical theory (power, subjectivity, ideology, and hegemony).

**Prerequisite:** POL200Y1/POL200Y5/(POLC70H3, POLC71H3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL447H1 - Political Economy of Development

Hours: 24S

The course explores the rise, evolution, and performance of the dominant neoliberal approach to development and poverty reduction. It also assesses the feasibility and efficacy of alternative development strategies. Case studies are drawn from Latin America, Asia, and Africa.

**Prerequisite:**

POL201H1/POL201Y1/POL218H1/POL301H1/POL301Y1/POL305H1/POL305Y1/POL309H1/POL325H1/POLB90H3/POLB91H3

**Recommended Preparation:** Introductory economics is helpful

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL450H1 - Women and Politics

Hours: 24S

This course uses theories of representation as well as gender and politics analyses of elected women as starting points to evaluate appointed women elites at the international level, notably with reference to linkages between those decision-makers and feminist perspectives on domestic and global politics.

**Prerequisite:** POL344H1/POL344Y1/POL353H1

**Exclusion:** POL368H5

**Recommended Preparation:** At least one course in both political behaviour and women's studies

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL451H1 - Contentious Politics and Social Movements

Hours: 24S

Provides an introduction to various perspectives on contentious politics, social movements, and civil society. Students will acquire a solid foundation in the theories of contention as well as examine case studies of civil society in a comparative context.

**Prerequisite:**

POL201H1/POL201Y1/POL203Y5/POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3

**Exclusion:** POLD91H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## JPA453H1 - Authoritarianism in Comparative Perspective

**Previous Course Number:** POL453H1

Hours: 24S

This course examines the politics of authoritarianism in theory and practice. It covers major theories in authoritarian politics, ranging from selectorate theory, authoritarian institutions, impact of institutions on political outcome, ways of measuring authoritarian state power, democracy and development, to social movement and state repression in authoritarian regime, and political transitions. On empirical application, we will draw on cases from around the world, with some emphasis on Asian authoritarian states.

*(Given by the Department of Political Science and the Contemporary Asian Studies Program)*

**Prerequisite:** 2.0 POL credits/2.0 CAS credits  
**Exclusion:** POL453H1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL454H1 - Innovation and Knowledge Transfer in City Regions

**Hours:** 24S

This course surveys two of the key themes related to the process of innovation in a knowledge-based economy: the process by which new knowledge is generated and effectively transferred to those organizations with the potential to commercialize it; and secondly, the paradoxical relationship between knowledge creation and proximity in a modern global economy.

(Offered in alternate years)

**Prerequisite:**  
CSC300H1/GGR431H1/HPS202H1/HPS431H1/POL218Y5/a POL 300 or 400 level course in comparative politics.  
 See the Department's website  
<http://politics.utoronto.ca/undergraduate/courses/fallwinter-timetable/> for POL courses by area group/POL409H1/SOC356Y1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL455H1 - Twentieth Century Ukraine

**Hours:** 24S

This course will focus on the evolution of Ukraine as a state from its failed struggle for independence after World War I, its existence as a Soviet Ukrainian state, to its full independence after the collapse of Communist rule and the Soviet Union.

**Prerequisite:** Completion of 9.0 credits  
**Exclusion:** JHP454Y1  
**Recommended Preparation:** A course in modern European, East European or Russian history or politics.  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## JPF455H1 - Conceptualizing Cities in a Global Context

**Previous Course Number:** JPF455Y1  
**Hours:** 24S

With over half of the population on this planet being urban, the significance of improving our understanding of cities in

a global context has never been greater. This course is designed to improve awareness of cities as approached by different disciplines and in different international contexts.

*(Given by the Department of Political Science and the Faculty of Architecture, Landscape, and Design)*

**Prerequisite:**  
POL201H1/POL201Y1/POLB90H3/POLB91H3  
**Exclusion:** JPF455Y1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL456H1 - Global Summit Governance and Diplomacy

**Previous Course Number:** POL456Y1  
**Hours:** 24S

The development, participants and performance of global summit governance, focusing on the Group of Seven and Group of Twenty as “soft law” plurilateral summit institutions and their relationship with the “hard law” multilateral organizations of the United Nations and Bretton Woods bodies in a globalizing world.

**Prerequisite:**  
POL208H1/POL208Y1/POL209H5/POLB80H3  
**Exclusion:** POL456Y1  
**Recommended Preparation:**  
POL340H1/POL341H1/POL361H1/POL362H1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## JPF456H1 - Global Cities – Core Issues and Challenges

**Previous Course Number:** JPF455Y1  
**Hours:** 24S

The core issues confronting city leaders across the globe are examined in comparative perspective and in a context of shifting global agendas. The study of cities of Latin America, Asia and Africa, are brought together in comparative context with the study of cities of Europe and North America.

*(Given by the Department of Political Science and the Faculty of Architecture, Landscape, and Design)*

**Prerequisite:**  
POL201H1/POL201Y1/POLB90H3/POLB91H3  
**Exclusion:** JPF455Y1  
**Recommended Preparation:** JPF455H1

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL458H1 - Global Summit Policy Performance

**Previous Course Number:** POL456Y1  
**Hours:** 24S

The policy performance of global summit governance on selected critical economic, social, ecological and security subjects, through the Group of Seven, Group of Twenty and BRICS “soft law” plurilateral summit institutions interacting with the “hard law” multilateral organizations of the United Nations and Bretton Woods bodies in a transforming world.

**Prerequisite:**  
POL208H1/POL208Y1/POL209H5/POLB80H3  
**Exclusion:** POL456Y1  
**Recommended Preparation:**  
POL340H1/POL341H1/POL361H1/POL362H1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## JPR458H1 - Postsecular Political Thought: Religion, Radicalism and the Limits of Liberalism

**Hours:** 24S

The course will examine debates on postsecularism and religion’s public, political role as articulated by political thinkers such as Jurgen Habermas, by focusing on politically radical or revolutionary challenges to liberalism in the 20th and 21st century, especially from the postcolonial world, whose theoretical arguments are grounded upon or draw their inspiration from religious traditions, doctrines and practices.

**Prerequisite:** 1.0 300-level credit in POL/RLG  
**Distribution Requirements:** Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL459H1 - Military Instruments and Foreign Policy

**Previous Course Number:** POL459Y1  
**Hours:** 24S

This seminar assesses the efficacy of the military instrument of foreign policy through the prism of various case studies that range geographically and historically. It

examines the motivations and policy formulations of key states. The case studies focus on power projection, limited war, nuclear threats, and war termination strategies.

**Prerequisite:**  
POL208H1/POL208Y1/POL209H5/POLB80H3  
**Exclusion:** POL459Y1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## JPR459H1 - Fanaticism: A Political History

**Hours:** 24S

This seminar in theory will explore the modern history of the concept of ‘fanaticism’ and its role in the development of political modernity. A focus on the concept of the “fanatic” (and its cognates) from the perspective of its various uses in political and religious thought from the Early Modern period through the Enlightenment and up to the present day, provides a fascinating opportunity for a critical review of the secular, rationalist, and scientific assumptions underwriting modern political forms and concepts, especially those of liberal democracy. At the same time, the course will offer critical insight into the ways in which religious and political differences among colonial “others” were, and continue to be, central to the elaboration of Western theoretical discourse on fanaticism and extremism as forms of “political pathology”. (*Given by the Departments of Political Science and Religion*)

**Prerequisite:** (2.0 credits in Political Theory and/or Philosophy including 1.0 credit at the 300-level) or (0.5 credit in Method and Theory in the Study of Religion and 1.0 credit at the 300-level in the Study of Religion)  
**Distribution Requirements:** Social Science, Humanities  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL461H1 - Studies in Civic Republicanism

**Hours:** 24S

The course focuses on texts in the history of political thought drawn from the tradition of civic republicanism. The texts treated vary from year to year.

**Prerequisite:** POL200Y1/POL200Y5/(POLC70H3, POLC71H3)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL463H1 - State and Society in 20th Century China

**Previous Course Number:** POL431Y1  
**Hours:** 24S

This course will explore the sustainability of China's hybrid market-authoritarian system, focusing on the challenges posed by the emergence of an assertive civil society and the impact of globalization on a complex and interdependent economy and society. Among the topics to be analyzed will be the role of public opinion, social media and new forms of social and political control.

**Exclusion:** POL431Y1  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL464H1 - Urban Policy and Policymaking

**Hours:** 24S

This course examines the varied drivers and challenges of urban policy and policymaking processes, focusing primarily on the U.S. and Canada but also extending globally. It includes discussion of the policy challenges confronting cities in the contemporary context, theoretical approaches to understanding their origins and solutions, and an exploration of the available solutions.

**Prerequisite:** POL203Y5/ POL214H1/ POL214Y1/ POL215H5/ POL224H1/ POL224Y1/ POLB50Y3  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL466H1 - Topics in International Politics III

**Hours:** 24S

For advanced students of international relations. Various topics are taken up each year, the content of which depends on the instructor.

**Prerequisite:**  
POL208H1/POL208Y1/POL209H5/POLB80H3  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL467H1 - The Politics of Immigration and Multiculturalism in Canada

**Hours:** 24S

This course examines Canadian immigration and multiculturalism from theoretical, empirical and applied perspectives. It includes a discussion of normative foundations, an analysis of the components of the policy framework, and an assessment of the impact of immigration and multiculturalism on other aspects of social, cultural and political life.

**Prerequisite:**  
POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1/ POL224Y1/POLB50Y3  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL469H1 - Ethics and International Relations

**Hours:** 24S

The course aims to explore the requirements of justice and fairness in international affairs. It is common to theorize international relations in terms of interests and power. But even the most cursory look at what important actors actually do in their international interactions reveals that they use normative language all the time. This has not gone unnoticed, with investigations of ethics in the international arena multiplying in recent years. Drawing on readings from political philosophy, legal theory, and normative international relations theory, the course will take up practical ethical dilemmas encountered in world affairs. The main focus of the course will be on institutions. Examples will be drawn from the issue areas of trade, health, and the environment, among others.

**Prerequisite:**  
POL200Y1/POL200Y5/POL208H1/POL208Y1/POL209H5/ POLB80H3/(POLC70H3, POLC71H3)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL472H1 - The Comparative Political Economy of Industrial Societies

**Hours:** 24S

Topics discussed will include the historical origins of advanced capitalist political economies, the 'Varieties of Capitalism' debate, current trajectories of different political economies, labour politics and regulation, the politics of

macro-economic policy, the political economy of growth, and Canada's political economy.

**Prerequisite:** [POL224H1/POL224Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL474H1 - Politics and Policy Analysis

**Hours:** 24S

Major theories of public policy-making and related approaches to policy analysis are examined from the perspective of political science. Key contributions to the theoretical literature pertaining to leading models are read and discussed. Models of public policy-making are successively applied to analysis of cases of Canadian and comparative policy development.

**Prerequisite:**

[POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL475H1 - Postmodern and Contemporary Thought

**Previous Course Number:** POL475Y1

**Hours:** 24S

Study of postmodern and contemporary themes. Beginning with political economy, then the effect of technology on politics, a discussion of Western colonialism leading to a revised concept of social relations. Social contract theory will be analyzed through a natural contract as well as examination of individualism and the posthuman.

**Exclusion:** [POL475Y1](#)

**Recommended Preparation:** [POL200Y1](#) and [POL320Y1](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL476H1 - Topics in Public Policy

**Hours:** 24S

The course is designed for advanced students with serious interests in the public policy field. Specific topics covered will vary from year to year.

**Prerequisite:**

[POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1](#)

[/POL224Y1/POLB50Y3](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL477H1 - Advanced Topics in International Political Economy

**Hours:** 24S

The course is designed for advanced students with serious interests in the subfield of international political economy. Specific topics covered will vary, but all involve the deep interplay between politics and economics in the contemporary world.

**Prerequisite:**

[POL208H1/POL208Y1/POL209H5/POLB80H3/POLB81H3; ECO100Y/\(ECO101H1, ECO102H1\)](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL478H1 - Topics in Methods

**Hours:** 24S

Various topics are taken up each year, the content of which depends on the instructor.

**Prerequisite:** [POL232H1](#)

**Distribution Requirements:** Social Science

## POL479H1 - Topics in Middle East Politics

**Hours:** 24S

The course examines the contemporary politics of the Middle East and North Africa. It seeks to examine the relative importance of political, socio-economic and ideological factors in the context of such issues as the resilience of authoritarianism, the rise of civil society, and the resurgence of Islamic activism. Theoretical discussion is followed by case studies.

**Prerequisite:** [POL201H1/ POL201Y1/ POLB90H3/ POLB91H3](#)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL480H1 - Studies in Comparative Political Theory

**Hours:** 24S

We will critically examine what “comparative political theory” is and what it would mean to genuinely “deparochialize” political theory, that is, to de-center Euro-American thought in the study of political ideas. The course neither presupposes background knowledge of any non-Western thought tradition, nor does it aspire to provide students with sufficient knowledge of particular traditions to ground serious scholarly contributions to this emerging field. To provide that background would require a series of specialized courses in, e.g., East Asian political thought, Indian political thought, Latin American political thought, Indigenous political thought, African political thought, and so on. Rather, the course aims at sharpening our understanding of (a) the purposes served by “deparochializing” political theory; and (b) the various methods by which we can seek to serve these purposes.

**Prerequisite:** [POL200Y1/POL200Y5](#)/(POLC70H3, POLC71H3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL484H1 - Topics in Political Thought I

**Hours:** 24S

A seminar on a central problem in political thought. It proceeds through the reading of a small number of major texts. Content in any given year depends on instructor.

**Prerequisite:** [POL200Y1/POL200Y5](#)/(POLC70H3, POLC71H3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL484Y1 - Topics in Political Thought I

**Hours:** 48S

A seminar on a central problem in political thought. It proceeds through the reading of a small number of major texts. Content in any given year depends on instructor.

**Prerequisite:** [POL200Y1/POL200Y5](#)/(POLC70H3, POLC71H3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL485H1 - Topics in Political Thought II

**Hours:** 24S

A seminar on a central problem in political thought. It proceeds through the reading of a small number of major texts. Content in any given year depends on instructor.

**Prerequisite:** [POL200Y1/POL200Y5](#)/(POLC70H3, POLC71H3)

**Distribution Requirements:** Social Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## POL486H1 - Topics in International Politics I

**Hours:** 24S

For advanced students of international relations. Various topics are taken up each year, the content of which depends on the instructor.

**Prerequisite:** [POL208H1/POL208Y1](#)/POL209H5/POLB80H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL487H1 - Topics in International Politics II

**Hours:** 24S

For advanced students of international relations. Various topics are taken up each year, the content of which depends on the instructor.

**Prerequisite:** [POL208H1/POL208Y1](#)/POL209H5/POLB80H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL488H1 - Topics in African Politics I

**Hours:** 24S

In depth examination of specific themes relating to contemporary African politics. Content in any given year depends on instructor.

**Prerequisite:** [POL201H1/POL201Y1](#)/POLB90H3/POLB91H3

**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## POL489H1 - Topics in African Politics II

**Hours:** 24S

In depth examination of specific themes relating to contemporary African politics. Content in any given year depends on instructor.

**Prerequisite:**

POL201H1/POL201Y1/POLB90H3/POLB91H3

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL490H1 - Topics in Canadian Politics I

**Hours:** 24S

Examines in depth enduring and emerging issues in Canadian politics. Content in any given year depends on instructor.

**Prerequisite:**

POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3; 1.0 other POL credit in Canadian politics. See the Department's website <http://politics.utoronto.ca/undergraduate/courses/fallwinter-timetable/> for POL courses by area group.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL491H1 - Topics in Canadian Politics II

**Hours:** 24S

Examines in depth enduring and emerging issues in Canadian politics. Content in any given year depends on instructor.

**Prerequisite:**

POL214H1/POL214Y1/POL215H5/POL216H5/POL224H1/POL224Y1/POLB50Y3; 1.0 other POL credit in Canadian politics. See the Department's website <http://politics.utoronto.ca/undergraduate/courses/fallwinter-timetable/> for POL courses by area group.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL492H1 - Topics in Comparative Politics IV

**Hours:** 24S

Selected issues in comparative politics. Vary from year to year.

**Prerequisite:** 2.0 POL credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL493H1 - Topics in Politics I

**Hours:** 24S

An in-depth examination of a "big issue" in Political Science. Content in any given year depends on instructor.

**Prerequisite:** 3.0 POL credits; minimum 14 credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL494H1 - Topics in Politics II

**Hours:** 36S

An in-depth examination of a "big issue" in Political Science. Content in any given year depends on instructor.

**Prerequisite:** 3.0 POL credits; minimum 14 credits

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## POL495Y1 - Independent Studies

Open only when a Political Science full-time faculty member is willing and available to supervise. Students must find an appropriate supervisor in the Department of Political Science and obtain the approval of the Director of Undergraduate Studies before enrolling. Obtain details and an application form from the Department Undergraduate Office. Application forms can also be downloaded from the Department's website at [www.politics.utoronto.ca](http://www.politics.utoronto.ca).

Not eligible for CR/NCR option.

**Exclusion:** POL496H1/POL497H1

**Distribution Requirements:** Social Science

## POL496H1 - Independent Studies

Open only when a Political Science full-time faculty member is willing and available to supervise. Students must find an appropriate supervisor in the Department of Political Science and obtain the approval of the Director of Undergraduate Studies before enrolling. Obtain details and an application form from the Department Undergraduate Office. Application forms can also be downloaded from the Department's website at [www.politics.utoronto.ca](http://www.politics.utoronto.ca).

Not eligible for CR/NCR option.

**Exclusion:** [POL495Y1](#)

**Distribution Requirements:** Social Science

## POL497H1 - Independent Studies

Open only when a Political Science full-time faculty member is willing and available to supervise. Students must find an appropriate supervisor in the Department of Political Science and obtain the approval of the Director of Undergraduate Studies before enrolling. Obtain details and an application form from the Department Undergraduate Office. Application forms can also be downloaded from the Department's website at [www.politics.utoronto.ca](http://www.politics.utoronto.ca).

Not eligible for CR/NCR option.

**Exclusion:** [POL495Y1](#)

**Distribution Requirements:** Social Science

## POL498H1 - Intensive Course

Content in any given year depends on instructor. Intensive courses are offered by distinguished visitors from around the world. Students in their 4th year are strongly encouraged to take advantage of this unique opportunity to study with one or more outstanding visiting international scholars that the Department brings from time to time. The intensive course usually runs for approximately 3-4 weeks.

**Distribution Requirements:** Social Science

## POL498Y1 - Intensive Course

Content in any given year depends on instructor. Intensive courses are offered by distinguished visitors from around the world. Students in their 4th year are strongly encouraged to take advantage of this unique opportunity to study with one or more outstanding visiting international scholars that the Department brings from time to time. The

intensive course usually runs for approximately 3-4 weeks.

**Distribution Requirements:** Social Science

## POL499Y1 - Senior Thesis and Thesis Seminar

A 40 to 60-page (15,000 to 20,000 word) research paper (75% of the final mark) written under the supervision of a political science faculty member and a companion thesis seminar (25% of final mark). The seminar provides a forum for students to periodically present and discuss their on-going research and to examine issues and approaches related to the structure, organization and presentation of the thesis.

Not eligible for CR/NCR option.

**Prerequisite:** 14.0 credits, 3.0 GPA in Political Science courses, supervisor's approval, an approved thesis proposal.

**Exclusion:** [POL495Y1](#)/[POL496H1](#)/[POL497H1](#) (taken in the same session)

**Distribution Requirements:** Social Science

## Faculty List

### Professor and Chair

A.T. Pérez-Leroux, MA, Ph D

### Assistant Professors

Anabela Rato, MA, Ph D

Carolina Sá Carvalho, MA, Ph D

### Lecturer (Instituto Camões)

Luçiana Graça

### Professors Emeriti

Ricardo Sternberg, MA, Ph D (SM)

J.R. Webster, MA, Ph D, FRSC (SM)

Manuela Marujo, MA, Ph D

- Portuguese is the world's sixth most widely spoken language.
- Portuguese is a mother tongue in the 5 continents, parallel only to English and Spanish.
- Portuguese is the most widely spoken language in the Southern Hemisphere.
- Portuguese unites Portuguese-speaking diasporas all over the world in countries such as Canada, the United States, South-Africa, France or Switzerland.
- Portuguese has one of the highest growth rates as a second language in the Internet, in social networks and in learning as a foreign language.
- Portuguese is a Romance language, so if you already know another Romance language (Spanish, Italian, etc.), you will find it easier to learn it.
- Portuguese is now the first foreign language in the educational system of many countries.
- Portuguese is the official language of some of the fastest growing economies in the world, namely Brazil and Angola.

## Introduction

### Overview:

Portuguese is the sixth most widely used language in the world. It is spoken by more than two hundred and sixty million people on four continents inhabited by the Lusophone population: Europe, Africa, Asia, and the Americas. Twenty percent of all residents of the Western Hemisphere are Brazilians, a fact attesting to the truth that one out of every five Americans - North, Central, South - speaks Portuguese as his or her native language. The literature of Portugal has a tradition that goes back as far as the twelfth century, and the discoveries of its Renaissance seafarers led the language and the culture to all corners of the globe.

The Department offers an integrated curriculum, combining courses in language, linguistics, literature, and culture. Courses in the studies of the Lusophone world provide a diverse, flexible and detailed examination of the Portuguese language and its cultures. The skills and knowledge developed in these courses lay the groundwork for careers in teaching, journalism, translation, publishing, and foreign services, as well as for research in a variety of fields. In the Canadian job market, command of the Portuguese language is a definite advantage. Toronto has one of the largest Portuguese speaking diasporas, and Canada has been establishing strong cultural, political and business ties with Brazil.

### Why should I learn Portuguese?

- Portuguese gives you access to a rich and fascinating culture.

### What can I do with a degree in Portuguese?

- Education
- Marketing, Editing, Copywriting
- Journalism, Media
- Library and Information Sciences
- Public Relations
- Research
- Foreign Services/Foreign Affairs Specialist
- International development
- Political Aid
- National and international law

### How is the program structured?

For many students, our program begins with the language sequence.

### Language sequence:

1. The Department reserves the right to place students in the language course best suited to their linguistic preparation. Please contact the [Associate Chair, Undergraduate Studies](#) if you would like to take a Placement test to help you determine your level of linguistic competence in Portuguese.
2. Students who, in the department's assessment, have an adequate knowledge of Portuguese may be required to take Portuguese literature, culture or linguistic course instead of a language course at any level.

The progression of courses in the language sequence is designed to accommodate a wide range of previous

language experience. Students are placed in the appropriate language course based on their proficiency as determined by departmental assessment.

Students who have had little to no previous experience in studying Portuguese may enrol in an intensive course, [PRT100Y1](#).

Students who have a strong background in Spanish language (native fluency or minimum [SPA320Y1](#)), should enrol in [PRT120Y1](#).

Students who have had previous experience in studying Portuguese may enrol in several intermediate and advanced courses, depending on their background and their level of preparation. Speakers with an intermediate level of Portuguese, including those who successfully completed [PRT100Y1](#) should enrol in [PRT220Y1](#).

Those students who have had exposure to spoken Portuguese in an informal context (i.e., those who live in a Portuguese-speaking environment; for instance, those who have grown up in a Portuguese-speaking country, or who live in Portuguese speaking families), but who have had little to no exposure to written Portuguese, should enrol in [PRT219Y1](#). Students who qualify for this course are able to understand and speak Portuguese. They speak Portuguese relatively fluently, but they usually do not write or read Portuguese. After completing [PRT219Y1](#), Students should proceed to [PRT420H1](#).

Students who have completed [PRT120Y1](#) or [PRT220Y1](#) should proceed to [PRT320Y1](#). Those students who come to the program with an advanced level of Portuguese as assessed by the department should also proceed to take [PRT320Y1](#) or [PRT420H1](#).

Following [PRT320Y1](#), students are qualified to enroll in [PRT420H1](#). This course is appropriate for students with a relatively high vocabulary base and good command of grammar and academic writing who need to increase their lexicon, and who need further formal instruction in grammar and writing.

[PRT423H1](#), a course for advanced speakers of Portuguese, trains students to develop their skills in a range of professional language fields, such as finances, law, medicine, and education.

#### **Cognate courses:**

- Portuguese Specialist: Up to 2.0 credits may be taken from cognate departmental or college offerings.
- Portuguese Major: Up to 1.0 credits may be taken from cognate departmental or college offerings.
- Portuguese Minor: Up to 1.0 cognate credit may be taken in Spanish.

GGR341H1; HIS291H1; HIS292H1; HIS390H1; HIS446H1; HIS390H5; JLN327H1; JLN427H1; JLP315H1; POL442H1; POL360H1; MUS305H1; LIN101 H1, LIN102H1; NEW322H1; SPA\* and LAS\*

Students who are unsure of what is the most appropriate placement for them in the language sequence should contact the [Associate Chair, Undergraduate Studies](#) to receive personal assessment and recommendation for proper placement.

Fluent speakers of Portuguese who have received a high school or a higher level of education in the Portuguese language, and who in the department's assessment does not need further training in language, may enroll immediately in any linguistics, literature or culture course.

#### **Literature, culture and linguistics courses:**

Portuguese opens the door to a rich range of cultural expressions in literature, film, and art, from the world-changing contribution of Renaissance Portugal to the contemporary Brazilian and Luso-African diaspora. Whether it is Nobel-prize winning Portuguese literature or the excitement of the Brazilian cinema novo, Lusophone writers, filmmakers, and artists continue to shape and change contemporary global culture.

Portuguese also opens the door to the study of the Romance language family. The Department offers students the opportunity to advance their language skills through the systematic reflection on the language structure. Through a variety of courses with a theoretical and experimental focus in linguistics, students acquire basic skills that can be transferred to teaching or research programs. Through collaboration with other language and linguistics programs, students are provided with opportunities and training to conduct research in linguistics with a focus on the Portuguese language.

The Department encourages students to consider completing part of their course work at a university in Portugal or Brazil.

Students should contact the Undergraduate Coordinator early on in the course of their university career to receive advice on how to proceed with their studies and to thus assure that they can receive their degree by the time of planned graduation. For further information, please contact us in the **Department of Spanish and Portuguese**, Victoria College, Room 208.

## Portuguese Programs

### Portuguese Specialist (Arts Program) - ASSPE0338

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

Consult the Associate Chair, Undergraduate Studies, Department of Spanish and Portuguese.

(10.0 credits, including at least 1.0 400-level credit)

First Year:

PRT100Y1/ PRT120Y1/ PRT219Y1/ PRT220Y1

Second Year:

1. PRT220Y1/ PRT320Y1  
2. PRT258H1

Third and Fourth Years:

1. PRT320Y1  
2. PRT420H1 / PRT423H1  
3. Plus additional PRT courses to make 10.0 credits. Up to 2.0 credits may be taken from cognate departmental or college offerings: EUR, GGR, HIS, LAS, POL, SPA. A complete list of eligible courses is available at the departmental website.

### Portuguese Major (Arts Program) - ASMAJ0338

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

Consult the Associate Chair, Undergraduate Studies, Department of Spanish and Portuguese.

(7.0 credits)

First Year:

PRT100Y1/ PRT120Y1/ PRT219Y1/ PRT220Y1

Second Year:

1. PRT220Y1/ PRT320Y1  
2. PRT258H1

Third and Fourth Years:

1. PRT320Y1  
2. PRT420H1 is recommended for students who start in PRT100Y1, and is required for students who start in PRT220Y1 or higher language course.  
3. Plus additional PRT courses to make 7.0 credits. Up to 1.0 credit may be taken from cognate departmental or college offerings: EUR, GGR, HIS, LAS, POL, SPA. A complete list of eligible courses is available at the departmental website.

### Portuguese Minor (Arts Program) - ASMIN0338

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

Consult the Associate Chair, Undergraduate Studies, Department of Spanish and Portuguese.

4.0 credits, including 1.0 credit at the 300+ level.

First Year:

PRT100Y1/ PRT220Y1; PRT219Y1 (for native / bilingual speakers of Spanish)

Second Year:

PRT220Y1 / PRT320Y1;

Third Year:

PRT320Y1

Additional PRT courses to a total of 4.0 credits. Up to 1.0 cognate credit may be taken in Spanish.

### Faculty of Arts & Science Language Citation

The Department of Spanish and Portuguese participates in the Faculty of Arts and Science's Language Citation initiative for Portuguese.

To obtain a Language Citation in Portuguese, students will successfully complete the two language-sequence

courses that follow the introductory level with a minimum of B- in each one of the courses to be considered.

For students with no previous knowledge of Portuguese, [PRT220Y1](#) or [PRT320Y1](#) are required.

Heritage speakers should complete [PRT219Y1](#) and two additional 0.5 credit courses in Portuguese at the 300 or 400-level.

Students should note that, as explained in the [About Programs of Study](#) section of this Calendar, the Language Citation is not equivalent to an academic program and that enrolment in a program is not necessary in order to earn the recognition bestowed by the Citation.

To request the citation, e-mail your request with your student ID number to the [Associate Chair, Undergraduate Studies](#). Submit your request as soon as you complete all the courses to be considered.

## Portuguese Courses

### PRT100Y1 - Portuguese for Beginners

**Hours:** 48L/48T

An intensive basic course in spoken and written Portuguese for students who have no knowledge of this language or advanced Spanish. It aims to give students a basic knowledge of reading, listening, spoken and written skills in a dynamic and communicative way. Presentation of cultural aspects of the Portuguese-speaking world.

**Prerequisite:** No previous knowledge of Portuguese or advanced Spanish.

**Exclusion:** [PRT110Y1](#), [PRT120Y1](#), [PRT219Y1](#), [PRT220Y1](#), [PRT320Y1](#), [PRT420H1](#), [PRT420Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### PRT120Y1 - Portuguese for Spanish Speakers

**Hours:** 48L/24T

Introduction to the Portuguese language for speakers of Spanish. Development of listening, speaking, reading, and writing skills with an emphasis on communication, and an overview of basic grammatical structures and building of vocabulary. Presentation of cultural aspects of the Portuguese-speaking world.

## **Portuguese: see also European Studies; Latin American Studies**

### Regarding Portuguese Courses

#### Notes

- The Department reserves the right to place students in the language course best suited to their linguistic preparation.
- Students who, in the department's assessment, have an adequate knowledge of Portuguese may be required to take a Portuguese linguistics, literature or culture course instead of a language course at any level.

**Prerequisite:** Native or advanced knowledge of Spanish (min. [SPA320Y1](#) for non-native speakers of Spanish); no previous knowledge of Portuguese.

**Exclusion:** [PRT100Y1](#), [PRT110Y1](#), [PRT220Y1](#), [PRT320Y1](#), [PRT420Y1](#), [PRT420H1](#), [PRT219Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

### PRT219Y1 - Academic Portuguese

**Hours:** 48L/24T

Meets the needs of students who have had exposure to spoken Portuguese in an informal context (living in a Portuguese speaking country, or in a Portuguese speaking family) but little to no exposure to written Portuguese. Besides reviewing English/Portuguese spelling differences, written and spoken registers of Portuguese, and basic aspects of the grammatical system, the course (1) provides students with the essential understanding of Portuguese grammatical system; (2) builds their vocabulary; and (3) trains them to express themselves formally in both spoken and written Portuguese.

**Prerequisite:** Basic to relatively high ability to speak and understand Portuguese; limited or no formal education in Portuguese.

**Exclusion:** [PRT100Y1](#), [PRT110Y1](#), [PRT120Y1](#), [PRT220Y1](#), [PRT320Y1](#)

**Breadth Requirements:** Creative and Cultural Representations (1)

## PRT220Y1 - Intermediate Portuguese

**Hours:** 48L/24T

This course will bring together Portuguese grammar and language skills into a useful and practical framework, in order to develop students' skills to communicate in an accurate, effective, and informed manner within a variety of socio-cultural situations. Besides introducing new grammar topics corresponding to the intermediate level, it also includes a grammar review with extra work on vocabulary acquisition. Focuses on comprehension, development of a greater complexity in students' written and oral productions, and gaining a better understanding of Portuguese-speaking cultures.

**Prerequisite:** PRT100Y1

**Exclusion:** PRT219Y1/PRT110Y1/PRT120Y1/PRT320Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## PRT221H1 - Portuguese Pronunciation

**Hours:** 24L

Overview of Portuguese speech sounds (articulation and transcription). The course provides perception and pronunciation training of Portuguese vowels, consonants, stress, intonation, and co-articulation phenomena in connected speech. The main focus will be on European Portuguese and Brazilian Portuguese, but differences between these two and other Portuguese accents will be discussed as well.

**Prerequisite:** PRT100Y1

**Corequisite:** PRT120Y1/PRT220Y1

**Exclusion:** PRT219Y1, native speakers of Portuguese

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PRT250H1 - Introduction to Lusophone Culture

**Hours:** 24L

A survey of historical and cultural trends in the Portuguese-speaking world, from colonial past to the present. (Offered in alternate years; taught in English)

**Exclusion:** PRT252H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## PRT258H1 - Introduction to Lusophone Literature

**Previous Course Number:** PRT258Y1

**Hours:** 24L

Introduction to literary studies in Portuguese and information literacy. Representative selection of Lusophone prose, poetry, and drama, with a focus on critical terminology and methods of literary analysis. Required for a program degree.

**Prerequisite:** First semester PRT220Y1

**Exclusion:** PRT258Y1

**Recommended Preparation:**

PRT219Y1/PRT220Y1/PRT120Y1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## PRT299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## PRT320Y1 - Advanced Portuguese

**Hours:** 48L/24T

Intensive practice in written and oral Portuguese for the advanced student. Selective review of grammar with emphasis on complex language structures.

**Prerequisite:** PRT120Y1, PRT220Y1 or placement test

**Exclusion:** PRT219Y1, PRT420H1

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## PRT322H1 - Introduction to Portuguese Linguistics

**Hours:** 24L

An overview of theoretical and methodological aspects of Portuguese linguistics: phonology, morphology, syntax, and semantics. Analysis of structural similarities and

differences between the two worldwide main Portuguese varieties - Brazilian and European Portuguese.

**Prerequisite:** [PRT219Y1](#) or [PRT220Y1](#) or [PRT120Y1](#) or Permission of the Department

**Corequisite:** [PRT320Y1](#)

**Recommended Preparation:** [PRT320Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PRT323H1 - Business Portuguese

**Hours:** 24L/12T

An advanced level business Portuguese course covering topics on international relations, politics, legal and culture. This course aims to enhance written and oral expressions in Portuguese through content focusing on the language that is used in official, diplomatic, and financial situations. Through the analysis of case studies, newspapers and videos, students will be introduced to the business cultures and intercultural communication of the Portuguese-speaking world.

**Prerequisite:** [PRT120Y1](#), [PRT220Y1](#) or proof of comparable Portuguese level

**Corequisite:** [PRT219Y1/PRT320Y1](#) or proof of comparable Portuguese level

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## PRT342H1 - History of Portuguese Language

**Hours:** 24L

This interdisciplinary course provides an overview of the evolution of Portuguese language from 15th century to the present. It discusses linguistic change by analyzing texts from a variety of genres in different historical periods and geographical contexts.

**Prerequisite:** [PRT219Y1](#) or [PRT220Y1](#) or [PRT120Y1](#) or Permission of the Department

**Corequisite:** [PRT320Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PRT350H1 - Portuguese Language and Society

**Hours:** 24L

Explores how factors such as ethnicity, gender, social class and age affect the use of Portuguese language and determine its characteristics. The course overviews mostly the aspects of Brazilian and European Portuguese. (Offered in alternate years.)

**Prerequisite:** [PRT219Y1](#) or [PRT220Y1](#) or [PRT120Y1](#) or Permission of the Department

**Corequisite:** [PRT320Y1](#)

**Recommended Preparation:** [PRT320Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PRT356H1 - Topics in Portuguese Linguistics

**Hours:** 24S

A course on a specific topic in Portuguese linguistics, designed for advanced students. Course content and instructor are established on a yearly basis.

**Prerequisite:** [PRT219Y1](#) or [PRT220Y1](#) or [PRT120Y1](#) or Permission of the Department

**Corequisite:** [PRT320Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PRT358H1 - Topics in Portuguese Studies

**Hours:** 24L

In years when this course is offered, topics are described in detail on the departmental webpage. Students can enrol in this course multiple times, as long as the topic of the course is different. For any questions, please check with the department.

**Prerequisite:** [PRT219Y1](#) or [PRT220Y1](#) or [PRT120Y1](#); [PRT258H1](#); or Permission of the Department

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## PRT364H1 - Portuguese Language in the World

**Hours:** 24L

An overview of the varieties of Portuguese spoken in four continents (Europe, South America, Africa, Asia) and a

discussion of the structural similarities and differences between the two most extensively studied varieties: European and Brazilian Portuguese. Analysis of linguistic variation in contemporary Portuguese in terms of phonetics, syntax and lexicon. (Offered in alternate years.)

**Prerequisite:** [PRT219Y1](#) or [PRT120Y1](#) or [PRT220Y1](#) or Permission of the Department

**Recommended Preparation:** [PRT320Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PRT368H1 - Brazilian Indigenous Languages

**Hours:** 24L

Overview of linguistic diversity of Brazil, current practices in the maintenance and revitalization of languages and strategies for empowering indigenous peoples. Linguistic properties of Brazilian languages; introduction to language description by working on small data sets; discussion of the influence of Brazilian indigenous languages on Brazilian Portuguese. Taught in English. (Offered in alternate years.)

**Prerequisite:** Any 200-level course

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PRT398H0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-excursions-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## PRT398Y0 - Research Excursions

An instructor-supervised group project in an off-campus setting. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-excursions-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Humanities

## PRT399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

## PRT420H1 - Advanced Academic Portuguese

**Hours:** 24L

A study of advanced aspects of formal Portuguese through reading and extensive writing practice, with an aim at developing skills necessary for academic and professional writing and oral presentations.

**Prerequisite:** [PRT320Y1](#) or [PRT219Y1](#) or Placement test

**Exclusion:** [PRT420Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## PRT423H1 - Community Engaged Learning of Portuguese in Toronto and the GTA

**Hours:** 24L/12P

This course combines advanced language instruction with the richness and complexity of the Lusophone work experience in Toronto, promoting Community Engaged Learning (CEL) as a vehicle for greater linguistic fluency and cultural understanding. Students are placed with community organizations within the Greater Toronto Area and volunteer for 2 hours per week, furthering their language skills and their cultural knowledge. Class work focuses on developing students' communication skills through exposure to a range of topics, from financial, legal, medical to educational, and to an extensive variety of styles and registers in Portuguese. Therefore, students meet real needs in the community by applying knowledge from their Portuguese courses.

**Prerequisite:** [PRT320Y1](#)

**Recommended Preparation:** [PRT420H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Society and its Institutions (3)

## PRT455H1 - Lusophone Cinema

Hours: 24L

Explores the films of Portuguese-speaking countries and iconic Angolan, Brazilian, Cape Verdean, Mozambican and Portuguese directors in the context of political and cultural national movements. (Offered in alternate years.)

**Prerequisite:** [PRT258H1](#)

**Recommended Preparation:** [PRT320Y1](#), [PRT420H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

**Prerequisite:** [PRT320Y1](#) and written approval of the Undergraduate Coordinator

**Distribution Requirements:** Humanities

## PRT458H1 - The Lusophone Short Story

Hours: 24S

Overview of the short story in the particular context of Portuguese-speaking countries. Examination of theories of the genre as they relate to short stories of Portuguese-speaking writers. (Offered in alternate years)

**Prerequisite:** [PRT258H1](#)

**Recommended Preparation:** [PRT320Y1](#), [PRT420H1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Creative and Cultural Representations (1)

## PRT470H1 - Acquisition of Portuguese as a Second Language

Hours: 24S

Invites critical reflection about the acquisition of Portuguese as a second language. Analyzes phonological, morphosyntactic, semantic and lexical aspects in the linguistic performance of bilingual speakers, and of learners of Portuguese as a second language. (Offered in alternate years)

**Prerequisite:** [PRT219Y1/PRT220Y1](#)

**Corequisite:** [PRT320Y1](#)

**Distribution Requirements:** Humanities

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PRT490H1 - Independent Study

Individual study with a member of staff on a topic of common interest including readings, discussion and written assignments. Not eligible for CR/NCR option.

# Psychology

## Faculty List

### University Professors Emeriti

F.I.M. Craik, PhD, FRSC  
E. Tulving, PhD, D Litt, FD, FRS

### Professors Emeriti

J.L. Freedman, PhD  
J.E. Grusec, PhD  
L. Hasher, PhD  
C.P. Herman, PhD  
J.A. Hogan, PhD  
R.S. Lockhart, PhD  
B.B. Murdock, PhD  
S.J. Shettleworth, PhD  
I. Spence, PhD  
G.C. Walters, PhD  
J.S. Yeomans, PhD

### University Professors

M. Moscovitch, PhD

### Professor and Chair of the Department

N. Rule, PhD

### Professor and Graduate Chair of the Department

A. Chasteen, PhD

### Associate Professor and Associate Chair (Undergraduate Studies)

E. Page-Gould, PhD

### Director (Graduate Studies)

N. Anderson, PhD

### Professors

M. Barense, PhD  
P. Bloom, PhD  
W. Cunningham, PhD  
G. Einstein, PhD  
S. Ferber, PhD  
C.C. Helwig, PhD  
G. MacDonald, PhD  
J.B. Peterson, PhD  
J.W. Pratt, PhD  
M.R. Ralph, PhD  
J. Sommerville, PhD

### Associate Professors

D. Bernhardt-Walther, PhD  
J. Kim, PhD  
P. Lockwood, PhD  
J.E. Plaks, PhD

R.W. Tafari, PhD  
K. Takehara, PhD

### Assistant Professors

F. Cheung, PhD  
L. Corbit, PhD  
K. Duncan, PhD  
A. Finn, PhD  
M. Mack, PhD  
R. Neel, PhD  
J.Y. Park, PhD  
M. Schlichting, PhD  
C. Starmans, PhD

### Associate Professors, Teaching Stream

D. Dolderman, PhD  
J. Vervaeke, PhD  
A. Waggoner Denton, PhD

### Assistant Professors, Teaching Stream

M. Babineau, PhD  
M. Metz, PhD  
W.S. Ryan, PhD  
A. Sharples, PhD  
S. Wood, PhD

### Sessional Lecturers

T. Boritz, PhD  
C. Burton, PhD  
T. Grieder, PhD  
W. Huggon, PhD  
J. Hughes, PhD  
G. Rowe, PhD  
J. Robinson, PhD  
N. Stuckless, PhD  
S. Walker, PhD  
P. Whissell, PhD

## Introduction

Psychology is the branch of science that focuses on the behaviour of human beings and animals. Our courses span the various areas of psychology and introduce students to the methods used in psychological research. The basic tools of a research psychologist include experimentation in the laboratory and field, naturalistic observation, and the use of statistical methods in interpreting data.

Our faculty have highly diversified interests which are reflected in the number and variety of our undergraduate course offerings. These include courses in cognitive neuroscience, cognitive psychology, computational neuroscience, developmental psychology, human and animal learning, perception, personality psychology, physiological psychology, and social psychology.

For more information, please consult our website (<https://www.psych.utoronto.ca/>), or the Undergraduate Administrator in Sidney Smith Hall, Room 4014, by phone

at (416) 978-3407 / (416) 578-4326 or via email ([psy\\_undergrad@utoronto.ca](mailto:psy_undergrad@utoronto.ca)).

## Regarding Psychology Programs

Psychology programs at the St. George Campus are limited enrolment, which means there are a limited number of spaces to offer students. Please note that just meeting the minimum admission requirements does not guarantee one a spot in any of our programs and, in most cases, students will need to exceed them to be competitive because of the volume of applications in comparison to the number of program spaces available.

Entry into all Psychology programs requires Grade 12 Calculus and Grade 12 Biology (we will also accept these two courses taken at the college and university-level). Please note that these two requirements will not be waived.

## Combined Degree Program (CDP) offered with Victoria College and Ontario Institute for Studies in Education (OISE)

- Combined Degree Program in HBA/HBSc and Master of Teaching (MT)

Students enrolled in the Minor in Education and Society and Major in Psychology may apply for this Combined Degree Program. For details about application and program requirements, see the [Combined Degree Programs section](#).

## Psychology Programs

## Psychology Research Specialist - Thesis (Science Program) - ASSPE1958

This program is designed for students who have demonstrated a particular interest and aptitude for research and who want to complete a thesis. Admission to the program is based on strong academic performance and expressed interest in research.

### Enrolment Requirements:

This is a limited enrolment program. Students interested in the Psychology Research Specialist - Thesis typically apply and enrol after the end of second year, from the Psychology Major or Psychology Specialist (Non-thesis).

### Variable Minimum Grade Average

A minimum grade average in required courses is needed

for entry, and this minimum changes each year depending on the number of applicants. Up to 15 students are admitted each year.

The following courses and requirements must be completed:

For students who have completed 8.0 credits or more:

- Gr. 12 Calculus
- Gr. 12 Biology
- PSY100H1 (80%)
- PSY201H1 (or [ECO220Y1](#)/[EEB225H1](#)/[GGR270H1](#)/[POL222H1](#)/[SOC202H1](#)/[STA220H1](#)/[STA238H1](#)/[STA248H1](#)/[STA288H1](#)), and PSY202H1 (or [ECO220Y1](#)/[STA221H1](#)/[SOC252H1](#)), with a 75% minimum grade average.
- 2.0 PSY 200-level credits (not including statistics), with a 78% minimum grade average

### Special Requirement

- In addition to applying via ACORN, students must also send in a supplementary application directly to the department via the [Research Specialist Online Application](#).

To ensure that students admitted to the program will be successful, applicants with a grade average lower than those listed in required courses will not be considered for admission. Please note that obtaining this minimum grade average does not guarantee admission to the program.

### Notes:

- Interested students should ideally apply for a PSY Major or Specialist (Non-thesis) at the end of their first year. Prior research experience is desired, but not a firm requirement for admission to the program.
- All students accepted into or considering the Research Specialist program should enrol into a 300-level PSY lab course in Year 3.

### Completion Requirements:

(10.0 credits):

1. First Year: [PSY100H1](#)
2. Statistics: [PSY201H1](#) (or one of [ECO220Y1](#)/[EEB225H1](#)/[GGR270H1](#)/[POL222H1](#)/[SOC202H1](#)/[STA220H1](#)/[STA238H1](#)/[STA248H1](#)/[STA288H1](#)) **and** [PSY202H1](#) (or one of [ECO220Y1](#)/[STA221H1](#)/[SOC252H1](#))
3. 1.0 credit (from Cluster A) [PSY210H1](#), [PSY220H1](#), [PSY230H1](#), [PSY240H1](#)
4. 1.0 credit (from Cluster B) [PSY260H1](#), [PSY270H1](#), [PSY280H1](#), [PSY290H1](#) (**NOTE:** [HMB200H1](#) or [PSL300H1](#) cannot be used in place of [PSY290H1](#))
5. 0.5 credit in PSY at the 300/400-level from Group 1 in Cluster A

6. 0.5 credit in PSY at the 300/400-level from Group 1 in Cluster B
7. 1.0 credit in PSY at the 300/400-level from Group 1 (any of Clusters A, B, and C)
8. One lab course (0.5 credit), and no more, taken from the following: PSY319H1, PSY329H1, PSY339H1, PSY349H1, PSY359H1, PSY369H1, PSY379H1, PSY389H1
9. PSY309H1
10. PSY409H1
11. PSY400Y1
12. 2.0 credits from Group 1 (Clusters A, B, and C) and/or Group 2, at any level

(Please note that these are all individual requirements and cannot overlap or be used twice).

BPM336H1, BPM337H1, BPM338H1, BPM339H1, BPM432H1, BPM433H1, BPM438H1, COG250Y1, COG260H1, COG341H1, COG342H1, COG343H1, CRI365H1, CRI431H1, ECO423H1, EDS261H1, EEB313H1, ENG384Y1, HIS489H1, HMB200H1, HMB300H1, HMB310H1, HMB320H1, HMB420H1, HMB440H1, HMB460H1, HMB473H1, HPS110H1, HPS200H1, IRE260H1, JFP450H1, JHS410H1, JLS472H1, JLS473H1, LIN101H1, LIN102H1, LIN200H1, LIN402H1, NEW302Y1, NEW303H1, NFS489H1, PCL200H1, PCL475H1, PCL476H1, PHL240H1, PHL243H1, PHL244H1, PHL319H1, PHL340H1, PHL342H1, PHL383H1, PSL201Y1, PSL300H1, PSL440Y1, RLG106H1, RLG211H1, RLG301H1, RLG421H1, RSM260H1, RSM353H1, SOC213H1, SOC363H1, SOC412H1, VIC106H1, VIC206H1, VIC278H1, WGS372H1

### Group 1 (Cluster A)

JLP315H1, PSY194H1, PSY195H1, PSY197H1, PSY210H1, PSY220H1, PSY230H1, PSY240H1, PSY311H1, PSY312H1, PSY313H1, PSY316H1, PSY319H1, PSY320H1, PSY321H1, PSY322H1, PSY323H1, PSY324H1, PSY326H1, PSY328H1, PSY329H1, PSY330H1, PSY331H1, PSY332H1, PSY333H1, PSY336H1, PSY337H1, PSY339H1, PSY341H1, PSY342H1, PSY343H1, PSY349H1, PSY410H1, PSY414H1, PSY417H1, PSY420H1, PSY421H1, PSY424H1, PSY425H1, PSY426H1, PSY427H1, PSY428H1, PSY430H1, PSY434H1, PSY435H1, PSY440H1, PSY450H1

### Group 1 (Cluster B)

JLP374H1, JLP471H1, PSY196H1, PSY198H1, PSY199H1, PSY260H1, PSY270H1, PSY280H1, PSY290H1, PSY312H1, PSY316H1, PSY359H1, PSY360H1, PSY362H1, PSY369H1, PSY370H1, PSY371H1, PSY372H1, PSY378H1, PSY379H1, PSY380H1, PSY389H1, PSY390H1, PSY395H1, PSY396H1, PSY397H1, PSY450H1, PSY460H1, PSY470H1, PSY471H1, PSY473H1, PSY475H1, PSY480H1, PSY490H1, PSY492H1, PSY493H1, PSY494H1, PSY495H1, PSY496H1, PSY497H1

### Group 1 (Cluster C)

PSY201H1, PSY202H1, PSY203H1, PSY204H1, PSY299H1, PSY299Y1, PSY305H1, PSY306Y0, PSY307H1, PSY308H1, PSY399H1, PSY399Y1, PSY402H1, PSY403H1, PSY404H1, PSY405H1, PSY405Y1, PSY406H1, PSY406Y1, PSY407H1, PSY408H1

### Group 2

BIO120H1, BIO130H1, BIO220H1, BIO270H1, BIO271H1, BPM232H1, BPM332H1, BPM333H1, BPM335H1,

Note: Effective Fall 2021, courses associated with New College's Buddhism, Psychology and Mental Health program will have the new "BPM" designator.

## Psychology Specialist (Science Program) - ASSPE1160

You should consider pursuing the Specialist Program in Psychology if you want a greater concentration in Psychology than provided by the Major Program. Please note that having a Specialist is not required in order to be admitted to a graduate program in Psychology later on.

### Enrolment Requirements:

This is a limited enrolment program. Note there are different options depending on whether a student has completed between 4.0 and 7.5 credits, or 8.0 or more credits.

#### *Variable Minimum Grade or Minimum Grade Average*

A minimum final grade or grade average in required courses is needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses must be completed:

### For students who have completed 4.0 to 7.5 credits:

- PSY100H1 (80%) (***AP and IB Psychology are not accepted***)
- Gr. 12 Calculus
- Gr. 12 Biology

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 80% in required courses will not be considered for admission.

Please note that obtaining this minimum final grade does not guarantee admission to the program.

(Please note that these are all individual requirements and cannot overlap or be used twice).

### For students who have completed 8.0 or more credits:

- PSY100H1 (**AP and IB Psychology are not accepted**)
- Gr. 12 Calculus
- Gr. 12 Biology
- PSY201H1 (or ECO220Y1/ EEB225H1/ GGR270H1/ POL222H1/ SOC202H1/ STA220H1/ STA238H1/ STA248H1/ STA288H1), and PSY202H1 (or ECO220Y1/ STA221H1/ SOC252H1), 1.0 credits in PSY from the PSY210H1 to PSY290H1 series of courses, and a grade average of 75% across all four courses. If more than 1.0 200-level PSY credits have been completed, the two with the highest grades will be used.

To ensure that students admitted to the program will be successful, applicants with a minimum grade average lower than 75% in required courses will not be considered for admission. Please note that obtaining this minimum grade average does not guarantee admission to the program.

#### Note:

In past admission cycles, the average grade cut-off for the Specialist program ranged from approximately 80-83%.

#### Completion Requirements:

##### (10.0 credits):

1. First Year: PSY100H1
2. Statistics: PSY201H1 (or one of ECO220Y1/ EEB225H1/ GGR270H1/ POL222H1/ SOC202H1/ STA220H1/ STA238H1/ STA248H1/ STA288H1) **and** PSY202H1 (or one of ECO220Y1/ STA221H1/ SOC252H1)
3. 1.0 credit (from Cluster A) PSY210H1, PSY220H1, PSY230H1, PSY240H1
4. 1.0 credit (from Cluster B) PSY260H1, PSY270H1, PSY280H1, PSY290H1 (**NOTE:** HMB200H1 or PSL300H1 cannot be used in place of PSY290H1)
5. 0.5 credit in PSY at the 300/400-level from Group 1 in Cluster A
6. 0.5 credit in PSY at the 300/400-level from Group 1 in Cluster B
7. 1.5 credits in PSY at the 300/400-level from Group 1 (any of Clusters A, B, and C)
8. One lab course (0.5 credit), and no more, taken from the following: PSY319H1, PSY329H1, PSY339H1, PSY349H1, PSY359H1, PSY369H1, PSY379H1, PSY389H1
9. Two seminar courses (1.0 credit), and no more, taken from the following: JLP471H1, PSY402H1/ PSY403H1/ PSY404H1, PSY410H1, PSY420H1, PSY430H1, PSY440H1, PSY460H1, PSY470H1, PSY471H1, PSY480H1, PSY490H1, PSY497H1
10. 2.5 credits from Group 1 (Clusters A, B, and C) and/or Group 2, at any level

#### Group 1 (Cluster A)

Note: Effective Fall 2021, courses associated with New College's Buddhism, Psychology and Mental Health program will have the new "BPM" designator.

## Psychology Major (Science Program) - ASMAJ1160

You should consider pursuing the Major Program in Psychology if you want to concentrate in Psychology together with another discipline.

### Enrolment Requirements:

This is a limited enrolment program. Note there are different options depending on whether a student has completed between 4.0 and 7.5 credits, or 8.0 or more credits.

*Variable Minimum Grade or Minimum Grade Average*  
A minimum final grade or grade average in required courses is needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses must be completed:

### For students who have completed 4.0 to 7.5 credits:

- PSY100H1 (75%) (**AP and IB Psychology are not accepted**)
- Gr. 12 Calculus
- Gr. 12 Biology

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 75% in required courses will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program.

### For students who have completed 8.0 credits or more:

- PSY100H1 (**AP and IB Psychology are not accepted**)
- Gr. 12 Calculus
- Gr. 12 Biology
- PSY201H1 (or ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1), 1.0 credits in PSY from the PSY210H1 to PSY290H1 series of courses, and a grade average of 73% across all three courses. If more than 1.0 200-level PSY credits have been completed, the two with the highest grades will be used.

To ensure that students admitted to the program will be successful, applicants with a grade average lower than

73% in required courses will not be considered for admission. Please note that obtaining the minimum grade average does not guarantee admission to the program.

### Note:

In past admission cycles, the average grade cut-off for the Major program ranged from approximately 77-79%.

### Completion Requirements:

#### (7.0 credits):

1. First Year: PSY100H1
2. Statistics: PSY201H1 (or one of ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1)
3. 1.0 credit (from Cluster A) PSY210H1, PSY220H1, PSY230H1, PSY240H1
4. 1.0 credit (from Cluster B) PSY260H1, PSY270H1, PSY280H1, PSY290H1 (**NOTE:** HMB200H1 or PSL300H1 cannot be used in place of PSY290H1)
5. 0.5 credit in PSY at the 300/400-level from Group 1 in Cluster A
6. 0.5 credit in PSY at the 300/400-level from Group 1 in Cluster B
7. 1.0 credit in PSY at the 300/400-level from Group 1 (any of Clusters A, B, and C)
8. 0.5 credit in PSY at the 400-level from Group 1 (any Cluster)
9. 1.5 credits from Group 1 (Clusters A, B, and C) and/or Group 2, at any level

(Please note that these are all individual requirements and cannot overlap or be used twice).

### Group 1 (Cluster A)

## Environment & Behaviour Minor (Science Program) - ASMIN1551

### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

### Special Requirement

- Students must be enrolled in the Psychology Minor, Major or Specialist, to be considered for enrolment.

### Completion Requirements:

(4.0 credits, including 1.0 credit at the 300+ level.)

For more information, please email the School of the Environment's Undergraduate Student Advisor, David Powell, at [ug.office.env@utoronto.ca](mailto:ug.office.env@utoronto.ca).

Higher Years:

1. [ENV221H1](#), [ENV222H1](#), [PSY220H1](#), [PSY335H1](#)/  
[PSY435H1](#)
2. 1.0 credit from: [ENV333H1](#), [ENV335H1](#), [ENV361H1](#)/  
[ENV381H1](#) (if [ENV381H1](#) taken in 2015-16 or 2016-17),  
[JGE321H1](#), [JGE331H1](#)
3. 1.0 credit from: [PSY320H1](#), [PSY321H1](#), [PSY327H1](#)/  
[PSY427H1](#), [PSY336H1](#)

## Psychology Minor (Science Program) - ASMIN1160

You should consider pursuing the Minor Program in Psychology if you are interested in Psychology as a part of your general education or as a compliment to your training in another profession (i.e., nursing, rehabilitation medicine, physical health and education, social work, etc.).

### Enrolment Requirements:

This is a limited enrolment program. Note there are different options depending on whether a student has completed between 4.0 and 7.5 credits, or 8.0 or more credits.

### Variable Minimum Grade or Minimum Grade Average

A minimum final grade or grade average in required courses is needed for entry, and these minimums change each year depending on available spaces and the number of applicants. The following courses must be completed:

### For students who have completed 4.0 to 7.5 credits:

- [PSY100H1](#) (73%) (**AP and IB Psychology are not accepted**)
- Gr. 12 Calculus
- Gr. 12 Biology

To ensure that students admitted to the program will be successful, applicants with a final grade lower than 73% in required courses will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program.

### For students who have completed 8.0 credits or more:

- PSY100H1 (**AP and IB Psychology are not accepted**)
- Gr. 12 Calculus
- Gr. 12 Biology
- PSY201H1 (or ECO220Y1/ EEB225H1/ GGR270H1/ POL222H1/ SOC202H1/ STA220H1/ STA238H1/ STA248H1/ STA288H1), 1.0 200-level PSY credits from the PSY210H1 - PSY290H1 series, and a grade average of 70% across all three courses. If more than 1.0 200-level PSY credits have been completed, the two with the highest grades will be used.

To ensure that students admitted to the program will be successful, applicants with a grade average lower than 70% in required courses will not be considered for admission. Please note that obtaining the minimum grade average does not guarantee admission to the program.

**Note:**

In past admission cycles, the average grade cut-off for the Minor program ranged from approximately 73-75%.

**Completion Requirements:**

**(4.0 credits):**

1. First Year: PSY100H1
2. Statistics: PSY201H1 (or one of ECO220Y1/ EEB225H1/ GGR270H1/ POL222H1/ SOC202H1/ STA220H1/ STA238H1/ STA248H1/ STA288H1)
3. 1.0 credit from PSY210H1/ PSY220H1/ PSY230H1/ PSY240H1/ PSY260H1/ PSY270H1/ PSY280H1/ PSY290H1 (**NOTE: HMB200H1 or PSL300H1 cannot be used in place of PSY290H1**)
4. 1.0 credit in PSY at the 300/400-level from Group 1 (any Cluster)
5. 1.0 credit from Group 1 (any Cluster) and/or Group 2, at any level

(Please note that these are all individual requirements and cannot overlap or be used twice).

**Group 1 (Cluster A)**

JLP315H1, PSY194H1, PSY195H1, PSY197H1, PSY210H1, PSY220H1, PSY230H1, PSY240H1, PSY311H1, PSY312H1, PSY313H1, PSY316H1, PSY319H1, PSY320H1, PSY321H1, PSY322H1, PSY323H1, PSY324H1, PSY326H1, PSY328H1, PSY329H1, PSY330H1, PSY331H1, PSY332H1, PSY333H1, PSY336H1, PSY337H1, PSY339H1, PSY341H1, PSY342H1, PSY343H1, PSY349H1, PSY410H1, PSY414H1, PSY417H1, PSY420H1, PSY421H1, PSY424H1, PSY425H1, PSY426H1, PSY427H1, PSY428H1, PSY430H1, PSY434H1, PSY435H1, PSY440H1, PSY450H1

**Group 1 (Cluster B)**

JLP374H1, JLP471H1, PSY196H1, PSY198H1, PSY199H1, PSY260H1, PSY270H1, PSY280H1, PSY290H1, PSY312H1, PSY316H1, PSY359H1, PSY360H1, PSY362H1, PSY369H1, PSY370H1, PSY371H1, PSY372H1, PSY378H1, PSY379H1, PSY380H1, PSY389H1, PSY390H1, PSY395H1, PSY396H1, PSY397H1, PSY450H1, PSY460H1, PSY470H1, PSY471H1, PSY473H1, PSY475H1, PSY480H1, PSY490H1, PSY492H1, PSY493H1, PSY494H1, PSY495H1, PSY496H1, PSY497H1

**Group 1 (Cluster C)**

PSY201H1, PSY202H1, PSY203H1, PSY204H1, PSY299H1, PSY299Y1, PSY305H1, PSY306Y0, PSY307H1, PSY308H1, PSY399H1, PSY399Y1, PSY402H1, PSY403H1, PSY404H1, PSY405H1, PSY405Y1, PSY406H1, PSY406Y1, PSY407H1, PSY408H1

**Group 2**

BIO120H1, BIO130H1, BIO220H1, BIO270H1, BIO271H1, BPM232H1, BPM332H1, BPM333H1, BPM335H1, BPM336H1, BPM337H1, BPM338H1, BPM339H1, BPM432H1, BPM433H1, BPM438H1, COG250Y1, COG260H1, COG341H1, COG342H1, COG343H1, CRI365H1, CRI431H1, ECO423H1, EDS261H1, EEB313H1, ENG384Y1, HIS489H1, HMB200H1, HMB300H1, HMB310H1, HMB320H1, HMB420H1, HMB440H1, HMB460H1, HMB473H1, HPS110H1, HPS200H1, IRE260H1, JFP450H1, JHS410H1, JLS472H1, JLS473H1, LIN101H1, LIN102H1, LIN200H1, LIN402H1, NEW302Y1, NEW303H1, NFS489H1, PCL200H1, PCL475H1, PCL476H1, PHL240H1, PHL243H1, PHL244H1, PHL319H1, PHL340H1, PHL342H1, PHL383H1, PSL201Y1, PSL300H1, PSL440Y1, RLG106H1, RLG211H1, RLG301H1, RLG421H1, RSM260H1, RSM353H1, SOC213H1, SOC363H1, SOC412H1, VIC106H1, VIC206H1, VIC278H1, WGS372H1

Note: Effective Fall 2021, courses associated with New College's Buddhism, Psychology and Mental Health program will have the new "BPM" designator.

## Psychology of Economics and Management Certificate - ASCER1160

The Certificate in Psychology of Economics and Management explores the interdisciplinary connections between social psychology, economics, and business, covering the role of motivation, culture and leadership in organizations. This Certificate is not open to students pursuing a Psychology Specialist, Major, or Minor.

## Enrolment Requirements:

This is a limited enrolment Certificate. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

### Completed courses (with minimum grades)

The following courses with the stated minimum grades are required:

- PSY100H1 (70%)
- RSM100H1 (63%)/ MGT100H1 (63%)/ ECO101H1 (63%)

### Special Requirement

- This Certificate is open to students not enrolled in a Psychology Specialist, Major, or Minor.

## Completion Requirements:

### (3.0 credits)

In first year or higher (1.0 credit):

- PSY100H1 (grade of 70%)
- RSM100H1/ MGT100H1/ ECO101H1 (grade of 63%)

In second year and higher (2.0 credits):

- PSY220H1
- PSY332H1/ RSM260H1/ IRE260H1
- 1.0 credit from: PSY326H1, PSY321H1, PSY336H1, PSY322H1

## Regarding Psychology Courses

We encourage students at all levels, and particularly those who are beginning a program in Psychology, to consult the undergraduate section of the Psychology website (<https://www.psych.utoronto.ca/undergraduate>) before

## Psychology Courses

### PSY100H1 - Introductory Psychology

Hours: 36L

A brief introductory survey of psychology as both a biological and social science. Topics will include physiological, learning, perceptual, motivational, cognitive,

selecting courses and to discuss their proposed programs with the Undergraduate Administrator.

Courses in the various areas within Psychology and the numbering system associated with these courses follow a specific pattern: PSYXXX. The first digit represents the year, and the second digit represents the area in which the course belongs. Social Psychology, for example, is identified by "2." Therefore, PSY220 at the second year, PSY320, 321, 322, etc. at the third year, and PSY420, 421, 424, etc. at the fourth year represent the Social Psychology courses. Other areas within Psychology follow a similar pattern, with their own identifying number in the middle.

Please note that the Department of Psychology will not waive course prerequisites under any circumstances and that Psychology courses do not have co-requisites. Students will need to have prerequisites completed BEFORE taking a course.

### 200-Level Courses

Students registered in a St. George campus PSY program will be given priority to enrol in all PSY courses above the 100-level. Please see the online Arts and Science Registration Instructions and Timetable for more details on enrolment controls. PSY100H1 is required in order to take all 200-level PSY courses, with the exception of PSY202H1 which requires PSY201H1.

### 300-Level Courses

Almost all 300/400-level lecture courses require PSY201H1 (Statistics I), or its equivalent/exclusion, as one of their prerequisites. This will **not** be waived. Students **must** complete the statistics requirement before taking any 300- or 400-level PSY lecture courses. Similarly, 300-level lab and 400-level seminar courses require PSY202H1 (Statistics II) or its equivalent/exclusion.

### 400-Level Courses

The 400-level courses comprise of lecture courses, seminars, individual projects, and the thesis course for Research Specialists.

developmental, personality, abnormal, and social psychology.

**Exclusion:** PSY100Y5/ PSYA01Y3/( PSYA01H3 + PSYA02H3)

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY194H1 - The Psychology of Student Success

**Hours:** 24S

University life presents students with all sorts of challenges as well as amazing opportunities for learning and growth. While there are many different ways to define a “successful student”, the goal of this seminar is for everyone to develop the knowledge, skills, and mindset needed to make the most of out of the university experience. Students will discover what research in psychological science has to say about facing and overcoming common academic, intrapersonal, and interpersonal challenges, as we cover topics including deliberate practice, imposter syndrome, and belongingness. Students will also learn evidence-based strategies for better managing their attention, energy, and emotions so that they may thrive (rather than just survive) in university. In addition to learning about psychology, students will develop useful skills in scientific literacy, critical thinking, self-reflection, written and oral communication, and teamwork. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY195H1 - The Science of Babies

**Hours:** 24S

Up until roughly four decades ago, infants were seen as cute, clueless creatures. Yet, research from a range of fields has led to a radical consideration of this claim; infants may be cute but they are not clueless! In this class, we will consider and discuss the science of babies. In particular, we will take a second look at long-held beliefs about the nature of infants and their knowledge. We will learn that studying infants’ perception, cognition and behaviour can offer us critical insights into long-standing philosophical questions. This course provides an interdisciplinary introduction to infancy, that includes content from psychology, philosophy, neuroscience, as well as biology and anthropology. Upon completion of this class, students will (1) have overview knowledge of aspects of infancy as it relates to perception, cognition and behavior; (2) be able to use exploratory writing to develop arguments and develop their understanding of subject matter; and (3) begin to be able to read and summarize a scientific research paper in Developmental Psychology. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY196H1 - Critical Periods, Brain Plasticity and Development

**Hours:** 24S

This course will ask how changes in the developing brain can influence our understanding of how humans learn. To answer this question, we will learn about how the brain changes and about how learning changes. We will dig into brain plasticity and ask how this influences “critical” or “sensitive” periods for learning: a phenomenon whereby learning can only take place during a particular time in an organism’s life. We will explore learning in a number of different ways including learning in sensory and motor systems and the development of multiple aspects of learning and memory. In all cases, we will ask how changes in the developing brain impact learning outcomes. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY197H1 - The Individual and Society

**Hours:** 24S

How does one develop a sense of individuality? Can individual will and freedom be reconciled with the interests of society? Are we determined by society or culture or do we, in some important sense, determine our own behaviour and futures? In this course, we will use classic and contemporary readings from psychology, sociology, anthropology, philosophy, and law to explore general characterizations of the individual and society. Basic questions will be examined in light of these characterizations such as: Is there a universal human nature? Who is a “person”?, and What is the ideal society? We will examine these questions in light of various social issues, such as debates about multiculturalism and democracy, whether children have rights to freedom of speech, and women’s equality in society. Throughout the course, the emphasis will be on the different views of the person underlying and informing contrasting perspectives on important social questions. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY198H1 - The Psychology of Magic

**Hours:** 24S

Magicians entertain us with their tricks. What appears as “Magic” is based on fundamental aspects of human psychology: visual and auditory perception, decision making, logic, memory, and verbal abilities. In this class, we will consider and discuss the psychological basis of magic tricks and use magic to explore aspects of psychology. The class will require reading of scientific articles and book chapters as well as watching and analyzing magical tricks. The only prerequisite is a curious and critical mind. The course puts great emphasis on writing and on starting to read primary scientific literature. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY199H1 - Psychology and History of Drug Use

**Hours:** 24S

This seminar will examine the historical and contemporary use of drugs. Students will be introduced to the general psychological and neuroscientific mechanisms by which drugs affect human behavior, and explore highlights of current research on drug effects in animals and humans. Restricted to first-year students. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY201H1 - Statistics I

**Hours:** 36L

Fundamentals of descriptive and inferential statistics, including population and sampling distributions, simple association, probability, estimation, and hypothesis testing.

**Prerequisite:** [PSY100H1](#)/[PSY100Y5](#)/([PSYA01H3](#) + [PSYA02H3](#))

**Exclusion:**

[ECO220Y1](#)/[EEB225H1](#)/[GGR270H1](#)/[POL222H1](#)/[SOC202H1](#)/[STA220H1](#)/[STA238H1](#)/[STA248H1](#)/[STA288H1](#)/[PSY201H5](#)/[STA215H5](#)/[STA220H5](#)/[PSYB07H3](#)/[STAB22H3](#)/[STAB23H3](#)/[STAB57H3](#)

**Recommended Preparation:** Grade 12 Calculus

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PSY202H1 - Statistics II

**Hours:** 36L

Fundamentals of statistical analysis of experimental and observational data including linear models, the analysis of variance, a priori contrasts, post-hoc tests, power analysis and effect size calculations.

**Prerequisite:**

[PSY201H1](#)/[EEB225H1](#)/[GGR270H1](#)/[POL222H1](#)/[SOC202H1](#)/[STA220H1](#)/[STA238H1](#)/[STA248H1](#)/[STA288H1](#)/[PSY201H5](#)/[STA215H5](#)/[STA220H5](#)/[PSYB07H3](#)/[STAB22H3](#)/[STAB23H3](#)

**Exclusion:**

[ECO220Y1](#)/[SOC252H1](#)/[STA221H1](#)/[PSY202H5](#)/[STA221H5](#)/[PSYC08H3](#)/[STAB27H3](#)/[STAC32H3](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PSY203H1 - Psychological Research

**Hours:** 36P

This course provides an introduction to conceiving, designing, and conducting research in psychology. It prepares students to be both consumers and producers of scientific research, and also addresses basic issues related to the work of psychological scientists such as theory development, research ethics, and scientific writing. Students in this course will gain insight into the scientific process as a whole – its advantages, difficulties, and limitations. As such, students will be able to better evaluate the knowledge that psychological science can provide, and integrate that knowledge into a broader worldview.

**Prerequisite:** [PSY100H1](#)/[PSY100Y5](#)/([PSYA01H3](#) + [PSYA02H3](#))

**Corequisite:**

[PSY201H1](#)/[ECO220Y1](#)/[EEB225H1](#)/[GGR270H1](#)/[POL222H1](#)/[SOC202H1](#)/[STA220H1](#)/[STA238H1](#)/[STA248H1](#)/[STA288H1](#)/[PSY201H5](#)/[STA215H5](#)/[STA220H5](#)/[PSYB07H3](#)/[STAB22H3](#)/[STAB23H3](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY204H1 - Psychology Careers and Applications

**Hours:** 36L

Psychology has been identified as a hub science, a discipline whose research influences the work of scientists in many other fields. This course will provide students with

a broad introduction to the application of the psychological sciences across various clinical, academic, and industry contexts. Students will gain valuable insight into the broad range of careers that are relevant to psychology, while also investigating barriers to rigorous application of psychological science in applied settings. Students will also learn how the skills and knowledge gained in an undergraduate psychology program can be applied to a broad range of careers and fields/sectors. Students will gain significant exposure to career and education planning considerations within the psychological sciences and will participate in at least one experiential career exploration activity.

**Prerequisite:** PSY100H1/PSY100Y5/(PSYA01H3 + PSYA02H3), and 0.5 PSY credit at the 200-level  
**Distribution Requirements:** Science  
**Breadth Requirements:** Society and its Institutions (3)

## PSY210H1 - Introduction to Developmental Psychology

**Hours:** 36L

The developmental approach to the study of behaviour with reference to sensorimotor skills, cognition, socialization, personality, and emotional behaviour.

**Prerequisite:**  
PSY100H1/PSY100Y5/PSYA02H3/COG250Y1  
**Exclusion:** PSY210H5/PSYB20H3  
**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY220H1 - Introduction to Social Psychology

**Hours:** 36L

Contemporary areas of research in social psychology: social perception, attitudes, inter-personal relations, and group processes.

**Prerequisite:**  
PSY100H1/PSY100Y5/PSYA02H3/COG250Y1  
**Exclusion:** PSY220H5/PSYB10H3/SOC213H1  
**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY230H1 - Personality and Its Transformations

**Hours:** 36L

Theory and research in personality structure and dynamics: the interaction of cultural and biological factors in the development and expression of individual differences.

**Prerequisite:** PSY100H1/PSY100Y5/PSYA02H3  
**Exclusion:** PSY230H5/PSYB30H3  
**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY240H1 - Introduction to Abnormal Psychology

**Hours:** 36L

A critical survey of concepts, theories, and the state of research in the area of psychopathology and therapeutic methods.

**Prerequisite:** PSY100H1/PSY100Y5/PSYA02H3  
**Exclusion:** PSY240H5/PSYB32H3  
**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY260H1 - Introduction to Learning and Plasticity

**Hours:** 36L

Concepts, theories, and applications of classical and contemporary learning theories, including classical and operant conditioning. Current theories of the physiological and anatomical basis of learning and memory, including synaptic plasticity, the role of the hippocampus, amygdala, frontal cortex and other brain regions. Theories will be related to a practical understanding and applications such as drug addiction, phobias and other disorders.

**Prerequisite:**  
PSY100H1/PSY100Y5/PSYA01H3/COG250Y1  
**Exclusion:** PSYB38H3  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## PSY270H1 - Introduction to Cognitive Psychology

**Hours:** 36L

An introduction to research and theory on the neural and cognitive architecture of attention, memory, language, thinking and reasoning.

**Prerequisite:**

PSY100H1/PSY100Y5/PSYA01H3/COG250Y1

**Exclusion:** PSY270H5/PSYB57H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY280H1 - Introduction to Sensation and Perception

**Hours:** 36L

An introduction to the physiological and psychological basis of perception across the different sensory modalities in humans and lower animals, with an emphasis on vision. Exploring visual perception such as shape and objects, scenes, colour, space, and motion as well as auditory perception of simple and complex sounds, and location. Further topics may include touch, including perception of temperature, pain and body posture, the chemical senses, and cross-modal influences of the senses on one another. In-class demonstrations may supplement the lectures.

**Prerequisite:**

PSY100H1/PSY100Y5/PSYA01H3/COG250Y1

**Exclusion:** PSY280H5/PSYB51H3

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY290H1 - Behavioural Neuroscience

**Hours:** 36L

Provides students with a solid background in the biological basis of behaviour. Animal and human research topics will include functional neuroanatomy and neural signalling. Further topics may include sensory and motor control, motivational systems, hormones, and emotions, among other topics.

**Prerequisite:** PSY100H1/PSY100Y5/PSYA01H3

**Exclusion:**

HMB200H1/PSL300H1/PSY290H5/PSYB64H3

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY299H1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## PSY299Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at <https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## PSY305H1 - The Treatment of Psychological Data

**Hours:** 36L

This course provides a practical yet intensive introduction to the research pipeline, with a focus on research data management and advanced statistical analysis and inference. Students learn how to find, organize, and analyze data sets in a transparent and reproducible way. Students also learn more about statistical inference, focusing on how the design and analysis of data shape the interpretation of results.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3

**Exclusion:** EEB313H1

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PSY306Y0 - Special Topics in Psychology Abroad

**Hours:** 48L

Special Topics in Psychology for the **Summer Abroad Program**. Course topics, content, and instructor may vary from one year to another. More information about Psychology course offerings can be obtained from the Professional & International Programs office at

Woodsworth College. For students in any Psychology and/or Social Science major or specialist.

**Prerequisite:** Completion of 8.0 credits

**Distribution Requirements:** Science

## PSY307H1 - Special Topics in Psychology

**Hours:** 36L

A lecture course providing in-depth examination of specific topics/themes relating to Psychology. Content in any given year depends on instructor. Priority is given to PSY Major program students during the first enrolment period.

**Prerequisite:** PSY100H1/PSY100Y5/(PSYA01H3 + PSYA02H3), and PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and 0.5 PSY credit at the 200-level

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY308H1 - Special Topics in Psychology

**Hours:** 36L

A lecture course providing in-depth examination of specific topics/themes relating to Psychology. Content in any given year depends on instructor. Priority is given to PSY Major program students during the first enrolment period.

**Prerequisite:** PSY100H1/PSY100Y5/(PSYA01H3 + PSYA02H3), and PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and 0.5 PSY credit at the 200-level

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY309H1 - Research Specialization: Practicum

**Hours:** 36P

Research Specialists learn about the research opportunities within our department, and develop skills in the areas of critical thinking, writing, and oral presentation. Students also conduct a pre-thesis research project under the supervision of a faculty member. Students should complete a PSY lab course (PSY3\*9H1) prior to taking this course; however, taking the lab course concurrently will be considered in consultation with the instructor. Enrolment is restricted to PSY Research Specialists.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3

**Corequisite:**

PSY319H1/PSY329H1/PSY339H1/PSY349H1/PSY359H1/PSY369H1/PSY379H1/PSY389H1

**Exclusion:** PSY309H5

**Distribution Requirements:** Science

## PSY311H1 - Social Development

**Hours:** 36L

Theory and research in social attachment, aggression, morality, imitation and identification, altruism, and parental discipline, with discussion of methodological issues.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY210H1/PSY210H5/PSYB20H3

**Exclusion:**

PSY311H5/PSYC21H3/PSYC27H3/PSYD22H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY312H1 - Cognitive Development

**Hours:** 36L

Examines the developmental of knowledge in fundamental domains such as spatial perception, navigation, object perception, number, language, and theory of mind. Emphasis is on current experimental findings and how they address centuries-old debates surrounding the origin and nature of human knowledge.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY210H1/PSY210H5/PSYB20H3, and PSY270H1/PSY270H5/PSYB57H3/COG250Y1

**Exclusion:** PSY312H5

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY313H1 - Psychology of Aging

**Hours:** 36L

Age changes in sensory and perceptual processes, motor skill, learning, memory, and personality. Theory, methodological problems, social, cultural, and environmental influences that shape behaviour and attitudes towards and among the elderly.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY210H1/PSY210H5/PSYB20H3

**Exclusion:** PSY313H5/PSYC21H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## JLP315H1 - Language Acquisition

**Hours:** 36L

Infants' abilities at birth, prelinguistic development, the first words, phonological, syntactic and semantic development. Social variables influencing language acquisition, bilingualism, models of development, language play. (Sponsored by the Departments of Linguistics and Psychology, but administered solely by the Dept. of Linguistics).

**Prerequisite:** 1.0 credit at the 200+ level in LIN/JAL/JUP/PSL/PSY/COG

**Exclusion:** PSY315H5, PLIC24H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY316H1 - Perceptual Development

**Hours:** 36L

The course examines human perceptual development during the first 2-3 years of life. Vision and audition are emphasized. Some topics are: pattern and colour vision, depth perception, infant speech perception.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY280H1/PSY280H5/PSYB51H3

**Exclusion:** PSY316H5/PSYC22H3

**Recommended Preparation:**

PSY210H1/PSY210H5/PSYB20H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY319H1 - Developmental Laboratory

**Hours:** 36P

Provides an overview of developmental psychology methods. The class conducts an original research project, including design, data collection, data analysis, and a written report. Course capacity is limited to 15 students and priority is given to PSY Specialists and Research Specialists during the first enrolment period.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and  
PSY210H1/PSY210H5/PSYB20H3

**Exclusion:** PSY319H5/PSYC72H3

**Recommended Preparation:** PSY203H1

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY320H1 - Social Psychology: Attitudes

**Hours:** 36L

Intensive study of social attitude development, description, measurement, modification, and organization.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H2/STAB57H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Exclusion:** PSY320H5

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY321H1 - Cross-Cultural Psychology

**Hours:** 36L

One of the hallmarks of human behaviour is its diversity. Some of the ways in which we differ are thought to be relatively idiosyncratic (e.g., specific aspects of personality), whereas others are fairly systematic. Cultural psychology is one area of research in human behaviour that examines systematic differences resulting from individuals' cultural backgrounds. This course will introduce you to the consideration of cultural variation in the study of human thought and behaviour.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Exclusion:** PSY321H5/PSYC14H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY322H1 - Intergroup Relations

**Hours:** 36L

An in-depth examination of theories and research in intergroup relations; focuses on stereotyping, prejudice, discrimination, and stigma.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Exclusion:** PSYC12H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY323H1 - Sex Roles and Behaviour

**Hours:** 36L

The effect of sex-role expectations on how men and women behave and perceive the world: theories of sex-role development, physiological and cultural determinants of sex differences, power relationships between men and women.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and one of  
PSY210H1/PSY210H5/PSYB20H3 or  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1 or

PSY230H1/PSY230H5/PSYB30H3 or  
PSY240H1/PSY240H5/PSYB32H3

**Exclusion:** PSY317H5/PSYD18H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY324H1 - Moral Thought and Behaviour

**Hours:** 36L

Moral values vary considerably across individuals, groups, countries, and cultures. What explains the emergence of these differential moral systems? What psychological processes are involved in moral decisions and actions? How might insights from psychological research shed light on contemporary, 'hot-button' moral issues? How are moral decisions similar to – and different from – other types of everyday decisions? What is the role of emotion in moral decision making? As an introduction to the field of moral psychology, this 300-level course will cover research from a range of sub-disciplines within psychology including social-personality psychology, cognitive neuroscience, and developmental psychology. In addition, students will gain exposure to related material in other fields including philosophy, ethology, and economics. Students will gain a firm understanding of the key debates and issues in the study of the moral mind and will gain skills in critical thinking and writing.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Exclusion:** PSYD14H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY326H1 - Social Cognition

**Hours:** 36L

An examination of theory and research on how we make sense of ourselves and our social world. Topics covered include goals, mood, memory, hypothesis testing, counterfactual thinking, stereotypes, and culture.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Exclusion:** PSYC13H3/PSYD12H3/PSYD15H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY328H1 - Psychology and the Law

**Hours:** 36L

This course deals with psychological issues in the law, with particular reference to criminal law. It focuses mainly on research that has been done on pretrial publicity, eyewitness testimony, rules of evidence, and other factors that might affect jury decisions.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Exclusion:** PSY328H5/PSYC39H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY329H1 - Social Psychology Laboratory

**Hours:** 36P

Illustrates major methodologies within social psychology, such as attitude measurement, observation of small groups, and experiments. Course capacity is limited to 15 students and priority is given to PSY Specialists and Research Specialists during the first enrolment period.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Exclusion:** PSY329H5/PSYC71H3

**Recommended Preparation:** PSY203H1

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY330H1 - Psychological Measurement

**Hours:** 36L

This course focuses on the development and evaluation of psychological measures, including the measurement of knowledge, abilities, attitudes, and personality traits. We

will discuss theoretical and methodological issues in psychological measurement, covering important concepts such as reliability and validity and how these affect the interpretation of test scores and research findings. There will be some discussion of the application of psychological measures to various settings and the ethics of psychological assessment.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3

**Exclusion:** PSYC37H3

**Recommended Preparation:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and  
PSY230H1/PSY230H5/PSYB30H3

**Distribution Requirements:** Science

## PSY331H1 - Social Psychology of Emotion

**Hours:** 36L

An in-depth review of the role of emotion in human psychology, with an emphasis on the links between emotion and cognition. Topics include theories of emotion, emotion regulation, emotional expression, and emotional experience, the role of emotion in decision-making, and the relationships between emotion, motivation and behaviour.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Exclusion:** PSYC18H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY332H1 - Organizational Behaviour

**Hours:** 36L

An analysis of the individual, group, and institutional structures and processes that influence behaviour within organizations. Topics may include motivation, leadership, communication, group processes and teamwork, and organizational culture.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288

H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and one of PSY220H1/PSY220H5/PSYB10H3/SOC213H1 or PSY230H1/PSY230H5/PSYB30H3

**Exclusion:** IRE260H1/RSM260H1

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## PSY333H1 - Health Psychology

**Hours:** 36L

Examines research evidence concerning the impact of psychological factors on physical health and illness.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and one of PSY230H1/PSY230H5/PSYB30H3 or PSY240H1/PSY240H5/PSYB32H3

**Exclusion:** PSY333H5

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY336H1 - Positive Psychology

**Hours:** 36L

A review of the field of positive psychology, which is the study of happiness and fulfillment. Topics include personal growth, meaning, hedonic and eudaimonic approaches to well-being, gratitude, awe, flow states, mindfulness and meditation.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and one of PSY220H1/PSY220H5/PSYB10H3/SOC213H1 or PSY230H1/PSY230H5/PSYB30H3 or PSY240H1/PSY240H5/PSYB32H3

**Exclusion:** PSY324H5

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY337H1 - Advanced Personality Psychology

**Hours:** 36L

This course covers major topics in personality psychology including prominent theories and current research in the area. Theoretical frameworks are integrated with specific applications in primary sources. Specific topics may include personality structure, personality development, psychodynamic approaches, genetic methodology, and emotion regulation.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and one of PSY230H1/PSY230H5/PSYB30H3 or PSY240H1/PSY240H5/PSYB32H3

**Exclusion:** PSYC35H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY339H1 - Individual Differences Laboratory

**Hours:** 36P

Introduction to methods involved in individual differences or personality research. Group and individual projects focus on assessment of individual difference characteristics and on experimentation including such characteristics. Course capacity is limited to 15 students and priority is given to PSY Specialists and Research Specialists during the first enrolment period.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and one of PSY220H1/PSY220H5/PSYB10H3/SOC213H1 or PSY230H1/PSY230H5/PSYB30H3

**Exclusion:** PSY329H5

**Recommended Preparation:** PSY203H1

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY341H1 - Psychopathologies of Childhood

**Hours:** 36L

This course focuses on cognitive and neuropsychological aspects of neurodevelopmental and psychiatric disorders in children from clinical and theoretical perspectives.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB2

2H3/STAB23H3/STAB57H3, and one of  
[PSY210H1/PSY210H5/PSYB20H3](#) or  
[PSY230H1/PSY230H5/PSYB30H3](#) or  
[PSY240H1/PSY240H5/PSYB32H3](#)

**Exclusion:** PSY341H5

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY342H1 - Cognition and Psychopathology

**Hours:** 36L

Work in psychological disorders has increasingly used the theories and methodologies of cognitive psychology to guide research. This course will examine accounts of clinical disorders informed by cognitive experimental psychology, with emphasis on recent work in affective disorders.

**Prerequisite:**

[PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3](#), and  
[PSY230H1/PSY230H5/PSYB30H3](#) or  
[PSY240H1/PSY240H5/PSYB32H3](#), and  
[PSY270H1/COG250Y1/PSY270H5/PSYB57H3](#)

**Exclusion:** PSY340H5

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY343H1 - Theories of Psychopathology and Psychotherapy

**Hours:** 36L

Examines various theories of how personality functioning may become impaired and corresponding psychotherapeutic interventions. Emphasis on empirical assessment of personality dysfunction and therapy effectiveness.

**Prerequisite:**

[PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3](#), and  
[PSY230H1/PSY230H5/PSYB30H3](#) or  
[PSY240H1/PSY240H5/PSYB32H3](#)

**Exclusion:** PSY343H5/PSYC36H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY349H1 - Laboratory in Social Psychological Field Methods

**Hours:** 36P

This laboratory class introduces students to field methods in social psychology used to study social processes as they unfold in daily life and public spaces. Students will get hands on experience to collecting, managing, storing, and communicating data collected through observational and longitudinal methods, including data collection in public spaces around Toronto and online. Course capacity is limited to 15 students and priority is given to PSY Specialists and Research Specialists during the first enrolment period.

**Prerequisite:**

[PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3](#), and  
[PSY220H1/PSY220H5/PSYB10H3/SOC213H1](#)

**Recommended Preparation:** [PSY203H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour  
(2)

## PSY359H1 - Human Neuroimaging Laboratory

**Hours:** 36P

Introduction to brain imaging methods used in cognitive, developmental, and social neuroscience. Course projects will cover experimental design, imaging techniques, and data analysis. Course capacity is limited to 15 students and priority is given to PSY Specialists and Research Specialists during the first enrolment period.

**Prerequisite:**

[PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3](#), and  
[PSY210H1/PSY210H5/PSYB20H3](#) or  
[PSY220H1/PSY220H5/PSYB10H3/SOC213H1](#) or  
[PSY230H1/PSY230H5/PSYB30H3](#) or  
[PSY240H1/PSY240H5/PSYB32H3](#), and  
[PSY270H1/PSY270H5/PSYB57H3/COG250Y1](#) or  
[PSY280H1/PSY280H5/PSYB51H3](#)

**Exclusion:** [HMB310H1/PSYD55H3](#)

**Recommended Preparation:** [PSY203H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY360H1 - Associative Learning

**Hours:** 36L

Learning allows our experiences to shape what we know, what we can do and how we interact with our environments. This course addresses the fundamental concepts and more important research findings related to contemporary theories of associative learning in animals and humans. It examines the application of such fundamental research to issues such as the neural substrates of behaviour, drug use, and anxiety disorders. It is designed to foster skills in critical thinking, experimental design and reading primary sources in this area.

**Prerequisite:** PSY201H1/ ECO220Y1/ EEB225H1/ GGR270H1/ POL222H1/ SOC202H1/ STA220H1/ STA238H1/ STA248H1/ STA288H1/ PSY201H5/ STA215H5/ STA220H5/ PSYB07H3/ STAB22H3/ STAB23H3/ STAB57H3, and PSY260H1/ PSYB38H3

**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## PSY362H1 - Animal Cognition

**Hours:** 36L

The study of memory, representation, concept learning, and other cognitive processes in non-human animals.

**Prerequisite:** PSY201H1/ ECO220Y1/ EEB225H1/ GGR270H1/ POL222H1/ SOC202H1/ STA220H1/ STA238H1/ STA248H1/ STA288H1/ PSY201H5/ STA215H5/ STA220H5/ PSYB07H3/ STAB22H3/ STAB23H3/ STAB57H3, and PSY260H1/ PSYB38H3 or (PSY270H1/ PSY270H5/ PSYB57H3 + PSY290H1/ PSY290H5/ PSYB55H3/ PSYB64H3/ HMB200H1/ PSL300H1)

**Exclusion:** PSY362H5  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## PSY369H1 - Psychobiology Laboratory

**Previous Course Number:** PSY399H1

**Hours:** 36P

This lab is an introduction to experimental methods in behavioural neuroscience, including neuroanatomical and psychopharmacological methods in rodents. Course projects will cover experimental design, laboratory techniques, data analysis, and scientific writing. Course capacity is limited to 12-15 students and priority is given to PSY Specialists and Research Specialists during the first enrolment period.

**Prerequisite:** PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H

5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and PSY290H1/PSY290H5/PSYB55H3/PSYB64H3/

1

**Exclusion:** HMB310H1/PSY369H5/PSYC06H3

**Recommended Preparation:** PSY203H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY370H1 - Thinking and Reasoning

**Hours:** 36L

Problem-solving as a model of directed thinking; conceptual behaviour and mental representation; induction, deduction and learning; probabilistic reasoning; creative thinking and complex problem solving.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY270H1/PSY270H5/PSYB57H3/COG250Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY371H1 - Higher Cognitive Processes

**Hours:** 36L

This course covers selected topics pertaining to higher cognitive processes including rationality, consciousness, creativity, and human and artificial intelligence.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY270H1/PSY270H5/PSYB57H3/

1

**Exclusion:** PSY371H5

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY372H1 - Human Memory

**Hours:** 36L

Current theories and data on human memory: processes involved in encoding, storage, and retrieval.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY 260H1/PSYB38H3 or PSY270H1/PSY270H5/PSYB57H3/COG250Y1

**Exclusion:** PSY372H5/PSYC53H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

**JLP374H1 - Psychology of Language**

**Hours:** 36L

In Psychology of Language, we investigate human and other animal communication, structure of human language, word meaning and semantic memory, psychological studies of syntax, bilingualism, language and thought, language errors and disorders. (Sponsored by the Departments of Linguistics and Psychology, but administered solely by the Dept. of Linguistics).

**Prerequisite:** 1.0 credit from LIN228H1, LIN229H1, LIN232H1, LIN241H1, PSY260H1, PSY270H1, PSY280H1, PSY290H1, COG250Y1

**Exclusion:** LIN258H5, PSY374H5, PLIC55H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

**PSY378H1 - Engineering Psychology**

**Hours:** 36L

The application of our knowledge of human information processing capabilities to improve human-machine systems design in a number of engineering environments including aviation, computer software, human-computer interaction, and nuclear power plants.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY270H1/PSY270H5/PSYB57H3/COG250Y1 or PSY280H1/PSY280H5/PSYB51H3

**Recommended Preparation:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

**PSY379H1 - Human Memory and Learning Laboratory**

**Hours:** 36P

Examination of issues and methods in human memory research. Students conduct supervised research projects, and read, critique, and write research articles. Course capacity is limited to 15 students and priority is given to PSY Specialists and Research Specialists during the first enrolment period.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3 and PSY260H1/PSYB38H3 or PSY270H1/PSY270H5/PSYB57H3/COG250Y1

**Exclusion:** PSY379H5/PSYC75H3

**Recommended Preparation:** PSY203H1

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

**PSY380H1 - Vision Science**

**Hours:** 36L

Integrates psychology, neuroscience, and computer science approaches to the study of vision science. Topics include: history and philosophy of vision science, low-level vision, motion perception, spatial vision, perception of objects and scenes, colour perception, attention and consciousness, and multisensory integration. Demonstrations/in-class experiments supplement lectures and readings. Emphasis on reading and writing scientific articles in vision science.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY280H1/PSY280H5/PSYB51H3

**Exclusion:** PSYC51H3

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

**PSY389H1 - Perception Laboratory**

**Hours:** 36P

Examination of issues and methods in perception research. Students conduct supervised research projects, and read, critique, and write research articles. Course capacity is limited to 15 students and priority is given to

PSY Specialists and Research Specialists during the first enrolment period.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and PSY280H1/PSY280H5/PSYB51H3

**Recommended Preparation:** PSY203H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY390H1 - Behavioural Genetics

**Hours:** 36L

An examination of how genes contribute to the production of behaviour, either as structural elements or direct participants in behavioural regulation. Covers molecular genetics, natural selection, and genetic methods followed by specific examples of congenic disorders that affect behaviour and studies of normal behaviours in human and animal models.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY260H1/PSYB38H3 or

PSY290H1/PSY290H5/PSYB64H3/BIO260H1/HMB200H1/HMB265H1/PSL300H1

**Exclusion:** PSY355H5

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY395H1 - Neuroethics

**Hours:** 36L

An examination of how developments in neurology and neuroscience can be used to inform ethical and legal issues related to free will, responsibility, competence, education, morality, and empathy in healthy people and in people with confirmed or suspected neurological disorders.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY260H1/PSYB38H3 or PSY270H1/PSY270H5/PSYB57H3/COG250Y1 or PSY280H1/PSY280H5/PSYB51H3 or PSY290H1/PSY290H5/PSYB55H3/PSYB64H3/HMB200H1

1

**Recommended Preparation:** Review of basic brain functions

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY396H1 - Neurochemical Basis of Behaviour

**Hours:** 36L

The functional relevance of neurotransmitters, with particular emphasis on their role in mediating behaviour.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY260H1/PSYB38H3 or

PSY290H1/PSY290H5/PSYB64H3/HMB200H1/PSL300H1

1

**Exclusion:** PCL200H1/PCL476H1/PSYC62H3

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY397H1 - Biological Rhythms

**Hours:** 36L

Daily, monthly, annual and other rhythms and methods of measuring them. Behavioural and physiological aspects of biological clocks. The importance of rhythms in experimental design, in research on brain function, in affective disorders, and the use animals make of rhythms in migration and other behaviours.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY260H1/PSYB38H3 or

PSY290H1/PSY290H5/PSYB64H3/HMB200H1/PSL300H1

1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY399H1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at

<https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

**Distribution Requirements:** Science

## PSY399Y1 - Research Opportunity Program

Credit course for supervised participation in faculty research project. Details at

<https://www.artsci.utoronto.ca/current/academics/research-opportunities/research-opportunities-program>. Not eligible for CR/NCR option.

## PSY400Y1 - Research Specialization: Thesis

An individual thesis done under the direction of a faculty member. Lecture and seminar presentations of proposals in the Fall session. Enrolment is restricted to PSY Research Specialists. Not eligible for CR/NCR option.

**Prerequisite:** Enrolment in the PSY Research Specialist program, and PSY309H1, and one of [PSY319H1/PSY329H1/PSY339H1/PSY349H1/PSY359H1/PSY369H1/PSY379H1/PSY389H1](#)

**Corequisite:** [PSY409H1](#)

**Exclusion:** PSY400Y5/PSYC98Y3

**Distribution Requirements:** Science

## PSY402H1 - Psychology Seminar

**Hours:** 24S

Examination in depth of specific topics in psychology *at the graduate level*. These seminars vary from year to year in terms of the number given, the topics, and the restrictions on enrolment. Students must get prior consent from the instructor of the graduate seminar they are interested in taking and submit this consent in writing to the department at which time you will be enrolled for **undergraduate** credit. Consult the Undergraduate Administrator for more details.

**Distribution Requirements:** Science

## PSY403H1 - Psychology Seminar

**Hours:** 24S

Examination in depth of specific topics in psychology *at the graduate level*. These seminars vary from year to year in terms of the number given, the topics, and the restrictions on enrolment. Students must get prior consent from the instructor of the graduate seminar they are interested in taking and submit this consent in writing to the department at which time you will be enrolled for **undergraduate** credit. Consult the Undergraduate Administrator for more details.

**Distribution Requirements:** Science

## PSY404H1 - Psychology Seminar

**Hours:** 24S

Examination in depth of specific topics in psychology *at the graduate level*. These seminars vary from year to year in terms of the number given, the topics, and the restrictions on enrolment. Students must get prior consent from the instructor of the graduate seminar they are interested in taking and submit this consent in writing to the department at which time you will be enrolled for **undergraduate** credit. Consult the Undergraduate Administrator for more details.

**Distribution Requirements:** Science

## PSY405H1 - Individual Projects

An intensive laboratory or applied research project under the supervision of a Department of Psychology faculty member. Project must be academically demanding and uniquely suitable for the individual student. Additional information and applications are available at the department and on its website. This course is open to all Psychology program students.

**Prerequisite:**

[PSY202H1/ECO220Y1/ECO227Y1/STA221H1/SOC252H1/SOC300H1](#), and appropriate background for the proposed work

**Distribution Requirements:** Science

## PSY405Y1 - Individual Projects

An intensive laboratory or applied research project under the supervision of a Department of Psychology faculty member. Project must be academically demanding and uniquely suitable for the individual student. Additional information and applications are available at the department and on its website. This course is open to all Psychology program students.

**Prerequisite:**

[PSY202H1/ECO220Y1/ECO227Y1/STA221H1/SOC252H1](#)

1/SOC300H1, and appropriate background for the proposed work

**Distribution Requirements:** Science

## PSY406H1 - Individual Projects

An intensive laboratory or applied research project under the supervision of a Department of Psychology faculty member. Project must be academically demanding and uniquely suitable for the individual student. Additional information and applications are available at the department and on its website. This course is open to all Psychology program students.

**Prerequisite:**

PSY202H1/ECO220Y1/ECO227Y1/STA221H1/SOC252H1/SOC300H1, and appropriate background for the proposed work

**Distribution Requirements:** Science

## PSY406Y1 - Individual Projects

An intensive laboratory or applied research project under the supervision of a Department of Psychology faculty member. Project must be academically demanding and uniquely suitable for the individual student. Additional information and applications are available at the department and on its website. This course is open to all Psychology program students.

**Prerequisite:**

PSY202H1/ECO220Y1/ECO227Y1/STA221H1/SOC252H1/SOC300H1, and appropriate background for the proposed work

**Distribution Requirements:** Science

## PSY407H1 - Special Topics in Psychology

**Hours:** 36L

A lecture course providing in-depth examination of specific topics/themes relating to Psychology. Content in any given year depends on instructor. Priority is given to PSY Major program students during the first enrolment period.

**Prerequisite:** PSY100H1/PSY100Y5/(PSYA01H3 + PSYA02H3), and

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and 0.5 PSY credit at the 200-level

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY408H1 - Special Topics in Psychology

**Hours:** 36L

A lecture course providing in-depth examination of specific topics/themes relating to Psychology. Content in any given year depends on instructor. Priority is given to PSY Major program students during the first enrolment period.

**Prerequisite:** PSY100H1/PSY100Y5/(PSYA01H3 + PSYA02H3), and

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and 0.5 PSY credit at the 200-level

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY409H1 - Research Specialization: Theoretical Foundations

**Hours:** 24S

Addresses the central theoretical issues that structure contemporary research in each of the major areas of psychology. The aim is to provide an informal overview of the field as a whole. Enrolment is restricted to PSY Research Specialists.

**Prerequisite:** Enrolment in the PSY Research Specialist program, and PSY309H1, and one of PSY319H1/PSY329H1/PSY339H1/PSY349H1/PSY359H1/PSY369H1/PSY379H1/PSY389H1

**Corequisite:** PSY400Y1

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY410H1 - Developmental Psychology Seminar

**Hours:** 24S

Examination in depth of a limited topic within developmental psychology. Content in any given year depends on instructor. Course capacity is limited to 20 students and enrolment priority is given to PSY Specialists and Research Specialists.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and PSY210H1/PSY210H5/PSYB20H3

**Exclusion:** PSY410H5/PSYD20H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY414H1 - Moral Development

**Hours:** 36L

Lecture courses examining cognitive-developmental, psychoanalytic, sociobiological, behaviouristic and cultural-anthropological approaches to moral development. Issues covered include definitions of morality, the relationship between moral judgement and action, gender differences and commonalities, and the role of culture in moral development.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and

PSY210H1/PSY210H5/PSYB20H3

**Exclusion:** PSYD14H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY417H1 - Aging and Social Cognition

**Hours:** 36L

Lecture course examining theory and research on the social cognitive aspect of aging. Topics range from impression formation and causal attributions to perceptions of control and emotions.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and

PSY210H1/PSY210H5/PSYB20H3

**Exclusion:** PSY415H5/PSYC13H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY420H1 - Social Psychology Seminar

**Hours:** 24S

Examination in depth of a limited topic within social psychology. Content in any given year depends on instructor. Course capacity is limited to 20 students and enrolment priority is given to PSY Specialists and Research Specialists.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Exclusion:**

PSY420H5/PSYD12H3/PSYD15H3/PSYD16H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY421H1 - Person Perception

**Hours:** 36L

This lecture course discusses how we perceive, categorize, and form impressions of other people, relying on readings from primary sources in the scientific literature.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and

PSY220H1/PSY220H5/PSYB10H3/SOC213H1, and

PSY270H1/PSY270H5/PSYB57H3/COG250Y1 or

PSY280H1/PSY280H5/PSYB51H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY424H1 - Social Psychology of Interpersonal Relationships

**Hours:** 36L

This lecture course focuses on the social psychology of interpersonal relationships between individuals, especially romantic or close relationships and friendships. It surveys what social psychologists have learned about the development, maintenance, disruption or dissolution of personal relationships, as well as current social psychological theories of interpersonal relationships.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and

PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Exclusion:** PSY327H5/PSYD11H3

**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour  
 (2)

## PSY425H1 - Self-Consciousness

**Hours:** 36L

The distinguishing feature of our species is the reflexivity of our consciousness -- the ability to conceive of and interpret ourselves and our experiences. For us, consciousness involves self-consciousness. All our higher symbolic capabilities rest upon this foundation. The aim of this lecture course is to trace out a variety of frames through which we can examine and understand the shared aspects of our subjectivity as self-conscious agents. Using a multidisciplinary approach that draws together ideas and insights from psychology, sociology, philosophy, anthropology, and biology, the course is designed to foster articulacy and critical acumen in how we think about reflexive experience.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Exclusion:** PSY325H5

**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour  
 (2)

## PSY426H1 - Motivational Theories in Social Psychology

**Hours:** 36L

With intensive reading and discussion of 'classic' and contemporary articles, this advanced lecture course in social psychology focuses on the central issues, methods, and findings in the study of motivation. Topics include self-regulation, achievement, and reward/punishment.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour  
 (2)

## PSY427H1 - Media Psychology

**Hours:** 36L

This course in *critical media literacy* examines how we come to understand ourselves and our world, and learn to feel, evaluate, and act, through the simulative mediation of information and communication technologies. The aim is to provide students with a deeper understanding of the dynamic symbolic environment that surrounds them and in which they participate as both audience and producer. The approach is multidisciplinary, drawing not only from psychology but a broad range of influential perspectives in the social sciences and humanities. The topics explored reveal how developments in the world of media are central to understanding changing forms of public and private life in the 21st century.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour  
 (2)

## PSY428H1 - Critical Psychology

**Hours:** 36L

This course examines the place of psychology in broader society and culture. What are the consequences of our research and professional practices for how we understand and govern ourselves and others? What is the basis and extent of our authority and power to describe, define, and explain human behaviour and experience? How do our values direct our activities and interpretations as psychologists? How can we critically evaluate the assumptions, commitments, and achievements of our discipline in relation to real or imagined alternatives?

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and  
PSY220H1/PSY220H5/PSYB10H3/SOC213H1

**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour  
 (2)

## PSY430H1 - Personality Seminar

**Hours:** 24S

Examination in depth of a limited topic within the area of personality. Content in any given year depends on instructor. Course capacity is limited to 20 students and enrolment priority is given to PSY Specialists and Research Specialists.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and PSY230H1/PSY230H5/PSYB30H3 or PSY240H1/PSY240H5/PSYB32H3

**Exclusion:** PSY430H5/PSYD30H3/PSYD32H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY434H1 - Maps of Meaning: The Architecture of Belief

**Hours:** 36L

This lecture course is based on the book Maps of Meaning: The Architecture of Belief. Maps of Meaning lays bare the grammar of mythology, and describes the relevance of that grammar for interpretation of narrative and religion, comprehension of ideological identification, and understanding of the role that individual choice plays in the maintenance, transformation and destiny of social systems.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and

PSY230H1/PSY230H5/PSYB30H3 or PSY240H1/PSY240H5/PSYB32H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY435H1 - Environmental Psychology

**Hours:** 36L

This lecture course explores how psychologists can contribute to finding solutions to today's pressing environmental challenges. Topics include persuasion, community-based social marketing, social influence, social capital, and the many ways in which the physical environment affects psychological processes. The course takes a multi-scalar approach to the human-environment relationship, covering individual, community, cultural and global levels of scale, through the lens of complex dynamic systems theories.

**Prerequisite:** PSY100H1/PSY100Y5/(PSYA01H3 + PSYA02H3), and PSY220H1/PSY220H5/PSYB10H3/SOC213H1, OR registered in an Environmental Studies/Science program

**Recommended Preparation:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY440H1 - Abnormal Psychology Seminar

**Hours:** 24S

Examination in depth of a limited topic within abnormal psychology. Content in any given year depends on instructor. Course capacity is limited to 20 students and enrolment priority is given to PSY Specialists and Research Specialists.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and PSY230H1/PSY230H5/PSYB30H3 or PSY240H1/PSY240H5/PSYB32H3

**Exclusion:** PSY440H5/PSYD33H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY450H1 - History of Psychology

**Hours:** 36L

This lecture course discusses the philosophical predecessors and early development of modern psychology, schools of thought, and shifts in areas of theory and research, as well as history and philosophy of science, in general.

**Prerequisite:** 1.0 PSY credit at the 200-level

**Exclusion:** PSYC85H3

**Distribution Requirements:** Science

**Breadth Requirements:** Society and its Institutions (3)

## PSY460H1 - Seminar in Learning

**Hours:** 24S

Examination in depth of a limited topic in human or animal learning. Content in any given year depends on instructor.

Course capacity is limited to 20 students and enrolment priority is given to PSY Specialists and Research Specialists.

**Prerequisite:** [PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3](#), and [PSY260H1/PSYB38H3](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Living Things and Their Environment (4)

## PSY470H1 - Seminar in Human Memory

**Hours:** 24S

Examination in depth of a limited topic within the area of memory. Content in any given year depends on instructor. Course capacity is limited to 20 students and enrolment priority is given to PSY Specialists and Research Specialists.

**Prerequisite:** [PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3](#), and [PSY270H1/PSY270H5/PSYB57H3/COG250Y1](#)  
**Exclusion:** PSYD50H3  
**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## JLP471H1 - Advanced Psycholinguistics

**Hours:** 24S

Seminar in advanced topics in psycholinguistics. Content varies from year to year. (Sponsored by the Departments of Linguistics and Psychology, but administered solely by the Dept. of Linguistics).

**Prerequisite:** [JLP374H1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY471H1 - Seminar in Cognition

**Hours:** 24S

An in-depth examination of current research and selected topics in cognitive psychology. Content in any given year depends on the instructor. Course capacity is limited to 20 students and enrolment priority is given to PSY Specialists and Research Specialists. There may be additional prerequisites based on the seminar topic given.

### **Prerequisite:**

[PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3](#), and [PSY270H1/PSY270H5/PSYB57H3/COG250Y1](#)

**Exclusion:** PSY471H5/PSYD50H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY473H1 - Social Cognitive Neuroscience

**Hours:** 36L

Social cognitive neuroscience is an emerging interdisciplinary field that seeks to integrate theories of social psychology and cognitive neuroscience to understand behaviour at three fundamentally interrelated levels of analysis (social, cognitive, and neural). Topics such as self-regulation, cooperation, decision-making, emotion, morality, and prejudice will be examined in this lecture course.

### **Prerequisite:**

[PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3](#), and [PSY270H1/PSY270H5/PSYB57H3/COG250Y1](#) or [PSY290H1/PSY290H5/PSYB64H3/HMB200H1/PSL300H1](#)

**Exclusion:** PSY353H5/PSYD17H3

**Recommended Preparation:**

[PSY220H1/PSY220H5/PSYB10H3/SOC213H1, PSY326H1](#)

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY474H1 - Computation in Psychology

**Hours:** 36L

This lecture course surveys computational perspectives on the mind and brain and introduces computational tools for connecting psychological and neural data to theory. Topics may include neural networks, probabilistic models, pattern recognition, and other techniques applicable to psychological research and general analysis. Basic familiarity with programming is recommended but not required.

### **Prerequisite:**

[PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3](#)

**Distribution Requirements:** Science

**Breadth Requirements:** The Physical and Mathematical Universes (5)

## PSY475H1 - Attention and Performance

**Hours:** 36L

This lecture course discusses a range of topics in visual cognition and human performance. Topics covered may include attention, working memory, spatial cognition, the processing of features and objects, and cognitive motor control in eye and limb movements.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY270H1/PSY270H5/PSYB57H3/COG250Y1 or PSY280H1/PSY280H5/PSYB51H3

**Exclusion:** PSYC52H3

**Distribution Requirements:** Science

**Breadth Requirements:** Thought, Belief and Behaviour (2)

## PSY480H1 - Seminar in Perception

**Hours:** 24S

An in-depth examination of current issues in perception (e.g. perceptual organization, object and face recognition, motion perception). Emphasis is on the psychological perspective, but integrates physiological and computational perspectives as well. Content in any given year depends on instructor. Course capacity is limited to 20 students and enrolment priority is given to PSY Specialists and Research Specialists.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and PSY280H1/PSY280H5/PSYB51H3

**Exclusion:** PSY480H5/PSYD51H3

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY490H1 - Seminar in Behavioural Neuroscience

**Hours:** 24S

An in-depth examination of current issues in behavioural neuroscience (e.g. activity of neurons, sensory, motor, motivational, and higher cortical systems.). Content in any

given year depends on instructor. Course capacity is limited to 20 students and enrolment priority is given to PSY Specialists and Research Specialists.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and PSY290H1/PSY290H5/PSYB64H3/HMB200H1/PSL300H1

**Exclusion:** PSY490H5/PSYD66H3

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY492H1 - Neurobiology of Learning and Memory

**Hours:** 36L

Understanding the complexities of how the mammalian nervous system acquires and stores information and how it transforms this information into appropriate behavior is fundamentally important to our understanding of both animal and human behavior. This lecture course explores empirical and theoretical contributions to our understanding of the neural basis of learning and memory.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY260H1/PSYB38H3 or PSY290H1/PSY290H5/PSYB64H3/HMB200H1/PSL300H1

**Distribution Requirements:** Science

**Breadth Requirements:** Living Things and Their Environment (4)

## PSY493H1 - Cognitive Neuroscience

**Hours:** 36L

This is a capstone lecture course surveying research on how the mind arises from the brain. The first objective of the course is to understand how processes in human brains (ranging from the firing of a single neuron to the dynamics of billions) support cognitive abilities (such as recognizing a face, remembering a birthday from childhood, understanding the words in a spoken lecture, or planning a route home from class). The second objective of the course is to understand the methods of contemporary cognitive neuroscience research, to enable students to read primary literature and to understand ongoing debates.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY260H1/PSYB38H3 or PSY270H1/PSY270H5/PSYB57H3/COG250Y1 or PSY290H1/PSY290H5/PSYB64H3/HMB200H1/PSL300H

1

**Exclusion:** PSYB55H3**Distribution Requirements:** Science**Breadth Requirements:** Living Things and Their Environment (4)**PSY494H1 - Physiology and Psychology of Emotion****Hours:** 36L

This lecture course discusses the role of brain and body in the expression and experience of emotion in humans considered through the experimental, physiological, theoretical, and clinical literatures.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY260H1/PSYB38H3 or PSY270H1/PSY270H5/PSYB57H3/COG250Y1 or PSY290H1/PSY290H5/PSYB64H3/HMB200H1/PSL300H

1

**Exclusion:** PSYC18H3**Distribution Requirements:** Science**Breadth Requirements:** Living Things and Their Environment (4)**PSY495H1 - Sex and the Brain****Hours:** 36L

This lecture course explores the scientific literature underlying the concept that female/male, gay/straight, and transgendered behaviours are based on brain differences. Original scientific papers will be read in close detail for design and interpretation of the experiments. The goal is to gain an understanding of the science and psychology underlying sex/gender, popular conceptions of sex, and the sexual brain. Topics include: the making of sex, hormone action, brain-based sexual behaviours, sex and cognition, and sex and sexuality/gender identification.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY290H1/PSY290H5/PSYB64H3/HMB200H1/PSL300H

1

**Exclusion:** PSY354H5/PSY395H5**Distribution Requirements:** Science**Breadth Requirements:** Thought, Belief and Behaviour (2)**PSY496H1 - Cognitive Dysfunction in Neurological Disorders****Hours:** 36L

This lecture course provides an in-depth examination of the cognitive dysfunction found in neurological disorders, including Alzheimer's Disease, Parkinson's Disease, and Schizophrenia. The course focuses on how cognitive impairments relate to neuropsychological models of the specific disease (specifically how these models provide insights into the biological mechanisms underlying the cognitive symptoms) and cognition, more broadly.

**Prerequisite:**

PSY201H1/ECO220Y1/EEB225H1/GGR270H1/POL222H1/SOC202H1/STA220H1/STA238H1/STA248H1/STA288H1/PSY201H5/STA215H5/STA220H5/PSYB07H3/STAB22H3/STAB23H3/STAB57H3, and PSY270H1/PSY270H5/PSYB57H3/COG250Y1 or PSY290H1/PSY290H5/PSYB64H3/HMB200H1/PSL300H

1

**Distribution Requirements:** Science**Breadth Requirements:** Living Things and Their Environment (4)**PSY497H1 - Seminar in Biological Timing****Hours:** 24S

This is an advanced seminar course that examines the mechanisms and significance of timing and timekeeping at several levels of organization in living organisms. Topics include the roles of clocks and oscillations in physiology and behaviour, and the importance of timing in sensorimotor integration, memory, decision making, and health. Course capacity is limited to 20 students and enrolment priority is given to PSY Specialists and Research Specialists.

**Prerequisite:**

PSY202H1/ECO220Y1/SOC252H1/STA221H1/PSY202H5/STA221H5/PSYC08H3/STAB27H3/STAC32H3, and PSY290H1/PSY290H5/PSYB64H3/HMB200H1/PSL300H

# Public Health Sciences

## Offered by the Dalla Lana School of Public Health

### Introduction

#### Faculty List

##### Professor and Dean of the School

H. Hu, MD MPH ScD

##### Professors

L.M. Calzavara, Ph D, MA

P. Corey, Ph D

M. Escobar, Ph D

J. Stafford, Ph D

##### Associate Professors

D. Allman, PhD

P.E. Brown, PhD

G. Einstein, MA, Ph D

B.J. Harvey, MD, Ph D, MEd

B. Poland, Ph D

J. Scott, Ph D

P. Selby, MBBS, MHSc

R. Summerbell, Ph D

##### Assistant Professors

P. Kaufman, PhD

K. Urbanoski, PhD

Public health is the science and art of preventing disease and promoting health through organized population-based efforts. The focus of public health is to prevent rather than treat disease and to positively affect determinants of health through a wide range of strategies, including the surveillance and assessment of population health and the promotion of healthy behaviours, healthy environments and healthy public policies. In addition to these activities, the identification and treatment of those with disease may be vital to preventing it in others, such as during an outbreak of an infectious disease. Hand washing, vaccination programs, the inspection of restaurants, laws banning smoking in public places and tax credits for childhood physical activity programs are examples of public health measures. Public health includes sub-disciplines such as epidemiology, biostatistics, occupational and environmental health, public health policy, and social and behavioural health sciences.

Associate Dean, Academic Affairs: Professor Dionne Gesink, [adaa.dlsph@utoronto.ca](mailto:adaa.dlsph@utoronto.ca)

## Public Health Sciences Courses

### PHS100H1 - Discovering Global Health

**Hours:** 24L/24T

This course introduces students to basic public health-related concepts, significant aspects of the historical development of global health, and a selection of topics illustrating the broad and evolving nature of this field. In addition, it helps students explore the contributions that various disciplines/fields offer to global health.

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### HST211H1 - Health Policy in Canada

**Previous Course Number:** UNI211H1

**Hours:** 24L

Introduces students to health policy in Canada, with a particular focus on the social determinants of health, and on how to improve health through policy advocacy. Examines the policy making process in the Canadian context, and the development of health policy in Canada. Explores current debates about health issues.

**Exclusion:** UNI211H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

### PHS300H1 - HIV Prevention Research

**Hours:** 24L

This course examines HIV prevention research across the full spectrum of sciences concerned with prevention of HIV and sexual health, including basic science, clinical science, epidemiology, behavioural science, social science, and legal, policy, economic analysis, and cultural theory. Examples are borrowed from efforts across the globe.

The course highlights prevention research related to key populations at risk of HIV infection and transmission. The course focuses on challenges and issues, with the goal of stimulating critical thinking and engagement with topics. Some material will be presented by Guest Lecturers who are experts in the areas, allowing students to learn from and interact with these experts and to hear about their current research as well as their career paths.

It is expected that at the end of this course students will have an advanced appreciation of the history and future and underlying values and ethics of effective HIV prevention research, including future possibilities and challenges. One ancillary aim is to encourage students to compare and contrast HIV Prevention with prevention research in adjacent areas (e.g., HCV, HPV).

**Recommended Preparation:** [STA220H1](#) or equivalent  
**Distribution Requirements:** Science, Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## HMB342H1 - Epidemiology of Health & Disease

**Hours:** 24L/12T

This course engages students in the fundamental science of epidemiology applied to health and disease. After an introduction to various measures of health and disease, the scientific methods used to investigate, analyze, prevent and control health problems will be illustrated using social, biomedical and public health examples

**Prerequisite:** 9.0 credits complete, ([BIO120H1](#), [BIO130H1](#))/[HST209H1](#)  
**Exclusion:** [HST373H1](#)  
**Recommended Preparation:** [STA220H1](#)/ [STA288H1](#)/  
[EEB225H1](#)/ [PSY201H1](#)  
**Distribution Requirements:** Science  
**Breadth Requirements:** The Physical and Mathematical Universes (5)

## HST405H1 - Global Migration and Health

**Previous Course Number:** HST307H1  
**Hours:** 24L

Over the past decades, economic globalization, widening socio-economic inequities, conflict, natural disasters, environmental degradation, and, more recently, climate change have combined to become increasingly significant forces shaping global migration fluxes. This course analyzes the impact of migration on the health of those who move and of individuals, communities and entire societies in countries of origin, transit, arrival, and resettlement. It adopts an interdisciplinary approach,

incorporating scholarly work from the fields of public health, the social sciences, law, and human rights.

**Prerequisite:** [HST209H1](#)  
**Exclusion:** [HST307H1](#) (Special Topics in Health Studies I: Globalization, Migration and Health), offered in Winter 2017, Winter 2018, and Winter 2019  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## HST410H1 - Case Studies in Health Policy

**Previous Course Number:** UNI408H1  
**Hours:** 36S

Analyses the formation and implementation of health policy through the use of case studies. Each case deals with a substantive health policy issue. Using case studies, students will learn to understand and analyze the processes by which public policies are formed, and perform comparisons of policy alternatives.

**Prerequisite:** [HST211H1](#)  
**Exclusion:** [UNI408H1](#), [HST408H1](#)  
**Recommended Preparation:** [HST310H1](#)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## GGR433H1 - Built Environment and Health

**Hours:** 36S

Linking across fields that include public health, geography and planning, this course examines the growing evidence and ways in which human health is affected by the design and development of the built environment in which we live, work and play. The course considers how various planning and development decisions impact population and individual health, particularly in relation to chronic diseases, injuries, and mental health. Potential field trip, transportation cost: \$20.

**Prerequisite:** 10.0 credits  
**Exclusion:** [GGR400H1](#) (Special Topics in Geography I: Built Environments & Health), offered in Winter 2013  
**Recommended Preparation:** 1.0 credit in Geography (SOC SCI/BR=3)  
**Distribution Requirements:** Social Science  
**Breadth Requirements:** Society and its Institutions (3)

## **GGR434H1 - Building Community Resilience**

**Hours:** 36S

Examines concepts of resilience as a way of building the capacity of communities to (a) respond to predicted disruptions/shocks associated with climate change, global pandemics, anticipated disruptions in global food supply, energy insecurity, and environmental degradation; and (b) nurture the development of alternative spaces that support the emergence of more life-sustaining structures and practices. Includes explicit attention to equity and public health, and explores issues such as: participatory governance of social-ecological systems, the nature of social change, complexity science, the role of social movements, indigenous and political ecology perspectives.

**Prerequisite:** 10.0 credits

**Exclusion:** GGR400H1 (2011-12)

**Recommended Preparation:** 1.0 credit in Geography

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

# Public Policy

## Introduction

Solving real-world policy challenges requires the use of multi-disciplinary tools to analyze problems, determine the best means to deal with those problems, and decide on the best course of action. An undergraduate Major in Public Policy provides a unique opportunity for students in Social Science disciplines to think in an interdisciplinary way, by drawing on theories and approaches, as well as tool kits developed in the core disciplines of Economics and Political Science, and beyond. Students in this program develop theoretical and applied reasoning skills in policy analysis, as well as a solid grounding in quantitative methods and research.

## Regarding Public Policy Programs

The Major program in Public Policy is offered jointly by the Munk School of Global Affairs and Public Policy, the Department of Economics, and the Department of Political Science. Students may enroll after their first- or second-year of undergraduate studies, and must meet the prerequisite conditions for all second-year and higher courses.

The Program Director and Program Assistant are available for consultation. For enquiries or an appointment call the Undergraduate Administrator, Petra Jory at 416-978-5402 or send an e-mail to [p.jory@utoronto.ca](mailto:p.jory@utoronto.ca).

## Public Policy Programs

### Major in Public Policy (Arts Program) - ASMAJ2660

The Major in Public Policy is offered jointly by the Munk School of Global Affairs & Public Policy, the Department of Economics, and the Department of Political Science. Students enroll after first year, and must meet the prerequisite conditions for all second-year and higher courses.

#### Enrolment Requirements:

This is a limited enrolment program. Students must have completed 4.0 credits and meet the requirements listed below to enrol.

#### Variable Minimum Grade

A minimum grade/minimum grade average in required courses is needed for entry, and this minimum changes each year depending on available spaces and the number of applicants. The following courses must be completed:

ECO101H1 & ECO102H1 (with an average final mark of at least 67%) or ECO105Y1 (with a final mark of at least 80%), and

One of the following four options (1.0 credit):

- POL101Y1, or 1.0 credit from POL101H1, POL106H1, POL107H1 or POL109H1, with a grade of 67% in each course
- 1.0 credit from Munk One courses ( MUN105Y1, MUN101H1, MUN102H1), with a grade of 75% in each course
- 1.0 credit from Trinity One Public Policy courses ( TRN160Y1 or TRN161Y1) with a grade of 75%
- 1.0 credit from Vic One Pearson policy stream courses ( VIC181H1, VIC183H1, VIC184H1 or VIC185H1) with a grade of 75% in each course

To ensure that students admitted to the program will be prepared, applicants with a final grade lower than the minimum grades stated above will not be considered for admission. Please note that obtaining this minimum final grade does not guarantee admission to the program.

#### Notes:

- Students entering from Munk One/Trinity One/Vic One course options will be ineligible to take upper year POL courses until they have completed POL214Y1 or ( POL218H1, POL219H1)
- Students expecting to choose ECO courses in their second year or higher must complete MAT133Y1 or the combination of MAT135H1 and MAT136H1 in their first year, to meet required prerequisites for ECO courses. If MAT133Y1 or ( MAT135H1, MAT136H1) is not taken, students will not be eligible to enrol in 200+-level ECO courses, and must take PPG200H1 to fulfil program requirements in lieu of ECO200Y1/ECO204Y1/ECO206Y1.

#### Completion Requirements:

(7.5 credits)

First Year:

1. One of the following four options (1.0 credit):
  - POL101Y1, or 1.0 credit from POL101H1, POL106H1, POL107H1 or POL109H1, with a grade of 67% in each course

- 1.0 credit from Munk One courses ( MUN105Y1, MUN101H1, MUN102H1), with a grade of 75% in each course
  - 1.0 credit from Trinity One Public Policy courses ( TRN160Y1 or TRN161Y1) with a grade of 75%
  - 1.0 credit from Vic One Pearson policy stream courses ( VIC181H1, VIC183H1, VIC184H1 or VIC185H1) with a grade of 75% in each course
2. ECO100Y1 or ECO101H1 & ECO102H1 (with a combined average of at least 67%) or ECO105Y1 (with a final mark of at least 80%).
  3. Students expecting to choose ECO courses in their second year or higher must complete MAT133Y1 or the combination of MAT135H1 and MAT136H1 in their first year, to meet required prerequisites for ECO courses. If MAT133Y1 or ( MAT135H1, MAT136H1) is not taken, students will not be eligible to enrol in 200+-level ECO courses, and must take PPG200H1 to fulfil program requirements in lieu of ECO200Y1/ECO204Y1/ECO206Y1.

- 1.0 credit from POL201H1, JPI201H1, POL214H1, POL223H1, POL224H1, of which at least 0.5 credit must be POL214H1 or POL224H1.
- POL218H1 and POL219H1

Third and Fourth Years:

1. PPG301H1
2. PPG401H1
3. Remaining courses to reach the 7.5 credits will be drawn from 300+-level drawn from Economics, Political Science, Sociology, or related disciplines.

A non-exhaustive list of eligible courses includes:

Economics:

ECO313H1/ ECO314H1/ ECO320H1/ ECO324Y1/  
ECO331H1/ ECO333H1/ ECO334H1/ ECO336Y1/  
ECO339Y1/ ECO349H1/ ECO364H1/ ECO365H1/  
ECO369H1/ ECO402H1/ ECO403H1/ ECO407H1/  
ECO410H1/ ECO414H1/ ECO416H1/ ECO425H1/  
ECO426H1/ ECO434H1/ ECO439H1

Political Science:

POL301H1/ POL302H1/ POL305H1/ POL306H1/  
POL307H1/ POL308H1/ POL309H1/ POL312Y1/  
POL312H1/ POL313H1/ POL314Y1/ POL315H1/  
POL316Y1/ POL316H1/ POL317Y1/ POL318H1/  
POL321H1/ POL325H1/ POL326H1/ POL327H1/  
POL328H1/ JPA331H1/ POL332Y1/ POL334H1/  
POL336H1/ POL337Y1/ POL337H1/ POL340H1/  
POL341H1/ POL344H1/ POL347H1/ POL351Y1/  
POL353H1/ POL356Y1/ POL357H1/ POL358H1/  
POL359H1/ JPR364H1/ POL370H1/ POL371H1/  
POL377H1/ POL386H1/ POL405H1/ POL408H1/  
POL409H1/ POL411H1/ POL413H1/ JPJ412H1/  
POL417H1/ POL418H1/ POL423H1/ POL425Y1/  
POL431H1/ POL439H1/ POL447Y1/ POL448H1/  
POL450H1/ JPA453H1/ JPF455Y1/ JPF455H1/  
JPF456H1/ POL456H1/ JPR457H1/ POL457Y1/  
POL458H1/ POL459H1/ POL463H1/ POL474H1/  
POL475H1/ POL480Y1/ POL481Y1/ POL482H1

Second Year:

1. ECO200Y1/ ECO204Y1/ ECO206Y1/ PPG200H1
2. Students expecting to choose ECO courses in their second year or higher must complete MAT133Y1 or the combination of MAT135H1 and MAT136H1 in their first year, to meet required prerequisites for ECO courses. If MAT133Y1 or ( MAT135H1, MAT136H1) is not taken, students will not be eligible to enrol in 200+-level ECO courses, and must take PPG200H1 to fulfil program requirements in lieu of ECO200Y1/ECO204Y1/ECO206Y1.
3. 1.0 credit from ECO220Y1, ( POL222H1+POL232H1), SOC202H1, STA220H1, STA221H1, STA248H1, STA255H1, STA261H1
4. One of the following three options (1.0 credit):
  - POL214Y1

With the approval of the program director, students can take public policy oriented courses outside this list.

demonstrate how this foundation can be applied to design, predict the effects of and evaluate public policies.

Students will be equipped to understand the main issues on a range of policy topics such as taxation, social insurance, welfare and income support programs.

**Prerequisite:** ECO100Y1 / ECO101H1& ECO102H1 / ECO105Y1

**Exclusion:** ECO200Y1, ECO204Y1, ECO206Y1

**Recommended Preparation:** POL101Y1

**Breadth Requirements:** Society and its Institutions (3)

## Public Policy Courses

### PPG200H1 - Microeconomics for Policy Analysis

Hours: 24L

The objectives are: (1) To provide students with a foundation in microeconomic analysis and; (2) To

## PPG301H1 - Introduction to Public Policy

**Hours:** 24L

The course introduces students to the study of public policy, the policy process and our policy institutions in Canada. The course examines how issues emerge, how important ideas are framed, priorities are established, and agendas are set and managed. It explores how institutions – formal and informal rules which enable and constrain actors – shape policy-making in Canada.

**Prerequisite:**

(ECO200Y1/ECO204Y1/ECO206Y1/PPG200H1), (ECO220Y1/POL242Y1/SOC202H1/STA220H1/STA221H1/STA248H1/STA255H1/STA261H1), POL214Y1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## PPG401H1 - The Role of Government

**Hours:** 24L

This course explores the government's role in promoting efficiency and equity in both the financing and delivery of public policy goals. It explores the conditions when government involvement is important, the policy levers available to government in promoting social policy, market failures, and conditions for efficiency. It examines the role of government in many of the major areas of social policy such as health care, education, redistribution, the environment, financial regulations and other important issues.

**Corequisite:** PPG301H1

**Recommended Preparation:**

ECO200Y1/ECO204Y1/ECO206Y1/PPG200H1

**Distribution Requirements:** Social Science

**Breadth Requirements:** Society and its Institutions (3)

## The Study of Religion

As an intellectual inquiry into a key dimension of human experience, the study of religion enables students to grasp a crucially important aspect of the cultures of the world and the interactions among them. We look at the development of religious beliefs, practices, and doctrines as they intersect with the history of peoples, societies, and cultures right up to the contemporary world. The study of religion also prepares students for a wide range of careers, such as social work, law, politics from the local to the international level, teaching, medicine, or leadership in religious organizations. Combined with appropriate language preparation, it can also open out into graduate work leading to the M.A. and Ph.D. in the growing number of universities offering advanced graduate degrees in the field, and in our University's own Graduate programs.

Historically, the academic study of religion has taken a variety of forms, each with its own rationale. The Department identifies itself with a model in which the major religious traditions (e.g., Buddhism, Christianity, Hinduism, Islam, Judaism) are studied within an explicitly comparative frame. We employ and encourage a variety of approaches (e.g., historical, textual, linguistic, social scientific) without sacrificing specialized skills and training. The diversity that characterizes this model is reflected in the variety of courses offered or cross-listed by the Department, and by the wide range of training and expertise of our faculty.

Information about programs, courses, including a number of cross-listed courses offered by Colleges or departments such as East Asian Studies, History, Near and Middle Eastern Civilizations, Philosophy, and Sociology can be found on the Department's [website](#). Students aiming to complete any RLG program should consult the

Undergraduate Administrator at least once a year for assistance in selecting courses that address the student's interests and fulfill the programs requirements.

Undergraduate Administrative Assistant: Jackman Humanities Building, Room 310 (416-978-2395)

Enquiries: Jackman Humanities Building (416-978-2395)

## Religion Programs

### Buddhist Studies Specialist (Arts Program) - ASSPE1525

#### Enrolment Requirements:

This is an open enrolment program. A student who has completed 4.0 credits may enrol in the program.

#### Completion Requirements:

(10.0 credits)

- 1.0 RLG credit at the 100-level chosen from courses offered at the St. George campus
- No later than the third year of study: [RLG200H1](#). [RLG200H1](#) is a prerequisite for all 400-level courses.
- [RLG206H1](#)
- 0.5 credit from [RLG209H1/ RLG211H1/ RLG212H1/ RLG213H1](#)
